

DIGITAL FORENSICS - UNDERGRADUATE MINOR

A grade of C- (or better) is required in each class. No courses may be taken S/U. All prerequisites must be met before enrolling in a class. Engineering Technology students can meet most of the requirements for this minor by judicious selection of their electives.

For non-IET and non-ICT majors

Prefix	Title	Credits
Required Courses		12
E T 255	Linux System Administration	
E T 339	Introduction to Digital Forensics and Incident Response	
E T 439	Advanced Digital Forensics and Incident Response	
ICT 450	Ethical Hacking	
Select two from the following list:		6-7
E T 435	Senior Project (topic must be preapproved and related to security) ¹	
E T 463	Enterprise Linux Administration	
ICT 320	Introduction to Internet Protocols	
ICT 457	Introduction to Information Security Technology	
or BCIS 482	Management of Information Security	
PHYS 304	Forensic Physics	
Total Credits		18-19
