## DRAFTING AND GRAPHICS TECHNOLOGY - CERTIFICATE OF COMPLETION

The Drafting & Graphics Technology Program with Computer-Aided Design (CAD) is a comprehensive educational initiative designed to equip students with the essential skills and knowledge required for a successful career in the dynamic fields of drafting, design, and graphics. This program integrates traditional drafting principles with cutting-edge CAD technology to empower students with the tools needed to thrive in industries such as architecture, engineering, manufacturing, and more.

## 30 credits

This program provides students with the education and experience needed to pursue an entry-level drafting or computer graphics position. The program includes Architectural, Civil, Mechanical and Electronics Drafting. Classes developing 3-D animated graphics used by architects, designers for simulation, lawyers for accident reconstruction, executives for presentations, and business for training videos are included.
