

ARTS - ASSOCIATE OF ARTS

The Associate of Arts in Arts serves as a solid foundation for those who wish to pursue further studies in the arts or related fields. Graduates may transfer to four-year institutions to pursue a bachelor's degree in fine arts, art history, or other related disciplines. Students should take courses at this level that fit into the bachelor's degree program of their interest. Alternatively, the program equips students with creative and critical skills that are valuable in various professional settings, including roles in education, arts administration, and cultural organizations.
