

KINESIOLOGY (PHYSICAL EDUCATION) - BACHELOR OF SCIENCE IN KINESTIOLOGY

Kinesiology is a great option and prepares students for many fields in allied health. Career choices include, but are not limited to, medical school, physical and occupational therapy, athletic training, corporate health and wellness, chiropractic medicine, dentistry, optometry, pharmacy, and much more.

The Bachelor of Science in Kinesiology degree program can be completed in three concentration areas: Exercise Science, Performance Psychology, or Physical Education. For the required credit hours, see the program descriptions below. Regardless of the concentration, students must complete 120 total semester hours for the Kinesiology degree. Additionally, students pursuing a Kinesiology degree will be responsible for ensuring that they complete 48 upper division credits (3000 (300) and 4000 (400) level courses). Kinesiology students must maintain a minimum 2.75 GPA to enroll in most upper-division SPMD courses. ENGL 1110G, Area II General Education courses, Kinesiology courses, and Approved Electives must be completed with a grade of C- or better.

Students must complete all University degree requirements, which include: General Education, Viewing a Wider World, and program-specific courses to total a minimum of 120 credits. Developmental coursework will not count towards the degree requirements and/or elective credits but may be needed to take the necessary English and Mathematics coursework.

With a concentration in Physical Education and successfully meeting state requirements, students will be eligible to teach in the school system (e.g., Elementary, Middle and High School settings).

Information about Kinesiology and potential career opportunities may be obtained at the Department of Kinesiology, Activity Center 204, phone 575-646-2215.
