INFORMATION AND COMMUNICATION TECHNOLOGY (NETWORK TECHNOLOGIES) -BACHELOR OF INFORMATION AND COMMUNICATION TECHNOLOGY (ONLINE)

(120 credits)

The Bachelor of Information and Communication Technology (ICT) (https://et.nmsu.edu/academics%20/information-communicationtechnology.html) degree focuses on designing, implementing, and managing various information systems. The curriculum includes the fundamentals of operating systems, system integration, computer networking, software development, security, cloud technologies, and project management practices. Advanced Information Technology topics are also included and differently emphasized according to the selected degree concentration:

- No Concentration (https://catalogs.nmsu.edu/global/nmsu-global/ information-communication-technology-bict-online/) - provides the ability to choose from various advanced courses on Cyber Defense, Network Technologies, and Software Development topics.
- Cyber Defense Concentration (https://catalogs.nmsu.edu/global/ nmsu-global/information-communication-technology-cyber-defensebict-online/) - focused on cyber security and defense, including ethical hacking and digital forensics;
- Network Technologies Concentration (https://catalogs.nmsu.edu/ global/nmsu-global/information-communication-technology-networktechnologies-bict-online/) (this option) - focused on computer network design, configuration, and security;
- Software Development Concentration (https://catalogs.nmsu.edu/ global/nmsu-global/information-communication-technologysoftware-development-bict-online/) - focused on the design, application, deployment, and maintenance of software;

The ICT program is a distance education program and does not require on-campus visits. Students who are successful in distance education programs typically are self-motivated, do not rely heavily on face-to-face instruction, work independently, and can remain on schedule. Students must have familiarity with and access to:

- · a high-speed Internet connection,
- · a sound card, 12G of RAM minimum,
- · a microphone/Webcam,
- Microsoft Operating System 8.1 or newer and Office ®.

The ICT program is accredited under NMSU's umbrella accreditation by the Higher Learning Commission (https://accreditation.nmsu.edu/) of the North Central Association of Colleges and Schools. Students must complete all university degree requirements, including General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Requirements may be met with transfer credits from any previous program or institution.

1

Pathway: 4-year Bachelor's Degree

This pathway is designed with the traditional student in mind. Students have the flexibility to pursue the degree as a main campus student, or they may choose to complete the degree online.

- ¹ See the General Education (https://catalogs.nmsu.edu/nmsu/generaleducation-viewing-wider-world/#viewingawiderworldtext) section of the catalog for a complete list of courses. The number of credits provided assumes MATH 1220G College Algebra placement or higher.
- ² The ICT 350V Introduction to Personal Computer Security and Privacy course is part of the required curriculum for the ICT degree. It does not count towards the Viewing a Wider World (https:// catalogs.nmsu.edu/nmsu/general-education-viewing-wider-world/ #viewingawiderworldtext) Requirements (6 credits). Visit the c (https:// catalogs.nmsu.edu/nmsu/general-education-viewing-wider-world/ #viewingawiderworldtext)atalog's Viewing a Wider World (https:// catalogs.nmsu.edu/nmsu/general-education-viewing-wider-world/ #viewingawiderworldtext) section for a complete list of Viewing a Wider World (https://catalogs.nmsu.edu/nmsu/general-educationviewing-wider-world/#viewingawiderworldtext) Requirements. These courses will form part of the required 48 upper-level credit hours taken as part of the ICT program at NMSU.
- ³ The **provided selection of Technical Electives** will lead to an ICT concentration on **Network Technologies**, one of the three concentration options. See the NMSU Catalog for information on other concentration options. Concentrations are *optional* educational sequences that students may choose to focus on in IT-related areas. A Technical Electives pre-approved list for each concentration is provided in this catalog.
- ⁴ Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, or minor coursework. The amount indicated in the requirements list is needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may need to complete more or less on a case-by-case basis, and students should discuss elective requirements with their academic advisor.

Pathway: 2+2 Bachelor's Completion Degree

A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 1220G College Algebra. The contents and order of this roadmap may vary depending on initial student placement in mathematics and previous English coursework that was transferred in. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.
