ELA 576. Educational Financial Management**3 Credits**

Educational finance and business applications. Consent of Instructor required.

ELA 578. Leadership and Administration of Bilingual Education**3 Credits**

Concepts and practical approaches to improving the education of English languages learners through higher education. Consent of Instructor required.

ELA 579. Public School Law**3 Credits**

Legal processes of education, major court decisions, and the legislative process will be studied. Consent of Instructor required.

ELA 580. Administration of Adult and Continuing Education**3 Credits**

Administration of programs in public schools, higher education, community and nontraditional educational settings. Consent of Instructor required.

ELA 582. Community College Administration**3 Credits**

An overview of the history, role, objectives and patterns governing the effectiveness of the community college. Consent of Instructor required.

ELA 585. Elements of Research**3 Credits**

Survey and analysis of research methods and designs focusing on sound educational research and its presentation. Consent of Instructor required.

ELA 586. Multicultural Leadership in Education**3 Credits**

Examine cultural diversity and how appropriate understanding, leadership and instructional strategies can be used to reach all learners. Enhances understanding of what it means to be an educator in culturally diverse contexts. Consent of Instructor required.

ELA 589. Evaluation Design in Education**3 Credits**

This course focuses on evaluation and accountability models; application to educational programs. Consent of Instructor required.

ELA 590. Basing Decision on Data: Pk-12**3 Credits**

Analysis of accountability data and other evidence to support educational decision making. Disaggregating and interpreting assessment data to guide improvement of instruction. Moving from evidence to plans for action. May be repeated up to 3 credits. Consent of Instructor required.

ELA 595. Current Topics**1-6 Credits**

Offered under various subtitles which indicate the subject matter covered. May be taken for a maximum of 6 credits.

ELA 598. Independent Studies**1-3 Credits**

Individual investigation in special topic areas. Requires prior approval of project advisor.

ELA 600. Doctoral Research**1-15 Credits**

Research. S/U to traditional grade options. May be repeated up to 88 credits. Consent of Instructor required. Thesis/Dissertation Grading.

ELA 620. Doctoral Seminar**1-3 Credits**

A study of current issues in educational administration at the national, state, and local levels. May be repeated up to 6 credits. Consent of Instructor required.

ELA 622. Quantitative Research I**3 Credits**

Explores quantitative research methods, the rationale and assumptions that guide statistical decisions, beginning level statistical analyses, and how all of these are applied in the field of educational leadership. May be repeated up to 3 credits. Consent of Instructor required.

Prerequisite(s): Consent of instructor.

ELA 623. Qualitative Research I**3 Credits**

Explores qualitative research methods and models and their application in the field of educational leadership. May be repeated up to 3 credits. Consent of Instructor required.

Prerequisite(s): Consent of instructor.

ELA 630. Concepts of Leadership in Education**3 Credits**

Survey of concepts of leadership in general and educational leadership in particular. Consideration of implications for practice. May be repeated up to 3 credits. Consent of Instructor required.

ELA 645. The Professoriate**3 Credits**

The purpose of this course is to explore the body of scholarly knowledge and research appropriate for the study of American higher education, the context in which teaching and learning occurs, and faculty's roles in the process. We will discuss the number, variety, and purpose of the various types of institutions; the different roles that faculty members play within these institutions; how faculty work is assessed and valued within the outside of the university; administrative regulations related to faculty work; current issues related to the general state of the professoriate; as well as how does one prepare to enter the professoriate.

ELA 650. Higher Education Law**3 Credits**

This advanced course is designed to review the impact of the judiciary on higher education. The legal standing of institutions of higher education on issues of staff rights, student rights, and tort liability will be addressed. In addition, the impact of local ordinances, state and federal laws and regulations will be examined. Consent of Instructor required.

ELA 655. Higher Education Finance and Funding**3 Credits**

This advanced course examines the impact and process of financing and funding higher education. The course is an examination of higher education finance as it relates to operational budgets, capital budgets, and policy issues which impact the financing of higher education. Consent of Instructor required.

ELA 670. Advanced Internship**1-6 Credits**

For those pursuing an advanced degree to meet the field work requirement. To bear an appropriate subtitle. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: E AD majors. S/U Grading (S/U, Audit).

ELA 671. Foundations of Educational Administration**3 Credits**

Advanced course about the political, economic, and social forces on policy making and governance of Pk-12 and postsecondary education. May be repeated up to 3 credits. Consent of Instructor required.

ELA 676. Educational Financial Management**3 Credits**

This advanced course offers an overview of economic and financial concerns relating to the public school system of the United States. Consent of Instructor required.

ELA 679. Public School Law**3 Credits**

Advanced course in which the legal processes of education, major court decisions, and the legislative process will be studied. Consent of Instructor required.

ELA 682. Quantitative Research II**3 Credits**

Intermediate quantitative methods of research, statistical analyses, and their application in the field of educational leadership. May be repeated up to 3 credits. Consent of Instructor required. Restricted to Doctoral students only.

Prerequisite(s): ELA 622.

ELA 683. Qualitative Research II**3 Credits**

Advanced qualitative methods of research and implementation in the field of educational leadership. May be repeated up to 3 credits. Consent of Instructor required.

Prerequisite(s): ELA 623.

ELA 685. Elements of Research**3 Credits**

Advanced survey and analysis of research methods and designs focusing on sound educational research and its presentation. Consent of Instructor required.

ELA 689. Evaluation Design in Education**3 Credits**

Advanced course that focuses on evaluation and accountability models; application to educational programs. Consent of Instructor required.

ELA 693. Dissertation Seminar**3 Credits**

Same as BIL, C EP, ECED, EDUC, RDG, SPED 693. Consent of Instructor required.

ELA 698. Selected Topics**1-6 Credits**

Offered under various subtitles which indicate the subject matter covered. May be taken for a maximum of 6 credits per semester and overall total: May be repeated up to 9 credits.

ELA 700. Doctoral Dissertation**9 Credits**

Dissertation. Minimum of 3 credits per regular semester. May be taken for a maximum of 36 credits. Consent of instructor required.

ELT - ELECTRONICS TECHNOLOGY (ELT)

ELT 103. Math Study Skills for Electronics**1 Credit**

Covers specific math study skills and critical thinking processes to reinforce practical applications of math and its use with electronics. The student will be introduced to electronic mathematical formulas during the problem-solving steps required for circuit analysis. May be repeated up to 4 credits.

Prerequisite(s)/Corequisite(s): E T 183 OR E T 184. Restricted to Community Colleges only.

ELT 105. Basic Electricity and Electronics**3 Credits (2+2P)**

Fundamentals of electricity and electronics, basic circuit devices, meters, transistors, integrated circuits and other solid state devices, computers, fiber optics, and industrial application topics. Minimum math proficiency of CCDM 103 or CCDM 104 required or math placement into CCDM 114 or higher. Restricted to: Community Colleges only. Crosslisted with: AERT 111

ELT 110. Electronics I**4 Credits (3+3P)**

Fundamentals of electronics including: components, schematics, Ohm's law, Thevenin's and Norton's theorems, and series/parallel circuits incorporating passive, active and magnetic elements. Introduction to AC circuits. Crosslisted with: AERT123. Restricted to: Community Colleges only.

ELT 120. Mathematics for Electronics**4 Credits**

Includes fundamental mathematics, algebra, sine, cosine, and other elementary functions as they specifically apply to the operation, manipulation, and evaluation of direct current (DC) and alternating current (AC) circuits. Minimum math proficiency of CCDM 114 required or math placement into MATH 120 or higher. Restricted to: Community Colleges only. Crosslisted with: AERT 124

ELT 135. Electronics II**4 Credits (3+3P)**

Analysis of AC circuits, filters, and resonance. Introduction to solid state fundamentals including diodes and rectifier circuits, voltage regulators, various transistors and transistor characteristics, amplification and amplifiers, photoelectric effects, gates and timing circuits. Restricted to Community Colleges campuses only.

Prerequisite(s): ELT 110 and ELT 120.

ELT 155. Electronics CAD and PCB Design**3 Credits (2+2P)**

Introduction to and the use of commercially available CAD software covering schematic representation of electronic components and circuits. Printed circuit board layout techniques including proper schematic capture, netlist generation, design rule checking and manual routing covered.

ELT 160. Digital Electronics I**4 Credits (3+3P)**

Number systems, codes, Boolean algebra, logic gates, Karnaugh maps, combination circuits, flip-flops, and digital troubleshooting techniques. Restricted to: Community Colleges only.

Prerequisite(s): ELT 110 and (ELT 120 or MATH 120).

ELT 175. Soldering Practices**3 Credits (2+2P)**

Methods and techniques of hand soldering in the production of high quality and reliable soldering connections. Restricted to: Community Colleges only.

ELT 205. Semiconductor Devices**4 Credits (3+3P)**

Analysis and trouble shooting of linear electronic circuits including amplifiers, op-amps, power supplies, and oscillators. Restricted to: Community Colleges only.

Prerequisite(s): ELT 110 and ELT 135.

ELT 215. Microprocessor Applications I**4 Credits (3+2P)**

Fundamentals of microprocessor architecture and assembly language with an emphasis on hardware interfacing applications.

Prerequisite(s)/Corequisite(s): ELT 235. Prerequisite(s): ELT 160.

Restricted to: Community Colleges only.

ELT 220. Electronic Communication Systems**4 Credits (3+2P)**

Principles and applications of circuits and devices used in the transmission, reception, and processing of RF, microwave, digital and telecommunications systems.

Prerequisite(s)/Corequisite(s): ELT 205. Prerequisite(s): ELT 135.

Restricted to: Community Colleges only.

ELT 221. Cooperative Experience I**1-6 Credits**

Supervised cooperative work program. Student is employed in an approved occupation and supervised and rated by the employer and instructor. Student will meet in a weekly class. Graded S/U.

Prerequisite: consent of instructor.

ELT 222. Cooperative Experience II**1-6 Credits**

Continuation of ELT 221. Maximum of 6 credits. Graded S/U.

Prerequisite: consent of instructor.

ELT 225. Computer Applications for Technicians**3 Credits (2+2P)**

An overview of computer hardware, software applications, operating systems, high level programming languages and networking systems.

ELT 230. Microprocessor Applications II**4 Credits (3+2P)**

Advanced microprocessor interfacing techniques. Topics in A/D and D/A conversion, I/O port address decoding, direct memory accessing, and peripheral device interfacing applications.

Prerequisite: ELT 215.

ELT 235. Digital Electronics II**3 Credits (2+2P)**

Sequential logic circuits, latches, counters, shift-registers, fault analysis and troubleshooting of digital IC s, multiplexers, timers, encoders/decoders, arithmetic circuits, pulse shaping, and memory devices.

Restricted to: Community Colleges only.

Prerequisite(s): ELT 160.

ELT 240. Introduction to Photonics**4 Credits (3+2P)**

Nature of light, light emitters, lasers, detectors, fiber optics communications systems, and other applications of light to electronics.

Prerequisite: ELT 135 or consent of instructor.

ELT 250. Electronics Systems Analysis**2 Credits (1+3P)**

Capstone course emphasizing a systems approach to troubleshooting and maintaining complex electronics systems. Includes program review in preparation for technician certification.

Prerequisite: consent of instructor.

ELT 260. Instrumentation Control and Signal Conditioning**4 Credits (3+2P)**

Introduction to sensors and transducers, signal conditioning and transmission for measuring and process control systems. Includes AD, DA converter, small servos and actuators. **Prerequisite:**ELT 205.

ELT 265. Special Topics**1-6 Credits**

Topic to be announced in the Schedule of Classes.

ELT 270. Biomedical Equipment Instrumentation**4 Credits (3+2P)**

Principles and applications of electronic circuits and devices used in biomedical equipment. Skills taught to include evaluating, troubleshooting and repairing various types of medical equipment.

Prerequisite(s)/Corequisite(s): ELT 260. **Prerequisite(s):** ELT 205.

Restricted to: Community Colleges only.

ELT 295. Professional Development/Leadership**1 Credit**

As members and/or officers of student professional organizations, electronics technology students gain experience in leadership, team building, and community services. May be repeated for a maximum of 6 credit. Restricted to ELT and ET E majors.

ENGL-ENGLISH (ENGL)

ENGL 111 M. Rhetoric and Composition for International and Multilingual Students**4 Credits**

For international and multilingual students. Students will build on your prior knowledge of writing in English as a second or additional language by engaging in several genres of writing and reading, including reading responses, discussion posts, formal academic papers (Rhetorical Analysis and Documented Argument), and peer review. Your instructor and classmates will serve as your readers and will give you helpful and constructive criticism, which will in turn assist you in becoming a more fluent and engaging communicator in English. Fulfills English 111 Gen-ed requirement. Restricted to Las Cruces campus only.

Prerequisite(s): CBT/PB score of 500, or IBT score of 61, or SPCD 110, or consent of instructor.

ENGL 111G. Rhetoric and Composition**4 Credits**

Skills and methods used in writing university-level essays.

Prerequisite(s): ACT standard score in English of 16 or higher or a Compass score 76 or higher; for those scoring 13-15 in English on the ACT or 35-75 on the Compass, successful completion of a developmental writing course; for those scoring 12 or below on the ACT standard score in English or 34 or below on the Compass, successful completion of two developmental writing courses.

ENGL 111GH. Rhetoric and Composition Honors**4 Credits**

Individualized assignments and independent study. Satisfies 4 credits of General Education English Composition requirement.

Prerequisite: ACT standard English score of 25 or higher and departmental approval.

ENGL 112. Rhetoric and Composition II**2 Credits**

A continuation of English 111G for those desiring more work in composition. Weekly themes based on outside reading.

Prerequisite: successful completion of ENGL 111G or the equivalent.

ENGL 115G. Perspectives on Literature**3 Credits**

Examines literature by writers from culturally diverse backgrounds and from different cultural and historical contexts. Explores various strategies of critical reading.

ENGL 116G. Perspectives on Film**3 Credits (3+3P)**

Explores narrative and documentary film and examines significant developments in the history of cinema. Criticism of film as an art form, technical enterprise, business venture, and cultural phenomenon.

ENGL 203G. Business and Professional Communication**3 Credits**

Effective writing for courses and careers in business, law, government, and other professions. Strategies for researching and writing correspondence and reports, with an emphasis on understanding and responding to a variety of communication tasks with a strong purpose, clear organization, and vigorous professional style. May be repeated up to 3 credits.

Prerequisite(s): ENGL 111G or SPCD 111G or ENGL 111 M.

ENGL 211G. Writing in the Humanities and Social Sciences**3 Credits**

Theory and practice in interpreting texts from various disciplines in the humanities and social sciences. Strategies for researching, evaluating, constructing, and writing researched arguments. Course subtitled in the Schedule of Classes. May be repeated up to 3 credits.

Prerequisite(s): ENGL 111G or SPCD 111G or ENGL 111 M.

ENGL 218G. Technical and Scientific Communication**3 Credits**

Effective writing for courses and careers in sciences, engineering, and agriculture. Strategies for understanding and presenting technical information for various purposes to various audiences. May be repeated up to 3 credits.

Prerequisite(s): ENGL 111G or SPCD 111G or ENGL 111 M.

ENGL 220G. Introduction to Creative Writing**3 Credits**

Examines classic and contemporary literature in three genres. Various forms, terminologies, methods and technical aspects of each genre, and the art and processes of creative writing. May be repeated up to 3 credits.

Prerequisite(s): ENGL 111G or SPCD 111G or ENGL 111 M.

ENGL 232. Script Development and Storyboarding**3 Credits**

Examines effective writing principles for creating storyboards that communicate the overall picture of a project, timing, scene complexity, emotion and resource requirements. Crosslisted with: CMI 232.

ENGL 235. Narrative: Principles of Story Across the Media**3 Credits**

Examines the various strategies of written and visual storytelling, narrative structure and its principal components (plot, theme, character, imagery, symbolism, point of view) with an attempt to connect them to elements of contemporary forms of media expression, including screenwriting, playwriting, writing for documentaries and animation, etc. Crosslisted with: CMI 235

ENGL 243. The Bible as Literature**3 Credits**

Develops informed readings of Hebrew and Christian scriptures. Emphasizes understanding Biblical literary forms, techniques, themes; historical, cultural contexts for interpretation; authorship, composition, audience for individual books; development of Biblical canon.

ENGL 244G. Literature and Culture**3 Credits**

Intensive reading of and discussion and writing about selected masterpieces of world literature. Emphasizes cultural and historical contexts of readings to help students appreciate literary traditions. Core texts include works by Homer, Dante, and Shakespeare, a classic novel, an important non-Western work, and modern literature.

ENGL 251. Survey of American Literature I**3 Credits**

From the colonial period to the transcendentalists.

ENGL 252. Survey of American Literature II**3 Credits**

From Whitman to the present.

ENGL 262. Masterpieces of Western European Literature, Post-Renaissance to Modern Times**3 Credits**

Modern Western European literary classics, from the seventeenth through the twentieth centuries, with attention to the rise of the novel and other modern forms.

ENGL 263. History of Argument**3 Credits**

Investigates the major figures and movements in rhetoric from the classical period to modern rhetorical theory, examining relations between rhetorical teaching and practice, culture, epistemology, and ideology. Main campus only.

ENGL 271. Survey of English Literature I**3 Credits**

From Beowulf through the eighteenth century.

ENGL 272. Survey of English Literature II**3 Credits**

From the pre-Romantics to the present.

ENGL 299. Special Topics**1-3 Credits**

Emphasis on a literary and/or writing subject chosen for the semester. Repeatable for a unlimited credit under different subtitles.

ENGL 301. Theory and Criticism: Rhetoric and Culture**3 Credits**

Introduction to rhetorical criticism with an emphasis on understanding the theoretical and cultural underpinnings for the rhetorical analyses of texts.

ENGL 302. Theory and Criticism: Literature and Culture**3 Credits**

Introduction to literary criticism, from its classical beginnings through contemporary critical approaches.

ENGL 303. Theory and Criticism: Film, Media and Culture**3 Credits**

Surveys classical and contemporary film theory. Explores the relationship of theory to textual analysis and filmmaking practices. Includes auteurism semiotics, psychoanalysis, and other theories, as well as theories of other media.

ENGL 304. Creative Writing: Prose**3 Credits**

Imaginative writing, chiefly prose narrative. Repeatable for a maximum of 9 credits.

ENGL 305. Creative Writing: Reading Series**1 Credit**

A one credit class based on the English Department's literary reading series. The class meets online and at the literary readings.

ENGL 306. Creative Writing: Poetry**3 Credits**

Introduction to the writing of poetry. Repeatable for a total of 9 credits.

ENGL 307. Creative Writing: Creative Nonfiction**3 Credits**

Introduction to creative nonfiction. Skills emphasized will include the personal voice, powers of observation and reflection, advocacy, argument, and a creative, powerful use of language. Repeatable for a maximum of 9 credits.

ENGL 308. Creative Writing: Playwriting**3 Credits**

Technique of one-act playwriting, and analysis of dramatic structure.
Crosslisted with: THTR 308

ENGL 309. Screenwriting I**3 Credits**

Writing intensive. Students learn the craft of screenwriting, honing skills in writing dialogue and visual narrative, crafting dynamic characters and dramatic action. Original student scripts will be performed and discussed in class. Consent of instructor required. Crosslisted with: CMI 309 and THTR 306

Prerequisite(s): ENGL 235 or CMI 235.

ENGL 310. Critical Writing**3 Credits**

A course in critical reading, writing, and research designed to prepare English majors for upper-division courses.

ENGL 311G. Advanced Composition**3 Credits**

Writing of nonfiction prose. Reviews principles of expository and descriptive writing. Emphasizes the argument/persuasion essay with detailed discussion of semantic and rhetorical techniques.

Prerequisite: junior or senior standing, or consent of instructor.

ENGL 315. Writing for the Web**3 Credits**

Introduction to writing for the World Wide Web through practical application and analysis on both theory and research. Allows hands-on learning in a computer classroom.

ENGL 318G. Advanced Technical and Professional Communication**3 Credits**

Theory and practice of writing in technical and professional fields, individualized to each student's field. Emphasizes efficient writing processes and effective written products.

Prerequisite: junior or above standing, or consent of instructor.

ENGL 321V. Modern European Drama**3 Credits**

Masterworks of European drama from the late 18th century to present.
Crosslisted with: THTR 321V

ENGL 322. Dramatic Character**3 Credits**

How characters have been created for the stage from the beginning of theatrical performances in ancient Greece to the present day. Exploring characterization related to dramatic structure, style, and genre, and how dramatic characters differ from those in literary fiction. Crosslisted with: THTR 322.

ENGL 323. American Drama**3 Credits**

Masterworks of American drama by noted American playwrights.
Crosslisted with: THTR 323

ENGL 326. Cultural Identity and Representation Across the Media**3 Credits**

Considers complex relationships between representation and culture including how images and language shape racial, ethnic, gender, sexual, and class identities. Examines theories from several disciplines. Includes lecture, discussion and production exercises.

ENGL 327V. Shakespeare around the Globe**3 Credits**

Introduction to multicultural issues in Shakespeare's plays and to adaptations of Shakespeare's plays in other cultures.

ENGL 328V. Literature of Science Fiction and Fantasy**3 Credits**

Survey and critical examination of the development of science fiction and fantasy as literature genres through selected authors and texts.

ENGL 329. Studies in Drama**3 Credits**

Emphasis on a group of related works of European or American drama; topics will vary. Crosslisted with: THTR 329 and CMI 329

ENGL 330V. Studies in Poetry**3 Credits**

Emphasis on a related group of poems or on the work of one or more poets; topics will vary.

ENGL 335V. Studies in the Novel**3 Credits**

Intensive reading of, discussion of, and writing about selected major novels from around the world. Emphasizes the history of the novel and its role in culture.

ENGL 336. Studies in Film**3 Credits (3+3P)**

Explores the conventions of cinematic representation; the strategies involved in writing about and reading film; and/or the adaptation of literary texts to film. Repeatable under different subtitles.

ENGL 339V. Chicana/o Literature**3 Credits**

Introduction to Chicano novels, short stories and selected creative nonfiction.

ENGL 341V. American Indian Literature**3 Credits**

Forms and themes of Native American oral literary traditions; Native American writing in English, especially novels, short fiction, and poetry.

ENGL 349. The Short Story**3 Credits**

Development of the short story as a distinct form. Readings and critical analysis of representative nineteenth and twentieth century pieces.

ENGL 354. Form and Technique in Fiction**3 Credits**

Literature course designed for fiction writers, especially those English majors in the Creative Writing emphasis. The course combines the study of published fiction with the study of craft. Some of the assignments will require the student to write original fiction based on exercises provided by the instructor. Repeatable for up to 9 credits.

ENGL 356. Form and Technique in Poetry**3 Credits**

Literature course designed for poets, especially those English majors in the Creative Writing emphasis. The course combines the study of published poetry with the study of craft. Some of the assignments will require the student to write original poems based on exercises provided by the instructor. Repeatable for up to 9 credits.

ENGL 358. Form and Technique in Playwriting**3 Credits**

Literature course designed for playwrights, especially those English majors in the Creative Writing emphasis. The course combines the study of published plays and performances with the study of craft. Some of the assignments will require the student to write original plays based on exercises provided by the instructor. Repeatable up to 9 credits.

ENGL 363. Literature for Children and Young Adults**3 Credits**

A comparative, historical survey of literature for young (K to 12th grade) readers. Emphasis on critical evaluation.

Prerequisite: junior or above standing.

ENGL 380V. Women Writers**3 Credits**

Introduction to multicultural women's traditions through intensive study of works by women writers. Crosslisted with: W S 380V.

ENGL 392V. Mythology**3 Credits**

Greek and Roman mythology and its impact on European and English literature. Readings in myths, classical plays, and other literature with mythological interest, including nonclassical myths.

ENGL 394V. Southwestern Literature**3 Credits**

Introduction to multicultural literature of the Southwest: oral folk literature, literary fiction (classic and contemporary), nonfiction and poetry.

ENGL 399. Special Topics**3 Credits**

Emphasis on a theme, genre, figure, or technique chosen for study during the semester. Repeatable under different subtitles.

ENGL 400. Independent Study: Upper Division**1-3 Credits**

For students with demonstrated aptitude for independent work. Approval of instructor required before registration. Repeatable under different subtitles.

ENGL 405. Chaucer**3 Credits**

Principal works, with emphasis on *The Canterbury Tales*.

ENGL 407. Milton**3 Credits**

Studies in Milton's works.

ENGL 408. Shakespeare I**3 Credits**

Principal plays of Shakespeare's first two periods. Crosslisted with: THTR 408.

ENGL 409. Shakespeare II**3 Credits**

Principal plays of Shakespeare's last two periods. Crosslisted with: THTR 409.

ENGL 412. Writing in the Workplace**3 Credits**

Study of workplace writing practices, including a focus on research-based, theoretical, and pedagogical approaches to professional communication.

ENGL 413. Advanced Creative Writing: Prose Workshop**3 Credits**

Imaginative writing, chiefly the narrative. May be repeated up to 12 credits.

Prerequisite(s): ENGL 304 or consent of instructor.

ENGL 414. Advanced Creative Writing: Poetry Workshop**3 Credits**

For advanced writers of poetry. Repeatable for a total of 12 credits.

Prerequisite(s): ENGL 306 or consent of instructor.

ENGL 415. Advanced Creative Writing: playwriting Workshop**3 Credits**

Technique of full-length playwriting, and analysis of dramatic structure. May be repeated up to 12 credits. Consent of Instructor required.

Crosslisted with: THTR 309 and CMI 309.

Prerequisite(s): ENGL 308 or consent of instructor.

ENGL 416. Approaches to Literature**3 Credits**

Understanding, appreciation, techniques of instruction in the high school.

Prerequisite: at least 6 credits in upper-division English courses.

ENGL 417. Advanced Study in Critical Theory**3 Credits**

Advanced study of one or more major trends in theoretical inquiry within English studies. Some prior study of theory, such as English 301-303, strongly recommended. Repeatable under different subtitles.

ENGL 418. History of Rhetoric**3 Credits**

Investigation of crucial writings that have shaped Western attitudes towards and practice of rhetoric. Will examine key concepts from the Greeks through the Enlightenment, especially as they have influenced contemporary rhetorical theory.

ENGL 419. Modern Rhetorical Theory**3 Credits**

Major figures in rhetorical theory, with particular emphasis on developments in rhetorical theory in the twentieth century.

ENGL 421. Advanced Study in a Literary Period or Movement**3 Credits**

Close study of a historical or theoretical topic in a particular literary period or movement. Repeatable under different subtitles.

ENGL 422. Advanced Study in a Literary Form or Genre**3 Credits**

Close study of a topic in a particular literary form or genre. May be repeated under different subtitles.

ENGL 423. Advanced Study in a Major Author**3 Credits**

Close study of selected works by a major author. May be repeated under different subtitles.

ENGL 424. Advanced Study in a Major Text**3 Credits**

Close study of a major text. Course subtitled in the Schedule of Classes. Repeatable under different subtitles.

ENGL 425. Advanced Study in Comparative Literature**3 Credits**

Close study of a selection of non-English literary works read in translation. English-language works from a similar literary period or genre may also be read. Repeatable under different subtitles.

ENGL 429. British Romanticism**3 Credits**

Intensive study of major writers and critical topics from the Romantic period. Repeatable under different subtitles.

ENGL 430. Online Publishing**3 Credits**

This three-credit course provides a theoretical background for online publishing and design as well as hands on experience publishing an online arts magazine.

ENGL 431. Technical Editing**3 Credits**

Uses workshops, readings, hands-on projects, and discussion to improve skills in gathering, writing, designing, and editing technical information. For students interested in technical communication as well as students interested in developing strengths in communicating in scientific and technical fields.

ENGL 432. Gothic Literature**3 Credits**

Intensive study of gothic literature in particular historical, aesthetic, cultural, or intellectual contexts, such as American Gothic, Female Gothic, Dark Romanticism, or Vampire Literature. Repeatable under different subtitles.

ENGL 433. Victorian Literature**3 Credits**

Intensive study of major writers and critical topics from the Victorian period. Repeatable under different subtitles.

ENGL 438. Literature of the American Renaissance**3 Credits**

Intensive study of topics critical to the development of nineteenth century American literature before and during the Civil War, and the work of authors such as Emerson, Thoreau, Poe, Hawthorne, Melville, Whitman and Dickinson. Repeatable once under a different subtitle.

ENGL 442. Modern and Contemporary American Poetry**3 Credits**

Studies the development of American poetry from World War I to the present. Repeatable once under a different subtitle.

ENGL 444. Modern British Fiction**3 Credits**

Study of the fiction produced in the British Isles in the 20th and 21st centuries. Repeatable once under a different subtitle.

ENGL 445. Postmodern Fiction**3 Credits**

Study of the various forms of formally innovative experimental fiction produced since 1945, with a focus on the relationship between literary history and its sociohistorical contexts. Some texts will be read in translation. Repeatable once under a different subtitle.

ENGL 446. Advanced Creative Writing: Nonfiction Prose**3 Credits**

This workshop-format class for advanced writers will examine the many varieties of Creative Nonfiction. Students should be prepared for a rigorous reading load of published nonfiction and student submissions. Because of the workshop format, every student is expected to contribute extensively to every class, both in printed form and oral comments. Taught with ENGL 546. May be repeated up to 12 credits.

Prerequisite(s): ENGL 307 or consent of instructor.

ENGL 449. Advanced Study in Writing**3 Credits**

Close study of a topic in composition, rhetoric and/or technical and professional communication. Repeatable for a maximum of 6 credits with permission of department.

ENGL 451. Practicum in the Grammar of American English**3 Credits**

Studies of formal grammar of the English language in preparation for the teaching of the English language and/or advanced linguistic analysis.

ENGL 452. History of the English Language**3 Credits**

This course examines the history of the English language from its Indo-European origins through its development into an international language. The aim is to describe the English language formally and to trace linguistic change over time. Samples of written English will illustrate various stages in the development of English. Also considered are contemporary social and political issues related to language, including the problem of 'standard English' and the uses of language in advertising, the media, and politics.

ENGL 453. World Literatures**3 Credits**

Study of one or more literary traditions exclusive of those originating in Europe and the United States. Readings will include texts in translation. Repeatable once under a different subtitle.

ENGL 456. Ethnic Studies in US Literature and Culture**3 Credits**

Concentrates on comparative study of literary and cultural production by two or more U.S. ethnic populations. Incorporates both literary and sociocultural readings of texts. Repeatable under different subtitles.

ENGL 458. Latino/a Literature and Culture**3 Credits**

Focuses on established and emergent Latino/a literary and cultural production. Incorporates both literary and sociocultural readings of texts. Repeatable once under a different subtitle.

ENGL 460. Proposal Writing**3 Credits**

Developing proposals and grants in a workshop setting.

ENGL 462. Interdisciplinary, Client-Based Project Practicum**3 Credits**

Hands-on experience in designing projects within interdisciplinary teams for organizational clients. Taught with ENGL 562.

ENGL 463. Advanced Study in English Literature**3 Credits**

Covers selected works for a particular period of English literary history. Repeatable under different subtitles.

ENGL 469. Advanced Study in American Literature**3 Credits**

Covers selected works for a particular period of American literary history. Repeatable under different subtitles.

ENGL 470. Approaches to Composition**3 Credits**

Theory and practice of teaching writing. Discussion and application of classroom practices, definition of standards, and evaluation of student writing.

ENGL 478. Document Design**3 Credits**

Advanced study in writing, with an emphasis on the computer as a tool for designing visually informative text. Includes theory and research in document design and the use of page composition and graphics software.

ENGL 479. Computers and Writing**3 Credits**

This course will trace the history of computers and composition as a field by looking at the work of important scholars including Selfe, Hawisher, Johnson-Eilola, and Wysocki. We will then focus on specific ways new media might be integrated into composition classrooms. The course will include discussions, student facilitations, and experimentation with technologies.

ENGL 480. Screenwriting II**3 Credits**

Students will write two short scripts, 10-15 pages each. Focus will be on learning how to take notes and rewrite. Script analysis will be in a workshop format. Scripts will be read and discussed, scenes performed and reactions analyzed to consider effect of dialog, character development, etc. Crosslisted with: CMI 480

Prerequisite(s): ENGL 309 or CMI 309 or THTR 306 or consent of instructor.

ENGL 481. Women's Literature**3 Credits**

Intensive study of literature by women, in particular historical, aesthetic, cultural, or intellectual contexts. Repeatable under different subtitles. Crosslisted with: W S 484

ENGL 486. Hollywood Film**3 Credits (3+3P)**

Intensive study of Hollywood film in its artistic, cultural, or historical contexts. Repeatable under different subtitles.

ENGL 489. Cultural Studies: Literature and Theory**3 Credits**

Examines the theory and practice of cultural studies in relation to the variety of discourse describable as literary, including autobiography, avant-garde writing, nonfiction prose, the essay, online writing, folklore, and popular genre fiction (such as mystery, romance, thriller, or horror). Repeatable once under a different subtitle.

ENGL 493. Middle English Textual Cultures**3 Credits**

Intensive study of cultures of reading, writing, and literary production in late-medieval England, situating Middle English literature in its manuscript contexts. No prior experience with Middle English required.

ENGL 497. Internship**3-6 Credits (3-6)**

Supervised technical and professional communication internship in business, industry, government, or the university. Repeatable for a total of 6 credits. Consent of instructor required.

ENGL 500. Supervised Study**1-3 Credits**

To prepare the student for the master's degree examinations by special studies in fields not covered in routine course work.

Prerequisite: consent of instructor.

ENGL 501. Online Publishing**3 Credits**

This three-credit course provides a theoretical background for online publishing and design as well as hands-on experience publishing an online arts magazine. Taught with ENGL 430.

ENGL 505. Graduate Study in Chaucer**3 Credits**

Principal works, with emphasis on the Canterbury Tales. Requirements include independent directed research.

Prerequisite: ENGL 261 or consent of instructor.

ENGL 508. Graduate Study in Shakespeare I**3 Credits**

Principal plays of Shakespeare's first two periods. Requirements include independent directed research.

ENGL 509. Graduate Study in Shakespeare II**3 Credits**

Principal plays of Shakespeare's last two periods. Requirements include independent directed research.

ENGL 510. Proseminar in Rhetoric and Professional Communication**3 Credits**

Introduction to research in rhetoric and professional communication. Taught with ENGL 610.

ENGL 511. Discourse and Theories**3 Credits**

Investigates theories describing how humans use language and considers production, reception, and cultural context. Topics vary. Repeatable for a maximum of 6 credits.

ENGL 512. Graduate Study in Writing in the Workplace**3 Credits**

Study of workplace writing practices, including a focus on research-based, theoretical, and pedagogical approaches to professional communication.

ENGL 513. Creative Writing Workshop: Fiction**3 Credits**

Advanced creative writing prose workshop. Imaginative writing, chiefly the narrative. Graduate level workshop for students who are not in the English Department MFA program. May be repeated for a maximum of 12 credits. Taught with ENGL 413 with additional work required at the graduate level.

ENGL 514. Creative Writing Workshop: Poetry**3 Credits**

Creative writing poetry workshop for advanced writers of poetry. Graduate level works for students who are not in the English Department MFA program. Repeatable for a maximum of 12 credits. Taught with ENGL 414 with additional work required at the graduate level.

ENGL 516. Graduate Study in Approaches to Literature**3 Credits**

Understanding, appreciation, techniques of instruction in the high school. Requirements include independent directed research.

Prerequisite: at least 6 credits in upper-division English courses.

ENGL 517. Graduate Study in Critical Theory**3 Credits**

Advanced study of one or more major trends in theoretical inquiry within English studies. Some prior study of theory, such as English 301, 302, or 303, strongly recommended. Repeatable under different subtitles.

ENGL 518. History of Rhetoric**3 Credits**

An investigation of the crucial writings that have shaped Western attitudes towards and practice of rhetoric. Course will examine key texts from the Greeks through the Enlightenment, especially as they have influenced contemporary rhetorical theory.

ENGL 519. Graduate Study in Modern Rhetorical Theory**3 Credits**

Major figures in rhetorical theory, with particular emphasis on developments in rhetorical theory in the 20th century. Students will be responsible for all requirements of ENGL 419 and will in addition undertake independent directed research.

ENGL 520. Workshop: Advanced Composition**3 Credits**

Intensive work in composition in a workshop setting.

ENGL 521. Graduate Study in a Literary Period or Movement**3 Credits**

Close study of a topic in a particular literary period or movement.

Requirements include independent directed research. Repeatable under different subtitles.

ENGL 522. Graduate Study in a Literary Form or Genre**3 Credits**

Close study of a topic in a particular literary form or genre. Requirements include independent directed research. Repeatable under different subtitles.

ENGL 523. Graduate Study of a Major Author**3 Credits**

Close study of selected works of a major author. Requirements include independent directed research. Repeatable under different subtitles.

ENGL 524. Graduate Study in a Major Text**3 Credits**

Close study of a major text. Requirements include independent directed research. Repeatable under different subtitles.

ENGL 525. Graduate Study in Comparative Literature**3 Credits**

Close study of a selection on non-English literary works read in translation. English-language works from a similar literary period or genre may also be read. Requirements include independent directed research. Repeatable under different subtitles.

Prerequisite: graduate standing or consent of instructor.

ENGL 526. Special Topics in Critical Theory**3 Credits**

Study of a specific historical or theoretical topic, trend, or movement in Critical Theory. Repeatable under different subtitles.

ENGL 527. Graduate Study in Film and Digital Media**3 Credits**

Offers close graduate study of a form or genre, a major figure or style, a historical period or movement, or a major theme or text. Topics vary from semester to semester.

ENGL 529. British Romanticism**3 Credits**

Intensive study of major writers and critical topics from the Romantic period. Repeatable under different subtitles.

ENGL 530. Argument Theory and Practice**3 Credits**

Examining theories of argument and how language convinces audiences to think and act in certain ways and not in others. Investigates argument across disciplines and in social/political contexts.

ENGL 531. Technical Editing**3 Credits**

Uses workshops, readings, hands-on projects, and discussion to improve skills in gathering, writing, designing, and editing technical information. For students interested in technical communication as well as students interested in developing strengths in communicating in scientific and technical fields.

ENGL 532. Gothic Literature**3 Credits**

Intensive study of gothic literature in particular historical, aesthetic, cultural, or intellectual contexts, such as American Gothic, Female Gothic, Dark Romanticism, or Vampire Literature. Repeatable under different subtitles.

ENGL 533. Victorian Literature**3 Credits**

Intensive study of major writers and critical topics from the Victorian period. Repeatable under different subtitles.

ENGL 534. Graduate Study: Form and Technique in Fiction**3 Credits**

Advanced study of issues in form and technique in fiction, including point of view, scene and dialogue, and story structure. Repeatable for a maximum of 6 credits.

ENGL 535. Graduate Study: Form and Technique in Poetry**3 Credits**

Advanced study of issues in form and technique in poetry, including voice, tone, syntax, and structure. Repeatable for a maximum of 12 credits.

ENGL 536. The Borderlands Writing Project**3-6 Credits (3-6)**

Intensive month-long seminar for practicing teachers and educators designed to improve the teaching of writing and the writing process and literacy and reading in schools and other educational contexts. Reading, discussing, and writing about current professional literature; completing teacher inquiry; and planning action research. Participants complete personal and professional writing, as well as additional professional development activities. By invitation only. Affiliated with the National Writing Project. Consent of instructor required. Crosslisted with: RDG 536

ENGL 537. Practitioner Inquiry and Literacy Action Research**1-3 Credits (1-3)**

Inquiry concerning literacy practices within specific contexts and the planning, implementing, and assessing projects designed to increase and improve literacy within that context. Instruction includes reading and web-based discussion, bi-monthly seminars, and onsite consultations. Associated with ongoing community outreach by the English Department and the Borderlands Writing Project. Consent of instructor required.

ENGL 538. Antebellum American Literature**3 Credits**

Intensive study of topics critical to the development of nineteenth century American literature before and during the Civil War, and the work of authors such as Emerson, Thoreau, Poe, Hawthorne, Melville, Whitman and Dickinson. Repeatable once under a different subtitle. May be repeated up to 6 credits.

ENGL 542. Modern and Contemporary American Poetry**3 Credits**

Studies the development of American poetry from World War I to the present. Repeatable once under a different subtitle.

ENGL 543. Multimedia Theory and Production**3 Credits**

Issues, theories, and production practices underlying design of multimedia, including rhetorical choices, aesthetic approaches, usability concerns, and diverse academic and popular discourses contributing to continued development of digital texts. Taught with ENGL 643.

ENGL 544. Modern British Fiction**3 Credits**

Study of the fiction produced in the British Isles in the 20th and 21st centuries. Repeatable once under a different subtitle.

ENGL 545. Postmodern Fiction**3 Credits**

Study of the various forms of formally innovative experimental fiction produced since 1945, with a focus on the relationship between literary history and its sociohistorical contexts. Some texts will be read in translation. Repeatable once under a different subtitle.

ENGL 548. Graduate Study in Empirical Research**3 Credits**

Introduction to empirical research methods in composition, professional communication, and rhetoric.

ENGL 549. Graduate Study in Writing**3 Credits**

Close study of a topic in composition, rhetoric, and/or technical and professional communication. Topics vary. Repeatable for a maximum of 6 credits.

ENGL 550. Graduate Study in Literacy**3 Credits**

Studies in literacy theory and literacy research. Topics may vary. Taught with ENGL 650.

ENGL 551. Practicum in the Grammar of American English**3 Credits**

Studies of formal grammar of the English language in preparation for the teaching of the English language and/or advanced linguistic analysis. Taught with ENGL 451.

ENGL 552. Graduate Study in History of the English Language**3 Credits**

This course examines the history of the English language from its Indo-European origins through its development into an international language. The aim is to describe the English language formally and to trace linguistic change over time. Samples of written English will illustrate various stages in the development of English. Also considered are contemporary social and political issues related to language, including the problem of 'standard English' and the uses of language in advertising, the media, and politics.

ENGL 553. World Literatures**3 Credits**

Study of one or more literary traditions exclusive of those originating in Europe and the United States. Readings will include texts in translation. Repeatable once under a different subtitle.

ENGL 555. Graduate Study in Rhetoric of Scientific Literature**3 Credits**

Intensive study of the rhetoric of selected works of scientific literature.

ENGL 556. Ethnic Studies in US Literature and Culture**3 Credits**

Concentrates on comparative study of literary and cultural production by two or more U.S. ethnic populations. Incorporates both literary and sociocultural readings of texts. Repeatable under different subtitles.

ENGL 558. Latino/a Literature and Culture**3 Credits**

Focuses on established and emergent Latino/a literary and cultural production. Incorporates both literary and sociocultural readings of texts. Repeatable once under a different subtitle.

ENGL 559. Black Literature and Culture in the United States**3 Credits**

Focuses on established and emergent Black U.S. literary and cultural production. Incorporates both literary and sociocultural readings of texts. Repeatable once under a different subtitle.

ENGL 560. Proposal and Grant Writing**3 Credits**

Developing proposals and grants in a workshop setting.

ENGL 561. Topics in Writing Program Administration**3 Credits**

Explores issues, theories, and research underlying the design of writing programs and the administration of writing centers. Repeatable for a maximum of 6 credits. Taught with ENGL 661.

ENGL 562. Interdisciplinary, Client-Based Project Practicum**3 Credits**

Hands-on experience in collaborating within interdisciplinary teams designing projects for organizational clients. Taught with ENGL 462.

ENGL 563. Graduate Study in English Literature**3 Credits**

Covers selected works for a particular period of English literary history. Repeatable under different subtitles.

ENGL 564. History and Theory of Composition Studies**3 Credits**

Studies in the history and theory of composition as a discipline. Taught with ENGL 664.

ENGL 565. Intercultural Rhetoric and Professional Communication**3 Credits**

Examines rhetorical traditions in intercultural professional, technical, academic, and governmental contexts. Taught with ENGL 665.

ENGL 566. Online Pedagogy for Writing and Professional Communication**3 Credits**

Course explores key issues related to teaching and learning in online environments, with a focus on the teaching of writing and professional communication. Examines digital classroom practices and the theories that inform them and evaluates applicability and relevance of available technologies.

ENGL 567. Documentary Film Theory and Criticism**3 Credits (3+3P)**

Course offers critical survey of documentary film theory and criticism including considerations of the epistemological assumptions, rhetorical choices, aesthetic approaches, political circumstances of historical and contemporary documentary film.

ENGL 568. Rhetoric and Cultural Studies**3 Credits**

Explores intersections between rhetoric and cultural studies. Examines theories and practices of texts and discourses in political and cultural contexts. Taught with ENGL 668.

ENGL 569. Graduate in American Literature**3 Credits**

A group of works from a particular period of American literary history. Repeatable under different subtitles.

ENGL 570. Graduate Study in Approaches to Composition**3 Credits**

Theory and practice of teaching writing, including classroom practices, definition of standards, and evaluation of student writing. Requirements include independent directed research.

ENGL 571. Composition Pedagogy and Practicum**3 Credits**

Examines the pedagogical implications of contemporary composition theory and research. Focuses on teaching composition at the college level. Consent of instructor required.

ENGL 572. Technical-Professional Communication: Theory and Pedagogy**3 Credits**

Topics in teaching business, technical and scientific communication in academic and workplace contexts.

Prerequisite: graduate standing.

ENGL 574. Workshop: Advanced Writing Prose**3 Credits**

Intensive practice in prose writing, primarily fiction, in a workshop environment with peer criticism. Repeatable for a total of 15 credits. Consent of instructor required.

ENGL 575. Workshop: Advanced Writing Poetry**3 Credits**

Intensive practice in poetry writing in a workshop environment with peer criticism. Repeatable for a total of 15 credits. Consent of instructor required.

ENGL 576. Workshop: Advanced Writing Playwriting**3 Credits**

Intensive practice in dramatic writing in a workshop environment with peer criticism. Repeatable for a total of 9 credits. Consent of instructor required.

ENGL 577. Workshop: Advanced Technical and Professional Writing**3 Credits**

Intensive practice in technical and professional writing and editing in a workshop environment. May be repeated for a total of 6 credits. Consent of instructor required.

ENGL 578. Topics in Rhetoric and Technology**3 Credits**

Explores intersections between rhetoric and technology, approaches may highlight theory, media production, and/or research. Repeatable for a maximum of 6 credits. Taught with ENGL 678.

ENGL 579. Computers and Writing**3 Credits**

This course will trace the history of computers and composition as a field by looking at the work of important scholars including Selfe, Hawisher, Johnson-Eilola, and Wysocki. We will then focus on specific ways new media might be integrated into composition classrooms. The course will include discussions, student facilitations, and experimentation with technologies.

ENGL 580. Graduate Problems in Creative Writing**3 Credits**

Independent study in creative writing. Consent of instructor required. Repeatable for a total of 9 credits.

ENGL 581. Women's Literature**3 Credits**

Intensive study of literature by women, in particular historical, aesthetic, cultural, or intellectual contexts. Repeatable under different subtitles. Crosslisted with: W S 584

ENGL 582. Gender and Popular Culture**3 Credits**

Intensive study of the representations of gender in popular culture. Examines the historical, aesthetic, and cultural contexts of these representation and the various critical and theoretical lenses we use to understand them. Repeatable under different subtitles. Crosslisted with: W S 582

ENGL 583. Critical Writing Studies**3 Credits**

Overview of current and historical approaches to the critical study of gender and language: how gender theoretically manifests in linguistic, social, cultural, academic, and professional contexts.

ENGL 584. Workshop: Advanced Academic Writing for International Students**3 Credits**

This workshop-based course is for graduate-level multilingual writers from all disciplines who want to improve their English academic writing in an intensive and collaborative environment. Students will propose a major writing project to workshop throughout the semester, such as dissertation, thesis, comprehensive exams, etc. Some of the topics covered will be academic language, cohesion/coherence, organization, and supporting academic arguments. Other topics to be determined by needs of the class.) 4.Consent of instructor.

Prerequisite(s): 1.Be classified as a graduate student by the Graduate School 2.Be classified as an international student whose first language is not English 3.Have a major writing project in progress (comprehensive exams, thesis, dissertation, conference paper, etc.

ENGL 585. Advanced Writing Workshop: RPC Capstone**3 Credits**

Students work to develop and revise their chosen Master's program Capstone Project (a portfolio, thesis or master essay) in consultation with instructor and classmates. Students provide and receive feedback on their work-in-progress. Consent of Instructor required.

ENGL 586. Hollywood Film**3 Credits (3+3P)**

Intensive study of Hollywood film in its artistic, cultural, or historical contexts. Repeatable under different subtitles.

ENGL 587. Modernist and Experimental Film**3 Credits**

Explores the variety of film aesthetics that depart to some degree from the conventions of classical cinema. Focuses on how film form relates to modernist, postmodernist, experimental, and avant-garde tendencies in the arts. Special attention will be paid to the implications of radical formal experimentation for cultural politics, in particular in the context of modern and contemporary history. Repeatable once under a different subtitle.

ENGL 589. Cultural Studies: Literature and Theory**3 Credits**

Examines the theory and practice of cultural studies in relation to the variety of discourse describable as literary, including autobiography, avant-garde writing, nonfiction prose, the essay, online writing, folklore, and popular genre fiction (such as mystery, romance, thriller, or horror). Repeatable once under a different subtitle.

ENGL 590. Master's Seminar in Rhetoric**3 Credits**

Studies in theories of and issues in rhetoric. Topics may vary from year to year. Repeatable for a total of 9 credits.

ENGL 591. Graduate Screenwriting**3 Credits**

Students will prepare a feature-length screenplay. Script analysis will be in an advanced workshop format. Scripts will be read and discussed, scenes performed and reactions analyzed to consider effect of dialogue, character development, etc. Aimed at preparing writers for the professional market. Consent of instructor required.

ENGL 595. Master's Workshop: Poetry**3-6 Credits (3-6)**

Students will submit a draft of thesis project for workshop critique. Revision of the thesis draft submitted to the instructor. Restricted to MFA CW majors.

Prerequisite(s): Enrolled in MFA penultimate semester.

ENGL 596. Master's Workshop: Fiction**3-6 Credits**

Students will submit a draft of thesis project for workshop critique. Revision of the thesis draft submitted to the instructor. Restricted to MFA CW majors.

Prerequisite(s): Enrolled in MFA penultimate semester.

ENGL 597. Internship in Technical and Professional Communication**3-6 Credits (3-6)**

Supervised technical and professional communication in business, industry, government, or the university. May be repeated for a total of 6 credits. Consent of instructor required.

ENGL 598. Master's Essay**3 Credits**

Students electing the master essay option complete revision of a scholarly essay of 25-30 pages, the approximate length of a journal article, and reformulation of this essay to the 7-8 pages appropriate for presentation at a conference. This option also requires research of appropriate publication venues and a final oral defense of the project. A supervising faculty member will approve the selected essay, guide revision, and help students form an examining committee, which consists of at least two members of the graduate English faculty and one member of the graduate faculty from outside the department. Students are encouraged to undertake the Master Essay process in the first half of their third semester of full time graduate work, or soon after completing 18 hours of course work. This option is the preferred exam option, particularly for those students who intend to pursue Ph.D. study. Consent of instructor required.

ENGL 599. Master's Thesis**1-15 Credits**

Thesis.

ENGL 600. Doctoral Research**1-15 Credits**

Assigns credit for research performed prior to the doctoral comprehensive examination.

ENGL 601. Qualitative Research**3 Credits**

Theory and practice of designing research studies and of collecting and analyzing data. Emphasis on qualitative methods of research in composition, professional communication, and rhetoric.

ENGL 602. Quantitative Research**3 Credits**

Theory and practice of designing quantitative research studies and of collecting and analyzing data. Emphasis on quantitative methods of research in composition, professional communication, and rhetoric.

ENGL 603. Rhetorical Criticism and Methodology**3 Credits**

Theory and practice of designing research studies and of collecting and analyzing data. Emphasis on methods of rhetorical criticism.

ENGL 604. Digital Research Methods**3 Credits**

This course will serve as one of the core methods courses in the RPC PhD program, focusing on "digital" methods in rhetorical studies. As such, the aim of this class is to help you begin to gain confidence in conducting research in rhetoric, professional communication, and composition using digital methods. In this course we will assume that digital methods in rhetoric take broadly two forms: first, digital methods of acquisition, processing, and presentation of research data. And second, digital methods of production and circulation of rhetorical objects. The former closely resembles the methods of "digital humanities" while the latter will be closer to media archaeology and "critical making" practices. In all cases, we will relate these tools and methods to key questions and theories in our field, asking how and why we might apply digital methods in rhetorical scholarship.

Prerequisite(s): graduate standing.

ENGL 610. Proseminar in Rhetoric and Professional Communication**3 Credits**

Introduction to research in rhetoric and professional communication. Required of and limited to students enrolled in the Ph.D. program in Rhetoric and Professional Communication.

ENGL 643. Multimedia Theory and Production**3 Credits**

Issues, theories, and production practices underlying design of multimedia, including rhetorical choices, aesthetic approaches, usability concerns, and diverse academic and popular discourses contributing to continued development of digital texts. Taught with ENGL 543.

ENGL 646. Teaching Rhetoric and Writing with English Language Learners**3 Credits**

This course introduces students to the rich interdisciplinary world of writing for English language learners with the goal of helping researchers and instructors understand the unique characteristics and needs of ELL writers. It also examines Generation 1.5, bilingualism, and Spanish-dominant writers along the U.S.-Mexico Border. The course prepares students to work with ELL writing in curriculum design, needs analysis, classroom implementation, assessment, writing program administration, and institutional policies. The course will be a requirement for those GAs seeking to teach experimental sections of first-year multilingual composition at NMSU.

Prerequisite(s): graduate standing.

ENGL 649. Graduate Study in Writing**3 Credits**

Close study of a topic in composition, rhetoric, and/or technical and profession communication. Repeatable for a total of 6 credits.

ENGL 650. Graduate Study in Literacy**3 Credits**

Studies in literacy theory and literacy research. Topics may vary. Taught with ENGL 550.

ENGL 661. Topics in Writing Program Administration**3 Credits**

Explores issues, theories, and research underlying writing programs and the administration of writing centers. Repeatable for a maximum of 6 credits. Taught with ENGL 561.

ENGL 664. History and Theory of Composition Studies**3 Credits**

Studies in the history and theory of composition as a discipline. Taught with ENGL 564.

ENGL 665. Intercultural Rhetoric and Professional Communication**3 Credits**

Examines rhetorical traditions in intercultural professional, technical, academic, and governmental contexts. Taught with ENGL 565.

ENGL 667. Documentary Film Theory and Criticism**3 Credits (3+3P)**

Course offers critical survey of documentary film theory and criticism including considerations of the epistemological assumptions, rhetorical choices, aesthetic approaches, and political circumstances of historical and contemporary documentary film. Taught with ENGL 567

ENGL 668. Rhetoric and Cultural Studies**3 Credits**

Explores intersections between rhetoric and cultural studies. Examines theories and practices of texts and discourses in political and cultural contexts. Taught with ENGL 568.

ENGL 678. Topics in Rhetoric and Technology**3 Credits**

Explores intersections between rhetoric and technology, approaches may highlight theory, media production, and/or research. Repeatable for a maximum of 6 credits. Taught with ENGL 578.

ENGL 683. CRITICAL WRITING STUDIES**3 Credits**

This course investigates the field of Writing Studies as a distinct field of study, related to but not synonymous with Composition Studies. While debates surrounding the relationships among Writing Studies and Composition Studies flourish, this course centers on the former—investigating writing as a practice, process, and object that merits attention in its own right. Such attention will be grounded in contemporary critical and cultural theory that contests writing as a positive or neutral sign (i.e. activity theory, posthumanism, ecocriticism, new materialism, new media studies; feminist, queer, critical race or decolonial theory). Crosslisted with: ENGL 583.

Prerequisite(s): graduate standing.

ENGL 690. Doctoral Seminar in Rhetoric**3 Credits**

Studies in theories of and issues in rhetoric. Topics may vary from year to year. Repeatable for a maximum of 9 credits.

ENGL 700. Doctoral Dissertation**15 Credits**

Dissertation.

ENGR-ENGINEERING (ENGR)

ENGR 100. Introduction to Engineering**3 Credits (2+3P)**

An introduction to the various engineering disciplines, the engineering approach to problem solving, and the design process. Projects emphasize the importance of teamwork, written & oral communication skills, as well as ethical responsibilities.

Prerequisite(s)/Corequisite(s): MATH 121G.

ENGR 100H. Introduction to Engineering**3 Credits (2+3P)**

An introduction to the various engineering disciplines, the engineering approach to problem solving, and the design process. Projects emphasize the importance of teamwork, written & oral communication skills, as well as ethical responsibilities. Pre/

Corequisite(s): MATH 190G.

ENGR 111. Mathematics for Engineering Applications**3 Credits**

An introduction to engineering mathematics and basic programming skills needed to perform elementary data manipulation and analysis. Consent of Instructor required.

Prerequisite(s)/Corequisite(s): MATH 190G. Prerequisite(s): MATH 121G.

ENGR 198. Special Topics in Engineering**1-3 Credits**

Directed individual study of topics in engineering. Written reports covering work required. May be repeated for a maximum of 6 credits. Restricted to engineering majors. Graded S/U.

Prerequisite: consent of academic dean.

ENGR 398. Engineering Leadership Seminar**3 Credits (3)**

This course introduces students to concepts and skills related to leadership positions held at the University in the College of Engineering. The course will provide theory and practice in leadership; provide skills in effective oral communications and presentation, team building skills, and general knowledge of NMSU and the College of Engineering. May be repeated up to 18 credits. Consent of Instructor required.

ENVE-ENVIRONMENTAL ENGINEERING (ENVE)

ENVE 450. Aquatic Chemistry**3 Credits**

Theoretical aspects of physical chemistry applied to the solution of environmental engineering problems. Emphasis on carbonate equilibrium solubility, buffering and redox conditions. Crosslisted with: ENVE 550.

Prerequisite(s): C E 256.

ENVE 451. Unit Processes/Operation of Water Treatment**3 Credits**

Theory and applications with unit processes in environmental engineering. Physical and chemical treatment methods are emphasized. Crosslisted with: ENVE 551.

Prerequisite(s): C E 356.

ENVE 452. Unit Processes/ Operation of Wastewater Treatment**3 Credits**

Theory and applications with unit processes in environmental engineering. Biological treatment methods are emphasized. Crosslisted with: ENVE 552.

Prerequisite(s): C E 356.

ENVE 456. Environmental Engineering Design**3 Credits (2+3P)**

Design of chemical, physical and biological operations and processes involved in water and wastewater treatment.

Prerequisite: C E 356.

ENVE 458. Urban Water-Energy-Environment Systems**3 Credits**

An introduction to environmentally sustainable solutions to water-energy nexus. This course integrates scientific principles, engineered processes, and systems analyses to address society's growing needs of water and renewable energy and their interconnections with environment.

Prerequisite(s): C E 256.

ENVE 459. Environmental Microbiology**3 Credits**

An introduction to the diverse roles of microorganisms in natural and engineered environments. The topics include cellular architecture, energetics, and growth; population and community dynamics; water and soil microbiology; biogeochemical cycling; and microorganisms in biodegradation and bioremediation of contaminants.

ENVE 462. Sampling and Analysis of Environmental Contaminants**3 Credits (1+6P)**

Theory, application, methodology, and instrumentation used in the sampling and analysis of environmental contaminants. Same as E S 462.

Prerequisites: C E 256 and E S 256.

ENVE 487. Air Pollution Control Systems Design**3 Credits**

An introduction to sources and nature of air pollution, regulations, and risk analysis. Detailed study of air pollution control technologies and design of air pollution control equipment.

Prerequisite(s): Senior or graduate standing.

ENVE 550. Aquatic Chemistry**3 Credits**

Theoretical aspects of physical chemistry applied to the solution of environmental engineering problems. Emphasis on carbonate equilibria solubility, buffering and redox conditions. May be repeated up to 3 credits. Consent of Instructor required. Crosslisted with: ENVE 450.

Prerequisite(s): C E 256.

ENVE 551. Unit Processes/Operation of Water Treatment**3 Credits**

Theory and applications with unit processes in environmental engineering. Physical / chemical treatment methods emphasized. May be repeated up to 3 credits. Crosslisted with: ENVE 451. Restricted to: ENVE majors.

Prerequisite(s): C E 356.

ENVE 552. Unit Processes/Operation of Wastewater Treatment**3 Credits**

Theory and applications with unit processes in environmental engineering. Biological treatment methods emphasized. May be repeated up to 3 credits. Consent of Instructor required. Crosslisted with: ENVE 452. Restricted to: ENVE majors.

Prerequisite(s): Consent of instructor.

ENVE 552 L. Unit Processes/Operation of Wastewater Treatment**Laboratory****1 Credit**

Dry laboratory emphasizing design of common unit operations/processes in biological treatment. Restricted to majors.

Prerequisite: consent of instructor.

Corequisite: ENVE 552.

ENVE 557. Surface Water Quality Modeling**3 Credits**

Modeling the impacts of waste disposal practices on surface waters. Emphasis on fate and transport of bacteria, dissolved oxygen, nutrients, and toxicants in rivers, lakes, and tidal waters. Restricted to majors.

ENVE 598. Special Research Programs**1-3 Credits**

Individual investigations either analytical or experimental. May be repeated for a maximum of 6 credits. Restricted to majors.

ENVE 599. Master's Thesis**15 Credits**

Thesis. May be repeated for a maximum of 6 credits.

ENVE 630. Fate and Transport of Environmental Contaminants**3 Credits**

Modeling of transport phenomena in natural and engineered systems for predicting the fate of contaminants in the air, soil, sediment, and water compartments of the ecosystem.

Prerequisites: C E 555 and consent of instructor.

EPWS-ETMLGY/PLNT PTHLGY/WD SCI (EPWS)

EPWS 100. Applied Biology**3 Credits**

Introduction to applied biology and ecology focusing on insects, plants and pathogens in natural areas, crops and urban settings. EPWS 100L is strongly recommended to take in the same semester. May be repeated up to 3 credits. Restricted to Las Cruces campus only.

EPWS 100 L. Applied Biology Lab**1 Credit**

Study of applied biology and ecology of insects, plants and pathogens in natural areas, crops, and urban settings. EPWS 100 strongly recommended to take in the same semester. May be repeated up to 1 credits. Restricted to Las Cruces campus only.

EPWS 200. Special Topics**1-4 Credits**

Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

EPWS 300. Special Topics**1-4 Credits**

Specific topics and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

EPWS 301. Agricultural Biotechnology**3 Credits (2+2P)**

The principles of molecular biology will be introduced and used to explore the past, present, and future applications of biotechnology in agriculture. Specific topics include methodologies for making transgenic plants with increased pest resistance, the use of biotechnology in pest detection, and improving nutritional value. The laboratory will provide students with hands-on experience with equipment used for biotechnology research.

Prerequisites: CHEM 112G, BIOL 111G, or BIOL 211G.

EPWS 302. General Entomology**4 Credits**

An introduction to the biology and classification of insects. Lecture covers life histories, classification, ecology and behavior of insect orders and families. Laboratory focuses on identification of insect orders and families.

Prerequisite(s): BIOL 111G or 211G.

EPWS 303. Economic Entomology**3 Credits (3+2P)**

Identification and life cycles of insects of economic significance, their relationship to humans and agriculture including biological interactions and controls. May be repeated up to 3 credits.

Prerequisite(s): Either BIOL 111G or BIOL 211G.

EPWS 310. Plant Pathology**4 Credits (3+2P)**

Causes and methods of prevention and treatment of diseases in plants.

Prerequisite(s): Either BIOL 111G or BIOL 211G.

EPWS 311. Introduction to Weed Science**4 Credits (3+2P)**

Principles of weed science, with emphasis on characteristics of invasive plants, methods of integrated weed management, and current issues impacting weed management. Identification of local weeds. Crosslisted with: AGRO 311.

Prerequisite(s): CHEM 111G, and BIOL 211G.

EPWS 314. Plant Physiology**3 Credits**

Overview of photosynthesis, respiration, water relations of plants, minerals and organic nutrition, growth and development. Same as BIOL 314.

Prerequisites: BIOL 211G, CHEM 112G.

EPWS 325V. Insects, Humans, and the Environment**3 Credits**

Overview of the interactions of the world's largest group of organisms with humans. Emphasizing the role of insects in the development of human cultures, including health, food and fiber production, art, music, and environmental issues; with discussions of historic, present day, and future impacts in underdeveloped, developing, and developed civilizations.

EPWS 373. Fungal Biology**3 Credits (2+2P)**

Introduction to the taxonomy, morphology, physiology, and ecology of fungi. Same as BIOL 373.

Prerequisites: EPWS 310 or BIOL 311, or consent of instructor.

EPWS 380V. Science & Society**3 Credits**

Analysis and evaluation of how human activities affect the earth's environment or ecosystems. Several examples, from global issues to local issues will be studied in detail. Current science and the intersection of science and public policy will be discussed in relation to problems like world population, agricultural productivity, deforestation, medical advances, and future prospects for the environment. May be repeated up to 3 credits.

EPWS 390. Internship**1-3 Credits**

Professional work experience under the joint supervision of the employer and a faculty member. A written report is required. Maximum of 3 credits. Graded S/U.

Prerequisite: consent of instructor.

EPWS 420. Environmental Behavior of Pesticides**3 Credits**

Behavior of pesticide compounds in the environment, their function toward target and non target pest organisms including humans, effect of environmental conditions on pesticide function, ecology of organisms involved in pesticides degradation, overview of environmental regulation. CHEM 211 recommended prior to course. May be repeated up to 3 credits.

EPWS 447. Seminar**1 Credit**

Organization and techniques for the oral presentation of research information. Restricted to: Main campus only.

EPWS 449. Special Problems**1-3 Credits**

Individual investigation in specific areas of entomology, plant pathology or plant physiology. Maximum of 3 credits per semester and a grand total of 6 credits.

EPWS 451. Special Topics**1-4 Credits**

Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

Prerequisite: consent of instructor.

EPWS 455. Advanced Integrated Pest Management**3 Credits**

Examination of factors affecting the biology and ecology, population evaluations, and control of insect, disease, and weed pests with an emphasis on integrating management practices. Credit cannot be given for both EPWS 455 and EPWS 505. Crosslisted with: EPWS 505.

Prerequisite(s): Either EPWS 303 or EPWS 310 or EPWS 311, or consent of instructor.

EPWS 462. Parasitology**3 Credits**

Introduction to classification, biology, ecology and management of the major parasites of human, domestic animals and wildlife.

EPWS 462 L. Parasitology Lab**1 Credit**

Methods of collecting and identifying the major parasites of humans, domestic animals and wildlife. Concurrent enrollment in EPWS 462 is desirable.

EPWS 471. Plant Mineral Nutrition**3 Credits**

Same as HORT 471 and AGRO 471.

EPWS 481. Plant Nematology**3 Credits (2+2P)**

Biology, ecology and basic identification of soil-inhabiting nematodes, with emphasis on host-parasite relationships and management principles for plant-parasitic genera.

EPWS 486. Plant Virology**3 Credits**

An overview of viral pathogens associated with infectious plant disease. Includes pathogens, replication, genetics, transmission, and movement of plant viruses.

EPWS 492. Diagnosing Plant Disorders**3 Credits (2+3P)**

Systematic diagnosis of the physiological, pathological, and entomological causes of plant disorders. Same as AGRO 492 and HORT 492.

Prerequisites: EPWS 303, EPWS 310.

EPWS 502. General Entomology**4 Credits**

An introduction to the biology and classification of insects. Lecture covers life histories, classification, ecology and behavior of insect orders and families. Laboratory focuses on identification of insect orders and families.

Prerequisite(s): BIOL 111G or BIOL 211G.

EPWS 505. Advanced Integrated Pest Management**3 Credits**

Examination of the factors affecting the biology and ecology, population evaluations, and control of insect, disease, and weed pests, with an emphasis on integrating management practices. Crosslisted with: EPWS 455.

Prerequisite(s): EPWS 303 or EPWS 310 or EPWS 311 or consent of instructor.

EPWS 511. Introduction to Weed Science (f)**4 Credits (3+2P)**

Covers the principles of weed science with emphasis on characteristics of invasive plants, methods of integrated weed management, and current issues impacting weed management. Includes identification of local weeds. Research paper required for graduate credit. Crosslisted with: AGRO 511.

Prerequisite(s): CHEM 111G and BIOL 211G.

EPWS 514. Plant Physiology**3 Credits**

Overview of photosynthesis, respiration, water relations of plants, minerals and organic nutrition, growth and development.

Prerequisite(s): BIOL 211G, CHEM 112G.

EPWS 520. Environmental Behavior of Pesticides (so)**3 Credits**

Behavior of these compounds in the environment, their function toward target and non target pest organisms including humans, effect of environmental conditions on pesticide function, ecology of organisms involved in pesticides degradation, overview of environmental regulation. CHEM 211 recommended prior to course. May be repeated up to 3 credits.

EPWS 525. Scientific Writing- How to be a Productive and Effective Writing**1-3 Credits (1-3)**

Students will learn to improve their writing skills so that their manuscript preparation process is more efficient and productive. Students will also gain experience in peer-review. Crosslisted with: AGRO 525, HORT 525 and SOIL 525.

EPWS 549. Special Problems**1-4 Credits**

Individual investigation in specific areas of entomology, plant pathology, and weed science. Maximum of 4 credits per semester and a total of 6 credits.

EPWS 551. Special Topics**1-4 Credits**

Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree.

EPWS 573. Fungal Biology**3 Credits (2+2P)**

Introduction to the taxonomy, morphology, physiology, and ecology of fungi. Same as BIOL 573.

Prerequisite: EPWS 310 or consent of instructor.

EPWS 575. Urban Entomology**3 Credits**

Identification and life cycles of insects in urban environments, their relationship to humans, agriculture, biological interactions and controls

Prerequisite(s): Either BIOL 111G or BIOL 211G.

EPWS 590. Graduate Seminar**1 Credit**

Review of current scientific literature in entomology, plant pathology, and weed science, and verbal presentation of information. No more than 2 credits toward a degree.

EPWS 598. Graduate Internship**1-6 Credits**

Supervised professional on-the-job learning experience. Limited to Master of Agriculture candidates. Not more than 6 credits toward the degree.

EPWS 599. Master's Thesis**15 Credits**

Thesis.

FCS-FAMILY AND CHILD SCIENCE (FCS)

FCS 181. Interpersonal Skills in Intimate Relationships**3 Credits**

Developing social skills within friendships, dating relationships, marriage, parenting, and families. May be repeated up to 3 credits. Restricted to Las Cruces and Dona Ana campuses.

FCS 210. Infancy and Early Childhood in the Family**3 Credits**

Research and theory relevant to prenatal development and the physical, mental, and socio-emotional development of the child from birth to age five. Attitudes, knowledge, and skills needed for working with young children and their families. Restricted to Las Cruces campus only.

FCS 211. Middle Childhood Development in the Family**3 Credits**

Research and theory relevant to the physical, mental, social, and emotional development of the child from age five to age twelve. Attitudes, knowledge, and skills related to working with school-age children in the family system. Observation in a variety of settings may be required. Restricted to Las Cruces campus only.

FCS 212. Adolescent Development and the Family**3 Credits**

Research and theory relevant to the physical, mental, social, and emotional development of the children ages 12 to 18. Attitudes, knowledge, and skills related to working with adolescents in the family system. Observation in a variety of settings may be required. Restricted to Las Cruces campus only.

FCS 213. Adult Development and Aging**3 Credits**

Research and theory related to the physical, mental, social, and emotional development of older adults. Attitudes, knowledge, and skills related to working with older adults in the family system, including normative, and nonnormative transitions. Restricted to Las Cruces campus only.

FCS 300. Special Topics**1-4 Credits**

Specific subjects and credits announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

FCS 301. Personal and Family Finance**3 Credits**

Principles, processes and procedures involved in effective utilization and management of financial resources to meet the needs of individuals and/or families. Open to nonmajors.

FCS 302. Consumer Practices and Problems for Families**3 Credits**

Consumer issues related to social, political, and economic components of the larger social system. Focuses on consumer rights and responsibilities within the marketplace.

FCS 380. Family Dynamics**3 Credits**

The dynamics of family relationships and changes influencing contemporary families. Interaction between the family and other social systems will be examined. Open to nonmajors.

FCS 383. Parenting and Child Guidance**3 Credits**

Theories, principles, and skills essential for parents and professionals in guiding children within the family system. Problem prevention techniques are stressed.

FCS 424. Field Experience: Issues and Ethics**4 Credits**

Supervised work experience in community agencies providing services to family systems. Discussion of professional issues and ethical dilemmas. A total of 8 credits must be taken. Consent of instructor required. Restricted to: Main campus only. Restricted to FCS majors.

Prerequisite(s): FCS 380 or equivalent, junior standing, and an overall GPA of at least 2.5 and consent of instructor.

FCS 449V. Family Ethnicities and Subcultures**3 Credits**

Comparative study of American family subsystems with respect to selected social, economic, and cultural backgrounds. Interaction of these subsystems in American society. Differentiated assignments for graduate students.

FCS 492. Special Problems**1-4 Credits**

Individual research in a selected subject area of family and consumer sciences. Maximum of 4 credits per semester and a total of 6 credits.

FCS 510. Infancy and Early Childhood in the Family**3 Credits**

Research and theory relevant to prenatal development and the physical, mental, and socio-emotional development of the child from birth to age 5. Attitudes, knowledge, and skills needed for working with young children and their families. May be repeated up to 3 credits.

FCS 511. MIDDLE CHLDHD DEV IN FMLY**3 Credits**

Research and theory relevant to the physical, mental, and socio-emotional development of children from ages five to twelve. Attitudes, knowledge, and skills needed for working with school-age children and their families. May be repeated up to 3 credits.

FCS 512. Adolescent Development and the Family**3 Credits**

Advanced study in research and theory relevant to the physical, mental, social, and emotional development of the child, ages 12-18. Attitudes, knowledge, and skills related to working with adolescents in the family system. May be repeated up to 3 credits.

FCS 524. Supervised Practicum**1-9 Credits**

Supervised experience in organizations providing services to families and children. Course subtitled in the Schedule of Classes. May be repeated for a maximum of 9 credits. Graded S/U.

Prerequisite: consent of instructor.

FCS 525. Supervised Clinical Practice**1-9 Credits (2-18P)**

Supervised clinical experience in Marriage and Family Therapy. Includes reviews of audio, video, and/or live sessions and case presentations. Maximum of 9 credits toward a degree. May be repeated up to 20 credits.

FCS 548. Adult Development and Aging**3 Credits**

Advanced study in research and theory related to the physical, mental, social, and emotional development of older adults. Attitudes, knowledge, and skills related to working with older adults in the family system, including normative and non-normative role transitions.

FCS 549. Family Ethnicities and Subcultures**3 Credits**

Comparative study of American family subsystems with respect to selected social, economic and cultural backgrounds. Interaction of these subsystems in American society. Students responsible for all requirements for FCS 449V plus additional work.

FCS 562. The Business and Practice of Marriage and Family Therapy**1 Credit**

This seminar course will provide students with an overview of the business and practice of Marriage and Family Therapy to the end that they will understand how to develop and maintain a private practice in the field of MFT. Restricted to: FCS (MFT) majors. S/U Grading (S/U, Audit).

FCS 572. Family Dysfunction and Diagnosis**3 Credits**

A study of the development of abnormal behavior patterns and characteristics to include the major mental and personality disorders and how these can influence and impact family systems. Emphasis is on the symptomology and/or life circumstances and events described in the various diagnostic categories.

Prerequisite(s): Students must be enrolled in a clinical program (i.e MFT, CEP, MSW).

FCS 582. Theories of Marriage and Family Therapy**2 Credits**

A balanced study of major theories, research, applications and principles of marriage and family therapy. This course will examine major therapy models and the theories they are derived from as well as the effectiveness of specific therapy models for specific mental health disorders through research. May be repeated up to 4 credits.

FCS 583. Parenting and Child Guidance**3 Credits**

Theories, principles, and skills essential for parents and professionals in guiding children within the family system. Problem prevention techniques are stressed.

FCS 584. Family Law and Ethics**3 Credits**

Study of selected aspects of federal and state laws and ethical issues as they relate to the family system.

FCS 585. The Family System**3 Credits**

Contemporary family interaction: concepts, composition, resource and environment.

FCS 586. Sexuality and Family Dynamics**3 Credits**

Psychosocial and physiological aspects of human sexuality from a life span and family systems perspective.

FCS 587. Contemporary Marriage and Family Issues**3 Credits**

Investigation of one of the following topics each semester: dual career marriages, nontraditional relationships, aged in marriage.

FCS 589. Family Crises and Rehabilitation**3 Credits**

Examination of the major crises experienced by families. Emphasis on family system functioning rather than individual functioning. Preventative measures, positive coping strategies, and therapeutic intervention approaches examined.

FCS 590. Special Topics**1-4 Credits**

Specific subjects to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a total of 9 credits toward a degree.

FCS 592. Strategies in Family Therapy**2 Credits**

Effective intervention strategies in family therapy practice. Live and taped role plays of interventions for various family problems required. Constructive approaches for working with family systems and third-party payers. May be repeated up to 4 credits.

FCS 598. Special Research Programs**1-4 Credits**

Individual investigations either analytical or experimental. Maximum of 4 credits per semester and no more than 6 credits toward a degree.

FCS 599. Master's Thesis**15 Credits**

Thesis

FCSC-FAMILY & CONSUMER SCI (FCSC)

FCSC 400. Research Methods in Family and Consumer Sciences**3 Credits**

Introduction to research design and methodology in Family and Consumer Sciences. Overview of common research designs and data collection strategies. Prepares students to critique published research and perform basic skills including hypotheses development and conducting a literature search.

FCSC 500. Research Methods**3 Credits**

This course covers the critical evaluation of research literature, development of research proposals and principles of program evaluation. Students will be introduced to the application of qualitative or quantitative methods. Students will be expected to develop research questions and test hypotheses using statistical analysis and a variety of methodologies.

FCSC 598. Special Research Programs**1-4 Credits**

Individual investigations, either analytical or experimental. Maximum of 4 credits per semester and no more than 6 credits toward a degree.

FCSC 599. Master's Thesis**15 Credits**

May be repeated for unlimited credit, maximum of 6 credits toward a degree.

FCSE-FAMILY & CONSUMER SCI EDU (FCSE)

FCSE 235. Housing and Interior Design**3 Credits**

Investigation of types of housing and factors impacting housing decisions for families. Selection, planning, and arrangement of interior components of homes to meet the needs of the family. Restricted to Las Cruces campus only.

Prerequisite(s): No prerequisites.

FCSE 245. Overview of Family and Consumer Sciences Teaching**3 Credits**

Overview of planning and teaching skills. Supervised experiences in observing and directing the learning of secondary family and consumer sciences students. Philosophy and history of the profession.

FCSE 345. Management Concepts in Family and Consumer Sciences**Teaching****3 Credits**

Incorporation and application of management concepts in family and consumer sciences subject matter. Practical experience teaching management and ways to use management skills to plan, implement, and evaluate the teaching-learning transaction.

FCSE 348. Teaching in Informal Family and Consumer Sciences Settings**3 Credits**

Learning principles and theories with application in informal family and consumer sciences education situations. Includes supervised experience in use of teaching strategies.

Prerequisite: overall GPA of at least 2.5 or consent of instructor.

FCSE 445. Career and Technical Education Programs**3 Credits**

History and development of career and technical programs. Ancillary functions of family and consumer sciences teachers, including student evaluation and leadership development for students. Experiences in extension programs and teaching. Ethical issues and concerns of educators are introduced. Lifelong leadership development and evaluation tools for educators are explored. May be repeated up to 3 credits.

FCSE 446. Teaching Methods I for Family and Consumer Sciences 3 Credits

Objectives, content, and organization of family and consumer sciences curriculum in high schools; materials and methods of teaching.

Restricted to majors.

Prerequisites: FCSE 245 and FCSE 345 and an overall GPA of at least 2.5, or consent of instructor.

FCSE 447. Teaching Methods II for Family and Consumer Sciences 3 Credits

Planning, preparation, and strategies for teaching family and consumer sciences in the secondary schools. Preparation for employment.

Restricted to majors.

Prerequisites: FCSE 245, FCSE 345, FCSE 445, FCSE 446 and an overall GPA of at least 2.5, or consent of instructor.

FCSE 448. Supervised Teaching in Family and Consumer Sciences 12 Credits

Seventy (70) days of full-time supervised teaching in selected high schools. Consent of Instructor required. Restricted to: FCSE majors.

Prerequisite(s): FCSE 446, an overall GPA of at least 2.5, and consent of instructor.

FCSE 492. Special Problems

1-4 Credits

Individual research study in a selected subject area of family and consumer sciences. Maximum of 4 credits per semester and 6 credits toward degree.

FCSE 545. Graduate Study in Vocational Programs for Youth and Adults 3 Credits

History and development of career and technical programs. Ancillary functions of family and consumer sciences teachers, including student evaluation and leadership development for students. Experiences in extension programs and teaching. Ethical issues and concerns of educators are introduced. Lifelong leadership development and evaluation tools for educators are explored. May be repeated up to 3 credits.

FCSE 546. Graduate Study in Teaching Methods I 3 Credits

Objectives, content, and organization of family and consumer sciences in high schools; materials and methods of teaching. Additional assignments beyond FCSE 446 required for students registering in FCSE 546.

FCSE 547. Graduate Study in Teaching Methods II 3 Credits

Planning, preparation, and strategies for teaching family and consumer sciences in the secondary schools. Additional assignments beyond FCSE 447 required for students registering in FCSE 547.

FCSE 548. Graduate Study in Supervised Teaching in Family and Consumer Sciences 12 Credits

Seventy of full-time, supervised teaching in selected schools. Additional assignments beyond FCSE 448 required for students registering in FCSE 548. Consent of Instructor required.

Prerequisite(s): FCSE 446 or FCSE 546, and consent of instructor.

FCSE 590. Special Topics

1-4 Credits

Specific subjects and credits to be announced in the Schedule of Classes. May be repeated for a maximum of 9 credits toward a degree, 4 credits per semester.

FIN-FINANCE (FIN)

FIN 206. Introduction to Finance

3 Credits

Theory and techniques of financial management for business firms.

Includes application of financial analysis tools and techniques needed for business financial administration and decision making. Restricted to Community Colleges campuses only.

Prerequisite(s): BOT 106 or higher; BOT 120 or ACCT 221; ECON 201 or ECON 251.

FIN 210. Financial Planning and Investments

3 Credits

Individual financial planning and related financial markets and institutions. Community Colleges only.

FIN 303V. Personal Financial Planning and Investing in a Global Economy 3 Credits

Provides a framework for successful personal financial planning within an individual's career and income. Covers personal money management, federal and state taxation, the mathematics of finance and credit, housing, inflation, insurance, savings, and investments. Majors and minors may not use this course to satisfy their finance requirements.

FIN 311. Financial Futures Markets

3 Credits

Same as AG E 311.

FIN 322. Principles of Insurance

3 Credits

Theory and practice of insurance and its economics and social significance; review of the major lines of insurance including life, health, and property liability insurance.

FIN 323. Life/Health/Employee Benefits

3 Credits

Approaches to problems of employee security from the perspective of businesses. Topics including pensions, profit-sharing plans, 401(k) plans, group life and health plans, and flexible benefit programs. The course also addresses individual life, health, and annuity contracts within a financial planning context.

Prerequisite: FIN 322.

FIN 324. Property and Liability Insurance

3 Credits

Analysis of property and liability insurance with emphasis on handling of commercial exposures. Review of property and liability company operations including rate making and insurance accounting. Prerequisite: FIN 322

FIN 325. Real Estate Principles and Law I

3 Credits

Real estate law and the fundamental aspects of the real estate purchase transaction and the real estate lease agreement. Topics include real estate brokerage, marketing of real estate, fundamental legal aspects of real estate, present and future interests, air and water rights, methods of transfer, basics of financing and liens, and real estate leases. Same as BLAW 325.

FIN 326. Business Risk Management

3 Credits

The operational risks faced by firms and the study of various methods of handling these risks, including loss prevention, risk retention, self-insurance, corporate insurance programs, and capital markets.

Prerequisites: FIN 322

FIN 327. Analysis of the Excess and Surplus Lines Insurance**3 Credits**

Analysis of excess and surplus lines segment of the insurance industry, including ratemaking, pricing of insurance, regulation, marketing of insurance, reinsurance, and product development. Students groups will research and design a new insurance product as part of the class.

FIN 331. Business Creation and Valuation**3 Credits**

The course is designed to provide a first look at the entrepreneurship process by focusing how the firm will/does create value in the marketplace. As such, it is designed to integrate knowledge of business functions and apply business analysis techniques to the valuation of new ventures/entrepreneurial firms.

FIN 332. Entrepreneurial Finance**3 Credits**

The course is structured to provide a parallel learning experience of financing methods/theory and project work focused on financing select start-up companies. Students will learn a broad range of early stage financing techniques. In addition to explorations is class of the theory of entrepreneurial finance students will hear actual young companies from different industries present their opportunities and challenges to the class.

FIN 333. Business Analysis and Turnaround**3 Credits**

This course provides students an opportunity to draw upon previous experiences and education to apply various business concepts and analytical tools to complex problems and issues in organizational settings. Business Analysis is an integrative course in two respects. First, it takes a broad view of the environment that includes competitive dynamics and macro-environmental trends and developments. Second, it takes the perspective of the firm as a whole and examines how each of the functional areas can be integrated into overall operational strategies to address the firm's key organizational issues and environmental challenges.

FIN 341. Financial Analysis and Markets**3 Credits**

Financial analysis for business financing and investing decisions.

Prerequisites ACCT 221, ECON 251, ECON 252, MATH 121G or 230, A ST 251 or A ST 311 or STAT 251G.

FIN 355. Investments**3 Credits**

Analysis of investment risks and rewards and of the problems of portfolio selection and management. Operation of the securities market.

Prerequisite(s): FIN 341 with a grade of C- or better.

FIN 360. Financial Information Technology**3 Credits**

Integrated use of electronic financial information resources with spreadsheet and word processing applications in investigating financial issues and solving financial problems. FIN 341 with a grade of C- or better.

Prerequisite(s): FIN 341 or consent of instructor.

FIN 385. Analysis of Financial Markets and Institutions**3 Credits**

Analysis of the financial system, emphasizing its institutions and instruments.

Prerequisite(s): FIN 341 with a grade of C- or better.

FIN 391. Finance Internship and Cooperative Education I**1-3 Credits**

Introduction and application of finance principles in a work environment. Open only to students in the finance major or minor who will be working with an approved employer in a finance related position, over a period of 12 weeks or at least 300 work hours. Consent of instructor required.

FIN 392. Insurance Internship and Cooperative Education I**1-3 Credits (1-3)**

Introduction and application of insurance principles in a work environment. Open only to students in the finance major or insurance minor who will be working with an approved employer in an insurance related position, over a period of 12 weeks or at least 300 work hours. Consent of instructor required. Restricted to Finance majors.

FIN 393. Banking Internship and Cooperative Education**1-3 Credits (1-3)**

Professional banking experience with opportunities to engage in business analysis and to observe application of business principles in the management of a banking entity or a regulatory agency with banking oversight. Open only to students in the finance major or banking minor who will be working with an approved employer in a banking related position, over a period of 12 weeks or at least 300 work hours. May be repeated up to 3 credits. Consent of Instructor required.

FIN 406. Theory of Financial Decisions**3 Credits**

Contemporary financial theory. Firm valuation, investments and financing decisions, risk analysis.

Prerequisite(s): FIN 341 with a grade of C- or better.

FIN 421. Personal Financial Planning for Professionals**3 Credits**

Introduction to personal financial planning, including goal setting and fact finding, cash management, credit, housing, retirement planning, taxation and estate planning. This course is intended for those planning careers in personal financial advising in one of the various financial services environments.

Prerequisite(s): FIN 341, or consent of Instructor.

FIN 435. Investment Analysis**3 Credits**

Efficiency of capital markets, modern portfolio management, special topics of current interest to investment analysts.

Prerequisite: FIN 355.

FIN 436. Applied Security Analysis and Portfolio Management**1-3 Credits (1-3)**

Application of analytical tools to security selection and portfolio management Pre/

Corequisite(s): FIN 435.

FIN 445. Fixed Income Markets, Instruments and Derivatives**3 Credits**

Course provides a broad introduction to treasury, corporate, municipal, mortgage backed and asset backed bond markets. The analytical techniques for valuing bonds, quantifying their exposure to changes in interest rate and credit risk exposures and investment decision-making are explored.

Prerequisite(s): FIN 341.

FIN 455. Derivative Markets and Securities**3 Credits**

Institutional aspects of derivative markets and the arbitrage based pricing of derivative instruments such as stock options, interest rate options, future contracts and swaps. The applied component of the course demonstrates use of these instruments as hedge and/or investment vehicles.

Prerequisite(s): FIN 355.

FIN 466. Financial Policy Decisions**3 Credits**

Application and integration of financial theory, concepts, and practice using the case method.

Prerequisite: FIN 406 or consent of instructor.

FIN 470. Real Estate Appraisal**3 Credits (2+2P)**

This course addresses issues influencing the value of real estate with some emphasis upon rural properties. Topics include courthouse records, property taxes, appraisal methodology, expert courtroom testimony, condemnation, and legal issues. Students will take field trips and write appraisals. Course material is relevant to student in Finance, Accounting, and Pre-Law, as well as Agriculture. Accredited for hours to apply to both pre-licensing and continuing education requirements of the New Mexico Real Estate Commission for both Appraisers and Real Estate Brokers.

Crosslisted with: AG E 470.

Prerequisite(s): Junior or above standing.

FIN 475. International Managerial Finance**3 Credits**

International aspects of financial transactions, decision-making, banking and financial markets. Same as I B 475.

Prerequisite: FIN 341.

FIN 480. Management of Financial Institutions**3 Credits**

Asset and liability management of financial institutions; emphasis on commercial bank management.

Prerequisite: FIN 385 or consent of instructor.

FIN 490. Selected Topics**1-3 Credits**

Current topics in finance.

Prerequisites: vary according to the seminar being offered.

FIN 498. Independent Study**1-3 Credits**

Individual studies directed by consenting faculty with the prior approval of the department head. A maximum of 3 credits may be earned.

Prerequisites: junior or above standing and consent of instructor.

FIN 500. Concepts in Finance**1 Credit**

An overview of fundamental principles of finance necessary for prospective MBA students who do not have an undergraduate background in finance. Includes: Time value of money concepts and calculations; risk and calculation of return given appropriate risk measures; bond risk characteristics and calculation of the value of a bond; calculation of the value of common stock (determination as to whether a stock is over-valued or under-valued); and calculation of the costs of capital and capital budgeting problems using the cost of capital.

Prerequisite(s): admitted to MBA Program or consent of course department.

FIN 503. Financial Management**3 Credits**

Theory and application of financial analysis to asset management, project evaluation, capital structure, and dividend policy. Interrelationships among financial and other organizational decisions.

Prerequisite(s): FIN 341 with a grade of B or better.

FIN 511. Financial Futures Markets**3 Credits**

Same as AEEC 511.

FIN 521. Personal Financial Planning for Professionals**3 Credits**

Introduction to personal financial planning, including goal setting and fact finding, cash management, credit, housing, retirement planning, taxation and estate planning. This course is intended for those planning careers in personal financial advising in one of the various financial services environments.

Prerequisite(s): FIN 503 or FIN 341 or consent of Instructor.

FIN 535. Investment Concepts**3 Credits**

Investments in common stocks and other securities. Risk and return, securities markets, portfolio theory and management.

Prerequisite(s): FIN 355 or FIN 503.

FIN 536. Applied Security Analysis and Portfolio Management**1-3 Credits (1-3)**

Application of analytical tools to security selection and portfolio management. Pre/

Corequisite(s): FIN 435 or FIN 535.

FIN 545. Money and Capital Markets**3 Credits**

Examination of financial markets and institutions. Emphasis on interest rate determinants, bond markets, and fixed income portfolio management. Same as FIN 445 with differentiated assignments for graduate students.

Prerequisite(s): FIN 503 or instructor permission.

FIN 555. Derivative Markets and Securities**3 Credits**

Institutional aspects of derivative markets and the arbitrage based pricing of derivative instruments such as stock options, interest rate options, future contracts and swaps. The applied component of the course demonstrates use of these instruments as hedge and/or investment vehicles. Same as FIN 455 with differentiated assignments for graduated students.

Prerequisite(s): FIN 503 or instructor permission.

FIN 566. Advanced Financial Management**3 Credits**

Application and integration of financial theory, concepts, and practice using the case method.

Prerequisite: FIN 503.

FIN 575. International Managerial Finance**3 Credits**

International aspects of financial transactions, decision-making, banking and financial markets.

Prerequisite(s): FIN 503 or FIN 341.

FIN 581. Management of Financial Institutions**3 Credits**

Asset and liability management of financial institutions; emphasis on commercial bank management.

Prerequisite(s): FIN 385 or FIN 503.

FIN 590. Selected Topics**1-3 Credits (1-3)**

Current topics in finance. Taught with FIN 490 with differentiated assignments for graduate students. Consent of instructor required.

FIN 598. Special Research Programs**1-3 Credits**

Directed individual reading or research.

Prerequisite: consent of instructor.

FIRE-FIRE INVESTIGATION (FIRE)

FIRE 101. Firefighter I**8 Credits (6+6P)**

This course will train the student to the Firefighter I level as outlined in NFPA 1001, Standard for Firefighter Professional Qualifications. Firefighter I certification issued through the New Mexico Firefighter's Training Academy upon successful completion (IFSAC accredited). May be repeated up to 8 credits. Consent of Instructor required.

Prerequisite(s)/Corequisite(s): OEEM 103 and FIRE 115. Restricted to Community Colleges campuses only.

FIRE 102. Fire Fighter IB**4 Credits (3+3P)**

Continuation of basic concepts and methodologies of fire suppression. Meets or exceeds NFPA standards.

Prerequisite: OEFS 101.

FIRE 104. Firefighter II**8 Credits (6+6P)**

This course will train the student to the Firefighter II level as outlined in NFPA 1001, Standard for Firefighter Professional Qualifications. Firefighter II certification issued through the New Mexico Firefighter's Training Academy upon successful completion (IFSAC accredited). May be repeated up to 8 credits. Consent of Instructor required.

Prerequisite(s)/Corequisite(s): FIRE 252. Prerequisite(s): FIRE 101. Restricted to Community Colleges campuses only.

FIRE 112. Principles of Emergency Services**3 Credits**

This course provides an overview to fire protection and emergency services; career opportunities in fire protection and related fields; culture and history of emergency services; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics; life safety initiatives. Restricted to: Community colleges only.

FIRE 114. Fire Behavior and Combustion**3 Credits**

This course explores the theories and fundamentals of how and why fires start, spread, and are controlled. Restricted to: Community colleges only.

FIRE 115. Hazardous Materials Awareness and Operations**3 Credits**

This course will train the student to the Hazardous Materials Awareness and Operations level as outlined in NFPA 472, Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents and OSHA 29 CFR 1910.120. Hazardous Materials Awareness and Operations certification issued through the New Mexico Firefighter's Training Academy upon successful completion (IFSAC accredited). May be repeated up to 3 credits. Restricted to Community Colleges campuses only.

FIRE 120. Fire Protection Hydraulics and Water Supply**3 Credits**

This course will train students on skill requirements for becoming a safe and effective fire apparatus driver/operator. The focus will be on pump operation, construction, testing, and mathematical calculation required for effective pump operation and fire control. Responsibilities of the driver/operator will be taught and assessed consistent with applicable NFPA standards and NMFTA guidelines. Students who meet all course requirements will be eligible for International IFSAC certification through the NMFTA. May be repeated up to 3 credits. Consent of Instructor required.

Prerequisite(s)/Corequisite(s): FIRE 128. Restricted to Community Colleges campuses only.

FIRE 126. Fire Prevention**3 Credits**

This course provides fundamental knowledge relating to the field of fire prevention. Topics include: history and philosophy of fire prevention; organization and operation of a fire prevention bureau; use and application of codes and standards; plans review, fire inspection; fire and life safety education; and fire investigation. Restricted to: Community colleges only.

FIRE 127. Rescue Operations**3 Credits**

A course designed to acquaint the student with the equipment and procedures employed in search and rescue operations to safely remove persons from burning structures, automobile accidents, and natural disasters. Restricted to majors.

Prerequisite: consent of instructor.

FIRE 128. Apparatus and Equipment**2 Credits**

This course is a pre/co-requisite to FIRE 120. The course will train students on attitude and skill requirements for becoming a safe and effective fire apparatus driver/operator. The focus will be on apparatus inspection, operation, maintenance, and specification. Responsibilities of the driver/operator will be taught and assessed consistent with applicable NFPA standards and NMFTA guidelines. Students who meet all course requirements will be eligible for IFSAC certification through the NMFTA. Consent of Instructor required. Restricted to Community Colleges campuses only.

FIRE 130. Principles of Fire and Emergency Services Safety and Survival**3 Credits**

This course introduces the basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavior change throughout the emergency services. Consent of instructor required. Restricted to: Community colleges only.

FIRE 142. Fire Fighter Training S-130**3 Credits**

Wildland Fire Training FFT2: A field course providing entry-level fire fighting skills through 13 instructional units of study. May also serve as refresher training for returning fire fighters and a means of testing personnel with undocumented prior experience. Instructed in accordance to NWCG standards.

FIRE 200. Special Topics**1-3 Credits**

Specific subjects to be announced in the Schedule of Classes. Course may be repeated for credit as topics change.

FIRE 201. Independent Study**1-3 Credits**

Research on an approved topic to meet graduation requirements. Meets or exceeds NFPA standards. May be repeated for total of 9 credits.

Prerequisite: consent of instructor.

FIRE 202. Wildland Fire Control**1-3 Credits**

Focuses on factors affecting wildland fire control and prevention, fire behavior, control techniques, command structure and other operations including Standards for Survival I-100, S-130 and S-190 Meets or exceeds NWCG Training Curriculum and NFPA 1051 standards. Restricted to: Community Colleges Only.

FIRE 203. Fire and Emergency Services Administration**3 Credits**

This course introduces the student to the organization and management of a fire and emergency services department and the relationship of government agencies to the fire services department and the relationship of government agencies to the fire service. Emphasis is placed on fire and emergency service, ethics, and leadership from the perspective of the company officer. Restricted to: Community colleges only.

FIRE 205. Fire Chemistry**3 Credits**

Theories of combustion and extinguishment, including the analysis of flammable materials, the nature of extinguishing agents, and the properties of matter affecting fire behavior.

Prerequisite: CHEM 110G.

FIRE 210. Building Construction for Fire Protection**3 Credits**

This course provides the components of building construction related to firefighter and life safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations, and operating at emergencies. Restricted to: Community colleges only.

FIRE 214. Hazardous Materials Technician**3 Credits**

Knowledge and skills about hazardous materials mitigation needed to certify as a Hazardous Materials Technician Level III. Meets or exceeds NFPA 471, 472, 473 standards, and OSHA 1910.102 part Q, and New Mexico HMER plan. Restricted to: Community Colleges only.

Prerequisite(s): FIRE 115.

FIRE 216. Hazardous Materials Chemistry**3 Credits**

This course provides basic chemistry relating to the categories of hazardous materials including recognition, identification, reactivity, and health hazards encountered by emergency services. Restricted to: Community colleges only.

FIRE 217. Operations in the Wildland-Urban Interface S-215**3 Credits**

Provides training for initial attack incident commanders and company officers confronting wildfire presenting a threat to life and property. Instructional units include: size-up, initial strategy and action plan, structure triage, tactics, action plan, assessment, public relations and follow up, and safety. Presented in a classroom environment. Instructed in accordance to NWCG standards.

Prerequisite: qualified as any Single Resource Boss or FIRE 231.

FIRE 220. Cooperative Experience I**1-3 Credits**

Supervised cooperative work program. Student is employed in an approved occupation and rated by the employer and instructor. May be repeated for a maximum of 6 credits. Graded S/U.

Prerequisite: consent of instructor.

FIRE 221. Cooperative Experience II**3 Credits**

Apply advanced firefighting knowledge and skills while working with fire protection agencies. Meets or exceeds NFPA standards. Consent of instructor required. Graded: S/U. Restricted to: Community Colleges only.

Prerequisite(s): FIRE 220.

FIRE 222. Aircraft Fire Control**3 Credits**

Provides a broad understanding of airport operations required to effectively perform aircraft firefighting and other emergencies. Meets or exceeds NFPA 402, 403, 405 standards. Restricted to: Community Colleges only.

FIRE 223. Fire Investigations I**3 Credits**

This course is intended to provide the student with the fundamentals and technical knowledge needed for proper fire scene interpretation, including recognizing and conducting origin and cause, preservation of evidence and documentation, scene security, motives of the firesetter, and types of fire causes. Restricted to: Community colleges only.

FIRE 224. Strategy and Tactics**3 Credits**

This course provides the principles of fire ground control through utilization of personnel, equipment, and extinguishing agents. Restricted to: Community colleges only.

FIRE 225. Fire Protection Systems**3 Credits**

This course provides information relating to the features and design and operation of fire alarm systems, water-based fire suppression systems, special hazard fire suppression systems, water supply for fire protection and portable fire extinguishers. Restricted to: Community colleges only.

FIRE 226. Fire Investigations II**3 Credits**

This course is intended to provide the student with advanced technical knowledge on the rule of law, fire scene analysis, fire behavior, evidence collection and preservation, scene documentation, case preparation and court-room testimony. Restricted to: Community colleges only.

FIRE 230. Fire Service Instructor**3 Credits**

Provides the instructor candidate with methods and techniques of instruction including oral communications, preparing lesson plans, writing performance objectives, use of audio and other training aids, and the selection, evaluation and preparation of performance tests. Meets and exceeds NFPA 1041 Level I standards. Restricted to: Community Colleges only.

FIRE 232. Firefighter Internship**3 Credits**

Application of knowledge, skills and abilities in a fire service department, as a firefighter intern and integrated member of a fire affiliated agency. Restricted to majors.

Prerequisites: FIRE 101, FIRE 102, FIRE 115, FIRE 202 and EMT-B and consent of instructor.

FIRE 233. Practical Approach to Terrorism**3 Credits**

Gives responder an overall safety approach in recognizing and responding to incidents involving terrorism. Presents an overview in types of harm, explosive weapons, chemical weapons, biological weapons and radiological weapons. Restricted to: Community Colleges only. Crosslisted with: LAWE 233

FIRE 251. Incident Command System-NIMS 700**3 Credits**

NIMS provides a consistent nationwide Homeland Security template to enable all government, private-sector, and nongovernmental organizations to work together during domestic incidents, Community Colleges only.

FIRE 252. Vehicle Extrication**2 Credits (1+2P)**

This course will train the student to the Vehicle & Machinery Extrication level I as outlined in NFPA 1006, Standard for Technical Rescuer Professional Qualifications. Vehicle & Machinery Extrication certification issued through the New Mexico Firefighter's Training Academy upon successful completion (IFSAC accredited). May be repeated up to 2 credits. Restricted to Community Colleges campuses only.

FREN-FRENCH (FREN)

FREN 111. Elementary French I**4 Credits**

French language for beginners.

FREN 112. Elementary French II**4 Credits**

French language for beginners.

Prerequisite: C or better in FREN 111.

FREN 211. Intermediate French I**3 Credits**

Speaking, reading and writing.

Prerequisite: C or better in FREN 112.

FREN 212. Intermediate French II**3 Credits**

Speaking, reading and writing.

Prerequisite: C or better in FREN 211.

FREN 306. Topics in French Culture and Civilization**3 Credits**

Selected topics focusing on French culture and civilization. Topics identified in the Schedule of Classes. May be repeated for a maximum of 6 credits.

Prerequisite: FREN 212 or consent of instructor.

FREN 315. French Grammar**3 Credits**

A thorough review of French grammar through the study of grammatical elements and the use of grammatical exercises.

Prerequisite(s): FREN 212 or consent of instructor.

FREN 325. Intermediate Conversation**3 Credits**

French conversation through intensive oral practice with emphasis on vocabulary acquisition and pronunciation.

Prerequisite: FREN 212 or consent of instructor.

FREN 341. Introduction to French Linguistics**3 Credits**

This course aims to introduce the basic concepts of contemporary linguistics and to show how the French language functions in regard to form and meaning.

Prerequisite(s): FREN 212.

FREN 352. French Phonetics**3 Credits**

Systematic description of modern French pronunciation. Corrective exercises for foreign learners. Formal study of spelling/pronunciation relationships.

Prerequisite(s): FREN 212 or consent of instructor.

FREN 360. French Cinema**3 Credits**

The evolution of contemporary French cinema. A critical understanding of film as an art form and as cultural expression.

Prerequisite: FREN 212 or consent of instructor.

FREN 362. Contemporary French Culture**3 Credits**

Institutions, lifestyles and popular attitudes in modern France.

Prerequisite(s): FREN 212 or consent of instructor.

FREN 365V. Perspectives in French Culture**3 Credits**

Examines components of French culture through literature, films and other sources. Taught in English. Does not satisfy Arts and Sciences second language requirement. Does not satisfy French major or minor requirements.

FREN 378. Studies in Francophone Cultures**3 Credits**

Studies of representative Francophone cultures through their history, literature, music and films.

Prerequisite(s): FREN 212 or consent of instructor.

FREN 381. Survey of French Literature I**3 Credits**

Literary movements, authors and selected texts of the Middle Ages through the eighteenth century.

Prerequisite(s): FREN 212 or consent of instructor.

FREN 382. Survey of French Literature II**3 Credits**

Literary movements, authors and selected texts of the nineteenth and twentieth centuries.

Prerequisite(s): FREN 212 or consent of instructor.

FREN 385. French Civilization**3 Credits**

A detailed study of important events in French civilization from its origins to the twentieth century through the study and discussion of history, literature, fine arts and politics.

Prerequisite(s): FREN 212 or consent of instructor.

FREN 386. Contemporary Women Writers in French**3 Credits**

Exploration of literary texts by contemporary women writers in France and the Francophone world; emphasizes the cultural contexts that have defined women's relationship to writing. Selections will vary from year to year.

Prerequisite(s): FREN 212 or consent of instructor.

FREN 425. Advanced French Conversation**3 Credits**

Mastery of spoken French language through discussion of personal readings and group work to develop vocabulary, syntactical and conversational skills. The class is conducted entirely in French.

Prerequisite(s): FREN 325 or consent of instructor.

FREN 449. Special Problems**1-3 Credits**

Directed reading for graduate students in specific field to satisfy language requirement for master's or doctoral programs.

FREN 451. Special Topics in French**1-3 Credits**

Selected topics relating to the cultures or literatures of the countries where French is spoken will be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

Prerequisite: consent of instructor.

FREN 453. Independent Studies in French**1-3 Credits**

Individualized, self-paced projects for advanced students. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

FREN 462. Advanced Contemporary French Culture**3 Credits**

Advanced study of institutions, lifestyles and popular attitudes in modern France. Emphasis on everyday life rather than prestigious monuments in civilizations.

Prerequisite: FREN 212 or consent of instructor.

FREN 466. Introduction to French Linguistics**3 Credits**

This course aims to introduce the basic concepts of contemporary linguistics and to show the French language functions with regard to form and meaning. Consent of instructor required.

Prerequisite(s): Advanced level in French.

FREN 471. The French Novel**3 Credits**

Development of the novel and analysis of selected texts with emphasis on the nineteenth and twentieth centuries.

Prerequisite(s): FREN 212 or consent of instructor.

FREN 472. The French Short Story**3 Credits**

Study and discussion of French short stories through the ages.

Prerequisite(s): FREN 212 or consent of instructor.

FREN 478. Studies in Francophone Cultures Around the World**3 Credits**

Advanced studies of representative Francophone cultures through their history, literature, music and films.

Prerequisite(s): FREN 212 or consent of instructor.

FREN 486. Advanced Contemporary Women Writers in French**3 Credits**

Advanced study of literary texts by contemporary women writers in France and the Francophone world; emphasizes the cultural contexts that have defined women's relationship to writing. Selections will vary from year to year.

Prerequisite(s): FREN 212 or consent of instructor.

FRMG-FAMILY RESOURCE MGT (FRMG)

FRMG 450. Special Topics**1-4 Credits**

Special subjects and credits to be announced in the Schedule of Classes. May be taken for a maximum of 4 credits per semester and a total of 9 credits toward a degree.

FRMG 492. Special Problems**1-4 Credits (1-4)**

Individual research study in a selected subject of Family and Consumer Sciences. Maximum of 4 credits per semester and a grand total of 8 credits towards a degree. Consent of Instructor required.

FRMG 590. Special Topics**1-4 Credits**

Special subjects and credits to be announced in the Schedule of Classes. May be taken for a maximum of 4 credits per semester and a total of 9 credits toward a degree.

FSTE-FOOD SCIENCE & TECHNOLOGY (FSTE)

FSTE 164G. Introduction to Food Science and Technology**4 Credits (3+2P)**

An introductory course in the scientific study of the nature and composition of foods and their behavior during all aspects of their conversion from raw materials to consumer food products.

FSTE 175. ACES in the Hole Foods I**4 Credits**

Food production activities related to operation of ACES in the Hole Foods, a student-run food company that will give FSTE majors hands-on experience in all aspects of developing, producing and marketing food products Restricted to Las Cruces campus only.

Prerequisite(s): Students enrolled in this class must possess A Food Handler Card.

FSTE 200. Special Topics**1-4 Credits**

Specific topics and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

FSTE 210G. Survey of Food and Agricultural Issues**3 Credits**

Same as AG E 210G.

FSTE 263G. Food Science I**4 Credits (3+2P)**

The scientific study of the principles involved in the preparation and evaluation of foods. May be repeated up to 4 credits.

FSTE 275. ACES in the Hole Foods II**4 Credits**

Food production activities related to operation of ACES in the Hole Foods, a student-run food company that will give FSTE majors hands-on experience in all aspects of developing, producing and marketing food products. May be repeated up to 4 credits.

Prerequisite(s): FSTE 175 and Have a Food Handler Card.

FSTE 320. Food Microbiology**4 Credits (3+2P)**

Detrimental and beneficial microbiological aspects of food products. Methods of quantification and identification of microorganisms associated with food spoilage and preservation. May be repeated up to 4 credits.

Prerequisite(s): BIOL 111G and BIOL 111L, or BIOL 211G and BIOL 211L, or BIOL 190, or consent of instructor.

FSTE 325. Food Analysis**3 Credits (2+2P)**

Basic chemical and physical techniques used in establishing nutritional properties and overall acceptance of food products. May be repeated up to 3 credits.

Prerequisite(s): CHEM 111 or consent of instructor.

FSTE 328. Introduction to Food Engineering**3 Credits (2+2P)**

Basic engineering principles including mass and energy balances, fluid flow, heat transfer and chemical kinetics and their application to food processing unit operations. Video and laboratory participation are used to enhance course content and relevance. May be repeated up to 3 credits.

Prerequisite(s): MATH 142G or consent of instructor.

FSTE 331. Food Preservation**3 Credits (2+2P)**

Processes used in home and commercial food preservation, including canning, freezing, drying, and irradiation. May be repeated up to 3 credits.

Prerequisite(s): HNFS 263.

FSTE 375. ACES in the Hole Foods III**4 Credits (2+8P)**

Food production activities related to operation of ACES in the Hole Foods, a student-run food company that will give FSTE majors hands-on experience in all aspects of developing, producing and marketing food products. May be repeated up to 8 credits. Restricted to: FSTE majors.

Prerequisite(s): FSTE 275 and Have a Food Handler Card.

FSTE 421. Food Chemistry**3 Credits**

Comprehensive study of the chemical and physiochemical properties of food constituents. Chemical changes involved in the production, processing, and storage of food products and basic techniques used to evaluate chemical and physiochemical properties of foods.

Prerequisites: CHEM 111G, CHEM 112G, and CHEM 211, or consent of instructor.

FSTE 423. Food Processing Technologies**4 Credits (3+2P)**

Common food processing unit operations such as raw material preparation, separation, concentration, fermentation, pasteurization, sterilization, extrusion, dehydration, baking, frying, chilling, freezing, controlled atmosphere storage, water, waste and energy management, packaging, materials handling and storage and process control. Application of principles to processing food in a laboratory setting.

Prerequisite(s): FSTE 328.

FSTE 425. Sensory Evaluation of Foods**3 Credits (2+2P)**

Principles and procedures involved in the sensory evaluation of foods. Physiological, psychological and environmental factors affecting the evaluation of sensory properties. Analysis and interpretation of sensory data.

Prerequisite(s): FSTE 263G and A ST 311 or STAT 251.

FSTE 429. Product Development**3 Credits (1+4P)**

Application of chemical, physical, nutritional and psychological principles and experimental methods to the development and evaluation of a food product for a specified food product development competition.

Prerequisite(s): FSTE 320 and FSTE 425.

FSTE 430. Designing and Brewing Great Beers of the World**3 Credits (1+4P)**

The science and technology of brewing unit operations and the ingredients used in beer brewing. That knowledge is then applied to designing and brewing classic world beer styles. Styles investigated change every semester but typically include India Pale Ale, Pale Ale, Stout, Porter, Hefeweizen, Scottish Ale, and Black IPA. Comprehensive evaluation of the product relative to style guidelines completes the design-brew-evaluate cycle. Students must be at least 21 years of age on the first day of class. May be repeated up to 3 credits.

FSTE 450. Special Topics**1-4 Credits**

Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits towards a degree. Consent of instructor required.

FSTE 475. ACES in the Hole Foods IV**1-4 Credits (2-8P)**

Food production activities related to operation of ACES in the Hole Foods, a student-run food company that will give FSTE majors hands-on experience in all aspects of developing, producing and marketing food products. May be repeated up to 8 credits. Restricted to: FSTE majors.

Prerequisite(s): FSTE 375 Have a Food Handler Card.

FSTE 492. Special Problems**1-4 Credits**

Individual research study in a selected subject of Family and Consumer Sciences. Maximum of 4 credits per semester and a grand total of 8 credits towards a degree. Consent of instructor required.

FSTE 500. Data Analysis for Food Scientists**3 Credits (3)**

An introduction to data analysis of food scientists. Modern statistical techniques used to analyze typical data collected by food scientists and researchers will be covered. Consent of instructor required.

FSTE 520. Graduate Study in Food Microbiology**3 Credits (2+3P)**

Detrimental and beneficial microbiological aspects of food products. Methods of quantification and identification of microorganisms associated with food spoilage and preservation. Additional work required at the graduate level.

Prerequisites: BIOL 111G/111L, or BIOL 211G/211L, or BIOL 190, or consent of instructor.

FSTE 521. Graduate Study in Food Chemistry**3 Credits**

Comprehensive study of the chemical and physiochemical properties of food constituents. Chemical changes involved in the production, processing and storage of food products and basic techniques used to evaluate chemical and physiochemical properties of foods. Additional work required at the graduate level.

Prerequisites: CHEM 111G, CHEM 112G, and CHEM 211, or consent of instructor.

FSTE 523. Food Processing Technologies**4 Credits (3+2P)**

Common food processing unit operations such as raw material preparation, separation, concentration, fermentation, pasteurization, sterilization, extrusion, dehydration, baking, frying, chilling, freezing, controlled atmosphere storage, water, waste and energy management, packaging, materials handling and storage and process control. Application of principles to processing food in a laboratory setting. Additional work beyond that for FSTE 423 required at the graduate level.

Prerequisite(s): FSTE 528.

FSTE 524. Sensory Evaluation of Foods**3 Credits (2+3P)**

Principles and procedures involved in the sensory evaluation of foods. Physiological, psychological and environmental factors affecting the evaluation of sensory properties. Analysis and interpretation of sensory data.

Prerequisite(s): FSTE 263G and A ST 311 or STAT 251.

FSTE 525. Graduate Study in Food Analysis**3 Credits (2+3P)**

Covers basic chemical and physical techniques used in establishing nutritional properties and overall acceptance of food products. Additional work required at the graduate level.

Prerequisite(s): CHEM 111 or consent of instructor.

FSTE 532. Designing and Brewing Great Beers of the World**3 Credits (2+2P)**

The science and technology of brewing unit operations and the ingredients used in beer brewing. That knowledge is then applied to designing and brewing classic world beer styles. Styles investigated change every semester but typically include India Pale Ale, Pale Ale, Stout, Porter, Hefeweizen, Scottish Ale, and Black IPA. Comprehensive evaluation of the product relative to style guidelines completes the design-brew-evaluate cycle. Students must be at least 21 years of age on the first day of class.

FSTE 560. Rumen Microbiology (so)**3 Credits**

Same as ANSC 560.

FSTE 575. ACES in the Hole Foods**1-4 Credits (2-8P)**

Food production activities related to operation of ACES in the Hole Foods, a student-run food company that will give FSTE majors hands-on experience in all aspects of developing, producing and marketing food products. May be repeated up to 8 credits.

Prerequisite(s): Students must possess a food handler card.

FSTE 598. Special Research Programs**1-4 Credits**

Individual investigations either analytical or experimental. Maximum of 4 credits per semester and no more than 6 credits towards a degree. Consent of instructor required.

FWCE-FISH,WILDLF,CONSERV ECOL (FWCE)**FWCE 109. Contemporary Issues in Wildlife and Natural Resources Management****3 Credits**

Ecological, socioeconomic, and political issues surrounding the management of our natural resources with an emphasis on fish and wildlife resources. May be repeated up to 3 credits. Restricted to Las Cruces campus only.

FWCE 110. Introduction to Natural Resources Management**4 Credits (3+2P)**

This class covers historical and current issues affecting the management of renewable natural resources with an emphasis on water, soil, rangeland, forest, fish, and wildlife resources. An emphasis is placed on the scientific method and critical thinking. In the laboratory students collect and analyze field data on topics covered above and write up each unit as a laboratory report. May be repeated up to 4 credits.

FWCE 255. Principles of Fish and Wildlife Management**3 Credits**

Basic principles of fish and wildlife management including history, ecology, economics, and policy. Emphasis on wildlife and fisheries. Uses an ecosystem approach integrating living and nonliving resources.

Prerequisite(s): FWCE 110.

FWCE 301. Wildlife Ecology**3 Credits**

General ecological theory with emphasis on concepts including biogeography, species interactions, population dynamics and disease ecology as they relate to the management and conservation of vertebrates.

Prerequisite(s): BIOL 111G or BIOL 190.

FWCE 330. Natural History of the Vertebrates**4 Credits (3+3P)**

Evolution, ecology, and diversity of vertebrates. Topics include comparative anatomy and physiology, biogeography, community ecology, behavior, and conservation. Laboratory emphasizes identification of local taxa. Field trips may be required.

Prerequisite(s)/Corequisite(s): BIOL 322 Zoology. Prerequisite(s): BIOL 111G and BIOL 111L.

FWCE 355. Wildlife Techniques and Analysis**4 Credits (3+2P)**

FWCE 355 will provide a broad overview of basic skills and techniques that are commonly used by biologists in performing management, research, and reporting functions in natural resource fields with an emphasis on wildlife techniques, data processing and analysis.

Prerequisite(s): FWCE 301, A ST 311.

FWCE 357. Fisheries Management and Analysis**4 Credits (3+2P)**

Lectures and laboratory exercises provide a broad overview of basic skills and techniques used for assessing and managing fish populations.

Prerequisite(s): FWCE 301 and A ST 311.

FWCE 391. Internship**1-3 Credits (1-3)**

Professional work experience under the joint supervision of the employer and a faculty member. A written report is required. No more than 3 credits toward a degree. Consent of Instructor required. S/U Grading (S/U, Audit).

Prerequisite(s): Consent of instructor.

FWCE 393. Professional Experience and Communication**3 Credits**

Professional work experience under the supervision of employer and/or a faculty member. Written report and presentation is required.

Prerequisite(s)/Corequisite(s): FWCE 255.

FWCE 402. Seminar in Natural Resource Management**1 Credit**

Review of current topics in natural resource management. Oral and written report required.

Prerequisite: senior standing or above.

FWCE 409. Introduction to Population Ecology**3 Credits**

Quantitative analysis of vital statistics and mechanisms affecting dynamics of wild populations. Patterns of growth, age structure, survival, and natality. Population theories and life tables. May be repeated up to 3 credits.

Prerequisite(s): MATH 142G and FWCE 255.

FWCE 430. Avian Field Ecology**4 Credits (3+3P)**

Principles of avian ecology and management with an emphasis on taxonomy, physiology, behavior and field studies. Includes weekly field trips focusing on identification and behavior of Southwest birds. Pre/
Corequisite(s): FWCE 330.

FWCE 431. Mammalogy**4 Credits (3+2P)**

Classification, identification, anatomy, physiology, life history, and ecology of mammals. Field trips required. May be repeated up to 4 credits.

Prerequisite(s): FWCE 255 and FWCE 330.

FWCE 432. Environmental Biology of Fishes**4 Credits (3+3P)**

What makes a fish, a fish. Mechanisms of circulation, gas exchange, osmotic and ionic regulation, swimming, migration, reproduction, and chemoreception. Taught with FWCE 532.

Prerequisite(s): CHEM 111G and senior standing.

FWCE 433. Fisheries Management**3 Credits**

This course is designed to introduce students to the basic principles of fisheries management. Students will learn the techniques and tools used to collect, analyze, and interpret fisheries data needed to undertake fisheries management decisions. Taught with FWCE 533. Consent of Instructor required.

Prerequisite(s): FWCE 482 and A ST 311.

FWCE 434. Aquatic Contaminants and Toxicology**4 Credits (3+3P)**

Basic principles and methodologies of aquatic toxicity testing. Routes of exposure and modes of action. Environmental legislation and ecological risk assessment. Taught with FWCE 534. Crosslisted with: E S434.

Prerequisite(s): CHEM 111G and senior standing.

FWCE 436. Large Mammal Ecology, Conservation and Management**3 Credits**

This course will cover aspects of large mammal ecology, management and conservation. Will include aspects of foraging ecology, resource and habitat selection, competition and resource partitioning, predation and population dynamics. Taught with FWCE 530. Consent of Instructor required.

FWCE 437. Wildlife Damage Management**3 Credits**

Introduction to basic need and appropriate methods for resolving human-wildlife conflicts and management of animal damage. Socioeconomic, ecological, and political factors. Field trips required. Taught with FWCE 537.

Prerequisite(s): BIOL 111G, FWCE 255, FWCE 301, FWCE 409.

FWCE 439. Game Bird Ecology and Management**3 Credits**

In this class we will look at the overall history of game bird management and conservation, how management and conservation of game birds was and still is the foundation for wildlife conservation in North America, define the challenges both past and present to managing and conserving game bird populations, and explore the conceptual and quantitative models used to manage migratory and non-migratory game birds. Taught with FWCE 539. Consent of Instructor required. Restricted to: FISH,WLSC majors.

Prerequisite(s): FWCE 301, FWCE 409, A ST 311 or equivalent.

FWCE 440. Wildlife Habitat Relationships**3 Credits**

The study of wildlife-habitat relationships primarily seeks to describe how the distribution and abundance of resources used for food, cover and security, and constraints on the use of these resources influence the distribution of animals. This course will cover aspects of animal behavior related to how animals select habitat, theoretical models of habitat selection, the influence of inter-and intra-specific interactions on habitat selection, habitat quality, study designs for wildlife-habitat studies, modeling habitat selection and data analyses. Taught with FWCE 540. Consent of Instructor required. Restricted to: FWCE majors.

FWCE 447. Wildlife Law and Policy**3 Credits**

Introduction to state and federal laws and policies for wildlife and the historical context for their development. Taught with FWCE 547.

Prerequisite(s): Junior or Senior level standing.

FWCE 448. Problems**1-3 Credits (1-3)**

Individual investigations in fishery or wildlife science. Maximum 3 credits per semester and a grand total of 6 credits. Consent of instructor required.

Prerequisite(s): 18 credits in FWCE.

FWCE 450. Special Topics**1-4 Credits (1-4)**

Specific subjects and credits as announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits. Consent of instructor required.

FWCE 457. Ecological Biometry**3 Credits**

Use of ecological data to test scientific hypotheses. Stochastic and statistical models for environmental data, data visualization, likelihood-based and information-based model selection. Emphasis on open-source software tools.

Prerequisite(s): MATH 142G or 191G, A ST 311, FWCE 301.

FWCE 459. Aquatic Ecology**4 Credits**

Ecological functions of plant and animal communities in aquatic ecosystems with emphasis on chemical and physical properties, productivity, species interactions, population dynamics, and concepts for diagnosing problems and restoring aquatic ecosystems. Taught with FWCE 559.

Prerequisite(s): FWCE 301 or BIOL 301, CHEM 112, MATH 142G.

FWCE 464. Management of Aquatic and Terrestrial Ecosystems**4 Credits (3+2P)**

Principles and methods for managing aquatic and terrestrial ecosystems and their fish and wildlife resources. Emphasis on quantitative techniques, data collection and analysis for management of systems at a landscape spatial scale. May be repeated up to 4 credits.

Prerequisite(s): (BIOL 301 or FWCE 301) FWCE 330, A ST 311G.

FWCE 467. Herpetology**4 Credits**

Systematics, taxonomy, ecology, behavior, and conservation of amphibians and reptiles. Field trips required. Taught with FWCE 567.

Prerequisite(s): FWCE 330.

FWCE 471. GIS for Natural Resource Scientists**4 Credits**

Practical GIS class for students with little or no GIS experience. Class focuses on learning to use industry-standard software and applications in natural resource management. Taught with FWCE 571.

FWCE 472. Wildlife Museum Internship**1-4 Credits (1-4)**

Substantial directed work experience in various functions of the wildlife natural history museum developed by the student in consultation with the faculty curator. Internships may involve aspects of collection development and management, public education programs, or other related museum activities. Internship must be approved by the faculty curator. May be repeated up to 9 credits. Consent of Instructor required.

Prerequisite(s): BIOL 111G and BIOL 111GL.

FWCE 473. NAT HIST MUSEUM FUNCTION MTHDS**3 Credits**

Fundamentals of the function and methods of natural history museums in research, education, service, and biodiversity conservation. Emphasis on experiential learning. Includes lectures, paper discussions, laboratory activities, specimen preparation, required full-day Friday field trips, and an individual term project.

Prerequisite(s): FWCE 330 or BIOL 322 or BIOL 312 or RGSC 316.

FWCE 482. Ichthyology**4 Credits (3+2P)**

Classification, morphology, identification, life history, and ecology of fishes. May be repeated up to 4 credits.

Prerequisite(s): FWCE 330 or consent of instructor.

FWCE 509. Population Ecology (s)**3 Credits (2+2P)**

Quantitative analysis of vital statistics and mechanisms promoting stability in wild populations. Theory and application of life tables and population models.

FWCE 515. Graduate Seminar**1 Credit**

Current topics. May be repeated up to 4 credits.

FWCE 530. Large Mammal Ecology, Conservation and Management**3 Credits**

This course will cover aspects of large mammal ecology, management and conservation. Will include aspects of foraging ecology, resource and habitat selection, competition and resource partitioning, predation and population dynamics. Taught with FWCE 436.

FWCE 532. Environmental Biology of Fishes**4 Credits (3+3P)**

What makes a fish a fish. Mechanisms of circulation, gas exchange, osmotic and ionic regulation, swimming, migration, reproduction, and chemoreception. Students are responsible for all requirements for FWCE 432 plus additional work.

FWCE 533. Fisheries Management**3 Credits**

This course is designed to introduce students to the basic principles of fisheries management. Students will learn the techniques and tools used to collect, analyze, and interpret fisheries data needed to undertake fisheries management decisions. Taught with FWCE 433. Consent of Instructor required.

Prerequisite(s): FWCE 482, A ST 311.

FWCE 534. Aquatic Contaminants and Toxicology**4 Credits (3+3P)**

Basic principles and methodologies of aquatic toxicity testing. Routes of exposure and modes of action. Environmental legislation and ecological risk assessment. Students are responsible for all requirements for FWCE 434 plus additional work.

FWCE 535. Special Topics**1-4 Credits (1-4)**

Specific subjects to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree.

FWCE 536. Advanced Avian Ecology**3 Credits**

Focuses on current topics and literature in avian ecology including systematics, mating systems, behavior, physiology, movement patterns and conservation. Includes required overnight field trips.

Prerequisite(s): Graduate standing or consent of instructor.

FWCE 537. Wildlife Damage Management**3 Credits**

Introduction to basic need and appropriate methods for resolving human-wildlife conflicts and management of animal damage. Socioeconomic, ecological, and political factors. Field trips required. Taught with FWCE 437. Students are responsible for all requirements for FWCE 437 plus additional work.

Prerequisite(s): FWCE 409.

FWCE 539. Game Bird Ecology and Management**3 Credits**

In this class we will look at the overall history of game bird management and conservation, how management and conservation of game birds was and still is the foundation for wildlife conservation in North America, define the challenges both past and present to managing and conserving game bird populations, and explore the conceptual and quantitative models used to manage migratory and non-migratory game birds. Taught with FWCE 439. Restricted to: FISH, WLSC majors.

Prerequisite(s): FWCE 301, FWCE 409, A ST 311 or equivalent.

FWCE 540. Wildlife Habitat Relationships**3 Credits**

The study of wildlife-habitat relationships primarily seeks to describe how the distribution and abundance of resources used for food, cover and security, and constraints on the use of these resources influence the distribution of animals. This course will cover aspects of animal behavior related to how animals select habitat, theoretical models of habitat selection, the influence of inter- and intra-specific interactions on habitat selection, habitat quality, study designs for wildlife-habitat studies, modeling habitat selection and data analyses. Taught with FWCE 440. Restricted to: WLSC majors.

FWCE 547. Wildlife Law and Policy**3 Credits**

Introduction to state and federal laws and policies for wildlife and the historical context for their development. Taught with FWCE 447.

FWCE 548. Graduate Problems**1-3 Credits (1-3)**

Individual studies in fishery and wildlife sciences. Maximum of 3 credits per semester. No more than 6 credits of this course and FWCE 598, combined, toward a degree. May be repeated up to 6 credits.

FWCE 558. Nonthesis Project**1-6 Credits (1-6)**

Independent study to satisfy nonthesis project requirement. Maximum of 6 credits toward degree. Available only to nonthesis students.

FWCE 559. Aquatic Ecology**4 Credits**

Ecological functions of plant and animal communities in aquatic ecosystems with emphasis on chemical and physical properties, productivity, species interactions, population dynamics, and concepts for diagnosing problems and restoring aquatic ecosystems. Taught with FWCE 459.

Prerequisite(s): FWCE 301 or BIOL 301, CHEM 112, MATH 142G.

FWCE 567. Herpetology**4 Credits**

Systematics, taxonomy, ecology, behavior and conservation of amphibians and reptiles. Field trips required. Taught with FWCE 467.

FWCE 571. GIS for Natural Resource Scientists**4 Credits**

Practical GIS class for students with little or no GIS experience. Class focuses on learning to use industry-standard software and applications in natural resource management. Taught with FWCE 471.

FWCE 582. Ichthyology**4 Credits**

Classification, morphology, identification, life history, and ecology of fishes. Taught with FWCE 482.

FWCE 598. Special Research Programs**1-3 Credits (1-3)**

Individual investigations, either analytical or experimental. Maximum of 3 credits per semester. No more than 6 credits of this course and FWCE 548, combined, toward a degree. Not available to students in the nonthesis program.

FWCE 599. Master's Thesis**1-9 Credits (1-9)**

Thesis. May be repeated up to 30 credits. Thesis/Dissertation Grading.

G S-GRADUATE STUDIES (G S)

G S 500. Masters Non-Thesis Final Exam Credit**1 Credit**

Course for non-thesis masters students who have completed all program requirements except the final comprehensive exam. A maximum of 12 credits may be earned. Graded S/U.

Prerequisites: advisor signature required.

G S 600. Doctoral Research**1-15 Credits**

Course number is used for assigning credit for research performed prior to successful completion of the doctoral comprehensive examination.

G S 700. Doctoral Dissertation**15 Credits**

Dissertation.

GENE-GENETICS (GENE)

GENE 110. Experimental Systems in Genetics**1 Credit**

Survey of molecular, biochemical, organismal, and computer science based approaches to investigate how genes determine important traits. Historical development and topics of current interest will be discussed.

GENE 303V. Genetics and Society**3 Credits**

Relates the science of genetics with social ramifications. Ways in which genetics and evolution interact with social, political, and economic issues. Includes genetic engineering, gene therapy, DNA finger-printing, ancient DNA, plant and animal improvement, and future prospects. Students required to formulate value judgments on contemporary biological issues that will impact society. Crosslisted with: AGRO303V.

GENE 305. Principles of Genetics**3 Credits**

Covers fundamental principles of reproduction, variation, and heredity in plants and animals. Crosslisted with: AGRO 305, ANSC 305, BIOL 305 and HORT 305

Prerequisite(s): BIOL 111G, BIOL 211G and either CHEM 111G or CHEM 115.

GENE 305 L. Genetic Techniques**1 Credit**

Experimental procedures used in genetic research including: sexual transmission genetics, eukaryotic DNA isolation, DNA marker development and genotyping, polymerase chain reaction, and cytogenetics. Pre/

Corequisite(s): GENE 315, or AGRO/ANSC/BIOL/HORT 305.

GENE 315. Molecular Genetics**3 Credits**

Covers fundamental principles of DNA structure and replication, transcription, translation, gene regulation, recombinant DNA technology, and a survey of genomics and bioinformatics.

Prerequisite(s)/Corequisite(s): . Prerequisite(s): CHEM 112 and BIOL 211. Recommend CHEM 313.

GENE 320. Hereditary and Population Genetics**3 Credits**

Covers fundamental principles of reproduction, variation, and heredity in plants and animals including: Mendelian inheritance, mitosis, meiosis, genetic linkage, random mating, genetic drift, natural selection, inbreeding, migration, mutation, interrelationships between individuals, populations and communities and the environment.

Prerequisite(s): CHEM 111G & BIOL 211G.

GENE 440. Genetics Seminar**1 Credit**

Organization, preparation, and presentation of genetic studies in model microorganism, plant, or animal systems that have been used to solve problems in molecular, cellular, and developmental biology. Consent of instructor required.

Prerequisite(s): Seniors only; GENE 315 & GENE 320.

GENE 449. Special Problems**1-3 Credits (1-3)**

Research problem, experience training, or other special study approved by a faculty adviser. Maximum of 3 credits per semester and a grand total of 3 credits toward a degree. Consent of instructor required.

GENE 450. Special Topics**1-3 Credits (1-3)**

Specific subjects to be announced in the schedule of classes. Maximum of 3 credits per semester and a total of 3 credits toward a degree. Consent of instructor required.

GENE 452. Applied Bioinformatics**3 Credits**

Survey and application of publicly available bioinformatic tools that treat genomic DNA, cDNA, and protein sequences, RNA abundance, as well as tools that allow inference based on phylogenetic relationships.

Prerequisites: AGRO/ANSC/BIOL/HORT 305 or GENE 315 and GENE 320, and BCHE 341, or BCHE 395.

GENE 486. Genes and Genomes**3 Credits**

Extensive coverage of nuclear and organelle genome structure in plants and animals, genome restructuring including duplication, aneuploidy, chromosome translocations and inversions, comparative genomics, and molecular systematics.

Prerequisites: AGRO/ANSC/BIOL/HORT 305 or GENE 315, and GENE 320.

GENE 488. Gene Regulation**3 Credits**

Extensive coverage of signal transduction processes and approaches used to monitor large scale changes in gene regulation and protein synthesis that occur during development and in response to environmental changes.

Prerequisites: AGRO/ANSC/BIOL/HORT 305 or GENE 315.

GEOG-GEOGRAPHY (GEOG)

GEOG 111G. Geography of the Natural Environment**4 Credits (3+3P)**

Introduction to the physical processes that shape the human environment: climate and weather, vegetation dynamics and distribution, soil development and classification, and geomorphic processes and landform development.

GEOG 112G. World Regional Geography**3 Credits**

Overview of the physical geography, natural resources, cultural landscapes, and current problems of the world's major regions. Students will also examine current events at a variety of geographic scales.

GEOG 120G. Culture and Environment**3 Credits**

Study of human-environmental relationships: how the earth works and how cultures impact or conserve nature. Introduction to relationships between people and natural resources, ecosystems, global climate change, pollution, and conservation.

GEOG 257. Introduction to Weather Science**4 Credits (3+3P)**

Introduction to Earth's atmosphere and the dynamic world of weather as it happens. Working with current meteorological data delivered via the Internet and coordinated with learning investigations keyed to the current weather; and via study of select archives. Crosslisted with: SOIL 257 and AGRO 257

Prerequisite(s): None.

GEOG 259. Introduction to Oceanography**4 Credits (3+3P)**

Introduces the origin and development of the ocean and marine ecological concepts. Examines physical processes such as waves, tides, and currents and their impact on shorelines, the ocean floor, and basins. Investigates physical processes as they relate to oceanographic concepts. Includes media via the Internet and laboratory examination of current oceanic data as an alternative to the actual oceanic experience. Students will gain a basic knowledge and appreciation of the ocean's impact on the world's ecology.

GEOG 281. Map Use: Reading, Analysis and Interpretation**3 Credits (2+3P)**

Exploration of the cartographic medium. Development of critical map analysis and interpretation skills, and map literacy. Comprised of traditional lecture, labs, and map use projects.

GEOG 291. Special Topics**1-3 Credits**

Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

GEOG 295. Introduction to Climate Science**4 Credits (3+3P)**

Examines fundamentals and related issues of Earth's climate system, climate variability, and climate change. Develops solid understandings of Earth's climate system framed in the dynamic, Earth system based approach to the science.

GEOG 315V. World Agriculture and Food Problems**3 Credits**

Same as AG E 315V.

GEOG 325V. New Mexico and the American West**3 Credits**

Examination of the cultural and historical patterns, economic activities and physical characteristics of New Mexico with comparisons made with other western states.

GEOG 326. U.S. National Parks**3 Credits**

Exploration of origins, landscapes, ecosystems, management issues, and conflicts in U.S. National Parks. The regional geography of the United States as seen through the creation and protection of biologically and culturally significant lands.

GEOG 328V. Geography of Latin America**3 Credits**

Explores Latin America from a geographical perspective, integrating environmental, cultural and socioeconomic factors in an in-depth study of the development of the region and contemporary issues and challenges facing the region.

GEOG 331V. Europe**3 Credits**

Focus on the cultural continent of Europe, from Iceland to the Ural Mountains and from Archangel, Russia., to Malta. An overview of climate, geology, topography, soils, and vegetation, as well as a brief historical geography of the continent. Current environmental, social, and political issues of Europe will be discussed. A series of regional studies is also offered.

GEOG 351. Fundamentals of Biogeography**3 Credits**

Floristic and physiognomic characteristics of the Earth's major ecosystems and their distributions; ecosystem dynamics, evolution, and physical environment; field and laboratory techniques including remote sensing. Taught with GEOG 557.

GEOG 353. Geomorphology**3 Credits (2+3P)**

Examination of the principle theories and concepts of landform creation; exploration of the roles of structure, processes, climate, and time in the formation of various types of landforms. Taught with GEOG 553. Crosslisted with: GEOL 353

Prerequisite(s): GEOL 111G and GEOG 111G.

GEOG 357. Climatology**3 Credits**

Elements and controls of climate. Energy and hydrologic cycles, general circulation, climate classification, distribution of climate types, microscale effects, applications. Same as AGRO 357, SOIL 357.

Prerequisites: MATH 120.

GEOG 361V. Economic Geography**3 Credits**

The geographic relationships of supply and demand resources, population, and transportation. Site analysis and decision-making in different economic systems and cultures and how these decisions affect the environment and the location of economic activities.

GEOG 363V. Cultural Geography**3 Credits**

The world's diverse cultural landscapes. Emphasis on the connections between social, political, religious, and agricultural patterns and the impact of societies on the natural environment.

GEOG 365V. Urban Geography**3 Credits**

The global historical development of urban areas, as well as the changing functions of today's cities. A comparison between the North American city system and cities in Europe, Asia, and South America, including the development of the city form, the internal spatial organization of commercial, residential, and industrial areas, and socio-economic and political factors.

GEOG 373. Introduction to Remote Sensing**4 Credits (3+3P)**

Introduction to the theory, techniques, and applications of remote sensing. Topics include electromagnetic radiation; remote sensing systems; remote sensing of the biosphere, hydrosphere, atmosphere, lithosphere, and cultural landscapes. Course includes lectures and also labs focused on the basic analysis and interpretation of remote sensing products. Taught with GEOG 573. May be repeated up to 4 credits.

GEOG 381. Cartography and Geographic Information Systems**4 Credits (3+3P)**

Design and construction of thematic maps. Introduction to cartographic principles in lecture. Emphasis on map-making using GIS software in the labs. Taught with GEOG 571. May be repeated up to 4 credits.

GEOG 382. Aerial Photo Interpretation**3 Credits (2+3P)**

Introduction to use and analysis of aerial photographs. Emphasis on physical features and cultural patterns.

GEOG 401. Internship/Co-op**1-3 Credits (1-3)**

Provides an opportunity whereby students work with a local, regional, or federal agency, or private sector firm on applied geographic work, under the supervision of an agency or firm professional and a geography faculty member. Consent of instructor required.

GEOG 435. Environmental Planning**3 Credits**

Exploration of planning tools that advance the management of land and water resources, meeting current societal needs, while also minimizing damage to nature and society. Class activities include applied exercises that explore contemporary planning issues, including land conservation, natural hazards, biophysical analysis, water resource management, Federal land issues, and remediation of Superfund sites. Crosslisted with: GEOG 535.

GEOG 441. System Design for Geographic Information Science and Technology (GIS&T)**3 Credits**

A critical aspect of GIS is its ability to provide the necessary products within the organization within which it is implemented. This is an in-depth analysis of currently accepted planning methodologies designed to create a successful implementation of GIS inside organizations. Taught with GEOG 581.

Prerequisite(s): GEOG 481 or consent of instructor.

GEOG 452. Landscape Ecology**4 Credits (3+2P)**

Analysis of the structure, function and change of natural and anthropogenic landscapes. Patches, corridors, matrix and network, spatial organization, landscape dynamics, and role of disturbance in overall functioning of landscapes. Role of landscape heter. Taught with GEOG 552.

Prerequisite(s): Either GEOG 351, BIOL 301, or other basic ecology course or consent of instructor.

GEOG 455. Southwest Environments**3 Credits**

The U.S. Southwest: physical and human geography, coupled human-environment interactions, causes and consequences of environmental issues, and implications for sustainable development. Taught with GEOG 555. May be repeated up to 3 credits. Consent of Instructor required.

GEOG 467. Transportation Geography**3 Credits**

Nature and distribution of land, air and water transport facilities and their importance in regional development.

Prerequisite: GEOG 120G or consent of instructor.

GEOG 472. Soil Morphology and Classification**4 Credits (2+2P)**

Same as SOIL 472. May be repeated up to 4 credits. Crosslisted with: SOIL 472.

Prerequisite(s): SOIL 252.

GEOG 473. Advanced Remote Sensing**4 Credits (3+3P)**

Introduction to advanced topics in digital image processing, analysis, interpretation, and visualization. Topics include geometric and radiometric correction, image enhancement, image classification, change detection, and accuracy assessment. Lectures focus on the discussion of advanced remote sensing concepts, techniques, and applications; labs are applications-oriented. Taught with GEOG 573. May be repeated up to 4 credits.

GEOG 481. Fundamentals of Geographic Information Science and Technology (GIS & T)**4 Credits (3+3P)**

Fundamentals of computer-based systems which organize, analyze, and present spatially referenced data. Taught with GEOG 578.

Prerequisite(s): GEOG 281 or GEOG 381.

GEOG 482. Geodatabase Design**3 Credits (2+3P)**

A practical introduction to designing geodatabases. The course takes you through the eleven steps of geodatabase design divided into four stages: thematic characterization; developing the database elements, relationships and properties; capture and collection; and finally, implementation and documentation. Taught with GEOG 572.

Prerequisite(s): Geog 481 or consent of instructor.

GEOG 483. Field Explorations in Geography**3 Credits**

A field-based class where students complete exercises in physical, human, and environmental geography in the Southwest. May be offered as a two-week intensive class where students are away from Las Cruces and camping; or may be offered with weekend field trips depending on the instructor. A lab fee for transportation and other expenses is required. Taught with GEOG 583. May be repeated up to 3 credits.

GEOG 488. GIS and Water Resources**3 Credits**

Explores a range of GIS tools, routines, and data structures and then applies them to a range of research questions and management issues in the area of Water Resources. The class has both a lecture and laboratory component, and students will have opportunities to explore a range of GIS tools in formal lab exercises and a project in the student's area of interest. Crosslisted with: GEOG 588.

GEOG 491. Special Topics**1-3 Credits**

Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits. Consent of instructor required.

GEOG 492. GIS&T Applications and Modeling**3 Credits**

Group oriented class in which students conduct an applied research project in GIS application or modeling area of choice and conduct focused library research. Taught with GEOG 521

Prerequisite(s): GEOG 481 or Consent of Instructor.

GEOG 493. Special Problem Research**1-3 Credits**

For advanced and exceptional students. Research, and preparation of a paper in some phase of geography. A maximum of 6 credits may be earned. Consent of instructor required.

GEOG 495. Directed Readings**1-3 Credits**

Individual study through selected readings. A maximum of 6 credits may be earned. Consent of instructor required.

GEOG 501. Research Design and History of Geographic Thought**3 Credits**

Understanding and application of the research process, including conceptualization and definition of a research problem, study designs, data sources, data collection, and report writing in development of geographic thought.

GEOG 521. GIS & T Applications and Modeling**3 Credits**

Group oriented class in which students conduct an applied research project in a GIS application or modeling area of choice and conduct focused library research. Taught with GEOG 492.

Prerequisite(s): GEOG 481, or consent of instructor.

GEOG 535. ENVIRONMENTAL PLANNING**3 Credits**

Exploration of planning tools that advance the management of land and water resources, meeting current societal needs, while also minimizing damage to nature and society. Class activities include applied exercises that explore contemporary planning issues, including land conservation, natural hazards, biophysical analysis, water resource management, Federal land issues, and remediation of Superfund sites. Crosslisted with: GEOG 435.

GEOG 552. Landscape Ecology**4 Credits (3+2P)**

Analysis of the structure, function and change of natural and anthropogenic landscapes. Patches, corridors, matrix and network, spatial organization, landscape dynamics, and role of disturbance in overall functioning of landscapes. Role of landscape heterogeneity in landscape management. Taught with GEOG 452.

Prerequisite(s): Either GEOG 351, BIOL 301, or other basic ecology course or consent of instructor.

GEOG 553. Geomorphology**3 Credits (2+3P)**

Examination of the principle theories and concepts of landform creation; exploration of the roles of structure, processes, climate, and time in the formation of various types of landforms. Taught with GEOG 353.

Prerequisite(s): GEOG/GEOL 353 or GEOG/GEOL 111G.

GEOG 555. Southwest Environments**3 Credits**

The U.S. Southwest: physical and human geography, coupled human-environment interactions, causes and consequences of environmental issues, and implications for sustainable development. Taught with GEOG 455. May be repeated up to 3 credits.

GEOG 557. Fundamentals of Biogeography**3 Credits**

Floristic and physiognomic characteristics of the Earth's major ecosystems and their distributions; ecosystem dynamics, evolution, and physical environment; field and laboratory techniques including remote sensing. Taught with GEOG 351.

GEOG 571. Cartography and Geographic Information Systems**4 Credits (3+3P)**

Graduate level design and construction of thematic maps. Introduction to cartographic principles in lecture. Emphasis on map-making using GIS software in the labs. Taught with GEOG 381. May be repeated up to 4 credits.

GEOG 572. Geodatabase Design**3 Credits (2+3P)**

Graduate level introduction to designing geodatabases. The course takes you through the eleven steps of geodatabase design divided into four stages: thematic characterization; developing the database elements, relationships and properties; capture and collection; and finally implementation and documentation. Taught with GEOG 482. Consent of instructor required.

Prerequisite(s): GEOG 481.

GEOG 573. Introduction to Remote Sensing**4 Credits (3+3P)**

Graduate level introduction to the theory, techniques, and applications of remote sensing. Topics include electromagnetic radiation; remote sensing systems; remote sensing of the biosphere, hydrosphere, atmosphere, lithosphere, and cultural landscapes. Course includes lectures and also labs focused on the basic analysis and interpretation of remote sensing product. Taught with GEOG 373. May be repeated up to 4 credits.

GEOG 578. Fundamentals of Geographic Information Science and Technology (GIS & T)**4 Credits (3+3P)**

Graduate level fundamentals of computer-based systems that organize, analyze, and present spatially referenced data. Taught with GEOG 481.

Prerequisite(s): GEOG 571 or consent of instructor.

GEOG 581. System Design for Geographic Information Science and Technology (GIS & T)**3 Credits**

A critical aspect of GIS is its ability to provide the necessary products within the organization within which it is implemented. This is an in-depth analysis of currently accepted planning methodologies designed to create a successful implementation of GIS inside organizations. Taught with GEOG 441.

Prerequisite(s): GEOG 481 or consent of instructor.

GEOG 582. Advanced Remote Sensing**4 Credits (3+3P)**

Graduate level introduction to advanced topics in digital image processing, analysis, interpretation, and visualization. Topics include geometric and radiometric correction, image enhancement, image classification, change detection, and accuracy assessment. Lectures focus on the discussion of advanced remote sensing concepts, techniques, and applications; labs are applications-oriented. May be repeated up to 4 credits.

GEOG 583. Field Explorations in Geography**3 Credits**

A graduate level field-based class where students complete exercises in physical, cultural, and environmental geography in the Southwest. May be offered as a two-week intensive class where students are away from Las Cruces and camping; or may be offered with weekend field trips depending on the instructor. A lab fee for transportation and other expenses is required. May be repeated up to 3 credits.

GEOG 585. Advanced Spatial Analysis**3 Credits (3+2P)**

Introduction to basic spatial and aspatial descriptive statistics, statistical analysis of point and area patterns, critical review of quantitative research in geography, and exploration of advanced spatial analysis routines including cluster analysis, hot/cold spot analysis, and spatially weighted regression.

Prerequisite(s): STAT 251 or A ST 311; or consent of instructor.

GEOG 588. GIS and Water Resources**3 Credits**

This is a graduate level class that explores a range of GIS tools, routines, and data structures and then applies them to a range of research questions and management issues in the area of Water Resources. The class has both a lecture and laboratory component, and students will have opportunities to explore a range of GIS tools in formal lab exercises and a project in the student's area of interest. Crosslisted with: GEOG 488.

GEOG 595. Directed Readings**1-3 Credits**

Advanced individual study through selected readings. May be repeated for a maximum of 6 credits.

GEOG 596. Residency**3-12 Credits**

A contractual learning experience in the public or private sector under the supervision of a field supervisor and two faculty members. Restricted to majors. PR/U grading only.

GEOG 598. Selected Topics**1-3 Credits**

Readings, discussions, lectures or laboratory studies of selected geographic themes. May be repeated for unlimited credit.

GEOG 599. Master's Thesis**12 Credits**

Supervised individual study of a student's thesis topic. May be repeated for an unlimited number of credits.

GEOL-GEOLOGY (GEOL)

GEOL 111G. Introductory to Geology**4 Credits (3+3P)**

Covers the fundamental principles of physical geology, including the origin of minerals and rocks, geologic time, rock deformation, and plate tectonics. May be repeated up to 4 credits.

GEOL 212G. The Dynamic Earth**4 Credits (3+3P)**

Introduction to earth systems. Geology and the solid earth, geologic time and earth history, water and the world oceans, atmosphere and weather, the solar system. Community Colleges only.

GEOL 220. Special Topics**1-3 Credits**

Specific subjects to be announced in the Schedule of Classes.
Community Colleges only. May be repeated for a maximum of 12 credits.
May be repeated up to 12 credits.

GEOL 295. Environmental Geology**3 Credits**

Earth processes that affect humans and their works, properties of rocks and soils, use and application of environmental geologic data.

GEOL 305V. Fossils and the Evolution of Life**3 Credits**

Examination of the fossil record within the context of geologic time.
Special emphasis on critical evaluation of possible terrestrial and extra-terrestrial causes for the evolution of plants and animals and for periods of mass extinction.

GEOL 310. Mineralogy**3 Credits (2+3P)**

Crystallography and the physical and chemical aspects of minerals.

Prerequisite(s): GEOL 111G and CHEM 111G.

GEOL 312. Optical Mineralogy**3 Credits (2+3P)**

Principles of optical mineralogy as applied to the identification and characterization of rock-forming minerals.

Prerequisite or Corequisite: GEOL 310.

GEOL 320. Special Topics**1-3 Credits**

Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

GEOL 335V. Earthquakes, Volcanoes, Hurricanes, and Floods: The Role of Natural Hazards in Civ Past and Present**3 Credits**

This class will provide an introduction to geologic hazards and natural disasters, their effects on society and the attempts at preparation and mitigation for these events. Hazards to be covered include earthquakes, volcanic eruptions, floods, landslides, hurricanes, tsunamis and others.

GEOL 353. Geomorphology**3 Credits**

Same as GEOG 353.

GEOL 360. General Geochemistry**3 Credits**

The chemistry of the earth and its parts, with emphasis on geochemical systems and cycles, distribution of the elements, and mineral equilibria.
Crosslisted with: CHEM 360

Prerequisite(s): CHEM 111G or CHEM 110G.

GEOL 399. Igneous and Metamorphic Petrology**3 Credits (2+3P)**

Mineralogical composition, classification, and genesis of igneous and metamorphic rocks.

Prerequisite(s): GEOL 312 for geology majors, GEOL 310 for majors other than geology.

GEOL 401. Geology Colloquium**1 Credit**

Presentations by visiting speakers and students. May be repeated up to 6 credits.

GEOL 420. Stratigraphy and Sedimentology**3 Credits (2+3P)**

Identification and interpretation of sedimentary rocks with emphasis on classification, deposition, and stratal geometry.

Prerequisite: GEOL 310.

GEOL 424. Soil Chemistry**3 Credits**

Same as SOIL 424, CHEM 424.

GEOL 434. Tectonics of Sedimentary Basins**3 Credits**

Origin of sedimentary basins with emphasis on subsidence mechanisms, geometry of basin fill, depositional systems and tectonic setting. Course includes two off-campus field trips. Crosslisted with: GEOL 534.

Prerequisite(s): GEOL 420.

GEOL 441. Tutorial Geology**2 Credits (1+3P)**

Participation in teaching lower-division laboratories and conducting tutorial sessions. May be repeated for a total of 4 credits.

Prerequisite: junior or above standing and nomination by faculty.

GEOL 444. GIS for Geology**3 Credits**

Tools-based introduction to using GIS software for solving problems in geology. Emphasis on effectively portraying and analyzing geologic maps. One required field trip. Crosslisted with: GEOG 544.

Prerequisite(s): GEOL 470.

GEOL 449. The Geological Profession**1 Credit**

Investigation of graduate school and employment opportunities, writing the resume, conduct at interviews, and ethics of the profession. Also outcomes assessment exit exams. For graduating seniors only.

GEOL 452. Geohydrology**4 Credits (3+2P)**

Origin, occurrence, and movement of fluids in porous media assessment of aquifer characteristics. Development and conservation of ground water resources, design of well fields. Crosslisted with: C E 452 and E S 452.

Prerequisite(s): Junior or senior.

GEOL 455. Undergraduate Research**1-3 Credits**

Geological research and field projects for the advanced student. May be repeated for a total of 6 credits. May be repeated up to 6 credits. Consent of Instructor required.

Prerequisite(s): Consent of instructor.

GEOL 465. Isotope Geochemistry**3 Credits**

Geochemistry of stable and radiogenic isotopes and its application to a wide range of problems in the earth and planetary sciences.

Prerequisite(s): CHEM 112G, GEOL 360, GEOL 399.

GEOL 470. Structural Geology**3 Credits (2+3P)**

Deformation of rocks of the earth. Prerequisite: GEOL 310

GEOL 471. Volcanology**3 Credits**

Identification and interpretation of volcanic deposits (including air fall, ash flow tuffs, surges, lava flows), with focus on how the characteristics of these deposits can reveal eruption styles and eruption dynamics. Other topics covered include: magma migration and storage, volcanic hazards, volcano monitoring and volcanoes and climate. Crosslisted with: GEOL 571.

Prerequisite(s): GEOL 399.

GEOL 475. Geology of Mineral Resources**3 Credits (2+3P)**

Introduction to ore deposits and industrial rocks and minerals; genesis, mining methods, estimation of reserves, exploration, and economic aspects of selected commodities.

Prerequisite: GEOL 399.

GEOL 477. Special Problems**1-3 Credits**

Selected advanced topics of current interest or importance. May be repeated for a total of 6 credits.

Prerequisite: consent of instructor.

GEOL 478. Petroleum Systems and Stratigraphy**3 Credits (2+3P)**

Sedimentation, stratigraphy, depositional environments, and tectonics in relation to the occurrences and exploration of hydrocarbons. Course includes two off-campus field trips. May be repeated up to 3 credits.

Prerequisite(s): GEOL 420.

GEOL 479. Environmental Soil Chemistry**3 Credits**

Same as SOIL 479.

GEOL 480. Seminar**1-3 Credits**

Supervised study of a subject not covered by regular courses. For organized group meetings treating selected advanced topics. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

GEOL 482. Zuhl Collection Internship**1-3 Credits (1-3)**

Applied experience working with the Zuhl Collection of rocks, minerals, fossils, and petrified wood, supervised by the Director of the Zuhl Collection. Activities include tours, display development, research on aspects of the collection, and other work in the museum. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: GEOL majors.

GEOL 490. Field Geology**3 Credits**

Mapping, instrumentation, and interpretation of geology in the field.

Prerequisites: either GEOL 420 and GEOL 470.

GEOL 491. Tectonic Evolution of North America**3 Credits**

Current ideas regarding the plate-tectonic evolution of North America from Archean through Holocene time, emphasizing the use of regional stratigraphy and structural geology to interpret mountain building, magmatism, and basin development.

Prerequisites: GEOL 111G, GEOL 399, GEOL 420 and GEOL 470.

GEOL 495. Geology Field Camp**4 Credits**

Three week intensive summer course. Geologic mapping in a site-based setting, emphasizing spatial relations, cross-section construction, and preparation of geologic reports. Prerequisite: GEOL 490

GEOL 499. Senior Thesis**1-3 Credits**

Writing a formal paper describing original geologic research conducted under supervision of a faculty advisor. Restricted to majors.

Prerequisite: consent of instructor.

GEOL 501. Geology Colloquium**1 Credit**

Presentations by visiting speakers and graduate students.

GEOL 520. Selected Topics**1-3 Credits**

Selected topics in geology. May be repeated for unlimited credit.

Prerequisites: graduate standing and consent of instructor.

GEOL 534. Tectonics of Sedimentary Basins**3 Credits**

Origin of sedimentary basins with emphasis on subsidence mechanisms, geometry of basin fill, depositional systems and tectonic setting. Course includes two off-campus field trips. Restricted to: GEOL majors.

Prerequisites: GEOL 420 or equivalent or consent of instructor.

GEOL 544. GIS FOR GEOLOGY**3 Credits**

Tools-based introduction to using GIS software for solving problems in geology. Emphasis on effectively portraying and analyzing geologic maps. One required field trip. Crosslisted with: GEOL 444.

Prerequisite(s): GEOL 470 or equivalent.

GEOL 553. Applied Geomorphology**3 Credits (2+3P)**

Same as GEOG 553.

GEOL 562. Analytical Geochemistry**3 Credits**

Techniques used to determine the major element, trace element and isotopic composition of rocks and minerals and the determination of mineral structure.

GEOL 565. Isotope Geochemistry**3 Credits**

Trace element partitioning and isotope systematics applied to problems in petrology and ore genesis.

GEOL 567. Global Geochemical Systems**3 Credits**

Generation of major element, trace element, and isotopic signatures of igneous rocks in different tectonic settings and propagation or destruction of those signatures by sedimentary and metamorphic processes.

GEOL 571. Volcanology**3 Credits**

Identification and interpretation of volcanic deposits (including air fall, ash flow tuffs, surges, lava flows), with focus on how the characteristics of these deposits can reveal eruption styles and eruptions dynamics. Other topics covered include: magma migration and storage, volcanic hazards, volcano monitoring and volcanoes and climate. Crosslisted with: GEOL 471.

Prerequisite(s): GEOL 399 or equivalent.

GEOL 578. Petroleum Systems and Stratigraphy**3 Credits (2+3P)**

Sedimentation, stratigraphy, depositional environments and tectonics in relation to the occurrences and exploration of hydrocarbons. Course includes two off-campus field trips.

Prerequisite(s): GEOL 420.

GEOL 582. Plate Tectonics**3 Credits**

Plate tectonics as a fundamental model for geological activity on a dynamic earth. Focuses on plate tectonic theory development and mechanisms, plus modern analogs of ancient processes.

GEOL 585. Geochronology**3 Credits**

The principles, analytical methods, and interpretation of the most common geochronologic methods.

GEOL 598. Special Research Programs**1-3 Credits**

Investigations into contemporary geological problems. May be repeated for unlimited credit.

Prerequisites: graduate standing and consent of instructor.

GEOL 599. Master's Thesis**15 Credits**

Thesis research.

GER-GERMAN (GER)

GER 111. Elementary German I**4 Credits**

German for beginners. Stress on speaking skills.

GER 112. Elementary German II**4 Credits**

German for beginners and students with one year of high school German. Stress on speaking skills.

Prerequisite: C or better in GER 111.

GER 211. Intermediate German I**3 Credits**

Speaking, reading and writing.

Prerequisite: C or better in GER 112.

GER 212. Intermediate German II**3 Credits**

Speaking, reading and writing.

Prerequisite: C or better in GER 211.

GER 305. Topics in German Culture**3 Credits**

Overview of Germany - states, cities, landscapes and people. May be repeated up to 6 credits.

Prerequisite(s): GER 212 or consent of instructor.

GER 313. Intermediate Composition and Grammar**3 Credits**

Exercises in written German with emphasis on advanced grammatical features. Preparation for Zertifikat Deutsch.

Prerequisite: GER 212, or high school German 3, or consent of instructor.

GER 325. German Conversation I**3 Credits**

Spoken German with emphasis on everyday situations.

Prerequisite: GER 212, or high school German 3, or consent of instructor.

GER 333V. German Culture through Cinema**3 Credits**

Events, values and issues in German culture as reflected in motion pictures made in Germany between 1913 and 1990. Familiarization with cinema as art form. Taught in English. Does not satisfy Arts and Sciences second language requirement.

GER 340. German Linguistics**3 Credits**

Analysis of the German language.

Prerequisite(s): GER 212 or consent of instructor.

GER 341. German Folklore and Culture**3 Credits**

Customs, traditions, mythology, folk literature and art; everyday culture of German-speaking Europe.

Prerequisite: GER 212 or equivalent or consent of instructor.

GER 343. Readings in Current Events**3 Credits**

Practice in improving reading skills with a wide variety of texts.

Discussion in German also enhances oral skills.

Prerequisite(s): GER 212 or consent of instructor.

GER 350. Introduction to German Literature**3 Credits**

Basic literary genres and major figures in German literature from the 18th century to the present.

Prerequisite(s): GER 212 or consent of instructor.

GER 399. Intermediate Independent Study in German**1-3 Credits (1-3)**

Tutorial in reading, writing and oral expression. May be repeated up to 6 credits. Consent of Instructor required.

Prerequisite(s): GER 212 or consent of instructor.

GER 410. Practicum in Conversational German**1-3 Credits**

Intensive oral practice as language monitor. May be repeated for a maximum of 6 credits.

Prerequisite: two upper division German courses or consent of instructor.

GER 413. Advanced Composition and Grammar**3 Credits**

Exercises in written German with emphasis on stylistic features.

Prerequisite: GER 313 or consent of instructor.

GER 425. Advanced German Conversation**3 Credits**

Advanced conversation through intensive oral practice.

Prerequisite(s): GER 325 or consent of instructor.

GER 449. Special Problems**1-3 Credits**

Directed reading for graduate students in their specific fields to satisfy language requirements for master's or doctoral programs. May be repeated for a maximum of 6 credits.

GER 451. Special Topics in German**1-3 Credits**

Selected topics in German language, literature or area studies announced in Schedule of Classes. May be repeated for credit when topic changes.

May be repeated for a maximum of 12 credits.

Prerequisite: consent of instructor.

GER 453. Independent Studies in German**1-3 Credits (1-3)**

Individualized, self-paced projects for advanced students. May be repeated up to 12 credits.

Prerequisite(s): Consent of instructor.

GER 471. Studies in German Literature**3 Credits**

Selected readings from authors representative of each literary period. May be repeated up to 6 credits.

Prerequisite(s): GER 212 or consent of instructor.

GERO-GERONTOLOGY (GERO)

GERO 415. Introduction to Gerontology**3 Credits**

Social, psychological, and physiological aspects of aging, with an interdisciplinary emphasis on health promotion. Demographic characteristics of the aging population. Taught with MPH 515.

GERO 450. Health Promotion for the Older Adult**3 Credits**

Common health concerns and lifestyle issues relevant to older adults. Facts about the content area, health behaviors, and practices to promote health and prevent disease; program development strategies applicable to a variety of settings. Same as MPH 557.

GERO 451. Aging and Public Policy**3 Credits**

Exploration of public policies relating to elders, historical development, current status and trends in public policy for this age group. Impact of political behavior of elders on policy making and implementing processes.

GERO 493. Adulthood and Aging**3 Credits**

Normal transitions in later life; those occurring from 40 years of age to the end of life are discussed. Changes in interpersonal relationships and adaptations commonly made by individuals and meeting those alterations are presented through research findings, case studies, and autobiographies. Same as MPH 593.

GERO 498. Independent Study**1-3 Credits**

Individual studies with prior approval of health science department head. May be repeated for maximum of 6 credits.

Prerequisite: senior standing and consent of instructor.

GOVT-GOVERNMENT (GOVT)

GOVT 100G. American National Government**3 Credits**

Class critically explores political institutions and processes including: the U.S. constitutional system; legislative, executive and judicial processes; political parties, elections, media, policy making, civic participation, popular and group influence

GOVT 101. Introductory Government Seminar**1 Credit**

Introduction to the government major. Designed to assist students in planning college experience and preparing for professional or advanced educational opportunities upon graduation. Graded: S/U. Restricted to: Main campus only.

GOVT 110G. Introduction to Political Science**3 Credits**

This class covers fundamental concepts such as justice, sovereignty and power; political theories and ideologies; and government systems that range from democratic to authoritarian.

GOVT 150G. American Political Issues**3 Credits**

Major contemporary problems of American society and their political implications.

GOVT 160G. International Political Issues**3 Credits**

Current developments and issues in world politics.

GOVT 201. Special Topics**3 Credits**

Specific topics to be announced in Schedule of Classes. Community Colleges only. May be repeated for a maximum of 12 credits.

GOVT 300. Political Research Skills**3 Credits**

Introduction to methods of political analysis and fundamentals of research design, including basic methods for the collection and analysis of political data.

GOVT 308. Prepping for Law School Admissions Test**1 Credit**

This workshop helps students prepare to take the Law School Admissions Test and apply for law school. Graded: S/U.

GOVT 313. Model United Nations**3 Credits**

Issues related to the United Nations and international law/organizations through simulations, discussions and research projects.

Prerequisites: GPA of 2.5 or better and consent of instructor.

GOVT 314. Advanced Model UN**3 Credits**

Advanced topics, research and preparation for Model United Nations activities. Consent of instructor required. Restricted to: Main campus only.

Prerequisite(s): GOVT 313, minimum GPA 2.5.

GOVT 315. Politics and Film**3 Credits**

Exploration of political themes, images, and representation in film and other media. May be repeated for a maximum of 6 credits under different subtitles.

GOVT 320. Domestic Policy**3 Credits**

The course examines how U.S. public policy is made, including the players, politics, issues and power critical to the policy process. An interactive class that bridges theory and political action. Restricted to: Main campus only.

GOVT 321. Topics in Public Policy**3 Credits**

Course examines issues in public policy. May be repeated under different subtitles.

GOVT 324. Environmental Policy**3 Credits**

This introductory course explores environmental policy issues. Students study perspectives of policy-makers, political activists and policy analysts, and apply policy models to solve pressing environmental problems. Focus may be on U.S. or global concerns.

GOVT 325. Education Policy and Politics**3 Credits**

Overview of current pressing policy issues and political debates on education in the U.S., including school choice, vouchers, accountability, and affirmative action. Multiple topics and perspectives covered, with political economy as the main approach.

GOVT 330. Introduction to Public Administration**3 Credits**

What is public administration? Course examines public service, focusing on federal and state government. Issues include management and leadership, personnel, bureaucratic politics, organizational theory, personnel, budgeting and administrative law. Restricted to: Main campus only.

GOVT 331. Special Topics in Public Administration**3 Credits**

Special topics in public administration. May be repeated for a maximum of 6 credits under different subtitles.

GOVT 335. Management of Nonprofit Organizations**3 Credits**

This course provides an overview of a range of nonprofit management concerns and practices. Students will be challenged to assess their own theories of nonprofit accountability and excellence, while confronting critical issues facing the sector. Activities are designed to expand the management skills of students by offering analytical tools and knowledge, and providing opportunities to test the application of these skills.

GOVT 340. American State and Local Government**3 Credits**

Development, structure, functions, and contemporary problems.

GOVT 341. Special Topics: American Politics**3 Credits**

Course examines contemporary issues and trends in American government and politics. May be repeated under different subtitles.

GOVT 343. Congress and the Legislative Process**3 Credits**

This class reviews the history, structure, membership, operation, power and culture of the American Congress. Restricted to: Main campus only.

GOVT 344. The American Presidency**3 Credits**

A comprehensive overview of the U.S. presidency, including powers, electoral politics, decision-making styles, domestic and foreign policy, and relations with Congress, courts, media and interest groups.

GOVT 345. The Supreme Court**3 Credits**

This class studies the history and operation of the Supreme Court, as well as landmark cases that have shaped American government and the Court.

GOVT 348. Political Parties and Interest Groups**3 Credits**

Organization, principles, and functions of political parties and interest groups in the U.S.

GOVT 350. Special Topics in American Government**3 Credits**

Special topics in American government. May be repeated for a maximum of 6 credits under different subtitles.

GOVT 351. Campaigns and Elections**3 Credits**

Dynamics of campaigns and electoral politics, and their relationship to the formulation of public policy.

GOVT 353. Women, Politics and Administration**3 Credits**

An examination of women's participation in U.S. electoral politics as voters, candidates, and officeholders; political activism in issue-based movements and strategies for affecting public policy; leadership as administrators and managers in public service agencies. Also explores the influence of feminism in changing women's roles socially, legally, and politically. Crosslisted with: W S 453

GOVT 354. American Indian Politics**3 Credits**

Introduction to American Indian tribal governments, politics, policy, and administration; historical and contemporary leadership of Indian Nations; and the history and current status of American Indian-U.S. relations. Students learn about Native peoples' cultural responses, forms of resistance, and adaptations to colonization. Restricted to: Main campus only.

GOVT 360. International Relations**3 Credits**

Introduction to world politics; fundamental international issues and problems.

GOVT 361. Special Topics in International Relations**3 Credits**

Course examines contemporary issues in international relations. May be repeated under different subtitles.

GOVT 362. International Political Economy**3 Credits**

Political factors in international economic relations; theories of political economy.

GOVT 364. National Security Policy**3 Credits**

Evolution of U.S. national security policy; problems in defining national interests and related allocation of resources.

GOVT 366. American Foreign Policy**3 Credits**

Formulation, content and rationale of current foreign policies of the U.S.

GOVT 367. Terrorism**3 Credits**

An introductory course using an interdisciplinary framework to explore definitions, historical roots, contemporary manifestations and future trends in political terrorism.

GOVT 368. Fundamentals of Intelligence Studies**3 Credits**

Introductory survey of the major theoretical approaches and substantive issues in intelligence studies.

GOVT 369. Nationalism, Ethnic Cleansing, and Genocide in 20th Century**3 Credits**

Same as HIST 377.

GOVT 370. Comparative Politics**3 Credits**

Introduction to functional approaches to comparing similarities and differences among political systems.

GOVT 371. Latin American Politics**3 Credits**

Basic structure of politics in major Latin American countries; role of groups, including church, labor, and parties.

GOVT 372. Special Topics in Comparative Politics**3 Credits**

Course examines contemporary issues in comparative politics. May be repeated under different subtitles. Restricted to: Main campus only.

GOVT 373. Resistance Movements in World Politics**3 Credits**

Research on violent and non-violent resistance movements around the world. Focus on their origins, demands, ideologies, strategies and impacts in the post-Cold War context of economic globalization, US military power and new geopolitical dynamics.

GOVT 374V. The European City: History and Culture**3 Credits**

Course presents the rich, complex history and cultures of European cities from ancient to modern times, lining these cities to crucial issues in European history.

GOVT 375. Self Determination and Minority Rights**3 Credits**

Comparative study of ethnic relations, minority rights, identity, citizenship and political representation.

GOVT 378. U.S.-Mexico Border Politics**3 Credits**

Comparative perspectives applied to the problems of the U.S.-Mexican border.

GOVT 379. Mexican Politics**3 Credits**

Introduction to the politics and government of contemporary Mexico.

GOVT 380V. Contemporary World Political Ideologies**3 Credits**

Introduction to the prevailing political ideologies in the modern world and the ways in which modern nations operating under one or more of these ideologies attempt to answer fundamental questions about the allocation and distribution of rights, liberties, and other things of value. In addition, the course work and discussions attempt to address recent political, social, and economic events in various areas of the world.

GOVT 381. Special Topics in Political Theory**3 Credits**

Course explores special topics or theorists in political theory. May be repeated under different subtitles.

GOVT 382. Classical Political Thought**3 Credits**

Analysis of main currents in political thought from ancient Greece and Rome to the high Middle Ages.

GOVT 383. Modern Political Thought**3 Credits**

Historical and theoretical examination of political ideas and ideologies from Machiavelli to Nietzsche. Topics include liberalism, conservatism, romanticism, communism, and Nihilism.

GOVT 384. Contemporary Political Thought**3 Credits**

Examination of major currents in political theory from early twentieth century to the present. Includes positivism, fascism, neo-liberalism, and varieties of postmodernism.

GOVT 385. American Political Thought**3 Credits**

Introduction to major American thinkers and historical currents from colonial time to the present.

GOVT 386. Political Economy**3 Credits**

Analysis of political ideas concerning the role of the state in management of national economies, in both European and American contexts.

GOVT 387. Religion and Politics**3 Credits**

Survey of major points of interaction between politics and religion in the U.S., using theoretical, historical, and institutional analysis.

GOVT 390. Special Topics in Public Law**3 Credits**

Course examines various issues in public law. May be repeated under different subtitles.

GOVT 391. Constitutional Law**3 Credits**

The class explores the reasoning and political context of the Supreme Court cases that define the distribution and limits of governmental powers and duties under the U.S. Constitution, including separation of powers and federalism. Restricted to: Main campus only.

GOVT 392. Civil Liberties**3 Credits**

The course examines the reasoning and political context of major Supreme Court cases defining constitutional rights of free speech, religious liberty, free press and criminal procedural rights.

GOVT 394. Judicial Process**3 Credits**

Class examines the structure, function and purpose of the American judicial system. Restricted to: Main campus only.

GOVT 395. Law and Society**3 Credits**

Class critically explores the development, role and impact of law on our society, covering different theories of law, conceptions of justice and the values they reflect. These models are then applied to current legal issues. Not a class in legal reasoning, but one where students evaluate their beliefs about the legal system. Restricted to: Main campus only.

GOVT 396. International Law**3 Credits**

Nature, growth, and scope of law of nations, rights and obligations of states in peace and war, current issues.

GOVT 399. New Mexico Law**3 Credits**

New Mexico legal system, court structure and procedures; legal terms and concepts; constitutional, criminal, mass media, historical and social issues relating to New Mexico. Same as C J 399, HIST 399, JOUR 399, and SOC 399.

GOVT 405. Directed Readings**1-3 Credits**

Individualized readings. Course subtitled. May be repeated for a maximum of 6 credits. Graded S/U. Consent of instructor required.

GOVT 406. Independent Study**1-3 Credits**

Individualized research. Course subtitled. May be repeated for a maximum of 6 credits. Consent of instructor required.

GOVT 407. Workshop**1-6 Credits**

Focus on skills related to careers in government and political science. Specific topics announced in the Schedule of Classes; may be repeated for a total of 6 credits. Only 3 credits apply toward government major or minor requirements. Graded S/U.

GOVT 410. Internship**1-12 Credits**

Hands-on experience working with public agencies, political campaigns, elected officials & non-profits. May be repeated for a maximum of 12 credits; only 3 credits apply toward government major or minor requirements. Consent of instructor required. Graded: S/U.

Prerequisite(s): Completion of 12 government credits, 2.5 GPA, junior and above standing.

GOVT 411. Service Learning Experience**3 Credits**

Experiential learning through a community service project. May be subtitled to reflect service activity. May be repeated for a total of 6 credits; only 3 credits apply toward government major or minor requirements.

Prerequisites: completion of 12 government credits, junior or above standing, and consent of instructor.

GOVT 412. Practicum in Student Government**3 Credits**

Research of issues in student government. Consent of instructor required. Graded: S/U.

Prerequisite(s): Student government participation, completion of 12 GOVT credits, junior or senior standing.

GOVT 415. Senior Seminar**2 Credits**

Review and integration of political skills acquired in the Government Department. Students will prepare a professional portfolio for entry into the workforce, advanced study, and civic participation. S/U Grading (S/U, Audit).

GOVT 465. Peru: From Incas to Inca Kola**3 Credits**

Explores issues of cultural and national identity in Peru from the Incas to the present, focusing on the modern period. Themes include indigenous resistance and adaptation to colonial rule, nationalism, militarism, terrorism, globalization, and the drug trade. Same as ANTH 459 and HIST 459.

GOVT 468. Rebels, Guerrillas, and Terrorists in Modern Latin America**3 Credits**

Explores history of rebels in Latin America. Examines guerilla struggles attaining national dimension. Focus on modern events, including Peru's Shining Path, Columbia's FARC, and Mexico's Zapatistas. Same as HIST 331.

GOVT 469. Globalization**3 Credits**

Analysis of the globalization process. Covers theories of globalization, the global economy, political globalization, global culture, transnational social movements, transnational migration and world labor market, global cities, and local-global linkages. Same as SOC 489.

GOVT 473. Germany**3 Credits**

Political, social, and cultural developments from the eighteenth century to the present, with emphasis on the Nazi era. Same as HIST 383.

GOVT 474. European Politics**3 Credits**

Politics in European countries, European integration, post-communist states, regionalism and border politics.

GOVT 493. Mass Communications Law**3 Credits**

Same as JOUR 493 and COMM 493.

GOVT 502. Research Methods in Government**3 Credits**

Contemporary methods of political analysis, including mathematical and statistical techniques and computer applications. MPA students must complete this class with a B- or better. MA students must complete either GOVT 502 or GOVT 503 with a B- or better.

GOVT 503. Qualitative Research Methods**3 Credits**

An overview of qualitative research methods such as fieldwork, ethnography, content analysis, case studies, focus groups and grounded theory. Introduces students to epistemology (the study of knowledge) and to basic components of research design. Explores activist scholarship, ethical dilemmas in research, and software tools for computer assisted analysis. Especially useful for students preparing theses, dissertation, or other research projects. MA students must complete either GOVT 503 or GOVT 502 with a B- or better.

GOVT 505. Directed Readings**1-3 Credits**

Selected topics in government. May be repeated for a total of 6 credits. Graded S/U.

Prerequisite: consent of instructor.

GOVT 510. Internship**1-6 Credits**

Assignment with a public agency and research report. Only 3 credits apply toward degree requirements. Graded S/U.

Prerequisite: approval of graduate advisor.

GOVT 517. Selected Topics in Government**3 Credits**

Selected issues which may cross sub-fields of the discipline. May be repeated for a total of 6 credits.

GOVT 519. Proseminar in Public Administration**3 Credits**

Review of classic and contemporary theory and practice in public administration. Application of written and oral skills to the presentation and defense of essays on various aspects of public administration. To be completed with a B- or better.

Prerequisite(s): 30 credits of M.P.A.

GOVT 522. Public Sector Economics I**3 Credits**

Same as AEEC 522.

GOVT 523. Public Sector Economics II**3 Credits**

Same as AEEC 523.

GOVT 524. American Indian Politics**3 Credits**

Introduction to American Indian tribal governments, politics, policy, and administration; historical and contemporary leadership of Indian Nations; and the history and current status of American Indian-U.S. relations. Students learn about Native peoples' cultural responses, forms of resistance, and adaptations to colonization.

GOVT 526. Women, Politics and Administration**3 Credits**

Examination of women's participation in U.S. electoral politics as voters, candidates, and officeholders; their political activism in issue-based movements and strategies for affecting public policy; leadership as administrators and managers in public service agencies. Course also covers the influence of feminism in changing women's roles socially, legally, and politically.

GOVT 527. Issues in Public Management**3 Credits**

Selected issues in public management. May be repeated under different subtitles for a total of 6 credits.

GOVT 530. Seminar in Public Policy**3 Credits**

Survey of the political, administrative, and technical aspects of policy making in government. MA students taking GOVT 530 as part of their core requirements must complete the class with a B- or better.

GOVT 535. Education Policy and Politics**3 Credits**

Overview of current pressing policy issues and political debates on education in the U.S., including school choice, vouchers, accountability, and affirmative action. Multiple topics and perspectives covered, with political economy the main approach.

GOVT 536. Public Policy and Indigenous Communities**3 Credits**

Indigenous communities are found throughout North, Central and South America. This course addresses the history, development and governance of these communities. Different sections of the course may choose to focus on different indigenous communities. All courses will consider the principles of governance internal to indigenous communities as well as the governing relationships between indigenous communities and modern states.

GOVT 537. Issues in Public Policy**3 Credits**

Selected issues in public policy. May be repeated under a different subtitle for a total of 6 credits.

GOVT 540. Seminar in Public Administration**3 Credits**

Survey course on the theory and practice of program, personnel, and financial management in government and the private, nonprofit sector. MA students taking Govt 540 as part of their core requirements must complete the class with a B- or better.

GOVT 541. Public Budgeting**3 Credits**

Budgetary processes; budget classification, analysis, and evaluation. MPA students must complete this class with a B- or better.

GOVT 542. Public Sector Human Resources Management**3 Credits**

Exploration of public personnel systems and practices, including job analysis, compensation, performance evaluation, recruitment, and labor-management relations. MPA students must complete this class with a B- or better.

GOVT 543. Skills Workshop**1-6 Credits**

Focus on management of task skills in selected areas of public administration. Specific topics will appear in the Schedule of Classes; may be repeated for a total of 6 credits.

GOVT 544. Public Policy Analysis**3 Credits**

Environment of policy analysis; various descriptive and quantitative designs for analyzing and evaluating public policy. Problems of policy analysis. MPA students must complete this class with a B- or better.

Prerequisite(s): GOVT 502 or consent of instructor.

GOVT 547. Government Organizations**3 Credits**

Historical overview and present applications of organization theory in public management. MPA students must complete this class with a B- or better.

GOVT 548. Public Sector Leadership**3 Credits**

Theories and styles of leadership.

GOVT 549. Ethics in Government**3 Credits**

Examination of standards, perspectives, and issues for ethical decision-making in public agencies. MPA students must complete this class with a B- or better.

GOVT 550. Seminar in American Politics**3 Credits**

Overview of American political institutions. Includes study of American constitutional theory; legislative, executive, and judicial functions and processes; political parties and interest groups; and public policy formulation. MA students taking Govt 550 as part of their core requirements must complete the class with a B- or better.

GOVT 553. Issues in American Politics**3 Credits**

Selected issues in American Politics. May be repeated under a different subtitle for a total of 6 credits.

GOVT 560. Seminar in International Relations Theory**3 Credits**

A critical overview of leading approaches and controversies in international relations theory. The purpose of the course is to introduce students to contending theoretical perspectives and conceptual frameworks that help make sense of contemporary world politics. MA students taking Govt 560 as part of their core requirements must complete the class with a B- or better.

GOVT 561. Nations and Soft Power**3 Credits**

Course employs historical, theoretical and practical "best/worst practices" lenses to deal with key questions, such as how do the US and other states present themselves to the world? What are "soft power" and "national reputation management"? How does one build or damage a country's image and "brand"? What are "public diplomacy" and "cultural diplomacy", and how do they factor into the foreign relations of the US and other states?

GOVT 562. Advanced Issues in Security and Intelligence Studies**3 Credits**

Selective issues in comparative security and intelligence studies.

GOVT 563. Issues in International Relations**3 Credits**

Selected issues in international relations. May be repeated under a different subtitle for a total of 6 credits.

GOVT 564. Advanced National Security Policy**3 Credits**

Major topical, theoretical, and regional issues in national security policy.

GOVT 566. Advanced Issues in American Foreign Policy**3 Credits**

Major topical, theoretical, and regional issues in American foreign policy. May be repeated for a maximum of 6 credits under different subtitles.

GOVT 567. Terrorism and Political Violence**3 Credits**

An advanced graduate course using an interdisciplinary framework to explore definitions, historical roots, contemporary manifestations and future trends in political terrorism. The course seeks to understand modern-day terrorism as a form of political violence.

GOVT 569. Advanced Issues in Globalization**3 Credits**

Analysis of the globalization process. Covers theories of globalization; global economy; political globalization; global culture; transnational social movements; transnational migration and world labor market; global cities; local-global linkages. Same as SOC 589.

GOVT 570. Seminar in Comparative Politics**3 Credits**

Examination of methods used for comparing various types of political entities. Investigation of criteria needed to examine a concept across cultures or national boundaries. MA students taking Govt 570 as part of their core requirements must complete the class with a B- or better.

GOVT 571. Seminar in Latin American Politics**3 Credits**

Overview of the political structures of the Latin American region. Addresses a number of contemporary issues facing Latin American states, including interest groups, the church, labor, political parties, U.S.-Latin American relations, political development.

GOVT 573. Resistance Movements in World Politics**3 Credits**

Advanced research on violent and non-violent resistance movements around the world. Focus on origins, demands, ideologies, strategies and impacts in the post-Cold War context of economic globalization, US military power and new geopolitical dynamics.

GOVT 574. Contemporary Comparative Studies**3 Credits**

Major topical, theoretical, and regional issues in international politics. May be repeated once.

GOVT 575. Issues in Comparative Politics**3 Credits**

Selected issues in comparative politics. May be repeated under a different subtitle for a total of 6 credits.

GOVT 578. Seminar in the U.S.-Mexican Border**3 Credits**

An analysis of the political environment along the United States-Mexico border and a survey of the literature available for a number of contemporary issues.

GOVT 579. Seminar in Mexican Politics**3 Credits**

Advanced research on politics and government of Mexico.

GOVT 580. Seminar in Political Theory**3 Credits**

Examination of major issues in political theory, including democracy, sovereignty, classical and modern traditions of thought. May be repeated with different subject matter. MA students taking GOVT 580 as part of their core requirements must complete the class with a B- or better.

GOVT 587. Seminar in Religion and Politics**3 Credits**

Historical, theoretical and comparative analyses of the interaction between politics and religion.

GOVT 590. Seminar Public Law and Legal Systems**3 Credits**

Focus on U.S. Constitutional Law and other national legal systems. MA students taking Govt 590 as part of their core requirements must complete the class with a B- or better.

GOVT 591. Law for Administrators**3 Credits**

Case-law definitions of the legal roles and powers of public administrators.

GOVT 593. Issues in Public Law**3 Credits**

Selected issues in public law. May be repeated under a different subtitle for a total of 6 credits.

GOVT 596. International Law**3 Credits**

Nature, growth and scope of law of nations; rights and obligations of states in peace and war; current issues.

GOVT 598. Special Research Programs**1-3 Credits**

Individual investigations either theoretical, analytical or experimental. Three credits may be taken per semester for a total of 6 credits for thesis students, and 9 credits for non-thesis students. Consent of instructor required.

GOVT 599. Master's Thesis**1-15 Credits**

Thesis.

GPHY-GEOPHYSICS (GPHY)

GPHY 340V. Planet Earth**3 Credits**

Formation and evolution of the Earth. Plate tectonics, volcanoes and earthquakes. Role of geological processes in the origin and evolution of life. Uniqueness of the Earth in the solar system.

GPHY 450. Selected Topics**1-3 Credits**

Readings, discussions, lectures or laboratory studies of selected areas of geophysics. May be repeated for a maximum of 12 credits.

Prerequisite: consent of instructor.

GPHY 510. Geophysical Field Methods**1-3 Credits (3-9P)**

Field collection, reduction, and interpretation of geophysical data; equipment operation.

GPHY 520. Selected Topics**1-3 Credits**

Formal treatment of graduate topics not covered in regular courses. May be repeated for unlimited credit.

Prerequisites: graduate standing, consent of instructor, and selection of a specific topic prior to registration.

GPHY 530. Seismology**3 Credits**

Seismic wave propagation in a layered earth, ray theory, exploration techniques, earth structure, and seismicity.

Prerequisites: PHYS 511, MATH 472, or equivalent.

GPHY 540. Physics of the Earth and Planetary Interiors**3 Credits**

Formation and evolution of the Earth and planets. Internal physical and chemical structure. Pressure and temperature effects on rocks. Equations of state. Physical mechanisms of plate tectonics. Physics of the Earth's core, planetary magnetism, geodynamo.

Prerequisites: consent of instructor.

GPHY 560. Applied Inverse Theory**3 Credits**

Inversion of data with an emphasis on geophysical problems. Curve fitting, tomography, earthquake location, over determined and under determined problems, linear and nonlinear problems. Computing experience desirable.

Prerequisite(s): Either MATH 280, equivalent, or consent of instructor.

GPHY 598. Special Research Problems**1-3 Credits**

Individual investigations, either analytical or experimental. May be repeated for unlimited credit.

GPHY 599. Master's Thesis**15 Credits**

Thesis.

GPHY 620. Advanced Topics in Geophysics**3 Credits**

Advanced formal treatment of a topic or topics not covered in regular courses. May be repeated for unlimited credit.

Prerequisite: consent of instructor.

GPHY 630. Theoretical Seismology I**3 Credits**

Advanced treatment of wave propagation, ray theory, inversion methods, extension to heterogeneous media, and free oscillations.

Prerequisite(s): GPHY 530.

GPHY 700. Doctoral Dissertation**15 Credits**

Dissertation.

GRAD CROSS UNIV EXCH (GREX)

GREX 600. Graduate Cross University Exchange**1-9 Credits**

HIST-HISTORY (HIST)

HIST 101G. Roots of Modern Europe**3 Credits**

Economic, social, political, and cultural development from earliest times to about 1700.

HIST 102G. Modern Europe**3 Credits**

Economic, social, political, and cultural development from 1700 to the present.

HIST 110G. Making History**3 Credits**

General introduction to history: how historians carry out research and develop interpretations about the past.

HIST 111G. Global History to 1500**3 Credits**

Global economic, social, political and cultural developments to 1500. Thematic approach.

HIST 112G. Global History Since 1500**3 Credits**

Global economic, social, political and cultural developments since 1500. Thematic approach.

HIST 201G. Introduction to Early American History**3 Credits**

History of the United States to 1877, with varying emphasis on social, political, economic, diplomatic, and cultural development.

HIST 202G. Introduction to Recent American History**3 Credits**

History of the United States since 1877, with varying emphasis on social, political, economic, diplomatic, and cultural development.

HIST 211G. East Asia to 1600**3 Credits**

History of China, Korea, Vietnam, and Japan from earliest times through the sixteenth century. Emphasis on cultural and political developments and their social and economic contexts, and the interaction between East Asian societies.

HIST 212G. East Asia since 1600**3 Credits**

History of China, Korea, Vietnam, and Japan from the sixteenth through the twentieth centuries. Emphasis on internal development of each country, as well as the social and political impact of Western Imperialism, and the emergence of each country's unique version of modern society.

HIST 221G. Islamic Civilizations to 1800**3 Credits**

History of Islamic civilizations to 1800.

HIST 222G. Islamic Civilizations since 1800**3 Credits**

History of Islamic civilizations since 1800.

HIST 261. New Mexico History**3 Credits**

Economic, political, and social development of New Mexico from exploration to modern times. Community Colleges only.

HIST 269. Special Topics**1-3 Credits**

Specific subjects to be announced in the Schedule of Classes. Community Colleges only. May be repeated for a maximum of 12 credits.

HIST 300. Special Topics**1-9 Credits (1-9)**

Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 18 credits.

HIST 302V. Science in Modern Society**3 Credits**

The social impact of scientific activity and thought from Newton to the present. The growth of modern scientific institutions; the political and social context of modern science. ENGL 111G recommended.

HIST 304. The Global Cold War**3 Credits**

Survey of the global history of the Cold War. The emergence of the USSR and US as global superpowers, their involvement in the end of the European great-power empire, the rise of petropolitics and the nuclear era, modern terrorism, and the creation of the First, Second and Third Worlds all have their roots in the Cold War. Although the Iron Curtain ran through Europe, with the Berlin Wall considered its main front, the Cold War's impact was not limited to Europe. Proxy wars were fought all over the world; the globe became a set or arenas of contestation. Students will carefully read historical documents as well as textbooks and literary works; in addition to close analysis of different kinds of sources, we will explore different kinds of historical writing.

HIST 309. American Indian History I**3 Credits**

Cultural and social change from before contact with Europeans to 1840.

HIST 310. American Indian History II**3 Credits**

Federal Indian policy, tribal histories, and the emergence of Pan-Indianism from 1840 to present.

HIST 311V. Colonial Latin America**3 Credits**

Social, political, and economic development from Columbus to the Wars of Independence. Research paper required.

HIST 312V. Modern Latin America**3 Credits**

Post-revolutionary developments in the nineteenth and twentieth centuries; the role of Latin America in world affairs and the Inter-American system. Research paper required.

HIST 313. Making the American West**3 Credits**

Development of the American West from 1803 to 1900 with emphasis on conquest, federal and corporate roles in western development, environmental change, and the Mythic West. Includes meetings outside regular class time to view feature-length films.

HIST 315. From the Wild West to the Atomic West**3 Credits**

Explores the transformation of the West with particular attention to the roles of race, class, gender and culture. Includes meetings outside regular class time to view feature-length films.

HIST 316. History of Women in the American West**3 Credits**

Experiences and interactions among Native American, Spanish/Mexican, immigrant, and Anglo-American women in the American West from 1500 to the present. Same as WS 316.

HIST 321. History of Korea**3 Credits**

Social, political, and cultural history of Korea from earliest times through twentieth century. Emphasis on the interaction between Korean traditions and influences from China and the West.

HIST 323. Cultural History of Later Imperial China**3 Credits**

Covers art and literature of China from the Tang Dynasty (618-907) through the eighteenth century. Developments in cultural theory and practice are traced in the context of the social and economic changes fostering an understanding of Chinese cultural history and its legacy in East Asia today.

HIST 323 L. Splendor of Imperial China**1 Credit**

This course consists of a FLIP trip to China, Spring 2014 which will explore the significant sites of imperial Chinese culture by spending 14 days traveling in China. Crosslisted with: ART 311 L and HIST 323.

HIST 324. History of Modern Terrorism in the Middle East and Europe**3 Credits**

Historical analysis of the motives, methods, organization, and actions of terrorist groups.

HIST 325. History of the Arab-Israeli Conflict**3 Credits**

History of the causes, course, and consequences of the Arab-Israeli conflict.

HIST 329. History of Egypt**3 Credits**

History of Egypt from ancient times to the present.

HIST 330V. Introduction to Religious Studies**3 Credits**

Provides an overview of old and new methods and theories for the study of religion. Exposure to the ways groups of people in diverse cultural systems construct and change their religious traditions to serve practical and meaningful ends. Same as SOC 330V and ANTH 330V.

HIST 331. Rebels, Guerrillas, and Terrorists in Modern Latin America**3 Credits**

Explores history of rebels in Latin America. Examines guerilla struggles attaining national dimension. Focus on modern events, including Peru's Shining Path, Colombia's FARC, and Mexico's Zapatistas. Same as GOVT 468.

HIST 334. Art and Life in Renaissance Italy**3 Credits**

Examines how Italian Renaissance textual and visual culture offered Europe new ways of seeing and portraying itself, 1350-1550. Topics include: Florence, Venice, Rome, Leonardo, Michelangelo, Titian, humanism, the Medici, and republican and courtly culture. Same as ART 444.

HIST 338. World War I**3 Credits**

Cultural, social, and intellectual background and impact of World War I. Military and diplomatic events of the war. Consequences of the war.

HIST 339. World War II**3 Credits**

Social, cultural and political aspects of World War II, in addition to traditional military events. Emphasis on U.S. involvement.

HIST 340. American Economic History**3 Credits**

The rise of big business and organized labor, increasing price rigidities, and growing government intervention. Same as ECON 340.

HIST 341. American Agricultural History**3 Credits**

From Colonial times to the present, with emphasis upon historical development, politics, and legislation, especially in recent times.

HIST 342. Early American Military History**3 Credits**

Emphasis on American wars up to and including the Civil War, and on the factors contributing to the development of modern military systems.

HIST 343. Recent American Military History**3 Credits**

Emphasis on American wars since the Civil War, and on factors contributing to the development of modern military systems.

HIST 346. The Jacksonian Era 1800-1840**3 Credits**

Jeffersonian period, War of 1812. Social, political, and economic history of the Jacksonian era.

HIST 347. Civil War Era 1840-1877**3 Credits**

Mexican-American War, development of secession, American Civil War, Reconstruction.

HIST 353. Colonial Mexico**3 Credits**

Covers major social, political, economic and cultural topics including pre-Columbian civilizations, early European incursions and indigenous responses, economic systems and labor exploitation, religion and spirituality, and resistance to colonial rule. Sixteenth to nineteenth centuries.

HIST 354. Modern Mexico**3 Credits**

Examines interactions of peasants, women, indigenous peoples, and economically/politically dominant groups within the Mexican state from 1810 to the present. Assesses the contentious relationship between Mexico and the United States, focusing on the Mexican-U.S. border.

HIST 356. The Mexican Revolution**3 Credits**

Examines the history of modern Mexico through the lens of the Mexican Revolution, 1910-1920. Course covers military, political, social, cultural and economic developments that shaped Mexico during and after the Revolution.

HIST 361. Afro-American History I**3 Credits**

African background, slave trade, slavery; Civil War and Reconstruction; free blacks in a white society to about 1900.

HIST 362. Afro-American History II**3 Credits**

Black Americans in the United States in the twentieth century; segregation; black leaders, organizations, methods and goals; white reaction; the struggle for equality.

HIST 365. Cold War Europe**3 Credits**

Course deals with the Cold War's bipolar international climate as well as the individual paths charted by each European nation in response. Events, leaders, thinkers, ideas and developments will all be featured.

HIST 366V. British Imperialism**3 Credits**

Survey of the activities of the British empire from the 16th century through the 20th century, with emphasis on Ireland, North America and India. Assesses the impact of imperial activities on British domestic politics, culture and social history, and the process and impact of decolonization.

HIST 367. Mexican-Americans in the United States**3 Credits**

Emigration; reception; impact upon society, politics, economics, and culture.

HIST 368. Teaching History**3 Credits**

Philosophical and practical issues of teaching history are explored. Designed to help prospective teachers at all levels clarify their views about studying history. A variety of pedagogical strategies for teaching history are explored.

HIST 369. History of Latinos in the United States**3 Credits**

Development of Latino communities since 1500 in what is today the U.S. Emphasis on 1846 to present, and on Mexican Americans, Puerto Ricans, and Cuban Americans. Major themes: race, colonialism, immigration, nationalism, class, culture, gender, and politics.

HIST 371. Ancient Greece**3 Credits**

Social, cultural, and political history of Greece from the Minoan to Hellenistic periods.

HIST 372. The Roman World**3 Credits**

Republic and Empire; Rome as a world power; institutional, cultural, and intellectual contributions; decline and fall.

HIST 373. Islam and the West: Cultural Contacts, Conflicts and Exchanges**3 Credits**

Examines interactions, encounters and cross-fertilization between the Islamic world and the West from the seventh to the twenty-first centuries. Course includes origins of Islam, relationships between Islam, Judaism, and Christianity, and concludes with the post 9/11 present. May be repeated up to 3 credits.

HIST 374V. The European City: History and Culture**3 Credits**

Course presents the rich, complex history and cultures of European cities from ancient to modern times, linking these cities to crucial issues in European history. Crosslisted with HON 374V, GEOG 374V, GOVT 374V.

HIST 376. Great Battles That Shaped Europe**3 Credits**

Considers the most significant battles in the West from the 13th century BCE (Troy) to the 16th century CE (Spanish Armada).

HIST 379. History of Italy: Rome to the Twentieth Century**3 Credits**

Analyses the history of Italy from the Etruscan period (600 BCE) through the Roman Empire and Renaissance period to the 21st century CE.

HIST 382V. Modern Russia**3 Credits**

Domestic policies and foreign relations from mid-nineteenth century to the present with emphasis on the Soviet period.

HIST 383. Germany**3 Credits**

Political, social, and cultural developments from the eighteenth century to the present, with emphasis on the Nazi era. Same as GOVT 473.

HIST 385. The Spanish Borderlands**3 Credits**

Examines historical relationships between Native American and Hispanic peoples in northern Mexico, American Southwest and other border regions from 1500s to 1821.

HIST 386. New Mexico History**3 Credits**

Economic, political and social development of New Mexico from exploration to modern times.

HIST 387. Spain**3 Credits**

From pre-Roman times to the modern era.

HIST 388. Women in Europe I**3 Credits**

The roles of women and constructions of gender in medieval and early modern Europe, 1100 - 1550. Examines how conceptions of gender and sexuality both shaped and were shaped by political and social transformations in European history. Same as W S 388.

HIST 390V. The Holocaust**3 Credits**

The attack upon European Jews by Adolf Hitler and the National Socialist Party in Germany and occupied Europe from his accession to chancellor in 1933 until the end of the Third Reich in 1945.

HIST 391. Twentieth Century World History**3 Credits**

Includes globalization; imperialism; World Wars I and II and the changing roles of Europe: the Cold War; decolonization; the rise and collapse of Communism; new social and intellectual movements; and the growing roles of East Asia, India, Latin America, Africa and the Middle East. Thematic examples.

HIST 392. Tudor-Stuart England, 1485-1715**3 Credits**

British history from 1485-1715, including the development of the monarchy and Parliament, the Protestant Reformation, the English Civil War and Restoration, and culture and society.

HIST 394. Victorian and Edwardian Britain, 1815-1914**3 Credits**

Evolution of constitutional monarchy; industrialism and imperialism; repose and reform; increased influence of an intellectual elite and the emergence of the Labor Party.

HIST 395. From Rule Britannia to Cool Britannia: Twentieth-Century Britain**3 Credits**

Edwardian Era, World War I; Reconversion, the 1926 General Strike; the Great Depression and appeasement; Churchill and the war against Nazi Germany; nationalization and the Welfare State.

HIST 397. Introduction to Public History**3 Credits**

Surveys how historians do history in museums, archives, government agencies, and in communities. Hands-on experience provides students a better understanding of history and how historians work outside of the classroom. Seminar project required.

HIST 398. Historians and History**3 Credits**

General historiography and philosophy of history; historical methodology, research, and writing; bibliographical aids and their uses. May be repeated up to 3 credits. Restricted to: HIST majors.

HIST 399. New Mexico Law**3 Credits**

Same as GOVT 399, C J 399, JOUR 399, and SOC 399.

HIST 400. Special Topics**1-9 Credits (1-9)**

Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 18 credits.

HIST 401. Environmental History**3 Credits**

Seminar discusses how the natural environment and people have shaped each other, and how people have perceived and imagined the natural world. May focus upon one specific topic or area. Course includes a field trip outside regular class times.

HIST 402. Special Topics in European History**3 Credits**

Special topics in European history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

HIST 403. Special Topics in Middle Eastern History**3 Credits**

Special topics in Middle Eastern history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

HIST 404. Special Topics in Asian History**3 Credits**

Special topics in Asian history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

HIST 406. Special Topics in United States History**3 Credits**

Special topics in United States history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

HIST 408. Cultures of Africa**3 Credits**

Explores the rich history and cultural diversity of the continent of Africa. The course first examines the historical processes that have shaped modern Africa, including the evolution of modern humans in Africa, the origins of agriculture and pastoralism, the formation of indigenous African states, the slave trade, and European colonialism. The course also looks at contemporary African societies, including hunter-gatherer, pastoral, and farming/fishing peoples. In addition, contemporary issues facing modern Africa such as famine and agricultural policy, the status of women, and environmental changes such as deforestation are discussed. Crosslisted with: ANTH 404

HIST 410. New Mexico History for Educators**3 Credits**

Course provides content and innovative techniques for teachers of New Mexico history. Covers pre-contact Native American history through Spanish Colonial and Mexican periods through the twentieth century.

HIST 411. Making the American West**3 Credits**

This seminar course explores the history of disease, dying, death and funeral practices, and may include such topics as the social and cultural histories of murder, suicide, epidemics, death in wartime, the death penalty, and/or the corpse. The class may be taught with a different national or chronological focus in different semesters. Crosslisted with: HIST 513.

HIST 412. Travel Writing**3 Credits**

Explores how writers describe their travels with an emphasis on the history of a place. Semester paper required. Crosslisted with: HIST 512.

HIST 413. Native American History**3 Credits**

Seminar explores the history of Native Americans, including tribal conflicts, interactions with Europeans and Euro-Americans, land loss, degradation of natural resources, federal Indian policy, pan-Indian movements, cultural resistance and revitalization, and modern tribal economies.

HIST 415. Western American History**3 Credits**

Seminar explores the development of the American West with emphasis on conquest, federal and corporate impact on the West, environmental changes, and the mythic West. Includes extra class meetings to view feature-length films.

HIST 417. The Mongol Empire**3 Credits**

Examines the history and legacy of the Mongol World Empire founded by Chinggis Khan and his sons, and the dynasties that came to dominate Inner Asia in its wake. Crosslisted with: HIST 517.

HIST 419. Central Asia**3 Credits**

An introduction to the political, cultural and social history of the Central Asian region from pre-history to the present, including coverage of the empires of the Mongols, Tamerlane and their successors. Crosslisted with: HIST 519.

HIST 420. History of Women and Gender**3 Credits**

Seminar discusses the position of women and the roles of both sexes in a specific historical and geographic setting. Course emphasizes the ways in which women and gender were both central to and fundamentally affected by all political and social transformations in history.

HIST 423. The History of Food**3 Credits**

Considers the history of the production and consumption of food in the West from the Neolithic Age to the present with an emphasis on the historical relationships between food, gender, social class, social identity and nationalism. Crosslisted with: HIST 523.

HIST 424. History of Art, Thought and Literature**3 Credits**

Seminar discusses a variety of artistic and literary expressions in their historical contexts and focuses on the ways in which cultural forms both reflect and construct the broader historical trends that surround them.

HIST 425V. History of Magic and Witchcraft in Medieval and Renaissance Europe**3 Credits**

Examines history of popular and scientific beliefs about magic and witchcraft in medieval and early modern Europe. Includes origins of occult Western sciences; Arabic sources of medieval magic; the occult sciences in scholasticism; witchcraft and scholasticism; witchcraft and medieval theology, witch hunts of the 16th and 17th centuries; and the decline of belief in magic and witchcraft. Emphasis on boundaries that defined and separated magic, science, and religion in Western thought from late antiquity through the Scientific Revolution. Crosslisted with: HON 425.

HIST 428. History of Terrorism in Modern Europe and the Middle East**3 Credits**

Analyzes causes, methods, and consequences of terrorism in Europe and the Middle East from the Reign of Terror in the French Revolution to Al-Qaeda, Hamas and Hezbollah in the contemporary Middle East and beyond.

HIST 431. History of Race and Ethnicity**3 Credits**

Seminar explores the historical social construction of race and ethnicity, and their relationship to other systems of social difference such as class and gender. Course will examine popular and academic theories of race and ethnicity as well as historical concrete effects of racial and ethnic differences in society.

HIST 432. United States Labor History to 1877**3 Credits**

Seminar discussions explore United States labor and working-class history to 1877, including such topics as pre-industrial and industrial labor, slavery, debt peonage, indentured servitude, and housework. May explore the history of labor organization, working-class culture and leisure activities, and responses to labor issues by the state.

HIST 433. United States Labor History Since 1877**3 Credits**

Seminar discussions explore United States labor and working-class history since 1877, including such topics as industrial labor, debt peonage, and housework. May explore the history of labor organization, working-class culture and leisure activities, and responses to labor issues by the state.

HIST 434. Urban History**3 Credits**

Seminar discusses cities as complex catalysts for cultural, political, and scientific development, both within cities themselves and more broadly for their nations and regions. Course deals with such topics as the relationship between social organization and physical space; city development, morphology and dynamics; and the cultural and intellectual history of cities.

HIST 435. History of War and Revolution**3 Credits**

Seminar covers historical dynamics of violent social, political, and economic transitions. May focus upon a particular war or upheaval, such as World War II or the French Revolution, or may examine more generic characteristics of conflict and radical change across many historical examples. Extensive readings in scholarly literature. Research projects relating to specific course contents.

HIST 436. Nations and Nationalism**3 Credits**

Seminar examines major theories of nationalism from the nineteenth century to the twenty-first century. Course includes nationalist case studies, from liberal nationalist state-building to ethnic cleansing in the Balkans.

HIST 438. Antiquity and Modernity**3 Credits**

Seminar explores links between earlier and more recent historical periods. Examples may include the Renaissance rediscovery of ancient Rome or the early modern Chinese reassessment of its classical Confucian heritage. Readings include ancient sources and the modern reception of such works, and the scholarly assessment of these processes. Individual research projects required in areas of student interests.

HIST 443. The Cold War in Latin America**3 Credits**

Seminar discusses Latin American political history during the Cold War. Course focuses on how Latin Americans (individuals, parties, militaries, states) acted in an increasingly politicized arena defined by growing United States concerns over Cuban and Soviet influence in the area.

HIST 448. Nuclear Nation**3 Credits**

Explores post-World War II history and the impact atomic energy has had on the United States and the world.

HIST 449. Readings**1-3 Credits**

Individual study of selected readings and problems. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

HIST 453. Cuba: Colony to Castro**3 Credits**

Economic, social, and political development of Cuba and other colonies and nations in the Caribbean with emphasis on recent events.

HIST 455. Brazil**3 Credits**

Economic, social, and political development of Brazil since independence. The influence of Brazil in the international arena.

HIST 459. Peru: From Incas to Inca Kola**3 Credits**

Explores issues of cultural and national identity in Peru from the Incas to the present, focusing on the modern period. Themes include indigenous resistance and adaptation to colonial rule, nationalism, militarism, terrorism, globalization, and the drug trade. Same as ANTH 459 and GOVT 465.

HIST 471. China through the Ming Dynasty**3 Credits**

History of China from origins to Ming dynasty, (1368-1644). Cultural and political development with emphasis on social and economic contexts and long term trends.

HIST 472. China in the Modern World**3 Credits**

History of China from seventeenth through twentieth centuries. Rise and fall of the Manchu Qing dynasty, internal dynamics of social and political change in nineteenth and twentieth centuries, impact of Western Imperialism, and development of the Peoples Republic since 1949.

HIST 473. History of Japan**3 Credits**

History of Japan through twentieth century. Political and cultural developments and their social and economic contexts. Chinese influence on early Japan, rise of Samurai and Shogunate, impact of Western Imperialism, and emergence of modern Japan.

HIST 474. Gender in East Asian History**3 Credits**

Examines the position of women and the social roles of both sexes in traditional China and Japan, and traces the changes taking place in those societies in the course of modernization in the last century and a half. Scholarly literature and works of Chinese and Japanese literature in translation and cinema used. Same as W S 474.

HIST 475. History of the Global Political Economy**3 Credits**

Traces development of global systems of economic interaction and the rise of European military and political dominance in the 18th and 19th centuries. Emphasis on East and South Asian roles in early modern history, and on challenges to European dominance in the 20th and 21st centuries.

HIST 479. Oral History**3 Credits**

Oral history through readings, discussions, and interviews. Semester project required that includes an interview and transcript.

HIST 481. Time Traveling Through New Mexico's Past**3 Credits**

Teaches historians and educators how to make history come alive. Semester project includes role playing characters and activities from a past era with local schools and museums.

HIST 483. Historic Preservation**3 Credits**

Study of community development, the historic preservation movement, and the built environment. Field project.

HIST 486. Interpreting Historic Places for the Public**3 Credits**

Explores historic site interpretation, the scholarship and philosophy of historic interpretation, and the nature of heritage interpretation for historic places.

HIST 489. Projects in History**3 Credits**

Individual projects in history. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

HIST 500. Special Topics**1-9 Credits (1-9)**

Specific subjects to be announced in the Schedule of Classes. Graduate research paper required. May be repeated for a maximum of 12 credits.

HIST 503. The Jacksonian Era, 1800-1840**3 Credits**

Jeffersonian period, War of 1812. Social, political, and economic history of the Jacksonian era. Graduate research paper required.

HIST 504. Civil War Era, 1840-1877**3 Credits**

Mexican-American War, development of secession, American Civil War, Reconstruction. Graduate research paper required.

HIST 507. The History of Food**3 Credits**

Considers the history of the production and consumption of food in the West from the Neolithic Age to the present, with an emphasize on the historical relationships between food, gender, social class, social identity and nationalism. Crosslisted with: HIST 423.

HIST 508. Environmental History**3 Credits**

Seminar discusses how the natural environment and people have shaped each other, and how people have perceived and imagined the natural world. May focus upon one specific topic or area. Course includes a field trip outside regular class times.

HIST 509. Native American History**3 Credits**

Seminar explores the history of Native Americans, including tribal conflicts, interactions with Europeans, and Euro-Americans, land loss, degradation of natural resources, federal Indian policy, pan-Indian movements, cultural resistance and revitalization, and modern tribal economies.

HIST 510. New Mexico History for Educators**3 Credits**

Course provides advanced content and innovative techniques for teachers of New Mexico history. Covers pre-contact Native American history through Spanish Colonial and Mexican periods through the twentieth century.

HIST 511. Making the American West**3 Credits**

Development of the American West from 1803 to 1900, with emphasis on conquest, federal and corporate roles in western development, environmental change, and the mythic West. Includes extra class meetings to view feature-length films. Graduate research paper required.

HIST 512. Travel Writing**3 Credits**

Explores how writers describe their travels with an emphasis on the history of a place. Semester paper required. Crosslisted with: HIST 412.

HIST 513. American Social and Cultural History to 1900**3 Credits**

This seminar course explores the history of disease, dying, death and funeral practices, and may include such topics as the social and cultural histories of murder, suicide, epidemics, death in wartime, the death penalty, and/or the corpse. The class may be taught with a different national or chronological focus in different semesters. Crosslisted with: HIST 411.

HIST 516. History of Latinos in the United States**3 Credits**

Development of Latino communities since 1500 in what is today the United States. Emphasis on 1846 to present, and on Mexican Americans, Puerto Ricans, and Cuban Americans. Major themes: race, colonialism, immigration, nationalism, class, culture, gender, and politics. Graduate research paper required.

HIST 517. U.S. Immigration from the Caribbean since 1868**3 Credits**

Examines the history and legacy of the Mongol World Empire founded by Chinggis Khan and his sons, and the dynasties that came to dominate Inner Asia in its wake. Crosslisted with: HIST 417.

HIST 518. From the Wild West to the Atomic West**3 Credits**

Explores the transformation of the West, with particular attention to the roles of race, class, gender, and culture. Includes extra class meetings to view feature-length films. Graduate research paper required.

HIST 519. History of Women in the American West**3 Credits**

An introduction into the political, cultural and social history of the Central Asian region from pre-history to the present, including coverage of the empires of the Mongols, Tamerlane and their successors. Crosslisted with: HIST 419.

HIST 520. History of Women and Gender**3 Credits**

Seminar discusses the position of women and the roles of both sexes in specific historical and geographic setting. Course emphasizes the ways in which women and gender were both central to and fundamentally affected by all political and social transformations in history.

HIST 524. Art, Thought and Literature**3 Credits**

Seminar discusses a variety of artistic and literary expressions in their historical contexts and focuses on the ways in which cultural forms both reflect and construct the broader historical trends that surround them.

HIST 525. History of Magic and Witchcraft in Medieval and Renaissance Europe**3 Credits**

Examines history of popular and scientific beliefs about magic and witchcraft in medieval and early modern Europe. Includes origins of occult Western sciences; Arabic sources of medieval magic; the occult sciences in scholasticism; witchcraft and scholasticism; witchcraft and medieval theology, witch hunts of the 16th and 17th centuries; and the decline of belief in magic and witchcraft. Emphasis on boundaries that defined and separated magic, science, and religion in Western thought from late antiquity through the Scientific Revolution.

Prerequisite: HIST 101G.

HIST 527. Labor History**3 Credits**

Seminar discussions explore labor and working-class history, including such topics as pre-industrial labor, slavery, debt peonage, indentured servitude, and housework. May explore the history of labor organization, working-class culture and leisure activities, and responses to labor issues by the state.

HIST 528. History of Terrorism in Modern Europe and the Middle East**3 Credits**

Advanced analyses of causes, methods, and consequences of terrorism in Europe and the Middle East from the Reign of Terror in the French Revolution to Al-Qaeda, Hamas, and Hezbollah in the contemporary Middle East and beyond.

HIST 530. Antiquity and Modernity**3 Credits**

Seminar explores link between earlier and more recent historical periods. Examples may include the Renaissance rediscovery of ancient Rome or the early Chinese reassessment of its classical Confucian heritage. Readings include ancient sources and the modern reception of such works, and the scholarly assessment of these processes. Individual research projects required in areas of student interests.

HIST 535. War and Revolution**3 Credits**

Seminar covers historical dynamics of violent social, political and economic transitions. May focus upon a particular war or upheaval, such as World War II or the French Revolution, or may examine more generic characteristics of conflict and radical change across many historical examples. Extensive readings in scholarly literature. Research projects relating to specific course contents.

HIST 536. Nations and Nationalism**3 Credits**

Seminar examines major theories of nationalism from the nineteenth to the twenty-first centuries. Course includes nationalist case studies, from liberal nationalist state-building to ethnic cleansing in the Balkans.

HIST 538. Special Topics in European History**3 Credits**

Advanced special topics in European history to be announced in the schedule of classes. May be repeated for a maximum of 12 credits.

HIST 540. Special Topics in Middle Eastern History**3 Credits**

Advanced special topics in Middle Eastern history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

HIST 541. Intellectual History of Modern Europe**3 Credits**

Culture and ideas in Europe from 1600 to the present, from the Scientific Revolution to Postmodernism, including ideas and their expression in science, art, literature, and politics. Graduate research paper required.

HIST 543. Special Topics in Asian History**3 Credits**

Advanced special topics in Asian history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

HIST 544. Special Topics in Latin American History**3 Credits**

Advanced special topics in Latin American history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

HIST 545. Special Topics in United States History**3 Credits**

Advanced special topics in United States history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

HIST 546. World War I**3 Credits**

Cultural, social, and intellectual background and impact of World War I. Military and diplomatic events of the war. Consequences of the war. Graduate research paper required.

HIST 547. World War II**3 Credits**

Social, cultural and political aspects of World War II, in addition to traditional military events. Emphasis on U.S. involvement. Graduate research paper required.

HIST 548. Nuclear Nation**3 Credits**

Explores post-World War II history and the impact that atomic energy has had on the United States and the world.

HIST 549. Graduate Readings**1-3 Credits**

Individual study of selected readings and problems. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

HIST 549 L. Splendors of Imperial China**1 Credit**

This course consists of a FLIP trip to China, Fall 2014 which will explore the significant sites of imperial Chinese culture by spending 14 days traveling in China. Consent of Instructor required. Crosslisted with: HIST 323 L and ART 511 L.

HIST 551. Colonial Mexico**3 Credits**

Political, economic, and social development from the Aztecs to 1821. Graduate research paper required.

HIST 552. Modern Mexico**3 Credits**

From independence to the present, with emphasis on the Revolution. Graduate research paper required.

HIST 553. Cuba: Colony to Castro**3 Credits**

Economic, social, and political development of Cuba and other colonies and nations in the Caribbean, with emphasis on recent events. Graduate research paper required.

HIST 555. Brazil**3 Credits**

Economic, social, and political development of Brazil since independence. The influence of Brazil in the international arena. Graduate research paper required.

HIST 557. The Mexican Revolution**3 Credits**

Origins, causes, and scope of the Mexican Revolution, including leading personalities, with emphasis on the U.S.-Mexican border. Graduate research paper required.

HIST 559. Peru: From Incas to Inca Kola**3 Credits**

Crosslisted with: ANTH 559 and GOVT 565

HIST 560. History of Egypt**3 Credits**

Advanced study of history of Egypt from ancient through modern times. Includes the study of Egypt's interactions with the Middle East and the West, as well as its legacy for both civilizations.

HIST 561. Islam and the West: Cultural Contacts, Conflicts and Exchanges**3 Credits**

Examines interactions, encounters and cross-fertilization between the Islamic world and the West from the seventh to the twenty-first centuries. Course includes origins of Islam, relationships between Islam, Judaism, and Christianity, and concludes with the post 9/11 present.

Prerequisites: C or higher grade in HIST 221G or HIST 222 or HIST 461; or enrollment in one of these courses at the same time as enrollment in HIST 561.

HIST 566. British Imperialism**3 Credits**

Survey of the activities of the British empire from the 16th century through the 20th century, with emphasis on Ireland, North America and India. Assesses the impact of imperial activities on British domestic politics, culture and social history, and the process and impact of decolonization.

HIST 568. Urban History**3 Credits**

Seminar discusses cities as complex catalysts for cultural, political, and scientific development, both within cities themselves and more broadly for their nations and regions. Course deals with such topics as the relationship between social organization and physical space; city development, morphology and dynamics; and the cultural and intellectual history of cities.

HIST 570. The Cold War in Latin America**3 Credits**

Seminar discusses Latin American political history during the Cold War. Course focuses on how Latin Americans (individuals, parties, militaries, states) acted in an increasingly politicized arena defined by growing United States concerns over Cuban and Soviet influence in the area.

HIST 571. China through the Ming Dynasty**3 Credits**

History of China from origins to Ming Dynasty, 1368-1644. Cultural and political development with emphasis on social and economic contexts and long term trends. Research paper required.

HIST 572. China in the Modern World**3 Credits**

Covers the history of China from 17th through 20th centuries. Rise and fall of the Manchu Qing dynasty, internal dynamics of social and political change in the 19th and 20th centuries, impact of Western imperialism, and development of the Peoples Republic since 1949. Research paper required.

HIST 573. History of Japan**3 Credits**

Covers the history of Japan through the 20th century. Political and cultural developments and their social and economic contexts. Chinese influence on early Japan, rise of Samurai and Shogunate, impact of Western imperialism, and the emergence of modern Japan. Research paper required.

HIST 574. Gender in East Asian History**3 Credits (3+2P)**

Examines the position of women and the social roles of both sexes in traditional China and Japan, and traces the changes taking place in those societies in the course of modernization in the last century and a half. Scholarly literature and works of Chinese and Japanese literature (in translation) and cinema used. Same as W S 574.

HIST 575. History of the Global Political Economy**3 Credits**

Traces development of global systems of economic interaction and the rise of European dominance in the 18th and 19th centuries. Emphasis on East and South Asian roles in early modern history, and on challenges to European dominance in the 20th and 21st centuries.

HIST 576. The Holocaust**3 Credits**

Advanced study of the attack on European Jews by Adolf Hitler and the National Socialist Party in Germany and occupied Europe from his accession as chancellor in 1933 until the end of the Third Reich in 1945.

HIST 578. Modern Russia**3 Credits**

Domestic policies and international relations from the mid-nineteenth century to the present with emphasis on the Soviet experience.

HIST 579. Oral History**3 Credits**

Oral history through readings, discussion, and interviews. Course project required that includes an interview and transcription.

HIST 580. Graduate Research Projects**1-6 Credits (1-6)**

Intensive investigation of a selected area of history, including the completion of a research paper or a public history project. Consent of instructor required.

HIST 581. Time Traveling Through New Mexico's Past**3 Credits**

Instructs historians and educators on how to make history come alive. Semester project includes role playing characters and activities from a past era with local schools and museums.

HIST 582. History and Memory**3 Credits**

Seminar examines the interplay of memory and history. Explores how various nations and people construct the narratives of their past.

HIST 583. Advanced Historic Preservation**3 Credits**

Covers the community development, the historic preservation movement, and the built environment. Field project and additional graduate work.

HIST 585. Public History Internship**3 Credits**

Individual project in an area of public history, including a final written report. Research project required. May be repeated for a maximum of 9 credits.

Prerequisite: consent of instructor.

HIST 586. Interpreting Historic Places for the Public**3 Credits**

Advanced study of historic site interpretation, the scholarship and philosophy of historic interpretation, and the nature of heritage interpretation for historic places.

HIST 587. United States Labor History to 1877**3 Credits**

Seminar discussions explore United States labor and working-class history to 1877, including such topics as pre-industrial and industrial labor, slavery, debt peonage, indentured servitude and housework. May explore the history of labor organization, working-class culture and leisure activities, and responses to labor issues by the state.

HIST 588. United States Labor History since 1877**3 Credits**

Seminar discussions explore United States labor and working-class history since 1877, including such topics as pre-industrial and industrial labor, slavery, debt peonage, indentured servitude and housework. May explore the history of labor organization, working-class culture and leisure activities and responses to labor issues by the state.

HIST 590. Reading Seminar: Borders, Boundaries and Frontiers**3 Credits**

Explores questions and issues concerning different kinds of borders, boundaries and frontiers. Introduces relevant theoretical literature and considers specific places and times through case studies, including U.S.-Mexico border. Restricted to students in HIST program.

HIST 591. Reading Seminar: Modernity and its Discontents**3 Credits**

Examines the problem of modernization and the meaning of becoming and being modern, including positive and negative effects on individuals, cultures, environments and societies.

HIST 592. Reading Seminar: Nature and Society**3 Credits**

Considers how humans and nature have reshaped each other, how people have perceived nature, how different cultures have understood their relationships to nature, and how social groups and nations have struggled over natural resources. Takes a comparative, transnational approach.

HIST 593. Reading Seminar: History, Myth and Memory**3 Credits**

Course analyzes the complex and often contested process of writing national histories, creating national heroes, and forging collective memories. Students assess written texts, memorials, parades and celebrations.

HIST 594. Public History Seminar**3 Credits**

Introduction to the discipline of public history, including its methodology and literature. Fieldwork is required.

HIST 596. Research Seminar**3 Credits**

Research seminar teaches students the process of conducting original historical research with primary source documents. Students will then use these research skills to produce a polished chapter or article-length manuscript. Restricted to HIST majors.

HIST 597. Public History Article**1-9 Credits (1-9)**

Researching and writing an article suitable for publication about a student's public history internship or other topic of interest within the field of public history.

HIST 598. Craft of History: Historical Theories, Methods, and Criticism (f)**3 Credits**

Introduction to historical theories, methodologies, criticism, and skills essential to graduate study in history. Required for all history graduate students; restricted to history majors.

HIST 599. Master's Thesis**15 Credits**

Thesis.

HIT-HEALTH INFO TECHNOLOGY (HIT)

HIT 110. Electronic Health Records**3 Credits**

Current electronic health record principles, methods and procedures, and computerized medical record concepts and software applications will be introduced. Restricted to: Community Colleges only.

Prerequisite(s): C S 110 or OECS 105.

HIT 120. Health Information Introduction to Pharmacology**3 Credits**

Introduction to the principles of pharmacology, including drug terminology; drug origins, forms, and actions; routes of administration; as well as the use of generic name drugs, trade name drugs and categories of drugs to treat multiple and specific body systems.

HIT 130. Health Information Technology Anatomy & Physiology**3 Credits**

An introductory course in the basics of human structure and function. Body systems are examined as to how they relate to proper code selection and as part of the functioning of the body as a whole. Restricted to Community Colleges campuses only.

HIT 140. Health Information Introduction to Pathophysiology**3 Credits**

Introduction to the nature of disease and its effect on body systems. Disease processes affecting the human body via an integrated approach to specific disease entities will be presented including a review of normal functions of the appropriate body systems. Diseases will be studied in relation to their etiology, pathology, physical signs and symptoms, diagnostic procedures, complications, treatment modalities and prognosis.

HIT 150. Introduction to Medical Terminology**3 Credits**

The study and understanding of medical terminology as it relates to diseases, their causes and effects, and the terminology used in various medical specialties. Emphasis will be placed on learning the basic elements of medical words, appropriate spelling and use of medical terms, and use of medical abbreviations. Restricted to: Community Colleges only.

HIT 158. Advanced Medical Terminology**3 Credits**

Builds upon the concepts covered in HIT 150 or AHS 120 providing greater understanding of how to properly use and apply medical terminology used in the various health fields. Medical terminology associated with the body system's anatomy and physiology, pathology, diagnostic and therapeutic procedures, pharmacology, and abbreviations will be emphasized. Restricted to Community Colleges campuses only.

Prerequisite(s): HIT 150 or AHS 120.

HIT 221. Internship I**1-3 Credits (1-3)**

Work experience that directly relates to a student's major field of study that provides the student an opportunity to explore career paths and apply knowledge and theory learned in the classroom. Internships may be paid or unpaid. Students are supervised/evaluated by both the employer and the instructor. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: HIT & BOT majors. S/U Grading (S/U, Audit). Restricted to Dona Ana campus only.

HIT 228. Medical Insurance Billing**3 Credits**

Comprehensive overview of the insurance specialist's roll and responsibilities. Concepts and applications that will assist the student in understanding the steps necessary for successfully completing the insurance claim filing and reimbursement processes for various insurance carriers, both private and government, will be emphasized. Restricted to Carlsbad campus only.

Prerequisite(s): HIT/NURS 150; BOT 208.

HIT 240. Health Information Quality Management**3 Credits**

Introduction to basic concepts of quality improvement and performance improvement as they apply to health record systems and the health care industry. Quality assessment and improvement standards and requirements of licensing, accrediting fiscal and other regulatory agencies will be presented.

HIT 248. Medical Coding I**3 Credits (2+2P)**

Comprehensive overview of the fundamentals, coding conventions, and principles of selecting the most appropriate ICD-10-CM/PCS diagnostic and procedure codes. The most recent version of ICD-10-CM/PCS and an in depth study of current Official Coding Guidelines for coding and reporting will be emphasized. May be repeated up to 3 credits. Restricted to Community Colleges campuses only.

Prerequisite(s): BOT 228.

HIT 255. SPECIAL TOPICS**3 Credits**

Specific topics to be announced in the Schedule of Classes. May be repeated up to 6 credits. Restricted to Community Colleges campuses only.

HIT 258. Medical Coding II**3 Credits (2+2P)**

Continuation of Medical Coding I. Comprehensive overview of the coding and reporting guidelines, fundamentals, coding conventions, and principles of selecting the most appropriate CPT and HCPCS procedural codes for all medical specialties. The most recent version of CPT and a continued study of the ICD-10-CM/PCS coding conventions and principles will be emphasized. Designed as a medical coding capstone course. May be repeated up to 3 credits. Restricted to Community Colleges campuses only.

Prerequisite(s): HIT 248.

HIT 268. Health Information Systems**3 Credits**

Overview of health data management, work planning, and organization principles; an introduction to health care information systems; and review of the fundamentals of information systems for managerial, clinical support, and information systems.

HNDS-HUMAN NUTRITION & DIET (HNDS)

HNDS 201. Seminar 1- The Field of Dietetics**1 Credit**

This course will introduce students to the field experience, careers, and professions in nutrition. This course is required for students pursuing a Didactic Program in Dietetics verification statement. May be repeated up to 1 credits. Consent of Instructor required. Restricted to: HNDS majors. Restricted to Las Cruces and Dona Ana campuses.

HNDS 251. Human Nutrition**3 Credits**

Principles of normal nutrition. Relation of nutrition to health. Course contains greater amounts of chemistry and biology than HNDS 163. Open to nonmajors.

HNDS 300. Special Topics**1-4 Credits**

Specific topics and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

HNDS 350. Nutrition Throughout the Lifecycle**3 Credits**

Relationship of the stages of the human life cycle to changes in nutrient need.

Prerequisites: BIOL 254 and (HNDS 163 or HNDS 251), or consent of instructor.

HNDS 360. Food for Health**4 Credits**

This course is designed to provide students the opportunity to learn about the intersection of nutrition and health in terms of food and diet. Students will be introduced to basic concepts within nutrition education, nutrition communication, nutrition and health and food culture.

Prerequisite(s): FSTE 263; HNDS 251.

HNDS 363. Quantity Food Production and Service**6 Credits (1+10P)**

Covers quantity food production including cooking concepts, sanitation and safety, teamwork, and management responsibilities. Students will apply this knowledge developing product for sale in a student run restaurant. Proof of current ServSafe or NM Food Handler certification required. May be repeated up to 6 credits. Crosslisted with: HRTM 363.

Prerequisite(s): HRTM 263.

HNDS 401. Field Experience- Clinical Dietetics**1-8 Credits (1-8)**

Experience in various areas of clinical nutrition facilities with emphasis on nutrition care of patients. Practical experience with supervision by resident faculty as well as supervisor at work site. Performance at work site graded in accordance with university standards. May be repeated for a maximum of 8 credits. Consent of instructor required. Restricted to: Main campus only.

Prerequisite(s): HNDS 201, overall GPA of 2.5 or higher and junior or senior standing and consent of instructor.

HNDS 403. Community Nutrition**3 Credits**

Overview of the practice of community nutrition. Includes program planning, needs assessment, program implementation and program evaluation. Role of public and private agencies in nutrition programs that impact on nutrition of individuals and groups in the community.

Prerequisite: HNDS 350 or consent of instructor.

HNDS 404. Maternal, Infant and Child Nutrition**3 Credits**

Nutritional needs and status during pregnancy, infancy, childhood, and adolescence. Applications also made to preschools and day care centers.

Prerequisite: HNFS 251 or consent of instructor.

HNDS 405. Seminar II- Entering the Field of Dietetics**1 Credit**

Students will develop professional materials that will be used in their future careers including a personal statement, curriculum vitae, resume, and interview dialogues. Students will become familiar with career options in the field of dietetics and learn to navigate the processes of becoming a registered dietitian or dietetic technician, registered. Consent of Instructor required. Crosslisted with: HNDS 505. Restricted to: HNDS majors.

Prerequisite(s): Students must be enrolled in their last fall semester prior to planned graduation from the DPD program; HNDS 201, HNDS, 251, HNDS 350.

Corequisite(s): HNDS 403, HNDS 446, AND HNDS 448.

HNDS 407. Field Experience Community Nutrition**1-8 Credits**

Experience working with nutritional problems of individual families of all socioeconomic and age levels and with agencies concerned with community nutrition. Practical experience with supervision by resident faculty as well as supervisor at the work site. Performance at work site graded in accordance with university standards. May be repeated for a maximum of 8 credits. Restricted to majors.

Prerequisites: HNFS 201, overall GPA of at least 2.5 and junior or senior standing or consent of instructor.

HNDS 409. Dietetic Science Capstone**3 Credits**

This course will provide a cumulative review and assessment of the foundational knowledge, concepts, and skills presented throughout the didactic program in nutrition and dietetics to ensure readiness to proceed within the field of dietetics. Students will apply professional skills to prepare them for their future careers. Students will also be guided through the dietetic internship application process. Consent of Instructor required. Crosslisted with: HNDS 509. Restricted to: Dietetics Option majors.

Prerequisite(s): Students must be enrolled in their last spring semester prior to planned graduation from the DPD program.

HNDS 410. Sports Nutrition**3 Credits**

Role of nutrition in physical performance of competitive and recreational sports participants.

Prerequisites: BIOL 254, BCHE 341, and HNDS 251, or consent of instructor.

HNDS 420. Nutrition Counseling and Communication**3 Credits**

This course is designed to meet the needs of individuals entering the healthcare/dietetics field who have little counseling experience, but have a strong foundational knowledge in the field of dietetics. It includes counseling techniques and strategies, behavior change, interviewing, cultural competence, mass media, and nutrition education. Consent of Instructor required.

Prerequisite(s): HNDS 251, HNDS 350.

HNDS 430. Food Service Organization and Management**3 Credits**

Personnel, financial and general management in institutional and commercial food service operations.

Prerequisite: junior/senior standing or consent of instructor.

HNDS 440. Nutrition Education and Research**3 Credits**

Course will enable students to apply general education and research knowledge to the field of nutrition. Nutrition information will be applied to education topics including learning objective development, backwards design of curriculum, student centered learning and learning assessment. Crosslisted with: HNDS 540.

Prerequisite(s)/Corequisite(s): HNDS 251, 350, and 360.

HNDS 446. Diet Therapy I**3 Credits**

Special diets and physiological basis for their use. Laws and regulations concerning the practice of dietetics.

Prerequisites: BIOL 254, BCHE 341, and HNDS 251, or consent of instructor.

HNDS 446 L. Diet Therapy I Laboratory**1 Credit**

Supplements HNDS 446. Students will perform nutrition assessments, nutrition focused physical exams, apply medical nutrition therapy-based interventions and practice patient discharge education for specific disease states. Must be taken with HNDS446. Restricted to: HNDS majors.

Corequisite(s): HNDS 446.

HNDS 448. Advanced Nutrition**3 Credits**

Application of biochemistry and physiology to nutrition. Restricted to: Main campus only.

Prerequisite(s): BIOL 254, BCHE 341, and HNFS 251, or consent of instructor.

HNDS 449. Diet Therapy II**3 Credits**

Continuation of HNDS 446.

Prerequisite: HNDS 446 or consent of instructor.

HNDS 449 L. Diet Therapy II Laboratory**1 Credit**

Supplements HNDS 449. Students will apply medical nutrition therapy to specific disease states with special emphasis on writing nutrition support orders and learning to utilize nutrition support equipment. Must be taken with HNDS449. Restricted to: HNDS majors.

Corequisite(s): HNDS 449.

HNDS 450. Special Topics**1-4 Credits**

Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

HNDS 455. Billing and Coding for Dietetics**3 Credits**

This course provides students with an overview of billing and coding practices for medical nutrition therapy that ensure proper reimbursement for services. Students will learn nutrition related billing codes, apply nutrition care process terminology to documentation, and discover how policy affects current and future coverage of nutrition services. Crosslisted with: HNDS 555.

Prerequisite(s): HNDS 446, HNDS 449.

HNDS 492. Special Problems**1-4 Credits**

Individual research study in a selected subject area of family and consumer sciences. Maximum of 4 credits per semester and a total of 8 credits.

HNDS 500. Orientation to Dietetic Internship**3 Credits**

Dietetic interns prepare for supervised practice rotations. Topics include professionalism, Code of Ethics, and dietetic internship portfolios. Consent of Instructor required.

Prerequisite(s): Acceptance into Dietetic Internship program.

HNDS 501. Advanced Animal Nutrition (so)**3 Credits**

Same as ANSC 501.

Prerequisite: CHEM 211 or consent of instructor.

HNDS 507. Laboratory Techniques in Nutrition**4 Credits (2+6P)**

Methodology and experimental procedures in measuring nutrient requirements and values of diets. Same as ANSC 507.

Prerequisites: ANSC 422 and CHEM 321, or consent of instructor.

HNDS 509. Dietetic Science Capstone**3 Credits**

This course will provide a cumulative review and assessment of the foundational knowledge, concepts, and skills presented throughout the didactic program in nutrition and dietetics to ensure readiness to proceed within the field of dietetics. Students will apply professional skills to prepare them for their future careers. Students will also be guided through the dietetic internship application process. Consent of Instructor required. Crosslisted with: HNDS 409.

Prerequisite(s): Students must be enrolled in their last semester of the DPD program.

HNDS 510. Graduate Study in Sports Nutrition**3 Credits**

Role of nutrition and nutrients in physical performance of competitive and recreational sports participants. Additional work required at the graduate level.

Prerequisites: BIOL 254, BCHE 341, and HNDS 251, or consent of instructor.

HNDS 512. Research Methods in Animal Science**4 Credits**

Same as ANSC 512.

HNDS 517. Graduate Seminar**1 Credit**

Current topics. Same as ANSC 515.

Prerequisite: consent of instructor.

HNDS 522. Animal Nutrition (f)**3 Credits**

Same as ANSC 522.

Prerequisite: CHEM 211.

HNDS 530. Graduate Studies in Food Service Organization and Management**3 Credits**

Personnel, financial, and general management in institutional and commercial food service operations. Additional work required at the graduate level.

HNDS 546. Diet Therapy I**3 Credits**

Special diets and physiological basis for their use. Laws and regulations concerning the practice of dietetics. Additional assignments beyond HNFS 446 required for students registering in HNDS 546.

Prerequisites: BIOL 254, BCHE 341, and HNDS 251, or consent of instructor.

HNDS 548. Graduate Studies in Advanced Nutrition**3 Credits**

Covers biochemistry and physiology applied to nutrition. Students enrolled in the 500-level class will be required to complete additional assignments beyond what is required for HNDS 448. Restricted to: Main campus only.

Prerequisite(s): BIOL 254, BCHE 341, and HNDS 251, or consent of instructor.

HNDS 549. Diet Therapy II**3 Credits**

Continuation of HNDS 546.

Prerequisites: HNDS 546 or consent of instructor.

HNDS 551. Graduate Study in Community Nutrition**3 Credits**

Overview on the practice of community nutrition to include program planning, needs assessment, program implementation and program evaluation. Role of public and private agencies in nutrition programs that impact on nutrition of individuals and groups in the community. Additional work required at the graduate level.

Prerequisite: HNDS 350 or consent of instructor.

HNDS 560. Dietetic Intern Seminar**1 Credit**

Portfolio development for dietetic interns during supervised practice rotations. May be repeated up to 3 credits. Consent of Instructor required.

Prerequisite(s): Acceptance into the NMSU dietetic internship.

HNDS 562. Dietetic Internship: Supervised Practice in Community Nutrition**1-8 Credits (2-6P)**

Provides dietetic interns with a minimum of 500 clock hours of supervised practice in community nutrition to include an emphasis in Cooperative Extension Service. Dietetic interns work under the the guidance of faculty and community nutrition professionals. May be repeated up to 8 credits. Consent of Instructor required. Restricted to: HNFS majors.

Prerequisite(s): Acceptance into Dietetic Internship.

HNDS 563. Community Nutrition for Dietetic Interns**3 Credits**

Advanced topics in community nutrition to include conducting community nutrition needs assessments, program planning and grant writing. Consent of instructor required. Restricted to HNDS majors.

Prerequisite(s): Acceptance into Dietetic Internship.

HNDS 564. Dietetic Internship: Supervised Practice in Food Service Management**1-5 Credits (2-10P)**

Provides dietetic interns with a minimum of 300 clock hours of supervised practice in foodservice management. Dietetic interns work under the guidance of faculty and foodservice management professionals. Students must complete a total of 4 credit hours of HNDS 564. May be repeated up to 5 credits. Consent of Instructor required.

Prerequisite(s): Acceptance into Dietetic Internship.

HNDS 565. Foodservice Management for Dietetic Interns**3 Credits**

Advanced topics in foodservice systems management to include business planning and marketing. Consent of Instructor required. Restricted to: HNFS majors.

Prerequisite(s): Acceptance into Dietetic Internship.

HNDS 566. Dietetic Internship: Supervised Practice in Clinical Dietetics**1-8 Credits (2-16P)**

Provides dietetic interns with a minimum of 500 clock hours of supervised practice in clinical dietetics. Dietetic interns work under the guidance of faculty and dietetics professionals. May be repeated up to 8 credits. Consent of Instructor required.

Prerequisite(s): Acceptance into Dietetic Internship.

HNDS 567. Nutrition Care Process for Dietetic Interns**3 Credits**

Advanced topics in nutrition care process and model to include medical nutrition therapy and evidence-based research and outcomes assessment in clinical dietetics. Consent of instructor required. Restricted to HNDS majors.

Prerequisite(s): Acceptance into Dietetic Internship.

HNDS 568. Review Course for National RD Exam**3 Credits**

Completion of dietetic internship portfolio and preparation for the national registration examination for dietitians. Consent of Instructor required.

Prerequisite(s): Acceptance into Dietetic Internship.

HNDS 590. Special Topics**1-4 Credits**

Specific subjects to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a total of 9 credits toward a degree.

HNDS 598. Special Research Programs**1-4 Credits**

Individual investigations either analytical or experimental. Maximum of 4 credits per semester and no more than 6 credits toward a degree.

HNDS 626. Nutrient Metabolism II: Carbohydrates, Lipids, and Energetics (se)**4 Credits**

Same as ANSC 626.

HON-HONORS (HON)

HON 115. Journeys of Discovery**1 Credit**

Weekly conversations among students and a faculty member; organized around a particular subject and a small selection of readings. The seminars illuminate the many paths of discovery explored by the New Mexico State University faculty.

Prerequisite(s): Honors eligible.

HON 200. Cognitive Science**3 Credits**

An interdisciplinary investigation of intelligence. Core disciplines include cognitive psychology, computer science (artificial intelligence), philosophy, and linguistics. Examination of perception, memory, language, reasoning, problem solving, and consciousness from the varying perspectives of the core disciplines.

HON 205G. Life, Energy, and Evolution**4 Credits (3+3P)**

Principles of modern biological science with discussion on the impact of this science in today's world. Selected topics include principles of metabolism, genetics, physiology, evolution, and ecology. Students who pass HON 205G will fulfill the same requirements fulfilled by BIOL 111G and BIOL 111GL.

HON 208G. Music in Time and Space**3 Credits**

Survey of music as it interacts with art, mathematics, science (acoustics), and ideas from exotic cultures through the history of Western civilization.

HON 214. Successful Fellowship Writing**1 Credit**

Same as HON 314, for freshmen and sophomores.

HON 216G. Encounters with Art**3 Credits**

A multicultural examination of the principles and philosophies of the visual arts and the ideas expressed through them.

HON 218. Women Across Cultures**3 Credits**

Historical and critical examination of women's contributions worldwide with emphasis on the issues of representation that have contributed to exclusion and marginalization of women and their achievements.

Restricted to: Main campus only. Crosslisted with: W S 202G

HON 219G. Earth, Time, and Life**4 Credits (3+3P)**

Covers how the earth's materials form, processes involved in changing the earth's configuration, and extent of people's dependence upon the earth's resources. Includes mineral and energy resources, development of landscapes, environmental problems, evolution of the earth and life forms. May be taken in place of GEOL 111G.

HON 222G. Foundations of Western Culture**3 Credits**

Critical reading of seminal texts relating to the foundations of culture and values in Western civilization, from ancient Greece to about 1700. Focus on the development of concepts of nature, human nature, and the state.

HON 225G. History of Ethics**3 Credits**

A critical examination of questions with respect to the meaning and justification of moral judgments and principles. Provides a basic preparation for serious study of contemporary moral problems.

HON 227G. Plato and the Discovery of Philosophy**3 Credits**

Examines arguments and theories found in the Platonic dialogues with a view to determining the nature and value of philosophy both from Plato's point of view and absolutely.

HON 228G. Religion and the State**3 Credits**

Moral and political questions that arise in connection with church-state relations, including religious toleration, separation of church and state, the individual's moral duty to ignore religious convictions when performing functions of democratic citizenship, and the extent to which these ideas are embodied in our nation's traditions.

HON 229G. The New Testament as Literature**3 Credits**

Literature of the New Testament examined from a literary perspective. Emphasis on translation history of the New Testament, generic features of gospel, epistle and apocalypse, precedent literary models, problems of authorship, classification of New Testament texts.

HON 230G. Bamboo and Silk: The Fabric of Chinese Literature**3 Credits**

Introductory survey of traditional and modern Chinese prose and poetry in translation with emphasis on genre, theme, and social/historical context.

HON 232G. The Human Mind**3 Credits**

Examination of the current understanding of the intricate relationship between mind and matter, with particular emphasis on the functional organization of the human brain. Evolutionary origins of this functional design and its implications for understanding human emotional and cognitive processes.

HON 233. Social Problems**3 Credits**

Introduction to contemporary social problems from multiple perspectives. Discussions of definition, impact, and prospective solutions to major social issues, such as crime, drug abuse, social inequality, family, population, environment, and social change.

HON 234G. The Worlds of Arthur**3 Credits**

Arthurian texts and traditions from medieval chronicle histories to modern novels. Emphasis on both the continuities of the Arthurian tradition and the diversity of genres, media, and cultures that have given expression to the legend.

HON 235G. Window on Humanity**3 Credits**

Anthropology is the most humanistic of the sciences, and the most scientific of the humanities. This course will use anthropological perspectives to examine the human experience from our earliest origins, through the experiences of contemporary societies. We will gain insights into the influence of both culture and biology on shaping our shared human universals, and on the many ways in which human groups are diverse. Restricted to Las Cruces campus only.

HON 237G. Archaeology: Search for the Past**3 Credits**

A critical evaluation of various approaches to understanding prehistory and history. The methods and theories of legitimate archaeology are contrasted with fantastic claims that invoke extraterrestrials, global catastrophes, transoceanic voyages, and extra-sensory perception. May be repeated up to 3 credits. Restricted to Las Cruces campus only.

HON 239G. Medieval Understandings: Literature and Culture in the Middle Ages**3 Credits**

Intensive, interdisciplinary introduction to the thought and culture of medieval Europe. Core texts will include works by St. Augustine, Marie de France, and Dante, as well as anonymous works such as Sir Gawain and the Green Knight, all supplemented by study of medieval art, architecture, philosophy, and social history.

HON 242G. Claiming an American Past**3 Credits**

Survey of history of the United States in the nineteenth and twentieth centuries, with an emphasis on multicultural social and cultural history. Focus on understanding American history from the point of view of dispossessed, impoverished, and disenfranchised Americans who have fought to claim both their rights as Americans and American past.

HON 248G. The Citizen and the State: Great Political Issues**3 Credits**

The fundamental questions of politics: why and how political societies are organized, what values they express, and how well they satisfy those normative goals and the differing conceptions of citizenship, representation, and freedom.

HON 249G. American Politics in a Changing World**3 Credits**

American politics and policies examined from a historical and global perspective. Philosophical underpinnings of American national government, the structure of government based on that philosophy, and the practical implications of both the philosophical and structural base. How American government influences and is influenced by the world community.

HON 265G. Principles of Human Communication Honors**3 Credits**

Study and practice of interpersonal, small group, and presentational skills essential to effective social, business, and professional interaction.

HON 270G. Theatre: Beginnings to Broadway**3 Credits**

Intercultural and historical overview of live theatre production and performance, including history, literature and professionals. Students attend and report on stage productions.

HON 304V. Dilemmas of War and Peace**3 Credits**

A multi-disciplinary introduction to war, peace, and world order studies. The origins of war and the foundations of peace are explored in the context of a rapidly changing world order.

HON 305V. Global Environment**3 Credits**

Covers global environmental problems with focus on causes and possible solutions.

HON 306V. Science, Ethics and Society**3 Credits**

Investigation of the ethical issues related to scientific investigation and the ethical implications of scientific discoveries for society. Emphasis on discussion of case studies about specific ethical issues in science, and readings by both scientists and non-scientists.

HON 308V. Into the Final Frontier**3 Credits**

Exploration of space; a brief review of the history of space flight, the Apollo program, joint U.S.-Soviet space missions, and unstaffed exploration of the planets. Emphasis on knowledge gained through these efforts. Includes new space initiatives.

HON 313. Research and Writing**3 Credits**

Workshop format designed to prepare students for research and writing associated with production of an honors thesis or a major research assignment. Does not count for general education or honors certification credit.

HON 314. Successful Fellowship Writing**1 Credit**

Provides scholars with hands-on skills to complete proposals for scholarships and fellowships, such as the Truman, Rhodes, Marshall, Goldwater, Udall, and others. Other skills include how to write resumes, develop general research skills, and find grant and foundation sources.

HON 318V. The World of Cinema**3 Credits**

Appreciation of the art of motion pictures as world-wide medium specific to national cultures. Refinement of cinematic literacy and critical viewing skills. Historical and thematic overview emphasizes collaborative nature of medium in various genres from 1895 to present. Selected films from different periods and different countries. Substantial library research projects.

HON 321V. Agriculture in an Interconnected World**3 Credits**

Study of the impact of agriculture on cultural and social systems, with special emphasis on twentieth century urban development.

HON 324V. Science and the Arts: Theatre and Story**3 Credits**

This course examines present day relations between the sciences and the representation and communication of science, especially in connection with theatre, narrative fiction, and autobiography. Crosslisted with: THTR329.

HON 326V. Art and Mythology**3 Credits**

Mythological figures, past and present, in the visual arts. Through iconographical studies (attributes and symbols), trace the development of visual traditions that evolved from the literary sources of classical Mediterranean mythology.

HON 328V. Rock History: 20th Century Popular Music**3 Credits**

Evolution of popular music in the 20th Century. Examines the history of popular music conventions, influences, and breakthroughs through the 20th Century. Topics include the originations of major music styles and their evolution as cultivated by key artists, scientific advancements, and sociopolitical change, contextualized within the contemporaneous history. Of particular concern are the influences of groundbreaking artists; the effect of evolving playback electronics, recording devices, and musical instruments; and the interplay between music and economic depression, war, civil rights, sexual revolution, and other sociopolitical events.

HON 335V. Legal Issues in Modern Society**3 Credits**

Case study approach to contemporary legal problems involving environment, consumer protection, international law, corporate responsibility.

HON 336. Latina Feminisms: Testimonios from the Borderlands**3 Credits**

This course is about the testimonies and autobiographical writings of and by Latinas in the United States. Life stories are told through many forms: "testimonios," memoirs, autobiographies and autobiographical fiction, oral histories and short stories, poetry and poetic prose pieces, essays, and audio-stories. Drawing from these sources of knowledge, we will explore feminist epistemologies and cast a critical eye on traditional knowledge claims and objectivity. The course focuses on Chicana/Latina feminist theories, the empirical educational research that draws upon these theories, and testimonios as method, epistemology, and pedagogy. Among the questions we will examine will be those concerning knowledge production, sexual politics, the mind-body-spirit connection, voice, representation, and truth.

HON 340V. Indian Law and Policy**3 Credits**

Explores the principles, doctrines, and texts governing the legal relations between the United States and Indian tribes, the history of federal Indian law and policy, tribal property, treaty rights and sovereignty, congressional plenary power, the trust doctrine, jurisdiction in Indian country, and tribal government. Topic specifically examined in the course include tribal lawmaking powers, gaming and economic development in Indian country, protection of Indian religious rights and cultural property, water rights, fishing, hunting and other treaty-based rights.

HON 341V. The Old Testament as Literature**3 Credits (3)**

Old Testament surveys a portion of the thirty-nine canonical books of the Old Testament from a literary approach, centered on the so-called historical-critical method that developed in the 19th C under such figures as Julius Wellhausen. Higher criticism of the texts, their sources, authorship, dating and interdependency has led to deepened insights as well as scholarly conflict. In addition, we will examine several apocryphal books that have continuing importance in our understanding of Old Testament. We will read the Old Testament along with an introduction and some supplementary materials.

HON 347V. World Dance**3 Credits**

Examination of dance forms from a cross-cultural perspective, focusing on the role of dance in different cultures around the globe. Same as DANC 451V with differential assignments for Honors students.

HON 348V. Comparative Mythology: Myth, Ritual, and the Life Cycle**3 Credits**

Exploration of the central myths of several religious traditions and investigation of how each, through ritual, has given meaning to key moments in the journey of the individual through life.

HON 349V. Islam and the West: Cultural Contacts, Conflicts, and Exchanges**3 Credits**

This course examines interactions, encounters and cross-fertilization between the Islamic world and the West from the 7th -21st century. It begins with the origins of Islam and its relationship to Judaism and Christianity and ends in the post 9/11 present, an era some characterize as dominated by a "clash of civilizations."

HON 351V. Interpersonal Relations and the Self**3 Credits**

Course explores the ways in which culture influences interpersonal relations and conceptions of the self. The course considers a variety of issues such as: interpersonal communications, self-awareness, self-disclosure, non-verbal behavior, intimacy, love, trust, jealousy, conflict management, self-management, culturally determined views of the self, self-presentation, and self-identity. Differences between the way the issues are viewed by different groups within our society, as well as between societies, will be considered.

HON 353V. Justice without Prejudice**3 Credits**

Exploration of central questions about race, ethnicity, and justice. Students will learn to argue persuasively from different perspectives, both orally and in writing.

HON 362V. Native American Philosophy and Spirituality**3 Credits**

Survey of philosophical traditions of Indigenous peoples of the Western Hemisphere. This course examines various forms of spiritual expression which encompasses art, dance, music, political/social activism, and the relationship to land. This course looks at present-day spiritual issues and on-going practices in Native America.

HON 365V. African and Caribbean: Literature and Film**3 Credits**

Selected films and literary works shaped by colonial and post-colonial experiences in contemporary Africa and the Caribbean. Focus on the ongoing search for alternative identities in the form of a decolonized literature and culture.

HON 366V. The Gothic Imagination**3 Credits**

Introduction to Gothic literature from its beginnings in the late eighteenth century that focuses on the political, psychological, religious, social, and familial values this literary genre explores and questions.

HON 370V. Design: The Creative Act**3 Credits**

Explores the nature of design and what it means to design in various diverse media. Included are creative efforts in writing, art, music, and technology. Commonalities and differences are considered.

HON 371V. Paris: Beyond the Eiffel Tower**3 Credits (3+3P)**

This interdisciplinary course focuses on the evolution of the city of Paris from its earliest beginnings in the fifth century to modern times. Through the use of historical, political, sociological and artistic texts and films, we will explore the various narratives which emerge from the built environment of Paris as well as its mythic status as the "City of Light and Romance" and "Capital of Revolution., Modernity and Art."

HON 374V. The European City: History and Culture**3 Credits**

Historical overview of development, growth, and culture of European cities.

HON 375V. The U.S. City: A History of Race, Space, and Urbanization**3 Credits**

This course takes the city as a starting point to understand larger social and political developments in the United States. Processes of segregation and exclusion have placed people of color in the United States on the periphery of social, cultural and geographical power in the nation. We will explore how Asian Americans, Latinas/os, and African Americans have navigated, created, and made sense of urban environments. Students will learn to interpret space for evidence of past and present social relationships, including how race intersects with gender, class, sexuality, and nation.

HON 377V. Freedom of Speech and the Law**3 Credits**

Examination of freedom of speech and of press both in the United States and in other societies. Examines a wide range of laws, court rulings and regulatory schemes covering areas such as defamation, sedition, and regulation of broadcasting and advertising.

HON 378V. Technology and Policy**3 Credits**

Study of the processes through which society sets goals for science and technology, of the allocation of resources needed to achieve these goals, and of the obligations and conflicts that develop as the goals are realized. International comparisons of public policies.

HON 379V. Literature as Film**3 Credits**

Considers the various results of literary adaptations to the screen. Participants will read literary texts written or translated into English and watch films from various countries as illustrations of this process.

HON 380V. Comparative Economic Systems**3 Credits**

A global comparison of economic institutions and problems.

HON 381V. Economic Development of Latin America**3 Credits**

Economic analysis of problems related to development in Latin America, including the agrarian problem, debt and austerity programs, industrialization, inflation and unemployment, the drug trade, U.S.-Latin American relations, development strategies. Also individual countries' problems.

Prerequisite(s): 3.2 cumulative GPA.

HON 384V. Ethical Decisions in Organizations**3 Credits**

Examines ethical decisions in business, non-profit, and governmental organizations from a managerial perspective. Topics include ethical principles, recognition and application of principle-based ethics, stakeholders in ethical decisions, and analysis of the consistency between organizational decisions and ethical principles.

HON 385V. Consumers and the Law**3 Credits**

A study of the multidisciplinary synergism of law, societal concerns, business, and ethics of consumer issues and attendant liability and remedies for the domestic and international markets.

HON 387V. Comparative Perspectives on Women**3 Credits**

The history, antecedents, and consequences of sex and gender systems around the world from the perspective of sociology, anthropology, and psychology.

HON 388V. Leadership and Society**3 Credits**

Exploration of the multifaceted nature of leadership in modern society through readings and seminar discussion.

HON 390. Worlds of Buddhism**3 Credits (3)**

This course is an introduction to Buddhism and its contribution to the formation of (East) Asian cultures. It provides students with Buddhist and (East) Asian "case studies" - i.e., examples of the ways in which Buddhism has influenced, and has been influenced by, the region's various cultural and social milieus over time. The course is designed to offer opportunities to critically reflect on Buddhism as a transformative philosophical, cultural and individual system. May be repeated up to 3 credits.

HON 394V. Southwestern and Border Literature**3 Credits**

Introduction to the culturally diverse literature of the American Southwest and borderlands region. Class analyzes evolution of the Southwest concept and considers degree to which the existence of a borderlands culture is manifest in literature.

Prerequisite: honors eligibility.

HON 400. Honors Thesis**3 Credits**

Independent-study research and writing project to be carried out under the supervision of a faculty member.

Prerequisite: consent of instructor.

HON 410. Honors Internship**3-6 Credits**

Assignments in departments to be supervised by faculty in the area. A cumulative 3.5 GPA is required. May be repeated for a maximum of 12 credits. May be repeated up to 12 credits. Consent of Instructor required.

HON 411V. Great Theorems: The Art of Mathematics**3 Credits**

Same as MATH 411G.

HON 420. Independent Studies**1-3 Credits**

Directed, individual studies and projects.

Prerequisites: consent of instructor and honors eligibility.

HON 421. Special Topics**1-3 Credits**

Special course offerings, with specific titles listed in Schedule of Classes. May be repeated up to 6 credits. Consent of Instructor required. Crosslisted with: EDUC 317V.

HON 422. Directed Research**3 Credits**

Individual research projects supervised by faculty advisers. Consent of instructor required.

HON 425V. Magic and Witchcraft in Medieval and Renaissance
3 Credits

Examines the history of popular and scientific beliefs about magic and witchcraft in medieval and early modern Europe. Topics include the origins of the occult sciences in the West, Arabic sources of medieval magic, the occult sciences in scholasticism, witchcraft and medieval theology, the witch hunts of the sixteenth and seventeenth centuries, and the decline of belief in magic and witchcraft in the seventeenth century. Of particular concern are the boundaries that defined and separated magic, science, and religion in western thought from late antiquity through the Scientific Revolution. Same as HIST 425 with differential assignments for HON 425 students. Crosslisted with: HIST 425.

HON 450V. The Sundt Honors Seminar
3 Credits

The Sundt Honors Seminar is a unique, experience-based, interdisciplinary seminar developed and taught by the holder of the Sundt Honors Professorship for the year. The subject of the course will vary according to the discipline of the Sundt Professor. The course may include a travel experience related to the seminar topic, hosting of outside specialists, or other unique activity. Open to students by application. Students selected for the course are named Sundt Scholars.
Prerequisite(s): ENGL 111G or equivalent.

HON 521. Special Topics
3 Credits

Graduate level to be cross-listed with HON 421 Special Topics at the undergraduate level.

HORT-HORTICULTURE (HORT)

HORT 100G. Introductory Plant Science
4 Credits (3+2P)

Introduction to the physical, biological, and chemical principles underlying plant growth and development in managed ecosystems. In the laboratory portion of the class, students perform experiments demonstrating the principles covered in lecture. The course uses economic plants and agriculturally relevant ecosystems to demonstrate basic principles. Appropriate for nonscience majors. Same as AGRO 100G.

HORT 110. Athletic Field and Golf Course Management
1 Credit

Survey of proper management of athletic fields, golf courses and other turfgrass stands. Career opportunities in athletic field and golf course management will be discussed. Course includes field trips to local and regional sports turf facilities.

HORT 200. Special Topics
1-4 Credits

Specific subjects and credits as announced. Maximum of 4 credits per semester and a grand total of 9 credits. May be repeated up to 9 credits. Consent of Instructor required.

HORT 205. Introduction to Horticulture
3 Credits

Principles and practices of horticulture. Basic chemical, physical, and biological principles that govern plant growth in different environments. Economics of plant science as related to the field of horticulture. Online course entirely. Intended for non-majors.

HORT 210. Ornamental Plants I
4 Credits (3+2P)

Covers identification, botanical characteristics, culture, and landscape uses of woody plants. Emphasis on deciduous trees, native shrubs, and evergreens.

HORT 211. Ornamental Plants II
4 Credits (3+2P)

Identification, botanical characteristics, culture, and landscape uses of woody plants. Emphasis on flowering trees, cacti, and members of the pea and rose families.

HORT 240. Floral Quality Evaluation and Design
2 Credits (1+2P)

Critical hands-on evaluation of the quality of cut and potted floral and tropical foliage crops, their specific merits and faults, and fundamentals of floral design.

HORT 241. Floriculture Field Practicum
1 Credit

Participation as team member in the National Intercollegiate Floral Quality Evaluation and Design Competition. Intensive week-long travel for competition, networking with industry, academia, and floriculture tours. May be repeated for a maximum of 3 credits.

Prerequisite(s): HORT 240 or consent of instructor.

HORT 250. Plant Propagation
3 Credits (2+2P)

Practical methods of propagating horticultural plants by seed, cuttings, layering, grafting, division and tissue culture. Examination of relevant physiological processes involved with successful plant propagation techniques. Same as AGRO 250.

HORT 300. Special Topics
1-4 Credits

Specific subjects as announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits. May be repeated up to 9 credits. Consent of Instructor required. Restricted to Las Cruces campus only.

HORT 302V. Forestry and Society
3 Credits

Global study of the development and use of forest resources for production of wood, fuel, fiber, and food products. Climatic, edaphic, cultural, and economic influences on forests of the world evaluated. Same as RGSC 302V.

HORT 305. Principles of Genetics
3 Credits

Covers fundamental principles of reproduction, variation, and heredity in plants and animals. Crosslisted with: AGRO 305, ANSC 305, BIOL 305 and GENE 305

Prerequisite(s): BIOL 111G, BIOL 211G and either CHEM 111G or CHEM 115.

HORT 307. Landscape Design
3 Credits (1+4P)

Design elements, the design process, and contemporary planting design used in the design of residential and small commercial landscapes. Basic drafting, drawing, and landscape plan presentation techniques. Prerequisites : HORT 210 or HORT 211 or concurrent enrollment or consent of instructor.

HORT 310. Medicinal Herbs
3 Credits

Introduction to ethnobotany, including plant cultivation, extraction methods, and analysis of active chemistries.

HORT 315. Crop Physiology**3 Credits**

Whole plant physiological processes as related to growth, development, yield, quality and post harvest physiology of crop plants within the environment of the crop community. Crosslisted with: AGRO 315

Prerequisite(s): EPWS/BIOL 314 or consent of instructor.

HORT 365. Principles of Crop Production**4 Credits (3+3P)**

Basic principles of crop production including environmental and physiological factors limiting production, plant nutrition and soil science, soil-water management, cropping systems and management, pest management, and economic factors influencing crop production. Crosslisted with: AGRO 365

Prerequisite(s): AGRO/HORT 100, CHEM 111G or equivalent and MATH 120 or equivalent.

HORT 377. Introduction to Turfgrass Management**4 Credits (3+3P)**

Establishment and maintenance of turfgrass with emphasis on seeding methods, soil and water management, mowing, disease insects and turfgrass varieties. Crosslisted with: AGRO 377

HORT 378. Turfgrass Science**4 Credits (3+3P)**

Introduction to the scientific fundamentals for turfgrass management cultural practices, pest management, rootzone construction and ecology.

Prerequisite(s): HORT 377 or consent of instructor.

HORT 391. Internship**1-6 Credits**

Professional work experience under the joint supervision of the employer and a faculty member. A written report is required. No more than 6 credits toward a degree. Consent of instructor required. Graded: S/U. Crosslisted with: AGRO 391 and SOIL 391

HORT 447. Seminar**1 Credit**

Review of current literature. Same as AGRO 447 and SOIL 447.

HORT 449. Special Problems**1-3 Credits**

Research problem, experience training, or other special study approved by a faculty adviser. Maximum of 3 credits per semester and a grand total of 6 credits. May be repeated up to 6 credits. Consent of Instructor required.

HORT 450. Special Topics**1-4 Credits**

Specific subjects as announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits. May be repeated up to 9 credits. Consent of Instructor required.

HORT 462. Plant Breeding**3 Credits**

Principles and practices involved with the genetic improvement of plants. Same as AGRO 462.

Prerequisites: ANSC/AGRO/BIOL/HORT 305.

HORT 465. Landscape Construction and Maintenance**4 Credits (3+2P)**

Application of landscape design and construction principles to build and maintain residential, small commercial and selected public managed landscapes.

HORT 471. Plant Mineral Nutrition**3 Credits**

Basic and applied aspects of plant requirements for soil-derived minerals and the processes whereby minerals are acquired, absorbed, translocated, and utilized throughout the plant. Same as AGRO/EPWS 471.

Prerequisite: EPWS/BIOL 314, or concurrent enrollment, or consent of instructor.

HORT 479. Advanced Turfgrass Science**3 Credits**

Extensive reviews of turfgrass sciences including ecology, physiology, entomology, pathology, weed science, and soil science.

Prerequisite: HORT 378 or consent of instructor.

HORT 485. Vegetable Crop Management**4 Credits (3+2P)**

Physiological, environmental and cultural aspects of vegetable crop production.

Corequisite(s): AGRO 365 or HORT 365, or consent of instructor.

HORT 486. Materials from Biorenewable Resources**3 Credits**

Types, sources, composition and properties of biomass. Production, processing, and applications of biomass materials with energy, water, cost, sustainability, and waste management considerations. Crosslisted with: AGRO 485, SOIL 485, E S 485 and CHME 485.

Prerequisite(s): CHEM 211 or CHEM 313 or permission of instructor.

HORT 488. Greenhouse Management**4 Credits (3+3P)**

Principles and practices involved in greenhouse structures and construction, site considerations, covering materials, heating and cooling systems, greenhouse crop production techniques, and case studies.

Prerequisite: HORT/AGRO 365 or consent of instructor.

HORT 492. Diagnosing Plant Disorders**3 Credits (2+3P)**

Systematic diagnosis of the physiological, pathological, and entomological causes of plant disorders. Same as AGRO 492 and AGRO 492.

Prerequisites: EPWS 303 and EPWS 310.

HORT 500. Special Topics**1-4 Credits**

Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree.

HORT 505. Research Orientation**4 Credits (3+2P)**

Training in writing research proposals, presentation of research results, and interpretation of research results. Crosslisted with: AGRO 505 and SOIL 505

HORT 506. Plant Genetics**3 Credits**

Advanced treatment of the principles of classical genetics and heredity with emphasis on the nature and action of the gene including molecular analysis. CHEM 345 recommended. Same as AGRO 506 and MOLB 506.

Prerequisite: AGRO 305 or consent of instructor.

HORT 514. Soil-Plant Relationships**3 Credits**

Physical, chemical, and biological soil environment as it affects plant and crop growth. Same as AGRO/SOIL 514.

Prerequisites: BIOL 314, SOIL 252.

HORT 515. Crop Physiology**3 Credits**

Whole plant physiological processes as related to growth, development, yield, quality and post harvest physiology of crop plants within the environment of the crop community. Crosslisted with: AGRO 515

Prerequisite(s): EPWS/BIOL 314 or consent of instructor.

HORT 516. Molecular Analysis of Complex Traits**3 Credits**

Provide a comprehensive overview of molecular genetic analysis of complex phenotypes, including case histories/experiments in plants, animals and humans. Emphasize technological developments in DNA marker technologies and their application to molecular quantitative genetics. Explore the efficient application of these technologies in the future to complex genetic systems, breeding, and other areas of life sciences. Same as AGRO 516.

Prerequisite: AGRO 305 or consent of instructor.

HORT 525. Scientific Writing How to be a Productive and Effective Writer**1-3 Credits (1-3)**

Students will learn to improve their writing skills so that their manuscript preparation process is more efficient and productive. Students will also gain experience in peer-review. Crosslisted with: AGRO 525, AGRO 625, EPWS 525, SOIL 625 and SOIL 525.

HORT 533. Environmental Physiology of Plants**3 Credits**

Integral responses of plants and crop productivity to naturally occurring and modified environmental factors such as radiation, temperatures, water vapor, carbon dioxide, and air flow. Same as AGRO/BIOL 533.

Prerequisite: BIOL 314 or consent of instructor.

HORT 590. Graduate Seminar**1 Credit**

Current research discussions presented by masters level graduate students. Not more than one credit toward the degree. Same as AGRO/SOIL 590. Crosslisted with: AGRO 590 and SOIL 590.

HORT 595. Internship**1-6 Credits**

Supervised professional on-the-job learning experience. Limited to Master of Horticulture or Plant & Environmental Science candidates. Not more than 6 credits toward the degree.

HORT 596. Masters Proposal**1 Credit**

Current research proposal written by masters level graduate students. Consent of Instructor required. Crosslisted with: AGRO 596, E S 596, GENE 596 and SOIL 596. Restricted to: Masters HORT; Masters PLEN majors.

Prerequisite(s): Master level graduate students.

HORT 597. University Teaching Experience**1-3 Credits (1-3)**

Certain graduate students will be permitted to teach up to one-third of one AGRO/HORT/SOIL/ES course. The student will prepare and deliver lectures and will prepare, administer, and grade at least one examination. The professor in charge of the course will attend and evaluate the student's lectures. Consent of instructor required. Crosslisted with: AGRO 597 and SOIL 597

HORT 598. Special Research Programs**1-6 Credits**

Individual investigations, either analytical or experimental. Maximum of 6 credits per semester. No more than 9 credits toward a degree.

Prerequisite: consent of instructor.

HORT 599. Master's Thesis**15 Credits**

Thesis.

HORT 609. Breeding for Plant Disease Resistance**3 Credits**

A practically-oriented course of lectures and discussion on concepts and principles of breeding for disease and pest resistance. Labs familiarize students with preparation, quantification, and application of inoculum to hosts. Same as AGRO 609.

HORT 610. Advanced Crop Breeding**4 Credits (3+3P)**

Applications of breeding principles to crop improvement. Emphasis on breeding methodologies using modern techniques, including biotechnology. Same as AGRO 610.

Prerequisite: AGRO 462 or consent of instructor.

HORT 620. Instrumentation in Agronomy**3 Credits**

Use of instruments used in research in all areas of agronomy including gas chromatography, high performance liquid chromatography, neutron soil moisture probe, and other instruments. Same as AGRO/SOIL 620.

HORT 625. Scientific Writing- How to be a Productive and Effective Writer**1-3 Credits (1-3)**

Students will learn to improve their writing skills so that their manuscript preparation process is more efficient and productive. Students will also gain experience in peer-review. Students in the 625 course will be required to perform additional research than those students in the 525 cross-listing. Crosslisted with: AGRO 525, EPWS 525, HORT 525 and SOIL 525.

HORT 670. Biometrical Genetics and Plant Breeding**3 Credits**

A statistical approach to gene action and population parameters as applied to plant improvement. Same as AGRO 670.

Prerequisite: AGRO 462 or consent of instructor.

HORT 685. Plant Genetic Engineering**3 Credits**

Analysis of plant genome structure and potential applications of emerging molecular techniques to the genetic improvement of plants. Same as AGRO/BIOL 685.

Prerequisites: HORT/AGRO 585 and AGRO/HORT 506 or CHEM 545, or consent of instructor.

HORT 696. Doctors Proposal**1 Credit**

Current research proposal written by PhD level graduate students. Consent of Instructor required. Crosslisted with: AGRO 696, E S 696 and SOIL 696. Restricted to: Doctors PLEN majors.

Prerequisite(s): PhD level graduate students.

HORT 697. University Teaching Experience**1-3 Credits (1-3)**

Certain graduate students will be permitted to teach up to one-third of one AGRO/HORT/SOIL/ES course. The student will prepare and deliver lectures and will prepare, administer, and grade at least one examination. The professor in charge of the course will attend and evaluate the student's lectures. Consent of instructor required. Crosslisted with:

AGRO 697 and SOIL 697

HOST-HOSPITALITY AND TOURISM (HOST)

HOST 155. Special Topics

1-3 Credits (1-3)

Specific subjects to be announced in the Schedule of Classes. Restricted to: Community Colleges only.

HOST 201. Introduction to Hospitality Industry

3 Credits

Overview of hospitality industry; organization and operation of lodging, food and beverage, and travel and tourism segments; focus on career opportunities and future trends of hospitality industry. Restricted to: Community College campuses only.

HOST 202. Front Office Operations

3 Credits

Hotel/motel front office procedures detailing flow of business, beginning with reservations and extending to the night audit process. Restricted to: Community College campuses only.

HOST 203. Hospitality Operations Cost Control

3 Credits

Management of Food & Beverage facilities using cost control techniques. Functional training in menu analysis and development with all phases of product flow through a Food & Beverage organization explored. Restricted to: Community Colleges only.

HOST 204. Promotion of Hospitality Services

3 Credits

Organization of hotel marketing functions; developing a marketing plan to sell the varied services of the hotel/motel property. Restricted to: Community College campuses only.

HOST 205. Housekeeping, Maintenance, and Security

3 Credits

Function of housekeeping departments, including personnel, sanitation, maintenance, and materials. A survey of security procedures to include guest protection and internal security of hotel/motel assets. Restricted to: Community College campuses only.

HOST 206. Travel and Tourism Operations

3 Credits

Transportation, wholesale and retail operations, attractions, the traveler, tourism development, and operational characteristics of tourism business. Restricted to: Community College campuses only.

HOST 207. Customer Service for the Hospitality Industry

3 Credits

Concepts of service and the customer, integrating the need for service quality, and the continuing efforts to maximize returns for the operation. Classic service styles as well as more modern service techniques are covered. Students gain in-depth managerial knowledge, planning skills, and hands-on techniques for consistently delivering quality and service in a variety of operations. Restricted to: Community College campuses only.

HOST 208. Hospitality Supervision

3 Credits

Strategies for directing, leading, managing change and resolving conflict. Prepares students to meet expectations of management, guests, employees, and governmental agencies. Restricted to: Community College campuses only.

HOST 209. Managerial Accounting for Hospitality

3 Credits

Prepares students to make effective business decisions based on financial report information; forecasting, budgeting, cost analysis. Restricted to: Community College campuses only.

Prerequisite(s): BOT 120 or ACCT 252.

HOST 210. Catering and Banquet Operations

3 Credits

Teaches the basics of catering and banquet operations, including computer coordination, planning, set up, service, and completion. Restricted to Community Colleges campuses only.

HOST 214. Purchasing and Kitchen Management

3 Credits

Technical purchasing concepts, product selection, and specifications. Safety and sanitation as they relate to food service establishments. Prepares student for work with HACCP programs. Restricted to Community Colleges campuses only.

HOST 216. Event, Conference and Convention Operations

3 Credits

The ability to successfully plan, organize, arrange, and execute special events is critical to the success of many hospitality organizations. This course gives the student a grounding in the skills necessary to achieve success in this area. A variety of events are discussed and the similarities and differences with conferences and conventions are explored. Students are taught to organize and plan events of varying type and durations. Sales, logistics, and organizing skills are emphasized. Restricted to: Community College campuses only.

HOST 219. Safety, Security and Sanitation in Hospitality Operations

3 Credits

It is the responsibility of the manager to provide appropriate security, sanitation, and safety precautions in hospitality operations. Preparation for internal and external disasters is an important task for the Hospitality Manager. This course uses the National Restaurant Association ServSafe® training material. Restricted to: Community College campuses only.

HOST 220. Experiential Travel

3 Credits

Course provides an opportunity for students to plan, prepare for and experience travel to destinations they might not otherwise have visited. Students experience local culture and peoples. May be repeated up to 9 credits. Restricted to Community Colleges campuses only.

Prerequisite(s): HOST 201 or consent of instructor.

HOST 221. Internship I

1-3 Credits (1-3)

Work experience that directly relates to a student's major field of study that provides the student an opportunity to explore career paths and apply knowledge and theory learned in the classroom. Internships may be paid or unpaid. Students are supervised/evaluated by both the employer and the instructor. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: OEHS, HOST majors. S/U Grading (S/U, Audit). Restricted to Community Colleges campuses only.

HOST 222. Cooperative Experience II

3 Credits

Continuation of HOST 221. Restricted to majors. Graded: S/U. Restricted to: Community College campuses only. Restricted to HOST majors.

Prerequisite(s): HOST 221.

HOST 223. Travel Agency Principles**3 Credits**

Travel agents are called upon to exhibit broad knowledge about many different tourism products. This course prepares students to undertake the challenging job of an agent in a travel agency. May be repeated up to 3 credits. Restricted to Community Colleges campuses only.

HOST 224. Travel Agency Booking & Operations**3 Credits**

Course trains students to use the common electronic booking software that is found in travel agencies. Familiarization with operational procedures of travel agencies. May be repeated up to 3 credits. Restricted to Community Colleges campuses only.

Prerequisite(s): HOST 223.

HOST 230. Wedding Events Management**3 Credits**

This course will address various issues that could potentially arise in the preparation and management of a wedding or related event. All aspects of planning and attention to details that will ensure that students are prepared to provide services as a professional wedding planner. May be repeated up to 3 credits. Restricted to Community Colleges campuses only.

HOST 239. Introduction to Hotel Management**3 Credits**

This course covers basic management functions in hotels, resorts, Boutique Hotels, Bed & Breakfast establishments, and other lodging operations. All aspects of the operation are covered including guest management, operations, and sales and marketing. Restricted to: Branch campuses only.

HOST 255. Special Topics**3 Credits**

Specific subjects to be announced in the Schedule of Classes. May be repeated up to 9 credits. Restricted to Community Colleges campuses only.

HOST 298. Independent Study**1-3 Credits (1-3)**

Individual studies directed by consenting faculty with prior approval of department chair. May be repeated for a maximum of 3 credits. Restricted to: Community College campuses only.

Prerequisite(s): Minimum 3.0 GPA and sophomore standing.

HRTM-HOTEL/RESTRNT/TOURISM MGT (HRTM)

HRTM 111. Freshman Orientation**1 Credit**

Orientation to university life, including available resources and methods to promote success at NMSU. Open to all freshmen and transfer students. Graded S/U.

HRTM 200. Special Topics**1-4 Credits**

Specific subjects and credits to be assigned on a semester basis for both lecture and laboratory assignments. May be repeated for a maximum of 4 credits.

Prerequisite: consent of instructor.

HRTM 201. Introduction to Tourism**3 Credits**

Survey of travel and tourism development and operating characteristics.

HRTM 221. Introduction to Hospitality Management**3 Credits**

Overview of the major segments of the hospitality industry, with a focus on basic management principles.

HRTM 231. Safety, Sanitation and Health in the Hospitality Industry**2 Credits**

Addresses public health, HACCP, safety and culinary nutrition responsibilities in the hospitality industry. Sanitation certification test allows students to receive national credential.

HRTM 263. Food Production and Service Fundamentals**3 Credits (1+4P)**

Basic overview of food service systems including menu management, purchasing and production. The course includes basic principles of food fabrication and production. Topics include knife skills, culinary terminology, product identification, quality standards, nutritional cooking theory and application of food preparation techniques. The course includes laboratory aspects and demonstration of basic food production techniques, service styles, practices and procedures in food service operations including culinary math. This course provides students with an understanding of food service sanitation and culinary nutrition. Completion of a national certification examination is required. Restricted to Las Cruces campus only.

Prerequisite(s): HRTM 221 or FSTE 263G.

HRTM 301. Hotel, Restaurant, and Tourism Marketing**3 Credits**

The development of effective marketing programs for hospitality service organizations. Prerequisites: HRTM 221

HRTM 302. Hospitality Management Accounting**3 Credits**

Specialized accounting for hotel revenue and expenses; accounting for inventory, property, and equipment; hospitality payroll accounting; hotel departmental financial statements; income statement, balance sheet, and statement of cash flows; the analysis of financial statements; interim and annual reports; budgeting expenses; forecasting sales; budgetary reporting and analysis; and financial decision making.

Prerequisite: ACCT 221.

HRTM 304. Hospitality and Travel Law**3 Credits**

Specialized applications of the law to the hospitality and tourism industry.

Prerequisite: HRTM 221.

HRTM 307. Professional Development**1 Credit**

Covers essential elements of career management including preparation for a successful internship. Restricted to majors. Graded S/U.

HRTM 311. Hospitality Leadership Management**3 Credits**

Examines modern leadership theory in the context of the hospitality industry. Connects contemporary leadership topics to their historical antecedents through focused reading, discussion and film.

Prerequisites: HRTM 221 and HRTM 201.

HRTM 331. Hotel Operations I**3 Credits**

Analysis of hotel systems design, process, and applications for operating areas including guest services, reservations, reception, telecommunications, guest/city ledger, and the night audit.

Prerequisites: HRTM 201 and HRTM 221.

HRTM 363. Quantity Food Production and Service**6 Credits (1+10P)**

Covers quantity food production including cooking concepts, sanitation and safety, teamwork, and management responsibilities. Students will apply this knowledge developing product for sale in a student run restaurant. Proof of current ServSafe or NM Food Handler certification required. May be repeated up to 6 credits. Crosslisted with: HNDS 363.

Prerequisite(s): HRTM 263.

HRTM 404. Gaming Operations and Organization**3 Credits**

Introduction to the multi-billion-dollar industry, including an historical overview, social and economic impacts of gaming, and casino operations.

Prerequisites: HRTM 201 and HRTM 221.

HRTM 408. Hospitality Internship**1 Credit**

Hospitality and tourism professional work experience for HRTM majors only. Restricted to majors.

Prerequisites: HRTM 307 and consent of instructor.

HRTM 409. HRTM Internship Seminar**1 Credit**

A case based approach to analyzing internship experiences. Students will write case studies about specific business issues they encountered during HRTM 408 (Internship) and analyze them. Restricted to majors.

Prerequisites: HRTM 408.

HRTM 410. Hospitality Cost Control**3 Credits**

Familiarizes students with all aspects of cost control including financial data entry and hospitality accounting practices, financial report production, analysis and problem solving. Students will learn to understand the roles of the various stakeholders (owners, managers, employees and customers.) Provides tools needed to communicate effectively about global financial issues affecting the hospitality business.

Prerequisite: HRTM 408.

HRTM 412. Beverage Management**3 Credits**

Survey of all aspects of beverage management, including wine/beer/distilled spirits origins and trends, cost control, bar management, beverage purchasing, and wine appreciation.

Prerequisite: HRTM 408.

HRTM 413. Restaurant Operations Management**4 Credits (1+6P)**

Provides a detailed understanding of the processes of restaurant operations management. Students are expected to increase kitchen technical skills, learn to cook from recipes and develop a personal culinary style. Provides the opportunity to perform a detailed analysis of a food and beverage operation, including running and selectively analyzing the reports from systems. Proof of current NM Alcohol Server certification required. May be repeated up to 4 credits.

Prerequisite(s): HRTM 363.

HRTM 414. International Food and Wine**3 Credits**

An experiential examination of wine through lectures, films, guest speakers and focused tasting of food and wine. Topics include viticulture, wine making varietals, terroir, and food pairings. Student must be at least 21 years old.

Prerequisite: consent of instructor.

HRTM 420. Club Management and Marketing**3 Credits**

Provides an understanding of the general operational and administrative procedures practiced in private clubs from a marketing perspective with a special emphasis on managing and marketing club food and beverage operations and service. It will provide the professional golf management and hospitality students with the unique sensitivities required in managing and operating in the increasingly lucrative club management market.

HRTM 430. Hospitality Facilities Management**3 Credits**

Exploration of the engineering and maintenance requirements specific to the hospitality industry. Emphasis on environmental issues, renovation and management of the physical plant.

Prerequisite(s): HRTM 331, HRTM 408.

HRTM 431. Hotel Operations II**3 Credits**

The duties and administration of a hotel front office, including housekeeping. Additional focus on the procedures of reservations and night audit. Students also gain exposure to property management systems.

Prerequisite(s): HRTM 331, HRTM 408.

HRTM 432. Hotel Revenue and Sales Management**3 Credits**

Examines methods used for profitably managing capacity, including dynamic pricing and allocation of the rooms inventory across market segments to maximize revenues. Focuses on the integration of revenue management principles with information technology, management, marketing and sales concerns at the property and market level.

Prerequisite: HRTM 408.

HRTM 433. Training for Hospitality Operations**3 Credits**

Analysis of training needs and methods in hospitality organizations.

Prerequisite(s): MGT 332.

HRTM 434. Senior Capstone Experience**3 Credits**

Synthesizes all previous work. Students apply multi-disciplinary principles to the analysis of hospitality business cases and tourism problems.

Prerequisite: HRTM 408.

HRTM 443. Meetings, Conventions and Special Events**3 Credits**

Examination of the role of the meeting/event planner, including setting objectives, site selection, negotiations, design, budgeting, marketing, registration, on-site logistics, and evaluation. May be repeated up to 3 credits. Consent of Instructor required.

Prerequisite(s): HRTM 408.

HRTM 450. Special Topics**1-4 Credits**

Specific subjects to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

Prerequisite: consent of instructor.

HRTM 492. Special Problems**1-4 Credits**

Individual research in a selected subject area of hospitality management. Maximum of 4 credits per semester and a total of 6 credits toward a degree.

Prerequisite: consent of instructor.

HRTM 507. Hospitality and Tourism Internship**3 Credits**

Supervised placement in a hospitality or tourism organization. An in-depth written report of the experience is required. Graded S/U.

Prerequisite: consent of instructor.

HRTM 510. Hospitality Cost Control**3 Credits**

Familiarizes students with all aspects of cost control including financial data entry and hospitality accounting practices, financial report production, analysis and problem solving. Students will learn to understand the roles of the various stakeholders (owners, managers, employees and customers). Provides tools needed to communicate effectively about global financial issues affecting the hospitality business. Same as HRTM 410 with additional work for graduate credit. Consent of Instructor required.

HRTM 512. Beverage Management**3 Credits**

Survey of all aspects of beverage management, including wine/beer/distilled spirits origins and trends, cost control, bar management, beverage purchasing, and wine appreciation. Same as HRTM 412 with additional work for graduate credit. Consent of Instructor required.

HRTM 530. Facilities Management**3 Credits**

Exploration of the engineering and maintenance requirements specific to the hospitality industry. Emphasis on environmental issues, renovation and management of the physical plant. Same as HRTM 430 with additional work for graduate credit. Consent of Instructor required.

HRTM 531. Hotel Operations II**3 Credits**

The duties and administration of a hotel front office, including housekeeping. Additional focus on the procedures of reservations and night audit. Students also gain exposure to property management systems. Same as HRTM 431 with additional work for graduate credit. Consent of Instructor required.

HRTM 532. HOTEL REV/SALES MGT**3 Credits**

Examines methods used for profitably managing capacity, including dynamic pricing and allocation of the rooms inventory across market segments to maximize revenues. Focuses on the integration of revenue management principles with information technology, management, marketing and sales concerns at the property and market level. Same as HRTM 432 with additional work for graduate credit. Consent of Instructor required.

HRTM 543. Meetings, Conventions and Special Events**3 Credits**

Examination of the role of the meeting/event planner, including setting objectives, site selection, negotiations, design, budgeting, marketing, registration, on-site logistics, and evaluation. Same as HRTM 443 with additional work for graduate credit. Consent of Instructor required.

HRTM 590. Special Topics**1-4 Credits**

Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a total of 9 credits toward a degree.

Prerequisite: consent of instructor.

HRTM 598. Special Research Programs**1-4 Credits**

Individual investigations, either analytical or experimental. Maximum of 4 credits per semester and no more than 6 credits toward a degree.

Prerequisite: consent of instructor.

HRTM 599. Master's Thesis**6 Credits**

Thesis.

Prerequisite: consent of instructor.

HVAC-HEATING/AC/REFRIGERATION (HVAC)

HVAC 100. EPA Clean Air Act: Section 608**1 Credit**

Refrigerant certification preparation to include basics of refrigerant bearing equipment, ozone depletion and the new legislation, technician categories covered and the certification examination.

HVAC 101. Fundamentals of Refrigeration**4 Credits (3+2P)**

Refrigeration cycle and the various mechanical components. Use of special tools, equipment, and safety precautions.

HVAC 102. Fundamentals of Electricity**4 Credits (3+2P)**

Introduction to electricity theory, OHM's Law, circuits, AC/DC, and practical applications.

HVAC 103. Electrical and Mechanical Controls I**4 Credits (3+2P)**

Applications of basic electrical and mechanical controls. Reading and drawing diagrams of simple refrigerating equipment. Safe use of testing equipment.

Prerequisites: HVAC 101 and HVAC 102, or consent of instructor.

HVAC 110. Professional Development and Leadership**1 Credit**

As members and/or officers of various student professional organizations, students gain experience in leadership, team building, and community service. Students competing in Skills USA are required to register for the course. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: HVAC majors. S/U Grading (S/U, Audit). Restricted to: Community Colleges only.

HVAC 113. Job Shadowing**1 Credit**

Course will expose students to actual HVAC/R field work and provide them knowledge of the expectations of field work as they shadow an HVAC/R technician. Consent of instructor required. Restricted to: Community colleges only.

HVAC 205. Commercial Refrigeration Systems**4 Credits (3+2P)**

Service and maintenance of commercial refrigeration equipment to include evacuation and charging procedures, electrical diagrams, and compressors and accessories.

Prerequisites: HVAC 103 or consent of instructor.

HVAC 207. Residential Air Conditioning Systems**4 Credits (3+2P)**

Applications and types of equipment used in comfort cooling. Preventive maintenance, service, and repairs common to evaporative coolers and refrigerated air conditioning systems. Air properties and psychometrics.

Prerequisite: HVAC 103 or consent of instructor.

HVAC 209. Residential Heating Systems**4 Credits (3+2P)**

Gas and electric systems used in comfort heating. Maintenance procedures, safety, troubleshooting, and servicing malfunctions in equipment.

Prerequisite: HVAC 103 or consent of instructor.

HVAC 210. Commercial Air Conditioning and Heating Systems**4 Credits (3+3P)**

Covers troubleshooting mechanical and electrical problems associated with HVAC equipment in commercial buildings. Includes gas, electric, and heat pump systems. Restricted to Community Colleges campuses only.

Prerequisite(s): HVAC 103 or consent of instructor.

HVAC 211. Heat Pump Systems**4 Credits (3+2P)**

Reverse cycle refrigeration systems utilized in comfort heating and cooling. Troubleshooting mechanical electrical problems associated with heat pumps. HVAC 103 or consent of instructor.

HVAC 213. Practicum**3 Credits**

Working in the field with journeymen service technicians. Develop and apply job skills. Consent of instructor required. Restricted to: Community colleges only.

Prerequisite(s): Consent of instructor.

HVAC 220. Introduction to Sheet Metal Fabrication**4 Credits (3+2P)**

Introduction to sheet metal fabrication to include hands-on practical laboratory applications, cutting and forming procedures, identifying types and gauges. Design and layout techniques.

Prerequisite: OETS 118 or equivalent math or consent of instructor.

HVAC 225. New Mexico Mechanical Codes: HVAC**1-4 Credits**

Principles and regulations developed for HVAC, sheet metal, and plumbing occupations to include terminology, ventilation air supply, exhaust systems, duct systems, combustion air, chimneys and vents, boilers/water heaters, refrigeration, panel and hydronic panel heating, fuel gas piping, storage systems, solar systems, and workmanship standards. May be repeated for a maximum of 12 credits.

HVAC 255. Special Topics**1-6 Credits**

Topics to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

Prerequisite: consent of instructor.

HVAC 290. Special Problems**1-4 Credits**

Individual studies related to heating, air conditioning, and refrigeration.

Prerequisites: HVAC 101, HVAC 102, and consent of instructor.

I B-INTERNATIONAL BUSINESS (I B)

I B 317. International Marketing**3 Credits**

Same as MKTG 317.

I B 351. International Business**3 Credits**

The various aspects of international business, and identification and analysis of problems encountered by multinational companies.

Prerequisite: junior standing or consent of instructor.

I B 398. International Business and Economic Environments**3 Credits**

Description and analysis of various world regions, e.g., Pacific Rim, Eastern Europe, South Asia. Region will vary from semester to semester.

I B 449. Open Economy Macroeconomics**3 Credits**

This course studies theoretical and empirical macroeconomics in international dimension. It covers from the fundamental concepts of national income and growth, monetary/fiscal and exchange rate policies, foreign exchange markets, international trade and finance, and regionalization/economic integration to the impact analysis of these macroeconomic fundamentals in the open economy. Crosslisted with: ECON 449.

Prerequisite(s): FIN 341 OR ECON 372.

I B 450. International Economics**3 Credits**

Trade and capital flows between countries, international payments, government policy in balance-of-payments and tariff matters, international organizations. Crosslisted with: ECON 450G

Prerequisite(s): ECON 251G and ECON 252G.

I B 458. Comparative International Management**3 Credits**

Cultural influences on management are examined in a global business environment with a particular emphasis on human behavior in multinational organizations and the management of human resources. Same as Mgt. 458.

I B 475. International Finance**3 Credits**

Same as FIN 475. May be repeated up to 3 credits. Crosslisted with: FIN 475 and FIN 575.

I B 489. Senior Seminar in International Business**3 Credits**

Capstone class for I B majors. Integration of previous classwork via the examination of case studies and completion of a major project.

Prerequisite: I B core.

I E-INDUSTRIAL ENGINEERING (I E)

I E 110. Industrial Engineering Orientation**1 Credit**

Introduction to Industrial Engineering Department, Facility Research and Resources. Overview of where industrial engineering fits into larger view of all of engineering. Introduction to university resources for industrial engineering students. Restricted to majors.

I E 151. Computational Methods in Industrial Engineering**3 Credits**

History, social implications, and application of computers and an introduction to computer programming, word processing, and database management systems. Satisfies General Education computer science requirement.

Prerequisite: MATH 121G.

I E 152. Introduction to Industrial Engineering**2 Credits**

Historical development of industrial engineering, present practice and trends.

Prerequisite: MATH 120.

I E 200. Special Problems-Sophomore**1-3 Credits**

Directed individual projects. May be repeated for a total of 3 credits.

Prerequisite: consent of faculty member.

I E 217. Manufacturing Processes**2 Credits**

Manufacturing methods and industrial processes which include casting, forming and machining. Crosslisted with: E T 217

Prerequisite(s): MATH 121G.

Corequisite(s): I E 217L.

I E 217 L. Manufacturing Processes Laboratory**1 Credit**

Laboratory associated with I E 217.

I E 300. Special Problems-Junior**1-3 Credits**

Directed individual projects. May be repeated for a total of 3 credits.

Prerequisite: consent of faculty member.

I E 311. Engineering Data Analysis**3 Credits**

Methodology and techniques associated with identifying and analyzing industrial data. May be repeated up to 3 credits. C- or better in I E 151, C S 110, or equivalent.

Prerequisite(s): C- or better in MATH 192G.

I E 316. Methods Engineering**3 Credits (2+3P)**

Methods analysis and design. Work measurement techniques. Job evaluation and wage incentive methods.

Prerequisite: I E 311.

I E 330. Environmental Management Seminar I**1 Credit**

Survey of practical and new developments in hazardous and radioactive waste management provided through a series of guest lectures and reports of ongoing research. Restricted to: Main campus only. Crosslisted with: C E 330, CH E 330, E E 330, E S 330, E T 330, M E 330 and WERC 330

I E 351. Applied Problem Solving in Industrial Engineering**3 Credits**

Application of computational techniques to engineering problems including the use of commercial programs in statistics and applied mathematics. Restricted to majors.

Corequisite: I E 311.

I E 365. Quality Control**3 Credits**

Statistical analysis of quality in manufacturing. Acceptance sampling and control charts.

Prerequisite: I E 311 or equivalent.

I E 375. Manufacturing Processes II**3 Credits**

Review of basic manufacturing processes. Advanced topics in casting, forming, machining and joining; major process parameters; economics of processes.

Prerequisite: I E 217 or E T 217.

I E 381. Technology Ventures**3 Credits**

This course looks at how new technology ventures are formed at the individual entrepreneur and corporate levels. It covers the development of science and engineering based ventures from ideas through creating customer value. This is the first course in the Entrepreneurship Minor. The roles of science and engineering specialists in the creation of customer value are defined in preparation for development of technology-based enterprises.

I E 382. Business for the Practicing Engineer**3 Credits**

Business tools and skills, including technology commercialization, patent applications, preparing a technology-oriented business plan, reading and constructing financial documents, modeling and understanding markets, e-commerce, QFD, concurrent engineering, engineer's role in the global economy, and engineer's impact on product design and cost.

Prerequisite: engineering major, junior level or above.

I E 400. Undergraduate Research**1-3 Credits**

May be repeated for a maximum of 6 credits.

Prerequisite: consent of faculty member.

I E 411. Occupational Safety**3 Credits**

Practical methods to improve safety in the workplace. Topics include OSHA and other regulations, hazard recognition, assessment and control, industry standards, risk assessment and safety management. Material is applicable to a variety of workplace settings. This course is intended for College of Engineering students who have completed their lower-division requirements in mathematics, engineering, technology, and basic science. Same as I E 561 with differential assignments. **Prerequisite:** Junior standing

I E 413. Engineering Operations Research I**3 Credits**

Deterministic operations research modeling including linear and integer programming.

Prerequisite: MATH 192G.

I E 423. Engineering Operations Research II**3 Credits**

Probabilistic operations research modeling, including queuing systems and their optimization; Markov chains.

Prerequisite: I E 311.

I E 424. Manufacturing Systems**3 Credits**

Organization and functions of manufacturing planning and control systems including forecasting, MRP, capacity planning, JIT systems, scheduling, and inventory control.

Prerequisite: I E 311.

I E 451. Engineering Economy**3 Credits**

Discounted cash flows, economics of project, contract and specifications as related to engineering design. Same as CH E 451.

I E 453. Leadership and Motivation**3 Credits**

Theories of leadership and motivation. Motivational programs for complex organizations. Relationships between organizational power, authority, and management styles. Same as MGT 453.

Prerequisite: MGT 309 or consent of instructor.

I E 460. Evaluation of Engineering Data**3 Credits**

Analysis of engineering systems possessing variability, employing regression, analysis of variance, distribution theory, and experimental design methods.

Prerequisite: I E 311 or equivalent.

I E 466. Reliability**3 Credits**

Application of statistical theory to engineering reliability estimation, reliability improvement, and the analysis of reliability test data.

Prerequisite: I E 311 or equivalent.

I E 467. Discrete-Event Simulation Modeling**4 Credits**

Basic modeling concepts, organizations of simulations, input data analysis, random variate generation, simulation design and analysis, model validation, output analysis, and management of simulations. Differentiated graduate assignments. Same as I E 567.

Prerequisite: I E 311 or equivalent.

I E 478. Facilities Planning and Design**3 Credits**

Plant location methods, total process analysis, process integration, materials handling analysis, and traditional and computerized plant layout methodologies. Pre/

Prerequisite: I E 316.

Corequisite: I E 424.

I E 480. Senior Design**3 Credits (2+3P)**

Multi-disciplinary team design project for external clients. Involves semester long activities including major design report and presentation.

Prerequisites: senior standing, I E 467.

I E 490. Selected Topics**1-3 Credits**

May be repeated for a maximum of 9 credits.

Prerequisite: consent of the head of the department.

I E 505. Directed Readings**1-3 Credits**

May be repeated for a maximum total of 6 credits.

Prerequisite: consent of the head of the department.

I E 515. Stochastic Processes Modeling**3 Credits**

Introduction to the use of stochastic processes in the modeling of physical and natural systems. Use of generating functions, conditional probability and expectation, Poisson processes, random walk models, Markov chains, branching processes, Markov processes, and queuing processes in an applied setting.

Prerequisites: I E 311 or equivalent; and MATH 392 or equivalent.

I E 522. Queuing Systems**3 Credits**

Elements and classification of queuing systems, single server models, multi-server models, cost analysis and applications.

Prerequisite: I E 311 or equivalent.

I E 523. Advanced Engineering Economy**3 Credits**

Theoretical basis for engineering economy methods, problems of cost estimation, replacement, nonmonetary factors, and feasibility studies. Same as C E 523.

I E 524. Advanced Production and Inventory Control**3 Credits**

Organization and functions of manufacturing planning and control systems including forecasting, MRP, capacity planning, JIT systems, scheduling and inventory control. Same as I E 424 with differentiated assignments.

I E 525. Systems Synthesis and Design**3 Credits**

Examination of the production management complex in terms of its components and the synthesis of these components into an effective operating unit. Development of input-output models representing the basis structure of all production activities.

I E 530. Environmental Management Seminar**1 Credit**

Same as C E 530, E E 530, CH E 530.

I E 531. Fundamentals of Operations Research Techniques**3 Credits**

Key concepts, terminology, paradigms, and methods of operations research: Linear programming including assignment and transportation algorithms; stochastic analysis, including inventory control and queuing systems; general approaches, including goal, integer, nonlinear and dynamic programming.

I E 533. Linear Programming**3 Credits**

Linear programming problem formulation, simplex algorithm, theory of linear programming, duality, revised simplex algorithm, and sensitivity analysis.

I E 534. Nonlinear Programming**3 Credits**

Theoretical and computational methods to solve optimization problems in engineering, statistics, economics, and operations research. Topics include convexity, optimality conditions, Newton's method, Lagrange multipliers, search algorithms for unconstrained and constrained problems, as well as barrier and penalty methods. **Prerequisite:** MATH 192G or equivalent

I E 535. Discrete Optimization**3 Credits**

Combinatorial Optimization problems using both integer programming and graph theoretic approaches. Emphasis on modeling and computational algorithms.

I E 537. Large Scale Systems Engineering**3 Credits**

Systems engineering approaches to large-scale complex technological and societal problems. Concepts of interaction and structural graphs, matrices, delta, and Gantt charts. The hall matrix approach, structural concepts, reachability matrices, and cross impact-analysis, modeling and decision making.

I E 539. Fundamentals of Transportation and Routing in Logistics**3 Credits**

Introduction to the conceptual, methodological, and mathematical foundations of transportation and routing problems in logistics system. Emphasis on mathematical modeling and computational algorithms.

I E 545. Characterizing Time-Dependent Engineering Data
3 Credits

Theory and techniques employed in the characterization of stochastic processes commonly found in engineering applications. Distribution models include exponential, gamma, Weibull, and extreme value. Design and analysis of experiments involving complete and censored data and elevated stress. Analytical techniques include parametric, nonparametric, and graphical approaches with emphasis on modern computer tools. Exact and approximate maximum-likelihood techniques are stressed.

Prerequisite: I E 311 or equivalent.

I E 561. Advanced Safety Engineering
3 Credits

Regulation as well as qualitative, and quantitative methods to achieve and maintain safety in the workplace. Includes liability, worker's compensation, OSHA, hazard control, safety assessment, cost justification, and system analysis.

Prerequisite: graduate status in engineering.

I E 563. Topics in Engineering Administration
3 Credits

Study of qualitative and quantitative aspects. Consideration given to philosophical, psychological, political and social implications of engineering administrative decisions.

I E 567. Design and Implementation of Discrete-Event Simulation
3 Credits

Basic modeling concepts, organizations of simulations, input data analysis, random variate generation, simulation design and analysis, model validation, output analysis, and management of simulations. Taught with I E 467 with differentiated assignments for graduate students.

I E 571. Advanced Quality Control
3 Credits

Advanced topics in quality control and design of experiments for improvement of quality.

Prerequisite: I E 311 or equivalent.

I E 575. Advanced Manufacturing Processes
3 Credits

Covers major process parameters in casting, forming, machining, and joining. Process economics and selection of processes design and interactions.

Prerequisite: graduate standing.

I E 590. Selected Topics
1-3 Credits

May be repeated for a maximum of 9 credits.

Prerequisite: consent of the head of the department.

I E 598. Special Research Programs
1-3 Credits

Individual analytical or experimental investigations. May be repeated for a maximum total of 6 credits.

Prerequisite: consent of instructor.

I E 599. Master's Thesis
15 Credits

Thesis.

I E 610. Topics in Operations Research
3 Credits

Selected topics of current interest, to be designated by subtitle. May be repeated for a maximum of 6 credits.

I E 620. Topics in Computer Modeling
3 Credits

Selected topics of current interest, to be designated by subtitle. May be repeated for a maximum of 6 credits.

I E 630. Topics in Engineering Management
3 Credits

Selected topics of current interest, to be designated by subtitle. May be repeated for a maximum of 6 credits.

I E 690. Selected Topics
1-15 Credits

May be repeated.

Prerequisite: consent of department head.

I E 700. Doctoral Dissertation
15 Credits

Dissertation.

ICT-INFO & COMMUNICATION TECH (ICT)

ICT 320. Introduction to Internet Protocols
3 Credits

Present an overview of Internet Protocols Applications. May be repeated up to 3 credits.

ICT 339. Introduction to Digital Forensics and Incident Response
3 Credits

Introduction to the skills required to perform digital forensics and incident response on Windows operating systems. Topics include: live response, evidence acquisition, Windows operating system artifacts, documentation and reporting.

Prerequisite(s): ICT 360.

ICT 345. Computer Hardware Fundamentals
3 Credits

Computer hardware fundamentals including architecture, interfacing, peripherals, troubleshooting, system upgrades, and maintenance.

Prerequisite(s): junior standing.

ICT 352. Software Programming for Information and Communication Technology
3 Credits

Computer programming techniques for information and communication technology topics.

ICT 360. Operating Systems for ICT
3 Credits

Command Line interface, File systems, File manipulations, remote login. For information and communication technologists.

ICT 362. Software Technology II
3 Credits

A continuation of topics from ICT 352 that are directed toward more advanced software development. Topics include problem analysis, object oriented, structured logic, and development concepts using JAVA.

Prerequisite(s): ICT 352.

ICT 364. Windows Server Administration
3 Credits

Configuration and maintenance of programs in Windows Server and Server Installation, Active Directory, Storage, Server Maintenance, Troubleshooting Methodology, SQL Server, Web Server, Authentication Procedures, Mail Servers. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): ICT 339. **Prerequisite(s):** ICT 362.

ICT 377. Computer Networking I**3 Credits**

Topics presented from the point of view of the network administrator include computer network design and applications from LAN to WAN to the Internet, office LANs, cable certification, switches, routers, Windows server, TCP/IP networks, network protocols, network diagnostics, campus network and Internet routing, the OSI layers from physical to transport.

Prerequisite(s): junior standing.

ICT 435. Senior Project**3 Credits**

Advanced ICT Project. Normally taken during last semester of the program. May be repeated up to 3 credits. Restricted to: ICT majors.

Prerequisite(s): ICT 377 and ICT 458 and ICT 460.

ICT 450. Ethical Hacking**3 Credits**

Ethical Hacking and Penetration testing techniques. May be repeated up to 3 credits.

Prerequisite(s): ICT 339.

ICT 457. Introduction to Information Security Technology**3 Credits**

This course provides an overview of security challenges and strategies of countermeasure in the information systems environment. Topics include definition of terms, concepts, elements, and goals incorporating industry standards and practices with a focus on availability, vulnerability, integrity and confidentiality aspects of information systems. May be repeated up to 3 credits.

ICT 458. Database Design and Applications**3 Credits**

MySQL and PHP. Data conversion using PHP, mysql and Python. Methods of transferring data from electronic boards and data feeds, into databases. Use of SQL in java programming. Remote programming of computers for running database systems in a mixed OS environment. Generation of web pages directly from Database queries. May be repeated up to 3 credits.

Prerequisite(s): ICT 362.

ICT 460. Web Technologies and Multimedia**3 Credits**

Addresses the latest multimedia technology advances and how they apply to the information and communication technology fields. May be repeated up to 3 credits.

Prerequisite(s): ICT 360.

ICT 462. Remote Access Operating Systems with Linux**3 Credits**

Operating systems applications and interfacing with an introduction to systems administration. C Programming, System Backups, Setup and Maintenance Linux Servers. Webserver with virtual domains, CGI programming and interface with MySQL databases. May be repeated up to 3 credits.

ICT 463. Computer Systems Administration**3 Credits**

Advance topics in computer systems administration from ICT 462. Use of Python to solve numerous engineering problems including video and audio. Image manipulation. Using PostScript for image and typesetting development. Integration of C programming with Python. May be repeated up to 3 credits.

Prerequisite(s): ICT 362 and ICT 462.

ICT 477. Computer Networking II**3 Credits**

Advanced concepts in computer network design and applications including managing the campus networks, virtual LANs (VLAN), network security, wireless networks, and LAN to WAN to internet.

Prerequisite(s): ICT 377 or E T 377.

INMT - INDUSTRIAL MAINTENANCE (INMT)

INMT 133. Process Technology and Systems**4 Credits**

Provides instruction in the use of common process equipment. Students will use appropriate terminology and identify process equipment components such as piping and tubing, valves, pumps, compressors, turbines, motors, engines, heat exchangers, heaters, furnaces, boilers, filters dryers and other miscellaneous vessels. Included are the basic functions, scientific principles and symbols. Students will identify components on typical Process Flow Diagrams and Process and Instrument Diagrams. Restricted to Carlsbad campus only.

INMT 134. Maintenance Principles**4 Credits**

The course is an introduction to the maintenance of equipment utilizing mechanical, electrical and instrumentation concepts. Topics include: hand tools, bearing fundamentals, equipment lubrication, material handling, electrical safety, battery systems, diagrams, electrical production and distribution, transformers, breakers, switches, AC and DC motors, motor controllers and operations, and introduction to automation and instrumentation control. Restricted to Carlsbad campus only.

INMT 165. Equipment Processes**4 Credits**

This course introduces power transmission equipment and machinery components, including belt/chain driven equipment, speed reducers, variable speed drives, couplings, clutches, and conveying equipment. Students will learn the operation, maintenance, and troubleshooting for these types of equipment. The course also includes Overhead Crane Certification and Safety. Restricted to Carlsbad campus only.

INMT 205. Programmable Logic Controllers and Applications**4 Credits**

Students learn about programmable logic controllers; architecture; programming, interfacing, and applications. Hands-on experience on modern commercial PLC units is the main component. Restricted to Carlsbad campus only.

Prerequisite(s): Computer Literacy (CS 110).

INMT 223. Electrical Repairs**4 Credits**

This course outlines for students the types of problems that occur in electrical machinery and systems. The course covers trouble-shooting and diagnosis, preventative maintenance, and how to make necessary repairs. Restricted to Carlsbad campus only.

INMT 235. Mechanical Drives I**4 Credits**

This course teaches the fundamentals of mechanical transmission systems used in industrial, agricultural, and mobile applications. Students will learn industrial relevant skills including how to: operate, install and analyze performance, and design basic transmission systems using chains, feed-belts, spur gears, bearings, and couplings. Vibration analysis will be used to determine when to perform maintenance of power transmission components. The course also covers power transmission safety, and introduction to belt and chain drives (applications, installations, and tensioning), and introduction to gear drives, coupling, and bearing, basic troubleshooting, blueprint and print reading, learning the basics of electrical drives and PDM and PM. Restricted to Carlsbad campus only.

INMT 236. Lubrication Process**3 Credits**

This course teaches the technical skills needed to operate, install, tune, maintain and troubleshoot automatic lubrication systems. Lubrication concepts, setup and tuning, pneumatic pumps, series-progressive valve systems and microprocessor based lubrication controllers will be covered. The course covers the principles of and importance of lubrication, oils and grease types and applications, lube management (storage, handling, and purity), and PDM and PM. Restricted to Carlsbad campus only.

INMT 237. Hydraulics I**2 Credits**

This course teaches fundamentals of hydraulic systems used in industry mobile application. Students learn the basic theory of application of hydraulic and electricity as it applies to hydraulics. Covered in the course are basic systems, principles of flow, pressure, viscosity, filtration, and colling. Also covered are basic components such as motor, pumps, cylinders, piping and control and relief valves. Troubleshooting strategies are discussed, along with blueprint and print reading, and PDM and PM. Industry, relevant skills including how to operate, install, analyze performance, and design basic hydraulic systems, reviewing intermediate hydraulic components and system applications. Restricted to Carlsbad campus only.

INMT 261. Pump Operations I**4 Credits**

This course teaches how to select, operate, install, maintain and repair the many types of pumps used by industry. Students learn the theory and practical application of all types of processed pumps and pipe systems. It covers types, components, and systems operation. It also covers troubleshooting for flow loss and cavitation. Students learn how to select, operate, install, maintain and repair the many types of pumps used by industry. Other topics covered include: Net Positive Suction Head, pump flow/head measurement, pressure head conversion, pressure flow characteristics, cavitation, series/parallel pump operation, mechanical seal/stuffing box maintenance, multi stage operation and construction, positive displacement pumps, turbine, diaphragm, peristaltic, piston, gear, and magnetic pump systems. Restricted to Carlsbad campus only.

INMT 262. Piping Systems**2 Credits**

This course teaches students how to install, maintain and troubleshoot fluid systems such as how to select, size, identify, install a variety of types of piping, fittings, and valves. Measurement techniques from basic to precision measurement, gauging, including the fundamentals of demonsioning and tolerancing will taught. Restricted to Carlsbad campus only.

INMT 263. Mechanical Drives II**4 Credits**

This course teaches the bearings and gears used in heavy duty mechanical transmission systems. This course will emphasize linear access drives, clutches, and brakes. In addition, this course teaches how to set up, operate and apply laser shaft alignment to a variety of industrial applications. This course is a study of the basic concepts and procedures for the maintenance and operations of pumps, turbines, seals, bearings, and compressors. The course will provide the student with the knowledge and skills necessary to perform proper maintenance, repair, replacement and selection of pumps, turbines, seals, bearings and compressors. Also covered are advanced gearbox, coupling and bearings, precision alignment (shaft, flange, and sheave), as well as basic vibration analysis and thermography as troubleshooting and RCA aids. Restricted to Carlsbad campus only.

INMT 264. Rigging**2 Credits**

This course teaches how to safely move loads of different shapes and sizes using a variety of different methods. Students will lift loads and demonstrate how to move it. Students will use hoists, slings, ropes and fittings to learn how to safely lift a wide variety of loads. Included are weight estimation, lifting rules, load ratings (sling, wire, ropes and hoists). Restricted to Carlsbad campus only.

INMT 265. Hydraulics II**2 Credits**

This course teaches advanced hydraulics systems. The student will learn operation of advanced hydraulic systems applications, equipment installation, performance analysis of motors and pumps, accumulators, control, relief and check valve, equipment maintenance, and system design. The course covers accumulators, sequence valves, pilot circuits and unloader valves. Students learn more troubleshooting, hydraulic drives and other applications. Restricted to Carlsbad campus only.

INMT 267. Pump Operations II**2 Credits**

This course teaches the student the disassembly, inspection and reassembly of centrifugal and positive displacement pumps. This course allows the student to identify and replace worn or broken components of pumps, and learn predictive and preventive maintenance principles. Lockout of the pump will be performed in addition to measurements and alignment. Restricted to Carlsbad campus only.

INTEGRATED NATURAL SCIENCES (NSC)

NSC 131. General Sciences**3 Credits (2+2P)**

Designed for Allied Health students to explore the fundamentals of physical and life sciences.

JOUR-JOURNALISM (JOUR)

JOUR 102. Grammar for Journalists**2 Credits**

Instruction of basic grammar, spelling and punctuation. Required for all journalism students with an ACT English score below 25, SAT Verbal below 570, or students who have not taken ACT/SAT tests. Restricted to Las Cruces campus only.

JOUR 105G. Media and Society**3 Credits**

Functions and organization of the mass media system in the United States; power of the mass media to affect knowledge, opinions, and social values; and the impact of new technologies.

JOUR 110. Introduction to Mass Media Writing**3 Credits (2+2P)**

Preparation of copy for broadcasting, print, advertising, and public relations. Introduction to Web applications. Restricted to Las Cruces campus only.

Prerequisite(s): JOUR 102 or ACT score of 25 and above or SAT score of 570 and above.

JOUR 201. Introduction to Multimedia**3 Credits**

Provide students with the basic skills to produce multimedia packages using text, photos, audio and video, as well as social media for professional purposes. Intensive hands-on class using editing software such as Adobe Premiere, Adobe Audition and Photoshop. May be repeated up to 3 credits.

Prerequisite(s): JOUR 110 or Consent.

JOUR 210. Newswriting for Print and Internet**3 Credits (2+2P)**

Intensive laboratory practice in writing news for print media as well as Internet news sites. Restricted to Las Cruces campus only.

Prerequisite(s): JOUR 102 or ACT score of 25 and above or SAT score of 570 and above and JOUR 110.

JOUR 300. Introduction to Advertising**3 Credits**

Role of IMC (integrated marketing communications) in marketing of goods, services, and organizations. Creative process, strategic planning media, message design, consumer behavior, and social issues of IMC.

JOUR 302. Video Production**3 Credits**

Classroom instruction on basic studio and single camera video productions, with focus on practical aspects of news production. Lab experience in camera basics, studio functions and digital video editing. Includes practical experience through crew assignments on the live student-produced newscast, News22, which airs on KRWG-TV, a PBS affiliate station. May be repeated up to 3 credits.

JOUR 306. Feature Writing for magazines and Newspapers**3 Credits**

The preparation of feature stories for newspapers and magazines. How to develop a variety of stories, research topics, interview sources, polish writing and market work. May be repeated for a maximum of 6 credits.

Prerequisite(s): JOUR 210 or consent of instructor.

JOUR 310. Intermediate Print Reporting**3 Credits**

News writing and field reporting for print and Web applications. Instruction in community coverage, reporter responsibility, ethics and news values.

Prerequisite(s): JOUR 210.

JOUR 312. Advertising/Copywriting**3 Credits**

Creative process, strategic thinking, and principles of advertising in execution of copy, storyboards, and layouts for clients.

Prerequisite(s): JOUR 110 or consent.

JOUR 314. Broadcast Reporting**3 Credits**

Writing, editing, producing, announcing and reporting of TV and radio news. May be repeated up to 3 credits.

Prerequisite(s): JOUR 210 or Consent of Instructor.

JOUR 315. News 22**1-3 Credits (1-3)**

Write, report, produce, anchor, shoot and edit video for live student television newscast airing on KRWG, public television for Southern New Mexico sports, weather, and news.

Prerequisite(s): JOUR 314 or JOUR 330 or instructor consent.

JOUR 317. News Editing**3 Credits**

Extensive, directed practice in various aspects of computer editing for printed publication. Headline writing, copy editing, design, and layout.

Prerequisite(s): JOUR 210.

JOUR 319. Intro Photography**3 Credits**

Introduction to photography emphasizing composition, basic camera technique, language of photography and storytelling. Photojournalism emphasis. Basic camera and processing techniques and skills. May be repeated up to 3 credits.

JOUR 320. Photojournalism**3 Credits**

Communication photography for magazine, news, advertising/public relations and other communication needs. Digital Photography, lighting techniques, photo-editing software, and web site skills. Students provide camera and flash. May be repeated up to 3 credits.

Prerequisite(s): JOUR 319 or Consent of instructor.

JOUR 321. Media Graphic Design**3 Credits**

Concepts and design skills useful for all aspects of journalism - print media and newsletters, basics of Photoshop and introduction to Web design. May be repeated up to 3 credits.

JOUR 330. Electronic News Gathering**3 Credits (2+4P)**

Overview of technical and aesthetic skills and journalism basics needed for shooting and editing on-location news productions. Single camera videography and nonlinear/digital editing.

Prerequisite(s): JOUR 302 or permission of instructor.

JOUR 350. History of Mass Media**3 Credits**

Historical overview of mass media with emphasis on roots of journalism, technological developments, and American role in international media.

JOUR 374. Principles of Public Relations**3 Credits**

Introduction to public relations as a communication process that builds relationships between organizations and their publics. Explores basic techniques, strategies, and tactics used in businesses, nonprofits, and in government.

Prerequisite(s): JOUR 110.

JOUR 377V. Mass Media Ethics**3 Credits**

Philosophical and moral examination of problems relating to mass media. Use of case study method to analyze media situations; development of framework for media professionalism.

JOUR 380. Women and the Mass Media**3 Credits**

Portrayal and participation of women in mass media from colonial to contemporary times. Same as W S 450.

JOUR 399. New Mexico Law**3 Credits**

Same as C J 399, GOVT 399, HIST 399, and SOC 399.

JOUR 407. Media Internship**3 Credits**

Paid supervised work with a mass communications organization. Students who take JOUR 407 may not take JOUR 408.

Prerequisite: consent of internship coordinator.

JOUR 408. Media Practicum**1-3 Credits**

Unpaid supervised work with a mass communications organization. May be repeated for a maximum of 3 credits.

Prerequisite: consent of internship coordinator.

JOUR 412. Documentary Photojournalism**3 Credits**

Production of documentary photography for web, print, books and exhibition emphasizing storytelling techniques. Multimedia and Web site techniques. Field Trips to produce material for the Small Village New Mexico project (SVNM). Produce Term projectbook. May be repeated up to 3 credits.

Prerequisite(s): JOUR 319.

JOUR 414. RTV Scriptwriting/Performance**3 Credits**

Writing and delivery of news scripts for radio and television. Focus on anchoring announcing, voice technique and performance.

Prerequisite(s): JOUR 314 or consent of instructor.

JOUR 423. Advanced Digital Reporting**3 Credits**

Advanced in-depth news reporting techniques utilizing multimedia and reliable sources. Internet publishing of professional quality journalism. Preparation of professional resumes and news clippings. May be repeated up to 3 credits.

Prerequisite(s): JOUR 310 or 306 or consent of instructor.

JOUR 425. Media Planning and Buying**3 Credits**

Covers the principles of media planning for an IMC campaign and procedures for purchasing ad time or space.

Prerequisite(s): JOUR 300 or consent of instructor.

JOUR 427. Multimedia Publishing**3 Credits**

Writing-based course stresses the online telling of a story in many ways: text, photography, slide shows, audio and video news gathering, editing and posting.

Prerequisite(s): JOUR 201.

JOUR 460. Public Relations Promotion in Sports**3 Credits**

Examination of sports as a business and how public relations promotion is executed in professional sports franchises.

JOUR 476. Public Relations Campaigns**3 Credits**

Utilizing the principles and techniques of public relations to research and develop a comprehensive plan for a long-term national, regional, or local campaign. May be repeated up to 3 credits. Restricted to: Restricted to Journalism majors.

Prerequisite(s): JOUR 210, JOUR 374.

JOUR 484. Public Opinion**3 Credits**

Seminar on forces which help form public opinion; individual projects in attitude measurement; measuring effectiveness of mass communication.

JOUR 489. Mass Media Research**3 Credits**

Examination of the role of empirical research in solving mass communication problems. Survey techniques, field studies, content analysis, data analysis.

JOUR 490. Advertising Campaigns**3 Credits**

Capstone course utilizing all previous instruction to create and develop plans for a long-term national or local IMC (Integrated Marketing Communications) campaign. Consent of instructor required.

Prerequisite(s): JOUR 300 and 312 or consent of instructor.

JOUR 493. Mass Communications Law**3 Credits**

Examination of legal issues relating to mass media in the United States. Invasion of privacy, libel, sedition, copyright, and advertising regulation. Same as COMM 493, GOVT 493.

JOUR 494. Special Topics**3 Credits**

Specific subjects to be announced in the Schedule of Classes.

JOUR 495. Mass Communication Theory**3 Credits**

Theoretical approaches to mass communications. Examination of media effects, audiences, media socialization.

JOUR 499. Independent Study in Mass Communications**1-3 Credits**

Individual study directed by consenting instructor with prior approval of department head. May be repeated for a maximum of 6 credits.

Prerequisites: 2.5 GPA and consent of instructor.

JPNS-JAPANESE (JPNS)

JPNS 111. Elementary Japanese I**4 Credits**

Japanese language for beginners.

JPNS 112. Elementary Japanese II**4 Credits**

Japanese language for beginners.

Prerequisite: grade of C or better in JPNS 111 or consent of instructor.

JPNS 211. Intermediate Japanese I**3 Credits**

Speaking, reading and writing the Japanese language.

Prerequisite: grade of C or better in JPNS 112 or consent of instructor.

JPNS 212. Intermediate Japanese II**3 Credits**

Speaking, reading and writing the Japanese language.

Prerequisite: grade of C or better in JPNS 211 or consent of instructor.

JPNS 320. Oral Practicum in Japanese**1-3 Credits**

Service training for facilitators leading informal conversation groups in Japanese. May be repeated for a maximum of 4 credits.

Prerequisites: fluency in Japanese and consent of instructor.

JPNS 453. Independent Studies in Japanese**1-3 Credits (1-3)**

Individualized, self-paced projects for advanced students.

L SC-LIBRARY SCIENCE (L SC)

L SC 100. Introduction to Libraries**3 Credits**

Overview of libraries, including history and development, responsibilities of library personnel, types of libraries and services, and technology and trends. Restricted to Dona Ana campus only.

L SC 110. Reference and Information Resources I**3 Credits**

Overview of reference services. Introduction to, and evaluation of, basic types of information resources (both print and electronic) and their application in libraries.

L SC 111. Introduction to Information Literacy in an Electronic Environment**3 Credits**

Introduction to the basics of the research process; the organization, location and evaluation of information using print, non-print and electronic resources. Restricted to: Community Colleges only.

L SC 112. Introduction to Consumer Health Information Literacy in an Electronic Environment**3 Credits**

Introduction to consumer health information literacy; the process and organization, location, and evaluation of online information. Restricted to: Community Colleges only.

L SC 120. Cataloging Basics I: Descriptive Cataloging**3 Credits**

Introduction to descriptive cataloging. Restricted to: Dona Ana campus only.

L SC 125. Cataloging Basics II: Classification and MARC Cataloging**3 Credits**

Continuation of descriptive cataloging basics. Introduction to subject analysis, classification and MARC coding. Restricted to: Dona Ana campus only.

L SC 130. Introduction to Technical Services in Libraries**3 Credits**

Introduction to technical services in libraries, including acquisitions, bindery, cataloging, gifts, and serials. Restricted to Dona Ana campus only.

L SC 140. Multimedia Materials and Presentations in Libraries**3 Credits**

Overview of media formats and equipment. Introduction to desktop publishing, presentations, and web-page creation applications in libraries. Restricted to: Community Colleges only.

L SC 150. Library Services for Children and Young Adults**3 Credits**

Library services for children and young adults with an overview of materials, programs, and services for this population. Restricted to: Dona Ana campus only.

L SC 153. Picture Books and Young Children**1 Credit**

If children are to enjoy reading they need to be exposed to books at an early age. This course will provide information to help guide librarians, preschool teachers, parents, and care givers in choosing appropriate books for those younger than six, and how to use books with this age group. Restricted to Dona Ana campus only.

L SC 154. State Children's Book Awards**1 Credit**

Students will explore the state book award offered by their state. Students will read some of the books and plan library programs to promote the award. Restricted to: Dona Ana campus only.

L SC 155. Award Winning Books for Children**1 Credit**

A review of book awards and how to integrate award winning books into school curriculum or public school programming. Restricted to: Community Colleges only.

L SC 156. Boys and Books**1 Credit**

This course looks at why, in general, boys are less interested in books than girls. Students will discover ways libraries can encourage boys to read and develop activities and programs which entice them to do so. Students will also be reading some books recommended for boy readers. Restricted to Dona Ana campus only.

L SC 160. Introduction to Public Services in Libraries**3 Credits**

Introduction to public services in libraries, including circulation, inter-library loan, reference, media services, special collections, and government documents. Restricted to Dona Ana campus only.

L SC 175. Civic Involvement in Library Science**1-3 Credits**

Involvement in an organized community service project or group with a library or information technology component. Promotes awareness of volunteer and community service opportunities. May be repeated for a maximum of 6 credits. Graded: S/U. Restricted to: Dona Ana campus only.

L SC 191. Children's Books and their Movie Adaptations**1 Credit**

For almost as long as there have been popular books for children in the United States, there have been dramatic adaptations of them. What is gained, and lost, when children's books are adapted for the big screen? What is the relationship-or what should the connection be-between works of children's literature and their seemingly inevitable film adaptations? Students will be expected to read several children's books and view the movies based on them and make comparisons. Restricted to: Community Colleges only.

L SC 192. Myths and Legends in Children's Literature**1 Credit**

The student will explore myths and legends from diverse cultures; from European and Asian to those who have their roots in Africa and the Americas. Myths which are similar across several cultures will be compared.

L SC 193. Poetry for Children**1 Credit**

This course will explore the genre of poetry for children. In this class, participants will focus on reading and reviewing poetry for kids, exploring poetry on the Web, and trying interactive approaches for sharing poetry with children. Topics include: study and analysis of poetry, ways to use poetry in the classroom, writing poetry with children. Restricted to: Community Colleges only.

L SC 194. The Art of Picture Books**1 Credit**

Students will develop an understanding and appreciation of the processes of the creation of the visual aspects of children's books, including the development process from preliminary sketches and/or storyboard to the published book; various media and techniques; case studies of individual artists and works. Restricted to: Community Colleges only.

L SC 195. Mysteries for Children**1 Credit**

In this course the student will become familiar with a wide variety of mysteries for children. Ways to use mysteries in the classroom and school library will also be covered. Restricted to Community Colleges campuses only.

L SC 196. Historical Fiction for Children**1 Credit**

This course looks at historical fiction as a genre. Topics include: fiction vs. history, American history in children's literature, world history in children's literature, activities for using historical fiction in a school setting. Restricted to: Community Colleges only.

L SC 197. Fantasy and Speculative Fiction**1 Credit**

This course offers professionals serving school students the opportunity to increase your appreciation and knowledge of fantasy and speculative fiction through intense reading and discussion of representative works. The course will also investigate and consider options using fantasy and speculative fiction in a school setting. Restricted to: Community Colleges only.

L SC 200. Collection Management and Development in Libraries**3 Credits**

Principles of identifying, selecting, acquiring, managing, and evaluating resources for libraries. Restricted to Dona Ana campus only.

L SC 201. Public Libraries**3 Credits**

A study of the American public library and its place in communities. Topics may include history, philosophy, and standards, operations and procedures, governance, funding, personnel materials, user services, outreach and advocacy. Restricted to: Dona Ana campus only.

L SC 202. Academic Libraries**3 Credits**

An examination of the functions of the library within the higher education environment. Topics may include history, philosophy, and organization, operations and procedures, governance, funding, personnel, materials, outreach, and user services. Restricted to: Dona Ana campus only.

L SC 203. School Library Media Specialist**3 Credits**

Principles and practice of managing the school library media center, with an emphasis on its specific educational mission. Topics may include collection development, classes and lesson plans, public relations, administrative procedures, and use of technology. Restricted to Dona Ana campus only.

L SC 210. Technology Planning in Libraries**3 Credits**

Overview of computer applications in libraries. Topics may include automated systems and electronic resources, introduction to evaluation of technology, and writing a technology plan. Restricted to Dona Ana campus only.

L SC 220. Innovative Technology Applications for Libraries**3 Credits**

A look at uses for innovative technologies in libraries. Topics may include blogs, wikis, podcasting and virtual reality libraries. Restricted to Dona Ana campus only.

L SC 221. Experiential Learning I**1-3 Credits**

Student is employed (paid or non-paid) in an approved work site and evaluated by their supervisor. Each credit requires a specified number of hours of on-the-job work experience. Consent of Instructor required. S/U Grading (S/U, Audit). Restricted to Dona Ana campus only.

Prerequisite(s): Consent of instructor.

L SC 222. Experiential Learning II**1-3 Credits**

Continuation of L SC 221. Each credit requires specified number of hours of on-the-job work experience. Consent of Instructor required. S/U Grading (S/U, Audit). Restricted to Dona Ana campus only.

Prerequisite(s): L SC 221 and consent of instructor.

L SC 230. Issues and Ethics in Libraries**3 Credits**

Discussions of current and continuing challenges to effective library service. Topics may include copyright, censorship, intellectual freedom, Internet filtering, problem patrons, security, or other current issues. Restricted to Dona Ana campus only.

L SC 234. Intellectual Freedom in Libraries**1 Credit**

Philosophical and practical information related to library policies about access to library materials. Restricted to: Dona Ana campus only.

L SC 235. Library Security and Safety**1 Credit**

Strategies for safety and security planning in libraries. Restricted to: Dona Ana campus only.

L SC 236. Banned Books**1 Credit**

Banned books, selection policies, and responding to challenges. Restricted to: Dona Ana campus only.

L SC 240. Internet Resources and Research Strategies**3 Credits**

Introduction to retrieving and evaluating information found on the Internet and in selected Internet-accessible databases. Restricted to: Dona Ana campus only.

L SC 250. Reference and Information Resources II**3 Credits**

Evaluation and use of specialized information resources to offer reference services. Emphasis is on virtual reference and other innovative techniques. Restricted to: Dona Ana campus only.

L SC 255. Special Topics**1-3 Credits**

Special topics to be announced in Schedule of Classes. May be repeated for a maximum of 12 credits. Restricted to: Dona Ana campus only.

L SC 260. Cataloging Non-Book Formats**3 Credits**

Introduction to cataloging of various non-book formats and MARC coding. Restricted to: Dona Ana campus only.

L SC 270. Library Science Capstone**3 Credits**

A culmination of all technical courses that are required to receive an Associate of Applied Science from the program centering around the completion of a library related project. Discussions on the role of paraprofessionals in libraries. Restricted to: Dona Ana campus only.

L SC 275. Fundamentals of Library Supervision**3 Credits**

An introduction to supervision of library employees, including student assistants, to create a productive workplace. Restricted to: Dona Ana campus only.

L SC 281. Grant Writing for Libraries**1 Credit**

Introduction to grant writing for libraries. Restricted to: Dona Ana campus only.

L SC 286. Children's Literature and the Primary Curriculum**3 Credits**

The student will research the use of picture books and other children's literature across the curriculum with students in kindergarten through second grade. Topics include: using literature to teach writing, using literature to teach science, using literature to teach math, using literature to teach social studies. Restricted to: Community Colleges only.

L SC 287. Children's Literature and the Intermediate Curriculum**3 Credits**

The student will research the use of picture books and other children's literature across the curriculum with students in grades three through five. Topics include: using literature to teach writing, using literature to teach science, using literature to teach math, using literature to teach social studies. Restricted to: Community Colleges only.

L SC 288. Children's Literature and the Middle School Curriculum**3 Credits**

The student will research the use of picture books and other children's literature across the curriculum in grades six through eight. Topics include: using literature to teach writing, using literature to teach science, using literature to teach math, using literature to teach social studies. Restricted to: Community Colleges only.

L SC 290. Introduction to Children's Literature for Libraries**3 Credits**

This course will introduce current and potential library personnel to a wide variety of literature written for children. The course explores the history of children's literature and the path it has taken. Students will read many books from a variety of genre, explore the literary elements found in those books, and develop some evaluation criteria and ways for children to respond to the literature they read. Restricted to Dona Ana campus only.

L SC 291. Southwestern Children's Literature**1 Credit**

This course will introduce students to books which can teach the children visiting your library more about the people and places of the southwest. Restricted to: Dona Ana campus only.

L SC 292. Native American Children's Literature**1 Credit**

This course will introduce students to some children's and young adult books written by and about Native Americans. Restricted to: Dona Ana campus only.

L SC 295. Introduction to Young Adult Literature**3 Credits**

The course will expose students to quality adolescent literature available for reading and study in middle and high school classes. It provides a broad survey of young adult literature and focuses on building an appreciation of literature, encouraging student reading, developing life-long readers, and developing activities for critical thinking. Restricted to: Community Colleges only.

L SC 296. Multicultural Books for Children and Youth**3 Credits**

This course explores a wide range of multicultural children's literature including: African American, Native American, Latino, Asian, Jewish, and Middle Eastern. Topics covered include: nonfiction of the cultures, historical fiction of the cultures, and contemporary literature of the cultures. Restricted to: Community Colleges only.

L SC 298. Independent Study**1-3 Credits**

Individual studies directed by consenting faculty with prior approval of department chair. May be repeated for a maximum of 12 credits. Restricted to: Dona Ana campus only.

LANG-LANGUAGE (LANG)

LANG 111. Beginning Language I**4 Credits**

Developing language skills through study abroad for languages not offered at NMSU main campus. Specific languages to be identified with course subtitles. Main campus only.

Prerequisite: Language placement exam or consent of the instructor.

LANG 112. Beginning Language II**4 Credits**

Developing language skills through study abroad for languages not offered at NMSU main campus. Specific languages to be identified with course subtitles. Main campus only.

Prerequisite: Language placement exam or consent of instructor.

LANG 211. Intermediate Language I**3 Credits**

Developing language skills through study abroad for languages not offered at NMSU main campus. Specific languages to be identified with course subtitles.

LANG 212. Intermediate Language II**3 Credits**

Developing language skills through study abroad for languages not offered at NMSU main campus. Specific languages to be identified with course subtitles.

Prerequisite: Language placement exam or consent of instructor.

LANG 451. Special Topics**1-3 Credits**

Selected topics relating to cultures or literatures of a specific country. Credit can be applied only towards fulfilling second language requirement. Credit is not accepted towards any graduate level major or minor. May be repeated for a maximum of 12 credits. Consent of instructor required.

LANG 453. Independent Studies**1-3 Credits**

Individualized, self-paced projects for advanced students. May be repeated under different subtitles for a maximum of 6 credits.

Prerequisite(s): consent of instructor.

LATIN (LAT)

LAT 112. Elementary Latin II**4 Credits**

Latin for beginners. Restricted to: Main campus only.

Prerequisite(s): C or better in LAT 111.

LAWE-LAW ENFORCEMENT (LAWE)

LAWE 201. Introduction to Juvenile Delinquency**3 Credits**

An introductory overview of the juvenile justice system of due process, custody, detention and release. Note: course does not meet upper division requirements towards completion of Bachelor of Science in Criminal Justice. Restricted to: Community Colleges Only.

LAWE 202. Police Patrol Procedures**3 Credits**

A critical review of police procedures and the influences on police behavior; policy development, including the police role; discretion; police community interaction and arrest, search and seizure. Restricted to: Community Colleges only.

LAWE 203. Introduction to Police Supervision**3 Credits**

An introductory overview of police supervision and concerns as it applies to law enforcement. (Note: Course does not meet upper division requirements toward completion of Bachelor of Science in Criminal Justice.) Restricted to: Community Colleges only.

LAWE 204. Introduction to Homeland Security**3 Credits**

A historical perspective of international and domestic terrorist threats and the need to develop cohesive response policies and practices in the interest of National Security. [Course does not meet requirements towards completion of Bachelor of Science in Criminal Justice.] Restricted to: Community Colleges only.

Prerequisite(s): C J 101.

LAWE 205. Practical Field Investigations**4 Credits (3+3P)**

Incorporates the current methods and techniques for the management of the crime scene, includes documentation, collection and preservation of evidence and case presentations. [Course does not meet requirements towards completion of Bachelor of Science in Criminal Justice.]

Restricted to Community Colleges campuses only.

Prerequisite(s): C J 101 and C J 221.

LAWE 206. Traffic Enforcement and Crash Investigations**3 Credits**

History and development of traffic laws and regulations, including basic elements of traffic violations, detection, apprehension, impaired drivers and guidelines and procedures for effective crash investigations and reporting. Restricted to: Community Colleges only.

LAWE 207. Legal Aspects of Law Enforcement**3 Credits**

An evaluation of police authority including responsibilities, civil liability, liability implications, legal obligations, legal restraints, laws of arrest, and search and seizure. Restricted to: Community Colleges only.

LAWE 210. Introduction to Law Enforcement**3 Credits**

An introduction to Criminal Justice System in our democratic society with emphasis on Law Enforcement, Criminal Justice Administration and application. (This is a Law Enforcement Academy Certification Course.) Consent of instructor required. Restricted to: Dona Ana campus only. Restricted to LAWE majors.

Corequisite(s): LAWE 211, 212, 213, 214, 215, 216, 217, 218, 219, 222 & OEEM 155.

LAWE 211. Policing in America**3 Credits**

The study of Law Enforcement concepts in an American society with emphasis on law and order at the federal, state and local agencies. (This is a Law Enforcement Academy Certification course.) Consent of instructor required. Restricted to: Dona Ana campus only. Restricted to LAWE majors.

Corequisite(s): LAWE 210, 212, 213, 214, 215, 216, 217, 218, 219, 222 & OEEM 155.

LAWE 212. Patrol Procedures**3 Credits**

Basic patrol concepts with emphasis on police patrol activities including the practices and procedures necessary to perform the patrol functions and report writing. (This is a Law Enforcement Academy Certification course.) Consent of instructor required. Restricted to: Dona Ana campus only. Restricted to LAWE majors.

Corequisite(s): LAWE 210, 211, 213, 214, 215, 216, 217, 218, 219, 222 & OEEM 155.

LAWE 213. Criminal Investigations**3 Credits**

Fundamentals of criminal investigations including scene security, evidence collection, traffic accidents, case preparation and report writing. (This is a Law Enforcement Academy Certification course.) Consent of instructor required. Restricted to: Dona Ana campus only. Restricted to LAWE majors.

Corequisite(s): LAWE 210, 211, 212, 214, 215, 216, 217, 218, 219, 222 & OEEM 155.

LAWE 214. Criminal Law & Court Procedures**3 Credits**

Concepts on the rule of law, substantive and procedural law including liability, crimes against persons and property. (This is a Law Enforcement Academy Certification course.) Consent of instructor required. Restricted to: Dona Ana campus only. Restricted to LAWE majors.

Corequisite(s): LAWE 210, 211, 212, 213, 215, 216, 217, 218, 219, 222 & OEEM 155.

LAWE 215. Emergency Vehicle Operations**1 Credit**

Instruction on operating a patrol vehicle, procedures for emergency driving including legal issues related to emergency vehicle operations. (This is a Law Enforcement Academy Certification course.) Consent of instructor required. Restricted to: Dona Ana campus only. Restricted to LAWE majors.

Corequisite(s): LAWE 210, 211, 212, 213, 214, 216, 217, 218, 219, 222 & OEEM 155.

LAWE 216. Traffic Law and Procedures**3 Credits (2+3P)**

Instruction on law of motor vehicles including traffic enforcement operations and law enforcement officer's role in report writing, hazardous materials incidents and accident investigations. (This is a Law Enforcement Academy Certification course.) Consent of instructor required. Restricted to: Dona Ana campus only. Restricted to LAWE majors.

Corequisite(s): LAWE 210, 211, 212, 213, 214, 215, 217, 218, 219, 222 & OEEM 155.

LAWE 217. Custody and Defensive Tactics**3 Credits**

Instruction on the mechanics of arrest, custodial procedures, use of force, transporting prisoners and defensive tactics for officer protection. (This is a Law Enforcement Certification course.) Consent of instructor required. Restricted to: Dona Ana campus only. Restricted to LAWE majors.

Corequisite(s): LAWE 210, 211, 212, 213, 214, 215, 216, 218, 219, 222 & OEEM 155.

LAWE 218. Basic Firearms**3 Credits (1+6P)**

Familiarization on the operation and maintenance of firearms, safety, use of deadly force, body armor and marksmanship. (This is a Law Enforcement Academy Certification course.) Consent of instructor required. Restricted to: Dona Ana campus only. Restricted to LAWE majors.

Corequisite(s): LAWE 210, 211, 212, 213, 214, 215, 216, 217, 219, 222 & OEEM 155.

LAWE 219. Law Enforcement Report Writing**4 Credits**

Covers police, corrections, security and pre-sentence reports, including writing and use of forms. (This is a Law Enforcement Academy Certification course.) Consent of instructor required. Restricted to: Dona Ana campus only. Restricted to LAWE majors.

Corequisite(s): LAWE 210, 211, 212, 213, 214, 215, 216, 217, 218, 222 & OEEM 155.

LAWE 221. Law Enforcement Internship**3 Credits**

Application of knowledge, skills and abilities, in an agency as an intern and integrated member of a law enforcement affiliated agency.

Prerequisite: consent of instructor.

LAWE 222. Law Enforcement Physical Fitness**2 Credits**

Instruction on health and physical fitness concepts, flexibility, strength, body composition and cardiovascular endurance. (This is a Law Enforcement Academy Certification course.) Consent of instructor required. Restricted to: Dona Ana campus only. Restricted to LAWE majors.

Corequisite(s): LAWE 210, 211, 212, 213, 214, 215, 216, 217, 218, 219 & OEEM 155.

LAWE 233. Practical Approach to Terrorism**3 Credits**

Gives responders an overall safety approach in recognizing and responding to incidents involving terrorism. Presents and overview in types of harm, explosive weapons, chemical weapons, biological weapons and radiological weapons. [Course does not meet requirements towards completion of Bachelor of Science in Criminal Justice.]

Restricted to: Dona Ana campus only. Crosslisted with: FIRE 233

LIB-LIBRARY SCIENCE (LIB)

LIB 101. Introduction to Research**1 Credit**

A practical, hands-on, step-by-step introduction to the basics of university-level library research. Topics include the academic method, plagiarism, selection and use of information resources. (Eight-week course.)

LIB 111. Introduction to Information Literacy in an Electronic**Environment****3 Credits**

Introduction to the basics of the research process; the organization, location and evaluation of information using print, non-print and electronic resources; and techniques of effective personal information management in a computerized setting. Uses a combination of active and hands-on learning methods as well as lectures.

LIB 307. History of the Book: From Scroll to Scrolling**3 Credits**

Describes the production and distribution of written works from papyrus scrolls through codex manuscripts and printed books to digital texts. Looks at how technology has influenced the transmission and presentation of texts and the way these factors affect how people perceive the texts. Studies the physical evidence books provide about their own histories.

LIB 311V. Information Literacy**3 Credits**

Lecture, hands-on assignments, and written research projects to give students the technological skills and critical thinking abilities needed to use the printed and electronic information resources found on the Information Highway. Includes how to locate, critically evaluate, and apply information for academic, professional, and personal purposes.

Prerequisite: ENGL 111G or equivalent; and consent of instructor.

LING-LINGUISTICS (LING)

LING 200G. Introduction to Language**3 Credits**

Traditional fields of language study (sound, grammar, meaning) and newer ones (language as social behavior, language and cognition, language variation, animal communication).

LING 301. Introduction to Psycholinguistics**3 Credits**

Same as PSY 301.

LING 302V. Language and Society**3 Credits**

Study of how social identity including such factors as ethnicity, age, sex, education, power and socio-economic class is expressed in language systems and how misunderstandings arise between groups. Research skills are emphasized.

LING 303. Exploring Language Systems**3 Credits**

Forms of linguistic semantic, syntactic and phonological organization.

Prerequisite(s): LING 200G.

LING 405. Topics in Linguistics**3 Credits**

Selected linguistics topics subtitled in the Schedule of Classes. May be repeated for a maximum of 6 credits under different subtitles.

Prerequisite: consent of instructor.

LING 425. Language and the Mind: Introduction to Psycholinguistics**3 Credits**

This course is an introduction to psycholinguistics; the study of how humans learn, represent, comprehend and produce language. Throughout this course, we address a variety of questions on the psychology of language most of which are still being answered. These include: What does it mean to know a language? What are the cognitive processes involved in language use? How do we produce and recognize speech? How can we improve texts and make them easier to read? How can we control speech in special situations to avoid errors?

Prerequisite(s): LING 200G or consent of instructor.

LING 451. Independent Studies in Linguistics**1-3 Credits**

Individual or group study of selected topics to be identified by subtitle. May be repeated for a maximum of 6 credits.

Prerequisites: LING 200G and prior arrangement with faculty supervisor.

LING 455. Research in Linguistics**3 Credits**

This course will provide a capstone experience for students who have progressed through the program in linguistics and provide the foundation for further study at the post-graduate level in a linguistics-related field. Students will apply their foundation of knowledge and skills in linguistics through the realization of an individualized, inquiry-based project. Consent of instructor may enroll student only in case of elective credit shortfall with concurrent enrollment.

Prerequisite(s): LING 200G, LING 301, LING 302V, LING 303, plus 9 credit hours of related electives.

LING 500. Introduction to Linguistics**3 Credits**

Survey of the main branches of linguistics: phonology, morphology, syntax, semantics, language acquisition, sociolinguistics, historical linguistics and some of the theoretical issues in the field.

LING 501. Introduction to Psycholinguistics**3 Credits**

Students will be responsible for all requirements of LING 301 and will undertake independent, directed research. Same as PSY 501.

Prerequisite: PSY 201G.

LING 502. Graduate Study in Sociolinguistics**3 Credits**

Study of how social identity including factors such as ethnicity, age, gender education and socio-economic class is expressed in language systems.

Prerequisites: LING 200G or LING 500 recommended.

LING 503. Exploring Language Systems- Grad**3 Credits**

Students will be responsible for all requirements of LING 303 and will undertake independent, directed research.

Prerequisite(s): LING 200 or LING 500.

LING 505. Selected Topics**3 Credits**

Studies, varying from year to year, in linguistics.

M E-MECHANICAL ENGINEERING (M E)

M E 102. Mechanical Engineering Orientation**1 Credit**

Emphasis on tours of M E labs and NMSU facilities that illustrate possible career paths for mechanical engineers. Students are introduced to department faculty, student organizations, and support services at NMSU. Topics include role of good communication skills, using modern technology, team building, and intellectual property. Students are advised in planning balance of their academic program. Restricted to majors.

M E 159. Graphical Communication and Design**2 Credits (1+3P)**

Sketching and orthographic projection. Covers detail and assembly working drawings, dimensioning, tolerance specification, and design projects. Pre/

Corequisite(s): MATH 190G.

M E 201. Supplemental Instruction to Dynamics**1 Credit**

Optional workshop for students in M E 237. The workshop focuses on problem solving skills associated with M E 237. Course does not count toward departmental degree requirements. May be repeated up to 1 credits. Restricted to Las Cruces campus only.

Corequisite(s): M E 237.

M E 202. Supplemental Instruction to Thermodynamics**1 Credit**

Optional workshop for students in ME 240. The workshop focuses on problem solving skills associated with ME240. Course does not count toward departmental degree requirements. Restricted to Las Cruces campus only.

Corequisite(s): M E 240.

M E 210. Electronics and System Engineering**3 Credits (2+3P)**

Introduction to microcontrollers, measurement systems, motion actuators, sensors, electric circuits, and electronic devices and interfacing. Students required to work individually and in teams to design and test simple electromechanical systems. Restricted to Las Cruces campus only.

Prerequisite(s): MATH 192.

M E 222. Introduction to Product Development**3 Credits (2+3P)**

Introduction to modern methods used in the realization of products. Traditional manufacturing processes, such as metal stamping, turning, milling, and casting are reviewed. Modern methods of rapid prototyping and model making are discussed in context of computer-aided design. Techniques for joining metals, plastics, and composites are discussed. Role of quality control is introduced.

Prerequisite: M E 159.

M E 228. Engineering Analysis I**3 Credits**

Introduction to engineering analysis with emphasis on engineering applications. Topics include ordinary differential equations, linear algebra, and vector calculus with focus on analytical methods. Restricted to Las Cruces campus only.

Prerequisite(s): MATH 291.

M E 234. Mechanics-Dynamics**3 Credits**

Kinematics and dynamic behavior of solid bodies utilizing vector methods.

Prerequisite(s)/Corequisite(s): MATH 291G. **Prerequisite(s):** C E 233.

M E 236. Engineering Mechanics I**3 Credits**

Force systems, resultants, equilibrium, distributed forces, area moments, friction, and kinematics of particles. Pre/ Restricted to: Main campus only.

Prerequisite(s): MATH 192G.

Corequisite(s): PHYS 215G.

M E 237. Engineering Mechanics II**3 Credits**

Kinetics of particles, kinematics and kinetics rigid bodies, systems of particles, energy and momentum principles, and kinetics of rigid bodies in three dimensions. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): MATH 291. **Prerequisite(s):** M E 236 or C E 233.

M E 240. Thermodynamics**3 Credits**

First and second laws of thermodynamics, irreversibility and availability, applications to pure substances and ideal gases.

Prerequisite: PHYS 215G.

M E 261. Mechanical Engineering Problem Solving**3 Credits (2+3P)**

Introduction to programming syntax, logic, and structure. Numerical techniques for root finding, solution of linear and nonlinear systems of equations, integration, differentiation, and solution of ordinary differential equations will be covered. Multi function computer algorithms will be developed to solve engineering problems.

Prerequisite(s): MATH 192.

M E 301. Supplemental Instruction to Engineering Analysis II**1 Credit**

Optional workshop for students in ME 328. The workshop focuses on problem solving skills associated with ME328. Course does not count toward departmental degree requirements. May be repeated up to 1 credits.

Corequisite(s): M E 328.

M E 302. Fluids Supplemental Instruction**1 Credit**

Optional workshop for students in ME 338 or AE 339. The workshop focuses on problem solving skills associated with fluid mechanics. Course does not count toward departmental degree requirements.

Corequisite(s): M E 338 or A E 339.

M E 326. Mechanical Design**3 Credits**

Design methodology and practice for mechanical engineers. May be repeated up to 3 credits.

Prerequisite(s): M E 234 or M E 237 and C E 301.

M E 328. Engineering Analysis II**3 Credits**

Advanced engineering analysis with emphasis on engineering applications. Topics include systems of ordinary differential equations, Fourier analysis, partial differential equations, and functions of complex variable with focus on analytical methods. May be repeated up to 3 credits.

Prerequisite(s): M E 228 or MATH 392.

M E 330. Environmental Management Seminar I**1 Credit**

Survey of practical and new developments in hazardous and radioactive waste management provided through a series of guest lectures and reports of ongoing research. Restricted to: Main campus only. Restricted to M E majors. Crosslisted with: C E 330, CH E 330, E E 330, E S 330, I E 330, WERC 330 and E T 330

M E 331. Intermediate Strength of Materials**3 Credits**

Covers stress and strain, theories of failure, curved flexural members, flat plates, pressure vessels, buckling, and composites. May be repeated up to 3 credits.

Prerequisite(s): C E 301 and M E 328 or MATH 392.

M E 332. Vibrations**3 Credits**

Vibration of single and n-degree of freedom systems considering free, forced, and damped motion. Lagrange s equations. Dynamic stability. Controls. Matrix iteration. May be repeated up to 3 credits.

Prerequisite(s): M E 328, M E 234 or M E 237, and M E 261.

M E 333. Intermediate Dynamics**3 Credits**

Three dimensional kinematics and kinetics, orbal motion, Lagrange s equations, dynamic stability, and controls. May be repeated up to 3 credits.

Prerequisite(s): M E 328 and M E 234 or M E 237.

M E 338. Fluid Mechanics**3 Credits**

Properties of fluids. Fluid statics and fluid dynamics. Applications of the conservation equations continuity, energy, and momentum to fluid systems. May be repeated up to 3 credits. Restricted to: M E majors.

Prerequisite(s): M E 234 or M E 237 and M E 228 or MATH 392.

M E 340. Applied Thermodynamics**3 Credits**

Thermodynamic cycles, Maxwell relations, Gibbs and Helmholtz functions, mixtures, psychometrics, chemical reactions, chemical equilibrium.

Prerequisite: M E 240.

M E 341. Heat Transfer**3 Credits**

Fundamentals of conduction, convection, and radiation. Design of heat transfer systems. May be repeated up to 3 credits.

Prerequisite(s): M E 240 and M E 228 or MATH 392.

M E 345. Experimental Methods I**3 Credits (2+3P)**

Emphasis on experimental techniques, basic instrumentation, data acquisition and analysis, and written presentation of results. Includes experiments in dynamics and deformable body mechanics. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): C E 301. **Prerequisite(s):** M E 228 or MATH 392, M E 210, and M E 234 or M E 237.

M E 400. Undergraduate Research**1-3 Credits**

Performed with the direction of a department faculty member. May be repeated for a maximum of 6 credits.

Prerequisite: consent of faculty member.

M E 401. Heating/Air-Conditioning System**3 Credits**

HVAC system design including heating and cooling load calculations, psychometrics, piping, duct layout, and system control. May be repeated up to 3 credits.

Prerequisite(s): M E 340 and M E 341.

M E 405. Special Topics**3 Credits**

Topics of modern interest to be offered by the departmental staff. May be repeated up to 12 credits.

Prerequisite(s): Senior standing.

M E 425. Design of Machine Elements**3 Credits**

Design of machine elements through the application of mechanics. Fatigue and theories of failure. Design projects assigned.

Prerequisite(s): M E 326.

M E 426. Design Project Laboratory I**3 Credits**

Students address a design problem in which innovation and attention to detail are emphasized. Solution of the problem entails applications of mechanics and/or the thermal sciences.

Prerequisite(s)/Corequisite(s): M E 425.

M E 427. Design Project Laboratory II**3 Credits**

Continuation of M E 426.

Prerequisite: M E 426.

M E 445. Experimental Methods II**3 Credits (2+3P)**

Emphasis on experimental techniques, instrumentation and data acquisition in fluid mechanics, heat transfer, and thermodynamics. Laboratory results will be presented in written and verbal formats.

Prerequisite(s): (M E 338 or A E 339), M E 340, M E 341, and M E 345.

M E 449. Mechanical Engineering Senior Seminar**1 Credit**

Senior seminar course covering topics relevant to graduating mechanical engineering seniors (job placement, interviewing techniques, resume preparation).

Prerequisite: senior standing.

M E 452. Introduction to Automation and Control System Design**3 Credits (2+3P)**

Control system design and implementation. Emphasis on practical applications of traditional control algorithms to mechanical engineering applications in thermofluid systems and mechanical systems. Design of feedback analog and digital control systems. Introduction to robots and automation. Lab assignments include programming industrial robotic and automation systems. May be repeated up to 3 credits.

Prerequisite(s): M E 328 and M E 234 or M E 237, or consent of instructor.

M E 456. Experimental Modal Analysis**3 Credits**

Emphasis on hands-on techniques for structural vibration tests for practical applications. Interpretation of experimental results by means of advanced signal processing tools, basic system identification methodology, and reduced-order modeling procedures. May be repeated up to 3 credits.

Prerequisite(s): M E 332, M E 228 or MATH 392, and M E 261, or consent of instructor.

M E 460. Applied Finite Elements**3 Credits**

Introduction to the practical aspects of structural finite element modeling. Course focuses on providing a working knowledge of how to effectively incorporate finite element techniques into the design process. May be repeated up to 3 credits.

Prerequisite(s): M E 425.

M E 481. Alternative and Renewable Energy**3 Credits**

Current and future energy needs of the United States and the world will be considered primarily from the standpoint of renewable energy sources such as solar, wind, ocean, and biomass. Technical, economic, and environmental aspects of each technology will be addressed.

Prerequisite(s): M E 341, and (M E 338 or A E 339).

M E 483. Introduction to Combustion**3 Credits**

Combustion is one of the most fundamental phenomena related to human activities, such as obtaining thermal energies. Fundamental phenomena and physics related to combustion will be discussed, including thermodynamics, chemical reactions; combustion kinetics, premixed and diffuse flames, and examples. May be repeated up to 3 credits.

Prerequisite(s): CHEM 112G, M E 228 or MATH 392, and M E 340.

M E 487. Mechatronics**3 Credits (2+3P)**

Introduction to the analysis and design of computer-controlled electromechanical systems, including data acquisition and conversion, force and motion sensors, actuators, mechanisms, feedback control, and robotic devices. Students required to work in teams to construct and test simple robotic systems. May be repeated up to 3 credits.

Prerequisite(s): M E 210 or E E 201 and M E 345.

M E 502. Elasticity I**3 Credits**

Introduction to stress tensor, strain tensor, constitutive law, energy theorems, plane stress and plane strain. Also covers torsion of shafts and propagation of stress waves in elastic solids.

M E 503. Thermodynamics**3 Credits**

A comprehensive study of the first and second laws of thermodynamics, nonequilibrium processes, equations of state, and statistical thermodynamics.

M E 504. Continuum Mechanics**3 Credits**

Basic introduction to the Mechanics of Continuous Media. Its aim is to prepare the student for more advanced courses in Solid and Fluid Mechanics. The topics to be covered include: introduction to Cartesian tensors, tensor algebra and calculus; Lagrangian and Eulerian kinematics; Cauchy and Piola-Kirchhoff stresses; general principles of conservation; constitutive theory for ideal fluids, Newtonian and non-Newtonian fluids, finite and linear elasticity.

M E 505. Fundamentals of the Theory of Plasticity**3 Credits**

Basic concepts in continuum mechanics, equations of the plastic state, equations of elastic-plastic equilibrium, criteria for yielding, initial and subsequent yield surfaces, two-dimensional and axi-symmetric plasticity problems, dynamic problems.

Prerequisite(s): M E 502.

M E 509. Individualized Study**3 Credits**

Individualized study covering specialized topics in mechanical and aerospace engineering. Consent of instructor required.

M E 510. Special Topics**1-6 Credits**

Topics in mechanical engineering. May be repeated for a maximum of 6 credits.

Prerequisite: consent of the department head.

M E 511. Dynamics**3 Credits**

An advanced study of the dynamical behavior of systems of particles and rigid bodies, with emphasis on the theoretical background of dynamics.

M E 512. Vibrations**3 Credits**

Free and forced vibrations for discrete and continuous systems with single or multiple degrees of freedom. Introduction to nonlinear and random vibration and solution techniques for such systems.

M E 514. Advanced Composite Materials**3 Credits**

Study on the anisotropic elasticity, strength of anisotropic materials and micromechanics. Topics from micromechanics and macromechanics through lamination theory and examples of plate bending, buckling and vibration problems. Course taught on an as-needed basis.

M E 517. Nonlinear Dynamics and Chaos**3 Credits**

Singular points, periodic solutions, stability, and local bifurcations for ODEs and maps; phase space methods, invariant manifolds, and Poincare maps; nonsmooth, periodic, time-delay, and Hamiltonian systems; perturbation, averaging, and harmonic balance methods; center manifold reduction and normal forms; strange attractors, Liapunov exponents, attractor dimension; dissipative and Hamiltonian chaos

M E 518. Finite Element Analysis**3 Credits**

Introduction to finite element method. Topics include mathematical modeling, variational formulation, shape functions, truss, beam, solid, and shell elements. Includes static, dynamic, and nonlinear analysis.

M E 520. Micromechanics**3 Credits**

The course covers fundamentals of micromechanics: point force solution, Eshelby's problem, various approximate methods to calculate effective material properties of inhomogeneous materials, variational principles of the mechanics of composites. The history of micromechanics is discussed from Navier and Cauchy to current state of the art.

Prerequisite(s): M E 502.

M E 527. Control of Mechanical Systems**3 Credits**

Rigorous introduction to the control of dynamical systems, with a focus on mechanical systems. Includes basic systems theory, controllability, feedback and stabilization, observers and dynamic feedback, and applications of methods to systems of importance in mechanical engineering. Consent of Instructor required. Crosslisted with: A E527.

Prerequisite(s): M E 452 or equivalent, or consent of instructor.

M E 529. Nonlinear and Optimal Control**3 Credits**

Introduction to optimal control theory, Pontryagin's Maximum Principle, control of simple mechanical systems, Lagrangian and Hamiltonian methods, introduction to geometric control-Lie algebras, distributions, controllability and observability

M E 530. Intermediate Fluid Mechanics**3 Credits**

Application of exact and empirical solutions to fundamental flow problems, including viscous and inviscid behavior. These applications establish a theoretical basis for the origin and physical role of common terms in the governing equations.

M E 533. Computational and Theoretical Fluid Mechanics**3 Credits**

Application of fluid mechanics theory and computational approaches to advanced flow problems, including viscous/inviscid and laminar/turbulent behavior. Complex flow problems addressed through development of a theoretical formulation, followed by application of computational fluid dynamic (CFD) tools, and finally presentation and validation of solution data.

Prerequisite: M E 530 or consent of instructor.

M E 534. Advance Computational Fluid Dynamics**3 Credits**

Advanced techniques for large-scale numerical simulations of fluid flows: spectral numerical methods, including Fourier and other expansions, Galerkin and collocation projections, computational methods to solve incompressible and compressible Navier-Stokes equations, high-resolution methods for hyperbolic equations with discontinuous solutions, and issues related to implementation on supercomputers.

Prerequisite(s): M E 533.

M E 536. Hydrodynamic Stability and Turbulence**3 Credits**

Introduction to fundamentals of hydrodynamic stability, classical linear stability analysis of parallel shear flows and rotating flows, nonlinear stability, basic concepts in turbulence theory

Prerequisite(s): M E 533.

M E 540. Intermediate Heat Transfer**3 Credits**

Fundamentals of conduction, convection, and radiation heat transfer. Emphasis on the application of combined heat transfer to the solution of problems not accessible at the undergraduate level.

M E 570. Engineering Analysis I**3 Credits**

Introduction to engineering analysis with emphasis on engineering applications. Topics include linear algebra, linear ordinary differential equations, and linear partial differential equations with focus on analytical methods.

M E 580. Engineering Analysis II**3 Credits**

Engineering analysis with emphasis on engineering applications. Topics include analytical and numerical methods in linear and nonlinear ordinary and partial differential equations.

Prerequisite: M E 570 or consent of instructor.

M E 598. Special Research Programs**1-3 Credits**

Individual investigations, either analytical or experimental. May be repeated for a maximum of 6 credits.

M E 599. Master's Thesis**15 Credits**

Thesis.

M E 600. Doctoral Research**1-15 Credits**

This course number is used for assigning credit for research performed prior to successful completion of the doctoral qualifying examination.

M E 698. Special Research Programs**1-3 Credits**

May be repeated for a maximum of 6 credits.

M E 700. Doctoral Dissertation**15 Credits**

Dissertation.

M SC-MILITARY SCIENCE (M SC)

M SC 110. Introduction to Military Science**2 Credits (2+1P)**

Concepts of leadership, including basic drill, fitness sessions, rappelling, first aid, map reading, and basic marksmanship. Optional physical fitness sessions and weekend exercises.

M SC 111. Introduction to Leadership**2 Credits (2+1P)**

Learning and application of leadership, as well as relating organizational ethics to effective leadership using communication skills to improve individual performance. Optional physical fitness sessions and weekend exercises.

M SC 210. Self/Team Development**3 Credits (3+1P)**

Learning and application of leadership skills to building effective teams, using oral/written skills, planning, and coordination of group efforts. Include advanced first aid, land navigation, and basic military tactics. Leadership Lab and three physical fitness sessions per week required.

M SC 211. Leadership in Action and Team Building**3 Credits (3+1P)**

Individual and team aspects of military tactics in small unit operations. Use of radio, movement, planning for safety/security and pre-execution checks. Continued leadership development and techniques for training others. Leadership Lab and three physical fitness sessions per week required.

M SC 225. Directed Studies**1-3 Credits**

Individual directed studies under supervision of designated faculty. May be repeated for a maximum of 12 credits. No S/U option.

Prerequisite: GPA 2.5 or better.

M SC 310. Leading Small Organizations I**3 Credits**

Practical opportunities to lead small groups in situations of graduated complexity. Use of small unit defensive tactics and opportunities to conduct training for lower division students. Leadership Lab M SC 310L, three physical fitness sessions per week, and weekend exercises required.

Prerequisite: must meet Basic Course of Military Science requirements.

Corequisite: M SC 310L.

M SC 310 L. Advanced Course Leadership Laboratories**1 Credit**

Planning, coordination, execution and evaluation of training and activities with basic course students and ROTC program. Students develop and refine leadership skills in positions of responsibility. Open only to students taking M SC 310.

Corequisite: M SC 310.

M SC 320. Leading Small Organizations II**3 Credits**

Delegation and supervision based on leadership case studies that require planning and adaptation to the unexpected in organizations under stress. Use of ethical decision making to enhance team performance. Leadership Lab M SC 310L, three physical fitness sessions per week, and weekend exercises required.

Prerequisite: M SC 310 or consent of instructor.

Corequisite: M SC 320L.

M SC 320 L. Leading Small Organization Lab**1 Credit**

Practice and refinement of leadership skills. Different roles assigned for students at different levels in the program. Planning, coordination, execution and evaluation of training and activities with basic course students and ROTC program. Open to students taking M SC 320.

Corequisite: M SC 320.

M SC 325. Advanced Directed Studies**1-3 Credits**

Directed individual study of advanced subjects. May be repeated for a maximum of 12 credits. No S/U option.

Prerequisite: GPA 2.5 or better.

M SC 350. Leadership Internship II**1-6 Credits (1-6)**

Six-week paid internship conducted at an Army installation. Leadership-course environment is highly structured and demanding. Stresses leadership at small-unit levels under varying conditions. Evaluations during this required internship weigh heavily in type of commission and branch assignment offered.

Prerequisite(s): M SC 310, M SC 310L, M SC 320, and M SC 320L.

M SC 401. Leadership Challenges and Goal Setting**3 Credits**

Planning, conducting and evaluating activities of the ROTC cadet organization, including the articulation of goals, and actuation of plans to attain them. Assessment of organizational skills and development of strategies to improve group cohesion through learning and application of Army policies and programs. M SC 401L, three physical fitness sessions per week, and weekend exercises required.

Prerequisite: M SC 320 or consent of instructor.

Corequisite: M SC 401L.

M SC 401 L. Advanced Course Leadership Laboratories**1 Credit**

Different roles assigned for students at different levels in the program. Practice and refinement of leadership skills. Planning coordination, execution and evaluation of training and activities with basic course students and ROTC program. Open only to students taking M SC 401.

Corequisite: M SC 401.

M SC 402. Transition to Lieutenant**3 Credits**

Continues methodology from M SC 401. Identification and resolution of ethical dilemmas along with counseling and motivation techniques. Examination of tradition and law as these issues relate to the Army officer and prepare the student to be a successful Army lieutenant. Leadership Lab M SC 402L, three physical fitness sessions per week and weekend exercises required.

Prerequisite: M SC 401 or consent of instructor.

Corequisite: M SC 402L.

M SC 402 L. Transition to Lieutenant Lab**1 Credit**

Different roles assigned for students at different levels in the program. Practice and refinement of leadership skills. Planning, coordination, execution, and evaluation of training and activities with basic course students and ROTC program. Open only to students taking M SC 402.

Corequisite: M SC 402.

M SC 425. Practicum**1-4 Credits**

Independent projects conducted under the direction of designated faculty, and concerned with analysis of selected leadership or management problems. May be repeated for a maximum of 16 credits. No S/U option.

M SC 465. Leading Small Organization - Graduate Level**3 Credits**

Practical opportunities to lead small groups in situations of graduated complexity. Use of small unit defensive tactics and opportunities to conduct training for graduate students. Leader Lab M SC 465L, three physical fitness sessions per week and weekend exercises required. Research paper required. No S/U option.

Prerequisite: consent of PMS.

Corequisite: M SC 465L.

M SC 465 L. Advanced Course Leadership Lab - Graduate Level**1 Credit**

Planning, coordination, execution and evaluation of training and activities with basic course students and ROTC program. Students develop and refine leadership skills in positions of responsibility. Open only to students taking M SC 465.

Prerequisite: consent of PMS.

Corequisite: M SC 465.

M SC 501. Leadership Challenges and Goal Setting**3 Credits (3+1P)**

Planning, conducting, and evaluating activities of ROTC cadet organization. Articulation of goals and plans to attain them. Assessment of organizational skills and development of strategies to improve group cohesion. Leadership lab, three physical fitness sessions per week, weekend exercise, and research paper required. Consent of instructor required.

Prerequisite(s): Consent of PMS.

Corequisite(s): M SC 401L.

M SC 502. Transition to Lieutenant**3 Credits (3+1P)**

Continuation of M SC 501. Identification and resolution of ethical dilemmas. Counseling and motivation techniques. Examination of tradition and law for officers. Leadership lab, three physical fitness sessions per week, weekend exercises, and research paper required. Consent of instructor required.

Prerequisite(s): Consent of PMS.

Corequisite(s): M SC 402L.

MAT-AUTOMATION & MANUFACTURING (MAT)

MAT 102. Print Reading for Industry**3 Credits (2+2P)**

Reading, interpretation, and revisions of industrial technical drawings common to manufacturing, Aerospace, machine parts, electrical, hydraulic, and Pneumatic drawings. Interpretation of engineering drawings and related shop calculations. Introduction Crosslisted with: AERT 113. Restricted to: Community Colleges only.

MAT 105. Introduction to Manufacturing**3 Credits**

Introduction to manufacturing evolution from basic assembly process to modern automated processes. Covers history, employability, soft skills, quality measurements, teamwork concept, production requirements, and considerations in plan layout and design. Minimum math proficiency of CCDM 114 required or math placement into MATH 120 or higher. Restricted to: Community Colleges only. Crosslisted with: AERT 112

MAT 106. Applied Manufacturing Practices**3 Credits (2+2P)**

Course will illustrate how various products are manufactured along with associated process. Mechanical behavior such as bending, cold worked, strained, work hardened, and heat transfer will be emphasized as well. In lab, students will learn how to make selected products starting from prints to complete projects including quality control. Crosslisted with: AERT 114. Restricted to: Community Colleges only.

MAT 107. Computer Integrated Manufacturing PLTW**3 Credits (2+2P)**

Applies principles of robotics and automation to Computer Aided Design (CAD) design. The course builds on computer solid modeling skills developed in Introduction to Engineering Design, and Design and Drawing Production. Students use Computer Numerical Control (CNC) equipment to produce actual models of their three-dimensional designs. Fundamental concepts of robotics used in automated manufacturing, and design analysis are included. Restricted to: Community Colleges only.

MAT 108. Metrology, Safety and Quality Control for Manufacturing**3 Credits (2+2P)**

Use of measuring tools in manufacturing process and quality control. These tools include: vernier and digital micrometers, calipers, height gauges, hole gauges, pin gauges, electrical pressure/flow, temperature measuring, stress/strain measurements, and non-destructive testing (eddy currents, magnetic particle, ultrasonic, bubble emission, x-ray, Gamma ray, radiography, visual inspection, ring test, taping & Zygo). Instruction to use of coordinate machine while covering the safety issues that pertains to these types of tools and equipment. Restricted to: Community Colleges only.

MAT 110. Machine Operation and Safety**3 Credits (2+2P)**

Introduction to the operation and safety aspects of various types of machinery and equipment, including both mechanical and electrical machines, Rigid Tubing, and Flexible Lines. Maintenance and safety operation of industrial equipment will also be covered. Restricted to: Community Colleges only. Crosslisted with: AERT 115

MAT 130. Applied Industrial Electricity I**4 Credits (3+2P)**

Electrical safety, AC and DC circuits, use and care of common measuring instrumentation, schematic and wiring diagrams, electromagnetism, National Electric Code branch circuits. Restricted to: Community Colleges only.

Prerequisite(s): MATH 120 or ELT 120 or OETS 118.

MAT 135. Applied Industrial Electricity II**4 Credits (3+2P)**

Relationship between motor power, speed, and torque, basic application of relay circuits, motor control circuits, inductance and capacitance factors, transformers, solid state devices circuits and applications. Restricted to: Community Colleges only.

Prerequisite(s): MAT 130.

MAT 145. Electromechanical Systems for Non-Majors**4 Credits (3+3P)**

Electromechanical system interfacing. Principles and applications of preventive and corrective maintenance procedures on automated industrial production machines using system technical and maintenance manuals to develop troubleshooting procedures using systems block and schematic diagrams.

Prerequisite: consent of instructor.

MAT 149. Industrial Mechanical Elements**3 Credits (2+2P)**

Introduction to mechanical systems, theory, characteristics and uses for the different types of mechanical power transmission systems used in the industry, and related industrial safety practices. Topics include: safety, drives, shafts, maintenance and lubrication. Restricted to: Community Colleges only.

MAT 151. Introduction to Metalworking I**3 Credits (2+2P)**

Measuring instruments, including steel rules, combination and transfer tools, micrometers, vernier instruments, bevel instruments, and indicators. Shop safety and first aid, introduction to cutting fluids, saws and sawing, and drill presses. Restricted to: Community Colleges only.

MAT 205. Statistical Controls for Manufacturing Technicians**3 Credits (2+2P)**

Use of hardware and software for quality assurance to include the design of experiments, sampling techniques, SPC, control chart application and development, and process reliability. Restricted to: Community Colleges only.

Prerequisite(s): ELT 120 or MATH 120.

MAT 221. Cooperative Experience I**1-6 Credits**

Supervised cooperative work program. Student is employed in an approved occupation and rated by employer and instructor. Student meets in a weekly class. Graded S/U.

Prerequisite: consent of instructor.

MAT 234. Industrial Electricity Maintenance**3 Credits (2+2P)**

Introduction into electrical systems, theory and uses for the different types of motors used in the industry and related industrial safety practices. DC, AC stepper and servo motors, motor speed and torque, motor performance, and efficiency, motor control fundamentals using variable frequency drives, vector controls, servo and stepper drives.

Restricted to: Community Colleges only.

MAT 235. Programmable Logic Controllers Pneumatics**2 Credits (1+2P)**

Introduction to theory and application of pneumatic power transfer and control. Programmable logic controllers (PLC s) introduced as controlling elements for electropneumatic systems. Restricted to: Community Colleges only.

MAT 240. Electromechanical Devices**4 Credits (2+4P)**

Theory and application of electromechanical devices and digital control circuits. Includes AD and DA converters, pneumatics, hydraulics, programmable logic controllers, DC, AC, and stepper motors, and servomechanisms. Crosslisted with: AERT 211

Prerequisite(s): MAT 160 and (MAT 105 or (MAT 110 & MAT 135)). Restricted to: Community Colleges only.

MAT 245. Electromechanical Systems**3 Credits (2+2P)**

Electromechanical system interfacing. Principles and applications of preventive and corrective maintenance procedures on industrial production machines using system technical and maintenance manuals to develop troubleshooting procedures using systems block and schematic diagrams. Crosslisted with: AERT222.

Prerequisite(s)/Corequisite(s): AERT 211 or MAT 240. **Prerequisite(s):** ELT 135 and ELT 160. Restricted to: Community Colleges only.

MAT 265. Special Topics**1-6 Credits**

Course subtitled in the Schedule of Classes. May be repeated for a maximum of 12 credits.

Prerequisite: consent of instructor.

MATH-MATHEMATICS (MATH)

MATH 101. General Supplemental Instruction I**1 Credit**

Collaborative workshop for students enrolled in Intermediate Algebra. S/U Grading (S/U, Audit).

Corequisite(s): MATH 120.

MATH 102. General Supplemental Instruction II**1 Credit**

Collaborative workshop for students enrolled in College Algebra. S/U Grading (S/U, Audit).

Corequisite(s): MATH 121G.

MATH 107. Topics in Mathematics**1-3 Credits**

Topics to be announced in the Schedule of Classes. Maximum of 3 credits per semester. Total credit not to exceed 6 credits. Community Colleges only.

Prerequisite: consent of instructor.

MATH 111. Fundamentals of Elementary Mathematics I**3 Credits**

Numbers and the four operations of arithmetic. Understanding and comparing multiple representations of numbers and operations, in particular how these representations build from whole numbers to integers to fractions and decimals. Applying properties of numbers and operations in contextual situations. Reasoning, communicating, and problem solving with numbers and operations. Applications to ratio, and connections with algebra. Taught primarily through student activities and investigations. Restricted to: EDUC,EPAR,E ED,ECED majors.

Prerequisite(s): ENGL 111G and grade of C or better in MATH 120.

MATH 112G. Fundamentals of Elementary Math II**3 Credits**

Geometry and measurement. Multiple approaches to solving problems and understanding concepts in geometry. Analyzing and constructing two- and three-dimensional shapes. Measurable attributes, including angle, length, area, and volume. Understanding and applying units and unit conversions. Transformations, congruence, and symmetry. Scale factor and similarity. Coordinate geometry and connections with algebra. Reasoning and communicating about geometric concepts. Taught primarily through student activities and investigations.

Prerequisite(s): C or better in MATH 111.

MATH 120. Intermediate Algebra**3 Credits**

Linear and algebraic functions as they arise in real world problems. Exponential and logarithmic functions. Equations and inequalities and their solutions considered symbolically, graphically and numerically.)

Prerequisite: adequate score on the Mathematics Placement Examination (see note above).

MATH 121G. College Algebra**3 Credits**

Fundamental concepts of functions, including algebraic and graphical properties. Fitting functions to data. Finding zeroes and extreme values. Solving systems of equations.

Prerequisites: Adequate math placement score or C or better in MATH 120.

MATH 142G. Calculus for the Biological and Management Sciences**3 Credits (2+2P)**

Review of functions. Derivatives, exponential and logarithmic functions, antiderivatives and indefinite integrals, basic ordinary differential equations and growth models, with an emphasis on applications. Includes a significant writing component.

Prerequisite(s): C or better in MATH 121G.

MATH 190G. Trigonometry and Precalculus**4 Credits (3+2P)**

Elementary functions used in the sciences with emphasis on trigonometric functions and their inverses. Polar coordinates. Complex numbers and Euler's formula. Analytic geometry and vectors.

Prerequisite: adequate score on Mathematics placement exam or a C or better in MATH 121G (see note at beginning of this section).

MATH 191G. Calculus and Analytic Geometry I**4 Credits**

Limits and continuity, theory and computation of derivatives, applications of derivatives, extreme values, critical points, derivative tests, L'Hopital's Rule.

Prerequisite(s): C or better in MATH 190G.

MATH 192G. Calculus and Analytic Geometry II**4 Credits**

Riemann sums, the definite integral, antiderivatives, fundamental theorems, techniques of integration, applications of integrals, improper integrals, Taylor polynomials, sequences and series, power series and Taylor series.

Prerequisite(s): C or better in MATH 191G.

MATH 192GH. Calculus and Analytic Geometry II Honors**4 Credits (3+1P)**

A more advanced treatment of the material of MATH 192G with additional topics. Consent of Instructor required. Restricted to Las Cruces campus only.

Prerequisite(s): Consent of Department.

MATH 200. Directed Study**1-3 Credits**

May be repeated for a maximum of 6 credits. Graded S/U.

Prerequisite: consent of the instructor.

MATH 210G. Mathematics Appreciation**3 Credits**

Mathematics and its role in the development and maintenance of civilization.

Prerequisites: High school algebra, and an adequate score on the Mathematics Placement Examination.

MATH 215. Fundamentals of Elementary Mathematics III**3 Credits**

Probability, statistics, ratios, and proportional relationships. Experimental and theoretical probability. Collecting, analyzing, and displaying data, including measurement data. Multiple approaches to solving problems involving proportional relationships, with connections to number and operation, geometry and measurement, and algebra. Understanding data in professional contexts of teaching. Taught primarily through student activities and investigations.

Prerequisite(s): C or better in MATH 112.

MATH 235. Calculus for the Technical Student I**3 Credits**

Intuitive differential and integral calculus with applications to engineering.

Prerequisite: C or better in MATH 190G.

MATH 236. Calculus for the Technical Student II**3 Credits**

A continuation and extension of the material in MATH 235.

Prerequisites: C or better in MATH 235 or in MATH 192G.

MATH 242. Calculus for the Biological and Management Sciences II**3 Credits**

Calculus of functions of several variables, techniques of integration, differential equations, infinite series. Applications.

Prerequisite: C or better in MATH 142G.

MATH 275G. Spirit and Evolution of Mathematics**3 Credits**

Same as HON 275G.

MATH 279. Introduction to Higher Mathematics**3 Credits**

Logic; sets, relations, and functions; introduction to mathematical proofs.

Prerequisite(s): C- or better in MATH 192.

MATH 280. Introduction to Linear Algebra**3 Credits**

Systems of equations, matrices, vector spaces and linear transformations. Applications to computer science.

Prerequisite(s): Grade of C- or better in MATH 192G.

MATH 291G. Calculus and Analytic Geometry III**3 Credits**

Vector algebra, directional derivatives, approximation, max-min problems, multiple integrals, applications, cylindrical and spherical coordinates, change of variables.

Prerequisite: grade of C or better in MATH 192G.

MATH 292. Calculus and Analytic Geometry IV**3 Credits**

Vector calculus, linear algebra, selected topics. Community Colleges only.

Prerequisite: grade of C or better in MATH 291G or equivalent.

MATH 300. Readings**1-3 Credits**

A selection of readings and reports in the mathematical sciences, the breadth and depth of which is deemed to fit the needs of the student. Graded S/U.

Prerequisite: consent of instructor.

MATH 313. Fundamentals of Algebra and Geometry I**3 Credits (3+1P)**

Covers algebra combined with geometry based on measurements of distance (metric geometry). Secondary mathematics education majors may take course as a math elective. MATH 313 does not substitute for other required math courses. Does not fulfill requirements for major in mathematics.

Prerequisites: MATH 111 and MATH 112G.

MATH 316. Calculus with Hands-on Applications**3 Credits**

This course, primarily for prospective teachers, is taught in an interactive laboratory format. Students design and construct physical objects for which the planning stage requires calculus techniques. All numerical computations are carried out on graphing calculators. Meets simultaneously with MATH 516, primarily for practicing teachers. Secondary math education majors may take course as a math elective. MATH 316 does not fulfill requirements for majors in mathematics. Consent of instructor required.

MATH 331. Introduction to Modern Algebra**3 Credits**

Elements of abstract algebra, including groups, rings and fields.

Prerequisite: C or better in MATH 279 and MATH 280.

MATH 332. Introduction to Analysis**3 Credits**

Development of the real numbers, a rigorous treatment of sequences, limits, continuity, differentiation, and integration.

Prerequisite: C or better in MATH 192G and MATH 279.

MATH 377. Introduction to Numerical Methods**3 Credits**

Basic numerical methods for interpolation, approximation, locating zeros of functions, integration, and solution of linear equations. Computer-oriented methods will be emphasized.

Prerequisites: grade of C or better in MATH 192G and some programming experience.

MATH 391. Vector Analysis**3 Credits**

Calculus of vector valued functions, Green's and Stokes' theorems and applications.

Prerequisite: grade of C or better in MATH 291G.

MATH 392. Introduction to Ordinary Differential Equations**3 Credits**

Introduction to differential equations and dynamical systems with emphasis on modeling and applications. Basic analytic, qualitative and numerical methods. Equilibria and bifurcations. Linear systems with matrix methods, real and complex solutions.

Prerequisite: C or better in MATH 192G or B or better in MATH 236.

MATH 400. Undergraduate Research**1-3 Credits**

May be repeated for a maximum of 6 credits. Graded S/U.

Prerequisite: consent of faculty member.

MATH 401. Special Topics**1-3 Credits (1-3)**

Specific subjects to be announced in the Schedule of Classes. May be used to fulfill a course requirement for the mathematics major.

Prerequisite: An upper division MATH or STAT course, and consent of instructor.

MATH 411V. Great Theorems: The Art of Mathematics**3 Credits**

Adopts the view of mathematics as art, using original sources displaying the creation of mathematical masterpieces from antiquity to the modern era. Original sources are supplemented by cultural, biographical, and mathematical history placing mathematics in a broad human context. Same as HON 411G.

Prerequisites: Grades of B or better in MATH 192G and any upper division MATH/STAT course, with overall GPA of 3.2 or better, or consent of instructor.

MATH 421. Financial Mathematics I**3 Credits**

Types of derivatives, forwards and futures, options, returns and payoffs, Arrow-Debre, complete and incomplete markets, the one period model, the binomial option pricing model, binomial trees, martingales and sub martingales, Brownian motion, stochastic integrals, the Ito integral, Ito's dilemma, the Black-Scholes model, the Black-Scholes formula, European options, American options, free boundary problems, variational inequalities. This course is offered simultaneously with MATH 521.

Prerequisite(s): C or better in STAT 371 and either MATH 280 or MATH 480 or consent of instructor.

MATH 422. Financial Mathematics II**3 Credits**

Bonds, swaps, exotic options, barrier options, Asian options, look back options, options with transaction costs, Fokker Plank theory, computing expectations, the Heath-Jarrow- Morton theorem, the Ho-Lee model, stochastic volatility models, exponential-affine models, numerical methods. This course is offered simultaneously with MATH 522.

Prerequisite: C or better in MATH 421 or consent of instructor

MATH 423. Numerical Optimization and Applications to Financial Mathematics**3 Credits**

Dynamic optimization of a monopolist, trading off inflation and unemployment, the optimal adjustment of labor demand, infinite planning horizon, the optimal investment path of a firm, the optimal social saving behavior, phase-diagram analysis, optimal control theory, the political business cycle, the dynamics of a revenue-maximizing firm, economic examples of state-space constraints. This course is offered simultaneously with MATH 523.

Prerequisite(s): C- or better in MATH 421.

MATH 430. Combinatorial Mathematics**3 Credits**

Methods for solving combinatorial construction and enumeration problems. Topics include Ramsey theory, generating functions, matchings, and block designs.

Prerequisite(s): C- or better in MATH 330 or C- or better in MATH 331 or C- or better in MATH 332.

MATH 451. Introduction to Differential Geometry**3 Credits**

Applies calculus to curves and surfaces in three dimensional Euclidean space.

Prerequisite(s): C- or better in each of MATH 280 and MATH 391, or consent of instructor.

MATH 452. Foundations of Geometry**3 Credits**

Topics in projective, axiomatic Euclidean or non-Euclidean geometries. Restricted to: Main campus only.

Prerequisite(s): C or better in MATH 331 or MATH 332.

MATH 453. Introduction to Topology**3 Credits**

Introduction to topological spaces and metric spaces, with connections to analysis, geometry, and the classification of surfaces.

Prerequisite(s): C- or better in MATH 332 or consent of instructor.

MATH 454. Mathematical Logic**3 Credits**

Propositional calculus and the first order predicate calculus, including Godel's completeness theorem for the latter, and additional topics at the option of the instructor.

Prerequisite(s): C or better in MATH 331 or MATH 332, or consent of instructor.

MATH 455. Elementary Number Theory**3 Credits**

Covers primes, congruences and related topics.

Prerequisite: grade of C or better in MATH 331 or consent of instructor.

MATH 457. Applications of Modern Algebra**3 Credits**

Topics may include coding theory, cryptography, graph theory, or symmetry groups. May be repeated up to 9 credits.

Prerequisite(s): C or better in Math 331 or consent of instructor.

MATH 459. Survey of Geometry**3 Credits**

Basic concepts of Euclidean geometry, ruler and compass constructions. May include topics in non-Euclidean geometry. For non-math majors. Restricted to: Main campus only.

Prerequisite(s): C or better in MATH 331 or MATH 332.

MATH 466. Lattice Theory**3 Credits**

Introduction to partially ordered sets, distributive, modular, and Boolean lattices.

Prerequisite(s): C- or better in MATH 330 or C- or better in MATH 331 or C- or better in MATH 332 or consent of instructor.

MATH 471. Complex Variables**3 Credits**

A first course in complex function theory, with emphasis on applications.

Prerequisite(s): C- or better in MATH 391 or C- or better in both MATH 392 and MATH 291.

MATH 472. Fourier Series and Boundary Value Problems**3 Credits**

Fourier series and methods of solution of the boundary value problems of applied mathematics.

Prerequisite(s): C- or better in MATH 392.

MATH 473. Calculus of Variations and Optimal Control**3 Credits**

Euler's equations, conditions for extrema, direct methods, dynamic programming, and the Pontryagin maximal principle.

Prerequisite(s): C- or better in MATH 392.

MATH 480. Matrix Theory and Applied Linear Algebra**3 Credits**

An application driven course, whose topics include rectangular systems, matrix algebra, vector spaces and linear transformations, inner products, and eigenvalues and eigenvectors. Applications may include LU factorization, least squares, data compression, QR factorization, singular value decomposition, and search engines.

Prerequisite(s): C or better in any 300-level course with a MATH or STAT prefix.

MATH 481. Advanced Linear Algebra**3 Credits**

Rigorous treatment of vector spaces and linear transformations including canonical forms, spectral theory, inner product spaces and related topics.

Prerequisite: grade of C or better in MATH 331.

MATH 491. Introduction to Real Analysis I**3 Credits**

Rigorous discussion of the topics introduced in calculus. Sequences, series, limits, continuity, differentiation.

Prerequisite: grade of C or better in MATH 332 or consent of instructor.

MATH 492. Introduction to Real Analysis II**3 Credits**

Continuation of MATH 491. Integration, metric spaces and selected topics.

Prerequisite(s): C- or better in MATH 491 or consent of instructor.

MATH 498. Directed Reading**1-6 Credits**

May be repeated for a maximum of 6 credits. Graded S/U.

MATH 501. Introduction to Differential Geometry**3 Credits**

Same as MATH 451 with additional work for graduate students.

MATH 502. Foundations of Geometry**3 Credits**

Same as MATH 452 with additional assignments for graduate students.

MATH 503. Introduction to Topology**3 Credits**

Same as MATH 453 with additional work for graduate students.

MATH 504. Mathematical Logic**3 Credits**

Same as MATH 454 with additional assignments for graduate students.

MATH 505. Elementary Number Theory**3 Credits**

Same as MATH 455 with additional assignments for graduate students.

MATH 506. Lattice Theory**3 Credits**

Same as MATH 466 with additional assignments for graduate students.

MATH 507. Applications of Modern Algebra**3 Credits**

Taught with MATH 457 with additional work for graduate students. May be repeated up to 9 credits.

Prerequisite(s): C or better in MATH 331 or consent of instructor.

MATH 509. Information Theory**3 Credits**

This class is a study of Shannon's measure of information and discusses mutual information, entropy, and channel capacity, the noiseless source coding theorem, the noisy channel coding theorem, channel coding and random coding bounds, rate-distortion theory, and data compression.

Restricted to: Main campus only. Crosslisted with: E E 586

Prerequisite(s): E E 571 or STAT 515.

MATH 511. Fundamentals of Elementary Mathematics I**3 Credits (3+1P)**

Topics from real numbers, geometry, measurement, and algorithms, incorporating calculator technology. Intended for K-8 teachers. As part of course students mentor MATH 111 undergraduates. Does not fulfill degree requirements for M.S. in mathematics.

MATH 512. Fundamentals of Elementary Mathematics II**3 Credits (3+1P)**

Real numbers, geometry, and statistics, incorporating calculator technology. Intended for K-8 teachers. Students serve as mentors to MATH 112 undergraduates. Does not fulfill degree requirements for M.S. in mathematics.

MATH 513. Fundamentals of Algebra and Geometry I**3 Credits (3+1P)**

Algebra and metric geometry, incorporating appropriate calculator technology. Intended for K-8 teachers. Students serve as mentors to MATH 313 undergraduates. Does not fulfill degree requirements for M.S. in mathematics.

MATH 516. Calculus with Hands-on Application**3 Credits**

This course, primarily for in-service teachers, is taught in an interactive laboratory format. Students design and construct physical objects for which the planning stage requires calculus techniques. All numerical computations are carried out on graphing calculators. Meets simultaneously with Math 316, primarily for prospective teachers. Does not fulfill degree requirements for M.S. in Mathematics.

Prerequisite(s): MATH 511 and MATH 512 or consent of instructor.

MATH 517. Complex Variables**3 Credits**

Same as MATH 471 with additional work for graduate students.

MATH 518. Fourier Series and Boundary Value Problems**3 Credits**

Same as MATH 472 with additional work for graduate students.

MATH 519. Calculus of Variations and Optimal Control**3 Credits**

Same as MATH 473 with additional work for graduate students.

MATH 521. Financial Mathematics I: Portfolio Optimization**3 Credits**

Complete and incomplete markets, optimal investment paths, dynamic optimization, the Black-Scholes model, European options, American options.

Prerequisite: STAT 515 and either MATH 280 or MATH 480.

MATH 522. Financial Mathematics II**3 Credits**

Bonds, Swaps, Exotic options, Barrier options, Asian options, Lookback options, options with transaction costs, Fokker Plank theory: computing expectations, The Heath-Jarrow-Morton theorem, the Ho-Lee model, Stochastic volatility models, Exponential-Affine models, numerical methods.

Prerequisite: MATH 521.

MATH 523. Numerical Optimization and Applications to Financial Mathematics**3 Credits**

Dynamic optimization of a monopolist, trading off inflation and unemployment, the optimal adjustment of labor demand, infinite planning horizon, the optimal investment path of a firm, the optimal social saving behavior, phase-diagram analysis, optimal control theory, the political business cycle, the dynamics of a revenue-maximizing firm, economic examples of state-space constraints. This course is offered simultaneously with MATH 423.

Prerequisite: MATH 521.

MATH 525. Advanced Linear Algebra**3 Credits**

Same as MATH 481 with additional work for graduate students.

Prerequisite: grade of C or better in MATH 331.

MATH 527. Introduction to Real Analysis I**3 Credits**

Same as MATH 491 with additional work for graduate students.

MATH 528. Introduction to Real Analysis II**3 Credits**

Same as MATH 492 with additional work for graduate students.

MATH 530. Special Topics**1-3 Credits**

Specific subjects to be announced in the Schedule of Classes. May be for unlimited credit with approval of the department.

MATH 531. Ordinary Differential Equations**3 Credits**

Linear algebra and linear ordinary differential equations, existence and uniqueness of solution, smooth dependence on initial conditions, flows, introduction to smooth dynamical systems.

Prerequisites: MATH 392 and MATH 527, or consent of instructor.

MATH 532. Partial Differential Equations**3 Credits**

The basic equations of mathematical physics. Elliptic, hyperbolic, and parabolic equations. Characteristic surfaces. Well-posed problems.

Prerequisite: MATH 518 or consent of instructor.

MATH 534. Nonlinear Programming**3 Credits**

Theoretical and computational methods to solve optimization problems in engineering, statistics, economics, and operations research. Topics include convexity, optimality conditions, Newton's method, Lagrange multipliers, search algorithms for unconstrained and constrained problems, as well as barrier and penalty methods.

MATH 540. Directed Reading**1-6 Credits**

May be repeated for a maximum of 6 credits. Consent of instructor required. Graded: S/U.

MATH 541. Topology I**3 Credits**

Connectedness and compactness of topological spaces, introduction to the quotient topology, elementary homotopy theory, the fundamental group, the Seifert-van Kampen theorem

Prerequisite(s): MATH 525 and MATH 528, or consent of instructor.

MATH 542. Topology II**3 Credits**

Covering spaces and their classification, singular homology, degree theory, Brouwer's fixed point theorem, CW-complexes and cellular homology, and other applications.

Prerequisite(s): MATH 541 or consent of instructor.

MATH 555. Differentiable Manifolds**3 Credits**

Differentiable structures, tangent bundles, vector fields and differential equations. Additional topics may include differential forms, De Rham cohomology, Riemannian geometry, and topics chosen by the instructor. May be repeated for a maximum of 9 credits. Consent of instructor required.

Prerequisite(s): MATH 525 and MATH 528, or consent of instructor.

MATH 557. Axiomatic Set Theory**3 Credits**

A detailed study of Zermelo-Fraenkel and Bernays set theories.

Prerequisite: MATH 504 or equivalent.

MATH 562. History and Theories of Mathematics Education**3 Credits**

A study of the history of the mathematics taught in American schools, including an examination of authentic original textbooks and the changes in their content and the approach to the subject over time, together with writings of people who have influenced the development and changes of mathematics education. Theories of learning mathematics, and current issues in mathematics education.

Prerequisite(s): Restricted to graduate students.

MATH 563. Algebra with Connections**3 Credits**

Connections between Algebra and other K-12 curriculum strands, especially Geometry and Probability / Data Analysis. Apply algebraic modeling and reasoning to a variety of mathematical problem solving situations. Does not fulfill requirements for degrees in mathematics. Consent of instructor required.

Prerequisite(s): Admittance into the MC2-LIFT program.

MATH 564. From Number to Algebra**3 Credits**

The progression from Number to Algebra in the K-12 curriculum as a concrete-to-abstract progression. Key concepts considered across the grade levels include the different uses of variables, equivalence in different contexts, patterns, and ratios. Does not fulfill requirements for degrees in mathematics. Consent of instructor required.

Prerequisite(s): Admittance into the MC2-LIFT program.

MATH 566. Data Analysis with Applications**3 Credits**

Statistical concepts and terminology in professional uses of data by teachers, such as standardized test score reports and educational research; visual displays of data; measures of variation and central tendency; consideration of how K-12 topics in Data Analysis are developed from one grade level to the next. Does not fulfill requirements for degrees in mathematics. Consent of instructor required.

Prerequisite(s): Admittance into the MC2-LIFT program.

MATH 567. From Measurement to Geometry**3 Credits**

The progression from Measurement to Geometry in the K-12 curriculum as a concrete-to-abstract progression. Important concepts such as angle, length, and area progress from concrete, measurable situations to more abstract problems which require reasoning and proof. Does not fulfill requirements for degrees in mathematics. Consent of instructor required.

Prerequisite(s): Admittance into the MC2-LIFT program.

MATH 568. Using Number Throughout the Curriculum**3 Credits**

Understand number concepts more deeply by seeing many examples of those concepts applied in other content strands. Develop mathematical knowledge and understanding to build a repertoire of ways for students to practice and review basic number skills and concepts as part of later, more advanced courses. Does not fulfill requirements for degrees in mathematics. Consent of instructor required.

Prerequisite(s): Admittance into the MC2-LIFT program.

MATH 569. Geometry with Connections**3 Credits**

Connections between Geometry and other K-12 curriculum strands, especially Algebra and Probability / Data Analysis. Address key attributes of geometric concepts by considering their connections within and across grade levels. Does not fulfill requirements for degrees in mathematics. Consent of instructor required.

Prerequisite(s): Admittance into the MC2-LIFT program.

MATH 581. Algebra I**3 Credits**

Examines groups, commutative rings, solvability of polynomials, Galois theory, ruler and compass constructions.

Prerequisite/corequisite: MATH 525.

MATH 582. Algebra II**3 Credits**

Group actions, fundamental theorem of finite Abelian groups, Sylow theorems, solvable groups, noncommutative rings, Noetherian rings, unique factorization domains, modules, tensor products.

Prerequisite: MATH 581.

MATH 583. Introduction to Commutative Algebra and Algebraic Geometry
3 Credits

Introduction to the basic notions and techniques of modern algebraic geometry, including the necessary commutative algebra foundation. Topics likely to include algebraic and projective varieties, Nullstellensatz, morphisms, rational and regular functions, local properties. Other topics may include Noether normalization, dimension theory, singularities, sheaves, schemes, Grobner bases. May be repeated up to 9 credits.
Prerequisite(s): MATH 581 or consent of instructor.

MATH 584. Representation Theory
3 Credits

Topics from representation theory of finite or infinite groups. May be repeated for a maximum of 9 credits.
Prerequisite: consent of instructor.

MATH 585. Universal Algebra
3 Credits

Universal algebra and category theory. Theorems of Birkhoff and Tarski relating equational classes, free algebras and their construction through homomorphisms, subalgebras and products. Topics from model theory, sheaf theory and representation by subdirect products. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

MATH 586. Nonlinear Dynamics I
3 Credits

Introduction to nonlinear dynamics and deterministic chaos. Core topics include stability and bifurcations; chaos in one dimensional maps; universality and re-normalization group. Further topics include symbolic dynamics, fractals, sensitive dependence on initial data, self-organization and complexity and cellular automata. Knowledge of differential equations and linear algebra is desired. May be repeated up to 6 credits.

MATH 591. Complex Analysis I
3 Credits

Rigorous treatment of complex differentiation and integration, properties of analytic functions, series and Cauchy's integral representations.
Prerequisites: MATH 517 and MATH 528, or consent of instructor.

MATH 592. Complex Analysis II
3 Credits

Harmonic functions, product representations, conformal mappings, Riemann's mapping theorem, Riemann surfaces, and selected other topics.

Prerequisite: MATH 591 or consent of instructor.

MATH 593. Measure and Integration
3 Credits

Measure spaces, measurable functions, extension and decomposition theorems for measures, integration on measure spaces, absolute continuity, iterated integrals.

Prerequisite: MATH 528 or consent of instructor.

MATH 594. Real Analysis
3 Credits

Differentiation, L_p spaces, Banach spaces, measure and topology, other selected topics.

Prerequisite: MATH 593.

MATH 599. Master's Thesis
15 Credits
 Thesis.

MATH 600. Doctoral Research
1-15 Credits
 Research.

MATH 643. Topology III
3 Credits

Topics may include higher homotopy groups, fibrations, cohomology operations and obstruction theory, spectral sequences, or others chosen by instructor. May be repeated for a maximum of 9 credits.
Prerequisites: MATH 542 or consent of instructor.

MATH 655. Topics in Differential Geometry
3 Credits

Representation theory of Lie groups, Riemannian geometry, or another topic chosen by instructor. Content varies. May be repeated for a maximum of 9 credits.

Prerequisite: MATH 555 or consent of instructor.

MATH 683. Homological Algebra
3 Credits

Basic topics in homological algebra and category theory. May be repeated for a maximum of 9 credits.

Prerequisite: MATH 542 or MATH 582 or consent of instructor.

MATH 695. Introduction to Functional Analysis I
3 Credits

Banach spaces. The three basic principles: uniform boundedness principle, closed graph/open mapping theorems, Hahn-Banach theorem.
Prerequisites: MATH 541 and MATH 594, or consent of instructor.

MATH 696. Introduction to Functional Analysis II
3 Credits

Continuation of MATH 695. Topics selected from topological vector spaces, Hilbert space, spectral theory, Banach algebras, and distribution theory.

Prerequisite: MATH 695 or consent of instructor.

MATH 698. Selected Topics
1-15 Credits

Selected topics.

MATH 700. Doctoral Dissertation
1-15 Credits
 Dissertation.

MGT-MANAGEMENT (MGT)

MGT 201. Introduction to Management
3 Credits

Covers the functioning and administration of different types of complex organizations. Concepts and theories of management and organizational behavior.

MGT 309. Human Behavior in Organizations
3 Credits

Interpersonal and organizational behavior, motivation, communication, team building, leadership, diversity management, legal and ethical issues, and politics in organizations. Credit may not be earned for both MGT 309 and MGT 315V.

MGT 315V. Human Relations in Organizations**3 Credits**

Interactions among people and groups in societies where organizations abound. Focus on the behavior of people in organizational situations and approaches for understanding that behavior. Explores motivation, communication, leadership and team processes. Restricted to nonbusiness majors. Credit may not be earned for both MGT 309 and MGT 315V.

MGT 332. Human Resources Management**3 Credits**

Survey course in human resources management. Includes recruitment, selection, equal employment opportunity, performance appraisal, training, compensation, safety, and union-management relations.

MGT 333. Training and Development**3 Credits**

Training and development of human resources, including training needs assessment, training approaches and techniques, and evaluation of training effectiveness.

MGT 335V. Business and Government**3 Credits**

Crosslisted with: ECON 335G

MGT 336. Management Communication**3 Credits**

Communication models with emphasis on application to management problems. Management communication systems and techniques in organizations.

MGT 344. Production and Operations Management**3 Credits**

Management of physical and human resources; management information systems in operations; applications in various organizations.

Prerequisite: STAT 251G or A ST 251G or A ST 311; and BCIS 338 or BCIS 350.

MGT 345V. Quality and Competitiveness: An International Perspective**3 Credits**

Quality management and competitiveness are studied in manufacturing, services, and the public sector with an international perspective. Topics include: global history of quality, foreign competition and its impact on quality and productivity, quality management and continuous improvement, international operations management, quality assessment, and a review of the emergence of quality and competitiveness in government, education and health care.

MGT 347. Management Functions and Processes**3 Credits**

Planning, organizing, directing, and controlling operating units in an organization. Applications to a variety of types of organizations.

MGT 351. Supply Chain Management**3 Credits**

Acquisition and control and delivery of materials, parts, equipment, and services for end use in the organization. Applications to service and manufacturing industries, nonprofit, and governmental institutions.

MGT 359. The Management of Diversity**3 Credits**

Management of diversity in the workplace. Includes concepts of appreciation and management of workforce diversity, a review of research on diversity and organizational performance, individual and group-level factors in understanding diversity, and organizational context factors in managing diversity.

MGT 360V. Negotiation and Business Conflict Resolution: Theory and Practice**3 Credits**

Covers the basics of negotiation theory and practice including the use of quantitative methods and their realistic application in resolving disputes. Application of conflict resolution skills.

MGT 361. Managing a Startup**3 Credits**

Exploration of the tensions and experiences of starting and growing a new company. The course will provide students with the knowledge and experience to increase the likelihood of success whether as a principal in a new company or an investor representative.

MGT 375V. Global Environmental Assessment and Management**3 Credits**

Examines the principles of environmental assessment and management. Topics include global environmental concerns, industrial environmental management, life cycle assessment, system analysis, process improvement, and sustainable development, among others.

MGT 388V. Leadership and Society**3 Credits**

Exploration of the multifaceted nature of leadership in modern society through readings and seminar discussion.

MGT 391. Management Internship and Cooperative Education I**1-3 Credits**

Application of management skills to the work environment. Open only to students majoring or minoring in management. The amount of academic credit (1-3 cr.) will be determined by the academic experience and not by the work experience. May be repeated for a maximum of 3 credits. Restricted to majors and minors.

Prerequisites: MGT 309 and consent of instructor.

MGT 448. Business Consulting**3 Credits**

Study, analysis, and presentation of recommendations for solving significant problems confronting businesses.

MGT 449. Strategic Management**3 Credits**

Integrative approach to envisioning the future and shaping strategies for business success.

Prerequisite(s): BCIS 338 or 350; BLAW 316; FIN 341; MGT 309; MKTG 303; and one of the following: MGT 344 or MGT 470 or BCIS 485.

MGT 451. Selection, Placement, and Performance Evaluation**3 Credits**

Staffing processes for organizations and the evaluation of employee performance. Use of selection methods and measurement of work behavior.

MGT 453. Leadership and Motivation**3 Credits**

Theories of leadership and motivation. Motivational programs for complex organizations. Relationships between organizational power, authority, and management styles. Crosslisted with: I E 453

MGT 454. Work Teams in Organizations**3 Credits**

Theories of small groups and their application to the work situation. Why and how groups form, grow, communicate, and maintain themselves.

Prerequisites: senior or above standing.

MGT 458. Comparative International Management**3 Credits**

Cultural influences on management are examined in a global business environment with a particular emphasis on human behavior in multinational organizations and the management of human resources. Same as I B 458.

MGT 460. Compensation Management**3 Credits**

An overview of wage and salary administration, including job evaluation, wage and salary surveys, program administration, legal aspects of pay systems, and benefits administration.

Prerequisite(s): MGT 332 or consent of instructor.

MGT 461. New Venture Creation**3 Credits**

Via problem-based learning, teams define new business ventures to meet current market needs, develop business plans, and prepare to present to investors. SAME AS MKTG 461

MGT 465. Contemporary Issues in Human Resources Management**3 Credits**

Integrative course in human resources management, emphasizing the application of advanced concepts to complex personnel cases.

Prerequisite: MGT 332.

MGT 466. Managing Electronic Commerce: A Business Models Perspective**3 Credits**

Surveys the emerging Internet technology involving business to business, business to consumer, and consumer to consumer forms of trade. Covers quantitative decision and negotiation analysis techniques as well as auction and market trade mechanisms.

MGT 470. Project Management in Organizations**3 Credits**

Roles, responsibilities, and techniques of project managers in managing projects effectively. Preparation for professional certification.

MGT 490. Selected Topics**1-18 Credits (1-18)**

Seminars in selected current topics in the various areas of management and administration. Prerequisites vary according to the seminar being offered.

MGT 491. Management Internship and Cooperative Education II**1-3 Credits**

Covers the application of management skills to the work environment. The amount of academic credit (1-3 cr.) will be determined by the academic experience and not be the work experience. May be repeated for a maximum of 3 credits. Restricted to majors and minors.

Prerequisite: MGT 309 and consent of instructor.

MGT 498. Independent Study**1-3 Credits**

Individual studies directed by consenting faculty with the prior approval of the department head. A maximum of 3 credits may be earned.

Prerequisites: junior or above standing and consent of instructor.

MGT 502. Operations Management**3 Credits**

Systems and specialized models applied to the management of production facilities and service operations, including physical and human resources.

Prerequisite(s): Graduate students only.

MGT 503. Organizational Behavior and Management Processes**3 Credits**

Covers the theory and practice related to the successful management of human resources in organizations operating within a dynamic global environment. Course goals include developing alternative frameworks for analyzing issues related to human behavior, management science, and organizational structure and theory.

Prerequisite: graduate students only.

MGT 512. Quantitative Analysis for Business Decisions**3 Credits**

Identification, collection, and analysis of an organization's data both internal and external, and use of the resultant information in managerial decision making.

Prerequisite: graduate students only.

MGT 527. Negotiation and Business Dispute Resolution**3 Credits**

Same as BLAW 527.

MGT 545. Seminar in Human Resources Management**3 Credits**

Systems, theories, and methods of managing human resources for optimum productivity.

MGT 548. Business Consulting**3 Credits**

Study, analysis, and presentation of recommendations for solving significant problems confronting businesses. Same as MGT 448 with differentiated assignments for graduate students.

MGT 590. Strategic Management**3 Credits**

Covers the integration of functional, human, technological, and environmental aspects of business within the framework of management policy and strategy formulation. Formulate, implement, evaluate and control the various functions of the organization from a systems perspective. Understand the external environment and its impact on the organization. Restricted to majors.

Prerequisite: M.B.A. student in his or her final semester.

MGT 591. New Venture Creation**3 Credits**

Via problem-based learning, teams define new business ventures to meet current market needs, develop business plans, and prepare to present to investors. Same as MGT 461 with differentiated assignments for graduate students. Crosslisted with: MKTG 591.

MGT 598. Special Research Programs**1-3 Credits**

Individual investigations either analytical or experimental. A maximum of 6 credits may be earned.

Prerequisite: consent of instructor.

MGT 600. Doctoral Research**1-15 Credits**

This course number is used for assigning credit for research performed prior to successful completion of the doctoral qualifying examination. Restricted to management majors.

MGT 601. Research in Management**1 Credit**

Ph.D. course provides opportunities for significant interaction between Management faculty and Management Ph.D. students. The course also provides opportunities for development of professional scholarly standards, ethics, and critiques, as well as insight into current research areas and topics supported by the Management Department and other relevant disciplinary areas. May be repeated for a maximum of 6 credits. Restricted to Ph.D. students. Graded S/U.

MGT 640. Instructional Development for Teaching Business**3 Credits**

Pedagogical issues and techniques in collegiate business education. Includes course and curriculum development, outcomes assessment, class management, and teaching techniques. Practical issues faced in college instruction. Restricted to doctoral students.

MGT 645. Seminar in Human Resources Management**3 Credits**

Seminar will address current issues in human resources management. Focus on research related to the selection, development, and effective use of human resources. Restricted to doctoral students.

MGT 650. Seminar in Organizational Behavior**3 Credits**

Seminar will include specific organizational behavior topics; motivation, leadership, group and inter-group relations, and attitude theory. Focus on current research and theory. Restricted to doctoral students.

MGT 655. Seminar in Organizational Systems and Theory**3 Credits**

Analysis of organizations from a macro perspective. Topics include organizational theory, organizational design, organizational environment, and sociotechnical systems. Restricted to doctoral students.

MGT 660. Research Design and Methodology**3 Credits**

Topics will include philosophy of science, theory building, and research methods applicable to the study of organizational behavior. Restricted to doctoral students.

MGT 661. Qualitative Research Methods**3 Credits**

In-depth coverage of selected topics in research methodology, including theory and logic of scientific investigation, grounded theory, action research, and ethnomethodology. Restricted to doctoral students.

MGT 675. Seminar in Strategic Management**3 Credits**

Survey of current and classical readings in strategy. Introduces the doctoral level student to strategic issues, strategic topics for research, and publication venues. Restricted to doctoral students.

MGT 685. Story Consulting to Organizations**3 Credits**

Apply various qualitative story and narrative research methods (plot analysis, script analysis, life history, and restoring) to action research consulting project. Students will conduct story assessment and (propose or enact) intervention with a local consenting organization. Restricted to doctoral students.

MGT 690. Special Topics**3 Credits**

Seminars in selected current topics in the various areas of management. May be repeated for unlimited credit. Restricted to doctoral students.

Prerequisite(s): Vary according to seminar being offered.

MGT 698. Special Topics**1-3 Credits**

Prerequisite: consent of instructor.

MGT 700. Doctoral Dissertation**15 Credits**

Prerequisite: advancement to candidacy.

MKTG-MARKETING (MKTG)

MKTG 180. PGA Golf Management Freshman Orientation**3 Credits**

Introduction to the Policies and Procedures of the PGA Golf Mgt. Program and the PGA of America Students will also be introduced to the Qualifying Level of the PGA's Educational Program, Rules of Golf, PGA Constitution and the History of the PAG. Additional course fee required. Consent of Instructor required. Restricted to: PGA Golf Management Students. MKTG/PGM majors.

MKTG 181. Level 1, PGA's PGM Education Program (Part 1)**3 Credits**

Introduction of Level 1 of the PGA's Educational Program. This class will focus on Business Planning and Operations, Customer Relations, and the corresponding PGA Work Experience Activities. Additional course fee required. Consent of Instructor required. Restricted to: MKTG/PGM majors.

MKTG 203. Introduction to Marketing**3 Credits**

Covers processes, functions and principles in the current marketing system. Includes role of marketing in the economy, types of markets, product development, distribution channels, pricing and promotion strategies, market research and management of the processes. Community Colleges only.

MKTG 280. Level 1, PGA's PGM Education Program (Part 2)**3 Credits**

Continuation of Level 1 of the PGA's PGM Education Program. This class will focus on Tournament Operations, Golf Car Fleet Management and the corresponding PGA Work Experience Activities. Students will also be required to provide an internship evaluation report. Additional course fee required. Consent of Instructor required. Restricted to: MKTG/PGM majors.

MKTG 281. Level 1, PGA's PGM Education Program (Part 3)**1.5 Credits**

Completion of Level 1 of the PGA's PGM Education Program. This class will focus on Introduction to Teaching and Golf Club Performance and the corresponding PGA Work Experience Activities. Additional course fee required. Consent of Instructor required. Restricted to: MKTG/PGM majors.

MKTG 303. Principles of Marketing**3 Credits**

Process, functions, and principles in the current marketing system.

MKTG 305. Marketing Food and Agricultural Products**3 Credits**

Same as AG E 305. Crosslisted with: AG E 305.

MKTG 310. Marketing Research**3 Credits**

Design, collection analysis, and presentation of research data.

Prerequisites: A ST/STAT 251G or consent of instructor.

MKTG 311V. Consumer Behavior**3 Credits**

The different aspects of consumer behavior and the variables affecting consumer decisions. Analysis of current concepts and models.

MKTG 312. Personal Selling**3 Credits**

Implementation of the promotion process through interpersonal communications between salesperson and prospects. Serving customers by sales representatives.

MKTG 313. Retail Management**3 Credits**

Investigates retail business operations and focuses on the strategic profit model, store location, layout, display, merchandising, operations, and personnel.

MKTG 314. Advertising Strategy**3 Credits**

Utilization of advertising as a business administration function; communication with consumers as a means of attaining marketing goals.

MKTG 317. International Marketing**3 Credits**

Focuses on decisions relating to entering markets, market segmentation, marketing strategies, and tactics in the international arena. Same as IB 317.

MKTG 324. Product/Service Development**3 Credits**

Covers product innovation, development, commercialization and resource recovery, price determination and administration strategies, and complementing planning processes.

MKTG 354. Sports Marketing**3 Credits**

The application of marketing concepts to the sports industry. Topics include fans/customers, products, and promotions across a range of sports.

MKTG 357. Internet and Social Media Marketing**3 Credits**

Focuses on the consumer psychology and marketing strategies at work in advertising and selling brands via the Internet and social media networks.

MKTG 380. Level 2, PGA's PGM Education Program (Part 1)**1.5 Credits**

Introduction to Level 2 of the PGA's PGM Education Program. This class will focus on Merchandising and Inventory Management, Golf Operations and the corresponding PGA Work Experience Activities. Students will also be required to provide an internship evaluation report. Additional course fee required. Consent of Instructor required. Restricted to: MKTG/PGM majors.

MKTG 381. Level 2, PGA's PGM Education Program (Part 2)**1.5 Credits**

Completion of Level 2 of the PGA's PGM Education Program. This class will focus on Turfgrass Management, Intermediate Teaching and Golf Club Alteration and corresponding PGA Work Experience Activities. Additional course fee required. Consent of Instructor required. Restricted to: MKTG/PGM majors.

MKTG 400. Marketing Internship/Field Experience**3 Credits**

Internship of field experience in application of marketing principles. The student must accept an internship before being allowed to enroll in the course. Consent of instructor required. Restricted to MKTG majors.

MKTG 404. Business-to-Business Marketing**3 Credits**

Covers suppliers and buyers roles in industry; procurement, vendor selection, marketing research, selling techniques, sales force management; quality/quantity determination.

MKTG 414. Athletics Business Administration**3 Credits**

This course examines the marketing and operations of sports programs with emphasis on Division I Collegiate Programs. Topics include event management, ticketing, marketing, trademark and licensing, NCAA compliance, development, finance, contracts, facility maintenance, television, and the roles and responsibilities of the coaches.

MKTG 449. Promotion Management**3 Credits**

Covers concepts and problems in the use of advertising, internet marketing, social media marketing, personal selling, publicity, and other forms of promotion; planning, coordination, control, and evaluation of effectiveness.

MKTG 451. Food and Agribusiness Market Assessment and Research**3 Credits**

Same as AG E 451. Consent of Instructor required. Crosslisted with: AG E 451.

MKTG 453. Sales Management**3 Credits**

The nature of the sales management function in industry. Focuses on intra and interdepartmental sales management activities.

Prerequisite(s): MKTG 312.

MKTG 461. New Venture Creation**3 Credits**

Via problem-based learning, teams define new business ventures to meet current market needs, develop business plans and prepare to present to investors. Same as MGT 461.

MKTG 462. Advanced Sales**3 Credits**

Advanced instruction and skill development in interpersonal communication skills to broaden understanding of the professional sales role (especially in team selling situation), career management, personal productivity, negotiation, and coordination with other functional areas. May be repeated up to 3 credits.

Prerequisite(s): MKTG 312.

MKTG 480. Level 3, PGA's PGM Education Program (Part 1)**1.5 Credits**

Introduction to Level 3 of the PGA's PGM Education Program. This class will focus on Human Resource Management/Supervising and Delegating, Food and Beverage and the corresponding PGA Work Experience Activities. Students will also be required to provide an internship evaluation report. Additional course fee required. Consent of Instructor required. Restricted to: MKTG/PGM majors.

MKTG 481. Level 2, PGA's PGM Education Program (Part 2)/ Final Experience**3 Credits**

Completion of Level 3 of the PGA's PGM Education Program. This Class will focus on Advanced Teaching and Club fitting, Player Development/ Teaching Business. The Final Experience and the corresponding PGA Work Experience Activities. Please note that the following are requirements for successful completion of this senior level PGA Golf Management capstone course: 16 months of internship, completion of the Qualifying Level, Level 1, Level 2, and Level 3 of the PGA's PGM Education Program and successful completion of the PGA's Playing Ability Test. Consent of Instructor required. Restricted to: MKTG/PGM majors.

MKTG 489. Strategy and Policy**3 Credits**

Techniques and analysis of marketing strategy and policy planning and formulation.

Prerequisites: senior standing or consent of instructor.

MKTG 490. Selected Topics**1-18 Credits (1-18)**

Covers materials and subjects not offered in regular Marketing courses. Students can take 18 credit hours of MKTG 490 if each class is a different subtitle. A maximum of 18 credit hours can be earned through MKTG 490.

MKTG 498. Independent Study**1-3 Credits**

Individual studies directed by consenting faculty with the prior approval of the department head. A maximum of 3 credits may be earned.

Prerequisites: junior or above standing and consent of instructor.

MKTG 500. Concepts in Marketing**1 Credit**

An overview of fundamental principles of Marketing necessary for prospective MBA students who do not have an undergraduate background in Marketing. Includes: Terminology, basic functions and responsibilities associated with practice of marketing.

Prerequisite(s): Admitted to MBA program or consent of course department.

MKTG 503. Marketing Management**3 Credits**

Analysis of marketing problems and the integration of organizational resources as well as behavioral and quantitative techniques into the development and implementation of solutions. Graduate students only.

Prerequisite(s): MKTG 303 or equivalent with a grade of B or better.

MKTG 591. New Venture Creation**3 Credits**

Via problem-based learning, teams define new business ventures to meet current market needs, develop business plans and prepare to present to investors. Same as MKTG 461 with differentiated assignments for graduate students. Crosslisted with: MGT 591.

MKTG 601. Marketing Management**3 Credits**

Covers the conceptual foundations of contemporary marketing management research, concepts, and literature. Fundamental to the understanding of contemporary marketing and the breadth of the field of marketing study.

MKTG 610. Marketing and the Scientific Method**3 Credits**

Issues related to the evolution of research philosophies and methodologies. Critical to the development of appreciation for the value of research and experimentation.

MKTG 620. Research- Theory Interface**3 Credits**

Theoretical and methodological issues involved in translating a theory into a research study. Prepares Ph.D. students to undertake dissertation research. Consent of instructor required.

MKTG 625. Consumer Behavior**3 Credits**

Extensive reading of seminal and contemporary articles on consumer behavior and developing original research to explore cross-disciplinary issues relevant to the study of marketing.

MKTG 640. Measurement and Structural Equation Modeling**3 Credits**

Explores theories of measurement that underlie all quantitative analysis, including the use of structural equation models. Contrasts classical test theory with item response theory and generalizability theory. Covers PRELIS and LISREL, and critiquing structural equation models by other researchers.

Prerequisite: MKTG 630 or equivalent.

MKTG 670. Marketing Theory**3 Credits**

The evolution, development, construction, and evaluation of the major theoretical perspectives of marketing. Fundamental to the understanding of contemporary marketing and preparation for investigations into the nature and role of theory in marketing.

MKTG 690. Special Topics in Marketing**3 Credits**

A seminar on special topics in marketing. The topic of the course will vary according to the needs of the students in the program and the instructor. Ph.D. students may repeat this course up to three times for a maximum total of 9 credits.

MKTG 698. Selected Topics**1-9 Credits (1-9)**

Materials and subjects not offered in regular marketing courses. May be repeated for a maximum of 18 credits under different subtitles.

MKTG 700. Doctoral Dissertation**15 Credits**

Prerequisite: advancement to candidacy.

MOLB-MOLECULAR BIOLOGY (MOLB)

MOLB 448. Special Research Problems**1-3 Credits**

Individual investigation, theoretical or experimental, under the supervision of a molecular biology faculty member. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

MOLB 520. Molecular Cell Biology**3 Credits**

Same as BIOL 520.

MOLB 542. Biochemistry I**3 Credits**

Same as BCHE 542. B or better required.

MOLB 545. Molecular and Biochemical Genetics**3 Credits**

Same as BCHE 545 and BIOL 545.

MOLB 546. Biochemistry II**3 Credits**

Same as BCHE 546.

MOLB 550. Topics in Molecular Biology**1-3 Credits**

Selected topics of current interest in field of molecular biology for master's level students.

MOLB 590. Discussions in Molecular Biology**1 Credit**

Oral presentations of ongoing research and/or research proposal for the masters thesis. Must be repeated twice for masters and three times for doctoral students. Graded by 2 options: S/U or Letter Grade

MOLB 597. Laboratory Rotations/Research Discussions**1-3 Credits**

All entering students are required to take at least one credit, during their first semester, in which they will circulate through at least three different labs working on assigned problems and discussing research programs. May be repeated for a maximum of 4 credits. Graded S/U.

MOLB 598. Special Research Programs**1-3 Credits**

Individual investigation, experimental or theoretical, under the supervision of a molecular biology faculty member. Course may be repeated up to a total of 6 credits with committee approval.

MOLB 599. Master's Thesis**15 Credits**

Experimental and scholarly research leading to the preparation of a master's thesis.

MOLB 600. Molecular Biology Research**1-15 Credits**

Laboratory research efforts prior to successful completion of doctoral comprehensive exam.

MOLB 650. Advanced Topics in Molecular Biology**1-3 Credits**

Discussions and lectures on topics of current interest in molecular biology for doctoral students.

MOLB 698. Advanced Research Projects**1-9 Credits**

Individualized special research assignments for doctoral-level students. Up to 9 credits, with approval of committee. Graded S/U.

MOLB 700. Doctoral Dissertation Research**15 Credits**

Research for doctoral students after completing comprehensive exams.

MPH-MASTER OF PUBLIC HEALTH (MPH)

MPH 500. Orientation to Public Health**3 Credits**

Introduction to the historical and contemporary perspectives of public health theory and practice. Includes an investigation of public health as a discipline, a profession, and the programmatic attempts to improve health status.

MPH 510. Community and Psychosocial Aspects of Public Health**3 Credits**

Social, behavioral, and educational aspects of disease prevention and health promotion programs. Restricted to MPH majors.

MPH 515. Introduction to Gerontology**3 Credits**

Social, psychological, and physiological aspects of aging with an interdisciplinary emphasis on health promotion. Demographic characteristics of the aging population.

MPH 520. Biostatistical Applications in Public Health**3 Credits**

Quantitative methods for public health students including tabular, graphical, and numerical descriptive methods, random sampling, principles of statistical inference, confidence intervals, statistical tests of hypothesis through analysis of variance and regression. Restricted to MPH majors.

MPH 530. Epidemiological Approaches to Disease Control and Prevention**3 Credits**

Basic epidemiological principles applicable to infectious and noninfectious disease. Descriptive techniques and analytic designs, and application of statistical and epidemiological investigation methods included. Restricted to MPH majors.

MPH 540. Health Services System: Administration and Organization**3 Credits**

This course focuses on using a systems approach to identify and analyze factors and interrelationships that influence the operation of health services organizations. Specific attention is to administrative structures and operations, finance and quality among public health departments, hospitals, multi-institutional systems, integrated health systems and strategic alliances. May be repeated up to 3 credits. Restricted to: MPH majors.

MPH 541. Principles of Health Program Management**3 Credits**

This course prepares the student to assume a supervisory role in the management of health and human services programs. The course will cover essential management functions such as leadership, organizational assessment, planning, decision-making, organizational structure, budgeting, marketing, and human resource management.

MPH 545. Health Services Organization and Delivery**3 Credits**

This course includes the framework of the United States healthcare system; organization and administration of health services; alternate ways of organizing and financing health systems; the roles of the government and free market on health care services; and the barriers to health services delivery.

MPH 546. Public Health Finance and Budget Management**3 Credits**

Introduces health care accounting and finance to non-financial students. Students are exposed to the financial structure of health care organizations and the environment within which they operate. Instruction also introduces the use of accounting and financial information in investor-owned and not-for-profit organizations in the health care industry. Topics include understanding the creation and interpretation of financial statements, financial accounting and reporting requirements, financial analysis, budgeting, and resource allocation.

MPH 547. Public Health Law and Ethics**3 Credits**

This course examines major legal and ethical concepts and their impact on public health policy and practice. The course examines governmental authority, at various jurisdictional levels, to improve public health. This course will focus on public health law in the United States. May be repeated up to 3 credits.

MPH 550. Environmental Public Health Issues**3 Credits**

Environmental health issues from a public health perspective. Restricted to MPH majors.

MPH 557. Health Promotion for the Older Adult**3 Credits**

Common health concerns and lifestyle issues relevant to older adults. Facts about the content area, health behaviors, and practices to promote health and prevent disease; program development strategies applicable to a variety of settings.

MPH 558. Public Health Policy Analysis**3 Credits**

Covers issues related to U.S.-health policy and allocation of resources. Examination of local, state, and federal public health and health care funding. Assessment of impact of health policy on health education, medical practice, and the workplace.

MPH 559. Infectious and Noninfectious Disease Prevention**3 Credits**

History, etiology, and prevention of diseases affecting humans. Consent of Instructor required. Crosslisted with: PHLS 459.

MPH 560. American Indian Health**3 Credits**

Critical health issues facing American Indians in the contemporary world. May be repeated up to 3 credits. Crosslisted with: PHLS 460.

MPH 561. Health Disparities: Determinants and Interventions**3 Credits**

Investigates: descriptions of health disparities and measurement issues; physical environmental factors, behavioral and emotional variables; impact of aging of the populations, increased racial and ethnic diversity, and technological developments; intervention strategies and evaluation results. May be repeated up to 3 credits. Crosslisted with: PHLS 461.

MPH 562. Hispanic Health Issues**3 Credits**

Cultural differences that aid or hinder communication with Hispanic clients and the application of cross-cultural communication skills. Some field trips may be required. May be repeated up to 3 credits. Crosslisted with: PHLS 462.

MPH 564. Cross-Cultural Aspects of Health**3 Credits**

An examination of health practices from a variety of cultural perspectives; communication, observation, research, and assimilation. Issues to be addressed will be examined from a number of viewpoints, such as individual, family, community, and professional roles. May be repeated up to 3 credits. Crosslisted with: PHLS 464.

MPH 565. International Health Problems**3 Credits**

Comparison of domestic health programs and problems with those in other parts of the world; emphasis on political parameters and delivery processes. Additional attention is focused on the health issues of the U.S.-Mexico border. May be repeated up to 3 credits. Crosslisted with: PHLS 465.

MPH 566. International Health Practicum**1-3 Credits**

Intensive examination of health practices and beliefs from a cultural perspective. Focus on health structure, index of diseases, morbidity, mortality and epidemiological approaches to planning. Required travel (personal travel, lodging, and related expenses are extra). May be repeated up to 3 credits. Crosslisted with: PHLS 466.

MPH 567. Rural Health Issues**3 Credits**

Comprehensive overview of rural health services with southwestern United States and New Mexico focus. Crosslisted with: PHLS 467.

MPH 568. Coping with Loss and Grief: A Cross-Cultural Perspective**3 Credits**

A cross-cultural perspective to death, loss and grief. Hospice philosophy of caring for the dying will be included. May be repeated up to 3 credits. Crosslisted with: PHLS 468.

MPH 569. U.S.-Mexico Border Health Issues**3 Credits**

Interdisciplinary analysis of the impact of living conditions and health issues of communities along the U.S.-Mexico border and of the strategies and initiatives to address these issues. Problem-based learning, case analysis, lecture, guest speakers, computer based instruction, and field trips. May be repeated up to 3 credits. Crosslisted with: PHLS 469.

MPH 570. Foundations of Public Health Education**3 Credits**

Social, behavioral, and educational aspects of disease prevention and health promotion. Includes history and theoretical basis of health education.

MPH 571. Health Informatics**3 Credits**

The application of technology to engage communities and individuals in behavioral and environmental change processes. The course will focus on the use of technology to describe the magnitude of health problems and their sources; analyze risk factors; identify community strengths from which strategies may be defined and tools created to intervene, prevent problems, and promote health and well-being; and continuously evaluate, refine, and implement what works. May be repeated up to 3 credits. Crosslisted with: PHLS 471.

MPH 572. Techniques of Health Communication/Education**3 Credits**

Application of a wide range of communication and education theories/methods, including program planning and evaluation, in public health programming. Restricted to: MPH majors.

Prerequisite(s): MPH 510.

MPH 573. Community Organization in Public Health**3 Credits**

Strategies for identifying and involving community leaders, community needs assessment, small area analysis and planning, and community-level development strategies. Restricted to: MPH majors.

Prerequisite(s): MPH 510.

MPH 574. Health Program Planning**3 Credits**

Covers process of successful public health education program planning and grant writing. Restricted to: MPH majors.

Prerequisite(s): MPH 510.

MPH 575. Methods of Community Health Education**3 Credits**

Responsibilities of health educators, analysis of social forces affecting health needs, application of wide range of health education methods and instructional media, and program implementation skills. Crosslisted with: PHLS 475.

Prerequisite(s): MPH 510.

MPH 576. Theoretically-Based Interventions**3 Credits**

Identifying and developing interventions to problematic health-related behaviors. May be repeated up to 3 credits. Crosslisted with: PHLS 476. Restricted to: MPH majors.

Prerequisite(s): MPH 510.

MPH 578. Evaluative Approaches in Public Health**3 Credits**

Survey and analyses of health testing and evaluation procedures, uses and limitations of knowledge and attitude tests, behavioral inventories, check lists, questionnaires, interviews, and other techniques. Restricted to: MPH majors.

Prerequisite(s): MPH 520.

MPH 579. Research and Resources in Community Health**3 Credits**

Exploration of available public health research studies, data, results and implications. Restricted to MPH majors.

Prerequisite(s): MPH 520.

MPH 586. Special Topics**3 Credits**

Specific subjects to be announced in the Schedule of Classes. May be repeated up to 12 credits. Restricted to: MPH majors.

MPH 590. Independent Study**1-6 Credits**

Individual studies with prior approval of department head. May be repeated for a maximum of 6 credits.

MPH 593. Adulthood and Aging**3 Credits**

Normal transitions in later life; those occurring from 40 years of age to the end of life are discussed. Changes in interpersonal relationships and adaptations commonly made by individuals and meeting those alterations are presented through research findings, case studies, and autobiographies.

MPH 596. Field Experience**1-4 Credits**

Student will work in a public health setting under the supervision of an experienced public health professional and will use acquired knowledge and skills to conduct a project which addresses a specific public health problem or program need. Projects are agreed upon by the student and faculty. May be repeated for a maximum of 4 credits. Restricted to MPH majors.

Prerequisite: consent of department head.

MPH 597. Graduate Public Health Seminar**1 Credit**

Capstone seminar for advanced-standing MPH students. Restricted to MPH majors. May be repeated for a maximum of 2 credits.

Prerequisite: MPH 570.

MPH 599. Master's Thesis**1-6 Credits**

Minimum of 4 credits required but may be repeated for a maximum of 6 credits. Restricted to MPH majors. PR grading.

MSW-SOCIAL WORK (MASTERS) (MSW)

MSW 500. Social Problems and Social Welfare Policy**3 Credits**

An overview of social and economic problems in the United States and the historical and current social welfare policies aimed at alleviating these problems. Emphasis on developing an awareness and ability to change policies that impact vulnerable populations. May be repeated up to 3 credits.

MSW 503. Policy Analysis and Change**3 Credits**

This course will emphasize policy practice focusing on policy analysis and creating and implementing policy change. Restricted to MSW majors.

Prerequisite(s): MSW 500.

MSW 509. Sociocultural Concepts and Populations of the Southwest**3 Credits**

Theoretical and sociohistorical perspectives on racism, sexism, ageism, heterosexism, classism, ableism, and other forms of discrimination and oppression. Cultural diversity, strengths, and Southwest and border issues are emphasized.

MSW 510. Human Behavior and the Social Environment I**3 Credits**

The major theories of human behavior and the life span from conception to adolescence. Focuses both on the areas of concern and risk for client systems and on the opportunities and strengths in the social environment. Required. May be repeated up to 3 credits. Restricted to: MSW majors.

Prerequisite(s): Majors or consent of instructor.

MSW 514. Human Behavior & the Social Environment II**1-3 Credits (1-3)**

The major theories of human behavior from young adulthood to old age. This course will focus on both areas of concern and risk for client systems and on the opportunities and strengths in the social environment. Consent of Instructor required. Restricted to: MSW majors.

Prerequisite(s): MSW 510.

MSW 520. Social Work Practice I**3 Credits**

This is the first course of a two-course sequence. An introduction to the generalist crosscultural, social work practice perspective with individuals and families, focusing on social work as a profession, social work knowledge base, professional development, relationship building and assessment with individuals and families within a framework of social work values and ethics. May be repeated up to 3 credits.

Corequisite(s): MSW 549 or MSW 551.

Prerequisite(s)/Corequisite(s): MSW 510. Restricted to: MSW majors.

MSW 521. Social Work Practice II**3 Credits**

This is the second course of a two-course sequence. A continuation of the generalist crosscultural, social work practice perspective with individuals and families, focusing on goal setting, contracting, implementation, and outcome assessment. The course also applies the generalist practice perspective and methods to larger systems: groups, organizations, and communities and includes relationship building, assessment, goal setting, contracting, implementation and outcome assessment within a framework of social work values and ethics. May be repeated up to 3 credits. Restricted to: MSW majors.

Prerequisite(s): MSW 520.

Corequisite(s): MSW 550 or MSW 552.

MSW 524. Practice III: Advanced Practice with Individuals**3 Credits**

This class builds on Foundation Year Practice courses (MSW 520, 521) by integrating theory and practice, and advancing skills in selecting, applying and evaluating practice interventions in a culturally sensitive manner with individuals. May be repeated up to 3 credits. Restricted to: MSW majors.

Prerequisite(s): MSW 520, MSW 521.

Corequisite(s): MSW 554 or MSW 556.

MSW 525. Practice IV: Advanced Generalist Practice with Groups**3 Credits**

This course will address the knowledge, values and skills needed to work effectively with diverse populations in group settings. The course will build on Foundation Year courses (MSW 520 and 521) by integrating theory and practice, and advancing skills in selecting, applying and evaluating practice interventions in a culturally sensitive manner with social work groups. May be repeated up to 3 credits. Restricted to: MSW majors.

Prerequisite(s): MSW 520, MSW 521, MSW 551 or MSW 549, MSW 552 or MSW 550.

Corequisite(s): MSW 554 or MSW 556.

MSW 526. Practice V: Advanced Practice with Families**3 Credits**

This class builds on Foundation Year Practice courses (MSW 520 and 521) by integrating theory and practice, and advancing skills in selecting, applying, and evaluating practice interventions in a culturally sensitive manner with families. May be repeated up to 3 credits. Restricted to: S WK, MSW majors.

Prerequisite(s): MSW 520, MSW 521, MSW 552 or MSW 550.

Corequisite(s): MSW 555 or MSW 557.

MSW 527. Practice VI: Advanced Practice with Organizations and**Communities****3 Credits**

This class builds on Foundation Year Practice courses (MSW 520, 521) by integrating theory and practice, and advancing skills in selecting, applying, and evaluating practice interventions in a culturally sensitive manner with organizations and communities. May be repeated up to 3 credits. Restricted to: MSW majors.

Prerequisite(s): MSW 520, MSW 521, MSW 524, MSW 525.

Corequisite(s): MSW 526, MSW 555 or MSW 557.

MSW 547. Social Work Mental Health Practice**3 Credits**

This course is designed to add to the practice sequence for Masters Level students in Social Work. It addresses social work assessment of major mental health issues across the life span with an emphasis on resiliency and coping skills. Culturally responsive practices are applied to the major issues of mental health. Basic psychopharmacology, neurobiology and the ways in which Social Workers interact with clients to aid education and effective treatment of medical interventions will be a prominent part of this course. Evidence-based practices useful for work in various disorders will be incorporated. Restricted to: MSW majors.

MSW 549. Generalist Field Practicum A**3 Credits**

Supervised professional practice in a community social service agency, providing experiential instruction and learning; seminar required.

Evaluation criteria for this course will include upholding social work practice standards for interpersonal and ethical conduct. Total of 225 hours in the field each semester is required. 3 credits each semester. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): MSW 509, MSW 510, MSW 520. Restricted to: MSW majors. S/U Grading (S/U, Audit).

MSW 550. Generalist Field Practicum B**3 Credits**

Supervised professional practice in a community social service agency, providing experiential instruction and learning; seminar required.

Evaluation criteria for this course will include upholding social work practice standards for interpersonal and ethical conduct. Total of 225 hours in the field each semester is required. Letter grade, 3 credits each semester. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): MSW 500, MSW 521, MSW 560. Restricted to: MSW majors. S/U Grading (S/U, Audit).

MSW 551. Generalist Field Practicum I**6 Credits**

Supervised professional practice in a community social service agency, providing experiential instruction and learning. 225 clock hours required. Seminar required. Graded: S/U. Pre/

Prerequisite(s)/Corequisite(s): MSW 509, MSW 510, MSW 520. Restricted to: MSW majors. S/U Grading (S/U, Audit).

MSW 552. Generalist Field Practicum II**6 Credits**

Supervised professional practice in a community social service agency. 225 clock hours required. Seminar required. Restricted to: MSW majors.

S/U Grading (S/U, Audit).

Prerequisite(s): MSW 510, MSW 520, MSW 551 or MSW 549.

Corequisite(s): MSW 500, MSW 521, MSW 560.

MSW 554. Advanced Generalist Field Experience I**6 Credits**

Supervised professional practice in a community social service agency providing experiential learning in advanced generalist practice. 250 clock hours required. Seminar required. Restricted to: MSW majors. S/U Grading (S/U, Audit).

Prerequisite(s): MSW 552 or MSW 550.

Corequisite(s): MSW 524, MSW 525.

MSW 555. Advanced Generalist Field Experience II**6 Credits**

Supervised professional practice in a community social service agency providing experiential learning in advanced generalist practice. 250 clock hours required. Seminar required. Restricted to: MSW majors. S/U Grading (S/U, Audit).

Prerequisite(s): MSW 554 or MSW 556.

Corequisite(s): MSW 526, MSW 527.

MSW 556. Advanced Generalist Field Practicum A**3 Credits**

Supervised professional practice in a community social service agency, providing experiential instruction and learning in advanced generalist practice: seminar required. Total of 250 hours in the field each semester is required. Letter grade, 3 credits each semester. May be repeated up to 3 credits. Restricted to: MSW majors. S/U Grading (S/U, Audit).

Prerequisite(s): MSW 550 or MSW 552.

Corequisite(s): MSW 524, MSW 525.

MSW 557. Advanced Generalist Field Practicum B**3 Credits**

Supervised professional practice in a community social service agency, providing experiential instruction and learning in advanced generalist practice: seminar required. Total of 250 hours in the field each semester is required. Letter grade, 3 credits each semester. May be repeated up to 3 credits. Restricted to: MSW majors. S/U Grading (S/U, Audit).

Prerequisite(s): MSW 554 or MSW 556.

Corequisite(s): MSW 526, MSW 527.

MSW 559. Social Work Practice & Research for Advanced Standing**4 Credits**

This course is required for all advanced standing students and targets provision of the conceptual orientation for the concentration year of the MSW program. The goal of this course is to enhance social work practice theory, knowledge and application skills as well as knowledge in preparation for concentration year courses in advanced generalist social work practice. The key themes and concepts presented, explored and analyzed in this course include: the fit between Social Work code of ethics and personal values and belief systems; analysis of theory, ethics, and conceptual frameworks for concentration year advanced evidenced based Social Work practice courses in diverse settings. Restricted to: MSW Advanced Standing majors.

MSW 560. Social Work Research I**3 Credits**

Introduction to analytical skills used in social work research: problem formulation, research designs, measurement, instrumentation, data collection and analysis, use of human participants in research, and application of research knowledge and professional ethics to social work practice. May be repeated up to 3 credits. Restricted to: MSW majors.

MSW 562. Social Work Research II**3 Credits**

Focused on advanced generalist practice research in multicultural settings. Advanced skills to evaluate practice with individuals, families, groups, organizations, and communities in multicultural settings. Needs assessment as well as program and practice evaluation are emphasized. Restricted to: MSW majors.

Corequisite(s): MSW 560.

MSW 566. Generalist Field Seminar I**3 Credits**

The field seminar assists the student in fortifying a relationship between classroom knowledge and the field experience. In addition, it assists the student in the integration of social work practice processes in service planning and delivery. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): MSW 551 or MSW 549, MSW 509, MSW 510, MSW 520. Restricted to: MSW majors. S/U Grading (S/U, Audit).

MSW 567. Generalist Field Seminar II**3 Credits**

The field seminar assists the student in fortifying a relationship between classroom knowledge and the field experience. In addition, it assists the student in the integration of social work practice processes in service planning and delivery. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): MSW 552 or MSW 550, MSW 521, MSW 560. Restricted to: MSW majors. S/U Grading (S/U, Audit).

MSW 568. Advanced Generalist Field Seminar I**3 Credits**

The field seminar assists the student in fortifying a relationship between classroom knowledge and the field experience. In addition, it assists the student in the integration of social work practice processes in service planning and delivery. Restricted to: MSW majors. S/U Grading (S/U, Audit).

Prerequisite(s): MSW 567 and MSW 552.

Corequisite(s): MSW 554 or MSW 556, MSW 524 and MSW 525.

MSW 569. Advanced Generalist Field Seminar II**3 Credits**

The field seminar assists the student in fortifying a relationship between classroom knowledge and the field experience. In addition, it assists the student in the integration of social work practice processes in service planning and delivery. Restricted to: MSW majors. S/U Grading (S/U, Audit).

Prerequisite(s): MSW 568 and MSW 554.

Corequisite(s): MSW 555 or MSW 557, MSW 526 and MSW 527.

MSW 590. Family and Child Welfare Policy**3 Credits**

This course will enhance students' ability to offer child welfare services that respect cultural differences, reflect current policy knowledge concerning child maltreatment, build on the advocacy and protective capacities of individuals, families and communities and encourage permanency for children and preservation of families. Required basic knowledge of child welfare and assessment skills. Outside majors require instructor permission. May be repeated up to 3 credits.

MSW 591. Systemic Integration of Alcohol and Drug Issues**3 Credits**

Capstone course for the alcohol and drug minor. Covers community, agency, and systemic facilitation of prevention and intervention services for substance-affected families.

Prerequisite(s): acceptance into minor or Instructor permission.

MSW 595. Independent Study**1-3 Credits**

Individual study to augment depth of knowledge in area related to course of study. May be repeated for maximum of 6 credits.

Prerequisite: consent of instructor.

MSW 597. Special Topics**1-3 Credits**

Specific subjects to be announced in the Schedule of Classes. Open to graduate students in related disciplines and to community professionals in related disciplines and to community professionals in related fields. May be repeated for unlimited credit under different subtitles.

Prerequisite: consent of instructor.

MSW 599. Graduate Thesis**6 Credits**

Required for thesis option. May be repeated for a maximum of 6 credits. Restricted to MSW students.

Prerequisite: consent of instructor.

MUS-MUSIC (MUS)

MUS 101G. An Introduction to Music**3 Credits**

An introduction to music for the non-music major to encourage the enjoyment of listening to and understanding the world's great music from the past to the present.

MUS 102. Fundamentals of Music**3 Credits**

Introduction to music notation, meter and rhythm, scales, intervals, triads, seventh chords, fundamentals of harmonic progression, and aural skills. For students with little or no music theory background. Traditional Grading with RR.

MUS 103. Ear Training I**1 Credit**

To develop the ability to accurately hear, identify, sing and notate musical elements including rhythm, melody, intervals and harmony Traditional Grading with RR. Restricted to Las Cruces campus only.

Prerequisite(s): Passing the Theory Placement exam or making a C or better in MUS 102.

MUS 104. Ear Training II**1 Credit**

To develop the ability to accurately hear, identify, sing and notate musical elements including rhythm, melody, intervals and harmony Restricted to Las Cruces campus only.

Prerequisite(s): Grade of C- or better in MUS 103.

MUS 105. Music Theory I**3 Credits**

Introduction to vocabulary and syntax of 4-voice 18th c. chorale music through study and harmonic analysis.

Prerequisite(s): Passing the Theory Placement exam or making a C or better in MUS 102.

MUS 106. Music Theory II**3 Credits**

Expansion of vocabulary and syntax of 4-voice 18th c. chorale music through study, harmonic analysis, and part writing.

Prerequisite(s): Grade of C or better in MUS 105.

MUS 117. Jazz Improvisation**2 Credits**

Techniques for extemporaneous playing; jazz harmonic practice. Traditional Grading with RR. Restricted to Las Cruces campus only.

Prerequisite(s): A grade of C or better in MUS 103 and MUS 105.

MUS 121. Concert and Recital Laboratory**0.5 Credits**

Serves as a resource and performance lab for all applied areas of musical study. Music majors are expected to perform during the weekly student recital and must attend a designated number of musical performances during the semester. May be repeated up to 4 credits. Restricted to: Music and Music Education majors. S/U Grading with RR. Restricted to Las Cruces campus only.

MUS 130. Applied Music**1-2 Credits**

Private or group instruction for non-music majors, secondary instruments, and music majors preparing for 200-level applied music. May be taken for unlimited credit.

MUS 141. Class Voice I**1 Credit**

Group instruction in voice and vocal pedagogy for instrumental Music Education majors, offering basic principles of healthy vocal production with particular attention to diction, development of vocal range, and the ability to impart that knowledge to elementary, junior and/or high school age students. Restricted to: Music Education majors. Traditional Grading with RR. Restricted to Las Cruces campus only.

MUS 145. Functional Piano I**2 Credits**

Scales, chords, memorization. Harmonization of simple melodies with the ability to play simple melodies and rhythms. May be taken for unlimited credit. Restricted to music majors. No S/U option.

MUS 146. Functional Piano II**2 Credits**

Scales, chords, memorization. Harmonization of simple melodies with the ability to play simple melodies and rhythms. May be taken for unlimited credit. Restricted to music majors. No S/U option.

Prerequisite: MUS 145 or consent of instructor.

MUS 147. Functional Piano III**2 Credits**

For music majors preparing for the Piano Proficiency Examination. May be taken for unlimited credit. Restricted to music majors. No S/U option.

Prerequisite: MUS 146 or consent of instructor.

MUS 150. Orchestra**1 Credit**

Participation in the Las Cruces Symphony at NMSU. This is a full symphony orchestra concentrating on masterworks of the literature. May be taken for unlimited credit.

MUS 151. Philharmonic Orchestra**1 Credit**

The University Philharmonic Orchestra is open to all students and performs a wide variety of standard orchestral literature. The orchestra performs each semester and the objectives include refining technique, stylistic characteristics, intonation, balance, bowings, color, rhythmic integrity and dynamics. May be repeated up to 10 credits. Restricted to Las Cruces campus only.

Prerequisite(s): by audition only.

MUS 160. University Singers**1 Credit**

Select concert and touring choir of undergraduate and graduate students performing a cappella and accompanied choral literature. May be repeated up to 10 credits. Restricted to Las Cruces campus only.

Prerequisite(s): By audition only.

MUS 161. Concert Choir**1 Credit**

Campus choir composed of both music and non-music majors. Emphasis on vocal techniques, sight-singing, and basics of choral musicianship. May be taken for unlimited credit.

MUS 162. Master Works Chorus**1 Credit**

Combination campus and community chorus. This group will perform the major chorale compositions for orchestra and/or wind ensemble. May be taken for unlimited credit.

MUS 163. Jazz Ensembles**1 Credit**

Performance ensemble that explore repertoire written for big band, including (but not limited to) dance band, swing, and contemporary compositions. May be repeated up to 10 credits. Restricted to Las Cruces campus only.

Prerequisite(s): By audition only.

MUS 164. Chamber Ensembles**1 Credit**

Small groups of singers and/or instrumentalists that perform chamber music. May be repeated up to 16 credits. Restricted to Las Cruces campus only.

Prerequisite(s): by audition only.

MUS 170. Wind Symphony**1 Credit**

This elite ensemble of 50 highly qualified graduate and undergraduate students performs a varied repertoire of the highest quality literature for winds. Members will also perform concerts of chamber winds literature each semester. This ensemble is dedicated to professional level performance while fostering the musical growth of its members. Conducted by the Director of Bands, this group serves as the flagship for the entire university bands program. May be repeated up to 10 credits. Restricted to Las Cruces campus only.

Prerequisite(s): By audition only.

MUS 171. Roadrunner Revue Pep Band**1 Credit**

For both music and nonmusic majors. Opportunity to perform a variety of music in a showband setting. May be taken for unlimited credit.

Prerequisite: by audition only; contact band office for date and time.

MUS 172. Marching Band**1 Credit**

For both music and nonmusic majors. Opportunity to perform all varieties of music in a contemporary styled marching unit. May be taken for unlimited credit.

MUS 174. Percussion Ensemble**1 Credit**

Study and performance of contemporary percussion ensemble literature. May be repeated up to 5 credits. Restricted to Las Cruces campus only.

Prerequisite(s): by audition only.

MUS 180. Symphonic Band**1 Credit**

This is a select large ensemble, chosen by audition. It provides a challenging musical environment for skilled performers by programming repertoire that ranges from works for chamber winds, to standards of the wind band literature, to cutting edge literature. Conducted by the Associate Director of Bands, this ensemble is comprised of music majors and non-music majors alike and provides the less experienced student an opportunity to hone and refine performance skills. May be repeated up to 10 credits. Restricted to Las Cruces campus only.

Prerequisite(s): By audition only.

MUS 181. Campus Band**1 Credit**

This is a non-auditioned ensemble designed to meet the needs of students from all majors across campus. Music majors are encouraged to enroll while performing on a secondary instrument. Marching band members are also encouraged to take the course to build skills and leadership. This ensemble provides an educational experience and serves as an outlet for students who wish to remain musically active in a less intense setting. May be repeated up to 10 credits. Restricted to Las Cruces campus only.

MUS 201G. History of Jazz in Popular Music: A Blending of Cultures
3 Credits

Jazz in popular music as it relates to music history and the development of world cultures.

MUS 202. An Introduction to World Music, Jazz and Music Research
3 Credits

Introduces world music and jazz within a historical and cultural context, considering significant musical figures, forms, genres, styles, and representative works. A major component will be the development of effective research and scholarly writing skills for the music major or minor. May be repeated up to 3 credits. Restricted to: Music majors and minors. majors. Restricted to Las Cruces campus only.

MUS 203. Ear Training III**1 Credit**

Continuation of MUS 104, advanced sight singing, dictation. Restricted to Las Cruces campus only.

Prerequisite(s): Grade of C- or better in MUS 104.

MUS 204. Ear Training IV**1 Credit**

Continuation of MUS 203, advanced sight singing, dictation. Restricted to Las Cruces campus only.

Prerequisite(s): Grade of C or better in MUS 203 and MUS 205.

MUS 205. Music Theory III
3 Credits

Analysis of Baroque and Classical Music. Vocabulary and syntax of 18th and 19th c. Western art music through study, chordal/formal analysis, and composition. Restricted to Las Cruces campus only.

Prerequisite(s): Grade of C or better in MUS 106.

MUS 206. Music Theory IV
3 Credits

Analysis of Romantic, Post-Romantic, Impressionist, and Twelve-Tone Music. Vocabulary and syntax of late 19th and early 20th c. Western art music through study, micro/macro analysis, and composition. Restricted to Las Cruces campus only.

Prerequisite(s): Grade of C or better in MUS 205.

MUS 207. Music History and Literature: Antiquity through Baroque
3 Credits

Surveys Western art music within a historical and cultural context, considering significant musical figures, forms, genres, styles, and representative works from antiquity through the end of the Baroque era. An additional emphasis will be given to effective research and scholarly writing skills. Restricted to: M ED, MUS majors.

Prerequisite(s): A grade of C- or better in MUS 103, 105, and 202.

MUS 230. Applied Music I
1-4 Credits

Individual instruction to develop technique, musicianship, performance and improvisational skills, as well as knowledge of significant repertoire. May be repeated up to 16 credits. Consent of Instructor required.

Restricted to: Music and Music Education majors. Traditional Grading with RR. Restricted to Las Cruces campus only.

Prerequisite(s): Audition.

MUS 250. Introduction to Music Education
2 Credits

Overview of the basic principals and practices of the music education profession in K-12 settings, emphasizing philosophy and history of music education, methodologies commonly utilized in school curricula, music in special education, classroom/rehearsal management and lesson planning. Explores many aspects of public school teaching through class discussions and directed observations. Restricted to Las Cruces campus only.

MUS 251. Opera Workshop
1 Credit

Study, translation, analysis, rehearsal and performance of opera. May be repeated up to 10 credits. Restricted to Las Cruces campus only.

Prerequisite(s): by audition only.

MUS 260. Special Topics I
1-3 Credits

Emphasis on special areas of music; designed for highly motivated students. May be taken for unlimited credit.

MUS 261. Functional Piano IV
2 Credits

For music majors preparing for Piano Proficiency Examination. May be taken for unlimited credit. Restricted to music majors. No S/U option.

Prerequisite: MUS 147 or consent of instructor.

MUS 262. Diction I
2 Credits

Introduction to the international phonetic alphabet, and its application to English, Italian, Spanish, and Latin song literature. Main campus only. Restricted to Las Cruces campus only.

MUS 263. Diction II
2 Credits

Advanced grammar and detailed study of Italian, German and French diction and song literature for vocal students. Restricted to music majors. Main campus only.

Prerequisite: MUS 262 or consent of instructor.

MUS 273. Introduction to Music Technology
1 Credit

Introduction to uses of technology in musical settings. Practical applications in digital music notation, MIDI sequencing, and digital audio recording. Restricted to: MUS, M ED majors. Traditional Grading with RR. Restricted to Las Cruces campus only.

Prerequisite(s): MUS 105.

MUS 301. Marching Band Techniques
2 Credits

This course will help students develop the techniques needed to administer and teach all aspects of a contemporary high school marching band. This includes drill conception and design, instruction, organization, and administration. Stylistic varieties of marching fundamentals, show conception, fundamentals of charting and teaching drill, computer-aided drill design, traditional show design, contemporary show design, rehearsal techniques, and organizational concepts. Restricted to: Music, Music Education majors. Traditional Grading with RR.

MUS 302. Music History and Literature: Classic through Romantic
3 Credits

Surveys Western art music within a historical and cultural context, considering significant musical figures, forms, genres, styles, and representative works from the beginnings of the Classic era through the end of the Romantic era. An additional emphasis will be given to effective research and scholarly writing skills. Restricted to: Music Majors and Minors majors.

Prerequisite(s): A grade of C- or better in MUS 207.

MUS 303. Music History and Literature: 20th Century Through the Present
3 Credits

Surveys Western art music within a historical and cultural context, considering significant musical figures, forms, genres, styles, and representative works from the beginning of the 20th Century through the Present. An additional emphasis will be given to effective research and scholarly writing skills. Restricted to: MUS minors and majors.

Prerequisite(s): A grade of C- or better in MUS 302.

MUS 315. Brass Techniques I
1 Credit

Methods and techniques of teaching high brass instruments, for music education majors. Main campus only.

MUS 316. Brass Techniques II
1 Credit

Methods and techniques of teaching low brass instruments, for music education majors. Main campus only.

MUS 317. Woodwind Techniques I
1 Credit

Methods and techniques of teaching high woodwind instruments, for music education majors. Main campus only.

MUS 318. Woodwind Techniques II
1 Credit

Methods and techniques of teaching saxophone and double reed instruments, for music education majors. Main campus only.

MUS 319. String Techniques I
1 Credit

Methods and techniques of teaching low string instruments, for music education majors. Main campus only.

MUS 320. String Technique II
1 Credit

Methods and techniques of teaching high string instruments, for music education majors. Main campus only.

MUS 321. Instrumental Techniques for Vocal Music Education Majors
2 Credits

Methods of teaching brass, woodwind, percussion, stringed and fretted instruments for vocal music education majors. Restricted to: Music and Music Education majors. Traditional Grading with RR.

MUS 322. Guitar Methods**1 Credit**

Methods and techniques of teaching guitar, for Music Education majors. Restricted to: Music and Music Education majors. Traditional Grading with RR.

MUS 323. Percussion Technique I**1 Credit**

Methods and techniques of teaching percussion instruments with a focus on snare drum, timpani and accessory. Restricted to: Music and Music Education majors. Traditional Grading with RR.

MUS 324. Percussion Technique II**1 Credit**

Methods and techniques of teaching percussion instruments with a focus on keyboard percussion, marching percussion and drum set. Restricted to: Music and Music Education majors. Traditional Grading with RR.

MUS 325. Beginning Conducting**1 Credit**

A study of the fundamentals of conducting and rehearsal strategies with an emphasis on beginning technique applicable to all ensembles. Reading of musical scores with application via laboratory ensemble experience is included. Restricted to: Music and Music Education majors. Traditional Grading with RR.

Prerequisite(s): A grade of C or better in MUS 204 and 206.

MUS 326. Instrumental Conducting**3 Credits**

Will continue from MUS 325 in the training for competent musicianship with a focus on conducting gestures and movements, score study, and rehearsal techniques as it relates to the instrumental ensemble. The class will focus primarily on the development of a non-verbal vocabulary that will allow each student to clearly and artistically communicate with the members of an ensemble to solicit a predetermined musical result. May be repeated up to 3 credits. Restricted to: MUS, M ED majors. Traditional Grading with RR.

Prerequisite(s): A grade of C- or better in MUS 325.

MUS 327. Choral Conducting**3 Credits**

Continuation of conducting study with emphasis on choral rehearsal techniques, ensemble management, and literature. Restricted to: Music and Music Education majors. Traditional Grading with RR.

Prerequisite(s): A grade of C or better in MUS 325.

MUS 330. Applied Music II**1-4 Credits**

Continuation from MUS 230. Individual instruction to develop technique, musicianship, performance and improvisational skills, as well as knowledge of significant repertoire. May be repeated up to 16 credits. Consent of Instructor required. Restricted to: Music and Music Education majors. Traditional Grading with RR.

Prerequisite(s): A grade of C or better in MUS 230 plus a juried audition.

MUS 339. Survey of Music Business**3 Credits**

Survey of career options and exploration of current events/trends within the Music Industry. Non-Music Business majors may be admitted with instructor's approval.

MUS 340. Junior Recital**1 Credit**

Public solo performance under the supervision of the appropriate applied instructor. 30 minutes of musical performance is required. Consent of Instructor required. Restricted to: Music and Music Education majors. Traditional Grading with RR.

Corequisite(s): MUS 330.

MUS 346. Elementary Music Methods**2 Credits**

Lesson planning, curriculum, teaching methodology, materials, and procedures for teaching music in an elementary school. Emphasis on methodology of Koday and Orff, teaching in a multicultural setting, and developing reflective practitioners. This course requires field experience in the public schools. Restricted to: Music Education majors.

Prerequisite(s): A grade of C or better in MUS 250 and passing the TEP exam.

MUS 349. Secondary Music Methods**2 Credits**

Lesson planning, curriculum, teaching methodology, materials, and procedures for teaching music in the middle school and high school. Emphasis on teaching in a multicultural setting and developing reflective practitioners. Restricted to: Music Education majors.

Prerequisite(s): A grade of C or better in MUS 346.

MUS 350. Chamber Music**1 Credit**

Small performing ensembles that may include strings, woodwinds, brass, pianos, percussion, and voices. May be repeated up to 16 credits.

Prerequisite(s): by audition only.

MUS 351. Opera Workshop**1 Credit**

Study, translation analysis, rehearsal and performance of opera. May be repeated up to 10 credits.

Prerequisite(s): by audition only.

MUS 360. Special Topics II**1-3 Credits**

Emphasis on special areas of music; designed for highly motivated students. May be taken for unlimited credit.

MUS 361. Concert Choir II**1 Credit**

Composed of both music and nonmusic majors. Emphasis on vocal techniques, sight-singing, and basics of choral musicianship. Students must assume leadership role. May be repeated up to 88 credits.

Prerequisite(s): by audition only.

MUS 362. Philharmonic Orchestra II**1 Credit**

The University Philharmonic Orchestra is open to all students and performs a wide variety of standard orchestral literature. The orchestra performs each semester and the objectives include refining technique, stylistic characteristics, intonation, balance, bowings, color, rhythmic integrity and dynamics. May be repeated up to 10 credits.

Prerequisite(s): by audition only.

MUS 363. Jazz Ensembles II**1 Credit**

Performance ensemble that explore repertoire written for big band, including (but not limited to) dance band, swing, and contemporary compositions. May be repeated up to 10 credits.

Prerequisite(s): by audition only.

MUS 365. Composition I**2 Credits**

Significant forms for various media. Emphasis on structural aspects of original composition. Restricted to: M ED, MUS majors.

Prerequisite(s): A grade of B or better in MUS 105.

MUS 366. Composition II**2 Credits**

Applied larger forms. Emphasis on larger vocal and instrumental works.

Prerequisite(s): B or better in MUS 365.

MUS 368. University Singers II**1 Credit**

Select concert and touring choir of undergraduate and graduate students performing a cappella and accompanied choral literature. May be repeated up to 10 credits. Consent of Instructor required.

Prerequisite(s): by audition only.

MUS 370. Wind Symphony II**1 Credit**

This elite ensemble of 50 highly qualified graduate and undergraduate students performs a varied repertoire of the highest quality literature for winds. Members will also perform concerts of chamber winds literature each semester. This ensemble is dedicated to professional level performance while fostering the musical growth of its members. Conducted by the Director of Bands, this group serves as the flagship for the entire university bands program. May be repeated up to 10 credits.

Prerequisite(s): by audition only.

MUS 372. Marching Band II**1 Credit**

Composed of both majors and nonmajors. Opportunity to perform all varieties of music in a contemporary style marching unit. May be repeated up to 5 credits. Consent of Instructor required. Traditional Grading with RR.

MUS 374. Percussion Ensembles II**1 Credit**

Study and performance of contemporary percussion ensemble literature. Students must assume a leadership role. May be repeated up to 5 credits.

Prerequisite(s): by audition only.

MUS 380. Symphonic Band II**1 Credit**

This is a select large ensemble, chosen by audition. It provides a challenging musical environment for skilled performers by programming repertoire that ranges from works for chamber winds, to standards of the wind band literature, to cutting edge literature. Conducted by the Associate Director of Bands, this ensemble is comprised of music majors and non-music majors alike and provides the less experienced student an opportunity to hone and refine performance skills. May be repeated up to 10 credits.

Prerequisite(s): by audition only.

MUS 381. Campus Band II**1 Credit**

This is a non-auditioned ensemble designed to meet the needs of students from all majors across campus. Music majors are encouraged to enroll while performing on a secondary instrument. Marching band members are also encouraged to take the course to build skills and leadership. This ensemble provides an educational experience and serves as an outlet for students who wish to remain musically active in a less intense setting. May be repeated up to 10 credits.

MUS 386. Applied Music Pedagogy and Literature I**2 Credits**

Methods, materials, problems, literature, and techniques in teaching individual lessons. Consent of Instructor required. Restricted to: Music and Music Education majors. Traditional Grading with RR.

MUS 390. Survey of Wind Literature**2 Credits**

An examination of beginning to advanced literature for wind bands with an emphasis on the needs of middle and high school ensembles. It will include a means to determine the quality of a piece as well as the standardized level of difficulty (grading). Restricted to: Music and Music Education majors.

Prerequisite(s): A grade of C- or better in MUS 204 and 206.

MUS 391. Survey of Orchestral Literature**2 Credits**

An examination of beginning to advanced literature for both string orchestra and symphony orchestra with an emphasis on the needs of middle and high school ensembles. A means to determine the quality of a piece as well as the standardized level of difficulty (grading) will be included. Restricted to: Music and Music Education majors.

Prerequisite(s): A grade of C- or better in MUS 204 and 206.

MUS 392. Survey of Choral Literature**2 Credits**

An examination of beginning to advanced literature for choir with an emphasis on the needs of middle and high school ensembles. A means to determine the quality of a piece as well as the standardized level of difficulty (grading) will be included. Restricted to: Music and Music Education majors.

Prerequisite(s): A grade of C- or better in MUS 204 and 206.

MUS 413. Form and Analysis**3 Credits**

Forms in tonal music and basic analytic techniques including music from diverse cultures and media.

Prerequisite(s): A grade of C- or better in MUS 204 and MUS 206.

MUS 415. Orchestration**3 Credits**

Scoring for full orchestra and various instrumental combinations with consideration of instrument timbres, strengths, weaknesses and ranges. Restricted to: Music and Music Education majors.

Prerequisite(s): A grade of C or better in MUS 204 and 206.

MUS 417. Studio Accompanying**2 Credits**

Practical application of collaborative piano skills in a studio setting for Piano Performance majors. May be repeated up to 8 credits. Consent of Instructor required. Restricted to: Music and Music Education majors. Traditional Grading with RR.

MUS 420. Music of the Middle Ages and Renaissance**3 Credits**

An overview of the music of the Middle Ages and Renaissance eras with an emphasis on history and literature.

Prerequisite(s): MUS 303.

MUS 421. Music of the Baroque Era**3 Credits**

An overview of the music of the Baroque era with an emphasis on history and literature.

Prerequisite(s): MUS 303.

MUS 422. Music of the Classic Era**3 Credits**

An overview of the music of the Classic era with an emphasis on history and literature.

Prerequisite(s): MUS 303.

MUS 423. Music of the Romantic Era**3 Credits**

An overview of the music of the Romantic era with an emphasis on history and literature.

Prerequisite(s): MUS 303.

MUS 424. Music of the Twentieth Century**3 Credits**

An overview of the music of the Twentieth Century with an emphasis on history and literature. Consent of Instructor required.

Prerequisite(s): MUS 303.

MUS 429. Opera and Music Drama**3 Credits**

Lyrical drama of the Greeks through works of Wagner and Verdi to contemporary opera.

Prerequisite: MUS 303 or consent of instructor.

MUS 430. Applied Music III**1-4 Credits**

Continuation from MUS 330. Individual instruction to develop technique, musicianship, performance and improvisational skills, as well as knowledge of significant repertoire. May be repeated up to 16 credits. Consent of Instructor required. Restricted to: Music and Music Education majors. Traditional Grading with RR.

Prerequisite(s): A grade of C or better in MUS 330 plus a juried audition.

MUS 440. Senior Recital**1-2 Credits (1-2)**

Public solo performance under the supervision of the appropriate applied instructor. 60 minutes of musical performance is required for enrollment of 2 hours credit. 30 minutes of musical performance is required for enrollment of 1 hour credit. Consent of Instructor required. Restricted to: Music and Music Education majors. Traditional Grading with RR.

Corequisite(s): MUS 430.

MUS 441. Supervised Studio Teaching**2 Credits**

Teaching of private lessons under supervision. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: Music and Music Education majors. Traditional Grading with RR.

MUS 450. Research Methods**3 Credits**

Introduction to methodology of music research. Emphasis on important scholarly resources and academic writing. Restricted to majors. Main campus only. No S/U option.

Prerequisite: consent of instructor.

MUS 451. Orchestra II**1 Credit**

Las Cruces Symphony at NMSU, a full symphony orchestra concentrating on masterworks of the literature. Students must assume a leadership role. May be repeated up to 88 credits.

Prerequisite(s): by audition only.

MUS 455. Music Business Internship**3 Credits**

Capstone course for the Music Business degree. Working with the music business coordinator, students must have been accepted as an intern in a music business setting before enrolling. Credit given for the internship based on criteria developed for each placement. Restricted to majors. S/U only.

Prerequisites: MUS 330 and piano proficiency.

MUS 465. Composition III**2 Credits**

Emphasis on extended compositional techniques, serialization, and modern counterpoint. Consent of Instructor required. Restricted to: Music majors. Traditional Grading with RR.

MUS 466. Composition IV**2 Credits**

New music notation and techniques. Open forms, aleatory concepts. Consent of Instructor required. Restricted to: Music majors. Traditional Grading with RR.

Prerequisite(s): MUS 465.

MUS 470. Special Topics III**1-3 Credits**

Designed for highly motivated students. Independent study and individual guidance. May be taken for unlimited credit.

MUS 471. Graduate Theory Review**3 Credits**

Comprehensive and accelerated study of modes, diatonic harmony, and classical form of the common practice period. Restricted to: Music majors. Traditional Grading with RR.

MUS 475. Intermediate Conducting**3 Credits**

Serves as a bridge from undergraduate conducting study to the graduate level. Advanced undergraduate students may enroll to learn how the graduate program in conducting functions. The course also serves as the introductory experience for newly admitted graduate conducting majors. After successful completion of this course, students will be able to: Study musical scores from a conducting perspective; Demonstrate effective predetermined gestures and movements; Lead an ensemble; Research and give presentations related to composers and their music; Demonstrate advanced knowledge of conducting practices.

Prerequisite(s): A grade of C- or better in MUS 326 or 327.

MUS 476. Music Cultures of the World: History and Criticism**3 Credits**

Listening, criticism, and analysis of musical cultures around the world. Emphasis on non-Western musical traditions and folk music of the world. Open to all majors.

MUS 477. Graduate Music History Review**3 Credits**

Comprehensive and accelerated study of music history from antiquity to the present. Restricted to: Music majors. Traditional Grading with RR.

MUS 486. Applied Music Pedagogy and Literature II**2 Credits**

Methods, materials, problems, literature, and techniques in teaching individual lessons. Consent of Instructor required. Restricted to: Music majors. Traditional Grading with RR.

MUS 498. Independent Study**1-3 Credits**

For students with a strong musical background wishing to explore content beyond the traditional curriculum. Restricted to majors. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

MUS 511. Survey of Traditional Harmony**3 Credits**

Tonal harmony in common practice and theory of the late 17th, 18th, and early 19th centuries. Restricted to: Music majors. Traditional Grading with RR.

Prerequisite(s): A grade of B or better in MUS 471.

MUS 513. Twentieth Century Art Music**3 Credits**

Analytical techniques, structural design and compositional materials from Debussy to the Minimalist school in historical context. Restricted to: Music majors.

Prerequisite(s): A grade of B or better in MUS 471.

MUS 514. Advanced Composition**3 Credits**

Original composition in 20th century idioms.

Prerequisite: MUS 466.

MUS 518. Seminar in Music Theory**3 Credits**

Varying topics in Music Theory, providing a more specific and in-depth study of the particular topic. May be repeated up to 6 credits. Restricted to: Music majors. Traditional Grading with RR.

Prerequisite(s): A grade of B or better in MUS 471.

MUS 519. Seminar in Music History**3 Credits**

Varying topics in Music History, providing a more specific and in-depth study of the particular topic. May be repeated up to 6 credits. Restricted to: MUS majors.

Prerequisite(s): A grade of B or better in MUS 477.

MUS 520. Music of the Middle Ages and Renaissance: History and Literature**3 Credits**

An overview of the music of the Middle Ages and Renaissance with an emphasis on history and literature. Restricted to: MUS majors.

Prerequisite(s): A grade of B or better in MUS 477.

MUS 521. Music of the Baroque Era: History and Literature**3 Credits**

An overview of the music of the Baroque Era with an emphasis on history and literature.

MUS 522. Music of the Classical Era: History and Literature**3 Credits**

An overview of the music of the Classical era with an emphasis on history and literature. Restricted to: MUS majors.

Prerequisite(s): A grade of B or better in MUS 477.

MUS 523. Music of the Romantic Era: History and Literature**3 Credits**

An overview of Romantic era music, with an emphasis on history and literature. Restricted to: MUS majors.

Prerequisite(s): A grade of B or better in MUS 477.

MUS 527. History and Analysis of the Symphony**3 Credits**

Historical background and development of the symphony from its inception (ca. 1740s) to mid-twentieth century. Analysis of major works by significant composers with emphasis on Sonata form. Restricted to: MUS majors.

Prerequisite(s): A grade of B or better in MUS 471 and 477.

MUS 528. The Symphony in Historical Context**3 Credits**

Considers the historical development of the symphony, as a musical genre, from its inception to the 20th century. Restricted to: MUS majors.

Prerequisite(s): A grade of B or better in MUS 477.

MUS 529. Opera and Music Drama**3 Credits**

Lyric drama of the Greeks through works of Wagner and Verdi to contemporary opera. Restricted to: MUS majors.

Prerequisite(s): A grade of B or better in MUS 477.

MUS 530. Seminar in Music Education**3 Credits**

Varying topics in Music Education, providing a more specific and in-depth study of the particular topic. Restricted to: MUS majors.

MUS 531. Music in Elementary Schools**3 Credits**

This course is designed to provide experiences which will help the student gain skills to appropriately enhance the musical growth of children in K–6 classrooms. The course participants personal skill and understanding of musical concepts will be developed; musical needs and capabilities of young children will be investigated; methods of teaching music to young children will be explored. Restricted to: MUS (Music Ed track only) majors.

MUS 535. Current Issues in Music Education**3 Credits**

This course examines the rich and challenging complexities of music teaching and learning from a variety of perspectives. Educational theory to pedagogical inquiry of current educational practice will be examined, calling students to critically reflect on such professional activities as lesson planning, curriculum design, repertoire choice, program assessment, advocacy in the arts, and student evaluation. Restricted to: MUS (Music Ed track only) majors.

MUS 540. Graduate Recital/Analytical Paper**4 Credits**

This course is for students completing a Master of Music with a Performance emphasis. A public recital will be given and an accompanying research paper will be submitted. Restricted to: MUS majors.

MUS 574. Advanced Choral Conducting I**3 Credits**

This course will continue the training for competent musicianship with a focus on conducting gestures and movements, score study, and rehearsal techniques. Lessons will focus primarily on the development of a non-verbal vocabulary that will allow each student to clearly and artistically communicate with the members of an ensemble to solicit a predetermined musical result. Restricted to: MUS majors.

Prerequisite(s): A grade of B or better in MUS 475.

MUS 575. Advanced Choral Conducting II**3 Credits**

This is the final course in preparation for the student's graduate conducting concert. It will continue the training for competent musicianship with a focus on conducting gestures and movements, score study, and rehearsal techniques. Lessons will focus primarily on the development of a non-verbal vocabulary that will allow each student to clearly and artistically communicate with the members of an ensemble to solicit a predetermined musical result. Restricted to: MUS majors.

Prerequisite(s): A grade of B or better in MUS 574.

MUS 576. Advanced Instrumental Conducting I**3 Credits**

The role of the conductor is to lead, react to, alter, and reinforce the performance of the ensemble. This course will continue in the training for competent musicianship with a focus on conducting gestures and movements, score study, and rehearsal techniques. Lessons will focus primarily on the development of a non-verbal vocabulary that will allow each student to clearly and artistically communicate with the members of an ensemble to solicit a predetermined musical result. Restricted to: MUS majors.

Prerequisite(s): A grade of B or better in MUS 475.

MUS 577. Advanced Instrumental Conducting II**3 Credits**

The role of the conductor is to lead, react to, alter, and reinforce the performance of the ensemble. This course will continue in the training for competent musicianship with a focus on conducting gestures and movements, score study, and rehearsal techniques. Lessons will focus primarily on the development of a non-verbal vocabulary that will allow each student to clearly and artistically communicate with the members of an ensemble to solicit a predetermined musical result. Restricted to: MUS majors.

Prerequisite(s): A grade of B or better in MUS 576.

MUS 578. Advanced Choral Literature**2 Credits**

An examination of significant choral works from 1200 to the present, including composers, genres, and historical context. Restricted to: MUS majors.

Prerequisite(s): A grade of B or better in MUS 475.

MUS 579. ADV INSTR LIT**2 Credits**

An examination of significant instrumental works from the Baroque period to the present, including composers, genres, and historical context. Restricted to: MUS majors.

Prerequisite(s): A grade of B or better in MUS 475.

MUS 580. Ensemble Performance**1 Credit**

Performance in university ensembles. May be repeated up to 99 credits.

Prerequisite(s): by audition only.

MUS 582. Applied Music**2-4 Credits**

For music majors, individual instruction, including improvisation skills and techniques. Students may enroll for 2 or 4 credits. May be repeated for a maximum of 16 credits.

Prerequisites: audition and consent of instructor.

MUS 586. Applied Music Pedagogy and Literature III**2 Credits**

Methods, materials, problems, literature, and techniques in teaching individual lessons. Restricted to: MUS majors.

Prerequisite(s): A grade of B or better in MUS 486.

MUS 590. Supervised Studio Teaching**2 Credits**

Teaching of private lessons under supervision.

MUS 598. Special Research Programs**1-4 Credits**

May be taken for unlimited credit.

MUS 599. Master's Thesis**15 Credits**

Thesis.

NA - NURSING ASSISTANT (NA)

NA 101. Nursing Assistant Theory and Lab**6 Credits (5+3P)**

Nurse aide skills with emphasis on a bio-psychosocial-cultural approach to client care. Practice of these skills is provided in the laboratory as well as at a clinical site. Successful completion of the course prepares and qualifies the student to take the NACES certification examination. May be repeated up to 6 credits. Restricted to Community Colleges campuses only.

Prerequisite(s): (CCDR 110N with C or better OR appropriate placement score) and (CCDE 110N with C or better OR appropriate placement score) and (CCDM 103N with C or better OR appropriate placement score).

NA 103. Introduction to Health Care Services**3 Credits**

Introduction to health care services, functions and responsibilities of a nurse aide, ethical and legal considerations, communication and medical terminology.

NA 104. Nursing Assistant Fundamentals**3 Credits**

This course prepares students for employment as a Nursing Assistant in a Long Term Care Facility. Theory and basic nursing care skills will be taught with an emphasis being placed on the psychosocial-cultural approach to client care. Students will learn communication skills, basic anatomy and physiology, growth and development, infection control, body mechanics, basic nutrition, client/resident elimination needs, the client/resident unit, vital signs, range of motion exercises, bed making, rehabilitation and restorative care, client admission and discharge, common health problems, dealing with death and dying, and basic medical terminology. NA 104 and NA 104L (laboratory) must be successfully completed with a C- or better in order to continue to NA 105 Nursing Assistant Clinical. NA 105 must also be successfully completed with a C- or better to be eligible to take the state certification competency examination. Attendance is required to meet the federal requirements for training hours and content prior to direct contact with a patient/resident and the state competency examination. Restricted to Community Colleges campuses only.

Prerequisite(s): Test out of all CCDE and CCDR courses and eligible to take ENGL 111G.

Corequisite(s): NA 104 L.

NA 104 L. Nursing Assistant Fundamentals Lab**1 Credit**

This course prepares students for employment as a Nursing Assistant in a Long Term Care Facility. Students will learn and demonstrate personal care skills including bathing, grooming, dressing, toileting, assisting with eating and hydration, skin care, transfers and positioning. Students will also learn and demonstrate the use of assistive devices, and how to maintain resident safety, dignity and privacy. NA 104 & NA 104L must be successfully completed with a C- or greater in order to continue to NA 105 Clinical. NA 105 must be successfully completed with a C- or greater to be eligible to take the state certification competency examination.

Prerequisite(s)/Corequisite(s): NA 104. Prerequisite(s): English COMPASS score of 35 or greater or CCDE 110N, and reading COMPASS score of 55 or greater or CCDE 105N. Restricted to Community Colleges campuses only.

NA 105. Nursing Assistant Clinicals**4 Credits (3+3P)**

Extension of basic fundamentals of personal care, including theory, skills and clinical experience leading to the certified Nursing Assistant Examination at the conclusion of the semester. Continuation of NA 104. Requires a C or better to pass. Restricted to: Community Colleges only.

Prerequisite(s): C or better in NA 104 or consent of instructor.

NA 106. Home Health Assistant**4 Credits (3+3P)**

Theory, skills and clinical experience leading to a job working with clients in the home environment. Prepares the certified nursing assistant for certification in the home health care arena.

Prerequisite: current CNA or consent of instructor.

Corequisites: CCDE 114N and CCDE 110N.

NA 107. Medication Assistant**5 Credits (4+3P)**

Theory, skills, and clinical to prepare the student to meet the State of New Mexico requirements to distribute medication in a residential setting to Medicaid DD waiver clients.

Prerequisites: CCDE 114N and CNA, or consent of instructor.

NA 108. Disabilities Support Services**4 Credits (3+2P)**

Beginning level preservice preparation for providing in-home care for individuals with disabilities. Crosslisted with: AHS 108. Restricted to: Community Colleges only.

Prerequisite(s): NA 101 or NA 104 or Consent of Instructor.

NA 109. Phlebotomist Basic**4 Credits (2+4P)**

This course provides the latest information, techniques, skills, and equipment for blood and specimen collection based on the standards of the Clinical and Laboratory Standards Institute, Needlestick Prevention Act, Joint Commission 2008 National Patient Safety Goals, OSHA and CDC. An advanced skills lab is included in the course to provide a "hands-on" practice experience and a 30 hour practicum in a supervised work environment collecting blood and specimens on actual patients for laboratory tests. Attendance is mandatory. Prepares students for employment as a phlebotomist in health care settings. Requires a "C" or better to pass. Upon successful completion of the course, student has the opportunity to test for National Healthcareer Certification. Consent of Instructor required.

Prerequisite(s)/Corequisite(s): BIOL 154 or BIOL 226. Restricted to Community Colleges campuses only.

NA 110. Electrocardiogram Technician Basic**4 Credits (3+3P)**

Prepares students for employment as an Electrocardiogram Technician. Includes basic theory of the cardiovascular system, cardiac rhythm interpretation, 12 lead ECG lead placement, and ECG equipment trouble shooting. The course includes an advanced skills laboratory for "hands-on" practice and 16 hours of supervised clinical in the work environment assisting with ECG testing. Attendance is mandatory. Course requires a grade of "C" or better to pass. Upon successful completion of course, student has the opportunity to test for National Healthcareer Certification. Restricted to Community Colleges campuses only.

Prerequisite(s): BIOL 154 OR BIOL 225 & BIOL 226.

NA 111. Alzheimer/Dementia Care Focus**3 Credits**

Students will learn respectful care of Alzheimer/Dementia persons while ensuring their dignity, maximizing safe independence focusing on strengths and abilities. Pre/

Prerequisite(s)/Corequisite(s): NA 104 or NA 101. Restricted to: Community Colleges only.

NA 112. Patient Care Assistant**4 Credits (2+4P)**

This course prepares students to become patient care assistants (certified nursing assistant [CNA]). The course prepares students in the areas of critical thinking, collaboration with healthcare team members and performance of Certified Nursing Assistant skills within acute care units including: out-patient care unit (pre-operative), medical-surgical unit, orthopedic unit, mother-baby (obstetrics) and the mental health inpatient unit. Lab and clinical time will include learning skills in a practice setting with mannequins and in a hospital for acute care skill learning and application. Must pass course with a C- or better.

Prerequisite(s): NA-101 or current State of New Mexico Certified Nursing Assistant (CNA) certificate (CNA certification must remain current through end of course).

Corequisite(s): Current Basic Life Support (BLS) for the Health Care Provider (American Heart Association) (BLS certification must remain current through end of course).

NA 115. Phlebotomist Technician**6 Credits (3+6P)**

Basic theory and skills of phlebotomy following OSHA and Center for Disease Control guidelines. Prepares students for the requirements of testing for the ASCP certification exam and employment in a healthcare organization as a phlebotomist in licensed settings. Laboratory hours include infection control skills & practice, patient assessment & teaching, and practice in venipuncture. Clinical time includes clinical laboratory processes and operations, patient assessment, venipuncture, and exposure to clinical policies and procedures. Upon successful completion students are workforce ready.

Prerequisite(s)/Corequisite(s): OEEM 101. Restricted to Community Colleges campuses only.

NA 204. Patient Care Technician**4 Credits (3+3P)**

This course will prepare Certified Nursing Assistants (CNAs) to work in the acute care setting through an expansion of their existing basic skill set. Students will acquire expanded acute care skills, critical thinking skills, and knowledge in caring for patients of all ages. Currently CNA certified. Restricted to Community Colleges campuses only.

Prerequisite(s): (NA 104, NA 105, NA 109, NA 110, AHS 120, and (BIOL 154 or (BIOL 225 & BIOL 226))).

Corequisite(s): NA 205.

NA 205. Patient Care Technicians Practicum**4 Credits (1+9P)**

This course will prepare Certified Nursing Assistants (CNAs) to work in the acute care setting through an expansion of their existing basic skill set. Students will acquire expanded acute care skills, critical thinking skills, and knowledge in caring for patients of all ages. Students will go to acute care settings to practice newly acquired skills. Must have a "C" or better to pass. Restricted to Community Colleges campuses only.

Prerequisite(s): (NA 104, NA 105, NA 109, NA 110, AHS 120, & (BIOL 154 or (BIOL 225 & BIOL 226))) Currently CNA Certified.

Corequisite(s): NA 204.

NA 212. Medical Assistant Capstone Course**5 Credits (4+3P)**

This course provides the student with entry-level theory and limited "hands-on" training in basic and routine clinical office tasks. The course will equip the Medical Assistant (MA) student with the competencies required to perform in a medical office under the direct supervision of a physician. The graduate will be able to assist the physician with physical exams, ECGs, phlebotomy, and minor surgical procedures. May be repeated up to 5 credits. CNA Certification within the last 5 years.

Prerequisite(s): NA 105, NA 110, NA 109, AHS 120, BIOL 154, HIT 110, BOT 208, HIT 228, HIT 248, HIT 258.

NA 214. Medical Assistant Practicum**6 Credits (1+6P)**

This course is the practicum for NA 212 Medical Assistant Fundamentals Capstone Course. Students will prepare for a career as a medical assistant in medical offices and clinics. During practicum students will observe and participate in 180 hours in a supervised work environment using knowledge and skills learned in NA 212. This course includes weekly post-practicum conferences with the instructor. The student will be evaluated by both the employer and the instructor. Requires a "C" or better to pass. Upon successful completion the student may be eligible to test for National Certification. May be repeated up to 6 credits. Consent of Instructor required.

Prerequisite(s)/Corequisite(s): NA 212. **Prerequisite(s):** NA 105, NA 110, NA 109, AHS 120, BIOL 154, HIT 110, BOT 208, HIT 228, HIT 248, HIT 258. CNA Certified within the last 5 years. Restricted to Community Colleges campuses only.

NAV-NAVAJO (NAV)

NAV 101. Introduction to Navajo Studies**3 Credits**

Covers geography, demography, institutions of modern Navajo society with historical overview. Restricted to: Community Colleges only.

NAV 111. Elementary Navajo I**4 Credits**

Navajo for beginners with emphasis on speaking skills.

Prerequisite: not open to Navajo-speaking students except by consent of instructor.

NURS-NURSING (NURS)

NURS 120. Introduction to Pharmacology**3 Credits**

General principles of pharmacology including methods of administration, effect on the body, interactions with other drugs, and classification of drugs. Focus on the health care provider's role in safe pharmacologic intervention. Restricted to Allied Health majors. Restricted to: Community Colleges only.

NURS 130. Foundations of Pharmacology**3 Credits**

This course provides the nursing student with an introduction to the foundations of pharmacology including: science of drug action, principles of medication administration, accurate calculation of drug doses, medication therapy across the lifespan, application of medications to treat health alterations, normal and adverse responses by the client to medication therapy, medication safety, medication regulation, national patient safety goals, and appropriate nursing interventions to achieve the desired goals of medication therapy. Only students who have been admitted to the nursing program may enroll in this course. Restricted to: NUR majors. Restricted to: Community Colleges only.

Prerequisite(s): Admission into the Nursing Program.

Corequisite(s): NURS 147 & NURS 149.

NURS 134. Foundation of Nursing Skills and Assessment**3 Credits (1+6P)**

This course provides nursing students with introductory nursing knowledge related to performance of nursing skills and assessment including: techniques of fundamental nursing care, basic and intermediate nursing skills, and foundational physical assessment techniques associated with care across the lifespan. Open to students who have been accepted into the nursing program. Restricted to: NUR majors. Restricted to: Community Colleges only.

Prerequisite(s): Admission into the Nursing Program.

Corequisite(s): NURS 136 & NURS 137 or permission of the Program Director.

NURS 136. Foundations of Nursing Practice**6 Credits (4+6P)**

This course will introduce the nursing student to foundational theoretical concepts of professional nursing practice, the nursing process, and foundational nursing skills. It includes developmental concepts related to clients across the lifespan. Clinical experiences in the simulation lab, long-term care, the community, and rehabilitation settings will provide the student with the opportunity to apply learned skills to provide total care to meet needs of one adult client and to develop care planning skills related to actual problems. Students must be concurrently enrolled in both the lecture and lab sections of the course. Only students who have been admitted to the nursing program may enroll in this course. Restricted to: NUR majors. Restricted to: Community Colleges only.

Prerequisite(s): Admission into the Nursing Program.

Corequisite(s): NURS 134, NURS 136 lab & NURS 137 or permission of the Program Director.

NURS 137. Care of Geriatric Patient**3 Credits**

This course will introduce the nursing student to foundational concepts of age-appropriate/specific care of the older adult who represents the largest population of individuals placing demands on the healthcare system. It includes basic and complex concepts and issues related to care of the older client across the care continuum, provision of cost-effective care in a resource sparse environment. Only students who have been admitted to the nursing program may enroll in this course. Restricted to: NURS majors. Restricted to Community Colleges campuses only.

Prerequisite(s): Admission into the nursing program.

Corequisite(s): NURS 134 & NURS 136 or permission of the Program Director.

**NURS 140. Pathophysiology for Allied Health Professionals
3 Credits**

Introduction to the nature of disease and its effect on body systems. Deals with the disease processes affecting the human body via an integrated approach to specific disease entities. Includes a review of normal functions of the appropriate body systems. Diseases are studied in relationship to their etiology, pathology, physical signs and symptoms, diagnostic procedures, complication, treatment modalities, and prognosis. Restricted to Allied Health and Health Information Technology majors. Restricted to: Community Colleges only.

Prerequisite(s): a grade of C or better in OEHO 140.

**NURS 146. Common Health Deviations
6 Credits (4+6P)**

Common health deviations and the manner by which they alter various body functions are explored. The role of the licensed practical nurse in assisting clients with common health deviations is presented. Ethical and legal implications and the role of the practical nurse are also considered. The licensed practical nursing student will utilize the application of knowledge to client care situation both in the subacute and acute care settings. The nursing process is presented as guide for coordinating client care. Grade of C or better. May be repeated up to 6 credits.

Restricted to: NURSING majors. Restricted to Carlsbad campus only.

Prerequisite(s): NURS153, NURS156, NURS154, NURS157, and NURS210 or consent of program director.

**NURS 147. Adult Health I
6 Credits (4+6P)**

This course focuses on application of the nursing process and theoretical concepts of care for adults with commonly occurring health problems. Selected clinical learning experiences in the simulation lab, acute care, and community settings will allow the student to continue development of: prioritization skills, proficiency in performance of nursing skills, collaborative skills with clients, families, peers and health care team members, care planning skills related to patient actual, psychosocial, and potential problems in the delivery of total nursing care to meet needs of one adult client. Students must be concurrently enrolled in both the lecture and lab sections of the course. Only students who have been admitted to the nursing program may enroll in this course. Restricted to: NUR majors. Restricted to Community Colleges campuses only.

Prerequisite(s): Admission into the Nursing Program.

Corequisite(s): NURS 130, NURS 147 lab, & NURS 149, or permission of the Program Director.

**NURS 148. Physical Assessment
2 Credits (1+3P)**

Introduction of concepts and techniques of interviewing, history taking, review of body systems, and physical assessment of an adult client. The student should be able to apply knowledge of anatomy and physiology, assessment skills, communication skills, cultural awareness, nursing process, critical thinking skills, teaching skills, and psychomotor skills. Restricted to: Community Colleges only.

**NURS 149. Mental Health Nursing
3 Credits (2+3P)**

This course will allow the nursing student to develop skills necessary to provide nursing care for clients with mental health problems in various health care settings including: common mental health disorders, psychosocial dysfunction, psychosocial safety/substance abuse issues, violence, suicide, restraints, developmental age related pathophysiology, psychopharmacology, cultural/religious considerations, grief/loss, promotion of mental health, and therapeutic communication. Selected clinical learning experiences in the simulation lab, acute care, and community settings will allow the student to develop ability to develop: proficiency in performance of nursing skills, collaborative skills with clients, families, peers and health care team members, care planning skills related to patient actual, psychosocial, and potential problems in the delivery of total nursing care to meet needs of one client across the life span with acute/chronic mental health needs. Students must be concurrently enrolled in both the lecture and lab sections of this course. Only students who have been admitted to the nursing program may enroll in this course. Restricted to: NUR majors. Restricted to: Community Colleges only.

Prerequisite(s): Admission into the Nursing Program.

Corequisite(s): NURS 130, NURS 147, & NURS 149L, or permission of the Program Director.

**NURS 150. Medical Terminology
3 Credits**

Understanding of the basic elements of medical words. Use of medical abbreviations. Same as OEHO 120 and BOT 150.

**NURS 153. Medication and Dosage Calculation
1 Credit**

Techniques of dosage calculation for medication and fluid administration. RR applicable.

Prerequisite(s): Meet NMSU basic skills requirement in mathematics or consent of program director.

Corequisite(s): NURS156 and NURS154.

**NURS 154. Physical Assessment
2 Credits**

Beginning techniques of physical assessment by systems will be presented using the nursing process as a guide for providing safe client centered care throughout the life span. Grade of C or better is required. May be repeated up to 2 credits. Restricted to: NURSING majors.

Restricted to Carlsbad campus only.

Prerequisite(s): BIOL 154 or BIOL 225 or consent of program director.

Corequisite(s): NURS 153, NURS 156.

**NURS 155. Special Topics
1-4 Credits**

Specific subjects to be announced in the Schedule of Classes.

**NURS 156. Basic Nursing Theory and Practice
6 Credits (4+6P)**

Introduction to the nursing profession and the beginning skills of nursing practice as it relates to normalcy. The nursing process is presented as a means of guiding the student in providing safe client centered care. Ethical and legal aspects of nursing practice are also included. Basic clinical nursing skills will be presented and practiced in the nursing lab.

The student will perform these skills with clients in an actual health care setting. May be repeated up to 6 credits. Restricted to: NURSING majors. Restricted to Carlsbad campus only.

Prerequisite(s): Consent of Program Director.

Corequisite(s): NURS 153, NURS 154.

NURS 157. Maternal/Child Health Deviations**8 Credits (6+6P)**

The concepts and principles of nursing care of the family from conception to adolescence. Utilizing the nursing process, the student provides safe client centered care to diverse clients and families. Theoretical instruction is applied to client care situation. Students collaborate with clients, families and the interdisciplinary team in meeting health care needs. Experiences may occur in any of the regional health care facilities. Grade of C or better required. May be repeated up to 8 credits. Restricted to: NURSING majors. Restricted to Carlsbad campus only.

Prerequisite(s): NURS 156, NURS 153, and NURS 154 or consent of program director.

Corequisite(s): NURS 210.

NURS 180. The Adult Client I**8 Credits (4+12P)**

Holistic care of the adult client throughout the lifespan, utilizing the nursing process to address personal wellness and acute alterations in wellness in a variety of health care settings. Laboratory and clinical practicum will focus on application of the nursing process in simulated and real world settings. Restricted to: Community Colleges only.

Prerequisite(s): NURS 170, NURS 172, and NURS 173L.

Corequisite(s): NURS 185.

NURS 182. Legal and Ethical Issues in Nursing Practice**2 Credits**

Introduction to legal and ethical implications of nursing practice (through the holistic approach to wellness) as a registered nurse. Restricted to: Community Colleges only.

NURS 185. Holistic Approach to Pharmacotherapeutic Intervention I**2 Credits**

Level I. Holistic approach to the study of basic pharmacology concepts. Includes pharmacodynamic phases of drug interaction. Nursing process is discussed in relation to medication administration. Special emphasis on the role of the nurse and basic concepts related to specific drug categories. Restricted to: Community Colleges only.

Prerequisite(s): NURS 170, NURS 172, and NURS 173L.

Corequisite(s): NURS 180.

NURS 201. Special Topics**1-4 Credits**

Specific topics to be announced in the Schedule of Classes. May be repeated for a maximum of 10 credits. Restricted to: Community Colleges only.

Prerequisite: admission to the nursing program.

NURS 209. Independent Study**1-4 Credits**

Individual studies to meet identified student needs. May be repeated for a maximum of 10 credits. Restricted to: Community Colleges only.

Prerequisite: admission to the nursing program.

NURS 210. Pharmacological Requisites of the Childbearing Family**1 Credit**

Basic concepts of pharmacology including pharmacokinetics, pharmacodynamics, and pharmacotherapeutics, and their relationship to nursing care will be discussed focusing on medications commonly utilized with the childbearing family. Medication classes to be discussed include labor and delivery, analgesic, vitamins, respiratory, gynecological, endocrine, and anti-microbial/anti-infective drugs. Grade of C or better required. Restricted to: Carlsbad campus only.

Prerequisite(s): BIOL 225 and BIOL 226 or consent of instructor and NURS 153, NURS 154 and NURS 156.

Corequisite(s): NURS 157.

NURS 211. Pharmacological Requisites of Simple Health Deviations**1 Credit**

Basic concepts of pharmacology including pharmacokinetics, pharmacodynamics, and pharmacotherapeutics, and their relationship to nursing care are addressed focusing on medications related to the psychiatric, gastrointestinal, musculoskeletal, gynecological, hematological, and anti-neoplastic client. Grade of C or better required. Restricted to: Carlsbad campus only.

Prerequisite(s): BIOL 225 and BIOL 226 or consent of instructor and NURS 153, NURS 154, NURS 156, NURS 157 and NURS 210.

Corequisite(s): NURS 246 and NURS 258.

NURS 212. Pharmacological Requisites of Complex Health Deviations**1 Credit**

Basic concepts of pharmacology including pharmacokinetics, pharmacodynamics, and pharmacotherapeutics, and their relationship to nursing care is examined focusing on medications related to complex health deviations. Drug classes to be discussed include cardiovascular, renal, endocrine, and neurological. Grade of C or better required. Restricted to: Carlsbad campus only.

Prerequisite(s): BIOL 225 and BIOL 226 or consent of instructor, and NURS 153, NURS 154, NURS 156, NURS 157, NURS 246, NURS 258, NURS 210 and NURS 211.

Corequisite(s): NURS 256 and NURS 260.

NURS 224. Maternal Child Nursing**5 Credits (4+3P)**

This course provides the intermediate nursing student with an in-depth review of care of the childbearing woman, family structures and roles, and nursing care of the child from birth through adolescence. Emphasis includes the care of pre-partum, intra-partum and postpartum clients, the neonate and health deviations in pediatric clients. Clinical experiences in the simulation lab, the community, and acute care settings will provide the student with the opportunity to apply learned skills to provide total care to meet needs of up to two adult, neonatal, or pediatric clients and to apply care planning skills related to actual, psychosocial and potential problems. Students must be concurrently enrolled in both the lecture and lab sections of the course. Only students who have been admitted to the nursing program may enroll in this course. Restricted to: NUR majors. Restricted to: Community Colleges only.

Prerequisite(s): Admission into the Nursing Program.

Corequisite(s): NURS 224 lab, NURS 235, & NURS 236, or permission of the Program Director.

NURS 226. Adult Health II**6 Credits (4+6P)**

This course focuses on application of nursing process and theoretical concepts of care for adults with complex health alterations. Selected clinical learning experiences in the simulation lab, acute care, and community settings will allow the student to apply: prioritization skills, maintain proficiency in performance of nursing skills, collaborative skills with clients, families, peers and health care team members, and care planning skills related to patient actual, psychosocial, and potential problems in the delivery of nursing care to meet needs of three adult clients. Students must be concurrently enrolled in both the lecture and lab sections of the course. Only students who have been admitted to the nursing program may enroll in this course. Restricted to: NUR majors. Restricted to: Community Colleges only.

Prerequisite(s): Admission into the Nursing Program.

Corequisite(s): NURS 224, NURS 226 lab, & NURS 235 or permission of the Program Director.

NURS 234. Community Health Nursing**1 Credit**

This course provides an introduction to community health, focusing on health care systems, epidemiology, and nursing care of individuals, families and aggregates of varied cultural backgrounds. Primary, secondary, and tertiary prevention are emphasized. Diverse roles of the community health nurse are examined. Educational theories and their applications are explored. Restricted to: Community Colleges only.

NURS 235. Nursing Leadership and Management**1 Credit**

This course introduces the intermediate nursing student to professional practice principles of nursing leadership and management including: health policy and politics, fiscal management & budgeting, conflict management, decision making, interdisciplinary practice, working with teams, roles in disaster planning and management, application of standards of care to risk management, organization of care delivery, health care systems, processes, and practice environments. May be repeated up to 1 credits. Restricted to: NUR majors. Restricted to Community Colleges campuses only.

Prerequisite(s): Admission into the Nursing Program.

Corequisite(s): NURS 224, NURS 226 & Clinical Or Permission of the Program Director.

NURS 236. Nursing Preceptorship - Adult Health III**6 Credits (2+12P)**

This course is the final course involving care of the patient with acute or chronic illness. It focuses on care of patients with complex or multi-system problems allowing the graduating nursing student to discuss and apply all the skills learned in previous nursing courses. After successfully passing the HESI exam, students have clinical practice with preceptor in various health care settings. Selected clinical learning experiences in the simulation lab, acute care, and community settings will allow the student to: organize care of a group of clients, maintain proficiency in performance of nursing skills, collaborate with clients, families, peers and health care team members, and support care planning skills related to patient actual, psychosocial, and potential problems in the delivery of nursing care to meet needs of the preceptors group of clients. Students must be concurrently enrolled in both the lecture and lab sections of the course. Only students who have been admitted to the nursing program and have successfully completed all level 1, 2 and 3 nursing courses may enroll in this course. Clinical may include inpatient or outpatient care, days, evenings, nights, or weekend experiences. Students are required to work the preceptors assigned schedule. Restricted to: NUR majors. Restricted to: Community Colleges only.

Prerequisite(s): Admission into the Nursing Program.

Corequisite(s): NURS 201, NCLEX Review or permission of the Program Director.

NURS 246. Health Deviations I**7 Credits (4+9P)**

Introduction to medical/surgical clients, whose health care needs are routine and predictable. Focus is on simple health deviations, including concepts relative to health promotion and maintenance. The nursing process is utilized to provide evidenced based, safe client centered care. Students are expected to apply clinical judgment, communicate and collaborate with clients and the interdisciplinary team in providing care for a group of two to three clients. Grade of C or better required. May be repeated up to 7 credits. Restricted to: Nursing majors. Restricted to Carlsbad campus only.

Prerequisite(s): NURS 153, NURS 156, NURS 154, NURS 157 and NURS 210 or consent of program director.

Corequisite(s): NURS 211, NURS 258.

NURS 256. Health Deviations II**8 Credits (4+12P)**

Concepts and principles applied to clients with complex health deviations. Building upon knowledge gained in NURS 246, focus will be on acutely ill clients. The nursing process continues to serve as a guide to provide safe, client centered care. The student collaborates with the interdisciplinary team in all aspects of client care. Student experiences the role of the staff nurse under the guidance and direction of the nursing instructor. Grade of C or better required. May be repeated up to 8 credits. Restricted to: Nursing majors. Restricted to Carlsbad campus only.

Prerequisite(s): NURS 153, 154, 156, 157, 210, 211, 246, and 258 or consent of program director.

Corequisite(s): NURS 212, NURS 260.

NURS 258. Psychosocial Requisites: A Deficit Approach
3 Credits (2+3P)

Nursing theory and practice as it relates to the care of the client experiencing psychosocial health deviations. The role of the nurse is discussed along with the ethical and legal aspects of care for the client with psychosocial disorders. Building upon the communication skills of listening and responding, the student develops the therapeutic skills of interpersonal relationships. Grade of C or better is required. May be repeated up to 3 credits. Restricted to: Nursing majors. Restricted to Carlsbad campus only.

Prerequisite(s): NURS 153, 154, 156, 157, 210, 246, and 258 or consent of program director.

Corequisite(s): NURS 211, NURS 246.

NURS 260. Management of Patients with Health Deviations
2 Credits (2)

A capstone course to the nursing program in which principles in management and delegation to less prepared personnel is explored. A review of leadership roles, legal issues, quality initiatives, informatics and scope of practice is included. Preparation for the NCLEX is an integral portion of the course. Grade of C or better is required. May be repeated up to 2 credits. Restricted to: Nursing majors. Restricted to Carlsbad campus only.

Prerequisite(s): NURS 153, 154, 156, 157, 210, 211, 246, and 258 or consent of program director.

Corequisite(s): NURS 212, NURS 256.

NURS 270. The Adult Client II
5 Credits (2+9P)

Care of adult clients experiencing chronic, life-threatening, and end-of-life health alterations with emphasis on the geriatric population using a holistic approach to wellness. Nursing process, pathophysiology, pharmacology, diet therapy, and alternative therapies are stressed throughout the course. Clinical component will provide an opportunity to apply the nursing process in both the hospital and community setting. Restricted to: Community Colleges only.

Prerequisite(s): NURS 170, NURS 172, NURS 173L, NURS 180, and NURS 185.

Corequisite(s): NURS 285.

NURS 272. Care for the Aging Client
1 Credit

Normal physiological changes of aging and nursing implications related to safety and wellness. Restricted to: Community Colleges only. Restricted to NURS majors.

NURS 275. Holistic Approach to Pharmacotherapeutic Interventions II
2 Credits

Level II. Holistic approach to the study of basic pharmacology concepts. Includes pharmacodynamic phases of drug interaction. Nursing process is discussed in relation to medication administration. Special emphasis on the role of the nurse and basic concepts related to specific drug categories. Restricted to majors. Community Colleges only.

Prerequisite: NURS 185.

Corequisites: NURS 280 and NURS 283.

NURS 280. Women's Health Issues
4 Credits (2+6P)

Consists of lecture and associated clinical/laboratory experiences that focus on the holistic health concerns for women and the care of families expecting birth. Emphasis placed on the wellness of normal and high-risk women's health, including maternal and newborn care. The nursing process will be utilized to develop caring interventions and effective community communication through teaching healthy strategies. Restricted to: Community Colleges only.

Prerequisite(s): NURS 170 and NURS 180.

Corequisite(s): NURS 275 and NURS 283.

NURS 282 L. Practicum: Management of Client Care
1 Credit

Organization and delivery of wellness care services for groups of clients based on the nursing process. Restricted to: Community Colleges only.

Prerequisite(s): NURS 170, NURS 172, NURS 173L, NURS 180, and NURS 185.

Corequisite(s): NURS 284L.

NURS 283. Pediatric Nursing
4 Credits (2+6P)

Consists of lecture and associated clinical and laboratory experiences which focus on the care of children from infancy through adolescence including acute and chronic health care problems. Employs nursing process, pathophysiology, pharmacology, and diet therapy through the holistic approach to wellness. Restricted to: Community Colleges only.

Prerequisite(s): NURS 170 and NURS 180.

Corequisite(s): NURS 275, NURS 280.

NURS 284 L. Practicum: Preceptorship
3 Credits

Clinical experience in a leadership role in specific practice areas enhancing the transition from student to practitioner utilizing the holistic approach to wellness. Restricted to: Community Colleges only.

Prerequisite(s): NURS 182.

Corequisite(s): NURS 282L.

NURS 285. Holistic Approach to Pharmacotherapeutic Intervention III
1 Credit

Level III. Holistic approach to the study of basic pharmacology concepts. Includes pharmacodynamic phases of drug interaction. Nursing process is discussed in relation to medication administration. Special emphasis on the role of the nurse and basic concepts related to specific drug categories. Restricted to: Community Colleges only.

Prerequisite(s): NURS 185 and NURS 275.

Corequisite(s): NURS 270.

NURS 291. Pathophysiology II
1-3 Credits

A continuation of materials presented in NURS 290, Pathophysiology I, covering the remaining body systems. Restricted to: Community Colleges only.

Prerequisite(s): BIOL 226 or 254 and NURS 290 or consent of program director.

NURS 293. Introduction to Nursing Concepts
3 Credits

This course introduces the nursing student to the concepts of nursing practice and conceptual learning. Same as NMNEC course no.: NMNEC101. Restricted to: BSN,BSNP,BSNR,NURS majors. Restricted to Las Cruces campus only.

Prerequisite(s): Admission to Nursing Program.

Corequisite(s): NURS 294, NURS 362.

NURS 294. Principals of Nursing Practice**4 Credits**

This course introduces the nursing student to the application of concepts through clinical skills in seminar, laboratory, and/or clinical settings. Principles of communication, assessments, safety, and interventions including accurate calculation, measurement, and administration of medications will be included. Same as NMNEC course no.: NMNEC102. Restricted to: NURS majors. Restricted to Las Cruces campus only.

Prerequisite(s): Admission to the nursing program.

Corequisite(s): NURS 293, NURS 362.

NURS 300. Principles of Professional Nursing Practice**7 Credits (4+6P)**

Focus on the principles, concepts, theories, and terminology central to the study of nursing and its evolution. Uses the nursing process as a framework for providing research-based professional nursing care. Includes clinical component. Restricted to Majors. Restricted to BSN, BSNP, BSNR, NURS majors.

NURS 302. Foundations of Health Assessment**3 Credits (2+2P)**

Theoretical basis and skills for biopsychosocial assessment of adults. Includes clinical component. Restricted to BSN, BSNP, BSNR, NURS majors.

NURS 314. Computer Technology for Nurses**3 Credits**

Introduction to health care informatics and its use in nursing practice. Focus includes electronic communication resources, issues and technological applications that support nursing and health care.

NURS 315. Introduction to Professional Nursing for the R. N.**3 Credits**

Transition course for the R.N. providing an overview of theories and concepts that are the bases for professional nursing practice.

NURS 322. Nursing Health Assessment**3 Credits**

Theoretical basis for the biopsychosocial assessment of individual patients across the life span for the RN. Restricted to Majors.

NURS 324. Nursing Care of the Older Adult**3 Credits**

Survey course addressing nursing care provisions for the elderly population in a variety of acute, community and home settings.

NURS 325. Human Pathophysiology for Nursing**3 Credits**

Concepts of alteration and adaptation in structure and function of the human body across the life span.

NURS 326. Pharmacology in Clinical Nursing Practice**4 Credits**

Pharmacological concepts and principles and their implications for nursing practice. Includes techniques of dosage calculation for medication and fluid administration. Restricted to BSN, BSNP, BSNR, NURS majors.

NURS 328. Human Pathophysiology Foundation for Nursing**4 Credits**

Human pathophysiology concepts of adaptation and alteration in function and structure across the life span and their implications for nursing practice. Restricted to: BSN, BSNP, BSNR majors.

Prerequisite(s): Grade of C or better in both BIOL 253 and BIOL 254.

Corequisite(s): NURS 362, NURS 293, NURS 294.

NURS 352. Bioterrorism**3 Credits**

Examines the role of today's nurse in the face of real or potential radiological and chemical threats. Emphasis is placed on clinical and public education and safety as well as nursing/logical responses. Taught online.

NURS 353. Nursing Informatics**3 Credits**

This course addresses nursing informatics principles and practices. Key concepts include relationship with evidence-based nursing practice, use of decision support systems, clinical information systems, telehealth, and standardized nursing language. Restricted to BSNC majors.

NURS 360. Introduction to Nursing Concepts**3 Credits**

This course introduces the nursing student to the concepts of nursing practice and conceptual learning. Same as NMNEC course no.: NMNEC101. Restricted to: NURS majors.

Prerequisite(s): Admission to Nursing Program.

Corequisite(s): NURS 361, NURS 362.

NURS 362. Evidence Based Practice**3 Credits**

The focus of this course is the principles of evidence based nursing practice. It includes the identification of clinical practice problems, the evaluation of available evidence, and the integration of evidence with clinical expertise and patient preferences in application to practice. Same as NMNEC course no.: NMNEC103. Restricted to: NURS majors.

Prerequisite(s): Admission to the nursing program.

Corequisite(s): NURS 293, NURS 294.

NURS 372. Adult Health Nursing I**8 Credits (4+8P)**

Theoretical basis for select acute and chronic illnesses related to adults is provided, and critical thinking is used to plan nursing care. Includes clinical component.

NURS 373. Nursing the Psychiatric-Mental Health Client**5 Credits (3+4P)**

Theoretical and practical knowledge applied to provision of psychiatric-mental health nursing service across the health care continuum. Includes clinical component. Restricted to BSN, BSNR, BSNP, NURS majors.

NURS 375. Introduction to Nursing Research**3 Credits**

Introduction to scientific inquiry. Evaluation and utilization of nursing research for clinical practice.

Prerequisite(s): (STAT/A ST 251G, A ST 311, OR STAT 271G) and (NURS 303, NURS 326, and NURS 328) or consent of instructor. Restricted to BSN, BSNP, BSNR, NURS majors.

NURS 376. Research and Evidence-Based Practice for the Practicing RN
3 Credits

Course provides introduction to evidenced-based practice and research principles for the practicing RN. Evidence-based practice principles and processes are covered. Foundations of research (quantitative and qualitative) research designs and research evaluation are included. Emphasis is placed on ethical and practical issues in critiquing and using research/evidence-based findings. Restricted to BSNC majors.

Prerequisite(s): A ST 311, or admission to RN-BSN Option with consent of instructor.

NURS 377. Health and Illness Concepts I**3 Credits**

This course will focus on health and illness concepts across the lifespan. Concepts covered are related to homeostasis/regulation, sexuality/reproductive, protection/movement and emotional processes. Same as NMNEC course no.: NMNEC201. Restricted to: NURS majors.

Prerequisite(s): NURS 294, NURS 293 & NURS 362.

Corequisite(s): NURS 378, NURS 379, NURS 380.

NURS 378. Health Care Participant**3 Credits**

This course introduces the nursing student to the attributes of the health care participant as an individual, a family, or a community. Same as NMNEC course no.: NMNEC202. Restricted to: NURS majors.

Prerequisite(s): NURS 293, NURS 294 & NURS 362.

Corequisite(s): NURS 377, NURS 379, NURS 380.

NURS 379. Nursing Pharmacology**3 Credits**

This course introduces the nursing student to pharmacologic nursing practice from a conceptual approach. Same as NMNEC course no.: NMNEC203. Restricted to: BSN,BSNP,BSNR,NURS majors.

Prerequisite(s): BIO 253 & BIO 254 OR SPM 271 & SPM 371 OR BIO 225 & BIO 226.

Corequisite(s): NURS 328.

NURS 380. Assessment and Health Promotion**4 Credits**

This course introduces the nursing student to the assessment of and the health promotion for the health care participant as an individual, a family, or a community. This course uses seminar, laboratory and/or clinical settings. Same as NMNEC course no.: NMNEC204. Restricted to: NURS majors.

Prerequisite(s): NURS 293, NURS 294, NURS 362.

Corequisite(s): NURS 377, NURS 378, NURS 379.

NURS 395. Health and Illness Concepts II**3 Credits**

This course will cover health and illness concepts across the lifespan. Concepts covered are related to oxygenation and hemostasis, homeostasis and regulation, protection and movement, and cognitive and behavioral processes. Same as NMNEC course no.: NMNEC301.

Restricted to: BSN,BSNP,BSNR,NURS majors.

Prerequisite(s): NURS 328, NURS 377, NURS 378, NURS 379, NURS 380.

Corequisite(s): NURS 396, NURS 398.

NURS 396. Professional Nursing Concepts I**3 Credits**

This course covers foundational concepts for professional development, including selected professional attributes and care competencies. Same as NMNEC course no.: NMNEC302. Restricted to: BSN,BSNP,BSNR,NURS majors.

Prerequisite(s): NURS 328, NURS 377, NURS 378, NURS 379, NURS 380.

NURS 397. Special Topics**1-9 Credits (1-9)**

Specific subjects to be announced in the Schedule of Classes. May be repeated for at total of 21 credits.

NURS 398. Care of Patients with Chronic Conditions**4 Credits**

The focus of this course is to provide safe, evidence-based nursing care for patients with chronic conditions, across the lifespan in a variety of settings. This course builds upon curricular concepts. This course is a combination of lab and clinical. Same as NMNEC course no.: NMNEC303. Restricted to: BSN,BSNP,BSNR,NURS majors.

Prerequisite(s): NURS 328, NURS 377, NURS 378, NURS 379, NURS 380.

Corequisite(s): NURS 395, NURS 396.

NURS 410. Adult Health Nursing II**6 Credits (3+6P)**

Focus is on the use of critical thinking to plan nursing care of adults with selected complex illnesses. Clinical component included.

NURS 415. Parent-Child Nursing**8 Credits (4+8P)**

Concepts and principles of nursing applied to healthy and ill infants, children, adolescents, and childbearing women within the context of the family. Includes clinical component.

NURS 416. Older Adult Nursing**2 Credits**

Introduction to aging, health problems and issues associated with aging. Implications for nursing care of the elderly.

NURS 420. Community Health Nursing**3 Credits**

Concepts basic to the nursing care of families, groups, and communities with an emphasis on health promotion, disease prevention, and health maintenance.

NURS 426. Community Health Nursing for the R.N.: Clinical**3 Credits**

Nursing process applied to the care of families, groups, and communities.

NURS 460. Strategies for Student Success**3 Credits**

This course is designed to assist and support students as they identify learning needs and develop a plan for successfully mastering nursing knowledge. Course activities and assignments will be designed to address student's self-identified learning goals to enhance their opportunity for success. Restricted to NURS, BSN, BSNP, BSNR majors.

NURS 466. Health and Illness Concepts III**4 Credits**

This course will cover health and illness concepts across the lifespan. Concepts covered are related to hemostasis/regulation, oxygenation/homeostasis, protection/movement, and emotional processes. Same as NMNEC course no.: NMNEC401. Restricted to: BSN,BSNP,BSNR,NURS majors.

Prerequisite(s): NURS 360, NURS 361, NURS 362.

Corequisite(s): NURS 467, NURS 468.

NURS 467. Clinical Intensive I**4 Credits**

This is the first of two Level Four clinical courses in which the student will apply the curricular concepts in the management of care participants with acute conditions across the lifespan. This course is a combination of seminar, lab, and clinical. Same as NMNEC course no.: NMNEC402. Restricted to: BSN,BSNP,BSNR,NURS majors.

Prerequisite(s): NURS 395, NURS 396, NURS 398.

Corequisite(s): NURS 466, NURS 468.

NURS 468. Clinical Intensive II**4 Credits**

This is the second of two Level Four clinical courses in which the student will apply the curricular concepts in the management of care participants with acute conditions across the lifespan. This course is a combination of seminar, lab, and clinical. Same as NMNEC course no.: NMNEC404.

Restricted to: BSN,BSNP,BSNR,NURS majors.

Prerequisite(s): NURS 395, NURS 396, NURS 398.

Corequisite(s): NURS 466,NURS 467.

NURS 470. Nursing Organization and Management**3 Credits**

Concepts of organization and delivery of care to groups of patients based on the nursing process. Emphasis on the roles of the nurse as manager, leader, and change agent within health-care organizations.

NURS 472. Community and Population Focused Nursing**6 Credits (3+6P)**

Synthesis of nursing, social, and public health science to develop health promotion, disease prevention, and protection strategies for communities and populations. Clinical component included.

NURS 475. Issues and Trends in Professional Nursing**3 Credits**

Explores the challenges associated with issues and trends in health care and the legal and ethical implications of professional nursing practice.

NURS 476. Nursing Organization & Management for the R.N.: Clinical**3 Credits**

Nursing process applied to organization, management, and delivery of health care. An integrating experience for the R.N. student designed to facilitate the transition to professional practice. Students work with mentors in a clinical setting to develop professional nursing roles related to leadership and management.

NURS 477. Nursing Organization and Management for the RN**3 Credits**

Course covers nursing organization, leadership, and management principles, theories, and research for the practicing RN. Restricted to BSNC majors.

NURS 479. Nursing Care for Complex Patients**8 Credits (2+12P)**

Principles and priorities of nursing care for patients across the life span experiencing complex care problems. Includes integrating experiences designed to facilitate the transition from student to professional nurse. Includes clinical component.

NURS 486. Concept Synthesis**3 Credits**

This course will focus on the synthesis of curricular concepts in the care of complex patients. Same as NMNEC course no.: NMNEC501. Restricted to: BSN,BSNP,BSNR,NURS majors.

Prerequisite(s): NURS 466, NURS 467, NURS 468.

Corequisite(s): NURS 487,NURS 488,NURS 489.

NURS 487. Professional Nursing Concepts II**3 Credits**

This course covers policy concepts for professional nursing. Same as NMNEC course no.: NMNEC502. Restricted to: BSN,BSNP,BSNR,NURS majors.

Prerequisite(s): NURS 466, NURS 467, NURS 468.

NURS 488. Clinical Intensive III**4 Credits**

The focus of this clinical course is application of the curricular concepts in the management of care participants with complex conditions across the lifespan. This course is a combination of seminar, lab, and clinical. Same as NMNEC course no.: NMNEC503. Restricted to: BSN,BSNP,BSNR,NURS majors.

Prerequisite(s): NURS 466, NURS 467, NURS 468.

Corequisite(s): NURS 486,NURS 487,NURS 489.

NURS 489. Capstone**4 Credits**

The synthesis, integration, and application of concepts to professional nursing practice will be applied in the final clinical course to ensure readiness to enter practice. Same as NMNEC course no.: NMNEC504. Restricted to: BSN,BSNP,BSNR,NURS majors.

Prerequisite(s): Successful completion of all previous nursing courses.

Corequisite(s): NURS 486,NURS 487,NURS 488.

NURS 490. Independent Study**1-3 Credits**

Individual studies with prior approval of department head.

NURS 500. Applied Statistics for Evidence-Based Practice**3 Credits**

Provides the logic and appropriate use of statistical techniques most commonly used. Emphasis is based on underlying logic of procedure, the appropriate use of underlying assumptions of procedures, interpretation of results from statistical software and evaluation of published results of the procedures. Statistical software will be used. Restricted to: NURP majors.

Prerequisite(s): Admission to DNP Program.

NURS 505. Theoretical Foundations of Advanced Nursing**3 Credits**

This course is a graduate-level introduction to nursing theory. This course assists students in understanding the nature of theory development in nursing, evidence-based practice and related disciplines. Students examine the definitions and meanings of the basic concepts of theory along with theory development and will explore an analysis of selected theories/models and their application to nursing practice, research, education, and administration.

Prerequisite(s)/Corequisite(s): Students must be enrolled in the graduate program in nursing or have the permission of advisor and faculty of course to enroll in course. Restricted to: NURS majors.

NURS 506. Health Policy for Advanced Nursing Practice**3 Credits**

Course provides a conceptual approach to understanding health policy including the social, legal, political and ethical factors that influence policy development. Strategies for influencing policy direction and change are examined. Restricted to: NURS, NUSC, NURP majors.

NURS 507. Nursing Research in Evidence-Based Practice**3 Credits**

This course is designed to prepare advanced practice nurses with the skills and knowledge needed to critically analyze and synthesize scholarly evidence to promote high quality evidence-based practice.

Prerequisite(s)/Corequisite(s): Students must be enrolled in the graduate program in nursing or have the permission of advisor and faculty to enroll in the course. Restricted to: NURS, NUSC, NURP majors.

NURS 511. Advanced Pathophysiology for Clinical Nursing**3 Credits**

In-depth study of the physiological and pathological bases of altered health states of patients across the life span. Case studies facilitate application of complex concepts to clinical nursing practice. Restricted to: NURS, NUSC, NURP majors.

NURS 512. Advanced Clinical Pharmacology**3 Credits**

Principles of clinical pharmacology for advanced clinical practice. Focus on pharmacology as it relates to human physiology and pathophysiology across the lifespan. Restricted to: NURS, NUSC, NURP majors.

NURS 514. Psychopharmacology for Advanced Practice**3 Credits**

Principles of clinical psychopharmacology with emphasis on clinical application of major drug classifications including decision making, prescribing, drug monitoring and patient education.

NURS 515. Advanced Health Assessment**3 Credits (2+1P)**

Assessment theory and skills for advanced clinical practice. Emphasis on assessment of patients across the life span. May be repeated up to 3 credits. Restricted to: NURS, NUSC, NURP majors.

NURS 518. Genetics and Health**2 Credits**

Assess the impact of emerging genetic technologies on healthcare at the individual, system and population level. Restricted to DNP majors.

Prerequisite(s): Admission to DNP Program.

NURS 530. Promoting Health Behavior**3 Credits**

Emphasis is on the role of the advanced practice nurse in facilitating health behavior change. The impact of health status on health behavior, ethical issues relate to health promotion, and the processes for promoting healthy behaviors are explored. Theoretical models of behavior change and primary, secondary, and tertiary prevention concepts serve as a basis for developing nursing interventions that promote behavior change.

NURS 540. Advanced Psychosocial Pathology for Family, Psychiatric-Mental Health Nursing**3 Credits**

In-depth study of psychosocial pathology, factors contributing to psychosocial dysfunction, and diagnostic reasoning basic to advanced-practice psychiatric mental health nursing; emphasis on etiology and differential diagnoses. Restricted to: NURS majors.

Prerequisite(s): Admission to the DNP Program.

NURS 562. Innovations and Health Care Organizations**3 Credits**

Examines complexity and innovation within health care systems, health care delivery, and population health. Areas of focus are systems, organizations, health disparities, and ethical decision making. Emphasis is on improvement in services and outcomes. Taught with NURS 649. Restricted to: NURS, NUSC, NURP majors.

NURS 563. Human Resource Management in Nursing**3 Credits**

Contemporary approaches to the development and management of nursing resources that complement organizational vision, strategies and management goals. Management of a diverse, quality workforce that results in an improved organizational performance. Performance evaluation, motivation, professional development and legal and regulatory aspects will be explored.

NURS 564. Nursing Fiscal Management**3 Credits**

Concepts of financial management emphasizing principles of health care budgeting and finance in managing health care resources. A focus is to achieve quality outcomes through financial resource management. Restricted to: NURS majors.

Prerequisite(s): NURS 562.

NURS 565. Advanced Leadership in Healthcare**3-5 Credits (3+1-2P)**

Analysis of leadership theories as they pertain to the nurse executive and the advanced practice nurse in complex health care organizations. Emphasis will be placed on organizational change and conflict management in working with interdisciplinary health care teams. Clinical component included for DNP students only. May be repeated up to 5 credits. Restricted to: NURS, NUSC, NURP majors.

Prerequisite(s): NURS 562.

NURS 566. Seminar in Nursing Administration- Roles**3 Credits**

Role preparation for the nurse administrator as manager, leader, collaborator and change agent. Synthesis of concepts from management and nursing as a basis for role effectiveness in nursing administration.

Corequisite: NURS 595.

NURS 567. Nursing Informatics**3 Credits**

This course is provides the foundational knowledge necessary to integrate systems and information technologies. Topics include informatics, knowledge management, healthcare information systems/ telehealth including the electronic health record. Focuses on using available technology to enhance safety and monitor the health status and outcomes of populations. Restricted to: NURS, NUSC, NURP majors.

Prerequisite(s): Consent of Instructor.

NURS 572. Pharmacology of Addictions**4 Credits**

Concepts and principles of the pharmacology of psychoactive substances and the addiction process; including the pharmacological approach to treatment. Restricted to: NURS majors.

NURS 573. Cardiovascular/Renal Nursing**3 Credits**

This course emphasizes the comprehensive management of individuals with acute and chronic cardiovascular/renal diseases within the context of family and communities using a case-based approach.

Prerequisite(s): Graduate status or permission of instructor.

NURS 574. Oncology Nursing**3 Credits**

This course presents the clinical aspects of cancer diagnosis, the clinical management of major cancers, and their treatment modalities. The course will also focus on supportive therapies for the cancer patient and symptom management.

Prerequisite(s): Graduate status or permission of instructor.

NURS 590. Independent Study**1-10 Credits**

Individual studies and directed research with prior approval of department head. May be repeated on a different topic. May be repeated for a maximum of 20 credits.

Prerequisite: consent of instructor.

NURS 591. Preceptorship: Prescription Drugs, Medicines and Other Therapeutics**1-11 Credits (4+44P)**

The course provides preceptored clinical experiences that provide advanced practice nursing students opportunities for practice and mastery of skills for management of culturally diverse patients within their designated specialty area to include prescribing drugs, medicines and other therapeutics, as well as monitoring the effects of the prescribed management. It requires the student to demonstrate integration, synthesis and application of assessment, diagnosis and management to include health promotion of patients with acute and/or stable chronic health conditions. Graded: S/U. Restricted to MSN majors.

Prerequisite(s): NURS 542 or NURS 530 or NURS 521.

NURS 595. Advanced Field Work in Nursing**1-6 Credits (4+24P)**

Faculty-supervised, independent work in student's advanced practice role. Field work normally taken after the core and designated specialty courses. Minimum of three field-work credits (12 contact hours) required in major area of study. May be repeated for a maximum of 12 credits. Restricted to majors. Graded S/U.

Prerequisites: NURS 532 and NURS 561.

NURS 597. Special Topics**1-3 Credits**

Specific subjects to be announced in the Schedule of Classes. May be repeated for a different subject area. May be repeated for a maximum of 8 credits.

Prerequisite: consent of instructor.

NURS 600. Philosophy of Science in Nursing**3 Credits**

Offers a framework for asking both ontological and epistemological questions about knowledge, human science, and nursing science.

NURS 601. Theory I: Methods and Processes of Nursing Knowledge Development**3 Credits**

Building on the Philosophy of Science course, the student will engage in analysis and critique of both developmental processes and composition of nursing disciplinary knowledge. Diverse approaches will be used to appraise and critique historical and contemporary milestones in the development and evaluation of nursing thought. Emphasis is also placed on implications of theory and knowledge development as related to multicultural and rural issues.

Prerequisite(s): NURS 600.

NURS 602. Theory II: Contemporary Substantive Nursing Knowledge**3 Credits**

Critically examine existing & evolving substantive knowledge drawn from nursing and other disciplines. Focus on the construction, analysis of current substantive nursing knowledge, including evaluation of relationships among theories, evidence and explanation will be pursued. Special attention to existing and evolving theories applicable to rural, multicultural and educational settings. **Prerequisite:** NURS 601

NURS 606. Quantitative Methods in Nursing Research**3 Credits**

Focus on approaches to developing nursing knowledge by means of quantitative research methods as applied to clinical problems, theoretical modeling of human responses to health and illness, and health policy issues. Emphasizes detailed analysis and critique of non-experimental and experimental designs, issues pertaining to sampling and statistical power, the reliability and validity of measures, and uses and abuses of descriptive and inferential statistics in nursing research literature. Students are expected to develop sufficient discernment to read, critique, evaluate, and discuss the quality, significance, and limitations of published quantitative nursing research.

Prerequisite: NURS 621.

NURS 607. Qualitative Methods in Nursing Research**3 Credits**

Major methodological traditions of qualitative research and their applications to knowledge development and clinical research in nursing are the emphasis. Overview of at least one computer-assisted qualitative data analysis software application. Students will engage in detailed critique and discussion of significant nursing investigation representing various qualitative approaches and traditions.

NURS 608. Field Methods in Qualitative Research**3 Credits**

The purpose of this course is to provide opportunities for students to engage in, analyze and evaluate various procedures and techniques used to gather qualitative data. Major data collection approaches including ethnography, phenomenology, grounded and critical theory are discussed. Students have the opportunity to participate in mini-field work projects while gathering expertise in field techniques used in qualitative research. Issues such as role of literature in qualitative research, investigator as instrument, ethical dilemmas, field entry and departure, and reflexivity are analyzed as they relate to the process of gathering and interpreting qualitative data.

Prerequisites: NURS 607 or consent of instructor.

NURS 610. Nursing Education: Pedagogy and Roles**3 Credits**

Teaching-learning process in the clinical and classroom settings. Focuses on educational patterns and pathways in nursing and the roles of faculty in academia. Educational reform is analyzed in relationship to diversity in students, faculty, practice settings and technology-driven learning environments. Instructional designs, teaching strategies, and outcome evaluations are examined for their pedagogic use. The development of critical thinking outcomes, mentorships and partnerships to meet the needs of students are addressed. The course examines issues and challenges that impact the educational process such as student and faculty recruitment, the changing healthcare environment, differentiation of practice, advanced practice, reduced resources and links with theory and research.

NURS 620. Advanced Health Care Statistics I**3 Credits**

This course provides knowledge, skills and practice in collecting, analyzing and interpreting data. The following quantitative techniques will be examined and utilized using SPSS: principle of measurement, probability, principles of parametric and non parametric techniques, Kolmogorov-Smirnov test, comparison of means, correlation analyses, use of psychometric techniques, binomial test, sign test, McNemar test, median test, Cochran Q test, Phi coefficient, Fisher's Exact test, Mann-Whitney U, Kruskal-Wallis test, Wilcoxon Signed Ranks and Spearman Rho. A graduate level statistics course completed within three years prior to the date of expected admission is desirable. Restricted to majors

NURS 621. Advanced Health Care Statistics II**3 Credits**

This course is the second of a two-semester quantitative statistical course designed to provide knowledge, skills and practice in collecting, analyzing, and interpreting data. The following quantities techniques will be examined and utilized using SPSS: analysis of variance (ANOVA), analysis of covariance (ANCOVA), linear, multiple, and logistic regression, structural equation modeling (SEM), principle components analysis, and factor analysis. Restricted to majors.

Prerequisite: NURS 620.

NURS 623. Mixed Methods**3 Credits**

Presents a brief overview of research paradigms with emphasis on formulating research questions, aims and methods for a mixed method/model approach. Students may use proposals developed in earlier qualitative and quantitative research classes to devise mixed method proposal integrating readings on these methods and own research interests. Prerequisite: NURS 606 and NURS 607

NURS 624. Measurement in Culturally Diverse Border Populations**3 Credits**

The focus of this course is the development of essential competencies required to locate, select, evaluate, and use instruments to operationalize nursing variables. Ethical considerations in nursing research and research issues in diverse populations will be discussed. Specific attention is given to the process of moving from concept to construct, measurement theory, validity/reliability issues, and measurement issues in diverse populations including literacy, social desirability bias, sensitive data, translations, and cultural equivalency. Restricted to PhD in Nursing majors.

Prerequisite(s): Admission to PhD in Nursing program; NURS 606; NURS 623; or consent of Instructor.

NURS 630. Issues in Studying Health of Culturally Diverse and Border Populations**3 Credits**

Analysis and evaluation of the unique health care needs of culturally diverse and rural populations across the lifespan from ethnic, economic, gender, and sexual orientation perspectives. Interdisciplinary strategies to affect positive health outcomes are discussed, analyzed, and evaluated. Restricted to: NURS, NUSC, NURP majors.

NURS 631. Population Based Approaches to Health Promotion**3 Credits**

Population based approaches to health promotion focuses on preparing nursing students to identify, critically analyze and evaluate health promotion initiatives in culturally diverse and border populations using the Southwestern U.S. and U.S./Mexico border as the case exemplar. It examines historical, socio-economic, legal and professional issues associated with health promotion and policy initiatives. It considers prospects for social change, political movements and alternative approaches to develop and hasten adaption of health promotion initiatives in partnership with communities, advocacy groups and health care agencies.

NURS 649. Innovations and Health Care Organizations**3 Credits**

Examines complexity and innovation within health care systems, health care delivery, and population health. Areas of focus are systems, organizations, health disparities, and ethical decision making. Emphasis is on improvement in services and outcomes. Taught with NURS 562. Restricted to: NURS, NUSC, NURP majors.

NURS 650. Behavioral Approaches and Determinants of Nursing and Health**3 Credits**

Focuses on how behavioral/mental health concepts are applied in determining health outcomes for individuals, families, and communities. Students will apply and synthesize theoretical constructs within practice and research focusing on behavioral/mental health concepts. Health outcomes are viewed in a traditionally holistic manner in that health outcomes are discussed as an integral part of the human experience of healing and health.

NURS 651. Applied Nursing Science for the APN**3 Credits**

Explores the philosophical and scientific underpinnings for nursing knowledge relevant to the role of the doctorate of nursing practice. Restricted to: NURS, NUSC, NURP majors.

Prerequisite(s): NURS 507.

NURS 652. Translational Methods and Evidence-Based Practice**3 Credits**

Designed to prepare DNP student to demonstrate advanced levels of clinical judgment, systems thinking, and accountability in design, delivery, and evaluating evidence based on care to improve patient outcomes. Translate evidence into their specialty practice environment. Restricted to: NURS, NUSC, NURP majors.

Prerequisite(s): NURS 651.

NURS 658. The Aging Adult**3 Credits**

This course focuses on the care and management of older adults and their families. Content is directed at assessment and management of acute and chronic presentations of illness and complex, multiple health problems across the health care continuum. It will include examination of the psycho-socio-cultural processes which influence the behavioral patterns, coping, and adaptation of older adults. Restricted to DNP majors.

Prerequisite(s): Admission to DNP program.

NURS 659. Addictive Disorders**4 Credits**

Focus on care of the individual with addictive disorders. The impact on the individual as well as the community will be examined. Advanced practice nursing interventions based on theoretical and research based knowledge of addictions will be addressed. The pharmacology of psychoactive substances, the addiction process, and pharmacological approach to treatment will be included. Treatment of addictive disorders and their relevance to culturally diverse clientele with a variety of lifestyles will be evaluated. Restricted to: NURP majors.

Prerequisite(s): Admission to DNP program.

NURS 660. Family, Psychiatric Mental Health Nursing I**7 Credits (3+16P)**

This course provides the family psychiatric nurse practitioner student with advanced theoretical knowledge and practice in individual therapies, comprehensive psychiatric evaluation, personality development concepts, dual diagnoses and psychotherapy principles; including management of health promotion, health maintenance and disease prevention activities. Emphasis will be placed on individuals across the lifespan in a multicultural environment. Restricted to: NURP, NUSC, NURS majors.

Prerequisite(s): NURS 511, NURS 512, NURS 515.

NURS 662. Family, Psychiatric-Mental Health Nursing II
3-7 Credits (3+1-4P)

This course provides further knowledge and skills for the family psychiatric nurse practitioner student in the conceptual framework and practice of psychotherapy in a variety of settings. Emphasis is placed on work with individuals and families and groups across the lifespan in a multicultural environment to help manage their acute and chronic mental illnesses, including, dual diagnosis, psychopathology and psychopharmacology. Advanced practice nurses in the certificate program will have varying hours of credit. May be repeated up to 7 credits. Restricted to: NURS,NUSC,NURP majors.

Prerequisite(s): NURS 660.

NURS 664. Family, Psychiatric Mental Health Nursing III
5 Credits (1+4P)

This course provides further knowledge and skills for the family psychiatric nurse practitioner student to refine competencies in neuropsychology, assessment, diagnosis and treatment. Emphasis will be placed on individuals, families and groups across the lifespan in a multicultural environment. May be repeated up to 5 credits. Restricted to: NURS,NUSC,NURP majors.

Prerequisite(s): NURS 662.

NURS 670. Diagnostic Reasoning
3 Credits (2+4P)

This course is designed to develop advanced knowledge of differential diagnosis based upon physical and mental assessment of clients/patients across the lifespan in a variety of clinical settings. Students apply, synthesize, and integrate advanced clinical problem solving and reasoning to determine differential nursing and medical diagnoses, interpret and apply laboratory and diagnostic techniques to determine a final judgment and diagnosis. Restricted to DNP majors.

NURS 671. Primary Care I
7 Credits (3+16P)

This course provides the nurse practitioner student with advanced theoretical knowledge and practice in the assessment and management of health promotion, health maintenance and disease prevention activities across the lifespan; including the assessment and management of common acute and chronic health concerns. Emphasis will be placed on primary health care of individuals and their families in a multicultural environment. Restricted to: NURS, NURP, NUSC majors.

Prerequisite(s): NURS 511, NURS 512, NURS 515.

NURS 672. Primary Care II
3-7 Credits (3+1-4P)

The course continues the development of knowledge and skills for the nurse practitioner student for the assessment and management of selected common acute and chronic health conditions across the lifespan. Emphasis will be placed on primary health care of individuals and their families in a multicultural environment. Advanced practice nurses in the certificate program will have varying hours of credit. May be repeated up to 7 credits. Restricted to: NURP,NURS,NUSC majors.

Prerequisite(s): NURS 671.

NURS 673. Primary Care III
5 Credits (1+4P)

The course continues the development of knowledge and skills for the nurse practitioner student with special attention to complex and chronic health conditions across the lifespan and business, legal, and ethical issues in primary care. Variable clinical credits, 1-4. May be repeated up to 5 credits. Restricted to: NURS,NUSC,NURP majors.

Prerequisite(s): NURS 672.

NURS 676. Women's Health
3 Credits

The course will examine patient and family perspectives as well as health care system variables and societal issues that affect the organization and delivery of women's health care. Students will engage in critical analysis of the evidence base concerning psychosocial and spiritual concerns and barriers to and opportunities for improving women's health care across the diverse settings in which health care is delivered. Focus on evidence-based approaches to the primary care management of women. May be repeated up to 3 credits.

NURS 678. Health Needs of Special Populations
2-4 Credits (2+1-2P)

This course provides an overview of infant, child, adult and older adult health needs and interventions that promote and support optimal health. The conceptual and theoretical foundation for advanced practice with individuals and families across the lifespan is emphasized, including pharmacotherapeutic and integrated bio-psychosocial interventions for diverse populations across the continuum of care. Advanced practice nurses in the certificate program will have varying hours of credit. May be repeated up to 4 credits.

Prerequisite(s): NURS 671, NURS 672, NURS 673, NURS 660, NURS 662, NURS 664.

NURS 684. Lifestyle Change and Adherence Issues with Diverse Populations
3 Credits

Includes the critical examination of selected theories of health behavior on life style choices and adherence issues with diverse populations within the community setting. Emphasis is given to the analysis of health behavior in regard to planning, development, and evaluation of population based health programs. Restricted to DNP majors.

NURS 685. Epidemiology for Advanced Nursing Practice
2 Credits

Emphasis is on the practical application of the principles of epidemiology in the measurement and evaluation of population health. Epidemiological literature will be critiqued and synthesized to evaluate population-based public health nursing problems. Issues related to disease surveillance, causation, genetic patterns, screening and social trends in population health will be examined. Use of existing data bases and technology programs are covered. Restricted to: NURP, NURS, NUSC majors.

NURS 690. Doctoral Nursing Seminar
1-3 Credits (1-3)

Seminar to build nursing scholarship skills,consisting of a series of 1 credit seminars that are taken as part of the doctoral degree plan. May be repeated up to 7 credits. Restricted to: NUSC majors.

NURS 691. Independent Study
1-6 Credits (1-6)

Individual studies and directed research with prior approval of department head. May be repeated for a maximum of 12 credits.

Prerequisite: consent of instructor.

NURS 697. Professional Roles for Advanced Practice Clinical Nursing
3 Credits

This course will focus on providing an in depth understanding of the legal, historical, political, social, and ethical aspects of advanced practice nursing. Traditional and emerging roles for advanced practice nursing are examined. Restricted to DNP majors.

Prerequisite(s): Admission to DNP program, NURS 664 OR NURS 672.

NURS 698. Advanced Clinical Immersion**1-4 Credits (1-4)**

Capstone practicum experience for advanced practice students. Focus will be on a practice issue chosen by the student for further development as an evidence-based doctoral project. May be repeated up to 4 credits. Restricted to: NURP majors. S/U Grading (S/U, Audit).

Prerequisite(s): NURS 511, NURS 512, NURS 515 or enrollment in post-masters track.

NURS 699. Clinical Scholarly Project**1-4 Credits (1-4)**

Building on the practice expertise of the DNP student, this series of credits is to provide the student with the opportunity to design an innovative clinical practice improvement project/program addressing an actual health care concern. Through mentored activities, the DNP student will identify, develop, implement, evaluate, and disseminate an independent analytic. Graded: S/U. NURS 652. Restricted to: NURP majors. S/U Grading (S/U, Audit).

Prerequisite(s): Admission to DNP program.

NURS 700. Doctoral Dissertation**1-9 Credits (1-9)**

Dissertation may be repeated to maximum of 30 credits. Minimum requirements are 21 credit hours. Comprehensive examine is included within these 21 credits.

NURS 999. Practical Nursing Requirements Completed**99 Credits**

A phantom course created to indicate a student has met Practical Nursing requirements. Used to indicate this in academic history to replace an administrative message not converted from SOLAR to VISTAS. 01/97

OEBM-BIOMEDICAL TECHNOLOGY (OEBM)

OEBM 140. Applied Human Biology for Biomedical Technology**3 Credits**

Essential human biology, anatomy, physiology and medical terminology for biomedical equipment technicians. Focus on the vocabulary necessary for effective communication in the hospital environment as part of the health care team. Restricted to: Community Colleges only.

OEBM 141. Medical Electronics and Safety in Healthcare**3 Credits**

Introduction to the biomedical equipment technology field. Operation of common biomedical equipment to include pressure and temperature systems, infusion devices, patient monitors, and other physiologic and patient systems. Hospital safety and health regulations explained. Restricted to Community Colleges campuses only.

Prerequisite(s): OEBM 140.

OEBM 200. Biomedical Internship**3 Credits**

Practice working in industry as a biomedical electronics technologist. Students work on a variety of medical equipment and job tasks. An employer evaluation, student report, and a minimum of 100 work hours are required. May be repeated up to 9 credits. Consent of Instructor required. Restricted to Community Colleges campuses only.

Prerequisite(s): OEBM 140 and OEBM 141.

OEBM 210. Biomedical Clinical**4 Credits (1+9P)**

Clinical experiences to include advanced biomedical equipment maintenance, inventory control, and medical facility and industry standards. Restricted to Biomedical majors.

Prerequisite(s): OEBM 200.

OEBM 211. CBET Exam Preparation**1 Credit**

An overview of the Certified Biomedical Equipment Technician exam. Topics include anatomy and physiology, electronics principles, safety issues, equipment operation, and equipment troubleshooting.

Prerequisite(s)/Corequisite(s): OEBM 241 AND OEBM 240. Restricted to Community Colleges campuses only.

OEBM 240. Medical Imaging Systems**3 Credits**

The fundamentals of diagnostic radiography equipment will be explored. Principles of an x-ray system will be explained including the x-ray generation, image formation and film processing. Focus will be on both safety and quality. Restricted to Community Colleges campuses only.

Prerequisite(s): OEBM 140.

OEBM 241. Advanced Medical Electronics**3 Credits (3+1P)**

Advanced study in biomedical equipment to include cardiovascular, pulmonary, telemetry and other critical life support systems. Restricted to Community Colleges campuses only.

Prerequisite(s): OEBM 141.

OECs-COMPUTER TECHNOLOGY (OECs)

OECs 101. Computer Basics**1 Credit**

Hands-on instruction to introduce computer use and commonly used software. Graded S/U.

OECs 105. Introduction to Information Technology**3 Credits**

Introduction and application of basic information technology skills using personal computers including operating systems, common office application software, and the impact of technology on the economy and society. Restricted to: Community Colleges only.

OECs 110. Introduction to Power Point**1 Credit**

An introduction to Power Point software to develop business presentations. Includes concepts of basic presentation methods and graphic design principles. Students will create and deliver presentations using text, charts, digitized images, and sound.

Prerequisites: BCIS 110, C S 110, or OECs 105.

OECs 125. Operating Systems**1-3 Credits**

Installation, configuration and optimization of current operating systems. Restricted to: Community Colleges only.

OECs 128. Operating Systems Linux/Unix**3 Credits**

Installation, configuration, and use of Linux/Unix operating system software and utilities including hardware management, file management, use of command line, and scripting. Restricted to: Community Colleges only.

OECS 140. Introduction to Game Production Industry
3 Credits

Students explore the business behind game production, understanding how game companies are organized and funded, positions within the game industry, and what skills game producers need.

Prerequisites: Either BCIS 110, C S 110, or OECS 105.

OECS 141. Introduction to Interactive Game Programming
3 Credits

This introductory programming class reviews the basics of programming, including the object-oriented approach. Students will de-construct existing games, develop their own code, and gain an appreciation for coding strategies. May be repeated for a maximum of 6 credits. Restricted to: Community Colleges Only.

Prerequisites: C S 110, BCIS 110, or OECS 105.

OECS 145. Mobile Application Development
1-3 Credits (1-3)

An in-depth review of concepts, design strategies, tools and APIs needed to create, test and deploy applications for mobile devices. Topics include: design of mobile user interfaces, application life-cycle, multi-threading, inter-process communication, data persistency, background services, geo-location/mapping, graphics/animation, performance, and security. Restricted to: Community Colleges only.

OECS 150. Introduction to Programming Using Visual Basic
4 Credits

Introduction to algorithmic problem-solving concepts, structured programming design-oriented application programming interface development. Solutions to problems are implemented using the Visual Basic programming language in the Windows environment, with connection to Access databases as applicable. Restricted to: Community Colleges only.

Prerequisite(s): CS 110, OECS 220, and MATH 120.

OECS 155. Special Topics - Introductory Computer Technology
0.5-4 Credits (.5-4)

Topics to be announced in the Schedule of Classes. May be repeated up to 8 credits.

OECS 185. PC Maintenance and Repair I
1-3 Credits

Introduction to most common types of PC configurations, installations, and failures. This course will explore troubleshooting skills for maintaining and repairing common hardware and software related problems. May be repeated up to 3 credits. Restricted to Community Colleges campuses only.

OECS 192. C++ Programming I
3 Credits

Development of skills in programming using the C++ programming language. Restricted to: Community Colleges only.

OECS 195. Java Programming I
1-3 Credits

Developing of skills in programming using the Java programming language. Restricted to: Community Colleges only.

OECS 200. Accounting on Microcomputers
3 Credits

Fundamental accounting principles using popular microcomputer software to include G/L, A/R, A/P, purchase order, billing, inventory, and forecasting modules.

Prerequisite: ACCT 252 or BOT 121.

OECS 203. UNIX Operating System
1-3 Credits

Introduction to the UNIX operating system using Telnet to access a remote UNIX system. Basic UNIX commands and file system concepts.

Prerequisite: C S 110, B CS 110G or OECS 105.

OECS 204. Linux Operating System
1-3 Credits

Install and configure the Linux operating system on X86 systems. Covers issues involved in maintaining operating system, networking, creating and managing users, and installing and updating software. General procedures for working with operating system includes maintaining disk space, preserving system security, and other related topics. May be repeated up to 3 credits. Restricted to Community Colleges campuses only.

OECS 205. Advanced Operating Systems: Administration
3 Credits

Examines operating systems designed for PC, minicomputers and mainframes. Covers maintaining operating systems, creating and managing users, and installing and updating software. General procedures for working with operating systems will include maintaining disk space, preserving system security, providing mail services, among other topics. May be repeated for a maximum of 6 credits.

Prerequisite: OECS 128.

OECS 207. Windows
0.5-3 Credits

Installation, configuration, and maintenance of Windows. May be repeated for a maximum of 6 credits under different subtitles listed in the Schedule of Classes. May be repeated up to 6 credits. Restricted to: Community Colleges only.

Prerequisite(s): OECS 105 or BCS 110G or CS 110G or consent of instructor.

OECS 208. Internet Applications
1-3 Credits

Survey of the Internet to include e-mail, file transfer, current search techniques, the World Wide Web and basic Web page development. May be repeated for a maximum of 6 credits.

Prerequisite: C S 110G, BCIS 110 or OECS 105.

OECS 209. Computer Graphic Arts
1-3 Credits

Basic graphics composition using computer programs to include editing and manipulating graphic images, clip-art, and printing of pictures. May be repeated for a maximum of 6 credits under different subtitles listed in the Schedule of Classes.

Prerequisite: OECS 105, C S 110, or OECS 101.

OECS 211. Word Processing Applications
1-3 Credits

Basic word processing to include composing, editing, formatting, and printing of documents. May be repeated under different subtitles listed in the Schedule of Classes for a maximum of 6 credits.

Prerequisites: C S 110, BCIS 110 or OECS 105.

OECS 213. Image Processing
1 Credit

Introduction to digital imaging acquisition and editing. Use of digital cameras and computer graphic software for business and personal use. Graded S/U.

Prerequisites: C S 110, BCIS 110 or OECS 105.

OECS 214. Creating a Web Page**1 Credit**

Introduction to creating Web pages for business and personal use. Graded S/U.

Prerequisites: C S 110, BCIS 110 or OECS 105.

OECS 215. Spreadsheet Applications**1-3 Credits**

Use of spreadsheets to include graphics and business applications. May be repeated for a maximum of 6 credits.

Prerequisites: C S 110, BCIS 110 or OECS 105.

OECS 216. Programming for the Web**3 Credits**

Designing web-based applications using appropriate programming language(s) such as, but not limited to HTML, PHP, MySQL, SQL, Java, Perl, C or C++. May be repeated up to 6 credits. Restricted to: Community Colleges only.

Prerequisite(s): One semester of any programming course.

OECS 220. Database Application and Design**1-3 Credits**

Creating, sorting, and searching of single and multifile databases to include report generation and programming database commands. May be repeated for a maximum of 6 credits under different subtitles listed in the Schedule of Classes. Restricted to: Community Colleges only.

Prerequisite(s): C S 110 OR BCIS 110 OR E T 120 OR E T 122 OR OECS 105.

OECS 221. Internship I**1-3 Credits**

Work experience that directly relates to a student's major field of study that provides the student an opportunity to explore career paths and apply knowledge and theory learned in the classroom. Internships may be paid or unpaid. Students are supervised/evaluated by both the employer and the instructor. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: OECS majors. S/U Grading (S/U, Audit). Restricted to Community Colleges campuses only.

Prerequisite(s): Consent of instructor.

OECS 222. Internship II**1-3 Credits**

Continuation of OECS 221. Each credit requires specified number of hours of on-the-job work experience. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: OECS majors. S/U Grading (S/U, Audit). Restricted to Community Colleges campuses only.

Prerequisite(s): OECS 221 and consent of instructor.

OECS 227. Computer Applications for Technicians**3 Credits**

Computer applications for service technicians in various disciplines. Hardware and software applications explored. Includes operating systems, high level programming, and networking hardware and software.

OECS 230. Data Communications and Networks I**1-3 Credits**

Definition of data communication; survey of hardware applications and teleprocessor software; examination and design of networks. May be repeated for a maximum of 6 credits.

Prerequisite: OECS 185.

OECS 231. Data Communications and Networks II**1-3 Credits**

Installation and application of popular microcomputer network software. May be repeated for a maximum of 6 credits.

Prerequisite: OECS 230.

OECS 232. Implementing and Supporting Networks I**3 Credits**

Knowledge and skills relating to post-installation and day-to-day administration tasks in a single-domain or multiple-domain network.

Prerequisite: OECS 230 or OECS 261.

OECS 234. Linux Server**3 Credits**

This course addresses the implementation and support needs of IT professionals that are planning to deploy and support Linux Server(s). It provides in-depth, hands-on training for planning, implementation, management and support of Linux networking services. May be repeated up to 6 credits.

Prerequisite(s): OECS 128, OECS 203 or OECS 204.

OECS 235. Structured Query Language (SQL)**1-3 Credits**

Installation, configuration, administration, and troubleshooting of SQL client/server database management system.

Prerequisite: OECS 185, OECS 207, OECS 230 or OECS 261.

OECS 237. Windows Server**3 Credits**

This course addresses the implementation and support needs of IT professionals that are planning to deploy and support Microsoft Windows Server Active Directory Domain Services in medium to large businesses. It provides in-depth, hands-on training for Information Technology (IT) professionals responsible for the planning, implementation, management, and support of Windows Active Directory services. Restricted to: Community Colleges only.

Prerequisite(s): OECS 207.

OECS 245. Game Programming I**3 Credits**

Development of programming skills for games and animation using current programming languages and tools. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

OECS 250. Systems Analysis and Design I**3 Credits**

Analysis, configuration, design and testing of organizations' work flow as it relates to hardware, software, data, procedures and personnel. Systems Life Cycle approach matching end users' needs to feasible financial, technical and operational solutions. Restricted to Community Colleges campuses only.

Prerequisite(s): OECS 220.

OECS 252. Project Management**3 Credits**

Utilization of project management software to establish, control and coordinate timelines, budgets, and work teams. Introduction to methods and principles of oriented project management emphasizing team-based performance.

OECS 255. Special Topics**1-4 Credits**

Topics to be announced in the Schedule of Classes.

OECS 260. Hypertext Markup Language (HTML)**1-3 Credits**

Coverage of HTML as used for web-page development for Internet and Intranet. Text manipulation, graphics, hypertext links, lists, and tables. May be repeated for a maximum of 3 credits.

Prerequisite: C S 110, BCIS 110 or OECS 105.

OECS 261. Introduction to Networks**4 Credits**

Introduction to networking principles including the practical and conceptual skills for understanding basic networking, planning and designing networks, implementing IP addressing schemes, examining the OSI and TCP/IP layers, and performing basic configurations for routers and switches. Aligns to the first course of the Cisco Networking Academy CCNA curriculum. Restricted to Community Colleges campuses only.

Prerequisite(s): C S 110G, BCIS 110G, OECS 105, or E T 120.

OECS 262. Essentials of Routing and Switching**4 Credits**

Examination of the architecture, components, and operations of routers and switches in a small network. Student will learn how to configure, verify and troubleshoot: routers and switches, static routing, default routing, VLANs, and ACLs. Aligns to the second course of the Cisco Networking Academy CCNA curriculum. Restricted to: Community Colleges only.

Prerequisite(s): OECS 261.

OECS 263. Network Fundamentals**4 Credits**

Fundamentals of networking architecture, components, and operations including practical and conceptual skills using routers and switches. Student will learn how to configure, verify and troubleshoot static routing, default routing, VLANs, and ACLs. This course aligns to the third course of the Cisco Networking Academy CCNA curriculum. Restricted to: Community Colleges only.

Prerequisite(s): OECS 262.

OECS 264. Network Routing Protocols**4 Credits**

Fundamentals of routing protocols for troubleshooting advanced network operations. Covers common networking issues such as RIP, OSPF, and EIGRP for IPv4 and IPv6 networks. This course aligns to the fourth course of the Cisco Networking Academy CCNA curriculum. Restricted to: Community Colleges only.

Prerequisite(s): OECS 263.

OECS 269. Network Security**3-4 Credits (3-4)**

Fundamentals of design and implementation of network security solutions that will reduce the risk of system vulnerability. May be repeated up to 8 credits. Restricted to Community Colleges campuses only.

Prerequisite(s): OECS 204 or OECS 207 or OECS 261 or consent of instructor.

OECS 272. Introduction to Bioinformatics Research**3 Credits**

Bioinformatics is the intersection of computer science and molecular biology. It is the science of informatics as applied to biological research. This course develops the understanding of genomics research techniques and how large amounts of complex data is managed. This research based class is designed to introduce skills necessary to enter this high demanding field of study. Restricted to: Community Colleges only.

Prerequisite(s): BCIS 110, or C S 110, or OECS 105.

OECS 275. PC Maintenance and Repair II**1-3 Credits**

Continuation of OECS 185. May be repeated up to 6 credits. Restricted to Community Colleges campuses only.

Prerequisite(s): OECS 185.

OECS 280. Desktop Publishing I**3 Credits**

Design and production of publication materials to fill the needs of business communities, using a microcomputer. May be repeated for a maximum of 6 credits. Same as BOT 280.

Prerequisites: either BCIS 100G, C S 110, OECS 105.

OECS 285. Fundamentals of Multimedia Applications**1-3 Credits**

Fundamentals of designing video, audio and web-based multimedia presentations for business and technical needs. Restricted to: Community Colleges only.

OECS 290. Computer Technology Capstone**1-3 Credits**

Refines skills learned in the OECS program. Culminates in a review and practice of advanced software applications. May be repeated up to 3 credits. Restricted to: OECS & OECT majors. Restricted to Community Colleges campuses only.

Prerequisite(s): (OECS 125, OECS 128, OECS 207, OR OECS 203) AND (OECS 185 OR E T 283).

OECS 299. Independent Study**1-3 Credits**

Specific subjects to be determined based on need. DAS Occupational Education, Dental Assisting. Restricted to: Community Colleges only.

OEEM- PARAMEDIC (OEEM)

OEEM 101. CPR for the Health Care Professional**1 Credit**

Students learn identification and response to airway and circulation emergencies, including use of a SAED and accessing the EMS system. This course is taught using the American Heart Association guidelines for course completion. Required: grade of C or better.

OEEM 103. Heartsaver First Aid/CPR**1 Credit**

Students learn how to identify and respond to airway, circulation and basic first aid emergencies, to include using a SAED and accessing the EMS system. This course is intended for students who are not Allied Health Majors and utilizes the American Heart Association guidelines for course completion. Restricted to: Community Colleges only.

OEEM 106. Advanced First Aid**2 Credits**

Theory and advanced first aid skills taught emphasizing recognition and providing care for injury or sudden illness until professional medical help arrives. Course meets and/or exceeds the Red Cross or National Safety Council standards.

Corequisite: OEEM 101 or consent of instructor.

OEEM 115. First Responder Prehospital Professional**3 Credits (2+3P)**

Provides training in prehospital medical and traumatic emergencies. Requires a C or better to pass. Restricted to majors.

Prerequisite: consent of instructor.

Corequisite: OEEM 101.

**OEEM 116. Emergency Medical Technician Bridge
5 Credits (3+6P)**

Enhanced skill instruction and didactic integration designed to meet the requirements for an EMT-Basic certificate. Requires a "C" or better to pass. May be repeated up to 5 credits. Consent of Instructor required. Restricted to Community Colleges campuses only.

Prerequisite(s): OEEM 115, OEEM 101.

Corequisite(s): OEEM 153, OEEM 121.

**OEEM 120. Emergency Medical Technician Basic
6 Credits**

EMT-Basic skills to include care of soft tissue and muscular/skeletal injuries, circulatory, nervous, general medical and respiratory emergencies. Requires a "C" or better to pass. May be repeated up to 6 credits. Consent of Instructor required.

Corequisite(s): OEEM 101, OEEM 120 L, OEEM 121.

Prerequisite(s)/Corequisite(s): OEEM 153. Restricted to: OEEM, OEMS majors. Restricted to Community Colleges campuses only.

**OEEM 120 L. Emergency Medical Technician Basic Lab
2 Credits**

EMT-Basic skills development with emphasis on assessment, skills competency and team-work in patient care in the prehospital setting. Requires a C or better to pass.

Corequisites: OEEM 101 or OEEM 120, and OEEM 121, or consent of instructor.

**OEEM 121. Emergency Medical Technician Basic Field/Clinical
1 Credit**

Covers the patient care experience provided through assigned shifts in the hospital and/or ambulance setting. Requires a "C" or better to pass. May be repeated up to 1 credits. Consent of Instructor required.

Corequisite(s): OEEM 116 or OEEM 120, OEEM 120 L.

Prerequisite(s)/Corequisite(s): OEEM 101. Restricted to: OEMS, OEEM majors. Restricted to Community Colleges campuses only.

**OEEM 122. Emergency Medical Technician Basic Advanced Field/
Internship
2 Credits**

Expanded patient care experience provided through practical scenarios, assigned shifts in the hospital and/or ambulance setting. Requires a C or better to pass.

Prerequisite: current EMT-basic license and consent of instructor.

**OEEM 150. Emergency Medical Technician Intermediate
5 Credits**

Theory of the roles, responsibilities and scope of practice of the EMT-Intermediate. Assessment and management of respiratory, cardiac, trauma, environmental, behavior, reproduction, and childhood emergencies. Requires a C or better to pass.

Prerequisites: current EMT-basic license, pretest and consent of instructor.

Corequisites: OEEM 150L and OEEM 151.

**OEEM 150 L. Emergency Medical Technician Intermediate Lab
2 Credits**

EMT-Intermediate skills development with an emphasis on assessment, skills competency, and team work in patient care in the prehospital setting. Requires a C or better to pass. Restricted to: Community Colleges only.

Corequisite(s): OEEM 150 and OEEM 151.

**OEEM 151. Emergency Medical Technician Intermediate Field/Clinical
2 Credits**

Patient care experience provided through assigned shifts in the hospital and/or ambulance setting. Requires a C or better to pass.

Prerequisite: consent of instructor.

Corequisites: OEEM 150 and OEEM 150L.

**OEEM 153. Introduction to Anatomy and Physiology for the EMS Provider
3 Credits**

To properly assess and manage a patient, a prehospital provider must have a solid foundation in human anatomy and physiology. This course provides a systematic approach to building this foundation. Grade of "C" or better is required to pass the course. Consent of Instructor required. Restricted to Community Colleges campuses only.

**OEEM 155. Special Topics
1-6 Credits**

Specific topics to be listed in Schedule of Classes. May be repeated for a maximum of 10 credits.

**OEEM 158. Emergency Medical Technician-Combination Refresher
2 Credits**

A comprehensive review of prehospital medicine for the prehospital care provider from the first responder level through the EMT Intermediate.

New material relevant to recertification of the New Mexico First Responder, EMT Basic and EMT Intermediate licensure included. Graded S/U.

**OEEM 177. Emergency Medical Services Instructor
4 Credits**

Theory of student learning, methodology, instructional components, evaluation, and course coordination for the EMS profession. Restricted to majors. Requires a C or better to pass.

Prerequisite: consent of instructor.

**OEEM 201. Human Pathophysiology
3 Credits (2+3P)**

Overview of anatomy and physiology. Emphasis on human body pathophysiology including a medical illness component. Requires a "C" or better to pass. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: OEMS, OEEM majors. Restricted to Community Colleges campuses only.

Prerequisite(s): OEEM 120, OEEM 120 L.

**OEEM 202. EMT-Paramedic I Respiratory Emergencies
3 Credits (2+3P)**

Review anatomy, physiology and pathophysiology of the respiratory system. Assessment and management of respiratory emergencies and acute respiratory failure in the prehospital setting. Requires a "C" or better to pass. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: OEMS, OEEM majors. Restricted to Community Colleges campuses only.

Prerequisite(s): OEEM 212.

**OEEM 203. EMT-Paramedic II Trauma Emergencies
3 Credits (2+3P)**

Study of the effects of trauma on the human body. Assessment and management of trauma patients and scenes, including vehicular extrication. Restricted to majors. Requires a C or better to pass.

Prerequisites: OEEM 202 and consent of instructor.

**OEEM 206. Introduction to Advanced Prehospital Care
3 Credits (2+3P)**

Overview of prehospital care including roles and responsibilities of EMT-P, EMS systems, medical, legal, ethical issues, stress management, medical terminology, medical report writing and communication. Includes ride-along with ambulance and dispatch observation. Requires a C or better to pass. Restricted to majors. Consent of instructor required. Restricted to: Community Colleges only. Restricted to OEEM majors.
Prerequisite(s): OEEM 120.

**OEEM 207. Introduction to Pharmacology
3 Credits (2+3P)**

Drug actions, factors modifying drugs and dosages: characteristics of drug effects, and drug history and dosages. Prehospital protocol, transport, and common patient prescription medications. Restricted to majors. Requires a C or better to pass. Restricted to: Community Colleges only. Restricted to OEEM majors.
Prerequisite(s): OEEM 120.

**OEEM 210. Cardiac Rhythm Interpretation
3 Credits (2+3P)**

Cardiac conduction system: electrophysiology, electrocardiogram, monitor, atrial, sinus, ventricular and junctional dysrhythmias, multiple lead EKG and 12 lead EKG interpretation. Requires a "C" or better to pass. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: OEEM, OEMS majors. Restricted to Community Colleges campuses only.
Prerequisite(s): OEEM 201, OEEM 206, OEEM 207.

**OEEM 212. EMT-Paramedic Cardiovascular Emergencies
3 Credits (2+3P)**

Review anatomy, physiology, and pathophysiology of cardiovascular system. Assessment and management of cardiovascular emergencies in the prehospital setting. Requires a "C" or better to pass. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: OEMS, OEEM majors. Restricted to Community Colleges campuses only.
Prerequisite(s): OEEM 210.

**OEEM 213. EMT-Paramedic: Medical Emergencies I
3 Credits (2+3P)**

Study of the disease process; assessment and management of neurological, endocrine, gastrointestinal, renal emergencies and infectious disease. Requires a "C" or better to pass. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: OEEM, OEMS majors. Restricted to Community Colleges campuses only.
Prerequisite(s): OEEM 212.

**OEEM 214. EMT--Paramedic: Medical Environmental Emergencies II
3 Credits (2+3P)**

Study of disease process, assessment, and management of poisoning, drug and alcohol abuse, environmental, behavioral and geriatric emergencies. Requires a "C" or better to pass. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: OEMS, OEEM majors. Restricted to Community Colleges campuses only.
Prerequisite(s): OEEM 213.

**OEEM 216. EMT-Paramedic: Reproductive and Childhood Emergencies
3 Credits (2+3P)**

Covers anatomy, physiology, disease processes, assessment and management of male and female reproductive system emergencies, childhood emergencies and growth and development. Restricted to majors. Requires a C or better to pass. Restricted to: Community Colleges only.
Prerequisite(s): OEEM 214 and consent of instructor.

**OEEM 218. Pediatric Advance Life Support for the Healthcare Professional
1 Credit**

Identify and respond to life threatening pediatric emergencies. Taught using the American Heart Association guidelines for course completion. Graded S/U.
Prerequisite: OEEM 101.

**OEEM 219. Advance Cardiac Life Support for the Healthcare Provider
1 Credit**

Identify and respond to life threatening cardiac emergencies. Taught using the American Heart Association guidelines for course completion. Graded S/U.
Prerequisite: OEEM 101.

**OEEM 230. EMT-Paramedic Clinical Experience I
3 Credits**

Assigned clinical experiences in patient assessment and specific management techniques. Successful completion includes minimum required hours and completion of course objectives. Restricted to majors. Requires a C or better to pass.
Prerequisite: consent of instructor.

**OEEM 231. EMT-Paramedic Clinical Experience II
3 Credits**

Assigned clinical experiences in patient assessment and specific management techniques. Successful completion includes minimum required hours and completion of course objectives. Requires a "C" or better to pass. May be repeated up to 3 credits. Consent of Instructor required.
Prerequisite(s)/Corequisite(s): OEEM 230. Restricted to: OEMS, OEEM majors. Restricted to Community Colleges campuses only.

**OEEM 240. EMT-Paramedic Field Experience I
3 Credits**

Advanced prehospital skills and knowledge. Successful completion of at least the minimum required hours and course objectives. Restricted to majors. Requires a C or better to pass.
Prerequisite: consent of instructor.

**OEEM 241. EMT-Paramedic Field Experience II
3 Credits**

Continued focus on advanced prehospital skills and knowledge, with increasing responsibility for patient care. Successful completion includes meeting at least the minimum required hours and course objectives. Pre/ Requires a C- or better to pass.
Corequisites: OEEM 240 Restricted to majors.

**OEEM 242. EMT-Paramedic Field Internship II
3 Credits**

Emphasis on total patient care responsibility and team leadership skills. Successful completion includes meeting the minimum hours required and course objectives. Pre/ Restricted to majors. Requires a C- or better to pass.
Corequisites: OEEM 241.

**OEEM 243. EMT-Paramedic Preparation for Practice
2 Credits**

Comprehensive final program testing to prepare for licensing examination. Requires a "C" or better to pass. May be repeated up to 2 credits. Consent of Instructor required. Restricted to: OEMS, OEEM majors. Restricted to Community Colleges campuses only.
Prerequisite(s): OEEM 242.

OEEM 247. Emergency Medical Technician - Paramedic Refresher
2 Credits (1+3P)

A comprehensive review of prehospital emergency medicine for the EMT Paramedic. New material relevant to recertification of the New Mexico and Nationally Registered Paramedic licensure. Graded S/U.

OEEM 253. Critical Care Emergency Medical Transport Program
6 Credits (5+6P)

This course will provide further education to Paramedics, Registered Nurses and Registered Respiratory Therapists who wish to function as part of a critical care transport team. Consent of instructor required. Restricted to: Community Colleges only.

Prerequisite(s): Licensed Paramedic, Registered Nurse or Registered Respiratory Therapist with one or more years experience.

OEET- ELECTRICAL TRADES (OEET)

OEET 110. Basic Electricity and Electronics
4 Credits (3+3P)

An introduction to electricity theory and practice, including electron theory, Ohm's law, construction of electrical circuits, direct and alternating currents, magnetism, transformers, and practical applications. Same as HVAC 102, ELT 105, OEPB 102.

OEET 112. Math Study Skills for Electrical
1 Credit

Covers specific math study skills and critical thinking processes to reinforce practical uses of math relating to electrical apprenticeship applications. The student will be introduced to electrical mathematical formulas during the problem-solving steps required for electrical circuit design and analysis. May be repeated up to 4 credits.

Prerequisite(s)/Corequisite(s): OEET 151 OR OEET 152. Restricted to: Community Colleges only.

OEET 115. Wiring Methods and Materials
5 Credits (2+6P)

Application of electrical code in selection of wiring materials; proper methods of installation.

Corequisite: OEET 110 or consent of instructor.

OEET 120. Basic Motor Controls
5 Credits (2+6P)

Developing schematics and wiring simple manual and electromechanical control devices.

Prerequisite: OEET 110 or consent of instructor.

OEET 130. Introduction to Electrical Power Systems
2 Credits

An overview of electrical power systems, equipment, safety practices, first aid and CPR. Restricted to majors.

Prerequisite: acceptance into the electrical lineworker program.

Corequisite: OEET 110 and OEET 131.

OEET 131. Electrical Lineworker Lab I
6 Credits

Climbing and work on utility poles using ropes and rigging, pole setting and an introduction to transmission and distribution line construction. Maintenance and troubleshooting to include the use of hot sticks. Restricted to majors.

Prerequisite: acceptance into the electrical lineworker program.

Corequisite: OEET 110 and OEET 130.

OEET 140. Electrical Power Systems II
3 Credits (2+2P)

Theory of power generation and distribution with emphasis on three phase systems to include transformers, voltage regulators, surge arrestors. Includes troubleshooting. Restricted to majors.

Prerequisites: acceptance into the electrical lineworker program and OEET 130.

Corequisite: OEET 141.

OEET 141. Electrical Lineworker II
6 Credits

Practice in the installation of electrical power lines including transformers, voltage regulators, and surge arrestors. Also advanced hot sticking procedures, troubleshooting, underground systems procedures, and pole-top rescue. Restricted to: Community Colleges only.

Prerequisites: Acceptance into the lineworker program and OEET 131.

Corequisite: OEET 140.

OEET 151. Electrical Apprenticeship I
6 Credits

Apprenticeship responsibilities and benefits as well as first aid and CPR will be covered. Hand tools, electrical theory, and the regulations imposed by national codes and OSHA. Students will apply theory taught in their jobs.

Prerequisite: consent of instructor.

OEET 152. Electrical Apprenticeship II
6 Credits

Ohm's law circuit sizing and service panel sizing will be covered in detail. Other topics include low voltage systems, heating and air conditioning circuits, alarm systems and smoke detectors.

Prerequisites: OEET 151 and consent of instructor.

OEET 153. Electrical Apprenticeship III
6 Credits

Various electrical measuring devices will be covered in detail. Inductance, transformers, capacitance, and simple motors will be studied.

Prerequisites: OEET 152 and consent of instructor.

OEET 154. Electrical Apprenticeship IV
6 Credits

Theory and application of three-phase transformers and autotransformers. Electrical distribution using switchboards, panelboards, and circuit breakers.

Prerequisites: OEET 153 and consent of instructor.

OEET 205. National Electric Code
3 Credits

Interpretation and application of the National Electric Code.

Prerequisite: OEET 110.

OEET 210. Intermediate Electricity
5 Credits (3+4P)

Introduction to inductance, capacitance, reactances, and power factor correction.

Prerequisite: OEET 110.

OEET 221. Cooperative Experience I
1-4 Credits

Supervised cooperative work program. Student is employed in an approved occupation and is supervised and rated by the employer and instructor. Student will meet in a weekly class. Graded S/U.

Prerequisite: consent of instructor.

OEET 251. Electrical Apprenticeship V**6 Credits**

Commercial/industrial applications for electricians. Blueprint interpretation, commercial construction types and processes, wiring methods, wiring materials, and motor controls.

Prerequisites: OEET 154 and consent of instructor.

OEET 252. Electrical Apprenticeship VI**6 Credits**

In-depth commercial applications to include commercial/industrial service calculations, mobile home parks, multi-family dwellings, and commercial fire/security systems.

Prerequisites: OEET 251 and consent of instructor.

OEET 253. Electrical Apprenticeship VII**6 Credits**

Control devices in commercial/industrial applications; emphasis on logic in-line diagrams, time delay starters, reversing starters, and manual/magnetic solenoids.

Prerequisites: OEET 252 and consent of instructor.

OEET 254. Electrical Apprenticeship VIII**6 Credits**

Miscellaneous topics for the journeyman electrician to include power distribution/transmission, solid state controls and relays, photoelectric and proximity controls and programmable controllers.

Prerequisites: OEET 253 and consent of instructor.

OEET 295. Special Topics**1-6 Credits**

Topics to be announced in the Schedule of Classes.

OEGR-DIGITAL GRAPHIC TECH (OEGR)

OEGR 221. Cooperative Experience I**1-3 Credits**

Student employed in approved work site; supervised and rated by employer and instructor. Each credit requires specified number of hours of on-the-job work experience. Restricted to majors. Graded S/U.

Prerequisite: consent of instructor.

OEES-GEOGRAPHIC INFO SYS (OEES)

OEES 181. Introduction to Principles of Geographic Information Systems**4 Credits (3+3P)**

This course will introduce students to fundamental software capabilities of geographic information systems (GIS), along with the underlying conceptual framework. Topics include origins, development, and methods of cartography, components of a GIS, the nature and characteristics of spatial data, methods of data capture and sources of data, review of typical GIS operations and applications. Producing useful, aesthetically pleasing maps will be an integral part of the course. ArcGIS software will be used for this course. May be repeated up to 4 credits.

OEES 187. GIS Data Acquisition and Management**4 Credits (3+3P)**

An introduction to defining data needs and evaluating whether a given dataset matches those needs. Students will explore some common geographic data formats used in ArcGIS and learn about sources of data and maps that can be incorporated into a GIS project. The student will learn the advanced functionality and versatility of using geodatabases. The student will demonstrate how to design and build a geodatabase, migrate existing data to a geodatabase and edit data stored in a geodatabase. Methods for georeferencing scanned maps, aerial photos and computer aided drafting files will be explored and discussed. May be repeated up to 4 credits.

Prerequisite(s): OEES 181.

OEES 231. Introduction to GIS Spatial Analysis**4 Credits (3+3P)**

This course aims to provide students with the knowledge and skills necessary to investigate the spatial patterns which result from social and physical processes operating on or near the Earth's surface. Essential theoretical concepts of quantitative geography are examined, including measures of geographical distribution (including point and areal pattern analysis) and spatial autocorrelation, interpolation and network connectivity. Students will also be introduced to ArcView (online GIS) and the open source programs such as QGIS and GRASS. May be repeated up to 4 credits.

Prerequisite(s): OEES 181.

OEES 291. Special Topics in Geographic Information Systems**1-3 Credits (1-3)**

Topics to be announced in the Schedule of Classes. May be repeated up to 12 credits. Restricted to Community Colleges campuses only.

OEES-PUBLIC SAFETY (OEES)

OEES 150. Correctional Officer Training I**4 Credits (2+4P)**

Introduction to corrections, departmental policies and procedures, report writing, officer safety, and physical conditioning. Restricted to majors.

Prerequisite: consent of instructor.

OEES 180. Correctional Officer Training II**4 Credits (2+4P)**

Criminal justice system, communications, ethics, correctional law and responsibilities, search procedures, hostage situations, institutional gangs. Restricted to majors OEES 195.

Prerequisite: consent of instructor.

OEES 250. Correctional Officer Training III**4 Credits (2+4P)**

Use of force, firearms, baton, chemical agents, standard first aid, and CPR. Restricted to majors.

Prerequisite: consent of instructor.

OEES 280. Correctional Officer Training IV**4 Credits (2+4P)**

Stress management, supervision of special needs offender, defensive driving, preparation for certifying exams. Restricted to majors.

Prerequisite: consent of instructor.

OEPT-PHOTOGRAPHIC TRADES (OEPT)

OEPT 100. Photographics I

3 Credits (2+2P)

Covers basic black and white photographic techniques. Emphasizes black and white film and paper handling, film processing, proof printing, projection print, and print finishing. Adjustable camera required. Same as ART 270.

OEPT 120. Photo Finishing and Presentation

2 Credits (1+2P)

Use of visual language for personal expression. Freelance photography; care of original photos; preparation of portfolios, photographic markets, exhibitions and judging, galleries and copyrights. Students will prepare a photographic portfolio. Restricted to: Community Colleges only.

Prerequisite(s): CMT 115.

OEPT 155. Portraiture

3 Credits (2+2P)

Hands-on study of professional photography involving people. Studio and environmental portraits, fashion/glamour, and wedding photography. Studio and exterior lighting techniques, selecting lighting equipment, film and supplies. Restricted to: Community Colleges only.

Prerequisite(s): ART 270 or CMT 115.

OETS-TECHNICAL STUDIES (OETS)

OETS 100. Industrial/Construction Safety

2 Credits

Covers safety issues such as PPE, BBP, ladder safety, RTK, HazCom, MSDS and information about safety organizations such as OSHA, NIOSH, NFPA, National Safety Council. Community Colleges only. Restricted to Dona Ana and Carlsbad campuses.

OETS 101. Energy for the Next Generation

3 Credits (2+2P)

This course will survey a broad range of sources of energy, types of energy, energy storage, and the forms of energy. Students will be exposed to theory in the classroom, laboratory exercises, and field trips to provide them with a solid foundation for all subsequent energy related environmental courses. Pre/ Restricted to: Community Colleges only.

Corequisite(s): OETS 118 or MATH 120.

OETS 102. Career Readiness Certification Preparation

1 Credit

This course is designed to prepare students to successfully obtain Career Readiness Certifications in all areas and at the appropriate levels for their program of study. Graded: S/U. May be repeated up to 3 credits. S/U Grading (S/U, Audit).

OETS 103. Technical Career Skills

4 Credits

This course will be project-based and will encompass writing, presentation, math, reading, and critical thinking skills applied in a technical environment. Restricted to: Community Colleges only.

OETS 104. Basic Mathematics for Technicians

4 Credits

Fundamental mathematical concepts and computations including measurement, ratio and proportions, and pre-algebra as it relates to technical programs.

Prerequisite: appropriate placement test score.

OETS 105. Building Analyst I

3 Credits (2+2P)

This course is designed to provide the foundational knowledge and expertise necessary for the energy auditor and home performance contractor. Restricted to: Community Colleges only.

OETS 106. Building Analyst II

3 Credits (2+2P)

Designed to prepare the student for the BPI Building Analyst Certification. This course will walk the student through the hands-on process of conducting visual building inspections, diagnostic testing, identifying improvement opportunities, documenting a home's performance and preparing a scope of work. Restricted to: Community Colleges only.

Prerequisite(s): OETS 105.

OETS 110. Photovoltaic Application

4 Credits (3+2P)

This course will provide an introduction to Photovoltaic (PV) installation. The course will provide instruction on site selection, prep, installation, and maintenance for photovoltaic applications. Students that complete the course and have the opportunity to take the entry level exam with the North American Board of Certified Energy Practitioners (NABCEP) en route to becoming Certified Installers. Restricted to: Community Colleges only.

Prerequisite(s): OETS 101.

OETS 117. Writing for Technicians

3 Credits

Instruction in the skills for developing clear, written descriptions of processes and procedures used by technicians in various fields. Emphasis on correct grammar, logical organization, and receiving audience. Focuses on clarity, structure, and concise writing methods. Does not substitute for ENGL 111G. Restricted to: Community Colleges only.

OETS 118. Mathematics for Technicians

3 Credits (2+2P)

Analysis and problem solving of technical problems using measuring instruments and techniques of arithmetic, algebra, geometry, and trigonometry. Restricted to: Community Colleges only.

Prerequisite(s): OETS 104 or CCDM 103N or appropriate placement test score.

OETS 120. Business Fundamentals

3 Credits

Instruction in the skills for basic business concepts used by technicians in various fields. Emphasis placed on basic business concepts; business ownership including marketing, management, accounting, and customer services; interpersonal communication; and basic computer concepts including word processing, spreadsheets, and presentation software. Restricted to Community Colleges campuses only.

OETS 156. Building Envelope

3 Credits (2+2P)

Designed to prepare the student for the BPI Building Envelope Certification. This course will provide the principles behind building performance testing and the purpose of completing a comprehensive energy audit. Through lecture and subsequent field training, the student will learn how to use building diagnostics to develop a prescriptive plan for enhancing comfort, health & safety, building durability, and energy savings. The student will learn how to outline the follow-up process required after completion of the retrofit. Restricted to: Community Colleges only.

Prerequisite(s): OETS 106.

OETS 255. Special Topics Technical Studies**1-6 Credits**

Topics to be announced in the Schedule of Classes. Restricted to: Community Colleges only.

Prerequisite(s): Consent of instructor.

P E-PHYSICAL EDUCATION (P E)

P E 102. Beginning Weight Training**1 Credit**

Introduction to basic principles and techniques of weight training.

P E 103. Beginning Weight Training for Women**1 Credit**

Introduction to basic principles and techniques of weight training as related to women.

P E 104. Military Physical Fitness**1 Credit**

Directed physical fitness activities designed to develop and maintain muscular strength/endurance, cardiopulmonary efficiency, flexibility, and coordination required for leadership roles after graduation.

P E 109. Pilates**1 Credit**

Designed exercise program involves the entire body while focusing on strengthening the core muscles of the torso. Exercises promote coordination, balance, and strength.

P E 110. Sports Conditioning**1 Credit**

Sport specific conditioning using aerobic and resistive overload training. May be repeated for a maximum of 4 credits.

Prerequisite: consent of instructor.

P E 112. Beginning Volleyball for Men**1 Credit****P E 113. Beginning Volleyball for Women****1 Credit****P E 114. Basketball for Women****1 Credit****P E 115. Basketball for Men****1 Credit****P E 117. Beginning Soccer****1 Credit**

Introduction to the basic techniques and skills of soccer.

P E 127. Cardio-Kickboxing**1 Credit**

Activities that mimic punches, blocks, and kicks which have been modified to serve the purpose of providing a cardiovascular workout.

P E 128. Aerobic Dance**1 Credit**

Designed to increase knowledge of the human body's responses to exercise, enhance the level of muscular development, and cardiovascular endurance with the use of music.

P E 129. Step Aerobics**1 Credit**

Designed to increase knowledge of the human body's responses to exercise, enhance the level of muscular development, and cardiovascular endurance with the use of music and steps.

P E 130. Beginning Swimming**1 Credit****P E 131. Aqua Aerobics****1 Credit**

Designed to increase knowledge of the human body's responses to exercise, enhance the level of muscular development, and cardiovascular endurance through exercise in water.

P E 132. Intermediate Swimming**1 Credit**

Development of fitness through participation in aquatics activities.

Prerequisite(s): Ability to swim 200 yards.

P E 134. Lifeguard Training**2 Credits**

Skills training for a nonsurf lifeguard. Course will include Standard First Aid and CPR certification.

Prerequisites: swim 500 yards, dive to 9-foot depth and retrieve a 10-pound brick, surface dive to 5 feet then swim under water 15 yards, tread water one minute.

P E 147. Beginning Tennis**1 Credit****P E 148. Beginning Racquetball****1 Credit****P E 150. Beginning Golf****1 Credit****P E 154. Personal Defense****1 Credit**

Physical conditioning and defense skills for men and women.

P E 159. Introduction to Brazilian Jiu-Jitsu**1 Credit**

Brazilian Jiu-Jitsu is primarily a ground fighting art. This course will place heavy emphasis on positional strategy and focus on the sportive aspect of the sport. A Judo/Jiu-Jitsu Gi (uniform) is required.

P E 166. Futsal (Five-A-Side Soccer)**1 Credit**

Futsal, official form of indoor soccer, approved by FIFA.

P E 173. Running Fitness**1 Credit**

Basic fitness knowledge techniques and training methods of fitness running are practiced and refined.

P E 199. Yoga**1 Credit**

A holistic approach to exercise benefiting the body, mind, and spirit. Practices focus on alignment, strength, breath relaxation, and restoration.

P E 202. Intermediate Weight Training**1 Credit**

Intermediate training and skill techniques in weight lifting.

Prerequisites: P E 102 or consent of department head.

P E 204. Cross Training**1 Credit**

Intensive training program that incorporates both aerobic and resistive overload approaches to training.

P E 205. Walking Fitness**1 Credit**

Basic fitness knowledge techniques and training methods of fitness walking are practiced and refined.

P E 206. Beginning Physical Fitness**1 Credit**

Progressive exposure to steady state exercise tailored to individual needs for the purpose of determining, improving, and maintaining physical fitness.

P E 208. Marathon Preparation**1 Credit**

Gradual training progression for novice and experienced runners to develop and/or refine a training program enabling completion of or better personal record for the marathon. Discussions on equipment, nutrition, injury prevention and treatment.

Prerequisite: presently running three miles, three to four times per week.

P E 209. Intermediate Pilates**1 Credit**

Intermediate training and skill techniques in Pilates.

Prerequisite(s): PE 109 or consent of instructor.

P E 212. Intermediate Volleyball-Men**1 Credit**

Prerequisite: P E 112 or consent of department head.

P E 213. Intermediate Volleyball-Women**1 Credit**

Prerequisite: P E 113 or consent of department head.

P E 215. Intermediate Walking**1 Credit**

A continuation of basic fitness knowledge techniques and training methods of fitness walking are practiced and refined.

Prerequisite: P E 205 or consent of department head.

P E 216. Advanced Walking**1 Credit**

Advanced walking fitness and training techniques are presented, practiced, and refined.

P E 228. Intermediate Aerobic Dance**1 Credit**

Aerobic dance at a high intensity level with a more in-depth study of the body's physiological response to exercise.

Prerequisite: P E 128 or consent of department head.

P E 229. Intermediate Step Aerobics**1 Credit**

Step aerobic dance at a high intensity level with a more in-depth study of the body's physiological response to exercise.

Prerequisite: PE 129 or consent of department head.

P E 230. Advanced Swimming**1 Credit**

Perfection of basic strokes, survival swimming, and physical fitness.

Prerequisite(s): P E 130 or ability to swim 100 yards.

P E 247. Intermediate Tennis**1 Credit**

Prerequisite: P E 147 or consent of department head.

P E 248. Intermediate Racquetball**1 Credit**

Advanced skills and strategies in racquetball.

Prerequisite: P E 148 or consent of instructor.

P E 250. Intermediate Golf**1 Credit**

Prerequisite: P E 150 or consent of department head.

P E 263. Outdoor Recreation Skills**1 Credit**

Selected outdoor activities. Appropriate subtitles, such as hiking and backpacking, camping and survival, hunting and gun safety, casting and angling skills. May be repeated for maximum of 4 credits.

P E 264. Intermediate Cycling**1 Credit**

Introduction to competitive cycling. Content includes techniques in training, riding, racing, and racing tactics.

P E 270. Special Topics**1-3 Credits**

Specific subjects to be announced in the Schedule of Classes. Each offering will carry appropriate subtitle. May be repeated for a maximum of 4 credits.

P E 276. Intermediate Aqua Aerobics**1 Credit**

A continuation of basic fitness to increase knowledge of the human body's responses to exercise, enhance the level of muscular development and cardiovascular endurance through exercise in water.

P E 299. Intermediate Yoga**1 Credit**

Intermediate training and skill techniques in Yoga.

Prerequisite(s): PE 199 or consent of instructor.

P E 310. Advanced Weight Training: Theory and Practice**3 Credits**

For men and women who wish to continue weight training and learn principles of strength training.

PE-P-PHYSICAL EDUCATION (PE P)

PE P 185. Introduction and Foundations**3 Credits**

Historical and cultural foundations and vocational, scientific, and educational data on careers in health education, physical education, and recreation. Restricted to: Main campus only.

PE P 208. Fitness for Health and Sport**3 Credits**

A study of the fitness needs for health enhancement and sport participation. Restricted to: P E, SP M, KIN, S ED majors.

PE P 210. Theory and Technique of Aquatics**2 Credits**

Introduction to fundamental aquatics knowledge and skills.

Prerequisite(s): Ability to swim 100 yards.

PE P 296. Theory of Coaching I**3 Credits**

Focus on areas of academic theory associated with coaching athletics. Orientation: theoretical and practical application.

PE P 315. Elementary School Physical Education**3 Credits (2+2P)**

Methods for teaching physical education at the elementary level.

Primary focus on creating a learning environment for the acquisition and enhancement of developmentally appropriate locomotor, manipulative, and nonmanipulative skills. Field experience included. Consent of instructor required. Restricted to SED/PE P majors.

Prerequisite(s): GPA of 2.5.

PE P 319. Lifetime Activities**2 Credits**

Knowledge and skills related to the lifetime activities of swimming, weight training, and other fitness promoting activities with emphasis on learning progressions.

Prerequisite(s): PE P 208.

PE P 323. Racquet Sports**2 Credits**

Knowledge and skills related to the racquet sports of tennis, badminton, and pickleball with emphasis on developmental strategies and skill performance that influences pedagogical content knowledge. Administrative issues will be addressed.

PE P 363. Theory and Technique of Lifelong Outdoor Leisure Activities
2 Credits

Knowledge and skills related to lifelong outdoor leisure activities, including the examination of environmental science and awareness, kinesiology, and fundamental motor skills.

PE P 392. Theory and Technique of Sports and Games**2 Credits**

Knowledge and skills related to team sports and games, with emphasis on developmental strategies and skill performance that influence pedagogical content knowledge. Administrative issues will also be addressed.

PE P 393. Theory and Technique of Dance and Rhythms**2 Credits**

Knowledge and skills related to dance and rhythms, with emphasis on the analysis of dance elements and its role in physical education.

PE P 394. Designing Student Centered Afterschool Physical Activity Clubs**3 Credits**

Knowledge, skills and field based practical application for creating student centered and student designed after school physical activity clubs.

PE P 455. Adapted Physical Education**3 Credits**

Selection and scope of corrective activities in posture and body mechanics, and the adaptation of movement activities for the exceptional student.

Prerequisite: junior or senior standing.

PE P 465. Senior Seminar**3 Credits**

Capstone course for physical education. Graded S/U.

Prerequisite: senior standing.

PE P 466. Methods of Teaching Secondary Physical Education
6 Credits

Theoretical and practical applications of curriculum, pedagogy and assessment for teaching secondary physical education. Provides the students opportunities to develop curriculum, teach, and assess student learning through a supervised practicum in both middle and high school physical education settings. Consent of instructor required.

Prerequisite(s): PE P 315 and admittance to TEP required.

PE P 499. Problems**1-3 Credits (1-3)**

Problems in physical education and recreation and independent work in their solutions. A maximum of 3 credits during any one semester. May be repeated up to 6 credits. Consent of Instructor required.

PE P 501. Special Topics**1-3 Credits (1-3)**

Offered under various subtitles that indicate the subject matter. May be repeated for a maximum of 3 credits per semester and a total of 6 credits overall. May be repeated up to 6 credits.

PE P 504. Teaching Processes in Physical Education**3 Credits**

Analysis of effective teaching and coaching. Systematic observation strategies will be employed to evaluate instructional variables such as feedback, climate, academic learning time, and styles of teaching.

PE P 515. Advanced Athletic Training Education**3 Credits**

Advanced clinical experiences and education in athletic training. Assessment of Athletic Training Program clinical proficiencies as described by the National Athletic Trainers' Association Education Council. Consent of Instructor required.

PE P 550. Advanced Topics in Physical Education**1-4 Credits**

Advanced study in teaching processes, perceptual motor development, bioenergetics, biomechanical instrumentation, psychological bases of performance, or motor control.

PE P 551. Sociology of Sports**3 Credits****PE P 555. Adapted Physical Education****3 Credits**

Selection and scope of corrective activities in posture and body mechanics, and the adaptation of movement activities for the exceptional student. Same as PE P 455 with additional requirements for graduate credit.

Prerequisite: consent of instructor.

PE P 557. Adapted Physical Education : A Practitioner's Approach**3 Credits**

Preparation for qualified physical education professionals to teach individuals with disabilities motor and fitness skills. Knowledge of the Adapted Physical Education National Standards is developed so students may become nationally certified in the field. The inclusion of disability sports into general physical education curriculum is also major emphasis of this course. Consent of Instructor required.

PE P 558. Adapted Physical Education National Standards (APENS) Professional Preparation**3 Credits**

This distance education course is to prepare physical education teachers to pass the Certified Adapted Physical Education (CAPE) National Examination, which is based on the Adapted Physical Education National Standards (APENS). These standards were developed by professionals in the field to ensure that physical education instruction for students with disabilities is provided by qualified physical education teachers.

PE P 624. BODY IN CULTURE**3 Credits**

This course will explore how people's health and physical activity experiences and choices are often shaped by cultural narratives and expectations of the male and female body. Designed for graduate students in allied health and physical activity professions

PHIL-PHILOSOPHY (PHIL)

PHIL 100G. Philosophy, Law and Ethics

3 Credits

An introduction to practical problems in moral, social, political, and legal philosophy. Topics to be discussed may include ecology, animal rights, pornography, hate speech on campus, same-sex marriage, justice, abortion, terrorism, treatment of illegal immigrants, and New Mexican Aboriginal Peoples' land claims.

PHIL 101G. The Art of Wondering

3 Credits

Introduction to some of the main problems of philosophy, with an emphasis on critical thinking. Philosophy conceived as an aid to living in this world with oneself and with others.

PHIL 124G. Philosophy of Music

3 Credits

This is an introductory course in the philosophy of music. This course will survey three questions: What is music? Why is music important? How can we distinguish good music from bad music? We will draw examples from a wide variety of musical genres, from classical music, jazz and blues to punk and rap. Students will be encouraged to apply philosophical theorizing to think about their preferred musical form.

PHIL 136G. The Quest for God

3 Credits

An effort to understand the religious life; a consideration of some of the traditional approaches to God and what it means to be religious.

PHIL 201G. Introduction to Philosophy

3 Credits

Selected problems within the main branches of philosophy: metaphysics, theory of knowledge, ethics. Practice given in critical thinking.

PHIL 211G. Informal Logic

3 Credits

Logical analysis of ordinary language, construction of definitions, argumentation, analysis of fallacious modes of thought and basic rhetorical considerations.

PHIL 223G. Ethics

3 Credits

The philosophical explication of morality. Significant ethical systems developed in the history of Western thought.

PHIL 302. Business Ethics

3 Credits

An analysis of the ethical issues that arise in contemporary business life, including the obligations businesses and employees have to each other, consumers, society and the environment.

PHIL 303. Asian Philosophy

3 Credits

Survey of the most important philosophies of the East; emphasis is on the basic teachings.

PHIL 305. Philosophy and Literature

3 Credits

Examination of philosophical ideas as presented in selected literary works and literary criticism.

PHIL 306. Philosophy Through Film

3 Credits

An exploration of a range of philosophical issues through the use of film. Topics include personal identity and memory, faith and the problem of evil, free will and moral responsibility, and the meaning of life. Films may include *The Prestige*, *Memento*, *The Third Man*, *A Clockwork Orange*, *Fight Club*, and *Synecdoche, New York*.

PHIL 312. Formal Logic

3 Credits

Introduction to symbolic logic and its application in the analysis of arguments in scientific and ordinary discourse.

PHIL 315. Philosophy of Language

3 Credits

A critical examination of philosophical inquiries into the syntactic, semantic, and pragmatic dimensions of language.

PHIL 316. Philosophy of Mathematics

3 Credits

Survey of traditional philosophical problems and views concerning the nature of mathematics including such questions as: What is the nature of mathematical knowledge? What is mathematical truth? What is a number? What is proof? What is the relationship between logic and mathematics?

PHIL 320. Social and Political Philosophy

3 Credits

This course critically examines such fundamental concepts as liberty, equality and human rights.

PHIL 321. Biomedical Ethics

3 Credits

Examines ethical dimensions of such issues as abortion, euthanasia, and physician-assisted suicide; informed consent as a condition of treating patients and experimenting on subjects; genetic engineering; and alternative reproductive methods, including surrogate motherhood. Also considers what implications moral theories have for these issues.

PHIL 322. Environmental Ethics

3 Credits

Explores the ethical and topical issues raised by mining and grazing, air and water pollution, factory farming, global warming, and treatment of animals. It also studies some recent ecological movements such as ecofeminism, social ecology, and deep ecology.

PHIL 323V. Engineering Ethics

3 Credits

The moral legal responsibilities of engineers to clients, employers, the public, and the environment. Topics include criteria for judging when risk is acceptable, the duty to safeguard public health and welfare, conflicts of interest, and whistle-blowing.

Prerequisite: Junior standing or higher.

PHIL 325. Topics in Feminist Philosophy

3 Credits

Philosophical treatment of issues concerning women, gender, and feminism. Topics may include social and political equality, pornography and freedom of speech, ethical issues raised by reproductive technologies, and feminist critiques of science.

PHIL 327. Ethics and Sports

3 Credits

Examines contemporary ethical issues related to sports, including the relationship between morally right action and that required for competitive success, strong paternalism in sports, fair play, doping, sportsmanship, and the impact of sports on society.

PHIL 328. Applied Ethics**3 Credits**

Examines the implications of utilitarianism, Kantian ethics, natural law theory, and other moral theories for controversial moral issues such as the death penalty, euthanasia, abortion, genetic engineering, gay marriage, affirmative action, and pornography.

PHIL 330. Ethics and Biomedical Research**3 Credits**

Explores some ethical issues raised by biological and biomedical research. Topics include: possible abuses of genetic engineering, cloning, and genetically modified foods; experimentation on humans and informed consent; animal experimentation; honesty in research and conflicts of interest; and intellectual property.

PHIL 331. Philosophy of Religion**3 Credits**

The nature, fundamental concepts, and problems of religion. Emphasis on the significance of religion for creative and practical value.

PHIL 332. Ethics and Global Poverty**3 Credits**

Philosophical scrutiny of and moral reflection on various aspects of global poverty and foreign aid. For example: Is poverty fundamentally a lack of income, or can it be understood as a failure to meet basic needs, or as a lack of valuable freedom? Do human rights exist? What, if any, are the moral obligations of rich countries to poor countries? Can foreign aid be immoral? How should the answers to these questions influence public policy? Restricted to: Main campus only.

PHIL 341. Ancient Philosophy**3 Credits**

Introduction to the philosophies of the pre-Socratics, Socrates, Plato, Aristotle, with brief discussion of the Epicureans and Stoics.

PHIL 344. Modern Philosophy**3 Credits**

Foundations of contemporary thought: introduction to the philosophies of Descartes, Bacon, Spinoza, Leibniz, Locke, Berkeley, Hume, Kant, and Hegel.

PHIL 346. Philosophy of Mind**3 Credits**

Examination of some of the most influential accounts of the mind, focusing on such issues as the relation between the mind and the body, mental causation and consciousness.

PHIL 350. Epistemology**3 Credits**

Introduction to epistemology. The philosophical critique of alleged ways of knowing. An examination of the nature of truth.

PHIL 351. Philosophy of Science**3 Credits**

Philosophical examination of the methodology of science. The logical, metaphysical, epistemological, and ethical critique of science and its impact on human affairs.

PHIL 361. Special Topics**3 Credits**

Specific subjects announced in the Schedule of Classes. May be repeated for a maximum of 9 credits.

PHIL 363. Independent Studies**1-3 Credits**

For students with some background in philosophy. Independent work in a specific area. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

PHIL 373. Ethical Theory**3 Credits**

The critical examination of the justification of ethical theories with particular attention to the language of moral discourse.

PHIL 376. Philosophy of Law**3 Credits**

Ethical, logical, and epistemological implications of law, together with an analysis of the rhetoric of legal practice.

PHIL 380. Metaphysics**3 Credits**

Introduction to metaphysics: a treatment of such issues as the meaning of existence, the mind-body problem, the problem of universals, and free will versus determinism.

PHIL 397. Existentialism**3 Credits**

The origins of existentialist thought in philosophy and literature, including the thought of Nietzsche, Kierkegaard, Dostoyevsky, Camus, and Sartre. The course covers topics in ethics and political philosophy, metaphysics, philosophical psychology, philosophy of religion, and other sub-disciplines of philosophy.

PHIL 413. Modal Logic**3 Credits**

A formal introduction to the logic of necessity, possibility, and impossibility: the syntactic and semantic aspects of the formal modal systems T, S4, S5, as well as their philosophical implications.

PHIL 448. Writing Philosophy**3 Credits**

A workshop on writing philosophy papers. Includes how to read and understand philosophical writing, organize a paper effectively, present a clear and forceful argument, and avoid common mistakes.

Prerequisite(s): completed 18 hours of philosophy credit.

PHIL 463. Independent Studies**1-3 Credits**

For students with a strong background in philosophy. Independent work in a specific area. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

PHIL 505. Advanced Studies in Philosophy and Literature**3 Credits**

Examination of philosophical issues (e.g. personal identity, free will, moral dilemmas, the meaning of life) as presented in selected literary works and literary criticism. Consent of Instructor required.

PHIL 532. Advance Studies in Ethics and Global Poverty**3 Credits**

Advanced philosophical scrutiny of and moral reflection on various aspects of global poverty and foreign aid. For example: Is poverty fundamentally a lack of income, or can it be understood as a failure to meet basic needs, or as a lack of valuable freedom? Do human rights exist? What, if any, are the moral obligations of rich countries to poor countries? Can foreign aid be immoral? How should the answers to these questions influence public policy? Restricted to: Main campus only.

PHIL 540. Science and Ethics**1-3 Credits (1-3)**

Ethical concerns facing researchers in the basic and applied biological sciences. Coverage of responsible conduct in research including scientific integrity and research misconduct, mentor/trainee responsibilities, data management, authorship, publication practices, human subjects, animal welfare, intellectual property, conflicts of interest and effort and collaborative science. Emphasis on ethical reasoning skills. Discussion of ethical and societal implications of issues selected from a broad range of contemporary research areas (genetics, reproductive biology, environmental sciences, nanoscience, drug discovery, bioengineering, neuroscience). Subtitled. May be repeated for a maximum of 12 credits.

PHLS-PUBLIC HEALTH SCIENCES (PHLS)

PHLS 100. Introduction to Health Science**1 Credit**

An overview of professional career opportunities in the realm of health science as well as the functional roles of practice, education, administration, and research. Some field trips will be required.

PHLS 150G. Personal Health and Wellness**3 Credits**

A holistic and multi-disciplinary approach towards promoting positive lifestyles. Special emphasis is placed on major problems that have greatest significance to personal and community health. Topics to include nutrition, stress management, fitness, aging, sexuality, drug education, and others.

PHLS 275. Foundations of Health Education**3 Credits**

Role and responsibility of the health educator with emphasis on small group dynamics, oral and written communication skills, building community coalitions and an introduction to grant writing. Taught with HL S 375. Cannot receive credit for both HL S 275 and HL S 375.

Prerequisite(s): Either HL S 100 or HL S 150G, or consent of instructor.

PHLS 295. Essentials of Public Health**3 Credits**

The course will focus on principles and major areas of public health, including ecological and total personal concept of health care system, epidemiological approaches to disease prevention and control. Consent of Instructor required.

PHLS 301V. Human Sexuality**3 Credits**

Examination of human sexuality from a variety of perspectives: cultural, sociological, physiological and psychological. Issues examined from viewpoints such as gender, individual, family, and professional roles.

PHLS 305V. Global Environmental Health Issues**3 Credits**

Introduction to global environmental health challenges in the 21st century with an emphasis on environmental problems as they affect public health and personal well-being.

PHLS 375. Foundations of Community Health Education**3 Credits**

Role and responsibility of the health educator, with emphasis on small-group dynamics, oral and written communication skills, building community coalitions, and an introduction to grant writing. Equivalent to PHLS 275. May be repeated up to 3 credits.

PHLS 380V. Women's Health Issues**3 Credits**

A focus on the unique issues and problems that confront women today and how they affect the health of women. Same as W S 381V.

PHLS 395. Foundations of Public Health**3 Credits**

The course will focus on principles and major areas of public health, including ecological concepts of healthcare systems and epidemiological approaches to disease promotion and control. Equivalent to PHLS 295. May be repeated up to 3 credits.

PHLS 450. Epidemiology**3 Credits**

Epidemiologic approaches to disease prevention and control. Factors influencing health status. May be repeated up to 3 credits. Restricted to: Public Health majors.

Prerequisite(s): PHLS 471.

PHLS 451. Biometrics and Health Research**3 Credits**

Critical analysis of community health research and related methodologies. May be repeated up to 3 credits. Restricted to: Public Health majors.

Prerequisite(s): E ST 311G.

PHLS 452. Environmental Health**3 Credits**

Introduction to environmental health designed to address public health issues. May be repeated up to 3 credits. Restricted to: Public Health, HNFS and E S majors.

Prerequisite(s): Junior or Senior standing.

PHLS 457. Administration of Health Programs**3 Credits**

Covers administrative responsibilities, organizational theory, strategic planning, and systems theory as applied to the administration of a variety of health programs. May be repeated up to 3 credits. Restricted to: Public Health majors.

Prerequisite(s): HL S 395 or HL S 450, or consent of instructor.

PHLS 458. Public Health Resources and Policy Analysis**3 Credits**

Covers issues related to U.S.-health policy and allocation of resources. Examination of local, state, and federal public health and health care funding. Assessment of impact of health policy on health education, medical practice, and the workplace. May be repeated up to 3 credits.

PHLS 459. Infectious and Noninfectious Disease Prevention**3 Credits**

History, etiology, and prevention of diseases affecting humans. May be repeated up to 3 credits. Consent of Instructor required. Crosslisted with: MPH 559. Restricted to: Public Health majors.

Prerequisite(s): PHLS 395 and Consent of Instructor.

PHLS 460. American Indian Health**3 Credits**

Critical health issues facing American Indians in the contemporary world. Course included in the undergraduate American Indian Program minor. May be repeated up to 3 credits. Crosslisted with: MPH 560.

PHLS 461. Health Disparities: Determinants and Interventions**3 Credits**

Investigates: descriptions of health disparities and measurement issues; physical environmental factors, behavioral and emotional variables; impact of aging of the populations, increased racial and ethnic diversity, and technological developments; intervention strategies and evaluation results. May be repeated up to 3 credits. Crosslisted with: MPH 561.

PHLS 462. Hispanic Health Issues**3 Credits**

Cultural differences that aid or hinder communication with Hispanic clients and the application of cross-cultural communication skills. Some field trips may be required. May be repeated up to 3 credits. Crosslisted with: MPH 562.

PHLS 464V. Cross-Cultural Aspects of Health**3 Credits**

An examination of health practices from a variety of cultural perspectives: communication, observation, research, and assimilation. Issues to be addressed will be examined from a number of viewpoints, such as individual, family, community, and professional roles.

PHLS 465. International Health Problems**3 Credits**

Comparison of domestic health programs and problems with those in other parts of the world; emphasis on political parameters and delivery processes. Additional attention is focused on the health issues of the U.S.-Mexico border. May be repeated up to 3 credits. Crosslisted with: MPH 565.

Prerequisite(s): HL S 395 or consent of instructor.

PHLS 466. International Health Practicum**1-3 Credits**

Intensive examination of health practices and beliefs from a cultural perspective. Focus on health structure, index of diseases, morbidity, mortality and epidemiological approaches to planning. Required travel (personal travel, lodging, and related expenses are extra). May be repeated up to 3 credits. Crosslisted with: MPH 566. Restricted to: BPH majors.

PHLS 467. Rural Health Issues**3 Credits**

Comprehensive overview of rural health services with Southwestern United States and New Mexico focus. May be repeated up to 3 credits. Crosslisted with: MPH 567.

PHLS 468. Coping with Loss and Grief: A Cross-Cultural Perspective**3 Credits**

A cross-cultural perspective to death, loss and grief. Hospice philosophy of caring for the dying will be included.

PHLS 469. U.S.-Mexico Border Health Issues**3 Credits**

Interdisciplinary analysis of the impact of living conditions and health issues of communities along the U.S.-Mexico border and of the strategies and initiatives to address these issues. Problem-based learning, case analysis, lecture, guest speakers, computer based instruction, and field trips. May be repeated up to 3 credits. Crosslisted with: MPH 569.

PHLS 471. Health Informatics**3 Credits**

The application of technology to engage communities and individuals in behavioral and environmental change processes. The course will focus on the use of technology to describe the magnitude of health problems and their sources; analyze risk factors; identify community strengths from which strategies may be defined and tools created to intervene, prevent problems, and promote health and well-being; and continuously evaluate, refine, and implement what works. May be repeated up to 3 credits. Crosslisted with: MPH 571. Restricted to: PHL,C HL majors.

Prerequisite(s): HL S 395 or consent of instructor.

PHLS 473. Health Program Planning**3 Credits**

Planning and development of community health education interventions for behavior change at the individual, family, social network levels of practice. Emphasis on applying program-planning models and designs into a grant-writing project. May be repeated up to 3 credits. Restricted to: Public Health majors.

PHLS 475. Methods of Community Health Education**3 Credits**

Responsibilities of health educators, analysis of social forces affecting health needs, application of wide range of health education methods and instructional media, and program implementation skills. May be repeated up to 3 credits. Crosslisted with: MPH 575. Restricted to: Public Health majors.

Prerequisite(s): HL S 275/375.

PHLS 476. Theoretically-Based Interventions**3 Credits**

Identifying and developing interventions to problematic health-related behaviors. Taught with MPH 576. May be repeated up to 3 credits. Restricted to: Public Health majors.

Prerequisite(s): HL S 473.

PHLS 478. Health Program Evaluation and Research**3 Credits**

Covers the application of research and evaluation models for decision-making program and policy development of community health education interventions. Focus on the individual, family, and social network levels of practice. May be repeated up to 3 credits. Restricted to: Public Health majors.

Prerequisite(s): HL S 473.

PHLS 481. Public Health Preparedness and Response**3 Credits**

This course is designed to teach students about the role of public health in emergency preparedness and response. It focuses on the nature of public emergencies as well as the role various sectors have in responding to them. One purpose of this online course is to introduce students to the basics of disaster preparedness and responding to disasters, and to build a base for further development in responder training. The course provides training and resources for a basic understanding of the Incident Command System (ICS) and National Incident Management System (NIMS). May be repeated up to 3 credits.

PHLS 486. Special Topics**3 Credits**

Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

PHLS 490. Independent Study**1-6 Credits**

Individual studies with prior approval of department head. Maximum of 12 credits.

Prerequisites: consent of instructor.

PHLS 496. Community Health Education Field Experience**1-6 Credits**

Senior-standing community health education majors will integrate and apply various concepts related to actual community health education practice. Experience aims to prepare students to integrate the competencies and responsibilities of community health education. Approximately 55 hours at field agency required per credit hour. May be repeated for a maximum of 6 credits. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: Public Health majors.

Prerequisite(s): HL S 475 or concurrent enrollment.

PHLS 497. Senior Seminar in Community Health Education**1 Credit**

Critical analysis of issues in CHE and health care. Readings focus on social, economic, cultural, and political issues as they affect the profession and practice. Emphasis on future, local, national, and international health trends. May be repeated up to 1 credits. Restricted to: Public Health majors.

Prerequisite(s): HL S 475 or consent of instructor.

PHLS 499. Problems in Health Education**3 Credits**

Provides opportunity for synthesis of program planning, implementation, and evaluation methodologies in the preparation and delivery of health education topics. Some field trips will be required. May be repeated up to 3 credits. Restricted to: Public Health majors.

Prerequisite(s): Either HL S 395, HL S 478, HL S 476, or consent of instructor.

PHYS-PHYSICS (PHYS)

PHYS 110G. The Great Ideas of Physics**4 Credits (3+3P)**

Conceptual, quantitative, and laboratory treatments of the great ideas and discoveries that have influenced lives and changed perceptions of nature, from Johannes Kepler's laws of planetary motion and Isaac Newton's and Albert Einstein's laws of motion and gravity to the modern concepts of the quantal structure of nature and the big bang universe.

PHYS 120G. Introduction to Acoustics**4 Credits (3+2P)**

Lecture, demonstration, and laboratory treatment of the general properties of waves, the production, transmission, and reception of sound waves, including musical and vocal sounds, and characteristics of the human ear and several kinds of sources.

PHYS 150. Elementary Computational Physics**3 Credits (2+2P)**

Introduction to computational techniques for the solution of physics-related problems.

Prerequisite(s): a C- or better in MATH 121G.

PHYS 203. Supplemental Instruction to PHYS 213**0.5-1 Credits (.5-1)**

Optional workshop as a supplement to PHYS 213. The tutorial sessions focus on reasoning and hands-on problem solving. May be repeated up to 1 credits.

Corequisite(s): PHYS 213.

PHYS 204. Supplemental Instruction to PHYS 214**0.5-1 Credits (.5-1)**

Optional workshop as a supplement to PHYS 214. The tutorial sessions focus on reasoning and hands-on problem solving. May be repeated up to 1 credits.

Corequisite(s): PHYS 214.

PHYS 205. Supplemental Instruction to PHYS 215G**0.5-1 Credits (.5-1)**

Optional workshop as a supplement to PHYS 215G. The tutorial sessions focus on reasoning and hands-on problem solving. May be repeated up to 1 credits.

Corequisite(s): PHYS 215G.

PHYS 206. Supplemental Instruction to PHYS 216G**0.5-1 Credits (.5-1)**

Optional workshop as a supplement to PHYS 216G. The tutorial sessions focus on reasoning and hands-on problem solving. May be repeated up to 1 credits.

Corequisite(s): PHYS 216G.

PHYS 211G. General Physics I**3 Credits**

Non-calculus treatment of mechanics, waves, sound, and heat. Knowledge of simple algebra and trigonometry is required.

PHYS 211GL. General Physics I Laboratory**1 Credit**

Laboratory experiments in topics associated with material presented in PHYS 211G.

Prerequisite(s)/Corequisite(s): PHYS 211G.

PHYS 212G. General Physics II**3 Credits**

Non-calculus treatment of electricity, magnetism, and light.

Prerequisite(s): PHYS 211G or PHYS 212G.

PHYS 212GL. General Physics II Laboratory**1 Credit**

Laboratory experiments in topics associated with material presented in PHYS 212G.

Prerequisite(s)/Corequisite(s): PHYS 212G.

PHYS 213. Mechanics**3 Credits**

Newtonian mechanics. Pre/

Corequisite(s): MATH 191G.

PHYS 213 L. Experimental Mechanics**1 Credit**

Laboratory experiments associated with the material presented in PHYS 213. Science majors. Pre/

Corequisite(s): PHYS 213.

PHYS 214. Electricity and Magnetism**3 Credits**

Charges and matter, the electric field, Gauss law, the electric potential, the magnetic field, Ampere's law, Faraday's law, electric circuits, alternating currents, Maxwell's equations, and electromagnetic waves. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): MATH 192G. Prerequisite(s): a C- or better in PHYS 213 or PHYS 215G.

PHYS 214 L. Electricity and Magnetism Laboratory**1 Credit**

Laboratory experiments associated with the material presented in PHYS 214.

Prerequisite(s)/Corequisite(s): PHYS 214. Prerequisite(s): a C- or better in PHYS 213L or PHYS 215GL.

PHYS 215G. Engineering Physics I**3 Credits**

Calculus-level treatment of kinematics, work and energy, particle dynamics, conservation principles, simple harmonic motion. May be repeated up to 3 credits.

Prerequisite(s): a C- or better in MATH 191G.

PHYS 215GL. Engineering Physics I Laboratory**1 Credit**

Laboratory experiments associated with the material presented in PHYS 215G. Students wishing to use the PHYS 215G-216G sequence to satisfy the basic natural science general education requirement must register for either PHYS 215GL or PHYS 216GL. Pre/

Corequisite(s): PHYS 215G.

PHYS 216G. Engineering Physics II**3 Credits**

A calculus-level treatment of topics in electricity, magnetism, and optics. May be repeated up to 3 credits.

Prerequisite(s): a C- or better in PHYS 213 or PHYS 215G and MATH 192G.

PHYS 216GL. Engineering Physics II Laboratory**1 Credit**

Laboratory experiments associated with the material presented in PHYS 216G.

Prerequisite(s)/Corequisite(s): PHYS 216G. Prerequisite(s): A C- or better in PHYS 213L or PHYS 215GL.

PHYS 217. Heat, Light, and Sound**3 Credits**

Calculus-level treatment of thermodynamics, geometrical and physical optics, and sound. May be repeated up to 3 credits.

Prerequisite(s): a C- or better in PHYS 213 or PHYS 215G.

PHYS 217 L. Experimental Heat, Light and Sound**1 Credit**

Laboratory experiments associated with the material presented in PHYS 217. Science majors.

Prerequisite(s)/Corequisite(s): PHYS 217. Prerequisite(s): a C- or better in PHYS 213L or PHYS 215GL.

PHYS 221G. General Physics for Life Sciences I**3 Credits**

This algebra-based introduction to general physics covers mechanics, waves, sound, and heat. Special emphasis is given to applications in the life sciences. This course is recommended for students in the life sciences and those preparing for the physics part of the MCAT.

Prerequisites: a C or better in MATH 120 or higher.

PHYS 221GL. Laboratory to General Physics for Life Science I**1 Credit**

Laboratory experiments in topics associated with material presented in PHYS 221G.

Prerequisite(s)/Corequisite(s): PHYS 221G. Restricted to Las Cruces campus only.

PHYS 222G. General Physics for Life Sciences II**3 Credits**

This algebra-based course covers electricity, magnetism, light, atomic physics, and radioactivity. Special emphasis is given to applications in the life sciences. This course is recommended for students in the life sciences and those preparing for the physics part of the MCAT.

Prerequisite: PHYS 211G or PHYS 221G.

PHYS 222GL. Laboratory to General Physics for Life Sciences II**1 Credit**

Laboratory experiments in topics associated with material presented in PHYS 222G.

Prerequisite(s)/Corequisite(s): PHYS 222G. Restricted to Las Cruces campus only.

PHYS 223. Supplemental Instruction to PHYS 221**1 Credit**

This optional workshop supplements Physics for Life Sciences I. The tutorial sessions focus on reasoning and hands-on problem solving.

Corequisite(s): PHYS 221G.

PHYS 224. Supplemental Instruction to PHYS 222**1 Credit**

This optional workshop is a supplement to Physics for Life Science II. The tutorial sessions focus on reasoning and hands-on problem solving.

Corequisite(s): PHYS 222G.

PHYS 280. Independent Study**1-3 Credits**

Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

PHYS 290. Special Topics**1-3 Credits**

Topics to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

PHYS 303V. Energy and Society in the New Millennium**3 Credits**

Traditional and alternative sources of energy. Contemporary areas of concern such as the state of depletion of fossil fuels; nuclear energy, solar energy, and other energy sources; environmental effects; nuclear weapons; and health effects of radiation. Discussion of physical principles and impact on society. Focus on scientific questions involved in making decisions in these areas. No physics background required.

PHYS 304. Forensic Physics**4 Credits (3+3P)**

Theories, laboratory, and field techniques in the area of forensic physics.

PHYS 305V. The Search for Water in the Solar System**3 Credits**

Examines the formation, abundance and ubiquity of water in our Solar System stemming from comets, Martian and Lunar poles, Earth's interior and into the outer reaches of the Solar System. Topics will include nuclear synthesis, Solar System formation, remote sensing, as well as past, present and future NASA missions for water.

PHYS 315. Modern Physics**3 Credits**

An introduction to relativity and quantum mechanics, with applications to atoms molecules, solids, nuclei, and elementary particles. May be repeated up to 3 credits.

Prerequisite(s): a C- or better in MATH 291 and PHYS 214 or PHYS 216G.

PHYS 315 L. Experimental Modern Physics**3 Credits (1+6P)**

Elementary laboratory in modern physics which supports the subject matter in PHYS 315. Required for physics majors. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): PHYS 315. **Prerequisite(s):** a C- or better in PHYS 214L or 216GL.

PHYS 350. Special Topics**1-3 Credits**

Lectures, demonstrations, and discussions on such topics as lasers and holography, energy sources, clouds, and biophysics. May be repeated for a maximum of 12 credits under different subtitles.

PHYS 380. Individual Study**1-3 Credits**

Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

PHYS 395. Intermediate Mathematical Methods of Physics**3 Credits**

Introduction to the mathematics used in intermediate-level physics courses. Topics include vector calculus, curvilinear coordinates, matrices, linear algebra, function spaces, partial differential equations, and special functions. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): MATH 392. **Prerequisite(s):** a C- or better in MATH 291G.

PHYS 400. Undergraduate Research**1-3 Credits**

May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

PHYS 420. Capstone Project I**3 Credits**

Application of engineering physics principles to a significant design project. Includes teamwork, written and oral communication and realistic technical, economic and public safety requirements.

PHYS 421. Capstone Project II**3 Credits**

Continuation of PHYS 420.

PHYS 450. Selected Topics**1-3 Credits**

Readings, lectures or laboratory studies in selected areas of physics. May be repeated for a maximum of 12 credits.

PHYS 451. Intermediate Mechanics I**3 Credits**

Vector calculus, Lagrangian and Hamiltonian formulations of Newtonian mechanics. Topics include central force motion, dynamics of rockets and space vehicles, rigid body motion, noninertial reference frames, oscillating systems, relativistic mechanics, classical scattering, and fluid mechanics. Pre/

Prerequisite(s): PHYS 213 or PHYS 215G, and MATH 291G.

Corequisite(s): MATH 392.

PHYS 454. Intermediate Modern Physics I**3 Credits**

Introduction to quantum mechanics, focusing on the role of angular momentum and symmetries, with application to many atomic and subatomic systems. Specific topics include intrinsic spin, matrix representation of wave functions and observables, time evolution, and motion in one dimension. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): MATH 392 and PHYS 395. **Prerequisite(s):** a C- or better in PHYS 315.

PHYS 455. Intermediate Modern Physics II**3 Credits**

Continuation of subject matter of PHYS 454. Specific topics include rotation and translation in three dimensions, solution of central potential problems, perturbation theory, physics of identical particles, scattering theory, and the interaction between photons and atoms. May be repeated up to 3 credits.

Prerequisite(s): a C- or better in PHYS 454.

PHYS 461. Intermediate Electricity and Magnetism I**3 Credits**

The first part of a two-course sequence in classical electrodynamics. Covered topics include static electric and magnetic fields, Laplace's and Poisson's equations, electromagnetic work and energy, Lorentz force, Gauss's, Biot-Savart, and Ampere's laws, Maxwell's equations, as well as electric and magnetic fields in matter. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): MATH 392 and PHYS 395. **Prerequisite(s):** a C- or better in PHYS 214 or PHYS 216G or equivalent and a C- or better in MATH 291G.

PHYS 462. Intermediate Electricity and Magnetism II**3 Credits**

Continuation of subject matter of PHYS 461. Covered topics include Maxwell's equations and their applications, electromagnetic waves, reflection, refraction, dispersion, radiating systems, interference and diffraction, as well as Lorentz transformations and relativistic electrodynamics. May be repeated up to 3 credits.

Prerequisite(s): a C- or better in PHYS 461.

PHYS 467. Nanoscience and Nanotechnology**3 Credits**

See CHME 467. Crosslisted with: CHME 467.).

Prerequisite(s): CHEM 112 and (PHYS 211 or PHYS 215) and (EH&S Safety training to include the courses: (1) Employee & Hazard Communication Safety (HazCom); (2) Hazardous Waste Management; and (3) Laboratory Standard.

PHYS 468. Intermediate X-ray Diffraction**3 Credits**

Introduction to x-ray diffraction and reflectivity spectra. Topics include X-ray sources and detectors, atomic spectra, characteristic x-rays, thermionic emission, synchrotron radiation, instrument components, and beam conditioners. Crosslisted with: CHME 488.

Prerequisite(s): a C- or better in PHYS 315 and PHYS 315L.

PHYS 471. Modern Experimental Optics**3 Credits (1+6P)**

Advanced laboratory experiments in optics related to the material presented in PHYS 473.

Prerequisite(s): PHYS 315 and PHYS 315L.

PHYS 473. Introduction to Optics**3 Credits**

The nature of light, Geometrical optics, basic optical instruments, wave optics, aberrations, polarization, and diffraction. Elements of optical radiometry, lasers and fiber optics. Crosslisted with: E E 473

Prerequisite(s): PHYS 216G or PHYS 217.

PHYS 475. Advanced Physics Laboratory**1-3 Credits (1+6P)**

Advanced undergraduate laboratory involving experiments in atomic, molecular, nuclear, and condensed-matter physics. May be repeated up to 3 credits.

Prerequisite(s): a C- or better in PHYS 315 and 315L.

PHYS 476. Computational Physics**3 Credits**

An introduction to finite difference methods, Fourier expansions, Fourier integrals, solution of differential equations, Monte Carlo calculations, and application to advanced physics problems.

Prerequisite(s): PHYS 150 or equivalent and MATH 392.

PHYS 477. Fiber Optic Communication Systems**4 Credits (3+3P)**

See E E 477 Crosslisted with: E E477.

Prerequisite(s): C- or better in E E 315 or PHYS 461.

PHYS 478. Fundamentals of Photonics**4 Credits (3+3P)**

See E E 478. Crosslisted with: E E478.

Prerequisite(s): PHYS 216G or PHYS 217.

PHYS 479. Lasers and Applications**4 Credits (3+3P)**

See E E479 Crosslisted with: E E479.

Prerequisite(s): C- or better in E E 315 or PHYS 461.

PHYS 480. Thermodynamics**3 Credits**

Thermodynamics and statistical mechanics. Basic concepts of temperature, heat, entropy, equilibrium, reversible and irreversible processes. Applications to solids, liquids, and gases.

Prerequisites: PHYS 217, PHYS 315 and MATH 291G.

PHYS 485. Independent Study**1-3 Credits**

Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

PHYS 488. Introduction to Condensed Matter Physics**3 Credits**

Crystal structure, X-ray diffraction, energy band theory, phonons, cohesive energy, conductivities, specific heats, p-n junctions, defects, surfaces, and magnetic, optical, and low-temperature properties.

Prerequisite(s): PHYS 315.

PHYS 489. Introduction to Modern Materials**3 Credits**

Structure and mechanical, thermal, electric, and magnetic properties of materials. Modern experimental techniques for the study of material properties.

Prerequisite: PHYS 315.

PHYS 491. High Energy Physics I**3 Credits**

Particle detectors, accelerators, and experimental techniques. Fundamental particles and interactions. Symmetries in particle physics. Quark model of hadrons. Electroweak theory. Strong interactions and QCD. Nuclear interactions at high energies. Grand unification. Super symmetry.

Prerequisite(s): PHYS 455.

PHYS 493. Experimental Nuclear Physics**3 Credits (1+6P)**

Selected experimental investigations in nuclear physics such as measurement of radioactivity, absorption of radiation, nuclear spectrometry.

Prerequisite(s): PHYS 315 and PHYS 315L.

PHYS 495. Mathematical Methods of Physics I**3 Credits**

Applications of mathematics to experimental and theoretical physics. Topics selected from: complex variables; special functions; numerical analysis; Fourier series and transforms, Laplace transforms.

Prerequisite(s): MATH 392 and PHYS 395.

PHYS 497. Introduction to Space Plasma Physics**3 Credits**

Properties of plasmas, especially those in the heliosphere such as the solar wind, planetary magnetospheres and ionospheres, cosmic rays, and the Sun. Topics include both independent-particle and fluid descriptions of plasmas such as magnetohydrodynamics, the solar cycle and solar flares, planetary magnetic substorms and aurorae, Van Allen radiation belts, shocks in the solar wind, and wave propagation in plasmas.

Prerequisite(s): (PHYS 461 or E E 351) and MATH 392.

PHYS 500. Special Topics Seminar**1-2 Credits**

Treatment of topics not covered by regular courses. Graded S/U. May be repeated.

PHYS 511. Mathematical Methods of Physics I**3 Credits**

Same as PHYS 495. Additional work required at a more advanced level.

PHYS 520. Selected Topics**1-3 Credits**

Formal treatment of graduate-level topics not covered in regular courses. May be repeated for a maximum of 9 credits.

Prerequisites: graduate standing, consent of instructor, and selection of a specific topic prior to registration.

PHYS 521. Individual Study**1-3 Credits**

Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.

Prerequisites: graduate standing, consent of instructor, and selection of a specific topic prior to registration.

PHYS 527. Fiber Optic Communication Systems**4 Credits (3+3P)**

Same as E E 527 Crosslisted with: E E 527

PHYS 528. Fundamentals of Photonics**4 Credits (3+3P)**

Same as E E 528. Crosslisted with: E E528.

PHYS 529. Lasers and Applications**4 Credits (3+3P)**

Same as E E 529 Crosslisted with: E E 529

PHYS 551. Classical Mechanics**3 Credits**

Lagrangian and Hamiltonian formulation of dynamics. Advanced treatments of most topics listed under PHYS 451, plus canonical transformations and Hamilton-Jacobi theory. PHYS 451 strongly recommended.

PHYS 554. Quantum Mechanics I**3 Credits**

Wave function, indeterminacy, classical limit. Schrodinger equation. Atomic and nuclear systems. Angular momentum, intrinsic spin, identical particles. Scattering theory. Mathematical formalism, symmetry and conserved quantities. Perturbation theory. Dirac theory, introduction to quantized fields. PHYS 451 and PHYS 454 strongly recommended.

PHYS 555. Quantum Mechanics II**3 Credits**

Continuation of topics in PHYS 554.

Prerequisites: PHYS 554 or consent of instructor.

PHYS 561. Electromagnetic Theory I**3 Credits**

Detailed advanced treatments of most topics listed under PHYS 461, PHYS 462, plus multipole radiation, collisions of charged particles and bremsstrahlung, scattering, and radiation reaction. PHYS 461 and PHYS 462 strongly recommended.

PHYS 562. Electromagnetic Theory II**3 Credits**

Continuation of topics in PHYS 561.

Prerequisites: PHYS 561 or consent of instructor.

PHYS 567. Nanoscience and Nanotechnology**3 Credits**

See CHME 567. Crosslisted with: CHME 567.

PHYS 568. Elements of X-ray Diffraction**3 Credits**

Same as PHYS 468, but additional work required. Crosslisted with: CHME 588.

PHYS 571. Advanced Experimental Optics**3 Credits**

Taught with PHYS 471 with additional work required at the graduate level. Consent of Instructor required.

Prerequisite(s): PHYS 473 or PHYS 562.

PHYS 575. Advanced Physics Laboratory**1-3 Credits (1+6P)**

Selected experiments in atomic, molecular, nuclear and condensed-matter physics.

PHYS 576. Advanced Computational Physics I**3 Credits**

Advanced treatment of topics listed under PHYS 476, plus additional required work. Applications of numerical methods to complex physical systems. Recommended knowledge of Fortran or C, and MATH 377 or MATH 392. Same as PHYS 476, but additional work required.

PHYS 577. Fourier Methods in Electro-Optics**3 Credits**

Same as E E 577 Crosslisted with: E E 577

PHYS 578. Optical System Design**3 Credits**

See E E 578. Crosslisted with: E E 578

PHYS 584. Statistical Mechanics**3 Credits**

Thermodynamics review. Probability, entropy, equilibrium. Canonical and grand canonical ensembles. Classical and quantum statistics. Degenerate and classical gases. Application to the equilibrium properties of solids, liquids, and gases. Kinetic theory and transport processes.

PHYS 588. Condensed Matter Physics**3 Credits**

Same as PHYS 488, but additional work required.

Prerequisite(s): PHYS 554 or consent of instructor.

PHYS 589. Modern Materials**3 Credits**

Same as PHYS 489 with differentiated assignments for graduate students.

Prerequisite: PHYS 554 or consent of instructor.

PHYS 591. Advanced High-Energy Physics I**3 Credits**

Taught with PHYS 491 with additional work required at the graduate level.

Prerequisite(s): PHYS 555 or consent of instructor.

PHYS 592. Advanced High-Energy Physics II**3 Credits**

Continuation of topics in PHYS 591

Prerequisite(s): PHYS 591.

PHYS 593. Advanced Experimental Nuclear Physics**3 Credits (1+6P)**

Advanced experimental investigation of topics such as measurement of radioactivity, absorption of radiation, and nuclear spectrometry.

PHYS 597. Space Plasma Physics**3 Credits**

Same as PHYS 497 but with added requirements.

PHYS 599. Master's Thesis**15 Credits**

Thesis.

PHYS 600. Research**1-15 Credits**

Doctoral research. May be repeated.

PHYS 620. Advanced Topics in Physics**1-3 Credits**

Advanced formal treatment of topics not covered in regular courses. May be repeated for a maximum of 9 credits.

Prerequisite: consent of instructor.

PHYS 650. General Relativity I**3 Credits**

Basic foundations and principles of general relativity, derivation of the Einstein field equations and their consequences, the linearized theory, the Bel-Petrov classification of the curvature tensor, derivation of the Schwarzschild solution and the four basic tests of general relativity.

Prerequisite(s): PHYS 511 or PHYS 561 or consent of instructor.

PHYS 680. Independent Study**1-3 Credits**

Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.

Prerequisite: graduate standing or consent of instructor.

PHYS 688. Advanced Condensed Matter Physics**3 Credits**

Continuation of the advanced condensed matter physics presented in PHYS 588. Topics include electronic structure methods, optical, magnetic, and transport properties of solids, semiconductors, crystalline defects, nanostructures, and noncrystalline solids. PHYS 588 strongly recommended.

PHYS 689. Advanced Modern Materials**3 Credits**

Advanced topics in the physics of modern materials, such as crystalline, amorphous, polymeric, nanocrystalline, layered, and composite materials and their surfaces and interfaces.

Prerequisites: PHYS 555, PHYS 588, or consent of instructor.

PHYS 691. Quantum Field Theory I**3 Credits**

Path integrals, gauge invariance, relativistic quantum mechanics, canonical quantization, relativistic quantum field theory, introduction to QED.

Prerequisites: PHYS 555 and PHYS 562, or consent of instructor.

PHYS 692. Quantum Field Theory II**3 Credits**

QED, running coupling constant, QCD, electroweak theory, asymptotic freedom, deep inelastic scattering, basic QCD phenomenology, path integrals in quantum field theory, lattice QCD.

Prerequisite: PHYS 691 or consent of instructor.

PHYS 700. Doctoral Dissertation**15 Credits**

Dissertation.

PL-S-PARALEGAL SERVICES (PL S)

PL S 160. Legal System for the Paralegal**3 Credits**

Introduction to the court system, administrative agencies, functions of law offices, and professional conduct and legal ethics. Restricted to: Community Colleges only.

Prerequisite(s): ACT standard score in English of 16 or higher or a Compass score 76 or higher; for those scoring 13-15 in English on ACT or 35-75 on Compass, successful complete of CCDE 105N or CCDE 110N; for those scoring 12 or below on the ACT standard score in English or 34 or below on the Compass, successful completion of CCDE 105N & CCDE 110N.

PL S 161. Legal Terminology**3 Credits**

Survey of the language of the law that will serve either as an introductory course or as a review course to prepare students for the certification test.

PL S 162. The Virtual Law Office**3 Credits**

The Virtual Law Office class is a 'hands-on', project oriented course designated to provide the student with the basic law office skills needed to function successfully in a law office setting. The student will gain a practical, working knowledge of the procedures necessary to work in a law office. The skills learned in the class will directly translate to real life situations. Restricted to: Community Colleges only.

Prerequisite(s): PL S 160.

PL S 180. Constitutional Law for the Paralegal**3 Credits**

Case standing of the law of the Constitution and Bill of Rights with regard to day-to-day applications in the law practice. Documents dealing with constitutional problems in both civil and criminal areas of law will be drafted and discussed.

Prerequisite: PL S 160.

PL S 190. Criminal Law for the Paralegal**3 Credits**

Introduction to federal and state criminal law; criminal proceedings, prosecution and defense, sentencing and appeal.

Prerequisite: PL S 160.

PL S 200. Legal Ethics for the Paralegal**3 Credits**

Introduction to ethical dilemmas faced in the workforce and the rules of ethics developed by the American Bar Association, various national paralegal organizations, and the Supreme Court of New Mexico.

Restricted to: Community Colleges only.

Prerequisite(s): PL S 160.

PL S 203. Immigration Law**3 Credits**

Survey of the basics of immigration law including the rights and obligations of citizenship and the naturalization process.

Prerequisite: PL S 160.

PL S 221. Internship I**2-4 Credits**

Work experience that directly relates to a student's major field of study that provides the student an opportunity to explore career paths and apply knowledge and theory learned in the classroom. Internships can be paid or unpaid. Students are supervised/evaluated by both the employer and the instructor. Restricted to Community Colleges campuses only.

Prerequisite(s): PL S 274.

PL S 222. Internship II**1-3 Credits**

Continuation of PL S 221. Each credit requires specified number of hours of on-the-job work experience. Restricted to Community Colleges campuses only.

Prerequisite(s): PL S 221.

PL S 231. The Law of Commerce for the Paralegal**3 Credits**

Law of contracts, negotiable instruments, bank transfers, secured transactions, debtor-creditor relations, agency, and business types and their formation. Students will study the relevant statutes as well as draft documents associated with these types of legal practice. Restricted to: Community Colleges only.

Prerequisite(s): PL S 160.

PL S 272. Bankruptcy Law for the Paralegal**3 Credits**

Individual and corporate bankruptcy; the basic principles and processes of bankruptcy law as a system of debtor relief and debt collection.

Prerequisite: PL S 160.

PL S 274. Legal Research and Writing for the Paralegal I**3 Credits**

Legal memoranda, briefs, and pleadings will be prepared and written based on the student's original research. Research materials and techniques will be identified and studied; introduction of computer usage in legal research.

Prerequisite: PL S 160 and ENGL 111G.

PL S 275. Tort and Insurance for the Paralegal**3 Credits**

Primary legal principles of tort and insurance law and means of establishing insurance plans, types of torts and insurance, as well as use of specific forms and procedures relating to these areas.

Prerequisite: PL S 160.

PL S 276. Wills, Trusts, and Probate for the Paralegal**3 Credits**

Cases and statutes dealing with wills, trusts, and probate. Emphasis on preparation and drafting of documents and the application of the law and documents to the client's problems.

Prerequisite: PL S 160.

PL S 277. Family Law for the Paralegal**3 Credits**

Methods of conducting client interviews and drafting of pleadings and research relative to families. Laws relating to marriage, divorce, custody, support, adoption, name change, guardianship, and paternity.

Prerequisite: PL S 160.

PL S 278. Litigation for the Paralegal**3 Credits**

The law of procedure and evidence will be considered through rules and cases. Case situations will be used to identify and solve problems.

Prerequisite: PL S 160.

PL S 279. Legal Research and Writing for the Paralegal II**3 Credits**

Continuation of PL S 274. Advanced training in legal research problems with a focus on analysis, writing, and preparation of sophisticated legal memoranda and documents.

Prerequisite: PL S 274.

PL S 280. Interviewing and Investigation for the Paralegal**3 Credits**

Techniques of legal interviewing and investigation with emphasis on development of human relations and communication skills.

Prerequisite: PL S 160.

PL S 298. Independent Study**1-3 Credits (1-3)**

Individual studies directed by consenting faculty with prior approval by department head. Restricted to Community Colleges campuses only.

Prerequisite(s): PL S 160.

PORT-PORTUGUESE (PORT)

PORT 213. Portuguese for Romance Language Students I**3 Credits**

Introduction to the Portuguese language, Brazilian culture and civilization. Taught in Portuguese. Open to students with any previous Romance language study (French, Italian, Portuguese, Romanian, Spanish).

PORT 214. Portuguese for Romance Language Students II**3 Credits**

Continuation of PORT 213.

Prerequisite: C or better in PORT 213 or consent of instructor.

PORT 325. Portuguese Conversation**3 Credits**

Spoken Portuguese with emphasis on contemporary topics.

Prerequisite: PORT 214 or consent of instructor.

PORT 453. Independent Luso-Brazilian Studies**1-3 Credits (1-3)**

Individualized, self-paced projects for advanced students in Luso-Brazilian studies. May be repeated up to 12 credits. Consent of Instructor required.

PORT 513. Graduate Portuguese for Romance Language Students I**3 Credits**

Portuguese for beginners at the graduate level. May be completed on campus or via Study Abroad. Credit can be applied towards fulfilling the second language requirement. Credit is not accepted towards any graduate level major or minor.

PORT 514. Graduate Portuguese for Romance Language Students II**3 Credits**

Portuguese for beginners at the graduate level. May be completed on campus or via Study Abroad. Credit can be applied towards fulfilling the second language requirement. Credit is not accepted towards any graduate level major or minor.

Prerequisite(s): Language placement exam or C or better in PORT 513, or consent of instructor.

PSY-PSYCHOLOGY (PSY)

PSY 201G. Introduction to Psychology**3 Credits**

Methods and principles of behavior. Topics include human evolution and development, biopsychology, perception, learning, thinking, motivation, social interaction, and the diagnosis and treatment of abnormal behavior.

PSY 266. Applied Psychology**3 Credits**

Explanation of the psychological principles of everyday living. Emphasizes motivation, learning of intelligent behavior, and applications of psychology to social issues. Community Colleges only.

PSY 274. A Study of Substance Abuse through Service Learning**3 Credits**

Physiological and psychological impact of drug use on human behavior. Emphasizes practical applications of intervention and prevention in the community. Community Colleges only.

PSY 290. Psychology of Adjustment**3 Credits**

Analyzes the responses people have to conflict, emotional stress, and frustration. It focuses on adapting to these problems and examines both normal and neurotic responses. Community College campus only.

PSY 301. Introduction to Psycholinguistics**3 Credits**

Psychological aspects of language, including linguistic theories of grammar, psychological factors influencing language performance, primary language acquisition and the relationship of language to thought processes. Same as LING 301.

Prerequisites: PSY 201G and one of: STAT 251G, STAT 271G, or A ST 311; and PSY 310 or consent of instructor.

PSY 302. Abnormal Psychology**3 Credits**

Introduces the types, causes, and treatment of mental disorders. Descriptions and explanations of the neuroses, affective disorders and the psychoses. Case histories are also analyzed.

Prerequisites: PSY 201G, MATH 120 and ENGL 111G.

PSY 310. Experimental Methods**4 Credits (2+4P)**

The basic skills of literature search, experimental design, research methodology, and research reporting are emphasized; includes laboratory.

Prerequisite(s): PSY 201G, and either STAT 251G, STAT 271G, or A ST 311.

PSY 311. Advanced Research Seminar**4 Credits (2+4P)**

Psychological research in conjunction with designing, conducting, writing, and presenting an independent research project. May also include various computer applications. Will discuss issues regarding application to graduate programs. Course should be taken no later than the first semester of senior year.

Prerequisite: PSY 310.

PSY 315. Emotion**3 Credits**

An overview of the past century of research on human emotion from William James to Antonio Damasio. Explores a cognitive science perspective on emotion that includes questions about developmental, physiological, and evolutionary aspects of emotion and an exploration of the proximate and ultimate functions of emotion. Topics range from understanding the feeling component of emotion to understanding the role of facial displays of emotion.

Prerequisite(s): PSY 201G, and one of: STAT 251, STAT 271, or A ST 311G, and PSY 310 or consent of instructor.

PSY 317. Social Psychology**3 Credits**

Ways in which people are influenced by the behavior of others are analyzed. Includes aggression, altruism, conformity, attraction, sexual behavior, prejudice, and nonverbal behavior.

Prerequisites: PSY 201G, MATH 120, and ENGL 111G.

PSY 320. Learning**4 Credits (3+2P)**

Covers: habituation, Pavlovian conditioning, Thorndikian learning, stimulus generalization, transfer of training, and the learning and forgetting of related and unrelated material.

Prerequisites: PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310.

PSY 321. Psychology of Personality**3 Credits**

Introduces personality theories and supporting research. Psychoanalytic, physiological, and behavioral theories as they apply to personality are examined. Focuses on normal personality functioning.

Prerequisites: PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310.

PSY 324. Sexual Behavior**3 Credits**

Examines viewpoints of the evolution, control and function of human sexual behavior. Includes human sexuality, reproduction, male-female conflicts and the social implications of sex. **Prerequisites:** PSY 201G, MATH 120, and ENGL 111G

PSY 325. Health Psychology**3 Credits**

Life stress, surgical stress, coronary-prone behavior, biofeedback, pain control, psychosocial approaches to geriatrics and cancer, behavioral treatments for addictions, obesity, and interpersonal issues in health care.

Prerequisite: PSY 201G.

PSY 330. Psychology and the Law**3 Credits**

Discretionary practices in the judicial system including pretrial procedures, jury selection, jury decision making, eyewitness testimony, insanity, expert witnesses, and probation judgments.

Prerequisite: PSY 201G.

PSY 340. Cognitive Psychology**3 Credits**

Review of research and theory in the study of human cognitive processes. Topics include information processing, pattern recognition, memory, attention, language, problem solving, decision making, and reasoning.

Prerequisites: PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310.

PSY 342. Cognitive Neuroscience**3 Credits**

Introduction to the study of the neural mechanisms underlying cognitive processes. Topics include relations between neural processes and attention, perception, memory, thinking and language; measuring changes in electrical activity, blood flow, and metabolism in the brain during cognition; the problem of consciousness; and evolutionary perspectives.

Prerequisites: PSY 201G and PSY 310.

PSY 350. Developmental Psychology: Conception through Childhood**3 Credits**

Covers a wide range of topics concerning human psychological development from conception through childhood with special emphasis on current research and theory.

Prerequisite: PSY 201G.

PSY 351. Developmental Psychology: Adolescence through Old Age**3 Credits**

Covers a wide range of topics concerning human psychological development from adolescence through old age with special emphasis on current research and theory.

Prerequisite: PSY 201G.

PSY 359. Psychology of Women**3 Credits**

Examines theories and research on the psychological functioning of women in North American society. Influential theories of gender in psychology and current controversies in the psychological literature. Topics include women's development across the lifespan, women and work, women's physical and mental health and sexuality, the victimization of women, gender stereotypes, biological, social, and cultural influences on women's behavior, and gender comparisons in abilities and personality. Same as W S 359.

Prerequisite: PSY 201G.

PSY 370. Special Topics**1-3 Credits**

May be taken under different subtitles announced in the Schedule of Classes for unlimited credit. May be repeated for a maximum of 12 credits.

Prerequisite: PSY 201G.

PSY 375. Psychology and the Brain**3 Credits**

An exploration of how the brain produces thinking, emotion, and behavior.

Prerequisite(s): PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311 or consent of instructor.

PSY 376. Evolutionary Psychology**3 Credits**

This course introduces the student to the science of Evolutionary Psychology. In this class we will explore how evolutionary psychologists think about a variety of topics ranging from our capacity for (and appreciation of) art, emotions, and beauty to an exploration of the "design" of our minds in regards to mating, status striving, social behavior and cultural production.

Prerequisite(s): PSY 201G, and one of: STAT 251, STAT 271, or A ST 311G, and PSY 310 or consent of instructor.

PSY 380. Perception**4 Credits (4+4P)**

Primary emphasis on vision. Topics include measurement of sensations, development of visual-motor coordination, reading, speech perception, picture perception, illusions, 3-dimensional space, and causes and consequences of visual abnormalities.

Prerequisites: PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310.

PSY 383. Memory**3 Credits**

Examines facets of human memory from the information processing viewpoint, including encoding, storage, and retrieval and memory-aiding techniques.

Prerequisites: PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310 or consent of instructor.

PSY 384. Perceptual and Cognitive Development**3 Credits**

Development across the lifespan in perception, memory, attention, reasoning, language and academic skills.

Prerequisites: PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310 or consent of instructor.

PSY 400. Research**1-3 Credits**

Individual research projects supervised by a department faculty member. May be repeated for a maximum of 6 credits.

Prerequisites: PSY 310 and consent of instructor.

PSY 401. Directed Readings**1-3 Credits**

May be repeated for a maximum of 6 credits.

Prerequisites: PSY 201G and consent of instructor.

PSY 402. Field Experience**1-3 Credits**

Working with preschool, juvenile delinquent, handicapped, aged, convict, or mentally ill. Approximately five hours scheduled work per week per credit. May be repeated to 6 credits.

Prerequisites: 6 psychology credits and consent of instructor.

PSY 417V. Intercultural Relations**3 Credits**

Exploration of cultural and subcultural differences from a psychological perspective. Emphasis on modern cultural settings. Issues may include: ethnocentrism, stereotyping, intercultural communication, culture shock, cultural differences, nonverbal behavior, conflict management, and developing intercultural interaction skills.

Prerequisite: PSY 201G.

PSY 430. Human-Computer Psychology**3 Credits**

Theories, methodologies, and data from psychology applicable to interface design, with an emphasis on construction and application of conceptual psychological models.

Prerequisites: PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310 or consent of instructor.

PSY 440. History and Systems of Psychology**3 Credits**

History of scientific method emphasizing outstanding methodological problems of contemporary science, especially psychology. Also covers recent history of psychology and development of schools of psychology.

Prerequisites: PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310 or consent of instructor.

PSY 442. Thinking**3 Credits**

Research and theory pertaining to human thinking and problem solving. Effective problem-solving methods and common obstacles to problem solving are analyzed.

Prerequisites: PSY 201G and PSY 310.

PSY 445. Clinical Psychology**3 Credits**

Basic theories in clinical psychology and techniques of psychotherapy.

Prerequisites: PSY 201G, PSY 302, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310 or consent of instructor.

PSY 450. Senior Thesis**3 Credits**

A laboratory or field research project conducted under faculty supervision. Requires written research proposal, conduct of research, data analysis, and final written report. May be repeated for a maximum of 6 credits.

Prerequisites: PSY 310, 6 additional psychology credits, consent of supervising faculty member, and junior or above standing.

PSY 470. Special Topics**1-3 Credits**

Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

PSY 507. Quantitative Methods in Psychology I**3 Credits**

Statistical concepts emphasizing distributions and methods most appropriate to the data, models, and theories in psychology. Emphasis on distributions, probability and basic inferential statistics in Psychological research.

Prerequisite(s): An elementary statistics course or consent of instructor.

PSY 508. Quantitative Methods in Psychology II**3 Credits**

Statistical concepts emphasizing distributions and methods most appropriate to the data, models, and theories in psychology. Emphasis on Analysis of Variance (ANOVA) in Psychological research.

Prerequisite(s): PSY 507 or equivalent.

PSY 509. Quantitative Methods in Psychology III**3 Credits**

Statistical concepts emphasizing distributions and methods most appropriate to the data, models, and theories in psychology. Emphasis on multiple regression in Psychological research.

Prerequisite(s): PSY 507 or equivalent.

PSY 510. Computer Methodology**3 Credits**

Use of computers in psychological research with emphasis on developing experimental control programs.

PSY 520. Learning**3 Credits**

Classical areas of learning, including instrumental and classical conditioning paradigms, habituation, reinforcement variables, stimulus generalization and transfer, and memory.

PSY 522. Sensation and Perception**3 Credits**

Stimulus and decision variables in judging auditory and visual events. Topics include: detection of signals; signal intensity versus perceived strength; size, shape, and movement perception; reading and listening.

PSY 523. Methods in Cognitive Psychology**3 Credits**

Experimental and correlational methodologies appropriate for investigating cognitive psychological theories and problems.

Prerequisite(s): PSY 524 or consent of instructor.

PSY 524. Cognitive Psychology**3 Credits**

Examines theoretical and empirical work on human cognition. Topics include: information processing theories, pattern recognition, memory, attention, language, problem solving, decision making, and reasoning.

PSY 525. Behavioral Neuroscience**3 Credits**

The biological basis of behavior with an emphasis on human cognitive functioning.

PSY 527. Social Psychology**3 Credits**

Current and traditional theories, research findings, and research methodologies of social psychology.

PSY 529. Methods in Social Psychology**3 Credits**

Experimental, quasi-experimental, and correlational methodologies appropriate for investigating social psychological theories and problems.

Prerequisite(s): Graduate student in psychology or consent of instructor.

PSY 530. Human-Computer Interaction**3 Credits**

Issues associated with human-computer interface design. Concepts, methods, and data from HCI, cognitive psychology, human factors, artificial intelligence, and psycholinguistics that apply.

PSY 531. Human Memory**3 Credits**

Current and traditional theories and research findings related to human memory.

PSY 535. Developmental Psychology**3 Credits**

Examines theoretical and empirical work in lifespan developmental psychology, with an emphasis on perceptual and cognitive development, language development, and social cognitive development.

PSY 540. History and Systems of Psychology**3 Credits**

History of scientific method emphasizing outstanding methodological problems of contemporary science, especially psychology. Covers recent history of psychology and development of schools of psychology.

PSY 543. Cognitive Neuroscience**3 Credits**

Introduction to the study of the neural mechanisms underlying cognitive processes. Topics include relations between neural processes and attention, perception, memory, thinking and language; measuring change in electrical activity, blood flow, and metabolism in the brain during cognition; the problem of consciousness; and evolutionary perspectives.

PSY 547. Engineering Psychology**3 Credits**

Covers concepts, methods, and findings of human performance. Treats the human as a subsystem that receives, stores and processes information, makes decisions, and acts within a human-machine environment system.

PSY 550. Teaching of Psychology**3 Credits**

This class serves both new and experienced teachers. It will help new teachers design and conduct a successful course and help experienced teachers improve their teaching.

PSY 570. Special Topics**1-3 Credits**

Specific subjects to be announced in the Schedule of Classes.

PSY 590. Research Seminar in Psychology**1 Credit (1)**

Presentations on research by students, faculty, and guest speakers. May be repeated for credit.

PSY 598. Special Research Programs**1-3 Credits**

Individual investigations either analytical or experimental. May be repeated for credit.

PSY 599. Master's Thesis**15 Credits**

Thesis.

PSY 600. Doctoral Research**1-15 Credits**

This course number is used for assigning credit for research performed prior to successful completion of the doctoral qualifying examination.

PSY 698. Special Research Programs**1-3 Credits**

Individual investigations either analytical or experimental. May be repeated for credit.

PSY 700. Doctoral Dissertation**15 Credits**

Dissertation.

RADT-Radiologic Technology (RADT)

RADT 100. Introduction to Radiologic Technology and Patient Care**2 Credits**

Overview of the profession, including ethics, terminology, and basic radiation protection. Addresses basic and specialized procedures and topics related to the care of the patient. Restricted to: Community Colleges only. Restricted to Majors.

RADT 101. Radiographic Positioning I**4 Credits (2+6P)**

Covers radiographic procedure and positioning concepts, techniques, terminology, and mechanics related to the thorax, abdomen, extremities, spine and pelvis. Includes positioning lab and clinical observation.

RADT 102. Radiographic Positioning II**4 Credits (2+6P)**

Continuation of RADT 101. Includes skull, gastrointestinal, urinary, reproductive, biliary systems, and more advanced skeletal positions. Includes positioning lab and clinical observation. Restricted to: Community Colleges only. Restricted to Majors.

Prerequisite: RADT 101.

RADT 103. Introduction to Radiographic Imaging**3 Credits (2+2P)**

Provides the student with an in-depth knowledge of radiographic exposure technique and the factors affecting radiographic film quality. Includes lab experiments. Restricted to majors.

RADT 104. Special Radiologic Modalities**2 Credits**

Discussion of various special procedures used in medical imaging such as, angiography, ultrasound, computerized tomography, magnetic resonance imaging, digital imaging, nuclear medicine, radiation therapy, etc. Includes guest lectures and field trips.

Prerequisite: RADT 103.

RADT 105. Radiographic Physics and Equipment**3 Credits**

Fundamentals of rad physics. Includes electromagnetism, x-ray production and interactions, x-ray circuitry, tubes, grids, screens, AES, fluoroscopic and portable units, beam restricting devices, calibration and quality assurance/control. Overview of mammography, US, CT, MRI, and digital radiography. Restricted to: Community Colleges only. Restricted to Majors.

Prerequisite: RADT 103 or consent of instructor.

RADT 110. Radiographic Pathology**1 Credit**

Overview of pathology demonstrated by radiographic procedures. Restricted to majors.

Prerequisite: RADT 154.

RADT 154. Radiographic Anatomy and Physiology**3 Credits**

Basic A&P for radiographic application. Includes a systems approach to body structures and organs as they relate to anatomical projections, radiographic identification, and various imaging modalities. Restricted to: RADT majors. Restricted to: Community Colleges only.

Prerequisite(s): AHS 153 or AHS 140 or BIOL 225 or BIOL 154, or consent of instructor.

RADT 156. Independent Study**1-6 Credits**

Individual studies/research on topics related to the radiological sciences. May be repeated for a maximum of 6 credits. Restricted to: Community Colleges only.

RADT 190. CT Equipment and Methodology**3 Credits**

Skill development in the operation of computed tomographic equipment, focusing on routine protocols, image quality, and quality assurance and radiation protection. May be repeated up to 3 credits. Restricted to: CTOM or RADT majors. Restricted to Community Colleges campuses only.

RADT 200. Radiation Biology and Protection**2 Credits**

Biological effects of ionizing radiation on cells and tissues. Includes radiation measurements, policies and protection measures for self, patients, and others. Restricted to majors. Restricted to: Community Colleges only.

Prerequisite(s): RADT 103.

RADT 201. Clinical Education I**9 Credits**

Supervised practice in a radiology department under direct supervision of a registered technician. Includes film critiques. Community Colleges Only. Restricted to: RADT, OERT majors. Restricted to Community Colleges campuses only.

Prerequisite(s): RADT 105.

RADT 202. Clinical Education II**12 Credits**

Continuation of RADT 201. Student will work under indirect supervision of registered personnel. Restricted to: RADT, OERT majors. Restricted to Community Colleges campuses only.

Prerequisite(s): OERT 201.

RADT 203. Clinical Education III**11 Credits**

Continuation of RADT 202. Restricted to: RADT, OERT majors. Restricted to Community Colleges campuses only.

Prerequisite(s): OERT 202.

RADT 205. Radiographic Image Critique**1 Credit**

Review of radiographs produced in clinical settings to evaluate anatomy and technical issues. Restricted to majors.

Prerequisite: RADT 201.

RADT 206. Applied Radiographic Procedures**2 Credits (1+3P)**

Advanced course which integrates the principles and techniques of radiologic technology. Restricted to majors.

Prerequisite: RADT 202.

RADT 207. Cross Sectional Anatomy for Medical Imaging**3 Credits**

Anatomic relationships that are present under various sectional orientations as depicted by computed tomography or magnetic resonance imaging. May be repeated up to 3 credits. Restricted to: CTOM or RADT majors. Restricted to Community Colleges campuses only.

RADT 208. Clinical I (Computed Tomography)**3 Credits**

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. Direct supervision is provided by the clinic professional. May be repeated up to 3 credits. Restricted to: RADT or CTOM majors. Restricted to Community Colleges campuses only.

RADT 209. Clinical II (Computed Tomography)**3 Credits**

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. Direct supervision is provided by the clinic professional. (Capstone Course). May be repeated up to 3 credits. Restricted to: CTOM or RADT majors. Restricted to Community Colleges campuses only.

RDG-READING (RDG)

RDG 350. Teaching and Learning Reading and Writing **3 Credits (2+2P)**

The foundation of this course is on understanding the reading process including the relationship between reading, writing, listening, and speaking; individual needs and abilities in reading instruction; and how to organize classrooms and select materials to support literacy development. Concepts of phonemic awareness, phonic instruction, vocabulary development, fluency and comprehension are integrated with the developmentally appropriate use of authentic assessment techniques, language/literacy immersion, and multicultural children's literature. Crosslisted with: RDG 360

Prerequisite(s): ECED 235.

Corequisite(s): ECED 440, ECED 455, ECED 329.

RDG 360. Elementary School Literacy I **3 Credits (2+2P)**

Reading development, curriculum, and instruction in the elementary grades. Required of all elementary education majors as a prerequisite to student teaching. Same as RDG 560 with differentiated assignments for graduate students.

Corequisites: ECED 450, EDUC 451, and EDUC 452 (Block A courses).

RDG 361. Elementary School Literacy II **3 Credits (2+2P)**

Reading development in curriculum and instruction with assessment and evaluation in the elementary grades (K 8). Same as RDG 561 with differentiated assignments for graduate students.

Prerequisite: RDG 360.

Corequisites: EDUC 453, EDUC 454, and EDUC 455 (Block B courses).

RDG 371. Instruction for Special Reading Needs **3 Credits**

Emphasizes appropriate techniques for teaching reading to learners with special needs. Cannot substitute for RDG 361.

Prerequisites: RDG 356 or RDG 360 and RDG 361.

RDG 395. Special Topics **1-3 Credits**

Each course will be identified by a qualifying subtitle. A maximum of 3 credits in any one semester and a grand total of 6 credits.

RDG 414. Content Area Literacy **3 Credits (2+2P)**

Surveys integrated reading/writing/discursive practices in middle/secondary content areas. Same as RDG 514.

RDG 510. Adult and Family Literacy **3 Credits**

Principles, practices, and instructional materials for adult and family literacy. Same as EDUC 506.

RDG 511. Literacy Assessment and Evaluation **3 Credits**

Theoretical and practical aspects of using formal and informal assessment and evaluation procedures in literacy curriculum and instruction. Same as EDUC 511.

RDG 514. Content Area Literacy **3 Credits**

Surveys integrated reading/writing/discursive practices in middle/secondary content areas. Same as RDG 314.

RDG 522. Language and Literacy Acquisition **3 Credits**

Framework and strategies of language and literacy acquisition with attention to bilingual learners and the interrelationship among reading, writing, and oral language. Same as BIL 522, RDG 422.

RDG 525. Pedagogy and Theory of Literature for Adolescents **3 Credits**

This course provides an in-depth exploration of pedagogy and theory related to literature for adolescents

Prerequisite(s): Graduate Standing.

RDG 530. Sociopsycholinguistics of Reading **3 Credits**

Examines current research on reading process, learning to read, and teaching children to read and evaluates current programs and materials.

RDG 536. Special Studies in Literacy **1-6 Credits**

Each study will be designated by a qualifying subtitle. Same as RDG 636.

RDG 551. Literacy Development in Early Childhood **3 Credits**

Advanced theory, research, and practice relating to early childhood reading. Same as RDG 351.

RDG 555. Introduction to Instructional Leadership for Literacy Educators **3 Credits**

Three credit course will introduce students to the roles and responsibilities of literacy specialists in the k-12 school setting.

Prerequisite(s): Graduate standing, RDG 511 & RDG 530.

RDG 560. Elementary School Literacy I **3 Credits (2+2P)**

Reading development, curriculum, and instruction in the elementary grades. Same as RDG 360 with differentiated assignments for graduate students.

Corequisites: ECED 550, EDUC 551, and EDUC 552 (block A course).

RDG 561. Elementary School Literacy II **3 Credits (2+2P)**

Reading development in curriculum and instruction with assessment and evaluation in the elementary grades (K-8). Same as RDG 361 with differentiated assignments for graduate students.

Prerequisite: RDG 560.

Corequisites: EDUC 553, EDUC 554, and EDUC 555 (block B course).

RDG 585. Practicum in Literacy Education **1-6 Credits**

Supervised laboratory experience with children with reading difficulties. The student implements a program of specific procedures to aid the disabled reader.

Prerequisite: RDG 511.

RDG 587. Pedagogy of TESOL **3 Credits**

Overview of approaches that provide for interactive, culturally responsive pedagogy for students acquiring English. Emphasis on development of ESL literacy. Appropriate for public school and adult educators. Same as EDUC 587.

RDG 598. Selected Topics in Literacy **1-6 Credits**

Offered under different subtitles in the Schedule of Classes. Same as RDG 698 with differentiated subjects for doctoral students.

RDG 600. Doctoral Research in Literacy**1-15 Credits**

Research on topic of interest.

RDG 605. Independent Study Topics in Reading**1-6 Credits**

A problem and seminar course for those pursuing an advanced degree.

Each course will have an appropriate subtitle.

RDG 608. Critical Issues in Literacy Education**3 Credits**

Critical issues from historical to current perspectives.

RDG 621. Literacy/Biliteracy Assessment and Evaluation**3 Credits**

Same as BIL 621.

RDG 630. Ethnography of Reading and Writing**3 Credits**

Covers the dynamics of data interpretation and critical analysis in the study of literacy.

RDG 633. Praxis and Reflexivity**3 Credits**

Same as BIL 633, ECED 633, EDLT 633, EDUC 633.

RDG 636. Special Studies in Literacy**1-6 Credits**

Offered under different subtitles in the Schedule of Classes. Same as RDG 536 with differentiated assignments for doctoral students.

RDG 639. Multiculturalism, Literature, and Inquiry**3 Credits**

Advanced exploration and examination of critical multicultural language education vis-a-vis children's adolescent, young adult, and adult literature, with an eye toward problematizing assumptions about literacy, articulating issues of social justice and enacting transactive, transformative pedagogy. Same as BIL 639.

RDG 640. Higher Education Teaching Apprenticeship**1-6 Credits**

Instructor apprenticeship in teaching university-level literacy-related classes. Each course should bear a qualifying subtitle. Maximum of 6 credits per semester and a maximum of 6 credits.

RDG 685. Advanced Internship K-12 Literacy**3 Credits**

Advanced internship in a professional position/research/application within K-12 schools and classes. Restricted to doctoral-level students of any major. Same as BIL 685.

RDG 698. Selected Topics in Literacy**1-6 Credits**

Offered under various subtitles that indicate the subject matter. Same as RDG 598.

RDG 699. Research Project**1-15 Credits**

Offered primarily for those pursuing the research requirement for the Ed.S. degree. Each research project will be designated by a qualifying subtitle.

RESP - RESPIRATORY THERAPY (RESP)

RESP 110. Respiratory Therapy I**3 Credits**

Introduction to basic respiratory care techniques. Includes history, professional organizations, medical gas administration, oxygen therapy, cardiopulmonary AP, patient assessments, and medical terminology.

Requires a C or better to remain in program. Restricted to: Community Colleges only. Restricted to DA-RESP-AA majors.

RESP 110 L. Respiratory Therapy I Lab**2 Credits**

Laboratory practice of basic respiratory care procedures. Requires a C or better to remain in program. Restricted to: Community Colleges only. Restricted to DA-RESP-AA majors.

RESP 115. Respiratory Therapy Pharmacology**3 Credits**

Concepts of physics as they apply to the physiology of the lungs.

Requires a C or better to remain in program. Restricted to: Community Colleges only. Restricted to DA-RESP-AA majors.

RESP 120. Respiratory Therapy II**4 Credits**

Advanced respiratory care techniques. Emphasis on airway management, aerosol treatment, chest physiotherapy, pharmacology, posture pressure breathing, and pulmonary rehabilitation. Requires a C or better to remain in program. May be repeated up to 4 credits. Restricted to Community Colleges campuses only.

Prerequisite(s): Admission to program and RESP 110.**Corequisite(s):** RESP 120 L.**RESP 120 L. Respiratory Therapy II Lab****2 Credits**

Continuation of lab practices and procedures learned in RESP 120, Respiratory Care II, using equipment and simulations. Requires a C or better to remain in program. Corequisite(s): RESP 120. Restricted to: Community Colleges only. Restricted to RESP majors.

Prerequisite(s): Admission to program, RESP 110, RESP 110L and RESP 112.**RESP 124. Respiratory Therapy II Clinical****3 Credits**

Supervised practice and application in a hospital setting. Requires a C or better to remain in program. Restricted to: Community Colleges only. Restricted to RESP majors.

Prerequisite(s): Admission to program, RESP 110, RESP 110L and RESP 112.**Corequisite(s):** RESP 120 and RESP 120L.**RESP 155. Respiratory Therapy Special Topics****1-4 Credits**

Topics to be announced in the Schedule of Classes. May be repeated for a maximum of 10 credits. Consent of instructor required. Restricted to: Community Colleges only. Restricted to RESP majors.

Prerequisite(s): Admission to program.

RESP 210. Respiratory Therapy III**2 Credits**

Introduction to adult, mechanical, neonatal ventilator theory and concepts of critical care medicine. Requires a C or better to remain in program. Restricted to: Community Colleges only. Restricted to RESP majors.

Prerequisite(s): Admission to program, and RESP 115, RESP 120, RESP 120L, and RESP 124.

Corequisite(s): RESP 210L.

RESP 210 L. Respiratory Therapy III Lab**2 Credits**

Advanced practice procedures using mechanical ventilation devices. Requires a C or better to remain in program. Restricted to: Community Colleges only. Restricted to RESP majors.

Prerequisite(s): Admission to program, and RESP 115, RESP 120, RESP 120 L, and RESP 124.

Corequisite(s): RESP 210.

RESP 224. Respiratory Therapy IV Clinical**3 Credits**

Continuation of RESP 124. Emphasis on mechanical ventilators. Requires a C or better to remain in program. Restricted to: Community Colleges only. Restricted to RESP majors.

Prerequisite(s): Admission to program, and RESP 115, RESP 120, RESP 120 L, and RESP 124.

RESP 230. Respiratory Therapy V**3 Credits**

Continuation of RESP 215. Emphasis on special modalities. Requires a C or better to remain in program. Restricted to: Community Colleges only. Restricted to DA-RESP-AA majors.

RESP 230 L. Respiratory Therapy V Lab**2 Credits**

Advanced practice and procedures of respiratory care. Requires a C or better to remain in program. Restricted to: Community Colleges only. Restricted to DA-RESP-AA majors.

RESP 233. Respiratory Therapy Cardiopulmonary**2 Credits**

Concepts of physics as they apply to the physiology of the lung. Emphasis on laws pertaining to gas flow, humidity, and the mechanics of the breathing process. Requires a C or better to remain in program. Restricted to: Community Colleges only. Restricted to DA-RESP-AA majors.

RESP 234. Respiratory Therapy V Clinical**3 Credits**

Continuation of RESP 214. Emphasis on special modalities. Restricted to: Community Colleges only. Restricted to DA-RESP-AA majors.

RESP 240. Respiratory Therapy VI**3 Credits**

Advanced theory of hemodynamics, neonate, pediatric, and new specialties that apply to respiratory care. Requires a C or better to remain in program. Restricted to: Community Colleges only. Restricted to RESP majors.

Prerequisite(s): Admission to program, and RESP 230, RESP 230L, RESP 233 and RESP 234.

Corequisite(s): RESP 240L.

RESP 240 L. Respiratory Therapy VI Lab**2 Credits**

Advanced laboratory practice and procedures. Requires a C or better to remain in program. Restricted to: Community Colleges only. Restricted to RESP majors.

Prerequisite(s): Admission to program, and RESP 230, RESP 230L, RESP 233 and RESP 234.

Corequisite(s): RESP 240.

RESP 242. Pediatric Advanced Life Support (PALS)**1 Credit**

Etiology, diagnosis, clinical manifestations, and management of cardiopulmonary disorders related to respiratory care. Restricted to majors.

Corequisite: RESP 230.

RESP 243. Respiratory Therapy Neonatal Resuscitation**1 Credit**

Advanced practice of the neonatal resuscitation and certification. Restricted to: Community Colleges only. Restricted to RESP majors.

Prerequisite(s): Admission to program and RESP 230, RESP 230L, RESP 233, and RESP 234.

Corequisite(s): RESP 240 and RESP 244.

RESP 244. Respiratory Therapy VI Clinical**3 Credits**

Clinical experience on special modalities. Requires a C or better to remain in program. Restricted to: Community Colleges only. Restricted to RESP majors.

Prerequisite(s): Admission to program, and RESP 230, RESP 230L, RESP 233 and RESP 234.

Corequisite(s): RESP 240.

RESP 255. Respiratory Therapy Special Topics**1-4 Credits**

Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 4 credits. Consent of instructor required. Restricted to: Community Colleges only. Restricted to RESP majors.

Prerequisite(s): Admission to program.

RGSC-RANGE SCIENCE (RGSC)

RGSC 150. Rangeland Science Profession**1 Credit**

Introduction to scientific disciplines and career opportunities in rangeland science and management.

RGSC 250. Special Topics**1-4 Credits**

Specific subjects and credits announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

RGSC 294. Rangeland Resource Management**3 Credits**

Overview of arid and semi-arid ecosystems in the US and abroad, rangeland plant physiology, ecology of rangeland plant communities and ecosystems, sustainable management for multiple uses including grazing livestock production, wildlife habitat, recreation and ecosystem services, and economics of rangeland-based enterprises. Restricted to: Main campus only.

RGSC 302V. Forestry and Society**3 Credits**

Global study of the development and use of forest resources for production of wood, fuel, fiber, and food products. Climatic, edaphic, cultural, and economic influences on forests of the world evaluated. Same as HORT 302V.

RGSC 316. Rangeland Plants**3 Credits (2+3P)**

Identification, classification, cultural uses, and economic importance of native and introduced rangeland plants.

RGSC 317. Rangeland Communities**3 Credits**

Rangeland associations and communities, their plant species composition, and ecological factors affecting management of communities.

RGSC 318. Watershed Management**3 Credits (2+2P)**

Management of rangeland and forest watersheds with emphasis on hydrologic cycle and land use effects on runoff and water quality.

RGSC 325. Rangeland Restoration Ecology**3 Credits**

Principles and practices of vegetation management and ecological restoration. Course emphasizes problems associated with rangeland degradation, and implementation of rangeland restoration and improvements.

Prerequisite(s): Sophomore standing or consent of instructor.

RGSC 350. Special Topics**1-4 Credits**

Specific subjects and credits announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

RGSC 357. Grass Taxonomy and Identification**3 Credits (1+4P)**

Taxonomy of grasses; grass anatomy, variation in reproductive structures, and identification of grasses by sight and through the use of dichotomous keys.

Prerequisite/Corequisite(s): Junior Standing or consent of the instructor.

RGSC 390. Internship**1-3 Credits**

Professional work experience under the joint supervision of the employer and a faculty member. A written report is required. No more than 3 credits toward a degree. Graded S/U.

Prerequisite: consent of instructor.

RGSC 402. Seminar**1 Credit**

Topics in range science. Oral and written reports.

Prerequisite: senior standing.

RGSC 406. Rangeland Team Competition**1 Credit**

Description and characteristics of range plants. May be repeated for a maximum of 4 credits.

RGSC 440. Rangeland Resource Ecology**3 Credits**

Plant adaptations to arid environments. Life histories of arid land plants. Biotic interactions among rangeland organisms. Arid land plant communities: their physiognomy, diversity, productivity, and response to disturbance. Arid land ecosystem dynamics.

Prerequisite(s): Senior standing.

RGSC 440 L. Rangeland Resource Ecology Lab**1 Credit**

Living and nonliving factors of the range environment, the life forms and role of range plants and animals on succession and interactions in range ecosystems. Corequisite(s): RGSC 440.

RGSC 448. Problems**1-4 Credits (1-4)**

Individual investigation in a specific area of range science. Maximum of 4 credits per semester and a grand total of 6 credits. Consent of Instructor required.

RGSC 452. Vegetation Measurements for Rangeland Assessment**4 Credits (2+4P)**

Sampling principles, sampling design, and measurement methods used to quantify vegetation attributes and to assess the structure and function of rangeland ecosystems. Laboratory emphasizes practical field techniques, quantitative analysis, and interpretation of results.

Prerequisite(s): RGSC 294 and A ST 311.

RGSC 458. Livestock Behavior, Welfare and Handling**3 Credits (2+3P)**

Principles of animal behavior and evaluation of management practices on animal welfare in confined and rangeland livestock operations. Low stress livestock handling techniques. Design of livestock handling facilities. Crosslisted with: ANSC 458

Prerequisite(s): RGSC 294 or ANSC 100.

RGSC 460. Rangeland and Natural Resource Planning and Management**4 Credits (3+3P)**

Planning and problem solving in rangeland and natural resource management. Public land planning and policy. Application of land management principles to resolve rangeland, riparian and habitat issues.

Prerequisite(s): Senior or graduate student standing.

RGSC 509. Approaches to Rangeland Research**3 Credits**

Experimental design and statistical analysis of experimental results.

Prerequisite(s): A ST 505 or consent of instructor.

RGSC 513. Advanced Rangeland Ecology**3 Credits**

Overview of the current state of knowledge in selected areas of rangeland ecology, with emphasis on currently developing ideas and issues relevant to rangeland management.

Prerequisite(s): RGSC 440 or equivalent.

RGSC 515. Graduate Seminar**1 Credit**

Current topics. Graded S/U.

RGSC 516. Arid Land Management**3 Credits**

Survey of seminal and current literature dealing with management of arid and semiarid lands including soil-plant-animal interactions, plant community ecology, arid land assessment methods, and arid land hydrology.

RGSC 518. Watershed Methods and Management**3 Credits**

Management of rangeland and forest watersheds with emphasis on the hydrologic cycle and land use effects on runoff and water quality. Hydrologic monitoring methods problem sets required for graduate credit.

RGSC 520. Arid Land Plant Herbivore Interactions**3 Credits**

Survey of seminal and current literature dealing with plant- and animal-related factors that influence herbivory patterns in arid landscapes. Although ungulate herbivory is a central focus of the course, the role of plant defenses in deterring both vertebrate and invertebrate herbivores is discussed in detail.

RGSC 525. Advanced Rangeland Restoration Ecology**3 Credits**

Principles and practices of vegetation management and ecological restoration. Course emphasizes problems associated with rangeland degradation, and implementation of rangeland restoration and improvements. Research paper required for graduate credit.

RGSC 550. Special Topics**1-4 Credits**

Specific subjects to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree.

RGSC 557. Advanced Grass Taxonomy and Identification**3 Credits**

Taxonomy of grasses; grass anatomy, variation in reproductive structures, and identification of grasses by sight and through the use of dichotomous keys. Additional writing and grass identification assignments are required for graduate credit.

RGSC 598. Special Research Program**1-4 Credits**

Individual investigations, either analytical or experimental. Maximum of 4 credits per semester. No more than 6 credits toward a degree. Consent of Instructor required.

RGSC 599. Master's Thesis**15 Credits**

Thesis. Consent of Instructor required. Thesis/Dissertation Grading.

RGSC 600. Doctoral Research**1-15 Credits**

Research. Consent of Instructor required. Thesis/Dissertation Grading.

RGSC 616. Advanced Arid Land Management**3 Credits**

In depth discussion of seminal and current literature dealing with management of arid and semiarid lands including land tenure systems, soil-plant-animal interactions (emphasis on livestock grazing), plant community ecology and assessment methods, and arid land hydrology.

RGSC 620. Advanced Arid Land Plant-Herbivore Interactions**3 Credits**

In depth discussion of seminal work dealing with plant- and animal-related factors that influence herbivory patterns in arid landscapes. Although ungulate herbivory is a central focus of the course, the role of plant defenses in deterring both vertebrate and invertebrate herbivores is discussed in detail.

RGSC 698. Special Research Programs**1-4 Credits (1-4)**

Advanced individual investigations, either analytical or experimental. Maximum of 4 credits per semester. No more than 6 credits toward a degree. Consent of Instructor required.

RGSC 700. Doctoral Dissertation**15 Credits**

Dissertation. Consent of Instructor required. Thesis/Dissertation Grading.

RXPP-PRESCRIP PRIV PRAC PSYCH (RXPP)

RXPP 601. Introduction to Psychopharmacology for Psychologists I**3 Credits**

This course is an introduction to physiology and an overview of gross and microanatomy, with a focus on gross, micro, and chemical anatomy of the nervous system. By the end of the course, psychologists will have an up-to-date understanding of human psychology, anatomy, and neuroanatomy. Doctorate of Psychology required. Restricted to: RXPP majors.

RXPP 602. Introduction to Psychopharmacology for Psychologists II**3 Credits**

Principles of organic chemistry and human biochemistry necessary for the understanding of psychopharmacology are discussed and related to the major transmitter systems and dynamics of transmission. By the end of the course, students will have an up-to-date understanding of biochemistry on which to base further didactic study in psychopharmacology. Doctorate of Psychology required. Restricted to: RXPP majors.

RXPP 603. Clinical Psychopharmacology I**3 Credits**

This course begins with an introduction to the scope of pharmacology; pharmacoepidemiology, ethical, and legal issues (informed consent, State and Federal regulation of drugs and prescribing, sources of drug information and computer aids) and continues with the principles of pharmacokinetics and pharmacodynamics as they relate to the use of psychotropic medications. It concludes with an introduction to the treatment of anxiety disorders from a biopsychosocial model of care with special emphasis on psychopharmacology for anxiety disorders. Doctorate in Psychology required. Restricted to: RXPP majors.

RXPP 604. Clinical Psychopharmacology II**3 Credits**

This course is a thorough investigation of the diagnosis and treatment of affective disorders from a biopsychosocial model of care. Particular emphasis is given to psychopharmacological treatment of depressive disorders and bipolar disorders. Doctorate in Psychology required. Restricted to: RXPP majors.

RXPP 605. Clinical Psychopharmacology III**3 Credits**

This course is an intensive study of the treatment of psychosis from a biopsychosocial model of care. Special consideration is given to: first, second, and third generation antipsychotic drugs and their pharmacology and clinical uses; neurological and metabolic disorders associated with antipsychotic use; and appropriate use of antipsychotics in children and the elderly. Special attention is then given to child and adolescent psychopharmacology, including drugs used in pregnancy and lactation, teratogenicity, embryotoxicity, developmental disorders, conduct disorders, ADHD, and special considerations in use of approved drugs in children. Doctorate in Psychology required. Restricted to: RXPP majors.

RXPP 606. Pathophysiology for Psychologists I**3 Credits**

This course is an introduction to human clinical physical assessment, history taking, charting, and laboratory testing and neuroimaging. An important emphasis is in functional neuroanatomy and diagnosis and assessment of neurological disorders; role of different components of human nervous system in health and disease; stroke, seizures, and movement disorders (chorea, athetosis, dystonias, dyskinesias, Parkinsonism, akathisia, iatrogenic neurological disorders). Doctorate in Psychology required. Restricted to: RXPP majors.

RXPP 607. Pathophysiology for Psychologists II**3 Credits**

Physical assessment and pathophysiology of the cardiovascular system is studied in depth: structure and function of the heart and major blood vessels; innervation of the heart and vessels; electrocardiogram; components of blood; lymphatics; and physical assessment of cardiac function. The physical assessment and pathophysiology of eyes, ears, nose, and the immune system are studied in depth; anatomy and physiology of special senses; assessment of cranial nerves and sensory function; immune function and psychoimmunology. The physical examination and pathophysiology of the chest and pulmonary system and its relationship to the cardiac system is also studied. Doctorate in Psychology required. Restricted to: RXPP majors.

RXPP 608. PSYCH PATHOPHYS III**3 Credits**

This course continues with an in-depth study of the chest and pulmonary system: pulmonary function and assessment; respiratory exchange and respiratory involvement in acid: base regulation, disorders of respiratory function. The physical assessment of pathophysiology of the gastrointestinal system is discussed in depth: digestion, absorption and excretion of drugs and nutrients from the GI system; disorders of GI function; hepatic function; innervation of GI tract; endocrine and exocrine functions of GI system; physical assessment of GI function. The functions and pathophysiology of the male and female reproductive system, endocrine system, and renal system are discussed as they relate to psychopharmacology. Doctorate of Psychology required. Restricted to: RXPP majors.

RXPP 609. Psychopharmacological Treatment in Special Populations I**3 Credits**

The psychopharmacology of several special populations are discussed in detail in this course. Geriatric psychopharmacology includes: geriatric physiology; cardiac, renal, hepatic changes with aging; pharmacokinetics/dynamics in the elderly; cognition enhancers in Alzheimer's and other dementias. Special treatment of personality disorders, eating disorders, the importance of racial, ethnic, and gender differences and culturally sensitive practice is presented with applications. Pain management psychopharmacology is over-viewed, including: pharmacology of opioid and non-opioid analgesics; pain syndromes; acute and chronic pain; headache; pharmacological and non-pharmacological approaches to pain management; pharmacology and actions of abused substances: acute effects, withdrawal, biochemistry of tolerance and dependence, brain central reward pathways. Doctorate in Psychology required. Restricted to: RXPP majors.

RXPP 610. Psychopharmacological Treatment in Special Populations II**3 Credits**

The pathophysiology and treatment of substance use disorders from a biopsychosocial model is presented. Issues of medical comorbidity are studied: psychopharmacological treatment in the medically compromised patient, including case studies and review of comprehensive treatment models; mental disorders due to a general medical condition and/or adverse drug reactions; and referral practices to specialists. Diagnostic rating scales and psychiatric instruments of use to the prescribing psychologist are presented. The course ends with an integration of psychotherapy and pharmacotherapy, including ethical issues such as the right to refuse treatment, treatment compliance/adherence, risk management, and the role of the medical psychologist in the modern, integrated healthcare system. Doctorate in Psychology required. Restricted to: RXPP majors.

RXPP 611. Supervised Experience in Psychopharmacology I**1-3 Credits (1-3)**

In this applied course, students employ their knowledge of psychopharmacology in treatment setting. Students will participate in the treatment of 50 patients for a minimum of 200 hours under the supervision of a physician. Number of credits taken to be determined in consultation with RXPP Training Director. Maximum of 3 credit hours required by degree program. Doctorate in Psychology required. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: RXPP majors. S/U Grading (S/U, Audit).

RXPP 612. Supervised Experience in Psychopharmacology II**1-3 Credits (1-3)**

Continuation and completion of supervised experience in RXPP 611. Students will participate in the treatment of 50 additional patients for a minimum of 200 hours under the supervision of a physician. The RXPP 611/612 sequence must be completed no sooner than three months and no later than three years from initiation. Number of credit hours taken to be determined in consultation with RXPP Training Director. Maximum of 3 credit hours required by degree program. Doctorate in Psychology required. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: RXPP majors. S/U Grading (S/U, Audit).

S WK-SOCIAL WORK (S WK)

S WK 221G. Introduction to Social Welfare**3 Credits**

A broad overview of current social problems and the role of social agencies and community members in addressing these problems.

S WK 251. Women s Issues in Social Work**3 Credits**

Examines gender-specific social problems and their identification and resolution through the use of social agencies and community resources. Community Colleges only.

S WK 253. Case Management**3 Credits**

Introduction to case management for social- and human-services workers. Overview of typical duties and responsibilities of a case manager, including setting goals, performing assessments, writing progress notes, and linking clients with other resources in the community. Recommended for students considering a career in social work or human services. Community Colleges only.

Prerequisites: PSY 201G and S WK 221G.

S WK 300. Social Work Practice Skills**3 Credits**

Introduction to generalist social work practice. Interpersonal skills, values, and ethics required in the helping relationship. Taught in a small-group format. May be repeated up to 3 credits. Restricted to: S WK majors. Restricted to Las Cruces campus only.

S WK 301. Orientation to Field**1 Credit**

This course will provide an orientation to requirements for a social work field practicum and to establish the transfer of learning between classroom instruction and future practicum skill application. Restricted to S WK majors.

Corequisite(s): S WK 300.

S WK 309. Sociocultural Concepts**3 Credits**

Theoretical and sociohistorical perspectives on racism, sexism, ageism, heterosexism, classism, ableism, and other forms of discrimination and oppression. Cultural diversity, strengths, and Southwest and border issues are examined.

S WK 311. Human Behavior and the Social Environment I**3 Credits**

Major theories of human behavior and the life span from conception to adolescence. Restricted to: S WK majors.

Corequisite(s): S WK 309.

S WK 312. Human Behavior and the Social Environment II**3 Credits**

Continuation of S WK 311. Major theories of human behavior and the life span from young adulthood through old age. Restricted to: S WK majors.

Prerequisite(s): S WK 311.

S WK 313. Social Work Practice with Individuals**3 Credits**

Generalist social work practice theory and skills in engagement, information gathering, assessments, planning, interventions, evaluation, and termination with individual client systems. Restricted to: S WK majors.

Prerequisite(s): S WK 300.

S WK 315. Social Work Practice with Families**3 Credits**

Generalist social work practice theory and skills in engagement, information gathering, assessments, planning, interventions, evaluation, and termination with multicultural family systems. Restricted to: S WK majors.

Prerequisite(s): S WK 300.

Corequisite(s): S WK 313.

S WK 316. Social Work Research**3 Credits**

This undergraduate course is designed to prepare students to be effective consumers of research and to evaluate their own practice. Students will learn to read, critically evaluate and use the research of others to select interventions that are based on evidence of effectiveness. Students will demonstrate the knowledge, values and skills to be critical consumers of research for effective and ethical practice as well as possess the basic skills necessary to evaluate their own social work professional practice. May be repeated up to 3 credits. Restricted to: Restricted to Social Work majors.

Prerequisite(s): STAT 251G, STAT 271G or A ST 251G.

S WK 331V. Introduction to Social Policy: History**3 Credits**

Historical overview of the economic, political, and cultural impact on social welfare policy, institutions, and professions with international content.

S WK 401. Field Experience I**3 Credits**

This course is a social work practicum at a university approved agency. This course focuses on generalist social work practice. At this level students are expected to assume substantive responsibility for carrying out social work activities at the beginning level of social work practice. • Students are given the opportunity to observe and assume social work activities in direct and indirect practice under close supervision. • These field work opportunities enable students to apply and integrate previous and current semester learning. • Opportunities will be available for students to develop knowledge of professional practice at multiple system levels and with a variety of cultural, ethnic, racial, gender and age groups. • Students in this Field Practicum Course are required to take a Field Seminar that will provide the students the opportunity to discuss the integration of academic and practice experience learning. Restricted to: S WK majors. S/U Grading (S/U, Audit).

Corequisite(s): S WK 412.

S WK 403. Social Work Practicum II**3 Credits**

This course is a social work practicum at a university approved agency. This course focuses on generalist social work practice. At this level students are expected to assume substantive responsibility for carrying out social work activities at the beginning level of social work practice. • Students are given the opportunity to observe and assume social work activities in direct and indirect practice under close supervision. • These field work opportunities enable students to apply and integrate previous and current semester learning. • Opportunities will be available for students to develop knowledge of professional practice at multiple system levels and with a variety of cultural, ethnic, racial, gender and age groups. • Students in this Field Practicum Course are required to take a Field Seminar that will provide the students the opportunity to discuss the integration of academic and practice experience learning. Restricted to: S WK majors.

Corequisite(s): SWK 419.

S WK 405. Service Learning**3 Credits**

This course introduces students to field work as an essential component of social work education. Students are required to provide a minimum of 40 hours of service to a human services agency. This course will focus on the connection between coursework, field work, the NASW Code of Ethics and skills needed to work with people.

Prerequisite(s): S WK 301, S WK 313.

S WK 412. Practicum Seminar I**3 Credits**

This practicum seminar course must be taken with SWK 401 to provide students who are enrolled in the field practicum course the opportunity to discuss and reflect on social work knowledge, values and skills as they interact with clients in their practicum placement. • Students will have an opportunity to present a case and discuss how they are able to integrate the nine social work competencies • The seminar will provide opportunities to integrate previous and current semester learning.

Restricted to: S WK majors. S/U Grading (S/U, Audit).

Corequisite(s): S WK 401.

S WK 415. Generalist Social Work Practice with Organizations and Communities

3 Credits

This course focuses on generalist social work values, knowledge and skills regarding practice with larger systems. Course content will include theories of community and organizational assessment and intervention. Strategies for advocacy and change, leadership for community and organizational change. May be repeated up to 3 credits.

Prerequisite(s): S WK 300, S WK 313, S WK 315.

Corequisite(s): S WK 417.

S WK 416. Generalist Social Work Practice with Groups

3 Credits

Generalist social work practice skills with group client systems focusing on the planned change process and the empowerment of oppressed populations. May be repeated up to 3 credits. Restricted to: S WK majors.

Prerequisite(s): SWK 415.

S WK 417. Social Welfare Policy: Legislation

3 Credits

Policy practice related to the formation of current social welfare policies that promote social and economic justice. Emphasis is on the development and influences of social policy, policy analysis, and the policy change process. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: S WK majors.

S WK 418. Professionalism in the Field of Social Work

3 Credits

This course is designed to prepare you to develop professional skills, knowledge, awareness and boundaries as a social worker as you get ready to enter the field practicum. May be repeated up to 3 credits.

Restricted to: S WK majors.

Corequisite(s): S WK 419.

S WK 419. Practicum Seminar II

3 Credits

This practicum seminar course must be taken with S WK 403 to provide students who are enrolled in the field practicum course the opportunity to discuss and reflect on social work knowledge, values and skills as they interact with clients in their practicum placement. • Students will have an opportunity to present a case and discuss how they are able to integrate the nine social work competencies • The seminar will provide opportunities to integrate previous and current semester learning. May be repeated up to 3 credits. Restricted to: S WK majors. S/U Grading (S/U, Audit).

Corequisite(s): S WK 403.

S WK 443. Family and Child Welfare Practice

3 Credits

Current issues and interventions in child protection, foster care, family preservation and support, family reunification, adoption and permanency planning. Cannot receive credit for S WK 443 and M SW 543.

S WK 447. Identifying Mental Health Concerns

3 Credits

This course is designed to advance students' knowledge and professional skills for addressing mental health concerns in social work practice at the bachelor's level. Students will learn to identify major mental health concerns across the life span. Culturally competent practices are considered in regard to various mental health concerns. Restricted to: SWK majors.

S WK 449. Independent Study

1-6 Credits

Individual studies directed by consenting faculty with the prior approval of the department head.

Prerequisite: majors or consent of instructor.

S WK 490. Family and Child Welfare Policy

3 Credits

This course is designed to provide students with an understanding of the history and evolution of child welfare policies, initiatives and factors that influence advocacy and practices within the child welfare system. Child welfare policies and services specific to the state of New Mexico are infused throughout the course. Taught with MSW 590. Students enrolled in S WK 490 will not receive credit MSW 590. Students enrolled in S WK 490 will not receive credit MSW 590.

S WK 497. Special Topics

3 Credits

Specific subjects to be announced in the Schedule of Classes. May be used as a mandatory practice elective. Restricted to: S WK majors.

Prerequisite(s): Junior or above standing, majors or consent of instructor.

SMET-SCIENCE/MATH/ENG/TECH (SMET)

SMET 101. Introduction to Science, Mathematics, Engineering, and Technology

1 Credit

An introductory course for science, mathematics, engineering, or technology students, emphasizing introduction to their disciplines. Development of critical thinking and academic success skills for technical disciplines, as well as degree planning for the major. Consent of Instructor required.

SMET 102. Introduction to Engineering Design.

1 Credit

Fundamental concepts of engineering design developed through analysis of case studies and hands-on design projects. Consent of instructor required.

SMET 201. Research for Visiting Community College Students

1 Credit

Research experience for visiting community college students. Consent of instructor required. Restricted to: Main campus only.

SMET 301. Undergraduate Research Assistantship

0.5 Credits

Undergraduate research experience in science, technology, engineering, and mathematics. Consent of instructor required. Graded: S/U.

SOC-SOCIOLOGY (SOC)

SOC 101G. Introductory Sociology

3 Credits

Introduction to social theory, research, methods of analysis, contemporary issues in historical and cross-cultural contexts. Covers groups, deviance, inequality, family, gender, social change, and collective behavior.

SOC 201G. Contemporary Social Problems**3 Credits**

Introduction to the fundamentals of social analysis through the analysis of contemporary American social problems. Emphasis on methods of analysis and cross-national comparisons showing that the social problems studied are common to all societies. Covers racism, violence, poverty, crime, health care, and substance abuse.

SOC 258. Current Issues in Marriage and Family**3 Credits**

Examination of contemporary American family life, including courtship, marriage, divorce, and child rearing. Community Colleges only.

SOC 262. Issues in Death and Dying**3 Credits**

Major personal and social issues related to the process of dying in our culture. Community Colleges only.

SOC 263. Human Sexuality**3 Credits**

Introduction to cultural and personal aspects of human intimacy, sexuality and the life cycle, sexual variation, and sexually transmitted diseases. Community Colleges only.

SOC 269. Sexualities and Society**3 Credits**

Examines various sexualities from a sociological perspective. Topics include sexual identity, intimate relationships, sexual desire, sexual behavior, the sex industry, and the politics of sexuality. Discussion of selected topics is grounded in both macro and micro sociological viewpoints. Restricted to: Main campus only.

SOC 273. Sex and Gender**3 Credits**

Analysis of changes, behaviors, and stereotypes of women and men in contemporary Western societies. Same as W S 273.

SOC 330V. Introduction to Religious Studies**3 Credits**

Provides an overview of old and new methods and theories for the study of religion. Exposure to the ways groups of people in diverse cultural systems construct and change their religious traditions to serve practical and meaningful ends. Same as ANTH 330V and HIST 330V.

SOC 336V. Sociology of Pop Culture**3 Credits**

This course will provide students with a sociological look at creation, distribution, and effects of popular culture that have shaped, preserved, and conveyed distorted images of social class, race, gender and history to unwary consumers.

SOC 350. Sociological Foundations**3 Credits**

Focus is on becoming a sociologist including career opportunities, thinking critically about society, and conducting sociological inquiry. Emphasis is on identifying and using resources available to sociologists, communication skills for sociologists and acquisition of basic analytic techniques. Restricted to BA Sociology majors.

Prerequisite(s): SOC 101G or consent of instructor.

SOC 351. Sociological Theory**3 Credits**

Analysis of the main historical themes underlying contemporary sociological theory. May be repeated up to 3 credits.

Prerequisite(s): SOC 101G.

SOC 352. Social Research: Methods**3 Credits**

An introduction to research design and data collection strategies commonly employed in the social sciences. Topics include experiments, survey research and various other quantitative and qualitative methods. May be repeated up to 3 credits.

Prerequisite(s): SOC 101G.

SOC 353. Sociological Research: Analysis**3 Credits**

Elementary data analysis class emphasizing descriptive and inferential statistical techniques commonly employed in the social sciences. Topics range from one variable analysis through regression and correlation analysis of two variables. May be repeated up to 3 credits.

Prerequisite(s): SOC 101G.

SOC 357. Gender and Society**3 Credits**

Overview of issues related to gender, including how gender is constructed and reproduced in our society. Gender is examined from social psychological and institutional perspectives. Same as W S 357.

SOC 359. Sociology of the Family**3 Credits**

Family patterns, dynamics, and processes in North American and other contemporary families. Emphasis on diversity.

SOC 360V. Introduction to Population Studies**3 Credits**

Determinants and consequences of changes in fertility, mortality and migration patterns. Introduction to techniques of demographic analysis. Focus on U.S. and world population issues and their relation to social, cultural, and economic systems.

SOC 361V. Social Issues in the Rural Americas**3 Credits**

Same as ANTH 361V.

SOC 362. Urban Society in a Global World: Problems, Prospects, and Promises**3 Credits**

Identification and analysis of the causes and consequences of social issues in urban environments including poverty, crime, terrorism, urban social policy, suburban flight, disinvestment, and deindustrialization. Special emphasis on global forces affecting global urban environments around the world.

SOC 365. Environmental Sociology**3 Credits**

Societal responses to environmental problems including social adjustments to natural and technological hazards, socio-cultural aspects of technological risk and impact assessment, and emergence of environmental social movements.

SOC 371. Race and Ethnic Relations**3 Credits**

Dynamics of racial prejudice and patterns of racial and ethnic interaction in the United States.

SOC 374V. Comparative Family Systems**3 Credits**

A comparative analysis of family forms and characteristics in various societies. An examination of the diversity of family practices among ethnic and class groups in the United States. Same as W S 374G.

SOC 375. Social Inequality**3 Credits**

Analysis of the social distinctions arising from sex, age, occupation, and ethnicity. Emphasis on indicators of social class and patterns of social mobility.

SOC 376V. Social Change**3 Credits**

Explanations of autonomous and directed social change as occurring at the individual, organizational, societal, and international levels. Case studies from around the world.

SOC 381. Individual and Society**3 Credits**

Ways people influence each other and the mutual interaction of the individual and society. Topics include attitudes, attitude change, conformity, liking and friendship patterns.

SOC 390. Sociology of Childhood**3 Credits**

This course examines theories, methods, and empirical research in several areas of the sociology of childhood. Major themes are: (1) how social structure constrains children's lives, (2) how children negotiate, share, and create culture, and (3) how children's experiences vary within and across societies.

SOC 391. Crime and Society**3 Credits**

Analysis of crime at the interpersonal, organizational, and social structure levels in society. Exploration of contemporary images of crime in mass media. Examination of connections between race, class, gender, and crime in U.S. society.

SOC 392. Juvenile Delinquency**3 Credits**

Nature, extent, and causes of juvenile delinquency; juvenile justice; modern methods of treatment; programs of prevention.

SOC 393. Youth and Society**3 Credits**

Comparative historical analysis of social, economic and cultural forces affecting young people. Emphasis on organizational and institutional effects on the well being of children and young adults.

SOC 394V. Sports and Society: A Global Perspective**3 Credits**

A critical examination of sports in a global context, emphasizing the social and cultural factors that shape the world of sports and the consequences of sports for societies. Course examines issues of social inequality, violence, media and corporate influence, religion and sports, and the student-athlete experience.

SOC 401. Introduction to Sociological Practice**3 Credits**

The application of sociological theory and research method. May be taught as service learning course. May be repeated up to 3 credits. Restricted to: SOC majors.

Prerequisite(s): SOC 101G, senior standing or consent of instructor.

SOC 409. COMMUNITY DEVELOPMENT**3 Credits**

This is a holistic view of community development with an emphasis upon how economic development efforts can become more inclusive and sustainable. Topics include examining what 'community' means, community development versus economic development, and alternative economic activities.

Prerequisite(s): SOC 101G.

SOC 430. Social Movement Theory**3 Credits**

Overview of key theories in past and present social movement research. Includes a focus on rational or spontaneous choice theories, resource mobilization, and new social movement theories. Theoretical perspectives focus on analyses of case studies including women's movement, civil rights, and environmental movements.

SOC 448. Special Topics**3 Credits**

Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

SOC 449. Directed Readings**1-3 Credits**

Individual readings or research for either majors or nonmajors. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

SOC 457. Gender, Science, and Technology**3 Credits**

How gender, science and technology are interrelated social constructions. Science and technology are examined as social institutions. Explanations for different rates of participation based on race, class and gender are explored. Same as: W S 467.

SOC 458V. Comparative Global Family Systems**3 Credits**

The study of families around the world. The comparison will include how capitalism and power differentials have affected the course of family history, gender relations, and family life today.

SOC 459. Advanced Issues in Sex and Gender**3 Credits**

Comprehensive examination of current gender identity and gender stratification issues. Same as W S 459.

SOC 460. Sociology of Religion**3 Credits**

Examination of religion in its social context to understand the intricate relations of religion, culture and U.S. society. Recommended preparatory courses: SOC 101G, SOC 273, SOC 376, ANTH 125G.

SOC 464. Human Society and the Environment**3 Credits**

This course explores the relationship between human societies and the natural environment, with an emphasis on both sustainable human and environmental relationships.

Prerequisite(s): SOC 101G.

SOC 465V. Environmental Sociology**3 Credits**

Advanced examination of societal responses to environmental problems including social adjustments to natural and technological hazards, sociocultural aspects of technological risk and impact assessment, and emergence of environmental social movements.

SOC 470. Sociology of Latinos/as in the United States**3 Credits**

In-depth examination and comparative analysis of political and economic issues affecting Latino/a culture and behavior. Includes the Chicano/a and larger Latino/a movements, the border, immigration, language policies, education, religion, labor, and Latina women's issues. Recommended preparatory courses: SOC 101G, SOC 270, SOC 371, or HIST 367.

SOC 471. Advanced Race and Ethnic Relations**3 Credits**

In-depth analysis of the dynamics of prejudice, discrimination, and patterns of intergroup interaction in the U.S.

SOC 473. INTERNATIONAL MIGRATION**3 Credits**

This course examines international migration as a social process, focusing on the American experience. Students will examine historical and comparative literature on immigration that puts contemporary questions about policy and immigrant assimilation into a broader sociological perspective.

Prerequisite(s): SOC 101G.

SOC 474. Sociology of Organizations**3 Credits**

Sociological models of formal organizations relevant to business, education, government, healthcare, military, and religion. Focus on internal organizational structure and dynamics plus the reciprocal relationship between organizations and their operating environment.

SOC 477. Sociology of Education**3 Credits**

Socio-political and economic factors that shape the structure and operation of educational institutions in modern complex societies. Socio-historical development of the school as a microcosm of society, with examples from American and other school systems.

SOC 479. Sociology Perspectives on the U.S.-Mexico Border**3 Credits**

Theoretical perspectives and current research on the U.S.-Mexico border region, including topics such as migration, identity, health, gender, and environment.

SOC 480. Diversity in Alternative Families**3 Credits**

Cross-cultural examination of diversity among and within families: analysis of family diversity includes consideration of the theoretical frameworks, ideological commitments, personal experiences, and methodological approaches to examine family life.

SOC 481. Social Deviance**3 Credits**

Theoretical approaches to the study of social deviance with emphasis on critical theories. Exploration of forms of deviance in society. Examination of social construction of deviance within mass media and systems of social control.

SOC 482. Advanced Individual and Society**3 Credits**

Examines reciprocal relationship between individual and society. Topics include socialization, social influence and persuasion, group structure and performance, altruism, aggression, interpersonal attraction, group cohesion and conformity, and inter-group conflict.

SOC 486. Power and Politics in America**3 Credits**

This course provides an introduction to the study of Political Sociology with a focus on the United States. Political Sociology studies the social bases of politics and political systems and facilitates the understanding of the processes and consequences of power distributions in the United States.

Prerequisite(s): SOC 101G.

SOC 489. Globalization**3 Credits**

Analysis of the globalization process. Covers theories of globalization, the global economy, political globalization, global culture, transnational social movements, transnational migration and world labor market, global cities, and local-global linkages. Same as GOVT 469.

SOC 491. Criminological Theory**3 Credits**

Schools of thought, contrasting approaches, and contemporary efforts in theory construction relevant to adult and juvenile offenders.

SOC 496. Internship**1-6 Credits**

Supervised participation in an appropriate community setting. Taught with SOC 596. May be repeated up to 9 credits. Consent of Instructor required. S/U Grading (S/U, Audit).

SOC 501. Perspectives on Sociology**3 Credits**

Overview of the field, subfields, and faculty available for students at NMSU. Emphasis on theories and research currently being developed in the Sociology program. Graded: S/U. May be repeated up to 3 credits. Restricted to: Soc majors. S/U Grading (S/U, Audit).

SOC 509. Advanced Seminar in Community Development**3 Credits**

This is in an advanced seminar addressing a holistic view of community development with an emphasis upon how economic development efforts can become more inclusive and sustainable.

Prerequisite(s): Graduate student standing.

SOC 530. Advanced Social Movement Theory**3 Credits**

Overview of key theories in past and present social movement research. Topics include a focus on rational or spontaneous choice theories, resource mobilization, and new social movement theories. Theoretical perspectives focus on analysis of case studies including women's movement, civil rights, and environmental movements.

SOC 548. Graduate Special Topics**3 Credits**

Specific subjects to be announced in the Schedule of Classes.

SOC 549. Special Research Problems**1-3 Credits**

Individual analytic or experimental investigations. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

SOC 551. Issues in Advanced Quantitative Analysis**3 Credits**

Advanced methods of sociological analysis are examined in detail. Restricted to: SOC majors.

SOC 552. Seminar in Classical Social Theory**3 Credits**

Analysis of classical social thought within the discipline. Restricted to: SOC majors.

SOC 553. Seminar in Sociological Research**3 Credits**

Exploration of research methods, issues, and practical application. May be repeated up to 3 credits. Restricted to: Soc majors.

SOC 558. Seminar: Sociology of the Family**3 Credits**

The family in various societies; evolution of the American family.

SOC 559. Graduate Seminar in Sex and Gender**3 Credits**

Comprehensive examination of current gender identity and gender stratification issues. Same as W S 559.

SOC 560. Advanced Sociology of Religion**3 Credits**

Examination of religion in its social context to understand the intricate relations of religion, culture and U.S. society.

SOC 564. Seminar in Human Society and the Environment**3 Credits**

This is an advanced seminar exploring the relationship between human societies and the natural environment, with an emphasis on both sustainable human and environmental relationships.

Prerequisite(s): Graduate Student Status.

SOC 565. Advanced Environmental Sociology**3 Credits**

Advanced examination of societal responses to environmental problems including social adjustments to natural and technological hazards, sociocultural aspects of technological risk and impact assessment, and emergence of environmental social movements.

SOC 569. Advanced Issues in Sexualities**3 Credits**

Various issues in sexualities are addressed through a wide range of theoretical and empirical sociological literatures that involve quantitative and qualitative data. Advanced examination of the ways in which sexuality is constituted in local, cultural and institutional environments.

SOC 570. Advanced Sociology of Latinos/as in the United States**3 Credits**

In-depth examination and comparative analysis of political and economic issues affecting Latino/a culture and behavior. Topics include the Chicano/a and larger Latina/o movements, the border, immigration, language policies, education, religion, labor and Latina women's issues.

SOC 571. Advanced Race and Ethnic Relations**3 Credits**

In-depth analysis of the dynamics of prejudice/discrimination and patterns of intergroup interaction in the U.S.

SOC 572. Advanced Sociology of Medical Ethics**3 Credits**

Major issues in the roles and relationships of health care providers and consumers, problems in communication, malpractice, patients rights, and ethics. Taught with SOC 472 with additional work required at the graduate level.

SOC 574. Sociology of Organizations**3 Credits**

Sociological models of formal organizations relevant to business, education, government, healthcare, military, and religion. Focus on internal organizational structure and dynamics plus the reciprocal relationship between organizations and their operating environment.

SOC 575. Graduate Social Stratification**3 Credits**

Advanced examination of theories of stratification and current methods of stratification research. Focus on differences by ethnicity, race, class and gender.

SOC 577. Advanced Sociology of Education**3 Credits**

Socio-political and economic factors that shape the structure and operation of educational institutions in modern complex societies. Socio-historical development of the school as a microcosm of society, with examples from American and other school systems.

SOC 578. Advanced Sociology of Development and the World System**3 Credits**

Sociological approach to development and the global system. Theories of development, and underdevelopment; world poverty/inequality; Latin America; Africa and Asia in comparative perspectives; transnational borders/U.S.-Mexico border; current topics. Same as GOVT 577.

SOC 579. Advanced Sociological Perspectives on the U.S.-Mexico Border**3 Credits**

Theoretical perspectives and current research on U.S.-Mexico border region, including migration, identity, health, gender, and environment.

SOC 580. Diversity in Alternative Families**3 Credits**

Cross-cultural examination of diversity among and within families: analysis of family diversity includes consideration of the theoretical frameworks, ideological commitments, personal experiences, and methodological approaches to examine family life.

SOC 582. Individual and Society**3 Credits**

Examines reciprocal relationship between individual and society. Topics include socialization, social influence and persuasion, group structure and performance, altruism, aggression, interpersonal attraction, group cohesion and conformity, and intergroup conflict.

SOC 583. Symbolic Interaction**3 Credits**

Examination of the interaction of self and the social order including society as process, the negotiation of social order, identity as a social product, role taking and the situated self, the social construction of reality with an emphasis on phenomenology and ethnomethodology.

SOC 586. Advanced Seminar in Power and Politics in the United States**3 Credits**

This is an advanced seminar addressing the study of Political Sociology with a focus on the United States. Political Sociology studies the social bases of politics and political systems. It facilitates an understanding of the processes and consequences of power distributions in the United States.

Prerequisite(s): Graduate student standing.

SOC 587. Advanced International Migration**3 Credits**

This course examines international migration as a social process, focusing on the American experience. Students will examine historical and comparative literature on immigration that puts contemporary questions about policy and immigrant assimilation into a broader sociological perspective.

Prerequisite(s): Graduate student standing.

SOC 589. Advanced Issues in Globalization**3 Credits**

Analysis of the globalization process. Covers theories of globalization; global economy; political globalization; global culture; transnational social movements; transnational migration and world labor market; global cities; local-global linkages. Same as GOVT 569.

SOC 596. Internship**1-6 Credits**

Supervised participation in appropriate occupational setting. May be repeated for a maximum of 12 credits. Taught with SOC 496 with additional work required at the graduate level.

SOC 599. Master's Thesis**6 Credits**

Thesis. Consent of instructor required. Restricted to: Main campus only. Restricted to SOC majors.

SOIL-SOIL (SOIL)

SOIL 200. Special Topics**1-4 Credits**

Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree. May be repeated up to 9 credits. Consent of Instructor required.

SOIL 252. Soils**3 Credits**

Origin, classification, morphology, and physical, chemical, and biological properties of soils.

Prerequisite: CHEM 111G and CHEM 112G.

SOIL 252 L. Soils Laboratory**1 Credit**

Morphological, chemical, physical and biological properties of soil in the laboratory and field.

Corequisite: SOIL 252.

SOIL 257. Introduction to Weather Science**4 Credits (3+3P)**

Introduction to Earth's atmosphere and the dynamic world of weather as it happens. Working with current meteorological data delivered via the Internet and coordinated with learning investigations keyed to the current weather; and via study of select archives. Consent of instructor required. Crosslisted with: GEOG 257 and AGRO 257

SOIL 300. Special Topics**1-4 Credits**

Specific subjects and credits announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree. May be repeated up to 9 credits. Consent of Instructor required. Restricted to Las Cruces campus only.

SOIL 312. Soil Management and Fertility**3 Credits**

Management, conservation, and fertility of soils; physical conditions affecting growth, nutrition, and plant production.

Prerequisite: SOIL 252.

Corequisite: SOIL 312L.

SOIL 312 L. Soil Management and Fertility Lab**1 Credit**

Hands-on experience. Includes field trips, videos, calculations, visiting lecturers and other lab activities as possible.

Prerequisite: SOIL 252.

Corequisite: SOIL 312.

SOIL 350. Soils and Land Use**3 Credits (2+2P)**

Relationship of soils to the limitations and potentials of land use. Emphasis on soil interpretations and soils as a resource in urban, rural, and recreational development. Same as PLAN 350.

SOIL 357. Climatology**3 Credits**

Elements and controls of climate. Energy and hydrologic cycles, general circulation, climate classification, distribution of climate types, microscale effects, applications. Same as AGRO/GEOG 357.

Prerequisites: MATH 120.

SOIL 370. Environmental Soil Science**3 Credits**

Continuation of SOIL 252 that emphasizes soil properties and processes that directly relate to environmental pollution problems. Same as E S 370.

Prerequisite: SOIL 252.

SOIL 391. Internship**1-6 Credits (1-6)**

Professional work experience under the joint supervision of the employer and a faculty member. A written report is required. No more than 6 credits toward a degree. Consent of Instructor required. S/U Grading (S/U, Audit).

SOIL 424. Soil Chemistry**3 Credits**

Basic elements of soil chemistry including clay mineralogy, cation and anion exchange and the chemistry of problem (acid, saline and flooded) soils. Credit not given for both SOIL 424 and SOIL 479.

Prerequisite(s): SOIL 252L or CHEM 111G and 112G.

SOIL 447. Seminar**1 Credit**

Organization, preparation, and presentation of current topics in agronomy, horticulture, and soil science. Same as AGRO/HORT 447.

SOIL 449. Special Problems**1-3 Credits**

Research problem, experience training, or other special study approved by a faculty adviser. Maximum of 3 credits per semester and a grand total of 6 credits. May be repeated up to 6 credits. Consent of Instructor required.

SOIL 450. Special Topics**1-4 Credits**

Specific subjects to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a total of 9 credits towards a degree. May be repeated up to 9 credits. Consent of Instructor required.

SOIL 456. Irrigation and Drainage**3 Credits**

Principles and practices required for irrigation to exist as a permanent economy. Equipment and methods for measurement and control of water.

SOIL 472. Soil Morphology and Classification**4 Credits (2+2P)**

Terminology used to describe soils. Soil classification systems of the world with emphasis on systems used in the United States. Theory of classification and taxonomy as applied to soils. Same as GEOG 472.

Prerequisite: SOIL 252.

SOIL 476. Soil Microbiology**3 Credits**

Nature and physiology of soil microorganisms, how they affect plant growth and recycle nutrients. Land farming, bioremediation and other environmental problems as influenced by soil microorganisms. SOIL 252 and BIOL 311 recommended. Same as BIOL 476.

SOIL 476 L. Soil Microbiology Laboratory**1 Credit**

Enumeration of soil microorganisms, their activities, and transformations they mediate. Same as BIOL 476L.

Prerequisites: SOIL 476 or concurrent enrollment.

SOIL 477. Environmental Soil Physics**3 Credits**

A description of the physical characteristics of porous media including soil. Examination of processes describing the transport of water, chemicals, heat and gases through porous media with application to environmental quality, waste management, and crop production.

SOIL 477 L. Environmental Soil Physics Laboratory**1 Credit**

Concurrent enrollment with SOIL 477 recommended. Hands on experience with techniques for characterizing soil physical properties such as particle size distribution, bulk density, water retention, hydraulic conductivity and solute transport. Demonstrations of field and laboratory techniques for measuring moisture content, soil water potential, gas/air flow and thermal conductivity.

Prerequisite: SOIL 252.

SOIL 479. Environmental Soil Chemistry**3 Credits**

Basic elements of soil chemistry including discussion of clay mineralogy, cation and anion exchange and the chemistry of problem (acid, saline and flooded) soils. Credit not given for both SOIL 424 and SOIL 479.

Prerequisite(s): SOIL 252L or CHEM 111G and 112G.

SOIL 485. Materials from Biorenewable Resources**3 Credits**

Types, sources, composition and properties of biomass. Production, processing, and applications of biomass materials with energy, water, cost, sustainability, and waste management considerations. Crosslisted with: AGRO 485, HORT 486, E S 485 and CHME 485.

Prerequisite(s): CHEM 211 or CHEM 313 or permission of instructor.

SOIL 500. Special Topics**1-4 Credits**

Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree.

SOIL 505. Research Orientation**4 Credits (3+2P)**

Training in writing research proposals, presentation of research results, and interpretation of research results. Crosslisted with: AGRO 505 and HORT 505

SOIL 514. Soil-Plant Relationships**3 Credits**

Physical, chemical, and biological soil environment as it affects plant and crop growth. Same as AGRO/HORT 514.

Prerequisites: BIOL 314, SOIL 252.

SOIL 525. Scientific Writing- How to be a Productive and Effective Writer 1-3 Credits (1-3)

Students will learn to improve their writing skills so that their manuscript preparation process is more efficient and productive. Students will also gain experience in peer-review Crosslisted with: AGRO 525, AGRO 625, HORT 525, HORT 625, SOIL 625 and EPWS 525.

SOIL 590. Graduate Seminar**1 Credit**

Current research discussions presented by master level graduate students. Not more than one credit toward the degree. Same as AGRO/HORT 590. Crosslisted with: AGRO 590 and HORT 590.

SOIL 596. Masters Proposal**1 Credit**

Current research proposal written by masters level graduate students. Consent of Instructor required. Crosslisted with: AGRO 596, E S 596, GENE 596 and HORT 596. Restricted to: Masters HORT; Masters PLEN majors.

Corequisite(s): Master level graduate students.

SOIL 597. University Teaching Experience**1-3 Credits (1-3)**

Certain graduate students will be permitted to teach up to one-third of one AGRO/HORT/SOIL/ES course. The student will prepare and deliver lectures and will prepare, administer, and grade at least one examination. The professor in charge of the course will attend and evaluate the student's lectures. Consent of instructor required. Crosslisted with: AGRO 597 and HORT 597

SOIL 598. Special Research Programs**1-6 Credits**

Individual investigations, either analytical or experimental. Maximum of 6 credits per semester. No more than 9 credits toward a degree.

SOIL 600. Doctoral Research**1-15 Credits**

Research.

SOIL 625. Scientific Writing- How to be a Productive and Effective Writer 1-3 Credits (1-3)

Students will learn to improve their writing skills so that their manuscript preparation process is more efficient and productive. Students will also gain experience in peer-review. Students in the 625 course will be required to perform additional research than those students in the 525 cross-listing Crosslisted with: AGRO 525, HORT 525 and EPWS 525.

SOIL 630. Advanced Soil Classification**3 Credits**

Philosophy and organization of various soil classification systems, some international in scope, with emphasis on the new USDA system and classroom and field experience in using this system.

Prerequisite: SOIL 472 or consent of instructor.

SOIL 640. Advanced Soil Microbiology**3 Credits**

Advanced topics in soil microbiology and biochemistry, including carbon cycling, nitrogen cycling, humus formation and nature, and microbial-plant root interactions. Consent of instructor required.

SOIL 650. Advanced Topics**1-3 Credits**

Colloquium on contemporary topics associated with agriculture, environmental science and engineering. Multidisciplinary topics will be chosen to encourage participation of students from diverse disciplines. May be repeated for a maximum of 9 credits.

Prerequisite: consent of instructor.

SOIL 652. Advanced Soil Physics**3 Credits**

Advanced treatment of soil physics, modeling, includes working on an existing/new research project, modeling existing or new data, step by step guide on the use of some 1-D and 2-D models. Specific areas of specialization will be field scale variability of soil properties, water flow, solute transport, and plant water relations.

Prerequisite(s): SOIL 477 and computer literacy; or consent of instructor.

SOIL 655. Moisture Heat Contaminant Transport Modeling**3 Credits**

Provides clear coverage of the basic principles of heat, moisture and contaminant transport through porous media, and a step-by-step guidance and hands on application on the use of some spreadsheet based and physically based one-and two-dimensional transport models. A similar course does not exist in the college for students that can encourage them to pursue modeling as a means of solving vadose zone and groundwater contamination and remediation problems. Consent of instructor required. Pre/

Corequisite(s): Graduate student with at least two 400.

SOIL 694. Doctoral Seminar**1 Credit**

Current research discussions presented by doctoral level graduate students. Not more than 2 credits toward the degree. Same as AGRO 694.

Prerequisite: doctoral level graduate students.

SOIL 696. Doctoral Proposal**1 Credit**

Current research proposal written by doctoral level graduate students. Not more than 1 credit toward the degree. Same as AGRO 696.

Prerequisite: doctoral level graduate students.

SOIL 697. University Teaching Experience**1-3 Credits (1-3)**

Certain graduate students will be permitted to teach up to one-third of one AGRO/HORT/SOIL/ES course. The student will prepare and deliver lectures and will prepare, administer, and grade at least one examination. The professor in charge of the course will attend and evaluate the student's lectures. Consent of instructor required. Crosslisted with: AGRO 697 and HORT 697

SOIL 698. Topics in Agronomy**1-6 Credits**

Topics of current interest, designated by title and credit. Maximum of 6 credits per semester. No more than 9 credits toward a degree.

SP M-SPORTS MEDICINE (SP M)

SP M 190. Introduction to Athletic Training**3 Credits**

Introduction to the principles of athletic training.

SP M 191. Medical Terminology**3 Credits**

Study of the structure of medical language with emphasis on sports medicine-related terminology. To include analysis and interpretation of medical documentation. Restricted to: Las Cruces campus only.

SP M 200. CAREER PREPARATION**1 Credit**

From concept to implementation: Career exploration, setting up degree plans, finding graduate programs, developing professional resumes, writing letters of application, seeking letters of recommendation, and interview preparation May be repeated up to 3 credits. Consent of Instructor required. Restricted to Las Cruces campus only.

SP M 223. Exploring Extreme Human Performance**3 Credits**

A reading, writing and documentary based course studying human's quest and the related sacrifices associated with participating in extreme performance activities such as the Olympics, wakeboarding, snowboarding, military special forces, ultra-run events, marathons, etc. Consent of Instructor required. Restricted to Las Cruces campus only.

SP M 250. Emergency Response in Sports Medicine**2 Credits**

Designed to provide knowledge and experience in emergency care procedures, blood borne pathogens, and first aid. Students will receive certification in CPR/AED for the Professional Rescuer and in First Aid, upon successful completion of course. May be repeated up to 2 credits. Restricted to Las Cruces campus only.

Prerequisite(s): Consent of Instructor.

SP M 271. Anatomy & Physiology I**3 Credits**

Detailed study of the structure and function of the human musculoskeletal, cardiovascular, respiratory, and peripheral nervous systems. Designed specifically for students interested in allied health professions. Restricted to Las Cruces campus only.

SP M 271 L. Anatomy and Physiology Laboratory**1 Credit**

Compliment to SP M 271. Students will engage in activities designed to enhance appreciation of the anatomical structures related to the content areas for SP M 271. Restricted to Las Cruces campus only.

SP M 272. Clinical Practicum I**2 Credits**

Introduction to the clinical aspects of the athletic training education program. Must maintain at least 3.0 GPA. May be repeated up to 4 credits. Consent of Instructor required. Restricted to: SP M majors. Restricted to Las Cruces campus only.

SP M 273. Clinical Practicum II**3 Credits**

Athletic training psycho-motor skills are enhanced and assessed by a preceptor during clinical rotations. Emphasis is on competencies and proficiencies previously instructed in didactic courses. Must maintain a 3.0 GPA. Consent of Instructor required. Restricted to: SP M majors. Restricted to Las Cruces campus only.

SP M 275 L. A & P LAB PE/DANCE**1 Credit**

Practical laboratory involving the kinematic and kinesthetic aspects of Human Anatomy and Physiology as it applied to Physical Education and Dance Restricted to: Physical Education and Dance. Not acceptable for Kinesiology Majors majors. Restricted to Las Cruces campus only.

Prerequisite(s): SP M 271.

SP M 290. General Medical Conditions**3 Credits**

Study of the recognition, evaluation, management, and treatment of non-orthopedic medical conditions that affect the physically active population. Consent of Instructor required. Restricted to: SP M and Kines Majors majors. Restricted to Las Cruces campus only.

Prerequisite(s): SP M 190, 191 and 271/271L.

SP M 303. Health and Exercise Psychology**3 Credits**

The course examines the reciprocal relationship among physical activity, exercise behavior, and psychological determinants associated with adopting and maintaining an exercise program. Topics include theories of behavioral change, exercise psychology interventions, the benefits/pitfalls of exercise, and psychological factors influencing patient rehabilitation.

Prerequisite(s): GPA of 2.75.

SP M 304. Psychology of Sport**3 Credits**

Development of coaching techniques to enhance sport performance based on understanding and use of psychological principles.

Prerequisite(s): GPA of 2.75.

SP M 305. Applied Biomechanics**3 Credits**

The application of anatomical, mechanical and electrical concepts to better understand the fundamental nature of human movement.

Prerequisite(s): SP M 271 GPA of 2.75.

SP M 305 L. Applied Biomechanics Laboratory**1 Credit**

This course serves to provide an introduction to human movement and its analysis. The conceptual framework of the course will allow for the application of anatomical, mechanical, and electrical concepts in order to better understand the fundamental nature of movement.

Prerequisite(s): SP M 271; GPA 2.75.

SP M 307. Pathophysiology and Human Function(s)**3 Credits**

Students will discuss basic concepts of pathophysiology such as inflammation & repair, infectious diseases, neoplasms, and diseases of specific physiological systems. In addition, students will discuss a variety of case studies, and in so doing will be able to relate pathophysiologic conditions to symptoms, activity restrictions and disability.

Prerequisite(s): SP M 271; SP M 271L; SP M 308, GPA 2.75.

SP M 308. Exercise Physiology**3 Credits (2+2P)**

Basic physiological principles as they apply to exercise and fitness programs. Laboratory experiences included. GPA of 2.75.

Prerequisite(s): SP M 271 or PE P 208.

SP M 309. Neurophysiology and Human Function**3 Credits**

Students will discuss neurological control of human movement. Topics will include central and peripheral nervous system functions, with particular emphasis given to somatosensory afferent and motor efferent control. In addition, students will develop an understanding of the techniques employed to assess neurologic function in various patient populations.

Prerequisite(s): SP M 271; SP M 271L; SP M 308; and GPA of 2.75.

SP M 310. Orthopedic Examination, Evaluation and Diagnosis of Lower Extremity Injuries**4 Credits**

Examines normal human anatomy, mechanisms of athletic injury, and deviation from normal anatomy following athletic injury to the lower extremity. Must maintain at least 3.0 GPA. Consent of Instructor required. Restricted to: SP M and KINES majors.

SP M 319. Lifetime Activities**2 Credits**

Knowledge and skills with weight training, cardiovascular exercise, Tai Chi, Pilates, and other lifetime activities related to the promotion of health/fitness through a lifespan.

SP M 320 L. Palpation and Anatomical Kinesiology Laboratory**2 Credits**

Practical hands-on clinical laboratory introducing techniques necessary for physiological and functional kinematic evaluation of human function. May be repeated up to 2 credits.

Prerequisite(s): SP M 271, SP M 271L, GPA 2.75.

SP M 324. Introduction to Exercise Science: Exercise Physiology and Biomechanics**3 Credits**

This course serves to provide a broad introduction to both the physiology of exercise and the mechanics of human movement. The conceptual framework of the course will allow for the development of a broad knowledge base regarding these concepts and the latter portions of the course will focus on real world application of the concepts. Consent of Instructor required.

Prerequisite(s): SP M 271 Anatomy and Physiology I.

SP M 330. Exercise Testing and Prescription**4 Credits**

This combined lecture and lab class introduces students to the scientific basis for and principles of exercise testing and prescription. The focus is on basic approaches to exercise testing and prescription for healthy adults, while application to some special populations with chronic disease will be discussed. GPA of 2.75.

Prerequisite(s): SP M 271 and SP M 308 or consent of instructor.

SP M 341. Motor Development**3 Credits**

Covers development of motor skills from infancy through maturity. Focus on the principles of motor development, early motor behavior, stage theory, and assessment. Field experiences will augment lecture and readings. May be repeated up to 3 credits. Consent of Instructor required.

SP M 342. Motor Learning**3 Credits**

An examination of the theoretical foundations and related literature that underline the learning, performing, and retention of motor skills with implications for effective teaching and coaching. May be repeated up to 3 credits.

Prerequisite(s): GPA of 2.5.

SP M 371. Anatomy and Physiology II**3 Credits**

Detailed study of the structure and function of the human endocrine, immune, digestive, reproductive, integumentary, central nervous and renal systems. Designed specifically for students interested in allied health professions. GPA of 2.75.

Prerequisite(s): SP M 271G or consent of instructor.

SP M 371 L. Anatomy and Physiology II Lab**1 Credit**

The students will develop skills in palpating various bony landmarks as well as origins and insertions of major soft tissues. In addition, problem based learning scenarios will be used to complement the SP M 371 lecture material and thereby further students understanding of certain physiologic systems including neural, digestive, reproductive, endocrine, and integumentary.

Prerequisite(s): SP M 271; SPM 271 L; GPA 2.75.

SP M 372. Clinical Practicum III**3 Credits**

Athletic training psychomotor skills are enhanced and assessed by a preceptor during clinical rotations. Emphasis is on competencies and proficiencies previously instructed in didactic courses. Must maintain a 3.0 GPA. Consent of Instructor required. Restricted to: SP M and KINES majors.

SP M 373. Clinical Practicum IV**3 Credits**

Athletic training psychomotor skills are enhanced and assessed by a preceptor during clinical rotations. Emphasis is on competencies and proficiencies previously instructed in didactic courses. Must maintain a 3.0 GPA. Consent of Instructor required. Restricted to: SP M majors.

SP M 375. Therapeutic Modalities**4 Credits**

The physiological effects, indications, contraindication, dosage, and maintenance of therapeutic modalities related to the treatment of athletic or activity-related injuries. May be repeated up to 4 credits. Consent of Instructor required. Must maintain 2.75 GPA. Restricted to: SP M, KIN majors.

Prerequisite(s): Consent of Instructor, SP M 271.

SP M 409. Clinical Biomechanics**3 Credits**

The application of biomechanical analysis of human movement as it relates to clinical proficiencies through the use of anatomical, mechanical and electrical concepts.

Prerequisite(s): SPM 271, GPA 3.0.

Corequisite(s): SP M 409 L.

SP M 409 L. Clinical Biomechanics Laboratory**1 Credit**

Laboratory experiments and biomechanical analysis of human movement as they relate to clinical proficiencies through the use of anatomical, mechanical and electrical concepts.

Prerequisite(s): SP M 271, SP M 409, GPA 3.0.

Corequisite(s): SP M 409.

SP M 410. Orthopedic Examination, Evaluation and Diagnosis of Upper Extremity Injuries**4 Credits**

Examines normal human anatomy, mechanisms of athletic injury, and deviation from normal anatomy following athletic injury to the upper extremity. Must maintain a 3.0 GPA. Consent of Instructor required. Restricted to: SP M and KINES majors.

SP M 411. Pharmacology in Athletic Training**2 Credits**

An introduction to general medical conditions and pharmacological applications in the athletic training setting. Emphasis on the laws governing the development and distribution, indications, contraindications, precautions, and interactions of prescription and over-the-counter medications. Must maintain a 3.0 GPA. Consent of Instructor required. Restricted to: SP M and KINES majors.

SP M 412. Inferential Statistics in Sport and Exercise Science**3 Credits**

Statistical concepts and methods basic to experiential research to include normal distribution, z-tests, t-tests, analysis of variance and regression analysis. An understanding of sport and exercise science theory is required for students enrolling in this course. Restricted to: KIN, SP M majors.

Prerequisite(s): GPA of 2.75; or consent of instructor.

SP M 413. Statistical Application in Sports and Exercise Science**3 Credits**

An introduction to descriptive statistics and the interpretation of data in the solution of problems in sport and exercise related research. GPA 2.75.

Prerequisite(s): Junior or senior standing.

SP M 415. Therapeutic Exercise**3 Credits**

The physiological effects, indications, contraindications, dosage, and maintenance of therapeutic modalities related to the treatment of athletic or activity-related injuries. Must maintain a 3.0 GPA. Consent of Instructor required. Restricted to: SP M and KINES majors.

SP M 420. Orthopedic Examination, Evaluation and Diagnosis of Core, Spine and Head Injuries**3 Credits**

Advanced clinical assessment techniques and applications. Must maintain at least a 3.0 GPA. Consent of Instructor required. Restricted to: SP M majors.

SP M 422. Clinical Practicum V**3 Credits**

Athletic training psychomotor skills are enhanced and assessed by a preceptor during clinical rotations. Emphasis is on competencies and proficiencies previously instructed in didactic courses. Must maintain a 3.0 GPA. Consent of Instructor required. Restricted to: ATEP, SP M majors.

SP M 423. Clinical Practicum VI**3 Credits**

Athletic training psycho-motor skills are enhanced and assessed by a preceptor during clinical rotations. Emphasis is on competencies and proficiencies previously instructed in didactic courses. Students might complete a general medical rotation with this course. Consent of Instructor required. Restricted to: SP M majors.

SP M 424. Clinical Practicum VII**3 Credits**

Athletic training psychomotor skills are enhanced and assessed by a preceptor during clinical rotations. Emphasis is on competencies and proficiencies previously instructed in didactic courses. Students might complete a general medical rotation with this course. Must maintain 2.8 GPA. Consent of Instructor required. Restricted to: ATEP, SP M majors.

SP M 425. Organization and Administration in Athletic Training**3 Credits**

An introduction to management, leadership, financial strategies, professional development and legal issues related to the athletic training setting. Must maintain 3.0 GPA. Consent of Instructor required. Restricted to: SP M majors.

SP M 445. Internship**6,12 Credits (6,12P)**

A full-time internship in an approved wellness, fitness, athletic or recreation program with experience in all phases of management and operation. Field instructor supervision. This internship may require relocation to a site outside of the Las Cruces area. May be repeated up to 12 credits. Consent of Instructor required. Restricted to: Kinesiology Majors majors. S/U Grading (S/U, Audit).

Prerequisite(s): Senior standing, GPA of 2.75, completion of all major courses.

SP M 451. Advanced Exercise Physiology**3 Credits**

Detailed study of the integrated response of neuromuscular, cardiovascular, and respiratory systems to acute and chronic exercise, nutrition, and environmental conditions with a strong emphasis on laboratory experiences. GPA of 2.75.

Prerequisite(s): SP M 271 and SP M 308 or consent of instructor.

SP M 456. Exercise for Special Populations**3 Credits**

Fundamentals of kinesiology adapted for adults with various diseases and disabilities. Focus will be on the application of exercise assessment and prescription for selected conditions.

Prerequisite(s): SP M 308 and SP M 330; GPA of 2.75.

SP M 458. Physical Dimensions of Aging**3 Credits**

This course introduces students to physical, physiological, social, mental, and emotional aspects of human aging. Age-related changes in human function are discussed the context of applied healthcare settings, and the implications for appropriate physical activity and functional independence. GPA of 2.75.

Prerequisite(s): SP M 308.

SP M 460. Principles of Strength and Conditioning**3 Credits**

Application of research, theory, and methods of high-intensity, resistive overload training. Performance-specific topics include management, nutrition. GPA of 2.75.

Prerequisite(s): SP M 308.

SP M 460 L. Principles of Strength and Conditioning Laboratory**1 Credit**

An applied examination of the theory, principles, rules and regulations associated with various strength and conditioning exercises to include but not limited to Olympic lifting, powerlifting, bodybuilding, plyometrics, speed, agility and speed-endurance development. Lab required for Kinesiology majors. GPA of 2.75.

Prerequisite(s): SP M 308.

SP M 465. Ethics and Legal Issues in Athletic Training**3 Credits**

Examination of the legal and ethical issues associated with the practice of athletic training and other health care fields. Must maintain a 3.0 GPA. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: SP M majors.

SP M 498. Advanced Athletic Training I**1-3 Credits (1-3)**

Advanced clinical experiences and education in athletic training. Assessment of Athletic Training Program clinical proficiencies as described by the National Athletic Trainer's Association Education Council. Consent of Instructor required.

SP M 499. Problems**1-3 Credits**

Problems in athletic training and independent work in their solutions. May be repeated up to 3 credits. Consent of Instructor required.

Prerequisite(s): Junior or Senior status; Consent of ATEP director.

SP M 504. Psychology of Sport**3 Credits**

Development of coaching techniques to enhance sport performance based on understanding and use of psychological principles. Same as SP M 304 with additional requirements for graduate credits. Consent of Instructor required.

Prerequisite(s): Consent of instructor.

SP M 508. Applied Biomechanics**3 Credits**

The application of anatomical, mechanical and electrical concepts to better understand the fundamental nature of human movement. Same as SP M 305 with additional requirements for graduate credits Consent of Instructor required.

Prerequisite(s): Consent of instructor.

SP M 509. Clinical Biomechanics**3 Credits**

The application biomechanical analysis of human movement as it relates to clinical proficiencies through the use of anatomical, mechanical and electrical concepts. Same as SP M 409 with additional requirements for graduate credits Consent of Instructor required.

Prerequisite(s): Consent of instructor.

SP M 510. Graduate Athletic Training Seminar I**1-3 Credits (1-3)**

Advanced seminar topics in athletic training. Students will explore generalized topics within the field of athletic training under the direct supervision of a Commission on Accreditation of Athletic Training Education (CAATE) accredited Athletic Training Program. Students may engage in teaching and research opportunities in unique areas. Students may explore athletic training topics within the classroom or independently through designated resources Consent of Instructor required.

SP M 511. Graduate Athletic Training I**1-3 Credits (1-3)**

Advanced clinical experiences and education in athletic training. Students will examine topics in athletic training in conjunction with faculty members within the Commission on the Accreditation of Athletic Training Education (CAATE) Athletic Training Program at New Mexico State University . Assessment of Athletic Training Program clinical proficiencies as described by the National Athletic Trainers' Association Education Council. Consent of Instructor required.

SP M 512. Inferential Statistics in Sports and Exercise Science**3 Credits**

Statistical concepts and methods basic to experiential research to include normal distribution, z-tests, t-tests, analysis of variance and regression analysis. An understanding of sport and exercise science theory is required for students enrolling in this course. Same as SP M 412 with additional requirements for graduate credit Consent of Instructor required.

Prerequisite(s): Consent of Instructor.

SP M 513. Graduate Athletic Training Seminar II**1-3 Credits (1-3)**

Advanced seminar topics in athletic training. Students will explore more specialized topics within the field of athletic training under the direct supervision of a Commission on Accreditation of Athletic Training Education (CAATE) accredited Athletic Training Program. Students should be prepared to further explore topics previously covered in SP M 512 (Graduate Athletic Training Seminar I) Students may engage in teaching and research opportunities in unique areas. Students may explore athletic training topics within the classroom or independently through designated resources. Consent of Instructor required.

SP M 514. Graduate Athletic Training Research I**1-3 Credits (1-3)**

Advanced research topics in athletic training. Students will explore research and evidence based practices within the field of athletic training. Students will work under the direct supervision of a Commission on Accreditation of Athletic Training Education (CAATE) accredited Athletic Training Program faculty member. Students should be prepared to further explore research topics within a specific discipline with the intent of disseminating and sharing information with the athletic training community. topics previously covered in SP M 512 (Graduate Athletic Training Seminar I) Students may engage in teaching and research opportunities in unique areas Consent of Instructor required.

SP M 515. Graduate Athletic Training II**3 Credits**

Advanced clinical experiences and education in athletic training. Assessment of Athletic Training Program clinical proficiencies as described by the National Athletic Trainers' Association Education Council. Consent of Instructor required.

SP M 545. Skill Acquisition and Performance**3 Credits**

Behavioral and physiological examination factors that influence the acquisition and performance of motor skills. May be repeated up to 3 credits. Consent of Instructor required. Crosslisted with: SP M 342.

SP M 551. Advanced Exercise Physiology**3 Credits**

Detailed study of the integrated response of neuromuscular, cardiovascular and respiratory systems to acute and chronic exercise, nutrition and environmental conditions with a strong emphasis on laboratory experience. Consent of Instructor required.

SP M 556. Exercise for Special Populations**3 Credits**

Fundamentals of kinesiology adapted for adults with various diseases and disabilities. Focus will be on the application of exercise assessment and prescription for selected conditions. Taught with PE P 456 with additional work required at the graduate level. Consent of Instructor required.

SP M 558. Physical Dimensions of Aging**3 Credits**

This course introduces graduate students to physical, physiological, social, mental, and emotional aspects of human aging. Age-related changes in human function are discussed in the context of applied healthcare settings, and the implications for appropriate physical activity and functional independence. Graduate students in this course are expected to participate in organizing and leading some of the class discussions and assisting in the identification of appropriate materials for the course. Consent of Instructor required.

SP M 560. Principles of Strength and Conditioning**3 Credits**

Application of research, theory, and methods of high-intensity, resistance training. Performance-specific topics include management, nutrition, exercise prescription, periodization, lifting techniques, testing, and evaluation. Course will emphasize standards set forth by the National Strength and Conditioning Association preparing students interested in sitting for the NSCA certification examinations. Consent of Instructor required.

SP M 597. Project**1-12 Credits (1-12)**

Selected projects for doctoral students. May be repeated up to 12 credits. Consent of Instructor required.

SP M 600. Kinesiology Research**1-3 Credits (1-3)**

Research to be conducted under the direction of a Kinesiology faculty member May be repeated up to 15 credits. Consent of Instructor required.

SP M 608. Cardiovascular Physiology**3 Credits**

This graduate level course provides an in-depth study of cardiovascular structure and function. The course assumes that students have a strong background in human physiology. Topics include, but are not limited to: cellular structure of the heart and vascular system; cardiac function, including electrophysiology of the heart; vascular function; neurohumoral control of the heart and circulation, organ blood flow, exchange function of the microcirculation; the impact of common cardiovascular diseases on cardiovascular structure and function, and cardiovascular adaptations to chronic exercise.

SP M 660. Designing Resistance Training Program**3 Credits**

Detailed study of the physiological concepts associated with designing resistance-training programs for children, women, seniors, athletic performance and rehabilitation.

SP M 665. Skeletal Muscle: Structure and Function**3 Credits**

Basic muscle morphology and physiology with molecular and cellular adaptations in skeletal muscle as consequences to varying exercise regimens

SP M 700. Doctoral Dissertation**1-18 Credits (1-18)**

Doctoral Dissertation hours to be conducted under the direction of a Kinesiology Faculty. May be repeated up to 18 credits. Consent of Instructor required. Thesis/Dissertation Grading.

SPAN-SPANISH (SPAN)

SPAN 101. Beginning Spanish Conversation**3 Credits**

Beginning conversation and intensive oral practice for non-degree seeking students, and SPAN 111 and SPAN 112 students who desire additional conversational practice. This course does not count toward the NMSU second language requirement and is not open to native Spanish speakers without permission of instructor. Restricted to: Community colleges.

SPAN 111. Elementary Spanish I**4 Credits (4)**

Spanish for beginners. Speaking and writing common interactions in predictable settings using basic vocabulary and verb tenses. Communicate in Spanish both orally and in writing sufficiently well so as to be able to make yourself understood by native speakers accustomed to dealing with non-native speakers. In spontaneous conversation and in writing, students will be able to produce a few sentences. Prerequisite(s): Not open to Spanish-speaking students except by consent of instructor.

Prerequisite: language placement and/or assessment by departmental examination.

SPAN 112. Elementary Spanish II**4 Credits (4)**

Spanish for beginners. Speaking and writing common interactions in predictable settings using basic vocabulary and verb tenses, including talking about events in the past and possible recommendations for the future. Communicate in Spanish both orally and in writing sufficiently well so as to be able to make yourself understood by native speakers accustomed to dealing with non-native speakers. In spontaneous conversation and in writing, students will be able to produce a variety of sentences and form context appropriate to open-ended questions. Prerequisite(s): Not open to Spanish-speaking students except by consent of instructor.

Prerequisite: language placement and/or assessment by departmental examination or a C- or better in SPAN 111.

SPAN 113. Spanish for Heritage Learners I**3 Credits**

Emphasis on development of heritage Spanish language skills learned at home and/or in the community. Covers listening comprehension, development of vocabulary and cultural activities to help strengthen heritage language and culture. Students who have previously earned a C or better in SPAN 111 or SPAN 112 may not receive credit for this course.

SPAN 115. Elementary Spanish I for Hotel, Restaurant and Tourism Managers**4 Credits**

Beginning Spanish for HRTM majors only. Will count towards HRTM degree language requirement. Does not count towards language requirement for other majors. Restricted to: Main campus only. Restricted to HRTM majors.

SPAN 211. Intermediate Spanish I**3 Credits (3)**

Speaking, reading and writing. Not open to Spanish-speaking students except by consent of instructor.

Prerequisite: language placement and assessment by departmental examination or C or better in SPAN 112.

SPAN 212. Intermediate Spanish II**3 Credits (3)**

Speaking, reading and writing. Not open to Spanish-speaking students except by consent of instructor.

Prerequisite: language placement and assessment by departmental examination or C or better in SPAN 211.

SPAN 213. Spanish for Heritage Learners II**3 Credits**

Emphasis on development of heritage language skills learned at home and/or in the community. Covers spoken Spanish, reading activities and grammar skills to build on existing knowledge of the language.

SPAN 214. Spanish for Heritage Learners III**3 Credits**

Continued development of heritage Spanish language skills learned at home and/or in the community. Emphasis on reading, writing and critical thinking skills. Review of grammar points will also be stressed in preparation for upper level courses.

SPAN 305. Topics in Hispanic Civilization**3 Credits (3)**

Group study of selected topics focusing on Hispanic culture and civilization. Topics announced in the Schedule of Classes. May be repeated for a maximum of 6 credits.

Prerequisite: SPAN 212 or SPAN 214 or consent of instructor.

SPAN 306. Special Topics**3 Credits**

Group study of Spanish for specialized purposes (e.g. court interpreting, professional language for bilingual teachers, technical writing for the business community). Course subtitled in the Schedule of Classes. May be repeated for a maximum of 12 credits.

Prerequisite: SPAN 212 or SPAN 214 or consent of instructor.

SPAN 312. Grammar for Heritage/Native Speakers of Spanish**3 Credits**

For students who have been exposed to Spanish at home or in the community. Review of grammatical concepts and analysis of both spoken and written Spanish. Students cannot receive credit for both SPAN 312 and SPAN 313.

Prerequisite(s): SPAN 214 or consent of instructor.

SPAN 313. Spanish Grammar**3 Credits**

A review of the rules of Spanish grammar. Students cannot receive credit for both SPAN 312 and SPAN 313.

Prerequisite: SPAN 212 or SPAN 214 or consent of instructor.

SPAN 314. Spanish Composition**3 Credits**

Development of written Spanish skills. Students cannot receive credit for both SPAN 314 and SPAN 315.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 315. Composition for Heritage/Native Speakers of Spanish**3 Credits**

Discussions of history, and current political and cultural topics pertaining to the Hispanic world. Emphasis on development of writing skills in formal Spanish. Students cannot receive credit for both SPAN 314 and SPAN 315. Fulfills departmental requirement for SPAN 314.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 325. Advanced Conversation**3 Credits (3)**

Intensive oral practice. Not open to heritage/native speakers of Spanish.

Prerequisite(s): SPAN 212 or consent of instructor.

SPAN 327. Spanish in the Community**3 Credits**

Emphasis on use of Spanish outside the classroom in the local communities. Activities include but are not limited to oral histories, language mentoring in schools, assisting with cultural activities and language research.

Prerequisite(s): Basic communicative fluency in Spanish as determined by departmental advisor.

SPAN 340. Introduction to Spanish Linguistics**3 Credits**

General aspects of Spanish linguistics: traditional, descriptive, historical and dialectal.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 350. Introduction to Chicano Studies**3 Credits**

Covers Mexican-American life including language, history, education, politics and literature.

Prerequisite: SPAN 312 or SPAN 313.

SPAN 352. Spanish in Social Contexts**3 Credits**

The study of Spanish in the contexts of the societies in which it is spoken.

Prerequisite: SPAN 312 or SPAN 313.

SPAN 353. Spanglish**3 Credits**

Covers lexical borrowing, code choice, language loss and maintenance, and bilingual cognition.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 360. Introduction to Latin American Studies**3 Credits**

Offers an introduction to topics in Latin American Studies including language, culture, literature, history, sociology and anthropology. Course is taught in English. Spanish majors and minors may receive credit towards degree requirements by submitting course work in Spanish (SPAN 312 or SPAN 313 recommended for SPAN majors or minors).

SPAN 361. US-Mexico Border Culture- Literature and /or Culture**3 Credits**

Study of major authors and/or cultural trends in the U.S.-Mexico border. Selected subject to be identified by subtitle in the Schedule of Classes. May be repeated up to 6 credits.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 363. US-Hispanic Culture**3 Credits**

Study of major artistic and cultural trends among US-Hispanics. Selected topics to be identified by subtitle in the Schedule of Classes. May be repeated for a total of 6 credits under a different subtitle.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 364V. Culture and Civilization of Mexico**3 Credits**

Familiarization with culture, civilization and regions of Mexico. History, geography, art, literature, folklore, customs, economics and politics of each region. Impact of Mexican culture and civilization on the Southwest United States. Taught in English. Does not satisfy Arts and Sciences second language requirement.

SPAN 365V. Culture and Civilization of Spanish America**3 Credits**

Familiarization with culture, civilization and regions of Spanish America. Study of history, geography, art, literature, folklore, customs, economics and politics of each region. Impact of Spanish American culture and civilization on the Southwest United States. Taught in English. Does not satisfy College of Arts and Sciences second language requirement.

SPAN 380. Introduction to Hispanic Literature**3 Credits**

Works in Spanish, all genres and periods. How to read literature in all forms.

Prerequisite: SPAN 312 or SPAN 313.

SPAN 385. Introduction to Chicano/US-Mexican Literature**3 Credits**

Introduction to the study of major works by Chicano/US-Mexican authors.

Prerequisite: SPAN 312 or SPAN 313.

SPAN 388. Contemporary Hispanic Literature**3 Credits**

Study of Peninsular and Spanish-American literature from the 20th century to the present.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 393. Introduction to Translation and Interpretation**3 Credits**

General aspects of translation and interpretation from English to Spanish and Spanish to English. Selected subject to be identified by subtitle in the Schedule of Classes. May be repeated up to 6 credits.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 399. Independent Studies in Literature, Language, or Culture**1-3 Credits**

Individualized, self-paced projects for advanced students. Students must present formal proposal of study. May be repeated for a maximum of 6 credits.

Prerequisite: SPAN 312 and SPAN 313.

SPAN 410. Mitos y Leyendas Indigenas**3 Credits**

Survey in Spanish language of indigenous poetry, myths and legends from Pre-Columbian times to present.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 411. Creative Writing**3 Credits**

Creative writing in Spanish.

Prerequisite(s): SPAN 314 or SPAN 315 and SPAN 380.

SPAN 412. Spanish-American Poetry**3 Credits**

Study of major works by Spanish-American poets.

Prerequisite: SPAN 312 or SPAN 313.

SPAN 413. Mexican Literature**3 Credits**

Study of major works by Mexican authors.

Prerequisite: SPAN 312 or SPAN 313.

SPAN 415. Spanish-American Women Writers**3 Credits**

All genres of Spanish-American literature written by women.

Prerequisite: SPAN 312 or SPAN 313.

SPAN 416. Nineteenth Century Spanish-American Literature**3 Credits**

Study of major works by Spanish-American authors of the 19th century.

Prerequisite: SPAN 312 or SPAN 313.

SPAN 418. Spanish-American Short Story**3 Credits**

Study of major short stories by Spanish-American authors.

Prerequisite: SPAN 312 or SPAN 313.

SPAN 419. Spanish American Drama**3 Credits**

Study of major works by Spanish-American dramatists.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 420. Hispanic Micro Fiction**3 Credits**

Study of micro fiction works by Hispanic Authors and creative writing workshop related to micro fiction.

Prerequisite(s): SPAN 314 or SPAN 315 and SPAN 380.

SPAN 421. Culture and Literature of New Mexico**3 Credits**

The study of the development and flourishing of New Mexican culture and literature.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 422. Literature of the Mexican Revolution**3 Credits**

Study of Mexican authors dealing with the Mexican Revolution.

Prerequisite: SPAN 312 or SPAN 313.

SPAN 424. Post-Modern Hispanic Literature**3 Credits**

The study of Post-Modern experimental literary genres, from Post-boom to the present.

Prerequisite(s): SPAN 314 or SPAN 315.

SPAN 425. Conquest, Colonial and Indigenous Literatures**3 Credits**

The study of literary and cultural works of the Spaniard Conquest and Latin American Indigenous cultures.

Prerequisite(s): SPAN 314 or SPAN 315.

SPAN 426. Spanish-American Novel**3 Credits**

Study of major works by Spanish-American novelists.

Prerequisite: SPAN 312 or SPAN 313.

SPAN 427. Chicano Literature**3 Credits**

Study of Chicano/US-Mexican authors.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 428. U.S. Latino Culture and Literature**3 Credits**

The study of major works by Latino writers in the U.S.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 439. Topics in Applied Spanish Linguistics**3 Credits**

Group study of selected topics to be identified by subtitle in the Schedule of Classes. May be repeated once under different subtitle for a maximum of 6 credits.

Prerequisite: SPAN 340.

SPAN 445. Dialectos del Espanol**3 Credits**

In-depth exploration of Spanish dialects including their formal characteristics, historical formation and regional variation.

Prerequisite(s): SPAN 340 or SPAN 461.

SPAN 447. Hispanic Film**3 Credits**

Study of major films from Spain and Spanish-America. Restricted to: Main campus only.

SPAN 448. U.S.-Hispanic Film**3 Credits**

Study of major films about and/or by Hispanics of the U.S. Restricted to: Main campus only.

SPAN 449. Special Problems**1-3 Credits**

Directed reading for graduate students in their specific fields to satisfy language requirement for master's or doctoral programs. May be repeated for a maximum of 6 credits.

SPAN 450. Mexican Cultures**3 Credits**

Different aspects of Mexican Culture. Selected topic to be identified by subtitle in the Schedule of Classes. May be repeated for a total of 6 credits under a different subtitle.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 451. Hispanic Cultures**3 Credits**

Issues in Hispanic cultures of the U.S., Spanish-America and Spain. Also focuses on U.S.-Mexico border culture. Selected topics to be identified by subtitle in the Schedule of Classes. May be repeated up to 6 credits.

Prerequisite(s): SPAN 314 or SPAN 315.

SPAN 457. Strategies for Teaching Spanish for Heritage/Native Speakers**3 Credits**

Overview of the main theories, research, pedagogical approaches, assessment and practice concerning the teaching of Spanish to heritage learners and native speakers. Taught with SPAN 597.

Prerequisite(s): SPAN 314 or SPAN 315.

SPAN 460. Spanish Language Acquisition**3 Credits**

Research and theories of acquisition of Spanish as a first or second language.

Prerequisite: LING 200 or SPAN 340, or consent of instructor.

SPAN 461. Introduction to Spanish Phonetics**3 Credits**

An introduction to Spanish phonetics including basic dialectal variation and comparison with English.

Prerequisite: SPAN 340.

SPAN 470. Methods for Teaching Literature to Spanish Heritage Learners**3 Credits**

Current methods for teaching literature to Spanish for Heritage Learners (SHL).

Prerequisite(s): SPAN 314 or SPAN 315 and SPAN 380.

SPAN 490. Special Topics**3 Credits**

Selected topic to be identified by subtitle in the Schedule of Classes. May be repeated up to 6 credits.

Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 491. History of the Spanish Language**3 Credits**

The development of Spanish from its origins.

Prerequisite(s): SPAN 340.

SPAN 492. Structure of Spanish**3 Credits**

Topics in Spanish linguistics including phonology, morphology, syntax and semantics.

Prerequisite(s): SPAN 314 or SPAN 315 or SPAN 340.

SPAN 493. Studies in U.S. Spanish**3 Credits**

Linguistic issues and studies of U.S. Spanish-speaking communities. Taught with SPAN 593.

Prerequisite(s): SPAN 340.

SPAN 500. Methods of Research and Literary Criticism**3 Credits**

Advanced methods of research and literary criticism.

SPAN 507. Technology Enhanced Language Learning**3 Credits**

Strategies for enhancing language learning with emerging technologies.

Course is taught in Spanish.

SPAN 508. Teaching Literature with Technology**3 Credits**

Strategies and techniques for enhancing the teaching of all literature genres using emerging technologies. Course is taught in Spanish. Co/

Prerequisite(s): SPAN 507, and/or consent of instructor.

SPAN 509. Teaching Culture with Technology**3 Credits**

Strategies and techniques for enhancing the teaching of culture using emerging technologies. Course is taught in Spanish. Co/

Prerequisite(s): SPAN 507, and/or consent of instructor.

SPAN 510. Assessing the National Standards**3 Credits**

Analysis of the National Standards for Foreign Language Learning (the 5 Cs) in the 21st Century. Course will also cover the Integrated Performance Assessment as applied to the national standards. Other assessments will be reviewed to evaluate effectiveness in all levels of Spanish language classrooms.

SPAN 512. Contemporary Spanish-American Poetry**3 Credits**

Readings and interpretation of Spanish-American poetry from the 20th century to the present.

SPAN 520. Hispanic Micro Fiction**3 Credits**

Advanced study of micro fiction works by Hispanic Authors and creative writing workshop related to micro fiction.

SPAN 521. Advanced Culture and Literature of New Mexico**3 Credits**

The advanced study of the development and flourishing of New Mexican culture and literature.

SPAN 528. Advanced U.S. Latino Culture and Literature**3 Credits**

The advanced study of major works by Latino writers in the U.S.

SPAN 540. Introduccion a la Linguistica**3 Credits**

Introduces students to the foundational topics of linguistic study with particular reference given to the Spanish language: properties of language and communication, morphology, syntax, phonetics, phonology, language variation and change.

Prerequisite(s): Eligibility to take graduate level courses.

SPAN 545. Advanced Dialectos del Espanol**3 Credits**

Advanced research of Spanish dialects including their formal characteristics, historical formation and regional variation.

SPAN 547. Advanced Hispanic Film**3 Credits**

Advanced study of major films from Spain and Spanish-America. Restricted to: Main campus only.

SPAN 548. Advanced U.S.-Hispanic Film**3 Credits**

Advanced study of major films about and/or by Hispanics of the U.S.

Restricted to: Main campus only.

SPAN 551. Advanced Hispanic Cultures**3 Credits**

Advanced study on Hispanic cultures of the U.S., Spanish-America and/or Spain. Selected topic to be identified by subtitle. Taught with SPAN 451.

May be repeated up to 6 credits.

SPAN 552. Advanced Literature of the Mexican Revolution**3 Credits**

Study of Mexican authors dealing with the Mexican Revolution.

Restricted to: Main campus only.

SPAN 555. Advanced Conquest, Colonial and Indigenous Literatures**3 Credits**

The advanced study of literary and cultural works of the Spaniard Conquest and Latin American Indigenous cultures.

SPAN 556. Advanced 19-Century Spanish-American Literature**3 Credits**

Study of major works by Spanish-American authors of the 19th century.

SPAN 558. Bilinguismo**3 Credits**

Examines the topics of bilingualism from a psycholinguistic perspective including the development of the bilingual brain, lexical acquisition, retrieval and storage, and experimental techniques in measuring language competence.

Prerequisite(s): SPAN 540 or consent of instructor.

SPAN 560. Advanced Spanish Language Acquisition**3 Credits**

Advanced research and theories of acquisition of Spanish as a first or second language.

Prerequisite(s): SPAN 540.

SPAN 561. Advanced Spanish Phonetics**3 Credits**

Advanced study of Spanish phonetics, including basic dialectal variation and comparisons with English.

SPAN 562. Advanced Spanish Phonology**3 Credits**

An advanced formal examination of the sound system of Spanish including formal characterizations, dialectal variation and laboratory data.

SPAN 563. Advanced Study in Mexican Literature**3 Credits**

Mexican literature from the Pre-Columbian period to the present.

SPAN 564. Advanced Post-Modern Hispanic Literature**3 Credits**

The advanced study of Post-Modern experimental literary genres, from Post-boom to the present.

SPAN 566. Contemporary Spanish-American Novel**3 Credits**

The Spanish-American novel from the 20th century to the present.

SPAN 567. Advanced Study in Chicano Literature**3 Credits**

Study of all genres of Chicano literature.

SPAN 570. Advanced Study in Technical Translation**3 Credits**

Translation of a variety of non-literary texts from English to Spanish and from Spanish to English. Course is taught in Spanish.

SPAN 573. Advanced Study in Creative Writing**3 Credits**

Advanced creative writing in Spanish.

SPAN 580. Research Methodology in Spanish Linguistics**3 Credits**

Study and practical application of techniques in linguistic research.

SPAN 581. Advanced Hispanic Modernism and Avant-Garde Literature**3 Credits**

The advanced study of major prose works by Latin American Modernist and Avant-Garde authors.

SPAN 583. Advanced Study in Spanish-American Women Writers**3 Credits**

All genres of Spanish-American literature written by women. Research paper required.

SPAN 584. Spanish Morphosyntax**3 Credits**

Examination of the morphological and syntactic structure of the Spanish language as well as their interaction. Practical applications are also explored.

SPAN 585. Language Assessment**3 Credits**

Introduces students to theoretical principles of and analytical techniques for language assessment. Students will learn to critically analyze existing language assessment measures and will develop, pilot test and analyze measures of their own.

Prerequisite(s): SPAN 540 or SPAN 560 or SPAN 580 or consent of instructor.

SPAN 586. Contemporary Spanish-American Essay**3 Credits**

Main currents in the Spanish-American thought from the 20th century to the present.

SPAN 587. Contemporary Spanish-American Short Story**3 Credits**

The Spanish-American short story from the 20th century to the present.

SPAN 588. Contemporary Spanish-American Drama**3 Credits**

The Spanish-American drama from the 20th century to the present.

SPAN 589. Spanish Sociolinguistics**3 Credits**

Relationship between language and society in the Spanish-speaking world.

SPAN 590. Advanced Special Topics**3 Credits (3)**

Specific subject to be announced in the Schedule of Classes. May be repeated up to 6 credits.

SPAN 591. Advanced Study in History of the Spanish Language**3 Credits**

The development of Spanish from its origins.

SPAN 592. Advanced Structure of Spanish**3 Credits**

Advanced study of Spanish linguistics topics such as phonology, morphology, syntax and semantics.

SPAN 593. Advanced Studies in U.S. Spanish**3 Credits**

Linguistic issues and advanced studies of U.S. Spanish-speaking communities. Taught with SPAN 493.

SPAN 594. Theory and Methodology of Spanish Pedagogy**3 Credits**

Advanced studies in current theories and methodologies of Spanish language pedagogy. Taught as a practicum.

SPAN 597. Advanced Strategies for Teaching Spanish for Heritage/ Native Speakers**3 Credits**

Advanced overview of the main theories, research, pedagogical approaches, assessment and practice concerning the teaching of Spanish to heritage learners and native speakers.

SPAN 598. Independent Reading, Research, and/or Creative Writing**1-3 Credits**

Individual study of selected readings and problems; or individual research, either analytical or experimental, or creative writing. May be repeated for unlimited credits.

SPAN 599. Master's Thesis**15 Credits**

Thesis.

SPCD-ENGLISH AS A SECOND LNG (SPCD)

SPCD 108. Intermediate ESL Listening and Speaking**3 Credits**

Development of listening and speaking skills with attention to pronunciation. Emphasis on conversation and oral practice appropriate to an academic setting. Graded S/U.

Prerequisites: placement based on English language screening test, and either a minimum TOEFL score of 500 or consent of instructor.

SPCD 110. Intermediate ESL Composition and Grammar Review**3 Credits**

Development of fluent academic writing skills, with an emphasis on grammar review for editing purposes.

Prerequisite(s): Placement based on English language screening test, and either a minimum TOEFL score of 500 or consent of instructor.

SPCD 111G. Advanced ESL Composition**4 Credits**

Academic writing, including library research papers and the issue of plagiarism, for students with nonnative English. (SPCD 111G is substituted for ENGL 111G for international students whose native language is not English.). Restricted to: Main campus only.

Prerequisite(s): Placement based on English language screening test, and either a minimum TOEFL score of 500 or consent of instructor; or successful completion of SPCD 110.

SPCD 458. Advanced Speaking and Listening for International Graduate Students**3 Credits**

Advanced speaking and listening skills for active participation at the graduate level. Emphasis on pronunciation and individual goal setting. Includes a theoretical component involving library research or preparation and presentation of a teaching unit. Graded S/U, RR.

Prerequisites: placement and 530 TOEFL or consent of instructor.

SPCD 470. Scholarly Writing for International Graduate Students**3 Credits**

Instruction and practice in writing major academic genres, including experimental, descriptive, and problem-solution research reports, proposals, and library referenced papers. Main campus only. Graded S/U.

Prerequisites: placement based on English language screening test or successful completion of SPCD 110; a minimum TOEFL score of 500 or consent of instructor; and successful completion of SPCD 108/490 where indicated by placement.

SPED-SPECIAL EDUCATION (SPED)

SPED 201. Topics**3 Credits**

Offered under various subtitles that indicate the subject matter to be covered. May be repeated 3 times for a maximum of 9 credits.

SPED 202. Culture, Learning and Academic Achievement in a Diverse Society**3 Credits**

Development of culturally responsive learning strategies, skills and utilization of support services, to enhance academic achievement. Restricted to: Main campus only.

SPED 210. Introduction to Special Education**3 Credits**

For paraprofessional students who will be working with a teacher in a Special Education classroom. This class will provide an overview of characteristics of children with special needs, legal issues, framework of effective instruction and a variety of practical teaching and learning strategies that are relevant to the tasks and academic demands required in inclusive classrooms.

SPED 350. Introduction to Special Education in a Diverse Society**3 Credits**

Characteristics, identification, and educational needs of exceptional learners. Attention is given to the various types of programs serving exceptional learners. Designed for all professional personnel who work with exceptional learners.

SPED 355. Introduction to Bilingual/Multicultural Special Education**3 Credits**

Introduction to issues related to the provision of services to culturally and linguistically diverse students with exceptionalities. Same as BIL 355.

SPED 360. Elementary Curriculum, Methods, and Materials for Special Education in a Diverse Society**3 Credits**

Curriculum theory and development for special education programs. Various teaching methods utilized with elementary exceptional learners and techniques involved in identifying, adapting, and developing materials will be addressed.

SPED 406. High Incidence Disabilities in a Diverse Society**3 Credits**

Examines those areas of disability that most frequently occur in the special education population, including mental retardation, learning disabilities, communication disorders, and behavioral and emotional disorders.

SPED 407. Low Incidence Disabilities in a Diverse Society**3 Credits**

Examines those disabilities that occur less frequently in the special education population, including hearing loss, visual disorders, autism, and other severe manifestations.

SPED 409. Reading for Elementary Exceptional Learners in a Diverse Society, K-6**3 Credits**

Emphasizes reading diagnosis and materials for students with special developmental and learning problems. Taught with SPED 509.

SPED 411. Reading for Elementary Exceptional Learners in a Diverse Society, 7-12**3 Credits**

Extends information covered in SPED 509, which covers grades K 6. Strategies and materials are addressed.

SPED 450. Working with Young Children with Special Needs, Ages 3-8**3 Credits**

Addresses competencies for working with young children with exceptionalities, ages three-eight, and their families. Public school, private school, Head Start and other models are included. Taught with SPED 550.

Prerequisite(s): SPED 350 or equivalent.

SPED 451. Assessment of Young Children, Birth-Eight**3 Credits**

Covers instruments and procedures for assessing young children and their families in order to determine atypical development. Screening, diagnosis, program planning, placement and evaluation issues are covered. Same as SPED 551.

Prerequisite: SPED 450.

SPED 452. Foundations of Visual Impairment**3 Credits**

This course provides an overview of the history and theory of teaching students with visual impairments, including those with additional disabilities. The impact of educational, legislative, and societal trends on the psychosocial adjustment, quality of life, and post-school outcomes of individuals with visual impairments is explored. Taught with SPED 532 and SPED 632. Consent of Instructor required.

SPED 453. Functional Implications of Low Vision**3 Credits**

This course examines the structure and function of the visual system in relation to associated diseases and syndromes with an emphasis on measuring functional vision and determining appropriate educational adaptations. Taught with SPED 533 and SPED 633.

SPED 454. Strategies for Teaching Students with Visual and Multiple Impairments**3 Credits**

This course defines the roles and responsibilities of the teacher of students with visual impairments as part of the transdisciplinary team that serves students with visual impairments and additional disabilities. Emphasis is on assessment, curricula (both academic and functional), communication, behavior management, assistive technologies, inclusion, transition, and independent living. Taught with SPED 534 and SPED 634.

Prerequisite(s): SPED 453.

SPED 455. Braille I: Literacy for Students with Visual Impairments**3 Credits**

This course facilitates an in-depth study of the Uncontracted and Contracted Literary Braille codes as well as methods of teaching pre-braille, braille reading, and braille writing skills to tactile learners. Taught with SPED 536 and SPED 636.

**SPED 457. Braille II: Literacy Skills for Students with Visual Impairments
3 Credits**

This course facilitates an indepth study of the Nemeth Braille Code for Mathematics and Science Notation as well as instructional strategies for using the abacus and developing numeracy. Specialized braille codes for computers, music, and foreign languages will be introduced. Taught with SPED 538 and SPED 638.

Prerequisite(s): SPED 455 or SPED 536 or SPED 636 or Consent of Instructor.

**SPED 458. Intellectual Disabilities in a Diverse Society: An Introduction
3 Credits**

Dealing with history, philosophy, goals and objectives, classification, and characteristics of intellectual disabilities. Taught with SPED 558 and SPED 658 with differentiated assignments. Consent of instructor required. Restricted to SPED majors.

Prerequisite(s): SPED 350 or SPED 500 or consent of instructor.

**SPED 459. Classroom Management for Diverse Learners
3 Credits**

Behavior-change strategies for exceptional learners.

**SPED 460. Strategies for Teaching Students with Visual Impairments
3 Credits**

This course covers individualized educational programming in both the core and expanded core curriculums for children and youth with visual impairments with an emphasis on assessment, curricular adaptations, IFSP/IEP/ITP planning, and evidence-based practices. Taught with SPED 539 and SPED 639. Consent of Instructor required. Restricted to: SPED majors.

Prerequisite(s): SPED 453, SPED 455, SPED 457 or Consent of Instructor.

**SPED 463. Introduction to Assessment of Diverse Exceptional Learners
3 Credits**

Theory and use of norm and criterion-referenced instruments and learning theories in the classroom; planning of prescriptive instructional programs.

**SPED 466. The Learning Disabled Student in a Diverse Society
3 Credits**

Current definitions, conceptualizations, and techniques. Taught with SPED 566 SPED 666 with differentiated assignments. Restricted to SPED majors.

Prerequisite(s): SPED 350 or 500 or consent of instructor.

**SPED 467. Behavior Disorders in a Diverse Society
3 Credits**

An in-depth study of the classification, characteristics, educational needs, and professional literature regarding individuals with behavior disorders. Taught with SPED 567 and SPED 667 with differentiated assignments. Restricted to SPED majors.

Prerequisite(s): SPED 350 or SPED 500 or consent of instructor.

**SPED 470. Life Span Development and Transition in a Diverse Society
3 Credits**

Special problems associated with transitions over the life span, with emphasis on adolescent and adult needs. Attention to service approaches for public schools, sheltered workshops, residential hospitals, and group homes.

**SPED 480. Secondary Curriculum, Methods, and Materials for Special Education in a Diverse Society
3 Credits**

Curriculum theory and development for elementary special education programs. Various teaching methods utilized with secondary exceptional learners and techniques for identifying, adapting, and developing materials will be addressed. Taught with SPED 580.

**SPED 481. Practicum in Education, Equity and Cultural Diversity
3 Credits**

This is a supervised experience in providing special education services to local preK-12 students. In the context of the public school classroom, teacher candidates are guided to apply content knowledge from the seminar meetings and from prior coursework. Restricted to: SPED majors.

Prerequisite(s): SPED 350 and SPED 360 or consent of instructor.

**SPED 482. Student Teaching SPED
12 Credits**

Supervised teaching in a special education classroom and participation in a required seminar. Restricted to: SPED majors.

Prerequisite(s): SPED 481 and admission to student teaching.

**SPED 483. Early Childhood SPED Student Teaching
6 Credits**

A student teaching experience designed for students studying early childhood special education. Restricted to majors. Same as SPED 583.

Prerequisites: SPED 281 and admission to student teaching.

**SPED 485. Introduction to Autism
3 Credits**

This course will provide an overview of autism spectrum disorders as a triad of impairments, including historical and theoretical perspectives, assessment issues, characteristics of autism, intervention programs, and family issues. Taught with SPED 585 and SPED 685.

**SPED 486. Behavior and Autism
3 Credits**

This course will cover the first of the triad of impairments. Students will gain an understanding of the behaviors of children with autism. Students will examine several behavior management philosophies and research based interventions and how they can be applied in the educational setting. Attention will also be given to play skills. The family perspective and participation in the proactive behavior management process will be incorporated throughout the course. Taught with SPED 586 and SPED 686 with differentiated assignments.

Prerequisite(s)/Corequisite(s): SPED 485 or SPED 585 or SPED 685.

**SPED 487. Social Skills and Autism
3 Credits**

This course will cover the second of the triad of impairments. As a blend of researched based models and evidenced based practical applications, students will gain an understanding of the social skill deficits often associated with autism spectrum disorders. Review a variety of social cognition theories and explore effective social skill interventions for children functioning at a variety of levels along the autism spectrum. Taught with SPED 587 and SPED 687 with differentiated assignments.

Prerequisite(s)/Corequisite(s): SPED 485 or SPED 585 or SPED 685.

SPED 488. Communication and Autism**3 Credits**

This course will cover the third of the triad of impairments. Students will gain an overview of communication characteristics and difficulties often associated with autism spectrum disorders. Review current tools and strategies used to assess speech, language, and interaction skills. Use assessment results to identify needs and implement appropriate interventions. Explore a variety of intervention strategies aimed at building receptive, expressive, and pragmatic language of children functioning at a variety of levels along the autism spectrum. Taught with SPED 588 and SPED 688 with differentiated assignments.

Prerequisite(s): SPED485 or SPED585 or SPED685.

SPED 489. Topics**3 Credits**

Offered under various subtitles which indicate the subject matter to be covered. May be repeated 3 times for a maximum of 9 credits.

SPED 495. Directed Study courses in Special Education**1-3 Credits**

Each course shall be identified by a qualifying subtitle. A maximum of 3 credits per semester and a grand total of 9 credits.

SPED 500. Introduction to Special Education in a Diverse Society**3 Credits**

This course introduces the field of special education to regular educators.

SPED 501. Topics in Special Education**1-3 Credits**

Offered under various subtitles which indicate the subject matter to be covered. Maximum of 6 credits, 3 credits per semester.

SPED 502. Problems**1-3 Credits**

Offered under various subtitles which indicate the subject matter to be covered. Maximum of 6 credits, 3 credits per semester.

SPED 503. Contemporary Development**1-3 Credits**

Offered under various subtitles which indicate the subject matter to be covered. Maximum of 6 credits, 3 credits per semester.

SPED 504. Introduction to Assessment of Diverse Exceptional Learners**3 Credits**

Required for students seeking licensure at graduate level. Theory and use of norm-and criterion-referenced instruments and learning theories in the classroom; planning of prescriptive instructional programs with differentiated assignments for graduate students. Crosslisted with: SPED 463. Restricted to: SPED majors.

SPED 506. High Incidence Disabilities in a Diverse Society**3 Credits**

Examines those areas of disability that most frequently occur in the special education population, including mental retardation, learning disabilities, communication disorders, and behavioral and emotional disorders.

SPED 507. Low Incidence Disabilities in a Diverse Society**3 Credits**

Examines those disabilities that occur less frequently in the special education population, including hearing loss, visual disorders, autism, and other severe manifestations. Taught with SPED 607 with differentiated assignments.

SPED 508. Nature and Needs of Gifted Learners**3 Credits (3)**

An introductory course in the education of gifted students. The course provides an overview of the current and historical issues in the field. The intellectual, social, emotional, development, and educational characteristics of gifted students are introduced. Appropriate educational opportunities and programming are discussed. Issues in identification of the gifted, special gifted populations, and current research are reviewed. Taught with SPED 608

SPED 509. Reading for Elementary Exceptional Learners in a Diverse Society, K-6**3 Credits**

Emphasizes reading diagnosis and materials for students with special developmental and learning problems. Taught with SPED 409.

SPED 510. Current Issues in Special Education for Teaching in Culturally Responsive Society**3 Credits**

Theoretical and empirical bases for special education practices. Skill development in critical thinking, reading, and writing in relation to contemporary problems. Taught with SPED 610.

SPED 511. Reading for Secondary Exceptional Learners in a Diverse Society, 7-12**3 Credits**

Extends information covered in SPED 509, which covers grades K 6. Strategies and materials are addressed. Taught with SPED 411.

SPED 512. Curriculum for Gifted Learners**3 Credits (3)**

This course focuses upon the development of appropriate curriculum, courses, and units for gifted learners. Taught with SPED 612.

SPED 513. Current Research in Special Education**3 Credits**

Current investigations and research techniques.

SPED 514. Twice Exceptional and Special Populations of Gifted Learners**3 Credits (3)**

This course is designed for all professional personnel who work with students who are gifted. It focuses on special populations of gifted learners who possess unique characteristics and needs. Emphases are placed on issues related to the characteristics, identification, and development of appropriate educational services for twice exceptional and special populations of gifted learners. Taught with SPED 614

SPED 516. Strategies for Teaching Gifted Learners**3 Credits (3)**

This course comprehensively reviews teaching-learning models that can be used in the development and implementation of a curriculum for gifted students. The field of gifted education has seen new program models developed, more research accomplished, and new materials published, and this class examines these changes. Taught with SPED 616

SPED 519. School Interventions and Organization in a Diverse Society**3 Credits**

Introduces public school organization and laws and the psycho-sociological perspective of education. Curriculum and theory, teaching methods and materials will be presented and operationalized through a psycho-educational point of view. Restricted to majors. Taught with SPED 619.

SPED 520. Reading Disabilities Structure of Language**3 Credits**

The purpose of this course is to introduce the student to the structure of language, including phonology, morphology, syntax, semantics, and to orthography. In addition, students in this course will study each area of language and able to use this information in analyzing the process of reading and writing.

SPED 521. Intervention Techniques for Reading Disabilities**3 Credits**

This course focuses on the systematic and explicit teaching of reading and writing skills. Included will be a summation of the most current reading research and its relevance to the field.

SPED 522. Practicum in Reading Disabilities**3 Credits**

Supervised experience in assessing a student with reading disability, developing and intervention plan, and implementing and monitoring the interventions across time.

SPED 523. Advanced Curriculum for Diverse Exceptional Learners**3 Credits**

Strategies for developing curricula appropriate to handicapped and gifted learners.

Prerequisite: SPED 360 or consent of instructor.

SPED 532. Foundations of Visual Impairment**3 Credits**

This course provides an overview of the history and theory of teaching students with visual impairments, including those with additional disabilities. The impact of educational, legislative, and societal trends on the psychosocial adjustment, quality of life, and post-school outcomes of individuals with visual impairments is explored. Taught with SPED 452 and SPED 632 with differentiated assignment.

SPED 533. Functional Implications of Low Vision**3 Credits**

This course examines the structure and function of the visual system in relation to associated diseases and syndromes with an emphasis on measuring functional vision and determining appropriate educational adaptations. Taught with SPED 453 and SPED 633.

SPED 534. Strategies for Teaching Students with Visual and Multisensory Impairments**3 Credits**

This course defines the roles and responsibilities of the teacher of students with visual impairments as part of the transdisciplinary team that serves students with visual impairments and additional disabilities. Emphasis is on assessment, curricula (both academic and functional), communication, behavior management, assistive technologies, inclusion, transition, and independent living. Taught with SPED 454 and SPED 634.

Prerequisite(s): SPED 533.

SPED 536. Braille I: Literacy for Students with Visual Impairments**3 Credits**

This course facilitates an in depth study of the Uncontracted and Contracted Literary Braille codes as well as methods of teaching pre-braille, braille reading, and braille writing skills to tactual learners. Taught with SPED 455 and SPED 636.

SPED 537. Independent Readings in Special Education**1-3 Credits**

Each course shall be identified by a qualifying subtitle. Maximum of 6 credits, 3 credits per semester.

SPED 538. Braille II: Numeracy for Students with Visual Impairments**3 Credits**

This course facilitates an indepth study of the Nemeth Braille Code for Mathematics and Science Notation as well as instructional strategies for using the abacus and developing numeracy. Specialized braille codes for computers, music, and foreign languages will be introduced. Taught with SPED 457 and SPED 638 with differentiated assignments.

Prerequisite(s): SPED 455 or SPED 536 or SPED 636 consent of instructor.

SPED 539. Strategies for Teaching Students with Visual Impairments**3 Credits**

This course covers individualized educational programming in both the core and expanded core curriculums for children and youth with visual impairments with an emphasis on assessment, curricular adaptations, IFSP/IEP/ITP planning, and evidence-based practices. Taught with 460 and SPED 639. Restricted to: SPED majors.

Prerequisite(s): SPED 533, SPED 536, SPED 538.

SPED 541. Assessment of Reading and Writing**3 Credits**

Differential diagnosis of reading and writing disabilities is the focus of this course. Students will develop competencies to diagnose different types of reading problems, including dyslexia. Students will be taught how accurate differential diagnosis leads directly to targeted intervention.

SPED 545. Technology and Exceptionality in a Diverse Society**3 Credits**

This class will address the unique educational needs of learners with exceptionalities, and will provide information and practice in addressing those needs through the use of technology-based interventions. Taught with SPED 645.

SPED 548. Field Experience in Education, Equity & Cultural Diversity**3 Credits**

This is a supervised experience in providing special education services to local preK-12 students. In the context of the public school classroom, teacher candidates are guided to apply content knowledge from the seminar meetings and from prior coursework. This experience is designed for both the practicing general education classroom teacher pursuing special education licensure and for graduate teacher candidates pursuing initial special education licensure. Restricted to: SPED majors.

Prerequisite(s): SPED 350 and SPED 360, or SPED 500 and SPED 523, or consent of instructor.

SPED 550. Working with Young Children with Special Needs, Ages 3-8**3 Credits**

Addresses competencies for working with young children with exceptionalities, ages three eight, and their families. Public school, private school, Head Start and other models are included. Same as SPED 450 with differentiated assignments for graduate students. Same as ECED 550.

Prerequisite: SPED 500 or equivalent, or consent of instructor.

SPED 551. Assessment of Young Children, Birth Eight**3 Credits**

Covers instruments and procedures for assessing young children and their families in order to determine atypical development. Screening, diagnosis, program planning, placement and evaluation issues are covered. Same as SPED 451.

Prerequisite: SPED 550 or consent of instructor.

SPED 552. Introduction to Orientation and Mobility**3 Credits**

This course provides an overview of the history and theory of formalized orientation and mobility instruction as it relates to the ability to live independently. The impact of visual impairment and concomitant impairments on the development of spatial concepts and motor skills in relation to independent locomotion is emphasized. Topics covered include mobility aids; navigation, familiarization, and protective techniques; structured pre-cane assessment and instruction; the development and use of tactual maps; and the relationship of orientation and mobility to other areas of the expanded core curriculum. Consent of Instructor required. Restricted to: SPED, EDUC majors.

SPED 553. Beginning Orientation and Mobility**3 Credits**

This course provides an overview of the profession of orientation and mobility and how sensory, motor, and psychosocial function affects movement and spatial orientation. Consent of Instructor required. Restricted to: SPED majors.

Prerequisite(s): SPED 552.

SPED 554. Intermediate Orientation and Mobility**3 Credits**

This course focuses on strategies and methods for conducting assessments and appropriately sequencing skill acquisition for learners across the lifespan who may or may not have additional disabilities. Adaptive technology and other aids that assist with travel in a variety of environmental conditions using different mobility systems will also be covered. Consent of Instructor required. Restricted to: SPED majors.

Prerequisite(s): SPED 553.

SPED 555. Advanced Orientation and Mobility**3 Credits**

This course focuses on the development and monitoring of cane skills needed for safe and efficient travel in indoor, residential, and business districts, including the use of public transportation systems. Development, administration, and supervision of orientation and mobility services is also covered. Consent of Instructor required. Restricted to: SPED majors.

Prerequisite(s): SPED 554.

SPED 558. Intellectual Disabilities in a Diverse Society: An Introduction**3 Credits**

Dealing with history, philosophy, goals and objectives, classification, and characteristics of intellectual disabilities. Same as SPED 458 and SPED 558 with differentiated assignments for graduate students. Consent of instructor required. Restricted to SPED majors.

Prerequisite(s): SPED 350 or SPED 500.

SPED 559. Classroom Management for Diverse Learners**3 Credits**

Behavior-change strategies for exceptional learners. Taught with SPED 459 with differentiated assignments for graduate students.

SPED 563. Assessment and Consultation for Exceptional Multicultural Populations**3 Credits**

Covers formal and informal methods of assessment as well as consultation models for multicultural populations. Same as BIL 563, BIL 663, SPED 663.

SPED 566. The Learning Disabled Student in a Diverse Society**3 Credits**

Current definitions, conceptualizations, and techniques. Taught with SPED 466 with differentiated assignments for graduate students. Restricted to SPED majors.

Prerequisite(s): SPED 350 or SPED 500.

SPED 567. Behavior Disorders in a Diverse Society**3 Credits**

An in-depth study of the classification, characteristics, educational needs, and professional literature regarding individuals with behavior disorders. Taught with SPED 467 and SPED 667 with differentiated assignments. Restricted to SPED majors.

Prerequisite(s): SPED 350 or SPED 500 or consent of instructor.

SPED 570. Life Span Development and Transition in a Diverse Society**3 Credits**

Covers special problems associated with transitions over the life span, with emphasis on adolescent and adult needs. Attention to service approaches for public schools, sheltered workshops, residential hospitals, and group homes. Taught with SPED 470.

SPED 580. Curriculum, Methods, and Materials for Secondary Special Education**3 Credits**

Curriculum theory and development for elementary special education programs. Various teaching methods utilized with secondary exceptional learners and techniques for identifying, adapting, and developing materials will be addressed. Taught with SPED 480.

SPED 582. Student Teaching SPED**12 Credits**

Culminating course required for graduate level students seeking initial licensure. Restricted to: SPED majors.

Prerequisite(s): Bachelor's degree, SPED 548, and admission to student teaching.

SPED 585. Introduction to Autism**3 Credits**

This course will provide an overview of autism spectrum disorders as a triad of impairments, including historical and theoretical perspectives, assessment issues, characteristics of autism, intervention programs, and family issues. Taught with SPED 485 and SPED 685. Differentiated Assignments.

SPED 586. Behavior and Autism**3 Credits**

This course will cover the first of the triad of impairments. Students will gain an understanding of the behaviors of children with autism. Students will examine several behavior management philosophies and research based interventions and how they can be applied in the educational setting. Attention will also be given to play skills. The family perspective and participation in the proactive behavior management process will be incorporated throughout the course. Taught with SPED 486 and SPED 686 with differentiated assignments.

Prerequisite(s): SPED 485 or SPED 585 or SPED 685.

SPED 587. Social Skills and Autism**3 Credits**

This course will cover the second of the triad of impairments. As a blend of researched based models and evidenced based practical applications, students will gain an understanding of the social skill deficits often associated with autism spectrum disorders. Review a variety of social cognition theories and explore effective social skill interventions for children functioning at a variety of levels along the autism spectrum. Taught with SPED 487 and SPED 687 with differentiated assignments.

Prerequisite(s): SPED 485 or SPED 585 or SPED 685.

SPED 588. Communication and Autism**3 Credits**

This course will cover the third of the triad of impairments. Students will gain an overview of communication characteristics and difficulties often associated with autism spectrum disorders. Review current tools and strategies used to assess speech, language, and interaction skills. Use assessment results to identify needs and implement appropriate interventions. Explore a variety of intervention strategies aimed at building receptive, expressive, and pragmatic language of children functioning at a variety of levels along the autism spectrum. Taught with SPED 488 and SPED 688 with differentiated assignments.

Prerequisite(s): SPED 485 or SPED 585 or SPED 685.

SPED 590. Masters Degree Seminar**3 Credits**

Capstone review of current issues in special education. Each student will participate in a practice comprehensive oral exam.

SPED 598. Special Research Problems**1-3 Credits**

Individual investigation either analytical or experimental. May be repeated for a maximum of 6 credits, 3 credits per semester.

SPED 599. Master's Thesis**15 Credits**

Thesis.

SPED 600. Doctoral Research**1-15 Credits**

Research.

SPED 605. Independent Study Topics in Special Education**1-6 Credits**

A problem and seminar course for those pursuing an advanced graduate degree. Each course to bear an appropriate subtitle.

SPED 606. High Incidence Disabilities in a Diverse Society**3 Credits**

Examines those areas of disability that most frequently occur in the special education population, including mental retardation, learning disabilities, communication disorders, and behavioral and emotional disorders. Taught with SPED 506. Restricted to SPED and C D majors.

Prerequisite: Master's Degree.

SPED 607. Low Incidence Disabilities**3 Credits**

Examines those disabilities that occur less frequently in the special education population, including hearing loss, visual disorders, autism, and other severe manifestations. Taught with SPED 507 with differentiated assignments.

SPED 608. Nature and Needs of Gifted Learners**3 Credits (3)**

An introductory course in the education of gifted students. The course provides an overview of the current and historical issues in the field. The intellectual, social, emotional, development, and educational characteristics of gifted students are introduced. Appropriate educational opportunities and programming are discussed. Issues in identification of the gifted, special gifted populations, and current research are reviewed. Taught with SPED 508

SPED 610. Current Issues in Special Education for Teaching in a Culturally Responsive Society**3 Credits**

Required for students seeking the Ed.D./Ph.D. Taught with SPED 510.

SPED 612. Curriculum for Gifted Learners**3 Credits (3)**

This course focuses upon the development of appropriate curriculum, courses, and units for gifted learners. Taught with SPED 512

SPED 613. Current Research in Special Education**3 Credits**

Required for students seeking the Ed.D./Ph.D. Restricted to majors. Same as SPED 513.

Prerequisite: M.A. degree.

SPED 614. Twice Exceptional and Special Populations of Gifted Learners**3 Credits (3)**

This course is designed for all professional personnel who work with students who are gifted. It focuses on special populations of gifted learners who possess unique characteristics and needs. Emphases are placed on issues related to the characteristics, identification, and development of appropriate educational services for twice exceptional and special populations of gifted learners. Taught with SPED 514

SPED 616. Strategies for Teaching Gifted Learners**3 Credits (3)**

This course comprehensively reviews teaching-learning models that can be used in the development and implementation of a curriculum for gifted students. The field of gifted education has seen new program models developed, more research accomplished, and new materials published, and this class examines these changes. Taught with SPED 516.

SPED 619. School Intervention and Organization in a Diverse Society**3 Credits**

Introduces public school organization and laws and the psycho-sociological perspective of education. Curriculum and theory, teaching methods and materials will be presented and operationalized through a psycho-educational point of view. Restricted to majors. Taught with SPED 519.

SPED 632. Foundations of Visual Impairment**3 Credits**

This course provides an overview of the history and theory of teaching students with visual impairments, including those with additional disabilities. The impact of educational, legislative, and societal trends on the psychosocial adjustment, quality of life, and post-school outcomes of individuals with visual impairments is explored. Taught with SPED 452 and SPED 532.

SPED 633. Functional Implications of Low Vision**3 Credits**

This course examines the structure and function of the visual system in relation to associated diseases and syndromes with an emphasis on measuring functional vision and determining appropriate educational adaptations. Taught with SPED 453 and SPED 533.

SPED 634. Strategies for Teaching Students with Visual and Multiple Impairments**3 Credits**

This course defines the roles and responsibilities of the teacher of students with visual impairments as part of the transdisciplinary team that serves students with visual impairments and additional disabilities. Emphasis is on assessment, curricula (both academic and functional), communication, behavior management, assistive technologies, inclusion, transition, and independent living. Taught with SPED 454 and SPED 534.

Prerequisite(s): SPED 633.

SPED 636. Braille I: Literacy for Students with Visual Impairments**3 Credits**

This course facilitates an in-depth study of the Uncontracted and Contracted Literary Braille codes as well as methods of teaching pre-braille, braille reading, and braille writing skills to tactual learners. Taught with SPED 455 and SPED 536.

SPED 638. Braille II: Numeracy for Students with Visual Impairments**3 Credits**

This course facilitates an indepth study of the Nemeth Braille Code for Mathematics and Science Notation as well as instructional strategies for using the abacus and developing numeracy. Specialized braille codes for computers, music, and foreign languages will be introduced. Taught with SPED 457 and SPED 538.

Prerequisite(s): SPED 455 or SPED 536 or SPED 636.

SPED 639. Strategies for Teaching Students with Visual Impairments**3 Credits**

This course covers assessment, curricular adaptation's, knowledge of transition age, young children with multiple disabilities, and assistive technology. Taught with SPED 460 and SPED 539. Consent of Instructor required. Restricted to: SPED majors.

Prerequisite(s): SPED 633, SPED 636, SPED 638 or Consent of Instructor.

SPED 640. Internship in Special Education**1-6 Credits**

Each course bears a qualifying subtitle. Maximum of 6 credits per semester.

SPED 645. Technology and Exceptionality in a Diverse Society**3 Credits**

This class will address the unique educational needs of learners with exceptionalities, and will provide information and practice in addressing those needs through the use of technology-based interventions. Taught with SPED 545.

SPED 662. Elementary Curriculum Methods and Materials for Special Education in a Diverse Society**3 Credits**

ESL and bilingual methods applied to bilingual exceptional students. Appropriate curriculum needs and materials development are also included. Taught with SPED 360, SPED 562.

SPED 685. Introduction to Autism**3 Credits**

This course will provide an overview of autism spectrum disorders as a triad of impairments, including historical and theoretical perspectives, assessment issues, characteristics of autism, intervention programs, and family issues. Differentiated Assignments. Taught with SPED 585 and SPED 485.

SPED 686. Behavior and Autism**3 Credits**

This course will cover the first of the triad of impairments. Students will gain an understanding of the behaviors of children with autism. Students will examine several behavior management philosophies and research based interventions and how they can be applied in the educational setting. Attention will also be given to play skills. The family perspective and participation in the proactive behavior management process will be incorporated throughout the course. Taught with SPED 486 and SPED 586 with differentiated assignments.

Prerequisite(s): SPED485 or SPED585 or SPED685.

SPED 687. Social Skills and Autism**3 Credits**

This course will cover the second of the triad of impairments. As a blend of researched based models and evidenced based practical applications, students will gain an understanding of the social skill deficits often associated with autism spectrum disorders. Review a variety of social cognition theories and explore effective social skill interventions for children functioning at a variety of levels along the autism spectrum. Taught with SPED 487 and SPED 587 with differentiated assignments.

Prerequisite(s)/Corequisite(s): SPED 485 or SPED 585 or SPED 685.

SPED 688. Communication and Autism**3 Credits**

This course will cover the third of the triad of impairments. Students will gain an overview of communication characteristics and difficulties often associated with autism spectrum disorders. Review current tools and strategies used to assess speech, language, and interaction skills. Use assessment results to identify needs and implement appropriate interventions. Explore a variety of intervention strategies aimed at building receptive, expressive, and pragmatic language of children functioning at a variety of levels along the autism spectrum. Taught with SPED 488 and SPED 588 and differentiated assignments.

Prerequisite(s): SPED 485 or SPED 585 or SPED 685.

SPED 690. Doctoral Seminar**1-4 Credits (1-4)**

The seminar will engage doctoral students in scholarly dialogue and production. It will assist in preparing them for future careers in leadership roles. Same as CD 690.

SPED 698. Selected Topics in Special Education**1-6 Credits**

Offered under various subtitles which indicate the subject matter to be covered. Maximum of 6 credits, 3 credits per semester.

SPED 700. Dissertation**9 Credits**

Credit may be earned by students who have successfully completed their doctoral comprehensive exams and presented their dissertation proposals to their committees. At least 18 credits are required during the course of dissertation study. May be repeated for a maximum of 24 credits. Restricted to majors.

STAT-STATISTICS (STAT)

STAT 251G. Statistics for Business and the Behavioral Sciences**3 Credits**

Techniques for describing and analyzing data; estimation, hypothesis testing, regression and correlation; basic concepts of statistical inference. Crosslisted with: A ST 251G.

Prerequisite(s): C- or better in MATH 120.

STAT 271G. Statistics for Psychological Sciences**3 Credits**

Techniques for describing and analyzing data; basic concepts of statistical inference; estimation, hypothesis testing, correlation, and analysis of variance.

Prerequisite(s): C- or better in MATH 120.

STAT 371. Statistics for Engineers and Scientists I**3 Credits**

Modern probability and statistics with applications to the engineering sciences.

Prerequisite(s): C- or better in MATH 192.

STAT 400. Undergraduate Research**1-3 Credits**

Arrangements must be made with supervising professor before registration. May be repeated for a maximum of 6 credits.

STAT 470. Probability: Theory and Applications**3 Credits**

Basic probability distributions including binomial, normal; random variables, expectation; laws of large numbers; central limit theorem.

Prerequisite(s): C- or better in MATH 291 and C- or better in at least one-300 level Math course.

STAT 480. Statistics: Theory and Applications**3 Credits**

Point and interval estimation; sufficiency; hypothesis testing; regression; analysis of variance; chi-square tests.

Prerequisite(s): C- or better in STAT 470.

STAT 515. Probability: Theory and Applications**3 Credits**

Same as STAT 470 with additional work for graduate students.

STAT 525. Statistics: Theory and Applications**3 Credits**

Same as STAT 480 with additional work for graduate students.

STAT 535. Elementary Stochastic Processes**3 Credits**

Markov chains, Poisson processes, Brownian motion, branching processes, and queueing processes, with applications to the physical, biological, and social sciences.

Prerequisite: STAT 515 or consent of instructor.

STAT 540. Directed Reading**1-6 Credits**

May be repeated for a maximum of 6 credits. Graded S/U.

Prerequisite: consent of instructor and graduate committee.

STAT 562. Foundations of Probability**3 Credits**

Probability spaces, expectation and conditional expectation, limit theorems and laws of large numbers.

Prerequisite: MATH 593.

STAT 571. Continuous Multivariate Analysis**3 Credits**

Theory and applications of the multivariate normal distribution.

Prerequisites: MATH 480 and STAT 525, or consent of instructor.

STAT 572. Linear Models**3 Credits**

Core topics include distribution of quadratic forms, theory of regression, analysis of variance and covariance in linear models. Advanced topics chosen from random and mixed linear models, generalized linear, growth curve, and nonlinear models, quartile and copula regression. May be repeated up to 6 credits.

Prerequisite(s): STAT 571.

STAT 581. Advanced Theory of Statistics I**3 Credits**

Testing hypotheses, probability and sufficiency, uniformly most powerful tests, unbiasedness, invariance, and minimax principle.

Prerequisite: STAT 525 or consent of instructor.

STAT 582. Advanced Theory of Statistics II**3 Credits**

Estimation of parameters; unbiased estimators; equivariance; Bayes properties; large sample theory and optimality.

Prerequisite: STAT 581 or consent of instructor.

STAT 598. Special Research Problems**1-3 Credits**

Individual investigations or consulting programs. Maximum of 3 credits.

SUR-SURVEYING (SUR)

SUR 101. Introduction to Surveying Engineering**1 Credit**

Review and discussion of career paths open to surveying engineers.

Restricted to: Main campus only.

SUR 201. GPS and Spatial Data Applications**3 Credits**

Overview of spatial data applications based on GPS observations. Emphasis on positioning and navigation using code-phase techniques with handheld receivers. Use of coordinate systems. Students encouraged to have their own GPS handheld unit.

SUR 222. Plane Surveying**3 Credits (2+3P)**

Theory and practice of geomatics as applied to plane surveying in the areas of linear measurements, angle measurements, area determination, differential and trigonometric leveling, and topographic mapping. May be repeated up to 3 credits. Crosslisted with: DRFT 222.

Prerequisite(s): MATH 190G.

SUR 264. Introduction to LIS**3 Credits (2+3P)**

Introduction to land information systems. Land tenure systems, coordinate systems, computer methods. Pre/

Corequisite(s): DRFT 109.

SUR 285. Precise Digital Mapping**3 Credits**

Perform basic photogrammetric mapping, and create digital terrain models. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): SUR 222 or DRFT 222.

SUR 292. Public Land Survey System Boundaries**3 Credits (2+3P)**

Detailed study of the U.S. Public Land Survey System Instructions with special emphasis on New Mexico. Sectionalized land subdivision, corner restoration, and field surveys. Field trips required.

Prerequisite: SUR 222.

SUR 312. Legal Principles and Boundary Law I**3 Credits**

Legal principles of property boundary retracement, and rights-of-way. Systems of law and legal research. Principles of the U.S. Public Land Survey System and manual of Instructions May be repeated up to 3 credits.

Prerequisite(s): SUR 222 or DRFT 222.

SUR 322. Laser Scanning Mapping Technologies**3 Credits (2+2P)**

Perform basic terrestrial & airborne LiDAR scan, LiDAR Technologies and Applications will include ranging technologies such as LiDAR, SAR, and Bathymetry, point cloud data management & extraction, scan registration and processing

Prerequisite(s): SUR 285.

SUR 328. Construction Surveying & Automation Technologies**3 Credits (2+3P)**

Construction Surveying Principles: conventional and machine controlled. Layout alignments, grades, various infrastructure, buildings. Understand error identification, common quality control checks and blunder identification. May be repeated up to 3 credits.

Prerequisite(s): (SUR 222 or DRFT 222) and (MATH 191G or MATH 235).

SUR 330. Computer Applications of Surveying**3 Credits (2+3P)**

Advanced application of concepts and tools used in the manipulation of geospatial data in a computer environment. Topics include the use of surveying-specific software applications for problem solving, analysis and generation of spatial data products. Advanced programming skills in a high level language are presented and applied.

Prerequisite(s): DRFT 109 AND SUR 222, and (MATH 191G or MATH 235) and (C S 187 or E T 262 or E E 161).

SUR 351. Introductory Spatial Data Adjustment I**3 Credits**

Theory of observations/measurements, random error theory, applications of statistical data analysis in surveying, confidence intervals and statistical testing, propagation of random errors. May be repeated up to 3 credits.

Prerequisite(s): (SUR 222 or DRFT 222) and (MATH 191G or MATH 235) and (A ST 311G or STAT 251G).

SUR 361. Introduction to Geodesy/Geodetic Control Surveying**3 Credits (2+2P)**

Horizontal and vertical control network design and consideration. May be repeated up to 3 credits.

Prerequisite(s): (SUR 222 or DRFT 222) and (MATH 191G or MATH 235).

SUR 370. Control Surveying**3 Credits (2+3P)**

Design and use of survey control networks. Includes Horizontal, Vertical and 3D networks. Use of standards in control surveying. History of control surveying.

Prerequisite(s): SUR 222 and (MATH 191G or MATH 235G).

SUR 384. Surveying Practicum**1-3 Credits**

Surveying practice under the direction of a licensed, professional land surveyor requiring 45 hours per credit as per a plan worked out between the student and the surveyor and approved by the Surveying Engineering faculty. Work must be certified by the licensed, professional land surveyor. Requires a written report by the student.

Prerequisites: SUR 222 and junior standing.

SUR 401. Ethics and Professionalism in Surveying and Mapping**3 Credits**

Ethics as applied to the surveying profession. Includes case studies and problems.

Prerequisites: SUR 312, SUR 328, and senior standing.

SUR 412. Advanced Topics in Boundary Surveying**3 Credits (2+3P)**

Advanced land boundary topics including water boundaries, mineral claims, Spanish and Mexican land grants, state and national boundaries.

Prerequisite: SUR 312.

SUR 450. Senior Project**1 Credit**

Research project prepared by student. Includes class presentation. Students will learn how to research after the end of their formal education.

Prerequisite(s): Senior Standing.

SUR 451. Advanced Survey Measurements, Analysis, and Adjustments**3 Credits**

Rigorous analysis of the theory of observations as applied to spatial data, application of least squares adjustments, ability to perform statistical analysis to determine accuracy of final product, constrained/free geospatial data integration, error ellipses, and pre-analysis of spatial data acquisition procedures. May be repeated up to 3 credits.

Prerequisite(s): SUR 351, (MATH 280 or MATH 480).

SUR 452. Spatial Data Integration and Analysis**3 Credits (2+2P)**

Methodologies of geospatial data acquisition and integration, knowledge of applications the source data is intended for, accuracies of acquired spatial data, types and analysis of coordinate transformation models. Integrating datasets for routing analysis, location study analysis, land management and long range plans as well as existing needs related to connectivity and safety. May be repeated up to 3 credits.

Prerequisite(s): SUR 451.

SUR 461. GNSS Positioning**3 Credits (2+3P)**

Logistics of GNSS data collection, the GPS signal, codes and biases, error sources, differences between relative and autonomous GNSS positioning, code phase carrier phase, DGPS static and RTK surveys. Geodetic and GPS standards and specifications GNSS data processing, network adjustments, and evaluation of spatial data accuracy practical applications of GNSS May be repeated up to 3 credits.

Prerequisite(s): SUR 361.

SUR 464. Legal Principles and Boundary Law II**3 Credits**

Concepts of real property, land tenure and ethics, and land registration systems; the function and design of multipurpose cadastre and land information systems. May be repeated up to 3 credits. Consent of Instructor required.

Prerequisite(s): SUR 312.

SUR 498. Emerging Technology in Geomatics**3 Credits**

Hydrographic/Bathymetric, Altimetry, Space borne Imaging Systems, Mobile Mapping Systems, Mining and Agriculture Surveying Principles, and advanced ranging data acquisition systems. May be repeated up to 3 credits. Consent of Instructor required.

Prerequisite(s): Consent of instructor and senior standing.

SURG-SURGICAL TECHNOLOGY (SURG)

SURG 120. Surgical Technology Clinical I

2-4 Credits

This is a health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts.

This course is designed to prepare the student to enter the surgical environment. This course provides an introduction to the operating room, observation of surgical procedures, direct participation in the preoperative (pre-op, intra-op, post-op) preparation of individual cases and professional roles and responsibilities of individual members of the surgical team. Direct supervision is provided by the clinical professional. May be repeated up to 4 credits.

Prerequisite(s): Admission to Surgical Technology Program, BIOL 221, BIOL 225, BIOL 226, NURS 150.

Corequisite(s): SURG 140, SURG 145.

SURG 140. Introduction to Surgical Technology

4 Credits

This is an orientation to surgical technology theory, surgical pharmacology and anesthesia, technology sciences and patient care concepts and is designed to prepare the student to enter the surgical environment with entry-level knowledge necessary to understand patient responses to disease, illness, hospitalization, surgical procedures, commonly used pharmacological and anesthetic agents, and legal, moral, and ethical issues that could be encountered in the surgical environment. Restricted to Community Colleges campuses only.

Prerequisite(s): Admission to Surgical Technology Program; BIOL 221, BIOL 226, & NURS 150.

SURG 145. Fundamentals of Perioperative Concepts & Techniques

4-5 Credits (3+3P)

This is an in-depth coverage of perioperative concepts such as aseptic/sterile principles and practice, infectious processes, wound healing and creation and maintenance of the sterile field. This course is designed to prepare the student to enter the surgical environment with entry-level knowledge of aseptic technique principles and practices, the creation and maintenance of the sterile field including equipment, supplies and instrumentation, and basic case preparation and procedures. An introduction to diseases and disease processes that may be displayed by the surgical patient and the patient's bodily responses to disease are also included. May be repeated up to 5 credits.

Prerequisite(s): Admission to Surgical Technology Program, BIOL 221, BIOL 225, BIOL 226, & NURS 150.

SURG 150. Surgical Procedures I

4-5 Credits (3-5+3P)

This course is an introduction to surgical procedures and its related pathologies. Emphasis on surgical procedures related to general, obstetrics/gynecology, genitourinary, otorhinolaryngology and orthopedic surgical specialties incorporating instruments, equipment. It is designed to prepare the student to function actively in the surgical environment with entry-level knowledge of surgical procedures. This course expands the basic foundation principles and combines the study of common surgical procedures to include anatomy, physiology and pathophysiology. Specific patient care concepts, medications, instrumentation, equipment, supplies and complication related to selected surgical procedures will be discussed. Admission to Surgical Technology Program necessary to enroll in the course.

Prerequisite(s): SURG 140, SURG 145, and SURG 120.

SURG 155. Pharmacology for the Surgical Technology

3 Credits

This is an orientation to surgical pharmacology and anesthesia and is designed to prepare the student to enter the surgical environment with knowledge necessary to categorize the classification of drugs, calculate drug dosages and identify the therapeutic use, routes of administration, indications, contraindications and adverse effects of pharmacologic agents used in the perioperative setting. This course is the foundation for the acquisition of program specific competencies as identified by the AST Core Curriculum. Restricted to Carlsbad campus only.

SURG 160. Surgical Procedures II

4 Credits

This is an introduction to surgical procedures and related pathologies. Emphasis on surgical procedures related to thoracic, peripheral vascular, plastic/reconstructive, ophthalmology, cardiac and neurological surgical specialties incorporating instruments. The course is designed to prepare the student to continue to function actively in the surgical environment with entry-level knowledge of more complex surgical procedures. This course expands the basic foundation principles and combines the study of complex surgical procedures to include anatomy, physiology, and pathophysiology. Specific patient care concepts, medications, instrumentation, equipment, supplies, and complications related to specific surgical procedures will be discussed. Realities of clinical practice and concepts of death and dying will also be discussed. Admission to Surgical Technology Program necessary to enroll in the course. Restricted to Community Colleges campuses only.

Prerequisite(s): SURG 150, SURG 260.

SURG 230. Professional Readiness

2-3 Credits (2-3)

This course transitions the student into professional readiness for employment, professional readiness for attaining certification and professional readiness for maintaining certification status. May be repeated up to 3 credits. Admission to Surgical Technology Program necessary to enroll in the course.

Prerequisite(s): SURG 140, SURG 145, SURG 120, SURG 150, SURG 260.

Corequisite(s): SURG 160, SURG 265.

SURG 260. Surgical Technology Clinical II

4 Credits

This is a health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. This course is designed to provide the student the opportunity to function actively in the role as a surgical technologist and health care team member in a clinical setting under the direct supervision of faculty and health care staff. Applications of basic principles and practices combined with a supervised clinical experience participating in common surgical procedures is the focus. Admission to Surgical Technology Program necessary to enroll in the course. Restricted to Community Colleges campuses only.

Prerequisite(s): SURG 120, SURG 140, & SURG 145.

SURG 265. Surgical Technology Clinical III**3-7 Credits**

This is a health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. This course is designed to provide the student the opportunity to function actively in the role of a surgical technologist and health care team member in a clinical setting under the direct supervision of faculty and health care staff. Refinement and application of basic principles and practices combined with entry-level employment competency expectations is the focus. Preparation for the National Certification Examination for Surgical Technologists is also included. May be repeated up to 7 credits. Admission to Surgical Technology Program necessary to enroll in the course.

Prerequisite(s): SURG 260.

TCEN-ENVIRONMENTAL/ENERGY TECH (TCEN)

TCEN 101. Energy for the Next Generation**3 Credits (2+2P)**

This course will survey a broad range of sources of energy, types of energy, energy storage, and the forms of energy. Students will be exposed to theory in the classroom, laboratory exercises, and field trips to provide them with a solid foundation for all subsequent energy related environmental courses. Crosslisted with: OETS 101.

Prerequisite(s)/Corequisite(s): OETS 118 or MATH 120. Restricted to: Community Colleges only.

TCEN 105. Building Analyst I**3 Credits (2+2P)**

This course is designed to provide the foundational knowledge and expertise necessary for the energy auditor and home performance contractor. Crosslisted with: OETS 105. Restricted to: Community Colleges only.

TCEN 106. Building Analyst II**3 Credits (2+2P)**

Designed to prepare the student for the BPI Building Analyst Certification. This course will walk the student through the hands-on process of conducting visual building inspections, diagnostic testing, identifying improvement opportunities, documenting a home's performance and preparing a scope of work. Crosslisted with: OETS106.

Prerequisite(s)/Corequisite(s): TCEN 105 or OETS 105. Restricted to: Community Colleges only.

TCEN 110. Photovoltaic Application**4 Credits (3+2P)**

This course will provide an introduction to Photovoltaic (PV) installation. The course will provide instruction on site selection, prep, installation, and maintenance for photovoltaic applications. Students that complete the course and have the opportunity to take the entry level exam with the North American Board of Certified Energy Practitioners (NABCEP) en route to becoming Certified Installers. Crosslisted with: OETS110.

Prerequisite(s)/Corequisite(s): TCEN 101 or OETS 101. Restricted to: Community Colleges only.

TCEN 111. Basic Electrical Principles I, DC Circuits**4 Credits (3+2P)**

Course begins with the basics of electricity and DC circuits. Includes categorization of material properties within conductors, semiconductors, and insulators. Gradual progression tackles more complex topics like DC circuit analysis of series and parallel circuits, including Kirchhoff's laws, Thevenin's & Norton's theorems, and superposition. Finally DC combination circuits, magnetism and electromagnetism, generators and motors are covered. Emphasis on safety throughout. May be repeated up to 4 credits.

Prerequisite(s)/Corequisite(s): OETS 104 or MATH 120. Restricted to Community Colleges campuses only.

TCEN 112. PV Power Generation Design Fundamentals**3 Credits (2+2P)**

A study of photo voltaic design basics, photo voltaic (PV) Cells, modules, and system components; electrical circuits; grid-tied/grid-interactive PV system design and sizing for use on homes; solar electric products and applications; and understanding energy conversion from sunlight to electricity, and working with solar conversion equipment. Pre/ May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): TCEN 111 and (OETS 104 or MATH 120). Restricted to Community Colleges campuses only.

TCEN 113. OSHA 10 Hour Construction Hazard Identifications**1 Credit**

Intended for entry-level participants to provide instruction on a variety of construction safety and health standards. Topics include Introduction to OSHA, Electrical, Ladder, Excavation, Scaffold, and Forklift Hazards, Fall Protection, Materials Handling, Personnel Protective Equipment and Confined Space Entry Hazards. Meets OSHA 10-Hour Requirements.

TCEN 115. Wind Power Generation Design Fundamentals**3 Credits (2+2P)**

Course covers wind turbine module descriptions and functions and wind system installation, operation, and troubleshooting. Additional topics include wind energy harvesting and the conversion process from the generator system to electricity. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): TCEN 111 and (OETS 104 or MATH 120). Restricted to Community Colleges campuses only.

TCEN 121. Basic Electrical Principles II, AC Circuits**4 Credits (3+2P)**

Course begins with an overview of the primary components of AC circuits, such as resistors, inductors, rectifiers, transformers and capacitors, and then gradually introduces new, more complicated topics like applying AC principles in power generation and generators, motors, parallel and combination circuits, troubleshooting and evaluation of circuit conditions. May be repeated up to 4 credits.

Prerequisite(s)/Corequisite(s): TCEN 111 and (OETS 104 or MATH 120). Restricted to Community Colleges campuses only.

TCEN 130. Introduction to Biomass/Biogas**3 Credits (2+2P)**

Introduction to utilization of renewable biological wastes including crops for production of fuels. Anaerobic digester, gasification, pyrolysis, combustion and fermentation will be covered.

Prerequisite(s)/Corequisite(s): TCEN 101 or OETS 101. Restricted to: Community Colleges only.

TCEN 140. Biofuel Science**3 Credits (2+2P)**

Fundamentals of basic organic chemistry and biochemistry applied to biofuel synthesis. Students will also be introduced to concept of conservation of matter and chemical reactions. Restricted to: Community Colleges only.

TCEN 156. Building Envelope**3 Credits (2+2P)**

Designed to prepare the student for the BPI Building Envelope Certification. This course will provide the principles behind building performance testing and the purpose of completing a comprehensive energy audit. Through lecture and subsequent field training, the student will learn how to use building diagnostics to develop a prescriptive plan for enhancing comfort, health & safety, building durability, and energy savings. The student will learn how to outline the follow-up process required after completion of the retrofit. Crosslisted with: OETS156.

Restricted to: Community Colleges only.

Prerequisite(s): TCEN 106 or OETS 106.

TCEN 180. Bio-diesel and Bio-ethanol Production**4 Credits (2+4P)**

Overview of the production of biofuels. Students will be introduced to current biofuel production processes, trans-esterification, hydrolysis and fermentation reactions, distillation, and laboratory synthesis of biofuels and engine performance tests. Restricted to: Community Colleges only.

Prerequisite(s): TCEN 140.

TCEN 205. NEC for Alternative Energy**4 Credits (2+4P)**

This hands-on course will cover the National Electrical Code specifics concerning photovoltaic installation. Also code compliant wiring of basic electrical systems will be covered. Existing installations will be visited and studied. Restricted to: Community Colleges only.

Prerequisite(s): TCEN 101 and ELT 105.

TCEN 210. Solar Thermal**4 Credits (2+4P)**

The purpose of this course is for students to learn to install solar thermal collectors for several applications, including domestic hot water, pool heating, and space heating. Students will be able to identify types of systems and components, adapt a system design, conduct a site assessment, install solar collectors, install components, install control systems, perform a system checkout, and maintain and troubleshoot a solar thermal system. Restricted to: Community Colleges only.

Prerequisite(s): TCEN 101 or OETS 101.

TCEN 215. Fluid Thermal Systems**4 Credits (2+4P)**

Fluid properties and measurement, piping and tubing standards, pumps and operation. Restricted to: Community Colleges only.

Prerequisite(s): PHYS 110G or PHYS 211G.

TCEN 220. Cooperative Experience**1-3 Credits (1-3)**

Supervised cooperative work program. Student is employed in an approved occupation and supervised and rated by the employer and instructor. May be repeated up to 6 credits. Consent of Instructor required.

Prerequisite(s)/Corequisite(s): MAT 235. **Prerequisite(s):** TCEN 180.

Restricted to: TCEN majors. S/U Grading (S/U, Audit). Restricted to: Community Colleges only.

TCEN 221. Roofing Materials and Methods**3 Credits (2+2P)**

Covers application techniques and estimation of asphalt and wood roofing products and accessories including gutters and flashing. Presents roof penetration, roof loading issues, and energy system installation requirements for mounting photo voltaic or solar thermal systems.

Prerequisite(s): TCEN 112.

TCEN 222. Photo Voltaic Grid Tie Installation**4 Credits (3+2P)**

This is a more advanced course culminating in a PV system-to-grid connection. This course includes gathering site specific data, design, wire type and sizing specific to project, installation of all solar modules and balance of system (BOS) components, and grounding and bonding of system components, all in accordance with the latest NEC. Upon project design approval a system will be commissioned for the grid. Decommissioning will commence after measurements and troubleshooting as directed by the instructor. May be repeated up to 4 credits.

Prerequisite(s)/Corequisite(s): TCEN 121 and TCEN 223. **Prerequisite(s):** TCEN 111 and TCEN 112. Restricted to Community Colleges campuses only.

TCEN 223. Photo Voltaic National Electrical Code Principles**2 Credits (2+1P)**

Focuses on all sections of the National Electrical Code and local code requirements applicable to photo voltaic electrical installation. A partial list of areas covered is chapters one through four and section 690, "Solar Photovoltaic Systems" of the National Electrical Code. Pre/

Prerequisite(s): TCEN 112.

Corequisite(s): TCEN 222.

TCEN 224. Field Experience**1-3 Credits (1-3)**

Student will collaborate with instructor in proposing, defining, implementing, and analyzing outcomes of a project in the Environmental and Energy fields of study. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: TCEN majors. Restricted to: Community Colleges only.

TCEN 240. Renewables and Sustainability**3 Credits**

Various renewable energy technologies and sustainable design practices will be introduced. Restricted to: Community Colleges only.

Prerequisite(s): TCEN 101 or OETS 101.

TCEN 241. Solar Thermal SHW Principles/Installation and Maintenance**3 Credits (2+2P)**

Course presents the theory, installation, operation, and maintenance of solar hot water (SHW) systems. Topics include the types of systems to choose, the costs associated with SHW installation and operation, system sizing requirements, batteries and battery chemistry. May be repeated up to 3 credits. Restricted to Community Colleges campuses only.

Prerequisite(s): OETS 104 or MATH 120.

TCEN 246. Building Weatherization & Auditor Fundamentals**3 Credits**

Course provides information on how to locate air leaks and identify heat losses or gains through specific testing. Students will learn how to inspect and evaluate building envelopes, mechanical systems, and ventilation systems to determine the safety and energy consumption for each system. May be repeated up to 3 credits. Restricted to Community Colleges campuses only.

Prerequisite(s): TCEN 113 and OETS 104.

Corequisite(s): TCEN 221.

TCEN 250. Photo Voltaic System Integrator Fundamentals**3 Credits**

Teaches the student project management fundamentals for working with homeowners, businesses, government, contractors, and manufacturers to design, build, and install complete alternative energy systems. Covers photovoltaic, small wind, and micro-hydro system designing, permitting, budgeting, and cost estimating requirements. Pre/

Prerequisite(s): E T 125.

Corequisite(s): TCEN 222.

TCEN 251. Advanced Photo Voltaic On/Off Grid Installation**3 Credits (2+2P)**

Photo Voltaic advanced topics to include panel racking and installation, battery storage, charge controllers, mechanical integration of arrays on buildings, and key elements involved in choosing a mounting system. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): TCEN 222. Restricted to Community Colleges campuses only.

TCEN 252. NABCEP Entry-Level Exam Review**1 Credit**

Course presents knowledge, key terms, and concepts of photovoltaic systems and solar hot water systems as related to the NABCEP Entry-level exam. This exam is for those wanting to enter the workforce in either solar thermal or solar PV. Scheduling and taking the exam is the responsibility of the student. May be repeated up to 1 credits. Consent of Instructor required.

Prerequisite(s)/Corequisite(s): TCEN 253. Prerequisite(s): TCEN 222. Restricted to Community Colleges campuses only.

TCEN 253. Renewable Energy System Troubleshooting and Maintenance**3 Credits (2+2P)**

Covers wind, solar and solar thermal system troubleshooting and maintenance topics to include equipment, electrical, and installation problem areas. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): TCEN 251. Prerequisite(s): TCEN 222. Restricted to Community Colleges campuses only.

TCEN 254. Renewable Energy Internship**2 Credits**

Student will receive industry-related renewable energy experiences at an approved industry location. Typical areas of hands-on practices will be installing solar PV, solar hot-water systems, or wind energy systems. May be repeated up to 6 credits. Consent of Instructor required. Restricted to Community Colleges campuses only.

Prerequisite(s): TCEN 112 and 113 and 222.

THTR-THEATRE (THTR)

THTR 101G. The World of Theatre**3 Credits**

An appreciation class introducing the non-major to all aspects of theatre, including its history, literature and professionals. Students attend and report on stage productions.

THTR 105. Acting for Non-Majors**3 Credits**

An introduction to basic performance techniques for non-majors.

THTR 110. Beginning Acting**3 Credits**

Basic understanding of self-expression through a variety of physical exercises, improvisation, and character study, culminating in scene or monologue work. Restricted to: THTR majors.

THTR 120. Stage Movement**3 Credits**

Physical techniques for the actor to develop kinesthetic awareness and skills in characterization, archetypes, and stage combat. Restricted to: THTR majors.

THTR 130. The Art of Theatre**3 Credits**

This course introduces the variety and scope of theatre professions, the value and goals of the theatre major and an analysis of the art form from script to stage. Restricted to: Required for THTR majors majors.

THTR 141. Introduction to Stagecraft**3 Credits**

Basic techniques used in the construction of scenery, props, and sound. Lab required. Pre/

Corequisite(s): THTR 141L.

THTR 141 L. Stagecraft Laboratory**1 Credit**

Class members will assist with construction for productions in a studio environment. Pre/

Corequisite(s): THTR 141.

THTR 142. Introduction to Costume Crafts**3 Credits**

Common costume production techniques, including basic stitching, use of equipment, knowledge of available materials, dyeing, and 3-D.

Prerequisite(s)/Corequisite(s): THTR 142L. Restricted to: THTR majors.

THTR 142 L. Costume Craft Lab**1 Credit**

Class members will assist in construction for productions in a studio environment. Pre/

Corequisite(s): THTR 142.

THTR 149. Running Crew I**2 Credits (1+2P)**

Students learn about backstage and front of house production positions and work on a technical aspect of a production in a rehearsal and performance environment.

THTR 200. Theatre Workshop I**0.5 Credits**

Required for all freshman and sophomore theatre majors, this course coordinates all processes within Theatre Arts, providing a forum for discussion and feedback. May be repeated up to 4 credits. Restricted to Las Cruces campus only.

THTR 210. Intermediate Acting: Scene Study and Monologues**3 Credits**

Monologues and scene work, using character and script analysis.

Prerequisite(s)/Corequisite(s): THTR 205. Prerequisite(s): THTR 110 with C- or above.

THTR 220. Vocal Production for the Actor**3 Credits**

Exploration and development of the actor's vocal instrument, including relaxation, projection, diction and articulation. May be repeated up to 3 credits. Restricted to: THTR majors.

THTR 222. Theatre Topics**1-3 Credits (1-3)**

Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 9 credits.

THTR 249. Running Crew II**1 Credit**

Students work on a technical aspect of a production in a rehearsal and performance environment.

THTR 250. Introduction to Design**3 Credits**

Introduction into our visual world via the language of designers, focusing on collaboration, creative thinking and presentation skills. The varied design professions in theatre and the performing arts will be explored. Restricted to: Required of all THTR Majors majors.

THTR 300. Theatre Workshop II**0.5 Credits**

Required for all junior and senior theatre majors, this course coordinates all processes within Theatre Arts, providing a forum for discussion and feedback. May be repeated up to 4 credits. Restricted to Las Cruces campus only.

THTR 303. Theatre History I**3 Credits**

History of theatre and drama from ancient Greece to the English Renaissance.

THTR 304. Theatre History II**3 Credits**

History of theatre and drama from the Restoration to the 20th century. May be repeated up to 3 credits.

THTR 306. Screenwriting I**3 Credits**

Same as CMI 309, ENGL 309. Consent of instructor required. Crosslisted with: CMI 309 and ENGL 309

Prerequisite(s): ENGL/CMI 235.

THTR 307V. Society in Style: Fashion, History and Culture**3 Credits**

History of clothing for theatrical purposes, origins and evolution of period clothing in relation to social, political, and aesthetic factors of different periods.

THTR 308. Creative Writing: Playwriting**3 Credits**

Technique of one-act playwriting, and analysis of dramatic structure. Crosslisted with: ENGL 308

Prerequisite(s): ENGL 111G.

THTR 310. Styles in Acting**3 Credits**

Analysis of differing styles of acting through scene work representing various time periods and genres.

Prerequisite(s): THTR 210.

THTR 312. Acting Shakespeare**3 Credits**

Acting Shakespeare's tragedies and comedies, including text work, scansion, movement, scene work, and monologues.

Prerequisite(s): THTR 210.

THTR 313. Improvisation**3 Credits**

Long and/or short form improvisation techniques in addition to a variety of exercises exploring terminology, character work and the elements of comedy.

Prerequisite(s): THTR 105 or THTR 110.

THTR 314. Scene Study**3 Credits**

Studio class focusing on scene work and acting processes.

Prerequisite(s): THTR 210.

THTR 317. Musical Theatre**3 Credits**

Acting class focused on developing and refining skills necessary for performing in musicals. Pre/ May be repeated up to 9 credits.

Prerequisite(s)/Corequisite(s): THTR 210.

THTR 320. Auditioning and Marketing**3 Credits**

Techniques for choosing and preparing effective monologues, cold and prepared readings, head shots and resumes, and interview skills.

Prerequisite(s): THTR 210.

THTR 321V. Modern European Drama**3 Credits**

Masterworks of European drama from the 19th century to the present. Crosslisted with: ENGL321V.

THTR 322. Dramatic Character**3 Credits**

How characters have been created for the stage from the beginning of theatrical performances in ancient Greece to the present day. Exploring characterization related to dramatic structure, style, and genre, and how dramatic characters differ from those in literary fiction. May be repeated up to 3 credits. Crosslisted with: ENGL 322.

THTR 323. American Drama**3 Credits**

Masterworks of American drama from the 20th century to the present. Crosslisted with: ENGL323.

THTR 329. Studies in Drama**3 Credits**

Subtitles vary. Study of a group of related works of drama, theory, or theatre practice. Crosslisted with: ENGL329 and CMI329.

THTR 334. Introduction to Stage Makeup**3 Credits**

Basic principles of stage makeup: straight, character, and specialty. Includes study of various products, methods of application, and the effects of lighting on makeup.

THTR 337. Independent Study**1-3 Credits**

Students propose and design their own course not covered through regular course offerings under the guidance of faculty. May be repeated up to 6 credits. Consent of Instructor required.

THTR 341. Scene Painting**3 Credits**

Use of historical painting techniques in a project-driven classroom. Projects include 2-D and 3-D work, color mixing and theory, painting scenery, and the use of paint for effects.

Prerequisite(s): THTR 141.

THTR 343. Costume Patterning**3 Credits**

Basic techniques in the production of flat patterns for modern and period silhouettes including some draping techniques. Consent of Instructor required.

THTR 345. Costume Practicum**1 Credit**

A practical course intended to provide students additional experience and greater responsibility within the workings of the Costume Shop. Pre/
Corequisite(s): THTR 142.

THTR 346. Scenic Practicum**1 Credit**

A practical course intended to provide students additional experience and greater responsibility within the workings of the Scene Shop. Pre/
Corequisite(s): THTR 141.

THTR 347. Lighting Practicum**1 Credit**

A practical course intended to provide students hands-on experience executing theatrical lighting.

THTR 348. Running Crew III**1 Credit**

Students will work on a technical aspect of a production in a rehearsal and performance environment.

Prerequisite(s): THTR 149.

THTR 349. Running Crew IV**1 Credit**

Students will work on a technical aspect of a production in a rehearsal and performance environment.

Prerequisite(s): THTR 149.

THTR 352. Costume Design**3 Credits**

Basic principles of costume design, including script analysis, principles of design, drawing and painting.

THTR 353. Scene Design**3 Credits**

Design for the performing arts. Basic design skills and projects to exercise those skills, history of design in the theatre and the designer's role in the production process. Final project includes a finished scene design.

Prerequisite: THTR 141 or consent of instructor.

THTR 354. Sound Design**3 Credits**

Hands-on training in theatrical sound design and implementation.

THTR 355. Lighting Design**3 Credits**

Basic aspects of theatre lighting, including electricity, color theory, history, and types of lighting instruments.

THTR 356. Theatre Production**1-3 Credits**

Participation in the production of theatrical performances by stage managing, acting, designing, dramaturgy, or directing. May be repeated for a maximum of 6 credits. Graded S/U.

THTR 357. Computer Scenographics**3 Credits**

Project-oriented course teaching basic computer modeling skills. Projects focus on the creation of communication tools designers use in the theatrical process. Students will develop portfolios of completed projects. Consent of instructor required.

Prerequisite(s): THTR 352, THTR 353, or THTR 355.

THTR 360. Creative Drama**3 Credits (2+2P)**

Methods of developing original dramatizations. Emphasis on curriculum problems and teaching techniques in elementary and secondary schools.

THTR 366. Summer Theatre**1-3 Credits**

Experience in professional or academic summer theatre. May be repeated for a maximum of 3 credits. Graded: S/U. Restricted to THTR majors.

Prerequisite(s): Consent of department head.

THTR 384. Stage Management**3 Credits**

Study of stage management techniques and their application to play production. A working knowledge of union rules, and the procedure to facilitate these through proper communication skills.

THTR 395. Directing I**3 Credits**

Study and application of basic stage directing techniques.

Prerequisite(s): THTR 105 or THTR 110.

THTR 396. Theatre Management**3 Credits**

Study of issues related to managing a theatre company and producing plays. May be repeated up to 3 credits.

THTR 408. Shakespeare I**3 Credits**

Same as ENGL 408.

THTR 409. Shakespeare II**3 Credits**

Same as ENGL 409.

THTR 410. Advanced Acting: Contemporary Methods**3 Credits**

Acting techniques will be explored focusing on current trends in the profession, from Stanislavski, to Hagen to Meisner.

Prerequisite(s): THTR 205.

THTR 414. Collaborative Theatre-Making**3 Credits**

This course introduces students to the techniques, skills and practice of the collaborative creation of new theatrical material.

Prerequisite(s): THTR 110.

THTR 417. Musical Theatre II**3 Credits**

A continuation of THTR 317, allowing for more advanced musical theatre techniques.

Prerequisite(s): THTR 317.

THTR 430. Special Topics**1-3 Credits**

Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 9 credits.

THTR 435. Directed Reading**1-3 Credits**

Directed individualized studies. May be repeated for a maximum of 3 credits.

THTR 439. Senior Seminar**3 Credits**

Course preparing students for professions in and related to the theatre. Restricted to: THTR majors.

THTR 440. Senior Seminar Practicum**1 Credit**

Capstone course preparing students to apply knowledge of theatre arts toward advanced training or career objectives in the discipline. Consent of instructor required. Pre/ Restricted to THTR majors.

Corequisite(s): THTR 439.

THTR 450. The Michael Chekhov Acting Intensive**3 Credits**

An intensive overview of the performance techniques attributed to Michael Chekhov, applied to theatrical scenes and presentations. May be repeated up to 6 credits. Consent of Instructor required.

THTR 457. Advanced Computer Scenographics**3 Credits**

Project-oriented course for the advanced modeler. Projects focus on the creation of complex models, custom texturing and shading, virtual lighting, postproduction image work, and animation techniques. Students will develop digital portfolios.

Prerequisite: THTR 357 and consent of instructor.

THTR 535. Directed Study**1-3 Credits (1-3)**

For the highly motivated student. Independent projects and individual guidance. Graduate standing and consent of instructor required. May be repeated up to 6 credits.

TOX-TOXICOLOGY (TOX)

TOX 361. Basic Toxicology**3 Credits**

Introduction to the principles of toxicology, discussion of toxic agents, environmental problems, testing procedures, and regulations. Prior course work in biology and chemistry recommended. BIOL 111G or BIOL 211G recommended. Same as E S 361.

Prerequisites: CHEM 112G, CHEM 114 or CHEM 110G.

TOX 461. Toxicology I**3 Credits**

Introduction to principles of toxicology. Restricted to: Main campus only. Crosslisted with: ANSC 461

Prerequisite(s): BIOL 111G or BIOL 211G, and CHEM 345.

TOX 598. Special Research Programs**1-3 Credits**

Individual investigations, either analytical or experimental. Graded S/U.

UNIV-UNIVERSITY STUDIES (UNIV)

UNIV 101. Tutorial**1-3 Credits**

Development of specific skills required for college courses, such as note-taking, listening, and test-taking. To be taken in conjunction with a regular designated college course. May be repeated for a maximum of 3 credits. Graded S/U.

UNIV 110. Personal Learning Skills I**1-3 Credits**

Individualized programs for self-improvement in skill areas necessary for academic success in the university environment. Each course to bear an appropriate subtitle. May be repeated up to 3 credits. Graded S/U.

UNIV 112. Academic and Personal Effectiveness**2 Credits**

Learn academic self-analysis skills through the application of study and learning techniques to current course demands. Exposure to a variety of topics which enhance university and life-long learning.

UNIV 113. Speed Reading**1 Credit**

Introduction to strategies and techniques for increasing reading rate and comprehension related to academic areas.

UNIV 114. Financial Literacy Money Matters**2 Credits**

This course will cover a variety of financial literacy topics ranging from budgeting to student loan repayment. This course is designed to assist students in becoming more financially literate. Restricted to Las Cruces campus only.

UNIV 115. Transition from Military to University**2 Credits**

Making a positive transition from military to civilian life is key to success. This course will cover a variety of topics ranging from time management to critical thinking. This course is designed to assist military and veteran students in becoming more effective learners through self-awareness, effectiveness study & learning strategies, and interpersonal skills. Skills and techniques for managing military to civilian readjustment transition issues are discussed and examined. Restricted to Las Cruces campus only.

UNIV 116. Preparing for Cooperative Education & Internship**1 Credit**

The Cooperative Education Course provides students with a comprehensive overview of career-related topics designed to assist with securing Cooperative Education and Internship employment. Students learn about philosophies and approaches to resumes, cover letters, interviewing, job searching, networking, and professionalism. A primary focus of the course is on experiential learning where students have opportunities to practice and implement course concepts including interviewing, networking, job searching, and document creation. In addition to exploring topics related to Cooperative Education and Internship, the course is designed to provide students with tools and strategies for successfully navigating the transition from student to employee. S/U Grading (S/U, Audit). Restricted to Las Cruces campus only.

UNIV 117. Diversity at the University**1 Credit**

In this course students will engage in discussions about diversity at the university, what it means in today's society and local community, and build on its complexity at NMSU. S/U Grading (S/U, Audit). Restricted to Las Cruces campus only.

UNIV 118. Career Explorations and Planning**1 Credit**

This course is designed to increase the likelihood that individuals will successfully navigate the challenges they face when making college major and related career choices. Restricted to Las Cruces campus only.

UNIV 150. The Freshman Year Experience**3 Credits**

An introduction to the university and its resources; emphasis on development of academic and personal skills that enable freshmen to become successful learners. Restricted to: Main campus only.

Prerequisite(s): Freshman Standing Only.

UNIV 161. NMSU Gospel Choir**1 Credit**

Students will gain performance experience and exposure to urban contemporary gospel music. Open to all majors. May be taken for unlimited credit. Restricted to: Main campus only.

UNIV 300. Preparing for the Graduate Record Examination**1 Credit**

Preparation for taking the Graduate Record Examination including review, test taking strategies and practice for the verbal, quantitative and analytical sections. Graded S/U.

UNIV 350. Peer Education**3 Credits**

Overview of college student development theory and its application to college student learning and peer education. Supervised experience as a peer educator with training in structured group facilitation.

Prerequisite: consent of instructor.

UNIV 361. NMSU Gospel Choir**1 Credit**

Students will gain performance experience and exposure to urban contemporary gospel music. Open to all majors. May be taken for unlimited credit.

UNIV 395. Independent Study**1-3 Credits**

Individualized projects related to the field of learning assistance. May be repeated for a maximum of 3 credits.

UNIV 495. Independant Study**1-3 Credits (1-3)**

Individualized projects related to the field of learning assistance. Taught with UNIV 395.

W S-WOMEN'S STUDIES (W S)

W S 201G. Introduction to Women s Studies**3 Credits**

Analysis of the status of women in society today and history and consequences of gender stratification and inequality from the perspectives of sociology, anthropology, psychology, political science, and other sciences.

W S 202G. Representing Women Across Cultures**3 Credits**

Historical and critical examination of women's contributions to the humanities, with emphasis on the issues of representation that have contributed to exclusion and marginalization of women and their achievements. Crosslisted with: HON 218

W S 273. Sex and Gender**3 Credits**

Same as SOC 273.

W S 316. History of Women in the American West**3 Credits**

Experiences and interactions among Native American, Spanish/Mexican, immigrant, and Anglo-American women in the American West from 1500 to the present. Same as HIST 316.

W S 325. Topics in Feminist Philosophy**3 Credits**

Same as PHIL 325.

W S 345. Victimology**3 Credits**

Same as C J 345.

W S 350. Special Topics**3 Credits**

The topic of course will vary and will be indicated by subtitle. May be cross-listed with relevant courses at the 300-level from any specific department. May be repeated under different subtitle(s).

W S 356. Women and Politics**3 Credits**

Political socialization of children; women's past and present participation in the public sphere; gender-related public policy issues.

W S 357. Gender and Society**3 Credits**

Overview of issues related to gender including how gender is constructed and reproduced in our society. Gender is examined from social psychological and institutional perspectives. Same as SOC 357.

W S 359. Psychology of Women**3 Credits**

Same as PSY 359.

W S 360. Masculinities Studies**3 Credits**

Explores how contemporary American culture constructs manhood and masculinity. Interrogates ideas and enactments of masculinity, especially as they intersect with race/ethnicity, class, and sexuality. The class asks how sexuality, gender construction, and sex roles inform our understanding of masculinity, as well as how masculinity relates to social power.

W S 374V. Comparative Family Systems**3 Credits**

Same as SOC 374V.

W S 380V. Women Writers**3 Credits**

Same as ENGL 380V.

W S 381V. Women s Health Issues**3 Credits**

Same as HL S 380V.

W S 382. Women in Mass Media**3 Credits**

Same as JOUR 380.

W S 388. Women and Europe I**3 Credits**

Same as HIST 388.

W S 397. Law and Sex**3 Credits**

Sex-based discrimination and the impact of constitutional and statutory provisions and their judicial interpretations and executive orders and implementations. Same as GOVT 397.

W S 401. Women & Immigration**3 Credits (3)**

Exploration of experiences of women immigrants as gender, race and class became increasingly important aspects of US immigration policies in the early 19th century. Explores role of gender in today's immigration experience.

W S 402. Transnational Feminisms**3 Credits (3)**

Explores dimensions of gender, race, class, and sexuality in conjunction with nationalisms, anti-capitalist struggles, religious fundamentalism, militarism, globalization, eco-critique, and the politics of resistance and social movements.

W S 403. Gender & Horror**3 Credits (3)**

Explores cultural anxieties and crises through the genre of horror as they relate to issues of gender, sexuality, feminism, and race. Traces ways horror films represent and reconfigure notions of sexuality and gender and ways they reinforce and/or challenge social norms.

W S 404. Arab-Muslim Feminisms**3 Credits**

Develops a historical understanding of arab-muslim feminisms and homosexuality in Islam. Explores and uses critical feminist theories, language, and methods to counter interlocking discourses of Islamophobia, gendering, and homophobia affecting arab-muslim women.

W S 405. Alternative Genders and Sexualities**3 Credits**

Introduces students to cultural study in the academic fields of Gay, Lesbian, Bisexual, Transgender (GLBT) and Queer Studies. Examines academic texts as well as literature and film from different historical moments and social/ global sites.

W S 406. Women and Human Rights**3 Credits**

Analysis of human rights violations and injustices as they relate to the lives of girls and women. Examines international political, legal, economic and socio-cultural implications of violence that target women and girls. Focusing on different countries, discusses social, political, economic, and human rights.

W S 407. Gender and Graphic Narrative**3 Credits**

Examines graphic novels that disrupt stereotypical ideas about genre, gender, race, class sexuality, as well as common notions about comics. Considers texts that address underrepresented experiences.

W S 408. Food and Representation**3 Credits**

Examines contemporary food writing as a way to study identity, social structures, and notions of acceptability. Explores how constructions of food shape bodies, desires, and notions of belonging.

W S 411. Gender and Migration**3 Credits**

Explores multiple experiences of forced migration and displacement. Examines violence, structural dislocation, neoliberalism, globalization, economic collapse and civil war. Discusses local, regional and global responses to creating meaningful change in communities most affected by migration.

W S 420. Girls, Women and Crime**3 Credits (3)**

Critical social science analysis of concepts of violence and justice as experienced by women impacted by the criminal justice system. Restricted to C J, W S majors. Crosslisted with: C J 420

W S 422. Advanced Study in a Literary Form or Genre**3 Credits**

Same as ENGL 422. May be repeated for a maximum of 6 credits.

W S 433. Women, Gender, and Culture**3 Credits**

Same as ANTH 433.

W S 450. Special Topics**3 Credits**

The topic of course will vary and will be indicated by subtitle. May be cross-listed with relevant courses at the 400-level from any specific department. May be repeated under different subtitle(s).

W S 451. Women's Studies Practicum**3 Credits**

Supervised field work in community setting relating to women. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

W S 453. Women and Politics**3 Credits**

Crosslisted with: GOVT 353

W S 454. Women Crossing Borders**3 Credits**

Experiences of women who cross class, race, cultural, national, or sexual borders including theories regarding women's Interactions across borders. Emphasis will vary with professor and discipline.

W S 455. Feminist Research Methods**3 Credits**

Feminist research practices and methodologies utilized in various disciplines. Definitions of research, what constitutes valid inquiry, how research can be feminist, and what it means to do interdisciplinary work.

W S 459. Advanced Issues in Sex and Gender**3 Credits**

Same as SOC 459.

W S 461. Women s Studies: Independent Study**3 Credits**

Individual study of selected topic and writing of research paper. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

W S 465. Sex, Gender and the Body**3 Credits**

Examines forces at work in defining and differentiating gender, race, sexuality. How ideas about what is 'natural' and 'normal' for men and women shifted over time. Considers different discourses shaping embodied experiences and categories of identity.

Prerequisite(s): None.

W S 468. Global Sexualities**3 Credits**

Generates a global context to focus on sexual identity and orientation, sexual identity politics, romantic relationships, patterns of sexual behavior, sexual regulation and the impact of different cultures on individual sexualities. Taught with W S 568. Crosslisted with: SOC 468

W S 469. Gender and Sexuality in Hispanic Film**3 Credits**

The study of gender and sexual orientation issues in relation to identity as portrayed in Hispanic cinema. Taught in Spanish but assignments accepted in English. Crosslisted with: SPAN 469

W S 471. Seminar in Feminist Theory**3 Credits**

Current feminist theory. Topic changes by semester. Course subtitled in the Schedule of Classes. Prerequisite: None

W S 474. Gender in East Asian History**3 Credits**

Same as HIST 474.

W S 481. Hate Crimes and Hate Groups**3 Credits**

Explores the phenomenon of hate-motivated violence. Examines the hate crime laws, organized hate groups and social theories attempting to explain violent hate.

W S 482. Gender and Popular Culture**3 Credits**

Intensive study of the representations of gender in popular culture. Examines the historical, aesthetic, and cultural contexts of these representation and the various critical and theoretical lenses we use to understand them. Repeatable under different subtitles. May be repeated up to 99 credits.

W S 484. Women's Literature**3 Credits**

Intensive study of literature by women, in particular historical, aesthetic, cultural, or intellectual contexts. Repeatable under different subtitles. Crosslisted with: ENGL 481

W S 501. Advanced Women & Immigration**3 Credits (3)**

Advanced exploration of experiences of women immigrants as gender, race and class became increasingly important aspects of US immigration policies in the early 19th century. Explores role of gender in today's immigration experience.

W S 502. Advanced Transnational Feminisms**3 Credits (3)**

Advanced analysis of dimensions of gender, race, class, and sexuality in conjunction with nationalisms, anti-capitalist struggles, religious fundamentalism, militarism, globalization, eco-critique, and the politics of resistance and social movements.

W S 503. Advanced Gender & Horror**3 Credits (3)**

Advanced analysis of anxieties and crises through the genre of horror as they relate to issues of gender, sexuality, feminism, and race. Traces ways horror films represent and reconfigure notions of sexuality and gender and ways they reinforce and/or challenge social norms.

W S 504. Advanced Arab-Muslim Feminisms**3 Credits**

Advanced study of historical and contemporary arab-muslim feminisms and homosexuality in Islam. Explores and uses critical feminist theories, language, and methods to counter interlocking discourses of Islamophobia, gendering, and homophobia affecting arab-muslim women.

W S 505. Advanced Alternative Genders and Sexualities**3 Credits**

Advanced study of the academic fields of Gay, Lesbian, Bisexual, Transgender (GLBT) and Queer Studies. Examines academic texts as well as literature and film from different historical moments and social/ global sites.

W S 506. Advanced Women and Human Rights**3 Credits**

Advanced analysis of human rights violations and injustices as they relate to the lives of girls and women. Intensive examination of international political, legal, economic and socio-cultural implications of violence that target women and girls. Focusing on different countries, explores social, political, economic, and human rights.

W S 507. Advanced Gender and Graphic Narrative**3 Credits**

Advanced examination of graphic novels that disrupt stereotypical ideas about genre, gender, race, class sexuality, as well as common notions about comics. Considers texts that address underrepresented experiences.

W S 508. ADVANCED FOOD PRESENTATION**3 Credits**

Advanced examination of contemporary food writing as a way to study identity, social structures, and notions of acceptability. Intensive exploration of how constructions of food shape bodies, desires, and notions of belonging.

W S 511. Advanced Gender and Migration**3 Credits**

Advanced exploration of multiple experiences of forced migration and displacement. Intensive examination of violence, structural dislocation, neoliberalism, globalization, economic collapse and civil war. Discusses local, regional and global responses to creating meaningful change in communities most affected by migration.

W S 520. Advanced Girls, Women & Crime**3 Credits (3)**

Advanced critical social science analysis of concepts of violence and justice as experienced by women impacted by the criminal justice system. Crosslisted with: C J 520

W S 522. Graduate Study in a Literary Form or Genre**3 Credits**

Same as ENGL 522.

W S 533. Advanced Issues in Women, Gender, and Culture**3 Credits**

Same as ANTH 533.

W S 545. Advanced Victimology**3 Credits**

Study of the risk factors in crime victimization, the impact of crimes upon victims, and the role of the victim in the criminal justice system, consideration of the impact of criminal justice policy on victim outcomes. Same as CJ 545.

W S 550. Special Topics**3 Credits**

The topic of course will vary and will be indicated by subtitle. May be cross-listed with relevant courses at the 500-level from any specific department. May be repeated under different subtitle(s).

W S 554. Advanced Issues in Women Crossing Borders**3 Credits**

Experiences of women who cross class, race, cultural, national, or sexual borders including theories regarding women's interactions across borders.

W S 555. Advanced Feminist Research Methods**3 Credits**

Advanced feminist research practices and methodologies utilized in various disciplines. Definitions of research, what constitutes valid inquiry, how research can be feminist, and what it means to do interdisciplinary work.

W S 561. Independent Graduate Research in Women's Studies**3 Credits**

Individual study of selected topics and writing of a research paper. May be repeated for a maximum of 6 credits. Graded S/U.

Prerequisite: consent of instructor.

W S 565. Advanced Sex, Gender & the Body**3 Credits (3)**

Advanced examination of forces at work in defining and differentiating gender, race, sexuality. How ideas about what is 'natural' and 'normal' for men and women shifted over time. Considers different discourses shaping embodied experiences and categories of identity.

W S 567. Global Sexualities**3 Credits**

Generates a global context to focus on sexual identity and orientation, sexual identity politics, romantic relationships, patterns of sexual behavior, sexual regulation and the impact of different cultures on individual sexualities. Taught with W S 468. Crosslisted with: SOC 568

W S 569. Gender and Sexuality in Hispanic Film**3 Credits**

The study of gender and sexual orientation issues in relation to identity as portrayed in Hispanic cinema. Taught in Spanish but assignments are accepted in English. Crosslisted with: SPAN 569

W S 571. Advanced Seminar in Feminist Theory**3 Credits**

Current feminist theory. Topic changes by semester. Course subtitled in the Schedule of Classes.

W S 574. Gender in East Asian History**3 Credits**

Same as HIST 474 with differentiated assignments for graduate students. Required for graduate credit.

W S 582. Gender and Popular Culture**3 Credits**

Intensive study of the representations of gender in popular culture. Examines the historical, aesthetic, and cultural contexts of these representation and the various critical and theoretical lenses we use to understand them. Repeatable under different subtitles. Crosslisted with: ENGL 582

W S 584. Women's Literature**3 Credits**

Intensive study of literature by women, in particular historical, aesthetic, cultural, or intellectual contexts. Repeatable under different subtitles. Crosslisted with: ENGL 581

WATR-WATER UTILITIES (WATR)

WATR 120. Introduction to Water Systems**3 Credits**

Introduction to and theory of groundwater sources, production, treatment, and distribution.

WATR 130. Wastewater Collection and Basic Treatment Systems**3 Credits**

Introduction to wastewater characteristics, collection, and basic treatment operations.

WATR 140. Applied Water and Wastewater Math I**3 Credits**

Introduction to basic water and wastewater mathematics, flows through distribution networks and collection systems, and fundamentals of flow measurement.

Prerequisite: CCDM 114N or equivalent.

WATR 160. Systems Maintenance**4 Credits (2+4P)**

Basic tools, equipment, maintenance schedules, chlorinator troubleshooting, and chlorine safety. Hands-on training with valves, pumps, meters and chlorination equipment.

WATR 165. Backflow Prevention**3 Credits (2+2P)**

Theory of operation of backflow prevention devices and their application. Backflow devices including double check, reduced pressure, and pressure vacuum breakers will be tested for proper operation.

Prerequisites: WATR 120 and WATR 140, or consent of instructor.

WATR 175. Programmable Logic Controllers**2 Credits**

This course will introduce students to electrical safety, theory, and the function, operations, programming and troubleshooting of the PLC controlling common electrical components utilized in control circuits associated with the water and wastewater industry. Restricted to: Community Colleges only.

WATR 180. Water Chemistry**3 Credits**

Basic chemistry with applications to water and wastewater analysis.

Prerequisite: CCDM 114N or consent of instructor.

WATR 182. Water Chemistry Analysis**1 Credit**

Beginning water and wastewater laboratory analysis including gravimetric, volumetric, and quality control techniques.

Prerequisite: CCDM 114N or equivalent or consent of instructor.

WATR 190. Water and Wastewater Microbiology**3 Credits**

Overview of microorganisms associated with water and wastewater. Growth and reproduction, energy production, and methods of counting.

Prerequisite: WATR 130, WATR 180, or consent of instructor.

WATR 192. Water and Wastewater Microbiological Analysis**1 Credit**

Introduction to water and wastewater treatment operational tests such as BODs, solids testing, activated sludge control tests, use of microscope, and bacteriological techniques.

Prerequisites: WATR 130 and WATR 182, or consent of instructor.

WATR 200. Internship**3-5 Credits**

On-the-job training/work experience with municipalities or industries, working in water or wastewater treatment plants, high purity water plants, industrial waste plants, distribution systems, or wastewater collection systems. May be repeated up to 5 credits. Consent of Instructor required. Restricted to: Water Technology majors. S/U Grading (S/U, Audit). Restricted to Community Colleges campuses only.

WATR 220. Water Treatment Systems**3 Credits**

Theory of water systems operation including surface water treatment, fluoridation, sodium zeolite softening, corrosion control, iron removal, various filtration methods, and overview of SDWA.

Prerequisites: WATR 180 and WATR 182 or consent of instructor.

WATR 222. Water Systems Operation**1 Credit**

Operations of various water treatment systems including surface water treatment, sodium zeolite softeners, and various filtration methods.

Prerequisite: WATR 220 or consent of instructor.

WATR 230. Advanced Wastewater Treatment**4 Credits**

Calculations and operations involved in wastewater and water reclamation plants.

Prerequisites: WATR 140, WATR 190, and WATR 192, or consent of instructor.

WATR 232. Wastewater Systems Operations**1 Credit**

Operation of pretreatment, primary, and biological treatment units.

Prerequisite: WATR 230 or consent of instructor.

WATR 240. Advanced Water and Wastewater Math II**3 Credits (2+2P)**

Advanced water and wastewater mathematics. Flow measurement. Systems head and pump curves.

Prerequisites: WATR 140.

WATR 250. Municipal Systems Management**4 Credits**

Management of water utility systems including laws, finance, records, and safety.

Prerequisites: WATR 120, WATR 130.

WATR 255. Special Individualized Problems in Water Technology**1-4 Credits**

Individual studies in areas directly related to water technology.

Prerequisite: consent of instructor.

WATR 270. Special Topics**1-4 Credits**

Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

WATR 275. Certification Review**3 Credits**

Review of water and wastewater plant operations and laws in preparation for state certification exams.

Prerequisites: WATR 220, WATR 230, and WATR 240.

WATR 285. High Purity Water Treatment Systems**3 Credits**

Principles of high purity water production including microfiltration, ultra-filtration, reverse osmosis, and deionization.

Prerequisite: WATR 220.

WATR 287. Advanced Water Chemistry Analysis**3 Credits**

Sampling techniques, analysis, and evaluation of potable water contaminants using gravimetric, volumetric, spectrophotometric, and other instrumentation methods.

Prerequisite: WATR 285 or consent of instructor.

WATR 290. Advanced Wastewater Microbiology and Chemistry**3 Credits**

Covers NPDES permits and DMR calculations and reporting; 503 sludge regs, including pathogen and vector attraction reduction and pollutants; wetlands, composting, and wastewater treatment ponds microbiology; activated sludge bulking and foaming microbiology and treatment; and use of selector to remove nutrients and prevent the growth of filamentous bacteria.

Prerequisite: WATR 190, WATR 192.

WATR 292. Advanced Wastewater Analysis**3 Credits**

Covers sampling techniques, analysis, and evaluation of wastewater contaminants using gravimetric, volumetric, spectrophotometric, and other instrumentation methods.

Prerequisite: WATR 190 and WATR 192.

WELD-WELDING TECHNOLOGY (WELD)

WELD 100. Structural Welding I**6 Credits (3+6P)**

Development of basic skills in SMAW, OFC, and OFW in accordance with the AWS entry-level welder program.

WELD 101. Fundamentals of Welding**3 Credits**

Set-up and adjustment of ARC and oxyacetylene equipment. Welding safety procedures and terminology. Skill development in laying weld beads with various patterns, positions, and processes.

WELD 102. Welding Fundamentals**3 Credits (2+2P)**

Survey of welding and cutting processes for nonmajors. Classroom instruction and laboratory work with OFC/OFW, SMAW, GMAW, FCAW, and plasma arc cutting.

WELD 105. Introduction to Welding**3 Credits**

Welding practices, procedures, and terminology. Welding safety, equipment types, electrode types in usage, joint design and testing procedures.

WELD 110. Blueprint Reading (Welding)**3 Credits**

Interpretation of prints related to welding. Emphasis on AWS standard symbols for welding, brazing, and nondestructive examination.

WELD 112. Professional Development and Leadership**1 Credit**

As members and/or officers of various student professional organizations, students gain experience in leadership, team building, and community service. Students competing or participating in Skills USA are required to register for the course. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: WELD majors. S/U Grading (S/U, Audit). Restricted to: Community Colleges only.

WELD 115. Structural Welding II**6 Credits (3+6P)**

Continuation of WELD 100. Emphasis on AWS entry and advanced level welder skills with SMAW, including all-position welding with mild and stainless steel electrodes. Plasma arc and air-carbon arc cutting, metallurgy, heat treatment, and weld defects.

Prerequisite: WELD 100.

WELD 120. Basic Metallurgy**3 Credits**

Properties of ferrous and nonferrous materials. Service conditions and heat treatment of metals related to welding trade.

Prerequisites: WELD 100 or consent of instructor.

WELD 125. Introduction to Pipe Welding**3 Credits (2+2P)**

Pipe fit-up and welding techniques for pipe fitting and pipe weld joint using SMAW, GMAW, GTAW, and FCAW, 2G welding of pipe. Restricted to: Community Colleges only.

Prerequisite(s): WELD 100, WELD 130, and WELD 140, or consent of instructor.

WELD 126. Industrial Pipe Welding**3 Credits**

Enhancement of WELD 125. Development of more advanced pipe welding skills.

Prerequisites: WELD 110, WELD 130 and WELD 140.

Corequisite: WELD 125.

WELD 130. Introduction to GMAW MIG**3 Credits (2+2P)**

Development of basic skills with gas metal arc welding (MIG) in accordance with AWS entry-level welder objectives. Wire electrodes, shielding/purge gases, and modes of metal transfer.

WELD 140. Introduction to GTAW TIG**3 Credits (2+2P)**

Development for basic skills with gas tungsten arc welding (TIG) in accordance with AWS entry/advanced welder objectives. Welding mild steel, tungsten electrode preparation, filler wire selection, and equipment set-up.

WELD 150. Pipe Welding II**3 Credits (2+2P)**

Continuation of WELD 125; with fillet and groove welded joints in a horizontal fixed and 45-degree fixed positions (5-F, 5-G, 6-F, 6-G).

Prerequisite: WELD 125.

WELD 151. Industrial Pipe Welding II**3 Credits**

Enhancement of WELD 150. Development of more advanced pipe welding skills. Emphasis on industry driven test.

Prerequisites: WELD 125 and WELD 126.

Corequisite: WELD 150.

WELD 160. Introduction to SAW and FCAW**3 Credits (2+2P)**

Submerged arc and flux-cored arc welding. Demonstrations and practice with machine travel submerged arc welding (SAW), flux-cored arc welding (FCAW-G, FCAW-S) on mild steel plate and pipe. Restricted to: Community Colleges only.

WELD 170. Welded Fabrication**3 Credits (1+4P)**

Development of fabrication skills including basic layout, measuring, and utilization of various welding processes including out-of-position welding. Use of common shop tools.

Prerequisites: WELD 100, WELD 110, WELD 130, and OETS 104 or OETS 118.

WELD 180. GTAW II**3 Credits (2+2P)**

Continuation of WELD 140. Development of more advanced GTAW skills. Emphasis on pipe welding with mild steel, stainless steel, and aluminum.

Prerequisite: WELD 140 or consent of instructor.

WELD 190. Welded Art**3 Credits (1+4P)**

Students explore the possibilities of welded art in the form of sculpture, jewelry, furniture and as a framework to support other art media. Offered as an elective for students who wish to create art using welding.

Prerequisite: WELD 102 or consent of instructor.

WELD 205. Welding Equipment Maintenance**3 Credits (2+2P)**

Hands-on experience in the maintenance and repair of welding equipment, including welding machines and associate shop equipment, as well as the development of preventative maintenance programs. Basic safety, including MSDS and Right-to-Know will be introduced. Restricted to: Community Colleges only.

Prerequisite(s): WELD 100, WELD 130, WELD 140, WELD 160.

WELD 211. Welder Qualification**6 Credits (3+6P)**

Laboratory and classroom instruction on AWS and ASME Welder Performance Qualification Tests. All position plate and pipe techniques and tests for SMAW, GMAW, GTAW, FCAW, and SAW. Nondestructive and destructive examination methods. Basics of welding codes. Restricted to majors.

Prerequisites: OETS 104 or OETS 118; and WELD 100, WELD 110, WELD 120, WELD 130, WELD 140, WELD 160 and WELD 180 or consent of instructor.

WELD 221. Cooperative Experience I**1-6 Credits**

Supervised cooperative work program. Student is employed in an approved occupation and supervised and rated by the employer and instructor. Student will meet in a weekly class. Graded S/U. Restricted to majors.

Prerequisites: WELD 100 or WELD 101 and consent of instructor.

WELD 230. Weld Testing**3 Credits (2+2P)**

Covers destructive and nondestructive examination methods used to test welds. Tensile, compression, bend, hardness, impact, visual, dye-penetrant, magnetic particle, ultrasound, and radiographic methods of testing/examination. Restricted to: Community Colleges only.

Prerequisite(s): WELD 100, WELD 130, WELD 140, WELD 211, and OETS 104, or consent of instructor.

WELD 255. Special Problems in Welding Technology**1-6 Credits**

Individual studies in areas of welding technology. May be repeated for a maximum of 12 credits.

Prerequisite: consent of instructor.

WELD 295. Special Topics**1-4 Credits**

Topics to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

WERC-WASTE MGT EDU/RSRCH CONS (WERC)

WERC 300. Introduction to Pollution Prevention and Its Application**3 Credits**

Investigates various approaches to industrial and domestic pollution prevention, waste minimization, and energy efficiency with emphasis on applications in the Southwest. Topics include: industrial case studies, energy conservation, environmental risk analysis, evaluating environmental performance, pollution prevention program development, training and education programs, funding sources, and economic impact.

WERC 312. Emergency Response to Hazardous Material Incidents**2 Credits**

Same as E S 312, E T 312.

WERC 330. Environmental Management Seminar I**1 Credit**

Survey of practical and new developments in environmental management field, hazardous and radioactive, waste management, energy, water, and related health issues, provided through a series of guest lectures and reports about on-going research. Restricted to: Main campus only. Crosslisted with: C E 330, CH E 330, E E 330, E S 330, E T 330, I E 330 and M E 330

WERC 381. Renewable Energy Technologies**3 Credits (2+3P)**

Renewable energy systems, including topics in thermal-solar, photovoltaic, wind, geothermal systems, and other current topics. Theory, practical applications, safety considerations and the economics of alternative renewable energy systems compared to conventional systems. Crosslisted with: E T 381

Prerequisite(s): MATH 121G.

WERC 382. Solar Energy Technologies**3 Credits (2+3P)**

Solar energy technologies, including topics in passive, solar thermal, and photovoltaic systems. Theory, practical applications, safety considerations and the economics of solar renewable energy systems compared to conventional systems. Crosslisted with: E T 382

Prerequisite(s): MATH 121G.

WERC 384. Wind and Water Energy Technologies**3 Credits**

Wind and Water energy technologies, including topics in small and large scale systems. Theory, practical applications, safety considerations and the economics of wind and water renewable energy systems compared to conventional systems. Same as E T 384.

Prerequisite: MATH 121G.

WERC 386. Sustainable Construction and Green Building Design**3 Credits**

Sustainable Building materials, methods, and techniques including green architect and design, codes, standards and Specifications. Same as E T 386.

Prerequisite: MATH 121G.

WERC 430. Environmental Management Seminar II**1 Credit**

Survey of practical and new developments in environmental management fields, hazardous and radioactive waste management, energy, water and related health issues, provided through a series of guest lectures and reports about ongoing research. Restricted to: Main campus only. Crosslisted with: C E 430, CH E 430, E E 430, E S 430, E T 430, I E 430 and M E 430

WERC 466. Fuel Cell and Hydrogen Technology**3 Credits**

Same as CH E 466. Prerequisites: CHEM 111G and PHYS 215G

WERC 595. Special Topics**1-3 Credits**

Lecture instruction on special topics such as energy, environment and economics. May be taken for a maximum of 6 credits.

Prerequisite: consent of instructor.

WSAM-WATER SCIENCE & MGT (WSAM)

WSAM 589. Landscape Hydrology Modeling**3 Credits**

Understand the landscape scale of hydrologic cycle and related hydrological processes. Quantitatively evaluate hydrological system components. Retrieve, visualize and model some of the physical processes using some of the available tools. Consent of Instructor required.

WSAM 599. Masters Thesis**1-15 Credits (1-15)**

Thesis. May be repeated up to 88 credits. Consent of Instructor required. Restricted to: Water and Science Management majors. Thesis/Dissertation Grading.

WSAM 605. Arid Land Water Resources**3 Credits (2+2P)**

The course will cover various issues of relevance to water resources and water supply management within the Southwest US and other semiarid and arid regions. Discussions may include development and sustainability, climate change and drought, socioeconomic and cultural, and transboundary issues.

WSAM 610. Water and Sustainable Economic Development**3 Credits**

For graduate students in the Water Science and Management or other research degree programs, use the water economics literature as a model for student research leading to an M.S. thesis or Ph.D. dissertation.

WSAM 700. Doctoral Dissertation**15 Credits (15)**

Dissertation for Water Sciences and Management Majors May be repeated up to 88 credits. Restricted to: Water Sciences and Management majors. Thesis/Dissertation Grading.

INDEX

A

A E-AEROSPACE ENGINEERING (A E)	646	Agriculture - Master of Agriculture	108
A EN-AGRICULTURAL ENGINEERING (A EN)	647	Agriculture - Master of Business Administration	98
