

# ARTS - ASSOCIATE OF ARTS

## NMSU Alamogordo 2024-2025 Catalog

Since approximately half of the requirements for the Associate of Arts are met with elective courses, it is recommended that students plan these electives to meet other requirements for their bachelor's degree, such as the second language requirement or specific requirements within the major.

**A grade of C- or better is required in each course that fulfills the General Education Requirements.**

## Total Credits Required for Degree: 60

Students must complete all University degree requirements, which include: General Education requirements and elective credits to total at least 60 credits. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

<sup>1</sup> See the General Education Section (<https://catalogs.nmsu.edu/alamogordo/general-information/general-education-new-mexico-common-core/>) of the catalog for a full list of courses.

<sup>2</sup> Student's subsequent transfer degree major should guide the selection of the math course.

<sup>3</sup> A Mathematics course is required for the degree but students may need to take prerequisites first.

<sup>4</sup> See your advisor for exact number of second language credits your selected major may require. Almost all College of Arts and Sciences majors required at least two semesters of a language; some require four semesters. New Mexico State University recommends that students take their language requirements as soon as possible and in sequence. For detailed language requirements, see your advisor or the College of Arts and Sciences (<https://catalogs.nmsu.edu/nmsu/arts-sciences/>) section of the NMSU catalog.

<sup>5</sup> Elective credit may vary based on General Education course selection, second language requirements, prerequisites, dual credit, AP credit, double majors and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 60 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
