When reviewing the admissibility of students, we consider many factors, including high school GPA, test scores, dual-credit coursework, leadership experience, community involvement and other accomplishments. Applicants may be asked for additional information, including academic letters of recommendation, in support of their application.

### How to Apply as a Nondegree Seeking Student

Nondegree admission is designed to meet the needs of non-traditional, part-time students who do not wish to pursue a degree at this university. Courses taken in this status may not be used to meet university admission requirements. Students interested in using nondegree credit
for initial teacher certification or certification in a new field need to contact the College of Education.

Students on nondegree status are ineligible to receive financial aid or student employment; and are ineligible to participate in student government or intercollegiate athletics. They are also ineligible to receive benefits from any veterans’ program.

Transcripts from previous institutions, high school, and/or results of college entrance exams may be required to assure readiness for university-level courses. A $20 one-time, non-refundable, nondegree application fee is required.

Nondegree students are subject to the same university regulations as regular students.

Changing from Nondegree Status

A nondegree student in good academic standing at NMSU must submit a formal application for a change of status from nondegree to degree seeking. Requirements for regular admission must be met. Nondegree students may not transfer more than 30 credits from this status to any undergraduate degree program with the exception of students participating in a high school concurrent enrollment program.

How to Apply For Readmission

Former students of the NMSU system, who have been out of school for more than two consecutive semesters are required to make a formal application for readmission. Applications should be submitted to the Undergraduate Admissions Office before the opening of the semester or summer sessions for which the student plans to enroll.

A student who has attended other institutions during an absence must have official transcripts forwarded directly to the Undergraduate Admissions Office by the Registrar of each institution and must be eligible to return to the college or university last attended. Transcripts must be received prior to the date of registration. Admission status at the time of readmission will normally be determined by previous NMSU academic standing. However, academic performance at other institutions attended during the applicant’s absence from NMSU may be taken into consideration in determining the student’s admission status.

Opportunities for High Schools Students

Dual Credit for High School Students

The Dual Credit Program is designed to give high school students an opportunity to enroll at NMSU prior to high school graduation. Students must be either a junior or senior in high school and enrolled in one-half or more of the minimum course requirements approved by the following:

Under a Statewide Dual Credit Master Agreement between NMSU and the school district, students enrolled in approved dual credit courses are eligible to have the full cost of tuition and general fees waived.

Dual credit students must complete:
