## COMPUTER SCIENCE (SOFTWARE DEVELOPMENT) -BACHELOR OF SCIENCE

## A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 1511G Calculus and Analytic Geometry I and ENGL 1110G Composition I . The contents and order of this roadmap may vary depending on initial student placement in mathematics and english. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

| Freshman   |  | Credits |
|--|--|---------|
| CSCI 1720  | Computer Science I   | 4       |
| CSCI 2210  | Object-Oriented Programming  | 4       |
| CSCI 2230  | Assembly Language and Machine Organization                                       | 4       |
| ENGL 1110G   | Composition I  | 4       |
| MATH 1511G   | Calculus and Analytic Geometry I <sup>1</sup>                                    | 4       |
| MATH 1521G<br>or MATH 1521H  | Calculus and Analytic Geometry II<br>or Calculus and Analytic Geometry II Honors | 4       |
| Area IV: Social/ Beha  | vioral Sciences Course <sup>2</sup>  | 3       |
| Area V: Humanities Course <sup>2</sup>                                 |  | 3       |
|  | Credits  | 30      |
| Sophomore  |  |         |
| CSCI 2220  | Introduction to Data Structures and Algorithms                                   | 4       |
| CSCI 2310  | Discrete Mathematics for Computer Science  | 4       |
| CSCI 3730  | Compilers and Automata Theory  | 4       |
| CSCI 3720  | Data Structures and Algorithms   | 4       |
| COMM 1115G   | Introduction to Communication  | 3       |
| ENGL 2210G   | Professional and Technical Communication   | 3       |
| MATH 2415<br>or MATH 4230  | Introduction to Linear Algebra<br>or Applied Linear Algebra                      | 3       |
| Area VI: Creative and Fine Arts <sup>2</sup>                           |  | 3       |
| Select one from the following:   |  | 3       |
| A ST 311   | Statistical Applications   |         |
| STAT 3110  | Statistics for Engineers and Scientists  |         |
| STAT 4210  | Probability: Theory and Applications   |         |
| Elective credits if needed for financial aid requirements <sup>3</sup> |  | 3+      |
| Junior   | Credits  | 31-34   |
| CSCI 3710  | Software Development   | 4       |
| CSCI 4105  | Programming Language Structure I   | 3       |
| CSCI 4140  | Database Management Systems I  | 3       |
| Computer Science 4000-level Elective <sup>4</sup>                      |  | 3       |
| MATH elective (upper division) <sup>5</sup>                            |  | 3       |
| Lab Science Elective   | 6  | 4       |
| Lab Science Elective   | 6  | 4       |
| Viewing a Wider World <sup>7</sup>                                     |  | 3       |
| Viewing a Wider World <sup>7</sup>                                     |  | 3       |
| Elective credits if needed for financial aid requirements <sup>3</sup> |  | 3       |
|  | Credits  | 33      |
| Senior   |  |         |
| CSCI 4980  | Senior Project   | 4       |

or Senior Thesis

or CSCI 4999

| Total Credits   |   | 120-123 |
|---|---|---------|
| Credits   |   | 26      |
| Electives as needed to meet minimum credit requirements <sup>3</sup>      |   | 7       |
| Upper division electives to bring total upper division to 48 <sup>3</sup> |   |         |
| Computer Science 4000-level Elective <sup>4</sup>                         |   | 3       |
| Lab Science Elective <sup>6</sup>   |   | 4       |
| CSCI 4120   | Operating Systems I                                   | 3       |
| CSCI 4110   | Computing Ethics and Social Implications of Computing | 1       |
|   |   |         |

- MATH 1511G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 1521G first.
- <sup>2</sup> See the General Education (https://catalogs.nmsu.edu/nmsu/general-education-viewing-wider-world/) section of the catalog for a full list of courses
- Students who plan to graduate with a concentration need to complete the specific requirements for the chosen concentration. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
- See list of Computer Science electives (p. ) in Degree Requirement Section.
- Math Electives:
  - · MATH 3110 Introduction to Modern Algebra
  - MATH 3120 Introduction to Analysis
  - MATH 3140 Introduction to Numerical Methods
  - · MATH 3160 Introduction to Ordinary Differential Equations
  - · MATH 4320 Logic and Set Theory
  - MATH 4330 Elementary Number Theory
- <sup>6</sup> See list of Lab Science (p. ) courses in the Degree Requirement Section.
- See the Viewing a Wider World (https://catalogs.nmsu.edu/nmsu/ general-education-viewing-wider-world/#viewingawiderworldtext) section of the catalog for a full list of courses

Students planning to undertake graduate work in computer science are encouraged to consult with their advisor regarding the possibility of taking other computer science electives to satisfy their departmental requirements.
