

# EARLY CHILDHOOD EDUCATION - ASSOCIATE IN EARLY CHILDHOOD EDUCATION

## 68 credits

The Early Childhood Education associate degree program is designed to prepare students to become highly qualified teachers, assistant teachers, or family day care providers in professional child-care for children ages birth through eight years. Students will gain a broad understanding of the specific needs of young children and develop strategies for meeting those needs. Students may choose to continue their education at any four-year institution in New Mexico. The NMSU Grants program includes the lower division courses required for entry into the Teacher Education Program (TEP), a baccalaureate program at New Mexico State University. Completion of this program does NOT guarantee admission into a Teacher Education Program at a four-year institution. Early in their second year of study at NMSU Grants, students should contact the four-year institution they have chosen to obtain application information.

## Requirements and Limitations

- Students in the Early Childhood Education Program are required to complete and pass a security background check in order to take practicum courses and field experiences. Practicum Courses ECED 2121 and 2131 require a Criminal Background Clearance in order to complete 60 hours of practicum per course. Past criminal violations may prevent a student from completing the degree and from being hired by school systems or other child care facilities upon graduation.
- Students must complete all technical requirement courses as well as the following courses with a grade of C or better:

Prefix	Title	Credits
CEPY 1120G	Human Growth and Behavior	3
ENGL 1110G	Composition I	4
ENGL 2221G	Writing in the Humanities and Social Science	3
MATH 1215	Intermediate Algebra	3
MATH 1134	Fundamentals of Elementary Mathematics I	3
MATH 2134G	Fundamentals of Elementary Math II	3

- Students must have a 2.0 GPA to graduate from this program. However, because a **2.75** GPA is required for acceptance into the Teacher Education Program at NMSU, it is highly recommended that Grants students complete the Early Childhood Education program with a 2.5 cumulative GPA.
- Any education course more than seven years old taken at NMSU, NMSU community colleges or other institutions will not be counted toward the student's baccalaureate program. It is highly recommended that students request a review of their cumulative coursework by the appropriate department at NMSU. The student must repeat any course not approved.
- Completion of all requirements does not guarantee acceptance in the NMSU Teacher Education Program. Please see the NMSU College of Education Advising Center for more information.

Students must complete all University degree requirements, which include: General Education requirements and elective credits to total at

least 68 credits. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.
