## COMPUTER SCIENCE - BACHELOR OF SCIENCE

The Bachelor of Science in Computer Science is the traditional undergraduate degree in Computer Science. It is rigorously focused on educating the student in the fundamental disciplines of Computer Science. It prepares the student for any technological field in industry, and also provides the preparation for graduate studies in Computer Science. It is the main undergraduate degree in the Computer Science department, and should be the choice of a single-major Computer Science student. This degree is accredited by the ABET Computing Accreditation Commission (CAC) under the General and Computer Science Program Criteria.

## General Requirements Exception

A grade of at least C- must be earned in each of the courses taken to satisfy the departmental and non-departmental requirements. No course may be counted as satisfying both a departmental and a non-departmental requirement. No course taken to satisfy either a departmental or a non-departmental requirement may be taken S/U.

## Requirements

Students who plan to seek employment immediately after the bachelor level should strongly consider taking one of the concentration area curricula in addition to the general and departmental requirements. An elective course cannot be used for more than two concentrations. A course that is required for one concentration cannot be used as an elective course of another one.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

General Education Requirement  Area I: Communications 1	4				
Area I: Communications <sup>1</sup>	4				
	4				
English Composition - Level 1 <sup>2</sup>					
English Composition - Level 2					
ENGL 2210G Professional and Technical Communication	3				
Oral Communication					
Choose one from the following:	3				
COMM 1115G Introduction to Communication					
COMM 1130G Public Speaking					
HNRS 2175G Introduction to Communication Honors					
Area II: Mathematics					
MATH 1511G Calculus and Analytic Geometry I <sup>3</sup>	4				
Area III/IV: Laboratory Sciences and Social/Behavioral Sciences	11				
Area III: Laboratory Sciences					
Choose two different courses from the following:					
ASTR 1115G Introduction to Astronomy Lecture & Laboratory					

	BIOL 2610G & BIOL 2610L	Principles of Biology: Biodiversity, Ecology, and Evolution	
	& DIOL 2010L	and Principles of Biology: Biodiversity, Ecology, and Evolution Laboratory

second L	anguage Keq	uirements: (not required)		

Electives, to bring the total credits to 120 7

Students who plan to seek employment immediately after the bachelor level should strongly consider taking one of the concentration area curricula in addition to the general and departmental requirements. <sup>8</sup>

Total Credits 88-120

- Students with Area I transfer credits may sometimes complete this requirement with 9 credits
- <sup>2</sup> See the General Education (https://catalogs.nmsu.edu/nmsu/general-education-viewing-wider-world/) section of the catalog for a full list of courses
- MATH 1511G Calculus and Analytic Geometry I and MATH 1521G Calculus and Analytic Geometry II are required for the degree but students may need to take any prerequisites needed to enter MATH 1511G or MATH 1521G first.
- See the Viewing a Wider World (https://catalogs.nmsu.edu/nmsu/ general-education-viewing-wider-world/#viewingawiderworldtext) section of the catalog for a full list of courses.
- <sup>5</sup> A course can satisfy only one requirement.
- <sup>6</sup> Must be taken for 3 credits to count as a course.
- Telective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

## **Second Language Requirement**

For the Bachelor of Science with a major in Computer Science (including all Concentration Areas), there is no second language requirement for the degree.
