For Heritage Speakers:

1. A Mathematics course is required for the degree but students may need to take any prerequisites needed to enter the Mathematics course of their course first.
2. Majors should complete these lower level requirements before registering for upper-division government credits.
3. See the Viewing a Wider World section of the catalog for a full list of courses.
4. A list of approved options is available in the department office.
5. Elective credit may vary based on General Education course selection, second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Note: Students may not count S/U grades taken in their major unless the particular course is regularly graded S/U. All courses must be passed with grades of C- or better. In addition, while research methods courses taken outside of the department may count toward the methods requirement, only POLS 300 Political Research Skills counts toward the 33 credits in the major.

Up to twelve hours of internship credit are available. However, only three hours count toward the major. Internship guidelines are available in the department office and on the Government Department web page, [http://deptofgov.nmsu.edu/](http://deptofgov.nmsu.edu/).
