

AGRICULTURAL ECONOMICS - MASTER OF SCIENCE

New Mexico State University master's accelerated program provides the **opportunity for academically qualified undergraduate students** to begin working on a master's degree **during their junior and senior years** while completing a bachelor's degree. Typically, a bachelor's degree requires four years to complete, and a master's degree requires an additional two years. The master's accelerated programs allow students the opportunity to complete a graduate program in an accelerated manner. You can also check NMSU's catalog for additional information about our programs.

Please talk to a faculty advisor about your MAP plan and develop a course plan in consultation with the advisor.

Up to 12 hours of coursework can be applied toward the completion of the master's degree. To receive graduate credit for the 12 credit hours, students must receive a grade of B- or higher.

Students' Qualifications

The student must be classified as a Junior or Senior (a minimum of 25 semester credit hours must be completed at NMSU).

The cumulative grade point average must be a minimum of 3.0.

Accepted MAP Courses

Upon approved enrollment to the AEAB MAP Program, the following courses may be taken in the undergraduate program of study. Any other courses may be considered after a consultation with an advisor and the department head.
