HORTICULTURE - MASTER OF SCIENCE

Prerequisite to major graduate work is completion of a curriculum essentially equivalent to that required by the department for the BS degree at New Mexico State University. Qualifications for admission will be reviewed by the departmental graduate faculty. Applications should include a letter of interest. A 3.0 undergraduate grade-point average is needed for admission to study for the MS degree. The department requires the GRE scores and three letters of recommendation, transcripts, as well as the student’s letter of interest as an admission requirement. Acceptance requires that a graduate faculty member in the applicant’s area of interest accept the student into their program.
