Indigenous communities are found throughout North, Central and South America. This course addresses the history, development and governance of these communities. Different sections of the course may choose to focus on different indigenous communities. All courses will consider the principles of governance internal to indigenous communities as well as the governing relationships between indigenous communities and modern states.
GOVT 537. Issues in Public Policy
3 Credits
Selected issues in public policy. May be repeated under a different subtitle for a total of 6 credits.
GOVT 540. Seminar in Public Administration
3 Credits
Survey course on the theory and practice of program, personnel, and financial management in government and the private, nonprofit sector. MA students taking Govt 540 as part of their core requirements must complete the class with a B- or better.

GOVT 541. Public Budgeting
3 Credits
Budgetary processes; budget classification, analysis, and evaluation. MPA students must complete this class with a B- or better.

GOVT 542. Public Sector Human Resources Management
3 Credits
Exploration of public personnel systems and practices, including job analysis, compensation, performance evaluation, recruitment, and labor-management relations. MPA students must complete this class with a B- or better.

GOVT 543. Skills Workshop
1-6 Credits
Focus on management of task skills in selected areas of public administration. Specific topics will appear in the Schedule of Classes; may be repeated for a total of 6 credits.

GOVT 544. Public Policy Analysis
3 Credits
Environment of policy analysis; various descriptive and quantitative designs for analyzing and evaluating public policy. Problems of policy analysis. MPA students must complete this class with a B- or better.  
Prerequisite(s): GOVT 502 or consent of instructor.

GOVT 547. Government Organizations
3 Credits
Historical overview and present applications of organization theory in public management. MPA students must complete this class with a B- or better.

GOVT 548. Public Sector Leadership
3 Credits
Theories and styles of leadership.

GOVT 549. Ethics in Government
3 Credits
Examination of standards, perspectives, and issues for ethical decision-making in public agencies. MPA students must complete this class with a B- or better.

GOVT 550. Seminar in American Politics
3 Credits
Overview of American political institutions. Includes study of American constitutional theory, legislative, executive, and judicial functions and processes; political parties and interest groups; and public policy formulation. MA students taking Govt 550 as part of their core requirements must complete the class with a B- or better.

GOVT 561. Nations and Soft Power
3 Credits
Course employs historical, theoretical and practical “best/worst practices” lenses to deal with key questions, such as how do the US and other states present themselves to the world? What are “soft power” and “national reputation management”? How does one build or damage a country’s image and “brand”? What are “public diplomacy” and “cultural diplomacy”, and how do they factor into the foreign relations of the US and other states?

GOVT 563. Issues in International Relations
3 Credits
Selected issues in international relations. May be repeated under a different subtitle for a total of 6 credits.

GOVT 564. Advanced National Security Policy
3 Credits
Major topical, theoretical, and regional issues in national security policy.

GOVT 567. Advanced International Relations
3 Credits
An advanced analysis of contemporary issues. May be repeated once.

GOVT 568. Seminar in the U.S.-Mexican Border
3 Credits
An analysis of the political environment along the United States-Mexico border and a survey of the literature available for a number of contemporary issues.

GOVT 569. Seminar in Globalization
3 Credits
An overview of the globalization process. Covers theories of globalization; global economy; political globalization; global culture; transnational social movements; transnational migration and world labor market; global cities; local-global linkages. Same as SOC 589.

GOVT 570. Seminar in Comparative Politics
3 Credits
Examination of methods used for comparing various types of political entities. Investigation of criteria needed to examine a concept across cultures or national boundaries. MA students taking Govt 570 as part of their core requirements must complete the class with a B- or better.

GOVT 578. Seminar in Mexican Politics
3 Credits
Advanced research on politics and government of Mexico.

GOVT 579. Seminar in Mexican Politics
3 Credits
Advanced research on politics and government of Mexico.

GOVT 590. Seminar in American Politics
3 Credits
Overview of American political institutions. Includes study of American constitutional theory, legislative, executive, and judicial functions and processes; political parties and interest groups; and public policy formulation. MA students taking Govt 550 as part of their core requirements must complete the class with a B- or better.

GOVT 591. Seminar in International Relations
3 Credits
A critical overview of leading approaches and controversies in international relations theory. The purpose of the course is to introduce students to contending theoretical perspectives and conceptual frameworks that help make sense of contemporary world politics. MA students taking Govt 560 as part of their core requirements must complete the class with a B- or better.
GOVT 591. Law for Administrators
3 Credits
Case-law definitions of the legal roles and powers of public administrators.

GOVT 593. Issues in Public Law
3 Credits
Selected issues in public law. May be repeated under a different subtitle for a total of 6 credits.

GOVT 596. International Law
3 Credits
Nature, growth and scope of law of nations; rights and obligations of states in peace and war; current issues.

GOVT 598. Special Research Programs
1-3 Credits
Individual investigations either theoretical, analytical or experimental. Three credits may be taken per semester for a total of 6 credits for thesis students, and 9 credits for non-thesis students. Consent of instructor required.

GOVT 599. Master's Thesis
1-15 Credits
Thesis.

Select one upper-division course from four of six subfields:

- Public Administration and Policy (GOVT 20/30 series)
- American Government and Politics (GOVT 40/50 series)
- International Relations (GOVT 60 series, may include HON 304V)
- Comparative Politics (GOVT 70 series may include HON 307V)
- Political Theory GOVT 80 series may include GOVT 380V)
- Public Law (GOVT 90 series)

GOVT 415 | Senior Seminar (take in final year) | 2
Select additional credits in government to bring total credits in major to 33, including 20 upper-division.

Second Language: (required - see below)

Electives, to bring the total credits to 120:

1. See the General Education (p. 49) section of the catalog for a full list of courses
2. A Mathematics course is required for the degree but students may need to take any prerequisites needed to enter the Mathematics course of their course first.
3. Majors should complete these lower level requirements before registering for upper-division government credits.
4. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses
5. A list of approved options is available in the department office.
6. Elective credit may vary based on General Education course selection, second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Note: Students may not count S/U grades taken in their major unless the particular course is regularly graded S/U. All courses must be passed with grades of C- or better. In addition, while research methods courses taken outside of the department may count toward the methods requirement, only GOVT 300 Political Research Skills counts toward the 33 credits in the major.

Up to twelve hours of internship credit are available. However, only three hours count toward the major. Internship guidelines are available in the department office and on the Government Department web page, http://deptofgov.nmsu.edu/.

Second Language Requirement

For the Bachelor of Arts in Government there is a two year second language requirement, the student must do one of the following:
Option 1:
Prefix Title Credits
Complete one of the following sequences:
CHIN 111 Elementary Chinese I 14
& CHIN 112 and Elementary Chinese II
& CHIN 211 and Intermediate Chinese I
& CHIN 212 and Intermediate Chinese II
FREN 111 Elementary French I 14
& FREN 112 and Elementary French II
& FREN 211 and Intermediate French I
& FREN 212 and Intermediate French II
GER 111 Elementary German I 14
& GER 112 and Elementary German II
& GER 211 and Intermediate German I
& GER 212 and Intermediate German II
JPNS 111 Elementary Japanese I 14
& JPNS 112 and Elementary Japanese II
& JPNS 211 and Intermediate Japanese I
& JPNS 212 and Intermediate Japanese II
SPAN 111 Elementary Spanish I 14
& SPAN 112 and Elementary Spanish II
& SPAN 211 and Intermediate Spanish I
& SPAN 212 and Intermediate Spanish II
PORT 213 Portuguese for Romance Language Students I 6
& PORT 214 and Portuguese for Romance Language Students II

For Heritage Speakers:
SPAN 113 Spanish for Heritage Learners I 9
& SPAN 213 and Spanish for Heritage Learners II
& SPAN 214 and Spanish for Heritage Learners III

Option 2:
Prefix Title Credits
Complete the following sequence for American Sign Language (with a C- or better):
C D 374 American Sign Language I 3
C D 375 American Sign Language II 3
C D 476 American Sign Language III 3

Option 3:
Prefix Title Credits
Challenge the 212 level for the following courses:
CHIN 212 Intermediate Chinese II 3
or FREN 212 Intermediate French II
or GER 212 Intermediate German II
or JPNS 212 Intermediate Japanese II
or SPAN 212 Intermediate Spanish II

OR
Challenge the 214 level for the following courses:
PORT 214 Portuguese for Romance Language Students II 3
or SPAN 214 Spanish for Heritage Learners III

Option 4:
Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

Option 5:
Obtain college certification of completion of three years of a second language at the high school level with a grade of C- or higher in the second-year level.

Option 6:
By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

Option 7:
By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

Option 8:
In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

American Government and Politics - Undergraduate Minor

Students pursuing a subfield minor may count a maximum of 3 credits in an independent studies course or an internship. Students may request permission to substitute courses between subfields, subject to approval of the Department of Government undergraduate committee.

Prefix Title Credits
Required Courses
GOVT 100G American National Government 3
or HON 249G American Politics in a Changing World
GOVT 110G Introduction to Political Science 3
or HON 248G The Citizen and the State: Great Political Issues
Select 12 additional credits, of which at least 9 are upper division, including 3 upper division courses from the same subfield.

Total Credits 18

The subfield series include courses in the 20/30 series (public administration and policy), 40/50 series (American government and politics), 60 series and HON 304V Dilemmas of War and Peace (international relations), 70 series (comparative politics), 80 series, including GOVT 380V Contemporary World Political Ideologies (political theory), and 90 series (public law).

Comparative Politics - Undergraduate Minor

Students pursuing a subfield minor may count a maximum of 3 credits in an independent studies course or an internship. Students may request permission to substitute courses between subfields, subject to approval of the Department of Government undergraduate committee.

Law and Society - Supplemental Major

The Department of Government also coordinates a supplementary major in law and society that may be taken in addition to a regular major. The program is designed to allow students to combine law-related classes offered across a range of departments and disciplines. It is of particular interest to undergraduates interested in law school or who contemplate careers in fields closely related to the legal profession, such as government, politics, social work or law enforcement.

Requirements

The supplementary major consists of 24 credits chosen from the courses listed below. At least 18 credits must be earned in upper-division courses and 6 credits must be earned from listed courses outside the student’s primary major. Candidates for the Law and Society degree must declare their supplementary major prior to completing the last 9 credits of the program.

Total Credits 24

Government - Master of Arts

The MA program provides general course work in each of the major fields of political science. Students may choose either the thesis option, under which they complete 30 credits of course work plus 6 thesis credits (GOVT 599 Master’s Thesis), or the nonthesis option, with 30 credits of course work plus 6 hours of special research credit (GOVT 598 Special Research Programs) or 6 hours of approved internship credit (GOVT 510 Internship). Both the thesis and nonthesis options require a final oral examination; the non thesis option requires a written examination as well. The program provides a broad-based foundation in political science while allowing students to pursue specific areas of interest.

Requirements

Flexibility in planning a program of study is permitted to meet the educational needs of a diverse student population. Structured areas of emphasis are available in several topical areas, including Latin American and international affairs. Students may also take a graduate minor in Security Studies. Information on these areas and the graduate minor may
be obtained from the Department of Government. No more than 9 credits taken outside the department will be counted toward the degree.

Total Credits 36

1 The remaining credits required for the degree are selected subject to advisor approval to satisfy particular academic interests or career goals.

### Public Administration - Master of Public Administration

The MPA program is accredited by NASPAA. The MPA is designed to provide students with the managerial and analytical skills, in addition to ethical and professional values, necessary to meet the increased demand for skilled public administrators. Candidates who follow this professional program must complete a minimum of 42 credits, consisting of core courses, electives and either an internship or a thesis.

#### Requirements

Because students have divergent career goals, a thesis or internship option is offered. The thesis option requires an additional 18 credits of course work, 6 credits of thesis (GOVT 599 Master’s Thesis), and a written examination covering the thesis and course work. The internship option also requires an additional 18 credits of course work, 3 credits of internship (GOVT 510 Internship), and a written examination covering the internship and course work. Students who fail their written examination must take an oral exam. As part of the course work, students selecting the internship option must take GOVT 519 Proseminar in Public Administration (3 credits that count toward the 42 total) during the latter part of their studies, and are required to earn a B- grade or higher in that course.

With approval, students may include up to 12 credits of relevant course work from other departments to be counted toward the total credits required for the MPA. These credits may be selected to form a graduate minor in another academic discipline.

#### MPA-MA Public History Program - Dual Degree

The MPA-MA Public History Option Program requires completion of a minimum of 57 credits of approved course work from the Departments of Government and History, including completing internship credits in both programs. Interested applicants should consult with the MPA director or the director of the Public History Program for additional information.

#### MPA-MCJ Program - Dual Degree

The MPA-MCJ joint degree option requires completion of a minimum of 57 credits of approved course work from the Departments of Government and Criminal Justice. Students interested in this option should meet with the MPA director or criminal justice graduate advisor for additional information.

#### Security Studies - Graduate Minor

Additional Courses

Other graduate courses may become available during the year which may be substituted for the above listed courses. Consideration may be made on a case-by-case basis.

History

Undergraduate Program Information

An undergraduate degree in history prepares students for careers in: teaching; law; public service; management; journalism; education; communications; travel counseling; and library, museum and archival staff work. Students master skills including the ability to read critically, to formulate arguments, to conduct historical research, and to synthesize arguments and create novel interpretations.

Graduate Program Information

The Department of History offers graduate work leading to the Master of Arts degree. In addition to fulfilling the basic requirements for admission to the Graduate School, applicants must present undergraduate passage of at least 12 credits in history with grades of B or higher, including 6 upper division history credits. Those lacking this preparation must normally make up deficiencies before beginning graduate course work. Candidates who choose a course of study requiring a foreign language will be responsible for their own language preparation.

Students applying for admission to the graduate program in history are required to submit an application form and a transcript to the Graduate School and a strong writing sample, three letters of recommendation ideally from History faculty members at NMSU or other institutions, and a two-to-three page statement of purpose to the Department of History, approximately four months in advance of the desired enrollment date. Applicants for graduate assistantships and fellowships must submit a statement of purpose to the Department of History, ideally from History faculty members at NMSU or other institutions, and a two-to-three page statement of purpose to the Graduate School, applicants must present undergraduate passage of at least 12 credits in history with grades of B or higher, including 6 upper division history credits. Those lacking this preparation must normally make up deficiencies before beginning graduate course work. Total Credits 9

History Courses

HIST 101G. Roots of Modern Europe

3 Credits

Economic, social, political, and cultural development from earliest times to about 1700.

HIST 102G. Modern Europe

3 Credits

Economic, social, political, and cultural development from 1700 to the present.

HIST 110G. Making History

3 Credits

General introduction to history: how historians carry out research and develop interpretations about the past.

HIST 111G. Global History to 1500

3 Credits

Global economic, social, political and cultural developments to 1500. Thematic approach.

HIST 112G. Global History Since 1500

3 Credits

Global economic, social, political and cultural developments since 1500. Thematic approach.

HIST 201G. Introduction to Early American History

3 Credits

History of the United States to 1877, with varying emphasis on social, political, economic, diplomatic, and cultural development.

HIST 202G. Introduction to Recent American History

3 Credits

History of the United States since 1877, with varying emphasis on social, political, economic, diplomatic, and cultural development.

HIST 211G. East Asia to 1600

3 Credits

History of China, Korea, Vietnam, and Japan from earliest times through the sixteenth century. Emphasis on cultural and political developments and their social and economic contexts, and the interaction between East Asian societies.

HIST 212G. East Asia since 1600

3 Credits

History of China, Korea, Vietnam, and Japan from the sixteenth through the twentieth centuries. Emphasis on internal development of each country, as well as the social and political impact of Western Imperialism, and the emergence of each country’s unique version of modern society.

HIST 221G. Islamic Civilizations to 1800

3 Credits

History of Islamic civilizations to 1800.

HIST 222G. Islamic Civilizations since 1800

3 Credits

History of Islamic civilizations since 1800.
HIST 261. New Mexico History
3 Credits
Economic, political, and social development of New Mexico from exploration to modern times. Community Colleges only.

HIST 269. Special Topics
1-3 Credits
Specific subjects to be announced in the Schedule of Classes. Community Colleges only. May be repeated for a maximum of 12 credits.

HIST 300. Special Topics
1-9 Credits (1-9)
Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 18 credits.

HIST 302V. Science in Modern Society
3 Credits
The social impact of scientific activity and thought from Newton to the present. The growth of modern scientific institutions; the political and social context of modern science. ENGL 111G recommended.

HIST 311V. Colonial Latin America
3 Credits
Social, political, and economic development from Columbus to the Wars of Independence. Research paper required.

HIST 312V. Modern Latin America
3 Credits
Post-revolutionary developments in the nineteenth and twentieth centuries; the role of Latin America in world affairs and the Inter-American system. Research paper required.

HIST 313. Making the American West
3 Credits
Development of the American West from 1803 to 1900 with emphasis on conquest, federal and corporate roles in western development, environmental change, and the Mythic West. Includes meetings outside regular class time to view feature-length films.

HIST 315. From the Wild West to the Atomic West
3 Credits
Explores the transformation of the West with particular attention to the roles of race, class, gender and culture. Includes meetings outside regular class time to view feature-length films.

HIST 316. History of Women in the American West
3 Credits
Experiences and interactions among Native American, Spanish/Mexican, immigrant, and Anglo-American women in the American West from 1500 to the present. Same as WS 316.

HIST 321. History of Korea
3 Credits
Social, political, and cultural history of Korea from earliest times through twentieth century. Emphasis on the interaction between Korean traditions and influences from China and the West.

HIST 323. Cultural History of Later Imperial China
3 Credits
Covers art and literature of China from the Tang Dynasty (618-907) through the eighteenth century. Developments in cultural theory and practice are traced in the context of the social and economic changes fostering an understanding of Chinese cultural history and its legacy in East Asia today.

HIST 329. History of Egypt
3 Credits
History of Egypt from ancient times to the present.

HIST 330V. Introduction to Religious Studies
3 Credits
Provides an overview of old and new methods and theories for the study of religion. Exposure to the ways groups of people in diverse cultural systems construct and change their religious traditions to serve practical and meaningful ends. Same as SOC 330V and ANTH 330V.

HIST 331. Rebels, Guerrillas, and Terrorists in Modern Latin America
3 Credits
Explores history of rebels in Latin America. Examines guerilla struggles attaining national dimension. Focus on modern events, including Peru’s Shining Path, Colombia’s FARC, and Mexico’s Zapatistas. Same as GOVT 468.

HIST 334. Art and Life in Renaissance Italy
3 Credits
Examines how Italian Renaissance textual and visual culture offered Europe new ways of seeing and portraying itself, 1350-1550. Topics include: Florence, Venice, Rome, Leonardo, Michelangelo, Titian, humanism, the Medici, and republican and courtly culture. Same as ART 444.

HIST 338. World War I
3 Credits
Cultural, social, and intellectual background and impact of World War I. Military and diplomatic events of the war. Consequences of the war.

HIST 339. World War II
3 Credits
Social, cultural and political aspects of World War II, in addition to traditional military events. Emphasis on U.S. involvement.

HIST 342. Early American Military History
3 Credits
Emphasis on American wars up to and including the Civil War, and on the factors contributing to the development of modern military systems.

HIST 343. Recent American Military History
3 Credits
Emphasis on American wars since the Civil War, and on factors contributing to the development of modern military systems.

HIST 347. Civil War Era 1840-1877
3 Credits
Mexican-American War, development of secession, American Civil War, Reconstruction.

HIST 354. Modern Mexico
3 Credits
Examines interactions of peasants, women, indigenous peoples, and economically/politically dominant groups within the Mexican state from 1810 to the present. Assesses the contentious relationship between Mexico and the United States, focusing on the Mexican-U.S. border.

HIST 356. The Mexican Revolution
3 Credits
Examines the history of modern Mexico through the lens of the Mexican Revolution, 1910-1920. Course covers military, political, social, cultural and economic developments that shaped Mexico during and after the Revolution.

HIST 362. Afro-American History II
3 Credits
Black Americans in the United States in the twentieth century; segregation; black leaders, organizations, methods and goals; white reaction; the struggle for equality.
HIST 366V. British Imperialism
3 Credits
Survey of the activities of the British empire from the 16th century through the 20th century, with emphasis on Ireland, North America and India. Assesses the impact of imperial activities on British domestic politics, culture and social history, and the process and impact of decolonization.

HIST 368. Teaching History
3 Credits
Philosophical and practical issues of teaching history are explored. Designed to help prospective teachers at all levels clarify their views about studying history. A variety of pedagogical strategies for teaching history are explored.

HIST 369. History of Latinos in the United States
3 Credits
Development of Latino communities since 1500 in what is today the U.S. Emphasis on 1846 to present, and on Mexican Americans, Puerto Ricans, and Cuban Americans. Major themes: race, colonialism, immigration, nationalism, class, culture, gender, and politics.

HIST 371. Ancient Greece
3 Credits
Social, cultural, and political history of Greece from the Minoan to Hellenistic periods.

HIST 372. The Roman World
3 Credits
Republican and Empire; Rome as a world power; institutional, cultural, and intellectual contributions; decline and fall.

HIST 373. Islam and the West: Cultural Contacts, Conflicts and Exchanges
3 Credits
Examines interactions, encounters and cross-fertilization between the Islamic world and the West from the seventh to the twenty-first centuries. Course includes origins of Islam, relationships between Islam, Judaism, and Christianity, and concludes with the post 9/11 present.

HIST 374V. The European City: History and Culture
3 Credits
Course presents the rich, complex history and cultures of European cities from ancient to modern times, linking these cities to crucial issues in European history. Crosslisted with HON 374V, GEOG 374V, GOVT 374V.

HIST 382V. Modern Russia
3 Credits
Domestic policies and foreign relations from mid-nineteenth century to the present with emphasis on the Soviet period.

HIST 383. Germany
3 Credits
Political, social, and cultural developments from the eighteenth century to the present, with emphasis on the Nazi era. Same as GOVT 473.

HIST 386. New Mexico History
3 Credits
Economic, political and social development of New Mexico from exploration to modern times.

HIST 387. Spain
3 Credits
From pre-Roman times to the modern era.

HIST 390V. The Holocaust
3 Credits
The attack upon European Jews by Adolf Hitler and the National Socialist Party in Germany and occupied Europe from his accession to chancellor in 1933 until the end of the Third Reich in 1945.

HIST 392. Tudor-Stuart England, 1485-1715
3 Credits
British history from 1485-1715, including the development of the monarchy and Parliament, the Protestant Reformation, the English Civil War and Restoration, and culture and society.

HIST 394. Victorian and Edwardian Britain, 1815-1914
3 Credits
Evolution of constitutional monarchy; industrialism and imperialism; repose and reform; increased influence of an intellectual elite and the emergence of the Labor Party.

HIST 395. From Rule Britannia to Cool Britannia: Twentieth-Century Britain
3 Credits
Edwardian Era, World War I; Reconversion, the 1926 General Strike; the Great Depression and appeasement; Churchill and the war against Nazi Germany; nationalization and the Welfare State.

HIST 397. Introduction to Public History
3 Credits
Surveys how historians do history in museums, archives, government agencies, and in communities. Hands-on experience provides students a better understanding of history and how historians work outside of the classroom. Seminar project required.

HIST 398. Historians and History
3 Credits
General historiography and philosophy of history; historical methodology, research, and writing; bibliographical aids and their uses. May be repeated up to 3 credits. Restricted to: HIST majors.

HIST 399. New Mexico Law
3 Credits
Same as GOVT 399, C J 399, JOUR 399, and SOC 399.

HIST 400. Special Topics
1-9 Credits (1-9)
Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 18 credits.

HIST 402. Special Topics in European History
3 Credits
Special topics in European history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

HIST 403. Special Topics in Middle Eastern History
3 Credits
Special topics in Middle Eastern history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

HIST 404. Special Topics in Asian History
3 Credits
Special topics in Asian history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

HIST 406. Special Topics in United States History
3 Credits
Special topics in United States history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.
HIST 408. Cultures of Africa  
3 Credits  
Explores the rich history and cultural diversity of the continent of Africa. The course first examines the historical processes that have shaped modern Africa, including the evolution of modern humans in Africa, the origins of agriculture and pastoralism, the formation of indigenous African states, the slave trade, and European colonialism. The course also looks at contemporary African societies, including hunter-gatherer, pastoral, and farming/fishing peoples. In addition, contemporary issues facing modern Africa such as famine and agricultural policy, the status of women, and environmental changes such as deforestation are discussed. Crosslisted with: ANTH 404

HIST 412. Travel Writing  
3 Credits  
Explores how writers describe their travels with an emphasis on the history of a place. Semester paper required. Crosslisted with: HIST 512.

HIST 413. Native American History  
3 Credits  
Seminar explores the history of Native Americans, including tribal conflicts, interactions with Europeans and Euro-Americans, land loss, degradation of natural resources, federal Indian policy, pan-Indian movements, cultural resistance and revitalization, and modern tribal economies.

HIST 423. The History of Food  
3 Credits  
Considers the history of the production and consumption of food in the West from the Neolithic Age to the present with an emphasis on the historical relationships between food, gender, social class, social identity and nationalism. Crosslisted with: HIST 523.

HIST 424. History of Art, Thought and Literature  
3 Credits  
Seminar discusses a variety of artistic and literary expressions in their historical contexts and focuses on the ways in which cultural forms both reflect and construct the broader historical trends that surround them.

HIST 425V. History of Magic and Witchcraft in Medieval and Renaissance Europe  
3 Credits  
Examines history of popular and scientific beliefs about magic and witchcraft in medieval and early modern Europe. Includes origins of occult Western sciences; Arabic sources of medieval magic; the occult sciences in scholasticism; witchcraft and scholasticism; witchcraft and medieval theology, witch hunts of the 16th and 17th centuries; and the decline of belief in magic and witchcraft. Emphasis on boundaries that defined and separated magic, science, and religion in Western thought from late antiquity through the Scientific Revolution. Crosslisted with: HON 425.

HIST 428. History of Terrorism in Modern Europe and the Middle East  
3 Credits  
Analyzes causes, methods, and consequences of terrorism in Europe and the Middle East from the Reign of Terror in the French Revolution to Al-Qaeda, Hamas and Hezbollah in the contemporary Middle East and beyond.

HIST 431. History of Race and Ethnicity  
3 Credits  
Seminar explores the historical social construction of race and ethnicity, and their relationship to other systems of social difference such as class and gender. Course will examine popular and academic theories of race and ethnicity as well as historical concrete effects of racial and ethnic differences in society.

HIST 432. United States Labor History to 1877  
3 Credits  
Seminar discussions explore United States labor and working-class history to 1877, including such topics as pre-industrial and industrial labor, slavery, debt peonage, indentured servitude, and housework. May explore the history of labor organization, working-class culture and leisure activities, and responses to labor issues by the state.

HIST 433. United States Labor History Since 1877  
3 Credits  
Seminar discussions explore United States labor and working-class history since 1877, including such topics as industrial labor, debt peonage, and housework. May explore the history of labor organization, working-class culture and leisure activities, and responses to labor issues by the state.

HIST 434. Urban History  
3 Credits  
Seminar covers historical dynamics of violent social, political, and economic transitions. May focus upon a particular war or upheaval, such as World War II or the French Revolution, or may examine more generic characteristics of conflict and radical change across many historical examples. Extensive readings in scholarly literature. Research projects relating to specific course contents.

HIST 435. History of War and Revolution  
3 Credits  
Seminar covers historical dynamics of violent social, political, and economic transitions. May focus upon a particular war or upheaval, such as World War II or the French Revolution, or may examine more generic characteristics of conflict and radical change across many historical examples. Extensive readings in scholarly literature. Research projects relating to specific course contents.

HIST 436. Nations and Nationalism  
3 Credits  
Seminar examines major theories of nationalism from the nineteenth century to the twenty-first century. Course includes nationalist case studies, from liberal nationalist state-building to ethnic cleansing in the Balkans.

HIST 438. Antiquity and Modernity  
3 Credits  
Seminar explores links between earlier and more recent historical periods. Examples may include the Renaissance rediscovery of ancient Rome or the early modern Chinese reassessment of its classical Confucian heritage. Readings include ancient sources and the modern reception of such works, and the scholarly assessment of these processes. Individual research projects required in areas of student interests.

HIST 443. The Cold War in Latin America  
3 Credits  
Seminar discusses Latin American political history during the Cold War. Course focuses on how Latin Americans (individuals, parties, militaries, states) acted in an increasingly politicized arena defined by growing United States concerns over Cuban and Soviet influence in the area.

HIST 448. Nuclear Nation  
3 Credits  
Explores post-World War II history and the impact atomic energy has had on the United States and the world.
HIST 449. Readings
3 Credits
Individual study of selected readings and problems. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

HIST 453. Cuba: Colony to Castro
3 Credits
Economic, social, and political development of Cuba and other colonies and nations in the Caribbean with emphasis on recent events.

HIST 459. Peru: From Incas to Inka Kola
3 Credits
Explores issues of cultural and national identity in Peru from the Incas to the present, focusing on the modern period. Themes include indigenous resistance and adaptation to colonial rule, nationalism, militarism, terrorism, globalization, and the drug trade. Same as ANTH 459 and GOVT 465.

HIST 471. China through the Ming Dynasty
3 Credits
History of China from origins to Ming dynasty, (1368-1644). Cultural and political development with emphasis on social and economic contexts and long term trends.

HIST 472. China in the Modern World
3 Credits
History of China from seventeenth through twentieth centuries. Rise and fall of the Manchu Qing dynasty, internal dynamics of social and political change in nineteenth and twentieth centuries, impact of Western Imperialism, and development of the Peoples Republic since 1949.

HIST 473. History of Japan
3 Credits
History of Japan through twentieth century. Political and cultural developments and their social and economic contexts. Chinese influence on early Japan, rise of Samurai and Shogunate, impact of Western Imperialism, and emergence of modern Japan.

HIST 474. Gender in East Asian History
3 Credits
Examines the position of women and the social roles of both sexes in traditional China and Japan, and traces the changes taking place in those societies in the course of modernization in the last century and a half. Scholarly literature and works of Chinese and Japanese literature in translation and cinema used. Same as W S 474.

HIST 475. History of the Global Political Economy
3 Credits
Traces development of global systems of economic interaction and the rise of European military and political dominance in the 18th and 19th centuries. Emphasis on East and South Asian roles in early modern history, and on challenges to European dominance in the 20th and 21st centuries.

HIST 479. Oral History
3 Credits
Oral history through readings, discussions, and interviews. Semester project required that includes an interview and transcript.

HIST 481. Time Traveling Through New Mexico's Past
3 Credits
Teaches historians and educators how to make history come alive. Semester project includes role playing characters and activities from a past era with local schools and museums.

HIST 483. Historic Preservation
3 Credits
Study of community development, the historic preservation movement, and the built environment. Field project.

HIST 486. Interpreting Historic Places for the Public
3 Credits
Explores historic site interpretation, the scholarship and philosophy of historic interpretation, and the nature of heritage interpretation for historic places.

HIST 489. Projects in History
3 Credits
Individual projects in history. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

HIST 500. Special Topics
1-9 Credits (1-9)
Specific subjects to be announced in the Schedule of Classes. Graduate research paper required. May be repeated for a maximum of 12 credits.

HIST 503. The Jacksonian Era, 1800-1840
3 Credits
Jeffersonian period, War of 1812. Social, political, and economic history of the Jacksonian era. Graduate research paper required.

HIST 504. Civil War Era, 1840-1877
3 Credits
Mexican-American War, development of secession, American Civil War, Reconstruction. Graduate research paper required.

HIST 509. Native American History
3 Credits
Seminar explores the history of Native Americans, including tribal conflicts, interactions with Europeans, and Euro-Americans, land loss, degradation of natural resources, federal Indian policy, pan-Indian movements, cultural resistance and revitalization, and modern tribal economies.

HIST 511. Making the American West
3 Credits
Development of the American West from 1803 to 1900, with emphasis on conquest, federal and corporate roles in western development, environmental change, and the mythic West. Includes extra class meetings to view feature-length films. Graduate research paper required.

HIST 512. Travel Writing
3 Credits
Explores how writers describe their travels with an emphasis on the history of a place. Semester paper required. Crosslisted with: HIST 412.

HIST 516. History of Latinos in the United States
3 Credits
Development of Latino communities since 1500 in what is today the United States. Emphasis on 1846 to present, and on Mexican Americans, Puerto Ricans, and Cuban Americans. Major themes: race, colonialism, immigration, nationalism, class, culture, gender, and politics. Graduate research paper required.

HIST 518. From the Wild West to the Atomic West
3 Credits
Explores the transformation of the West, with particular attention to the roles of race, class, gender, and culture. Includes extra class meetings to view feature-length films. Graduate research paper required.
HIST 524. Art, Thought and Literature
3 Credits
Seminar discusses a variety of artistic and literary expressions in their historical contexts and focuses on the ways in which cultural forms both reflect and construct the broader historical trends that surround them.

HIST 525. History of Magic and Witchcraft in Medieval and Renaissance Europe
3 Credits
Examines history of popular and scientific beliefs about magic and witchcraft in medieval and early modern Europe. Includes origins of occult Western sciences; Arabic sources of medieval magic; the occult sciences in scholasticism; witchcraft and scholasticism; witchcraft and medieval theology, witch hunts of the 16th and 17th centuries; and the decline of belief in magic and witchcraft. Emphasis on boundaries that defined and separated magic, science, and religion in Western thought from late antiquity through the Scientific Revolution. May be repeated up to 3 credits.

HIST 527. Labor History
3 Credits
Seminar discussions explore labor and working-class history, including such topics as pre-industrial labor, slavery, debt peonage, indentured servitude, and housework. May explore the history of labor organization, working-class culture and leisure activities, and responses to labor issues by the state.

HIST 528. History of Terrorism in Modern Europe and the Middle East
3 Credits
Advanced analyses of causes, methods, and consequences of terrorism in Europe and the Middle East from the Reign of Terror in the French Revolution to Al-Qaeda, Hamas, and Hezbollah in the contemporary Middle East and beyond.

HIST 535. War and Revolution
3 Credits
Seminar covers historical dynamics of violent social, political and economic transitions. May focus upon a particular war or upheaval, such as World War II or the French Revolution, or may examine more generic characteristics of conflict and radical change across many historical examples. Extensive readings in scholarly literature. Research projects relating to specific course contents.

HIST 536. Nations and Nationalism
3 Credits
Seminar examines major theories of nationalism from the nineteenth to the twenty-first centuries. Course includes nationalist case studies, from liberal nationalist state-building to ethnic cleansing in the Balkans.

HIST 538. Special Topics in European History
3 Credits
Advanced special topics in European history to be announced in the schedule of classes. May be repeated for a maximum of 12 credits.

HIST 540. Special Topics in Middle Eastern History
3 Credits
Advanced special topics in Middle Eastern history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

HIST 543. Special Topics in Asian History
3 Credits
Advanced special topics in Asian history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

HIST 545. Special Topics in United States History
3 Credits
Advanced special topics in United States history to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

HIST 548. Nuclear Nation
3 Credits
Explores post-World War II history and the impact that atomic energy has had on the United States and the world.

HIST 549. Graduate Readings
1-3 Credits
Individual study of selected readings and problems. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

HIST 552. Modern Mexico
3 Credits
From independence to the present, with emphasis on the Revolution. Graduate research paper required.

HIST 553. Cuba: Colony to Castro
3 Credits
Economic, social, and political development of Cuba and other colonies and nations in the Caribbean, with emphasis on recent events. Graduate research paper required.

HIST 557. The Mexican Revolution
3 Credits
Origins, causes, and scope of the Mexican Revolution, including leading personalities, with emphasis on the U.S.-Mexican border. Graduate research paper required.

HIST 559. Peru: From Incas to Inca Kola
3 Credits
Crosslisted with: ANTH 559 and GOVT 565

HIST 561. Islam and the West: Cultural Contacts, Conflicts and Exchanges
3 Credits
Examines interactions, encounters and cross-fertilization between the Islamic world and the West from the seventh to the twenty-first centuries. Course includes origins of Islam, relationships between Islam, Judaism, and Christianity, and concludes with the post 9/11 present. May be repeated up to 3 credits.

HIST 566. British Imperialism
3 Credits
Survey of the activities of the British empire from the 16th century through the 20th century, with emphasis on Ireland, North America and India. Assesses the impact of imperial activities on British domestic politics, culture and social history, and the process and impact of decolonization.

HIST 568. Urban History
3 Credits
Seminar discusses cities as complex catalysts for cultural, political, and scientific development, both within cities themselves and more broadly for their nations and regions. Course deals with such topics as the relationship between social organization and physical space; city development, morphology and dynamics; and the cultural and intellectual history of cities.
HIST 570. The Cold War in Latin America
3 Credits
Seminar discusses Latin American political history during the Cold War. Course focuses on how Latin Americans (individuals, parties, military, states) acted in an increasingly politicized arena defined by growing United States concerns over Cuban and Soviet influence in the area.

HIST 571. China through the Ming Dynasty
3 Credits
History of China from origins to Ming Dynasty, 1368-1644. Cultural and political development with emphasis on social and economic contexts and long term trends. Research paper required.

HIST 572. China in the Modern World
3 Credits
Covers the history of China from 17th through 20th centuries. Rise and fall of the Manchu Qing dynasty, internal dynamics of social and political change in the 19th and 20th centuries, impact of Western imperialism, and development of the Peoples Republic since 1949. Research paper required.

HIST 573. History of Japan
3 Credits
Covers the history of Japan through the 20th century. Political and cultural developments and their social and economic contexts. Chinese influence on early Japan, rise of Samurai and Shogunate, impact of Western imperialism, and the emergence of modern Japan. Research paper required.

HIST 574. Gender in East Asian History
3 Credits (3+2P)
Examines the position of women and the social roles of both sexes in traditional China and Japan, and traces the changes taking place in those societies in the course of modernization in the last century and a half. Scholarly literature and works of Chinese and Japanese literature (in translation) and cinema used. Same as W S 574.

HIST 575. History of the Global Political Economy
3 Credits
Traces development of global systems of economic interaction and the rise of European dominance in the 18th and 19th centuries. Emphasis on East and South Asian roles in early modern history, and on challenges to European dominance in the 20th and 21st centuries.

HIST 576. The Holocaust
3 Credits
Advanced study of the attack on European Jews by Adolf Hitler and the National Socialist Party in Germany and occupied Europe from his accession as chancellor in 1933 until the end of the Third Reich in 1945.

HIST 578. Modern Russia
3 Credits
Domestic policies and international relations from the mid-nineteenth century to the present with emphasis on the Soviet experience.

HIST 579. Oral History
3 Credits
Oral history through readings, discussion, and interviews. Course project required that includes an interview and transcription.

HIST 580. Graduate Research Projects
1-6 Credits (1-6)
Intensive investigation of a selected area of history, including the completion of a research paper or a public history project. Consent of instructor required.

HIST 581. Time Traveling Through New Mexico's Past
3 Credits
Instructs historians and educators on how to make history come alive. Semester project includes role playing characters and activities from a past era with local schools and museums.

HIST 582. History and Memory
3 Credits
Seminar examines the interplay of memory and history. Explores how various nations and people construct the narratives of their past.

HIST 583. Advanced Historic Preservation
3 Credits
Covers the community development, the historic preservation movement, and the built environment. Field project and additional graduate work.

HIST 585. Public History Internship
3 Credits
Individual project in an area of public history, including a final written report. Research project required. May be repeated for a maximum of 9 credits.
Prerequisite: consent of instructor.

HIST 586. Interpreting Historic Places for the Public
3 Credits
Advanced study of historic site interpretation, the scholarship and philosophy of historic interpretation, and the nature of heritage interpretation for historic places.

HIST 587. United States Labor History to 1877
3 Credits
Seminar discussions explore United States labor and working-class history to 1877, including such topics as pre-industrial and industrial labor, slavery, debt peonage, indentured servitude and housework. May explore the history of labor organization, working-class culture and leisure activities, and responses to labor issues by the state.

HIST 590. Reading Seminar: Borders, Boundaries and Frontiers
3 Credits
Explores questions and issues concerning different kinds of borders, boundaries and frontiers. Introduces relevant theoretical literature and considers specific places and times through case studies, including U.S.-Mexico border. Restricted to students in HIST program.

HIST 591. Reading Seminar: Modernity and its Discontents
3 Credits
Examines the problem of modernization and the meaning of becoming and being modern, including positive and negative effects on individuals, cultures, environments and societies.

HIST 592. Reading Seminar: Nature and Society
3 Credits
Considers how humans and nature have reshaped each other, how people have perceived nature, how different cultures have understood their relationships to nature, and how social groups and nations have struggled over natural resources. Takes a comparative, transnational approach.

HIST 593. Reading Seminar: History, Myth and Memory
3 Credits
Course analyzes the complex and often contested process of writing national histories, creating national heroes, and forging collective memories. Students assess written texts, memorials, parades and celebrations.
**HIST 594. Public History Seminar**  
3 Credits  
Introduction to the discipline of public history, including its methodology and literature. Fieldwork is required.

**HIST 596. Research Seminar**  
3 Credits  
Research seminar teaches students the process of conducting original historical research with primary source documents. Students will then use these research skills to produce a polished chapter or article-length manuscript. Restricted to HIST majors.

**HIST 597. Public History Article**  
1-9 Credits (1-9)  
Researching and writing an article suitable for publication about a student's public history internship or other topic of interest within the field of public history.

**HIST 598. Craft of History: Historical Theories, Methods, and Criticism (f)**  
3 Credits  
Introduction to historical theories, methodologies, criticism, and skills essential to graduate study in history. Required for all history graduate students; restricted to history majors.

**HIST 599. Master's Thesis**  
1-15 Credits (1-15)  
Thesis.

**History - Bachelor of Arts**

The undergraduate history major consists of at least 42 credits in the major field, 24 credits of which must be numbered 300 or above. All courses must be passed with grades of C- or higher, and none may be taken on an S/U basis. Electives must be carefully selected by the student and approved by a Department of History advisor so that the student's program is well tailored to individual goals. All majors must be advised prior to registration.

Among the upper-division courses that majors take, one or more (in addition to HIST 398 Historians and History) must require a research-based paper or papers. In fulfilling their research requirements, majors must write one research-based paper or papers which together total at least 20 pages.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

</table>

Choose one HIST sequence from the following, to satisfy both the Area V and Gen Ed elective requirements:

- HIST 101G & HIST 102G: Roots of Modern Europe and Modern Europe
- HIST 111G & HIST 112G: Global History to 1500 and Global History Since 1500
- HIST 201G & HIST 202G: Introduction to Early American History and Introduction to Recent American History
- HIST 211G & HIST 212G: East Asia to 1600 and East Asia since 1600
- HIST 221G & HIST 222G: Islamic Civilizations to 1800 and Islamic Civilizations since 1800

Area VI: Creative and Fine Arts  

| 3 |

General Education Elective

The second HIST course in the sequence selected from the Area V requirement will satisfy this requirement.

**Viewing A Wider World**  

6

Departmental/College Requirements

A total of 12 credits of lower-division HIST courses are required, six of these credits will be from the Area V and General Education Elective Requirements (above)

The other six credits will be from one of the following sequences (it must be different from the courses used for the General Education requirements):  

- HIST 101G & HIST 102G: Roots of Modern Europe and Modern Europe
- HIST 111G & HIST 112G: Global History to 1500 and Global History Since 1500
- HIST 201G & HIST 202G: Introduction to Early American History and Introduction to Recent American History
- HIST 211G & HIST 212G: East Asia to 1600 and East Asia since 1600
- HIST 221G & HIST 222G: Islamic Civilizations to 1800 and Islamic Civilizations since 1800
- HIST 311V & 311V: Colonial Latin America and Colonial Latin America
- HIST 398: Historians and History

Select at least one 400 level History undergraduate seminar.  

Select six additional 3-credit upper division History courses, at least 1 of which must be a course numbered 400 or above.

**Second Language Requirement:** (not required)
Electives, to bring the total credits to 120
Select sufficient electives to bring total credits to 120, including 48 upper-division credits.

1. Recommended for senior year or as a graduate student.

Second Language Requirement
For the Bachelor of Arts in History there is no second language requirement for the degree.

Secondary Licensure
History majors who are planning on pursuing certification as public school teachers should take the following six courses in preparation. These six courses will complete approximately half of the course work necessary for students to earn teaching licensure in New Mexico. After completing the undergraduate degree in History with a grade point average of 2.5 or above, the student should apply to the Graduate School for admission to the Department of Curriculum and Instruction and the Teacher Education Program in the College of Education to pursue the remaining courses needed to complete secondary licensure.

**Dual Track M.A. (Public History AND Thesis)**

Students choosing to pursue both the thesis track and Public History concentration must complete the course hours required for the public history concentration, perform an internship, and defend the proposed thesis before undertaking it using guidelines provided by the department, present the public history portfolio at a public presentation, complete the thesis, and defend their course work, thesis and public history portfolio at a final oral examination. In order to satisfactorily complete both programs, such students would complete 39 credits, including three hours of internship credit and six hours of thesis work.

**Public History and Public Administration - Dual M.A. Degree**

The Department of History and the Department of Government offer a dual degree in which students who are accepted into both of these programs may simultaneously earn both a Master of Arts in History degree with the Public History specialization, and a Master of Public Administration degree. The dual degree requires 57 total credits, while students who pursued both degrees as separate degrees would need to pass at least 72 credits. Students earning the dual degrees must pass a joint oral examination after passing required courses and completing internship credits in both programs. Students interested in the dual degree program should consult with the Director of the Public History Program and the Director of the Master of Public Administration Program.

**History - Graduate Minor**

Students may earn a graduate minor in History by passing the following courses:

Students seeking a Bachelor of Arts degree, Undergraduate Minor, and Graduate Minor; and the International Studies Undergraduate Minor.

Interdisciplinary Studies

The Interdisciplinary Studies Department houses the Bachelor of Applied Studies and Bachelor of Individualized Studies; Gender and Sexuality Studies Bachelor of Arts degree, Graduate Minor, and Undergraduate Minor; and the International Studies Undergraduate Minor.

Undergraduate Program Information

Bachelor of Applied/Individualized Studies

The Interdisciplinary Studies Department extends New Mexico State University’s reach beyond traditional academic programs to provide educational opportunities for students to meet their academic, professional, and personal learning goals. The Interdisciplinary Studies Department offers flexible degree programs in the Bachelor of Applied Studies (BAS) and the Bachelor of Individualized Studies (BIS), giving students the opportunity to work with an advisor to develop their own interdisciplinary program, appropriate to their unique educational and career goals.

The Bachelor of Applied Studies is a program designed for those students who have procured an Associates of Applied Studies (AAS) at a community or two-year college. This major allows students to transfer credits and build from their Associates degree toward a university-level degree. The BAS degree helps minimize credit loss for associate degree graduates when pursuing a baccalaureate degree at NMSU by requiring a fewer number of upper-division credits: requiring 36 as opposed to the 48 upper-division courses required of other majors. The aim is to equip students to effectively build from their applied backgrounds and knowledge to shift careers or to advance in their chosen career.

The Bachelor of Individualized Studies is a flexible degree program serving multiple needs. It can be designed to serve students desiring an academic degree not offered at NMSU, particularly students with broad or diverse academic and career interests. It can also allow students to complete a college degree when an initial major does not fit as well as planned. Its flexibility in accepting course credits also serves as a completion program for students who left college and now want to return to earn a Bachelor degree. A well-designed interdisciplinary curriculum emphasizes the value of approaching complex issues from multiple perspectives, equipping students with the requisite critical and analytical skills to become effective problem solvers in a chosen career.

Minors Recommended for BAS & BIS Majors

Students seeking a Bachelor of Applied Studies or the Bachelor of Individualized Studies degree are encouraged to complete one or more minors offered through various NMSU colleges. A minor is designated on a transcript and consists of a minimum of 18 credits, nine of which must be upper-division. Courses required to complete a minor may be in a single department or interdepartmental, are offered through various NMSU colleges, and are subject to availability. Students seeking to complete a minor must have the minor verified, prior to graduation, by the college academic department administering the minor. Specific requirements for minors may be obtained from the academic department administering a specific minor, the academic department’s college dean’s office, and in the college departmental listings of this catalog. Note: The NMSU College of Business allows a maximum of 30 business credit hours (excluding A ST 251G Statistics for Business and the Behavioral Sciences) to count towards the BAS degree. Also, the only College of Business minor allowed is the Business Administration Minor.

Gender and Sexuality Studies

The Interdisciplinary Studies Department offers a Bachelor of Arts in Gender & Sexuality Studies, an Undergraduate Minor in Gender & Sexuality Studies, and a Graduate Minor in Gender and Sexuality Studies. Gender and Sexuality Studies specializes in the examination of gender; gender identity; queer and transgender studies; feminisms; and social justice from interdisciplinary perspectives. This field of study equips students with analytical skills and knowledge to engage power structures critically and to transform lives and communities. Courses are offered both online and on campus, and this degree is one of a few at NMSU in which all major and minor requirements can be taken online.

International Studies

The Interdisciplinary Studies Department offers an Undergraduate Minor in International Studies, an interdisciplinary program enabling students, regardless of their major area of study, to develop a broad understanding of the rapidly changing global environment by proving a curriculum that encompasses the social, political, cultural and economic forces at work in an increasingly interdependent world.

Through not a requirement, students working toward the Undergraduate Minor in International Studies can also take part in the Peace Corps Prep Program at NMSU, a program that fits well with aims of the minor. This program is designed to be a component of an undergraduate curriculum that includes experiential-based community service and selected courses to help prepare students for volunteer service in international development.

behavior. Crosslisted with: PSY 359.

abilities and personality, and biological, social, and cultural influences on sexuality, victimization, gender stereotypes, gender comparisons in development across the lifespan, work, physical and mental health, literature. Topics include those unique to women and unique to men of gender in psychology and current controversies in the psychological

Examines theories and research on the psychological functioning of women and men in North American society, including influential theories

3 Credits

Same as HIST 316.

Experiences and interactions among Native American, Spanish/Mexican, immigrant, and Anglo-American women in the American West from 1500 to the present. Same as HIST 316.

3 Credits

Crosslisted with: HON 218

W S 316. History of Women in the American West

3 Credits

Crosslisted with: W S 482. Women in Mass Media

3 Credits

Same as JOUR 380.

W S 401. Women & Immigration

3 Credits (3)

Explores historical and contemporary immigration processes in/to the U.S. that are shaped by gendered dynamics, societal structures, and the socio-economic conditions that impact immigrant women. Examines how immigrant women use their agency and resistance to overcome exploitative circumstances, and the restraints of immigration laws and policies that impact individual, communal and societal change.

W S 402. Transnational Feminisms

3 Credits (3)

Explores dimensions of gender, race, class, and sexuality in conjunction with nationalisms, anti-capitalist struggles, religious fundamentalism, militarism, globalization, eco-critique, and the politics of resistance and social movements.

W S 403. Gender & Horror

3 Credits (3)

Explores cultural anxieties and crises through the genre of horror as they relate to issues of gender, sexuality, feminism, and race. Traces ways horror films represent and reconfigure notions of sexuality and gender and ways they reinforce and/or challenge social norms.

W S 405. Alternative Genders and Sexualities

3 Credits

Introduces students to cultural study in the academic fields of Gay, Lesbian, Bisexual, Transgender (GLBT) and Queer Studies. Examines academic texts as well as literature and film from different historical moments and social/global sites.

W S 407. Gender and Graphic Narrative

3 Credits

Examines graphic novels that disrupt stereotypical ideas about genre, gender, race, class sexuality, as well as common notions about comics. Considers texts that address underrepresented experiences.
W S 408. Food and Representation
3 Credits
Examines contemporary food writing as a way to study identity, social
structures, and notions of acceptability. Explores how constructions of
food shape bodies, desires, and notions of belonging.

W S 411. Gender and Migration
3 Credits
Examines multiple experiences of forced migration and displacement.
Explores violence, structural dislocation, neoliberalism, globalization,
economic collapse and civil war. Discusses local, regional and global
responses to creating meaningful change in communities most affected
by migration.

W S 412. Gender and Film Studies
3 Credits
Examines the shifting cultural and theoretical meanings of gender and
sexuality across a variety of film genres while also analyzing the role
of formal film elements in shaping representation and reception.

W S 450. Special Topics
3 Credits
The topic of course will vary and will be indicated by subtitle. May be
cross-listed with relevant courses at the 400-level from any specific
department. May be repeated under different subtitle(s).

W S 451. Women's Studies Practicum
3 Credits
Supervised field work in community setting relating to women. May be
repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

W S 452. Women and Politics
3 Credits
Crosslisted with: GOVT 353

W S 454. Women Crossing Borders
3 Credits
Experiences of women who cross class, race, cultural, national, or sexual
borders including theories regarding women's Interactions across
borders. Emphasis will vary with professor and discipline.

W S 455. Feminist Research Methodologies
3 Credits
Study of feminist methodologies, covering transnational decolonizing
Indigenous, Chicana feminist approaches to research, such as
storytelling, narrative, testimonio, platica, research-based art, performed
ethnography and participatory action research. May be repeated up to 3
credits.

W S 461. Women's Studies: Independent Study
3 Credits
Individual study of selected topic and writing of research paper. May be
repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

W S 465. Sex, Gender and the Body
3 Credits
Examines forces at work in defining and differentiating gender, race,
sexuality. How ideas about what is 'natural' and 'normal' for men and
women shifted over time. Considers different discourses shaping
embodied experiences and categories of identity.
Prerequisite(s): None.

W S 468. Global Sexualities
3 Credits
Generates a global context to focus on sexual identity and orientation,
sexual identity politics, romantic relationships, patterns of sexual
behavior, sexual regulation and the impact of different cultures on
individual sexualities. Taught with W S 568. Crosslisted with: SOC 468

W S 471. Seminar in Feminist Theory
3 Credits
Current feminist theory. Topic changes by semester. Course subtitled in
the Schedule of Classes. Prerequisite: None

W S 474. Gender in East Asian History
3 Credits
Same as HIST 474.

W S 482. Gender and Popular Culture
3 Credits
Intensive study of the representations of gender in popular culture.
Examines the historical, aesthetic, and cultural contexts of these
representation and the various critical and theoretical lenses we use to
understand them. Repeatable under different subtitles. May be repeated
up to 99 credits.

W S 484. Women's Literature
3 Credits
Intensive study of literature by women, in particular historical, aesthetic,
cultural, or intellectual contexts. Repeatable under different subtitles.
Crosslisted with: ENGL 481

W S 501. Advanced Women & Immigration
3 Credits (3)
Advanced exploration of historical and contemporary immigration
processes in/to the U.S. that are shaped by gendered dynamics, societal
structures, and the socio-economic conditions that impact immigrant
women. Examines how immigrant women use their agency and
resistance to overcome exploitative circumstances, and the restraints
of immigration laws and policies that impact individual, communal and
societal change.

W S 502. Advanced Transnational Feminisms
3 Credits (3)
Advanced analysis of dimensions of gender, race, class, and sexuality
in conjunction with nationalisms, anti-capitalist struggles, religious
fundamentalism, militarism, globalization, eco-critique, and the politics of
resistance and social movements.

W S 503. Advanced Gender & Horror
3 Credits (3)
Advanced analysis of anxieties and crises through the genre of horror as
they relate to issues of gender, sexuality, feminism, and race. Traces ways
horror films represent and reconfigure notions of sexuality and gender
and ways they reinforce and/or challenge social norms.

W S 505. Advanced Alternative Genders and Sexualities
3 Credits
Advanced study of the academic fields of Gay, Lesbian, Bisexual,
Transgender (GLBT) and Queer Studies. Examines academic texts as well
as literature and film from different historical moments and social/ global
sites.
W S 506. Advanced Women and Human Rights  
3 Credits  
Advanced analysis of human rights violations and injustices as they relate to the lives of girls and women. Intensive examination of international political, legal, economic and socio-cultural implications of violence that target women and girls. Focusing on different countries, explores social, political, economic, and human rights.

W S 507. Advanced Gender and Graphic Narrative  
3 Credits  
Advanced examination of graphic novels that disrupt stereotypical ideas about genre, gender, race, class sexuality, as well as common notions about comics. Considers texts that address underrepresented experiences.

W S 508. Advanced Food Presentation  
3 Credits  
Advanced examination of contemporary food writing as a way to study identity, social structures, and notions of acceptability. Intensive exploration of how constructions of food shape bodies, desires, and notions of belonging.

W S 511. Advanced Gender and Migration  
3 Credits  
Advanced exploration of multiple experiences of forced migration and displacement. Intensive examination of violence, structural dislocation, neoliberalism, globalization, economic collapse and civil war. Discusses local, regional and global responses to creating meaningful change in communities most affected by migration.

W S 512. Advanced Gender and Film Studies  
3 Credits  
Advanced study of the shifting cultural and theoretical meanings of gender and sexuality across a variety of film genres while also analyzing the role of formal film elements in shaping representation and reception.

W S 533. Advanced Issues in Women, Gender, and Culture  
3 Credits  
Same as ANTH 533.

W S 550. Special Topics  
3 Credits  
The topic of course will vary and will be indicated by subtitle. May be cross-listed with relevant courses at the 500-level from any specific department. May be repeated under different subtitle(s).

W S 554. Advanced Issues in Women Crossing Borders  
3 Credits  
Experiences of women who cross class, race, cultural, national, or sexual borders including theories regarding women's interactions across borders.

W S 555. Advanced Feminist Research Methodologies  
3 Credits  
Advanced study of feminist methodologies, covering transnational decolonizing Indigenous, Chicana feminist approaches to research, such as storytelling, narrative, testimonio, plática, research-based art, performed ethnography and participatory action research. May be repeated up to 3 credits.

W S 561. Independent Graduate Research in Women's Studies  
3 Credits  
Individual study of selected topics and writing of a research paper. May be repeated for a maximum of 6 credits. Graded S/U.  
Prerequisite: consent of instructor.

W S 565. Advanced Sex, Gender & the Body  
3 Credits (3)  
Advanced examination of forces at work in defining and differentiating gender, race, sexuality. How ideas about what is 'natural' and 'normal' for men and women shifted over time. Considers different discourses shaping embodied experiences and categories of identity.

W S 567. Global Sexualities  
3 Credits  
Generates a global context to focus on sexual identity and orientation, sexual identity politics, romantic relationships, patterns of sexual behavior, sexual regulation and the impact of different cultures on individual sexualities. Taught with W S 468. Crosslisted with: SOC 568

W S 571. Advanced Seminar in Feminist Theory  
3 Credits  
Current feminist theory. Topic changes by semester. Course subtitled in the Schedule of Classes.

W S 574. Gender in East Asian History  
3 Credits  
Same as HIST 474 with differentiated assignments for graduate students. Required for graduate credit.

W S 582. Gender and Popular Culture  
3 Credits  
Intensive study of the representations of gender in popular culture. Examines the historical, aesthetic, and cultural contexts of these representation and the various critical and theoretical lenses we use to understand them. Repeatable under different subtitles. Crosslisted with: ENGL 582

W S 584. Women's Literature  
3 Credits  
Intensive study of literature by women, in particular historical, aesthetic, cultural, or intellectual contexts. Repeatable under different subtitles. Crosslisted with: ENGL 581

Applied Studies - Bachelor of Applied Studies

The Bachelor of Applied Studies (BAS) degree is designed specifically for students who have already procured an Associates degree in an Applied Studies field. The BAS promotes the mission and purpose of NMSU by making available flexible degree options and by providing a pathway of study for community college graduates with technical and applied degrees from an accredited institution. The BAS degree helps minimize credit loss for associate degree graduates when pursuing a baccalaureate degree at NMSU by requiring a fewer number of upper-division credits. The student population targeted for this program differs significantly from traditional degree programs at NMSU. The BAS offers opportunity for current and prospective students and welcomes those employed full-time, veterans, active duty military personnel or active duty family members, transfers from other institutions, those returning to
college after time away, and students wishing to complete their upper-
division coursework at a distance.

To Declare a BAS

Students entering the BAS program are required to:

• Have an Associate of Applied Science or a similar degree from a
  regionally accredited institution
• Have completed the English and Mathematics Basic Skills
  Requirements of NMSU (see Regulations - Basic Academic Skills)
  (p. 58)
• Declare the BAS degree by the last date to drop with a "W" in a
  student’s final semester of study (see the NMSU Academic Calendar
  for date)

Degree Requirements

To graduate with the Bachelor of Applied Studies degree, you must
complete at minimum 120 credit hours (or more, depending on
the number and type of credits acquired in your Associate degree
and as determined by your academic advisor). (Note: The NMSU
College of Business allows a maximum of 30 business credit hours
(excluding a ST 251G) to count towards the BAS degree. Also, the only
College of Business minor allowed is the Business Administration Minor.)

Within the total credit hours, you must

• Complete the university’s general education core requirements (p. 49)
  (at least 32-35 credit hours of approved New Mexico Common Core
courses).
• Complete a minimum of 36 credit hours of upper-division courses
  (300-499 level), including six credits of Viewing a Wider World (VWW)
  from courses in two separate colleges at NMSU. You may substitute
  three credits of VWW with credits taken in study abroad. All 36 upper-
division credits must have a grade of C- or better.
• Not have completed the requirements, or be a candidate, for another
  baccalaureate degree.

In addition, it is strongly recommended that students take one or
more of the Interdisciplinary Studies courses designed specifically
for the Bachelor of Applied Studies and the Bachelor of Individualized
Studies degrees: INTR 300 Foundations of Interdisciplinary Studies
and/or INTR 301 Interdisciplinary Research: Theory & Practice. These
courses prepare BAS and BIS students to better plan and conceptualize
their degree as they prepare to move into their professional careers or
graduate school.

Second Language Requirement

For the Bachelor of Applied Studies there is no second language
requirement for the degree.

Gender and Sexuality Studies -
Bachelor of Arts

Note: Women’s Studies has changed its name to Gender & Sexuality
Studies. Its course prefix (W S) remains the same but will eventually
change to the prefix GNDR. Many course titles will be changing as well to
reflect the broader focus on genders and sexualities.

The undergraduate major in Gender and Sexuality Studies specializes
in the examination of gender; gender identity; queer and transgender
studies; feminisms; and social justice from interdisciplinary perspectives.

Students develop a strong understanding of how interconnected social
formations such as race, class, age, nation, citizenship, ability, and other
categories of difference are constructed and intersect with gender
and sexuality. Our courses equip students with analytical skills and
knowledge to engage power structures critically and transform lives and
communities.

Gender and Sexuality Studies readies students for further study in the
field at the graduate level as well as advanced study in a variety of
disciplines. We offer a plan of study that integrates humanities and social
sciences methods and objects of study, including areas of concentration
such as human rights and transnational migration; socially engaged
literature, film, and other creative media; and transnational and decolonial
methodologies.

Gender and Sexuality Studies students prepare for careers in such fields
as advocacy and social organizing, community development, creative
writing, criminal justice, education, filmmaking and video production,
health care, human resources, journalism, law, music production, social
services, and visual arts. Many students declare a double major in
Gender and Sexuality Studies with another discipline to enhance career
opportunities and learning.

Courses are offered both online and on campus. In addition to the
B.A., Gender and Sexuality Studies offers an undergraduate minor and
graduate minor.

Degree requirements for the major include

• 9 credit hours of required Gender & Sexuality Studies courses;
• 18 credit hours of Gender & Sexuality Studies electives; and
• 9 credit hours from a number of cross-listed courses offered both by
  Gender & Sexuality Studies and by other programs/departments.
• The total credit hour requirement for the major is 36 credit hours
  with 21 hours at the upper division level. All requirements must be
  completed with a grade of C- or higher.

Students must complete all University degree requirements, which
include: General Education requirements, Viewing a Wider World
requirements, and elective credits to total at least 120 credits with 48
credits in courses numbered 300 or above. Developmental coursework
will not count towards the degree requirements and/or elective
credits, but may be needed in order to take the necessary English and
Mathematics coursework.

**Second Language Requirement:** (not required)

**Electives, to bring the total credits to 120** 4

12 credits must be Upper - Division

**Total Credits** 120

---

1. MATH 210G Mathematics Appreciation is required for the degree but students may need to take any prerequisites needed to enter MATH 210G first.

2. See the General Education (p. 49) section of the catalog for a full list of courses.

3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.

4. Elective credit may vary based on General Education course selection, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

**Second Language Requirement**

For the Bachelor of Arts with a major in Gender & Sexuality Studies, there is no second language requirement for the degree.

**A Suggested Plan of Study for Students**

This roadmap assumes student placement in MATH 210G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

**Individualized Studies - Bachelor of Individualized Studies**

The Bachelor of Individualized Studies (BIS) prepares students for 21st century challenges. This degree serves students desiring an academic degree not already offered at NMSU. Students served by the BIS are those with extensive, comprehensive or eclectic academic and career interests. Self-motivated and self-directed students work closely with an advisor to select classes each semester with the intent of graduating in a timely manner, ideally with at least one minor. Recommended and chosen courses should be organized to meet the unique educational needs of the student, be it professional advancement within an existing career, academic preparation for graduate or professional programs, a strategy for career change, or a plan for efficiently utilizing prior university credits to complete a Bachelor Degree.

A well-designed individualized curriculum emphasizes the value of approaching complex issues from multiple perspectives, equipping students with the requisite critical and analytical skills to become effective problem solvers in their chosen fields of study or career. Each student should select courses designed to integrate academic and career goals into a cohesive degree program.

Extensive flexibility in program design implies increased individual responsibility for the BIS student. BIS students must be active participants in their academic experience, simultaneously pursuing a skill-set demonstrating:
• Coherent expression of ideas in writing;
• Capacity to conduct systematic and objective inquiry within their program of study;
• Ability to tolerate ambiguity within the design and implementation of a program of study;
• Proactive communication with the academic advisor;
• Commitment to effective follow-through on tasks related to program of study design and implementation.

To Declare a BIS

Students entering the BIS degree program work in consultation with a BIS advisor and complete a series of courses building on the applicant’s existing coursework and complementing the applicant’s education or career goals.

Deadline for Declaring BIS Major: Students must declare the BIS degree by the last date to drop with a “W” in a student’s final semester of study (see NMSU Academic Calendar for date).

Degree Requirements

To graduate with the Bachelor of Individualized Studies degree, you must complete a minimum 120 credit hours (or more, as determined in consultation with your academic advisor). (Note: The NMSU College of Business allows a maximum of 30 business credit hours (excluding A ST 251G) to count towards the BAS degree. Also, the only College of Business minor allowed is the Business Administration Minor.)

BIS students must also

• Complete a minimum of 48 credit hours of upper-division courses (300-499 level), including six credits of Viewing a Wider World (VWW) (p. 53) from courses in two separate colleges at NMSU. You may substitute three credits of VWW with credits taken in study abroad. A minimum of 36 of the 48 required upper-division credits must have a grade of C- or better.
• Complete the University’s General Education Core Requirements (minimum of 32 credit hours of approved New Mexico General Education courses (p. 49)).
• Not have completed the requirements, or be a candidate, for another baccalaureate degree.

In addition, it is strongly recommended that students take one or more of the Interdisciplinary Studies courses designed specifically for the Bachelor of Applied Studies and the Bachelor of Individualized Studies degrees: INTR 300 Foundations of Interdisciplinary Studies and/or INTR 301 Interdisciplinary Research: Theory & Practice. These courses prepare BAS and BIS students to better plan and conceptualize their degree as they prepare to move into their professional careers or graduate school.

Second Language Requirement

For the Bachelor of Individualized Studies there is no second language requirement for the degree.

Gender and Sexuality Studies - Undergraduate Minor

The undergraduate minor in Gender and Sexuality Studies specializes in the examination of gender; gender identity; queer and transgender studies; feminisms; and social justice from interdisciplinary perspectives.

Students develop a strong understanding of how interconnected social formations such as race, class, age, nation, citizenship, ability, and other categories of difference are constructed and intersect with gender and sexuality. Gender and Sexuality Studies offers a plan of study that integrates humanities and social sciences methods and objects of study, including areas of concentration such as human rights and transnational migration; socially engaged literature, film, and other creative media; and transnational and decolonial methodologies. Our courses equip students with analytical skills and knowledge to engage power structures critically and transform lives and communities.

An undergraduate minor in Gender and Sexuality Studies offers students a documented emphasis in their academic training in the field of Gender and Sexuality Studies in addition to their declared major. The minor in Gender and Sexuality Studies complements many undergraduate degree programs at NMSU including Anthropology, Art, Biology, Clinical and Mental Health Counseling, Communication Studies, Creative Writing, Criminal Justice, Curriculum and Instruction, Economics, Education, English, Government, History, Psychology, Public Health Sciences, Social Work, Sociology, Spanish, and more.

Courses are offered both online and on campus. In addition to the undergraduate minor, Gender and Sexuality Studies offers a B.A. and a minor for graduate students.

A minor in Gender & Sexuality Studies consists of 18 credit hours of approved course work in Gender & Sexuality Studies of which at least 12 are upper division (300 level or above).

Total Credits: 18

Note: A student may not earn a bachelor’s degree in Gender & Sexuality Studies and also earn a minor in Gender & Sexuality Studies.
**International Studies - Undergraduate Minor**

A minor in International Studies consists of 18 credit hours of approved interdisciplinary course work of which at least 12 are upper division (300 level or above). No more than 3 credits of Independent Study may be applied to the minor and only 2 courses (6 credits) may be double counted with the course of the student's major(s). Students must maintain a minimum 2.5 GPA.

**Gender and Sexuality Studies - Graduate Minor**

The graduate minor in Gender and Sexuality Studies specializes in the examination of gender; gender identity; queer and transgender studies; feminisms; and social justice from interdisciplinary perspectives. Students develop a strong understanding of how interconnected social formations such as race, class, age, nation, citizenship, ability, and other categories of difference are constructed and intersect with gender and sexuality. The graduate minor in Gender and Sexuality Studies offers students a documented emphasis in their academic training in the field of Gender and Sexuality Studies. The graduate minor allows students to acquire specialized knowledge through the interdisciplinary curriculum offered by Gender and Sexuality Studies and to integrate theoretical perspectives and methodologies from Gender and Sexuality Studies into diverse academic fields. Our courses equip students with analytical skills.
and knowledge to engage power structures critically and transform lives and communities.

We offer a plan of study that integrates humanities and social sciences methods and objects of study, including areas of concentration such as human rights and transnational migration; socially engaged literature, film, and other creative media; and transnational and decolonial methodologies. The graduate minor in Gender and Sexuality Studies complements many advanced degree programs at NMSU including Anthropology, Art, Biology, Business Administration, Chemistry, Clinical and Mental Health Counseling, Communication Studies, Creative Writing, Criminal Justice, Curriculum and Instruction, Economics, Education, English, Government, History, Psychology, Public Health Sciences, Social Work, Sociology, Spanish, and others.

Gender and Sexuality Studies students prepare for careers in such fields as advocacy and social organizing, community development, creative writing, criminal justice, education, filmmaking and video production, health care, human resources, journalism, law, music production, social services, and visual arts. Many students declare a graduate minor in Gender and Sexuality Studies to enhance career opportunities and learning.

Courses are offered both online and on campus. In addition to the graduate minor, Gender and Sexuality Studies offers a B.A. and undergraduate minor.

**For a Master’s Degree minor candidate:**

6 additional credit hours from upper level Gender & Sexuality Studies courses or courses cross-listed with Women’s Studies and other departments/programs are required. (9 credit hours total)

**For a Doctoral Degree minor candidate:**

9 additional credit hours from upper level Gender & Sexuality Studies courses or courses cross-listed with Women’s Studies and other departments/programs are required. (12 credit hours total)

### Journalism and Media Studies

**Undergraduate Program Information**

Studies in Journalism and Media Studies prepare students for careers in mass media, including news/editorial (print and online), broadcasting, advertising, public relations and photojournalism. Students study these disciplines and learn the trends and changes in the industry, such as how they converge on the internet. The curriculum emphasizes the skills of gathering, evaluating, writing and disseminating information and related skills. Students also are instructed in the theory, law, history and professional guidelines of mass media.

### Degrees for the Department

Journalism and Media Studies - Bachelor of Arts (p. 430)

### Minors for the Department

Journalism and Media Studies - Undergraduate Minor (p. 436)

**Professor, Chung, Department Head**

**Professor Lamonica; Associate Professors** Berman; **Assistant Professors** Park; **College Assistant Professors** Miller, Perez, Phillips; **Professor Emeritus** McClenehan, Mellen, Thayer **Instructors** Carr, Hinojosa, Lama, Lebsock, Ulloa; **News22 Director** Miller; **Spanish News22 Director** Perez

**Journalism and Media Studies Courses**

**JOUR 102. Grammar for Journalists**

2 Credits

Instruction of basic grammar, spelling and punctuation. Required for all journalism students with an ACT English score below 25, SAT Verbal below 570, or students who have not taken ACT/SAT tests. Restricted to Las Cruces campus only.

**JOUR 105G. Media and Society**

3 Credits

Functions and organization of the mass media system in the United States; power of the mass media to affect knowledge, opinions, and social values; and the impact of new technologies.

**JOUR 110. Introduction to Media Writing**

3 Credits (2+2P)

Preparation of copy for broadcasting, print, advertising, and public relations. Introduction to Web applications. May be repeated up to 3 credits.

**Prerequisite(s):** JOUR 102 or ACT score of 25 and above or SAT score of 570 and above.

**JOUR 201. Introduction to Multimedia**

3 Credits

Intensive laboratory practice in writing and field reporting news for print and Internet. May be repeated up to 3 credits. Restricted to Las Cruces campus only.

**JOUR 210. Newswriting & Reporting**

3 Credits (2+2P)

Intensive laboratory practice in writing and field reporting news for print and Internet. May be repeated up to 3 credits. Restricted to Las Cruces campus only.

**Prerequisite(s):** JOUR 102 or ACT score of 25 and above or SAT score of 570 and above and JOUR 110.

**JOUR 300. Introduction to Advertising**

3 Credits

Role of IMC (integrated marketing communications) in marketing of goods, services, and organizations. Creative process, strategic planning media, message design, consumer behavior, and social issues of IMC.

**JOUR 302. Video Production and Editing**

3 Credits

Classroom instruction in basic studio and single camera video productions, with focus on practical aspects of news production. Lab experience in camera basics, studio functions and digital video editing. Includes practical experience through crew assignments on the live student-produced newscast, News22. which airs on KRWG-TV, a PBS affiliate station. May be repeated up to 3 credits.
JOUR 306. Feature Writing
3 Credits
The preparation of feature stories for newspapers and magazines. How to develop a variety of stories, research topics, interview sources, polish writing and market work. May be repeated for a maximum of 6 credits. May be repeated up to 6 credits.
Prerequisite(s): JOUR 210 or consent of instructor.

JOUR 310. News Reporting & Publishing
3 Credits
Field reporting and news writing for print and Web applications. Instruction in community coverage, reporter responsibility, ethics and news values. May be repeated up to 3 credits.
Prerequisite(s): JOUR 210.

JOUR 312. Advertising/Copywriting
3 Credits
Creative process, strategic thinking, and principles of advertising in execution of copy, storyboards, and layouts for clients.
Prerequisite(s): JOUR 110 or consent.

JOUR 314. Broadcast Reporting
3 Credits
Writing, editing, producing, announcing and reporting of TV and radio news. May be repeated up to 3 credits.
Corequisite(s): JOUR 210.

JOUR 315. News 22
1-3 Credits (1-3)
Write, report, produce, anchor, shoot and edit video for live student television newscast airing on KRWG, public television for Southern New Mexico sports, weather, and news.
Prerequisite(s): JOUR 314 or JOUR 330 or instructor consent.

JOUR 317. News Editing
3 Credits
Extensive, directed practice in various aspects of computer editing for printed publication. Headline writing, copy editing, design, and layout.
Prerequisite(s): JOUR 210.

JOUR 319. Intro Photography
3 Credits
Introduction to photography emphasizing composition, basic camera technique, language of photography and storytelling. Photjournalism emphasis. Basic camera and processing techniques and skills. May be repeated up to 3 credits.

JOUR 320. Photojournalism
3 Credits
Communication photography for magazine, news, advertising/public relations and other communication needs. Digital Photography, lighting techniques, photo-editing software, and web site skills. Students provide camera and flash. May be repeated up to 3 credits.
Prerequisite(s): JOUR 319 or Consent of instructor.

JOUR 321. Media Graphic Design
3 Credits
Concepts and design skills useful for all aspects of journalism - print media and newsletters, basics of Photoshop and introduction to Web design. May be repeated up to 3 credits.

JOUR 330. TV News Shooting & Editing
3 Credits (2+4P)
Overview of technical and aesthetic skills and journalism basics needed for shooting and editing on-location news productions. Single camera videography and nonlinear/digital editing. May be repeated up to 3 credits.
Prerequisite(s): JOUR 302 or permission of instructor.

JOUR 350. Media History
3 Credits
Historical overview of mass media with emphasis on roots of journalism, technological developments, and American role in international media. May be repeated up to 3 credits.

JOUR 374. Introduction to Public Relations
3 Credits
Introduction to public relations as a communication process that builds relationships between organizations and their publics. Explores basic techniques, strategies, and tactics used in businesses, nonprofits, and in government.
Prerequisite(s): JOUR 110.

JOUR 377V. Mass Media Ethics
3 Credits
Philosophical and moral examination of problems relating to mass media. Use of case study method to analyze media situations; development of framework for media professionalism.

JOUR 380. Women and the Media
3 Credits
Portrayal and participation of women in mass media from colonial to contemporary times. Same as W S 450. May be repeated up to 3 credits.

JOUR 384. Public Relations Writing
1-3 Credits (1-3)
Persuasive media writing for print and online media. Introduction to production of a variety of effective, strategic media materials produced by public relations practitioners, including press releases, fact sheets, position papers, and material for a variety of social and digital media platforms.
Prerequisite(s): JOUR 210 and JOUR 374.

JOUR 408. Media Practicum
1-3 Credits
Advanced supervised work with a media organization. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: JOUR majors.
Prerequisite(s): Consent of internship coordinator.

JOUR 412. Documentary Photojournalism
3 Credits
Production of documentary photography for web, print, books and exhibition emphasizing storytelling techniques. Multimedia and Web site techniques. Field Trips to produce material for the Small Village New Mexico project (SVNM). Produce Term projectbook. May be repeated up to 3 credits.
Prerequisite(s): JOUR 319.
JOUR 414. RTV Scriptwriting/Performance
3 Credits
Writing and delivery of news scripts for radio and television. Focus on anchoring announcing, voice technique and performance. May be repeated up to 3 credits.
Corequisite(s): JOUR 210.

JOUR 425. Media Planning and Buying
3 Credits
Covers the principles of media planning for an IMC campaign and procedures for purchasing ad time or space.
Prerequisite(s): JOUR 300 or consent of instructor.

JOUR 427. Multimedia Publishing
3 Credits
Advanced multimedia reporting and editing for online news publication. Preparation of professional news portfolios and resumes. Capstone for News/Editorial sequence. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): permission of instructor. Prerequisite(s): JOUR 310.

JOUR 460. Sports & Entertainment P.R.
3 Credits
Introduction to a wide range of persuasive activities, strategies, tactics and media materials produced by public relations practitioners employed by sports and entertainment organizations. May be repeated up to 3 credits.

JOUR 476. Public Relations Campaigns
3 Credits
Utilizing the principles and techniques of public relations to research and develop a comprehensive plan for a long-term national, regional, or local campaign. May be repeated up to 3 credits. Restricted to: Restricted to Journalism majors.
Prerequisite(s): JOUR 210, JOUR 374.

JOUR 489. Media Research
3 Credits
Examination of the role of empirical research in solving mass communication problems. Survey techniques, field studies, content analysis, data analysis. May be repeated up to 3 credits.

JOUR 490. Advertising Campaigns
3 Credits
Capstone course utilizing all previous instruction to create and develop plans for a long-term national or local IMC (Integrated Marketing Communications) campaign. Consent of instructor required.
Prerequisite(s): JOUR 300 and 312 or consent of instructor.

JOUR 493. Media Law
3 Credits
Examination of legal issues relating to mass media in the United States. Invasion of privacy, libel, sedition, copyright, and advertising regulation. Same as COMM 493, GOVT 493. May be repeated up to 3 credits.

JOUR 494. Special Topics
3 Credits
Specific subjects to be announced in the Schedule of Classes.

JOUR 495. Media Theory
3 Credits
Theoretical approaches to media communications. Examination of media effects, audiences, and media socialization. May be repeated up to 3 credits.

JOUR 499. Independent Study in Media
1-3 Credits
Individual study directed by consenting instructor with prior approval of department head. May be repeated up to 6 credits. Consent of Instructor required.
Prerequisite(s): 2.5 GPA and consent of instructor.

Office Location: Milton Hall Room 186

Journalism and Media Studies - Bachelor of Arts

Below are the requirements for completing the Bachelor of Arts with a major in Journalism and Media Studies without a specific area of focus. For information on how to complete the program with either an advertising, broadcasting, or Multimedia/Photojournalist focus, please see the roadmaps tab. (p. 432)

Students are required to complete

- 15 hours of core courses, or 17 hours of core courses if they do not meet the required English ACT or SAT scores (see below),
- then complete a minimum 24 hours of courses in the department, bringing the allowable minimum of 39 hours (41 hours to those who don’t meet the required English scores).

Students must complete at least 72 hours of courses outside the department.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

<td></td>
</tr>
<tr>
<td>or JPNS 111</td>
<td>Elementary Japanese I</td>
<td>3</td>
<td></td>
</tr>
</tbody>
</table>
or SPAN 111  Elementary Spanish I  4  
CHIN 112  Elementary Chinese II  4  
  or FREN 112  Elementary French II  4  
  or GER 112  Elementary German II  4  
  or JPNS 112  Elementary Japanese II  4  
  or SPAN 112  Elementary Spanish II  4

For Heritage Learners:
SPAN 213  Spanish for Heritage Learners II  3  
  or SPAN 214  Spanish for Heritage Learners III  3  
  or PORT 213  Portuguese for Romance Language Students I  3  
  or PORT 214  Portuguese for Romance Language Students II  3  

Option 2:  
Prefix  Title  Credits  
Complete two semesters of American Sign Language (with a C- or better):  
C D 374  American Sign Language I  3  
C D 375  American Sign Language II  3

Option 3:  
Prefix  Title  Credits  
Challenge the 112 level for the following courses:  
CHIN 112  Elementary Chinese II  4  
  or FREN 112  Elementary French II  4  
  or GER 112  Elementary German II  4  
  or SPAN 112  Elementary Spanish II  4

OR  
Challenge the 213 level for the following courses:  
PORT 213  Portuguese for Romance Language Students I  3  
  or SPAN 213  Spanish for Heritage Learners II  3

Option 4:  
Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

Option 5:  
Obtain college certification of completion of two years of a second language at the high school level with a grade of C- or higher in the second-year level.

Option 6:  
By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

Option 7:  
By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

Option 8:  
In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

A Suggested Plan of Study for Students
This roadmap assumes student placement in MATH 210G and ENGL 111G. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Below are the roadmaps for the Bachelor of Arts with a Major in Journalism and Media Studies. The department has four focus areas that students can follow to complete their degree in an area of study that benefits them: a general journalism and media studies, advertising, broadcasting and multimedia/photojournalism focuses. These are not considered official concentrations and will not appear on a student's transcript or within their student record.

1. MATH 210G Mathematics Appreciation is required for the degree but students may need to take any prerequisites needed to enter MATH 210G first.
2. JOUR 102 Grammar for Journalists is only for students with ACT English score below 25 or SAT below 570.
3. See the General Education (p. 49) section of the catalog for a full list of courses.
4. Second Language: options for completing the second language requirement can be located on the Requirements (p. 430) tab for this degree.
5. Elective credit may vary based on second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
6. Students should take MKTG 303 Principles of Marketing but if PR students want to stay in Government area, it is recommended to double major in Government.
7. Media Courses: JOUR 350 Media History, JOUR 377V Mass Media Ethics, JOUR 380 Women and the Media, JOUR 460 Sports & Entertainment P.R., JOUR 489 Media Research, JOUR 494 Special Topics, JOUR 495 Media Theory, JOUR 499 Independent Study in Media
8. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.

Languages and Linguistics

Undergraduate Program Information

Programs of study in the Department of Languages and Linguistics prepare students for a diverse number of professions and provide them with critical skills that complement many careers in an increasingly interdependent and global marketplace. Students also increase their awareness of the important role language plays in human interaction on individual and global levels.

The major curriculum plans in each language include balanced groups of courses in language, linguistics, literature and culture. Students may choose to major, double major or minor in French, German or Spanish.

Graduate Program Information

The Department of Languages and Linguistics offers a Master of Arts in Spanish, which may be completed through our program on the main campus or completely online. Students are asked to specialize in either linguistics or literature. For non-thesis students, a specialization consists of a minimum of 27 credit hours. For thesis students, a specialization consists of a minimum of 24 credit hours.

Admission Requirements

Admission requirements include a BA in Spanish. An undergraduate Grade Point Average (GPA) of 3.0 or above, which includes at least 12 semester hours of upper-division undergraduate courses in Spanish with a GPA of at least 3.0. Students must also satisfy general requirements of the Graduate School and submit the proper electronic online application and transcripts at the Graduate School website. Students must also submit the proper electronic online application and transcripts at the Graduate School website. Students must also complete a secondary admission packet (also submitted online through the Graduate School electronic application portal), which should include:

• A current resume (C.V.) in Spanish

• Three (3) letters of recommendation from qualified professionals (written within the last six months), preferably from past professors, that address the applicant's academic record.

• A writing sample in Spanish (critical or creative writing texts). If you do not have a six-page paper, you may submit multiple shorter works totaling six pages.

• A Language Evaluation Form (available for download at the departmental website) completed and signed by a qualified language evaluator. If you have an official ACTFL OPI rating certificate, this may be submitted in lieu of the Language Evaluation Form.

• An introductory letter in Spanish to include:
  • A brief biography of one or two paragraphs along with your goals and objectives for obtaining a Master's degree in Spanish
  • A statement of interest in either the residential (on-campus) program or the online program
  • A statement of your prospective area of interest (Linguistics or Literature), and
  • Your declaration of interest in being considered for a Graduate Teaching Assistantship (this option is only available for the residential [on-campus] program).

Only completed applications will be reviewed. Again, all materials should be submitted via the Graduate School electronic application portal. No materials should be sent directly to the department. Applying to the program does not guarantee admission to the program. It is the applicant’s responsibility to ensure that all materials have been submitted correctly.

Application deadlines: September 15 for admission for the following Spring semester (which begins in January), and January 15 for admission for the following Fall semester (which begins in August). Students will be advised upon their formal acceptance into the program.

Department Requirements for a Minor in French, German, or Spanish

A minor requires 18 hours of course work in the target language.

Degrees for the Department

Foreign Languages (French) - Bachelor of Arts (p. 446)
Foreign Languages (German) - Bachelor of Arts (p. 449)
Foreign Languages (Spanish) - Bachelor of Arts (p. 452)
Chicano Studies - Supplementary Major (p. 457)
Latin American Studies - Supplementary Major (p. 456)
Linguistics - Supplementary Major (p. 458)
Spanish - Master of Arts (p. 458)

Minors for the Department

French - Undergraduate Minor (p. 456)
German - Undergraduate Minor (p. 456)
Linguistics - Undergraduate Minor (p. 456)
Spanish - Undergraduate Minor (p. 456)

Professor, Glenn W. Fetzer, Department Head

Professors Garcia, MacGregor-Mendoza Associate Professors Herrera, Moreno, Waltmire Assistant Professors Bove; College Professor Longwell; College Associate Professor Buchenau; Pedersen College Assistant Professors Zollner

Longwell, Graduate Director, M.A. (New Mexico State University); K. Bove, Ph.D. (Georgia); J. M. Garcia, Ph.D. (Kansas); S. Herrera, Ph.D. (New Mexico); P. MacGregor-Mendoza, Ph.D. (Illinois-Urbana-Champaign); G. Moreno, Ph.D. (Arizona); M. Waltmire, Ph.D. (New Mexico);

Chinese Courses

CHIN 111. Elementary Chinese I
4 Credits
Mandarin Chinese for beginners.
CHIN 112. Elementary Chinese II  
4 Credits  
Mandarin Chinese for beginners. 
Prerequisite: C or better in CHIN 111.

CHIN 211. Intermediate Chinese I  
3 Credits  
Speaking, reading and writing Mandarin Chinese. May be repeated up to 3 credits. 
Prerequisite(s): C or better in CHIN 112.

CHIN 212. Intermediate Chinese II  
3 Credits  
Speaking, reading and writing Mandarin Chinese. May be repeated up to 3 credits. 
Prerequisite(s): C or better in CHIN 211.

CHIN 311. Advanced Chinese Language I  
3 Credits  
This course emphasizes the development of advanced oral, aural, reading and writing skills in Mandarin Chinese. Expanding of vocabulary and development of reading comprehension will be through different genres of authentic texts. Students will be trained to write short essays on a variety of topics. 
Prerequisite(s): Grade of C or better in CHIN 211 and CHIN 212.

CHIN 312. Advanced Chinese Language II  
3 Credits  
This course emphasizes the development of advanced oral, aural, reading and writing skills in Mandarin Chinese. Expanding of vocabulary and development of reading comprehension will be through different genres of authentic texts. Students will be trained to write short essays on a variety of topics. 
Prerequisite(s): Grade of C or better in CHIN 211.

French courses  

FREN 111. Elementary French I  
4 Credits  
French language for beginners. 

FREN 112. Elementary French II  
4 Credits  
French language for beginners. 
Prerequisite: C or better in FREN 111.

FREN 211. Intermediate French I  
3 Credits  
Speaking, reading and writing. May be repeated up to 3 credits. 
Prerequisite(s): C or better in FREN 112 or consent of instructor.

FREN 212. Intermediate French II  
3 Credits  
Speaking, reading and writing. May be repeated up to 3 credits. 
Prerequisite(s): C or better in FREN 211 or consent of instructor.

FREN 306. Topics in French Culture and Civilization  
3 Credits  
Selected topics focusing on French culture and civilization. This course is linked to FLIP (Faculty-Led International Programs) when applicable. May be repeated for a maximum of 6 credits. May be repeated up to 6 credits. 
Corequisite(s): FREN 212 or consent of instructor.

FREN 315. French Grammar  
3 Credits  
A thorough review of French grammar through the study of grammatical elements and the use of grammatical exercises. May be repeated up to 3 credits. 
Corequisite(s): FREN 212 or consent of instructor.

FREN 325. Intermediate Conversation  
3 Credits  
French conversation through intensive oral practice with emphasis on vocabulary acquisition and pronunciation. May be repeated up to 3 credits. 
Corequisite(s): FREN 212 or consent of instructor.

FREN 330. Business French  
3 Credits  
An introduction to standard language within the corporate world in French-speaking countries. Students practice reading, writing, listening, speaking and expanding their vocabulary in professional fields related to business. 
Corequisite(s): FREN 212 or consent of instructor.

FREN 352. French Phonetics  
3 Credits  
Systematic description of modern French pronunciation. Corrective exercises for foreign learners. Formal study of spelling/pronunciation relationships. May be repeated up to 3 credits. 
Corequisite(s): FREN 212 or consent of instructor.

FREN 360. French Cinema  
3 Credits  
The evolution of contemporary French cinema. A critical understanding of film as an art form and as cultural expression. 
Prerequisite: FREN 212 or consent of instructor.

FREN 362. Contemporary French Culture  
3 Credits  
Institutions, lifestyles and popular attitudes in modern France. 
Prerequisite(s): FREN 212 or consent of instructor.

FREN 365V. Perspectives in French Culture  
3 Credits  
Examines components of French culture through literature, films and other sources. Taught in English. Does not satisfy Arts and Sciences second language requirement. Does not satisfy French major or minor requirements.

FREN 378. Studies in Francophone Cultures  
3 Credits  
Studies of representative Francophone cultures through their history, literature, music and films. 
Prerequisite(s): FREN 212 or consent of instructor.

FREN 381. Survey of French Literature I  
3 Credits  
Literary movements, authors and selected texts of the Middle Ages through the eighteenth century. 
Prerequisite(s): FREN 212 or consent of instructor.

FREN 382. Survey of French Literature II  
3 Credits  
Literary movements, authors and selected texts of the nineteenth and twentieth centuries. 
Prerequisite(s): FREN 212 or consent of instructor.
FREN 385. French Civilization 3 Credits
A detailed study of important events in French civilization from its origins to the twentieth century through the study and discussion of history, literature, fine arts and politics.
Prerequisite(s): FREN 212 or consent of instructor.

FREN 386. Contemporary Women Writers in French 3 Credits
Exploration of literary texts by contemporary women writers in France and the Francophone world; emphasizes the cultural contexts that have defined women's relationship to writing. Selections will vary from year to year.
Prerequisite(s): FREN 212 or consent of instructor.

FREN 425. Advanced French Conversation 3 Credits
Mastery of spoken French language through discussion of personal readings and group work to develop vocabulary, syntactical and conversational skills. The class is conducted entirely in French.
Prerequisite(s): FREN 325 or consent of instructor.

FREN 449. French for Specific Purposes 3 Credits
Directed reading for students to satisfy language requirement for master's or doctoral programs. May be repeated up to 6 credits.

FREN 451. Special Topics in French 1-3 Credits
Selected topics relating to the cultures or literatures of the countries where French is spoken will be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.
Prerequisite: consent of instructor.

FREN 453. Independent Studies in French 1-3 Credits
Individualized, self-paced projects for advanced students. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

FREN 472. The French Short Story 3 Credits
Study and discussion of French short stories through the ages.
Prerequisite(s): FREN 212 or consent of instructor.

FREN 478. Studies in Francophone Cultures Around the World 3 Credits
Advanced studies of representative Francophone cultures through their history, literature, music and films.
Prerequisite(s): FREN 212 or consent of instructor.

FREN 486. Advanced Contemporary Women Writers in French 3 Credits
Advanced study of literary texts by contemporary women writers in France and the Francophone world; emphasizes the cultural contexts that have defined women's relationship to writing. Selections will vary from year to year.
Prerequisite(s): FREN 212 or consent of instructor.

German Courses
GER 111. Elementary German I 4 Credits
German for beginners. Stress on speaking skills.

GER 112. Elementary German II 4 Credits
German for beginners and students with one year of high school German. Stress on speaking skills.
Prerequisite: C or better in GER 111.

GER 211. Intermediate German I 3 Credits
Speaking, reading and writing.
Prerequisite: C or better in GER 112.

GER 212. Intermediate German II 3 Credits
Speaking, reading and writing.
Prerequisite: C or better in GER 211.

GER 305. Topics in German Culture 3 Credits
Overview of Germany - states, cities, landscapes and people. May be repeated up to 6 credits.
Prerequisite(s): GER 212 or consent of instructor.

GER 313. Intermediate Composition and Grammar 3 Credits
Exercises in written German with emphasis on advanced grammatical features. Preparation for Zertifikat Deutsch.
Prerequisite: GER 212, or high school German 3, or consent of instructor.

GER 325. German Conversation I 3 Credits
Spoken German with emphasis on everyday situations.
Prerequisite: GER 212, or high school German 3, or consent of instructor.

GER 330. Business German 3 Credits
An introduction to standard language within the corporate world in German-speaking countries. During the semester, students will practice reading, writing, listening, speaking and expanding their vocabulary in the fields related to business, technology (ex. Engineering) and health (ex. Nursing, Psychology, etc.).
Prerequisite(s): GER 212 or consent of instructor.

GER 333V. German Culture through Cinema 3 Credits
Events, values and issues in German culture as reflected in motion pictures made in Germany between 1913 and 1990. Familiarization with cinema as art form. Taught in English. Does not satisfy Arts and Sciences second language requirement.

GER 340. German Linguistics 3 Credits
Analysis of the German language.
Prerequisite(s): GER 212 or consent of instructor.

GER 341. German Folklore and Culture 3 Credits
Customs, traditions, mythology, folk literature and art; everyday culture of German-speaking Europe.
Prerequisite: GER 212 or equivalent or consent of instructor.

GER 343. Readings in Current Events 3 Credits
Practice in improving reading skills with a wide variety of texts. Discussion in German also enhances oral skills.
Prerequisite(s): GER 212 or consent of instructor.
GER 350. Introduction to German Literature
3 Credits
Basic literary genres and major figures in German literature from the 18th century to the present.
Prerequisite(s): GER 212 or consent of instructor.

GER 399. Intermediate Independent Study in German
1-3 Credits (1-3)
Tutorial in reading, writing and oral expression. May be repeated up to 6 credits. Consent of Instructor required.
Prerequisite(s): GER 212 or consent of instructor.

GER 410. Practicum in Conversational German
1-3 Credits
Intensive oral practice as language monitor. May be repeated for a maximum of 6 credits.
Prerequisite: two upper division German courses or consent of instructor.

GER 413. Advanced Composition and Grammar
3 Credits
Exercises in written German with emphasis on stylistic features.
Prerequisite: GER 313 or consent of instructor.

GER 425. Advanced German Conservation
3 Credits
Advanced conversation through intensive oral practice.
Prerequisite(s): GER 325 or consent of instructor.

GER 449. Special Problems
1-3 Credits
Directed reading for graduate students in their specific fields to satisfy language requirements for master’s or doctoral programs. May be repeated for a maximum of 6 credits.

GER 451. Special Topics in German
1-3 Credits
Selected topics in German language, literature or area studies announced in Schedule of Classes. May be repeated for credit when topic changes. May be repeated for a maximum of 12 credits.
Prerequisite: consent of instructor.

GER 453. Independent Studies in German
1-3 Credits (1-3)
Individualized, self-paced projects for advanced students. May be repeated under different subtitles for a maximum of 6 credits.
Prerequisite: consent of instructor.

LANG 111. Beginning Language I
4 Credits
Developing language skills through study abroad for languages not offered at NMSU main campus. Specific languages to be identified with course subtitles. Main campus only.
Prerequisite: Language placement exam or consent of the instructor.

LANG 451. Special Topics
1-3 Credits
Selected topics relating to cultures or literatures of a specific country. Credit can be applied only towards fulfilling second language requirement. Credit is not accepted towards any graduate level major or minor. May be repeated for a maximum of 12 credits. Consent of instructor required.

LANG 453. Independent Studies
1-3 Credits
Individualized, self-paced projects for advanced students. May be repeated under different subtitles for a maximum of 6 credits.
Prerequisite: consent of instructor.

LING 200G. Introduction to Language
3 Credits
Traditional fields of language study (sound, grammar, meaning) and newer ones (language as social behavior, language and cognition, language variation, animal communication).

LING 301. Introduction to Psycholinguistics
3 Credits
Same as PSY 301.

LING 302V. Language and Society
3 Credits
Study of how social identity including such factors as ethnicity, age, sex, education, power and socio-economic class is expressed in language systems and how misunderstandings arise between groups. Research skills are emphasized.

LING 303. Exploring Language Systems
3 Credits
Forms of linguistic semantic, syntactic and phonological organization.

LING 405. Topics in Linguistics
3 Credits
Selected linguistics topics subtitled in the Schedule of Classes. May be repeated for a maximum of 6 credits under different subtitles.
Prerequisite(s): LING 200G or consent of instructor.

LING 425. Language and the Mind: Introduction to Psycholinguistics
3 Credits
This course is an introduction to psycholinguistics; the study of how humans learn, represent, comprehend and produce language. Throughout this course, we address a variety of questions on the psychology of language most of which are still being answered. These include: What does it mean to know a language? What are the cognitive processes involved in language use? How do we produce and recognize speech? How can we improve texts and make them easier to read? How can we control speech in special situations to avoid errors?
Prerequisite(s): LING 200G or consent of instructor.

LING 451. Independent Studies in Linguistics
3 Credits
Selected linguistics topics subtitled in the Schedule of Classes. May be repeated for a maximum of 6 credits under different subtitles.
Prerequisite: consent of instructor.

LING 453. Independent Studies
1-3 Credits
Individual or group study of selected topics to be identified by subtitle. May be repeated for a maximum of 6 credits.
Prerequisites: LING 200G and prior arrangement with faculty supervisor.
LING 455. Research in Linguistics
3 Credits
This course will provide a capstone experience for students who have progressed through the program in linguistics and provide the foundation for further study at the post-graduate level in a linguistics-related field. Students will apply their foundation of knowledge and skills in linguistics through the realization of an individualized, inquiry-based project. Consent of instructor may enroll student only in case of elective credit shortfall with concurrent enrollment.

Prerequisite(s): LING 200G, LING 301, LING 302V, LING 303, plus 9 credit hours of related electives.

LING 500. Introduction to Linguistics
3 Credits
Survey of the main branches of linguistics: phonology, morphology, syntax, semantics, language acquisition, sociolinguistics, historical linguistics and some of the theoretical issues in the field.

LING 502. Graduate Study in Sociolinguistics
3 Credits
Study of how social identity including factors such as ethnicity, age, gender education and socio-economic class is expressed in language systems.

Prerequisites: LING 200G or LING 500 recommended.

LING 503. Exploring Language Systems- Grad
3 Credits
Students will be responsible for all requirements of LING 303 and will undertake independent, directed research.

Prerequisite(s): LING 200 or LING 500.

LING 505. Selected Topics
3 Credits
Studies, varying from year to year, in linguistics.

Portuguese Courses
PORT 213. Portuguese for Romance Language Students I
3 Credits
Introduction to the Portuguese language, Brazilian culture and civilization. Taught in Portuguese. Open to students with any previous Romance language study (French, Italian, Portuguese, Romanian, Spanish).

PORT 214. Portuguese for Romance Language Students II
3 Credits
Continuation of PORT 213.

Prerequisite: C or better in PORT 213 or consent of instructor.

PORT 453. Independent Luso-Brazilian Studies
1-3 Credits (1-3)
Individualized, self-paced projects for advanced students in Luso-Brazilian studies. May be repeated up to 12 credits. Consent of Instructor required.

PORT 513. Graduate Portuguese for Romance Language Students I
3 Credits
Portuguese for beginners at the graduate level. May be completed on campus or via Study Abroad. Credit can be applied towards fulfilling the second language requirement. Credit is not accepted towards any graduate level major or minor.

PORT 514. Graduate Portuguese for Romance Language Students II
3 Credits
Portuguese for beginners at the graduate level. May be completed on campus or via Study Abroad. Credit can be applied towards fulfilling the second language requirement. Credit is not accepted towards any graduate level major or minor.

Prerequisite(s): Language placement exam or C or better in PORT 513, or consent of instructor.

Spanish Courses
SPAN 111. Elementary Spanish I
4 Credits (4)
Spanish for beginners. Speaking and writing common interactions in predictable settings using basic vocabulary and verb tenses. Communicate in Spanish both orally and in writing sufficiently well so as to be able to make yourself understood by native speakers accustomed to dealing with non-native speakers. In spontaneous conversation and in writing, students will be able to produce a few sentences. Prerequisite(s): Not open to Spanish-speaking students except by consent of instructor.

Prerequisite: language placement and/or assessment by departmental examination.

SPAN 112. Elementary Spanish II
4 Credits (4)
Spanish for beginners. Speaking and writing common interactions in predictable settings using basic vocabulary and verb tenses, including talking about events in the past and possible recommendations for the future. Communicate in Spanish both orally and in writing sufficiently well so as to be able to make yourself understood by native speakers accustomed to dealing with non-native speakers. In spontaneous conversation and in writing, students will be able to produce a variety of sentences and form context appropriate to open-ended questions.

Prerequisite(s): Not open to Spanish-speaking students except by consent of instructor.

SPAN 113. Intermediate Spanish I
3 Credits
Emphasis on development of heritage Spanish language skills learned at home and/or in the community. Covers listening comprehension, development of vocabulary and cultural activities to help strengthen heritage language and culture. Students who have previously earned a C or better in SPAN 111 or SPAN 112 may not receieve credit for this course.

SPAN 211. Intermediate Spanish I
3 Credits (3)
Speaking, reading and writing. Not open to Spanish-speaking students except by consent of instructor.

Prerequisite: language placement and assessment by departmental examination or C or better in SPAN 112.

SPAN 212. Intermediate Spanish II
3 Credits (3)
Speaking, reading and writing. Not open to Spanish-speaking students except by consent of instructor.

Prerequisite: language placement and assessment by departmental examination or C or better in SPAN 211.

SPAN 213. Spanish for Heritage Learners II
3 Credits
Emphasis on development of heritage language skills learned at home and/or in the community. Covers spoken Spanish, reading activities and grammar skills to build on existing knowledge of the language.
SPAN 214. Spanish for Heritage Learners III  
3 Credits  
Continued development of heritage Spanish language skills learned at home and/or in the community. Emphasis on reading, writing, and critical thinking skills. Review of grammar points will also be stressed in preparation for upper level courses.

SPAN 305. Topics in Hispanic Civilization  
3 Credits (3)  
Group study of selected topics focusing on Hispanic culture and civilization. Topics announced in the Schedule of Classes. May be repeated for a maximum of 6 credits.  
Prerequisite: SPAN 212 or SPAN 214 or consent of instructor.

SPAN 306. Special Topics  
3 Credits  
Group study of Spanish for specialized purposes (e.g. court interpreting, professional language for bilingual teachers, technical writing for the business community). Course subtitled in the Schedule of Classes. May be repeated for a maximum of 12 credits.  
Prerequisite: SPAN 212 or SPAN 214 or consent of instructor.

SPAN 312. Grammar for Heritage/Native Speakers of Spanish  
3 Credits  
For students who have been exposed to Spanish at home or in the community. Review of grammatical concepts and analysis of both spoken and written Spanish. Students cannot receive credit for both SPAN 312 and SPAN 313.  
Prerequisite(s): SPAN 212 or SPAN 214 or consent of instructor.

SPAN 313. Spanish Grammar  
3 Credits  
A review of the rules of Spanish grammar. Students cannot receive credit for both SPAN 312 and SPAN 313.  
Prerequisite: SPAN 212 or SPAN 214 or consent of instructor.

SPAN 314. Spanish Composition  
3 Credits  
Development of written Spanish skills. Students cannot receive credit for both SPAN 314 and SPAN 315.  
Prerequisite(s): SPAN 212 or SPAN 313.

SPAN 315. Composition for Heritage/Native Speakers of Spanish  
3 Credits  
Discussions of history, and current political and cultural topics pertaining to the Hispanic world. Emphasis on development of writing skills in formal Spanish. Students cannot receive credit for both SPAN 314 and SPAN 315. Fulfills departmental requirement for SPAN 314.  
Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 325. Advanced Conversation  
3 Credits (3)  
Intensive oral practice. Not open to heritage/native speakers of Spanish.  
Prerequisite(s): SPAN 212 or consent of instructor.

SPAN 327. Spanish in the Community  
3 Credits  
Emphasis on use of Spanish outside the classroom in the local communities. Activities include but are not limited to oral histories, language mentoring in schools, assisting with cultural activities and language research.  
Prerequisite(s): Basic communicative fluency in Spanish as determined by departmental advisor.

SPAN 330. Variations in Spanish  
3 Credits  
The study of social variation within the Spanish language, examining both social and linguistic factors that affect language change.  
Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 340. Introduction to Spanish Linguistics  
3 Credits  
General aspects of Spanish linguistics: traditional, descriptive, historical and dialectal.  
Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 350. Introduction to Chicano Studies  
3 Credits  
The study of Spanish in the contexts of the societies in which it is spoken.  
Prerequisite: SPAN 312 or SPAN 313.

SPAN 352. Spanish in Social Contexts  
3 Credits  
Study of Mexican-American life including language, history, education, politics and literature.  
Prerequisite: SPAN 312 or SPAN 313.

SPAN 353. Spanglish  
3 Credits  
Covers lexical borrowing, code choice, language loss and maintenance, and bilingual cognition.  
Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 355. Introduction to Latin American Studies  
3 Credits  
Offers an introduction to topics in Latin American Studies including language, culture, literature, history, sociology and anthropology. Course is taught in Spanish. Spanish majors and minors may receive credit towards degree requirements by submitting course work in Spanish (SPAN 312 or SPAN 313 recommended for SPAN majors or minors).

SPAN 361. US-Mexico Border Culture- Literature and/or Culture  
3 Credits  
Study of major authors and/or cultural trends in the U.S.-Mexico border. Selected subject to be identified by subtitle in the Schedule of Classes. May be repeated up to 6 credits.  
Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 363. US-Hispanic Culture  
3 Credits  
Study of major artistic and cultural trends among US-Hispanics. Selected topics to be identified by subtitle in the Schedule of Classes. May be repeated for a total of 6 credits under a different subtitle.  
Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 364V. Culture and Civilization of Mexico  
3 Credits  
Familiarization with culture, civilization and regions of Mexico. History, geography, art, literature, folklore, customs, economics and politics of each region. Impact of Mexican culture and civilization on the Southwest United States. Taught in English. Does not satisfy Arts and Sciences second language requirement.

SPAN 365V. Culture and Civilization of Spanish America  
3 Credits  
Familiarization with culture, civilization and regions of Spanish America. Study of history, geography, art, literature, folklore, customs, economics and politics of each region. Impact of Spanish American culture and civilization on the Southwest United States. Taught in English. Does not satisfy College of Arts and Sciences second language requirement.
SPAN 380. Introduction to Hispanic Literature
3 Credits
Works in Spanish, all genres and periods. How to read literature in all forms.
Prerequisite: SPAN 312 or SPAN 313.

SPAN 385. Introduction to Chicano/US-Mexican Literature
3 Credits
Introduction to the study of major works by Chicano/US-Mexican authors.
Prerequisite: SPAN 312 or SPAN 313.

SPAN 388. Contemporary Hispanic Literature
3 Credits
Study of Peninsular and Spanish-American literature from the 20th century to the present.
Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 393. Introduction to Translation and Interpretation
3 Credits
General aspects of translation and interpretation from English to Spanish and Spanish to English. Selected subject to be identified by subtitle in the Schedule of Classes. May be repeated up to 6 credits.
Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 399. Independent Studies in Literature, Language, or Culture
1-3 Credits
Individualized, self-paced projects for advanced students. Students must present formal proposal of study. May be repeated for a maximum of 6 credits.
Prerequisite: SPAN 312 and SPAN 313.

SPAN 411. Creative Writing
3 Credits
Creative writing in Spanish.
Prerequisite(s): SPAN 314 or SPAN 315 and SPAN 380.

SPAN 412. Spanish-American Poetry
3 Credits
Study of major works by Spanish-American poets.
Prerequisite: SPAN 312 or SPAN 313.

SPAN 415. Spanish-American Women Writers
3 Credits
All genres of Spanish-American literature written by women.
Prerequisite: SPAN 312 or SPAN 313.

SPAN 416. Nineteenth Century Spanish-American Literature
3 Credits
Study of major works by Spanish-American authors of the 19th century.
Prerequisite: SPAN 312 or SPAN 313.

SPAN 418. Spanish-American Short Story
3 Credits
Study of major short stories by Spanish-American authors.
Prerequisite: SPAN 312 or SPAN 313.

SPAN 419. Spanish American Drama
3 Credits
Study of major works by Spanish-American dramatists.
Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 420. Hispanic Micro Fiction
3 Credits
Study of micro fiction works by Hispanic Authors and creative writing workshop related to micro fiction.
Prerequisite(s): SPAN 314 or SPAN 315 and SPAN 380.

SPAN 421. Culture and Literature of New Mexico
3 Credits
The study of the development and flourishing of New Mexican culture and literature.
Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 422. Literature of the Mexican Revolution
3 Credits
Study of Mexican authors dealing with the Mexican Revolution.
Prerequisite: SPAN 312 or SPAN 313.

SPAN 424. Post-Modern Hispanic Literature
3 Credits
The study of Post-Modern experimental literary genres, from Post-boom to the present.
Prerequisite(s): SPAN 314 or SPAN 315.

SPAN 425. Conquest, Colonial and Indigenous Literatures
3 Credits
The study of literary and cultural works of the Spaniard Conquest and Latin American Indigenous cultures.
Prerequisite(s): SPAN 314 or SPAN 315.

SPAN 426. Spanish-American Novel
3 Credits
Study of major works by Spanish-American novelists.
Prerequisite: SPAN 312 or SPAN 313.

SPAN 427. Chicano Literature
3 Credits
Study of Chicano/US-Mexican authors.
Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 439. Topics in Applied Spanish Linguistics
3 Credits
Group study of selected topics to be identified by subtitle in the Schedule of Classes. May be repeated once under different subtitle for a maximum of 6 credits.
Prerequisite: SPAN 340.

SPAN 447. Hispanic Film
3 Credits
Study of major films from Spain and Spanish-America. Restricted to: Main campus only.

SPAN 448. U.S.-Hispanic Film
3 Credits
Study of major films about and/or by Hispanics of the U.S. Restricted to: Main campus only.

SPAN 449. Special Problems
1-3 Credits
Directed reading for graduate students in their specific fields to satisfy language requirement for master’s or doctoral programs. May be repeated for a maximum of 6 credits.

SPAN 451. Hispanic Cultures
3 Credits
Issues in Hispanic cultures of the U.S., Spanish-America and Spain. Also focuses on U.S.-Mexico border culture. Selected topics to be identified by subtitle in the Schedule of Classes. May be repeated up to 6 credits.
Prerequisite(s): SPAN 314 or SPAN 315.
SPAN 457. Strategies for Teaching Spanish for Heritage/Native Speakers
3 Credits
Overview of the main theories, research, pedagogical approaches, assessment and practice concerning the teaching of Spanish to heritage learners and native speakers. Taught with SPAN 597.
Prerequisite(s): SPAN 314 or SPAN 315.

SPAN 460. Spanish Language Acquisition
3 Credits
Research and theories of acquisition of Spanish as a first or second language.
Prerequisite: LING 200 or SPAN 340, or consent of instructor.

SPAN 461. Introduction to Spanish Phonetics
3 Credits
An introduction to Spanish phonetics including basic dialectal variation and comparison with English.
Prerequisite: SPAN 340.

SPAN 474. Pragmatics
3 Credits
The study of theory and pragmatic notions such as implicatures, presuppositions, deixis, speech acts, and politeness.
Prerequisite(s): SPAN 340.

SPAN 476. Semantics
3 Credits
The investigation of language from a semantic-pragmatic perspective and the use of formal logic to communicate meaning.
Prerequisite(s): SPAN 340.

SPAN 478. Spanish and Language Contact
3 Credits
The study of several areas of language in contact with Spanish, including cases in Europe, Africa and the Americas.
Prerequisite(s): SPAN 340.

SPAN 483. Literature and Law
3 Credits
The advanced study of Latin American and Latino literature and its historical and cultural connections to the development of laws and the influence of both on modern society.
Prerequisite(s): SPAN 314 or SPAN 315.

SPAN 485. Literature and Mental Health
3 Credits
The advanced study of Latin American and Latino literature and how storytelling, through various literary genres, can inform our understanding of mental health issues and propose possible solutions to improve our quality of mental health.
Prerequisite(s): SPAN 314 or SPAN 315.

SPAN 490. Special Topics
3 Credits
Selected topic to be identified by subtitle in the Schedule of Classes. May be repeated up to 6 credits.
Prerequisite(s): SPAN 312 or SPAN 313.

SPAN 491. History of the Spanish Language
3 Credits
The development of Spanish from its origins.
Prerequisite(s): SPAN 340.

SPAN 492. Structure of Spanish
3 Credits
Topics in Spanish linguistics including phonology, morphology, syntax and semantics.
Prerequisite(s): SPAN 314 or SPAN 315 or SPAN 340.

SPAN 493. Espanol de los Estados Unidos
3 Credits
Linguistic issues and studies of U.S. Spanish-speaking communities. Taught with SPAN 593. May be repeated up to 3 credits.
Prerequisite(s): SPAN 340.

SPAN 500. Methods of Research and Literary Criticism
3 Credits
Advanced methods of research and literary criticism.

SPAN 507. Technology Enhanced Language Learning
3 Credits
Strategies for enhancing language learning with emerging technologies. Course is taught in Spanish.

SPAN 508. Teaching Literature with Technology
3 Credits
Strategies and techniques for enhancing the teaching of all literature genres using emerging technologies. Course is taught in Spanish. Co/
Prerequisite(s): SPAN 507, and/or consent of instructor.

SPAN 509. Teaching Culture with Technology
3 Credits
Strategies and techniques for enhancing the teaching of culture using emerging technologies. Course is taught in Spanish. Co/
Prerequisite(s): SPAN 507, and/or consent of instructor.

SPAN 510. Assessing the National Standards
3 Credits
Analysis of the National Standards for Foreign Language Learning (the 5 Cs) in the 21st Century. Course will also cover the Integrated Performance Assessment as applied to the national standards. Other assessments will be reviewed to evaluate effectiveness in all levels of Spanish language classrooms.

SPAN 512. Contemporary Spanish-American Poetry
3 Credits
Readings and interpretation of Spanish-American poetry from the 20th century to the present.

SPAN 520. Hispanic Micro Fiction
3 Credits
Advanced study of micro fiction works by Hispanic Authors and creative writing workshop related to micro fiction.

SPAN 521. Advanced Culture and Literature of New Mexico
3 Credits
The advanced study of the development and flourishing of New Mexican culture and literature.

SPAN 528. Advanced U.S. Latino Culture and Literature
3 Credits
The advanced study of major works by Latino writers in the U.S.

SPAN 540. Introduccion a la Linguistica
3 Credits
Introduces students to the foundational topics of linguistic study with particular reference given to the Spanish language: properties of language and communication, morphology, syntax, phonetics, phonology, language variation and change.
Prerequisite(s): Eligibility to take graduate level courses.

SPAN 545. Advanced Dialectos del Espanol
3 Credits
Advanced research of Spanish dialects including their formal characteristics, historical formation and regional variation.
SPAN 547. Advanced Hispanic Film
3 Credits
Advanced study of major films from Spain and Spanish-America.
Restricted to: Main campus only.

SPAN 548. Advanced U.S.-Hispanic Film
3 Credits
Advanced study of major films about and/or by Hispanics of the U.S.
Restricted to: Main campus only.

SPAN 551. Advanced Hispanic Cultures
3 Credits
Advanced study on Hispanic cultures of the U.S., Spanish-America and/or
Spain. Selected topic to be identified by subtitle. Taught with SPAN 451.
May be repeated up to 6 credits.

SPAN 552. Advanced Literature of the Mexican Revolution
3 Credits
Study of Mexican authors dealing with the Mexican Revolution.
Restricted to: Main campus only.

SPAN 555. Advanced Conquest, Colonial and Indigenous Literatures
3 Credits
The advanced study of literary and cultural works of the Spaniard
Conquest and Latin American Indigenous cultures.

SPAN 558. Bilinguismo
3 Credits
Examines the topics of bilingualism from a psycholinguistic perspective
including the development of the bilingual brain, lexical acquisition,
retrieval and storage, and experimental techniques in measuring
language competence.
Prerequisite(s): SPAN 540 or consent of instructor.

SPAN 560. Advanced Spanish Language Acquisition
3 Credits
Advanced research and theories of acquisition of Spanish as a first or
second language.
Prerequisite(s): SPAN 540.

SPAN 561. Advanced Spanish Phonetics
3 Credits
Advanced study of Spanish phonetics, including basic dialectal variation
and comparisons with English.

SPAN 562. Advanced Spanish Phonology
3 Credits
An advanced formal examination of the sound system of Spanish
including formal characterizations, dialectal variation and laboratory
data. May be repeated up to 3 credits.
Prerequisite(s): SPAN 561 or consent of instructor.

SPAN 563. Advanced Study in Mexican Literature
3 Credits
Mexican literature from the Pre-Columbian period to the present.

SPAN 564. Advanced Post-Modern Hispanic Literature
3 Credits
The advanced study of Post-Modern experimental literary genres, from
Post-boom to the present.

SPAN 566. Contemporary Spanish-American Novel
3 Credits
The Spanish-American novel from the 20th century to the present.

SPAN 567. Advanced Study in Chicano Literature
3 Credits
Study of all genres of Chicano literature.

SPAN 568. Spanish and Language Contact
3 Credits
The study of several areas of language in contact with Spanish, including
cases in Europe, Africa, and the Americas.
Prerequisite(s): SPAN 540 or consent of instructor.

SPAN 570. Advanced Study in Technical Translation
3 Credits
Translation of a variety of non-literary texts from English to Spanish and
from Spanish to English. Course is taught in Spanish.

SPAN 573. Advanced Study in Creative Writing
3 Credits
Advanced creative writing in Spanish.

SPAN 574. Advanced Pragmatics
3 Credits
The study of theory and pragmatic notions such as implicatures,
presuppositions, deixis, speech acts, and politeness.
Prerequisite(s): SPAN 540 or consent of instructor.

SPAN 576. Advanced Semantics
3 Credits
The investigation of language from a semantic-pragmatic perspective
and the use of formal logic to communicate meaning.
Prerequisite(s): SPAN 540 or consent of instructor.

SPAN 578. Adv Spanish and Language Contact
3 Credits
The study of several areas of language in contact with Spanish, including
cases in Europe, Africa, and the Americas.
Prerequisite(s): SPAN 540 or consent of instructor.

SPAN 580. Research Methodology in Spanish Linguistics
3 Credits
Study and practical application of techniques in linguistic research.

SPAN 583. Advanced Study in Spanish-American Women Writers
3 Credits
All genres of Spanish-American literature written by women. Research
paper required.

SPAN 584. Spanish Morphosyntax
3 Credits
Examination of the morphological and syntactic structure of the Spanish
language as well as their interaction. Practical applications are also
explored.

SPAN 586. Contemporary Spanish-American Essay
3 Credits
Main currents in the Spanish-American thought from the 20th century to
the present.

SPAN 587. Contemporary Spanish-American Short Story
3 Credits
The Spanish-American short story from the 20th century to the present.

SPAN 588. Contemporary Spanish-American Drama
3 Credits
The Spanish-American drama from the 20th century to the present.

SPAN 589. Spanish Sociolinguistics
3 Credits
Relationship between language and society in the Spanish-speaking
world.

SPAN 590. Advanced Special Topics
3 Credits (3)
Specific subject to be announced in the Schedule of Classes. May be
repeated up to 6 credits.

SPAN 591. Advanced Study in History of the Spanish Language
3 Credits
The development of Spanish from its origins.
SPAN 592. Advanced Structure of Spanish  
3 Credits  
Advanced study of Spanish linguistics topics such as phonology, morphology, syntax and semantics.

SPAN 593. Advanced Espanol de los Estados Unidos  
3 Credits  
Linguistic issues and studies of U.S. Spanish-speaking communities.  
Prerequisite(s): SPAN 540 or consent of instructor.

SPAN 594. Theory and Methodology of Spanish Pedagogy  
3 Credits  
Advanced studies in current theories and methodologies of Spanish language pedagogy. Taught as a practicum.

SPAN 595. Advanced Topics in Applied Spanish Linguistics  
3 Credits  
Selected topics to be identified by subtitle in the Schedule of Classes. May be repeated for a total of 9 credits under a different subtitle.

SPAN 596. Advanced Strategies for Teaching Spanish for Heritage/Native Speakers  
3 Credits  
Advanced overview of the main theories, research, pedagogical approaches, assessment and practice concerning the teaching of Spanish to heritage learners and native speakers.

SPAN 597. Independent Reading, Research, and/or Creative Writing  
1-3 Credits  
Individual study of selected readings and problems; or individual research, either analytical or experimental, or creative writing. May be repeated for unlimited credits.

SPAN 599. Master's Thesis  
15 Credits  
Thesis.

Select 3 additional credits at the FREN 400 level. Other courses may be selected with the help of an advisor.

Select 12 additional credits from upper division FREN courses

Second Language Requirement (required - see below)
Electives, to bring the total credits to 120
18 credits must be upper division

Total Credits 120-126

1. MATH 210G Mathematics Appreciation is required for the degree but students may need to take any prerequisites needed to enter MATH 210G Mathematics Appreciation first.
2. See the General Education Section (p. 49) of the catalog to view the full list of courses that can be selected to complete this requirement.
3. See the Viewing a Wider World (p. 53) Section of the catalog to view the full list of courses that can be selected to complete this requirement.
4. Entrance into the French sequence is determined by placement and some courses may not be needed if a student is placed into a higher level.
5. Elective credit may vary based on second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Second Language Requirement
For the Bachelor of Arts in Foreign Languages with a concentration in French there is a two year second language requirement, the student must do one of the following:

</tr>
</tbody>
</table>

Option 2:

Prefix Title Credits
C D 374 American Sign Language I 3
C D 375 American Sign Language II 3
C D 476 American Sign Language III 3

Option 3:

Challenge the 212 level for the following courses:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHIN 212</td>
<td>Intermediate Chinese II</td>
<td>3</td>
</tr>
<tr>
<td>or FREN 212</td>
<td>Intermediate French II</td>
<td></td>
</tr>
<tr>
<td>or GER 212</td>
<td>Intermediate German II</td>
<td></td>
</tr>
<tr>
<td>or JPNS 212</td>
<td>Intermediate Japanese II</td>
<td></td>
</tr>
<tr>
<td>or SPAN 212</td>
<td>Intermediate Spanish II</td>
<td></td>
</tr>
</tbody>
</table>

OR

Challenge the 214 level for the following courses:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PORT 214</td>
<td>Portuguese for Romance Language Students II</td>
<td>3</td>
</tr>
<tr>
<td>or SPAN 214</td>
<td>Spanish for Heritage Learners III</td>
<td></td>
</tr>
</tbody>
</table>

Option 4:
Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

Option 5:
Obtain college certification of completion of three years of a second language at the high school level with a grade of C- or higher in the second-year level.

Option 6:
By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

Option 7:
By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

Option 8:
In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.
Double Major in Foreign Languages with a Concentration in French

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Students who are completing a different major in a different department can double major in Foreign Languages with a concentration in French. Double major students are required to complete:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>

A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 210G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

1 General Education and Viewing a Wider World requirements are solidified by completing the requirements for the other major in a different department, as part of the double major program.

2 Entrance into the French sequence is determined by placement and some courses may not be needed if a student is placed into a higher level.

3 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
### Foreign Languages (German) - Bachelor of Arts

#### Departmental Requirements

**Single Major in Foreign Languages with a Concentration in German**

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

**Total Credits** | 15 |

1. MATH 210G Mathematics Appreciation is required for the degree but students may need to take any prerequisites needed to enter MATH 210G first.

2. Elective credit may vary based on second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

3. See the General Education (p. 49) section of the catalog for a full list of courses.

4. Students who double major in Foreign Languages with a concentration in French are not required to take LING 200G or fulfill a second language requirement.

5. See the Viewing a Wider World (p. 53) section of the catalog to see a full list of courses, please note that FREN 365V, GER 333V, SPAN 364V and SPAN 365V do not fulfill this requirement.

6. Upper-Division FREN Credits: 24 credits (300-level or higher) are to be selected with the aid of an academic advisor, please note that FREN 365V does not count towards a FREN Upper-Division Elective course.

7. FREN 306 may be taken for a maximum of 6 credits towards the degree, but only 3 credits will be accepted from study abroad.
Students who are only pursuing a major in Foreign Languages with a Concentration in German are considered single major students. Single major students are required to complete:

<td></td>
</tr>
</tbody>
</table>

**Option 2:**

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td><strong>Complete the following sequence for American Sign Language (with a C- or better):</strong></td>
<td></td>
</tr>
</tbody>
</table>

18 credits must be upper division

Total Credits: 120-126
American Sign Language I 3
American Sign Language II 3
American Sign Language III 3

Option 3:
Prefix  Title                     Credits
Challenge the 212 level for the following courses:
CHIN 212  Intermediate Chinese II 3
or FREN 212  Intermediate French II 3
or GER 212  Intermediate German II 3
or JPNS 212  Intermediate Japanese II 3
or SPAN 212  Intermediate Spanish II 3

OR

Challenge the 214 level for the following courses:
PORT 214  Portuguese for Romance Language Students II 3
or SPAN 214  Spanish for Heritage Learners III 3

Option 4:
Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

Option 5:
Obtain college certification of completion of three years of a second language at the high school level with a grade of C- or higher in the second-year level.

Option 6:
By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

Option 7:
By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

Option 8:
In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

Double Major in Foreign Languages with a Concentration in German
Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Students who are completing a different major in a different department can double major in Foreign Languages with a concentration in German. Double major students are required to complete:

Prefix  Title                     Credits
General Education (from other major): 1  32-35
Viewing a Wider World (from other major): 1  6

These courses do not satisfy this requirement: (GER 333V, FREN 365V, SPAN 364V, SPAN 365V)

**Fall**

German Upper Division Elective (GER Courses, C- or better) | 3

German Upper Division Elective (GER Courses, C- or better) | 3

**Credits** | **12**

**Total Credits** | **120-125**

1. MATH 210G Mathematics Appreciation is required for the degree but students may need to take any prerequisites needed to enter MATH 210G first.
2. Elective credit may vary based on second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
3. See the General Education section of the catalog for a full list of courses.
4. Students who double major in Foreign Languages with a concentration in German are not required to take LING 200G or fulfill a second language requirement.
5. Students who are only pursuing a major in Foreign Languages with a concentration in Spanish are considered single major students. Single major students are required to complete:
6. Upper-Division GER Credits: 24 credits (300-level or higher) are to be selected with the aid of an academic advisor, please note that GER 333V does not count towards a GER Upper-Division Elective course.

---

**Foreign Languages (Spanish) - Bachelor of Arts**

**Departmental Requirements**

**Single Major in Foreign Languages with a Concentration in Spanish**

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Students who are only pursuing a major in Foreign Languages with a concentration in Spanish are considered single major students. Single major students are required to complete:

PORT 213 & PORT 214
Portuguese for Romance Language Students I
and Portuguese for Romance Language Students II

For Heritage Speakers:

Option 2:
Prefix | Title | Credits
--- | --- | ---
C D 374 | American Sign Language I | 3
C D 375 | American Sign Language II | 3
C D 476 | American Sign Language III | 3

Option 3:
Prefix | Title | Credits
--- | --- | ---
CHIN 212 | Intermediate Chinese II | 3
or FREN 212 | Intermediate French II | 3
or GER 212 | Intermediate German II | 3
or JPNS 212 | Intermediate Japanese II | 3

Option 4:
Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

Option 5:
Obtain college certification of completion of three years of a second language at the high school level with a grade of C- or higher in the second-year level.

Option 6:
By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

Option 7:
By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

Option 8:
In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

Double Major in Foreign Languages with a Concentration in Spanish
Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Students who are completing a different major in a different department can double major in Foreign Languages with a concentration in Spanish. Double major students are required to complete:

Prefix | Title | Credits
--- | --- | ---
General Education (from other major): | | 1
Viewing a Wider World (from other major): | | 1

These courses do not satisfy this requirement: (GER 333V, FREN 365V, LING 302V, SPAN 364V, SPAN 365V)

Total Credits 120-134

1 General Education and Viewing a Wider World requirements are solidified by completing the requirements for the other major in a different department, as part of the double major program.

2 Entrance into the Spanish sequence is determined by placement; some courses may not be needed if a student is placed into a higher level.

3 SPAN 364V and SPAN 365V will not count toward the double major.

4 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 210G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Latin American Studies - Supplementary Major

This program consists of 24 credits drawn from the lists below of which 18 credits must be numbered 300 or above. In addition, students must satisfy the College of Arts and Sciences Second Language Requirement.

Options

There are two options based on the section chosen by the student:

Option 1

Concentration in Latin American Language, Culture and Literature (Spanish or Portuguese):

- 12 credits from Section 1
- 12 credits from Section 2, (Note: No more than 6 credits may be taken in a single department)

Option 2

Concentration in one major (e.g., history, government, economics, health science, anthropology, sociology) included in Latin American Social Sciences and Art:

- 12 credits in the chosen area of Section 2 (if the major is government, one of these courses may be ECON 325V Economic Development of Latin America)
- 6 credits from another area (or areas) of Section 2
- 6 credits from Section 1

Both options require that the student take at least two Spanish or Portuguese courses above 300-level.
Section 1: Latin American Language, Culture and Literature

Only 3 credits will count.

Total Credits | 24

---

1 Only with prior written permission of instructor, department head and course dean.

Independent study, honors or special topics courses may be chosen with the approval of the advisor for Supplementary Majors in Chicano Studies, the head of the Department of Languages and Linguistics, and the College of Arts and Sciences. As departments add new courses they may be included in the program.

Spanish - Master of Arts

The degree plan requires a minimum of 36 credits in Spanish, of which at least 30 must be earned at the 500 level, and the remainder above the 450 level. The courses should be concentrated in the student’s chosen area of study (linguistics or literature) as each student will be tested on a reading list that corresponds to each area study. A thesis is optional. Students authorized to complete a thesis may count a maximum of 6 credits of thesis work toward the degree. At the present time, the thesis option is not available for online-only students. There are no required core courses at this time and a student should work closely with his/her advisor and the Graduate Director to establish an appropriate individual degree plan.

SPAN 492 | Structure of Spanish | 3
SPAN 493 | Espanol de los Estados Unidos | 3

Total Credits | 24

---

1 At least 3 hours must be at the 400 level. No more than 6 hours may be from the department where the student is obtaining his/her major.

2 Special topics, independent studies, and directed readings must be approved by the Department of Languages and Linguistics.
All students in either the on-campus or online program may complete a minor at the master’s level by taking 9 credits (3 courses) at the 500 level or above, in another area (department) of study, or within the department itself. For instance, a student studying linguistics may wish to obtain a minor in literature or a student studying literature may wish to obtain a minor in linguistics. In either case, the minor credits count as part of the 36 total credits required for the degree. In all cases, the student should work closely with the Graduate Director to ensure his/her particular plan of study is acceptable to the program.

Area of Study: Linguistics

Total Credits 36

Courses that may apply to either area include SPAN 590 Advanced Special Topics (see subtitles in schedule of courses to confirm subject of the course) SPAN 598 Independent Reading, Research, and/or Creative Writing, SPAN 599 Master’s Thesis (both courses require a course proposal and prior approval).

Additional Language Requirement

For both the on-campus and online degrees, the department requires that students fulfill a second language requirement (in addition to English and Spanish) by following an approved course of study. Typically, this is completed by taking a four-semester course of study, but may vary according to the languages available.

Options for completing this requirement include taking classes at a local Community College or University, or online. Some students have met this requirement by studying abroad through NMSU. Students should consult the Graduate Director to establish a plan and discuss how this requirement will be met. Note: evidence of fulfilling the second language requirement must be provided to the Graduate Director BEFORE taking final examinations.

English Language Requirement

International students are required to demonstrate proficiency in English and meet all international admissions requirements prior to beginning their program of study. Please see the section of the Graduate Catalog on international admissions requirements and scores required for either the TOEFL or IELTS exam. Note: evidence of fulfilling the English Language Requirement must be provided to the Graduate Director BEFORE taking final examinations.

Final Examinations

Students must successfully complete a final department examination (generally during the final semester of coursework) that is partially written and partially oral. Please consult the Graduate Director for specific information on dates and format for these exams. Final examinations are only available during the Fall and Spring semesters.

Areas of Interest/Reading List

As stated previously, each student needs to select an area of interest: Linguistics or Literature. At the end of the student’s degree, the final examinations (written and oral) will be based on the readings from the readings list in the student’s selected area of study. For example, a student that has opted to specialize in literature is responsible for reading all the materials on the Literature Reading List. Likewise, a student that has opted to specialize in linguistics is responsible for reading all the...
materials on the Linguistics Reading List. The student is responsible for the reading list that was in place the year he or she started the program.

Each student is responsible for covering the reading materials listed. Please contact the Graduate Director for a detailed reading. Note that the list is dated, so make sure to refer to the correct list that covers the year/semester the student started the program. The student is responsible for covering ALL the readings even if the student did not cover them as part of work done in class.

Graduate Assistantships
For the on-campus program only, the department awards graduate assistantships to qualified students. For this financial assistance, the student works up to 20 hours a week in departmental programs, chiefly in the teaching of elementary and intermediate Spanish courses in either the Heritage Language sequence or Spanish as a second Language sequence. Students interested in being considered for an assistantship should clearly state this interest in their introduction letter during the application process. The department offers a limited number of assistantships, and students should remember that not everyone that applies for this award receives one. Maintaining the award depends on the student's successful performance both academically and in the classes he/she teaches and is evaluated on a semester-by-semester basis. Students who receive an assistantship are required to take SPAN 594 Theory and Methodology of Spanish Pedagogy (see course description) as part of their degree plan in order to help them prepare for teaching classes at NMSU.

Mathematical Sciences

Undergraduate Program Information
In addition to meeting University and College requirements, students earning a Bachelor of Science in Mathematics must fulfil the core departmental requirements and choose from one of three emphases:

- General,
- Applied Mathematics or
- Actuarial Science and Insurance.

Students must earn a grade of C- or better in all departmental and nondepartmental courses for any degree in the Department of Mathematical Sciences.

Math Sequence Information and Recommendations
Some students may be able to bypass one or more courses in the calculus sequence MATH 191G Calculus and Analytic Geometry I - MATH 192G Calculus and Analytic Geometry II - MATH 291G Calculus and Analytic Geometry III. The calculus sequence, Introduction to Higher Mathematics, and Linear Algebra provide knowledge that is basic to further work, and students are advised to complete them or their equivalent as early as possible.

Students planning to enter a graduate program in Mathematics should select the General Emphasis. In any case, such students are strongly advised to take both MATH 331 Introduction to Modern Algebra and MATH 332 Introduction to Analysis, since these courses are required by most programs, and should take as many as possible of the following courses

<table>

Graduate Program Information
The Department of Mathematical Sciences offers graduate instruction leading to the Master of Science degree, and Doctor of Philosophy degree. Possible areas of study are various topics in pure mathematics and applied mathematics, statistics and mathematics education. Students may also pursue an interdisciplinary program of study. Most graduate students in Mathematical Sciences are supported either through teaching assistantships, research assistantships, fellowships, or job opportunities at nearby teaching or research units.

For more information on our programs and facilities, and to learn more about the research interests of the faculty, please see our web site at www.math.nmsu.edu, phone us at (575) 646-3901, or write to:

Graduate Secretary
Department of Mathematical Sciences
NMSU
Las Cruces, NM 88003-8001
Email: gradcomm@nmsu.edu

Students applying for regular admission to graduate study in mathematics are expected to have 24 credits of upper-division courses in mathematics and statistics, including three-credit proof based courses in modern analysis and in modern algebra. Students who do not meet these requirements may be admitted with deficiencies and allowed to complete the requirements at New Mexico State University.

Applications must be submitted online, see http://prospective.nmsu.edu/graduate/apply/. The minimum application to be admitted as a regular graduate student in mathematics includes:

1. a completed Graduate School admission application
2. complete transcripts of all undergraduate and graduate work
3. application fee
4. three letters of recommendation from professors, employers, or others who are qualified to judge potential for graduate work in mathematics
5. a one-page statement of educational objectives

Although GRE subject test scores are not required for admission, applicants are encouraged to submit them, if available. The test scores may be used to help allocate available teaching assistantships among entering students.

To ensure full consideration for admission, candidates should submit their applications by the following deadlines.

Degrees for the Department

Mathematics (Actuarial Science and Insurance) - Bachelor of Science

Mathematics (Applied Mathematics) - Bachelor of Science

Mathematics (General Mathematics) - Bachelor of Science

Applied Mathematics - Supplemental Major

Mathematics - Master of Science

Mathematics - Doctor of Philosophy

Minors for the Department

Mathematics - Undergraduate Minor

Professor, John Harding, Department Head

Professors: Baggett, Barany, Bezhanishvili, DeBlassie, Giorgi, Harding, Lakey, Lodder, Morandi, Olberding, Smits, Wang; Associate Professors: Ballyk, Fouli, Stanford, Tian; Assistant Professors: Cahill, Chen, Contreras, Montaño; College Professors: Fulte, Mostafa, Zimmerman; College Associate Professors: White-Hosford; College Assistant Professors: Ausbrooks, Villaverde; College Instructors: Reece

Mathematics Courses

MATH 101. General Supplemental Instruction I

1 Credit

Corequisite(s): MATH 120.

MATH 102. General Supplemental Instruction II

1 Credit

Corequisite(s): MATH 121G.

MATH 107. Topics in Mathematics

1-3 Credits

Topics to be announced in the Schedule of Classes. Maximum of 3 credits per semester. Total credit not to exceed 6 credits. Community Colleges only.

Prerequisite: consent of instructor.

MATH 111. Fundamentals of Elementary Mathematics I

3 Credits

Numbers and the four operations of arithmetic. Understanding and comparing multiple representations of numbers and operations, in particular how these representations build from whole numbers to integers to fractions and decimals. Applying properties of numbers and operations in contextual situations. Reasoning, communicating, and problem solving with numbers and operations. Applications to ratio, and connections with algebra. Taught primarily through student activities and investigations. Restricted to: EDUC, EPAR, E ED, ECED majors.

Prerequisite(s): ENGL 111G and grade of C or better in MATH 120.

MATH 112G. Fundamentals of Elementary Math II

3 Credits

Geometry and measurement. Multiple approaches to solving problems and understanding concepts in geometry. Analyzing and constructing two- and three-dimensional shapes. Measurable attributes, including angle, length, area, and volume. Understanding and applying units and unit conversions. Transformations, congruence, and symmetry. Scale factor and similarity. Coordinate geometry and connections with algebra. Reasoning and communicating about geometric concepts. Taught primarily through student activities and investigations.

Prerequisite(s): C or better in MATH 111.

MATH 120. Intermediate Algebra

3 Credits

Linear and algebraic functions as they arise in real world problems. Exponential and logarithmic functions. Equations and inequalities and their solutions considered symbolically, graphically and numerically.

Prerequisite: adequate score on the Mathematics Placement Examination.

MATH 121G. College Algebra

3 Credits

Fundamental concepts of functions, including algebraic and graphical properties. Fitting functions to data. Finding zeroes and extreme values. Solving systems of equations.

Prerequisites: Adequate math placement score or C or better in MATH 120.

MATH 142G. Calculus for the Biological and Management Sciences

3 Credits (2+2P)

Review of functions. Derivatives, exponential and logarithmic functions, antiderivatives and indefinite integrals, basic ordinary differential equations and growth models, with an emphasis on applications. Includes a significant writing component.

Prerequisite(s): C or better in MATH 121G.
MATH 190G. Trigonometry and Precalculus
4 Credits (3+2P)
Elementary functions used in the sciences with emphasis on trigonometric functions and their inverses. Polar coordinates. Complex numbers and Euler's formula. Analytic geometry and vectors.
Prerequisite: adequate score on Mathematics placement exam or a C or better in MATH 121G.

MATH 191G. Calculus and Analytic Geometry I
4 Credits
Limits and continuity, theory and computation of derivatives, applications of derivatives, extreme values, critical points, derivative tests, L'Hopital's Rule.
Prerequisite(s): C or better in MATH 190G.

MATH 192G. Calculus and Analytic Geometry II
4 Credits
Riemann sums, the definite integral, antiderivatives, fundamental theorems, techniques of integration, applications of integrals, improper integrals, Taylor polynomials, sequences and series, power series and Taylor series.
Prerequisite(s): C or better in MATH 191G.

MATH 192GH. Calculus and Analytic Geometry II Honors
4 Credits (3+1P)
A more advanced treatment of the material of MATH 192G with additional topics. Consent of Instructor required. Restricted to Las Cruces campus only.
Prerequisite(s): Consent of Department.

MATH 200. Directed Study
1-3 Credits
May be repeated for a maximum of 6 credits. Graded S/U.
Prerequisite: consent of the instructor.

MATH 210G. Mathematics Appreciation
3 Credits
Mathematics and its role in the development and maintenance of civilization.
Prerequisites: High school algebra, and an adequate score on the Mathematics Placement Examination.

MATH 215. Fundamentals of Elementary Mathematics III
3 Credits
Probability, statistics, ratios, and proportional relationships. Experimental and theoretical probability. Collecting, analyzing, and displaying data, including measurement data. Multiple approaches to solving problems involving proportional relationships, with connections to number and operation, geometry and measurement, and algebra. Understanding data in professional contexts of teaching. Taught primarily through student activities and investigations.
Prerequisite(s): C or better in MATH 112.

MATH 235. Calculus for the Technical Student I
3 Credits
Intuitive differential and integral calculus with applications to engineering.
Prerequisite: C or better in MATH 190G.

MATH 236. Calculus for the Technical Student II
3 Credits
A continuation and extension of the material in MATH 235.
Prerequisites: C or better in MATH 235 or in MATH 192G.

MATH 279. Introduction to Higher Mathematics
3 Credits
Logic; sets, relations, and functions; introduction to mathematical proofs.
Prerequisite(s): C or better in MATH 192.

MATH 280. Introduction to Linear Algebra
3 Credits
Systems of equations, matrices, vector spaces and linear transformations. Applications to computer science.
Prerequisite(s): Grade of C or better in MATH 192G.

MATH 291G. Calculus and Analytic Geometry III
3 Credits
Vector algebra, directional derivatives, approximation, max-min problems, multiple integrals, applications, cylindrical and spherical coordinates, change of variables.
Prerequisite: grade of C or better in MATH 192G.

MATH 300. Readings
1-3 Credits
A selection of readings and reports in the mathematical sciences, the breadth and depth of which is deemed to fit the needs of the student. Graded S/U.
Prerequisite: consent of instructor.

MATH 313. Fundamentals of Algebra and Geometry I
3 Credits (3+1P)
Covers algebra combined with geometry based on measurements of distance (metric geometry). Secondary mathematics education majors may take course as a math elective. MATH 313 does not substitute for other required math courses. Does not fulfill requirements for major in mathematics.
Prerequisites: MATH 111 and MATH 112G.

MATH 316. Calculus with Hands-on Applications
3 Credits
This course, primarily for prospective teachers, is taught in an interactive laboratory format. Students design and construct physical objects for which the planning stage requires calculus techniques. All numerical computations are carried out on graphing calculators. Meets simultaneously with MATH 516, primarily for practicing teachers. Secondary math education majors may take course as a math elective. MATH 316 does not fulfill requirements for majors in mathematics. Consent of instructor required.

MATH 331. Introduction to Modern Algebra
3 Credits
Elements of abstract algebra, including groups, rings and fields.
Prerequisite: C or better in MATH 279 and MATH 280.

MATH 332. Introduction to Analysis
3 Credits
Development of the real numbers, a rigorous treatment of sequences, limits, continuity, differentiation, and integration.
Prerequisite: C or better in MATH 192G and MATH 279.

MATH 377. Introduction to Numerical Methods
3 Credits
Basic numerical methods for interpolation, approximation, locating zeros of functions, integration, and solution of linear equations. Computer-oriented methods will be emphasized.
Prerequisites: grade of C or better in MATH 192G and some programming experience.
MATH 391. Vector Analysis
3 Credits
Calculus of vector valued functions, Green's and Stokes' theorems and applications.
Prerequisite: grade of C or better in MATH 291G.

MATH 392. Introduction to Ordinary Differential Equations
3 Credits
Introduction to differential equations and dynamical systems with emphasis on modeling and applications. Basic analytic, qualitative and numerical methods. Equilibria and bifurcations. Linear systems with matrix methods, real and complex solutions.
Prerequisite: C or better in MATH 192G or B or better in MATH 236.

MATH 400. Undergraduate Research
1-3 Credits
May be repeated for a maximum of 6 credits. Graded S/U.
Prerequisite: consent of faculty member.

MATH 401. Special Topics
1-3 Credits (1-3)
Specific subjects to be announced in the Schedule of Classes. May be used to fulfill a course requirement for the mathematics major. Consent of Instructor required.

MATH 411V. Great Theorems: The Art of Mathematics
3 Credits
Adopts the view of mathematics as art, using original sources displaying the creation of mathematical masterpieces from antiquity to the modern era. Original sources are supplemented by cultural, biographical, and mathematical history placing mathematics in a broad human context.
Prerequisites: Grades of B or better in MATH 192G and any upper division MATH/STAT course, with overall GPA of 3.2 or better, or consent of instructor.

MATH 421. Financial Mathematics I
3 Credits
Types of derivatives, forwards and futures, options, returns and payoffs, Arrow-Debre, complete and incomplete markets, the one period model, the binomial option pricing model, binomial trees, martingales and sub martingales, Brownian motion, stochastic integrals, the Ito integral, Ito's dilemma, the Black-Scholes model, the Black-Scholes formula, European options, American options, free boundary problems, variational inequalities. This course is offered simultaneously with MATH 521.
Prerequisite(s): C or better in STAT 371 and either MATH 280 or MATH 480 or consent of instructor.

MATH 422. Financial Mathematics II
3 Credits
Bonds, swaps, exotic options, barrier options, Asian options, look back options, options with transaction costs, Fokker Plank theory, computing expectations, the Heath-Jarrow- Morton theorem, the Ho-Lee model, stochastic volatility models, exponential-affine models, numerical methods. This course is offered simultaneously with MATH 522.
Prerequisite: C or better in MATH 421 or consent of instructor

MATH 450. Introduction to Topology
3 Credits
Topological spaces: general spaces and specific examples such as metric spaces, Hausdorff spaces and/or normed vector spaces; separation axioms; continuity, compactness, connectedness; related theorems. Crosslisted with: MATH 520.
Prerequisite(s): MATH 332.

MATH 451. Introduction to Differential Geometry
3 Credits
Applies calculus to curves and surfaces in three dimensional Euclidean space.
Prerequisite(s): C- or better in each of MATH 280 and MATH 391, or consent of instructor.

MATH 452. Foundations of Geometry
3 Credits
Topics in projective, axiomatic Euclidean or non-Euclidean geometries. Restricted to: Main campus only.
Prerequisite(s): C or better in MATH 331 or MATH 332.

MATH 454. Logic and Set Theory
3 Credits
Prerequisite(s): C- or better in MATH 331 or MATH 332, or consent of instructor.

MATH 455. Elementary Number Theory
3 Credits
Covers primes, congruences and related topics.
Prerequisite: grade of C or better in MATH 331 or consent of instructor.

MATH 456. Abstract Algebra I: Groups and Rings
3 Credits
Group theory, including cyclic groups, homomorphisms, cosets, quotient groups and Lagrange's theorem. Introduction to rings: ring homomorphisms, ideals, quotient rings, polynomial rings, and principal ideal domains. Crosslisted with: MATH 526.
Prerequisite(s): MATH 331 or consent of instructor.

MATH 459. Survey of Geometry
3 Credits
A first course in complex function theory, with emphasis on applications.
Prerequisite(s): C- or better in MATH 391 or C- or better in both MATH 392 and MATH 291.

MATH 471. Complex Variables
3 Credits
A first course in complex function theory, with emphasis on applications.
Prerequisite(s): C- or better in MATH 391 or C- or better in both MATH 392 and MATH 291.

MATH 472. Fourier Series and Boundary Value Problems
3 Credits
Fourier series and methods of solution of the boundary value problems of applied mathematics.
Prerequisite(s): C- or better in MATH 392.

MATH 473. Calculus of Variations and Optimal Control
3 Credits
Euler's equations, conditions for extrema, direct methods, dynamic programming, and the Pontryagin maximal principle.
Prerequisite(s): C- or better in MATH 392.
MATH 480. Matrix Theory and Applied Linear Algebra
3 Credits
An application driven course, whose topics include rectangular systems, matrix algebra, vector spaces and linear transformations, inner products, and eigenvalues and eigenvectors. Applications may include LU factorization, least squares, data compression, QR factorization, singular value decomposition, and search engines.
Prerequisite(s): C or better in any 300-level course with a MATH or STAT prefix.

MATH 481. Advanced Linear Algebra
3 Credits
Rigorous treatment of vector spaces and linear transformations including canonical forms, spectral theory, inner product spaces and related topics.
Prerequisite: grade of C or better in MATH 331.

MATH 491. Introduction to Real Analysis I
3 Credits
Rigorous discussion of the topics introduced in calculus. Sequences, series, limits, continuity, differentiation.
Prerequisite: grade of C or better in MATH 332 or consent of instructor.

MATH 492. Introduction to Real Analysis II
3 Credits
Continuation of MATH 491. Integration, metric spaces and selected topics.
Prerequisite(s): C- or better in MATH 491 or consent of instructor.

MATH 497. Complex Analysis
3 Credits
Rigorous treatment of complex differentiation and integration, properties of analytic functions, series and Cauchy’s integral representations.
Prerequisite(s): MATH 432.

MATH 498. Directed Reading
1-6 Credits
May be repeated for a maximum of 6 credits. Graded S/U.

MATH 499. Complex Analysis
3 Credits
Rigorous treatment of complex differentiation and integration, properties of analytic functions, series and Cauchy’s integral representations.
Prerequisite(s): MATH 432.

MATH 501. Introduction to Differential Geometry
3 Credits
Same as MATH 451 with additional work for graduate students.

MATH 502. Foundations of Geometry
3 Credits
Same as MATH 452 with additional assignments for graduate students.

MATH 505. Elementary Number Theory
3 Credits
Same as MATH 455 with additional assignments for graduate students.

MATH 506. Fundamentals of Algebra and Geometry I
3 Credits (3+1P)
Algebra and metric geometry, incorporating appropriate calculator technology. Intended for K-8 teachers. Students serve as mentors to MATH 313 undergraduates. Does not fulfill degree requirements for M.S. in mathematics.

MATH 513. Fundamentals of Algebra and Geometry I
3 Credits (3+1P)
Algebra and metric geometry, incorporating appropriate calculator technology. Intended for K-8 teachers. Students serve as mentors to MATH 313 undergraduates. Does not fulfill degree requirements for M.S. in mathematics.

MATH 516. Calculus with Hands-on Application
3 Credits
This course, primarily for in-service teachers, is taught in an interactive laboratory format. Students design and construct physical objects for which the planning stage requires calculus techniques. All numerical computations are carried out on graphing calculators. Meets simultaneously with Math 316, primarily for prospective teachers. Does not fulfill degree requirements for M.S. in Mathematics.
Prerequisite(s): MATH 511 and MATH 512 or consent of instructor.

MATH 517. Complex Variables
3 Credits
Same as MATH 471 with additional work for graduate students.

MATH 518. Fourier Series and Boundary Value Problems
3 Credits
Same as MATH 472 with additional work for graduate students.

MATH 519. Calculus of Variations and Optimal Control
3 Credits
Same as MATH 473 with additional work for graduate students.

MATH 520. Introduction to Topology
3 Credits
Same as MATH 474 with additional work for graduate students. Crosslisted with: MATH 450.

MATH 521. Financial Mathematics I: Portfolio Optimization
3 Credits
Complete and incomplete markets, optimal investment paths, dynamic optimization, the Black-Scholes model, European options, American options. May be repeated up to 3 credits.
Prerequisite(s): STAT 515.

MATH 522. Financial Mathematics II
3 Credits
Prerequisite: MATH 521.

MATH 523. Numerical Optimization and Applications to Financial Mathematics
3 Credits
Dynamic optimization of a monopolist, trading off inflation and unemployment, the optimal adjustment of labor demand, infinite planning horizon, the optimal investment path of a firm, the optimal social saving behavior, phase diagram analysis, optimal control theory, the political business cycle, the dynamics of a revenue-maximizing firm, economic examples of state-space constraints. This course is offered simultaneously with MATH 423.
Prerequisite: MATH 521.

MATH 524. Logic and Set Theory
3 Credits
Same as MATH 454 with additional assignments for graduate students. Crosslisted with: MATH 454.
Prerequisite(s): consent of instructor.
MATH 525. Advanced Linear Algebra
3 Credits
Same as MATH 481 with additional work for graduate students. May be repeated up to 3 credits.

MATH 526. Abstract Algebra I: Groups and Rings
3 Credits
Same as MATH 456 with additional work for graduate students. Crosslisted with: MATH 456.
Prerequisite(s): MATH 525 or consent of instructor.

MATH 527. Introduction to Real Analysis I
3 Credits
Same as MATH 491 with additional work for graduate students.

MATH 528. Introduction to Real Analysis II
3 Credits
Same as MATH 492 with additional work for graduate students.

MATH 529. Complex Analysis
3 Credits
Same as MATH 499 with additional work for graduate students. Crosslisted with: MATH 499.
Prerequisite(s): MATH 528.

MATH 530. Special Topics
1-3 Credits
Specific subjects to be announced in the Schedule of Classes. May be for unlimited credit with approval of the department.

MATH 531. Ordinary Differential Equations
3 Credits
Linear algebra and linear ordinary differential equations, existence and uniqueness of solution, smooth dependence on initial conditions, flows, introduction to smooth dynamical systems. May be repeated up to 3 credits.
Prerequisite(s): MATH 527, or consent of instructor.

MATH 532. Nonlinear Dynamics
3 Credits
Introduction to nonlinear dynamics and deterministic chaos. Core topics include stability and bifurcations; chaos in one dimensional maps; universality and re-normalization group. Further topics include symbolic dynamics, fractals, sensitive dependence on initial data, self-organization and complexity and cellular automata. Knowledge of differential equations and linear algebra is desired.

MATH 540. Directed Reading
1-6 Credits
May be repeated for a maximum of 6 credits. Consent of instructor required. Graded: S/U.

MATH 541. Topology I
3 Credits
Connectedness and compactness of topological spaces, introduction to the quotient topology, elementary homotopy theory, the fundamental group, the Seifert-van Kampen theorem.
Prerequisite(s): MATH 525 and MATH 528, or consent of instructor.

MATH 542. Topology II
3 Credits
Covering spaces and their classification, singular homology, degree theory, Brouwer's fixed point theorem, CW-complexes and cellular homology, and other applications.
Prerequisite(s): MATH 541 or consent of instructor.

MATH 550. Mathematical Structures in Logic
3 Credits
Prerequisite(s): MATH 524.

MATH 551. Universal Algebra and Model Theory
3 Credits
Prerequisite(s): MATH 524.

MATH 552. Differentiable Manifolds
3 Credits
Differentiable structures, tangent bundles, vector fields and differential equations. Additional topics may include differential forms, De Rham cohomology, Riemannian geometry, and topics chosen by the instructor. May be repeated for a maximum of 9 credits. Consent of instructor required.
Prerequisite(s): MATH 525 and MATH 528, or consent of instructor.

MATH 555. History and Theories of Mathematics Education
3 Credits
A study of the history of the mathematics taught in American schools, including an examination of authentic original textbooks and the changes in their content and the approach to the subject over time, together with writings of people who have influenced the development and changes of mathematics education. Theories of learning mathematics, and current issues in mathematics education.
Prerequisite(s): Restricted to graduate students.

MATH 556. Algebra with Connections
3 Credits
Connections between Algebra and other K-12 curriculum strands, especially Geometry and Probability / Data Analysis. Apply algebraic modeling and reasoning to a variety of mathematical problem solving situations. Does not fulfill requirements for degrees in mathematics. Consent of instructor required.
Prerequisite(s): Admittance into the MC2-LIFT program.

MATH 560. From Number to Algebra
3 Credits
The progression from Number to Algebra in the K-12 curriculum as a concrete-to-abstract progression. Key concepts considered across the grade levels include the different uses of variables, equivalence in different contexts, patterns, and ratios. Does not fulfill requirements for degrees in mathematics. Consent of instructor required.
Prerequisite(s): Admittance into the MC2-LIFT program.

MATH 564. From Number to Algebra
3 Credits
The progression from Number to Algebra in the K-12 curriculum as a concrete-to-abstract progression. Key concepts considered across the grade levels include the different uses of variables, equivalence in different contexts, patterns, and ratios. Does not fulfill requirements for degrees in mathematics. Consent of instructor required.
Prerequisite(s): Admittance into the MC2-LIFT program.

MATH 566. Data Analysis with Applications
3 Credits
Statistical concepts and terminology in professional uses of data by teachers, such as standardized test score reports and educational research; visual displays of data; measures of variation and central tendency; consideration of how K-12 topics in Data Analysis are developed from one grade level to the next. Does not fulfill requirements for degrees in mathematics. Consent of instructor required.
Prerequisite(s): Admittance into the MC2-LIFT program.
MATH 567. From Measurement to Geometry
3 Credits
The progression from Measurement to Geometry in the K-12 curriculum as a concrete-to abstract progression. Important concepts such as angle, length, and area progress from concrete, measurable situations to more abstract problems which require reasoning and proof. Does not fulfill requirements for degrees in mathematics. Consent of instructor required.
Prerequisite(s): Admission into the MC2-LIFT program.

MATH 568. Using Number Throughout the Curriculum
3 Credits
Understand number concepts more deeply by seeing many examples of those concepts applied in other content strands. Develop mathematical knowledge and understanding to build a repertoire of ways for students to practice and review basic number skills and concepts as part of later, more advanced courses. Does not fulfill requirements for degrees in mathematics. Consent of instructor required.
Prerequisite(s): Admission into the MC2-LIFT program.

MATH 569. Geometry with Connections
3 Credits
Connections between Geometry and other K-12 curriculum strands, especially Algebra and Probability / Data Analysis. Address key attributes of geometric concepts by considering their connections within and across grade levels. Does not fulfill requirements for degrees in mathematics. Consent of instructor required.
Prerequisite(s): Admission into the MC2-LIFT program.

MATH 571. Partial Differential Equations I
3 Credits
The basic equations of mathematical physics. Laplace, Heat and Wave Equations. The method of characteristics, introduction to conservation laws, special solutions.
Prerequisite(s): MATH 518 and MATH 528 or consent of instructor.

MATH 572. Partial Differential Equations II
3 Credits
Sobolev spaces theory: basic definitions and properties, embedding theorems, weak solutions of boundary value problems and variational methods for partial differential equations.
Prerequisite(s): MATH 593 or consent of instructor.

MATH 581. Abstract Algebra II: Fields, Rings and Modules
3 Credits
Topics covered include field extensions; algebraic closure; polynomials rings; irreducibility criteria; Noetherian rings; algebraic sets; Nullstellensatz; modules; applications to linear algebra.
Prerequisite(s): MATH 526 or consent of instructor.

MATH 582. Module Theory and Homological Algebra
3 Credits
Introductory concepts of homological algebra, including projective, injective and flat modules; projective and injective resolutions; exactness of functors; homology of chain complexes; derived functors.
Prerequisite(s): MATH 581 or consent of instructor.

MATH 583. Introduction to Commutative Algebra and Algebraic Geometry
3 Credits
Introduction to the basic notions and techniques of modern algebraic geometry, including the necessary commutative algebra foundation. Topics likely to include algebraic and projective varieties, Nullstellensatz, morphisms, rational and regular functions, local properties. Other topics may include Noether normalization, dimension theory, singularities, sheaves, schemes, Grobner bases.
Prerequisite(s): MATH 581 or consent of instructor.

MATH 593. Measure and Integration
3 Credits
Measure spaces, measurable functions, extension and decomposition theorems for measures, integration on measure spaces, absolute continuity, iterated integrals.
Prerequisite: MATH 528 or consent of instructor.

MATH 594. Real Analysis
3 Credits
Differentiation, Lp spaces, Banach spaces, measure and topology, other selected topics.
Prerequisite: MATH 593.

MATH 595. Introduction to Functional Analysis
3 Credits
Topics may include higher homotopy groups, fibrations, cohomology operations and obstruction theory, spectral sequences, or others chosen by instructor. May be repeated for a maximum of 9 credits.
Prerequisites: MATH 542 or consent of instructor.

MATH 596. Selected Topics
1-15 Credits
Selected topics.

MATH 700. Doctoral Dissertation
1-15 Credits
Dissertation.

Statistics Courses

STAT 251G. Statistics for Business and the Behavioral Sciences
3 Credits
Techniques for describing and analyzing data; estimation, hypothesis testing, regression and correlation; basic concepts of statistical inference. Crosslisted with: A ST 251G.
Prerequisite(s): C- or better in MATH 120.

STAT 271G. Statistics for Psychological Sciences
3 Credits
Techniques for describing and analyzing data; basic concepts of statistical inference; estimation, hypothesis testing, correlation, and analysis of variance.
Prerequisite(s): C- or better in MATH 120.

STAT 371. Statistics for Engineers and Scientists I
3 Credits
Modern probability and statistics with applications to the engineering sciences.
Prerequisite(s): C- or better in MATH 192.

STAT 400. Undergraduate Research
1-3 Credits
Arrangements must be made with supervising professor before registration. May be repeated for a maximum of 6 credits.
### STAT 470. Probability: Theory and Applications
3 Credits
Basic probability distributions including binomial, normal; random variables, expectation; laws of large numbers; central limit theorem.
**Prerequisite(s):** C- or better in MATH 291 and C- or better in at least one 300 level Math course.

### STAT 480. Statistics: Theory and Applications
3 Credits
Point and interval estimation; sufficiency; hypothesis testing; regression; analysis of variance; chi-square tests.
**Prerequisite(s):** C- or better in STAT 470.

### STAT 475. Probability: Theory and Applications
3 Credits
Same as STAT 470 with additional work for graduate students.

### STAT 485. Statistics: Theory and Applications
3 Credits
Same as STAT 480 with additional work for graduate students.

### STAT 515. Elementary Stochastic Processes
3 Credits
Markov chains, Poisson processes, Brownian motion, branching processes, and queuing processes, with applications to the physical, biological, and social sciences.
**Prerequisite:** STAT 515 or consent of instructor.

### STAT 540. Directed Reading
1-6 Credits
May be repeated for a maximum of 6 credits. Graded S/U.
**Prerequisite:** consent of instructor and graduate committee.

### STAT 562. Foundations of Probability
3 Credits
Probability spaces, expectation and conditional expectation, limit theorems and laws of large numbers.
**Prerequisite:** MATH 593.

### STAT 563. Advanced Topics in Stochastic Processes
3 Credits
Markov processes, martingales, Brownian motion, the Ito calculus, stochastic differential equations.
**Prerequisite(s):** STAT 562.

### STAT 571. Continuous Multivariate Analysis
3 Credits
Theory and applications of the multivariate normal distribution. May be repeated up to 3 credits. Consent of Instructor required.
**Prerequisite(s):** STAT 525, or consent of instructor.

### STAT 572. Linear Models
3 Credits
Core topics include distribution of quadratic forms, theory of regression, analysis of variance and covariance in linear models. Advanced topics chosen from random and mixed linear models, generalized linear, growth curve, and nonlinear models, quartile and copula regression. May be repeated up to 6 credits.
**Prerequisite(s):** STAT 571.

### STAT 581. Advanced Theory of Statistics I
3 Credits
Testing hypotheses, probability and sufficiency, uniformly most powerful tests, unbiasedness, invariance, and minimax principle.
**Prerequisite:** STAT 525 or consent of instructor.

### STAT 582. Advanced Theory of Statistics II
3 Credits
Estimation of parameters; unbiased estimators; equivariance; Bayes properties; large sample theory and optimality.
**Prerequisite:** STAT 581 or consent of instructor.

### STAT 598. Special Research Problems
1-3 Credits
Individual investigations or consulting programs. Maximum of 3 credits.

**Phone:** (575) 646-3901

**Website:** [http://math.nmsu.edu/](http://math.nmsu.edu/)

---

**Mathematics (Actuarial Science and Insurance) - Bachelor of Science**

The concentration in Actuarial Science and Insurance draws on courses from mathematics and business to prepare students for a mathematical career in insurance. The coursework in this emphasis focuses on the analysis of risk and its applications to insurance finance. Students fulfilling the requirements for the Actuarial Science and Insurance Concentration earn a minor in Risk Management and Insurance.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

MATH 191G Calculus and Analytic Geometry I (Departmental/College Requirement also) 4

Area III/IV: Laboratory Sciences and Social/Behavioral Sciences 10
ECON 251G Principles of Macroeconomics
ECON 252G Principles of Microeconomics
Area III: Laboratory Science Course (4 credits) 4

Area V: Humanities 2 3
Area VI: Creative and Fine Arts 2 3

General Education Elective
MATH 192G Calculus and Analytic Geometry II (Departmental/College Requirement also) 4

Viewing a Wider World 3 3

Departmental/College Requirements
MATH 279 Introduction to Higher Mathematics 3
MATH 280 Introduction to Linear Algebra 3
MATH 291G Calculus and Analytic Geometry III 3
MATH 331 Introduction to Modern Algebra or MATH 332 Introduction to Analysis 3
STAT 371 Statistics for Engineers and Scientists I 3
STAT 470 Probability: Theory and Applications 3
STAT 480 Statistics: Theory and Applications 3

Departmental Electives 3 9
Select at least an additional 9 credits of approved upper-division courses prefixed MATH or STAT (6 credits must be 400-level), excluding the following:

MATH 300 Readings 9
MATH 313 Fundamentals of Algebra and Geometry I
MATH 316 Calculus with Hands-on Applications
MATH 400 Undergraduate Research
MATH 459 Survey of Geometry
STAT 400 Undergraduate Research 9

Non-Departmental Requirements (in addition to Gen.Ed/ VWW)
ACCT 221 Principles of Accounting I (Financial) 3
ACCT 222 Principles of Accounting II (Managerial) 3
BLAW 316 Legal Environment of Business
or BLAW 385V Consumers and the Law 3
CS 172 Computer Science I 4
FIN 322 Principles of Insurance 3
FIN 341 Financial Analysis and Markets 3

Select one option from the following three:

OPTION 1
FIN 323 Life/Health/Employee Benefits 3
FIN 303V Personal Financial Planning and Investing in a Global Economy
or FIN 421 Personal Financial Planning for Professionals
FIN 324 Property and Liability Insurance
FIN 391 Finance Internship and Cooperative Education I

OPTION 2
FIN 324 Property and Liability Insurance
FIN 303V Personal Financial Planning and Investing in a Global Economy
or FIN 421 Personal Financial Planning for Professionals
FIN 323 Life/Health/Employee Benefits
FIN 391 Finance Internship and Cooperative Education I

Second Language Requirement: (not required)

Electives, to bring the total credits to 120 5
6 credits must be upper division 25

Total Credits 120

1 MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G first.
2 This could increase the total number of credits for the degree
3 See the General Education (p. 49) section of the catalog for a full list of courses.
4 MATH 401 Special Topics must be approved by the department for credit towards the major.
5 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Second Language Requirement
For the Bachelor of Science with a major in Mathematics with a Concentration in Actuarial Science and Insurance, there is no second language requirement for the degree.

A Suggested Plan of Study for Students
This roadmap assumes student placement in MATH 191G Calculus and Analytic Geometry I and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Some students may be able to bypass one or more courses in the calculus sequence MATH 191G - MATH 192G - MATH 291G. The calculus
sequence, Introduction to Higher Mathematics, and Linear Algebra provide knowledge that is basic to further work, and students are advised to complete them or their equivalent as early as possible.

</table>

1 Math Placement: MATH 191G Calculus and Analytic Geometry I is the starting Math course for the degree, however, students may need to complete any prerequisites prior to enrolling into this course.

2 See the General Education (p. 49) section of the catalog for a full list of courses.

3 See the Viewing a Wider World (p. 53) section for a full list of courses. *Please note that the second VWW requirement will be solidified by 9 credit hour rule: using FIN courses that are including in the program.

4 MATH 331 Introduction to Modern Algebra is only offered in the Fall semesters, however MATH 332 Introduction to Analysis is taught in the Spring and may be used as a substitute.
5. Do not mix options; pick one throughout.

OPTION 1: FIN 323 Life/Health/Employer Benefits; two courses from (FIN 303V Personal Financial Planning and Investing in a Global Economy OR FIN 421 Personal Financial Planning for Professionals); FIN 324 Property and Liability Insurance; FIN 391 Finance Internship and Cooperative Education.

OPTION 2: FIN 324 Property and Liability Insurance; two courses from (FIN 303V Personal Financial Planning and Investing in a Global Economy OR FIN 421 Personal Financial Planning for Professionals); FIN 323 Life/Health/Employer Benefits; FIN 391 Finance Internship and Cooperative Education.

OPTION 3: FIN 326 Business Risk Management; two courses from (FIN 303V Personal Financial Planning and Investing in a Global Economy OR FIN 421 Personal Financial Planning for Professionals); FIN 323 Life/Health/Employer Benefits; FIN 391 Finance Internship and Cooperative Education.

6. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

7. MATH/STAT 300-level courses that cannot be taken to fulfill this requirement: MATH 300 Readings, MATH 313 Fundamentals of Algebra and Geometry I, MATH 316 Calculus with Hands-on Applications.

8. MATH/STAT 400-level courses that cannot be taken to fulfill this requirement: MATH 400 Undergraduate Research, MATH 459 Survey of Geometry, STAT 400 Undergraduate Research.

Mathematics (Applied Mathematics) - Bachelor of Science

The Applied Mathematics concentration is intended to prepare students planning a mathematically oriented career upon graduation. The coursework in this concentration provides a foundation in mathematics important in many scientific and engineering applications. Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Prefix | Title | Credits
--- | --- | ---
**General Education**
Area I: Communications
English Composition - Level 1
ENGL 111G | Rhetoric and Composition | 4
English Composition - Level 2
Choose one from the following:
ENGL 203G | Business and Professional Communication | 3
ENGL 211G | Writing in the Humanities and Social Sciences | 3

**Area II: Mathematics**

MATH 191G | Calculus and Analytic Geometry I (Departmental/College Requirement also) | 4

Area III/IV: Laboratory Sciences and Social/Behavioral Sciences

Area III: Laboratory Sciences Course (4 credits) | 2

Area IV: Social/Behavioral Sciences Course (3 credits) | 2

Either an Area III/IV: Laboratory Sciences or Social/Behavioral Sciences Course (4 credits or 3 credits) | 2

Area V: Humanities | 3

Area VI: Creative and Fine Arts | 3

**General Education Elective**

MATH 192G | Calculus and Analytic Geometry II (Departmental/College Requirement also) | 4

**Viewing a Wider World**

Select at least 6 credits of approved additional upper-division courses prefixed MATH or STAT (one must be 400-level), excluding the following:

MATH 300 | Readings | 3
MATH 313 | Fundamentals of Algebra and Geometry I | 3
MATH 316 | Calculus with Hands-on Applications | 3
MATH 400 | Undergraduate Research | 3
MATH 459 | Survey of Geometry | 3
STAT 400 | Undergraduate Research | 3

Non-Departmental Requirements (in addition to Gen.Ed/ VWW)

C S 172 | Computer Science I | 4
Select a minimum of 9 credit hours of electives to form a coherent cluster in an applied area from the following:

Examples of acceptable clusters:

### Signals
- E E 230 Circuit Analysis and Introduction to Electronics
- E E 320 Signals and Systems I
- E E 395 Introduction to Digital Signal Processing
- E E 496 Introduction to Communication Systems

### Structures
- PHYS 215G Engineering Physics I
- C E 233 Mechanics-Statics
- C E 301 Mechanics of Materials
- C E 315 Structural Analysis

### Operations Research
- I E 311 Engineering Data Analysis
- I E 365 Quality Control
- I E 413 Engineering Operations Research I
- I E 423 Engineering Operations Research II
- I E 460 Evaluation of Engineering Data

### Algorithm Theory
- C S 272 Introduction to Data Structures
- C S 370 Compilers and Automata Theory
- C S 372 Data Structures and Algorithms

### Bioinformatics
- BIOL 211G Cellular and Organismal Biology
- BIOL 211GL Cellular and Organismal Biology Laboratory
- C S 486 Bioinformatics

Choose one from the following:
- C S 272 Introduction to Data Structures
- C S 370 Compilers and Automata Theory
- C S 371 Software Development
- C S 372 Data Structures and Algorithms

### Computer Systems
- C S 271 Object Oriented Programming
  or C S 272 Introduction to Data Structures
- C S 371 Software Development
- C S 370 Compilers and Automata Theory
- C S 474 Operating Systems I
- C S 475 Artificial Intelligence I
- C S 476 Computer Graphics I
- C S 482 Database Management Systems I
- C S 484 Computer Networks I
- C S 485 User Interface Design

### Second Language Requirement: (not required)

Electives, to bring the total credits to 120

9-15 credits must be Upper-Division

Total Credits 120-121

1 MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G first.

2 See the General Education (p. 49) section of the catalog for a full list of courses.

3 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.

4 MATH 401 Special Topics must be approved by the department for credit towards the major.

5 Students may propose clusters subject to departmental approval. A cluster must contain C S 172 Computer Science I. A major or minor in any of the following fields (along with C S 172 Computer Science I) will also fulfill the Cluster Electives requirement: Computer Science, Physics, Biology, Chemistry and Biochemistry, Chemical Engineering, Engineering Physics, Electrical and Computer Engineering, Industrial Engineering, Mechanical Engineering, Civil Engineering, Economics and Finance.

6 If these courses are selected, they could count towards the General Education Area III requirement.

7 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

### Second Language Requirement

For the Bachelor of Science with a major in Mathematics with a Concentration in Applied Mathematics, there is no second language requirement for the degree.

### A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 191G Calculus and Analytic Geometry I and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Some students may be able to bypass one or more courses in the calculus sequence MATH 191G - MATH 192G - MATH 291G. The calculus sequence, Introduction to Higher Mathematics, and Linear Algebra provide knowledge that is basic to further work, and students are advised to complete them or their equivalent as early as possible.

#### Fall

VWW - Viewing a Wider World Course | 3 |
| STAT 371 | Statistics for Engineers and Scientists I (C- or better) |
| MATH 471 | Complex Variables (C- or better) |
| Cluster Course (C- or better) | 3 |
| Elective Course | 3 |

**Credits**: 15

#### Spring

| Elective Course | 3 |
| Elective Course | 3 |
| MATH 377 | Introduction to Numerical Methods (C- or better) |
| MATH 472 | Fourier Series and Boundary Value Problems (C- or better) |

**Credits**: 3

### Fourth Year

#### Fall

| VWW - Viewing a Wider World | 3 |
| MATH/STAT Elective Course - 300-level (C- or better) | 3 |
| STAT 470 | Probability: Theory and Applications (C- or better) |
| Elective Course - Upper Division | 3 |
| Elective Course - Upper Division | 3 |
| Elective Course | 3 |

**Credits**: 15

#### Spring

| MATH/STAT Elective Course - 400-level (C- or better) | 3 |
| Elective Course - Upper Division | 3 |
| Elective Course | 3 |

**Credits**: 15

**Total Credits**: 120-121

---

1. Math Placement: MATH 191G Calculus and Analytic Geometry I is the starting Math course for the degree, however, students may need to complete any prerequisites prior to enrolling into this course.
2. See the General Education (p. 49) section of the catalog for a full list of courses.
3. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
4. See the Viewing a Wider World (p. 53) section for a full list of courses.
5. Students who plan to get a Masters in MATH should take MATH 332 Introduction to Analysis as an elective.
6. MATH/STAT 300-level courses that cannot be taken to fulfill this requirement: MATH 300 Readings, MATH 313 Fundamentals of Algebra and Geometry I, MATH 316 Calculus with Hands-on Applications.
7. MATH/STAT 400-level courses that cannot be taken to fulfill this requirement: MATH 400 Undergraduate Research, MATH 459 Survey of Geometry, STAT 400 Undergraduate Research.

---

**Mathematics (General Mathematics) - Bachelor of Science**

Students seeking a foundation in pure mathematics and flexibility in the curriculum are encouraged to pursue the General Mathematics Concentration. Students choosing this emphasis should work closely with a faculty advisor to select courses appropriate to their interests.

Students planning to do graduate work in Mathematics are encouraged to take French or German to meet the requirement of a second language.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48
credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Total Credits 120-121

1. MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G first.
2. See the General Education (p. 49) section of the catalog for a full list of courses.
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4. MATH 401 Special Topics must be approved by the department for credit towards the major.
5. A grade of C- or better must be earned.
6. Credit hours needed for the Second Language requirement may vary based on prior knowledge of a second language. Students may need less second language coursework and more elective credit to bring the total credits for the degree to 120. Please consult an advisor for assistance.
7. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Note: It is strongly recommended that mathematics majors in the General Mathematics Concentration consider a minor or second major in an area that uses mathematics, such as physics or computer science. All programs should be planned with the guidance of a departmental advisor. More information is available at www.math.nmsu.edu.

Second Language Requirement

For the Bachelor of Science in Mathematics with a Concentration in General Mathematics there is a two year second language requirement, the student must do one of the following:

Option 1:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
</table>

Complete one of the following sequences:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHIN 111</td>
<td>Elementary Chinese I</td>
<td>14</td>
</tr>
<tr>
<td>&amp; CHIN 112</td>
<td>and Elementary Chinese II</td>
<td></td>
</tr>
<tr>
<td>&amp; CHIN 211</td>
<td>and Intermediate Chinese I</td>
<td></td>
</tr>
<tr>
<td>&amp; CHIN 212</td>
<td>and Intermediate Chinese II</td>
<td></td>
</tr>
<tr>
<td>Prefix</td>
<td>Title</td>
<td>Credits</td>
</tr>
<tr>
<td>--------</td>
<td>-------</td>
<td>---------</td>
</tr>
<tr>
<td>FREN 111 &amp; FREN 112 &amp; FREN 211 &amp; FREN 212</td>
<td>Elementary French I and Elementary French II and Intermediate French I and Intermediate French II</td>
<td>14</td>
</tr>
<tr>
<td>GER 111 &amp; GER 112 &amp; GER 211 &amp; GER 212</td>
<td>Elementary German I and Elementary German II and Intermediate German I and Intermediate German II</td>
<td>14</td>
</tr>
<tr>
<td>SPAN 111 &amp; SPAN 112 &amp; SPAN 211 &amp; SPAN 212</td>
<td>Elementary Spanish I and Elementary Spanish II and Intermediate Spanish I and Intermediate Spanish II</td>
<td>14</td>
</tr>
<tr>
<td>PORT 213 &amp; PORT 214</td>
<td>Portuguese for Romance Language Students I and Portuguese for Romance Language Students II</td>
<td>6</td>
</tr>
</tbody>
</table>

For Heritage Speakers:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 113 &amp; SPAN 213 &amp; SPAN 214</td>
<td>Spanish for Heritage Learners I and Spanish for Heritage Learners II and Spanish for Heritage Learners III</td>
<td>9</td>
</tr>
</tbody>
</table>

Option 2:
Prefix Title Credits
Complete the following sequence for American Sign Language (with a C- or better):

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>C D 374</td>
<td>American Sign Language I</td>
<td>3</td>
</tr>
<tr>
<td>C D 375</td>
<td>American Sign Language II</td>
<td>3</td>
</tr>
<tr>
<td>C D 476</td>
<td>American Sign Language III</td>
<td>3</td>
</tr>
</tbody>
</table>

Option 3:
Prefix Title Credits
Challenge the 212 level for the following courses:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHIN 212</td>
<td>Intermediate Chinese II</td>
<td>3</td>
</tr>
<tr>
<td>or FREN 212</td>
<td>Intermediate French II</td>
<td>3</td>
</tr>
<tr>
<td>or GER 212</td>
<td>Intermediate German II</td>
<td>3</td>
</tr>
<tr>
<td>or JPNS 212</td>
<td>Intermediate Japanese II</td>
<td>3</td>
</tr>
<tr>
<td>or SPAN 212</td>
<td>Intermediate Spanish II</td>
<td>3</td>
</tr>
</tbody>
</table>

OR

Challenge the 214 level for the following courses:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PORT 214</td>
<td>Portuguese for Romance Language Students II</td>
<td>3</td>
</tr>
<tr>
<td>or SPAN 214</td>
<td>Spanish for Heritage Learners III</td>
<td>3</td>
</tr>
</tbody>
</table>

Option 4:
Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

Option 5:
Obtain college certification of completion of three years of a second language at the high school level with a grade of C- or higher in the second-year level.

Option 6:
By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

Option 7:
By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

Option 8:
In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 191G Calculus and Analytic Geometry I and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Some students may be able to bypass one or more courses in the calculus sequence MATH 191G - MATH 192G - MATH 291G. The calculus sequence, Introduction to Higher Mathematics, and Linear Algebra provide knowledge that is basic to further work, and students are advised to complete them or their equivalent as early as possible.

---

1. Math Placement: MATH 191G Calculus and Analytic Geometry I is the starting Math course for the degree, however, students may need to complete any prerequisites prior to enrolling into this course.
2. See the General Education (p. 49) section of the catalog for a full list of courses.
3. Second Language Requirements: see the requirements tab (p. 472) for this degree (the Second Language section) to see how this requirement can be fulfilled.
4. MATH/STAT 300-level courses that cannot be taken to fulfill this requirement: MATH 300 Readings, MATH 313 Fundamentals of Algebra and Geometry I, MATH 316 Calculus with Hands-on Applications.
5. See the Viewing a Wider World (p. 53) section for a full list of courses.
6. Please note that the second VWV requirement will be solidified by 9 credit hour rule: using FIN courses that are including in the program.
7. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
8. MATH/STAT 400-level courses that cannot be taken to fulfill this requirement: MATH 400 Undergraduate Research, MATH 459 Survey of Geometry, STAT 400 Undergraduate Research.

### Applied Mathematics - Supplemental Major

The program consists of 24 credits in the designated list of courses. To earn a supplementary major in applied mathematics a student must earn 15 credits from Categories I.A and I.B of which at least 9 credits must be from Category I.B. A student must also earn 9 credits from the Category II list of related disciplines. The courses in Category II may be taken from any combination of areas. A student may not earn a bachelor’s degree in mathematics and also a supplementary major in applied mathematics.

Total Credits 24

1 Student must be eligible to take 500-level courses.

**Mathematics - Undergraduate Minor**

A student must pass 18 or more credit hours in MATH and STAT courses, with at least 9 of the credits in upper division courses and three of those 9 credits in courses numbered above 400.

### Requirements

Select 18 credits or more in MATH and STAT courses, with at least 9 of the credits in upper division courses and three of those 9 credits in courses numbered above 400: 1

The following courses are excluded from the minor:

- Courses numbered below MATH 190G
- MATH 200 Directed Study
- MATH 210G Mathematics Appreciation
- MATH 300 Readings
- MATH 313 Fundamentals of Algebra and Geometry I
- MATH 316 Calculus with Hands-on Applications
- MATH 400 Undergraduate Research
- MATH 459 Survey of Geometry
- MATH 498 Directed Reading
- STAT 400 Undergraduate Research

At most one can be selected from the following: 3

Mathematics - Master of Science

The Master’s degree is designed to increase one’s knowledge and understanding of mathematics beyond the Bachelor’s degree level. It also prepares a student for future graduate work.

A candidate for a master’s degree may select up to two minors in addition to the major. A minimum of 8 credits of graduate work is necessary for a minor.

Minimum Requirements for the Master’s Degree

1. In fulfillment of the Graduate School requirement of a minimum of 30 semester credits of course work, the student must take at least 24 credits of mathematics or statistics from the courses listed below.
2. The student’s program of study must be approved by the departmental Graduate Studies Committee.
3. The student must successfully complete a master’s written examination and final master’s oral examination.

Total Credits 24

The Master’s Written Examination

Candidates for the Master’s in Mathematics must pass a written exam, offered each January and August, based on the content of MATH 525 and MATH 527. Full-time students need to pass the written Master’s exam no later than the August following their completion of MATH 525 and MATH 527, or the start of their fourth semester in the program, whichever comes first. Graduate assistants must adhere to this timetable. Any second try must be passed within one semester of the first.

The Master’s Final Examination

The Master’s final examination is an oral examination administered by the student’s committee. The exam consists of a short presentation made by the student on a topic covered in the student’s coursework, followed by an examination by the committee based on the presentation and related coursework in the student’s program of study. When a Master’s thesis has been written, the presentation and examination is based on the student’s thesis. The student’s committee consists of at least three departmental members and a Graduate faculty member from another department who serves as the Dean’s representative. The oral exam must be completed at least 10 days prior to the end of the semester in which the candidate wishes to receive the degree.

Mathematics - Doctor of Philosophy

Candidates for the Ph.D. degree in the Department of Mathematical Sciences must pass

- a qualifying examination,
- a basic comprehensive written examination,
- an advanced comprehensive examination with written and oral components, and
- a final oral doctoral thesis examination.

These are briefly described below. For more information, see the Graduate School requirements in this catalog, and the Mathematics Graduate Student handbook at www.math.nmsu.edu.

</table>

**Qualifying Examination**

Every student admitted to the Ph.D. program must pass a written qualifying examination. Students who complete their mathematics Master’s degree at NMSU may request that the Master’s written examination also fulfill the Ph.D. qualifying examination requirement. In all other cases, the student takes a written Ph.D. qualifying exam. This exam is identical to the Master’s written exam (based on the courses 525/527) and is administered and graded at the same time, but a higher passing score is required than for a Master’s student. Ph.D. candidates need to pass the exam within their first year.

**Basic Comprehensive Examinations**

Every Ph.D. student must pass a Basic Comprehensive Exam, either in Algebra or in Analysis. The Algebra exam is based on the courses MATH 526 (Abstract Algebra I: Groups and Rings) and MATH 581 (Abstract Algebra II: Fields, Rings and Modules) and the Analysis exam is based on the courses MATH 528 (Introduction to Real Analysis II) and MATH 593 (Measure and Integration).

These exams are offered every August and January. A student choosing to take the exam in Algebra must pass the exam within fourteen months of completing Math 581; similarly, a student taking the exam in Analysis must pass the exam within fourteen months of completing Math 593. Students failing to pass the exams within this period of time may be removed from the program. Students will normally not be given more than two attempts at any one exam.

**Advanced Comprehensive Examinations**

Candidates for the Ph.D. must pass an advanced comprehensive examination in their chosen research area. The examination has a written and an oral component. The written exam, which is written and administered by the student’s committee, is based on two of the student’s courses, normally among those listed in Options 1-4, chosen by the student in consultation with his/her committee and approved by the Graduate Studies Committee. Full-time students should complete the written component of the Advanced Comprehensive Exam after passing the Basic Comprehensive Exam and in the first two years. Those who have not made substantial progress towards completion of their written exams at the start of the fifth semester may be removed from the program. Students who have not completed the written exams by the start of the sixth semester will normally have any departmental funding revoked. The student must take the oral part of the exam at the end of the semester after completing the advanced written comprehensive exam.
For the oral exam, the student should present a proposed direction for thesis work.

**Final Oral Exam**

This is an exam over the student’s thesis. It is administered by the student’s thesis committee.

**Military Science**

### Undergraduate Program Information

The Military Science program leads to a commission as an officer in the Army Reserve, National Guard or Active Duty Army. The program consists of four parts:

1. the student’s academic major,
2. nondepartmental courses of value to the military service,
3. courses in military science and
4. a six-week Leader Development and Assessment course.

The department offers a four-year program divided into two parts: the basic course (two years) and the advanced course (two years). Selected students may qualify for the two-year program with prior military service or successful completion of a six-week summer Leaders’ Training Course. Financial assistance and scholarships are available for qualified individuals. Students should contact the Department of Military Science to obtain additional information.

### Requirements

Courses should be taken in sequence, normally one per semester. The student’s Military Science advisor will recommend course sequence. Military Science students must sign up for and attend courses plus laboratories. Departmental requirements may not be taken S/U.

### Nondepartmental Requirements

Select one course in Military History to meet Professional Military Education requirements.¹

| Total Credits | 39-46 |

¹ See your Military Science advisor for specific courses.

### Minors for the Department

**Military Science - Undergraduate Minor (p. 481)**

LTC Blanca E. Reyes, Department Head

**Assistant Professors and Staff** LTC George W. Childs, MSG Wayne Whetten, MSG Darian Guzman, CPT Jose Garcia, Mr. Henry Jackson, Patti Alarcon

### Military Science Courses

**M SC 110. Introduction to Military Science**

2 Credits (2+1P)

Introduction to the Army, the Profession of Arms, and critical thinking. Students will examine the Army Profession and what it means to be a professional in the U.S. Army. The overall focus is on developing basic knowledge and comprehension of the Army Leadership Requirements Model while gaining a complete understanding of the Reserve Officers’ Training Corps (ROTC) program, its purpose in the Army, and its advantages for the student. Cadets also learn how resiliency and fitness supports their development as an Army leader. Includes a weekly lab facilitated by MSL III Cadets and supervised by Cadre. May be repeated up to 2 credits. Restricted to Las Cruces campus only.

**M SC 110 L. Introduction to Military Science Lab**

1 Credit

Planning, coordination, execution and evaluation of training and activities in a collaborative training environment with both basic and advanced course students from within the ROTC program. Students develop and refine leadership skills in positions of responsibility. Restricted to Las Cruces campus only.

**Prerequisite(s):** MSC 110.

**M SC 111. Introduction to Leadership**

2 Credits (2+1P)

Introduction to the personal challenges and competencies that are critical for effective leadership. Students learn how the personal development of life skills such as critical thinking, time management, goal setting, and communication contribute to effective leadership. Students learn the basics of the communications process and the importance for leaders to develop the essential skills to effectively communicate in the Army. Students will begin learning the basics of squad level tactics that will be reinforced during a weekly lab facilitated by MSL III Cadets and supervised by Cadre. May be repeated up to 2 credits. Restricted to Las Cruces campus only.

**M SC 111 L. Introduction to Leadership Lab**

1 Credit

Planning, coordination, execution and evaluation of training and activities in a collaborative training environment with both basic and advanced course students from within the ROTC program. Students develop and refine leadership skills in positions of responsibility. Restricted to Las Cruces campus only.

**Prerequisite(s):** MSC 111.
M SC 210. Self/Team Development
3 Credits (3+1P)
A focus on leadership and decision making. The course adds depth to
the student's understanding of the Adaptability Army Learning Area.
Outcomes are demonstrated through Critical and Creative Thinking and
the ability to apply Troop Leading Procedures (TLP) to apply Innovative
Solutions to Problems. The Army Profession is also stressed through
leadership forums and a leadership self-assessment. Students are then
required to apply their knowledge outside the classroom in a hands-on
performance-oriented environment during a weekly lab facilitated by MSL
III Cadets and supervised by Cadre and three physical fitness sessions
per week. Restricted to Las Cruces campus only.

M SC 210 L. Self/Team Development Lab
1 Credit
Planning, coordination, execution and evaluation of training and activities
in a collaborative training environment with both basic and advanced
course students from within the ROTC program. Students develop and
refine leadership skills in positions of responsibility. Restricted to Las
Cruces campus only.
Prerequisite(s): MSC 210.

M SC 211. Leadership in Action and Team Building
3 Credits (3+1P)
A focus on Army doctrine and team development. The course begins
the journey to understand and demonstrate competencies as they relate
to Army doctrine. Army Values, Teamwork, and Warrior Ethos and their
relationship to the Law of Land Warfare and philosophy of military service
are also stressed. The ability to lead and follow is also covered through
Team Building exercises at squad level. Students are then required to
apply their knowledge outside the classroom in a hands-on performance-oriented
environment during a weekly lab facilitated by MSL III Cadets
and supervised by cadre and three physical fitness sessions per week.
Restricted to Las Cruces campus only.

M SC 211 L. Leadership in Action and Team Building Lab
1 Credit
Planning, coordination, execution and evaluation of training and activities
in a collaborative training environment with both basic and advanced
course students from within the ROTC program. Students develop and
refine leadership skills in positions of responsibility. Restricted to Las
Cruces campus only.
Prerequisite(s): MSC 211.

M SC 225. Directed Studies
1-3 Credits
Individual directed studies under supervision of the Professor of Military
Science. May be repeated up to 12 credits. Restricted to Las Cruces
 campus only.
Prerequisite(s): GPA 2.5 or better.

M SC 310. Leading Small Organizations I
3 Credits
Part of the Senior ROTC Advanced Course, this course provides a
focus on training management and the warfighting functions. It is an
academically challenging course where Cadets study, practice, and apply
the fundamentals of Training Management and how the Army operates
through the Warfighting functions. At the conclusion of this course,
Cadets will be capable of planning, preparing, and executing training for a
squad conducting small unit tactics. Includes one lab meeting per week
using peer facilitation overseen by MSL IVs, supervised by ROTC Cadre
and three physical fitness sessions per week.
Prerequisite(s): Must meet Basic Course of Military Science
requirements.
Corequisite(s): MSC 310 L.
M SC 401. Leadership Challenges and Goal Setting
3 Credits
Part of the Senior ROTC Advanced Course, this course provides a focus on development of the Army Officer. It is an academically challenging course that includes reading assignments, homework assignments, small group assignments, briefings, case studies, and practical exercises. This course will be familiar with how to plan, prepare, execute, and continuously assess the conduct of training at the company or field grade officer level. Includes a lab per week overseeing MSL III lesson facilitation and supervised by ROTC Cadre and three physical fitness sessions per week. May be repeated up to 3 credits.
Prerequisite(s): M SC 320 or consent of instructor.
Corequisite(s): M SC 401 L.

M SC 401 L. Leadership Challenges and Goal Setting Lab
1 Credit
Different roles assigned for students at different levels in the program. Practice and refinement of leadership skills. Planning coordination, execution and evaluation of training and activities with basic course students and ROTC program. Open only to students taking M SC 401. May be repeated up to 1 credits.
Corequisite(s): M SC 401.

M SC 402. Transition to Lieutenant
3 Credits
The final course within the Senior ROTC Advanced Course, this course is academically challenging. Cadets will develop knowledge, skills, and abilities required of junior officers pertaining to the Army in Unified Land Operations and Company Grade Officer roles and responsibilities. This course includes reading assignments, homework assignments, small group assignments, briefings, case studies, practical exercises, a mid-term exam, and an Oral Practicum as the final exam. The Oral Practicum explores the Cadet’s knowledge of how they will be prepared for the 20 Army Warfighting Challenges (AWFC) covered throughout the ROTC Advanced Course. Successful completion of this course will assist in preparing Cadets for their BOLC B course following graduation and commissioning. It is a mandatory requirement for commissioning. Includes a lab per week overseeing MSL III lesson facilitation and supervised by ROTC Cadre and three physical fitness sessions per week. May be repeated up to 3 credits.
Prerequisite(s): M SC 401 or consent of instructor.
Corequisite(s): M SC 402 L.

M SC 402 L. Transition to Lieutenant Lab
1 Credit
Different roles assigned for students at different levels in the program. Practice and refinement of leadership skills. Planning coordination, execution, and evaluation of training and activities with basic course students and ROTC program. Open only to students taking M SC 402. May be repeated up to 1 credits.
Corequisite(s): M SC 402.

M SC 425. Practicum
1-4 Credits
Independent projects conducted under the direction of the Professor of Military Science, and concerned with analysis of selected leadership or management problems. Course not eligible for S/U grade. May be repeated up to 16 credits.

M SC 465. Military Decision Making - Graduate Level
3 Credits
This course and its associated lab meeting will expose students to the military decision making process. Students will learn about the roles of military staff members and work as part of a staff to develop a training and associated guidance for a notional Army unit. Students will also spend time relating concepts from the MDMP to relevant civilian scenarios within both business and government decision making. May be repeated up to 3 credits. Consent of Instructor required. The PMS will interview all prospective students prior to admission into this course.
Prerequisite(s): Consent of Professor of Military Science (PMS).
Corequisite(s): M SC 465 L.

M SC 465 L. Military Decision Making - Graduate Level Lab
1 Credit
Students will work as part of a planning team in the application of the Military Decision Making Process to planning, coordination, and publish a comprehensive training plan and guidance which outlines all training and activities of the NMSU Army ROTC program for the semester following the semester of the course (i.e. the fall course develops the spring plan). Students develop and refine leadership skills in positions of responsibility. Open only to students taking M SC 465. May be repeated up to 1 credits. Consent of Instructor required.
Prerequisite(s): Consent of PMS.
Corequisite(s): M SC 465.

Phone: (575) 646-4030
Website: http://www.nmsu.edu/~armyrotc/

Military Science - Undergraduate Minor

The minor in Military Science is administered by the Department of Military Science (Army ROTC) in the College of Arts and Sciences. To obtain a minor in Military Science a student must complete a total of 19 credits, all of which must be upper division. A grade of C- or better must be obtained for each course. The only credits in which a grade of S will be accepted is M SC 350 Cadet Summer Training Advanced Course. Students should contact the Department of Military Science to obtain additional information.

Molecular Biology

Graduate Program Information

Students of the molecular life sciences seek to reduce complex biological processes to a set of understandable molecular or chemical structure and function relationships. Integration of this knowledge into the context of complex living tissues interacting with the environment is the ultimate goal. This requires that the expertise from many diverse traditional disciplines be directed along converging experimental lines. The Ph.D. program in molecular biology is designed to facilitate an interdisciplinary approach to graduate research, utilizing both traditional techniques and the latest advances in biotechnology, including the extraordinary power of recombinant DNA methodology. Participants in this program will take core courses in biochemistry, molecular biology and cell biology. Subsequent course work will be tailored for the individual student, depending upon his or her research emphasis. Participation in regular seminar programs will be expected to provide students with the widest possible scientific background. Financial aid, in the form of a limited number of MB teaching and research assistantships, is available on a competitive basis. Research
Assistantships may also be available from individual faculty within the Molecular Biology (MB) program. Only the most competitive students are admitted with assistantship support.

The MB program offers curricula leading to the MS and Ph.D. degrees in the areas of biochemistry, molecular genetics, molecular biology, cell biology, bioinformatics, and microbiology. Admission to the MB Program without deficiency is based on an undergraduate program essentially equivalent to that pursued by an undergraduate major in chemistry, biology, agronomy, horticulture, biochemistry, or microbiology at this university. An entering student is required to complete the Graduate Record Examination (General Aptitude). Undergraduate deficiency courses must be passed with a minimum grade of B.

Applicants are strongly encouraged to contact at least three individual program faculty before applying to identify a prospective advisor and laboratory in which to pursue graduate research. Previous course records and GPA standings (typically minimum of 3.3/4.0), GRE scores (typically minimum of 300 combined verbal and quantitative), TOEFL scores of foreign applicants (typically minimum of 550 on the paper-based or 213 on the computer-based), a letter of interest from the applicant that identified faculty laboratories of interest, and three letters of reference regarding research performance or potential are weighted heavily during the selection process.

Students with a BS degree in one of the disciplines listed above can expect to earn the MS degree in about 30 credits, including at least 6 credits of thesis research. The Ph.D. degree can be earned in about 30 to 40 credits of formal course work, plus additional thesis research credits, for a minimum total of 75 credits beyond the BS Because research is central in both the MS and Ph.D. curricula, early selection of a research advisor is required. Ph.D. degree candidates will successfully complete a written and oral qualifying examination based on their proposed research and the subject matter in the core courses (below) at the end of the first year of study. Also at this time, the master’s or doctoral committee is organized to assist in planning a program appropriate to the background and goals of the student. Ph.D. candidates will subsequently complete a comprehensive written examination and oral examination approximately at the end of the second year of study. A final, formal presentation and oral defense of the original research documented in the MS or Ph.D. thesis completes the degree requirements.

**Bioinformatics (with Computer Science) - Graduate Minor** (p. 484)

**Molecular Biology - Graduate Minor** (p. 484)

**Molecular Biology - Undergraduate Minor** (p. 483)

A. Ashley, Ph.D. (Colorado State University) – Department of Chemistry and Biochemistry – cellular response to DNA replication stress and damage; maintenance of genomic integrity in eukaryotes; R. Ashley, Ph.D. (Colorado State University) – Department of Animal and Range Sciences – progesterone's actions mediated by membrane receptors, and chemokines' effects in early pregnancy and breast cancer; R. Creamer, Ph.D., (University of California-Davis) – Department of Entomology Plant and Weed Science– plant virology, fungal endophytes; D. Cowley, Ph.D. (University of Wisconsin-Madison)– Department of Fish, Wildlife and Conservation Ecology – ecological and conservation genetics; J. Curtiss, Ph.D. (University of Colorado-Boulder) – Department of Biology– molecular genetics of eye development; K. A. Hanley, Ph.D. (University of California San Diego)– Department of Biology– emerging vector-borne viruses; I. Hansen, Ph.D. (University of Wurzburg, Germany) – Department of Biology– molecular vector biology; S. Hanson (Wisconsin)– Department of Entomology Plant and Weed Science– viral plant pathogens; J. Hernandez Gifford, Ph.D. (Washington State University)– Department of Animal and Range Sciences– reproductive physiology; O. Holguin, Ph.D. (New Mexico State University)– Department of Plant and Environmental Sciences– biochemistry including etabolomics and proteomics with a focus on chemical analysis technique; J. Houston, Ph.D. (Texas A&M University)– Department of Chemical & Materials Engineering– biomedical engineering, flow cytometry, fluorescence dynamics, biophotonics, and instrumentation development; K. Houston, Ph.D. (University of Texas)– Department of Chemistry and Biochemistry– hormonal carcinogenesis; E. Indriolo, Ph.D. (Purdue University)– Department of Biology – plant signaling, molecular biology; P. Lodato, Ph.D. (University of Chile)– Department of Biology– understanding post-transcriptional mechanisms regulating the assembly of the T3SS and Shiga toxin production; G. Lopez-Martinez, Ph.D. (Ohio State University)– Department of Biology– short and long-term effects that single and repeated bouts of environmental stress can have on animals; S. Lusetti, Ph.D. (University of Wisconsin-Madison)–Department of Chemistry and Biochemistry– DNA replication, recombination and repair; B. A. Lyons, Ph.D. (Cornell University)– Department of Chemistry and Biochemistry– structure and function relationships in breast and liver cancer cell signaling pathways; P. Mera, Ph.D. (University of Wisconsin-Madison)– Biochemistry/Toxicology– identify genetic modules that control cell proliferation in pathogenic bacteria in order to uncover novel targets for new antibiotics; B. G. Milligan, Ph.D. (University of California-Davis)– Department of Biology– plant evolutionary biology; M. K. Nishiguchi, Ph.D. (University of California-Santa Cruz)– Department of Biology– molecular and ecological basis of speciation, coevolution of symbiotic relationships; N. Pietrasiak, Ph.D. (University of California-Riverside–Department of Plant and Environmental Sciences– cyanobacterial phylogenetics, molecular ecology of terrestrial algae, biocrusts; J. Randall, Ph.D. (New Mexico State University)– Department of Plant and Environmental Sciences– molecular plant physiology and plant/ microbe interactions; I. Ray, Ph.D. (Wisconsin-Madison)– Department of Plant and Environmental Sciences– plant genetic engineering, primary and secondary metabolism, stress, legumes; C. Sengupta-Gopalan, Ph.D. (Ohio State)– Department of Plant and Environmental Sciences– nitrogen-fixation, plant-bacterial interactions; E. E. Serrano, Ph.D. (Stanford)– Department of Biology– neuroscience, genetics, science and ethics; C. B. Shuster, Ph.D., Program Director (Tufts University)– Department of Biology– regulation of mitosis and cytokinesis, role of the cytoskeleton during early development; G. Smith, Ph.D. (North Carolina State)– Department of Biology-environmental gene probes, microbial biodegradation; J. Song, Ph.D. (Washington)– statistical computing, systems biology, bioinformatics, computer vision; A. Summers, Ph.D. (University of Nebraska-Lincoln) – Department of Animal and Range Sciences– identification of strategic supplementation time points and nutrients during gestation to improve progeny growth, development and reproduction; J. Xu, Ph.D. (Second Military Medical University, China)– Department of Biology– functional genomics and population genetics of mosquito-malaria interactions; E. Yukl (Oregon Health and Science University)– Department of Chemistry and Biochemistry– structural biology and bioinorganic chemistry; J. Zhang, Ph.D. (University of Arkansas)– Department of Plant and Environmental Sciences– cotton genetics, genomics and molecular biology.
Molecular Biology Courses

MOLB 448. Special Research Problems
1-3 Credits
Individual investigation, theoretical or experimental, under the supervision of a molecular biology faculty member. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

MOLB 520. Molecular Cell Biology
3 Credits
Same as BIOL 520.

MOLB 542. Biochemistry I
3 Credits
Same as BCHE 542. B or better required.

MOLB 545. Molecular and Biochemical Genetics
3 Credits
Same as BCHE 545 and BIOL 545.

MOLB 546. Biochemistry II
3 Credits
Same as BCHE 546.

MOLB 590. Discussions in Molecular Biology
1 Credit
Oral presentations of ongoing research and/or research proposal for the masters thesis. Must be repeated twice for masters and three times for doctoral students. Graded by 2 options: S/U or Letter Grade

MOLB 597. Laboratory Rotations/Research Discussions
1-3 Credits
All entering students are required to take at least one credit, during their first semester, in which they will circulate through at least three different labs working on assigned problems and discussing research programs. May be repeated for a maximum of 4 credits. Graded S/U.

MOLB 598. Special Research Programs
1-3 Credits
Individual investigation, experimental or theoretical, under the supervision of a molecular biology faculty member. Course may be repeated up to a total of 6 credits with committee approval.

MOLB 599. Master’s Thesis
1-15 Credits (1-15)
Experimental and scholarly research leading to the preparation of a master’s thesis.

MOLB 600. Molecular Biology Research
1-15 Credits
Laboratory research efforts prior to successful completion of doctoral comprehensive exam.

MOLB 650. Advanced Topics in Molecular Biology
1-3 Credits
Discussions and lectures on topics of current interest in molecular biology for doctoral students.

MOLB 698. Advanced Research Projects
1-9 Credits
Individualized special research assignments for doctoral-level students. Up to 9 credits, with approval of committee. Graded S/U.

MOLB 700. Doctoral Dissertation Research
1-15 Credits
Research for doctoral students after completing comprehensive exams.

Molecular Biology- Undergraduate Minor

The Molecular Biology Program offers opportunities for students to gain theoretical training and hands-on experience in the methods of molecular biology, cellular biology, and/or bioinformatics. A formal undergraduate minor in Molecular Biology is offered and is described below; a grade of C or better is required to certify the courses. A minor in Bioinformatics is currently under development; for planning purposes, please refer to the program office for the most recent drafts of the Bioinformatics minor requirements.

This program consists of a minimum of 18 hours, distributed through five or six areas.

Total Credits: 18-19

1 Additional credit hours from the following, or additional courses from any of the above five areas, as needed to meet a minimum of 18 credit hours

Successful completion of the minor will be certified by the Molecular Biology Program. A grade of "C" or better is required of all minor courses.
Molecular Biology - Master of Science

The MB program offers curricula leading to the MS and Ph.D. degrees in the areas of biochemistry, molecular genetics, molecular biology, cell biology, bioinformatics, and microbiology. Admission to the MB Program without deficiency is based on an undergraduate program essentially equivalent to that pursued by an undergraduate major in chemistry, biology, agronomy, horticulture, biochemistry, or microbiology at this university. An entering student is required to complete the Graduate Record Examination (General Aptitude). Undergraduate deficiency courses must be passed with a minimum grade of B.

Applicants are strongly encouraged to contact at least three individual program faculty before applying to identify a prospective advisor and laboratory in which to pursue graduate research. Previous course records and GPA standands (typically minimum of 3.3/4.0), GRE scores (typically minimum of 300 combined verbal and quantitative), TOEFL scores of foreign applicants (typically minimum of 550 on the paper-based or 213 on the computer-based), a letter of interest from the applicant that identified faculty laboratories of interest, and three letters of reference regarding research performance or potential are weighted heavily during the selection process.

Students with a BS degree in one of the disciplines listed above can expect to earn the MS degree in about 30 credits, including at least 6 credits of thesis research. Because research is central in both the MS and Ph.D. curricula, early selection of a research advisor is required. The master's committee is organized to assist in planning a program appropriate to the background and goals of the student. A final, formal presentation and oral defense of the original research documented in the MS thesis completes the degree requirements.

MS candidates must enroll in MOLB 599 Master's Thesis for 6 credits. May register for additional credits to maintain full-time status.

| MOLB 700 | Doctoral Dissertation Research               | 6       |

Total Credits: 34-38

1. Ph.D. candidates must enroll for 6 credits MOLB 700 Doctoral Dissertation Research. May register for additional credits to maintain full-time status.

The Molecular Biology program also offers formal minors in molecular biology or bioinformatics.

Bioinformatics (with Computer Science) - Graduate Minor

The Bioinformatics minor is jointly offered with the Department of Computer Science and consists of 9 credit hours for Master's students and 12 credit hours for Ph.D. students, including BIOL 550 Special Topics/GENE 452 Applied Bioinformatics, and additional courses selected from those listed at [http://research.nmsu.edu/molbio/](http://research.nmsu.edu/molbio/). The courses selected will depend on whether the student is majoring in a biological or non-biological science and include courses from the graduate Computer Science and Molecular Biology curricula. Please inquire with the Molecular Biology Program office for the most recent requirements for the bioinformatics minor.

Molecular Biology - Graduate Minor

The Molecular Biology Minor consists of 10 credit hours including MOLB 545, either MOLB 520 or MOLB 542; any of the tier II courses; and one MOLB 590 seminar.
Music

Undergraduate Program Information

Mission Statement

The mission of the Music Department at NMSU is:

1. to prepare students for careers in music education, business and/or performance;
2. to give the student body opportunities to perform, study, create and experience music;
3. to enhance the cultural lives of our constituency by performance of superior music; and
4. to create an artistic environment which fosters the development of personal realizations we believe to be essential to the fabric of a healthy society.

All students are required to meet the State Common Core as listed in earlier sections of this catalog. Please see a Music Department advisor for a specific list of courses.

Admission into the Program

For a student to be officially accepted as a Music major or minor, he/she must do the following:

- perform an audition for a panel of no less than three Music faculty members
  - one of whom must be the director of his/her program area
  - one of whom must be the applied teacher of the student’s principal instrument
- provide recommendation letters from at least two music professionals
- take a Music Theory placement exam

Any student declaring Music as his/her major may be accepted for a one-semester probationary period. During that first semester, the Music faculty will determine if the student has the necessary skills and work ethic to continue as a major. The student’s course work, ensemble participation and applied jury will be the basis for the decision to allow the student to continue or not.

Departmental Requirements for all Bachelor’s Degrees (Music Core)

A student must earn a grade of C- or better in all departmental requirements for any degree in the Department of Music. All students wishing to pursue a music degree must audition and take the theory placement exam. Contact the department for current audition requirements.

If students change major(s) or minor(s) or do not complete the requirements for the minor at the time of graduation, they may only count a maximum of 9 credits of the applied/occupational credits toward graduation.

Recital Requirements for all Music Degrees

Bachelor of Music

All performance majors are required to give a half recital (30 minutes of music) in the junior year and a full recital (60 minutes of music) in the senior year. Students taking the Music Business option will give a half recital in their major performance area.

Bachelor of Music Education

All music education majors will give a half recital (30 minutes of music) in their major performance area.

Applied Music Requirements for All Music Degrees

All Music degrees require at least two semesters of applied music study at the 430 level.

All students enrolling in applied music will audition and obtain permission from an applied teacher before enrolling for applied music credit.

Students may obtain further information by contacting the music department.
Other Music Requirements, Fees and Regulations
1. A Piano Proficiency Examination is required of all music majors. Each student must enroll in Functional Piano or Applied Piano every semester, until the Proficiency is passed. Detailed requirements may be obtained from the Department of Music office. Students must pass the piano Proficiency Exam before presenting a Senior Recital.
2. Qualitative grade-point average for graduation in music is 2.0 or higher. All grades in required music courses must be C- or better.
3. A Music Theory Placement Examination is required of all entering freshman and transfer students.
4. An instrument rental fee is charged each semester for students using university instruments. Consult the music department concerning these fees.
5. All applied students pay an additional fee. Consult the music department concerning these fees.
6. Outside groups and individuals must have special permission to use music department facilities. Contact the music office for additional information.

Music Ensembles
All students majoring or minoring in Music, must enroll and participate in the ensemble appropriate for their particular degree plan. The appropriate ensemble will be determined by degree requirements in consultation with the student’s advisor and ensemble directors. The student must enroll each and every semester he/she is considered full-time until the degree requirements are met, for a minimum of 8 semesters (7 semester for Music Education majors). Any student receiving any kind of financial assistance through the Music Department must enroll each and every semester while he/she is attending NMSU. Music Education Students will not receive Music Scholarship funds during their semester of Student Teaching. For more information, contact the Music Office.

Music Scholarships and Awards
A limited number of performance stipends and other music scholarships are available to any full-time registered student and are awarded through the department. Amounts awarded will reflect excellence and achievement in performance, determined by audition—either in person or by a recording— and references.

For more information on performance stipends and other music scholarships and awards, write to:
Department of Music
PO Box 30001, MSC 3 F
Las Cruces, New Mexico 88003-8001
E-mail: music@nmsu.edu.

Graduate Program Information
The Master of Music degree is offered in the following areas of study: Conducting, Music Education and Performance. Applicants are expected to have an undergraduate degree in music or music education equivalent to that represented by the BM or BME degree from New Mexico State University. The music department does not require the Graduate Record Exam, but does expect each applicant to possess graduate-level language and writing skills. For admission into the Master of Music degree program, all applicants must have an undergraduate GPA of at least 3.0 and submit at least three letters of recommendation from music professionals. An audition, either in person or by recording, is required for entrance into the Performance or Conducting programs. Auditions will be based upon, but not limited to, prescribed repertory.

For acceptance into the Music Education program, the applicant must have completed a Bachelor of Music Education degree comparable to the one offered by NMSU or take the requisite undergraduate courses at NMSU leading to state licensure before enrolling in graduate courses. (Contact the Music Department for details.)

Note: The degree offered is a Master of Music. The student’s official transcript and diploma will only indicate that degree. The area of study (Conducting, Music Education, Performance) will not be included as part of the official degree title.

Recital Requirements for Performance and Conducting
A graduate recital plus an analytical paper are required of all candidates in Performance and Conducting. Students must be enrolled in their applied area during the semester the recital is given. A minimum of 60 minutes of music is required for all Performance recitals. A minimum of three major works for the appropriate ensemble is required for all Conducting recitals. The recital may only be given after at least 6 hours of graduate applied or conducting courses have been successfully completed.

Program of Study and Committee Selection
After admission, each student must successfully complete MUS 471 Graduate Theory Review before subsequent enrollment in other music theory courses. He or she must also successfully complete MUS 477 Graduate Music History Review before subsequent enrollment in other music history courses.

During the first semester of study, a tentative Program of Study is planned, documented and filed by the student in consultation with the advisor in his or her major field. The Program of Study is subject to approval by the Music Department Head and the Graduate Music Committee. The student will also select, in consultation with his or her advisor, an advisory committee consisting of the advisor, and two additional faculty members.

Candidacy
In order to qualify for candidacy the student (except those in the online Music Education program) must meet the Graduate School requirement of 12 credits of graduate work in residence and must show evidence of a satisfactory quality of work in the required courses, demonstrate the desired progress in his or her performance area and, where required, submit a recital program, thesis topic, or project proposal for approval.

Thesis
A thesis is optional in Music Education and is encouraged for students considering completion of a terminal degree. Music Education candidates not writing a thesis must develop and complete an approved project before the oral examination.

Final Examination
All Master of Music candidates must take a final comprehensive oral examination. The final oral examination may not be scheduled until the graduate recital (with analytical paper) is completed or a final draft of the Music Education project or thesis has been approved by the candidate’s advisor.

Fees
Fees, in addition to tuition, will be assessed for all applied hours and recitals. (Consult the Music Department for details).

Music - Undergraduate Minor (p. 499)

Professor, Lon W. Chaffin, Department Head

Professors: Kaplan, Romero, Shearer; Associate Professors: Bugbee, Daughtrey, Joy, Martinez-Rios, Spitzer, Vega-Albelá; Assistant Professors: Espinoza, Gollo, Mapp, Smyth, L. Van Winkle; College Associate Professors: Taylor, College Instructor: Brennan

L. Chaffin, Department Head, Ph.D. (Texas Tech)—theory, composition; K. Brennan, D.M.A. (Michigan State)—double reeds, theory; F. Bugbee, D.M.A. (Eastman School of Music)—percussion, history; S. Daughtrey, D.M. (Indiana University)—vocal coordinator, diction, pedagogy; S. Gollo (Conservatoire de Musique, Switzerland)—Orchestra Director, violin; N. Joy, M.M. (NMSU)—horn, Music Education; A. Kaplan, Ph.D. (NYU Manhattan School of Music)—low brass; M. Mapp (Kansas University)—Director of Bands, conducting; J. Martinez-Rios, M.M (Western Michigan)—viola; F. Romero, D.M.A. (University of Oklahoma)—trumpet, jazz; J. Shearer, D.M.A. (Eastman School of Music)—graduate coordinator, history; S. Smyth, D.M.A. (Kansas University)—Athletic Bands, music education; L. Spitzer, D.M.A. (USC)—piano, history; R. Taylor, D.M.A (Arizona)—saxophone, theory; L. Van Winkle, D.M.A. (Arizona) flute, ear-training; D. Vega-Albelá M.M. (Western Michigan)—violin

Music Courses

MUS 101G. An Introduction to Music
3 Credits
An introduction to music for the non-music major to encourage the enjoyment of listening to and understanding the world’s great music from the past to the present.

MUS 102. Fundamentals of Music
3 Credits
Introduction to music notation, meter and rhythm, scales, intervals, triads, seventh chords, fundamentals of harmonic progression, and aural skills. For students with little or no music theory background. Traditional Grading with RR.

MUS 103. Ear Training I
1 Credit
To develop the ability to accurately hear, identify, and notate musical elements including rhythm, melody, intervals and harmony. Traditional Grading with RR. Restricted to Las Cruces campus only.
Prerequisite(s): Passing the Theory Placement exam or making a C or better in MUS 102.

MUS 104. Ear Training II
1 Credit
To develop the ability to accurately hear, identify, and notate musical elements including rhythm, melody, intervals and harmony. Restricted to Las Cruces campus only.
Prerequisite(s): Grade of C- or better in MUS 103.

MUS 105. Music Theory I
3 Credits
Introduction to vocabulary and syntax of 4-voice 18th c. choral music through study and harmonic analysis.
Prerequisite(s): Passing the Theory Placement exam or making a C or better in MUS 102.

MUS 106. Music Theory II
3 Credits
Expansion of vocabulary and syntax of 4-voice 18th c. choral music through study, harmonic analysis, and part writing.
Prerequisite(s): Grade of C or better in MUS 105.

MUS 121. Concert and Recital Laboratory
0.5 Credits
Serves as a resource and performance lab for all applied areas of musical study. Music majors are expected to perform during the weekly student recital and must attend a designated number of musical performances during the semester. May be repeated up to 4 credits. Restricted to: Music and Music Education majors. S/U Grading with RR. Restricted to Las Cruces campus only.

MUS 130. Applied Music
1-2 Credits
Private or group instruction for non-music majors, secondary instruments, and music majors preparing for 200-level applied music. May be taken for unlimited credit.

MUS 141. Vocal Training for Instrumental Music Majors
1 Credit
Group instruction in voice and vocal pedagogy for instrumental Music Education majors, offering basic principles of healthy vocal production with particular attention to diction, development of vocal range, and the ability to impart that knowledge to elementary, junior and/or high school age students. May be repeated up to 1 credits. Restricted to: M ED majors. Restricted to Las Cruces campus only.

MUS 145. Functional Piano I
2 Credits
Scales, chords, memorization. Harmonization of simple melodies with the ability to play simple melodies and rhythms. May be taken for unlimited credit. Restricted to music majors. No S/U option.

MUS 146. Functional Piano II
2 Credits
Scales, chords, memorization. Harmonization of simple melodies with the ability to play simple melodies and rhythms. May be taken for unlimited credit. Restricted to music majors. No S/U option.
Prerequisite: MUS 145 or consent of instructor.

MUS 147. Functional Piano III
2 Credits
Scales, chords, memorization. Harmonization of simple melodies with the ability to play simple melodies and rhythms. May be taken for unlimited credit. Restricted to music majors. No S/U option.
Prerequisite: MUS 146 or consent of instructor.

MUS 151. Philharmonic Orchestra
1 Credit
The University Philharmonic Orchestra is open to all students and performs a wide variety of standard orchestral literature. The orchestra performs each semester and the objectives include refining technique, stylistic characteristics, intonation, balance, bowing, color, rhythm, and dynamics. May be repeated up to 10 credits. Restricted to Las Cruces campus only.
Prerequisite(s): by audition only.
MUS 160. University Singers
1 Credit
Select concert and touring choir of undergraduate and graduate students performing a cappella and accompanied choral literature. May be repeated up to 10 credits. Restricted to Las Cruces campus only.
Prerequisite(s): By audition only.

MUS 161. Concert Choir
1 Credit
Campus choir composed of both music and non-music majors. Emphasis on vocal techniques, sight-singing, and basics of choral musicianship. May be taken for unlimited credit.

MUS 162. Master Works Chorus
1 Credit
Combination campus and community chorus. This group will perform the major chorale compositions for orchestra and/or wind ensemble. May be repeated up to 10 credits. Restricted to Las Cruces campus only.

MUS 163. Jazz Ensembles
1 Credit
Performance ensemble that explore repertoire written for big band, including (but not limited to) dance band, swing, and contemporary compositions. May be repeated up to 10 credits. Restricted to Las Cruces campus only.
Prerequisite(s): By audition only.

MUS 164. Chamber Ensembles
1 Credit
Small groups of singers and/or instrumentalists that perform chamber music. May be repeated up to 16 credits. Restricted to Las Cruces campus only.
Prerequisite(s): By audition only.

MUS 170. Wind Symphony
1 Credit
This elite ensemble of 50 highly qualified graduate and undergraduate students performs a varied repertoire of the highest quality literature for winds. Members will also perform concerts of chamber winds literature each semester. This ensemble is dedicated to professional level performance while fostering the musical growth of its members. Conducted by the Director of Bands, this group serves as the flagship for the entire university bands program. May be repeated up to 10 credits. Restricted to Las Cruces campus only.
Prerequisite(s): By audition only.

MUS 171. Roadrunner Revue Pep Band
1 Credit
For both music and nonmusic majors. Opportunity to perform a variety of music in a showband setting. May be taken for unlimited credit.
Prerequisite: by audition only; contact band office for date and time.

MUS 172. Marching Band
1 Credit
For both music and nonmusic majors. Opportunity to perform all varieties of music in a contemporary styled marching unit. May be taken for unlimited credit.

MUS 174. Percussion Ensemble
1 Credit
Study and performance of contemporary percussion ensemble literature. May be repeated up to 5 credits. Restricted to Las Cruces campus only.
Prerequisite(s): by audition only.

MUS 175. Jazz Ensembles
1 Credit
This is a select large ensemble, chosen by audition. It provides a challenging musical environment for skilled performers by programming repertoire that ranges from works for chamber winds, to standards of the wind band literature, to cutting edge literature. Conducted by the Associate Director of Bands, this ensemble is comprised of music majors and non-music majors alike and provides the less experienced student an opportunity to hone and refine performance skills. May be repeated up to 10 credits. Restricted to Las Cruces campus only.
Prerequisite(s): By audition only.

MUS 181. Campus Band
1 Credit
This is a non-auditioned ensemble designed to meet the needs of students from all majors across campus. Music majors are encouraged to enroll while performing on a secondary instrument. Marching band members are also encouraged to take the course to build skills and leadership. This ensemble provides an educational experience and serves as an outlet for students who wish to remain musically active in a less intense setting. May be repeated up to 10 credits. Restricted to Las Cruces campus only.

MUS 180. Symphonic Band
1 Credit
This is a select large ensemble, chosen by audition. It provides a challenging musical environment for skilled performers by programming repertoire that ranges from works for chamber winds, to standards of the wind band literature, to cutting edge literature. Conducted by the Associate Director of Bands, this ensemble is comprised of music majors and non-music majors alike and provides the less experienced student an opportunity to hone and refine performance skills. May be repeated up to 10 credits. Restricted to Las Cruces campus only.
Prerequisite(s): By audition only.

MUS 190. History of Jazz in Popular Music: A Blending of Cultures
3 Credits
Jazz in popular music as it relates to music history and the development of world cultures.

MUS 201. An Introduction to World Music, Jazz and Music Research
3 Credits
Introduces world music and jazz within a historical and cultural context, considering significant musical figures, forms, genres, styles, and representative works. A major component will be the development of effective research and scholarly writing skills for the music major or minor. May be repeated up to 3 credits. Restricted to: Music majors and minors. majors. Restricted to Las Cruces campus only.

MUS 202. Ear Training III
1 Credit
Continuation of MUS 104, advanced sight singing, dictation. Restricted to Las Cruces campus only.
Prerequisite(s): Grade of C- or better in MUS 104.

MUS 203. Ear Training IV
1 Credit
Continuation of MUS 202, advanced sight singing, dictation. Restricted to Las Cruces campus only.
Prerequisite(s): Grade of C or better in MUS 202 and MUS 205.

MUS 204. Ear Training V
1 Credit
Continuation of MUS 203, advanced sight singing, dictation. Restricted to Las Cruces campus only.
Prerequisite(s): Grade of C or better in MUS 203 and MUS 205.

MUS 205. Music Theory III
3 Credits
Analysis of Baroque and Classical Music: Vocabulary and syntax of 18th and 19th c. Western art music through study, chordal/formal analysis, and composition. Restricted to Las Cruces campus only.
Prerequisite(s): Grade of C or better in MUS 106.

MUS 206. Music Theory IV
3 Credits
Analysis of Romantic, Post-Romantic, Impressionist, and Twelve-Tone Music. Vocabulary and syntax of late 19th and early 20th c. Western art music through study, micro/macro analysis, and composition. Restricted to Las Cruces campus only.
Prerequisite(s): Grade of C or better in MUS 205.
MUS 207. Music History and Literature: Antiquity through Baroque  
3 Credits  
Surveys Western art music within a historical and cultural context,  
considering significant musical figures, forms, genres, styles, and  
representative works from antiquity through the end of the Baroque era.  
An additional emphasis will be given to effective research and scholarly  
writing skills. Restricted to: Music and Music Education majors.  
Prerequisite(s): A grade of C- or better in MUS 103, 105, and 202.

MUS 230. Applied Music I  
1-4 Credits  
Individual instruction to develop technique, musicianship, performance  
and improvisational skills, as well as knowledge of significant repertoire.  
May be repeated up to 16 credits. Consent of Instructor required.  
Restricted to: Music and Music Education majors. Traditional Grading  
with RR. Restricted to Las Cruces campus only.  
Prerequisite(s): By audition only.

MUS 250. Introduction to Music Education  
2 Credits  
Overview of the basic principals and practices of the music education  
profession in K-12 settings, emphasizing philosophy and history of music  
education, methodologies commonly utilized in school curricula, music  
in special education, classroom/rehearsal management and lesson  
planning. Explores many aspects of public school teaching through class  
discussions and directed observations. Restricted to Las Cruces campus  
only.

MUS 251. Opera Workshop  
1 Credit  
Study, translation, analysis, rehearsal and performance of opera. May be  
repeated up to 10 credits. Restricted to Las Cruces campus only.  
Prerequisite(s): by audition only.

MUS 260. Special Topics I  
1-3 Credits  
Emphasis on special areas of music; designed for highly motivated  
students. May be taken for unlimited credit.

MUS 261. Functional Piano IV  
2 Credits  
For music majors preparing for Piano Proficiency Examination. May be  
taken for unlimited credit. Restricted to music majors. No S/U option.  
Prerequisite: MUS 147 or consent of instructor.

MUS 262. Diction I  
2 Credits  
Introduction to the international phonetic alphabet, and its application  
to English, Italian, Spanish, and Latin song literature. Main campus only.  
Restricted to Las Cruces campus only.

MUS 263. Diction II  
2 Credits  
Advanced grammar and detailed study of Italian, German and French  
diction and song literature for vocal students. Restricted to music majors.  
Main campus only.  
Prerequisite: MUS 262 or consent of instructor.

MUS 273. Introduction to Music Technology  
1 Credit  
Introduction to uses of technology in musical settings. Practical  
applications in digital music notation, MIDI sequencing, and digital audio  
recording. Restricted to: MUS,M ED majors. Traditional Grading with RR.  
Restricted to Las Cruces campus only.  
Prerequisite(s): MUS 105.

MUS 301. Marching Band Techniques  
2 Credits  
This course will help students develop the techniques needed to  
administer and teach all aspects of a contemporary high school marching  
band. This includes drill conception and design, instruction, organization,  
and administration. Stylistic varieties of marching fundamentals, show  
conception, fundamentals of charting and teaching drill, computer- 
aided drill design, traditional show design, contemporary show design,  
rehearsal techniques, and organizational concepts. Restricted to: Music,  
Music Education majors. Traditional Grading with RR.

MUS 302. Music History and Literature: Classic through Romantic  
3 Credits  
Surveys Western art music within a historical and cultural context,  
considering significant musical figures, forms, genres, styles, and  
representative works from the beginnings of the Classic era through the  
end of the Romantic era. An additional emphasis will be given to effective  
research and scholarly writing skills. Restricted to: Music Majors and  
Minors majors.  
Prerequisite(s): A grade of C- or better in MUS 207.

MUS 303. Music History and Literature: 20th Century Through the  
Present  
3 Credits  
Surveys Western art music within a historical and cultural context,  
considering significant musical figures, forms, genres, styles, and  
representative works from the beginning of the 20th Century through the  
Present. An additional emphasis will be given to effective research and  
and scholarly writing skills. Restricted to: MUS minors and majors.  
Prerequisite(s): A grade of C- or better in MUS 302.

MUS 315. Brass Techniques I  
1 Credit  
Methods and techniques of teaching high brass instruments, for music  
education majors. Main campus only.

MUS 316. Brass Techniques II  
1 Credit  
Methods and techniques of teaching low brass instruments, for music  
education majors. Main campus only.

MUS 317. Woodwind Techniques I  
1 Credit  
Methods and techniques of teaching high woodwind instruments, for  
music education majors. Main campus only.

MUS 318. Woodwind Techniques II  
1 Credit  
Methods and techniques of teaching saxophone and double reed  
instruments, for music education majors. Main campus only.

MUS 319. String Techniques I  
1 Credit  
Methods and techniques of teaching low string instruments, for music  
education majors. Main campus only.

MUS 320. String Technique II  
1 Credit  
Methods and techniques of teaching high string instruments, for music  
education majors. Main campus only.

MUS 321. Instrumental Techniques for Vocal Music Education Majors  
2 Credits  
Methods of teaching brass, woodwind, percussion, stringed and fretted  
instruments for vocal music education majors. Restricted to: Music and  
Music Education majors. Traditional Grading with RR.
MUS 322. Guitar Methods
1 Credit
Methods and techniques of teaching guitar, for Music Education majors. Restricted to: Music and Music Education majors. Traditional Grading with RR.

MUS 323. Percussion Technique I
1 Credit
Methods and techniques of teaching fundamental percussion instruments (snare drum, timpani, keyboards and essential accessories). May be repeated up to 1 credits. Restricted to: MUS,M ED majors. Traditional Grading with RR.

MUS 324. Percussion Technique II
1 Credit
Methods and techniques of teaching marching percussion, drum set, and a continuation of techniques discussed in MUS 323. May be repeated up to 1 credits. Restricted to: MUS,M ED majors. Traditional Grading with RR.
Prerequisite(s): A grade of C- or better in MUS 323.

MUS 325. Beginning Conducting
1 Credit
A study of the fundamentals of conducting and rehearsal strategies with an emphasis on beginning technique applicable to all ensembles. Reading of musical scores with application via laboratory ensemble experience is included. Restricted to: Music and Music Education majors. Traditional Grading with RR.
Prerequisite(s): A grade of C or better in MUS 204 and 206.

MUS 326. Instrumental Conducting
3 Credits
Will continue from MUS 325 in the training for competent musicianship with a focus on conducting gestures and movements, score study, and rehearsal techniques as it relates to the instrumental ensemble. The class will focus primarily on the development of a non-verbal vocabulary that will allow each student to clearly and artistically communicate with the members of an ensemble to solicit a predetermined musical result. May be repeated up to 3 credits. Restricted to: MUS,M ED majors. Traditional Grading with RR.
Prerequisite(s): A grade of C- or better in MUS 325.

MUS 327. Choral Conducting
3 Credits
Continuation of conducting study with emphasis on choral rehearsal techniques, ensemble management, and literature. Restricted to: Music and Music Education majors. Traditional Grading with RR.
Prerequisite(s): A grade of C or better in MUS 325.

MUS 330. Applied Music II
1-4 Credits
Continuation from MUS 230. Individual instruction to develop technique, musicianship, performance and improvisational skills, as well as knowledge of significant repertoire. May be repeated up to 16 credits. Consent of Instructor required. Restricted to: Music and Music Education majors. Traditional Grading with RR.
Prerequisite(s): A grade of C or better in MUS 230 plus a juried audition.

MUS 339. Survey of Music Business
3 Credits
Survey of career options and exploration of current events/trends within the Music Industry. Non-Music Business majors may be admitted with instructor's approval.

MUS 340. Junior Recital
1 Credit
Public solo performance under the supervision of the appropriate applied instructor. 30 minutes of musical performance is required. Consent of Instructor required. Restricted to: Music and Music Education majors. Traditional Grading with RR.
Corequisite(s): MUS 330.

MUS 341. BA Capstone
1-2 Credits (1-2)
The objective of the Capstone course for the BA degree in Music is to demonstrate the accumulation, understanding and knowledge of the student's course of study. This will take the form of an analytical paper, recital, research paper, composition or other equally encompassing project approved by the Instructor of Record. This may involve coursework from the student's minor area of study and be a multi-disciplinary collaborative effort. Restricted to: Music majors.
Prerequisite(s): A B- or better in MUS 205 and MUS 302.

MUS 346. Elementary Music Methods
2 Credits
Lesson planning, curriculum, teaching methodology, materials, and procedures for teaching music in an elementary school. Emphasis on methodology of Koday and Orff, teaching in a multicultural setting, and developing reflective practitioners. This course requires field experience in the public schools. Restricted to: Music Education majors.
Prerequisite(s): A grade of C or better in MUS 250 and passing the TEP exam.

MUS 349. Secondary Music Methods
2 Credits
Lesson planning, curriculum, teaching methodology, materials, and procedures for teaching music in the middle school and high school. Emphasis on teaching in a multicultural setting and developing reflective practitioners. Restricted to: Music Education majors.
Prerequisite(s): A grade of C or better in MUS 346.

MUS 350. Chamber Music
1 Credit
Small performing ensembles that may include strings, woodwinds, brass, pianos, percussion, and voices. May be repeated up to 16 credits.
Prerequisite(s): by audition only.

MUS 351. Opera Workshop
1 Credit
Study, translation analysis, rehearsal and performance of opera. May be repeated up to 10 credits.
Prerequisite(s): by audition only.

MUS 360. Special Topics II
1-3 Credits
Emphasis on special areas of music; designed for highly motivated students. May be taken for unlimited credit.

MUS 361. Concert Choir II
1 Credit
Composed of both music and nonmusic majors. Emphasis on vocal techniques, sight-singing, and basics of choral musicianship. Students must assume leadership role. May be repeated up to 88 credits.
Prerequisite(s): by audition only.

MUS 490. Music 490
MUS 362. Philharmonic Orchestra II  
1 Credit  
The University Philharmonic Orchestra is open to all students and performs a wide variety of standard orchestral literature. The orchestra performs each semester and the objectives include refining technique, stylistic characteristics, intonation, balance, bowings, color, rhythmic integrity and dynamics. May be repeated up to 10 credits.  
Prerequisite(s): by audition only.

MUS 363. Jazz Ensembles II  
1 Credit  
Performance ensemble that explore repertoire written for big band, including (but not limited to) dance band, swing, and contemporary compositions. May be repeated up to 10 credits.  
Prerequisite(s): by audition only.

MUS 365. Composition I  
2 Credits  
Significant forms for various media. Emphasis on structural aspects of original composition. Restricted to: M ED, MUS majors.  
Prerequisite(s): A grade of B or better in MUS 105.

MUS 366. University Singers II  
1 Credit  
Select concert and touring choir of undergraduate and graduate students performing a cappella and accompanied choral literature. May be repeated up to 10 credits. Consent of Instructor required.  
Prerequisite(s): by audition only.

MUS 367. Wind Symphony II  
1 Credit  
This elite ensemble of 50 highly qualified graduate and undergraduate students performs a varied repertoire of the highest quality literature for winds. Members will also perform concerts of chamber winds literature each semester. This ensemble is dedicated to professional level performance while fostering the musical growth of its members. Conducted by the Director of Bands, this group serves as the flagship for the entire university bands program. May be repeated up to 10 credits.  
Prerequisite(s): by audition only.

MUS 370. Percussion Ensembles II  
1 Credit  
Study and performance of contemporary percussion ensemble literature. Students must assume a leadership role. May be repeated up to 5 credits. Consent of Instructor required. Traditional Grading with RR.

MUS 371. Composition II  
1 Credit  
A grade of C or better in MUS 204 and 206.

MUS 372. Marching Band II  
1 Credit  
Composed of both majors and nonmajors. Opportunity to perform all varieties of music in a contemporary style marching unit. May be repeated up to 5 credits. Consent of Instructor required. Traditional Grading with RR.

MUS 374. Symphony Band II  
1 Credit  
This is a select large ensemble, chosen by audition. It provides a challenging musical environment for skilled performers by programming repertoire that ranges from works for chamber winds, to standards of the wind band literature, to cutting edge literature. Conducted by the Associate Director of Bands, this ensemble is comprised of music majors and non-music majors alike and provides the less experienced student an opportunity to hone and refine performance skills. May be repeated up to 10 credits.  
Prerequisite(s): by audition only.

MUS 381. Campus Band II  
1 Credit  
This is a non-auditioned ensemble designed to meet the needs of students from all majors across campus. Music majors are encouraged to enroll while performing on a secondary instrument. Marching band members are also encouraged to take the course to build skills and leadership. This ensemble provides an educational experience and serves as an outlet for students who wish to remain musically active in a less intense setting. May be repeated up to 10 credits.

MUS 386. Applied Music Pedagogy and Literature I  
2 Credits  
Methods, materials, problems, literature, and techniques in teaching individual lessons. Consent of Instructor required. Restricted to: Music and Music Education majors. Traditional Grading with RR.

MUS 390. Survey of Wind Literature  
2 Credits  
An examination of beginning to advanced literature for wind bands with an emphasis on the needs of middle and high school ensembles. It will include a means to determine the quality of a piece as well as the standardized level of difficulty (grading). Restricted to: Music and Music Education majors.

MUS 391. Survey of Orchestral Literature  
2 Credits  
An examination of beginning to advanced literature for both string orchestra and symphony orchestra with an emphasis on the needs of middle and high school ensembles. A means to determine the quality of a piece as well as the standardized level of difficulty (grading) will be included. Restricted to: Music and Music Education majors.

MUS 413. Form and Analysis  
3 Credits  
Forms in tonal music and basic analytic techniques including music from diverse cultures and media.

MUS 415. Orchestration  
3 Credits  
Scoring for full orchestra and various instrumental combinations with consideration of instrument timbres, strengths, weaknesses and ranges. Restricted to: Music and Music Education majors.

MUS 417. Studio Accompanying  
2 Credits  
Practical application of collaborative piano skills in a studio setting for Piano Performance majors. May be repeated up to 8 credits. Consent of Instructor required. Restricted to: Music and Music Education majors. Traditional Grading with RR.
MUS 420. Music of the Middle Ages and Renaissance
3 Credits
An overview of the music of the Middle Ages and Renaissance eras with an emphasis on history and literature.
Prerequisite(s): MUS 303.

MUS 421. Music of the Baroque Era
3 Credits
An overview of the music of the Baroque era with an emphasis on history and literature.
Prerequisite(s): MUS 303.

MUS 422. Music of the Classic Era
3 Credits
An overview of the music of the Classic era with an emphasis on history and literature.
Prerequisite(s): MUS 303.

MUS 424. Music of the Twentieth Century
3 Credits
An overview of the music of the Twentieth Century with an emphasis on history and literature. Consent of Instructor required.
Prerequisite(s): MUS 303.

MUS 429. Opera and Music Drama
3 Credits
Lyrical drama of the Greeks through works of Wagner and Verdi to contemporary opera.
Prerequisite: MUS 303 or consent of instructor.

MUS 430. Applied Music III
1-4 Credits
Continuation from MUS 330. Individual instruction to develop technique, musicianship, performance and improvisational skills, as well as knowledge of significant repertoire. May be repeated up to 16 credits. Consent of Instructor required. Restricted to: Music and Music Education majors. Traditional Grading with RR.
Prerequisite(s): A grade of C or better in MUS 330 plus a juried audition.

MUS 440. Senior Recital
1-2 Credits (1-2)
Public solo performance under the supervision of the appropriate applied instructor. 60 minutes of musical performance is required for enrollment of 2 hours credit. 30 minutes of musical performance is required for enrollment of 1 hour credit. Consent of Instructor required. Restricted to: Music and Music Education majors. Traditional Grading with RR.
Corequisite(s): MUS 430.

MUS 441. Supervised Studio Teaching
2 Credits
Teaching of private lessons under supervision. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: Music and Music Education majors. Traditional Grading with RR.

MUS 450. Research Methods
3 Credits
Introduction to methodology of music research. Emphasis on important scholarly resources and academic writing. Restricted to majors. Main campus only. No S/U option.
Prerequisite: consent of instructor.

MUS 455. Music Business Internship
3 Credits
Capstone course for the Music Business degree. Working with the music business coordinator, students must have been accepted as an intern in a music business setting before enrolling. Credit given for the internship based on criteria developed for each placement. Restricted to majors. S/U only.
Prerequisites: MUS 330 and piano proficiency.

MUS 470. Special Topics III
1-3 Credits
Designed for highly motivated students. Independent study and individual guidance. May be taken for unlimited credit.

MUS 471. Graduate Theory Review
3 Credits
Comprehensive and accelerated study of modes, diatonic harmony, and classical form of the common practice period. Restricted to: Music majors. Traditional Grading with RR.

MUS 475. Intermediate Conducting
3 Credits
Serves as a bridge from undergraduate conducting study to the graduate level. Advanced undergraduate students may enroll to learn how the graduate program in conducting functions. The course also serves as the introductory experience for newly admitted graduate conducting majors. After successful completion of this course, students will be able to: Study musical scores from a conducting perspective; Demonstrate effective predetermined gestures and movements; Lead an ensemble; Research and give presentations related to composers and their music; Demonstrate advanced knowledge of conducting practices.
Prerequisite(s): A grade of C- or better in MUS 326 or 327.

MUS 477. Graduate Music History Review
3 Credits
Comprehensive and accelerated study of music history from antiquity to the present Restricted to: Music majors. Traditional Grading with RR.

MUS 486. Applied Music Pedagogy and Literature II
2 Credits
Methods, materials, problems, literature, and techniques in teaching individual lessons. Consent of Instructor required. Restricted to: Music majors. Traditional Grading with RR.

MUS 498. Independent Study
1-3 Credits
For students with a strong musical background wishing to explore content beyond the traditional curriculum. Restricted to majors. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

MUS 511. Survey of Traditional Harmony
3 Credits
Tonal harmony in common practice and theory of the late 17th, 18th, and early 19th centuries. Restricted to: Music majors. Traditional Grading with RR.
Prerequisite(s): A grade of B or better in MUS 471.

MUS 513. Twentieth Century Art Music
3 Credits
Analytical techniques, structural design and compositional materials from Debussy to the Minimalist school in historical context. Restricted to: Music majors.
Prerequisite(s): A grade of B or better in MUS 471.
MUS 518. Seminar in Music Theory
3 Credits
Varying topics in Music Theory, providing a more specific and in-depth study of the particular topic. May be repeated up to 6 credits. Restricted to: Music majors. Traditional Grading with RR.
Prerequisite(s): A grade of B or better in MUS 471.

MUS 519. Seminar in Music History
3 Credits
Varying topics in Music History, providing a more specific and in-depth study of the particular topic. May be repeated up to 6 credits. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 477.

MUS 521. Music of the Baroque Era: History and Literature
3 Credits
An overview of the music of the Baroque Era with an emphasis on history and literature.

MUS 522. Music of the Classical Era: History and Literature
3 Credits
An overview of the music of the Classical era with an emphasis on history and literature. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 477.

MUS 523. Music of the Romantic Era: History and Literature
3 Credits
An overview of Romantic era music, with an emphasis on history and literature. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 477.

MUS 524. Music of the 20th Century: History and Literature
3 Credits
An overview of the music of the 20th century. Analysis of major works by significant composers with emphasis on Sonata form. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 477.

MUS 525. Music of the 21st Century: History and Literature
3 Credits
An overview of music of the 21st century. Analysis of major works by significant composers with emphasis on contemporary music. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 477.

MUS 526. Music of the 22nd Century: History and Literature
3 Credits
An overview of music of the 22nd century. Analysis of major works by significant composers with emphasis on contemporary music. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 477.

MUS 527. History and Analysis of the Symphony
3 Credits
Historical background and development of the symphony from its inception (ca. 1740s) to mid-twentieth century. Analysis of major works by significant composers with emphasis on Sonata form. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 471 and 477.

MUS 528. The Symphony in Historical Context
3 Credits
Considers the historical development of the symphony, as a musical genre, from its inception to the 20th century. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 477.

MUS 529. Opera and Music Drama
3 Credits
Lyric drama of the Greeks through works of Wagner and Verdi to contemporary opera. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 477.

MUS 530. Seminar in Music Education
3 Credits
Varying topics in Music Education, providing a more specific and in-depth study of the particular topic. Restricted to: MUS majors.

MUS 531. Music in Elementary Schools
3 Credits
This course is designed to provide experiences which will help the student gain skills to appropriately enhance the musical growth of children in K–6 classrooms. The course participants personal skill and understanding of musical concepts will be developed; musical needs and capabilities of young children will be investigated; methods of teaching music to young children will be explored. Restricted to: MUS (Music Ed track only) majors.

MUS 532. Music in Elementary Schools II
3 Credits
This course is designed to continue the experiences in music education for children in K–6 classrooms. The course participants personal skill and understanding of musical concepts will be developed; musical needs and capabilities of young children will be investigated; methods of teaching music to young children will be explored. Restricted to: MUS (Music Ed track only) majors.

MUS 533. Music in Elementary Schools III
3 Credits
This course is designed to continue the experiences in music education for children in K–6 classrooms. The course participants personal skill and understanding of musical concepts will be developed; musical needs and capabilities of young children will be investigated; methods of teaching music to young children will be explored. Restricted to: MUS (Music Ed track only) majors.

MUS 534. Music in Elementary Schools IV
3 Credits
This course is designed to continue the experiences in music education for children in K–6 classrooms. The course participants personal skill and understanding of musical concepts will be developed; musical needs and capabilities of young children will be investigated; methods of teaching music to young children will be explored. Restricted to: MUS (Music Ed track only) majors.

MUS 535. Current Issues in Music Education
3 Credits
This course examines the rich and challenging complexities of music teaching and learning from a variety of perspectives. Educational theory to pedagogical inquiry of current educational practice will be examined, calling students to critically reflect on such professional activities as lesson planning, curriculum design, repertoire choice, program assessment, advocacy in the arts, and student evaluation. Restricted to: MUS (Music Ed track only) majors.

MUS 540. Graduate Recital/Analytical Paper
4 Credits
This course is for students completing a Master of Music with a Performance emphasis. A public recital will be given and an accompanying research paper will be submitted. Restricted to: MUS majors.

MUS 574. Advanced Choral Conducting I
3 Credits
This course will continue the training for competent musicianship with a focus on conducting gestures and movements, score study, and rehearsal techniques. Lessons will focus primarily on the development of a non-verbal vocabulary that will allow each student to clearly and artistically communicate with the members of an ensemble to solicit a predetermined musical result. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 475.

MUS 575. Advanced Choral Conducting II
3 Credits
This is the final course in preparation for the student’s graduate conducting concert. It will continue the training for competent musicianship with a focus on conducting gestures and movements, score study, and rehearsal techniques. Lessons will focus primarily on the development of a non-verbal vocabulary that will allow each student to clearly and artistically communicate with the members of an ensemble to solicit a predetermined musical result. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 574.

MUS 576. Advanced Instrumental Conducting I
3 Credits
The role of the conductor is to lead, react to, alter, and reinforce the performance of the ensemble. This course will continue in the training for competent musicianship with a focus on conducting gestures and movements, score study, and rehearsal techniques. Lessons will focus primarily on the development of a non-verbal vocabulary that will allow each student to clearly and artistically communicate with the members of an ensemble to solicit a predetermined musical result. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 475.

MUS 577. Advanced Instrumental Conducting II
3 Credits
The role of the conductor is to lead, react to, alter, and reinforce the performance of the ensemble. This course will continue in the training for competent musicianship with a focus on conducting gestures and movements, score study, and rehearsal techniques. Lessons will focus primarily on the development of a non-verbal vocabulary that will allow each student to clearly and artistically communicate with the members of an ensemble to solicit a predetermined musical result. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 576.
MUS 578. Advanced Choral Literature
2-3 Credits (2-3)
An examination of significant choral works from 1200 to the present, including composers, genres, and historical context. May be repeated up to 3 credits. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 475.

MUS 579. Advanced Instrumental Literature
2-3 Credits (2-3)
An examination of significant instrumental works from the Baroque period to the present, including composers, genres, and historical context. May be repeated up to 3 credits. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 475.

MUS 580. Ensemble Performance
1 Credit
Performance in university ensembles. May be repeated up to 99 credits.
Prerequisite(s): audition by audition only.

MUS 582. Applied Music
2-4 Credits
For music majors, individual instruction, including improvisation skills and techniques. Students may enroll for 2 or 4 credits. May be repeated for a maximum of 16 credits.
Prerequisites: audition and consent of instructor.

MUS 586. Applied Music Pedagogy and Literature III
2 Credits
Methods, materials, problems, literature, and techniques in teaching individual lessons. Restricted to: MUS majors.
Prerequisite(s): A grade of B or better in MUS 486.

MUS 588. Special Research Programs
1-4 Credits
May be taken for unlimited credit.

MUS 599. Master’s Thesis
15 Credits
Thesis.

Music - Bachelor of Music

The Bachelor of Music (BM) curriculum is designed to prepare students for performance careers and private studio teaching and serves as a foundation for advanced study toward master’s and doctoral degrees: M.M., D.M.A., or Ph.D in Music. In addition, the BM degree may lead to positions as professional entertainers or teachers at the college and university levels, or lead to music related work in the business world.

Concentration: Instrumental Performance

Requirements - Basic Music and Performance

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 129 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Prefix | Title | Credits

Total Credits: 135.5-139.5

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. A Mathematics course is required for the degree but students may need to take any prerequisites needed to enter the course selected first.
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4. All Music Majors must take MUS 430 Applied Music III for a minimum of 2 semesters.

Second Language Requirement

For the Bachelor of Music Education in Music Education with a Concentration in K-12: Vocal, there is no second language requirement for the degree.

Piano Proficiency

- Students must pass Piano Proficiency before presenting a Senior Recital.
- Students must enroll for Functional Piano until Proficiency is passed.

Music Education Requirement

- Students must pass the TEP Exam before taking MUS 346 Elementary Music Methods or MUS 349 Secondary Music Methods.
- Students must present Senior Recital before student teaching.

Music - Undergraduate Minor

A student may not earn both a bachelor’s degree in the Department of Music and a minor in Music.

Philosophy

Undergraduate Program Information

A major in philosophy serves not only as preparation for further graduate study in philosophy but also as an area of concentration in a liberal arts program. A philosophy major is appropriate for students planning to attend medical school as well as for those students interested in a career that requires critical reading and argument analysis. Such careers include business, theology and above all, law. For students who are especially interested in careers in law, politics, or public policy, the Department also offers a major in Justice, Political Philosophy, and Law.

While the course requirements for these majors should meet the ends of the liberal arts student, those students interested in graduate study in philosophy or in a career in law are encouraged to seek advice from a faculty advisor as early in their career as possible.

A minor program in philosophy requiring 18 hours of course work is also offered as well as a minor in Ethics and a minor in Justice, Political Philosophy, and Law. For more information visit the Department of Philosophy’s web page at www.nmsu.edu/~philos/.

Degrees for the Department

Philosophy - Bachelor of Arts (p. 503)

Justice, Political (p. 502) Philosophy, and (p. 502) Law - Bachelor of Arts (p. 502)

Minors for the Department

Ethics - Undergraduate Minor (p. 504)

Justice, Political Philosophy and Law - Undergraduate Minor (p. 504)

Philosophy - Undergraduate Minor (p. 505)

Timothy Cleveland, Department Head

Professors Cleveland, Walker; Associate Professors Keleher, Vessel; Assistant Professor Klockseim; College Professor Noonan

Philosophy Courses

PHIL 100G. Philosophy, Law and Ethics
3 Credits
An introduction to practical problems in moral, social, political, and legal philosophy. Topics to be discussed may include ecology, animal rights, pornography, hate speech on campus, same-sex marriage, justice, abortion, terrorism, treatment of illegal immigrants, and New Mexican Aboriginal Peoples’ land claims.

PHIL 101G. The Art of Wondering
3 Credits
Introduction to some of the main problems of philosophy, with an emphasis on critical thinking. Philosophy conceived as an aid to living in this world with oneself and with others.

PHIL 124G. Philosophy of Music
3 Credits
This is an introductory course in the philosophy of music. This course will survey three questions: What is music? Why is music important? How can we distinguish good music from bad music? We will draw examples from a wide variety of musical genres, from classical music, jazz and blues to punk and rap. Students will be encouraged to apply philosophical theorizing to think about their preferred musical form.

PHIL 136G. The Quest for God
3 Credits
An effort to understand the religious life; a consideration of some of the traditional approaches to God and what it means to be religious.

PHIL 201G. Introduction to Philosophy
3 Credits
Selected problems within the main branches of philosophy: metaphysics, theory of knowledge, ethics. Practice given in critical thinking.

PHIL 211G. Informal Logic
3 Credits
Logical analysis of ordinary language, construction of definitions, argumentation, analysis of fallacious modes of thought and basic rhetorical considerations.

PHIL 223G. Ethics
3 Credits
The philosophical explication of morality. Significant ethical systems developed in the history of Western thought.

PHIL 305. Philosophy and Literature
3 Credits
Examination of philosophical ideas as presented in selected literary works and literary criticism.

PHIL 306. Philosophy Through Film
3 Credits
An exploration of a range of philosophical issues through the use of film. Topics include personal identity and memory, faith and the problem of evil, free will and moral responsibility, and the meaning of life. Films may include The Prestige, Memento, The Third Man, A Clockwork Orange, Fight Club, and Synecdoche, New York.

PHIL 312. Formal Logic
3 Credits
Introduction to symbolic logic and its application in the analysis of arguments in scientific and ordinary discourse.

PHIL 315. Philosophy of Language
3 Credits
A critical examination of philosophical inquiries into the syntactic, semantic, and pragmatic dimensions of language.

PHIL 316. Philosophy of Mathematics
3 Credits
Survey of traditional philosophical problems and views concerning the nature of mathematics including such questions as: What is the nature of mathematical knowledge? What is mathematical truth? What is a number? What is proof? What is the relationship between logic and mathematics?
PHIL 320. Social and Political Philosophy
3 Credits
This course critically examines such fundamental concepts as liberty, equality and human rights.

PHIL 321. Biomedical Ethics
3 Credits
Examines ethical dimensions of such issues as abortion, euthanasia, and physician-assisted suicide; informed consent as a condition of treating patients and experimenting on subjects; genetic engineering; and alternative reproductive methods, including surrogate motherhood. Also considers what implications moral theories have for these issues.

PHIL 322. Environmental Ethics
3 Credits
Explores the ethical and topical issues raised by mining and grazing, air and water pollution, factory farming, global warming, and treatment of animals. It also studies some recent ecological movements such as ecofeminism, social ecology, and deep ecology.

PHIL 323V. Engineering Ethics
3 Credits
The moral legal responsibilities of engineers to clients, employers, the public, and the environment. Topics include criteria for judging when risk is acceptable, the duty to safeguard public health and welfare, conflicts of interest, and whistle-blowing.
Prerequisite: Junior standing or higher.

PHIL 328. Applied Ethics
3 Credits
Examines the implications of utilitarianism, Kantian ethics, natural law theory, and other moral theories for controversial moral issues such as the death penalty, euthanasia, abortion, genetic engineering, gay marriage, affirmative action, and pornography.

PHIL 330. Ethics and Biomedical Research
3 Credits
Explores some ethical issues raised by biological and biomedical research. Topics include: possible abuses of genetic engineering, cloning, and genetically modified foods; experimentation on humans and informed consent; animal experimentation; honesty in research and conflicts of interest; and intellectual property.

PHIL 331. Philosophy of Religion
3 Credits
The nature, fundamental concepts, and problems of religion. Emphasis on the significance of religion for creative and practical value.

PHIL 332. Ethics and Global Poverty
3 Credits
Philosophical scrutiny of and moral reflection on various aspects of global poverty and foreign aid. For example: Is poverty fundamentally a lack of income, or can it be understood as a failure to meet basic needs, or as a lack of valuable freedom? Do human rights exist? What, if any, are the moral obligations of rich countries to poor countries? Can foreign aid be immoral? How should the answers to these questions influence public policy? Restricted to: Main campus only.

PHIL 334. Modern Philosophy
3 Credits
Foundations of contemporary thought: introduction to the philosophies of Descartes, Bacon, Spinoza, Leibniz, Berkeley, Hume, Kant, and Hegel.

PHIL 346. Philosophy of Mind
3 Credits
Examination of some of the most influential accounts of the mind, focusing on such issues as the relation between the mind and the body, mental causation and consciousness.

PHIL 350. Epistemology
3 Credits
Introduction to epistemology. The philosophical critique of alleged ways of knowing. An examination of the nature of truth.

PHIL 351. Philosophy of Science
3 Credits
Philosophical examination of the methodology of science. The logical, metaphysical, epistemological, and ethical critique of science and its impact on human affairs.

PHIL 361. Special Topics
3 Credits
Specific subjects announced in the Schedule of Classes. May be repeated for a maximum of 9 credits.

PHIL 363. Independent Studies
1-3 Credits
For students with some background in philosophy. Independent work in a specific area. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

PHIL 373. Ethical Theory
3 Credits
The critical examination of the justification of ethical theories with particular attention to the language of moral discourse.

PHIL 376. Philosophy of Law
3 Credits
Ethical, logical, and epistemological implications of law, together with an analysis of the rhetoric of legal practice.

PHIL 380. Metaphysics
3 Credits
Introduction to metaphysics: a treatment of such issues as the meaning of existence, the mind-body problem, the problem of universals, and free will versus determinism.

PHIL 385. Human Nature and the Good Life
3 Credits
An examination of some of the most historically and philosophically influential conceptions of human nature and corresponding accounts of the good life.

PHIL 397. Existentialism
3 Credits
The origins of existentialist thought in philosophy and literature, including the thought of Nietzsche, Kierkegaard, Dostoyevsky, Camus, and Sartre. The course covers topics in ethics and political philosophy, metaphysics, philosophical psychology, philosophy of religion, and other sub-disciplines of philosophy.
Justice, Political Philosophy, and Law - Bachelor of Arts

The aim of a Justice, Political Philosophy, and Law (JPPL) arts major is to cultivate a reasoned understanding of law and legal institutions, as well as the moral theories that support the value and justice of these institutions. JPPL offers a sequence of courses totaling 36 credit hours in critical thinking, law, policy, global justice, ethical theory, political philosophy, moral theory, feminist philosophy, and human rights. The interdisciplinary component of the major ensures that students have a well-rounded understanding of issues of justice and law. JPPL students will be well-prepared for further studies or careers in law, philosophy, politics, public service, education, human rights, or public policy.

Admission to JPPL is open to any student in good standing in the College of Arts and Sciences.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Area III: Laboratory Sciences Course (4 credits)
Area IV: Social/Behavioral Sciences Course (3 credits)
Either an Area III: Laboratory Sciences Course (4 credits) or an Area IV: Social/Behavioral Sciences Course (3 credits)

Area V: Humanities 3
Either of the following courses will count towards the Introductory Philosophy Course Departmental/College Requirement also

PHIL 101G The Art of Wondering
or PHIL 201G Introduction to Philosophy

Area VI: Creative and Fine Arts 1 3
General Education Elective 1, 3 3

Viewing A Wider World 4 6

Departmental/College Requirements

Introductory Philosophy
This requirement is completed by the Area V. Humanities course

Ethics
Select one from the following: 3

PHIL 320 Social and Political Philosophy
PHIL 373 Ethical Theory
PHIL 376 Philosophy of Law

Logic

PHIL 211G Informal Logic 5
or PHIL 312 Formal Logic

History of Philosophy
Select one from the following: 3

HON 227G Plato and the Discovery of Philosophy
PHIL 341 Ancient Philosophy
PHIL 344 Modern Philosophy

Applied Ethics
Select one from the following: 3

PHIL 321 Biomedical Ethics
PHIL 322 Environmental Ethics
PHIL 323V Engineering Ethics 5
PHIL 328 Applied Ethics
PHIL 330 Ethics and Biomedical Research
PHIL 332 Ethics and Global Poverty

Select two from the following: 6

PHIL 315 Philosophy of Language
PHIL 316 Philosophy of Mathematics
PHIL 346 Philosophy of Mind
PHIL 350 Epistemology
PHIL 351 Philosophy of Science
PHIL 380 Metaphysics

Second Language Requirement
For the Bachelor of Arts in Justice, Political Philosophy, and Law there is no second language requirement.

Philosophy - Bachelor of Arts

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.
Philosophical Writing

PHIL 448 Writing Philosophy 3

Additional Requirements

Select at least an additional 12 credits in philosophy, 6 of which are courses numbered 300 or above. The following HON courses may replace the 300 level or above philosophy courses.

HON 227G Plato and the Discovery of Philosophy
HON 228G Religion and the State

Second Language Requirement: (not required)

Electives, to bring the total credits to 120

Select sufficient electives to bring total to 120, including 48 upper-division. 1

Total Credits 120

1 See the General Education section of the catalog for a full list of courses
2 A Mathematics is required for the degree but students may need to take any prerequisites needed to enter the course first.
3 The General Education Elective requirement will be satisfied with one of the "G" courses that are options under the Logic and History of Philosophy requirements listed under the Departmental/College Requirements section
4 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses
5 For the Logic course requirement, students can take either PHIL 211G Informal Logic or PHIL 312 Formal Logic. If students select PHIL 312, it will not count towards the General Education Elective requirement.
6 PHIL 323V will not count towards the Viewing A Wider World requirement, students will need to select two other courses for that requirement.
7 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Second Language Requirement

For the Bachelor of Arts in Philosophy there is no second language requirement.

Ethics - Undergraduate Minor

A student who earns a Bachelor of Arts in Philosophy may not also earn a minor in Ethics.

Prefix Title Credits

Required Courses

PHIL 101G The Art of Wondering 3
or PHIL 201G Introduction to Philosophy

PHIL 211G Informal Logic 3
or PHIL 312 Formal Logic

PHIL 373 Ethical Theory 3

Select three from the following, of which at least two must be upper division. 1

Prefix Title Credits

C J 425 Issues in Ethics, Law, and Criminal Justice

HON 304V Dilemmas of War and Peace

HON 306V Science, Ethics and Society

JOUR 377V Mass Media Ethics

Physics

Undergraduate Program Information

A bachelor's degree in physics provides the basis for careers in industry, teaching, the military, government or for study toward advanced degrees in physics or engineering. It should also provide the skills that recipients of physics degrees have listed as among the most important in obtaining their current positions, including problem solving ability, computer skills, mathematical skills, and laboratory skills, as well as knowledge of physics.

Further information about the department may be found on the web at www.physics.nmsu.edu. All incoming (new or transfer) students must schedule an orientation meeting with the department head and/or the undergraduate program head before their first semester at NMSU. All students will be assigned a faculty advisor in the physics department to discuss course selection, career resources, internships and coops, and other topics.

Graduate Program Information

The Department of Physics offers programs in many areas of emphasis leading to the MS and Ph.D. degrees. Admission to these programs is competitive and selection of applicants is based on undergraduate and/or previous graduate grade-point averages, performance on the general and subject Graduate Record Examination, other evidence of prior academic and research accomplishments submitted by the applicant, and references, as well as, in the case of applicants for the doctoral program, matching of the applicant's research interests, as described by the student's statement of purpose, to the Department's research activities.

All degree-seeking graduate students must satisfy the relevant Graduate School requirements, pass a qualifying examination based on undergraduate physics courses at the 400 level, successfully complete a 3-credit, 500-level laboratory, and demonstrate or develop knowledge of computer programming. Additional course requirements are described below; courses taken S/U may not be used to satisfy any of the degree requirements, including the lab requirement for Master's and Ph.D. students.

The qualifying and comprehensive examination outcomes are decided by vote of the entire faculty, based on the recommendations of the corresponding examination committees. For the qualifying examination, the faculty may decide that

- a student pass at the doctoral level;
- pass at the master's level;
- be requested to retake the exam at the next available opportunity; or
- terminate graduate study.

For the written part of the comprehensive examination, the faculty may decide that

- a student be given an unconditional pass;
- be given a conditional pass, with the requirement that the student produce additional evidence of research accomplishments during the oral part of the exam before being granted admission to candidacy;
- repeat the written part the next time it is offered; or
- terminate graduate study.

In addition, the faculty may decide to discontinue financial support to a student based on the student's performance on the qualifying or comprehensive examination. Students will receive written notification of the exam's outcome from the Graduate Physics Program Head within 30 days of the exam. Appeals must be addressed to the Physics Department Head within 30 days of receiving written notification of the exam's outcome and will be decided by the physics faculty.

A student granted an unconditional or conditional pass on the written part of the comprehensive examination must take the oral part in the same semester that the written part was taken; the student's Ph.D. committee makes the final decision, following the oral part of the comprehensive examination, on admission of the student to the candidacy to the doctoral degree.

Students may choose areas of emphasis from a variety of experimental, theoretical and computational research programs in the department. The current major research areas of the department include atmospheric physics, condensed matter physics/materials science, geophysics, optics, particle and nuclear physics, physics education, and others. These research projects are supported by multimillion-dollar funding by various federal agencies and two national laboratories within the state of New Mexico: Los Alamos National Laboratory and Sandia National Laboratories. In addition to the in-house research, the department conducts collaborative research programs with

- The Brookhaven National Laboratory,
- The Center for Integrated NanoTechnologies,
- Los Alamos National Laboratory,
- Sandia National Laboratories,
The Thomas Jefferson Laboratory,
Fermilab,
Air Force Research Laboratory and
other national and international laboratories.

The MS in Physics with a concentration in Space Physics program provides students with a strong foundation in physics with an intensive focus on space physics. Graduate study in space physics at the master's level prepares graduates for continued and specialized study toward the doctorate program in space-related fields as well as for challenges they will confront in space industrial and government settings.

The department is housed in a newly-renovated building which contains research laboratories, classrooms, offices and a computational laboratory.

Degrees for the Department

Physics - Bachelor of Arts (p. 511)
Physics - Bachelor of Science (p. 513)
Engineering Physics - Bachelor of Science in Engineering Physics (p. 511)
Physics - Master of Science (p. 515)
Physics - Doctor of Philosophy (p. 516)

Dual Degree
Physics-Bachelor of Science/Master of Science (p. 513) (scroll to bottom of the B.S. Page for more information)

Minors for the Department

Physics - Undergraduate Minor (p. 515)
Physics - Graduate Minor (p. 516)

Professor, Stefan Zollner, Department Head
Professor, Stephen Pate, Undergraduate Program Head
Associate Professor, Vassili Papavassiliou, Graduate Program Head
Professor, Heinz Nakotte, Engineering Physics Program Head

Professors Ma. Burkardt, Engelhardt, Kiefer, Nakotte, Pate, Vasiliev, Zollner; Associate Professors Hearn, Papavassiliou, Urquidi; Assistant Professors Cooper, Fohtung, Schlegel, Waszek; College Professors Mi. Burkardt, DeAntonio; Emeritus Faculty Burleson, Gibbs, Goedecke, Kanim, Kyle, Liefeld, Ni.

Geophysics Courses

GPHY 340V. Planet Earth
3 Credits

GPHY 450. Selected Topics
1-3 Credits
Readings, discussions, lectures or laboratory studies of selected areas of geophysics. May be repeated for a maximum of 12 credits.
Prerequisite: consent of instructor.

GPHY 510. Geophysical Field Methods
1-3 Credits (3-9P)
Field collection, reduction, and interpretation of geophysical data; equipment operation.

GPHY 520. Selected Topics
1-3 Credits
Formal treatment of graduate topics not covered in regular courses. May be repeated for unlimited credit.
Prerequisites: graduate standing, consent of instructor, and selection of a specific topic prior to registration.

GPHY 530. Seismology
3 Credits
Seismic wave propagation in a layered earth, ray theory, exploration techniques, earth structure, and seismicity. May be repeated up to 3 credits.
Prerequisite(s): PHYS 511 or consent of instructor.

GPHY 560. Applied Inverse Theory
3 Credits
Inversion of data with an emphasis on geophysical problems. Curve fitting, tomography, earthquake location, over determined and under determined problems, linear and nonlinear problems. Computing experience desirable. May be repeated up to 3 credits. Consent of Instructor required.

GPHY 598. Special Research Problems
1-3 Credits
Individual investigations, either analytical or experimental. May be repeated for unlimited credit.

GPHY 599. Master’s Thesis
1-15 Credits (1-15)
Thesis.

GPHY 620. Advanced Topics in Geophysics
3 Credits
Advanced formal treatment of a topic or topics not covered in regular courses. May be repeated for unlimited credit.
Prerequisite: consent of instructor.

GPHY 700. Doctoral Dissertation
1-15 Credits (1-15)
Dissertation.
Physics Courses

PHYS 110G. The Great Ideas of Physics
4 Credits (3+3P)
Conceptual, quantitative, and laboratory treatments of the great ideas and discoveries that have influenced lives and changed perceptions of nature, from Johannes Kepler’s laws of planetary motion and Isaac Newton’s and Albert Einstein’s laws of motion and gravity to the modern concepts of the quantal structure of nature and the big bang universe.

PHYS 120G. Introduction to Acoustics
4 Credits (3+2P)
Lecture, demonstration, and laboratory treatment of the general properties of waves, the production, transmission, and reception of sound waves, including musical and vocal sounds, and characteristics of the human ear and several kinds of sources.

PHYS 150. Elementary Computational Physics
3 Credits (2+2P)
Introduction to computational techniques for the solution of physics-related problems. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in MATH 121G or MATH 190G or MATH 191G.

PHYS 203. Supplemental Instruction to PHYS 213
0.5-1 Credits (.5-1)
Optional workshop as a supplement to PHYS 213. The tutorial sessions focus on reasoning and hands-on problem solving. May be repeated up to 1 credits.
Corequisite(s): PHYS 213.

PHYS 204. Supplemental Instruction to PHYS 214
0.5-1 Credits (.5-1)
Optional workshop as a supplement to PHYS 214. The tutorial sessions focus on reasoning and hands-on problem solving. May be repeated up to 1 credits.
Corequisite(s): PHYS 214.

PHYS 205. Supplemental Instruction to PHYS 215G
0.5-1 Credits (.5-1)
Optional workshop as a supplement to PHYS 215G. The tutorial sessions focus on reasoning and hands-on problem solving. May be repeated up to 1 credits.
Corequisite(s): PHYS 215G.

PHYS 206. Supplemental Instruction to PHYS 216G
0.5-1 Credits (.5-1)
Optional workshop as a supplement to PHYS 216G. The tutorial sessions focus on reasoning and hands-on problem solving. May be repeated up to 1 credits.
Corequisite(s): PHYS 216G.

PHYS 210. Introductory Physics for the Health Sciences
3 Credits
Algebra-level introduction to topics required for the Health Sciences including basic mechanics (including sound, mechanical waves and fluids), heat and thermodynamics, electricity and magnetism, optics and electromagnetic waves, atomic and nuclear physics and applications to medical imaging. Restricted to Community Colleges campuses only.
Prerequisite(s): MATH 120 or Equivalent.

PHYS 211G. General Physics I
3 Credits
Non-calculus treatment of mechanics, waves, sound, and heat. Knowledge of simple algebra and trigonometry is required.

PHYS 211GL. General Physics I Laboratory
1 Credit
Laboratory experiments in topics associated with material presented in PHYS 211G.
Prerequisite(s)/Corequisite(s): PHYS 211G.

PHYS 212G. General Physics II
3 Credits
Non-calculus treatment of electricity, magnetism, and light. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 211G or PHYS 221G.

PHYS 212GL. General Physics II Laboratory
1 Credit
Laboratory experiments in topics associated with material presented in PHYS 212G.
Prerequisite(s)/Corequisite(s): PHYS 212G.

PHYS 213. Mechanics
3 Credits
Newtonian mechanics. Pre/Corequisite(s): MATH 191G.

PHYS 214. Electricity and Magnetism
3 Credits
Charges and matter, the electric field, Gauss law, the electric potential, the magnetic field, Ampère’s law, Faraday’s law, electric circuits, alternating currents, Maxwell’s equations, and electromagnetic waves. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): MATH 192G. Prerequisite(s): a C- or better in PHYS 213 or PHYS 215G, and MATH 191G.

PHYS 214L. Electricity and Magnetism Laboratory
1 Credit
Laboratory experiments associated with the material presented in PHYS 213. Science majors. Pre/Corequisite(s): PHYS 213.

PHYS 214L. Electricity and Magnetism Laboratory
1 Credit
Laboratory experiments associated with the material presented in PHYS 214.
Prerequisite(s)/Corequisite(s): PHYS 214. Prerequisite(s): a C- or better in PHYS 213L or PHYS 215GL.

PHYS 215G. Engineering Physics I
3 Credits
Calculus-level treatment of kinematics, work and energy, particle dynamics, conservation principles, simple harmonic motion. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in MATH 191G.

PHYS 215GL. Engineering Physics I Laboratory
1 Credit
Laboratory experiments associated with the material presented in PHYS 215G. Students wishing to use the PHYS 215G-216G sequence to satisfy the basic natural science general education requirement must register for either PHYS 215GL or PHYS 216GL. Pre/Corequisite(s): PHYS 215G.

PHYS 216G. Engineering Physics II
3 Credits
A calculus-level treatment of topics in electricity, magnetism, and optics. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 213 or PHYS 215G and MATH 192G.
PHYS 216GL. Engineering Physics II Laboratory
1 Credit
Laboratory experiments associated with the material presented in PHYS 216G.
Prerequisite(s)/Corequisite(s): PHYS 216G. Prerequisite(s): A C- or better in PHYS 213L or PHYS 215GL.

PHYS 217. Heat, Light, and Sound
3 Credits
Calculus-level treatment of thermodynamics, geometrical and physical optics, and sound. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 213 or PHYS 215G, and MATH 191G.

PHYS 217 L. Experimental Heat, Light and Sound
1 Credit
Laboratory experiments associated with the material presented in PHYS 217. Science majors.
Prerequisite(s)/Corequisite(s): PHYS 217. Prerequisite(s): a C- or better in PHYS 213L or PHYS 215GL.

PHYS 218. Supplemental Instruction to PHYS 217
0.5-1 Credits (.5-1)
This optional workshop supplements PHYS 217 "Heat, Light, and Sound". Students actively apply concepts and methods introduced in PHYS 217 to problem solving and quantitative analysis. May be repeated up to 1 credits.
Corequisite(s): PHYS 217.

PHYS 221G. General Physics for Life Sciences I
3 Credits
This algebra-based introduction to general physics covers mechanics, waves, sound, and heat. Special emphasis is given to applications in the life sciences. This course is recommended for students in the life sciences and those preparing for the physics part of the MCAT.
Prerequisites: a C or better in MATH 120 or higher.

PHYS 221GL. Laboratory to General Physics for Life Science I
1 Credit
Laboratory experiments in topics associated with material presented in PHYS 221G.
Prerequisite(s)/Corequisite(s): PHYS 221G. Restricted to Las Cruces campus only.

PHYS 222G. General Physics for Life Sciences II
3 Credits
This algebra-based course covers electricity, magnetism, light, atomic physics, and radioactivity. Special emphasis is given to applications in the life sciences This course is recommended for students in the life sciences and those preparing for the physics part of the MCAT. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 211G or PHYS 221G, and MATH 121G.

PHYS 222GL. Laboratory to General Physics for Life Sciences II
1 Credit
Laboratory experiments in topics associated with material presented in PHYS 222G.
Prerequisite(s)/Corequisite(s): PHYS 222G. Restricted to Las Cruces campus only.

PHYS 223. Supplemental Instruction to PHYS 221
1 Credit
This optional workshop supplements Physics for Life Sciences I. The tutorial sessions focus on reasoning and hands-on problem solving.
Corequisite(s): PHYS 221G.

PHYS 224. Supplemental Instruction to PHYS 222
1 Credit
This optional workshop is a supplement to Physics for Life Science II. The tutorial sessions focus on reasoning and hands-on problem solving.
Corequisite(s): PHYS 222G.

PHYS 280. Independent Study
1-3 Credits
Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

PHYS 290. Special Topics
1-3 Credits
Topics to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

PHYS 303V. Energy and Society in the New Millennium
3 Credits
Traditional and alternative sources of energy. Contemporary areas of concern such as the state of depletion of fossil fuels; nuclear energy, solar energy, and other energy sources; environmental effects; nuclear weapons; and health effects of radiation. Discussion of physical principles and impact on society. Focus on scientific questions involved in making decisions in these areas. No physics background required.

PHYS 304. Forensic Physics
4 Credits (3+3P)
Theories, laboratory, and field techniques in the area of forensic physics.

PHYS 305V. The Search for Water in the Solar System
3 Credits
Examines the formation, abundance and ubiquity of water in our Solar System stemming from comets, Martian and Lunar poles, Earth's interior and into the outer reaches of the Solar System. Topics will include nuclear synthesis, Solar System formation, remote sensing, as well as past, present and future NASA missions for water.

PHYS 309. Modern Physics
3 Credits
An introduction to relativity and quantum mechanics, with applications to atoms molecules, solids, nuclei, and elementary particles. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in MATH 291G and PHYS 214 or PHYS 216G.

PHYS 309L. Experimental Modern Physics
3 Credits (1+6P)
Elementary laboratory in modern physics which supports the subject matter in PHYS 309. Required for physics majors. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): PHYS 309. Prerequisite(s): a C- or better in PHYS 214L or 216GL.

PHYS 315 L. Experimental Modern Physics
1 Credit
This optional workshop supplements PHYS 315 "Modern Physics". Students actively apply concepts and methods introduced in PHYS 315 to problem solving and quantitative analysis.
Corequisite(s): PHYS 315.

PHYS 350. Special Topics
1-3 Credits
Lectures, demonstrations, and discussions on such topics as lasers and holography, energy sources, clouds, and biophysics. May be repeated for a maximum of 12 credits under different subtitles.
Phys 380. Individual Study
1-3 Credits
Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

Phys 395. Intermediate Mathematical Methods of Physics
3 Credits
Introduction to the mathematics used in intermediate-level physics courses. Topics include vector calculus, curvilinear coordinates, matrices, linear algebra, function spaces, partial differential equations, and special functions. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): MATH 392. Prerequisite(s): a C- or better in MATH 291G.

Phys 400. Undergraduate Research
1-3 Credits
May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

Phys 420. Capstone Project I
3 Credits
Application of engineering physics principles to a significant design project. Includes teamwork, written and oral communication and realistic technical, economic and public safety requirements.

Phys 421. Capstone Project II
3 Credits
Continuation of Phys 420.

Phys 450. Selected Topics
1-3 Credits
Readings, lectures or laboratory studies in selected areas of physics. May be repeated for a maximum of 12 credits.

3 Credits
Vector calculus, Lagrangian and Hamiltonian formulations of Newtonian mechanics. Topics include central force motion, dynamics of rockets and space vehicles, rigid body motion, noninertial reference frames, oscillating systems, relativistic mechanics, classical scattering, and fluid mechanics. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): MATH 392. Prerequisite(s): a C- or better in PHYS 213 or PHYS 215G, and MATH 291G.

Phys 454. Intermediate Modern Physics I
3 Credits
Introduction to quantum mechanics, focusing on the role of angular momentum and symmetries, with application to many atomic and subatomic systems. Specific topics include intrinsic spin, matrix representation of wave functions and observables, time evolution, and motion in one dimension. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): MATH 392 and PHYS 395. Prerequisite(s): a C- or better in PHYS 315.

Phys 455. Intermediate Modern Physics II
3 Credits
Continuation of subject matter of Phys 454. Specific topics include rotation and translation in three dimensions, solution of central potential problems, perturbation theory, physics of identical particles, scattering theory, and the interaction between photons and atoms. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 454, MATH 392, and PHYS 395.

Phys 461. Intermediate Electricity and Magnetism I
3 Credits
The first part of a two-course sequence in classical electrodynamics. Covered topics include static electric and magnetic fields, Laplace's and Poisson's equations, electromagnetic work and energy, Lorentz force, Gauss's, Biot-Savart, and Ampere's laws, Maxwell's equations, as well as electric and magnetic fields in matter. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): MATH 392 and PHYS 395. Prerequisite(s): a C- or better in PHYS 214 or PHYS 216G or equivalent and a C- or better in MATH 291G.

Phys 462. Intermediate Electricity and Magnetism II
3 Credits
Continuation of subject matter of PHYS 461. Covered topics include Maxwell's equations and their applications, electromagnetic waves, reflection, refraction, dispersion, radiating systems, interference and diffraction, as well as Lorentz transformations and relativistic electrodynamics. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 461, MATH 392, and PHYS 395.

Phys 467. Nanoscience and Nanotechnology
3 Credits
See CHME 467. Crosslisted with: CHME 467. ).
Prerequisite(s): CHEM 112 and (PHYS 211 or PHYS 215) and (EH&S Safety training to include the courses: (1) Employee & Hazard Communication Safety (HazCom); (2) Hazardous Waste Management; and (3) Laboratory Standard.

Phys 471. Modern Experimental Optics
3 Credits (1+6P)
Advanced laboratory experiments in optics related to the material presented in PHYS 473 and PHYS 489.
Prerequisite(s): a C- or better in PHYS 315 and PHYS 315 L.

Phys 473. Introduction to Optics
4 Credits
The nature of light, Geometrical optics, basic optical instruments, wave optics, aberrations, polarization, and diffraction. Elements of optical radiometry, lasers and fiber optics. May be repeated up to 4 credits. Crosslisted with: E E 473.
Prerequisite(s): PHYS 216G or PHYS 217.

Phys 475. Advanced Physics Laboratory
3 Credits
Advanced undergraduate laboratory involving experiments in atomic, molecular, nuclear, and condensed-matter physics. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 315 and PHYS 315 L.

Phys 476. Computational Physics
3 Credits
An introduction to finite difference methods, Fourier expansions, Fourier integrals, solution of differential equations, Monte Carlo calculations, and application to advanced physics problems. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 150 or equivalent and MATH 392.

Phys 478. Fundamentals of Photonics
4 Credits (3+3P)
Prerequisite(s): PHYS 216G or PHYS 217.

Phys 479. Lasers and Applications
4 Credits (3+3P)
See E E479 Crosslisted with: E E479.
Prerequisite(s): C- or better in E E 315 or PHYS 461.
PHYS 480. Thermodynamics
3 Credits
Thermodynamics and statistical mechanics. Basic concepts of temperature, heat, entropy, equilibrium, reversible and irreversible processes. Applications to solids, liquids, and gases. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 217, PHYS 315, and MATH 291G.

PHYS 485. Independent Study
1-3 Credits
Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

PHYS 488. Introduction to Condensed Matter Physics
3 Credits
Crystal structure, X-ray diffraction, energy band theory, phonons, cohesive energy, conductivities, specific heats, p-n junctions, defects, surfaces, and magnetic, optical, and low-temperature properties. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 315.

PHYS 489. Introduction to Modern Materials
3 Credits
Structure and mechanical, thermal, electric, and magnetic properties of materials. Modern experimental techniques for the study of material properties. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 315.

PHYS 491. High Energy Physics I
3 Credits
Prerequisite(s): a C- or better in PHYS 455.

PHYS 493. Experimental Nuclear Physics
3 Credits (1+6P)
Selected experimental investigations in nuclear physics such as measurement of radioactivity, absorption of radiation, nuclear spectrometry. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 315 and PHYS 315L.

PHYS 495. Mathematical Methods of Physics I
3 Credits
Applications of mathematics to experimental and theoretical physics. Topics selected from: complex variables; special functions; numerical analysis; Fourier series and transforms, Laplace transforms. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in MATH 392 and PHYS 395.

PHYS 500. Special Topics Seminar
1-2 Credits
Treatment of topics not covered by regular courses. Graded S/U. May be repeated.

PHYS 511. Mathematical Methods of Physics I
3 Credits
Same as PHYS 495. Additional work required at a more advanced level.

PHYS 520. Selected Topics
1-3 Credits
Formal treatment of graduate-level topics not covered in regular courses. May be repeated for a maximum of 9 credits.
Prerequisites: graduate standing, consent of instructor, and selection of a specific topic prior to registration.

PHYS 521. Individual Study
1-3 Credits
Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.
Prerequisites: graduate standing, consent of instructor, and selection of a specific topic prior to registration.

PHYS 528. Fundamentals of Photonics
4 Credits (3+3P)
Same as E E 528. Crosslisted with: E E528.

PHYS 551. Classical Mechanics
3 Credits
Lagrangian and Hamiltonian formulation of dynamics. Advanced treatments of most topics listed under PHYS 451, plus canonical transformations and Hamilton-Jacobi theory. PHYS 451 strongly recommended.

PHYS 554. Quantum Mechanics I
3 Credits

PHYS 555. Quantum Mechanics II
3 Credits
Continuation of topics in PHYS 554.
Prerequisites: PHYS 554 or consent of instructor.

PHYS 561. Electromagnetic Theory I
3 Credits
Detailed advanced treatments of most topics listed under PHYS 461, PHYS 462, plus multipole radiation, collisions of charged particles and bremsstrahlung, scattering, and radiation reaction. PHYS 461 and PHYS 462 strongly recommended.

PHYS 562. Electromagnetic Theory II
3 Credits
Continuation of topics in PHYS 561.
Prerequisites: PHYS 561 or consent of instructor.

PHYS 567. Nanoscience and Nanotechnology
3 Credits
See CHME 567. Crosslisted with: CHME 567.

PHYS 568. Elements of X-ray Diffraction
3 Credits
Same as PHYS 468, but additional work required. Crosslisted with: CHME 588.

PHYS 571. Advanced Experimental Optics
3 Credits
Taught with PHYS 471 with additional work required at the graduate level. Consent of Instructor required.
Prerequisite(s): PHYS 473 or PHYS 562.
PHYS 575. Advanced Physics Laboratory
3 Credits
Selected experiments in atomic, molecular, nuclear and condensed-matter physics.

PHYS 576. Advanced Computational Physics I
3 Credits
Advanced treatment of topics listed under PHYS 476, plus additional required work. Applications of numerical methods to complex physical systems. Recommended knowledge of Fortran or C, and MATH 377 or MATH 392. Same as PHYS 476, but additional work required.

PHYS 584. Statistical Mechanics
3 Credits

PHYS 588. Condensed Matter Physics
3 Credits
Same as PHYS 488, but additional work required.
Prerequisite(s): PHYS 554 or consent of instructor.

PHYS 589. Modern Materials
3 Credits
Same as PHYS 489 with differentiated assignments for graduate students.
Prerequisite: PHYS 554 or consent of instructor.

PHYS 591. Advanced High-Energy Physics I
3 Credits
Taught with PHYS 491 with additional work required at the graduate level.
Prerequisite(s): PHYS 555 or consent of instructor.

PHYS 592. Advanced High-Energy Physics II
3 Credits
Continuation of topics in PHYS 591
Prerequisite(s): PHYS 591.

PHYS 593. Advanced Experimental Nuclear Physics
3 Credits (1+6P)
Advanced experimental investigation of topics such as measurement of radioactive decay, absorption of radiation, and nuclear spectrometry.

PHYS 597. Space Plasma Physics
3 Credits
Same as PHYS 497 but with added requirements.

PHYS 599. Master's Thesis
1-15 Credits (1-15)
Thesis.

PHYS 600. Research
1-15 Credits
Doctoral research. May be repeated.

PHYS 620. Advanced Topics in Physics
1-3 Credits
Advanced formal treatment of topics not covered in regular courses. May be repeated for a maximum of 9 credits.
Prerequisite: consent of instructor.

PHYS 650. General Relativity I
3 Credits
Basic foundations and principles of general relativity, derivation of the Einstein field equations and their consequences, the linearized theory, the Bel-Petrov classification of the curvature tensor, derivation of the Schwarzschild solution and the four basic tests of general relativity.
Prerequisite(s): PHYS 511 or PHYS 561 or consent of instructor.

PHYS 680. Independent Study
1-3 Credits
Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.
Prerequisite: graduate standing or consent of instructor.

PHYS 688. Advanced Condensed Matter Physics
3 Credits
Continuation of the advanced condensed matter physics presented in PHYS 588. Topics include electronic structure methods, optical, magnetic, and transport properties of solids, semiconductors, crystalline defects, nanostructures, and noncrystalline solids. PHYS 588 strongly recommended.

PHYS 689. Advanced Modern Materials
3 Credits
Advanced topics in the physics of modern materials, such as crystalline, amorphous, polymeric, nanocrystalline, layered, and composite materials and their surfaces and interfaces.
Prerequisites: PHYS 555, PHYS 588, or consent of instructor.

PHYS 691. Quantum Field Theory I
3 Credits
Path integrals, gauge invariance, relativistic quantum mechanics, canonical quantization, relativistic quantum field theory, introduction to QED.
Prerequisites: PHYS 555 and PHYS 562, or consent of instructor.

PHYS 692. Quantum Field Theory II
3 Credits
QED, running coupling constant, QCD, electroweak theory, asymptotic freedom, deep inelastic scattering, basic QCD phenomenology, path integrals in quantum field theory, lattice QCD.
Prerequisite: PHYS 691 or consent of instructor.

PHYS 700. Doctoral Dissertation
1-15 Credits (1-15)
Dissertation.

Phone: (575) 646-3831
Website: http://physics.nmsu.edu/

Engineering Physics - Bachelor of Science in Engineering Physics

The Bachelor of Science in Engineering Physics is a joint degree program of the Department of Physics and the College of Engineering. This degree is ideal preparation for technical careers in high-tech industries, research laboratories, and the public sector. It also provides an excellent preparation for graduate studies in physics or engineering. A full description of the program requirements can be found in the College of Engineering (p. 780) section of this catalog.

Physics - Bachelor of Arts

The curriculum for the Bachelor of Arts degree is designed for students who would like to have a firm foundation in physics combined with study
in another area and greater flexibility in choosing elective courses. The program requires a minor in a second field of study chosen by the student in consultation with an advisor.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

or SPAN 112  Elementary Spanish II

OR

Challenge the 213 level for the following courses:
PORT 213  Portuguese for Romance Language 3
or SPAN 213  Spanish for Heritage Learners II

Option 4:
Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

Option 5:
Obtain college certification of completion of two years of a second language at the high school level with a grade of C- or higher in the second-year level.

Option 6:
By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

Option 7:
By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

Option 8:
In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

Suggested Minors for the Bachelor of Arts

Physics Major

Basic Science Minor— A minor in a related scientific field broadens the overall knowledge of the student majoring in physics. Some departments which offer such minors are astronomy, chemistry, computer science, geology and mathematics.

Prehealth Minor— Students wishing to attend a medical or dental post-graduate school are strongly encouraged to obtain a minor in a life science field such as biochemistry, biology, human biology or microbiology.

Prelaw Minor— Students wishing to attend a post-graduate law school should obtain a minor in a law-related field, such as government, accounting, finance, international business or a Supplementary Major in Law and Society (24 credits).

Physics - Bachelor of Science

A Bachelor of Science degree in physics at NMSU prepares a student well for graduate study in physics, geophysics, or engineering or for a variety of careers in research and teaching.

Physics - Bachelor of Science (No Concentration)

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Geophysics courses are offered by the Department of Physics and are listed under “Geophysics” in the course description chapter of this catalog.

Second Language Requirement

For the Bachelor of Science in the Physics there is a one year second language requirement, the student must do one of the following:

Option 1:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHIN 111</td>
<td>Elementary Chinese I</td>
<td>4</td>
</tr>
<tr>

<td>Elementary Chinese II</td>
<td>4</td>
</tr>
<tr>
<td>or FREN 112</td>
<td>Elementary French II</td>
<td></td>
</tr>
</tbody>
</table>
or GER 112 Elementary German II
or JPNS 112 Elementary Japanese II
or SPAN 112 Elementary Spanish II

**For Heritage Learners:**
SPAN 213 Spanish for Heritage Learners II 3
or SPAN 214 Spanish for Heritage Learners III
or PORT 213 Portuguese for Romance Language Students I
or PORT 214 Portuguese for Romance Language Students II

**Option 2:**
Prefix Title Credits
Complete two semesters of American Sign Language (with a C- or better):
CD 374 American Sign Language I 3
CD 375 American Sign Language II 3

**Option 3:**
Prefix Title Credits
Challenge the 112 level for the following courses:
CHIN 112 Elementary Chinese II 4
or FREN 112 Elementary French II
or GER 112 Elementary German II
or SPAN 112 Elementary Spanish II

**Option 4:**
Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

**Option 5:**
Obtain college certification of completion of two years of a second language at the high school level with a grade of C- or higher in the second-year level.

**Option 6:**
By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

**Option 7:**
By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

**Option 8:**
In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

**Dual Degree (BS/MS) Program**
This program option is designed to provide a means for PHYS undergraduates to obtain both a BS and an MS degree with 138 credits (normally BS=120 credits, MS=30 credits). Students electing this option will follow the regular undergraduate BS in physics curriculum, except that they take the advanced laboratory course at the 5XX level to meet their BS requirements. They also apply nine other credits of their undergraduate courses numbered 450 and higher towards their MS degree, requiring only an additional 18 credits for the MS. These 18 credits can be obtained in two semesters (and perhaps one summer term to write and defend an MS thesis). Students interested in this dual degree must be admitted to the MS in Physics graduate program and must fulfill all degree requirements for the MS in Physics.

**Physics - Undergraduate Minor**
A student cannot earn a BA or a BS in Physics and a minor in Physics. The minor in Physics requires a minimum of 18 credits distributed as follows:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 213</td>

1 Other courses may be chosen with the approval of the Physics department head.

**Physics - Master of Science**
For the master’s degree, students must also successfully complete or transfer at least 30 course credits and pass a final oral examination or the doctoral comprehensive examination. Of these 30 credits, at least 21 must be in physics/geophysics, at most 3 may be for individual study or other informal courses, at most 6 may be for a thesis, and at most 9
Physics - Doctor of Philosophy

For the Ph.D. degree, students must also pass the doctoral comprehensive examination, carry out original research, complete a dissertation, and pass a final oral examination. They must also pass or transfer at least 36 credits in formal courses numbered above 500 in physics/geophysics, including 24 credits of core graduate courses, and complete at least 6 credits of formal courses numbered above 600. The total number of credits, including formal and informal course credits and a minimum of 18 dissertation credits, must be at least 72. Financial support is available to graduate students in physics through teaching and research assistantships and fellowships. Inquiries about these opportunities should be directed to the graduate program director.

Total Credits: 27

Physics - Graduate Minor

Eligibility

This minor is available to graduate students not majoring in Physics or Geophysics.

Requirements

A student must satisfy the following requirements to earn a graduate minor in Physics:

- Successfully complete 12 credit hours of courses in Physics or Geophysics numbered above 500. Of these, not more than 3 credit hours can be for research, independent study, or other informal courses.
- Pass one of the four sections of the Physics Department's Qualifying Exam at the Ph.D. level.
- A member of the Physics faculty must be a member of the student's graduate committee.

Psychology

Undergraduate Program Information

Students may take a major in psychology either as an area of emphasis in a liberal arts program or in preparation for further graduate education leading to professional careers in psychology. A major in psychology
may be appropriate for the liberal arts student who wishes to pursue a career involving extensive social interaction and requiring solutions to people-related problems. Such careers include law, business, parenting, government, education, and management. Professional careers in psychology generally require some post-baccalaureate education. These careers include provision of clinical and counseling services, conducting research, applying research findings in industrial or government settings, and doing teaching and research in colleges and universities. All students, but especially those planning to apply to graduate school, are encouraged to take PSY 310 Experimental Methods, no later than the Spring semester of their junior year.

Requirements for the Bachelor of Arts in Psychology are listed here (p. 521). Satisfying these requirements should provide an adequate exposure to psychology for the liberal arts student and a basic foundation for students seeking a career in psychology. Students wishing to prepare for a professional career in psychology are especially encouraged to work closely with an advisor, as early as possible.

**Graduate Program Information**

**Admission**

The Department of Psychology offers graduate work leading to the Master of Arts and Doctor of Philosophy degrees. To maximize consideration for admittance, candidates should submit applications by January 15. Note that the Psychology Department does not offer training in counseling or clinical psychology.

Students will be admitted to graduate study on the basis of their potential for achievement in research, scholarship and teaching. The most promising applicants will be accepted. The number of students that the department can successfully accommodate is limited, therefore it will not always be possible to admit all qualified applicants. The admissions committee will consider any material that a candidate for admission wishes to present.

Students with bachelor degrees should apply for admittance to the master’s program even if their eventual goal is a Ph.D. Students with a master’s degree in psychology-related disciplines or from other institutions may apply directly to the Ph.D. program.

A completed Graduate School admission application (online only) should include all of the following:

1. Complete transcripts of all college work (minimum 3.0 GPA).
2. Scores on the General Graduate Record Examination. Applicants to the MA program are most likely to be considered with minimum scores of 155 Verbal, 156 Quantitative, 4.5 Analytical Writing. Applicants to the PhD program are most likely to be admitted with minimum scores of 158 Verbal, 159 Quantitative, and 4.5 Analytical Writing. Scores on the GRE Psychology test are not required.
3. Three letters of recommendation from professors, employers or others qualified to evaluate your potential for graduate work.
4. A letter explaining your research interests and experience, career goals, and an indication of the faculty member(s) whose work is of particular interest to you.
5. A curriculum vitae or résumé.
6. A writing sample (e.g., a paper you wrote for a course, a senior thesis, or a master's thesis) uploaded through online application system. Ideally, the sample should demonstrate your ability to write clearly about psychological research.

As per NMSU Graduate School policy, admission to the doctoral program is conditional upon passing a qualifying exam. In Psychology this generally involves giving a presentation about a completed, empirical Masters thesis project to an examining committee. Also, if there are perceived gaps in preparedness, once at NMSU, candidates may be asked to complete certain coursework/research projects to address deficiencies.

A number of potential minors are available to interested students, including a minor in statistics (p. 577). Additional information about a minor may be found in the listing of the home department in this catalog.

**Degrees for the Department**

**Psychology - Bachelor of Arts**

Experimental Psychology - Master of Arts (p. 523)

Experimental Psychology - Doctor of Philosophy (p. 524)

**Minors for the Department**

Psychology - Undergraduate Minor (p. 523)

Psychology - (p. 524) Graduate Minor (p. 524)

**Associate Professor, Dominic A. Simon, Department Head**

**Professors** Trafimow; **Associate Professors** Guynn, Hout, Ketelaar, Kroger, MacDonald, Madson, Marks; **Assistant Professors** Fraune; **Emeritus Faculty** Cowie, Johnston, McDonald, Paap, Schvaneveldt, Stephan, Thompson.

**Psychology Courses**

**PSY 201G. Introduction to Psychology**

3 Credits

Methods and principles of behavior. Topics include human evolution and development, biopsychology, perception, learning, thinking, motivation, social interaction, and the diagnosis and treatment of abnormal behavior.

**PSY 211. Introduction to Research**

1 Credit

Introductory skills in library and on-line research. Emphasizes the scientific method including oral and written presentation of research according to the APA Style Handbook. Does not replace PSY 310 as requirement in B.A. degree. Community Colleges only.

**PSY 266. Applied Psychology**

3 Credits

Explanation of the psychological principles of everyday living. Emphasizes motivation, learning of intelligent behavior, and applications of psychology to social issues. Community Colleges only.
PSY 274. A Study of Substance Abuse through Service Learning  
3 Credits  
Physiological and psychological impact of drug use on human behavior. Emphasizes practical applications of intervention and prevention in the community. Community Colleges only.  

PSY 290. Psychology of Adjustment  
3 Credits  
Analyzes the responses people have to conflict, emotional stress, and frustration. It focuses on adapting to these problems and examines both normal and neurotic responses. Community College campus only.  

PSY 301. Introduction to Psycholinguistics  
3 Credits  
Psychological aspects of language, including linguistic theories of grammar, psychological factors influencing language performance, primary language acquisition and the relationship of language to thought processes. Same as LING 301.  
**Prerequisites:** PSY 201G and one of: STAT 251G, STAT 271G, or A ST 311; and PSY 310 or consent of instructor.  

PSY 302. Abnormal Psychology  
3 Credits  
Introduces the types, causes, and treatment of mental disorders. Descriptions and explanations of the neuroses, affective disorders and the psychoses. Case histories are also analyzed.  
**Prerequisites:** PSY 201G, MATH 120 and ENGL 111G.  

PSY 310. Experimental Methods  
4 Credits (2+4P)  
The basic skills of literature search, experimental design, research methodology, and research reporting are emphasized; includes laboratory.  
**Prerequisite(s):** PSY 201G, and either STAT 251G, STAT 271G, or A ST 311.  

PSY 311. Advanced Research Seminar  
4 Credits (2+4P)  
Psychological research in conjunction with designing, conducting, writing, and presenting an independent research project. May also include various computer applications. Will discuss issues regarding application to graduate programs. Course should be taken no later than the first semester of senior year.  
**Prerequisite:** PSY 310.  

PSY 315. Emotion  
3 Credits  
An overview of the past century of research on human emotion from William James to Antonio Damasio. Explores a cognitive science perspective on emotion that includes questions about developmental, physiological, and evolutionary aspects of emotion and an exploration of the proximate and ultimate functions of emotion. Topics range from understanding the feeling component of emotion to understanding the role of facial displays of emotion.  
**Prerequisite(s):** PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310 or consent of instructor.  

PSY 317. Social Psychology  
3 Credits  
Ways in which people are influenced by the behavior of others are analyzed. Includes aggression, altruism, conformity, attraction, sexual behavior, prejudice, and nonverbal behavior.  
**Prerequisites:** PSY 201G, MATH 120, and ENGL 111G.  

PSY 320. Learning  
4 Credits (3+2P)  
Covers: habituation, Pavlovian conditioning, Thorndikian learning, stimulus generalization, transfer of training, and the learning and forgetting of related and unrelated material.  
**Prerequisites:** PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310.  

PSY 321. Psychology of Personality  
3 Credits  
Introduces personality theories and supporting research. Psychoanalytic, physiological, and behavioral theories as they apply to personality are examined. Focuses on normal personality functioning.  
**Prerequisites:** PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310.  

PSY 324. Sexual Behavior  
3 Credits  
Examines viewpoints of the evolution, control and function of human sexual behavior. Includes human sexuality, reproduction, male-female conflicts and the social implications of sex. Prerequisites: PSY 201G, MATH 120, and ENGL 111G.  

PSY 325. Health Psychology  
3 Credits  
Life stress, surgical stress, coronary-prone behavior, biofeedback, pain control, psychosocial approaches to geriatrics and cancer; behavioral treatments for addictions, obesity, and interpersonal issues in health care.  
**Prerequisite:** PSY 201G.  

PSY 330. Psychology and the Law  
3 Credits  
Discretionary practices in the judicial system including pretrial procedures, jury selection, jury decision making, eyewitness testimony, insanity, expert witnesses, and probation judgments.  
**Prerequisite:** PSY 201G.  

PSY 340. Cognitive Psychology  
3 Credits  
Review of research and theory in the study of human cognitive processes. Topics include information processing, pattern recognition, memory, attention, language, problem solving, decision making, and reasoning. May be repeated up to 3 credits.  
**Prerequisite(s):** PSY 201G, MATH 120, and ENGL 111G.  

PSY 342. Cognitive Neuroscience  
3 Credits  
Introduction to the study of the neural mechanisms underlying cognitive processes. Topics include relations between neural processes and attention, perception, memory, thinking and language; measuring changes in electrical activity, blood flow, and metabolism in the brain during cognition; the problem of consciousness; and evolutionary perspectives.  
**Prerequisites:** PSY 201G and PSY 310.  

PSY 350. Developmental Psychology: Conception through Childhood  
3 Credits  
Covers a wide range of topics concerning human psychological development from conception through childhood with special emphasis on current research and theory. May be repeated up to 3 credits.  
**Prerequisite(s):** PSY 201G, MATH 120, and ENGL 111G.
PSY 351. Developmental Psychology: Adolescence through Old Age
3 Credits
Covers a wide range of topics concerning human psychological development from adolescence through old age with special emphasis on current research and theory.
Prerequisite: PSY 201G.

PSY 359. Psychology of Gender
3 Credits
Examines theories and research on the psychological functioning of women and men in North American society, including influential theories of gender in psychology and current controversies in the psychological literature. Topics include those unique to women and unique to men in development across the lifespan, work, physical and mental health, sexuality, victimization, gender stereotypes, gender comparisons in abilities and personality, and biological, social, and cultural influences on behavior. May be repeated up to 3 credits. Crosslisted with: WS 359.
Prerequisite(s): PSY 201G.

PSY 370. Special Topics
1-3 Credits
May be taken under different subtitles announced in the Schedule of Classes for unlimited credit. May be repeated for a maximum of 12 credits.
Prerequisite: PSY 201G.

PSY 375. Psychology and the Brain
3 Credits
An exploration of how the brain produces thinking, emotion, and behavior. May be repeated up to 3 credits.
Prerequisite(s): PSY 201G, MATH 120 and ENGL 111G.

PSY 376. Evolutionary Psychology
3 Credits
This course introduces the student to the science of Evolutionary Psychology. In this class we will explore how evolutionary psychologists think about a variety of topics ranging from our capacity for (and appreciation of) art, emotions, and beauty to an exploration of the "design" of our minds in regards to mating, status striving, social behavior and cultural production.
Prerequisite(s): PSY 201G, and one of: STAT 251, STAT 271, or A ST 311G, and PSY 310 or consent of instructor.

PSY 380. Perception
4 Credits (4+4P)
Primary emphasis on vision. Topics include measurement of sensations, development of visual-motor coordination, reading, speech perception, picture perception, illusions, 3-dimensional space, and causes and consequences of visual abnormalities.
Prerequisites: PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310.

PSY 383. Memory
3 Credits
Examines facets of human memory from the information processing viewpoint, including encoding, storage, and retrieval and memory-aiding techniques.
Prerequisites: PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310 or consent of instructor.

PSY 385. Human Factors & Engineering Psychology
3 Credits
Human Factors/Engineering Psychology is concerned with discovering and applying scientific principles about human abilities and their limitations with the aim of designing tools, machines, systems, tasks and environments in order to make them productive, effective, and safe for users.
Prerequisite(s): PSY 310.

PSY 400. Research
1-3 Credits
Individual research projects supervised by a department faculty member. May be repeated for a maximum of 6 credits.
Prerequisites: PSY 310 and consent of instructor.

PSY 401. Directed Readings
1-3 Credits
May be repeated for a maximum of 6 credits.
Prerequisites: PSY 201G and consent of instructor.

PSY 402. Field Experience
1-3 Credits
Working with preschool, juvenile delinquent, handicapped, aged, convict, or mentally ill. Approximately five hours scheduled work per week per credit. May be repeated to 6 credits.
Prerequisites: 6 psychology credits and consent of instructor.

PSY 417V. Intercultural Relations
3 Credits
Exploration of cultural and subcultural differences from a psychological perspective. Emphasis on modern cultural settings. Issues may include: ethnocentrism, stereotyping, intercultural communication, culture shock, cultural differences, nonverbal behavior, conflict management, and developing intercultural interaction skills.
Prerequisite: PSY 201G.

PSY 430. Human-Computer Psychology
3 Credits
Theories, methodologies, and data from psychology applicable to interface design, with an emphasis on construction and application of conceptual psychological models.
Prerequisites: PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310 or consent of instructor.

PSY 440. History and Systems of Psychology
3 Credits
History of scientific method emphasizing outstanding methodological problems of contemporary science, especially psychology. Also covers recent history of psychology and development of schools of psychology.
Prerequisites: PSY 201G, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310 or consent of instructor.

PSY 442. Thinking
3 Credits
Research and theory pertaining to human thinking and problem solving. Effective problem-solving methods and common obstacles to problem solving are analyzed.
Prerequisites: PSY 201G and PSY 310.

PSY 445. Clinical Psychology
3 Credits
Basic theories in clinical psychology and techniques of psychotherapy.
Prerequisites: PSY 201G, PSY 302, and one of: STAT 251G, STAT 271G, or A ST 311, and PSY 310 or consent of instructor.
PSY 450. Senior Thesis  
3 Credits  
A laboratory or field research project conducted under faculty supervision. Requires written research proposal, conduct of research, data analysis, and final written report. May be repeated for a maximum of 6 credits.  
Prerequisites: PSY 310, 6 additional psychology credits, consent of supervising faculty member, and junior or above standing.

PSY 470. Special Topics  
1-3 Credits  
Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

PSY 507. Quantitative Methods in Psychology I  
3 Credits  
Statistical concepts emphasizing distributions and methods most appropriate to the data, models, and theories in psychology. Emphasis on distributions, probability and basic inferential statistics in Psychological research.  
Prerequisite(s): An elementary statistics course or consent of instructor.

PSY 508. Quantitative Methods in Psychology II  
3 Credits  
Statistical concepts emphasizing distributions and methods most appropriate to the data, models, and theories in psychology. Emphasis on Analysis of Variance (ANOVA) in Psychological research.  
Prerequisite(s): PSY 507 or equivalent.

PSY 509. Quantitative Methods in Psychology III  
3 Credits  
Statistical concepts emphasizing distributions and methods most appropriate to the data, models, and theories in psychology. Emphasis on multiple regression in Psychological research.  
Prerequisite(s): PSY 507 or equivalent.

PSY 510. Computer Methodology  
3 Credits  
Use of computers in psychological research with emphasis on developing experimental control programs.

PSY 520. Learning  
3 Credits  
Classical areas of learning, including instrumental and classical conditioning paradigms, habituation, reinforcement variables, stimulus generalization and transfer, and memory.

PSY 522. Sensation and Perception  
3 Credits  
Stimulus and decision variables in judging auditory and visual events. Topics include: detection of signals, signal intensity versus perceived strength, size, shape, and movement perception; reading and listening.

PSY 523. Methods in Cognitive Psychology  
3 Credits  
Experimental and correlational methodologies appropriate for investigating cognitive psychological theories and problems.  
Prerequisite(s): PSY 524 or consent of instructor.

PSY 524. Cognitive Psychology  
3 Credits  
Examines theoretical and empirical work on human cognition. Topics include: information processing theories, pattern recognition, memory, attention, language, problem solving, decision making, and reasoning.

PSY 525. Behavioral Neuroscience  
3 Credits  
The biological basis of behavior with an emphasis on human cognitive functioning.

PSY 527. Social Psychology  
3 Credits  
Current and traditional theories, research findings, and research methodologies of social psychology.

PSY 529. Methods in Social Psychology  
3 Credits  
Experimental, quasi-experimental, and correlational methodologies appropriate for investigating social psychological theories and problems.  
Prerequisite(s): Graduate student in psychology or consent of instructor.

PSY 530. Human-Computer Interaction  
3 Credits  
Issues associated with human-computer interface design. Concepts, methods, and data from HCI, cognitive psychology, human factors, artificial intelligence, and psycholinguistics that apply.

PSY 531. Human Memory  
3 Credits  
Current and traditional theories and research findings related to human memory.

PSY 540. History and Systems of Psychology  
3 Credits  
History of scientific method emphasizing outstanding methodological problems of contemporary science, especially psychology. Covers recent history of psychology and development of schools of psychology.

PSY 543. Cognitive Neuroscience  
3 Credits  
Introduction to the study of the neural mechanisms underlying cognitive processes. Topics include relations between neural processes and attention, perception, memory, thinking and language; measuring change in electrical activity, blood flow, and metabolism in the brain during cognition; the problem of consciousness; and evolutionary perspectives.

PSY 547. Engineering Psychology  
3 Credits  
Covers concepts, methods, and findings of human performance. Treats the human as a subsystem that receives, stores and processes information, makes decisions, and acts within a human-machine environment system.

PSY 548. Methods in Engineering Psychology  
3 Credits  
Engineering psychology methods such as task analysis, cognitive task analysis, user testing, prototyping, protocol analysis, cost-benefit analysis, safety and reliability analysis, and multivariate techniques.  
Prerequisite(s): PSY 547 or consent of instructor.

PSY 550. Teaching of Psychology  
3 Credits  
This class serves both new and experienced teachers. It will help new teachers design and conduct a successful course and help experienced teachers improve their teaching.

PSY 570. Special Topics  
1-3 Credits  
Specific subjects to be announced in the Schedule of Classes.
PSY 590. Research Seminar in Psychology
1 Credit (1)
Presentations on research by students, faculty, and guest speakers. May be repeated for credit.

PSY 598. Special Research Programs
1-3 Credits
Individual investigations either analytical or experimental. May be repeated for credit.

PSY 599. Master's Thesis
1-15 Credits
Thesis.

PSY 600. Doctoral Research
1-15 Credits
This course number is used for assigning credit for research performed prior to successful completion of the doctoral qualifying examination.

PSY 698. Special Research Programs
1-3 Credits
Individual investigations either analytical or experimental. May be repeated for credit.

PSY 700. Doctoral Dissertation
1-15 Credits
Dissertation.

Psychology - Bachelor of Arts

General Requirements
Students must complete all University degree requirements, which include: General Education requirements (p. 49), Viewing a Wider World requirements (p. 49), and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Students must receive a C- or better in courses.

Departmental/College Requirements (some overlap with Gen Ed)
PSY 201G | Introduction to Psychology (this course will count towards the Area IV requirement above)

Select one from the following: 3

PSY 302 | Abnormal Psychology
PSY 350 | Developmental Psychology: Conception through Childhood
PSY 440 | History and Systems of Psychology

Research Methods
PSY 310 | Experimental Methods 5
PSY 311 | Advanced Research Seminar 4

Basic Mechanisms
Select 3 credits from the following: 3

PSY 301 | Introduction to Psycholinguistics
PSY 375 | Psychology and the Brain
PSY 376 | Evolutionary Psychology
PSY 380 | Perception

Acquisition and Use of Knowledge
Select 3 credits from the following: 3

PSY 320 | Learning
PSY 340 | Cognitive Psychology
PSY 383 | Memory
PSY 442 | Thinking

Understanding Behavior
Select one from the following: 3

PSY 315 | Emotion
PSY 317 | Social Psychology
PSY 321 | Psychology of Personality

Additional Electives 6 11

Non-Departmental Requirements (some overlap with Gen.Ed/ VWW)

Statistics Course requirement, can be completed with one of the following (all but A ST 311 will count towards Gen.Ed requirements) 1, 8

STAT 251G | Statistics for Business and the Behavioral Sciences
STAT 271G | Statistics for Psychological Sciences
A ST 251G | Statistics for Business and the Behavioral Sciences
A ST 311 | Statistical Applications

Introductory Biology requirement, can be completed with one of the following (all will count towards Gen.Ed requirements) 9

BIOL 101G & 101GL | Human Biology and Human Biology Laboratory
BIOL 111G & 111GL | Natural History of Life and Natural History of Life Laboratory
BIOL 211G & 211GL | Cellular and Organismal Biology and Cellular and Organismal Biology Laboratory 5

Second Language: (required- see below) 13-15

Electives, to bring the total credits to 120 10 35-31

Total Credits 120

---

1. Either STAT 251G Statistics for Business and the Behavioral Sciences, STAT 271G Statistics for Psychological Sciences or A ST 251G Statistics for Business and the Behavioral Sciences is required for the degree but students may need to take any prerequisites needed to enter STAT 251G, STAT 271G, or A ST 251G first.
2. Prerequisite: CHEM 110G Principles and Applications of Chemistry or CHEM 111G General Chemistry I or CHEM 115 Principles of Chemistry I
3. See the General Education section (p. 49) of the catalog for a full list of courses
4. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses
5. PSY 310 Experimental Methods: prerequisite of PSY 201G Introduction to Psychology and and either STAT 251G, STAT 271G, or A ST 311.
6. Additional electives to bring total credits in psychology to at least 34, with at least 24 of those 34 credits being upper division.
7. PHIL 346 Philosophy of Mind or PHIL 351 Philosophy of Science recommended
8. Students who are considering graduate study are strongly encouraged to take math classes beyond the minimum statistics course requirement.
9. A course that includes a laboratory is highly recommended, and is required if intended to satisfy Gen Ed Area III
10. Elective credit may vary based on General Education course selection, second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

---

Second Language Requirement

For the Bachelor of Arts in Psychology there is a two year second language requirement, the student must do one of the following:

**Option 1:**

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHIN 111</td>
<td>Elementary Chinese I</td>
<td>14</td>
</tr>
</tbody>
</table>
& CHIN 112 | and Elementary Chinese II | |
& CHIN 211 | and Intermediate Chinese I | |
& CHIN 212 | and Intermediate Chinese II | |
FREN 111 | Elementary French I | 14 |
& FREN 112 | and Elementary French II | |
& FREN 211 | and Intermediate French I | |
& FREN 212 | and Intermediate French II | |
GER 111 | Elementary German I | 14 |
& GER 112 | and Elementary German II | |
& GER 211 | and Intermediate German I | |
& GER 212 | and Intermediate German II | |
JPNS 111 | Elementary Japanese I | 14 |
& JPNS 112 | and Elementary Japanese II | |
& JPNS 211 | and Intermediate Japanese I | |
& JPNS 212 | and Intermediate Japanese II | |

---

1. Either STAT 251G Statistics for Business and the Behavioral Sciences, STAT 271G Statistics for Psychological Sciences or A ST 251G Statistics for Business and the Behavioral Sciences is required for the degree but students may need to take any prerequisites needed to enter STAT 251G, STAT 271G, or A ST 251G first.
2. Prerequisite: CHEM 110G Principles and Applications of Chemistry or CHEM 111G General Chemistry I or CHEM 115 Principles of Chemistry I
3. See the General Education section (p. 49) of the catalog for a full list of courses
4. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses
5. PSY 310 Experimental Methods: prerequisite of PSY 201G Introduction to Psychology and and either STAT 251G, STAT 271G, or A ST 311.
6. Additional electives to bring total credits in psychology to at least 34, with at least 24 of those 34 credits being upper division.
7. PHIL 346 Philosophy of Mind or PHIL 351 Philosophy of Science recommended
8. Students who are considering graduate study are strongly encouraged to take math classes beyond the minimum statistics course requirement.
9. A course that includes a laboratory is highly recommended, and is required if intended to satisfy Gen Ed Area III
10. Elective credit may vary based on General Education course selection, second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. <td>4</td>
</tr>
</tbody>
</table>

Total Credits: 15

Option 6:
Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

Option 7:
Obtain college certification of completion of three years of a second language at the high school level with a grade of C- or higher in the second-year level.

Option 8:
By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

Option 9:
By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

Option 10:
In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

Psychology - Undergraduate Minor

A student must pass at least 18 credits in Psychology courses with grades of C- or higher, and at least 9 of those credits must be upper division. A student may not earn both a BA in Psychology and a minor in Psychology.

Experimental Psychology - Master of Arts

The department offers an MA degree in general experimental psychology. The program provides students with sufficient electives to emphasize a particular sub-area of experimental psychology. The program is designed to provide graduates with the tools and knowledge necessary for further training at the doctoral level or for employment in industry or government.

MA students are required to complete:

1. Students are also encouraged to register for one credit of PSY 590 Research Seminar in Psychology each semester.

When offered, PSY 570 Special Topics may be considered content, quantitative methods, or experimental methods, depending on the specific course content.

Psychology - Graduate Minor

Any master’s or doctoral student can declare a minor in Psychology in addition to their major area of study.

Students may earn a minor in psychology at the M.A. or Ph.D. level by completing nine credits of any 500-level and above coursework in psychology EXCEPT the following courses (PSY 507, PSY 508, PSY 509, PSY 590, PSY 598, PSY 599, PSY 600, or PSY 700).

All minors must be approved by the minor department head and dean of the Graduate School. Students must declare the Psychology minor on a Program of Study and Committee Form for the Master’s and doctoral level. Demonstration of competency in the minor area will be required at both comprehensive and final examinations. Students must also include a representative from the Psychology department on their thesis, comprehensive, and/or dissertation committees. The representative from the minor department can also serve as the Dean’s Representative on the committee.

Sociology

Undergraduate Program Information

The undergraduate major in sociology is broad in scope. It prepares students for a variety of public and private sector employment opportunities including market research, personnel management, human relations, law enforcement and health services. Successful students often use their major as pre-professional preparation for advanced degrees in law, business, education, counseling and other social science based careers. Courses are offered both online and on campus.

Graduate Program Information

The program is designed to prepare students for doctoral study in sociology as well as employment in research and applied areas of the field. In addition to the on-campus program, we also offer an online MA for students who are unable to attend in person. Through small seminars, on campus graduate students engage in discussions of subjects that often result in thesis and internship topics. In online seminars, small classes allow for in-depth discussions that can generate ideas for research as well as knowledge for applied work environments. In both online and on-campus settings, faculty members and students work toward the mutual goal of developing the full potential of each student.

The Southwest and Border Region

Our unique location attracts faculty and students who are interested in peoples of the southwest, particularly Hispanics/Latinos and Native Americans. In addition, our proximity to the U.S.-Mexico border provides an ideal laboratory for the examination of such issues as globalization, transnational migration and the consequences of border development.
Social Inequality
Our faculty members examine the intersection of race, class and gender oppression in their teaching and research, with special attention to educational, rural/urban, ecological and global disparities. One goal of this examination is to address social problems such as poverty and racial/ethnic inequality.

Program Options and Requirements
Students seeking a master's degree in sociology should have taken undergraduate courses in methods and statistics or their equivalent. Students who have not taken these courses should complete them before beginning their graduate study or as soon as possible in consultation with the sociology graduate director.

Graduate students in sociology have two program options, thesis or non-thesis. Faculty consider the students special interests and career plans in advising regarding their choice of program options. The thesis option is typically selected by students who intend to pursue a Ph.D. degree, while the non-thesis option is commonly pursued by those desiring immediate employment in research and applied areas in business, government, education, social welfare and health. The non-thesis, coursework only option is currently the only option available for on-line MA students. All students must pass a final master’s examination.

Degrees for the Department
Sociology (On-Campus) - Bachelor of Arts (p. 529)
Sociology (Online) - Bachelor of Arts (p. 531)
Sociology - Master of Arts (p. 533)

Minors for the Department
Sociology - Undergraduate Minor (p. 533)

Professor, David G. LoConto, Department Head

Professors LoConto, Rice; Associate Professors Ortiz, Pelak, Steinkopf, Way; Assistant Professors Arnett, Newby; Taylor; College Associate Professor Hovey; Emeritus Professor Hoffman, Loustaunau

D. LoConto, Ph.D. (Oklahoma State University) — classical American social thought, popular culture, social psychology; S. Arnett, Ph.D. (University of Notre Dame) — education, race and ethnicity, social inequalities; K. Hovey, Ph.D. (University of New Mexico) — rural and urban communities, social control, criminological theory; C. A. Newby, Ph.D. (University of Texas at Austin) — race/ethnicity/minority relations, immigration, demography; D. Ortiz, Ph.D. (University of Notre Dame) — social movements, political sociology, Latin America; C. Pelak, Ph.D. (Ohio State University) — social inequalities, race and ethnicity, sociology of sport; J. Steinkopf-Rice, Ph.D. (Washington State University) — gender, globalization, communities; J.C. Rice, Ph.D. (Washington State University) — environment, society and technology, political sociology; M. Taylor, Ph.D. (University of Notre Dame) — computational/quantitative methods, culture, cognitive sociology; S. Way, Graduate Program Director, Ph.D. (University of Arizona) — education, gender, juvenile delinquency.

Sociology Courses
SOC 101G. Introductory Sociology
3 Credits
Introduction to social theory, research, methods of analysis, contemporary issues in historical and cross-cultural contexts. Covers groups, deviance, inequality, family, gender, social change, and collective behavior.

SOC 201G. Contemporary Social Problems
3 Credits
Introduction to the fundamentals of social analysis through the analysis of contemporary American social problems. Emphasis on methods of analysis and cross-national comparisons showing that the social problems studied are common to all societies. Covers racism, violence, poverty, crime, health care, and substance abuse.

SOC 258. Current Issues in Marriage and Family
3 Credits
Examination of contemporary American family life, including courtship, marriage, divorce, and child rearing. Community Colleges only.

SOC 262. Issues in Death and Dying
3 Credits
Major personal and social issues related to the process of dying in our culture. Community Colleges only.

SOC 263. Human Sexuality
3 Credits
Introduction to cultural and personal aspects of human intimacy, sexuality and the life cycle, sexual variation, and sexually transmitted diseases. Community Colleges only.

SOC 269. Sexualities and Society
3 Credits
Examines various sexualities from a sociological perspective. Topics include sexual identity, intimate relationships, sexual desire, sexual behavior, the sex industry, and the politics of sexuality. Discussion of selected topics is grounded in both macro and micro sociological viewpoints. Restricted to: Main campus only.

SOC 273. Sex and Gender
3 Credits
Analysis of changes, behaviors, and stereotypes of women and men in contemporary Western societies. Same as W S 273.

SOC 330V. Introduction to Religious Studies
3 Credits
Provides an overview of old and new methods and theories for the study of religion. Exposure to the ways groups of people in diverse cultural systems construct and change their religious traditions to serve practical and meaningful ends. Same as ANTH 330V and HIST 330V.

SOC 336V. Sociology of Pop Culture
3 Credits
This course will provide students with a sociological look at creation, distribution, and effects of popular culture that have shaped, preserved, and conveyed distorted images of social class, race, gender and history to unwary consumers.
SOC 365. Environmental Sociology
3 Credits
Societal responses to environmental problems including social adjustments to natural and technological hazards, socio-cultural aspects of technological risk and impact assessment, and emergence of environmental social movements.

SOC 371. Race and Ethnic Relations
3 Credits
Dynamics of racial prejudice and patterns of racial and ethnic interaction in the United States.

SOC 374V. Comparative Family Systems
3 Credits
A comparative analysis of family forms and characteristics in various societies. An examination of the diversity of family practices among ethnic and class groups in the United States. Same as W S 374G.

SOC 375. Social Inequality
3 Credits
Analysis of the social distinctions arising from sex, age, occupation, and ethnicity. Emphasis on indicators of social class and patterns of social mobility.

SOC 376V. Social Change
3 Credits
Explanations of autonomous and directed social change as occurring at the individual, organizational, societal, and international levels. Case studies from around the world.

SOC 390. Sociology of Childhood
3 Credits
This course examines theories, methods, and empirical research in several areas of the sociology of childhood. Major themes are: (1) how social structure constrains children's lives, (2) how children negotiate, share, and create culture, and (3) how children's experiences vary within and across societies.

SOC 391. Crime and Society
3 Credits
Analysis of crime at the interpersonal, organizational, and social structure levels in society. Exploration of contemporary images of crime in mass media. Examination of connections between race, class, gender, and crime in U.S. society.

SOC 392. Juvenile Delinquency
3 Credits
Nature, extent, and causes of juvenile delinquency; juvenile justice; modern methods of treatment; programs of prevention.

SOC 393. Youth and Society
3 Credits
Comparative historical analysis of social, economic and cultural forces affecting young people. Emphasis on organizational and institutional effects on the well being of children and young adults.

SOC 394V. Sports and Society: A Global Perspective
3 Credits
A critical examination of sports in a global context, emphasizing the social and cultural factors that shape the world of sports and the consequences of sports for societies. Course examines issues of social inequality, violence, media and corporate influence, religion and sports, and the student-athlete experience.
SOC 401. Introduction to Sociological Practice
3 Credits
The application of sociological theory and research method. May be taught as service learning course. May be repeated up to 3 credits. Restricted to: SOC majors.
Prerequisite(s): SOC 101G, senior standing or consent of instructor.

SOC 409. Community Development
3 Credits
This is a holistic view of community development with an emphasis upon how economic development efforts can become more inclusive and sustainable. Topics include examining what 'community' means, community development versus economic development, and alternative economic activities.
Prerequisite(s): SOC 101G.

SOC 430. Collective Behavior and Social Movements
3 Credits
An overview and exploration of the key concepts of collective behavior and social movements as they apply to both historical and contemporary trends and movements. We examine also social movement tactics and their effectiveness in shaping policy and social norms. May be repeated up to 3 credits.

SOC 448. Special Topics
3 Credits
Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

SOC 449. Directed Readings
1-3 Credits
Individual readings or research for either majors or nonmajors. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

SOC 458V. Comparative Global Family Systems
3 Credits
The study of families around the world. The comparison will include how capitalism and power differentials have affected the course of family history, gender relations, and family life today.

SOC 460. Sociology of Religion
3 Credits
Examination of religion in its social context to understand the intricate relations of religion, culture and U.S. society. Recommended preparatory courses: SOC 101G, SOC 273, SOC 376, ANTH 125G.

SOC 464. Human Society and the Environment
3 Credits
This course explores the relationship between human societies and the natural environment, with an emphasis on both sustainable human and environmental relationships.
Prerequisite(s): SOC 101G.

SOC 465V. Environmental Sociology
3 Credits
Advanced examination of societal responses to environmental problems including social adjustments to natural and technological hazards, sociocultural aspects of technological risk and impact assessment, and emergence of environmental social movements.

SOC 470. Sociology of Latinos/as in the United States
3 Credits
In-depth examination and comparative analysis of political and economic issues affecting Latino/a culture and behavior. Includes the Chicano/a and larger Latino/a movements, the border, immigration, language policies, education, religion, labor, and Latina women’s issues. Recommended preparatory courses: SOC 101G, SOC 270, SOC 371, or HIST 367.

SOC 473. International Migration
3 Credits
This course examines international migration as a social process, focusing on the American experience. Students will examine historical and comparative literature on immigration that puts contemporary questions about policy and immigrant assimilation into a broader sociological perspective.
Prerequisite(s): SOC 101G.

SOC 474. Sociology of Organizations
3 Credits
Sociological models of formal organizations relevant to business, education, government, healthcare, military, and religion. Focus on internal organizational structure and dynamics plus the reciprocal relationship between organizations and their operating environment.

SOC 477. Sociology of Education
3 Credits
Socio-political and economic factors that shape the structure and operation of educational institutions in modern complex societies. Socio-historical development of the school as a microcosm of society, with examples from American and other school systems.

SOC 480. Diversity in Alternative Families
3 Credits
Cross-cultural examination of diversity among and within families: analysis of family diversity includes consideration of the theoretical frameworks, ideological commitments, personal experiences, and methodological approaches to examine family life.

SOC 481. Social Deviance
3 Credits
Theoretical approaches to the study of social deviance with emphasis on critical theories. Exploration of forms of deviance in society. Examination of social construction of deviance within mass media and systems of social control.

SOC 482. Advanced Individual and Society
3 Credits
Examines reciprocal relationship between individual and society. Topics include socialization, social influence and persuasion, group structure and performance, altruism, aggression, interpersonal attraction, group cohesion and conformity, and inter-group conflict.

SOC 486. Power and Politics in America
3 Credits
This course provides an introduction to the study of Political Sociology with a focus on the United States. Political Sociology studies the social bases of politics and political systems and facilitates the understanding of the processes and consequences of power distributions in the United States.
Prerequisite(s): SOC 101G.
SOC 498. Globalization
3 Credits
Analysis of the globalization process. Covers theories of globalization, the global economy, political globalization, global culture, transnational social movements, transnational migration and world labor market, global cities, and local-global linkages. Same as GOVT 469.

SOC 491. Criminological Theory
3 Credits
Schools of thought, contrasting approaches, and contemporary efforts in theory construction relevant to adult and juvenile offenders.

SOC 496. Internship
1-6 Credits
Supervised participation in an appropriate community setting. Taught with SOC 596. May be repeated up to 9 credits. Consent of Instructor required. S/U Grading (S/U, Audit).

SOC 501. Perspectives on Sociology
3 Credits
Overview of the field, subfields, and faculty available for students at NMSU. Emphasis on theories and research currently being developed in the Sociology program. Graded: S/U. May be repeated up to 3 credits. Restricted to: Soc majors. S/U Grading (S/U, Audit).

SOC 509. Advanced Seminar in Community Development
3 Credits
This is an advanced seminar addressing a holistic view of community development with an emphasis upon how economic development efforts can become more inclusive and sustainable.
Prerequisite(s): Graduate student standing.

SOC 530. Advanced Collective Behavior and Social Movements
3 Credits
An advanced exploration of the key concepts of collective behavior and social movements as they apply to both historical and contemporary trends and movements. We examine also social movement tactics and their effectiveness in shaping policy and social norms. May be repeated up to 3 credits.

SOC 548. Graduate Special Topics
3 Credits
Specific subjects to be announced in the Schedule of Classes.

SOC 549. Special Research Problems
1-3 Credits
Individual analytic or experimental investigations. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

SOC 551. Issues in Advanced Quantitative Analysis
3 Credits
Advanced methods of sociological analysis are examined in detail. Restricted to: SOC majors.

SOC 552. Seminar in Classical Social Theory
3 Credits
Analysis of classical social thought within the discipline. Restricted to: SOC majors.

SOC 553. Seminar in Sociological Research
3 Credits
Exploration of research methods, issues, and practical application. May be repeated up to 3 credits. Restricted to: Soc majors.

SOC 555. Seminar: Sociology of the Family
3 Credits
The family in various societies; evolution of the American family.

SOC 559. Graduate Seminar in Sex and Gender
3 Credits
Comprehensive examination of current gender identity and gender stratification issues. Same as W S 559.

SOC 560. Advanced Sociology of Religion
3 Credits
Examination of religion in its social context to understand the intricate relations of religion, culture and U.S. society.

SOC 561. Seminar in Qualitative Research Methods
3 Credits
This course provides an in-depth examination of qualitative research methods, including the logic, time, and purpose of using such methods.
Prerequisite(s): Graduate standing.

SOC 564. Seminar in Human Society and the Environment
3 Credits
This is an advanced seminar exploring the relationship between human societies and the natural environment, with an emphasis on both sustainable human and environmental relationships.
Prerequisite(s): Graduate Student Status.

SOC 565. Advanced Environmental Sociology
3 Credits
Advanced examination of societal responses to environmental problems including social adjustments to natural and technological hazards, sociocultural aspects of technological risk and impact assessment, and emergence of environmental social movements.

SOC 569. Advanced Issues in Sexualities
3 Credits
Various issues in sexualities are addressed through a wide range of theoretical and empirical sociological literatures that involve quantitative and qualitative data. Advanced examination of the ways in which sexuality is constituted in local, cultural and institutional environments.

SOC 570. Advanced Sociology of Latinos/as in the United States
3 Credits
In-depth examination and comparative analysis of political and economic issues affecting Latino/a culture and behavior. Topics include the Chicano/a and larger Latina/o movements, the border, immigration, language policies, education, religion, labor and Latina women's issues.

SOC 571. Advanced Race and Ethnic Relations
3 Credits
In-depth analysis of the dynamics of prejudice/discrimination and patterns of intergroup interaction in the U.S.

SOC 572. Advanced Sociology of Medical Ethics
3 Credits
Major issues in the roles and relationships of health care providers and consumers, problems in communication, malpractice, patients rights, and ethics. Taught with SOC 472 with additional work required at the graduate level.

SOC 574. Sociology of Organizations
3 Credits
Sociological models of formal organizations relevant to business, education, government, healthcare, military, and religion. Focus on internal organizational structure and dynamics plus the reciprocal relationship between organizations and their operating environment.

SOC 575. Graduate Social Stratification
3 Credits
Advanced examination of theories of stratification and current methods of stratification research. Focus on differences by ethnicity, race, class and gender.
SOC 577. Advanced Sociology of Education
3 Credits
Socio-political and economic factors that shape the structure and operation of educational institutions in modern complex societies. Socio-historical development of the school as a microcosm of society, with examples from American and other school systems.

SOC 578. Advanced Sociology of Development and the World System
3 Credits
Sociological approach to development and the global system. Theories of development, and underdevelopment; world poverty/inequality; Latin America; Africa and Asia in comparative perspectives; transnational borders/U.S.-Mexico border; current topics. Same as GOVT 577.

SOC 579. Advanced Sociological Perspectives on the U.S.-Mexico Border
3 Credits
Theoretical perspectives and current research on U.S.-Mexico border region, including migration, identity, health, gender, and environment.

SOC 581. Issues in Social Deviance
3 Credits
Selected forms of deviant behavior; social issues, and social problems.

SOC 582. Individual and Society
3 Credits
Examines reciprocal relationship between individual and society. Topics include socialization, social influence and persuasion, group structure and performance, altruism, aggression, interpersonal attraction, group cohesion and conformity, and intergroup conflict.

SOC 583. Symbolic Interaction
3 Credits
Examination of the interaction of self and the social order including society as process, the negotiation of social order, identity as a social product, role taking and the situated self, the social construction of reality with an emphasis on phenomology and ethnomethodology.

SOC 586. Advanced Seminar in Power and Politics in the United States
3 Credits
This is an advanced seminar addressing the study of Political Sociology with a focus on the United States. Political Sociology studies the social bases of politics and political systems. It facilitates an understanding of the processes and consequences of power distributions in the United States.

Prerequisite(s): Graduate student standing.

SOC 587. Advanced International Migration
3 Credits
This course examines international migration as a social process, focusing on the American experience. Students will examine historical and comparative literature on immigration that puts contemporary questions about policy and immigrant assimilation into a broader sociological perspective.

Prerequisite(s): Graduate student standing.

SOC 588. Advanced Issues in Globalization
3 Credits
Analysis of the globalization process. Covers theories of globalization; global economy; political globalization; global culture; transnational social movements; transnational migration and world labor market; global cities; local-global linkages. Same as GOVT 569.

SOC 596. Internship
1-6 Credits
Supervised participation in appropriate occupational setting. May be repeated for a maximum of 12 credits. Taught with SOC 496 with additional work required at the graduate level.

SOC 599. Master's Thesis
6 Credits
Thesis. Consent of instructor required. Restricted to: Main campus only. Restricted to SOC majors.

Phone: (575) 646-3448

Sociology (On-Campus) - Bachelor of Arts

Departmental Requirements
Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Prefix Title Credits
General Education

Area I: Communications

English Composition - Level 1
ENGL 111G Rhetoric and Composition 4

English Composition - Level 2

Select one from the following:
ENGL 203G Business and Professional Communication 3

ENGL 211G Writing in the Humanities and Social Sciences

ENGL 218G Technical and Scientific Communication

ENGL 311G Advanced Composition

ENGL 318G Advanced Technical and Professional Communication

Oral Communication
Select one from the following:
COMM 253G Public Speaking 3

COMM 265G Principles of Human Communication

HON 265G Principles of Human Communication Honors

AXED 201G Effective Leadership and Communication in Agricultural Organizations

Area II: Mathematics

MATH 210G Mathematics Appreciation 1

Area III/IV: Laboratory Sciences and Social/Behavioral Sciences

SOC 101G Introductory Sociology (departmental requirement)

Area III: Laboratory Sciences Course (4 credits) 2

An additional Area IV. Social/Behavioral Sciences Course (3 credits) 2

Area V: Humanities 2 3

Area VI: Creative and Fine Arts 2 3

General Education Elective 2 3-4

Viewing a Wider World 3 6

Departmental/College Requirements
SOC 351 Sociological Theory 3
SOC 352 Social Research: Methods 4,5 3
SOC 353 Sociological Research: Analysis 4 3
SOC 401 Introduction to Sociological Practice 3

Departmental Electives
SOC courses of any level 6
SOC courses that are Upper-Division 6
SOC courses 400-level (excluding SOC 401) 6 6

Second Language (not required)
Electives, to bring the total credits to 120 7
18 credits of the electives must be Upper-Division

Total Credits 120-121

1 MATH 210G Mathematics Appreciation is required for the degree but students may need to take any prerequisites needed to enter MATH 210G first.
2 See the General Education Section (p. 49) of the catalog to view the full list of courses that can be selected to complete this requirement.
3 See the Viewing a Wider World (p. 53) Section of the catalog to view the full list of courses that can be selected to complete this requirement.
4 Criminal Justice/Sociology double majors may be permitted to substitute C J 300 Introduction to Criminal Justice Research for SOC 352 Social Research: Methods and C J 301 Advanced Research Methods for SOC 353 Sociological Research: Analysis.
5 Government/Sociology double majors may be permitted to substitute GOVT 300 Political Research Skills for SOC 352 Social Research: Methods upon approval of appropriate substitution/waiver forms.
6 The six credits of SOC 400 electives does not include SOC 401 Introduction to Sociological Practice. SOC 449 Directed Readings can be applied to this requirement. A maximum of six credits of SOC 449 Directed Readings is allowed. In addition, for those in the Master's Accelerated Program, SOC 500 electives can be used to meet the six credit requirement.
7 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

In addition, substitution/waivers for courses may be available upon consultation with the Department Head in the Department of Sociology. In all cases, the total number of sociology credits (courses with SOC prefix) must be a minimum of 33.

Second Language
For the Bachelor of Arts in Sociology there is no second language requirement for the degree.

A Suggested Plan of Study for Students
This roadmap assumes student placement in MATH 210G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

8. The six credits of SOC 400 electives does not include SOC 401 Introduction to Sociological Practice. SOC 449 Directed Readings can be applied to this requirement. A maximum of six credits of SOC 449 Directed Readings is allowed. In addition, for those in the Master’s Accelerated Program, SOC 500 electives can be used to meet the six credit requirement.
### Sociology (Online) - Bachelor of Arts

**SOC 352**  Social Research: Methods (online - Spring only)  3

**SOC 353**  Sociological Research: Analysis (online - Spring only)  3

**SOC 401**  Introduction to Sociological Practice  3

**Departmental Electives**

SOC courses of any level  6
SOC courses that are Upper-Division  6
SOC courses 400-level (excluding SOC 401)  6

**Second Language: (not required)**

Electives, to bring the total credits to 120  52-51

18 credits of the electives must be Upper-Division  

**Total Credits**  120

---

**Notes:**

1. MATH 210G Mathematics Appreciation is required for the degree but students may need to take any prerequisites needed to enter MATH 210G first.

2. See the General Education Section (p. 49) of the catalog to view the full list of courses that can be selected to complete this requirement.

3. See the Viewing a Wider World (p. 53) Section of the catalog to view the full list of courses that can be selected to complete this requirement.

4. The six credits of SOC 400 electives does not include SOC 401 Introduction to Sociological Practice. SOC 449 Directed Readings can be applied to this requirement. A maximum of six credits of SOC 449 Directed Readings is allowed. In addition, for those in the Master's Accelerated Program, SOC 500 electives can be used to meet the six credit requirement.

In addition, substitution/waivers for courses may be available upon consultation with the Department Head in the Department of Sociology. In all cases, the total number of sociology credits (courses with SOC prefix) must be a minimum of 33.

### Second Language

For the Bachelor of Arts in Sociology there is no second language requirement for the degree.

### A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 210G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

</tbody>
</table>

Sociology - Undergraduate Minor

Students who earn a Bachelor of Arts in Sociology may not also earn a minor in Sociology. Students earning the minor must pass 18 credits with grades of C- or higher. Students may count S credits only in courses in which all grades are S/U. Students may substitute an upper division social research methods course for the required SOC 352 Social Research: Methods from the Departments of Criminal Justice and Government. Additional research methods courses may be considered. Please contact the Department Head of the Department of Sociology for further consideration. Students making this substitution must still pass 18 total credits in Sociology in order to earn this minor.
Final master’s written examination covering all general coursework.

Total Credits 36

1 To be taken within the first 27 hours of graduate credit. A grade of B- or better is required to receive credit for each of these core courses.

Admission Requirements
To apply for admission to the Sociology MA Program and the Graduate School, applicants must meet the following criteria and submit the following through http://prospective.nmsu.edu/graduate/apply/index.html

• Application form and fees
• An undergraduate cumulative GPA of at least 3.0 on a 4.0 scale.
• A record of professional, ethical, and collegial behavior.
• Official undergraduate and graduate transcripts from all colleges and universities attended.
• A well written statement of purpose from the candidate addressing graduate school objectives and interests.
• Three letters of recommendation describing personal qualities and achievements that suggest the applicant will be successful in the program. We prefer that letters of recommendation come from faculty members familiar with the academic work and professional conduct of the applicant.

Failure to meet any of the above criteria may result in the student not being accepted into our program. However, in cases when an otherwise outstanding student does not meet the GPA requirements, the student may be accepted provisionally into the program.

The GRE is not required for admission. Students may be required to take prerequisites prior to gaining admission.

For priority consideration, the deadline for application is February 15 for Fall admission.

Theatre Arts
Undergraduate Program Information
With strong emphases in acting, musical theater, new works and design/technical theatre, the program prepares students for graduate study, life in the profession, or a myriad of related job fields. Students gain practical experience through a wide array of courses designed to expose them to the varied aspects and job positions involved in theatrical production. The faculty is augmented by nationally-renowned guest theatre artists.

A minimum of 62 credits with a grade of C- or higher in theatre arts is required for the major. Theatre Arts does not require a second language.

Students enrolled in this department’s major or minor may count credits in required applied courses toward their degrees beyond the normal maximum of 9 credits allowed in the College of Arts and Sciences. However, if a student changes the major or does not complete the requirements for the minor at the time of graduation, they may only count a maximum of 9 credits of the applied credits toward graduation.

Students preparing to teach in public schools may qualify for certification by completing the Bachelor of Science in Education degree with theatre arts as a teaching field. (See curricula in the College of Education (p. 603) section).

At any time the Theatre Arts program may be undergoing curriculum changes. For the most up-to-date information about degree requirements please visit www.nmsutheatre.com or visit the Theatre Arts Department at room 318 in the Center for the Arts Building.

Degrees for the Department
Theatre Arts - Bachelor of Arts (p. 537)

Professor, Wil Kilroy, Department Head/Managing Director
Professor C. Billings, Storm; Assistant Professor Hamilton; College Associate Professor J. Billings, D. Brunson, Lury; Professional Staff Carruthers, Jaworski, Hereford, Wilkinson, Wise

Theatre Arts Courses
THTR 101G. The World of Theatre
3 Credits
An appreciation class introducing the non-major to all aspects of theatre, including its history, literature and professionals. Students attend and report on stage productions.

THTR 105. Acting for Non-Majors
3 Credits
An introduction to basic performance techniques for non-majors.

THTR 110. Beginning Acting
3 Credits
Basic understanding of self-expression through a variety of physical exercises, improvisation, and character study, culminating in scene or monologue work. Restricted to: THTR majors.

THTR 120. Stage Movement
3 Credits
Physical techniques for the actor to develop kinesthetic awareness and skills in characterization, archetypes, and stage combat. Restricted to: THTR majors.

THTR 130. The Art of Theatre
3 Credits
This course introduces the variety and scope of theatre professions, the value and goals of the theatre major and an analysis of the art form from script to stage. Restricted to: Required for THTR majors majors.

THTR 141. Introduction to Stagecraft
3 Credits
Basic techniques used in the construction of scenery, props, and sound. Lab required. Pre/ Corequisite(s): THTR 141L.

THTR 141 L. Stagecraft Laboratory
1 Credit
Class members will assist with construction for productions in a studio environment. Pre/ Corequisite(s): THTR 141.
THTR 142. Introduction to Costume Crafts
3 Credits
Common costume production techniques, including basic stitching, use of equipment, knowledge of available materials, dyeing, and 3-D.
Prerequisite(s)/Corequisite(s): THTR 142L. Restricted to: THTR majors.

THTR 142 L. Costume Craft Lab
1 Credit
Class members will assist in construction for productions in a studio environment. Pre/ Corequisite(s): THTR 142.

THTR 149. Running Crew I
2 Credits (1+2P)
Students learn about backstage and front of house production positions and work on a technical aspect of a production in a rehearsal and performance environment.

THTR 200. Theatre Workshop I
0.5 Credits
Required for all freshman and sophomore theatre majors, this course coordinates all processes within Theatre Arts, providing a forum for discussion and feedback. May be repeated up to 4 credits. Restricted to Las Cruces campus only.

THTR 206. Intermediate Acting for Non-Majors
3 Credits
A continuation of THTR 105 with an emphasis on monologues, scenes and characterization.
Prerequisite(s): THTR 105.

THTR 210. Intermediate Acting: Scene Study and Monologues
3 Credits
Monologues and scene work, using character and script analysis.
Prerequisite(s)/Corequisite(s): THTR 205. Prerequisite(s): THTR 110 with C- or above.

THTR 220. Vocal Production for the Actor
3 Credits
Exploration and development of the actor’s vocal instrument, including relaxation, projection, diction and articulation. May be repeated up to 3 credits. Restricted to: THTR majors.

THTR 222. Theatre Topics
1-3 Credits (1-3)
Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 9 credits.

THTR 249. Running Crew II
1 Credit
Students work on a technical aspect of a production in a rehearsal and performance environment.

THTR 250. Introduction to Design
3 Credits
Introduction into our visual world via the language of designers, focusing on collaboration, creative thinking and presentation skills. The varied design professions in theatre and the performing arts will be explored. Restricted to: Required of all THTR Majors majors.

THTR 300. Theatre Workshop II
0.5 Credits
Required for all junior and senior theatre majors, this course coordinates all processes within Theatre Arts, providing a forum for discussion and feedback. May be repeated up to 4 credits. Restricted to Las Cruces campus only.

THTR 303. Theatre History I
3 Credits
History of theatre and drama from ancient Greece to the English Renaissance.

THTR 304. Theatre History II
3 Credits
History of theatre and drama from the Restoration to the 20th century. May be repeated up to 3 credits.

THTR 305. Advanced Vocal Production
3 Credits
Advanced exploration and development of the actor’s vocal instrument.
Prerequisite(s): THTR 205.

THTR 307V. Society in Style: Fashion, History and Culture
3 Credits
History of clothing for theatrical purposes, origins and evolution of period clothing in relation to social, political, and aesthetic factors of different periods.

THTR 308. Creative Writing: Playwriting
3 Credits
Technique of one-act playwriting, and analysis of dramatic structure. Crosslisted with: ENGL 308
Prerequisite(s): ENGL 111G.

THTR 310. Styles in Acting
3 Credits
Analysis of differing styles of acting through scene work representing various time periods and genres.
Prerequisite(s): THTR 210.

THTR 311. Acting for Film and Television
3 Credits
Specific techniques of acting for the camera are explored via hands-on experiential learning and an introduction to the business of the TV/Film industry
Prerequisite(s): THTR 110 or THTR 105 or permission of instructor.

THTR 312. Acting Shakespeare
3 Credits
Acting Shakespeare’s tragedies and comedies, including text work, scansion, movement, scene work, and monologues.
Prerequisite(s): THTR 210.

THTR 313. Improvisation
3 Credits
Long and/or short form improvisation techniques in addition to a variety of exercises exploring terminology, character work and the elements of comedy.
Prerequisite(s): THTR 105 or THTR 110.

THTR 314. Scene Study
3 Credits
Studio class focusing on scene work and acting processes. May be repeated up to 3 credits.
Prerequisite(s): THTR 105 or THTR 110.

THTR 315. Theatre in New York City
3 Credits
Students are introduced to the professional world of theatre via productions, speakers, and tours during this travel course. May be repeated up to 6 credits.
Prerequisite(s)/Corequisite(s): THTR 105 or THTR 110.
THTR 317. Musical Theatre
3 Credits
Acting class focused on developing and refining skills necessary for performing in musicals. Pre/ May be repeated up to 9 credits.
Prerequisite(s)/Corequisite(s): THTR 220.

THTR 320. Auditioning and Marketing
3 Credits
Techniques for choosing and preparing effective monologues, cold and prepared readings, head shots and resumes, and interview skills. May be repeated up to 3 credits.
Prerequisite(s): THTR 105 or THTR 110.

THTR 321V. Modern European Drama
3 Credits
Masterworks of European drama from the 19th century to the present. Crosslisted with: ENGL 321V.

THTR 322. Dramatic Character
3 Credits
How characters have been created for the stage from the beginning of theatrical performances in ancient Greece to the present day. Exploring characterization related to dramatic structure, style, and genre, and how dramatic characters differ from those in literary fiction. May be repeated up to 3 credits. Crosslisted with: ENGL 322.

THTR 323. American Drama
3 Credits
Masterworks of American drama from the 20th century to the present. Crosslisted with: ENGL 323.

THTR 329. Studies in Drama
3 Credits
Subtitles vary. Study of a group of related works of drama, theory, or theatre practice. Crosslisted with: ENGL 329 and CMI 329.

THTR 334. Introduction to Stage Makeup
3 Credits
Basic principles of stage makeup: straight, character, and specialty. Includes study of various products, methods of application, and the effects of lighting on makeup.

THTR 337. Independent Study
1-3 Credits
Students propose and design their own course not covered through regular course offerings under the guidance of faculty. May be repeated up to 6 credits. Consent of Instructor required.

THTR 341. Scene Painting
3 Credits
Use of historical painting techniques in a project-driven classroom. Projects include 2-D and 3-D work, color mixing and theory, painting scenery, and the use of paint for effects.
Prerequisite(s): THTR 141.

THTR 343. Costume Patterning
3 Credits
Basic techniques in the production of flat patterns for modern and period silhouettes including some draping techniques. Consent of Instructor required.

THTR 345. Costume Practicum
1 Credit
A practical course intended to provide students additional experience and greater responsibility within the workings of the Costume Shop. Pre/ Corequisite(s): THTR 142.

THTR 346. Scenic Practicum
1 Credit
A practical course intended to provide students additional experience and greater responsibility within the workings of the Scene Shop. Pre/ Corequisite(s): THTR 141.

THTR 347. Lighting Practicum
1 Credit
A practical course intended to provide students hands-on experience executing theatrical lighting.

THTR 348. Running Crew III
1 Credit
Students will work on a technical aspect of a production in a rehearsal and performance environment.
Prerequisite(s): THTR 149.

THTR 349. Running Crew IV
1 Credit
Students will work on a technical aspect of a production in a rehearsal and performance environment.
Prerequisite(s): THTR 149.

THTR 352. Costume Design
3 Credits
Basic principles of costume design, including script analysis, principles of design, drawing and painting.

THTR 353. Scene Design
3 Credits
Design for the performing arts. Basic design skills and projects to exercise those skills, history of design in the theatre and the designer's role in the production process. Final project includes a finished scene design.
Prerequisite: THTR 141 or consent of instructor.

THTR 354. Sound Design
3 Credits
Hands-on training in theatrical sound design and implementation.

THTR 355. Lighting Design
3 Credits
Basic aspects of theatre lighting, including electricity, color theory, history, and types of lighting instruments.

THTR 356. Theatre Production
1-3 Credits
Participation in the production of theatrical performances by stage managing, acting, designing, dramaturgy, or directing. May be repeated for a maximum of 6 credits. Graded S/U.

THTR 357. Computer Scenographics
3 Credits
Project-oriented course teaching basic computer modeling skills. Projects focus on the creation of communication tools designers use in the theatrical process. Students will develop portfolios of completed projects. Consent of instructor required.
Prerequisite(s): THTR 352, THTR 353, or THTR 355.

THTR 360. Creative Drama
3 Credits (2+2P)
Methods of developing original dramatizations. Emphasis on curriculum problems and teaching techniques in elementary and secondary schools.
THTR 366. Summer Theatre
1-3 Credits
Experience in professional or academic summer theatre. May be repeated for a maximum of 3 credits. Graded: S/U. Restricted to THTR majors.
Prerequisite(s): Consent of department head.

THTR 384. Stage Management
3 Credits
Study of stage management techniques and their application to play production. A working knowledge of union rules, and the procedure to facilitate these through proper communication skills.

THTR 395. Directing I
3 Credits
Study and application of basic stage directing techniques.
Prerequisite(s): THTR 105 or THTR 110.

THTR 396. Theatre Management
3 Credits
Study of issues related to managing a theatre company and producing plays. May be repeated up to 3 credits.

THTR 408. Shakespeare I
3 Credits
Same as ENGL 408.

THTR 409. Shakespeare II
3 Credits
Same as ENGL 409.

THTR 410. Advanced Acting: Contemporary Methods
3 Credits
Acting techniques will be explored focusing on current trends in the profession, from Stanislavski, to Hagen to Meisner. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: THTR majors.
Prerequisite(s): THTR 220.

THTR 414. Collaborative Theatre-Making
3 Credits
This course introduces students to the techniques, skills and practice of the collaborative creation of new theatrical material.
Prerequisite(s): THTR 110.

THTR 417. Musical Theatre II
3 Credits
A continuation of THTR 317, allowing for more advanced musical theatre techniques.
Prerequisite(s): THTR 317.

THTR 430. Special Topics
1-3 Credits
Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 9 credits.

THTR 435. Directed Reading
1-3 Credits
Directed individualized studies. May be repeated for a maximum of 3 credits.

THTR 439. Senior Seminar
3 Credits
Course preparing students for professions in and related to the theatre. Restricted to: THTR majors.

THTR 440. Senior Seminar Practicum
1 Credit
Capstone course preparing students to apply knowledge of theatre arts toward advanced training or career objectives in the discipline. Consent of instructor required. Pre/ Restricted to THTR majors.
Prerequisite(s): THTR 439.

THTR 450. The Michael Chekhov Acting Intensive
3 Credits
An intensive overview of the performance techniques attributed to Michael Chekhov applied to theatrical scenes and presentations. May be repeated up to 6 credits. Consent of Instructor required.

THTR 457. Advanced Computer Scenographics
3 Credits
Project-oriented course for the advanced modeler. Projects focus on the creation of complex models, custom texturing and shading, virtual lighting, postproduction image work, and animation techniques. Students will develop digital portfolios.
Prerequisite: THTR 357 and consent of instructor.

THTR 458. Shakespeare II
3 Credits
Same as ENGL 409.

THTR 459. Senior Seminar
3 Credits
Course preparing students for professions in and related to the theatre. Restricted to: THTR majors.

THTR 460. The Michael Chekhov Acting Intensive
3 Credits
An intensive overview of the performance techniques attributed to Michael Chekhov applied to theatrical scenes and presentations. May be repeated up to 6 credits. Consent of Instructor required.

THTR 470. Directed Study
1-3 Credits (1-3)
For the highly motivated student. Independent projects and individual guidance. Graduate standing and consent of instructor required. May be repeated up to 6 credits.

Select 9 credits from THTR 300/400 level courses

**Second Language Requirement:** (not required)

**Electives, to bring the total credits to 120**

\[
117 + 20-17 = 120
\]

---

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. A Mathematics General Education course is required but students may need to take any prerequisites needed to enter the course selected first.
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4. Theatre majors must enroll in Theatre Workshop each semester. THTR 200 Theatre Workshop I for freshmen and sophomores and THTR 300 Theatre Workshop II for juniors and seniors, 2 credits total for each course equaling a total of 4 credits.
5. Courses from this category must not duplicate selections above.
6. Elective credit may vary based on General Education course selection, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

### Second Language Requirement

For the Bachelor of Arts in Theatre Arts there is no second language requirement for the degree.

### Concentration: Musical Theatre

The musical theatre concentration is designed to provide students with training in musical theatre performance, including singing, dancing and acting.

### Departmental Requirements

All courses required for the Theatre Arts major must be met, except for the requirement of 9 additional THTR courses.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Choose one from the following:

| THTR 308 | Creative Writing: Playwriting                   | 3       |
| THTR 321V| Modern European Drama (will count towards Viewing a Wider World) | 3       |
| THTR 322 | Dramatic Character                              |         |
| THTR 323 | American Drama                                  |         |
| THTR 329 | Studies in Drama                                |         |

Select one from the following:

| THTR 352 | Costume Design                                  | 3       |
| THTR 353 | Scene Design                                    |         |
| THTR 354 | Sound Design                                    |         |
| THTR 355 | Lighting Design                                 |         |

**Non-Departmental Requirements (in addition to Gen.Ed/VWW)**

| DANC 124 | Jazz Technique I                               | 1       |
| DANC 224 | Jazz Technique II                              | 2       |

Select 4-6 credits from the following:

| DAN 127 | Introduction to Tap Dance                       |         |
| DAN 227 | Tap Dance II                                    |         |
| DAN 228 | Ballet Technique I                              |         |
| DAN 229 | Modern Dance Technique I                        |         |
| DAN 232 | Ballet Technique II                             |         |
| DAN 236 | Modern Dance Technique II                       |         |

**Voice or Applied Music-Vocal**

Select a minimum of six credits from the following:

| MUS 130 | Applied Music                                   | 4       |
| MUS 160 | University Singers                             |         |
| MUS 161 | Concert Choir                                   |         |
| MUS 162 | Master Works Chorus                             |         |
| MUS 251 | Opera Workshop                                  |         |
| MUS 351 | Opera Workshop                                  |         |
| MUS 361 | Concert Choir II                                |         |
| MUS 368 | University Singers II                          |         |

**Second Language Requirement**

For the Bachelor of Arts in Theatre Arts with a Concentration in Musical Theatre there is no second language requirement for the degree.

## General Theatre Arts Major

### A Suggested Plan of Study

This roadmap assumes student placement in MATH 210G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

</tbody>
</table>

1. MATH 210G Mathematics Appreciation is suggested for the degree but students may need to take any prerequisites needed to enter MATH 210G first or any other General Education Mathematics course.
2. See the General Education (p. 49) section of the catalog for a full list of courses.
3. THTR 110 Beginning Acting, THTR 141 Introduction to Stagecraft/ THTR 141 L Stagecraft Laboratory, THTR 142 Introduction to Costume Crafts/ THTR 142 L Costume Craft Lab can be taken in any order, but all five courses must be completed by the end of Year Two.
4. THTR 321V Modern European Drama will not count towards the Viewing a Wider World requirement.
5. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
6. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

**Concentration: Musical Theatre**

Theatre Arts - Undergraduate Minor

The Department of Theatre Arts has one minor in Theatre Arts. Students must pass a minimum of 9 lower division and 9 upper division THTR credits with grades of C- or higher to earn the minor. A student cannot earn both a BA in Theatre Arts and a minor in Theatre Arts.
COLLEGE OF BUSINESS

Dean - James Hoffman
Associate Dean (Academics) - Kathleen Brook
Associate Dean (Research) - William Gould

Mission of the College of Business
The College of Business transforms lives by providing highly respected programs, instruction and scholarly activities that drive economic, social, educational and community development for New Mexico’s diverse population.

Requirements for the Bachelor Degrees

• Successful completion of the New Mexico General Education Requirements and NMSU Viewing a Wider World Courses.
• Successful completion of College of Business Requirements below and major requirements. For the Bachelor of Arts in Economics, see the Economics and International Business (p. 560) section for specific requirements.
• A minimum cumulative grade point average (GPA) of 2.0 in all courses taken at NMSU to meet lower and upper division business core and major requirements.
• All majors except Economics and International Business require a minimum cumulative GPA of 2.0 in all courses taken to meet the requirements of the major. For Economics and International Business majors, a minimum cumulative GPA of 2.5 is required for courses taken to meet the requirements for the major.
• A minimum of 50% of business credits required for a Bachelor of Accountancy or Bachelor of Business Administration degree or 18 business credits required for a Bachelor of Arts in Economics degree must be completed in the College of Business and a minimum of 12 credits required in the major must be completed in the College. See sections below for major-specific transfer criteria. A total of no more than six credits of courses designated as 300E may be used to satisfy the required upper division business elective, the ECON/A ST elective, and electives in the major.

The only courses that may be taken on an S/U option by students in the College of Business are those designated S/U only, general electives outside the college, and up to 9 credits of HON courses used to fulfill General Education requirements.

Before taking upper-division courses (numbered 300 or above) offered by the College of Business, students must complete all lower-division course requirements with the required minimum grades or better.

Upper division business course credits completed more than ten years prior to the degree application will be reviewed by the course department head and dean (or a designee) to determine their continued suitability to satisfy current degree, major and minor requirements and learning objectives.

Course Requirements

Prefix Title Credits
General Education Requirements
Grades of C- or better are required in general education communications courses.

Area I: Communications

English Composition - Level 1
Choose one from the following:

<td>ENGL 111 M</td>
<td>Rhetoric and Composition for International and Multilingual Students</td>
</tr>
</tbody>
</table>

English Composition - Level 2

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 203G</td>
<td>Business and Professional Communication</td>
</tr>
</tbody>
</table>

Oral Communication

Choose one from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AXED 201G</td>
<td>Effective Leadership and Communication in Agricultural Organizations</td>
</tr>
<tr>
<td>COMM 253G</td>
<td>Public Speaking</td>
</tr>
<tr>
<td>COMM 265G</td>
<td>Principles of Human Communication</td>
</tr>
<tr>
<td>HON 265G</td>
<td>Principles of Human Communication Honors</td>
</tr>
</tbody>
</table>

Area II: Mathematics

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 121G</td>
<td>College Algebra (Foundation Requirement)</td>
</tr>
</tbody>
</table>

Area III/IV: Laboratory Science and Social/Behavioral Sciences Courses

BUSA 111  Introduction to Business  3

**Business Core: Upper Division**

- BCIS 338  Business Information Systems I  3
- BLAW 316  Legal Environment of Business  3
- FIN 341  Financial Analysis and Markets  3
- MGT 309  Human Behavior in Organizations  3
- MGT 449  Strategic Management  3
- MKTG 303  Principles of Marketing  3
- BCIS 485  Enterprise Resource Planning  3
  or MGT 344  Production and Operations Management
  or MGT 470  Project Management in Organizations

Upper division Economics or Applied Statistics elective from the following prefixes: A ST (excluding A ST 311), ECON

- Upper division business elective from the following prefixes: A ST, ACCT, B A, BCIS, BLAW, ECON, ENTR, FIN, I B, MGT, MKTG (excluding A ST 311)

**Major Courses**  6

Electives, to bring the total credits 120

Select additional credits to bring total degree credits to a minimum of 120 and upper division credits to 48. The number of general elective credits varies by student and major.  6

Total Credits  120

---

1. Students may be required to take MATH 120 Intermediate Algebra, depending on their math placement. MATH 121G College Algebra or MATH 142G Calculus for the Biological and Management Sciences or A ST 251G Statistics for Business and the Behavioral Sciences or STAT 251G Statistics for Business and the Behavioral Sciences fulfills the general education requirement in math.

2. See the General Education (p. 49) section of the catalog for a full list of courses.

3. A description of the requirement and a listing of approved VWW courses can be found in this catalog under Required Courses (p. 49).

4. All Foundation Requirement Courses must be taken, or satisfied with transfer credits, regardless of which Mathematics or Statistics course satisfies the Area II General Education course: MATH 121G, MATH 142G and A ST 251G/STAT 251G or A ST 311 must be completed.

5. Management - Project Supply Change majors may not use MGT 470 Project Management in Organizations to satisfy this requirement since it is a requirement in the major; Accounting majors must take BCIS 485 Enterprise Resource Planning.

6. Major course credits and Elective credits vary based on the major chosen. Please see the departmental/major pages for specifics on the number of major and elective credits required: Economics (Bachelor of Arts) (p. 566); Accounting (p. 548); Economics (p. 568); Finance (p. 580); General Business (p. 587); Information Systems (p. 551); International Business (p. 571); Management (p. 584); Marketing (p. 599).

---

**Associate in Prebusiness Degree**

To complete the associate degree, 60 credits are required, including the General Education Requirements, College of Business Foundation and Business Core (lower division) requirements.

---

A minimum cumulative grade point average of 2.0 is also required. The last 15 credits towards the degree must be earned through the NMSU system.

**Minors in Business**

Minors are available in:

- accounting,
- advertising,
- banking and financial planning,
- business administration,
- business law,
- economics,
- enterprise systems,
- entrepreneurship and innovation,
- finance,
- information systems,
- international business,
- management,
- marketing,
- professional selling,
- risk management and insurance,
- sports marketing, and
- sustainability.

Students pursuing the Bachelor of Individualized Studies or the Bachelor of Applied Studies are not eligible for minors from the College of Business other than the minor in business administration. At least 12 credits of the minor must be completed at the NMSU College of Business.

**Prelaw Students**

Because the practice of law often involves business-related problems, the majors in the college provide an excellent preparation for the prelaw student. The college has attorneys on the faculty who are available as advisors. Please contact the Finance Department for more information.

**Transferring Business Courses**

The following business courses have been identified as transferable from NMSU to other public two year and four year institutions in New Mexico. The equivalent course at other institutions can be identified using the common course number which appears in parentheses below. Similarly, students from other institutions can use the common course number to identify business courses that can be transferred to NMSU.

- Applied Statistics (p. 577)
- Economics (p. 577)
- Information Systems (p. 555)

Accreditation

New Mexico State University has been accredited since 1926 by the Higher Learning Commission of the North Central Association of Colleges and Secondary Schools as a degree-granting institution. The university was accredited in 1954 by the American Association of University Women.

The baccalaureate and graduate degree programs in business and accounting offered in the College of Business are accredited by AACS
International—The Association to Advance Collegiate Schools of Business.

**Business Administration - Undergraduate Minor**

This minor is available to all bachelors degree seeking students, except those seeking the Bachelor of Accountancy and the Bachelor of Business Administration degrees. It is the only minor in Business open to students in the Bachelor of Applied Studies and the Bachelor of Individualized Studies. At least 12 of the credits for the minor must be completed in the NMSU College of Business.

**Minor Requirements**

Choose 18 credits of coursework from these business core courses: Nine of the credits must be at the upper division level.

1. Courses satisfy background knowledge requirements for the MBA program when completed with a B- grade or better.
2. Only one course may be applied to this minor.

**Notes:** A minimum GPA of 2.0 is required in the coursework for the minor.

Several courses listed above have prerequisites. It is the responsibility of the student to determine course prerequisites and other registration requirements.

**Accounting and Information Systems**

**Undergraduate Program Information**

The Bachelor of Accountancy degree is available to students choosing accounting as a major. The curriculum is designed to prepare you for the excellent opportunities that exist in public accounting practice and in business, government and nonprofit organizations. It is also appropriate for those who may choose to seek either the Master of Accountancy or the Master of Business Administration degree after graduation.

The Information Systems program has a focus on cyber security that prepares you for a variety of administrative and technical positions associated with the security of information systems. Potential employers include information system service organizations, public accounting/consulting firms, manufacturing and merchandising businesses, banks and other financial institutions, government and others that rely on information systems to support their business.

**Graduate Program Information**

The last two decades have witnessed a tremendous expansion in the knowledge base required for accounting professionals. The business environment has become increasingly complex, as evidenced by the growth in the body of national and international accounting and auditing standards, taxation, SEC and other regulatory requirements. The accountant must also be well versed in communications and analytical skills, computer-based information systems, professional ethics and global issues.

Neither the traditional four-year accounting program nor the MBA provides the educational breadth and depth necessary to fully prepare students for the demands now imposed by many accounting careers. The major objective of the Master of Accountancy (MAcc) program is to provide for these increased educational needs and to prepare students more adequately for careers as professional accountants in financial institutions, government, not-for-profit organizations and public practice. The program is designed to provide a technical and theoretical foundation in accounting at the advanced level and yet allow the student to take courses to accommodate individual needs.

**Degrees for the Department**

- Accounting - Bachelor of Accountancy (p. 548)
- Information Systems - Bachelor of Business Administration (p. 551)
- Accounting - Master of Accountancy (p. 554)
- Information Systems - Master of Accountancy (p. 555)

**Minors for the Department**

- Accounting - Undergraduate Minor (p. 553)
- Information Systems - Undergraduate Minor (p. 554)
- Information Systems - Graduate Minor (p. 555)

**Associate Professor, Kevin Melendrez, Ph.D., Department Head**

Professors Mora, Seipel, Tunnell; Associate Professors Billiot, Melendrez, Clemens; Assistant Professors Arslan, Ewing, Joo, Zhang; College Assistant Professor Hamilton, Shindi, Taylor; Emeritus Professor Foster, Mills, Oliver, Scribner

F. Arslan, Ph.D (Texas - El Paso)- information systems; M. J. Billiot, D.B.A. (Mississippi State) C.P.A.-managerial and financial accounting; R. Clemons, Ph.D (Texas A&M) C.P.A. - taxation; R. Ewing, Ph.D. (Kentucky) C.P.A., C.M.A. - managerial accounting; T. Foster (emeritus), Ph.D. (Penn State) - financial accounting; P. Mills (emeritus), Ph.D. (Texas Tech) C.P.A.-managerial accounting and fraud examination; C. Mora -Monge, PhD (Toledo) - supply chain management, information systems; E.A. Scribner (emeritus), Ph.D. (Oklahoma State); C.P.A. financial accounting and accounting systems; C. Seipel, Ph.D. (Oklahoma State) – C.P.A., C.F.E.-financial accounting and
Accounting Courses

ACCT 101. Supplemental Instruction to ACCT 221
1 Credit
Collaborative workshop for students in ACCT 221—Financial Accounting. Course does not count toward departmental degree requirements. May be repeated up to 2 credits. Restricted to Las Cruces campus only. Corequisite(s): ACCT 221.

ACCT 200. A Survey of Accounting
3 Credits
Emphasis on financial statement interpretation and development of accounting information for management. For engineering, computer science, and other non business majors. Community Colleges only. Prerequisite: one C- or better in ACCT 301.

ACCT 221. Principles of Accounting I (Financial)
3 Credits
An introduction to financial accounting concepts emphasizing the analysis of business transactions in accordance with generally accepted accounting principles (GAAP), the effect of these transactions on the financial statements, financial analysis, and the interrelationships of the financial statements. Prerequisite(s): ACCT 221.

ACCT 222. Principles of Accounting II (Managerial)
3 Credits
An introduction to the use of accounting information in the management decision making processes of planning, implementing, and controlling business activities. In addition, the course will discuss the accumulation and classification of costs as well as demonstrate the difference between costing systems. Prerequisite(s): ACCT 221.

ACCT 301. Financial Accounting I
3 Credits
Concepts, principles, and practices of financial accounting, stressing the determination of income and financial position. A student who does not pass the class within three attempts will not be allowed to take class for a fourth. Prerequisite(s): C or better in ACCT 221 and ACCT 222.

ACCT 302. Financial Accounting II
3 Credits
A continuation of ACCT 301. Prerequisite(s): C or better in ACCT 301.

ACCT 351. Accounting Systems
3 Credits
Covers accounting information systems as processors of data for financial reporting and control of economic organizations. Prerequisite(s): ACCT 221 and ACCT 222.

ACCT 353. Cost Accounting
3 Credits
The development and use of cost accounting information for inventory valuation, income determination, and cost control. A student who does not pass the class within three attempts will not be allowed to take class for a fourth. Prerequisite(s): C or better in both ACCT 221 and ACCT 222.

ACCT 403. Federal Taxation I
3 Credits
Basic federal income tax laws; emphasis on determination of taxable income of individuals. A student who does not pass the class within three attempts will not be allowed to take class for a fourth. Prerequisite(s): A "C" or better in ACCT 221 and ACCT 222.

ACCT 451. Auditing Theory and Practices
3 Credits
Auditing standards, audit evidence, auditors reports and opinions, and professional responsibilities. Prerequisite(s): ACCT 351 and C- or better in ACCT 302.

ACCT 455. Federal Taxation II
3 Credits
Federal income tax laws applicable to partnerships, corporations, fiduciaries, tax research, tax planning. Prerequisite(s): C- or better in ACCT 403 or consent of instructor.

ACCT 456. Accounting for Nonprofit Organizations
3 Credits
Control and reporting problems unique to governmental units and other nonprofit organizations. Fund accounting principles, procedures, and reports. Prerequisite(s): C- or better in ACCT 302.

ACCT 458. Accounting Data Analytics
3 Credits
Data Analytics in financial and managerial accounting and auditing. Restricted to: Accounting majors. Prerequisite(s): C- or better in ACCT 301, ACCT 302, and ACCT 351.

ACCT 460. Fraud Examination and Prevention
3 Credits
Covers business fraud as it is occurring in American society. Emphasis is on occupational fraud and financial statement fraud. Examines various types of fraud, its symptoms and effective investigation techniques. Effective fraud prevention measures are discussed throughout the course. Emphasizes case studies and the application of principles to actual fraud cases. Prerequisites: a C- or better in ACCT 451 or concurrent enrollment.

ACCT 490. Selected Topics
1-3 Credits
Current topics in accounting. Prerequisites vary according to the seminar offered. May be repeated for a maximum of 12 credits under different subtitles.

ACCT 498. Independent Study
1-3 Credits
Individual studies directed by consenting faculty with the prior approval of the department head. May be repeated up to 3 credits. Consent of Instructor required. Prerequisite(s): Consent of instructor.

ACCT 500. Concepts in Accounting
1 Credit
Development, interpretation, and use of accounting information for financing, investing, operating, and managerial decision making. Prerequisite(s): Admitted to MBA program.
ACCT 503. Accounting for Managers
3 Credits
Concepts and principles of financial and managerial accounting. Presents techniques used to measure business transactions, prepare financial statements, techniques for management decision-making, planning, and control. Not open to MAcc students. 
Prerequisite(s): B or better in both ACCT 221 and ACCT 222.

ACCT 510. Technical and Professional Communication for Accountants
3 Credits
Effective writing strategies for professional communications. Students will learn to write with a professional style and proper English usage and to work with a variety of technical and lay audiences. Emphasis on initiation, planning, composition, and evaluation of business and accounting workplace scenarios to develop communication skills used in a business environment. Restricted to: Master of Accountancy majors.

ACCT 530. Advanced Accounting
3 Credits
This course is designed to provide in-depth study of current financial accounting concepts related to business combinations, financial statement consolidations, and foreign currency transactions and translations. Restricted to: Master of Accountancy majors.
Prerequisite(s): ACCT 302 with a grade of C or better.

ACCT 544. Financial Statement Analysis and Valuation
3 Credits
Valuation of firms using financial information, financial statement analysis, and the valuation of individual assets and liabilities. Restricted to: Master of Accountancy majors.
Prerequisite(s): Acct 302; Graduate students only.

ACCT 550. Special Topics
3 Credits
Seminars in current topics in various areas of accounting including financial, managerial, auditing, taxation, systems, and fund accounting. Prerequisites vary according to topic being offered.

ACCT 551. Advanced Auditing Theory and Practice
3 Credits
Understanding and evaluating internal control in an EDP environment. Statistical sampling applications and current issues in auditing. Restricted to: Master of Accountancy majors.
Prerequisite(s): ACCT 451.

ACCT 555. Federal Tax Research
3 Credits
Tax research methodology including case materials, critical judicial decisions, journal articles, and research services. Emphasis on tax planning. Restricted to: Master of Accountancy majors.
Prerequisite(s): ACCT 403.

ACCT 559. Ethics and Professionalism in Accounting
3 Credits
Introduction to ethical reasoning, integrity, objectivity, independence, and professional accounting issues. Students will apply the concepts and theories to accounting-specific cases. Restricted to: Master of Accountancy majors.
Prerequisite(s): C or better in ACCT 451.

ACCT 560. Taxation of Corporations and Shareholders Advanced
3 Credits
Effects of taxation on the organization, operation, and reorganization of corporations and on their shareholders. Restricted to: Master of Accountancy majors.
Prerequisite(s): ACCT 403.

ACCT 564. Financial Accounting Research
3 Credits
Interpretation and application of accounting principles to financial reporting issues of business and nonbusiness organizations. Consent of Instructor required. Restricted to: Master of Accountancy majors.
Prerequisite(s): ACCT 302.

ACCT 570. Taxation of Partnerships
3 Credits
Taxation of partnership contributions and distributions, transfer of partnership interests, and allocations of partnership income. Also includes taxation of S corporations. Restricted to: Master of Accountancy majors.
Prerequisite(s): ACCT 403.

ACCT 580. Professional Accountability
3 Credits
Prepares students for the accounting profession and professional certification through study of a wide range of topics similar to those a student might encounter in their first year of employment. Restricted to: Master of Accountancy majors.

ACCT 598. Independent Study
1-3 Credits
Individual studies directed by consenting faculty with prior approval of the department head. A maximum of 3 credits may be earned.
Prerequisite: consent of instructor.

ACCT 599. Master's Thesis
15 Credits
Thesis.

Accounting - Bachelor of Accountancy

Every candidate for the Bachelor of Accountancy degree must fulfill the following requirements in addition to the General Education, Viewing a Wider World requirements, College of Business Foundation and the Business Core Courses, and Electives.

In order to count toward the Bachelor of Accountancy, upper-division transfer courses in accounting:

1. must have been taken at an institution with AACSB Accounting accreditation or
2. be part of the New Mexico Business Articulation Matrix.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.
## Course Requirements

### General Education Requirements

Grades of C- or better are required in general education communications courses.

#### Area I: Communications

**English Composition - Level 1**

Choose one from the following:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 111G</td>
<td>Rhetoric and Composition</td>
<td>4</td>
</tr>
<tr>
<td>ENGL 111GH</td>
<td>Rhetoric and Composition Honors</td>
<td></td>
</tr>
<tr>
<td>ENGL 111 M</td>
<td>Rhetoric and Composition for International and Multilingual Students</td>
<td></td>
</tr>
</tbody>
</table>

**English Composition - Level 2**

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 203G</td>
<td>Business and Professional Communication</td>
<td>3</td>
</tr>
</tbody>
</table>

#### Oral Communication

Choose one from the following:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AXED 201G</td>
<td>Effective Leadership and Communication in Agricultural Organizations</td>
<td>3</td>
</tr>
<tr>
<td>COMM 253G</td>
<td>Public Speaking</td>
<td></td>
</tr>
<tr>
<td>COMM 265G</td>
<td>Principles of Human Communication</td>
<td></td>
</tr>
<tr>
<td>HON 265G</td>
<td>Principles of Human Communication Honors</td>
<td></td>
</tr>
</tbody>
</table>

### Area II: Mathematics

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 121G</td>
<td>College Algebra (Foundation Requirement) 1,2</td>
<td>3</td>
</tr>
</tbody>
</table>

### Area III/IV: Laboratory Sciences and Social/Behavioral Sciences

Grades of C- or better required for ECON 251G and ECON 252G.

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 251G</td>
<td>Principles of Macroeconomics (Credits are counted in Business Core)</td>
<td></td>
</tr>
<tr>
<td>ECON 252G</td>
<td>Principles of Microeconomics (Credits are counted in Business Core)</td>
<td></td>
</tr>
</tbody>
</table>

### Area III: Laboratory Sciences (4 credits)

#### Area V: Humanities

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>3</td>
</tr>
</tbody>
</table>

#### Area VI: Creative and Fine Arts

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>3</td>
</tr>
</tbody>
</table>

### General Education Elective

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 142G</td>
<td>Calculus for the Biological and Management Sciences (must earn a grade of at least C-) 2</td>
<td></td>
</tr>
</tbody>
</table>

### Viewing a Wider World Courses

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>4</td>
</tr>
</tbody>
</table>

### Departmental/College Requirements

#### Foundation Requirements

Choose one from the following (grade of C- or better required):

- If a ST 251G/STAT 251G is taken before MATH 121G then the Statistics course will satisfy the Area II Requirement and MATH 121G must be taken as a foundation requirement
- A ST 251G | Statistics for Business and the Behavioral Sciences | 3       |
- STAT 251G | Statistics for Business and the Behavioral Sciences |         |
- A ST 311 | Statistical Applications (Foundation Requirement - doesn't count as Gen.Ed) |         |

### Business Core: Lower Division (minimum grades of C- required)

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCT 211</td>
<td>Principles of Accounting I (Financial) (not recommended for freshman year)</td>
<td>3</td>
</tr>
<tr>
<td>ACCT 222</td>
<td>Principles of Accounting II (Managerial)</td>
<td>3</td>
</tr>
<tr>
<td>BCIS 338</td>
<td>Business Information Systems I</td>
<td>3</td>
</tr>
<tr>
<td>BLAW 316</td>
<td>Legal Environment of Business</td>
<td>3</td>
</tr>
<tr>
<td>FIN 341</td>
<td>Financial Analysis and Markets</td>
<td>3</td>
</tr>
<tr>
<td>MGT 309</td>
<td>Human Behavior in Organizations</td>
<td>3</td>

<td>3</td>
</tr>
<tr>
<td>ACCT 458</td>
<td>Accounting Data Analytics</td>
<td>3</td>
</tr>
</tbody>
</table>

### Upper Division Business Elective from the following prefixes:

- A ST, ACCT, B A, BCIS, BLAW, ECON, ENTR, FIN, I B, MGT, MKTG (excluding A ST 311)

### ACCT Upper Division Electives

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>3</td>
</tr>
</tbody>
</table>

### Second Language: (not required)

**Electives, to bring the total credits to 120**

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>6</td>
</tr>
</tbody>
</table>

**Total Credits**

120

---

1. MATH 121G College Algebra is required for the degree but students may need to take any prerequisites needed to enter MATH 121G.
2. All Foundation Requirement Courses must be taken, or satisfied with transfer credits, regardless of which Mathematics or Statistics course satisfies the Area II: General Education course or the General Education Elective requirements: MATH 121G, MATH 142G and A ST 251G/STAT 251G or A ST 311 must be completed.
3. See the General Education (p. 49) section of the catalog for a full list of courses.
4. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses and how to fulfill this requirement.
5. A student who does not pass ACCT 301 Financial Accounting I, ACCT 353 Cost Accounting, or ACCT 403 Federal Taxation I within three attempts will not be allowed to take the class for a fourth.
A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 121G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

**Total Credits** | 120

---

1 These courses have prerequisites and it is the students’ responsibility for checking and fulfilling all course prerequisites listed for these courses.

2 See the General Education (p. 49) section of the catalog for a full list of courses.

3 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.

4 Students must take all four courses: ACCT 351 Accounting Systems, ACCT 353 Cost Accounting, ACCT 403 Federal Taxation I and ACCT 458 Accounting Data Analytics. Students who do not pass ACCT 301 Financial Accounting I, ACCT 353 Cost Accounting, or ACCT 403 Federal Taxation I within three attempts will not be allowed to take the class for a fourth.

5 Graduate-Level Coursework Substitution: At the discretion of the Accounting Department and the Academic Dean of the Business College, qualified juniors/seniors may be allowed to enroll in graduate-level accounting courses to satisfy these requirements. *qualified juniors/seniors who plan to pursue a Master of Accountancy should consult with the Master of Accountancy program coordinator for details about the requirements that must be met to qualify for early acceptance.

---

### Information Systems - Bachelor of Business Administration

Every candidate for this major must fulfill the following requirements in addition to the general education common core, College of Business foundation and business core (p. 543), Viewing a Wider World requirements and general electives.

Please note that some of the courses listed may have a prerequisite which would require a student to take an additional course. Substitutions for some of these courses may be considered if a student makes this request to the department.

### Course Requirements

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

---

1. Students may be required to take MATH 120 Intermediate Algebra, depending on their math placement. MATH 121G College Algebra or MATH 142G Calculus for the Biological and Management Sciences or A ST 251G Statistics for Business and the Behavioral Sciences or STAT 251G Statistics for Business and the Behavioral Sciences fulfills the general education requirement in math.
2. See the General Education (p. 49) section of the catalog for a full list of courses.
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses and how to fulfill this requirement.
4. All Foundation Requirement Courses must be taken, or satisfied with transfer credits, regardless of which Mathematics or Statistics course satisfies the Area II General Education course: MATH 121G, MATH 142G and A ST 251G/STAT 251G or A ST 311 must be completed.

---

### A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 121G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

**Course** | **Title** | **Credits**
---|---|---

#### First Year

**Fall**

- MATH 121G College Algebra (C- or better)
- BUSA 111 Introduction to Business (C- or better)

Choose one from the following:

- ENGL 111G Rhetoric and Composition (C- or better)
- ENGL 111GH Rhetoric and Composition Honors (C- or better)
- ENGL 111 M Rhetoric and Composition for International and Multilingual Students (for multicultural/international students only and a C- or better)

**Area V: Humanities Course**

**Area VI: Laboratory Science Course**

**Total Credits**: 16

**Spring**

- MATH 142G Calculus for the Biological and Management Sciences
- BCIS 110 Fundamentals of Information Literacy and Systems (C- or better)

Choose one from the following:

- AXED 201G Effective Leadership and Communication in Agricultural Organizations (C- or better)
- COMM 253G Public Speaking (C- or better)
- COMM 265G Principles of Human Communication (C- or better)
- HON 265G Principles of Human Communication Honors (C- or better)

**Area III: Laboratory Science Course**

**Area VI: Creative and Fine Arts Course**

**Total Credits**: 16

---

**Second Year**

**Accounting - Undergraduate Minor**

To obtain a minor in Accounting, a student must complete 18 or more credit hours of approved course work in Accounting (ACCT), of which at least 12 hours are in courses numbered 300, or higher. All courses for the minor must be completed with a grade of C- or better. At least 12 credits must be completed at NMSU. This minor is not open to majors in the Bachelor of Individualized Studies and the Bachelor of Applied Studies.

**Total Credits**: 18

Of the 12 hours of upper-division Accounting classes required for the minor, a minimum of 6 must be taken at NMSU. At least 12 credit hours
must be completed at the NMSU College of Business. To count toward the minor, upper-division transfer courses must have been taken at an institution with AACSB Accounting accreditation.

Enterprise Systems - Undergraduate Minor

To obtain a minor in Enterprise Systems, a student must complete 18 or more credit hours of approved course work. A cumulative grade point average of at least 2.0 over the 18 hours must be earned. At least 12 credits must be completed at NMSU. This minor is not open to majors in the Bachelor of Individualized Studies and the Bachelor of Applied Studies.

Total Credits 18

Accounting - Master of Accountancy

The MAcc program is recommended for those students wishing to fulfill the 150-hour education requirement which most states, including New Mexico, have legislated as a requirement for taking the Uniform CPA Examination.

Graduate assistantships are available for a limited number of qualified students. Interested persons are urged to apply well within the deadlines set by the Graduate School. Inquiries should be addressed to the Director.

Admission requirements of the Graduate School must be met before the applicant may be admitted to the Master of Accountancy program. Consideration for admission to the Master of Accountancy program is dependent on an applicant's undergraduate record and score on the Graduate Management Admissions Test (GMAT). Specifically, an applicant's undergraduate GPA is multiplied by a factor of 200 and the result is added to his/her GMAT score. The required total is 1100. Applicants scoring between 1000 and 1100 will be admitted to the program only with approval of the MAcc Admissions Committee. The minimum acceptable GMAT score is 400. An acceptable score on the GMAT should be submitted at least one month prior to the student's first enrollment unless the student meets one of the GMAT waivers listed below.

In addition to the aforementioned entrance requirements, an applicant's GPA in 7 upper division accounting prerequisites must be at least 3.0. For those students not receiving their undergraduate accounting degree at NMSU, it is expected that substantially all of the accounting prerequisite classes be from an AACSB accredited business school or the application will need to be approved by the MAcc Admissions Committee. In this case the Admissions Committee may require that some of these prerequisite courses be retaken at an AACSB institution such as NMSU.

All grades, including those from the first attempt at repeated classes, will be used to compute upper division accounting prerequisite grade point averages to determine admission to the graduate program. At the suggestion of any faculty member, the MAcc Admissions Committee will review the application of a student whose potential might not be accurately reflected by this calculation.

GMAT Waivers

The GMAT requirement is waived for those who:

1. Are graduates of an undergraduate program in accounting from a US AACSB accredited business school with at least a 3.25 GPA overall and a 3.25 GPA in their upper division accounting courses; or
2. Are graduates of NMSU's undergraduate accounting program with at least a 3.25 GPA overall and a 3.0 GPA in six core upper division accounting classes; or
3. Hold a recognized professional accounting credential (such as CPA, CMA, CIA, CFE); or
4. Hold a post baccalaureate degree (such as MBA, MS, MA, JD) from an approved, AACSB-accredited US university with a minimum 3.0 GPA in graduate course work.

Candidates for the Master of Accountancy degree who have an undergraduate degree in accounting must successfully complete a minimum of 30 graduate credits. Qualifying NMSU undergraduate
accounting students can apply to have two graduate courses count for their undergraduate program as well as their graduate program. Candidates with an undergraduate degree in a field other than accounting must complete additional prerequisite work dependent upon previous courses taken. In any case, all candidates must present or fulfill the following requirements:

**Foundation Courses**

These courses are required of every student unless they can be waived. As a general policy, the courses upon which waivers are claimed must have been taken within seven years of enrollment in the program with a grade of B or better. A final decision regarding a waiver is based on an evaluation of each student's total educational and professional background.

(for a description of these courses, click the prefix/number combination and a course bubble will appear)

Total Credits: 33

**Accounting and Related Prerequisites (21 Credits)**

In addition to the foundation requirements, each student must present or complete the equivalent of an undergraduate major in accounting. This requires, at a minimum, 21 credits of accounting above the elementary level.

No coursework applied toward the MAcc degree, including the foundation requirements and the undergraduate accounting prerequisites, may be taken on an S/U basis.

**Core and Other Courses (30 Credits)**

**Core Courses**

Each student must complete 21 credits in accounting courses numbered above 520. These courses must include a research class (either ACCT 555 Federal Tax Research or ACCT 564 Financial Accounting Research) and Ethics in Accounting (ACCT 559 Ethics and Professionalism in Accounting) unless a student has already taken an equivalent course. In addition, three of the credits may be in upper division undergraduate elective accounting courses numbered 450 or higher. Other specific courses to be completed by each candidate will be determined in the advisement process.

**Other Courses**

All students must complete a total of 9 additional credits in other courses. Three of the credits must be ACCT 510 Technical and Professional Communication for Accountants, and the rest must be from the approved list of electives or a waiver must be received to take a course not on the list. Neither ACCT 503 Accounting for Managers nor any course fulfilling the foundation requirement may be included. Any student wishing to be waived from any of the above requirements may submit a petition in writing to the MAcc Director. Each request will be considered individually by the MAcc Committee.

**General**

The Graduate School requires that students maintain a grade-point average of at least 3.0 in all courses taken as a graduate student, as well as a 3.0 grade-point average in all graduate courses taken as a graduate student at NMSU. The Department of Accounting and Information Systems requires, in addition, that every candidate for the MAcc degree maintain at least a 3.0 grade-point average in all accounting courses used to satisfy the core and elective course requirement. MAcc students may not retake 500-level accounting courses for which they have previously received a grade without approval of the MAcc Admissions Committee.

**Comprehensive Examination**

Satisfactory performance on an electronic portfolio is required for the degree.

**Thesis:** No thesis is required; however, under special approval, a candidate may elect to write a thesis under ACCT 599 Master’s Thesis. Up to 6 credits may be earned for the thesis.

**Admission to Master of Accountancy**

Class registration in any Accounting course numbered above ACCT 503 Accounting for Managers requires

1. prior full admission to the MAcc program, or
2. prior consent of the Director of the MAcc program.

**Information Systems - Graduate Minor**

This minor is for master’s-level students who are not in the Masters of Business Administration (MBA) program. Students in the MBA program may choose a concentration in Information Systems (see the Business Administration (p. 556) section).

To obtain a graduate minor in Information Systems (IS) students must satisfy the requirements as stated below for a minor at the master’s level. For it to appear on the transcript, the student must list the minor on the Program of Study and Committee for Master’s Student (Application for Admission to Candidacy) and have it signed by the head of the department offering the minor.

**Requirements**

The minor requires a minimum of 9 credits of graduate work.

## Business Administration

### Graduate Program Information

The business and accounting programs at NMSU, including the MBA program, are accredited by AACSB International - The Association to Advance Collegiate Schools of Business.

The Master of Business Administration (MBA) program is a professional program designed to provide students with a solid background in business practices and the problem-solving and people skills needed to become successful leaders in the global business environment. Program graduates are prepared for administrative or managerial positions in a wide variety of organizations, both private and governmental. The MBA program is offered in a traditional classroom with some online delivery and in a cohort-based distance program with a synchronous online component. Details are available at [http://business.nmsu.edu/mba](http://business.nmsu.edu/mba).

The Ph.D. program in Business Administration offers the opportunity to specialize in either Marketing or Management.

### Degrees for the Department

#### Business Administration - Master of Business Administration (p. 557)

- Engineering/MBA Program – Dual Degree (p. 559)
- Business Administration - Doctor of Philosophy (p. 559)

#### Sustainability - Graduate Certificate (p. 560)

- F. Arslan, PhD (Texas - El Paso) - information systems; R. Adkisson, Ph.D. (Emeritus); T. R. Adler, Ph.D. (Cincinnati) – policy and strategy, collaborative networks, information systems; P. G. Benson, Ph.D. (Emeritus); M. J. Billiot, D.B.A. (Mississippi State, C.P.A.) – managerial accounting; J. W. Bishop, Ph.D. (Virginia Tech) – human resource management and organizational behavior; L. Blank, Ph.D. (Tennessee) – micro economics, economics of regulated utilities; D. M. Boje, Ph.D. (Emeritus); K. Brook, Ph.D. (Texas) – money and banking, macroeconomic theory; R. Clemons, Ph.D. (Texas A&M) - C.P.A., taxation; N. H. Compton, J.D. (Emeritus); B.F. Daily, Ph.D. (Emeritus); D. L. Daniel, Ph.D. (Southern Methodist) – non parametrics; M.E. de Boyrie, Ph.D. (Florida International) – international finance and trade issues; P. W. Dorfman, Ph.D. (Emeritus); C. E. Enomoto, Ph.D. (Texas A&M) – microeconomic theory; C. A. Erickson, Ph.D. (Arizona State) – monetary theory, macroeconomics; C. Flinchbaugh, Ph.D. (Kansas) – Organizational behavior, human resources; R. D. Fortin, Ph.D. (Kansas) – corporate finance and investments; C. Gard, Ph.D. (University of Washington) – biostatistics; D. A. Gegax, Ph.D. (Wyoming) – managerial economics, microeconomic theory; W. R. Gould, Ph.D. (North Carolina State) – biological sampling, wildlife and fisheries estimation; M. Hyman, Ph.D. (Purdue) – marketing theory and research; D. James, JD (Utah) – business law; I.M. Jasso, Ph.D. (Houston) – advertising, strategy; M. Jun, Ph.D. (Georgia State) – production and operations management; J. Kreie, Ph.D. (Emeritus); L. LaPlue, Ph.D (Tennessee) – international and environmental economics; Y. F. Lee, Ph.D. (Southern Illinois-Carbondale) – international finance, international trade, international monetary system, economic development; J. Loveland, Ph.D. (Emeritus); K. J. Martin, Ph.D. (Purdue) – financial management, corporate control; R. McFerrin, Ph.D. (Texas A&M) – microeconomics, macroeconomics, economic history; J. T. McGuckin, Ph.D. (Emeritus); K. D. Melendez, Ph.D. (Arizona) – financial accounting; S. K. Mills, Ph.D. (Emeritus); C. Mora-Monge, Ph.D. (Toledo) – supply chain management, information systems; J. A. Nelson, Ph.D. (Emeritus); M. Niculescu, Ph.D. (Cincinnati) – modeling consumer behavior; R. Oliver, Ph.D. (Emeritus); N. A. Oretskin, J.D. (Emeritus); J. T. Peach, Ph.D. (Emeritus); R. T. Peterson (Emeritus); C. Plouffe, PhD (Western University, Ontario, Canada) – marketing; G. Porto-Gazzoli, PhD (Oklahoma State) – service marketing and management in health care; J. Tim Query, Ph.D. (Georgia) – insurance, finance, risk management; S. Rahman, Ph.D. (Texas-El Paso) – personal financial planning, financial analysis and markets; G. A. Rosile, Ph.D. (Emeritus); H. Sankaran, Ph.D. (Houston) – corporate finance, investments; E. T. Sautter, Ph.D. (Emeritus); E. A. Scribner, Ph.D. (Emeritus); C. Seipel, Ph.D. (Oklahoma State) – C.P.A.-financial accounting, auditing; W.L. Smith, Ph.D. (New Mexico State) – C.P.A. – taxation; C. Sroka, Ph.D. (Ohio State) – count data models; R. L. Steiner, Ph.D. (Oklahoma State) – likelihood methods, discrete distributions; J. E. Teich, Ph.D. (Emeritus) P. Tunnell, Ph.D. (Oklahoma State) – C.P.A.-taxation; D. M. VanLeeuwen, Ph.D. (Oregon State) – statistics; B. Widner, Ph.D. (Colorado State) – urban/regional, public finance, development; C. Vildirim, PhD (Texas Tech) – retirement planning investment choices, behavioral finance; Y. You, PhD (Wisconsin) – linguistic framing, anthropomorphism; Y. Zhang, PhD (Texas Tech) – financial accounting; J. Zhu (Iowa) – marketing analytics, machine learning.

### Business Administration Courses

**B A 104. Introduction to Business**

3 Credits

Survey and integration of functions in business organizations within their social and economic environment. Community Colleges only.

**B A 105. Special Topics**

1-3 Credits

Current topics in business and economics.

**B A 202. Small Business Enterprise**

3 Credits

Appraisal of business functions within the framework of a small business organization.

**B A 291. Business Administration and Economics Internship and Cooperative Education I**

1-3 Credits

Introduction and applications of the principles of business administration and economics. Registration in one course allowed per co-op work phase; a minimum of 12 work weeks is required. Open only to students in the College of Business. Option of S/U or a grade. The amount of academic credit (1-3 cr.) will be determined by the academic experience, and not by the work experience.

**B A 305. Leadership Training for COB Ambassadors**

1 Credit

Leadership development for volunteers serving as COB student ambassadors, focusing on COB undergraduate business degree programs, NMSU student services, public speaking and public relations.
BA 391. Business Administration and Economics Internship and Cooperative Education II
1-3 Credits
Applications of the principles of business administration and economics. Registration in one course allowed per co-op work phase; a minimum of 12 work weeks is required. Open only to students in the College of Business. Option of S/U or a grade. The amount of academic credit (1-3 cr.) will be determined by the academic experience and not by the work experience.

BA 490. Selected Topics
3 Credits
Prerequisites vary according to the seminar being offered.

BA 498. Independent Study
1-3 Credits
Individual studies directed by consenting faculty with the prior approval of the department head. A maximum of 3 credits may be earned.
Prerequisite: junior or above standing and consent of instructor.

BA 500. Macroeconomic Essentials
1 Credit
Macroeconomic theory and public policy, national income concepts, unemployment, inflation, economic growth and international payment problems. Restricted to: MBA Major majors majors majors.

BA 501. Quantitative Tools for the MBA
1 Credit
An overview of critical topics in math and statistics that will provide a quantitative foundation for students entering the Master of Business Administration program. Admission to the MBA program.

BA 545. Business Ethics
3 Credits
Understanding of business ethics, social responsibilities of business organizations, and personal codes of conduct. Complexities of moral reasoning and principles of ethical behavior.

BA 550. Special Topics
3 Credits
Interdisciplinary seminar in selected current business topics.
Prerequisite(s): Prerequisites vary according to the seminar being offered.

BA 590. Professional Paper/Presentation
3 Credits
Paper written in close coordination with sponsoring professor and presented near the end of the student’s final semester in the M.B.A. program. The paper will consist of a professional business report, a case study of a business or organization or a research report. Restricted to: MBA majors.
Prerequisite(s): Minimum of 3.0 average in: ACCT 503, BLAW 502, FIN 503, and MKTG 503 or AEEC 551.

BA 598. Special Research Programs
1-3 Credits
Individual investigations either analytical or experimental. A maximum of 3 credits may be earned.
Prerequisite: consent of instructor.

BA 599. Master's Thesis
15 Credits
Thesis.

Business Administration - Master of Business Administration

The Master of Business Administration (MBA) program is a professional program designed to provide students with a solid background in business practices and the problem-solving and people skills needed to become successful leaders in the global business environment. Program graduates are prepared for administrative or managerial positions in a wide variety of organizations, both private and governmental. The business and accounting programs at NMSU, including the MBA program, are accredited by AACSB International - The Association to Advance Collegiate Schools of Business.

The MBA program is offered in a traditional classroom with some online delivery and in a cohort-based distance program with a synchronous online component.

Details are available at http:\business.nmsu.edu/mba.

Admissions

Applicants must meet the basic admission requirements of the Graduate School before they are considered for admission to the MBA program. To be considered for admission to the MBA program, applicants must meet one of the following criteria:

1. Have an undergraduate degree with a GPA of at least 3.5 from an institution with business accreditation by AACSB International or ACBSP, or
2. Have achieved a minimum Graduate Management Admission Test (GMAT) score of 400 and a combined GMAT score and undergraduate GPA such that (GPA x 200)+ GMAT is greater than or equal to 1050, or
3. Have a graduate degree from a regionally accredited U.S. college or university, or
4. Have completed at least four years of relevant, full-time, post-degree, professional work experience with an undergraduate GPA of at least 3.00 from a regionally accredited U.S. college or university, or
5. Have completed at least eight years of relevant, full-time, post-degree, professional work experience with a cumulative GPA of at least 2.75 from a regionally accredited U.S. college or university.

Applications for admission on the basis of professional work experience are subject to review by the MBA Committee. See the MBA program advisor for details.
As an alternative to the GMAT, students may submit a GRE score which can be converted to the equivalent GMAT score. Information about the GMAT can be found at www.mba.com.) If a GMAT score is required, the official score must be submitted to the MBA Program Office at least one month prior to initial enrollment in the program. GRE scores are sent directly to the NMSU Graduate School.

A maximum of 9 credit hours of the required MBA courses may be completed prior to the student’s acceptance into the MBA degree program.

Background Knowledge

Although the MBA program is designed to encourage participation by students with a variety of educational backgrounds, the curriculum is fast paced. As a consequence, a minimum level of background knowledge is expected of all entering students, and those who lack the necessary background in any of the knowledge areas will be required to make up their deficiencies early in the program. Students may complete no more than 9 credits of required MBA courses prior to completion of the background knowledge courses.

Background knowledge may be demonstrated by successful completion (with a grade of A or B) of undergraduate courses in managerial accounting, financial accounting, macroeconomics, finance, statistics and calculus. At NMSU, the relevant courses are

<table>
<thead>

<td>Calculus for the Biological and Management Sciences</td>
<td>3</td>
</tr>
</tbody>
</table>

As an alternative to the three-credit courses above, students may take one-credit courses in the summer to satisfy the background knowledge requirements. These courses are ACCT 500 Concepts in Accounting, B A 500 Macroeconomic Essentials, B A 501 Quantitative Tools for the MBA, and FIN 500 Concepts in Finance. Knowledge of each of these subjects may also be demonstrated by completing examinations as designed by the College of Business. For more information on intensive courses and examinations, contact the MBA Office.

Program Requirements (36 credits)

The MBA program consists of twelve courses beyond the background knowledge requirements. Eleven are required courses:

</tbody>
</table>

1 This elective must be selected from the approved course list on the MBA web page.

The Graduate School requires that students maintain a grade point average of at least 3.0 in all courses taken as a graduate student at NMSU. The MBA program requires, in addition, that every candidate for the MBA degree must graduate with at least a 3.0 grade point average in all courses required for the basic MBA degree.

The following course sequencing requirements must be satisfied:

1. B A 590 Professional Paper/Presentation must be completed during the final term of the student’s program and is only open to students who have been accepted into the MBA degree program. ACCT 503 Accounting for Managers, BLAW 502 Legal Environment of Business, FIN 503 Financial Management and MKTG 503 Marketing Management must be completed prior to enrollment in B A 590 Professional Paper/Presentation.

2. MGT 590 Strategic Management must be completed at the end of the student’s program of study and is only open to students who have been accepted into the MBA degree program. All MBA coursework other than B A 590 Professional Paper/Presentation must be completed prior to or during the same term as MGT 590 Strategic Management.

Students requesting transfer credit for any graduate courses taken before admission to the MBA program must submit appropriate written justification, including course descriptions, syllabi, transcripts, etc. Up to nine credits of transfer work can be applied to meet MBA requirements if the credits were earned in a program accredited by AACSB International. Transfer credits for courses taken after admission to the program are generally not permitted, but advance approval should be requested and may be granted in exceptional situations.

Final Examination for the Degree: Students may satisfy the Graduate School requirement for a final exam by completing the following courses with grades of B or better in each: ACCT 503 Accounting for Managers, BCIS 502 Business Information Systems, BLAW 502 Legal Environment of Business, ECON 503 Managerial Economics, FIN 503 Financial Management, MGT 502 Operations Management, and MKTG 503 Marketing Management. Students who do not meet the grade requirement in these seven courses will need to arrange an oral exam consistent with Graduate School regulations.

A thesis is not required. With special approval, however, a degree candidate may elect to write a thesis with at least 6 credit hours earned under B A 599 Master’s Thesis in lieu of B A 590 Professional Paper/Presentation.
Concentrations: Students in the on-campus MBA program may elect to pursue one of several MBA concentrations as described below.

**Concentration: Agribusiness**

Students who want to specialize in Agribusiness must take the following set of five AECC courses in substitution of five courses included in the above list of required MBA courses.

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AECC 511</td>
<td>Advanced Futures and Options Markets</td>
<td>3</td>
</tr>
<tr>
<td>AECC 520</td>
<td>International Agricultural Trade Theory and Policy</td>
<td>3</td>
</tr>
<tr>
<td>AECC 526</td>
<td>Global Food Supply Chain Management</td>
<td>3</td>
</tr>
<tr>
<td>AECC 551</td>
<td>Advanced Agribusiness Marketing</td>
<td>3</td>
</tr>
<tr>
<td>AECC 556</td>
<td>Advanced Agribusiness Management</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits 15

The five AECC courses collectively substitute for the following five required MBA courses:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>

<td>3</td>
</tr>
<tr>
<td>MKTG 503</td>
<td>Marketing Management</td>
<td>3</td>
</tr>
</tbody>
</table>

Elective course (from the approved list) 3

Total Credits 15

Students in the concentration in Agribusiness who have not previously taken a course in Agricultural Policy will be required to take AECC 545 Advanced Agricultural Policy prior to taking the five concentration courses.

**Concentration: Finance**

MBA students who want to specialize in Finance must complete the following four Finance courses. These courses can be used as substitutes for MGT 512 Quantitative Analysis for Business Decisions and BA 590 Professional Paper/Presentation.

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>

<td>Advanced Financial Management</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits 12

**Concentration: Public Utility Regulation**

The concentration in Public Utility Regulation consists of the following courses. One of these courses will serve as the elective in the MBA program and two of the courses will substitute for courses MGT 512 and BA 590 in the standard MBA program (because the learning objectives of the utility regulation courses meet the learning objectives of the two basic MBA courses).

<table>

Total Credits 12

**Engineering/MBA Program – Dual Degree**

Highly motivated undergraduate engineering students who would like to apply their quantitative skills and technical expertise to the business environment should consider the dual degree program offered through the College of Engineering and the College of Business. Undergraduate students who are accepted into this program can, with full time enrollment and careful scheduling of their coursework, complete the MBA degree requirements in as little as one year beyond completion of the BS degree. Information regarding the dual degree program may be obtained from the College of Engineering or the MBA Program Office (GU 114).

**Business Administration - Doctor of Philosophy**

**Concentration: Management**

Phone: (575) 646-1201
http://business.nmsu.edu/academics/graduate-programs/mktg-phd/

The College of Business offers a program leading to a PhD in Business Administration with a concentration in Management. Our program meets the requirements of AACSB international by providing students with advanced management-related theoretical, research and applied knowledge and skills. We are committed to educating researchers, teachers, and scholars who will lead and shape business and organizational life in the decades to come. We prepare you to understand the complexities of business and its social and international contexts while you develop a specialized area of expertise. Our program is flexible in order to align programs of study with job opportunities and students’ interest areas. Research skills are developed through course work and mentoring relationships, as you will work with faculty to pursue joint research according to your interest and faculty members’ expertise. Our faculty prepare students for academic research and teaching careers in managerial and organizational sciences; consulting careers with industrial, governmental, health, or educational institutions; or leadership careers in organizational management and administration.

Concentration: Marketing
Phone: (575) 646-3341

http://business.nmsu.edu/academics/graduate-programs/mktg-phd/

The College offers a program leading to a Ph.D. degree. The faculty of the PhD Program in Business Administration is committed to training researchers and educators who will shape business scholarship, practice and pedagogy. The program emphasizes preparing candidates to understand the complexities of modern business while they develop a specialized area of expertise in marketing or management. The PhD in Business Administration provides graduates with the opportunity to pursue a variety of career paths within academia and within industry. Currently concentrations are offered in management and marketing, and each admits students independently.

Program Requirements
• demonstrate competency in statistics and research methods;
• complete studies in a major field of concentration chosen from the departments of management or marketing in the College of Business;
• complete studies in a minor field of concentration or interest area that supports the student’s research, teaching and/or career goals;
• pass qualifying and comprehensive exams; and
• complete and successfully defend a doctoral dissertation.

Sustainability - Graduate Certificate

The Sustainability Graduate Certificate is open to students admitted to the Graduate School who have a GPA of 3.0 or higher. Completion of the certificate requires completion of each of the individual courses with a B or better.

Economics, Applied Statistics, and International Business

Undergraduate Program Information

The Department of Economics, Applied Statistics, and International Business (EASIB) offers undergraduate degrees in two majors in the bachelor of business administration – one in economics and one in international business. The Department also offers a bachelor of arts in economics. Economics majors work in business, government, and the non-profit sector. The economics major is also a good choice for students who plan to attend graduate school in economics, law, business and other areas. International business is a good major for those interested in working in the international operations of a business or interested in working outside the United States.

Graduate Program Information

Graduate Study in Economics

EASIB cooperates with the Department of Agricultural Economics and Agricultural Business in offering graduate programs in economics, agricultural economics and economic development. The programs are jointly administered by faculty from the two departments. The objective of the master’s program is to prepare students for professional positions in business, government, or research institutions. Our master’s degrees also are good preparation for those considering applying to a Ph.D. program. EASIB offers a Master of Arts in economics. There are three concentrations: regulatory economics, policy analysis, and econometrics. For more information on the Master of Science degree in agricultural economics, refer to the Agricultural Economics (p. 114) section in this catalog. The Doctor of Economic Development is a unique program that provides advanced training in applied economic development.

Graduate Study in Applied Statistics

A graduate degree administered directly by EASIB is the Master of Applied Statistics. This degree is designed to produce graduates proficient in current practices in statistics and able to enter directly into positions in industry, government or private business. After completing this degree, a person will have the skills needed to execute data analyses, design experiments, and design and analyze surveys.

Graduate Study in Business Administration

The Department of Economics, Applied Statistics, and International Business cooperates with other departments of the College of Business to offer a Master of Business Administration and a Ph.D. in Business Administration. Within the Ph.D. program, the department offers a minor area of study and provides statistics courses to support the doctoral program. More information about these programs is available in this catalog under College of Business.
Degrees for the Department
Economics - Bachelor of Art in Economics (p. 566)
Economics - Bachelor of Business Administration (p. 568)
International Business - Bachelor of Business Administration (p. 571)
Applied Statistics - Master of Science (p. 575)
Economics - Master of Arts (p. 575)
Economics - Doctor of Economic Development (p. 576)

Minors for the Department
Economics - Undergraduate Minor (p. 574)
International Business - Undergraduate Minor (p. 574)
Applied Statistics - Graduate Minor (p. 577)
Economics - Graduate Minor (p. 577)
Public Utility Regulation and Economics - Graduate Certificate (p. 577)

Christopher A. Erickson, Interim Department Head

Department of Economics, Applied Statistics and International Business:

Professors
D. L. Daniel, Ph.D. (Southern Methodist) - nonparametrics; C. Enomoto, Ph.D. (Texas A&M) - econometrics, economic theory; C. A. Erickson, Ph.D. (Arizona State) - economic development, monetary theory, macroeconomics; D. A. Gegax, Ph.D. (Wyoming) - public utility economics, industrial organization; W. R. Gould, Ph.D. (North Carolina State) - biological sampling, wildlife and fisheries estimation; Y. F. Lee, Ph.D. (Southern Illinois-Carbondale) - international finance, international trade, international system, economic development; R. L. Steiner, Ph.D. (Oklahoma State) - likelihood methods, discrete distributions; D. M. VanLeeuwen, Ph.D. (Oregon State) - statistics; Associate Professors
L. Blank, Ph.D. (Tennessee, Knoxville) - microeconomic theory, managerial economics, regulatory economics; K. Brook, Ph.D. (Texas-Austin) - macroeconomic theory, monetary policy; C. Gard, Ph.D. (Washington) - biostatistics; R. McFerrin, Ph.D. (Texas A & M) - micro theory, principles and American economic history; B. Widner, Ph.D. (Colorado State) - urban/regional, public finance, development; Assistant Professors
B. Bai, MS (New Mexico State) - applied statistics; L. LaPlue (Tennessee) - international and environmental economics; C. Sroka (Ohio State) - count data models; Emeritus Faculty
R. V. Adkisson, Ph.D. (Nebraska) - international economics, public finance, economic development; D. L. Clason, Ph.D. (Kansas State); M. Ellis, Ph.D. (California-Riverside); B. N. Matta, Ph.D. (Texas at Austin); J. T. McCuckin, Ph.D. (Wisconsin-Madison); J. T. Peach, Ph.D. (Texas-Austin) - quantitative economics, border studies, economic development; A. V. Popp, Ph.D., (Northern Illinois); D.B. Smith, Ph.D., E. S. Willman, Ph.D. (Indiana)

Applied Statistics Courses

A ST 251G. Statistics for Business and the Behavioral Sciences
3 Credits
Techniques for describing and analyzing data; estimation, hypothesis testing, regression and correlation; basic concepts of statistical inference. Same as STAT 251G.
Prerequisite: C- or better in MATH 120.

A ST 311. Statistical Applications
3 Credits
Techniques for describing and analyzing economic and biological data; estimation, hypothesis testing, regression and correlation; basic concepts of statistical inference.
Prerequisite(s): MATH 120.

A ST 450. Special Topics
1-4 Credits
Specific subjects and credits announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

A ST 456. Statistical Methods and Data Analysis
3 Credits
Methods for sampling and estimation; analysis of variance and elementary experimental designs; linear regression and correlation; multiple regression, variable selection methods and residual analysis; introduction to statistical packages.
Prerequisite(s): A ST 251, A ST 311, or equivalent.

A ST 465. Statistical Analysis I
3 Credits
An analytic introduction to the theory and methods of statistical inference. Sampling, frequency distributions (z, t, x2, F), estimation, testing, and simulation. Crosslisted with: A ST 565.
Prerequisite(s): MATH 291G or consent of instructor.

A ST 466. Statistical Analysis II
3 Credits (2+2P)
Continuation of A ST 465. An analytic introduction to the theory and methods of statistical inference. Sampling, frequency distributions (z, t, x2, F), estimation, testing, and simulation. Crosslisted with: A ST 566.
Prerequisite(s): A ST 465 or consent of instructor.

A ST 498. Independent Study
1-3 Credits
Individual studies directed by consenting faculty with prior approval of the department head. Maximum of 3 credits per semester and a grand total of 3 credits.

A ST 503. SAS Basics
3 Credits (2+2P)
An introduction to the statistical software package, SAS, and its utilization in an interactive computing environment, primarily PC/SAS. Provides a fundamental understanding of the structure of SAS, its data management capabilities, and how to invoke a variety of descriptive and simple statistical SAS procedures.
Corequisite(s): A ST 505.

A ST 504. Statistical Software Applications
1 Credit
Optional Computing course to accompany A ST 506. Computer analysis of topics covered in A ST 505 and A ST 506.
Prerequisite(s): A ST 503 or consent of instructor.
Corequisite(s): A ST 506.

A ST 505. Statistical Inference I
4 Credits (3+2P)
A qualitative introduction to the concepts and methods of statistical inference. Sampling, frequency distributions (z, t, x2, F), estimation, and testing. One-way analysis of variance. Simple linear regression.
Prerequisite: consent of the instructor.
A ST 506. Statistical Inference II
3 Credits (2+2P)
Introduction to multiple regression; the analysis of variance for balanced studies; multiple comparisons, contrasts, factorials, experimental designs through split plots.
Prerequisite: A ST 505 and the ability to use a standard computer package such as SAS (may be satisfied by A ST 503) or consent of instructor.

A ST 507. Advanced Regression
3 Credits
Examination of multiple regression; residual analysis, collinearity, variable selection, weighted least squares, polynomial models, and nonlinear regression: linearizable and intrinsically nonlinear models.
Prerequisites: A ST 503 and A ST 505 or consent of instructor.

A ST 508. Analysis of Advanced Designs and Related Topics
3 Credits
Complete and incomplete block designs; fixed, mixed, and random models; unbalanced data; analysis of covariance; nested experiments; fractional factorials.
Prerequisite(s): A ST 503 and A ST 506; or consent of instructor.

A ST 509. Statistical Models for Complex Data Structures
3 Credits
Statistical models for data that are not normally distributed or data with correlated observations. Covers generalized linear models for discrete and mixed models for correlated data structures. Analysis of data with unbalanced and missing cells.
Prerequisite(s): A ST 506 with a grade of B or higher, or A ST 507 with a grade of B or higher, or consent of instructor.

A ST 515. Statistical Analysis with R
3 Credits
Introduction to R data types, basic calculations and programming, data input and manipulation, one and two sample tests, ANOVA, regression, diagnostics, graphics, probability distributions, and basic simulations in the R software environment.
Prerequisite(s): A ST 505 or equivalent with consent of instructor.

A ST 521. Sampling Methodology
3 Credits (3+2P)
Methodology of sampling finite populations using design-based (simple random, stratified, systematic, cluster, and multistage), model-based (regression and ratio estimators), and adaptive sampling. Properties of estimators under all designs are discussed.
Prerequisite(s): Either A ST 505 or A ST 566, or consent of instructor.

A ST 523. Biological Sampling (s)
3 Credits
Methods of sampling biological populations: area frame, quadrant, line intercept, line transect, and mark-recapture. May be repeated up to 3 credits.
Prerequisite(s): A ST 505 or consent of instructor.

A ST 540. Predictive Analytics
3 Credits
This course covers data analytic techniques that can be used to predict and classify observations outside of the original data. Material includes linear and nonlinear regression models, linear and nonlinear classification models, and classification and regression trees. Students will gain hands-on experience using modern software packages to build predictive models and quantify the accuracy of these models.
Prerequisite(s): A ST 507 or consent of instructor.

A ST 545. Time Series Analysis and Applications
3 Credits
A systematic exposition of the methods for analyzing, modeling, and forecasting time series. Emphasizes underlying ideas and methods rather than detailed mathematical derivations, using SAS, BMDP, IMSL, and Fortran. May be repeated up to 3 credits.
Prerequisite(s): A ST 503 and A ST 505, or consent of instructor.

A ST 550. Special Topics
1-4 Credits
Specific subjects to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree.

A ST 551. Introduction to Statistical Consulting
1 Credit
Consideration of published material in the consulting process. Restricted to majors. Graded S/U.
Prerequisite: consent of instructor.

A ST 552. Advanced Statistical Consulting
1 Credit
Continuation of A ST 551 with emphasis on dealing with clients in order to identify statistically relevant features of a research study. Restricted to majors. Graded S/U.
Prerequisite: A ST 551.

A ST 553. Practicum in Statistical Consulting
1 Credit
Supervised experience under the guidance of senior faculty. May be repeated for a maximum of 2 credits. Restricted to majors. Graded S/U.
Prerequisite: A ST 552.

A ST 554. Practicum in Statistics
3 Credits
Practical experience in data analysis and the reporting of results; selecting and using statistical methods to analyze and interpret real-world problems; written and oral communication of findings
Prerequisite(s): A ST 503, A ST 506, A ST 507, and A ST 566, or consent of instructor.

A ST 555. Applied Multivariate Analysis
3 Credits
Multivariate analysis of linear statistical models, including MANOVA and repeated measures. Analysis of correlation and covariance structures, including principal components, factor analysis, and canonical correlation. Classification and discrimination techniques.
Prerequisite(s): A ST 506 and A ST 504 or consent of instructor.

A ST 556. Statistical Analysis I
3 Credits
An analytic introduction to the theory and methods of statistical inference. Sampling, frequency distributions (z, t, x2, F), estimation, testing, and simulation. Crosslisted with: A ST 465.
Prerequisite(s): MATH 291 or consent of instructor.

A ST 556. Statistical Analysis II
3 Credits (2+2P)
Continuation of A ST 556. Crosslisted with: A ST 466.
Prerequisite(s): A ST 556 or consent of instructor.

A ST 557. Applied Linear Models I
3 Credits
The mean model, including constraints, approach to linear models; nonidentity variance-covariance matrices. Some emphasis on computational aspects and relation to statistical packages.
Prerequisite: A ST 556 or consent of instructor.
A ST 568. Applied Linear Models II
3 Credits
The relation of full to less-than-full rank linear models; complex data structures, including messy data, empty cells, and components of variance: extensions to categorical data analysis and nonparametric methods. Continues some emphasis on computational aspects.
Prerequisite: A ST 567.

A ST 596. Independent Study
1-3 Credits
Individual studies directed by consenting faculty with prior approval by department head. May be repeated for a maximum of 3 credits.
Prerequisite: consent of instructor.

A ST 598. Special Research Problems
1-6 Credits
Individual analytical or experimental projects. Restricted to majors. Graded S/U.

A ST 599. Master's Thesis
1-6 Credits
Thesis.

**Economics Courses**

**ECON 201G. Introduction to Economics**
3 Credits
Economic institutions and current issues with special emphasis on the American economy.

**ECON 251G. Principles of Macroeconomics**
3 Credits
Macroeconomic theory and public policy: national income concepts, unemployment, inflation, economic growth, and international payment problems.

**ECON 251GH. Principles of Macroeconomics Honors**
3 Credits
Macroeconomic theory and public policy designed: national income concepts, unemployment, inflation, economic growth, and international payment problems.
Prerequisite(s): Crimson Scholar; MATH 121G.

**ECON 252G. Principles of Microeconomics**
3 Credits
Microeconomic theory and public policy: supply and demand, theory of the firm, market allocation of resources, income distribution, competition and monopoly, governmental regulation of businesses and unions.

**ECON 252GH. Principles of Microeconomics Honors**
3 Credits
Microeconomic theory and public policy: supply and demand, theory of the firm, market allocation of resources, income distribution, competition and monopoly, governmental regulation of businesses and unions.
Prerequisite(s): Crimson Scholar; MATH 121G.

**ECON 304. Money and Banking**
3 Credits
Income measurement and determination, monetary and fiscal policies.
Prerequisite: ECON 251G or equivalent, or consent of instructor.

**ECON 311. Intermediate Macroeconomic Theory**
3 Credits
Analysis of gross domestic product, the Classical, Keynesian, and Neo-Keynesian theories of income, employment, inflation and growth.
Prerequisite(s): ECON 251G or equivalent.

**ECON 312. Intermediate Microeconomic Theory**
3 Credits
Contemporary economic theory with emphasis upon value and distribution.
Prerequisite(s): ECON 252G or equivalent.

**ECON 324V. Developing Nations**
3 Credits
Economic analysis of problems related to development of developing nations. Issues such as growth, industrialization, poverty, population, international trade, foreign debt, and international economic relations.

**ECON 325V. Economic Development of Latin America**
3 Credits
Economic analysis of problems related to development in Latin America, including the agrarian problem, debt and austerity programs, industrialization, inflation and unemployment, the drug trade, U.S.-Latin American relations, development strategies. Also individual countries problems.

**ECON 332. Public Finance**
3 Credits
This course will examine the roles of government in modern, market-oriented, mixed economies. It will examine justifications for government participation in resource allocation, income distribution, and economic stabilization focusing primarily on the fiscal functions of government, taxation and public expenditure. Students will apply basic microeconomic analysis to analyze the impacts of public taxation and expenditures on economic decisions made elsewhere in the economy. In this course the emphasis will be on understanding the workings of public finance in fiscal federalist systems like the United States, but the principles taught will be applicable across other economic systems. Prerequisites: ECON 252

**ECON 335V. Business and Government**
3 Credits
Relation of government to business through regulation; political, legal, and social implications. Crosslisted with: MGT 335G

**ECON 336. Labor Economics**
3 Credits
This course aims at developing students' understanding of how the labor market works. Topics to be covered include: labor supply and demand, wage differentials, wage structure, unemployment, gender issues, labor market discrimination, and migration.
Prerequisite(s): ECON 252G.

**ECON 337V. Natural Resource Economics**
3 Credits
Same as AG E 337V.
Prerequisite: ECON 201 or ECON 252.

**ECON 340. American Economic History**
3 Credits
The rise of big business and organized labor, increasing price rigidities, and growing government intervention. Same as HIST 340.

**ECON 345. Energy Economics**
3 Credits
Examines the economics of energy production including oil, coal, natural gas, renewables, and conservation as a substitute for energy production. Emphasis is on federal and state regulatory framework, and resulting public policy issues from a regional and national perspective.
Prerequisite(s): (ECON 251G or ECON 251GH), (ECON 252G or ECON 252GH).
ECON 384V. Water Resource Economics
3 Credits
Use of economic principles to evaluate current and emerging issues in water resources. Applications focus on use of economic methods of analysis to current policy decisions surrounding agricultural, municipal, industrial, and environmental uses of water. Same as AG E 384V.
Prerequisite: AG E 100 or ECON 252G.

ECON 401. Managerial Economics
3 Credits
Application of economic theory to problems of business management.
Prerequisite(s): ECON 252G and MATH 142 or equivalent, or consent of instructor.

ECON 404. Collegiate Advisory Board, Federal Reserve
3 Credits
Students serve on the Collegiate Advisory Board of the El Paso branch of the Federal Reserve Bank of Dallas. Guest speakers provide an overview of the Federal Reserve System, role of monetary policy, and issues facing specific industries in the local, national, and global economies. Students prepare reports, including a final paper, on an assigned industry in the regional or state economy and the current economic performance of their industry. Students must be of junior rank or higher with a GPA of at least 3.5. Consent of instructor required.

ECON 405. Introductory Econometrics
3 Credits
Multiple regression and correlation applied to economics and business; inference techniques; significance tests; simultaneous equations, estimation, and problems.
Prerequisite(s): A ST 251G or STAT 251G or A ST 311 (or equivalent).

ECON 406. The Economics of Sports
3 Credits
Applying the tools of economic analysis to a particular industry and gaining an in-depth knowledge of the interaction of professional sports teams and leagues with the economy and society. Same as AG E 406.
Prerequisite: one previous course in economics or consent of instructor.

ECON 432V. Economics of Health Care
3 Credits
Analysis of the allocation of resources in the field of health and medical care.

ECON 445. Oil and Natural Gas Economics
3 Credits
Examines the economics of oil and gas production. Topics covered include transportation, refining, federal and state regulatory framework, and resulting public policy issues from a regional and national perspective.
Prerequisite(s): ECON 345.

ECON 449. Open Economy Macroeconomics
3 Credits
This course studies theoretical and empirical macroeconomics in international dimension. It covers from the fundamental concepts of national income and growth, monetary/fiscal and exchange rate policies, foreign exchange markets, international trade and finance, and regionalization/economic integration to the impact analysis of these macroeconomic fundamentals in the open economy. Crosslisted with: I B 449.
Prerequisite(s): FIN 341 OR ECON 311.

ECON 457. Mathematical Economics
3 Credits
Application of mathematical tools, especially the calculus, to economic theory. 
Prerequisite: one upper-division economics course.

ECON 471. Electricity Economics
3 Credits
Regulatory policy and economic analysis related to the Electric Industry. Topics include characteristics of a utility and legal justification for regulation; characteristics and functions of a regulatory commission; history and structure of the industry; technology and network design; revenue requirements; cost allocation; and basic retail rate design. Crosslisted with: ECON 571.
Prerequisite(s): ECON 345.

ECON 489. Senior Economics Seminar
3 Credits
Seminar primarily for economics majors in their final semester. Provides an opportunity to apply economic theory to a broad variety of topics.
Prerequisite(s): ECON 311 or ECON 312.

ECON 490. Selected Topics
1-3 Credits
Current topics in economics. Subject matter to be designated for each semester.

ECON 498. Independent Study
1-3 Credits
Individual studies directed by consenting faculty with the prior approval of the department head. May be repeated for a maximum of 3 credits.
Prerequisite: junior or above standing and consent of instructor.

ECON 503. Managerial Economics
3 Credits
Theory and application of microeconomics to the management of organizations.
Prerequisite(s): A ST 251G or 311 or equivalent with B or better.

ECON 545. Econometrics II
3 Credits
Application of statistical techniques to estimation of economic relationships: demand functions, production and cost functions, and macroeconomic equations.
Prerequisite(s): ECON 251G, ECON 252G, STAT 251G or A ST 311, and AEEC 540.

ECON 550. Special Topics
1-3 Credits
Seminars in selected current topics in the various areas of economics. Prerequisites vary according to the topic being offered.

ECON 571. Regulatory Policy and Industry Analysis: Electricity I
3 Credits
Regulatory policy and economic analysis related to the Electric Industry. Topics include: characteristics of a utility and legal justification for regulation; characteristics and functions of a regulatory commission; history and structure of the industry; technology and network design; revenue requirements; cost allocation; and basic retail rate design.
ECON 572. Regulatory Policy and Industrial Analysis: Water and Natural Gas
3 Credits
Regulatory policy and economic analysis related to the Natural Gas and Water industries. Topics include: history and structure of the industry; technology and network design; revenue requirements; cost allocation; and retail rate design.

ECON 573. Regulatory Policy and Industry Analysis: Electricity II
3 Credits
Regulatory policy and economic analysis related to the Electric industry. Topics include: optimal generation mix; ancillary services; environmental policies; rate case procedures and strategies for effective testimony; advanced retail rate design; wholesale exchanges; unbundled transmission tariffs; market institutions and how different markets function; state and federal deregulation policies; Federal Energy Regulatory Commission orders and policies; demand-side management; and regulatory treatment of non-traditional retail services. Consent of instructor required.
Prerequisite(s): ECON 571 or consent of instructor.

ECON 574. Advanced Seminar Regulatory Policy and Industry Analysis
3 Credits
Advanced seminar and writing course specializing in regulatory policy and regulatory casework. Topics include: special policy & regulatory issues in telecommunications, electricity, natural gas, and water; preparation of written testimony; expert witness effectiveness including cross-examination; and contested case management. This course involves extensive reading and writing assignments. Consent of instructor required.
Prerequisite(s): ECON 571 or consent of instructor.

ECON 581. International Economics
3 Credits
Trade and capital flows between countries, international payments, government policy in balance-of-payments and tariff matters, international organizations.
Prerequisite(s): ECON 311 and ECON 312.

ECON 582. Economics of Health Care
3 Credits
Analysis of the allocation of resources in the field of health and medical care. Taught with ECON 432V with differentiated assignments for graduate students.

ECON 596. Independent Study
3 Credits
Individual study program. Each offering will cover a subtitle. Maximum of 3 credits in a semester and 6 credits in a program. Consent of instructor required.

ECDV 550. Introduction to Local and Regional Development
3 Credits
Serves as the introductory course in the Doctor of Economic Development program. Overview of the economic development field.

ECDV 590. Special Topics
1-3 Credits (1-3)
Selected topics in the area of Economic Development. Subtitle reflects content. May be repeated up to 9 credits. Consent of instructor required.

ECDV 596. Individual Study
1-3 Credits (1-3)
Individual studies directed by consenting faculty with the prior approval of the Department Head. May be repeated up to 6 credits.

ECDV 651. Economic Development Theory
3 Credits
Builds upon a general understanding of microeconomic and macroeconomic theory to focus specifically on theories of economic development at all levels. Prerequisites: AEEC 501 and 502

ECDV 651. Regional Economic Modeling
3 Credits
Introduction to the tools and methods of regional economic development analysis. May be repeated up to 3 credits. Restricted to: ECDV majors.
Prerequisite(s): AEEC 501, AEEC 502, and AEEC 540.

ECDV 664. Population Economics
3 Credits
Examines the causes and consequences of demographic change. Examines theories of basic demographic processes, population projection and estimation. Consent of instructor required.

ECDV 668. Economic Development Finance
3 Credits
Focuses on the tools and methods of economic development finance.

ECDV 670. Research in Economic Development
3 Credits
Intense examination of the academic literature on economic development at all levels.
Prerequisites: ECDV 651, ECDV 661 and ECDV 662.

ECDV 671. Sustainable Economic Development
3 Credits
Focuses on the interconnections between economic development and the environment. Provides a broad set of tools and ideas related to the impacts of human activities on the environment.
Prerequisites: AEEC 501, AEEC 502 and AEEC 540.

ECDV 673. Research Methods
3 Credits
An overview of alternative research methods and tools. Students explore quantitative and qualitative research methods as alternatives and complements to statistical methods. Research design, ethics, and presentation are emphasized.
Prerequisites: AEEC 501, AEEC 502 and AEEC 540.

ECDV 681. Urban Economic Development
3 Credits
Examines causes and consequences of economic change in urban and metropolitan areas. Covers both theory and tools for analysis.
Prerequisites: ECDV 651, ECDV 661 and ECDV 662.

ECDV 682. Rural Development
3 Credits
Examines causes and consequences of economic change in rural areas, communities and small, open economies. Covers both theory and tools for analysis.
Prerequisites: ECDV 651, ECDV 661 and ECDV 662.

ECDV 683. Seminar in National Economic Development
3 Credits
Explores specific examples and cases of rural and urban economic development. Involves applied analysis of specific rural and/or urban economic issues/projects.
Prerequisites: ECDV 681 and ECDV 682.
ECDV 692. Seminar in Economic Development
3 Credits
Seminars in selected topics in economic development.Subtitle reflects content. May be repeated up to 9 credits.
Prerequisite: Completion of at least nine semester hours of ECDV courses.

ECDV 694. Internship
1-9 Credits (1-9)
Internship in Economic Development. May be repeated up to 9 credits. Restricted to: ECDV majors. S/U Grading (S/U, Audit).
Prerequisite(s): Completion of core requirements of Doctor of Economic Development.

ECDV 699. Doctoral Project
1-9 Credits (1-9)
Doctoral Project. May be repeated up to 9 credits. Completion of all DED coursework and successful completion of comprehensive exams.

International Business Courses
I B 317. International Marketing
3 Credits
Same as MKTG 317.

I B 351. International Business
3 Credits
The various aspects of international business, and identification and analysis of problems encountered by multinational companies.
Prerequisite: junior standing or consent of instructor.

I B 398. International Business and Economic Environments
3 Credits
Description and analysis of various world regions, e.g., Pacific Rim, Eastern Europe, South Asia. Region will vary from semester to semester.

I B 449. Open Economy Macroeconomics
3 Credits
This course studies theoretical and empirical macroeconomics in international dimension. It covers from the fundamental concepts of national income and growth, monetary/fiscal and exchange rate policies, foreign exchange markets, international trade and finance, and regionalization/economic integration to the impact analysis of these macroeconomic fundamentals in the open economy. Crosslisted with: ECON 449.
Prerequisite(s): FIN 341 OR ECON 311.

I B 450. International Economics
3 Credits
Trade and capital flows between countries, international payments, government policy in balance-of-payments and tariff matters, international organizations. Crosslisted with: ECON 450G
Prerequisite(s): ECON 251G and ECON 252G.

I B 458. Comparative International Management
3 Credits
Cultural influences on management are examined in a global business environment with a particular emphasis on human behavior in multinational organizations and the management of human resources.
Same as Mgt. 458.

I B 475. International Finance
3 Credits
Same as FIN 475. Crosslisted with: FIN 475 and FIN 575.
Prerequisite(s): FIN 341.

I B 489. Senior Seminar in International Business
3 Credits
Capstone class for I B majors. Integration of previous classwork via the examination of case studies and completion of a major project.
Prerequisite: I B core.

Office Location: Business Complex Room 234
Phone: (575) 646-7211
Website: https://business.nmsu.edu/departments/economics/

The Bachelor of Arts major in Economics is the only bachelor of arts degree offered through the College of Business. It has the advantage of including a large number of general electives. This feature provides great flexibility to the student who, in addition to completing the courses for a major in economics, may wish to take a double major or take courses from a wide variety of other subjects of his or her own choosing. This program is suitable for, among others, students who plan to go to graduate school in economics, law, business, the social sciences or other areas.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

1 Students may be required to take MATH 120 Intermediate Algebra, depending on their math placement. MATH 121G College Algebra or MATH 142G Calculus for the Biological and Management Sciences or A ST 251G Statistics for Business and the Behavioral Sciences or STAT 251G Statistics for Business and the Behavioral Sciences fulfills the general education requirement in math.

2 See the General Education (p. 49) section of the catalog for a full list of courses.

3 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses and how to fulfill this requirement.

4 All Foundation Requirement Courses must be taken, or satisfied with transfer credits, regardless of which Mathematics or Statistics course satisfies the Area II General Education course: MATH 121G, MATH 142G and A ST 251G/STAT 251G or A ST 311 must be completed.

5 Economics majors must earn a minimum cumulative GPA of 2.5 in the 27 credits of departmental requirements.

6 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

**A Suggested Plan of Study for Students**

This roadmap assumes student placement in MATH 121G College Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

| Area VI: Creative Fine Arts Course 2               | 3       |

Students may be required to take MATH 120 Intermediate Algebra, depending on their math placement. MATH 121G College Algebra or MATH 142G Calculus for the Biological and Management Sciences or A ST 251G Statistics for Business and the Behavioral Sciences or STAT 251G Statistics for Business and the Behavioral Sciences fulfills the general education requirement in math.
### Economics - Bachelor of Business Administration

This program is especially suitable for students who find economics interesting and who intend, perhaps without additional formal education beyond the Bachelor degree, to take jobs in business or government. This degree prepares you for a wide variety of jobs including those leading eventually to positions of executive responsibility. It is also appropriate for those who may choose to seek a Master of Business Administration degree after graduation. It is also a great degree for someone interested in pursuing a career as a lawyer.

1. Prerequisites are required, students are responsible for checking and fulfilling course prerequisites listed in the catalog.
2. See the General Education (p. 49) section of the catalog for a full list of courses.
3. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
4. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
5. Upper Division ECON electives are typically only offered during certain semesters, so students must plan accordingly.
6. International Business Double Majors: Students may not receive credit for both ECON 489 Senior Economics Seminar and I B 489 Senior Seminar in International Business For this reason, students majoring in both Economics and International Business must consult with the Department Head to arrange a suitable substitution.
In addition to completing general (p. 49) education common core, (p. 49) College of Business foundation and business core (p. 543), Viewing a Wider World requirements, and general electives (see above), every candidate for the bachelor of business administration in economics must complete each of these courses with a grade of C- or better.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Students may be required to take MATH 120 Intermediate Algebra, depending on their math placement. MATH 121G College Algebra or MATH 142G Calculus for the Biological and Management Sciences or A ST 251G Statistics for Business and the Behavioral Sciences or STAT 251G Statistics for Business and the Behavioral Sciences fulfills the general education requirement in math. See the General Education (p. 49) section of the catalog for a full list of courses. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses and how to fulfill this requirement. All Foundation Requirement Courses must be taken, or satisfied with transfer credits, regardless of which Mathematics or Statistics course satisfies the Area II General Education course: MATH 121G, MATH 142G and A ST 251G/STAT 251G or A ST 311 must be completed. Economics majors must earn a minimum cumulative GPA of 2.5 in the 27 credits of departmental requirements. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

### A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 121G College Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

### Additional Information

- **Area III: Laboratory Science Course**
- **Area VI: Creative and Fine Arts Course**

### Elective Requirement

Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
International Business - Bachelor of Business Administration

The Bachelor of Business Administration in International Business is intended for those who plan to work for government agencies or firms with operations abroad or between the United States and foreign countries. The program prepares you for positions requiring knowledge of international payments, foreign exchange markets, global marketing, export and import procedures, and international investments.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above.

In addition to the course work indicated below, students must satisfy the following two requirements:

1. **Second language**: Students must demonstrate oral and written proficiency at the intermediate mid-level according to ACTFL (American Council on the Teaching of Foreign Languages) proficiency guidelines.

2. **International experience requirement**: Students must engage in an international experience equivalent to a semester abroad in a university where the language of instruction is not English. The department will determine the appropriateness of international experience. Study abroad programs must be pre-approved by IB advisors and the Department Head.

### Foundation Requirements

1. **If A ST 251G/STAT 251G is taken before MATH 121G then the Statistics course will satisfy the Area II Requirement and MATH 121G must be taken as a foundation requirement.**

2. **Statistics for Business and the Behavioral Sciences (A ST 251G).**

3. **Statistics for Business and the Behavioral Sciences (STAT 251G).**

4. **Statistical Applications (Foundation Requirement - doesn't count as Gen.Ed) (A ST 311).**

### Business Core: Lower Division (minimum grades of C- required)

1. **ACCT 221 Principles of Accounting I (Financial).**
2. **ACCT 222 Principles of Accounting II (Managerial).**
3. **BCIS 110 Fundamentals of Information Literacy and Systems.**
4. **BUSA 111 Introduction to Business.**

### Business Core: Upper Division

1. **BCIS 338 Business Information Systems I.**
2. **BLAW 316 Legal Environment of Business.**
3. **FIN 341 Financial Analysis and Markets.**
4. **MGT 309 Human Behavior in Organizations.**
5. **MGT 449 Strategic Management.**
6. **MKTG 303 Principles of Marketing.**
7. **Choose one from the following: MGT 344 Production and Operations Management, MGT 470 Project Management in Organizations, or BCIS 485 Enterprise Resource Planning.**

### Upper division Economics or Applied Statistics elective from the following prefixes: A ST (excluding A ST 311), ECON

1. **Choose one from the following: I B 351 International Business, I B/ECON 450 International Economics, or I B 489 Senior Seminar in International Business.**

2. **Choose one from the following: I B 475 International Finance or FIN 475 International Managerial Finance, or I B/ECON 449 Open Economy Macroeconomics.**

3. **ECON 324V Developing Nations.**

4. **ECON 325V Economic Development of Latin America.**

5. **I B 398 International Business and Economic Environments.**

6. **HON 380V Comparative Economic Systems.**

### Electives, to bring the total credits to 120

1. **ECON 325V Economic Development of Latin America.**
2. **I B 398 International Business and Economic Environments.**
3. **HON 380V Comparative Economic Systems.**

### Upper Division Electives: Functional Business area

1. **Courses must be in a single functional business area beyond elsewhere required for the I B major.**

2. **Second Language: (see above paragraph)**

### Total Credits

1. **120**

---

**A Suggested Plan of Study for Students**

This roadmap assumes student placement in MATH 121G College Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

120

1 Prerequisites are required, students are responsible for checking and fulfilling course prerequisites listed in the catalog.

2 See the General Education (p. 49) section of the catalog for a full list of courses.
Economics - Undergraduate Minor

The undergraduate minor in economics is appropriate for those who seek a better understanding of how micro- and macro-economic forces influence individuals, business and government decision making. Students thinking of a career in banking and finance, government service, or law will find the minor helpful.

A minor in economics consists of 18 or more credit hours of approved course work in economics (ECON), of which at least 12 are numbered 300 or higher, all completed with a grade of C- or higher. At least 12 credits must be completed at NMSU. This minor is not open to majors in the Bachelor of Individualized Studies and the Bachelor of Applied Studies.

International Business - Undergraduate Minor

A minor in international business provides the student with a background in international business that can be useful in many settings given the increasing intensity of globalization. Especially those who wish to find work with large companies with an international presence or for those who may want to own their own business dealing internationally, the minor in international business can help lay the groundwork for a successful career.

A minor consists of 18 or more credit hours of approved course work in the International Business core, all completed with a grade of C- or higher. At least 12 credits must be completed at NMSU. This minor is not open to majors in the Bachelor of Individualized Studies and the Bachelor of Applied Studies.

Total Credits: 18

* ECON 201G Introduction to Economics may be substituted for one of Econ 251G Principals of Macroeconomics or Econ 252G Principals of Microeconomics with the approval of the Head of the Department of Economics, Applied Statistics, and International Business.
Department of Languages and Linguistics. Any costs associated with proficiency demonstration will be paid by the student.

**Applied Statistics - Master of Science**

The Department of Economics, Applied Statistics and International Business offers the Master of Science (MS) degree in applied statistics. The applied statistics program produces graduates proficient in the practice of statistics and prepared to enter directly into positions in government or industry. Students in the program receive instruction in both the theory and the application of statistics, with an emphasis on experimental design and modeling. Statistical software packages, which are necessary for modern data analysis, are used throughout the curriculum. The program culminates in a capstone course in which students gain experience in analyzing real-world data.

Students from a variety of disciplines, including mathematics, psychology, engineering, and the natural sciences, have successfully completed the MS in applied statistics.

**Admission**

Requirements for regular admission to the MS in applied statistics include the following:

- A minimum 3.0-grade point average overall or in the last two years of study. Complete graduate and undergraduate transcripts must be supplied.
- Three semesters of calculus, equivalent to NMSU courses MATH 191G Calculus and Analytic Geometry I, MATH 192G Calculus and Analytic Geometry II, and MATH 291G Calculus and Analytic Geometry III, completed with grades of B or better.
- Three letters of reference from former professors or others able to evaluate the student’s academic potential.
- A one- to two-page typewritten letter of application, discussing academic objectives, professional plans, and specific reasons for selecting statistics as a field for advanced study.

In addition to the formal requirements above, some experience in computer programming is strongly recommended.

Applicants whose native language is not English must take the Test of English as a Foreign Language (TOEFL). Fluency in written and spoken English is essential to successful completion of the program. Further information regarding the TOEFL can be obtained from [https://iss.nmsu.edu/index-8/](https://iss.nmsu.edu/index-8/).

Students must choose one of two options to complete the course requirements: the research option or the coursework-only option.

**Research Option**

Under the research option, the combined research (A ST 598 or A ST 599) and elective credits must equal nine. The number of research credits may vary from four to six, with the remaining credits fulfilled with electives.

**Economics - Master of Arts**

Candidates for the Master of Arts in economics must successfully complete a minimum of 30 graduate credits (concentrations may require more than 30 graduate credits). At least 12 credits beyond the core courses (AECC 501 Microeconomic Theory, AECC 502 Macroeconomic Theory, AECC 540 Econometrics I) must be earned by taking courses taught by economics faculty members in the Department of Economics, Applied Statistics and International Business. At least two of the three core courses must be completed at NMSU. Twenty-one of the credits must have one of the four following prefixes: AECC, ECON, ECDV, or AG E. At least twenty-four of the credits must be associated with courses numbered 500 or above. All students must meet the requirements specified in the general regulations and requirements for admission to the Graduate School and to candidacy. Students preparing to enter the program are encouraged to complete the following:

1. one course in intermediate microeconomic theory and one course in macroeconomic theory with minimum grades of B;
2. one course in college-level calculus; and
3. one course in statistics, including simple regression.
Those students not having completed these courses may be admitted with the requirement that the deficiencies be completed at the beginning of the graduate program. Those students interested in the concentration in regulatory economics are advised to complete two courses in college-level statistics.

All students in the program must successfully complete a minimum of 30 credits including the following:

<td>Econometrics I</td>
<td>3</td>
</tr>
<tr>
<td>Electives, subject to the restrictions above.</td>
<td>21</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 30

Notes:
1. No more than one course with a grade less than B can be used to fulfill the requirements for the MA Econ degree.
2. ECON 503 cannot be counted toward the major in Economics.
3. A maximum of nine hours of approved transfer credit (with minimum grades of A) may be applied toward the degree.

Teaching and research assistantships are available to qualified applicants however, admission to the program does not imply or guarantee funding. It is not necessary to have a degree in economics to enter the graduate program or to receive financial assistance. An application and three letters of reference are required to be considered for any available assistantships. These forms can be obtained from the department.

Economics - Doctor of Economic Development

The Doctor of Economic Development (DED) is a professional doctorate designed to provide advanced training for economic development professionals.

Candidates for the DED enter the program with the equivalent of a master's degree. DED students must successfully complete 60 graduate credits beyond the hours required for entry. All students must meet the requirements specified in the general regulations and requirements for admission to the Graduate School and to candidacy. DED minimum admission requirements include:

1. related master’s degree or equivalent coursework;
2. one course in intermediate microeconomic theory and one course in intermediate macroeconomic theory with minimum grades of B;
3. one course in college-level calculus with a minimum grade of B; and
4. one course in statistics, including simple regression, with a minimum grade of B.

Additionally, students who have not completed graduate level courses in AEEC 501 Microeconomic Theory, AEEC 502 Macroeconomic Theory, AEEC 540 Econometrics I) with grades of B or better will be required to successfully complete these courses early in the DED program.

All students in the DED program must successfully complete the following:

</tbody>
</table>
Specialty area (six semester hours) 6
12-15 semester hours of internship and final project 12-15
Select sufficient elective credits to fulfill the 60 hour requirement. 15-9
Total Credits 60

Note: Doctor of Economic Development (DED) students who enter the DED with a master’s degree may, upon completion of all requirements for the MA in Economics, apply for the MA in Economics degree and count courses that overlap with the DED requirements toward the DED. Students must apply separately for the MA Econ program and master’s degree must be conferred before the DED.

Comprehensive and oral exams will be given and will determine eligibility to continue in the program and/or to graduate.

Teaching and research assistantships are available to qualified applicants however admission to the program does not imply or guarantee funding.

Detailed and updated information is available on the departmental website: https://business.nmsu.edu/academics/graduate-programs/ded/

Public Utility Regulation and Economics - Graduate Certificate

The certificate in Public Utility Regulation and Economics (PURE) is a professional educational program designed for post-baccalaureate students pursuing a career in the utility sector, with an electric utility company, natural gas utility, water distribution utility, or with a government agency regulating these types of companies. PURE students must meet the general regulations and minimum requirements for admission to the graduate school and complete 12 credit hours including important information about the educational debt, earnings, and completion rates of students who attend this program can be found on the following: Gainful Employment Disclosure.

ECON 571 Regulatory Policy and Industry Analysis: Electricity I 3
ECON 572 Regulatory Policy and Industry Analysis: Water and Natural Gas 3
ECON 573 Regulatory Policy and Industry Analysis: Electricity II 3
ECON 574 Advanced Seminar Regulatory Policy and Industry Analysis 3

Total Credits 12

For details see https://business.nmsu.edu/academics/graduate-programs/certificate-public-utility/

Applied Statistics - Graduate Minor

The minor in applied statistics is designed for graduate students majoring in other fields. It provides credentials that the student is capable of conducting statistical analyses in their area of specialization.

Master’s level students wishing to minor in applied statistics at the master’s level must have at least 10 credits of 500-level applied statistics courses. In accordance with Graduate School requirements, doctoral students must have at least 12 credits of 500-level applied statistics courses for a minor.

Students wishing to obtain the minor in applied statistics should contact an applied statistics faculty member to recommend appropriate applied statistics course work to be included in the plan of study and to serve as the graduate committee representative from the minor area.

Economics - Graduate Minor

The graduate minor in economics is appropriate for those who seek a better understanding of how micro- and macro-economic forces influence individuals, business and government decision making. Students interested in public utility regulation, banking and finance, government service, or law will find the minor especially interesting.

Graduate students wishing to earn a minor in economics must complete 12 semester credit hours, including:

Select at least two from the following: 6
AEEC 501 Microeconomic Theory
AEEC 502 Macroeconomic Theory
AEEC 540 Econometrics I
ECON or AEEC 500 or higher courses (excluding ECON 503) 1

Total Credits 12

1 ECON 503 Managerial Economics cannot be counted toward the minor.

Students pursuing the economics minor must fulfill the course prerequisites before enrolling in the graduate courses.

Finance

Undergraduate Program Information

Finance is the management of money and cash flow for business organizations, government and individuals. The study of finance involves examining the theory and techniques of managing money, including analysis and management of risk. Finance students learn to apply tools and concepts from mathematics, statistics, economics and accounting to financial decision-making. With this knowledge, finance graduates are in high demand by employers and command some of the highest salaries for college graduates. Depending upon their career goals and interests, finance majors may use the electives in the major to focus their program of study on financial management, personal financial planning, investments, banking, and/or risk management and insurance.

Degrees for the Department

Finance - Bachelor of Business Administration (p. 580)
Minors

Can only be earned by non-finance majors
Entrepreneurship and Innovation - Undergraduate Minor (p. 582)
Finance - Undergraduate Minor (p. 583)
Risk Management and Insurance - Undergraduate Minor (p. 583)

Open to all majors
Business Law - Undergraduate Minor (p. 582)

(Contact the Finance Department Head in BC 221 prior to signing up for Business Law Minor)
Finance - Graduate Certificate (p. 583)

Professor Kenneth Martin, Department Head

Professors de Boyrie, Fortin, Martin, Query; Sankaran; Assistant Professors Rahman, Yildirim; College Assistant Professor Groves, James; Emeritus Professor Oretskin

Finance Courses

FIN 206. Introduction to Finance
3 Credits
Theory and techniques of financial management for business firms. Includes application of financial analysis tools and techniques needed for business financial administration and decision making. Restricted to Community Colleges campuses only.
Prerequisite(s): BOT 106 or higher; BOT 120 or ACCT 221; ECON 201 or ECON 251.

FIN 210. Financial Planning and Investments
3 Credits
Individual financial planning and related financial markets and institutions. Community Colleges only.

FIN 303V. Personal Financial Planning and Investing in a Global Economy
3 Credits
Provides a framework for successful personal financial planning within an individual’s career and income. Covers personal money management, federal and state taxation, the mathematics of finance and credit, housing, inflation, insurance, savings, and investments. Majors and minors may not use this course to satisfy their finance requirements.

FIN 311. Financial Futures Markets
3 Credits
Same as AG E 311.

FIN 322. Principles of Insurance
3 Credits
Theory and practice of insurance and its economics and social significance; review of the major lines of insurance including life, health, and property liability insurance.

FIN 323. Life/Health/Employee Benefits
3 Credits
Approaches to problems of employee security from the perspective of businesses. Topics including pensions, profit-sharing plans, 401(k) plans, group life and health plans, and flexible benefit programs. The course also addresses individual life, health, and annuity contracts within a financial planning context.
Prerequisite: FIN 322.

FIN 324. Property and Liability Insurance
3 Credits
Analysis of property and liability insurance with emphasis on handling of commercial exposures. Review of property and liability company operations including rate making and insurance accounting. Prerequisite: FIN 322

FIN 325. Real Estate Principles and Law I
3 Credits
Real estate law and the fundamental aspects of the real estate purchase transaction and the real estate lease agreement. Topics include real estate brokerage, marketing of real estate, fundamental legal aspects of real estate, present and future interests, air and water rights, methods of transfer, basics of financing and liens, and real estate leases. Same as BLAW 325.

FIN 326. Business Risk Management
3 Credits
The operational risks faced by firms and the study of various methods of handling these risks, including loss prevention, risk retention, self-insurance, corporate insurance programs, and capital markets. Prerequisites: FIN 322

FIN 327. Analysis of the Excess and Surplus Lines Insurance
3 Credits
Analysis of excess and surplus lines segment of the insurance industry, including ratemaking, pricing of insurance, regulation, marketing of insurance, reinsurance, and product development. Students groups will research and design a new insurance product as part of the class.

FIN 341. Financial Analysis and Markets
3 Credits
Financial analysis for business financing and investing decisions. Prerequisites ACCT 221, ECON 251, ECON 252, MATH 121G or 230, A ST 251 or A ST 311 or STAT 251G.

FIN 355. Investments
3 Credits
Prerequisite(s): FIN 341 with a grade of C- or better.

FIN 360. Financial Information Technology
3 Credits
Integrated use of electronic financial information resources with spreadsheet and word processing applications in investigating financial issues and solving financial problems. FIN 341 with a grade of C- or better.
Prerequisite(s): FIN 341 or consent of instructor.

FIN 385. Analysis of Financial Markets and Institutions
3 Credits
Analysis of the financial system, emphasizing its institutions and instruments.
Prerequisite(s): FIN 341 with a grade of C- or better.

FIN 391. Finance Internship and Cooperative Education I
1-3 Credits
Introduction and application of finance principles in a work environment. Open only to students in the finance major or minor who will be working with an approved employer in a finance related position, over a period of 12 weeks or at least 300 work hours. Consent of instructor required.
FIN 392. Insurance Internship and Cooperative Education I
1-3 Credits (1-3)
Introduction and application of insurance principles in a work environment. Open only to students in the finance major or insurance minor who will be working with an approved employer in an insurance related position, over a period of 12 weeks or at least 300 work hours. Consent of instructor required. Restricted to Finance majors.

FIN 393. Banking Internship and Cooperative Education
1-3 Credits (1-3)
Professional banking experience with opportunities to engage in business analysis and to observe application of business principles in the management of a banking entity or a regulatory agency with banking oversight. Open only to students in the finance major or banking minor who will be working with an approved employer in a banking related position, over a period of 12 weeks or at least 300 work hours. May be repeated up to 3 credits. Consent of Instructor required.

FIN 406. Theory of Financial Decisions
3 Credits
Contemporary financial theory. Firm valuation, investments and financing decisions, risk analysis.
Prerequisite(s): FIN 341 with a grade of C- or better.

FIN 421. Personal Financial Planning for Professionals
3 Credits
Introduction to personal financial planning, including goal setting and fact finding, cash management, credit, housing, retirement planning, taxation and estate planning. This course is intended for those planning careers in personal financial advising in one of the various financial services environments.
Prerequisite(s): FIN 341, or consent of Instructor.

FIN 435. Investment Analysis
3 Credits
Efficiency of capital markets, modern portfolio management, special topics of current interest to investment analysts.
Prerequisite: FIN 355.

FIN 436. Applied Security Analysis and Portfolio Management
1-3 Credits (1-3)
Application of analytical tools to security selection and portfolio management Pre/ Corequisite(s): FIN 435.

FIN 445. Fixed Income Markets, Instruments and Derivatives
3 Credits
Course provides a broad introduction to treasury, corporate, municipal, mortgage backed and asset backed bond markets. The analytical techniques for valuing bonds, quantifying their exposure to changes in interest rate and credit risk exposures and investment decision-making are explored.
Prerequisite(s): FIN 341.

FIN 455. Derivative Markets and Securities
3 Credits
Institutional aspects of derivative markets and the arbitrage based pricing of derivative instruments such as stock options, interest rate options, future contracts and swaps. The applied component of the course demonstrates use of these instruments as hedge and/or investment vehicles.
Prerequisite(s): FIN 355.

FIN 466. Financial Policy Decisions
3 Credits
Application and integration of financial theory, concepts, and practice using the case method.
Prerequisite: FIN 406 or consent of instructor.

FIN 470. Real Estate Appraisal
3 Credits (2+2P)
This course addresses issues influencing the value of real estate with some emphasis upon rural properties. Topics include courthouse records, property taxes, appraisal methodology, expert courtroom testimony, condemnation, and legal issues. Students will take field trips and write appraisals. Course material is relevant to student in Finance, Accounting, and Pre-Law, as well as Agriculture. Accredited for hours to apply to both pre-licensing and continuing education requirements of the New Mexico Real Estate Commission for both Appraisers and Real Estate Brokers. Crosslisted with: AG E 470.
Prerequisite(s): Junior or above standing.

FIN 475. International Managerial Finance
3 Credits
International aspects of financial transactions, decision-making, banking and financial markets. Crosslisted with: I B 475 and FIN 575.
Prerequisite(s).

FIN 480. Management of Financial Institutions
3 Credits
Asset and liability management of financial institutions; emphasis on commercial bank management.
Prerequisite: FIN 385 or consent of instructor.

FIN 490. Selected Topics
1-3 Credits
Current topics in finance.
Prerequisites: vary according to the seminar being offered.

FIN 498. Independent Study
1-3 Credits
Individual studies directed by consenting faculty with the prior approval of the department head. A maximum of 3 credits may be earned.
Prerequisites: junior or above standing and consent of instructor.

FIN 500. Concepts in Finance
1 Credit
An overview of fundamental principles of finance necessary for prospective MBA students who do not have an undergraduate background in finance. Includes: Time value of money concepts and calculations; risk and calculation of return given appropriate risk measures; bond risk characteristics and calculation of the value of a bond; calculation of the value of common stock (determination as to whether a stock is over-valued or under-valued); and calculation of the costs of capital and capital budgeting problems using the cost of capital. Prerequisite(s): admitted to MBA Program or consent of course department.

FIN 503. Financial Management
3 Credits
Theory and application of financial analysis to asset management, project evaluation, capital structure, and dividend policy. Interrelationships among financial and other organizational decisions. Prerequisite(s): FIN 341 with a grade of B or better.

FIN 511. Financial Futures Markets
3 Credits
Same as AEEC 511.
FIN 521. Personal Financial Planning for Professionals
3 Credits
Introduction to personal financial planning, including goal setting and fact finding, cash management, credit, housing, retirement planning, taxation and estate planning. This course is intended for those planning careers in personal financial advising in one of the various financial services environments.
Prerequisite(s): FIN 503 or FIN 341 or consent of Instructor.

FIN 535. Investment Concepts
3 Credits
Investments in common stocks and other securities. Risk and return, securities markets, portfolio theory and management.
Prerequisite(s): FIN 355 or FIN 503.

FIN 536. Applied Security Analysis and Portfolio Management
1-3 Credits (1-3)
Application of analytical tools to security selection and portfolio management. Pre/Co-Requisite(s): FIN 435 or FIN 535.

FIN 545. Fixed Income Markets, Instruments and Derivatives
3 Credits
Course provides a broad introduction to treasury, corporate, municipal, mortgage backed and asset backed bond markets. The analytical techniques for valuing bonds, quantifying their exposure to changes in interest rate and credit risk exposures and investment decision-making are explored. Assignments and exams will be differentiated from the undergraduate cross-listed course. In addition, graduate students are expected to complete a project. Crosslisted with: FIN 445.

FIN 555. Derivative Markets and Securities
3 Credits
Institutional aspects of derivative markets and the arbitrage based pricing of derivative instruments such as stock options, interest rate options, future contracts and swaps. The applied component of the course demonstrates use of these instruments as hedge and/or investment vehicles. Same as FIN 455 with differentiated assignments for graduate students.
Prerequisite(s): FIN 503 or instructor permission.

FIN 566. Advanced Financial Management
3 Credits
Application and integration of financial theory, concepts, and practice using the case method.
Prerequisite: FIN 503.

FIN 575. International Managerial Finance
3 Credits
International aspects of financial transactions, decision-making, banking and financial markets.
Prerequisite(s): FIN 503 or FIN 341.

FIN 581. Management of Financial Institutions
3 Credits
Asset and liability management of financial institutions; emphasis on commercial bank management.
Prerequisite(s): FIN 385 or FIN 503.

FIN 590. Selected Topics
1-3 Credits (1-3)
Current topics in finance. Taught with FIN 490 with differentiated assignments for graduate students. Consent of instructor required.

FIN 598. Special Research Programs
1-3 Credits
Directed individual reading or research.
Prerequisite: consent of instructor.

Finance - Bachelor of Business Administration

Finance is the crossroads of economics, strategy and accounting, and the study of how firms and individuals allocate resources over time and under uncertain conditions. The finance curriculum provides a core foundation in corporate finance, investments, and financial institutions. The theory and concepts are then applied to problem-solving in a variety of areas including financial markets and institutions, corporate finance, international financial management, stock valuation and portfolio allocation, fixed-income markets, derivatives, risk management and insurance, and entrepreneurial finance.

Courses in the BBA in Finance are organized into four concentrations: Financial Analyst, Banking and Financial Planning, Risk Management and Insurance, and Entrepreneurial Finance. Students may pursue one or more concentrations. If a student chooses not to pursue a concentration, they may select four courses from any concentration or any FIN prefix above FIN 310.

Requirements
Completion of the courses listed below (including any prerequisites) with a minimum cumulative GPA of 2.0 in these courses. At least twelve of the credits for the major must be completed at NMSU.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Prefix Title Credits
General Education
Grades of C- or better are required in general education communications courses

Area I: Communications
English Composition Level - 1
Choose one from the following: 4

| ENGL 111G | Rhetoric and Composition |
| ENGL 111GH | Rhetoric and Composition Honors |
| ENGL 111M | Rhetoric and Composition for International and Multilingual Students |

English Composition - Level 2

| ENGL 203G | Business and Professional Communication | 3 |

Website: http://business.nmsu.edu/academics/finance/
Oral Communication

Choose one from the following:

- AXED 201G Effective Leadership and Communication in Agricultural Organizations
- COMM 253G Public Speaking
- COMM 265G Principles of Human Communication
- HON 265G Principles of Human Communication Honors

Area II: Mathematics
- MATH 121G College Algebra

Area III/IV: Laboratory Sciences and Social/Behavioral Sciences

Area III: Laboratory Sciences
- ECON 251G Principles of Macroeconomics
- ECON 252G Principles of Microeconomics

Area V: Humanities
- Area VI: Creative and Fine Arts

General Education Elective

Viewing A Wider World

Departmental/College Requirements

Foundation Requirements

Choose one from the following (grade of C- or better required):

If a ST 251G/STAT 251G is taken before MATH 121G then the Statistics course will satisfy the Area II Requirement for Gen.Ed and MATH 121G must be taken as a foundation requirement.

- A ST 251G Statistics for Business and the Behavioral Sciences
- ECON 251G Principles of Macroeconomics
- ECON 252G Principles of Microeconomics
- STAT 251G Statistics for Business and the Behavioral Sciences
- A ST 311 Statistical Applications

Business Core: Lower Division (minimum grades of C- required)

- ACCT 221 Principles of Accounting I (Financial)
- ACCT 222 Principles of Accounting II (Managerial)
- BCIS 110 Fundamentals of Information Literacy and Systems
- BUSA 111 Introduction to Business

Business Core: Upper Division

- BCIS 338 Business Information Systems I
- BLAW 316 Legal Environment of Business
- FIN 341 Financial Analysis and Markets
- MGT 309 Human Behavior in Organizations
- MGT 449 Strategic Management
- MKTG 303 Principles of Marketing

Choose one of the following:

- BCIS 485 Enterprise Resource Planning
- or MGT 344 Production and Operations Management
- or MGT 470 Project Management in Organizations

Upper division Economics or Applied Statistics elective from the following prefixes: A ST (excluding A ST 311), ECON

Upper Division Business Elective from the following prefixes: A ST, ACCT, B A, BCIS, BLAW, ECON, ENTR, FIN, I B, MGT, MKTG (excluding A ST 311)

Major Courses

- FIN 355 Investments
- FIN 360 Financial Information Technology
- FIN 385 Analysis of Financial Markets and Institutions
- FIN 406 Theory of Financial Decisions

Twelve credits from:

A declared concentration below

or

Four courses from any FIN prefix above FIN 310 or from any concentration below, for students not wishing to declare a concentration

Financial Analyst Concentration (12 credits from the following)

- FIN 311 Financial Futures Markets
- FIN 435 Investment Analysis
- FIN 445 Fixed Income Markets, Instruments and Derivatives
- FIN 455 Derivative Markets and Securities
- FIN 466 Financial Policy Decisions
- FIN 470 Real Estate Appraisal
- FIN 475 International Managerial Finance
- FIN 391 Finance Internship and Cooperative Education I
- FIN 499 Independent Study

Banking and Financial Planning Concentration (12 credits from the following)

- FIN 480 Management of Financial Institutions (Required)
- FIN 393 Banking Internship and Cooperative Education
- FIN 421 Personal Financial Planning for Professionals
- FIN 435 Investment Analysis
- FIN 445 Fixed Income Markets, Instruments and Derivatives
- FIN 470 Real Estate Appraisal
- FIN 499 Independent Study

Risk Management and Insurance Concentration (12 credits from the following)

- FIN 322 Principles of Insurance (Required)
- FIN 323 Life/Health/Employee Benefits
- FIN 324 Property and Liability Insurance
- FIN 326 Business Risk Management
- FIN 327 Analysis of the Excess and Surplus Lines Insurance
- FIN 421 Personal Financial Planning for Professionals
- FIN 392 Insurance Internship and Cooperative Education I
- FIN 499 Independent Study

Entrepreneurial Finance Concentration (12 credits from the following)

- FIN 322 Principles of Insurance (Required)
- FIN 323 Life/Health/Employee Benefits
- FIN 324 Property and Liability Insurance
- FIN 326 Business Risk Management
- FIN 327 Analysis of the Excess and Surplus Lines Insurance
- FIN 421 Personal Financial Planning for Professionals
- FIN 392 Insurance Internship and Cooperative Education I
- FIN 499 Independent Study
Every candidate for this major must fulfill the general education common core (p. 49), College of Business foundation and business core (p. 543), Viewing a Wider World (p. 53) requirements and general electives, in addition to the requirement for the major. Given below is a suggested study plan for a student pursuing a Finance major. If a student chooses to pursue one or more than one concentration, they should choose the electives that pertain to the concentration. If students choose not to pursue a concentration, they may take courses from any concentration or from any FIN prefix above FIN 310.

### Business Law - Undergraduate Minor

In a world that is increasingly subject to laws and regulations, every business needs employees who are savvy about the laws that affect business. The Business Law minor is comprised of a series of courses designed to provide a strong background in a wide range of laws that business needs to be aware of, and provide students with the ability to recognize – and avoid – legal pitfalls. Additionally, the Business Law minor will provide students with a clear understanding of how legal disputes are resolved and the ability to appreciate the cost and complexity of disputes, and enable students to reduce the costs and complexities by being able to communicate clearly with lawyers about the legal issues.

#### Requirements

Completion of the courses listed below (including any prerequisites) with a minimum cumulative GPA of 2.0 in these courses. At least twelve of the credits for the minor must be completed at NMSU. This minor is not open to majors in the Bachelor of Individualized Studies and the Bachelor of Applied Studies. Students interested in pursuing this minor should contact the Finance Department Head in BC 221.

### Entrepreneurship and Innovation Undergraduate Minor

The Entrepreneurship and Innovation minor is designed to promote entrepreneurship to students across the NMSU campus. This minor will appeal to creative and ambitious students who envision launching and managing their own business or entering careers in innovation-driven fields. The flexible design allows students to complete a designated,
approved cluster of related courses that provide a discipline-specific entrepreneurial flavor. Such clusters are under development.

**Requirements**

Completion of the courses listed below (including any prerequisites) with a minimum cumulative GPA of 2.0 in these courses. At least twelve of the credits for the minor must be completed at NMSU. This minor is not open to students in the Bachelor of Individualized Studies and the Bachelor of Applied Studies.

### Prefix | Title | Credits
--- | --- | ---
**Required Core Courses**
ENTR 331 | Business Creation and Valuation | 3
ENTR 332 | Entrepreneurial Finance | 3
BLAW 330 | Entrepreneurial Law | 3

### Business Cluster Courses: Choose any 3 from the following
- BA 490 | Selected Topics | 9
- ENTR 333 | Business Analysis and Turnaround | 3
- MKTG 312 | Personal Selling | 3
- MKTG 324 | Product/Service Development | 3

**Total Credits** 18

---

**Finance - Undergraduate Minor**

The minor in Finance, available to students in most majors (business and non-business), affords students the opportunity to select their minor courses to provide a focus on any one of several sub-specialties within the field of Finance. Faculty advisors in the department can assist students in selecting their Finance electives to provide a focus in financial management, financial planning, or investments. (This minor is not open to majors in the Bachelor of Individualized Studies and the Bachelor of Applied Studies.)

### Requirements

Completion of the courses listed below (including any prerequisites) with a minimum cumulative GPA of 2.0 in these courses and a minimum cumulative GPA of 2.0 in the FIN courses. At least twelve credits for the minor must be completed at NMSU.

### Prefix | Title | Credits
--- | --- | ---
**Required Courses**
ACCT 221 | Principles of Accounting I (Financial) | 3
FIN 341 | Financial Analysis and Markets | 3
Select any three additional, upper division, finance courses 1 | 9
Select any additional upper division business course | 3
Select one from the following:
- ECON 201G | Introduction to Economics | 3
- ECON 251G | Principles of Macroeconomics | 3
- ECON 252G | Principles of Microeconomics | 3

**Total Credits** 18

1. Upper division Finance courses must have a number greater than 310.

---

**Risk Management and Insurance - Undergraduate Minor**

The minor in Insurance, available to students in most majors (business and non-business), affords students the opportunity to supplement their major field of study with specialized expertise in the field of risk management and insurance.

### Requirements

Completion of the courses listed below (including any prerequisites) with a minimum cumulative GPA of 2.0 in these courses. At least twelve of the credits for the minor must be completed at NMSU. The minor is not available to students in the Bachelor of Individualized Studies or the Bachelor of Applied Studies.

### Prefix | Title | Credits
--- | --- | ---
**Required Courses**
FIN 322 | Principles of Insurance | 3
FIN 341 | Financial Analysis and Markets | 3
FIN 303V or FIN 324 | Personal Financial Planning and Investing in a Global Economy | 3
BLAW 316 | Legal Environment of Business | 3
BLAW 385V | Consumers and the Law | 3
Any three upper division finance courses chosen from the following: | 9
- FIN 323 | Life/Health/Employee Benefits | 3
- FIN 324 | Property and Liability Insurance | 3
- FIN 326 | Business Risk Management | 3
- FIN 327 | Analysis of the Excess and Surplus Lines Insurance | 3
- FIN 392 | Insurance Internship and Cooperative Education | 3
- FIN 498 | Independent Study | 3
- FIN 421 | Personal Financial Planning for Professionals 1 | 3

**Total Credits** 21

1. Fin 421 cannot be taken if Fin 303V is applied toward the minor.

---

**Finance - Graduate Certificate**

Important information about the educational debt, earnings, and completion rates of students who attend this program can be found on the following: Gainful Employment Disclosure.

**Admission requirements:**

1. Completion of a Bachelors or other advanced degree with a minimum GPA of 3.0.
2. Earned a B or better in the following NMSU courses — or their equivalents — within seven years prior to acceptance into the program:

Undergraduate Program Information

The major in general business is based on a broad range of course options rather than a narrow focus on a single discipline. Graduates find careers in large and small businesses, in government agencies and in the nonprofit sector. The general business major is well suited to the part-time and working student because it allows the student to select courses that will better meet their individual schedule. The entrepreneurship concentration is ideal for a student interested in starting or acquiring a small business or entering a family business upon graduation. The curriculum provides a focus on small and new enterprises, thus reflecting the entrepreneurial nature of contemporary business in the U.S.

The Department of Management invites you to consider a major in management. Do you like to work with people? Need help solving people problems at work? Hope to start your own business? Want to run an environmental project, or a bank, a store, a farm or a government agency? Are you interested in how people from diverse backgrounds work together to achieve common goals? If you answered yes to any of these questions, you should consider a major in management. The mission of the department is to prepare graduates with a Bachelor of Business Administration, for management careers in a broad spectrum of New Mexico, national and globally oriented businesses. Management graduates work in small and large agricultural, manufacturing, government, transportation, public utility, merchandising, health care, environmental and communications organizations among others.

The study of management offers the opportunity to develop skills in utilizing human, physical and economic resources to achieve organizational objectives. These are important cross-functional skills in today's competitive job market. Students will acquire the skills and knowledge to develop their potential and to lead others in a common mission. Management majors may choose from program concentrations in human resource management, project and supply chain management or small business management and entrepreneurship.

### Degrees for the Department

**General Business - Bachelor of Business Administration** (p. 587)

**Management (Human Resource Management) - Bachelor of Business Administration** (p. 589)

**Management (Project & Supply Chain Management) - Bachelor of Business Administration** (p. 591)

**Management (Small Business Management & Entrepreneurship) - Bachelor of Business Administration** (p. 594)

### Minors for the Department

**Management - Undergraduate Minor** (p. 596)

**Sustainability - Undergraduate Minor** (p. 596)

Carlo A. Mora-Monge, Department Head

**Professors** Bishop, Hoffman, Jun; **Associate Professors** Adler, Smith; **Assistant Professors** Flinchbaugh

### Management Courses

**MGT 201. Introduction to Management**

3 Credits

Covers the functioning and administration of different types of complex organizations. Concepts and theories of management and organizational behavior.

**MGT 309. Human Behavior in Organizations**

3 Credits

Interpersonal and organizational behavior, motivation, communication, team building, leadership, diversity management, legal and ethical issues, and politics in organizations. Credit may not be earned for both MGT 309 and MGT 315V.

**MGT 310V. Entrepreneurial Mindset**

3 Credits

This course provides the opportunity to learn to think like an entrepreneur in the broader context of social entrepreneurship, intrapreneurship, creative problem solving, opportunity recognition, and innovation.

**MGT 315V. Human Relations in Organizations**

3 Credits

Interactions among people and groups in societies where organizations abound. Focus on the behavior of people in organizational situations and approaches for understanding that behavior. Explores motivation, communication, leadership and team processes. Restricted to nonbusiness majors. Credit may not be earned for both MGT 309 and MGT 315V.
MGT 332. Human Resources Management
3 Credits
Survey course in human resources management. Includes recruitment, selection, equal employment opportunity, performance appraisal, training, compensation, safety, and union-management relations.

MGT 333. Training and Development
3 Credits
Training and development of human resources, including training needs assessment, training approaches and techniques, and evaluation of training effectiveness.

MGT 335V. Business and Government
3 Credits
Crosslisted with: ECON 335G

MGT 344. Production and Operations Management
3 Credits
Management of physical and human resources; management information systems in operations; applications in various organizations.
Prerequisite: STAT 251G or A ST 251G or A ST 311; and BCIS 338 or BCIS 350.

MGT 345V. Quality and Competitiveness: An International Perspective
3 Credits
Quality management and competitiveness are studied in manufacturing, services, and the public sector with an international perspective. Topics include: global history of quality, foreign competition and its impact on quality and productivity, quality management and continuous improvement, international operations management, quality assessment, and a review of the emergence of quality and competitiveness in government, education and health care.

MGT 347. Management Functions and Processes
3 Credits
Planning, organizing, directing, and controlling operating units in an organization. Applications to a variety of types of organizations.

MGT 351. Supply Chain Management
3 Credits
Acquisition and control of materials, parts, equipment, and services for end use in the organization. Applications to service and manufacturing industries, nonprofit, and governmental institutions.

MGT 360V. Negotiation and Business Conflict Resolution: Theory and Practice
3 Credits
Covers the basics of negotiation theory and practice including the use of quantitative methods and their realistic application in resolving disputes. Application of conflict resolution skills.

MGT 361. Small Business Management
3 Credits
Principles and practice of managing a small enterprise with emphasis on growth and performance.

MGT 375V. Global Environmental Assessment and Management
3 Credits
Examines the principles of environmental assessment and management. Topics include global environmental concerns, industrial environmental management, life cycle assessment, system analysis, process improvement, and sustainable development, among others.

MGT 388V. Leadership and Ethics
3 Credits
Exploration of the multifaceted nature of leadership and principal-based ethics in modern society through readings and seminar discussion. May be repeated up to 3 credits.

MGT 391. Management Internship and Cooperative Education I
1-3 Credits
Application of management skills to the work environment. Open only to students majoring or minoring in management. The amount of academic credit (1-3 cr.) will be determined by the academic experience and not by the work experience. May be repeated for a maximum of 3 credits. Restricted to majors and minors.
Prerequisites: MGT 309 and consent of instructor.

MGT 448. Small Business Consulting
3 Credits
Study analysis and presentation of recommendations for solving significant problems confronting small businesses.
Prerequisite(s): Senior standing or consent of instructor.

MGT 449. Strategic Management
3 Credits
Integrative approach to envisioning the future and shaping strategies for business success.
Prerequisite(s): BCIS 338 or 350; BLAW 316; FIN 341; MGT 309; MKTG 303; and one of the following: MGT 344 or MGT 470 or BCIS 485.

MGT 451. Selection, Placement, and Performance Evaluation
3 Credits
Staffing processes for organizations and the evaluation of employee performance. Use of selection methods and measurement of work behavior.

MGT 453. Leadership and Motivation
3 Credits
Theories of leadership and motivation. Motivational programs for complex organizations. Relationships between organizational power, authority, and management styles. Crosslisted with: IE 453

MGT 454. Work Teams in Organizations
3 Credits
Theories of small groups and their application to the work situation. Why and how groups form, grow, communicate, and maintain themselves.
Prerequisites: senior or above standing.

MGT 458. Comparative International Management
3 Credits
Cultural influences on management are examined in a global business environment with a particular emphasis on human behavior in multinational organizations and the management of human resources. Same as I B 458.

MGT 460. Compensation Management
3 Credits
An overview of wage and salary administration, including job evaluation, wage and salary surveys, program administration, legal aspects of pay systems, and benefits administration.
Prerequisite(s): MGT 332 or consent of instructor.

MGT 461. Seminar in Entrepreneurship
3 Credits
For students interested in owning and operating their own business; students desiring hands-on, real-time experience in helping start up a business. Crosslisted with: MKTG 461.
Prerequisite(s): Senior standing or consent of instructor.

MGT 465. Contemporary Issues in Human Resources Management
3 Credits
Integrative course in human resources management, emphasizing the application of advanced concepts to complex personnel cases.
Prerequisite: MGT 332.
MGT 466. Managing Electronic Commerce: A Business Models Perspective
3 Credits
Surveys the emerging Internet technology involving business to business, business to consumer, and consumer to consumer forms of trade. Covers quantitative decision and negotiation analysis techniques as well as auction and market trade mechanisms.

MGT 470. Project Management in Organizations
3 Credits
Roles, responsibilities, and techniques of project managers in managing projects effectively. Preparation for professional certification.

MGT 490. Selected Topics
1-18 Credits (1-18)
Seminars in selected current topics in the various areas of management and administration. Prerequisites vary according to the seminar being offered.

MGT 491. Management Internship and Cooperative Education II
1-3 Credits
Covers the application of management skills to the work environment. The amount of academic credit (1-3 cr.) will be determined by the academic experience and not be the work experience. May be repeated for a maximum of 3 credits. Restricted to majors and minors.
Prerequisite: MGT 309 and consent of instructor.

MGT 498. Independent Study
1-3 Credits
Individual studies directed by consenting faculty with the prior approval of the department head. A maximum of 3 credits may be earned.
Prerequisite: junior or above standing and consent of instructor.

MGT 502. Operations Management
3 Credits
Systems and specialized models applied to the management of production facilities and service operations, including physical and human resources.
Prerequisite(s): Graduate students only.

MGT 503. Organizational Behavior and Management Processes
3 Credits
Covers the theory and practice related to the successful management of human resources in organizations operating within a dynamic global environment. Course goals include developing alternative frameworks for analyzing issues related to human behavior, management science, and organizational structure and theory.
Prerequisite: graduate students only.

MGT 512. Quantitative Analysis for Business Decisions
3 Credits
Identification, collection, and analysis of an organization's data both internal and external, and use of the resultant information in managerial decision making.
Prerequisite: graduate students only.

MGT 527. Negotiation and Business Dispute Resolution
3 Credits
Same as BLAW 527.

MGT 548. Small Business Consulting
3 Credits
Study, analysis, and presentation of recommendations for solving significant problems confronting small businesses. Same as MGT 448 with differentiated assignments for graduate students.
Prerequisite(s): Graduate standing.

MGT 590. Strategic Management
3 Credits
Covers the integration of functional, human, technological, and environmental aspects of business within the framework of management policy and strategy formulation. Formulate, implement, evaluate and control the various functions of the organization from a systems perspective. Understand the external environment and its impact on the organization. Restricted to majors.
Prerequisite: M.B.A. student in his or her final semester.

MGT 591. Seminar in Entrepreneurship
3 Credits
For students interested in owning and operating their own business; students desiring hands-on, real-time experience in helping start up a business. Same as MGT 461 with differentiated assignments for graduate students. Crosslisted with: MKTG 591.
Prerequisite(s): Graduate standing.

MGT 598. Special Research Programs
1-3 Credits
Individual investigations either analytical or experimental. A maximum of 6 credits may be earned.
Prerequisite: consent of instructor.

MGT 600. Doctoral Research
1-15 Credits
This course number is used for assigning credit for research performed prior to successful completion of the doctoral qualifying examination. Restricted to management majors.

MGT 601. Research in Management
1 Credit
Ph.D. course provides opportunities for significant interaction between Management faculty and Management Ph.D. students. The course also provides opportunities for development of professional scholarly standards, ethics, and critiques, as well as insight into current research areas and topics supported by the Management Department and other relevant disciplinary areas. May be repeated for a maximum of 6 credits. Restricted to Ph.D. students. Graded S/U.

MGT 640. Instructional Development for Teaching Business
3 Credits
Pedagogical issues and techniques in collegiate business education. Includes course and curriculum development, outcomes assessment, class management, and teaching techniques. Practical issues faced in college instruction. Restricted to doctoral students.

MGT 645. Seminar in Human Resources Management
3 Credits
Seminar will address current issues in human resources management. Focus on research related to the selection, development, and effective use of human resources. Restricted to doctoral students.

MGT 650. Seminar in Organizational Behavior
3 Credits
Seminar will include specific organizational behavior topics; motivation, leadership, group and inter-group relations, and attitude theory. Focus on current research and theory. Restricted to doctoral students.

MGT 655. Seminar in Organizational Systems and Theory
3 Credits
Analysis of organizations from a macro perspective. Topics include organizational theory, organizational design, organizational environment, and sociotechnical systems. Restricted to doctoral students.
MGT 660. Research Design and Methodology  
3 Credits  
Topics will include philosophy of science, theory building, and research methods applicable to the study of organizational behavior. Restricted to doctoral students.

MGT 661. Qualitative Research Methods  
3 Credits  
In-depth coverage of selected topics in research methodology, including theory and logic of scientific investigation, grounded theory, action research, and ethnomethodology. Restricted to doctoral students.

MGT 670. Seminar in Operations Management  
3 Credits  
Seminar examines the major problem areas, research findings, and research methodologies of operations management. Focus on the critical evaluation of current theory and methodology.  
Prerequisite(s): Restricted to Doctoral students.

MGT 675. Seminar in Strategic Management  
3 Credits  
Survey of current and classical readings in strategy. Introduces the doctoral level student to strategic issues, strategic topics for research, and publication venues. Restricted to doctoral students.

MGT 685. Story Consulting to Organizations  
3 Credits  
Apply various qualitative story and narrative research methods (plot analysis, script analysis, life history, and restoring) to action research consulting project. Students will conduct story assessment and (propose or enact) intervention with a local consenting organization. Restricted to doctoral students.

MGT 690. Special Topics  
3 Credits  
Seminars in selected current topics in the various areas of management. May be repeated for unlimited credit. Restricted to doctoral students.  
Prerequisite(s): Vary according to seminar being offered.

MGT 698. Special Topics  
1-3 Credits  
Prerequisite: consent of instructor.

MGT 700. Doctoral Dissertation  
15 Credits  
Prerequisite: advancement to candidacy.

Name: Carlo A. Mora-Monge, Department Head

or MGT 344 or MGT 470

or MGT 344 Production and Operations Management or MGT 470 Project Management in Organizations

Upper Division Economics or Applied Statistics elective from the following prefixes: A ST (excluding A ST 311), ECON

Upper Division Business elective from the following prefixes: A ST, ACCT, B A, BCIS, BLAW, ENTR, FIN, I B, MGT, MKTG (excluding A ST 311)

Major Courses

Major requirements (upper division business courses) 4 24

Non-Departmental Requirements (in addition to Gen.Ed/ VWW)

Choose one from the following (grade of C- or better required): 3

If A ST 251G/STAT 251G is taken before MATH 121G then the Statistics course will satisfy the Area II Requirement and MATH 121G must be taken as a foundation requirement 1

A ST 251G Statistics for Business and the Behavioral Sciences

STAT 251G Statistics for Business and the Behavioral Sciences

A ST 311 Statistical Applications

Second Language: (not required)

Electives, to bring the total credits to 120 5 16

Total Credits 120

1 Students may be required to take MATH 120 Intermediate Algebra, depending on their math placement. MATH 121G College Algebra or MATH 142G Calculus for the Biological and Management Sciences or A ST 251G Statistics for Business and the Behavioral Sciences or STAT 251G Statistics for Business and the Behavioral Sciences fulfills the general education requirement in math.

2 See the General Education (p. 49) Section of the catalog for a full list of courses

3 See the Viewing a Wider World (p. 53) Section of the catalog for a full list of courses

4 No more than 9 credits may be taken in any one prefix

- Accounting (ACCT)
- Business Administration (B A)
- Business Computer Information Systems (BCIS)
- Business Law (BLAW)
- Economics (ECON)
- Entrepreneurship (ENTR)
- Finance (FIN)
- International Business (I B)
- Management (MGT)
- Marketing (MKTG)

5 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Note: The general business option is offered through a 2+2 Online Distance Education Degree Completion Program as well. Program information is available on the College of Business website: http://business.nmsu.edu/academics/undergraduate/online-programs/

Concentration: Entrepreneurship

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Prefix                   Title                                                                                      Credits

General Education

Grades of C- or better are required in general education communications courses

Area I: Communications

English Composition - Level 1

Choose one from the following: 4

ENGL 111G Rhetoric and Composition
ENGL 111GH Rhetoric and Composition Honors
ENGL 111 M Rhetoric and Composition for International and Multilingual Students

Area II: Mathematics

MATH 121G College Algebra 1 3

Area III/IV: Laboratory Sciences and Social/Behavioral Sciences 10

Area III: Laboratory Sciences Course (4 credits) 2

ECON 251G Principles of Macroeconomics
ECON 252G Principles of Microeconomics

Area V: Humanities 2 3

Area VI: Creative and Fine Arts 2 3

General Education Elective 3

MATH 142G Calculus for the Biological and Management Sciences 1

Viewing A Wider World 3 6

Departmental/College Requirements

Business Core: Lower Division (minimum grades of C- required)

ACCT 221 Principles of Accounting I (Financial) 3
ACCT 222 Principles of Accounting II (Managerial) 3
BCIS 110 Fundamentals of Information Literacy and Systems 3
BUSA 111 Introduction to Business 3

Business Core: Upper Division

BCIS 338 Business Information Systems I 3
BLAW 316 Legal Environment of Business 3
FIN 341 Financial Analysis and Markets 3
Management (Human Resource Management) - Bachelor of Business Administration

Every candidate for this major must fulfill the following requirements in addition to the general education common core, College of Business foundation and the business core, Viewing a Wider World requirements and general electives. Students will choose one or more of the four options that follow.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

</table>

1. Students may be required to take MATH 120 Intermediate Algebra, depending on their math placement. MATH 121G College Algebra or MATH 142G Calculus for the Biological and Management Sciences or A ST 251G Statistics for Business and the Behavioral Sciences or STAT 251G Statistics for Business and the Behavioral Sciences fulfills the general education requirement in math.

2. See the General Education (p. 49) Section of the catalog for a full list of courses

3. See the Viewing a Wider World (p. 53) Section of the catalog for a full list of courses

4. Of the remaining 12 credits for the entrepreneurship concentration, no more than 9 credits may be taken in any one prefix

5. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
A Suggested Plan of Study for Students
This roadmap assumes student placement in MATH 121G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Total Credits

120

Students may be required to take MATH 120 Intermediate Algebra, depending on their math placement. MATH 121G College Algebra or MATH 142G Calculus for the Biological and Management Sciences or A ST 251G Statistics for Business and the Behavioral Sciences or STAT 251G Statistics for Business and the Behavioral Sciences fulfills the general education requirement in math.

See the General Education (p. 49) section of the catalog for a full list of courses.

See the Viewing A Wider World (p. 53) section of the catalog for a full list of courses and how to fulfill this requirement.

All Foundation Requirement Courses must be taken, or satisfied with transfer credits, regardless of which Mathematics or Statistics course satisfies the Area II General Education course: MATH 121G, MATH 142G and A ST 251G/STAT 251G or A ST 311 must be completed.

Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Students may be required to take MATH 120 Intermediate Algebra, depending on their math placement. MATH 121G College Algebra or MATH 142G Calculus for the Biological and Management Sciences or A ST 251G Statistics for Business and the Behavioral Sciences or STAT 251G Statistics for Business and the Behavioral Sciences fulfills the general education requirement in math.

See the General Education (p. 49) section of the catalog for a full list of courses.
See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses and how to fulfill this requirement.

All Foundation Requirement Courses must be taken, or satisfied with transfer credits, regardless of which Mathematics or Statistics course satisfies the Area II General Education course: MATH 121G, MATH 142G and A ST 251G/STAT 251G or A ST 311 must be completed.

Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

### A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 121G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Management (Small Business Management & Entrepreneurship) - Bachelor of Business Administration

Every candidate for this major must fulfill the following requirements in addition to the general education common core, College of Business foundation and the business core, Viewing a Wider World requirements and general electives. Students will choose one or more of the four options that follow.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

### Course Requirements

#### General Education

Grades of C- or better are required in general education communications courses.

**Area I: Communications**

**English Composition - Level 1**

Choose one from the following:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 111G</td>
<td>Rhetoric and Composition</td>
<td>4</td>

---

1. MATH 121G College Algebra or MATH 142G Calculus for the Biological and Management Sciences or A ST 251G Statistics for Business and the Behavioral Sciences or STAT 251G Statistics for Business and the Behavioral Sciences fulfills the general education requirement in math.

2. See the General Education (p. 49) section of the catalog for a full list of courses.

3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses and how to fulfill this requirement.

4. All Foundation Requirement Courses must be taken, or satisfied with transfer credits, regardless of which Mathematics or Statistics course satisfies the Area II General Education course: MATH 121G, MATH 142G and A ST 251G/STAT 251G or A ST 311 must be completed.

5. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
## Management - Undergraduate Minor

The management minor requires 18 upper division credits in management. Business majors must take any six upper-division management courses (3 credits each). The management minor for non-business majors consists of:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>

<tbody>
<tr>
<td>MGT 309</td>
<td>Human Behavior in Organizations</td>
<td>3</td>
</tr>
<tr>
<td>or MGT 315V</td>
<td>Human Relations in Organizations</td>
<td>3</td>
</tr>
</tbody>
</table>

Select five other upper division Management courses

| Credits | 15 |

Total Credits 18

1 One 3-credit upper division course in the College of Business may substitute for one of the required five management courses.

At least 12 credits for the minor must be completed at NMSU. This minor is not open to majors in the Bachelor of Individualized Studies and the Bachelor of Applied Studies.

To obtain a Management minor, a grade of C- or better must be attained in the courses required.

## Sustainability - Undergraduate Minor

Students must complete 18 credits for the minor, nine credits of which must be upper division courses, and at least 12 credits of which must be completed at NMSU. A 2.0 GPA or better is required in the courses completed in fulfillment of the minor. This minor is not open to majors in the Bachelor of Individualized Studies and the Bachelor of Applied Studies.

Total Credits 18

1 These courses have prerequisites and it is the students responsibility for checking and fulfilling all course prerequisites listed for these courses.

2 See the General Education (p. 49) section of the catalog for a full list of courses.

3 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

4 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
Marketing

Undergraduate Program Information

Marketing majors learn skills and knowledge relevant to the co-creation of goods, services, and ideas that uniquely meet the needs and wants of global customer markets and society at large. Career opportunities exist in marketing management, advertising, market research, promotion management, sales and sales management, social media, distribution management, and retailing. The major is designed to allow a great deal of choice so students may emphasize any combinations of these areas.

Most marketing majors enter into careers in business firms, although some find job opportunities in governmental and other nonprofit organizations. Still others become involved in owning and managing their own companies. Opportunities in entrepreneurship and small business are expanding at a rapid pace.

Graduate Program Information

The College offers a program leading to a Ph.D. degree (Doctor of Philosophy in Business Administration) (p. 559). The faculty of the Ph.D. Program in Business Administration is committed to training researchers and educators who will shape business scholarship, practice, and pedagogy. The program emphasizes preparing candidates to understand the complexities of modern business while they develop a specialized area of expertise in marketing or management. The Ph.D. in Business Administration provides graduates with the opportunity to pursue a variety of career paths within academia and within industry. Currently a concentration is offered in marketing.

Degrees for the Department

Marketing - Bachelor of Business Administration (p. 599)

Minors for the Department

Advertising - Undergraduate Minor (p. 601)
Marketing - Undergraduate Minor (p. 601)
Professional Selling - Undergraduate Minor (p. 602)
Sports Marketing - Undergraduate Minor (p. 602)

Professor, David Daniel, Department Head

Professors Hyman, Jasso, Plouffe; Associate Professor Niculescu; Assistant Professors Gazzoli, You, Zhu; College Professors Gavin, Blaugrund; College Assistant Professor Holguin; Emeritus Professors Peterson, Sautter

Marketing Courses

MKTG 180. Level 1, PGA's PGM Education Program (Part 1)
3 Credits
Level 1 Part 1 of the PGA PGM Education Program. Introduction to the Policies and Procedures of the PGA Golf Mgt. Program and the PGA of America. Students will complete the PGA Qualifying Level Facility Management 1A (Tournament Ops A, Rules of Golf B, and Career Enhancement B), and the corresponding Work Experience Activities. Additional course fee required. Consent of Instructor required. Restricted to: MKTG majors.

MKTG 181. Level 1, PGA's PGM Education Program (Part 2)
3 Credits
Level 1 Part 2 of the PGA PGM Education Program. This class will focus on Teaching and Coaching 1, the corresponding PGA Work Experience Activities, and PGA Teaching Seminars. Additional course fee required. Consent of Instructor required. Restricted to: MKTG majors.

MKTG 203. Introduction to Marketing
3 Credits
Covers processes, functions and principles in the current marketing system. Includes role of marketing in the economy, types of markets, product development, distribution channels, pricing and promotion strategies, market research and management of the processes.

MKTG 280. Level 1, PGA's PGM Education Program (Part 3)
3 Credits
Level 1 Part 3 of the PGA PGM Education Program. This class will focus on Facility Management 1B (Business Planning A, Customer Relations A, Golf Car A, Merchandising A, Turfgrass A), Level 1 Checkpoint Exams, and the corresponding PGA Work Experience Activities. Students will also be required to provide an internship evaluation report. Additional course fee required. Consent of Instructor required. Restricted to: MKTG majors.

MKTG 281. Level 2, PGA's PGM Education Program (Part 1)
3 Credits
Level 2 Part 1 of the PGA PGM Education Program. This class will focus on Teaching and Coaching 2, Teaching and Coaching Seminars, and the corresponding PGA Work Experience Activities. Additional course fee required. Consent of Instructor required. Restricted to: MKTG majors.

MKTG 303. Principles of Marketing
3 Credits
Process, functions, and principles in the current marketing system.

MKTG 305. Marketing Food and Agricultural Products
3 Credits
Same as AG E 305. Crosslisted with: AG E 305.

MKTG 310. Marketing Research
3 Credits
Design, collection analysis, and presentation of research data.
Prerequisites: A ST/STAT 251G or consent of instructor.

MKTG 311V. Consumer Behavior
3 Credits
The different aspects of consumer behavior and the variables affecting consumer decisions. Analysis of current concepts and models.

MKTG 311VH. Consumer Behavior Honors
3 Credits
The different aspects of consumer behavior and the variables affecting consumer decisions. Analysis of current concepts and models. Same as MKTG 311V with differentiated assignments for honors students.
Prerequisite(s): 3.5 GPA or Higher.

MKTG 312. Personal Selling
3 Credits
Implementation of the promotion process through interpersonal communications between salesperson and prospects. Serving customers by sales representatives.

MKTG 313. Retail Management
3 Credits
Investigates retail business operations and focuses on the strategic profit model, store location, layout, display, merchandising, operations, and personnel.
MKTG 314. Advertising Strategy  
3 Credits  
Utilization of advertising as a business administration function; communication with consumers as a means of attaining marketing goals.

MKTG 317. International Marketing  
3 Credits  
Focuses on decisions relating to entering markets, market segmentation, marketing strategies, and tactics in the international arena. Same as I B 317.

MKTG 324. Product/Service Development  
3 Credits  
Covers product innovation, development, commercialization and resource recovery, price determination and administration strategies, and complementing planning processes.

MKTG 354. Sports Marketing  
3 Credits  
The application of marketing concepts to the sports industry. Topics include fans/customers, products, and promotions across a range of sports.

MKTG 357. Internet and Social Media Marketing  
3 Credits  
Focuses on the consumer psychology and marketing strategies at work in advertising and selling brands via the Internet and social media networks.

MKTG 380. Level 2, PGA’s PGM Education Program (Part 1)  
1.5 Credits  
Introduction to Level 2 of the PGA’s PGM Education Program. This class will focus on Merchandising and Inventory Management, Golf Operations and the corresponding PGA Work Experience Activities. Students will also be required to provide an internship evaluation report. Additional course fee required. Consent of Instructor required. Restricted to: MKTG/PGM majors.

MKTG 381. Level 2, PGA’s PGM Education Program (Part 2)  
1.5 Credits  
Completion of Level 2 of the PGA’s PGM Education Program. This class will focus on Turfgrass Management, Intermediate Teaching and Golf Club Alteration and corresponding PGA Work Experience Activities. Additional course fee required. Consent of Instructor required. Restricted to: MKTG/PGM majors.

MKTG 400. Marketing Internship/Field Experience  
3 Credits  
Internship of field experience in application of marketing principles. The student must accept an internship before being allowed to enroll in the course. Consent of instructor required. Restricted to MKTG majors.

MKTG 405. Negotiations in Marketing  
3 Credits  
Negotiations in Marketing is designed to introduce and explore the major concepts and theories surrounding bargaining and negotiation strategies in marketing. Additionally, the course gives practical hands-on experience in negotiating, through a range of applied negotiations exercises and activities.  
Prerequisite(s): MKTG 303.

MKTG 449. Promotion Management  
3 Credits  
Covers concepts and problems in the use of advertising, internet marketing, social media marketing, personal selling, publicity, and other forms of promotion; planning, coordination, control, and evaluation of effectiveness.

MKTG 451. Food and Agribusiness Market Assessment and Research  
3 Credits  

MKTG 453. Sales Management  
3 Credits  
The nature of the sales management function in industry. Focuses on intra and interdepartmental sales management activities.  
Prerequisite(s): MKTG 312.

MKTG 461. Seminar in Entrepreneurship  
3 Credits  
For students interested in owning and operating their own business; students desiring hands-on, real-time experience in helping start up a business. Crosslisted with: MGT 461.  
Prerequisite(s): Senior standing or consent of instructor.

MKTG 462. Advanced Sales  
3 Credits  
Advanced instruction and skill development in interpersonal communication skills to broaden understanding of the professional sales role (especially in team selling situation), career management, personal productivity, negotiation, and coordination with other functional areas. May be repeated up to 3 credits.  
Prerequisite(s): MKTG 312.

MKTG 480. Level 3, PGA’s PGM Education Program (Part 1)  
1.5 Credits  
Introduction to Level 3 of the PGA’s PGM Education Program. This class will focus on Human Resource Management/Supervising and Delegating, Food and Beverage and the corresponding PGA Work Experience Activities. Students will also be required to provide an internship evaluation report. Additional course fee required. Consent of Instructor required. Restricted to: MKTG/PGM majors.

MKTG 481. Level 2, PGA’s PGM Education Program (Part 2)/ Final Experience  
3 Credits  
Completion of Level 3 of the PGA’s PGM Education Program. This Class will focus on Advanced Teaching and Club fitting, Player Development/Teaching Business. The Final Experience and the corresponding PGA Work Experience Activities. Please note that the following are requirements for successful completion of this senior level PGA Golf Management capstone course: 16 months of internship, completion of the Qualifying Level, Level 1, Level 2, and Level 3 of the PGA’s PGM Education Program and successful completion of the PGA’s Playing Ability Test. Consent of Instructor required. Restricted to: MKTG/PGM majors.

MKTG 489. Strategy and Policy  
3 Credits  
Techniques and analysis of marketing strategy and policy planning and formulation.  
Prerequisites: senior standing or consent of instructor.

MKTG 490. Selected Topics  
1-18 Credits (1-18)  
Covers materials and subjects not offered in regular Marketing courses. Students can take 18 credit hours of MKTG 490 if each class is a different subtitle. A maximum of 18 credit hours can be earned through MKTG 490.
MKTG 498. Independent Study
1-3 Credits
Individual studies directed by consenting faculty with the prior approval of the department head. A maximum of 3 credits may be earned. 
Prerequisites: junior or above standing and consent of instructor.

MKTG 503. Marketing Management
3 Credits
Analysis of marketing problems and the integration of organizational resources as well as behavioral and quantitative techniques into the development and implementation of solutions. May be repeated up to 3 credits.

MKTG 591. Seminar in Entrepreneurship
3 Credits
For students interested in owning and operating their own business; students desiring hands-on, real-time experience in helping start up a business. Same as MKTG 461 with differentiated assignments for graduate students. Crosslisted with: MGT 591. 
Prerequisite(s): Graduate standing.

MKTG 601. Marketing Management
3 Credits
Covers the conceptual foundations of contemporary marketing management research, concepts, and literature. Fundamental to the understanding of contemporary marketing and the breadth of the field of marketing study.

MKTG 610. Marketing and the Scientific Method
3 Credits
Issues related to the evolution of research philosophies and methodologies. Critical to the development of appreciation for the value of research and experimentation.

MKTG 620. Research- Theory Interface
3 Credits
Theoretical and methodological issues involved in translating a theory into a research study. Prepares Ph.D. students to undertake dissertation research. Consent of instructor required.

MKTG 625. Consumer Behavior
3 Credits
Extensive reading of seminal and contemporary articles on consumer behavior and developing original research to explore cross-disciplinary issues relevant to the study of marketing.

MKTG 640. Measurement and Structural Equation Modeling
3 Credits
Explores theories of measurement that underlie all quantitative analysis, including the use of structural equation models. Contrasts classical test theory with item response theory and generalizability theory. Covers PRELIS and LISREL, and critiquing structural equation models by other researchers. May be repeated up to 3 credits. 
Prerequisite(s): A ST 505.

MKTG 670. Marketing Theory
3 Credits
The evolution, development, construction, and evaluation of the major theoretical perspectives of marketing. Fundamental to the understanding of contemporary marketing and preparation for investigations into the nature and role of theory in marketing.

MKTG 690. Special Topics in Marketing
3 Credits
A seminar on special topics in marketing. The topic of the course will vary according to the needs of the students in the program and the instructor. Ph.D. students may repeat this course up to three times for a maximum total of 9 credits.

MKTG 698. Selected Topics
1-9 Credits (1-9)
Materials and subjects not offered in regular marketing courses. May be repeated for a maximum of 18 credits under different subtitles.

MKTG 700. Doctoral Dissertation
15 Credits
Prerequisite: advancement to candidacy.

COLLEGE OF EDUCATION

Interim Dean - Susan Brown
Interim Associate Dean for Academic Affairs- Henrietta Pichon
Interim Associate Dean for Research - Michelle Salazar Pérez
Assistant Dean for Budget and Finance - Juanita Hannan
Assistant to the Dean - Gladys De Necochea

General Undergraduate Requirements

1. Entering freshman with an ACT score of 17 or lower will be invited to take a study skills class to ensure a successful college experience.
2. Complete at least 120 - 132 acceptable credits, including a minimum of 48 credits in courses numbered 300 or above with a cumulative GPA of 2.5 or above.
3. Satisfy the general education requirements. Detailed programs are available in the College of Education Undergraduate Resource Center and the Center for Academic Advising and Support Services (CAASS).
4. Students must complete all professional education courses and all courses in their teaching field or major with a grade of C- or better.
5. All students, including transfer students, must complete the last 30 semester credits required for the baccalaureate degree on the New Mexico State University campus. The four-year Servicemen's Opportunity College Program students are not exempt from this regulation.
6. All majors require a minimum 2.5 cumulative GPA to graduate, except Kinesiology, which requires a 2.75 cumulative GPA, Communication Disorders, which requires a 3.2 cumulative GPA, and the Teacher Education Program (TEP) which requires a 2.75 GPA.
7. Students in teacher preparation programs must be officially admitted to the Teacher Education Program. See requirements under Admission to the Teacher Education program and Competitive Admission Process.
8. In addition, if faculty at any time determine that a student is below expected program requirements in a particular skill, the College of Education may require remedial procedures.

General Education Requirements (non-teacher education programs)

1. Nine-ten credits in General Education Area I: Communication
2. Three credits in General Education Area II: Mathematics
3. Four credits in General Education Area III: Laboratory Science
4. Three credits from General Education Area IV: Social/Behavioral Sciences
5. Three-four credits from either General Education Area III: Laboratory Science or Area IV: Social/Behavioral Sciences
6. Three credits in General Education Area V: Humanities
7. Three credits in General Education Area VI: Creative and Fine Arts
8. Three-four additional credits from a General Education Elective (excluding Area I: Communications and cross-listed courses)

General Education Requirements (teacher education programs)

1. Nine-ten credits in General Education Area I: Communication
2. Six credits in General Education Area II: Mathematics
3. Eight credits in General Education Area III: Laboratory Science
4. Nine credits from General Education Area IV: Social/Behavioral Sciences
5. Nine credits from General Education Area V: Humanities and Area VI: Creative and Fine Arts

Transferring Undergraduate Courses

Certain College of Education courses have been identified as transferable from NMSU to other public two-year and four-year institutions in New Mexico. The equivalent course at other institutions can be identified using the common course number. Similarly, students from other institutions can use the common course number to identify education courses that can be transferred to NMSU.

Competitive Undergraduate Admission Process for Teacher Education Program

Applicants who successfully complete the minimum requirements for admission will be reviewed by the Teacher Education Program (TEP) admission committee. The admission committee will base acceptance decisions on the applicant's academic qualifications, written communication, faculty recommendations, dispositions and the student's portfolio.

Even though students declare their majors when they enter New Mexico State University, teacher candidates are not officially admitted to the Teacher Education Program until they formally apply and meet the following requirements:

1. A cumulative grade-point average of at least 2.75.
2. Must complete 55 credit hours.
3. Complete appropriate program prerequisites. See College of Education Undergraduate Resource Center for specific program prerequisites.
4. Demonstration of competence in reading, mathematics, and composition by passing the Pearson NES Essential Academic Skills tests.
5. Submit a portfolio for admission to the Teacher Education Program. Faculty will review portfolios. Admission to TEP is contingent on faculty approval. See the Office of Teacher Candidate Preparation for further clarification.

Applicants should be aware that admission to the Teacher Education Program is competitive and is based upon available faculty resources. Posted GPA and basic skills test scores are minimums which are necessary to be considered for admission by the Teacher Education Program committee and do not ensure admittance into programs. Applicants are encouraged to develop a strong student portfolio, achieve the highest GPA possible, and present the portfolio in a professional manner through an interview process.

Transfer students will have their transcripts evaluated by the University Student Records Office and must meet all basic skills requirements, as well as be admitted to the Teacher Education Program through the formal application procedures.

Students who are not admitted may not take designated professional education courses numbered above 299. Students with a bachelor's degree seeking teacher licensure must meet all admission criteria for the Teacher Education Program and be admitted to the Graduate School.
Students must be officially approved for student teaching during his/her senior year. Prior to student teaching, complete teaching field requirements, and pass the Pearson NES Assessments test.

Each student must possess the academic ability, character, and disposition suitable for teaching. A student who, in the professional judgment of the faculty and staff, does not possess these qualifications may be asked to leave the program. The program area committee may recommend any of a variety of actions, ranging from remedial procedures to withdrawal from the College.

Students with a bachelor’s degree seeking teacher licensure must meet all admission criteria for the Teacher Education Program and be admitted to the Graduate School.

Suggested Program of Study
Requirements for each teaching field/endorsement are available in the College of Education Undergraduate Resource Center and the Center for Academic Advising and Support Services (CAASS). It is imperative that students, especially those new to the campus, report frequently to CAASS to have their programs carefully and continually monitored in line with newly developing requirements.

All students are prepared to pursue a baccalaureate program leading to a Level I Teaching License. All students must work with an academic advisor to ensure a complete program of study for their specific degree.

Undergraduate Students with Degrees Seeking Certification Only
All students who already have a bachelor's degree and who are seeking licensure must be admitted through a graduate licensing program. Details are available in the College of Education Undergraduate Resource Center.

Time Limit on Undergraduate Teacher Education Courses
Any education course more than seven years old taken at NMSU or at another institution will not be counted toward the student’s undergraduate program. A student may meet with the appropriate department to have the courses time limit reviewed. The department head and/or faculty may recommend accepting a course that is seven years old with approval from the Dean’s office. Any course not approved must be repeated by the student.

Withdrawing Undergraduate Teacher Education Students
The College of Education reserves the right to withdraw students who are registered in 300-level or above teacher education courses who are not admitted to the Teacher Education Program.

Undergraduate Admission to Student Teaching
To be admitted to student teaching a student must:

1. Students must be officially approved for student teaching during his/her senior year.
2. Submit complete formal application to the College of Education Undergraduate Resource Center by March 9 for spring and by October 9 for fall a year prior to student teaching.
3. Maintain a cumulative grade-point average of at least 2.75 prior to beginning student teaching.
4. Complete the teaching field requirements and pass the Subject Area Assessment tests of the Pearson NES or New Mexico Teacher Assessment Content test.
5. Complete all requirements to student teaching (details available from the College of Education Undergraduate Resource Center).
6. Students must complete all professional education courses and all courses in the student's teaching field with a grade of C- or better.
7. Admission to Student Teaching is contingent upon faculty approval.

Students who do not meet all College of Education requirements for admission to student teaching will not be allowed to begin their student teaching until those requirements are met.

Student teachers can only be placed within an 80-mile radius of the campus within the state of New Mexico.

Undergraduate Student Teaching Expectations
During the senior year, students must keep their last semester free from other responsibilities so that they can fully devote their time to their student teaching responsibilities. Students are expected to follow the public school calendar rather than the university calendar. Student teachers should expect to meet all requirements of the school and school district in which they are working.

Undergraduate Licensure Requirements
In the event that state teacher licensure requirements change, students preparing for licensure to teach should keep abreast of the licensure requirements of the New Mexico Public Education Department. Copies of the rules and regulations governing licensure are available for students in the Office of Teacher Candidate Preparation. College of Education requirements meet or exceed the state licensure requirements. Whenever state licensure requirements are less than College of Education requirements, students must meet the College of Education requirements to receive a degree from or be recommended for licensure by NMSU. The College of Education reserves the right to change its requirements at any time in order to comply with changes in the regulations governing licensure.

Applying for teacher licensure is the responsibility of the student. The New Mexico Public Education Department grants licensure.

The State of New Mexico requires that all candidates for licensure take and pass the state license examination(s) as required by program area. The tests are administered throughout the year and information is available through NES website (http://nestest.com).

Graduate Work
The College of Education offers curricula leading to the degrees of

- Master of Arts,
- Master of Arts in Teaching,
- Specialist in Education,
- Doctor of Education and
- Doctor of Philosophy in Education.

Those interested in pursuing graduate degrees in education should consult the Graduate Catalog for full information. A copy may be
procured by writing the dean of the Graduate School or visiting http://gradschool.nmsu.edu.

**Bachelor Degrees**

**Bachelor of Applied Studies**

Majors in:
- Zero to Four Non-Licensure Track in Early Childhood (p. 690)

**Bachelor of Arts in Dance**

Major in:
- Dance (p. 643)
  - Contemporary Dance
  - DanceSport
  - Spanish Dance

**Bachelor of Science**

Major in:
- Educational Leadership (p. 672)
- Bachelor of Science in Athletic Training (p. 641)
- Bachelor of Science in Counseling and Community Psychology
- Bachelor of Science in Education

Majors in:
- Communication Disorders (p. 625)
- Early Childhood Education (p. 671)
- Elementary Education plus Bilingual and/or TESOL Endorsement
  - Language Arts K-8 (p. 674)
  - Math K-8 (p. 675)
  - Science K-8 (p. 676)
  - Social Studies K-8 (p. 677)
- Secondary Education (with concentrations (also know as teaching fields) in):
  - Secondary Education Language Arts (p. 678)
  - Secondary Education Math (p. 680)
  - Secondary Education General Science (p. 681)
  - Secondary Education Social Studies (p. 682)
- Special Education
  - Special Education (Elementary Education) (p. 684)
  - Special Education (Secondary Education) (p. 685)

**Bachelor of Science in Kinesiology**

Major in:
- Kinesiology (p. 646)
  - Exercise Science
  - K-12 Physical Education
  - Performance Psychology

**Masters Degrees**

**Master of Arts**

Majors in:
- Clinical Mental Health Counseling (p. 617)
- Communication Disorders (p. 626)
- Education
  - Bilingual Education (p. 692)
  - Curriculum & Instruction (p. 693)
  - Early Childhood Education (p. 697)
  - Educational Learning Technologies (p. 697)
  - Language, Literacy & Culture (p. 697)
  - Teaching English Speakers of Other Languages (p. 698)
- Educational Administration
  - Higher Education Administration (p. 699)
  - Pk-12 Administration (p. 700)
- Special Education (p. 701)

**Master of Arts in Teaching**

Majors in:
- Dance (p. 698)
- Spanish (p. 699)

**Master of Science**

Major in:
- Clinical Psychopharmacology (p. 617)

**Specialist in Education:**
- School Psychology (p. 618)

**Doctoral Degrees**

**Doctor of Education**

Major in:
- Educational Administration
  - Higher Education Administration (p. 703) (Concentration) (p. 706)
  - Pk-12 Administration (p. 704) (Concentration) (p. 706)

**Doctor of Philosophy**

Major in:
- Counseling Psychology (p. 617)
- Curriculum and Instruction (p. 706)
  - Bilingual/ESOL (Specialization)
  - Critical Pedagogies (Specialization)
  - Early Childhood Education (Specialization)
  - Language, Literacy & Culture (Specialization)
  - Educational Learning Technologies (Specialization)
  - Special Education (Specialization)
- Educational Administration
  - Higher Education Administration (Concentration) (p. 706)
  - Pk-12 Administration (p. 708) (Concentration) (p. 706)
Graduate Certificate

- Online Teaching & Learning Technologies (p. 710)

Undergraduate Minors

- Counseling and Educational Psychology (p. 616)
- Dance (p. 649)
- Early Childhood Education (p. 692)
- Educational Leadership and Administration (p. 692)
- Exercise Science (p. 650)

Graduate Minors

- Higher Education Administration - Graduate Master’s Minor (p. 709)
- Integrated Behavioral Health Care (p. 619)
- Pk-12 School Administration - Graduate Master’s Minor (p. 710)
- Pk-12 and Higher Education - Graduate Doctorate Minor (p. 710)
- Spanish Counseling (p. 620)
- Special Education (p. 710)

Accreditation

The College of Education provides undergraduate students with a broad general education and professional teacher preparation. The university’s teacher preparation program, which involves several colleges and which is directed by the College of Education, was re-accredited in 2018 by the Council for the Accreditation of Education Preparation Programs (CAEP). Also in the College of Education the Communication Disorders master's program in Speech-Language Pathology is accredited by the American Speech-Language-Hearing Association (CAA - ASHA), and the undergraduate Athletic Training Degree in Kinesiology and Dance is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). The undergraduate and graduate programs that prepare individuals for licensure to work in public and private schools in New Mexico have been approved by the New Mexico State Public Education Department.

Other programs with national recognition include the Master of Arts (MA) in Clinical Mental Health Counseling, accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP); the Specialist in Education (Ed. S.) in school psychology, accredited by the National Association of School Psychologists (NASP) and the doctoral (Ph. D.) program in counseling psychology accredited by the American Psychological Association (APA). The post-doctoral program in Clinical Psychopharmacology holds APA designation.

Counseling and Educational Psychology

Undergraduate Program Information

The BS in Counseling and Community Psychology (CCP) prepares students to work at the bachelors level with a focus on case management, interpersonal skills, understanding human behavior, multicultural awareness, awareness of mental health issues and licensure as a substance abuse counselor. The Counseling and Community Psychology undergraduate major prepares students for graduate school in order to become practitioners in the field of psychology with an additional focus on research and graduate psychology practice opportunities.

Graduate Program Information

The major thrust of the Counseling and Educational Psychology (CEP) Department is the preparation of personnel for work in counseling, educational diagnostics, school psychology, counseling psychology and related areas. Four graduate degrees are available:

1. Masters of Arts
2. Specialist in Education
3. Doctor of Philosophy
4. Postdoctoral Masters of Science

Departmental Admission Requirements

Admission requirements and procedures are specific to each degree program in the Department of Counseling and Educational Psychology. Applicants must meet the basic admission requirements of the Graduate School before they are considered for admission to CEP graduate programs. To be considered for admission to CEP Graduate Programs, application requirements include, but are not limited to the following:

1. Graduate Record Examination (GRE) scores from within the last 5 years
2. Completion and submission of NMSU on-line graduate application form and fee
3. Receipt of official undergraduate and graduate transcripts of all colleges and universities previously attended by the NMSU Admissions Office
4. Letters of recommendation from three persons familiar with the applicant’s academic and/or professional record
5. Curriculum vitae or resume which includes a list of completed upper-division and/or graduate coursework related to counseling, school psychology, counseling psychology or related professions.
6. Letter of intent and/or statement of purpose
7. Interviews are required as a part of the selection process

For more information about the CEP Department, program admission procedures and requirements of degree programs, contact the department office or visit the departmental website.

CEP Departmental Policy on Enrollment Restrictions for Graduate Courses

Restricted Enrollment:

Due to student demand, limited university resources and the nature of graduate training programs which lead to licensure in the helping professions, enrollment in CEP graduate level courses is restricted to those graduate students who have been admitted to both the Graduate School, as well as to the particular academic program. These programs include:

- Masters in Clinical Mental Health Counseling
- Specialist in Education in School Psychology
- Doctorate in Counseling Psychology
- Postdoctoral Masters in Clinical Psychopharmacology

This restriction also applies to persons who may wish to audit a course. It is anticipated that certain situations may warrant an exception from the general rule limiting enrollment. The process to obtain an exception is provided in the following section.
Exception Criteria and Process:
Exceptions to this policy may be granted by the department head, provided a screening process similar and equally rigorous to that required for admission to the program is performed. An exception must be requested prior to enrollment and shall include:

1. Consideration and validation of the reason provided by the individual requesting to enroll, which must include academic and professional qualifications relevant to the professional level of study. For example, active licensure as a psychologist is required to audit or register for courses in the postdoctoral program in Psychopharmacology.
2. Agreement from the individual that they will comply with all program requirements imposed for those who are admitted to the program, such as a background check.
3. Examples of justifications that will be considered sufficient to warrant an exception and permit students to register for graduate courses in CEP include:
   a. Previous admission by NMSU for purposes of a graduate minor in the helping professions. For example, the Minor in Integrated Behavioral Healthcare, which is also open to graduate students previously admitted to Social Work, Public Health, Nursing, and Marriage and Family Therapy programs.
   b. Licensed graduates of the Postdoctoral MS of Clinical Psychopharmacology program who need continuing education credits to maintain competency.
4. Written, including electronic, approval from the:
   a. Course Instructor,
   b. Program Director, and
   c. CEP Department Head.

Degrees for the Department
Counseling and Community Psychology - Bachelor of Science (p. 615)
Clinical Mental Health Counseling - Master of Arts (p. 617)
Clinical Psychopharmacology - Master of Science (Post Doctoral) (p. 617)
School Psychology - Specialist in Education (p. 618)
Counseling Psychology - Doctor of Philosophy (p. 617)
School Psychology - Doctor of Philosophy (p. 617)

Minors for the Department
Counseling and Educational Psychology - Undergraduate Minor (p. 616)
Integrated Behavioral Health Care - Graduate Minor (p. 619)
Spanish Counseling - Graduate Minor (p. 620)

Regents Professor, Eve Adams, Interim Co-Department Head

Associate Professor, Mary Prentice, Interim Co-Department Head

Regents Professor: E. Adams, L. Vázquez; Professors: B. Gormley, C. McDougall, E. Vázquez; Associate Professors: E. Arroyos; Assistant Professors: M. Backlund, N. Choi, I. Torres-Fernandez; T. Hitter, M. Kalkbrenner, A. Lopez, A. Pérez-Rojas,

E. Adams, Ph.D. (Ohio State University)-multiculturalism & diversity, mindfulness, supervision; E. Arroyos, Ph.D. (University of Iowa)- school psychology, traumatic brain injury, mentoring, multicultural competence; M. Backlund, Ph.D. (University of Montana)-counselor education and training, resistance in supervision and families; N. Choi, Ph.D. (University of Maryland)-racial and cultural factors affecting mental health, Asian and Asian American health and mental health, multicultural issues in supervision and training; I. Torres-Fernandez, Ph.D. (University of Iowa)– school psychology, prevention, classroom guidance; B. Gormley, Ph.D. (Michigan State University)- race & gender, power dynamics, psychotherapy, mentoring, adult attachments; T. Hitter, Ph.D. (New Mexico State University)–counseling psychology, identity and self-concept, sexuality and sexual satisfaction; M. Kalkbrenner, Ph.D. (Old Dominion University)- college student mental health, reducing barriers to help seeking behaviors among mental health professionals, and experiential learning; A. Lopez, Ph.D. (University of Texas-San Antonio)-multicultural counseling, social justice, immigration, bilingual counseling/supervision, eating disorders and body image; C. L. McDougall, Ph.D. (University of North Dakota)–clinical psychopharmacology, cross-cultural psychology; A. Pérez-Rojas, Ph.D. (University of Maryland)- psychotherapy process and outcome with emphasis on the therapeutic relationship, college student mental health, bilingualism, acculturation, Latino/a mental health, and role of culture in psychotherapy; E. Vázquez, Ph.D. (University of Iowa)– school psychology, assessment, psychoeducational interventions, acculturation, ethnic and linguistic diversity; L. Vázquez, Ph.D. (University of Iowa)– counseling psychology, multicultural curriculum development and counseling, bilingual therapy, acculturation, identity development, and phenotype research.

Counseling and Educational Psychology Courses

C EP 110G. Human Growth and Behavior
3 Credits
Introduction to the principles of human growth and development throughout the life span.

C EP 199. Academic Excellence
1 Credit
Academic curriculum of excellence that includes the development of collaborative learning and student success environment, learning diverse learning styles and multiple intelligences, and developing multi-contextual academic communication styles. Students must enroll in course for both Fall and Spring semesters. Course does not count toward CEP minor. May be repeated up to 2 credits.

C EP 210. Educational Psychology
3 Credits
Psychological foundations as they apply to the learner in the class room setting.

C EP 215. The Preschool Child
3 Credits
Survey of psychological development from conception to age five.

C EP 240. Adolescence in School Settings
3 Credits
Survey of psychological development during the adolescent years.

C EP 298. Exploration of Counseling & Community Psychology
3 Credits
An exploration of careers, activities, & techniques in counseling, school, and community psychology. Course does not count towards CEP minor. May be repeated up to 6 credits.
C EP 298 H. Exploration of CCP
3 Credits
An exploration of careers, activities, & techniques in counseling, school, and community psychology. Taught with 298 with differentiated instruction and/or independent project to be determined. Restricted to Las Cruces campus only.

C EP 299. Academic Excellence Classes
1-6 Credits (1-6)
Academic curriculum of excellence that includes an in-depth understanding of the elements that promote student academic success. Students will develop leadership and presentation skills needed to forge effective student mentor relationships and conduct outreach to campus and local community leaders to cultivate a collaborative learning environment. May be repeated up to 6 credits.

C EP 300V. Human Relations Training
3 Credits
Gain skills, knowledge, and sensitivity for living and working with others.

C EP 320. Sex Roles in Education
3 Credits
Physiological, psychological, and political aspects of sex role socialization and the effects of these factors on personal development.

C EP 420. Introduction of Mindfulness Practice
3 Credits
Students will learn about contemplative practices through learning and participation in various mindfulness practices. Engages students in a practice or experience that leads to reflection and, thus, acquired knowledge about themselves, others, and group functioning.

C EP 451V. Introduction to Counseling
3 Credits
Principles of counseling for nonmajors.

C EP 455. Addictions Prevention and Recovery
3 Credits
Understanding addictions process, prevention, and recovery, including biological, interpersonal and sociological influences, and intervention strategies. Taught with C EP 555.

C EP 461. Family Guidance
3 Credits

Prerequisite(s): C EP 110G.

C EP 495. Psychology, Multiculturalism and Counseling
3 Credits
Understanding social identities such as race, ethnicity, sexual orientation, age, social class and spirituality as it relates to psychosocial development, academic achievement and counseling.

C EP 495 H. Psych., Multiculturalism & Counseling
3 Credits
Understanding social identities such as race, ethnicity, sexual orientation, age, social class and spirituality as it relates to psycho-social development, academic achievement and counseling. Taught with CEP 495. Differentiated instruction/independent project to be determined.

C EP 498. Internship in Counseling & Community Psychology
1-6 Credits (1-6)
Students will explore in more depth the fields of counseling, community, and school psychology professions by completing an internship. Through the completion of the internship students will gain hands on work experience, enhance sensitivity for respect with working with diverse populations, and hone their interpersonal skills needed to succeed in the counseling, community, and school psychology professions. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: CCP majors.

C EP 499. Independent Study
1-6 Credits
Individual study directed by consenting faculty.

C EP 503. Introduction to Counseling
3 Credits
Overview of counseling theory, techniques, ethics, and professional issues. Same as C EP 451V. This course is open to all majors. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: C G, CMHC, CEP, SPSY majors.

C EP 505. Appraisal of Psychoeducational Achievement in a Diverse Society
3 Credits
Advanced theory and use of norm and criterion referenced instruments in the classroom: planning of prescriptive and educational programs. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: C G, CMHC, CEP, SPSY majors.

C EP 511. Introduction to Inferential Statistics
3 Credits
An introduction to the theories and techniques of inferential statistics as applied to education and psychology. Includes sampling distributions, confidence intervals, t-test, correlation, and chi-square. Intended primarily for post-baccalaureate students. Both hand calculation and computer packages will be employed. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: C G, CMHC, SPSY, CEP, NURS, FCS majors.

C EP 512. Human Development
3 Credits
Theory and research regarding cognitive, social, and emotional development across the lifespan with emphasis on enhancing human development. Non majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CMHC, C G, CEP, SPSY majors.

C EP 515. Learning Theory
3 Credits
Survey and comparison of theory and research regarding human learning as they apply to development, education, and counseling. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Crosslisted with: C EP 615. Restricted to: C G, CMHC, CEP, SPSY majors.

Prerequisite(s): C EP 512 or consent of instructor.
C EP 517. Multicultural Counseling
3 Credits
Understanding age, gender, ethnicity, socioeconomic status and culture in relation to human development, education, and counseling. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: SPSY,CMHC,CEP majors.

C EP 519. Psychology of Social Identities
3 Credits
Theory, research and practice from feminist and multicultural perspectives will examine the integration of social identities such as gender, sexual orientation, race, ethnicity, age, social class, spirituality, and ability in relation to counseling psychology. Same as C EP 619. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: C G,CMHC,CEP,SPSY majors.

Prerequisite(s): C EP 512 or concurrent enrollment or consent of instructor.

C EP 520. The Art & Science of Mindfulness
1-3 Credits (1-3)
In this course students will learn about contemplative practices by learning about and participating in various mindfulness practices for self-care and to increase well-being. Students will learn about psychological theories and research that support the use of mindfulness in helping others increase their well-being. Students will learn how to teach mindfulness to others. Taught with CEP 490. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: C G,CEP,CMHC,SPSY,MSW,MPH,FCS majors.

C EP 522. Organization and Administration of School Counseling Services
3 Credits
Procedures for establishing and maintaining counseling programs in the schools. Professional and ethical issues in school counseling and group laboratory experience to enhance self-awareness and interpersonal skills for effective professional relationships. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: C G,CEP,CMHC,SPSY majors.

C EP 524. Professional Issues in Mental Health Counseling
3 Credits
History, roles, organizational structures, settings, ethics, standards, laws, and credentialing related to mental health counseling. Group laboratory experience to enhance self-awareness and interpersonal skills for effective professional relationships. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: C G,CEP,CMHC,SPSY majors.

C EP 529. Indigenous Counseling Theory and Practice
3 Credits
Students will explore current uses of indigenous modes and methods of counseling and therapy that are theoretically consonant with Indigenous/Native traditions. They will examine the integration of such modes to ensure a progressive reconstruction of the counseling endeavor to include an indigenous epistemology in their work with clients. Taught with CEP 429. This course is open to all majors. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: C G,CMHC,CEP,SPSY majors.

C EP 532. Research Methods
3 Credits
Develop research and program evaluation including critical literature review, generating questions, quantitative and qualitative methodology, analysis, and writing proposals. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: C G,CMHC,CEP,SPSY majors.

C EP 540. History and Systems of Psychology
3 Credits
History and systems of psychology related to contemporary applied psychology. This course will focus largely on the history of modern psychology and on the major systems (or schools) of psychology. Restricted to: SPSY, CEP, C G majors.

C EP 542. Appraisal Theory and Technique
3 Credits
Selection, administration, and interpretation of tests and other assessment methods. Topics include reliability, validity, norms, cultural factors, and ethics related to appraisal. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CMHC,CEP,SPSY majors.

Prerequisite(s): C EP 512 and C EP 517, or consent of instructor.

C EP 547. Appraisal of Cognitive Functioning
3 Credits
Selection, administration, scoring, interpretation, and report writing using individual tests of intelligence. Moderator variables, such as acculturation, ethnic identity development, and world view are also incorporated. Taught with CEP 647. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CEP,CMHC,CEP,G majors.

Prerequisite(s): C EP 542 or consent of instructor.

C EP 549. Indigenous Research Methods
3 Credits
Students will gain an understanding of ethical and respectful research practices from an Indigenous/culturally appropriate vantage. They will thoroughly examine the works of Native/Tribal and Indigenous scholarship. Additionally, safeguards for ethical research practices with native populations will be thoroughly examined with regard to intent, practice, and integration of outcome. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: C G,CMHC,CEP,SPSY majors.
3 Credits
Major theories of counseling with an emphasis on development of the ability to offer theory-based counseling and consultation. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: SPSY,CEP,CMHC,CG majors.

C EP 551. Diagnosis and Treatment Planning
3 Credits
Appraisal and conceptualization of mental disorders and other problems through diagnostic interviewing using the DSM. Treatment planning for counseling with children, adolescents, and adults. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: SPSY,CEP,CMHC,CG majors.

Prerequisite(s): C EP 512 or concurrent enrollment or consent of instructor.

C EP 552. Career/Life Planning and Vocational Assessment
3 Credits
Vocational choice theories, relationship between career choice and life style, sources of occupational and educational information, and approaches to decision making and values clarification. Laboratory involves supervised interpretation of vocational assessment. This course is open to all majors. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: CG,CMHC,CEPSPSY majors.

Prerequisite(s): Consent of instructor.

3 Credits
Major theories of counseling with an emphasis on development of the ability to offer theory-based counseling and consultation. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: SPSY,CMHC,CG,CEP majors.

C EP 556. Addictions Counseling
3 Credits
Emphasis on alcohol and other psychoactive substance abuse. Also includes eating disorders, gambling, and other addictive behaviors. Covers review of psychopharmacology, assessment, and diagnosis with the major focus on treatment and professional issues. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: SPSY,CEP,CMHC,CG majors.

Prerequisite(s): C EP 550.

C EP 558. Child and Adolescent Counseling Theory and Technique
3 Credits
Counseling theory and technique applied to children and adolescents from a developmental perspective in school and mental health settings. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CMHC,CEPSPSY,CG majors.

Prerequisite(s): C EP 550 or consent of instructor.

C EP 559. Healing Trauma, Including Historical and Intergenerational
3 Credits
Students will learn about Trauma to gain a deeper understanding of the socio-political implications of colonization on Native people groups. They will learn about incidents of physical and mental health disparities. Students will thoroughly examine the impact of the current mental health field on Native/Indigenous populations and engage the literature from Native Scholars to problem solve and create new ways to address the challenges that Native people and their communities face as members of mainstream Western society. This course is open to all majors. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CG,CMHC,CEPSPSY majors.

C EP 560. Counseling and Educational Psychology
3 Credits
Didactic and experiential learning in primary care psychology issues. Through this course students will learn about the cultural necessity of the integration of mental and physical health issues and multidisciplinary collaboration. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CG,CMHC,CEPSPSY majors.

C EP 562. Family Therapy Theory and Technique
3 Credits
Major theories of family therapy and associated assessment, intervention and evaluation techniques. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: SPSY,CEP,CMHC,CG majors.

C EP 563. Primary Care Psychology
3 Credits
Didactic and experiential learning in primary care psychology issues. Through this course students will learn about the cultural necessity of the integration of mental and physical health issues and multidisciplinary collaboration. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CG,CMHC,CEPSPSY,MSW,CEPMPH majors.

C EP 566. Group Work Theory and Technique
3 Credits
Didactic and experiential learning in group theory and practice. Laboratory involves experiences in group participation and leadership. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CMHC,CEPSPSY,CG majors.

Prerequisite(s): C EP 550 or C EP 562 or consent of instructor.
C EP 569. Indigenous Counseling Internship
1-6 Credits (1-6)
The primary purpose for this course is to provide students with the opportunity to study and practice under a well-known and recognized indigenous healing practitioner with the primary goal of affirming and activating the holistic paradigm of Indigenous knowledge into their work as practitioners in the helping professions to reveal the wealth and richness of Indigenous languages, worldviews, teachings and experiences. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 6 credits. Restricted to: CG,CMHC,SPSY,CEP majors.

Prerequisite(s): C EP 550 or consent of instructor.

C EP 572. Counseling Practicum
1-6 Credits
Supervised experience of counseling and consultation. Weekly individual and group supervision involves review of audio, video, and/or live sessions and case presentations. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 6 credits. Crosslisted with: C EP 662. Restricted to: CMHC,CEP,SPSY,G majors.

C EP 578. Advanced Counseling Practicum
3-6 Credits
Supervised experience of appraisal and individual, family, and/or group counseling and consultation serving child, adolescent, and/or adult clients. Weekly individual and group supervision involves review of counseling sessions and case presentations. This course will carry a subtitle to reflect the practicum setting. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 6 credits. Restricted to: CMHC,CEP,SPSY,G majors.

Prerequisite(s): C EP 572, C EP 566, or consent of instructor.

C EP 579. Clinical Psychopharmacology
3 Credits
Basic biological aspects of psychopharmacology with applications to clinical populations and treatment implications. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: SPSY,CMHC,CEP majors. Thesis/Dissertation Grading.

Prerequisite(s): Consent of instructor.

C EP 580. Counseling Internship
3-12 Credits
Supervised experience in a professional counselor role in a school or agency. Students perform all counselor functions including appraisal, individual/family/group counseling, consultation, administration, program development, research, and/or evaluation. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 12 credits. Restricted to: CG,CEP,CMHC,SPSY majors.

Prerequisite(s): C EP 578.

C EP 598. Special Research Programs
1-6 Credits
Individual investigations either analytical or experimental. Maximum of 6 credits per semester and total of 9 credits overall. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 9 credits. Restricted to: CG,SPSY,CMHC,CEP majors.

C EP 599. Master's Thesis
15 Credits
Thesis. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 88 credits. Restricted to: SPSY,CMHC,CG,CEP majors. Thesis/Dissertation Grading.

C EP 607. Curriculum-Based Assessment and Intervention
3 Credits
The study and practice of curriculum-based assessment and intervention for academic skills and problems among children and adolescents. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: SPSY,CEP majors.

C EP 608. Diagnostic Class
3 Credits
Emphasis on developing the knowledge, skills, and necessary application abilities related to diagnosis and associated interventions related to mental health and psychopathology issues that impact a student's ability to navigate the education setting. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CEP,SPSY majors.

C EP 612. Human Development
3 Credits
Same as C EP 512 with differentiated assignments for Ed.S and Ph.D. students. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: SPSY,CEP majors.

C EP 615. Cognitive and Affective Bases Behavior
3 Credits
This course provides an overview of cognitive and affective bases of behavior as well as the integration of cognition and affect in psychological processes. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. Crosslisted with: C EP 515. Restricted to: CG,CMHC,SPSY,CEP majors.

Prerequisite(s): C EP 512.
C EP 616. Spanish for Mental Health Professionals  
3 Credits  
This course emphasizes the vocabulary for Mental Health Professionals to include academic, psychological and medical terminology. Students will incorporate Spanish terms in assessment and treatment plans through role plays. Further, the course will include an overview of the use of interpreters and translators in working with culturally and linguistically diverse clientele. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: SPSY, C EP, CEP majors.  
Prerequisite(s): Enrolled in Bilingual School Psychology Training Grant with instructor consent.

C EP 617. Psychology of Multiculturalism  
3 Credits  
In this advanced course for post-master’s graduate students in applied fields of psychology, students will apply psychological concepts related to multiculturalism as well as critical race theories, feminist theories, queer theories, and liberation theories to understand intersecting social identities. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. Restricted to: SPSY, C EP, CEP majors.

C EP 618. Psychology of Poverty  
3 Credits  
This course is designed to examine the nature, extent and impact of poverty on Southwestern populations and across the United States in relation to assessment and interventions and its impact on the education and psychological well-being of children and families. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. Restricted to: SPSY, C EP, CEP majors.

C EP 619. Psychology of Social Identities  
3 Credits  
Same as C EP 519 with differentiated assignments for Ph.D. students. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: SPSY, CEP majors.

C EP 622. Ethical/Professional Issues in Counseling Psychology  
3 Credits  
History of counseling psychology, scientist-practitioner model, American Psychological Associations Ethical Principles of Psychologists and Code of Conduct. Focus on current ethical, professional, and scientific issues. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: CEP majors.  
Prerequisite(s): Consent of instructor.

3 Credits  
This course provides an introduction and overview of the profession of school psychology with emphasis on the roles, functions, and competencies of the school psychologist within the context of legal and ethical practice. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. Restricted to: SPSY majors.
C EP 637. Multivariate Statistics  
3 Credits  
Theories and techniques of multivariate statistics as applied to education and psychology. Includes multiple regression, logistic regression, MANOVA, factor analysis, and structural equation modeling. Computer packages will be the primary tool for data analysis. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: SPSY, CEP majors.  
Prerequisite(s): C EP 636 or equivalent course work.

C EP 642. Psychometrics  
3 Credits  
An introduction to psychometrics, including topics such as theory and techniques of psychological measurement, scale and inventory construction, reliability, validity, evaluation of measurement quality, classical and contemporary measurement theory, and standardization. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. Consent of Instructor required. Restricted to: SPSY, CEP majors.

C EP 647. Appraisal of Cognitive Functioning  
3 Credits  
Taught with C EP 547 with differentiated assignments for doctoral students. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CEP majors.

C EP 648. Appraisal of Personality  
3 Credits  
Selection, administration, scoring, interpretation, and report writing using major objective and projective tests of personality. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CEPSPSY majors.

C EP 649. Behavioral Assessment & Intervention  
3 Credits  
The course introduces basic concepts, methods, and applications of behavioral assessment and intervention. Students will learn how to conduct functional assessments of behavior and how to write behavior intervention plans. Methods appropriate for assessment and intervention of school-age children will be emphasized. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CEPSPSY majors.

C EP 651. Diagnosis and Treatment Planning  
3 Credits  
Same as C EP 551 with differentiated assignments for Ph.D. students. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CEPSPSY, C EP majors.

C EP 652. Career/Life Planning and Vocational Assessment  
3 Credits  
Same as C EP 552 with differentiated assignments for Ed.S and Ph.D. students. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: SPSY, CEP majors.

3 Credits  
Same as C EP 558 with differentiated assignments for Ph.D. students. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: SPSY, CEP majors.  
Prerequisite(s): C EP 554 or C EP 673.

C EP 662. Family Therapy Theory and Technique  
3 Credits  
Taught with C EP 562 with differentiated assignments for Ed.S and Ph.D students. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Crosslisted with: C EP 572. Restricted to: CEPSPSYC EP majors.

C EP 670. Behavioral Health Practicum  
1-6 Credits  
An intensive supervised experience in providing behavioral health services at an on or off campus interdisciplinary health setting. Supervision provided by doctoral level psychologist faculty in collaboration with other team disciplines’ supervising faculty involves audio, video, and/or live observation of counseling sessions and team interventions and case presentations. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 6 credits. Restricted to: MSW, CEPSPSY majors. S/U Grading (S/U, Audit).

C EP 671. Consultation  
3 Credits  
Didactic and experimental trainings in theory-based consultation. Supervision provided by faculty involves audio, video, and/or live observation consultation activities and case presentations. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CEPSPSY majors.  
Prerequisite(s): C EP 647, C EP 505, or consent of instructor.

C EP 672. Practicum in School Psychology: Psychoeducational  
1-6 Credits  
Supervised practicum in psychological and educational evaluation. Skill development in ecological assessment, including interviewing, observations micro-counseling, acculturation, world view, and ethnic identity formation. Graded: S/U. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 6 credits. Restricted to: CEPSPSY, C EP majors. S/U Grading (S/U, Audit).
C EP 673. Counseling Psychology Theory/Practicum
1-6 Credits
Theories of counseling and psychotherapy and their application during supervised counseling with clients. Supervision provided by doctoral psychologist faculty involves audio, video, and/or live observation of counseling sessions and case presentations. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 6 credits. Restricted to: CEP majors.
Prerequisite(s): Consent of instructor.

C EP 675. Practicum in School Psychology: Psychological
1-6 Credits
School-based supervised experience for the advanced student. Provides experiences in various roles and models of service delivery (group, multifaceted, integrative, family assessments) expected of school psychologists. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 6 credits. Restricted to: CEP majors.
Prerequisite(s): C EP 672 or consent of instructor.

C EP 676. Field Experience in Educational Diagnostics
1-6 Credits (1-6)
C EP 676 is designed to provide students with supervised school-based experiences and practices. The goal of the course is for students to master the competencies required for the delivery of academic services in the educational diagnostician role. The specific emphases in this course are placed on a data-based decision-making and psychoeducational assessment activities, and academic interventions. Under faculty and school-system staff supervisions, students will assume service delivery responsibilities and with increasing independence will respond to the diagnostic and intervention needs of students. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 6 credits. Restricted to: CEP, SPSY majors. S/U Grading (S/U, Audit).

C EP 677. Group Work Theory/Practicum
1-6 Credits
Application of theory in group work with clients and in supervising group leaders in training. Supervision provided by doctoral psychologist faculty involves audio, video, and/or live observation of counseling sessions and case presentations. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: CERSPSY majors.
Prerequisite(s): C EP 673.

C EP 678. Advanced Counseling Psychology Practicum
1-6 Credits
Supervised counseling psychology experience including appraisal, diagnosis, case conceptualization, treatment planning, theory-based counseling and evaluation. Supervision provided by doctoral psychologist faculty involves audio, video, and/or live observation of counseling sessions and case presentations. Graded: S/U. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 12 credits. Restricted to: CEP majors. S/U Grading (S/U, Audit).
Prerequisite(s): C EP 677.

C EP 679. Supervision Theory and Practicum
1-6 Credits
Didactic and experimental training in theory-based supervision. Supervision provided by doctoral psychologist faculty involves audio, video, and/or live observation of supervision sessions and case presentations. May be repeated for a maximum of 6 credits. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 6 credits. Restricted to: CEP majors.
Prerequisite(s): C EP 675 or C EP 678; and consent of instructor.

C EP 680. Internship in Counseling Psychology I
1-18 Credits
Full-time equivalent of one-half calendar year of internship preferably in an APA-approved or APA-equivalent site. Available to Ph.D. students who have successfully completed their comprehensive exams. May be repeated for a maximum of 18 credits. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 18 credits. Restricted to: CEP majors.

C EP 681. Advanced Multicultural School Psychology Field Experience
3 Credits
Supervised school psychology field experience including appraisal diagnosis, case conceptualization, treatment planning, theory-based counseling and evaluation from a multicultural perspective with diverse populations. Supervision provided by doctoral psychologist faculty involves audio, video, and/or live observation of sessions and case presentations. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. Consent of Instructor required. Restricted to: SPSY, CEP majors. S/U, Audit.
Prerequisite(s): C EP 672, C EP 675.

C EP 682. Internship in Counseling Psychology II
1-18 Credits (1-12)
Full-time equivalent of one-half calendar year of internship preferably in an APA-approved or APA-equivalent site. Available to Ph.D. students who have successfully completed their comprehensive exams. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 18 credits. Restricted to: CEP majors.
Prerequisite(s): Consent of instructor.

C EP 684. Internship in School Psychology
1-12 Credits (1-12)
Supervised experience in school psychology. May be repeated for a maximum of 12 credits. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 12 credits. Restricted to: SPSY majors. S/U Grading (S/U, Audit).
Prerequisite(s): C EP 672, C EP 675.

C EP 685. Doctoral Internship in School Psychology
6-12 Credits (6-12)
Supervised doctoral internship experience in school psychology. 1800 to 2000 clock hours are completed on a full-time basis. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 12 credits. Consent of Instructor required. Restricted to: SPSY, CEP majors. S/U Grading (S/U, Audit).
3 Credits
Same as ELA, EDUC, SPED 693. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 3 credits. Restricted to: CEP majors.

C EP 698. Selected Topics
1-6 Credits
Offered under various subtitles which indicate the subject matter covered. A maximum of 6 credits in any one semester and a total of 18 credits overall. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 18 credits. Restricted to: CEP majors.

1-15 Credits
Study and research at the Specialist in Education level. Each problem to be designated by a qualifying subtitle. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 88 credits. Restricted to: CEP majors. Thesis/Dissertation Grading.

C EP 700. Doctoral Dissertation
15 Credits
Dissertation. Non-majors may be permitted to enroll in this course under limited circumstances with the permission of the course instructor, department head, and graduate school dean. May be repeated up to 88 credits. Restricted to: CEP majors. Thesis/Dissertation Grading.

Electives, to bring to the total credits to 120

Select sufficient electives from approved CEP Department list (https://cep.nmsu.edu/academic-programs/counseling-and-community-psychology/) to meet 120 minimum credit hours for the Bachelor degree (minimum of 24 credits required).

Total Credits 120

1. A grade of B- or better is required for all CCP core courses.
2. MATH 121G College Algebra (or any MATH higher math course, excluding MATH 210G) is required for the degree but students may need to take any prerequisites needed to enter either MATH 121G or higher (excluding MATH 210G) first.
3. C EP 300V Human Relations Training and C EP 451V Introduction to Counseling may not be used as a VWW.
4. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
5. Electives for CCP program are selected from list of approved electives.

Counseling and Educational Psychology - Undergraduate Minor

A minor in Counseling and Educational Psychology (CEP) is available to the student receiving a bachelor's degree from another department in the university. The minor in CEP is designed to be useful to the undergraduate who is preparing to enter one of the helping professions such as psychology, education, social work, criminal justice or nursing. A total of 18 credits is required to obtain the CEP minor, of which, at least 9 credits must be at 300 level or above.

Students must earn a B- or better in all CEP minor courses.

Contact the CEP office for more information on the minor application process or see CEP Minor website:

Prefix Title Credits

Choose 18 credits of C EP electives from the following, with at least 9 credits of upper division (300 and above):

ECON 251G  Principles of Macroeconomics  3
ECON 252G  Principles of Microeconomics  3
GEOG 112G  World Regional Geography  3
GEOG 120G  Culture and Environment  3
GOVT 100G  American National Government  3
GOVT 110G  Introduction to Political Science  3
GOVT 150G  American Political Issues  3
GOVT 160G  International Political Issues  3
SOC 101G  Introductory Sociology  3
SOC 201G  Contemporary Social Problems  3
W S 201G  Introduction to Women's Studies  3
W S 202G  Representing Women Across Cultures  3
Clinical Mental Health Counseling - Master of Arts

The CEP department offers a Clinical Mental Health Counseling program which leads to a Masters of Arts degree (M.A.). The program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). It prepares professional counselors to perform mental health counseling in agencies, hospitals, and private practice. Successful completion of the Clinical Mental Health Counseling program qualifies students to pursue licensure as clinical mental health counselors with the New Mexico Counseling and Therapy Practice Board. The 60-credit counseling curriculum requires two years full-time study or three years part time study on campus, and covers the following areas: human development, appraisal; diagnosis and treatment planning; individual, family and group counseling; consultation; career/ life planning; research; and professional issues. Specialized training and supervised experience is offered in mental health agencies, hospitals, and in schools.

Annual application deadline: February 1

For more information on program application requirements and process, see Clinical Mental Health Counseling, M.A., program website: https://cep.nmsu.edu/academic-programs/counseling-guidance-m-a/

Clinical Psychopharmacology - (Postdoctoral) Master of Science

The curriculum for the Postdoctoral Master of Science in Clinical Psychopharmacology degree program is modeled on the American Psychological Association (APA) recommended curriculum adopted in 1998 from the Blue Ribbon Task Force (comprised of national experts in psychopharmacology including physicians, psychiatrists, Department of Defense Demonstration Project prescribing psychologists, neuroscientists, pharmacists and nurses). In addition, the NMSU program adheres to all regulations set forth by the New Mexico Board of Psychologist Examiners and the New Mexico Board of Medical Examiners and is designed in congruence with New Mexico state law for prescribing psychologists. The program is dynamic, changing with the field, and has been modified according to recommended revisions of the American Psychological Association in 2009. The M.S. in Clinical Psychopharmacology degree program is an APA Designated Postdoctoral Psychopharmacology Education and Training Program.

Admission Application:

Admission requirements for the Clinical Psychopharmacology program are consistent with those of the Graduate School. However, in addition to these requirements, all master’s degree applicants must provide, to the department, a letter of application indicating intent for wanting to pursue a master’s degree in the department; a professional résumé; official verification of good standing from that state’s Board of Psychology, including three years of licensed professional practice with no ethical violations. The CEP admissions committee bases graduate admission referrals on this portfolio and will not consider incomplete applications.

Prerequisites:

Students interested in Clinical Psychopharmacology must have a doctorate degree in Psychology or Counseling Psychology, and a current unrestricted state license in good-standing for a minimum of 3 years.

Application Deadline:

For application and coursework details, please contact the CEP department office or visit the M.S. in Clinical Psychopharmacology program website at: https://cep.nmsu.edu/academic-programs/clinical-psychopharmacology/

Counseling Psychology - Doctor of Philosophy

The CEP Department offers a doctoral Counseling Psychology program that leads to a Ph.D. in Counseling Psychology. The program is accredited by the American Psychological Association. For more information on this accreditation contact

The Office of Program Consultation and Accreditation
American Psychological Association
750 1st Street, NE
Washington, DC 20002
Phone: (202) 336-5979.

The program is based on the scientist-practitioner model through which both research and service delivery skills are acquired. Graduates of the program are prepared to conduct research, provide service, teach and supervise. The program prepares students for licensure as psychologists.

The two aims of the program are:

1. To prepare entry level counseling psychologists who are self-reflective and competent in both the practice and science of the profession.

2. To prepare counseling psychologists who think critically about the sociocultural context of their work and promote social justice.

Program Requirements

CEP faculty conduct periodic reviews of students’ progress in the programs, including their academic performance, counseling and psychoeducational skills, professionalism and ethics. Deficits identified through faculty reviews may result in recommendations that students engage in remedial work or that they pursue alternative career goals.

Annual application deadline: December 15
School Psychology - Doctor of Philosophy

The purpose of the School Psychology doctoral program is to prepare school psychologists as scientists, practitioners and advocates for mental health and social justice in health service psychology settings, including public schools. The program will address state and national shortages of personnel who are fully credentialed to serve the needs of children with disabilities. The primary goal of the school psychology program is to train scholars to become problem-solvers with the essential entry-level competencies to serve in the schools and agencies that serve school age populations.

The program develops 3 major components: 1) Knowledge of psychological and educational foundations, 2) skills in data-based decision-making, assessment, consultation, intervention and research, and 3) the capacity to apply knowledge and skills to promote mental health and development and prevent school failure and other disabling conditions. Specifically, the program will accomplish the following goals.

1. Prepare and graduate highly qualified school psychologists to meet the academic and psychological needs of infants, toddlers, children, youth and their families from diverse backgrounds (i.e., high need children with disabilities).
2. Increase the number of personnel who demonstrate the competencies needed to provide high-quality instruction, evidence-based interventions and services for children with disabilities.
3. Retain scholars in a high quality-training program to increase the numbers of school psychologists including scholars from bilingual and traditionally underrepresented backgrounds.
4. Provide the workforce needed to meet state licensure for Level 3 school psychologists.

Curriculum

Preparation occurs from a developmental sequence of courses that follow scientifically based research and empirically validated strategies. The school psychology program at NMSU adheres to the scientist-practitioner model. This integrated approach to scholarship and practice promotes development of interlocking skills fostering a career-long process of psychological investigation, assessment, and intervention. Throughout the curriculum, the importance of knowledge and experience with a wide range of individual differences including, but not limited to ethnicity, gender, disability, age, culture, sexual orientation, religion, and race are emphasized. Ethical and legal issues, which guide service delivery, are also stressed throughout the curriculum. The American Psychological Association (APA) and National Association of School Psychologists (NASP) Standards and competencies provide the foundation for the program’s conceptual framework. Candidates will complete 81 credits of coursework, at least 450 clock-hours of practica (9 total credits) and an 1800 clock-hour doctoral internship. Of the 1800 clock-hour internship, 750 will be expected to be in a school setting.

For more information about the CEP Department and programs visit our website: http://cep.nmsu.edu

School Psychology - Specialist in Education

The CEP Department offers a School Psychology program that leads to a Specialist in Education (Ed. S.) degree. The program is accredited through the National Association of School Psychologists. The program provides additional education beyond the M.A. to prepare professionals for licensure as school psychologists in New Mexico and throughout the United States. The School Psychology program prepares its candidates to work with preschoolers, children, adolescents and families. The various settings where School Psychologists are employed include public schools and other organizations that require advanced assessment, counseling, consultation and other interventions. The program trains its candidates to serve students with diverse educational, psychological and emotional needs from various backgrounds. Such training also includes working with all school personnel to help make education a positive and rewarding experience for their students. Students admitted to the School Psychology program also have the opportunity to achieve a Masters degree in Counseling and Guidance with a concentration in Educational Diagnostics on the way to obtaining the specialist degree. Students would need to complete additional curricular, field experiences and degree requirements.

Annual application deadline: January 15

For more information on program application requirements and process, see School Psychology, Ed.S., program website: https://cep.nmsu.edu/academic-programs/school-psychology/

Integrated Behavioral Health Care - Graduate Minor

The Minor in Integrated Behavioral Health Care, offered through the Counseling and Educational Psychology (CEP) department, is open to graduate students enrolled in CEP programs Clinical Mental Health Counseling, School Psychology, Counseling Psychology and to graduate students who are enrolled in Social Work, Public Health, Nursing and Marriage and Family Therapy programs.

It was established in the interest of meeting the needs of graduate students in the health professions who are receiving, or seeking training in, interdisciplinary or interprofessional collaborations with other healthcare disciplines. The provision of integrated behavioral health services fits within the university's broader goal of meeting the needs of the citizens of New Mexico and the department's commitment to graduating competent service providers who can be effective members of a health care team.

Students will successfully complete 9 credits of coursework specific to this program of study in order to obtain a Minor in Integrated Behavioral Health Care. For application and coursework details, please contact the CEP department office or visit the departmental website at https://cep.nmsu.edu.

Through the courses in this minor students develop knowledge and skills in the following areas:

1. Apply the biopsychosocial model of health and illness with primary care patients,
2. Apply knowledge regarding the mind-body connection to address such issues as stress management, emotion regulation and sleep medicine,
3. Apply culturally responsive behavioral assessment/interventions,
4. Demonstrate behavioral health consultation skills with other health care providers, and
5. Develop interprofessional collaboration skills that include understanding the roles of all healthcare professionals and learning how to communicate effectively in order to engage in service delivery as a team.

Program of Study

Students will successfully complete 9 credits of work from the courses listed below in order to obtain a Minor in Integrated Behavioral Health Care.

C EP 520 The Art & Science of Mindfulness (1-3 s.h.) In this course, students learn about contemplative practices by learning about and participating in various mindfulness practices. This course engages students in a practice or experience that leads to reflection and, thus, acquired knowledge about themselves, others, and group functioning. The students learn how to increase well-being through mind-body integration, and they learn how to teach others mindfulness techniques. Students are required to explore the research on mindfulness for some medical condition or for its use with a specific population. This course has been taught in the spring semester, for five years, to CEP MSW, MPH, and FCS students.

C EP 563 Primary Care Psychology (3 s.h.) Didactic and experiential learning in primary care psychology issues. Through this course students will learn about the cultural necessity of the integration of mental and physical health issues and multidisciplinary collaboration. Activities include 1) guest speakers on American Indian Health, the Mexican Healthcare System, and Integrated Care in primary care settings; 2) visits to 2 interdisciplinary, integrative, border community health centers; 3) shadowing residents at the Family Medicine Center and observing the integration of psychological and medical aspects of the cases observed; and 4) exposure to the interventions of Motivational Interviewing and Mindfulness-Based Stress Reduction. CEP, MSW, and MPH trainees have enrolled in this course, taught during the fall semester, over the last 11 years.

C EP 598 Special Research Programs (1-6 s.h.) C EP 698 Selected Topics (1-6 s.h.). This course will require students to spend a minimum of 6 hours per week at a primary care site, providing counseling, assessment, supervision, or psychoeducational services. The Minor coordinator must approve all placements. CEP students have enrolled in this course over the last 4 years. This course is available fall, spring and summer. During the summer, a special section of this course is subtitled, “Interprofessional Immersion” as CEP, DNP, and Family Medicine and PharmD residents learn interprofessional competencies related to providing geriatric care. This special section has been offered for two summers.

C EP 670 Behavioral Health Practicum (1-6 s.h.). An intensive supervised experience in providing behavioral health services at an on or off campus interdisciplinary health setting. This course will provide students the opportunity to participate in a supervised service-learning experience within community-based, interdisciplinary, primary care settings that serve medically underserved and high-risk groups. Students write and present a case study utilizing the biopsychosocial model of health. MSW and CEP students are placed in community-based organizations with Family Medicine residents or other medical personnel in order to provide integrated care. This course has been offered in the spring semester for the last 11 years.

Prerequisites

In order to begin the Minor courses, students must currently be enrolled in a Behavioral Health program. There are no other prerequisites.

How to Apply

If you are interested in pursuing a minor in Integrated Behavioral Healthcare, you should complete the attached application and return it to the IBH Minor coordinator, Eve Adams (eadams@nmsu.edu). It is best to meet with the program coordinator before enrolling in relevant
coursework, but it is possible to obtain the minor after taking one of the courses in the program of study. The application form allows the CEP department to keep track of potential minors in order to determine what courses need to be offered at any given time. To declare the Minor with the Graduate School, the student should list all relevant completed coursework on the Program of Study form that is submitted to the Graduate School prior to graduating. This form must be signed by Dr. Adams. A IBH Minor faculty member is also required to sit on the student’s graduate committees, including the comprehensive exam and the dissertation proposal and defense exams.

Application: Integrated Behavioral Healthcare Minor
Form and Description

Spanish Counseling - Graduate Minor

The Minor in Spanish Counseling, offered through the Counseling and Educational Psychology department is open to graduate students who are enrolled in CEP’s Counseling, School Psychology, and Counseling Psychology programs, and to graduate students who are enrolled in Social Work and Marriage and Family Therapy programs. It was established in the interest of meeting the needs of bilingual counseling students who seek training in the provision of Spanish language mental health services.

In order to begin the Minor courses, students must currently be enrolled in a Mental Health program as described above. They must demonstrate intermediate level Spanish language skills as evidenced by the Spanish Placement Exam and an oral interview with the program coordinator. Advanced level in Spanish counseling skills is required for the completion of the Minor. If a student feels that he/she needs to improve his/her level of academic Spanish prior to completing the required course work, or if the program coordinator determines that it is necessary, the student has the option of taking additional Spanish courses through the Languages and Linguistics department (e.g. SPAN 312 Grammar for Heritage/Native Speakers of Spanish, SPAN 313 Spanish Grammar, SPAN 314 Spanish Composition, and SPAN 315 Composition for Heritage/Native Speakers of Spanish). Students will be required to take Spanish language courses until they have satisfied this requirement. Please note that online courses will not fulfill this requirement.

Program of Study

Students will successfully complete 9 credits of coursework specific to this program of study in order to obtain a Minor in Spanish Counseling. Courses will be taught by culturally competent faculty, adjunct professors, or community mental health professionals in the aforementioned disciplines. Students will choose one course from each of the following components: 1) Counseling language development, 2) Clinical experience, and 3) Sociocultural experiences.

Prefix | Title | Credits
--- | --- | ---
**Course Requirements** |  |  
Counseling Language Development (Component #1) | 3 |
Choose one from the following: |
C EP 616 | Spanish for Mental Health Professionals |
C EP 550 | Counseling Theory and Technique |
Clinical Experience (Component #2) | 3 |
Choose one from the following: |
C EP 598 | Special Research Programs |
or C EP 698 | Selected Topics |

Component #1: Counseling Language Development

C EP 616 Spanish for Mental Health Professionals This course will help students acquire the necessary Spanish language skills needed to function as Spanish-speaking mental health professionals. The course will cover psychological terminology, concepts, and theories in Spanish. Examination of the professional roles of bilingual mental health professionals and their roles within Latina/o and underserved communities will also be addressed in this course.

C EP 550 Counseling Theory and Technique This course will assist students in learning and practicing basic, culturally-appropriate micro counseling skills in Spanish through individual, dyad, and small group participation.

Component #2: Clinical Experience

C EP 598 Special Research Programs/ C EP 698 Selected Topics This course will require students to spend a minimum of 6 hours per week at a bilingual site, providing counseling, assessment, or supervision services within a variety of clinical settings that serve Spanish-speaking populations. The Minor coordinator must approve all placements. This course will also integrate a Spanish-speaking student process group for bilingual counseling students. In this group, students will have the opportunity to develop bilingual multicultural counseling competencies. Students may also present clinical cases, theoretical perspectives, interventions or techniques in Spanish and receive feedback and support from other bilingual members. A summer semester immersion experience in providing counseling services in Spanish in a Latin American and/or primarily Spanish-speaking country may be substituted for this experience.

Students have the option of completing their clinical hours for this course over 2 semesters if so desired. The course requires an additional 6 clinical hours/week (if taken in one semester) or 3 clinical hours/week (if class is taken over the course of two semesters).

Note: This course is not to replace required practicum or internship experiences necessary for degree completion. Students are allowed to count hours they are accruing for their internship and/or practicum as long as they are (1) enrolled in both courses [598/698 and either 578/675 or 580/684] (2) are meeting the requirements for the 598/698 course [i.e. attending class meetings, etc.] and (3) a separate log is kept documenting work with Spanish speaking clients; this log also has to be signed by both 598/698 instructor and site supervisor

C EP 670 Behavioral Health Practicum This course will provide students the opportunity to participate in a supervised service-learning experience within community-based, interdisciplinary, primary care settings that serve medically underserved and high-risk groups. Students will each write and present a case study in Spanish regarding a Spanish-speaking client. Students will receive bilingual supervision regarding various topics
such as training in Motivational Interviewing and discussion of Spanish-speaking clients from their practicum experience.

**MSW 597 Special Topics** This course will allow students to develop and practice skills in Spanish relevant to working with children and families in the child welfare system with a focus on the child protection process.

**FCS 525 Supervised Clinical Practice** This course offers supervised clinical experience in Marriage and Family Therapy.

**Component #3: Sociocultural Experiences**

SPAN 547 Advanced Hispanic Film/SPAN 548 Advanced U.S.-Hispanic Film Advanced study of major films from Spain and Spanish-America and/or by Hispanics of the U.S.

SPAN 567 Advanced Study in Chicano Literature Study of all genres of Chicano literature.

*All courses outlined in the Program of Study have to be taken face-to-face. However, Spanish Counseling Minor Committee will review individual requests for any exceptions to this requirement.

**Prerequisites**

In order to begin the Minor courses, students must currently be enrolled in a Mental Health program as described above. They must demonstrate intermediate level Spanish language skills as evidenced by the Spanish Placement Exam and an oral interview with the program coordinator. Advanced level in Spanish counseling skills is required for the completion of the Minor. If a student feels that he/she needs to improve his/her level of academic Spanish prior to completing the required course work, or if the program coordinator determines that it is necessary, the student has the option of taking additional Spanish courses through the Languages and Linguistics department (e.g. SPAN 312, SPAN 313, SPAN 314, and SPAN 315). Students will be required to take Spanish language courses until they have satisfied this requirement. Please note that online courses will not fulfill this requirement.

**How to Apply**

If you are interested in pursuing a minor in Spanish Counseling and, you should complete the attached application and return it to the program coordinator. You are advised to meet with the program coordinator before enrolling in relevant coursework. This form apprizes the CEP department of your intention to pursue the Minor. To declare the Minor with the Graduate School, the student should list all relevant completed coursework on the Program of Study form that is submitted to the Graduate School prior to graduating. The form needs to be signed by the student’s Academic Advisor, Dept. Head, Minor Faculty and Academic College Dean before submitting to the Graduate School. A Minor Faculty member is also required to sit on the committee for the student’s Final Exam. For Doctoral students, this includes orals, dissertation proposal and defense exams.

**Application: Spanish Counseling Minor Application Form**

---

**Communication Disorders**

**Undergraduate Information**

**General Information**

The NMSU Program in Communication Disorders offers an undergraduate program that results in a pre-professional Bachelor of Science degree that prepares students for graduate work. For clinical practice, the minimum entry-level is a Master’s degree for Speech-Language Pathology and a Doctoral degree for Audiology. Students who complete a Bachelor’s degree must go on to complete a Master’s to obtain state licensure and national certification in Speech-Language Pathology. A Doctoral degree is required for Audiology.

Further information regarding the fields of Audiology and Speech-Language Pathology may be obtained on the American Speech-Language-Hearing Association website.

At NMSU we currently have approximately 140 undergraduate students who have declared a major in Communication Disorders. These students are required to successfully complete a minimum of 120 credits for the Bachelor of Science degree in Communication Disorders. This includes a minimum of 54 upper division credits as well as a minimum of 9 credits from an approved list of electives.

**Graduate Information**

**Information for Prospective Students**

The Master of Arts (M.A.) program in Speech-Language Pathology: Communication Disorders at New Mexico State University is accredited by the Council on Academic Accreditation (CAA) in Speech-Language Pathology of the American Speech-Language-Hearing Association (ASHA), 2200 Research Boulevard, #310, Rockville, MD 20850, 800-498-2071 or 301-296-5700

Communication Disorders Courses

C D 221. Introduction to Communication Disorders
3 Credits
Basic information about speech, language, and hearing disorders; orientation to the professions of speech-language pathology and audiology.

C D 301. Language Acquisition
3 Credits
This course introduces students to the study of the development of language, speech, and communication. Includes language sampling. May be repeated up to 3 credits. Crosslisted with: C D 509. Restricted to: C DS,C D majors.
Prerequisite(s): B or better in C D 221; Cumulative GPA of 3.2 or higher.

C D 322. Anatomy and Physiology of Speech Mechanisms
3 Credits
Structure and function of systems underlying human speech sound production and processing, including respiratory, phonatory, and articulatory components. May be repeated up to 3 credits. Crosslisted with: C D 502. Restricted to: C DS,C D majors.
Prerequisite(s): B or better in C D 221, C D 323, C D 422, C D 324, and C D 301; and minimum 3.2 GPA.

C D 323. Phonetics
3 Credits
The science of phonetics, including work with the International Phonetic Alphabet. Taught with C D 501. May be repeated up to 3 credits. Restricted to: C DS,C D majors.
Prerequisite(s): B or better in C D 221; Cumulative GPA of 3.2 or better.

C D 324. Introduction to Speech Science
3 Credits
Basic concepts and theories in acoustics, speech production and speech perception. Includes laboratory experience with instrumental measurement and analysis of speech systems. May be repeated up to 3 credits. Crosslisted with: C D 503. Restricted to: C DS,C D majors.
Prerequisite(s): B or better in C D 221; C D 323, C D 422; and minimum 3.2 GPA.

C D 325. Language Disorders
3 Credits
Prerequisite(s): C- or better in C D 221.

C D 326. Clinical Methods and Procedures
3 Credits
Guidelines and procedures associated with the clinical and supervisory processes. Provide opportunities to complete the supervised clinical observation requirement for participation in clinical practicum. May be repeated up to 3 credits. Crosslisted with: C D 506. Restricted to: C DS,C D majors.
Prerequisite(s): B or better in C D 221, C D 323, C D 422, C D 324, C D 301; and minimum 3.2 GPA.

C D 374. American Sign Language I
3 Credits
Introduction to the basics of ASL including questions, commands, sentence types, time, subjects and objects, classifiers, locative case, pluralization, and temporal and distributional aspects.

C D 375. American Sign Language II
3 Credits
Continuation of C D 374, ASL I. Emphasis on ASL grammar, spatial referencing, detailed descriptions, and deaf culture. Features dialogues, short stories, narratives.
Prerequisite: C D 374 or consent of instructor.

C D 421. Speech and Language Disorders
3 Credits
Bases, symptoms, etiologies, and clinical management of issues related to disorders of articulation, phonology, voice and resonance, and fluency. May be repeated up to 3 credits. Crosslisted with: C D 507. Restricted to: C DS,C D majors.
Prerequisite(s): B or better in C D 221, C D 323, C D 422, C D 324, and C D 301; and minimum 3.2 GPA.

C D 422. Audiology
3 Credits
Anatomy and physiology of the auditory system, bases of auditory disorders, and basic audiometric procedures. May be repeated up to 3 credits. Crosslisted with: C D 507. Restricted to: C DS,C D majors.
Prerequisite(s): B or better in C D 221, and a minimum of 3.2 GPA.

C D 423. Neural Bases of Communication Disorders
3 Credits
Study of the neuroanatomy and neurophysiology of communication and communication disorders. Includes review of the central nervous system and peripheral nervous system relationship to speech motor control, language, and hearing. May be repeated up to 3 credits. Crosslisted with: C D 510. Restricted to: C DS,C D majors.
Prerequisite(s): B or better in C D 221, C D 323, C D 422, C D 324, C D 421, C D 322, C D 326 and minimum 3.0 GPA.

C D 424. Aural Rehabilitation
3 Credits
Overview of hearing aids and amplification devices including cochlear implants. Review of the bases and psychosocial aspects of hearing loss. Clinical management of hearing loss consistent with ASHA’s scope of practice for SLPs. May be repeated up to 3 credits. Crosslisted with: C D 508. Restricted to: C DS,C D majors.
Prerequisite(s): B or better in C D 221, C D 323, C D 422, C D 324, C D 421, C D 322, C D 326; and minimum 3.2 GPA.

C D 425. Professional Reasoning and Scientific Thinking
3 Credits
Overview of constructive thinking, problem solving, and decision making theories and strategies associated with professional reasoning and scientific thinking that are to be used academically and clinically in the transition from student to scholar to professional. Taught with C D 593. May be repeated up to 3 credits. Restricted to: C DS,C D majors.
Prerequisite(s): B or better in C D 221, C D 323, C D 422, C D 324, C D 301, C D 421, C D 322, C D 326; and minimum 3.2 GPA.

C D 476. American Sign Language III
3 Credits
Continuation of C D 375, ASL II. Focus on more complex grammatical features. Students will comprehend and generate medium length stories, narratives, and discussions including culturally significant topics.
Prerequisite: C D 375.
CD 501. Phonetics
3 Credits
The science of phonetics, including work with the International Phonetic Alphabet. Restricted to majors. Same as CD 390 with differentiated assignments for graduate students.
Prerequisite(s): a course grade of B- or higher in all graduate courses and an overall GPA of 3.0 or higher.

CD 502. Anatomy and Physiology of Speech Mechanisms
3 Credits
Structure and function of systems underlying human speech sound production and processing including nervous, respiratory, and articulatory components. Restricted to majors. Same as CD 380 with differentiated assignments for graduate students.
Prerequisite(s): a course grade of B- or higher in all graduate courses and an overall GPA of 3.0 or higher.

CD 503. Speech Science
3 Credits (2+3P)
Basic concepts and theories in acoustics, speech production, and speech perception. Laboratory experience with instrumental measurement and analysis of speech systems. Restricted to majors. Same as CD 390 with differentiated assignments for graduate students.
Prerequisite(s): a course grade of B- or higher in all graduate courses and an overall GPA of 3.0 or higher.

CD 504. Speech and Language Disorders
3 Credits
Prerequisite(s): B or better GPA.

CD 505. Research Methods
3 Credits
Introduction to basic qualitative, quantitative, and single subject research methodology in speech-language pathology and audiology. Restricted to majors.
Prerequisite(s): a course grade of B- or higher in all graduate courses and an overall GPA of 3.0 or higher.

CD 506. Clinical Methods and Procedures
3 Credits
Guidelines and procedures associated with the clinical and supervisory processes. Provide opportunities to complete the supervised clinical observation requirement for participation in clinical practicum. Differentiated assignments for graduate students. Taught with CD 326. Restricted to: CD majors.
Prerequisite(s): B or better GPA.

CD 507. Audiology
3 Credits
Anatomy and physiology of the auditory system, bases of auditory disorders, and basic audiometric procedures. Differentiated assignments for graduate students. Taught with CD 422. Restricted to: CD, CD majors.
Prerequisite(s): Minimum of 3.0 GPA.

CD 508. Aural Rehabilitation
3 Credits
Prerequisite(s): Minimum 3.0 GPA.

CD 509. Language Acquisition
3 Credits
Normal development of communication across the age span. Includes language sampling and analysis. A minimum grade of B- in all graduate courses and a minimum overall GPA of 3.0 required. Taught with CD 360 with differentiated assignments for graduate students. Restricted to CD majors and LING majors.

CD 510. Neural Bases of Communication Disorders
3 Credits
Study of the neuroanatomy and neurophysiology of communication and communication disorders. Includes review of the central nervous system and peripheral nervous system relationship to speech motor control, language, and hearing. Crosslisted with: CD 423. Restricted to: CD, CD majors.

CD 521. Professional Issues and Multicultural Practices in Communication Disorders
3 Credits
This course includes a range of topics pertinent to students entering professional practice as speech-language pathologists including current legal, cultural, ethical, and clinical service provision issues. Restricted to: CD, CD majors.
Prerequisite(s): Minimum of 3.0 GPA.

CD 522. Interpreter Workplace Skills in Communication Studies
1 Credit
The purpose of this course is to identify principles and procedures necessary to be an effective interpreter and to use an interpreter in the field. Speech, language, hearing and swallowing disorders. Students will identify history of the use of interpreters, the interpreting process, bilingual vocabulary appropriate for the scope of practice in the field, bilingual assessment principles, second language learning principles and multicultural aspects to consider in the interview and interpreting process. The students will engage in several interpreter scenarios for interview, assessment and intervention cases. Restricted to: CD majors.
Prerequisite(s): Minimum of 3.0 GPA.

CD 523. Assessment of Communication Disorders
3 Credits
Diagnostic theories and management of communication disorders using standardized and descriptive methodology. Includes the practice of interviewing, testing, and oral and written reporting. Restricted to: CD, CD majors.
Prerequisite(s): A course grade of B or higher in all graduate courses and an overall GPA of 3.0 or higher.

CD 525. Pediatric Language and Disorders
3 Credits
Normal communication development of neonates, infants, toddlers, and preschoolers; etiologies, diagnosis, and treatment of cognitive, linguistic and social elements of communication problems in family systems. May be repeated up to 3 credits. Restricted to: CD, CD majors.
Prerequisite(s): Minimum grade of B and an overall GPA of 3.0 or higher.

CD 530. School Age Language and Disorders
3 Credits
Normal communication-learning development of elementary, secondary, and postsecondary students; etiologies, diagnosis, and treatment of interpersonal communication and language-based academic disorders. May be repeated up to 3 credits. Restricted to: CD, CD majors.
Prerequisite(s): A minimum grade of B in all graduate courses and an overall GPA of 3.0 or higher.
C D 535. Aphasia & Cognitive Linguistic Disorders
3 Credits
Etiologies, diagnosis, assessment, and treatment of adult aphasia and cognitive-linguistic disorders. Restricted to: C DS, C D majors.
Prerequisite(s): A course grade of B or higher in all graduate courses and an overall GPA of 3.0 or higher.

C D 541. Advanced Spanish Morpho-Syntax for Education Professionals
3 Credits
This class has been designed for Heritage Speakers of Spanish who work in educational settings. It will cover the essential linguistic theory and fundamental structures of the Spanish language. This includes, but is not limited to, verb morphology, morphosyntactic and syntactic structures. The main goal of this course is to determine what usages fall within the norms of an individual's speech community, or if there are elements that fall outside those norms.
Prerequisite(s): Students have to be fluent in Spanish as course will be conducted in Spanish.

C D 542. Articulation and Phonological Disorders
3 Credits
Advanced study of the symptoms, etiologies, assessment, and clinical management of articulation and phonological disorders including cleft palate and disorders of resonance Restricted to: C DS, C D majors.
Prerequisite(s): A minimum grade of B- in all graduate courses and a minimum overall GPA of 3.0 is required.

C D 545. Introduction to Augmentative and Alternatice Communication
3 Credits
Assessment and intervention for children and adults with developmental disabilities; Alternative communication strategies and systems for individuals with severe speech and/or language impairments. May be repeated up to 3 credits. Restricted to: C DS, C D majors.
Prerequisite(s): Graduate standing; overall GPA of 3.0.

C D 547. Cognitive-Linguistic Communication Disorders
3 Credits
Topics include attention, memory, executive function, and underlying neuropsychological, with emphasis on assessment, diagnosis, prognosis, treatment and recovery processes in cognitive communication disorders related to traumatic brain injury, dementia, and right hemisphere brain damage. May be repeated up to 3 credits. Restricted to: C DS, C D majors.
Prerequisite(s): A course grade of B or higher in all graduate courses and an overall GPA of 3.0.

C D 548. Best Practices in Bilingual/Multicultural Assessment for Practitioners
3 Credits
The purpose of this course is to provide future speech-language pathologists, educational diagnosticians and special educators with a foundation for evaluating the linguistic, cognitive and academic skills of students from any cultural linguistic background. The course covers a review of the literature on best practices for working with interpreters during assessments. Practitioners will be expected to gather qualitative information about cultural/linguistic and educational histories of school-age children and integrate those results with the results of standardized tests.
Prerequisite(s): C D 594.

C D 574. American Sign Language III
3 Credits
Continuation of ASL II. Focus on more complex grammatical features. Students will comprehend and generate medium length stories, narratives, and discussions including culturally significant topics.
Prerequisite: C D 375 or consent of instructor.

C D 583. Dysphagia
3 Credits
Study of the anatomy and physiology of swallowing and upper aerodigestive systems. Review of the bases and etiologies of child and adult swallowing disorders, including diagnosis, assessment, and treatment. Restricted to: C DS, C D majors.
Prerequisite(s): A course grade of B- or higher in all graduate courses and an overall GPA of 3.0 or higher.

C D 584. Fluency Disorders
3 Credits
Speech fluency development and the disorders of stuttering, cluttering, and neurogenic dysfluency. Restricted to: C DS, C D majors.
Prerequisite(s): A course grade of B or higher in all graduate courses and an overall GPA of 3.0 or higher.

C D 585. Motor Speech Disorders
3 Credits
Advanced studies of dysfunction of the nervous system that affect speech. Includes evaluation, diagnosis, and treatment of speech apraxias and dysarthrias. Restricted to: C DS, C D majors.
Prerequisite(s): A course grade of B or higher in all graduate courses and an overall GPA of 3.0 or higher.

C D 586. Voice Disorders/Head and Neck Anomalies
3 Credits
Advanced studies of anatomy and physiology of the vocal tract with emphasis on diagnosis, assessment, and treatment of voice disorders, laryngectomy, cleft palate, and other oral-facial anomalies. Restricted to: C DS, C D majors.
Prerequisite(s): A course grade of B or higher in all graduate courses and an overall GPA of 3.0 or higher.

C D 587. Cleft Palate and Syndromes
2 Credits
An advanced study of etiology, assessment and treatment of craniofacial anomalies with a focus on the effects of clefts of the lip and/or palate on speech, resonance and velopharyngeal dysfunction. Review of the contribution of interdisciplinary cleft palate team care managing feeding, audiologic, surgical, orthodontic, and psychosocial aspects. General review of embryology and common syndromes with associated speech, language, and hearing disorders. Consent of Instructor required. Restricted to: C D, C DS majors.
Prerequisite(s): A course grade of B or higher in all graduate courses and an overall GPA of 3.0 or higher.

C D 589. Practicum in Speech-Language Pathology
1-4 Credits (1-4)
Supervised clinical practice in a variety of speech, language, and hearing disorders. Practicum includes diagnostic, treatment, and management work through direct patient/client contact. Attendance at weekly clinical staff meetings is required. May be repeated up to 15 credits. Restricted to: C DS, C D majors.
Prerequisite(s): Good standing in the graduate school; a course grade of B or higher in all graduate courses and an overall GPA of 3.0 or higher.
Communication Disorders - Bachelor of Science in Education

The Communication Disorders curriculum provides specialized preparation for students who plan to enter a graduate program in speech-language pathology or audiology. Students supplement their academic study of typical communication development, communication disorders, and clinical management with observation of the clinical experience in the department’s Edgar R. Garrett Speech and Hearing Center and/or via alternative clinical education such as virtual patients. Students must maintain a B or better in all CD courses and maintain a cumulative GPA of 3.2 or higher, to remain in the program.

The undergraduate program provides approximately one-half of the academic requirements needed for certification by the American Speech-Language-Hearing Association and licensure by the New Mexico Regulations & Licensing Department. Certification and licensure at state and national levels require completion of the master’s degree. Details regarding certification are available from the American Speech-Language-Hearing Association (ASHA), and the New Mexico Regulations & Licensing Department.

Professional employment opportunities for speech-language pathologists and audiologists are numerous within settings such as school systems, community clinics, medical centers, hospitals, private practice, residential programs and schools for individuals with disabilities.

Program Requirements

Required coursework (120 credits; minimum 51 upper-division credits)

Electives to meet the 120 minimum credit hours for this degree can either come from any minor that a student chooses to pursue or any other elective courses not counting elsewhere towards the degree. Recommended minors for this degree are Linguistics, Spanish, or CEP.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

**Total Credits**: 120

1. MATH 121G College Algebra is required for the degree but students may need to take any prerequisites needed to enter MATH 121G first.
2. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
3. SPAN 111 Elementary Spanish I/SPAN 112 Elementary Spanish II or an advanced Spanish course
4. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

**Communication Disorders - Master of Arts**

Students entering the graduate program with an undergraduate major in Communication Disorders can expect to complete the program in two
years and be awarded a Masters of Arts in Communication Disorders with a specialization in Speech-Language Pathology. The graduate program for students without a Communication Disorders background is generally one year longer because one year of leveling is required. Enrollment in graduate courses in Communication Disorders is limited to students who have been accepted into the graduate program in Communication Disorders. To complete this course of study, each student is expected to meet the program’s academic and clinical competency criteria which are aligned with the requirements of state and national certifying bodies for licensure and clinical certification. Details regarding certification are available from the American Speech-Language-Hearing Association (ASHA), and the New Mexico Regulations & Licensing Department.

The Master’s degree program in Speech-Language Pathology at New Mexico State University is accredited by the Council on Academic Accreditation (CAA) in Audiology and Speech-Language Pathology. Admission requirements and procedures can be found on the program website.

Program Requirements

The traditional Master’s degree plan requires a minimum of 54 graduate credit hours and the completion of at least 400 clinical hours.

Total Credits 54

Kinesiology and Dance

Undergraduate Program Information

The Department of Kinesiology and Dance provides students with the education necessary to pursue careers in allied health sciences (Medical School, Physician’s Assistant, Physical Therapy, Occupational Therapy, Chiropractic Medicine, Nursing, etc.), Athletic Training, Physical Education, Dance and Dance Education and for a variety of careers in the fitness and wellness industry. Details of the degree programs and their respective concentrations are provided below.

The department also offers minors in Dance and Exercise Science.

Graduate Program Information

The PhD in Kinesiology encompasses opportunities for focused study in physiological, biomechanical, psychological, and pedagogical domains of human movement. Program emphasis is placed on the acquisition of skills needed for high quality research and innovative teaching. Students are expected to become proficient in research methods within their respective areas of interests. The program prepares students for postdoctoral or faculty positions in higher education, or positions in applied sport and clinical settings. Students are expected to work with specific faculty members to explore interests in Exercise Physiology, Biomechanics, Strength & Conditioning, Sport Psychology, Motor Behavior, Aging, Physical Education, and Dance.

Admission

The Department of Kinesiology and Dance offers a Doctorate of Philosophy (PhD) in Kinesiology. To maximize consideration for admittance (for a recommended August start date), candidates should submit applications by January 15 of that same year.

Students are admitted to graduate study on the basis of their potential for achievement in research, scholarship and teaching. The most promising applicants will be accepted. Because the number of students that the department can successfully accommodate is limited, it will not always be possible to admit all qualified applicants. The admissions
committee will consider any material that a candidate for admission wishes to present. Application forms and instructions are available here: https://prospective.nmsu.edu/graduate/apply/index.html. The minimum application consists of the following:

1. A completed Graduate School admission application.
2. Complete transcripts of all college work, reflecting a bachelors and a masters degree (or 30 hours of graduate work) in a related field of study, and a minimum cumulative GPA of 3.0 in prior degree programs.
3. Scores on the Graduate Record Examination (GRE) (there is no minimum requirement; however, the scores will be considered in the admission decision).
4. Three letters of recommendation from professors, employers or others qualified to evaluate your potential for graduate work.
5. A curriculum vitae or resume.
6. A personal statement explaining how graduate work at NMSU fits your educational and career goals,
7. An indication of the faculty member whose work is of particular interest to you
8. A letter of support from at least one faculty member indicating an interest in guiding you through your program of studies.

Degrees for the Department
Dance - Bachelor of Arts in Dance (p. 643)  
Athletic Training - Bachelor of Science in Athletic Training (p. 641) 
Kinesiology - Bachelor of Science in Kinesiology (p. 646)  
Kinesiology - Doctor of Philosophy (p. 650) 

Minors for the Department
Dance - Undergraduate Minor (p. 649)  
Exercise Science - Undergraduate Minor (p. 650) 

Phillip G. Post, Interim Academic Department Head

Professors: Berning, Gilpin, Knapp, Oliver;  
Associate Professor: Post;  
Assistant Professors: Aiken, An, Aranda, Gavit, Lee, Meyer, O’Connell

Graduate Faculty: Philip G. Post, Graduate Program Coordinator, PhD (Associate Professor, University of Tennessee), Christopher A. Aiken (Assistant Professor, Louisiana State University), Yong Woo An (Assistant Professor, University of Delaware), Joseph M. Berning, PhD (Professor, University of Nebraska), Frank G. “Paco” Gilpin, MS (College Professor, New Mexico State University), Debra W. Knapp, EdD (Professor, New Mexico State University), Sang-Rok Lee (Assistant Professor, Florida State University), Kimberly L. Oliver, PhD (Professor, Virginia Polytechnical Institute).

Prerequisite(s): DANC 118.

DANC 222. Bronze American Rhythm
2 Credits (1+2P)
Bronze level American Rhythm patterns, techniques, and partnering with emphasis on elements of dance. May be repeated up to 8 credits. Restricted to Las Cruces campus only.

DANC 223. Ballet Technique II
2 Credits
Continued study of classical ballet technique, vocabulary, and history through participation and academic study. Restricted to Las Cruces campus only.

DANC 223 L. Ballet Technique II Lab
1 Credit
This course is designed for the acquisition of intermediate level ballet technique and skill development. May be repeated up to 2 credits. Consent of Instructor required. Restricted to Las Cruces campus only.
DANC 224. Jazz Technique II  
2 Credits  
Continued study of jazz technique and history through participation and academic study. May be repeated up to 8 credits. Restricted to Las Cruces campus only.

DANC 225. Bronze American Smooth  
2 Credits (1+2P)  
Bronze level American Smooth patterns, technique, and partnering with an emphasis on the elements of dance. May be repeated up to 4 credits. Restricted to Las Cruces campus only.

DANC 226. Modern Dance Technique II  
2 Credits  
Continued study of postmodern dance technique and history through participation and academic study. Restricted to Las Cruces campus only.

DANC 226 L. Modern Dance Technique II Lab  
1 Credit  
This course is designed for the acquisition of intermediate level modern dance technique and skill development. May be repeated up to 2 credits. Consent of Instructor required. Restricted to Las Cruces campus only.

DANC 227. Tap Dance II  
1 Credit  
Continued study of skills and techniques of tap dance at the advanced level. May be repeated for a maximum of 2 credits.  
Prerequisite: DANC 127 or consent of instructor.

DANC 229. Flamenco II  
2 Credits  
The study of theory, techniques and practice of Flamenco at the intermediate level. Includes historical and cultural contexts of this art form. May be repeated up to 8 credits. Restricted to Las Cruces campus only.  
Prerequisite(s): DANC 129.

DANC 229 L. Flamenco Dance II Lab  
1 Credit  
This course is designed for the acquisition of intermediate level Flamenco dance technique and skill development. May be repeated up to 2 credits. Consent of Instructor required. Restricted to Las Cruces campus only.

DANC 232. Bronze International Latin  
2 Credits  
This is the style of Latin dance that is danced around the globe and is featured in the World DanceSport Championships. Students will learn the Bronze Level figures and techniques in four (4) International Style dances: Rumba, Cha Cha, Samba & Jive. May be repeated up to 8 credits. Students develop and perform solo dance studies with an emphasis placed on the development of personal movement vocabulary, phrase building, and the exploration of choreographic tools for Flamenco on stage. Discussion, critiquing, and descriptive writing about their choreographic processes will supplement direct physical work. May be repeated up to 6 credits. Consent of Instructor required. Restricted to Las Cruces campus only.

DANC 280. Dance Improvisation  
2 Credits  
Development of movement improvisational skills with complex examination of improvisational structures. Restricted to Las Cruces campus only.

DANC 289. Principles of Choreography I  
3 Credits  
Solo dance choreography technique. Course must be passed with a grade of C or higher. Consent of Instructor required. Restricted to: DANC majors. Restricted to Las Cruces campus only.  
Prerequisite(s): DANC 202.

DANC 300. Dance Pedagogy: Teaching Creative Movement for Children  
3 Credits  
Teaching methods and class planning for creative movement dance curriculum with an inclusion of using movement as a teaching tool in academic subjects at the preschool and elementary school levels. May be repeated up to 3 credits. Restricted to Las Cruces campus only.

DANC 301. Flamenco Pedagogy I  
3 Credits  
The methods and theory of teaching Flamenco dance forms particularly in the studio environment. Consent of Instructor required.  
Prerequisite(s): DANC 229 AND DANC 206.

DANC 303. Dance Production II  
2 Credits  
Students will learn the production process of dance events which may include performances, festivals, workshops, and conferences.  
Prerequisite(s): DANC 203.

DANC 304. Dance Sport II  
1 Credit  
Advanced performance-based, team formation dance in a variety of Latin and social dances. May be repeated up to 4 credits. Consent of Instructor required.  
Prerequisite(s): Consent of instructor and one of DANC 121, DANC 122, DANC 125, or DANC 128.

DANC 305. Contemporary Dance Ensemble II  
1 Credit  
Advanced performance-based instruction for students pursuing a career in contemporary dance. Instruction includes contemporary dance repertory and choreography for stage, outdoor arenas, and site-specific areas. May be repeated up to 6 credits. Consent of Instructor required.

DANC 306. Spanish Dance Ensemble II  
1 Credit  
Performance-based instruction for students pursuing a career in dance with an emphasis in Spanish Dance. Instruction includes dance repertory and choreography for stage, outdoor arenas, and site-specific areas. May be repeated up to 4 credits. Consent of Instructor required.
DANC 307. Hip Hop Dance Ensemble II  
1 Credit  
Advanced performance-based instruction for students pursuing a career in hip hop dance. Instruction includes dance repertory and choreography for stage, commercial/industry, and competitive dance areas. May be repeated up to 4 credits. Consent of Instructor required.

DANC 310. Classical Spanish Dance III  
3 Credits  
Advanced study of Classical Spanish Dance with castanets, cultural history, and pedagogy methods. A expanded focus on integration of different classical genres with focus on solo work. May be repeated up to 12 credits. Consent of Instructor required.  
Prerequisite(s): DANC 210.

DANC 310 L. Spanish Dance III Lab  
1 Credit  
This course is designed for the acquisition of advanced level of Spanish dance technique and skill development. May be repeated up to 2 credits. Consent of Instructor required.

DANC 312. Advanced Hip Hop Dance  
3 Credits  
The study of advanced hip hop dance covering West coast and Southern styles with the inclusion of the history and evolution of Hip-Hop dance. May be repeated up to 9 credits. Consent of Instructor required.  
Prerequisite(s): DANC 212.

DANC 322. Silver American Rhythm  
3 Credits (2+2P)  
Silver level American Rhythm patterns and technique with emphasis on performance. May be repeated up to 12 credits. Consent of Instructor required.  
Prerequisite(s): DANC 222.

DANC 323. Ballet Technique III  
3 Credits  
The study of intermediate/advanced classical ballet technique including vocabulary, history and practical application of functional anatomy.  
Prerequisite(s): DANC 223 or consent of instructor.

DANC 323 L. Ballet Technique III Lab  
1 Credit  
This course is designed for the acquisition of intermediate/advanced level ballet technique and skill development. May be repeated up to 2 credits. Consent of Instructor required.  
Prerequisite(s): DANC 223.

DANC 324. Jazz Technique III  
3 Credits  
The study of intermediate/advanced jazz dance technique including vocabulary, history and practical application of functional anatomy. May be repeated up to 6 credits.  
Prerequisite(s): DANC 224 or consent of instructor.

DANC 325. Silver American Smooth  
3 Credits (2+2P)  
Silver level American Smooth patterns and technique with emphasis on performance. May be repeated up to 12 credits. Consent of Instructor required.  
Prerequisite(s): DANC 225.

DANC 326. Modern Dance III  
3 Credits  
The study of intermediate/advanced modern dance technique using the lenses of Laban and Bartinieff movement analysis and principles, functional anatomy, and imagery to increase modern vocabulary, skill development, performance accuracy, and artistic expression.  
Prerequisite(s): DANC 226 or consent of instructor.

DANC 326 L. Modern Dance Technique III Lab  
1 Credit  
This course is designed for the acquisition of intermediate/advanced level modern dance technique and skill development. May be repeated up to 2 credits.  
Prerequisite(s): DANC 226.

DANC 329. Flamenco III  
3 Credits  
Advanced study in flamenco dance technique, its cultural history and pedagogy methods. May be repeated up to 12 credits. Consent of Instructor required.  
Prerequisite(s): Consent of instructor.

DANC 329 L. Flamenco Dance III Lab  
1 Credit  
This course is designed for the acquisition of advanced level Flamenco dance technique and skill development. May be repeated up to 2 credits. Consent of Instructor required.

DANC 332. Silver International Latin  
3 Credits  
Learn Silver Level syllabus figures in the five (5) International Style Standard dances: Waltz, Tango, Viennese Waltz, Foxtrot & Quickstep. May be repeated up to 2 credits.  
Prerequisite(s): DANC 232.

DANC 335. Silver International Standard  
3 Credits  
Learn Silver Level syllabus figures in the five (5) International Style Standard dances: Waltz, Tango, Viennese Waltz, Foxtrot & Quickstep. Students will focus on increased technical understanding to increase their ability in partnering and musicality. May be repeated up to 12 credits. Consent of Instructor required.  
Prerequisite(s): DANC 235.

DANC 339. Flamenco Structure and Improvisation  
3 Credits  
A Study of various elements necessary in an improvisational setting in Flamenco. Using a cross section of Flamenco forms as a format. Students study the compass of each palo, then move to several traditional letras appropriate to these forms. May be repeated up to 9 credits. Consent of Instructor required.  
Prerequisite(s): DANC 229.

DANC 345. DanceSport Pedagogy: Smooth  
3 Credits  
In this teacher education course, students will begin to develop skills necessary in becoming a successful, professional Ballroom Dance Instructor. Students will gain technical mastery of Bronze level figures in the four (4) American Style Smooth Ballroom Dances to include the Waltz, Foxtrot, Tango and Viennese Waltz. Students will gain practical teaching experience in the area of Group Class Instruction with required in class practicums. May be repeated up to 9 credits. Consent of Instructor required.  
Prerequisite(s): DANC 225.
DANC 375. Dance Studio Management
3 Credits
The study and practice of studio management. Includes study of financial procedures, marketing, entrepreneurship, leadership, management, fund-raising and other related topics. May be repeated up to 3 credits. Restricted to: DANC majors.

DANC 379. Flamenco Choreography II
3 Credits
Students develop and perform group studies with an emphasis placed on the development of ensemble movement vocabulary, phrase building, and the exploration of choreographic tools for Flamenco on stage. Discussion, critiquing, and descriptive writing about their choreographic processes will supplement direct physical work. Level II will advance to small group work as well as mentoring level I students. Consent of Instructor required.
Prerequisite(s): DANC 279.

DANC 389. Principles of Choreography II
3 Credits
Continued investigation of the choreographic process with an emphasis on group choreography. Course must be passed with a grade of C or higher. Consent of Instructor required. Restricted to: DANC majors.
Prerequisite(s): DANC 289.

DANC 411. Flamenco Practicum
1 Credit
Directed learning experiences for careers in Spanish Dance. May be repeated up to 4 credits. Consent of Instructor required.

DANC 412. DanceSport Practicum
1 Credit
Directed learning experiences for careers in DanceSport. May be repeated up to 4 credits. Consent of Instructor required.

DANC 413. Contemporary Dance Practicum
1 Credit
Directed learning experiences for careers in contemporary dance. May be repeated up to 2 credits. Consent of Instructor required.

DANC 423. Ballet Technique IV
3 Credits
The study of advanced classical ballet technique including vocabulary, history and practical application of functional anatomy. May be repeated up to 6 credits.
Prerequisite(s): DANC 323 or consent of instructor.

DANC 423 L. Ballet Technique IV Lab
1 Credit
This course is designed for the acquisition of advanced level ballet technique and skill development. May be repeated up to 2 credits.
Prerequisite(s): DANC 323.

DANC 425. Gold American Smooth
3 Credits (2+2P)
Gold level American Smooth technique and choreography with an emphasis on performance and competition dancing. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: DANC majors.
Prerequisite(s): DANC 325.

DANC 426. Modern Dance Technique IV
3 Credits
The study of advanced modern dance technique using the lenses of Laban and Bartinieff movement analysis and principles, functional anatomy, and imagery to increase modern vocabulary, skill development, performance accuracy, and artistic expression. May be repeated up to 6 credits.
Prerequisite(s): DANC 326 or consent of instructor.

DANC 426 L. Modern Dance Technique IV Lab
1 Credit
This course is designed for the acquisition of advanced level modern dance technique and skill development. May be repeated up to 2 credits.
Prerequisite(s): DANC 326.

DANC 432. Gold International Latin
3 Credits
Students will complete all syllabus figures through the Gold level in the Rumba, Cha Cha, Samba, Jive and Paso Doble. Advanced training and practice in International Style Latin dance technique. May be repeated up to 12 credits. Consent of Instructor required.
Prerequisite(s): DANC 332.

3 Credits
An in depth study of the cross section of Flamenco and Spanish Dance traditions and genres from Spain with the influence of her colonies and the modern world from the early 1400s to Present.

DANC 465. Senior Culminating Experience
2 Credits
Exit course for graduating seniors. Students will apply comprehensive knowledge of performance and production and/or pedagogy experience, to culminate in a dance production and/or teaching project. May be repeated up to 4 credits. Restricted to: DANC majors.

DANC 466. Dance Pedagogy; Dance Technique
3 Credits
Students will learn to develop a curriculum design, apply teaching methods, and structure lesson plans for teaching specific dance styles. Course must be passed with a grade of C or higher. May be repeated up to 3 credits. Consent of Instructor required.

DANC 489. Advanced Choreographic Project
1-6 Credits (1-6)
Individual directed studies in choreography with a culminating performance. May be repeated up to 6 credits. Consent of Instructor required.

DANC 499. Problems
1-6 Credits (1-6)
Problems in dance education, dance pedagogy, dance performance and independent work in their solutions. May be repeated up to 6 credits. Consent of Instructor required. Prerequisite(s): Consent of instructor.

DANC 501. Directed Studies
1-4 Credits (1-4)
Supervised projects and/or research in theoretical studies, inclusive of community service projects. May be repeated up to 4 credits. Consent of Instructor required.

DANC 504. DanceSport Ensemble
1 Credit
Advanced Rehearsal and performance of DanceSport choreography with emphasis on formation and competition dances. May be repeated up to 6 credits.

DANC 505. Dance Ensemble III
1 Credit
Rehearsal and performance of dance repertory with emphasis on advanced understanding of musicality, dynamic phrasing, artistic expression, and athletic versatility within a broad range of styles. May be repeated up to 4 credits. Consent of Instructor required.

DANC 506. Advanced Spanish Dance Ensemble
1 Credit
Rehearsal and performance of Spanish Dance repertory with emphasis on flamenco structures, artistic expression, and athletic versatility. May be repeated up to 6 credits.

DANC 507. Advanced Hip Hop Dance Ensemble
1 Credit
Rehearsal and performance of Hip Hop repertory with emphasis on flamenco structures, artistic expression, and athletic versatility. May be repeated up to 6 credits.

DANC 510. Advanced Theory of Classical Spanish Dance Technique
3 Credits
Advanced study of dance pedagogy and theory with practice in Classical Spanish Dance technique. May be repeated up to 9 credits. Consent of Instructor required. Crosslisted with: DANC 310.

DANC 512. Advanced Theory of Hip Hop Dance Technique
3 Credits
Advanced study and research of Hip Hop dance styles. May be repeated up to 12 credits. Consent of Instructor required.

DANC 522. Advanced Theory of American Rhythm Technique
1-6 Credits (1-6)
Advanced study of dance pedagogy and theory with practice in American Rhythm technique. May be repeated up to 6 credits. Consent of Instructor required. Crosslisted with: DANC 322.

DANC 523. Advanced Theory of Ballet Technique
1-6 Credits (1-6)
Advanced study of dance pedagogy and theory with practice in ballet technique. May be repeated up to 6 credits. Consent of Instructor required. Crosslisted with: DANC 423.

DANC 525. Advanced Theory of American Smooth Technique
1-6 Credits (1-6)
Advanced study of dance pedagogy and theory with practice in American Smooth technique. May be repeated up to 6 credits. Consent of Instructor required. Crosslisted with: DANC 325.

DANC 526. Advanced Theory of Modern Dance Technique
1-6 Credits (1-6)
Advanced study of dance pedagogy and theory with practice in Modern dance technique. May be repeated up to 6 credits. Consent of Instructor required. Crosslisted with: DANC 426.

DANC 529. Advanced Theory of Flamenco Technique
1-6 Credits (1-6)
Advanced study of dance pedagogy and theory with practice in Flamenco technique. May be repeated up to 6 credits. Consent of Instructor required. Crosslisted with: DANC 329.

DANC 532. Advanced Theory of International Style Latin American
1-6 Credits (1-6)
Advanced study of International Latin American technique, styling and partnering skills. May be repeated up to 6 credits. Consent of Instructor required.

DANC 535. Advanced Theory of International Style Ballroom
1-6 Credits (1-6)
Advanced study of International Ballroom technique, styling and partnering skills. May be repeated up to 6 credits. Consent of Instructor required.

DANC 539. Advanced Theory of Flamenco Dance Structures and Improvisation
3 Credits
The advanced study of various elements necessary in an improvisational setting in Flamenco dance. Using a cross section of Flamenco musical forms as a format. Students study the compass of each palo, then move to several traditional letras appropriate to these forms. May be repeated up to 6 credits. Consent of Instructor required.

DANC 550. Special Topics
1-6 Credits (1-6)
Specific subjects offered in addition to standard academic curriculum. Course title to be announced in the Schedule of Classes. May be repeated up to 6 credits. Consent of Instructor required.
DANC 551. Movement Research Investigation
3 Credits
Preparation for writing a master's thesis or dissertation. Writing of three chapters: Chapter 1 - Introduction of topic under review, Chapter 2 - literature review, Chapter 3 – application of the literature review in the teaching or performance profession. May be repeated up to 3 credits. Consent of Instructor required.

DANC 566. Advanced Theory of Dance Pedagogy
1-6 Credits (1-6)
Advanced study of dance pedagogy theory and practice. May be repeated up to 6 credits. Consent of Instructor required.

DANC 567. Dance Internship I
2 Credits
Internship opportunities in either dance education, dance performance/production, or dance administration. Internship site determined by both Director of Dance Program and graduate student. Consent of Instructor required.

DANC 568. Dance Administration and Leadership
2 Credits
The study and investigation of both management and leadership theories and how to apply these theories in practice.

DANC 579. Advanced Theory of Flamenco Choreography
1-6 Credits (1-6)
The advanced study of flamenco choreography. Graduate students develop and perform solo/group dances with an emphasis placed on the development of personal movement vocabulary, phrase building, and the exploration of choreographic tools for Flamenco on stage. Discussion, critiquing, and descriptive writing about their choreographic processes will supplement direct physical work. May be repeated up to 6 credits. Consent of Instructor required.

DANC 599. Master's Thesis
1-6 Credits (1-6)
This course is for graduate dance students who choose to write a thesis instead of a performance or teaching project. May be repeated up to 6 credits. Thesis/Dissertation Grading.

DANC 600. Dance Research
3 Credits
Literature review and development of research in the field of dance.

DANC 670. Dance Internship II
3 Credits
Internship opportunities in either dance education, dance performance/production, or dance administration. Internship site determined by both Director of Dance Program and graduate student.

DANC 700. Doctoral Dissertation
3 Credits
This course is for interdisciplinary graduate students working toward their EdD or PhD in areas of dance movement, dance science, dance anthropology, dance history, or other related fields. May be repeated up to 6 credits. Consent of Instructor required.

Physical Education Courses
P E 102. Beginning Weight Training
1 Credit
Introduction to basic principles and techniques of weight training.

P E 103. Beginning Weight Training for Women
1 Credit
Introduction to basic principles and techniques of weight training as related to women.

P E 104. Military Physical Fitness
1 Credit
Directed physical fitness activities designed to develop and maintain muscular strength/endurance, cardiopulmonary efficiency, flexibility, and coordination required for leadership roles after graduation.

P E 109. Pilates
1 Credit
Designed exercise program involves the entire body while focusing on strengthening the core muscles of the torso. Exercises promote coordination, balance, and strength.

P E 112. Beginning Volleyball for Men
1 Credit

P E 113. Beginning Volleyball for Women
1 Credit

P E 114. Basketball for Women
1 Credit

P E 115. Basketball for Men
1 Credit

P E 117. Beginning Soccer
1 Credit
Introduction to the basic techniques and skills of soccer.

P E 127. Cardio-Kickboxing
1 Credit
Activities that mimic punches, blocks, and kicks which have been modified to serve the purpose of providing a cardiovascular workout.

P E 128. Aerobic Dance
1 Credit
Designed to increase knowledge of the human body's responses to exercise, enhance the level of muscular development, and cardiovascular endurance with the use of music.

P E 129. Step Aerobics
1 Credit
Designed to increase knowledge of the human body's responses to exercise, enhance the level of muscular development, and cardiovascular endurance with the use of music and steps.

P E 130. Beginning Swimming
1 Credit

P E 131. Aqua Aerobics
1 Credit
Designed to increase knowledge of the human body's responses to exercise, enhance the level of muscular development, and cardiovascular endurance through exercise in water.

P E 132. Intermediate Swimming
1 Credit
Development of fitness through participation in aquatics activities. Prerequisite(s): Ability to swim 200 yards.

P E 134. Lifeguard Training
2 Credits
Skills training for a nonsurf lifeguard. Course will include Standard First Aid and CPR certification. Prerequisites: swim 500 yards, dive to 9-foot depth and retrieve a 10-pound brick, surface dive to 5 feet then swim under water 15 yards, tread water one minute.

P E 147. Beginning Tennis
1 Credit
P E 148. Beginning Racquetball
1 Credit
P E 150. Beginning Golf
1 Credit
P E 154. Personal Defense
1 Credit
Physical conditioning and defense skills for men and women.
P E 159. Introduction to Brazilian Jiu-Jitsu
1 Credit
Brazilian Jiu-Jitsu is primarily a ground fighting art. This course will place heavy emphasis on positional strategy and focus on the sportive aspect of the sport. A Judo/Jiu-Jitsu Gi (uniform) is required.
P E 166. Futsal (Five-A-Side Soccer)
1 Credit
Futsal, official form of indoor soccer, approved by FIFA.
P E 173. Running Fitness
1 Credit
Basic fitness knowledge techniques and training methods of fitness running are practiced and refined.
P E 199. Yoga
1 Credit
A holistic approach to exercise benefiting the body, mind, and spirit. Practices focus on alignment, strength, breath relaxation, and restoration.
P E 202. Intermediate Weight Training
1 Credit
Intermediate training and skill techniques in weight lifting.
Prerequisite: P E 102 or consent of department head.
P E 203. Weight Training for Olympic and Powerlifting
1 Credit
Designed to teach the Olympic form-the clean, jerk and snatch. Class format is a preprogrammed style of instruction with preset programs. Emphasis placed on developing sound lifting techniques.
Prerequisite(s): P E 103 or consent of department head.
P E 204. Cross Training
1 Credit
Intensive training program that incorporates both aerobic and resistive overload approaches to training.
P E 205. Walking Fitness
1 Credit
Basic fitness knowledge techniques and training methods of fitness walking are practiced and refined.
P E 206. Beginning Physical Fitness
1 Credit
Progressive exposure to steady state exercise tailored to individual needs for the purpose of determining, improving, and maintaining physical fitness.
P E 212. Intermediate Volleyball-Men
1 Credit
Prerequisite: P E 112 or consent of department head.
P E 213. Intermediate Volleyball-Women
1 Credit
Prerequisite: P E 113 or consent of department head.
P E 215. Intermediate Walking
1 Credit
A continuation of basic fitness knowledge techniques and training methods of fitness walking are practiced and refined.
Prerequisite: P E 205 or consent of department head.
P E 216. Advanced Walking
1 Credit
Advanced walking fitness and training techniques are presented, practiced, and refined.
P E 228. Intermediate Aerobic Dance
1 Credit
Aerobic dance at a high intensity level with a more in-depth study of the body's physiological response to exercise.
Prerequisite: P E 128 or consent of department head.
P E 229. Intermediate Step Aerobics
1 Credit
Step aerobic dance at a high intensity level with a more in-depth study of the body's physiological response to exercise.
Prerequisite: PE 129 or consent of department head.
P E 230. Advanced Swimming
1 Credit
Perfection of basic strokes, survival swimming, and physical fitness.
Prerequisite(s): P E 130 or ability to swim 100 yards.
P E 263. Outdoor Recreation Skills
1 Credit
Selected outdoor activities. Appropriate subtitles, such as hiking and backpacking, camping and survival, hunting and gun safety, casting and angling skills. May be repeated for maximum of 4 credits.
P E 270. Special Topics
1-3 Credits
Specific subjects to be announced in the Schedule of Classes. Each offering will carry appropriate subtitle. May be repeated for a maximum of 4 credits.
P E 299. Intermediate Yoga
1 Credit
Intermediate training and skill techniques in Yoga.
Prerequisite(s): PE 199 or consent of instructor.
PE P 315. Elementary School Physical Education
3 Credits (2+2P)
Methods for teaching physical education at the elementary level. Primary focus on creating a learning environment for the acquisition and enhancement of developmentally appropriate locomotor, manipulative, and nonmanipulative skills. Field experience included. Consent of instructor required. Restricted to SED/PE P majors.
Prerequisite(s): GPA of 2.5.

PE P 319. Lifetime Activities
2 Credits
Knowledge and skills related to the lifetime activities of swimming, weight training, and other fitness promoting activities with emphasis on learning progressions.
Prerequisite(s): PE P 208.

PE P 323. Racquet Sports
2 Credits
Knowledge and skills related to the racquet sports of tennis, badminton, and pickleball with emphasis on developmental strategies and skill performance that influences pedagogical content knowledge. Administrative issues will be addressed.

PE P 363. Theory and Technique of Lifelong Outdoor Leisure Activities
2 Credits
Knowledge and skills related to lifelong outdoor leisure activities, including the examination of environmental science and awareness, kinesiology, and fundamental motor skills.

PE P 392. Theory and Technique of Sports and Games
2 Credits
Knowledge and skills related to team sports and games, with emphasis on developmental strategies and skill performance that influences pedagogical content knowledge. Administrative issues will also be addressed.

PE P 393. Theory and Technique of Dance and Rhythms
2 Credits
Knowledge and skills related to dance and rhythms, with emphasis on the analysis of dance elements and its role in physical education.

PE P 394. Designing Student Centered Afterschool Physical Activity Clubs
3 Credits
Knowledge, skills and field based practical application for creating student centered and student designed after school physical activity clubs.

PE P 455. Adapted Physical Education
3 Credits
Selection and scope of corrective activities in posture and body mechanics, and the adaptation of movement activities for the exceptional student.
Prerequisite: junior or senior standing.

PE P 465. Senior Seminar
3 Credits
Capstone course for physical education. Graded S/U.
Prerequisite: senior standing.

PE P 466. Methods of Teaching Secondary Physical Education
6 Credits
Theoretical and practical applications of curriculum, pedagogy and assessment for teaching secondary physical education. Provides the students opportunities to develop curriculum, teach, and assess student learning through a supervised practicum in both middle and high school physical education settings. Consent of instructor required.
Prerequisite(s): PE P 315 and admittance to TEP required.

PE P 499. Problems
1-3 Credits (1-3)
Problems in physical education and recreation and independent work in their solutions. A maximum of 3 credits during any one semester. May be repeated up to 6 credits. Consent of Instructor required.

PE P 501. Special Topics
1-4 Credits (1-3)
Offered under various subtitles that indicate the subject matter. May be repeated for a maximum of 3 credits per semester and a total of 6 credits overall. May be repeated up to 6 credits.

PE P 515. Advanced Athletic Training Education
3 Credits
Advanced clinical experiences and education in athletic training. Assessment of Athletic Training Program clinical proficiencies as described by the National Athletic Trainers’ Association Education Council. Consent of Instructor required.

PE P 550. Advanced Topics in Physical Education
1-4 Credits
Advanced study in teaching processes, perceptual motor development, bioenergetics, biomechanical instrumentation, psychological bases of performance, or motor control.

PE P 557. Adapted Physical Education : A Practitioner’s Approach
3 Credits
Preparation for qualified physical education professionals to teach individuals with disabilities motor and fitness skills. Knowledge of the Adapted Physical Education National Standards is developed so students may become nationally certified in the field. The inclusion of disability sports into general physical education curriculum is also major emphasis of this course. Consent of Instructor required.

PE P 624. The Social Construction of the Body
3 Credits
This course will explore how people's health and physical activity experiences and choices are often shaped by cultural narratives and expectations of the male and female body. Designed for graduate students in allied health and physical activity professions

Sports Medicine

SP M 175. Introduction to Kinesiology
3 Credits
An introduction to the field of Kinesiology which will explore areas such as exercise physiology, sport and exercise psychology, motor behavior, biomechanics, strength and conditioning, exercise prescription, as well as professional and graduate programs, and allied health and applied careers opportunities. Restricted to Las Cruces campus only.

SP M 190. Introduction to Athletic Training
3 Credits
Introduction to the principles of athletic training. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: SPM majors. Restricted to Las Cruces campus only.
SP M 191. Medical Terminology
3 Credits
Study of the structure of medical language with emphasis on sports medicine-related terminology. To include analysis and interpretation of medical documentation. Restricted to: Las Cruces campus only.

SP M 200. Career Preparation
1 Credit
From concept to implementation: Career exploration, setting up degree plans, finding graduate programs, developing professional resumes, writing letters of application, seeking letters of recommendation, and interview preparation. May be repeated up to 3 credits. Consent of Instructor required. Restricted to Las Cruces campus only.

SP M 223. Exploring Extreme Human Performance
3 Credits
A reading, writing and documentary based course studying human’s quest and the related sacrifices associated with participating in extreme performance activities such as the Olympics, wakeboarding, snowboarding, military special forces, ultra-run events, marathons, etc. Consent of Instructor required. Restricted to Las Cruces campus only.

SP M 250. Emergency Response in Sports Medicine
2 Credits
Designed to provide knowledge and experience in emergency care procedures, blood borne pathogens, and first aid. Students will receive certification in CPR/AED for the Professional Rescuer and in First Aid, upon successful completion of course. May be repeated up to 2 credits. Consent of Instructor required. Restricted to SPM majors. Restricted to Las Cruces campus only.

SP M 271. Anatomy & Physiology I
3 Credits
Detailed study of the structure and function of the human musculoskeletal, cardiovascular, respiratory, and peripheral nervous systems. Designed specifically for students interested in allied health professions. Restricted to Las Cruces campus only.

SP M 271 L. Anatomy and Physiology Laboratory
1 Credit
Compliment to SP M 271. Students will engage in activities designed to enhance appreciation of the anatomical structures related to the content areas for SP M 271. Restricted to Las Cruces campus only.

SP M 272. Clinical Practicum I
2 Credits
Introduction to the clinical aspects of the athletic training education program. Must maintain at least 3.0 GPA. May be repeated up to 4 credits. Consent of Instructor required. Restricted to: SP M majors. Restricted to Las Cruces campus only.

SP M 273. Clinical Practicum II
3 Credits
Athletic training psycho-motor skills are enhanced and assessed by a preceptor during clinical rotations. Emphasis is on competencies and proficiencies previously instructed in didactic courses. Must maintain a 3.0 GPA. Consent of Instructor required. Restricted to: SP M majors. Restricted to Las Cruces campus only.

SP M 290. General Medical Conditions
3 Credits
Study of the recognition, evaluation, management, and treatment of non-orthopedic medical conditions that affect the physically active population. Consent of Instructor required. Restricted to: SP M and Kines Majors majors. Restricted to Las Cruces campus only.

Prerequisite(s): SP M 190, 191 and 271/271L.

SP M 303. Health and Exercise Psychology
3 Credits
The course examines the reciprocal relationship among physical activity, exercise behavior, and psychological determinants associated with adopting and maintaining an exercise program. Topics include theories of behavioral change, exercise psychology interventions, the benefits/ pitfalls of exercise, and psychological factors influencing patient rehabilitation.

Prerequisite(s): GPA of 2.75.

SP M 304. Psychology of Sport
3 Credits
Development of coaching techniques to enhance sport performance based on understanding and use of psychological principles.

Prerequisite(s): GPA of 2.75.

SP M 305. Applied Biomechanics
3 Credits
The application of anatomical, mechanical and electrical concepts to better understand the fundamental nature of human movement.

Prerequisite(s): SP M 271 GPA of 2.75.

SP M 305 L. Applied Biomechanics Laboratory
1 Credit
This course serves to provide an introduction to human movement and its analysis. The conceptual framework of the course will allow for the application of anatomical, mechanical, and electrical concepts in order to better understand the fundamental nature of movement.

Prerequisite(s): SP M 271; GPA 2.75.

SP M 307. Pathophysiology and Human Function(s)
3 Credits
Students will discuss basic concepts of pathophysiology such as inflammation & repair, infectious diseases, neoplasms, and diseases of specific physiological systems. In addition, students will discuss a variety of case studies, and in so doing will be able to relate pathophysiologic conditions to symptoms, activity restrictions and disability.

Prerequisite(s): SP M 271; SP M 271L; SP M 308, GPA 2.75.

SP M 308. Exercise Physiology
3 Credits (2+2P)
Basic physiological principles as they apply to exercise and fitness programs. Laboratory experiences included. GPA of 2.75.

Prerequisite(s): SP M 271 or PE P 208.

SP M 309. Neurophysiology and Human Function
3 Credits
Students will discuss neurological control of human movement. Topics will include central and peripheral nervous system functions, with particular emphasis given to somatosensory afferent and motor efferent control. In addition, students will develop an understanding of the techniques employed to assess neurologic function in various patient populations.

Prerequisite(s): SP M 271; SP M 271L; SP M 308; and GPA of 2.75.
SP M 310. Orthopedic Examination, Evaluation and Diagnosis of Lower Extremity Injuries
4 Credits
Examines normal human anatomy, mechanisms of athletic injury, and deviation from normal anatomy following athletic injury to the lower extremity. Must maintain at least 3.0 GPA. Consent of Instructor required. Restricted to: SP M and KINES majors.

SP M 319. Lifetime Activities
2 Credits
Knowledge and skills with weight training, cardiovascular exercise, Tai Chi, Pilates, and other lifetime activities related to the promotion of health/fitness through a lifespan.

SP M 320 L. Palpation and Anatomical Kinesiology Laboratory
2 Credits
Practical hands-on clinical laboratory introducing techniques necessary for physiological and functional kinematic evaluation of human function. May be repeated up to 2 credits.
Prerequisite(s): SP M 271, SP M 271L, GPA 2.75.

SP M 324. Introduction to Exercise Science: Exercise Physiology and Biomechanics
3 Credits
This course serves to provide a broad introduction to both the physiology of exercise and the mechanics of human movement. The conceptual framework of the course will allow for the development of a broad knowledge base regarding these concepts and the latter portions of the course will focus on real world application of the concepts. Consent of Instructor required.
Prerequisite(s): SP M 271 Anatomy and Physiology I.

SP M 330. Exercise Testing and Prescription
3 Credits
This combined lecture and lab class introduces students to the scientific basis for and principles of exercise testing and prescription. The focus is on basic approaches to exercise testing and prescription for healthy adults, while application to some special populations with chronic disease will be discussed. GPA of 2.75.
Prerequisite(s): SP M 271 and SP M 308 or consent of instructor.

SP M 341. Motor Development
3 Credits
Covers development of motor skills from infancy through maturity. Focus on the principles of motor development, early motor behavior, stage theory, and assessment. Field experiences will augment lecture and readings. May be repeated up to 3 credits. Consent of Instructor required.

SP M 342. Motor Learning
3 Credits
An examination of the theoretical foundations and related literature that underline the learning, performing, and retention of motor skills with implications for effective teaching and coaching. May be repeated up to 3 credits.
Prerequisite(s): GPA of 2.5.

SP M 371. Anatomy and Physiology II
3 Credits
Detailed study of the structure and function of the human endocrine, immune, digestive, reproductive, integumentary, central nervous and renal systems. Designed specifically for students interested in allied health professions. GPA of 2.75.
Prerequisite(s): SP M 271G or consent of instructor.

SP M 371 L. Anatomy and Physiology II Lab
1 Credit
The students will develop skills in palpating various bony landmarks as well as origins and insertions of major soft tissues. In addition, problem based learning scenarios will be used to complement the SP M 371 lecture material and thereby further students understanding of certain physiologic systems including neural, digestive, reproductive, endocrine, and integumentary.
Prerequisite(s): SP M 271; SPM 271 L; GPA 2.75.

SP M 372. Clinical Practicum III
3 Credits
Athletic training psychomotor skills are enhanced and assessed by a preceptor during clinical rotations. Emphasis is on competencies and proficiencies previously instructed in didactic courses. Must maintain a 3.0 GPA. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: SP M majors.

SP M 373. Clinical Practicum IV
3 Credits
Athletic training psychomotor skills are enhanced and assessed by a preceptor during clinical rotations. Emphasis is on competencies and proficiencies previously instructed in didactic courses. Must maintain a 3.0 GPA. Consent of Instructor required. Restricted to: SP M majors.

SP M 375. Therapeutic Modalities
4 Credits
The physiological effects, indications, contraindication, dosage, and maintenance of therapeutic modalities related to the treatment of athletic or activity-related injuries. May be repeated up to 4 credits. Consent of Instructor required. Must maintain 2.75 GPA. Restricted to: SP M,KIN majors.
Prerequisite(s): Consent of Instructor, SP M 271.

SP M 409. Clinical Biomechanics
3 Credits
The application of biomechanical analysis of human movement as it relates to clinical proficiencies through the use of anatomical, mechanical and electrical concepts.
Prerequisite(s): SPM 271, GPA 3.0.
Corequisite(s): SP M 409 L.

SP M 409 L. Clinical Biomechanics Laboratory
1 Credit
Laboratory experiments and biomechanical analysis of human movement as they relate to clinical proficiencies through the use of anatomical, mechanical and electrical concepts.
Prerequisite(s): SP M 271, SP M 409, GPA 3.0.
Corequisite(s): SP M 409.

SP M 410. Orthopedic Examination, Evaluation and Diagnosis of Upper Extremity Injuries
4 Credits
Examines normal human anatomy, mechanisms of athletic injury, and deviation from normal anatomy following athletic injury to the upper extremity. Must maintain a 3.0 GPA. Consent of Instructor required. Restricted to: SP M and KINES majors.

SP M 411. Pharmacology in Athletic Training
2 Credits
An introduction to general medical conditions and pharmacological applications in the athletic training setting. Emphasis on the laws governing the development and distribution, indications, contraindications, precautions, and interactions of prescription and over-the-counter medications. Must maintain a 3.0 GPA. Consent of Instructor required. Restricted to: SP M and KINES majors.
SP M 412. Inferential Statistics in Sport and Exercise Science
3 Credits
Statistical concepts and methods basic to experiential research to include normal distribution, z-tests, t-tests, analysis of variance and regression analysis. An understanding of sport and exercise science theory is required for students enrolling in this course. Restricted to: KIN, SP M majors.
Prerequisite(s): GPA of 2.75; or consent of instructor.

SP M 415. Therapeutic Exercise
3 Credits
The physiological effects, indications, contraindications, dosage, and maintenance of therapeutic modalities related to the treatment of athletic or activity-related injuries. Must maintain a 3.0 GPA. Consent of Instructor required. Restricted to: SP M and KINES majors.

SP M 420. Orthopedic Examination, Evaluation and Diagnosis of Core, Spine and Head Injuries
3 Credits
Advanced clinical assessment techniques and applications. Must maintain at least a 3.0 GPA. Consent of Instructor required. Restricted to: SP M majors.

SP M 422. Clinical Practicum V
3 Credits
Athletic training psychomotor skills are enhanced and assessed by a preceptor during clinical rotations. Emphasis is on competencies and proficiencies previously instructed in didactic courses. Must maintain a 3.0 GPA. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: SP M majors.

SP M 423. Clinical Practicum VI
3 Credits
Athletic training psycho-motor skills are enhanced and assessed by a preceptor during clinical rotations. Emphasis is on competencies and proficiencies previously instructed in didactic courses. Students might complete a general medical rotation with this course. Consent of Instructor required. Restricted to: SP M majors.

SP M 424. Clinical Practicum VII
3 Credits
Athletic training psychomotor skills are enhanced and assessed by a preceptor during clinical rotations. Emphasis is on competencies and proficiencies previously instructed in didactic courses. Students might complete a general medical rotation with this course. Consent of Instructor required. Restricted to: SP M majors.

SP M 425. Organization and Administration in Athletic Training
3 Credits
An introduction to management, leadership, financial strategies, professional development and legal issues related to the athletic training setting. Must maintain 3.0 GPA. Consent of Instructor required. Restricted to: SP M majors.

SP M 445. Internship
6,12 Credits (6,12P)
A full-time internship in an approved wellness, fitness, athletic or recreation program with experience in all phases of management and operation. Field instructor supervision. This internship may require relocation to a site outside of the Las Cruces area. May be repeated up to 12 credits. Consent of Instructor required. Restricted to: Kinesiology Majors majors. S/U Grading (S/U, Audit).
Prerequisite(s): Senior standing, GPA of 2.75, completion of all major courses.

SP M 451. Advanced Exercise Physiology
3 Credits
Detailed study of the integrated response of neuromuscular, cardiovascular, and respiratory systems to acute and chronic exercise, nutrition, and environmental conditions with a strong emphasis on laboratory experiences. GPA of 2.75.
Prerequisite(s): SP M 271 and SP M 308 or consent of instructor.

SP M 456. Exercise for Special Populations
3 Credits
Fundamentals of kinesiology adapted for adults with various diseases and disabilities. Focus will be on the application of exercise assessment and prescription for selected conditions.
Prerequisite(s): SP M 308 and SP M 330; GPA of 2.75.

SP M 458. Physical Dimensions of Aging
3 Credits
This course introduces students to physical, physiological, social, mental, and emotional aspects of human aging. Age-related changes in human function are discussed in the context of applied healthcare settings, and the implications for appropriate physical activity and functional independence. GPA of 2.75.
Prerequisite(s): SP M 308.

SP M 460. Principles of Strength and Conditioning
3 Credits
Application of research, theory, and methods of high-intensity, resistive overload training. Performance-specific topics include management, nutrition. GPA of 2.75.
Prerequisite(s): SP M 308.

SP M 460 L. Principles of Strength and Conditioning Laboratory
1 Credit
An applied examination of the theory, principles, rules and regulations associated with various strength and conditioning exercises to include but not limited to Olympic lifting, powerlifting, bodybuilding, plyometrics, speed, agility and speed-endurance development. Lab required for Kinesiology majors. GPA of 2.75.
Prerequisite(s): SP M 308.

SP M 465. Ethics and Legal Issues in Athletic Training
3 Credits
Examination of the legal and ethical issues associated with the practice of athletic training and other health care fields. Must maintain a 3.0 GPA. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: SP M majors.

SP M 498. Advanced Athletic Training I
1-3 Credits (1-3)
Advanced clinical experiences and education in athletic training. Assessment of Athletic Training Program clinical proficiencies as described by the National Athletic Trainer's Association Education Council. Consent of Instructor required.

SP M 499. Problems
1-3 Credits
Problems in athletic training and independent work in their solutions. May be repeated up to 3 credits. Consent of Instructor required.
Prerequisite(s): Junior or Senior status; Consent of ATEP director.
SP M 504. Psychology of Sport
3 Credits
Development of coaching techniques to enhance sport performance based on understanding and use of psychological principles. Same as SP M 304 with additional requirements for graduate credits. Consent of Instructor required.
Prerequisite(s): Consent of instructor.

SP M 509. Clinical Biomechanics
3 Credits
The application biomechanical analysis of human movement as it relates to clinical proficiencies through the use of anatomical, mechanical and electrical concepts. Same as SP M 409 with additional requirements for graduate credits. Consent of Instructor required.
Prerequisite(s): Consent of instructor.

SP M 510. Graduate Athletic Training Seminar I
1-3 Credits (1-3)
Advanced seminar topics in athletic training. Students will explore generalized topics within the field of athletic training under the direct supervision of a Commission on Accreditation of Athletic Training Education (CAATE) accredited Athletic Training Program. Students may engage in teaching and research opportunities in unique areas. Students may explore athletic training topics within the classroom or independently through designated resources. Consent of Instructor required.

SP M 511. Graduate Athletic Training I
1-3 Credits (1-3)
Advanced clinical experiences and education in athletic training. Students will examine topics in athletic training in conjunction with faculty members within the Commission on the Accreditation of Athletic Training Education (CAATE) Athletic Training Program at New Mexico State University. Assessment of Athletic Training Program clinical proficiencies as described by the National Athletic Trainers’ Association Education Council. Consent of Instructor required.

SP M 512. Inferential Statistics in Sports and Exercise Science
3 Credits
Statistical concepts and methods basic to experiential research to include normal distribution, z-tests, t-tests, analysis of variance and regression analysis. An understanding of sport and exercise science theory is required for students enrolling in this course. Same as SP M 412 with additional requirements for graduate credit. Consent of Instructor required.
Prerequisite(s): Consent of Instructor.

SP M 513. Graduate Athletic Training Seminar II
1-3 Credits (1-3)
Advanced seminar topics in athletic training. Students will explore more specialized topics within the field of athletic training under the direct supervision of a Commission on Accreditation of Athletic Training Education (CAATE) accredited Athletic Training Program. Students should be prepared to further explore topics previously covered in SP M 512 (Graduate Athletic Training Seminar I). Students may engage in teaching and research opportunities in unique areas. Students may explore athletic training topics within the classroom or independently through designated resources. Consent of Instructor required.

SP M 514. Graduate Athletic Training Research I
1-3 Credits (1-3)
Advanced research topics in athletic training. Students will explore research and evidence based practices within the field of athletic training. Students will work under the direct supervision of a Commission on Accreditation of Athletic Training Education (CAATE) accredited Athletic Training Program faculty member. Students should be prepared to further explore research topics within a specific discipline with the intent of disseminating and sharing information with the athletic training community. Topics previously covered in SP M 512 (Graduate Athletic Training Seminar I). Students may engage in teaching and research opportunities in unique areas. Consent of Instructor required.

SP M 515. Graduate Athletic Training II
3 Credits
Advanced clinical experiences and education in athletic training. Assessment of Athletic Training Program clinical proficiencies as described by the National Athletic Trainers’ Association Education Council. Consent of Instructor required.

SP M 545. Skill Acquisition and Performance
3 Credits
Behavioral and physiological examination factors that influence the acquisition and performance of motor skills. May be repeated up to 3 credits. Consent of Instructor required. Crosslisted with: SP M 342.

SP M 551. Advanced Exercise Physiology
3 Credits
Detailed study of the integrated response of neuromuscular, cardiovascular and respiratory systems to acute and chronic exercise, nutrition and environmental conditions with a strong emphasis on laboratory experience. Consent of Instructor required.

SP M 556. Exercise for Special Populations
3 Credits
Fundamentals of kinesiology adapted for adults with various diseases and disabilities. Focus will be on the application of exercise assessment and prescription for selected conditions. Taught with PE P 456 with additional work required at the graduate level. Consent of Instructor required.

SP M 558. Physical Dimensions of Aging
3 Credits
This course introduces graduate students to physical, physiological, social, mental, and emotional aspects of human aging. Age-related changes in human function are discussed in the context of applied healthcare settings, and the implications for appropriate physical activity and functional independence. Graduate students in this course are expected to participate in organizing and leading some of the class discussions and assisting in the identification of appropriate materials for the course. Consent of Instructor required.

SP M 560. Principles of Strength and Conditioning
3 Credits
Application of research, theory, and methods of high-intensity, resistance training. Performance-specific topics include management, nutrition, exercise prescription, periodization, lifting techniques, testing, and evaluation. Course will emphasize standards set forth by the National Strength and Conditioning Association preparing students interested in sitting for the NSCA certification examinations. Consent of Instructor required.

SP M 597. Project
1-12 Credits (1-12)
Selected projects for doctoral students. May be repeated up to 12 credits. Consent of Instructor required.
SP M 600. Kinesiology Research
1-3 Credits (1-3)
Research to be conducted under the direction of a Kinesiology faculty member. May be repeated up to 15 credits. Consent of Instructor required.

SP M 608. Cardiovascular Physiology
3 Credits
This graduate level course provides an in-depth study of cardiovascular structure and function. The course assumes that students have a strong background in human physiology. Topics include, but are not limited to: cellular structure of the heart and vascular system; cardiac function, including electrophysiology of the heart; vascular function; neurohumoral control of the heart and circulation, organ blood flow, exchange function of the microcirculation; the impact of common cardiovascular diseases on cardiovascular structure and function, and cardiovascular adaptations to chronic exercise.

SP M 660. Designing Resistance Training Program
3 Credits
Detailed study of the physiological concepts associated with designing resistance-training programs for children, women, seniors, athletic performance and rehabilitation.

SP M 665. Skeletal Muscle: Structure and Function
3 Credits
Basic muscle morphology and physiology with molecular and cellular adaptations in skeletal muscle as consequences to varying exercise regimens.

SP M 700. Doctoral Dissertation
1-18 Credits (1-18)
Doctoral Dissertation hours to be conducted under the direction of a Kinesiology Faculty. May be repeated up to 18 credits. Consent of Instructor required. Thesis/Dissertation Grading.

Name: Phillip G. Post, Interim, Academic Department Head

Name: Maggie Karveller, Department Secretary

Office Location: Activity Center Room 204

Phone: (575) 646-2216

Athletic Training - Bachelor of Science in Athletic Training

The New Mexico State University (NMSU) Athletic Training Bachelors Degree Program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE), and has a competitive application process. The program provides a challenging didactic and comprehensive clinical educational experience, as well as, incorporates the values of a supportive academic and clinical community in order to prepare future leaders in athletic training.

Students who complete the degree requirements earn a Bachelor of Science in Athletic Training and are eligible to sit for the Board of Certification (BOC) examination. Students who pass the BOC exam are referred to as Certified Athletic Trainers (AT).

Please see the program webpage, https://kind.nmsu.edu/training/, for up-to-date information concerning all aspects of the Athletic Training Program (ATP).

Application Procedures for Traditional Undergraduate Students

A limited number of applicants will be admitted to the professional phase of the Athletic Training major. A maximum of 20 students will be admitted to the program each year. Application to the Athletic Training Program takes place during the spring semester. A second round of admissions may occur in the summer for students completing pre-requisite coursework during one of the summer terms if space is available. Interested students must meet with the Program Director prior to applying for admissions to the ATP.

Application to the Athletic Training Program requires:

1. A cumulative GPA of 2.75 or higher
2. A prerequisite GPA of 3.00 or higher
3. The following courses have specific grade requirements and are used to calculate the prerequisite GPA
   a. SP M 190 Introduction to Athletic Training with a grade of B or better
   b. SP M 250 Emergency Response in Sports Medicine with a grade of B or Better
   c. SP M 271 Anatomy & Physiology I with a grade of C- or better
   d. SP M 272 Clinical Practicum I with a grade of B or better
4. The following courses must be in progress and/or completed at time of application:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 121G</td>
<td>College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>or MATH 142G</td>
<td>Calculus for the Biological and Management Sciences</td>
<td></td>
</tr>
<tr>
<td>or MATH 190G</td>
<td>Trigonometry and Precalculus</td>
<td></td>
</tr>
<tr>
<td>or MATH 191G</td>
<td>Calculus and Analytic Geometry I</td>
<td></td>
</tr>
</tbody>
</table>

5. Submission of the following:
   a. Program application form
   b. An unofficial NMSU transcript
   c. Submission of official transcripts of any college courses taken at a college/university other than NMSU.
   d. Federal and state background check.
   e. Proof of current Emergency Cardiac Care (ECC) certification.
   f. Three forms of recommendation.
   g. Copy of physical examination completed by a licensed healthcare professional (MD/DO/PA/NP).
   h. Copy of vaccination verification showing completion of the following:
      i. MMR (2 doses administered 4-8 week apart or serologic test positive for MMR antibody)
      ii. Varicella (2 doses administered 4-8 weeks apart or serologic test positive for Varicella antibody)
      iii. Tetanus-Diphtheria-Pertussis (Tdap) 1 dose within the past 10 years
      iv. Hepatitis B. (3 doses administered over a period of 4-6 months)
      v. Annual TB screening
Athletic Training - Bachelor of Science in Athletic Training

i. A signed copy of the program’s technical standards for admission form.

j. Essay addressing the question “Why athletic training is the correct major and career path for you” (500 word minimum).

k. Completion of 30 hours of clinical observation under the supervision of an Athletic Trainer.

Applicants that cannot provide proof of vaccination due to religious or conscientious objection to vaccinations must meet with the Program Director.

Transfer Student Policy

Transfer students who meet the Application Requirements may be considered for admission into the Athletic Training Program provided there is space available. The admission of transfer students will include a careful evaluation of the student’s cumulative GPA and prerequisite coursework. The Program Director will make all decisions related to the acceptance of transfer courses required for the major. Transfer students should contact the Program Director regarding program requirements and any questions regarding transfer courses. Please see the program webpage, https://kind.nmsu.edu/training/transfer/, for a complete description of the AT program transfer policy.

Degree Requirements

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Select 3 credits from the following:

- SP M 499    | Problems                                          | 3       |
- or SP M 498 | Advanced Athletic Training I                      |         |

#### Statistics Requirement

Select 3 credits from the following:

- STAT 251G  | Statistics for Business and the Behavioral Sciences |         |
- STAT 271G  | Statistics for Psychological Sciences              |         |
- A ST 311   | Statistical Applications                          |         |
- SP M 412   | Inferential Statistics in Sport and Exercise Science |       |

### Electives, to bring the total credits to 120

Select a minimum of 7 credits from the following or approved by the AT Program Director:

- SP M 191   | Medical Terminology                                |         |
- SP M 304   | Psychology of Sport                                |         |
- or SP M 303 | Health and Exercise Psychology                      |         |
- SP M 305 L | Applied Biomechanics Laboratory                     |         |
- SP M 307   | Pathophysiology and Human Function(s)              |         |

- SP M 309  | Neurophysiology and Human Function                 |         |
- SP M 324  | Introduction to Exercise Science: Exercise Physiology and Biomechanics |         |
- SP M 330  | Exercise Testing and Prescription                   |         |
- SP M 341  | Motor Development                                   |         |
- SP M 342  | Motor Learning                                     |         |
- SP M 451  | Advanced Exercise Physiology                        |         |
- SP M 456  | Exercise for Special Populations                    |         |
- SP M 460  | Principles of Strength and Conditioning             |         |
- SP M 460 L| Principles of Strength and Conditioning Laboratory |         |
- SP M 498  | Advanced Athletic Training I                        |         |
- or SP M 499 | Problems                                          |         |

Total Credits: 120-122

---

1. Any of these mathematics courses, MATH 121G, MATH 142G, MATH 190G or MATH 191G, is required for the degree but students may need to take any prerequisites needed to enter any course first.

2. See the General Education (p. 49) (GE) section for a full list of courses, and specific specifications for the course to satisfy the GE Elective requirement.

3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.

4. Students interested in majoring in Athletic Training are encouraged to meet with the Athletic Training Program Director prior to enrolling in SP M 272 Clinical Practicum I.

---

### Dance - Bachelor of Arts in Dance

The Bachelor of Arts (BA) in Dance offers three concentration areas in which to pursue a dance degree. Undergraduate students can choose to focus their studies in Contemporary Dance, DanceSport or Spanish Dance.

Students must complete all University degree requirements including General Education requirements and Viewing a Wider World requirements. All students are required to take core dance courses, courses from their concentration area, as well as, electives from other concentrations. Cross training develops dancers who are well rounded professionals, competitors, and teachers. The B.A. prepares students for a professional performance and/or teaching career, as well as the appropriate background for the pursuit of advanced degrees in teaching, performance, choreography and other related fields. Grades of C- or better are required in Area 1: ENGL 111G Rhetoric and Composition; Area II: Mathematics; Dance Core Courses and Dance Concentration Courses. The College of Education requires a minimum GPA of 2.5 for graduation. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Students must complete a minimum of 120 credits with 48 credits in courses numbered 300 or above.

#### Concentration: Contemporary Dance

Contemporary Dance is the study of ballet, modern, hip hop, jazz, and tap. Students are trained in dance technique, dance education (teaching) and dance production. This concentration prepares dancers for pursuit of an advanced degree or a professional and/or teaching career.
The contemporary concentration consists of 50 credits, 27 contemporary dance core requirements (see below) and 23 contemporary dance elective credits from the elective list or repetition of the lab (L) courses.

Total Credits

120-122

1. See the General Education (p. 49) Section of the catalog for a full list of courses
2. A Mathematics General Education course is required for the degree but students may need to take any prerequisites needed to enter the Mathematics course of their course.
3. See the Viewing a Wider World (p. 53) Section of the catalog for a full list of courses
4. Elective credit may vary based on General Education course selection, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

**Concentration: DanceSport**

DanceSport or Ballroom Dance is the study of partner dancing in four different styles: Social or American Rhythm and Smooth and International Latin American and Standard Ballroom. This includes social dances such as Night Club, Two-Step, Salsa, Swing, Argentine Tango and more. This concentration trains students in dance techniques for careers in dance education (teaching), dance production and professional performance and competition.
The DanceSport concentration consists of 50 credits, 30 required credits and 20 elective credits from the elective list OR repetition of required courses.

1. See the General Education (p. 49) Section of the catalog for a full list of courses.
2. A Mathematics General Education course is required for the degree but students may need to take any prerequisites needed to enter the Mathematics course of their course.
3. See the Viewing A Wider World (p. 53) Section of the catalog for a full list of courses.
4. Elective credit may vary based on General Education course selection, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

**Concentration: Spanish Dance**

Spanish Dance is the study of Flamenco and Classical Spanish dance. Students are trained in dance technique, dance education (teaching) and dance production. This concentration prepares dancers for pursuit of an advanced degree or a professional performance and/or teaching career.

The Spanish Dance concentration consists of 50 credits, 43 required credits and 7 elective credits from the elective list OR repetition of required courses.
**Kinesiology - Bachelor of Science in Kinesiology**

The Bachelor of Science in Kinesiology degree program can be completed in one of three concentration areas: Exercise Science, Performance Psychology or Physical Education. For the required number of concentration area credit hours see the program descriptions below. Regardless of the concentration, students are required to complete 120 total semester hours for the Kinesiology degree. Additionally, students pursuing a Kinesiology degree will be responsible to ensure that they complete 48 upper division credits (300 and 400 level courses). Kinesiology students must maintain a minimum 2.75 GPA in order to enroll in most upper division SP M and PE P courses. ENGL 111G, Area II courses, all Kinesiology Core courses, concentration courses and approved electives must be completed with a grade of C- or better.

Successful completion of the Kinesiology degree will support a variety of careers in health sciences, biomedical research, and teaching. Information about Kinesiology and potential employment opportunities may be obtained at the Department of Kinesiology and Dance in the Activity Center 204, phone 646-2215.

### Concentration: Exercise Science

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, program requirements and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree.
requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Total Credits 18

Official minor documentation must be completed with the Department of Kinesiology and Dance and upon completion of coursework, final signature approval must be obtained by the Department Head or Kinesiology Program Director.

Many courses above (e.g., SP M 308, SP M 330, SP M 305, SP M 305 L, SP M 342, SP M 451, SP M 456, SP M 460 and SP M 460 L) require SP M 271 Anatomy & Physiology I as a prerequisite. In addition, SP M 330 is a prerequisite for SP M 456.

### Kinesiology - Doctor of Philosophy

#### Coursework

The PhD in Kinesiology requires a minimum of 36 credit hours of formal coursework (beyond a masters degree) and an expected 24 credit hours of research and dissertation work. Thus, the minimum expected credit hour accumulation is 60 credit hours.

At least 12 credit hours must come from graduate courses in the department of Kinesiology and Dance, and the student must have at least one course in each of the foundational knowledge content areas (CA) in Kinesiology, including:

1. relationships among physical activity, health, and quality of life
2. scientific foundations for study of physical activity and human movement
3. social, cultural and historical context of the study of physical activity
4. the practice of physical activity.

At least 12 credit hours must be taken in research methodologies, at least 3 credits of which must be in experimental statistics, and at least 3 credits from a qualitative methods course(s). There are many options for these courses on the NMSU campus that will permit the student to meet this requirement.

The remaining 12 credit hours are taken at the direction of the student’s advisor and committee, and agreed upon at the time of the student’s qualifying exam (see below).

#### Examinations

Students seeking the Doctor of Philosophy degree in Kinesiology must pass a qualifying examination that must be completed before accumulating more than 24 credit hours towards their degree, a Comprehensive Exam including written and oral elements that must be completed prior to beginning a final dissertation project, and a Final Exam that features the defense of their final dissertation study.
Dissertation

The candidate for the degree of Doctor in Philosophy in Kinesiology must complete a dissertation in a focused area of study. The student and his/her committee must agree upon the dissertation topic, and approval of the dissertation requires consent of the plurality of the student’s committee members. The student must complete a minimum of 18 dissertation credit hours.

School of Teacher Preparation, Administration and Leadership (TPAL)

The NMSU College of Education’s School of Teacher Preparation, Administration and Leadership (TPAL) is devoted to the preparation of master educators, administrators and leaders for public, private, and governmental institutions. Graduates are prepared to serve as teachers, directors of instruction and curriculum, subject matter specialists, supervisors of student teaching, educational leaders, and university professors.

Vision

We serve the State of New Mexico, borderlands and global communities with socially responsive scholarship, innovative programs, and collaborative initiatives in education that foster and enhance the capacity of educators and communities to advance equity, democracy, and social justice in education and society.

Mission

As a School within a land-grant and Hispanic Serving Institution, we support and advocate for equitable education for all, especially historically marginalized and multicultural/multilingual communities and students with exceptionalities. We accomplish this through teaching, scholarship, public service, the preparation of teachers and leaders, and collaborations across the disciplines and with our constituents.

Location

The main office of the School of Teacher Preparation, Administration and Leadership (TPAL) at New Mexico State University is located in O’Donnell Hall, Room 302.

- Master of Arts in Education Plus Licensure Concurrently (earn a teaching license in the areas of Elementary Education or Secondary Education while earning a Master of Arts in Education degree)
- Alternative Licensure
- Master of Arts in Education (Non-Licensure)
- Master of Arts in Education (for licensed PK-12 teachers) Concentrations:
  - Bilingual Education
  - Curriculum and Instruction/Multicultural Education
  - Early Childhood Education
  - Learning Design and Technology
  - Language, Literature and Culture
  - Teaching English to Speakers of Other Languages

Masters of Arts in Educational Administration
- Master of Arts (M.A.) and Licensure Program in Educational Administration- PK-12 program
- Master of Arts (M.A.) in Educational Administration – Community College and University Administration program

Master of Arts in Teaching
Concentrations:
- Dance
- Spanish

Masters of Arts in Special Education
- SPED Masters and Licensure Programs

Bachelor's:
- Early Childhood Education - Bachelor of Science in Education (p. 671)
- Educational Leadership - Bachelor of Science (p. 672)
- Elementary Education (Language Arts K-8) - Bachelor of Science in Education (p. 674)
- Elementary Education (Math Arts K-8) - Bachelor of Science in Education (p. 675)
- Elementary Education (Science Arts K-8) - Bachelor of Science in Education (p. 676)
- Elementary Education (Social Studies K-8) - Bachelor of Science in Education (p. 677)
- Secondary Education (Secondary Education Language Arts) - Bachelor of Science in Education (p. 678)
- Secondary Education (Secondary Education Math) - Bachelor of Science in Education (p. 680)
- Secondary Education (Secondary Education General Science) - Bachelor of Science in Education (p. 681)
- Secondary Education (Secondary Education Social Studies) - Bachelor of Science in Education (p. 682)
- Special Education (Elementary Education) - Bachelor of Science in Education (p. 684)
- Special Education (Secondary Education) - Bachelor of Science in Education (p. 685)
- Zero to Four Non-Licensure Track (Early Childhood) - Bachelor of Applied Studies (p. 690)

Masters:
- Education (Bilingual Education) - Master of Arts (p. 692)
- Education (Curriculum & Instruction) - Master of Arts (p. 693)
- Education (Early Childhood Education) - Master of Arts (p. 697)
- Education (Educational Learning Technologies) - Master of Arts (p. 697)
- Education (Language, Literacy & Culture) - Master of Arts (p. 697)
- Education (Teaching English Speakers of Other Languages) - Master of Arts (p. 698)
- Education (Dance) - Master of Arts in Teaching (p. 698)
- Education (Spanish) - Master of Arts in Teaching (p. 699)
Educational Administration (Higher Education Administration) - Master of Arts (p. 699)

Educational Administration (Pk-12 Administration) - Master of Arts (p. 700)

Special Education - Master of Arts (p. 701)

**Doctorates:**

Curriculum and Instruction - Doctor of Education (p. 703)

Curriculum and Instruction - Doctor of Philosophy (p. 706)

Educational Administration (Higher Education Administration)- Doctor of Education (ELDP) (p. 703)

Educational Administration (Pk-12 Administration) - Doctor of Education (ELDP) (p. 704)

Educational Administration (Higher Education Administration)- Doctor of Philosophy (ELDP) (p. 706)

Educational Administration (Pk-12 Administration) - Doctor of Philosophy (ELDP) (p. 708)

Special Education - Doctor of Education (p. 705)

Special Education - Doctor of Philosophy (p. 709)

**Undergraduate Minors**

Early Childhood Education - Undergraduate Minor (p. 692)

Educational Leadership and Administration - Undergraduate Minor (p. 692)

**Graduate Minors**

Higher Education Administration - Graduate Master's Minor (p. 709)

Pk-12 School Administration - Graduate Master's Minor (p. 710)

Pk-12 and Higher Education - Graduate Doctorate Minor (p. 710)

Special Education - Graduate Minor (p. 710)

Online Teaching & Learning Technologies (p. 710)

**Codeirectors of the Program:**

**Professor, Azadeh F. Osanloo, Co-Director**

**Associate Professor, Betsy (Elizabeth) Cahill, Co-Director**

**Professors:** Baptiste, Haynes Writer, A. Hernandez, Osanloo, Torres;

**Associate Professors:** Araujo, Cahill, Fahrenbruck, Flores Carmona, Huerta-Charles, Prentice, Reyes, Rutledge, Salas, Salazar Perez, Williams Pichon;

**Assistant Professors:** Engle Dow, Gray, Guillaume, Kew, Lucero, Marlatt, Pando, Parra, Ramdoss, Rubio, Woodley; **College Associate Professor:** Hannan, C. Hernandez; **College Assistant Professor:** Bagwell, Gorham-Blanco, Mason, Rodriguez-Straun; **College Professor:** Carela, Cifuentes; **Emeritus Professors:** Armendáriz, Dominguez, González, Ivory, Townley, Wilbur

A.F. Osanloo, Ph.D., Co-Director (Arizona State University) – educational equality, educational leadership and policy, philosophical foundation of education, issues of race, class, and gender in civic education; E. Cahill, Ph.D., Co-Director (Kent State University) – early childhood education; B. Araujo, Ph.D. (New Mexico State University) – critical pedagogy, bilingual education; H. P. Baptiste, Ed.D. (Indiana University) – science elementary; C. Engle Dow, Ph.D. (University of Missouri) – mathematics education; J. Fahrenbruck, Ph.D. (University of Utah) – culture and society, sociology of education; M. L. Fahrenbruck, Ph.D. (University of Arizona) – language, reading & culture; R. Guillaume, Ph.D. (New Mexico State University) – student development theory, biracial/multicultural identity development, higher education administration; J. M. Hannan, Ph.D. (New Mexico State University) – distance education administration, best practices in teaching distance education, student services for distance education students; J. L. Haynes Writer, Ph.D. (University of New Mexico) – critical multicultural & social justice education, Indigeneity, Native American education teacher preparation; A. Hernandez (Stanford University) – elementary literacy, sociolinguistics, biliiteracy-mutiliteracy, and teacher professional development; C. M. Hernandez, Ph.D. (Kansas State University) – science education; L. Huerta-Charles, Ph.D. (New Mexico State University) – multicultural/bilingual education; K. Kew, Ph.D. (Boston College) – educational change and reform, educational leadership, school culture, micro-politics; L. Lucero (University of Texas-El Paso) – teaching, learning, and culture, math, science, technology; R. Marlatt, Ph.D. (University of Nebraska-Lincoln) – language, literacy and culture; L. Mason, Ed.D. (University of Northern Colorado) visual impairment, orientation and mobility, literacy; M. Pando, Ph.D. (Texas Tech University) – bilingual education; J. L. Parra, Ed.D. (Pepperdine University) – online teaching & learning; technology integration; teacher/faculty professional development, innovative & transformative education; M. Prentice, Ph.D. (University of Texas at Austin)- community college administration, service learning issues, best practices in teaching higher education; S. Ramdoss, Ph.D. (University of Texas at Austin) autism and developmental disabilities, assistive technology, AAC; L. V. Reyes, Ph.D. (New Mexico State University) – early childhood education and critical pedagogy; D. Rodríguez-Straun, M.A. (New Mexico State University) – higher education administration, service learning practitioner, SLED program developer, teaching higher education, doctoral programs coordinator; D. Rutledge, Ph.D. (University of Colorado-Boulder) – learning technologies, international education, bilingual education/TESOL; L. Salas, Ph.D. (New Mexico State University) – bilingual and multicultural special education, early childhood special education; M. Salazar Perez, Ph.D. (Arizona State University) – early childhood; M. Torres, Ph.D. (University of New Mexico) – sociocultural and psychological foundation; H. Williams Pichon, Ph.D. (University of New Orleans) higher education administration, access and persistence of historically underrepresented groups in higher education, college student development, research; X. Woodley, Ph.D (New Mexico State University) – educational learning technology, critical pedagogy.

**Emeriti Professors**

A. L. Armendáriz, Ph.D. (University of New Mexico - emeritus) – school administration, leadership development, organizational theory; R. Domínguez, Ph.D. (New Mexico State University - emeritus) - educational administration, higher education, community college administration, leadership development; M. L. González, Ph.D. (New Mexico State University) – leadership in public school administration, multicultural organizations, C. T. Townley, Ph.D. (University of Michigan - emeritus) – knowledge management, higher education

**Early Childhood Education Courses**

ECED 115. Child Growth, Development, and Learning
3 Credits

This basic course in the growth, development, and learning of young children, prenatal through age eight, provides students with the theoretical foundation for becoming competent early childhood professionals.
ECED 125. Health, Safety, and Nutrition  
2 Credits  
This course provides information related to standards and practices that promote children’s physical and mental well being, sound nutritional practices, and maintenance of safe learning environments.

ECED 135. Family and Community Collaboration  
3 Credits  
This beginning course examines the involvement of families and communities from diverse cultural and linguistic backgrounds in early childhood programs. Ways to establish collaborative relationships with families in early childhood settings is discussed.  
Prerequisite(s): ECED 115 and ENGL 111G.

ECED 215. Curriculum Development Through Play  
3 Credits  
The second field-based curriculum course focuses on practicing developmentally appropriate curriculum content in early childhood programs, age 3 through third grade. Consent of instructor required.  
Prerequisite(s): ECED 220.

ECED 220. Early Childhood Education Practicum I  
2 Credits  
The beginning practicum course will provide experiences that address curriculum content that is relevant for children birth through age four in developmentally and culturally sensitive ways. Consent of instructor required.  
Prerequisite(s): ECED 115 and ENGL 111G.  
Corequisite(s): ECED 220.

ECED 225. Curriculum Development and Implementation II  
3 Credits  
The second curriculum course focuses on developmentally appropriate curriculum content in early childhood programs, age 3 through third grade. Development and implementation of curriculum in all content areas, including literacy, numeracy, the arts, health and emotional wellness, science, motor and social skills, is emphasized. Information on adapting content areas to meet the needs of children with diverse abilities and the development of IFSP’s and IEP’s is included. Consent of instructor required.  
Prerequisite(s): ECED 115 and ENGL 111G.  
Corequisite(s): ECED 225.

ECED 230. Early Childhood Education Practicum II  
2 Credits  
The second field-based curriculum course focuses on practicing developmentally appropriate curriculum content in early childhood programs, age 3 through third grade. Consent of instructor required.  
Prerequisite(s): ECED 115, ENGL 111G.

ECED 235. Introduction to Language, Literacy and Reading  
3 Credits  
This course is designed to prepare early childhood professionals for promoting children’s emergent literacy and reading development. Through a developmental approach, the course addresses ways in which early childhood professionals can foster young children’s oral language development, phonemic awareness, and literacy problem-solving skills, fluency, vocabulary, and comprehension.  
Prerequisite(s): ECED 115 and ENGL 111G.

ECED 245. Professionalism  
2 Credits  
This course provides a broad-based orientation to the field of early care and education. Early childhood history, philosophy, ethics and advocacy are introduced. Basic principles of early childhood systems are explored. Multiple perspectives on early care and education are introduced. Professional responsibilities such as cultural responsiveness and reflective practice are examined.  
ECED 255. Assessment of Children and Evaluation of Programs  
3 Credits  
This basic course familiarizes students with a variety of culturally appropriate assessment methods and instruments, including systematic observation of typically and non-typically developing children. Crosslisted with: SPED 255  
Prerequisite(s): ECED 115 and ENGL 111G.

ECED 265. Guiding Young Children  
3 Credits  
This course explores various theories of child guidance and the practical applications of each. It provides developmentally appropriate methods for guiding children and effective strategies and suggestions for facilitating positive social interactions. Strategies for preventing challenging behaviors through the use of environment, routines and schedule will be presented.  
ECED 270. Program Management  
3 Credits  
Technical knowledge necessary to develop and maintain a quality early care and education program. The course will focus on sound financial management and vision, laws and legal issues that affect programs and state and national standards including accreditation requirements.  
Prerequisite: consent of instructor.

ECED 275. Curriculum for Diverse Learners and Their Families  
3 Credits  
Implementation of family-centered programming that includes developmentally appropriate and culturally responsive curriculum. The course will also cover the establishment and maintenance of healthy and safe learning environments. Consent of instructor required.  
ECED 276. Effective Program Development for Diverse Learners and Their Families  
2 Credits  
Practical experience in observing and carrying out the role of the director/administrator in the implementation of family-centered programming that includes individually appropriate and culturally responsive curriculum in a healthy and safe learning environment. Consent of instructor required.  
Restricted to ECED majors.  
Corequisite(s): ECED 275.
ECED 280. Professional Relationships

3 Credits

Development of staff relationships that will foster strong professional relationships with and among families, communities and advisory boards. Issues of staff recruitment, retention, support and supervision will lay a foundation for positive personnel management. Working effectively with board, advisory groups and community members and agencies will be addressed. Consent of instructor required.

Corequisite(s): ECED 281.

ECED 281. Professional Relationships Practicum

2 Credits

Practical experience in the development of staff relationship that will foster professional relationships with families, communities and boards. Issues of staff recruitment, retention, support and supervision will lay a foundation for positive personnel management. Consent of instructor required. Restricted to ECED majors.

Corequisite(s): ECED 280.

ECED 315. Research in Child, Growth, Development and Learning

3 Credits

This advanced course in child growth, development, and learning builds upon the foundational material covered in the basic course in child growth, development, and learning. An integration of major theories of child development is provided by focusing on contemporary research in all aspects of development, including bio-ecological, social-affective, cognitive, language, and the methodological aspects of research in early childhood development and education. May be repeated up to 3 credits. Restricted to ECED majors.

Prerequisite(s): ECED 115.

ECED 351. Emergent Literacy

3 Credits (2+2P)

This advanced course is designed to prepare early childhood professionals to study literacy development, specifically oral language, writing and reading. This course focuses on children from birth through age 4, including children with special needs. Through a developmental approach, the course addresses: 1) recent theory and research that translates into practical strategies, assessment materials and preparation of rich literacy environments, 2) the socio-cultural contexts in which children develop literacy, 3) culturally, linguistically and developmentally appropriate literacy curricula, 4) processes used to determine the appropriateness of various literacy strategies, 5) assessment, evaluation, and accountability and 5) literacy leadership. Crosslisted with: RDG 351.

Prerequisite(s): ECED 235.

ECED 395. Special Topics

1-3 Credits

Each course will be identified by a qualifying subtitle. A maximum of 3 credits in any one semester and a grand total of 6 credits.

ECED 420. Integrated Early Childhood Curriculum

4 Credits

This advanced course focuses on developmentally appropriate content, learning environments, and curriculum implementation for children birth through age 4. It emphasizes integration of content areas (the arts, literacy, math, health/emotional wellness, science, social studies, motor, and adaptive living skills) and the development of rich learning environments for infants, toddlers, and preschool children.

Prerequisite(s): ECED 125, ECED 215, ECED 220, ECED 225, ECED 230, ECED 245, and ECED 265.

Corequisite(s): ECED 425.

ECED 425. Integrated Curriculum Practicum

2 Credits

The advanced practicum course is a field based course that will provide opportunities for the integration of content areas (the arts, literacy, math, health/emotional wellness, science, social studies, motor, and adaptive living skills) and the development of rich learning environments for infants, toddlers, and preschool children.

Prerequisite(s): ECED 125, ECED 215, ECED 220, ECED 225, ECED 230, ECED 245, ECED 265.

Corequisite(s): ECED 420.

ECED 440. Teaching and Learning Math and Science

4 Credits

Standards, principles, and practices in teaching mathematics and science to young children in preschool through grade 3. An emphasis is placed on developing a content-rich integrated math and science curriculum that focuses on children's development and interests, includes appropriate content, processes, environment, and materials with an emphasis on problem-solving as the major means of constructing basic concepts. Field experience required. May be repeated up to 4 credits.

Corequisite(s): ECED 329, ECED 455, RDG 350.
ECED 455. Teaching and Learning Social Studies, Fine Arts and Movement
3 Credits
The course focuses on the aims, scope, and integration of methods of teaching social studies, the fine arts and movement across the curriculum. This course emphasizes an integrated approach to teaching what and why of social studies; assessing student learning; planning units, lessons, and activities; effective instructional strategies; and knowledge of social studies content. Concepts of expressive art include the visual arts, music, movement and drama. May be repeated up to 3 credits.
Corequisite(s): ECED 329, ECED 440, RDG 350.

ECED 458. Field Experience (Infants Pre-K)
1 Credit
Supervised field experiences in early childhood settings: infants, toddlers, and pre-K programs. Graded S/U.

ECED 459. Field Experience (K-3)
1 Credit

ECED 465. Advanced Caregiving for Infants and Toddlers
3 Credits
The advanced field-based course is intended to assist students to define and implement advanced elements of quality programming for all infants, toddlers in safe, healthy, responsive caring environments. The experiences in the approved setting will support strong nurturing relationships, cultural competence, diverse learning needs and styles of every child, appropriate guidance techniques and partnership with the families, cultures, and community represented. Students are assisted through the course in advancing their ability to observe, discuss, and implement elements of quality programming for infants and toddlers in home, small-group or whole-group care situations. May be repeated up to 3 credits.
Prerequisite(s): ECED 215 and ECED 220; ECED 225 and ECED 230.

ECED 470. Student Teaching/Seminar
6 Credits
Provides student teaching experience in a variety of settings with young children ages birth 8. May be repeated up to 6 credits. Restricted to: TEP-ECED majors.

ECED 479. Curriculum in Early Childhood Education
3 Credits
Development and implementation of curriculum and materials for teaching young children.

ECED 489. Topics
3 Credits
Offered under various subtitles which indicate the subject matter to be covered. May be repeated three times for a maximum of 9 credits.

ECED 510. Issues in Early Childhood Education
3 Credits
Examines current trends and problems through readings of theoretical, empirical, and applied literature.

ECED 515. Working with Parents of Young Children
3 Credits
Techniques for setting up home and classroom visitations, communicating with parents, and establishing special programs.

ECED 520. Seminar on Cognitive and Social Development
3 Credits
In-depth study of developmental theories: Piaget, Kohlberg, Bruner, and Erikson. Implications for development of preschool programs and teaching techniques.

ECED 530. Leadership and Advocacy in Early Childhood
3 Credits
The course explores a multidisciplinary approach to early childhood educational leadership, advocacy and change. The course focuses on leadership in many forms: in teaching, administration, policy, research, and ethics. In addition, we will examine the theory and practice of change to gain an understanding of what contributes to advocating for policy and community change. Students will gain a deeper understanding of themselves as leaders, and ways to improve early education to promote social justice in programs and systems serving families and young children.

ECED 570. Play in the Early Childhood Curriculum
3 Credits
Advanced exploration of the development of curriculum based on children's play. A means of exploring and learning the patterns of human living, communications, and experiences congruous with developing interests and capacities. Restricted to majors. Same as ECED 451 with differentiated assignments for graduate students.

ECED 612. History and Philosophy of Early Childhood Education
3 Credits
Critical analysis of the historical development and philosophical underpinnings of the field of early childhood education as it relates to current practice. Restricted to doctoral-level students of any major.

ECED 614. Early Childhood, Communities, and Social Policy
3 Credits
Early childhood politics and policy taken from a global, national, state, and community context. Restricted to doctoral-level students of any major.

ECED 633. Praxis and Reflexivity
3 Credits
Same as BIL 633, EDUC 633, RDG 633, EDLT 633.

ECED 698. Selected Topics in Early Childhood Education
1-6 Credits
Offered under various subtitles. May be repeated for a maximum of 6 credits. Restricted to doctoral-level students of any major.

Education Courses

EDUC 101. Freshman Orientation
1 Credit
Introduction to the university and to the College of Education. Discussion of planning for individualized education program and field experience. Restricted to Las Cruces campus only.

EDUC 102. Internship I
3 Credits
Supervised experience in elementary education settings.

EDUC 103. Introduction with Internship in Bilingual Education/ESL
3 Credits
An overview of the American Education system with emphasis on organization, governance, law, demographics, and professional practice. Will include supervised experience in bilingual education/ESL elementary settings for prospective bilingual education/ESL teachers.
EDUC 150. Math for Paraprofessionals
3 Credits
Applied math skills for paraprofessionals working with children.
Prerequisite: CCDM 103.

EDUC 151. Math for Paraprofessionals II
3 Credits
Applied math skills for paraprofessionals working under the direction of a teacher.
Prerequisite: EDUC 150.

EDUC 181. Field Experience I
1 Credit
Introduction to public school teaching, school visits, classroom observations and discussion seminar.

EDUC 195. Individual Topics in Education
1-3 Credits
Supervised study in a specific area of interest. Each course shall be designated by a qualifying subtitle. May be repeated for a maximum of 9 credits.

EDUC 202. Internship II
3 Credits
Supervised experience in junior high settings.
Prerequisite: must be a co-op student.

EDUC 204. Foundations of Bilingual/ESL Education
3 Credits
Explore and review the historical, legal, philosophical, theoretical and pedagogical paradigms of bilingual/ESL education.

EDUC 219. Pre-Teacher Preparation
3 Credits
Assists students in developing the necessary competencies needed for acceptance to the Teacher Education Program. Course content includes basic skill development, test taking skills, and completion of teacher preparation packet. Maybe repeated for a maximum of 6 credits. Graded S/U. Community Colleges only.

EDUC 250. Introduction to Education
2 Credits
An overview of the American education system with emphasis on organization, governance, law, demographics, and professional practice. Restricted to Las Cruces campus only.

EDUC 281. Introduction to Secondary Education and Youth
3 Credits
Introductory course for students considering a career in secondary education. Includes historical, philosophical, and sociological foundations, program organization, critical dispositions, and understanding the context of schools and youth. Practicum required. Restricted to: Secondary Ed majors. Traditional Grading with RR.

EDUC 302. Internship III
3 Credits
Student teaching in public school classroom according to major area of interest.

EDUC 303. Secondary Bilingual/ESL Field Experience
3 Credits (2+2P)
Develop professional skills, dispositions, and understanding of secondary bilingual youth, content, and pedagogy through discussion seminar and interactions with public education mentor teachers. Focused observations, study of classroom language and culture, introduction to lesson planning and student assessment. Requires 32 hours of practicum field experience. Same as EDUC 381. Crosslisted with: EDUC 381.

EDUC 315. Multicultural Education
3 Credits (2+2P)
The conceptual manifestations of culture, race and ethnicity, class, gender, sexual orientation, exceptionalities, language, bilingualism, and global citizenship within the schooling process. May be repeated up to 3 credits. Crosslisted with: EDUC 317V.

EDUC 317V. Multicultural Issues in Society
3 Credits
Conceptual manifestations of culture, race, ethnicity, class, gender, exceptionalities, language, and bilingualism within and across society. Crosslisted with: EDUC 315.

EDUC 342. Sheltered English Instruction for the ESL Classroom
3 Credits
Addresses the acquisition of English proficiency by speakers of other languages.

EDUC 343. Language, Literacy, and Culture in the ESL Classrooms
3 Credits
Framework and strategies for developing the written abilities of second language learners.

EDUC 381. Secondary Field Experience
3 Credits (2+2P)
Develop professional skills, dispositions, and understanding of secondary bilingual youth, content, and pedagogy through discussion seminar and interactions with public education mentor teachers. Focused observations, study of classroom language and culture, introduction to lesson planning and student assessment. Requires 32 hours of practicum field experience. Same as EDUC 303. Crosslisted with: EDUC 303.

EDUC 395. Special Topics in Education
1-3 Credits
Offered under various subtitles in the Schedule of Classes. May be taken for a maximum of 3 cr. per semester and a total of 6 credits overall.

EDUC 402. Data Literacy and Assessment
3 Credits
Methods for selecting, constructing, and using multiple methods of assessment to monitor learner progress and improve student learning. Students will learn to analyze and use classroom and standardized assessment data to understand patterns and gaps in learning, to guide planning and instruction, and employ technology to support practice. May be repeated up to 6 credits.

EDUC 451. Methods of Teaching Elementary School Science
3 Credits (2+2P)
Methods and materials for teaching elementary school science. Includes components of lessons and the use of multimedia. May be repeated up to 3 credits. Restricted to: TEP-EED majors. Prerequisite(s): 9 hours of science from biology, chemistry, physics, and earth sciences, with no more than 3 hours from any one department.

EDUC 452. Methods of Teaching Elementary School Mathematics
3 Credits (2+2P)
Content, theories of cognition, and instructional approaches for the teaching of mathematics in the elementary grades. May be repeated up to 3 credits. Restricted to: TEP-EED majors. Prerequisite(s): MATH 111.
EDUC 454. Methods of Teaching Elementary School Social Studies
3 Credits (2+2P)
Focus on social studies curriculum and instruction including student-centered approaches, active learning, educational technology, noncontextual curriculum, integration, multicultural education, authentic assessment, and practical applications. May be repeated up to 3 credits. Restricted to: TEP-SED majors.

EDUC 460. Teaching Language Arts at the Middle and High School Level
3 Credits (2+2P)
Implications of cognition and language development for appropriate secondary instructional practices. Focus on construction of meaning, student-centered response to literature, writing process, print and oral language development, based on socio-psycholinguistic research and theory. Practicum required. Same as EDUC 560. May be repeated up to 3 credits. Restricted to: TEP-SED majors.

EDUC 461. Teaching Social Studies at the Middle and High School Level
3 Credits (2+2P)
Integrating content knowledge and pedagogy for the middle and high school teacher in social studies. The focus will be on a variety of instructional strategies and pedagogical skills that will enhance the learning of social studies. Practicum required. Same as EDUC 561. May be repeated up to 3 credits. Restricted to: TEP-SED majors.

EDUC 462. Teaching Mathematics at the Middle and High School Level
3 Credits (2+2P)
Integrating content knowledge and pedagogy for the middle and high school teacher in mathematics. The focus will be on a variety of instructional strategies and pedagogical skills that will enhance the learning of mathematics. Practicum required. Same as EDUC 562. May be repeated up to 3 credits. Restricted to: TEP-SED majors.

EDUC 463. Teaching Science at the Middle and High School Level
3 Credits (2+2P)
Integrating content knowledge and pedagogy for the middle and high school teacher in science. The focus will be on a variety of instructional strategies and pedagogical skills that will enhance the learning of science for students in grades 6-12. Practicum required. Same as EDUC 563. May be repeated up to 3 credits. Restricted to: TEP-SED majors.

EDUC 470. Elementary Student Teaching
9 Credits (9)
Synthesis of knowledge and skills appropriate to teaching in elementary schools. May be repeated up to 9 credits. Restricted to: TEP-EED majors. S/U Grading (S/U, Audit).

EDUC 471. Secondary Student Teaching
9 Credits (9)
Synthesis of knowledge and skills appropriate to teaching in secondary schools. May be repeated up to 9 credits. Restricted to: TEP-SED majors. S/U Grading (S/U, Audit).

EDUC 475. Contemporary Issues in Education
3 Credits (2+2P)
Discussion of contemporary issues including: classroom management, motivation, conferences, professional organizations, professional ethics, community influences, cultural pluralism, reform movements, instructional influences, and educational technology. Requires field experience component in a school or community setting. Same as EDUC 575. May be repeated up to 3 credits. Restricted to: TEP-SED majors.

EDUC 476. Science for Educators
3 Credits
This course will focus on the exploration of key central science concepts and how to connect learners to resources, tools of inquiry, and collaborative problem solving related to authentic local and global issues in classroom, lab, and digital science environments. Topics include: The nature of science, Physical Science, Life Science, Earth and Space Science.

EDUC 480. International Student Teaching Seminar
1 Credit
Preparation for students planning to teach in an international setting. Prerequisite: Must be scheduled one semester before graduation.

EDUC 481. Elementary Student Teaching Seminar
3 Credits (3)
Discussion of elementary school issues related to student teaching. Taken concurrently with EDUC 470. May be repeated up to 3 credits. Restricted to: TEP-EED majors.

EDUC 482. Middle and High School Student Teaching Seminar
3 Credits (3)
Discussion of secondary school issues related to student teaching. Taken concurrently with EDUC 471. May be repeated up to 3 credits. Restricted to: TEP-SED majors.

EDUC 489. Topics
1-3 Credits
Offered under various subtitles which indicate the subject matter to be covered. A maximum of 3 credits in any one semester and a grand total of 3 credits. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: TEP-SPED majors.

EDUC 495. Directed Study Courses in Education
1-3 Credits
Each course shall be identified by a qualifying subtitle. Maximum of 3 credits in any one semester and a grand total of 6 credits.

EDUC 501. Special Topics
1-3 Credits
Course subtitled in the Schedule of Classes. A maximum of 3 credits per semester and a total of 6 credits overall.

EDUC 504. Adult and Family Literacy in TESOL
3 Credits
An exploration of the theoretical, programmatic, and curricular frameworks for English language learners and their families. Focus on the development of culturally responsive and pedagogically sound literacy programs. Same as RDG 504.

EDUC 505. Classroom Management
3 Credits
Strategies for managing classroom settings and determining appropriate modification of instructional approaches to meet changing classroom situations.

EDUC 509. Teaching Methods Laboratory
3 Credits
Practical application of previously learned content. Prerequisite(s): Bachelors degree and admission to the Graduate School and departmental special program.

EDUC 510. Internship/Student Teaching
1-6 Credits (1-6)
Integrated with EDUC 509. Student is assigned to an elementary or secondary classroom for 14-16 weeks. Elementary or secondary. May be repeated up to 6 credits. Prerequisite(s): EDUC 509.
EDUC 515. Multicultural Education
3 Credits (2+2P)
Conceptual manifestations of culture, race, and ethnicity, class, gender, exceptionalities, language and bilingualism within the schooling process. Same as EDUC 315 with differentiated assignments for graduate students.

EDUC 516. Curriculum and Pedagogy I
3 Credits
Introduction, reconstruction, and other connections among historical, philosophical, sociocultural, psychological, and theoretical foundations of curriculum and pedagogy and their application to culturally and linguistically diverse teaching and learning settings.

EDUC 517. Technology and Pedagogy
3 Credits
Critical analysis, design, and evaluation of computer-based technologies in teaching and learning for diverse communities. May be repeated up to 3 credits.
Prerequisite(s): Graduate standing.

EDUC 519. Research in Curriculum and Pedagogy
3 Credits
An introduction to qualitative and quantitative designs for research in curriculum and instruction, with emphasis on action research.

EDUC 520. Action Research Projects
3 Credits
Deeper explorations and connections among foundations of curriculum and pedagogy and their application to culturally and linguistically diverse teaching and learning settings through action research projects, approaches to assessment, and agency.
Prerequisite(s): EDUC 515, 516, 518 & 519.

EDUC 530. Exploration in Education
3 Credits (2+2P)
Overview of elementary and secondary schooling. Includes opportunities to gain teaching experience in diverse settings.

EDUC 537. Independent Readings
1-3 Credits
Each project will be designated by a qualifying subtitle.

EDUC 542. Sheltered English Instruction for the ESL Classroom
3 Credits
Addresses the acquisition of English proficiency via the SIOP (Sheltered Instruction Observational Protocol) a research validated model for lesson planning and implementation that provides English learners with access to grade-level standards.

EDUC 543. Language, Literacy and Culture in the ESL Classrooms
3 Credits
Framework and strategies for developing the written abilities of second language learners. Explore different theories of language, culture and literacy by analyzing the interconnections between language, culture and literacy.

EDUC 550. Methods of Teaching Early Childhood Education
3 Credits
Characteristics of the young child, play, guidance, communication, methods, materials, models, issues. Same as EDUC 450 with differentiated assignments for graduate students.

EDUC 551. Methods of Teaching Elementary School Science
3 Credits (2+2P)
Methods and materials for teaching elementary school science. Includes components of lessons, planning and teaching lessons in schools, and multimedia. Same as EDUC 451 with differentiated assignments for graduate students.
Prerequisites: 9 hours of science from biology, chemistry, physics, and earth science with no more than 3 hours from any one department.
Corequisites: ECED 550, EDUC 552, and RDG 560 (block A course).

EDUC 552. Methods of Teaching Elementary School Mathematics
3 Credits (2+2P)
Content, theories of cognition, and instructional approaches for the teaching of mathematics in the elementary grades. Same as EDUC 452 with differentiated assignments for graduate students.
Prerequisite: MATH 111.
Corequisites: EDUC 554, EDUC 555, and RDG 561 (block B course).

EDUC 553. Methods of Teaching Elementary School Language Arts
3 Credits (2+2P)
Implications of language acquisition and development for instructional practices. Focus on student-centered response to literature, writing process, whole language learning, based on socio-psycholinguistic theory and research. Same as EDUC 453 with differentiated assignments for graduate students.
Corequisites: EDUC 554, EDUC 555, and RDG 561 (block B course).

EDUC 554. Methods of Teaching Elementary School Social Studies
3 Credits (2+2P)
Focus on social studies curriculum and instruction including student-centered approaches, active learning, educational technology, nontextual curriculum, integration, multicultural education, authentic assessment, and practical applications. Same as EDUC 454 with differentiated assignments for graduate students.
Corequisites: EDUC 554, EDUC 555, and RDG 561 (block B course).

EDUC 557. Science and Math Methods: Internship
3 Credits
Elementary alternative licensure process course designed to introduce intern licensed teachers to methods of instruction for mathematics and science. University supervision provided simultaneously with EDUC 557. Restricted to CI and HSS non-degree students.

EDUC 558. Social Studies/Language Arts Methods Internship
3 Credits
Elementary alternative licensure process course designed to introduce intern licensed teachers to methods of instruction of social studies and language arts. University supervision provided simultaneously with EDUC 558. Restricted to CI and HSS non-degree students.

EDUC 560. Teaching Language Arts at the Middle and High School Level
3 Credits (2+2P)
Implications of cognition and language development for appropriate secondary instructional practices. Focus on construction of meaning, student-centered response to literature, writing process, print and oral language development, based on socio-psycholinguistic research and theory. Practicum required. Same as EDUC 460 with differentiated assignments for graduate students. Prerequisite(s): TEP required EDUC 515 & EDUC 530.
EDUC 561. Teaching Social Studies at the Middle and High School Level  
3 Credits (2+2P)  
Integrating content knowledge and pedagogy for the middle and high school teacher in social studies. The focus will be on a variety of instructional strategies and pedagogical skills that will enhance the learning of social studies for student in grades 6-12. Practicum required. Same as EDUC 461 with differentiated assignments for graduate students. Prerequisite(s): TEP required EDUC 515 & EDUC 530.

EDUC 562. Teaching Mathematics at the Middle and High School Level  
3 Credits (2+2P)  
Integrating content knowledge and pedagogy for the middle and high school teacher in mathematics. The focus will be on a variety of instructional strategies and pedagogical skills that will enhance the learning of students in 6-12 setting settings for mathematics. Same as 462 with differentiated assignments for graduate students. Prerequisite(s): TEP required EDUC 515 & EDUC 530.

EDUC 563. Teaching Science at the Middle and High School Level  
3 Credits (2+2P)  
Integrating content knowledge and pedagogy for the middle and high school teacher in science. The focus will be on a variety of instructional strategies and pedagogical skills that will enhance the learning of science for student in grades 6-12. Practicum required. Same as EDUC 463 with differentiated assignments for graduate students. Prerequisite(s): TEP required EDUC 515 & EDUC 530.

EDUC 576. Qualitative Research  
3 Credits  
Introduction to qualitative research methodologies from problem formulation to interpretation of results.

EDUC 584. Assessment in Culturally & Linguistically Responsive Teaching  
1-3 Credits (1-3)  
An overview of approaches to assessment with a special focus on cultural and linguistic responsiveness needed for teaching learners of English as an additional language.

EDUC 585. Sociolinguistics in Education  
3 Credits  
Course provides an overview of sociolinguistics, with emphasis on the study of the relationship between language and society. Explores both foundational and current issues as they relate to educational practice.

EDUC 590. TESOL Practicum  
3 Credits  
Classroom applications of ESL literacy development through supervised teaching experiences accompanied by a seminar. Same as RDG 590.

EDUC 595. Directed Study Courses in Education  
1-3 Credits  
Each course will be identified by a qualifying subtitle. Maximum of 3 credits in any one semester and a total of 6 credits overall.

EDUC 598. Special Research Programs  
1-3 Credits  
Individual investigations either analytical or experimental. Maximum of 3 credits per semester and a total of 6 credits overall.

EDUC 599. Master's Thesis  
15 Credits  
Thesis.

EDUC 600. Doctoral Research  
1-15 Credits  
Research.

EDUC 601. Contemporary Curriculum/Instruction Practices  
1-3 Credits  
Course subtitled in the Schedule of Classes. A maximum of 3 credits per semester and a total of 6 credits overall.

EDUC 602. Internship in Curriculum and Instruction  
3-6 Credits  
For those pursuing an advanced graduate degree to meet the requirement for field work. Each course to bear an appropriate subtitle.

EDUC 603. Curriculum for a Diverse Society  
3 Credits  
Builds upon knowledge of the foundations of curriculum and professional experience in an educational setting. Focus on the role of the curriculum leader in understanding curriculum theory, designing curriculum, and implementing curriculum in various settings.

EDUC 604. Pedagogy of Learning in a Diverse Society  
3 Credits  
Builds upon knowledge of the foundations of instruction and professional experience in teaching and learning. Focus on diverse theories of instruction with relevant practices in pluralistic settings and multicultural interactions of teaching and learning.

EDUC 605. Independent Study Topics  
1-3 Credits  
A problem and seminar course for those pursuing an advanced graduate degree. Course subtitled in the Schedule of Classes.

EDUC 606. In-depth Interviewing: A Qualitative Research Method  
3 Credits  
Use of pilot research project to introduce students to in-depth interviewing techniques.

EDUC 607. Current Research in Educational Practice  
3 Credits  
A seminar for doctoral and education specialist students emphasizing current research and educational practices. Same as BIL 607, ECED 607, RDG 607, and SPED 607.

EDUC 608. Issues in Multicultural Curriculum and Instruction and Teacher Education  
3 Credits  
Builds upon multicultural theories and practices of teacher education. Restricted to doctoral-level students of any major.

EDUC 613. Evaluation of Quantitative Research in Education  
3 Credits  
A doctoral-level exploration of a broad range of quantitative research designs and methodologies for collection and analysis of data as applied to critical review of the literature. May be repeated up to 3 credits.

EDUC 623. Curricular Mediation for Democratic Communities  
3 Credits  
Problematization of the various relationships, roles, and leadership considerations which emerge within educational institutions, their structures, and their culturally democratic practices in the classroom, community, and society. Restricted to doctoral-level students of any major. Same as BIL 623, ECED 623.

EDUC 630. Critical Race Theory & Storytelling in Educational Spaces  
3 Credits  
An upper-level doctoral course focusing on the philosophical, theoretical, and methodological origins and practices of CRT and the sister frameworks that emerged from CRT, i.e., AsianCrit, BlackCrit, FemCrit, LatCrit, QueerCrit, TribalCrit, and WhiteCrit within educational spaces.
EDUC 633. Praxis and Reflexivity  
3 Credits  
Same as BIL 633, ECED 633, EDLT 633, RDG 633.

EDUC 634. Research as Praxis  
3 Credits  
Alternative community-or-school-based research aimed at investigating and transforming educational realities, with the participants for their own benefit. Students will experience the dynamic between research theory and practice in education. Crosslisted with: BIL 634, EDLT 634 and RDG 634. Restricted to: EDUC,C I,C ID majors.  
Prerequisite(s): EDUC 576 and 613.

EDUC 635. Critical Theory and Pedagogy  
3 Credits  
Covers the various schools of thought on pedagogy, the historical and philosophical foundations embedded in these schools, and their impact on educational settings. Restricted to doctoral-level students of any major. Same as BIL 635.

EDUC 637. Social Justice Issues in Education  
3 Credits  
Covers the systems of oppression located within the constructs of power and hegemony and their impact on schooling. Restricted to doctoral-level students of any major. Same as BIL 637.

EDUC 685. Practicum  
2-6 Credits  
Provision for field inquiries and experiences designed to prepare the doctoral student for assuming responsibilities in the areas of curriculum and instruction.  
Prerequisite: post-master's standing.

EDUC 694. Dissertation Seminar: Qualitative Research Designs  
1-6 Credits  
Dissertation seminar course for doctoral students utilizing a qualitative research design. Restricted to College of Education students.  
Prerequisite: consent of instructor.

EDUC 698. Selected Topics  
1-6 Credits  
Offered under various subtitles which indicate the subject matter to be covered. A maximum of 6 credits per semester and a total of 6 credits overall.

EDUC 699. Ed.S. Thesis  
1-15 Credits  
Offered primarily for those pursuing the research requirements for the Ed.S. degree. Course may be repeated up to a maximum allowed for this degree. Each research project will be designated by a qualifying subtitle.

EDUC 700. Doctoral Dissertation  
15 Credits  
Dissertation.

Educational Learning Technology Courses  

EDLT 268. Integrating Technology with Teaching  
3 Credits  
Considers impact of technology on communication and knowledge development; engages students in the design of technology-integrated lessons with a constructivist approach.

EDLT 368. Integrating Technology with Teaching  
3 Credits  
Considers impact of technology on communication and knowledge development; engages students in the design of technology-integrated lessons with a constructivist approach.  
Prerequisite: EDUC 168 or previous computer experience.

EDLT 520. Critical Digital Literacy  
3 Credits  
Explore, evaluate and use a variety of multimedia authoring tools including website, video, audio, image editing and apps (iOS/Android) for educational applications. Pre/  
Prerequisite(s)/Corequisite(s): EDUC 518 or consent of instructor.

EDLT 522. Technology and Language Learning  
3 Credits  
Use of technology to enhance second language and dual language programs. Organized around technology enhanced communicative and interactive language learning environments. May be repeated up to 3 credits.

EDLT 528. Foundations of Learning Design & Technology  
3 Credits  
This course covers how to access, use, design, and evaluate instructional resources on the Internet, for blended and online learning environments. Pre/  
Prerequisite(s)/Corequisite(s): EDUC 518 or consent of instructor.

EDLT 560. Fostering Online Learning Communities  
3 Credits  
Examines theoretical and practical aspects of communication and collaboration and their impact on the formation of online learning communities for those teaching adults in higher education, business, or government settings.

EDLT 561. Social Media in Blended and Online Learning Environments  
3 Credits  
This course will explore the role of social media in online and blended learning environments through practical hands-on activities, critical dialogue, and collaborative projects which will prepare you to utilize social media personally and pedagogically.

EDLT 572. Emerging Models for Learning Design and Technology  
3 Credits  
Applies instructional strategy development supported by technology for classroom curriculum.

EDLT 573. Culturally Responsive Teaching with Technology  
3 Credits  
Use of inquiry and problem-based learning supported by computer-based applications. Critical analysis of multiple forms of electronic media.  
Prerequisite(s)/Corequisite(s): EDUC 518 or consent of instructor.

EDLT 574. Technology Planning and Grant Writing  
3 Credits  
Application of principles of curriculum development to the integration of technology to improve educational programs. How to develop technology plans, assess current uses of technology, write grants to acquire technology, improve the management of existing and future learning resources, and develop staff development strategies in technology.

EDLT 575. Designing and Organizing Online Learning Environments  
3 Credits  
Explores the theories, models, approaches, technologies, and methods of online teaching and adult learning. Provides a foundation for examining the roles and characteristics of the online teacher and learner for those teaching adults in higher education, business, or government settings.
EDLT 577. Online Teaching and Learning  
3 Credits  
This course provides a survey of theories, models and methods used to design and delivery online education through the use of technologies in K-12, higher education, business/industry, and continuing education.

EDLT 578. Design and Delivery of Webconferences and Webinars  
3 Credits  
This course provides hands-on experiences with web conferencing and examines the theory and research of webconferencing’s impact on teaching and learning.

EDLT 579. Universal Design in Online Course Design  
3 Credits  
Examines theory, practical application of strategies, and global and policy implications of universal design (UD) in online learning environments.

EDLT 580. Tools and Techniques for Online Teaching  
3 Credits  
Examines the theoretical and practical implications of various asynchronous and synchronous tools and their impact on teaching and learning through research and hands-on experience.

EDLT 581. Emerging Technology Tools and Techniques  
3 Credits  
This course examines the theory, research, and practice of emerging technologies for educational practice and their impact on online teaching and learning.

EDLT 590. Assessing and Evaluating Online Learning  
3 Credits  
Explores a variety of online assessment and evaluation options with an emphasis on continual assessment and evaluation to improve teaching and learning.

EDLT 592. Directed Studies  
3 Credits  
Supervised academic work. Consent of Instructor required.

EDLT 607. Current Research in Learning and Technology  
3 Credits  
Explores models and methods for examining and researching the impact of technology on learning and education.

EDLT 610. Technology, Society, and Education  
3 Credits  
Same as EDUC 610.

EDLT 612. Advanced Fieldwork  
3 Credits  
Fieldwork in learning technologies provides opportunities to integrate theory and practice through research, teaching and/or development.

EDLT 620. Multimedia, Authoring and Curriculum Design  
3 Credits  
Explore, evaluate and use a variety of multimedia authoring tools including website, video, audio, image editing and apps (iOS/Android) for educational applications. Includes additional theoretical research component for doctoral students.

EDLT 628. Designing Educational Resources for the Internet  
3 Credits  
This course covers how to access, use, design, and evaluate instructional resources on the Internet, for blended and online learning environments. Includes a theoretical and research component for doctoral students.

EDLT 633. Praxis and Reflexivity  
3 Credits  
Same as BIL 633, ECED 633, EDUC 633, RDG, 633. Consent of Instructor required.

EDLT 672. Emerging Models for Learning Design & Technology  
3 Credits  
Integration of technology into content areas. May be repeated up to 3 credits.

EDLT 677. Online Teaching and Learning  
3 Credits  
This course provides a survey of theories, models and methods used to design and deliver online education through the use of technologies in K-12, higher education, business/industry, and continuing education. Topics covered include accreditation, assessment, culturally responsive course design, current trends and best practices, hybrid and blended learning, learning management systems, online support services, social justice issues in online education, learner engagement, and retention. Crosslisted with: EDLT 577.

Educational Leadership Administration Courses

ELA 215. Multicultural Leadership in Education  
3 Credits  
Introduction to the social and cultural constructions of gender, class, and race. Students will critically apply theoretical constructs to everyday life and discuss the intersection of gender and race with class inequality in national and global contexts. Using a social justice framework, readings, and assignments integrate a variety of racial/ethnic groups while considering the effects of historically uneven resource distribution, unearned privilege, forms of domination and subordination, immigration status, and cultural representation and ideologies. Participants will learn how to apply the change theories and concepts introduced in the course to practice through course readings, online discussions with the instructor and colleagues, group work, active examination of daily practice in schools, and personal reflection.

ELA 255. Leadership and Change in Education  
3 Credits  
This course will introduce students to the challenges and key strategies in initiating, implementing, and sustaining educational change and reform. In the first part of the course, participants will learn about the challenges of educational change in the United States and the role that they as school leaders play in facilitating change and reform. The course continues with an examination of how culture, micro-politics, and power structures support or impede national and global change initiatives. The last part of the course offers suggestions for change agents including community organizing, culture building, and embracing sustainable leadership practices. Participants will learn how to apply the change theories and concepts introduced in the course to practice through course readings, online discussions with the instructor and colleagues, group work, active examination of daily practice in schools, and personal reflection.

ELA 298. Special Topics in Education  
1-3 Credits (1-3)  
Special topics course in education for undergraduate students. Course will be identified by a subtitle. May be repeated up to 12 credits. Restricted to Las Cruces campus only.
ELA 342. Current Issues In Educational Leadership  
3 Credits  
This course addresses issues such as the rise in international education, education’s costs, social media’s role and influence, changes in state and national funding trends, student and faculty/staff diversity, among others. The focus of this course is centered on the actions and responses of administrators to the current issues they are facing.

ELA 350V. Introduction to Educational Leadership in a Global Society  
3 Credits  
Multinational educational systems covered through knowledge of the U.S. system of education promoting critical leadership roles every citizen plays in the success of educational systems.

ELA 398. Special Topics in Education  
1-3 Credits (1-3)  
Special topics course in education for undergraduate students. Course will be identified by a subtitle. May be repeated for a maximum of 12 credits.

ELA 411. Foundation for School Library Specialists  
3 Credits  
Elements of librarianship. Introduction to the history, purpose, and role of the school library. Overview of current issues and legislation affecting school libraries. Same as ELA 511. May be repeated up to 3 credits.

ELA 412. Administration of the School Library  
3 Credits  
Principles and practices related to the function, structure, and management of school libraries. Same as ELA 512. May be repeated up to 3 credits.

ELA 413. Curriculum Role of the School Library Specialist  
3 Credits  
Introduction to the integration of curriculum in school library programs. Current trends in collaborative planning and teaching between the school librarians and teachers. Taught with ELA 513. May be repeated up to 3 credits.

3 Credits  
Principles of identifying, selecting, acquiring, managing, and evaluating information for school libraries. Same as ELA 514. May be repeated up to 3 credits.

ELA 440. Management of Student Services  
3 Credits  
History and overview of student services (e.g., admissions, counseling, registration, financial aid, housing, food services, student organizations) for early entry level positions. This course will provide students with an examination of foundations and principals of student services. Important theories and essential competencies needed in order to be successful will be explored through a social justice perspective of leadership.

ELA 450. Principles of Education Law and Policy  
3 Credits  
Overview of the use of law and policy in schools and higher education. May be repeated up to 3 credits. Restricted to: E AD majors.

ELA 455. Principles of Education Budgeting and Finance  
3 Credits  
Analysis of budget and finance practices in education. Restricted to: EMD majors.

ELA 485. Elements of Research  
3 Credits  
This course provides students with a foundation for understanding educational research. The course will also provide grounding in proper writing format for use in the education profession. Students will be introduced to various research paradigms and the symbiosis of theory and practice. Besides introducing students to the symbiosis of theory and practice, students will complete assignments and activities that demonstrate the use of that symbiosis. Ultimately, students will be able to use the knowledge they gain through the course to be able to critique educational research.

ELA 499. Internship  
3 Credits  
The undergraduate Educational Leadership major requires that students complete two internships. Internships provide students with either experience working in an area of administration that is different from the student’s regular job or experience conducting research for a program or project. Each internship placement site and scope of work is determined through consultation with the course instructor. Students must complete 120 hours of work with the selected internship site. May be repeated up to 6 credits. Restricted to: EL majors.  
Prerequisite(s): Student must be an EL major and be within (at least) one year of graduation.

ELA 502. Special Problems.  
1-3 Credits  
Offered under various subtitles which indicate the subject matter covered. May be taken for a maximum of 3 credits per semester and a total of 6 credits overall. May be repeated up to 6 credits. Consent of Instructor required.

ELA 511. Foundation for School Library Specialists  
3 Credits  
Elements of librarianship. Introduction to the history, purpose, and role of the school library. Overview of current issues and legislation affecting school libraries. Same as ELA 411. May be repeated up to 3 credits.

ELA 512. Administration of the School Library  
3 Credits  
Principles and practices related to the function, structure, and management of school libraries. Same as ELA 412. May be repeated up to 3 credits.

ELA 513. Curriculum Role of the School Library Specialist  
3 Credits  
Introduction to the integration of curriculum in school library programs. Current trends in collaborative planning and teaching between the school librarians and teachers. Same as ELA 413. May be repeated up to 3 credits.

ELA 514. Collection Management and Development in School Libraries  
3 Credits  
Principles of identifying, selecting, acquiring, managing, and evaluating information for school libraries. Same as ELA 414. May be repeated up to 3 credits.

ELA 515. Principles of Education Law and Policy  
3 Credits  
Overview of the use of law and policy in schools and higher education. May be repeated up to 3 credits. Restricted to: E AD majors.

ELA 520. Management of Educational Change: Higher Education  
3 Credits  
Leadership in implementing innovations in education in higher education. Consent of Instructor required. Restricted to: E AD majors.

ELA 530. Management of Educational Change: Public Schools  
3 Credits  
Leadership in implementing innovations in education. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: E AD majors.
ELA 531. Special Education Administration
3 Credits
Competencies for the administration of special education programs with an emphasis upon New Mexico public school standards. Consent of Instructor required.

ELA 540. Management of Student Services in Higher Education
3 Credits
History and overview of student services (e.g., admissions, counseling, registration, financial aid, housing, food services, student organizations) and a review of management components used in student services. Consent of Instructor required.

ELA 550. Higher Education Law
3 Credits
This course is designed to review the impact of the legal process and the judiciary on higher education. Consent of Instructor required.

ELA 555. Higher Education Finance and Funding
3 Credits
This course examines the impact and process of financing and funding higher education. Consent of Instructor required.

ELA 563. Higher Education Administration
3 Credits
This course provides an overview of higher education in the United States including history, mission, and governance, in the context of organizational theory. Consent of Instructor required.

ELA 564. Internship Public Schools Part I
3 Credits
First half of a practical internship in Pk-12 schools under supervision of school administrator. Consent of Instructor required. Restricted to: E AD majors.
Prerequisite(s): 18 cr. of ELA coursework, 3 years of Pk-12 teaching experience and consent of instructor.

ELA 565. Internship: Public Schools Part II
3 Credits
Second half of a practical internship in Pk-12 administrative setting under supervision of experienced higher education administrator. Consent of Instructor required. Restricted to: E AD majors.
Prerequisite(s): ELA 564.

ELA 566. Internship: Higher Education Part I
3 Credits
First half of practical internship in administrative setting under supervision of experienced higher education administrator. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: E AD majors.
Prerequisite(s): 15 credits of ELA coursework and consent of instructor.

ELA 567. Internship: Higher Education Part II
3 Credits
Second half of a practical internship in an administrative setting under supervision of an experienced higher education administrator. Consent of Instructor required. Restricted to: E AD majors.
Prerequisite(s): ELA 566.

ELA 568. Topics in School Administration
1-3 Credits
Designated by subtitle.

ELA 569. Basing Decision on Data: Higher Education
3 Credits
Analysis of accountability data and other evidence to support educational decision making. Disaggregating and interpreting assessment data to guide improvement of instruction. Moving from evidence to plans for action. Consent of Instructor required.

ELA 570. Educational Leadership, Supervision, and Evaluation
3 Credits
Leadership, supervision, and evaluation in Pk-12 and post secondary education. Consent of Instructor required.

ELA 572. History and Philosophy of Education
3 Credits
An overview of the historical development of the American school system and the relation of various philosophies to American education.

ELA 575. The Principalship
3 Credits
Key issues surrounding the role of school-site leaders. Consent of Instructor required.

ELA 576. Educational Financial Management
3 Credits
Educational finance and business applications. Consent of Instructor required.

ELA 578. Leadership and Administration of Bilingual Education
3 Credits
Concepts and practical approaches to improving the education of English languages learners through higher education. Consent of Instructor required.

ELA 579. Public School Law
3 Credits
Legal processes of education, major court decisions, and the legislative process will be studied. Consent of Instructor required.

ELA 580. Administration of Adult and Continuing Education
3 Credits
Administration of programs in public schools, higher education, community and nontraditional educational settings. Consent of Instructor required.

ELA 582. Community College Administration
3 Credits
An overview of the history, role, objectives and patterns governing the effectiveness of the community college. Consent of Instructor required.

ELA 585. Elements of Research
3 Credits
Survey and analysis of research methods and designs focusing on sound educational research and its presentation. Consent of Instructor required.

ELA 586. Multicultural Leadership in Education
3 Credits
Examine cultural diversity and how appropriate understanding, leadership and instructional strategies can be used to reach all learners. Enhances understanding of what it means to be an educator in culturally diverse contexts. Consent of Instructor required.

ELA 589. Evaluation Design in Education
3 Credits
This course focuses on evaluation and accountability models; application to educational programs. Consent of Instructor required.
ELA 590. Basing Decision on Data: Pk-12
3 Credits
Analysis of accountability data and other evidence to support educational decision making. Disaggregating and interpreting assessment data to guide improvement of instruction. Moving from evidence to plans for action. May be repeated up to 3 credits. Consent of Instructor required.

ELA 595. Current Topics
1-6 Credits
Offered under various subtitles which indicate the subject matter covered. May be taken for a maximum of 6 credits.

ELA 598. Independent Studies
1-3 Credits
Individual investigation in special topic areas. Requires prior approval of project advisor.

ELA 600. Doctoral Research
1-15 Credits

ELA 615. Organizational Theory
3 Credits
The overarching objectives of this class is to prepare educational leaders who comprehend the complexities of educational organizations, especially those with significant underrepresented populations; to initiate or maintain leaders' commitment to educational programs that embrace all learners; and to promote within leaders an understanding of the necessity of upholding social justice, primarily as it applies to issues, such as race, ethnicity, class, ability, religion, and gender. Consent of Instructor required. Restricted to: E AD majors.

ELA 620. Doctoral Seminar
1-3 Credits
A study of current issues in educational administration at the national, state, and local levels. May be repeated up to 6 credits. Consent of Instructor required.

ELA 622. Quantitative Research I
3 Credits
Explores quantitative research methods, the rationale and assumptions that guide statistical decisions, beginning level statistical analyses, and how all of these are applied in the field of educational leadership. May be repeated up to 3 credits. Consent of Instructor required. 
Prerequisite(s): Consent of instructor.

ELA 623. Qualitative Research I
3 Credits
Explores qualitative research methods and models and their application in the field of educational leadership. May be repeated up to 3 credits. Consent of Instructor required. 
Prerequisite(s): Consent of instructor.

ELA 630. Concepts of Leadership in Education
3 Credits
Survey of concepts of leadership in general and educational leadership in particular. Consideration of implications for practice. May be repeated up to 3 credits. Consent of Instructor required.

ELA 635. Scholarly Writing and the Southwest Border
3 Credits
This course is designed to provide doctoral-level students with an opportunity to engage with scholarly and academic writing in a meaningful manner. Scholarly writing and academic writing are often used interchangeably. They will be used in that manner for this course. Generally defined, academic writing refers to a particular style of expression that researchers use to define the intellectual boundaries of their disciplines and their areas of expertise. Scholarly writing is the specific genre of writing that is used in all academic fields. For this course, the scholarly writing is contained to the context of the Southwest Border and Borderland issues. This is designed in consideration of and relates to the Department and Program's mission, which takes into account social justice and border education issues. Additionally, the course will cover topics associated with scholarly writing that include, but not limited to: formal language, tone, precision, clarity, word choice, and assumptive statements versus research-supported rationale. Consent of Instructor required. Restricted to: E AD majors.

ELA 645. The Professoriate
3 Credits
The purpose of this course is to explore the body of scholarly knowledge and research appropriate for the study of American higher education, the context in which teaching and learning occurs, and faculty's roles in the process. We will discuss the number, variety, and purpose of the various types of institutions; the different roles that faculty members play within these institutions; how faculty work is assessed and valued within the outside of the university; administrative regulations related to faculty work; current issues related to the general state of the professoriate; as well as how does one prepare to enter the professoriate.

ELA 650. Higher Education Law
3 Credits
This advanced course is designed to review the impact of the judiciary on higher education. The legal standing of institutions of higher education on issues of staff rights, student rights, and tort liability will be addressed. In addition, the impact of local ordinances, state and federal laws and regulations will be examined. Consent of Instructor required.

ELA 655. Higher Education Finance and Funding
3 Credits
This advanced course examines the impact and process of financing and funding higher education. The course is an examination of higher education finance as it relates to operational budgets, capital budgets, and policy issues which impact the financing of higher education. Consent of Instructor required.

ELA 670. Advanced Internship
1-6 Credits
For those pursuing an advanced degree to meet the field work requirement. To bear an appropriate subtitle. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: E AD majors. S/U Grading (S/U, Audit).

ELA 671. Foundations of Educational Administration
3 Credits
Advanced course about the political, economic, and social forces on policy making and governance of Pk-12 and postsecondary education. May be repeated up to 3 credits. Consent of Instructor required.

ELA 675. Educational Financial Management
3 Credits
This advanced course offers an overview of economic and financial concerns relating to the public school system of the United States. Consent of Instructor required.
ELA 679. Public School Law
3 Credits
Advanced course in which the legal processes of education, major court decisions, and the legislative process will be studied. Consent of Instructor required.

ELA 682. Quantitative Research II
3 Credits
Intermediate quantitative methods of research, statistical analyses, and their application in the field of educational leadership. May be repeated up to 3 credits. Consent of Instructor required. Restricted to Doctoral students only.
Prerequisite(s): ELA 622.

ELA 683. Qualitative Research II
3 Credits
Advanced qualitative methods of research and implementation in the field of educational leadership. May be repeated up to 3 credits. Consent of Instructor required.
Prerequisite(s): ELA 623.

ELA 685. Elements of Research
3 Credits
Advanced survey and analysis of research methods and designs focusing on sound educational research and its presentation. Consent of Instructor required.

ELA 689. Evaluation Design in Education
3 Credits
Advanced course that focuses on evaluation and accountability models; application to educational programs. Consent of Instructor required.

ELA 693. Dissertation Seminar
3 Credits
Same as BIL, C EP, ECED, EDUC, RDG, SPED 693. Consent of Instructor required.

ELA 698. Selected Topics
1-6 Credits
Offered under various subtitles which indicate the subject matter covered. May be taken for a maximum of 6 credits per semester and overall total: May be repeated up to 9 credits.

ELA 700. Doctoral Dissertation
1-9 Credits
Dissertation. Minimum of 3 credits per regular semester. May be taken for a maximum of 36 credits. Consent of instructor required.

Special Education Courses

SPED 201. Topics
3 Credits
Offered under various subtitles that indicate the subject matter to be covered. May be repeated 3 times for a maximum of 9 credits.

SPED 202. Culture, Learning and Academic Achievement in a Diverse Society
3 Credits
Development of culturally responsive learning strategies, skills and utilization of support services, to enhance academic achievement. Restricted to: Main campus only.

SPED 210. Introduction to Special Education
3 Credits
For paraprofessional students who will be working with a teacher in a Special Education classroom. This class will provide an overview of characteristics of children with special needs, legal issues, framework of effective instruction and a variety of practical teaching and learning strategies that are relevant to the tasks and academic demands required in inclusive classrooms.

SPED 350. Introduction to Special Education in a Diverse Society
3 Credits
Characteristics, identification, and educational needs of exceptional learners. Attention is given to the various types of programs serving exceptional learners. Designed for all professional personnel who work with exceptional learners.

SPED 355. Introduction to Bilingual/Multicultural Special Education
3 Credits
Introduction to issues related to the provision of services to culturally and linguistically diverse students with exceptionalities. Same as BIL 355.

SPED 360. Elementary Curriculum, Methods, and Materials for Special Education in a Diverse Society
3 Credits
Curriculum theory and development for special education programs. Various teaching methods utilized with elementary exceptional learners and techniques involved in identifying, adapting, and developing materials will be addressed.

SPED 406. High Incidence Disabilities in a Diverse Society
3 Credits
Examines those areas of disability that most frequently occur in the special education population, including mental retardation, learning disabilities, communication disorders, and behavioral and emotional disorders.

SPED 407. Low Incidence Disabilities in a Diverse Society
3 Credits
Examines those disabilities that occur less frequently in the special education population, including hearing loss, visual disorders, autism, and other severe manifestations.

SPED 409. Reading for Elementary Exceptional Learners in a Diverse Society, K-6
3 Credits
Emphasizes reading diagnosis and materials for students with special developmental and learning problems. Taught with SPED 509.

SPED 411. Reading for Elementary Exceptional Learners in a Diverse Society, 7-12
3 Credits
Extends information covered in SPED 509, which covers grades K 6. Strategies and materials are addressed.

SPED 450. Working with Young Children with Special Needs, Ages 3-8
3 Credits
Addresses competencies for working with young children with exceptionalities, ages three-eight, and their families. Public school, private school, Head Start and other models are included. Taught with SPED 550. May be repeated up to 3 credits.
Prerequisite(s): SPED 350 or equivalent.
Corequisite(s): SPED 451.
SPED 451. Assessment of Young Children, Birth-Eight
3 Credits
Covers instruments and procedures for assessing young children and their families in order to determine atypical development. Screening, diagnosis, program planning, placement and evaluation issues are covered. May be repeated up to 3 credits.
Corequisite(s): SPED 450.

SPED 459. Classroom Management for Diverse Learners
3 Credits
Behavior-change strategies for exceptional learners.

SPED 463. Introduction to Assessment of Diverse Exceptional Learners
3 Credits
Theory and use of norm and criterion-referenced instruments and learning theories in the classroom; planning of prescriptive instructional programs.

SPED 470. Life Span Development and Transition in a Diverse Society
3 Credits
Special problems associated with transitions over the life span, with emphasis on adolescent and adult needs. Attention to service approaches for public schools, sheltered workshops, residential hospitals, and group homes.

SPED 480. Secondary Curriculum, Methods, and Materials for Special Education in a Diverse Society
3 Credits
Curriculum theory and development for elementary special education programs. Various teaching methods utilized with secondary exceptional learners and techniques for identifying, adapting, and developing materials will be addressed. Taught with SPED 580.

SPED 481. Practicum in Education, Equity and Cultural Diversity
3 Credits
This is a supervised experience in providing special education services to local preK-12 students. In the context of the public school classroom, teacher candidates are guided to apply content knowledge from the seminar meetings and from prior coursework. Restricted to: SPED majors.
Prerequisite(s): SPED 350 and SPED 360 or consent of instructor.

SPED 482. Student Teaching SPED
12 Credits
Supervised teaching in a special education classroom and participation in a required seminar. Restricted to: SPED majors.
Prerequisite(s): SPED 481 and admission to student teaching.

SPED 483. Early Childhood SPED Student Teaching
6 Credits
A student teaching experience designed for students studying early childhood special education. Restricted to majors. Same as SPED 583.
Prerequisites: Admission to student teaching.

SPED 485. Introduction to Autism
3 Credits
This course will provide an overview of autism spectrum disorders as a triad of impairments, including historical and theoretical perspectives, assessment issues, characteristics of autism, intervention programs, and family issues. Taught with SPED 585 and SPED 685.

SPED 486. Behavior and Autism
3 Credits
This course will cover the first of the triad of impairments. Students will gain an understanding of the behaviors of children with autism. Students will examine several behavior management philosophies and research based interventions and how they can be applied in the educational setting. Attention will also be given to play skills. The family perspective and participation in the proactive behavior management process will be incorporated throughout the course. Taught with SPED 586 and SPED 686 with differentiated assignments.
Prerequisite(s)/Corequisite(s): SPED 485 or SPED 585 or SPED 685.

SPED 487. Social Skills and Autism
3 Credits
This course will cover the second of the triad of impairments. As a blend of researched based models and evidenced based practical applications, students will gain an understanding of the social skill deficits often associated with autism spectrum disorders. Review a variety of social cognition theories and explore effective social skill interventions for children functioning at a variety of levels along the autism spectrum. Taught with SPED 587 and SPED 687 with differentiated assignments.
Prerequisite(s)/Corequisite(s): SPED 485 or SPED 585 or SPED 685.

SPED 488. Communication and Autism
3 Credits
This course will cover the third of the triad of impairments. Students will gain an overview of communication characteristics and difficulties often associated with autism spectrum disorders. Review current tools and strategies used to assess speech, language, and interaction skills. Use assessment results to identify needs and implement appropriate interventions. Explore a variety of intervention strategies aimed at building receptive, expressive, and pragmatic language of children functioning at a variety of levels along the autism spectrum. Taught with SPED 588 and SPED 688 with differentiated assignments.
Prerequisite(s): SPED485 or SPED585 or SPED685.

SPED 489. Topics
3 Credits
Offered under various subtitles which indicate the subject matter to be covered. May be repeated 3 times for a maximum of 9 credits.

SPED 495. Directed Study courses in Special Education
1-3 Credits
Each course shall be identified by a qualifying subtitle. A maximum of 3 credits per semester and a grand total of 9 credits.

SPED 500. Introduction to Special Education in a Diverse Society
3 Credits
This course introduces the field of special education to regular educators.

SPED 501. Topics in Special Education
1-3 Credits
Offered under various subtitles which indicate the subject matter to be covered. Maximum of 6 credits, 3 credits per semester.

SPED 502. Problems
1-3 Credits
Offered under various subtitles which indicate the subject matter to be covered. Maximum of 6 credits, 3 credits per semester.
SPED 504. Introduction to Assessment of Diverse Exceptional Learners
3 Credits
Required for students seeking licensure at graduate level. Theory and use of norm-and criterion-referenced instruments and learning theories in the classroom; planning of prescriptive instructional programs with differentiated assignments for graduate students. Crosslisted with: SPED 463. Restricted to: SPED majors.

SPED 506. High Incidence Disabilities in a Diverse Society
3 Credits
Examines those areas of disability that most frequently occur in the special education population, including mental retardation, learning disabilities, communication disorders, and behavioral and emotional disorders.

SPED 507. Low Incidence Disabilities in a Diverse Society
3 Credits
Examines those disabilities that occur less frequently in the special education population, including hearing loss, visual disorders, autism, and other severe manifestations. Taught with SPED 607 with differentiated assignments.

SPED 509. Reading for Elementary Exceptional Learners in a Diverse Society, K-6
3 Credits
Emphasizes reading diagnosis and materials for students with special developmental and learning problems. Taught with SPED 409.

SPED 510. Current Issues in Special Education for Teaching in Culturally Responsive Society
3 Credits
Theoretical and empirical bases for special education practices. Skill development in critical thinking, reading, and writing in relation to contemporary problems. Taught with SPED 610.

SPED 511. Reading for Secondary Exceptional Learners in a Diverse Society, 7-12
3 Credits

SPED 513. Current Research in Special Education
3 Credits
Current investigations and research techniques.

SPED 519. School Interventions and Organization in a Diverse Society
3 Credits
Introduces public school organization and laws and the psychosociological perspective of education. Curriculum and theory, teaching methods and materials will be presented and operationalized through a psycho-educational point of view. Restricted to majors. Taught with SPED 619.

SPED 520. Reading Disabilities Structure of Language
3 Credits
The purpose of this course is to introduce the student to the structure of language, including phonology, morphology, syntax, semantics, and to orthography. In addition, students in this course will study each area of language and able to use this information in analyzing the process of reading and writing.

SPED 521. Intervention Techniques for Reading Disabilities
3 Credits
This course focuses on the systematic and explicit teaching of reading and writing skills. Included will be a summation of the most current reading research and its relevance to the field.

SPED 522. Practicum in Reading Disabilities
3 Credits
Supervised experience in assessing a student with reading disability, developing and intervention plan, and implementing and monitoring the interventions across time.

SPED 523. Advanced Curriculum for Diverse Exceptional Learners
3 Credits
Strategies for developing curricula appropriate to handicapped and gifted learners.

SPED 532. Foundations of Visual Impairment
3 Credits
This course provides an overview of the history and theory of teaching students with visual impairments, including those with additional disabilities. The impact of educational, legislative, and societal trends on the psychosocial adjustment, quality of life, and post-school outcomes of individuals with visual impairments is explored. Taught with SPED 452 and SPED 632 with differentiated assignment.

SPED 533. Functional Implications of Low Vision
3 Credits
This course examines the structure and function of the visual system in relation to associated diseases and syndromes with an emphasis on measuring functional vision and determining appropriate educational adaptations. Taught with SPED 453 and SPED 633.

SPED 534. Strategies for Teaching Students with Visual and Multisensory Impairments
3 Credits
This course defines the roles and responsibilities of the teacher of students with visual impairments as part of the transdisciplinary team that serves students with visual impairments and additional disabilities. Emphasis is on assessment, curricula (both academic and functional), communication, behavior management, assistive technologies, inclusion, transition, and independent living. Taught with SPED 454 and SPED 634. Prerequisite(s): SPED 533.

SPED 536. Braille I: Literacy for Students with Visual Impairments
3 Credits
This course facilitates an in depth study of the Uncontracted and Contracted Literary Braille codes as well as methods of teaching pre-braille, braille reading, and braille writing skills to tactual learners. Taught with SPED 455 and SPED 636.

SPED 537. Independent Readings in Special Education
1-3 Credits
Each course shall be identified by a qualifying subtitle. Maximum of 6 credits, 3 credits per semester.

SPED 538. Braille II: Numeracy for Students with Visual Impairments
3 Credits
This course facilitates an indepth study of the Nemeth Braille Code for Mathematics and Science Notation as well as instructional strategies for using the abacus and developing numeracy. Specialized braille codes for computers, music, and foreign languages will be introduced. Taught with SPED 457 and SPED 638 with differentiated assignments. Prerequisite(s): SPED 455 or SPED 536 or SPED 636 consent of instructor.
SPED 539. Strategies for Teaching Students with Visual Impairments  
3 Credits  
This course covers individualized educational programming in both the  
core and expanded core curriculums for children and youth with visual  
impairments with an emphasis on assessment, curricular adaptions,  
IFSP/IEP/ITP planning, and evidence-based practices. Taught with 460  
and SPED 639. Restricted to: SPED majors.  
Prerequisite(s): SPED 533, SPED 536, SPED 538.  

SPED 541. Assessment of Reading and Writing  
3 Credits  
Diagnostic differentiation of reading and writing disabilities is the focus of  
this course. Students will develop competencies to diagnose different  
types of reading problems, including dyslexia. Students will be taught  
how accurate differential diagnosis leads directly to targeted intervention.  

SPED 545. Technology and Exceptionality in a Diverse Society  
3 Credits  
This class will address the unique educational needs of learners with  
exceptionalities, and will provide information and practice in addressing  
those needs through the use of technology-based interventions. Taught  
with SPED 645.  

SPED 548. Field Experience in Education, Equity & Cultural Diversity  
3 Credits  
This is a supervised experience in providing special education services  
to local preK-12 students. In the context of the public school classroom,  
teacher candidates are guided to apply content knowledge from the  
seminar meetings and from prior coursework. This experience is  
designed for both the practicing general education classroom teacher  
pursuing special education licensure and for graduate teacher candidates  
pursuing initial special education licensure. Restricted to: SPED majors.  
Prerequisite(s): SPED 350 and SPED 360, or SPED 500 and SPED 523, or  
consent of instructor.  

SPED 550. Working with Young Children with Special Needs, Ages 3-8  
3 Credits  
Addresses competencies for working with young children with  
exceptionalities, ages three eight, and their families. Public school,  
private school, Head Start and other models are included. Same as  
SPED 450 with differentiated assignments for graduate students. Same  
as ECED 550.  
Prerequisite: SPED 500 or equivalent, or consent of instructor.  

SPED 551. Assessment of Young Children, Birth Eight  
3 Credits  
Covers instruments and procedures for assessing young children and  
their families in order to determine atypical development. Screening,  
diagnosis, program planning, placement and evaluation issues are  
covered. Same as SPED 451.  
Prerequisite: SPED 550 or consent of instructor.  

SPED 552. Introduction to Orientation and Mobility  
3 Credits  
This course provides an overview of the history and theory of formalized  
orientation and mobility instruction as it relates to the ability to live  
independently. The impact of visual impairment and concomitant  
impairments on the development of spatial concepts and motor  
skills in relation to independent locomotion is emphasized. Topics  
covered include mobility aids; navigation, familiarization, and protective  
techniques; structured pre-cane assessment and instruction; the  
development and use of tactual maps; and the relationship of orientation  
and mobility to other areas of the expanded core curriculum. Consent of  
Instructor required. Restricted to: SPED,EDUC majors.  

SPED 553. Beginning Orientation and Mobility  
3 Credits  
This course provides an overview of the profession of orientation and  
mobility and how sensory, motor, and psychosocial function affects  
movement and spatial orientation. Consent of Instructor required.  
Restricted to: SPED majors.  
Prerequisite(s): SPED 552.  

SPED 554. Intermediate Orientation and Mobility  
3 Credits  
This course focuses on strategies and methods for conducting  
assessments and appropriately sequencing skill acquisition for learners  
across the lifespan who may or may not have additional disabilities.  
Adaptive technology and other aids that assist with travel in a variety of  
environmental conditions using different mobility systems will also be  
covered. Consent of Instructor required. Restricted to: SPED majors.  
Prerequisite(s): SPED 553.  

SPED 555. Advanced Orientation and Mobility  
3 Credits  
This course focuses on the development and monitoring of cane  
skills needed for safe and efficient travel in indoor, residential, and  
local public settings. Taught with SPED 570, and SPED 685. Differentiated  
assessments and appropriately sequencing skill acquisition for learners  
across the lifespan who may or may not have additional disabilities.  

SPED 556. Advanced Life Span Development and Transition in a Diverse Society  
3 Credits  
Covers special problems associated with transitions over the life span,  
with emphasis on adolescent and adult needs. Attention to service  
provision, transition planning, and post-school activities for learners  
with typical and special needs. Taught with SPED 459 and SPED 558.  

SPED 557. Student Teaching SPED  
12 Credits  
Culminating course required for graduate level students seeking initial  
licensure. Taught with SPED 558 and SPED 685.  
Prerequisite(s): Bachelor s degree, SPED 548, and admission to student  
teaching.  

SPED 558. Introduction to Autism  
3 Credits  
This course will provide an overview of autism spectrum disorders as a  
triad of impairments, including historical and theoretical perspectives,  
assessment issues, characteristics of autism, intervention programs,  
and family issues. Taught with SPED 485 and SPED 685. Differentiated  
Assignments.
SPED 586. Behavior and Autism
3 Credits
This course will cover the first of the triad of impairments. Students will gain an understanding of the behaviors of children with autism. Students will examine several behavior management philosophies and research based interventions and how they can be applied in the educational setting. Attention will also be given to play skills. The family perspective and participation in the proactive behavior management process will be incorporated throughout the course. Taught with SPED 486 and SPED 686 with differentiated assignments.
Prerequisite(s): SPED 485 or SPED 585 or SPED 685.

SPED 587. Social Skills and Autism
3 Credits
This course will cover the second of the triad of impairments. As a blend of researched based models and evidenced based practical applications, students will gain an understanding of the social skill deficits often associated with autism spectrum disorders. Review a variety of social cognition theories and explore effective social skill interventions for children functioning at a variety of levels along the autism spectrum. Taught with SPED 487 and SPED 687 with differentiated assignments.
Prerequisite(s): SPED 485 or SPED 585 or SPED 685.

SPED 588. Communication and Autism
3 Credits
This course will cover the third of the triad of impairments. Students will gain an overview of communication characteristics and difficulties often associated with autism spectrum disorders. Review current tools and strategies used to assess speech, language, and interaction skills. Use assessment results to identify needs and implement appropriate interventions. Explore a variety of intervention strategies aimed at building receptive, expressive, and pragmatic language of children functioning at a variety of levels along the autism spectrum. Taught with SPED 488 and SPED 688 with differentiated assignments.
Prerequisite(s): SPED 485 or SPED 585 or SPED 685.

SPED 590. Masters Degree Seminar
3 Credits
Capstone review of current issues in special education. Each student will participate in a practice comprehensive oral exam.

SPED 598. Special Research Problems
1-3 Credits
Individual investigation either analytical or experimental. May be repeated for a maximum of 6 credits, 3 credits per semester.

SPED 599. Master’s Thesis
15 Credits
Thesis.

SPED 600. Doctoral Research
1-15 Credits
Research.

SPED 605. Independent Study Topics in Special Education
1-6 Credits
A problem and seminar course for those pursuing an advanced graduate degree. Each course to bear an appropriate subtitle.

SPED 606. High Incidence Disabilities in a Diverse Society
3 Credits
Examines those areas of disability that most frequently occur in the special education population, including mental retardation, learning disabilities, communication disorders, and behavioral and emotional disorders. Taught with SPED 506. Restricted to SPED and CD majors.
Prerequisite: Master’s Degree.

SPED 607. Low Incidence Disabilities
3 Credits
Examines those disabilities that occur less frequently in the special education population, including hearing loss, visual disorders, autism, and other severe manifestations. Taught with SPED 507 with differentiated assignments.

SPED 610. Current Issues in Special Education for Teaching in a Culturally Responsive Society
3 Credits
Required for students seeking the Ed.D./Ph.D. Taught with SPED 510.

SPED 613. Current Research in Special Education
3 Credits
Required for students seeking the Ed.D./Ph.D. Restricted to majors. Same as SPED 513.
Prerequisite: M.A. degree.

SPED 619. School Intervention and Organization in a Diverse Society
3 Credits
Introduces public school organization and laws and the psychosociological perspective of education. Curriculum and theory, teaching methods and materials will be presented and operationalized through a psycho-educational point of view. Restricted to majors. Taught with SPED 519.

SPED 640. Internship in Special Education
1-6 Credits
Each course bears a qualifying subtitle. Maximum of 6 credits per semester.

SPED 645. Technology and Exceptionality in a Diverse Society
3 Credits
This class will address the unique educational needs of learners with exceptionalities, and will provide information and practice in addressing those needs through the use of technology-based interventions. Taught with SPED 545.

SPED 685. Introduction to Autism
3 Credits
This course will provide an overview of autism spectrum disorders as a triad of impairments, including historical and theoretical perspectives, assessment issues, characteristics of autism, intervention programs, and family issues. Differentiated Assignments. Taught with SPED 585 and SPED 485.

SPED 686. Behavior and Autism
3 Credits
This course will cover the first of the triad of impairments. Students will gain an understanding of the behaviors of children with autism. Students will examine several behavior management philosophies and research based interventions and how they can be applied in the educational setting. Attention will also be given to play skills. The family perspective and participation in the proactive behavior management process will be incorporated throughout the course. Taught with SPED 486 and SPED 586 with differentiated assignments.
Prerequisite(s): SPED 485 or SPED 585 or SPED 685.
SPED 687. Social Skills and Autism 3 Credits
This course will cover the second of the triad of impairments. As a blend of researched based models and evidenced based practical applications, students will gain an understanding of the social skill deficits often associated with autism spectrum disorders. Review a variety of social cognition theories and explore effective social skill interventions for children functioning at a variety of levels along the autism spectrum. Taught with SPED 487 and SPED 587 with differentiated assignments. Prerequisite(s)/Corequisite(s): SPED 485 or SPED 585 or SPED 685.

SPED 688. Communication and Autism 3 Credits
This course will cover the third of the triad of impairments. Students will gain an overview of communication characteristics and difficulties often associated with autism spectrum disorders. Review current tools and strategies used to assess speech, language, and interaction skills. Use assessment results to identify needs and implement appropriate interventions. Explore a variety of intervention strategies aimed at building receptive, expressive, and pragmatic language of children functioning at a variety of levels along the autism spectrum. Taught with SPED 488 and SPED 588 and differentiated assignments. Prerequisite(s): SPED 485 or SPED 585 or SPED 685.

SPED 690. Doctoral Seminar 1-4 Credits (1-4)
The seminar will engage doctoral students in scholarly dialogue and production. It will assist in preparing them for future careers in leadership roles. Same as CD 690.

SPED 698. Selected Topics in Special Education 1-6 Credits
Offered under various subtitles which indicate the subject matter to be covered. Maximum of 6 credits, 3 credits per semester.

SPED 700. Dissertation 9 Credits
Credit may be earned by students who have successfully completed their doctoral comprehensive exams and presented their dissertation proposals to their committees. At least 18 credits are required during the course of dissertation study. May be repeated for a maximum of 24 credits. Restricted to majors.

Name: School of Teacher Preparation, Administration and Leadership (TPAL)

Program Coordinators
Early Childhood Education - Bachelor of Science in Education

All students wishing to complete a degree in Early Childhood Education (licensure track) must apply to the Teacher Education Program. Additional information on the application process can be obtained from the College of Education Undergraduate Resource Center or on the departmental website. A 2.75 minimum GPA is required for admission to the Teacher Education Program and graduation. Students must pass ENGL 111G Rhetoric and Composition, ENGL 211G Writing in the Humanities and Social Sciences, Area II, Prerequisite courses, and Early Childhood Core courses with a grade of C- or better.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Prefix Title Credits
General Education
Area I: Communications
English Composition - Level 1
ENGL 111G Rhetoric and Composition 4

Educational Leadership - Bachelor of Science

The BS in Educational Leadership (EL) prepares students to work at the bachelor’s level in areas such as university or community college career services, admissions, financial aid, and advising.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Prefix | Title | Credits
--- | --- | ---
**General Education Courses**

**Area I: Communications**
- English Composition - Level 1
- English Composition - Level 2

**Area II: Mathematics**
- MATH 111 Fundamentals of Elementary Mathematics I

**Area III/IV: Laboratory Sciences and Social/Behavioral Sciences**
- ANTH 201G Introduction to Anthropology
- ECON 201G Introduction to Economics
- ECON 251G Principles of Macroeconomics
- ECON 252G Principles of Microeconomics
- GEOG 112G World Regional Geography
- GOVT 100G American National Government
- GOVT 110G Introduction to Political Science
- SOC 101G Introductory Sociology

**Electives, to bring the total credits to 120**

**Viewing a Wider World**
- ANTH 201G Introduction to Anthropology
- ECON 201G Introduction to Economics
- ECON 251G Principles of Macroeconomics
- ECON 252G Principles of Microeconomics
- GEOG 112G World Regional Geography
- GOVT 100G American National Government
- GOVT 110G Introduction to Political Science
- SOC 101G Introductory Sociology

**Core Courses**
- ELA 215 Multicultural Leadership in Education
- ELA 255 Leadership and Change in Education
- ELA 342 Current Issues In Educational Leadership
- ELA 440 Management of Student Services
- ELA 450 Principles of Education Law and Policy
- ELA 455 Principles of Education Budgeting and Finance
- ELA 485 Elements of Research
- ELA 499 Internship
- C EP 210 Educational Psychology
- C EP 300V Human Relations Training

Courses are pre/corequisites for Teacher Education Program (TEP)
EDUC 315 Multicultural Education must be completed prior to TEP portfolio submission.
Courses require admission to the TEP
Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Electives, to bring the total credits to 120

See the Viewing a Wider World section of the catalog for a full list of courses
A Suggested Plan of Study For Students

This roadmap assumes student placement into a Mathematics course and ENGL 111G. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

## Elementary Education (Language Arts K-8) - Bachelor of Science in Education

General education and professional education are similar for all degree programs in the College of Education. The B.S. Elementary Education degree embeds the Language Arts Teaching Field/Concentration and the Bilingual/TESOL endorsements. **Note:** For certification in the State of New Mexico the Bilingual/TESOL endorsements require 6 credits of a language other than English. Additional teaching fields/concentrations are available in Social Studies, Science and Math but will require credits beyond 120. Students should meet with the College of Education (Undergraduate Resource Center) to discuss additional teaching fields/concentrations requirements.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

### Prefix | Title                                | Credits

**Secondary Education (Secondary Education Language Arts) - Bachelor of Science in Education**

General education and professional education requirements are similar for all degree programs in the College of Education. Students should meet with an advisor to plan appropriate general education courses for a secondary education major. The below programs are labeled as Concentrations in the catalog and on student transcripts, but are also recognized at "Teaching Fields" for the Teacher Education Program.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

1 MATH 121G College Algebra or MATH 190G Trigonometry and Precalculus is required for the degree but students may need to take any prerequisites needed to enter MATH 121G or MATH 190G first.
Special Education (Elementary Education) - Bachelor of Science in Education

The undergraduate special education program is an NCATE accredited program designed to prepare teacher candidates for dual licensure in special education and either elementary or secondary education. Students graduate with the preparation to teach in environments across the continuum of special education services. In addition to special education coursework, students complete an academic teaching field within their dual major (elementary or secondary).

Students should meet with the College of Education Undergraduate Resource Center to plan appropriate general education courses for a special education major. See “General Requirements” in the “College of Education (p. 603)” section. Students must be admitted to the Teacher Education Program as a condition for enrolling in courses that lead to licensure. Students must pass ENGL, MATH, all education, and teaching field/concentration courses with a C- or better.

Teaching Field: Language Arts

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 123 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

2 See the General Education (p. 49) section of the catalog for a full list of courses.
3 The 9 credits of Upper-Division ENGL courses that are apart of the Concentration/Teaching Field coursework will meet the 2nd VWW requirement.
4 Courses are prerequisites for Teacher Education Program (TEP).
5 Courses require admission to the TEP.
6 Courses are corequisites for Teacher Education Program (TEP).
BIL 344 Issues in Schooling for Bilingual Learners 3
LING 200G Introduction to Language (recommended for Language Arts Teaching Field/ Bilingual TESOL endorsement) 3
LING 302V Language and Society 3
SPED 355 Introduction to Bilingual/Multicultural Special Education 3

Non-Departmental Requirements (in addition to Gen.Ed/ VWW)
ENGL 363 Literature for Children and Young Adults 3
MATH 111 Fundamentals of Elementary Mathematics I 3

Choose one from the following:
- GEOG 112G World Regional Geography
- or GEOG 120G Culture and Environment
- GOVT 100G American National Government
- or GOVT 110G Introduction to Political Science

Second Language: (not required)

Electives, to bring the total credits to 123

| Total Credits | 123 |

1. Courses are pre/co-requisites for Teacher Education Program (TEP)
2. Course counts toward the Language Arts Teaching Field
3. Course requires admission to the Teacher Education Program (TEP)
4. See the General Education (p. 49) section of the catalog for a full list of courses
5. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses
6. Course counts toward the Bilingual/TESOL endorsement

Special Education (Secondary Education) - Bachelor of Science in Education

The undergraduate special education program is an NCATE accredited program designed to prepare teacher candidates for dual licensure in special education and either elementary or secondary education. Students graduate with the preparation to teach in environments across the continuum of special education services. In addition to special education coursework, students complete an academic teaching field within their dual major (elementary or secondary).

Students should meet with the College of Education Undergraduate Resource Center to plan appropriate general education courses for a special education major. See “General Requirements” in the “College of Education (p. 603)” section. Students must be admitted to the Teacher Education Program as a condition for enrolling in courses that lead to licensure. Students must pass ENGL, MATH, all education, and teaching field/concentration courses with a C- or better.

Teaching Field: Language Arts

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 121 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Prefix Title Credits

General Education

Area I: Communications

ENGL 111G Rhetoric and Composition 1 4

English Composition - Level 2

ENGL 311G Advanced Composition 2 3
ENGL 318G Advanced Technical and Professional Communication 3

Oral Communication

Choose one from the following:
- COMM 253G Public Speaking 3
- COMM 265G Principles of Human Communication
- HON 265G Principles of Human Communication Honors

Area II Mathematics

MATH 121G College Algebra 1, 3 3
or MATH 190G Trigonometry and Precalculus

Area III/IV: Laboratory Sciences and Social/Behavioral Sciences

C EP 110G Human Growth and Behavior 3

Area III: Laboratory Science Course(s) 4 8

Area V: Humanities

HIST 101G Roots of Modern Europe 3
or HIST 102G Modern Europe

Area V: Creative and Fine Arts

THTR 101G The World of Theatre (Language Arts Teaching Field/Concentration) 3

General Education Elective

HIST 201G Introduction to Early American History 3
or HIST 202G Introduction to Recent American History

Viewing the Wider World

LIB 311V Information Literacy 3

The 2nd VWW requirements will be satisfied with the concentration/teaching field courses 5

Departmental/College Requirements

Secondary Education Requirements

EDUC 281 Introduction to Secondary Education and Youth 1, 6 3
SPED 350 Introduction to Special Education in a Diverse Society 1 3

EDUC 342 Sheltered English Instruction for the ESL Classroom 2 3
EDUC 402 Data Literacy and Assessment 2 3
EDUC 460 Teaching Language Arts at the Middle and High School Level 2, 6 3
RDG 414 Content Area Literacy 2 3
SPED 480  Secondary Curriculum, Methods, and Materials for Special Education in a Diverse Society  

Student Teaching
SPED 482  Student Teaching  

Special Education Core Requirements
SPED 459  Classroom Management for Diverse Learners  
SPED 463  Introduction to Assessment of Diverse Exceptional Learners  
SPED 406  High Incidence Disabilities in a Diverse Society  
SPED 407  Low Incidence Disabilities in a Diverse Society  
SPED 481  Practicum in Education, Equity and Cultural Diversity (Not with EDUC 489)  
RDG 371  Instruction for Special Reading Needs  
EDUC 489  Topics (Dual License Practicum; Prerequisite EDUC 460)  

Language Arts Teaching Field/Concentration Requirements
For the teaching field/concentration both (COMM 253G or COMM 265G) and (ENGL 311G or ENGL 218G) will count towards General Education as well
ENGL 251  Survey of American Literature I  
or ENGL 252  Survey of American Literature II  
ENGL 271  Survey of English Literature I  
or ENGL 272  Survey of English Literature II  
ENGL 310  Critical Writing  
ENGL 408  Shakespeare I  
or ENGL 409  Shakespeare II  
ENGL 416  Approaches to Literature  
ENGL 470  Approaches to Composition  
ENGL 400+  Literature Elective  
Choose one from the following:  
ENGL 339V  Chicana/o Literature  
ENGL 380V  Women Writers  
ENGL 394V  Southwestern Literature  
Choose one from the following courses:  
ENGL 405  Chaucer  
ENGL 429  British Romanticism  
ENGL 438  Literature of the American Renaissance  
ENGL 442  Modern and Contemporary American Poetry  
ENGL 444  Modern British Fiction  
ENGL 458  Latino/a Literature and Culture  
ENGL 463  Advanced Study in English Literature  
ENGL 469  Advanced Study in American Literature  
ENGL 481  Women's Literature  
ENGL 493  Middle English Textual Cultures  
Choose one from the following courses:  
ENGL 412  Writing in the Workplace  
ENGL 431  Technical Editing  
ENGL 449  Advanced Study in Writing  

ENGL 479  Computers and Writing  

Non-Departmental Requirements (in addition Gen.Ed/VWW)
MATH 142G  Calculus for the Biological and Management Sciences  
or MATH 210G  Mathematics Appreciation  
JOUR 105G  Media and Society  
One additional Area IV: Social/Behavioral Sciences Course (must be a different subject area than the course selected above)  

Second Language: (not required)  

Electives, to bring the total credits to 120  
Total Credits  120  

Teaching Field: Math
Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 132 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.  

Prefix Title Credits  

General Education Requirements  
Area I: Communications

  International Political Issues
- **SOC 101G**  
  Introductory Sociology
- **SOC 201G**  
  Contemporary Social Problems

**Second Language: (not required)**

**Electives, to bring the total credits to 129**

| Total Credits | 129 |

---

1 Prerequisite for admission to Teacher Preparation Program (TEP)
2 MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G Calculus and Analytic Geometry I first.
The 9 credits of Upper-Division MATH courses that are apart of the Concentration/Teaching Field coursework will meet the 2nd VWW requirement.

Course requires field experience

Course requires admission to Teacher Education Program (TEP)

SPED 481 requires minimum of 90 practicum hours; EDUC 489 requires a minimum of 100 practicum hours

If students take a MATH 300+ course instead of a A ST this course will also count as the second VWW requirement. If they take the A ST course they will need to take either an additional MATH course or an additional VWW course.

**Teaching Field: Science**

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 130 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Zero-to-Four (Early Childhood) - Bachelor of Applied Studies

There is an identified need for prepared educators to serve young children birth to four years of age in settings outside of the public school in childcare centers, Head Start, and other agencies. The School of Teacher Preparation, Administration, and Leadership offers a non-licensure concentration, with the Bachelor of Applied Studies degree for the Zero to Four years old early childhood track. This non-licensure concentration serves private and public childcare, early intervention programs, and Head Start.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. All ECED courses must be successfully completed with a grade of C- or better. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

_Second Language: (not required)_

| Electives, to bring the total credits to 132 | 0 |

_Total Credits_ | 132

---

1. Prerequisite for admission to Teacher Preparation Program (TEP)
2. Course requires admission to Teacher Education Program (TEP)
3. MATH 121G College Algebra or MATH 190G Trigonometry and Precalculus is required for the degree but students may need to take any prerequisites needed to enter MATH 121G or MATH 190G first.
4. See the General Education (p. 49) section of the catalog for a full list of courses
5. The 9 credits of Upper-Division HIST courses that are apart of the Concentration/Teaching Field coursework will meet the 2nd VWW requirement.
6. Course requires field experience
7. SPED 481 requires minimum of 90 practicum hours; EDUC 489 requires a minimum of 100 practicum hours
8. Students who complete HIST 261 at another campus/university will need to take an additional 3 credit course at the 300+ level in ECON, GEOG, GOVT, or HIST to meet state licensure requirements.
**English Composition - Level 2**

ENGL 211G  Writing in the Humanities and Social Sciences  3  
or ENGL 311G  Advanced Composition

**Oral Communication**

Choose one from the following:  3

COMM 253G  Public Speaking  
or COMM 265G  Principles of Human Communication  
HON 266G  Principles of Human Communication Honors

**Area II: Mathematics**

MATH 112G  Fundamentals of Elementary Math II  3

**Area III/IV: Laboratory Sciences and Social/Behavioral Sciences**  11

CEP 110G  Human Growth and Behavior  3

**Area III: Laboratory Sciences Courses, must be from two different areas (8 credits)**

**Area V: Humanities**

Choose one from the following:  3

HIST 101G  Roots of Modern Europe  
HIST 102G  Modern Europe  
HIST 110G  Making History  
HIST 111G  Global History to 1500  
HIST 112G  Global History Since 1500

**Area VI: Creative and Fine Arts**  3

Choose one from the following:

ART 101G  Orientation in Art  
ART 110G  Visual Concepts  
DANC 101G  Dance Appreciation  
MUS 101G  An Introduction to Music  
MUS 201G  History of Jazz in Popular Music: A Blending of Cultures

SOC 101G  Introductory Sociology  
W S 201G  Introduction to Women’s Studies  
or W S 202G  Representing Women Across Cultures

**Second Language: (required)**

Spanish or Sign-Language preferred  6-8

**Electives, to bring the total credits to 120**  4-2

Total Credits  120

---

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. See the Viewing A Wider World (p. 53) section of the catalog for a full list of courses.
3. All ECED (Non-Licensure) majors must complete two semesters of language courses, preferably American Sign Language or Spanish. (However, if students have fluency in an Indigenous language or wish to take something different than Spanish or Sign Language, please see Director of ECED for permission and/or process).
4. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
Early Childhood Education - Undergraduate Minor

The primary function of the undergraduate programs in the Department of Curriculum and Instruction is the preparation of licensed teachers for early-childhood settings and elementary and secondary schools. This process includes a broad general education, professional education and teaching specializations.

How To Apply

If you wish to complete a minor in Educational Leadership and Administration (ELA), you should complete the ELA minor application/verification form and return it to the Educational Leadership and Administration Department during the semester in which you will be completing your ELA minor coursework. This form notifies the registrar of your intention. It insures that if you complete the requirements for the minor, it will be officially recorded in your transcript.

Education (Bilingual Education) - Master of Arts

The program with a concentration in Bilingual Education (without coursework leading to New Mexico Licensure) prepares scholars, practitioners and leaders in understanding bilingualism/multilingualism within the contexts of schools, families, communities and society. The Southwest Borderlands situates participants uniquely such that they might critically examine issues confronting Spanish-speaking and heritage language populations. A key dimension of the program is the advancement of issues related to equity and social justice by encouraging participants to serve as advocates for bilingual children, their families and communities.

- Candidates who apply for the Bilingual Education (Spanish/English) endorsement (PreK-12) must successfully demonstrate language proficiency as measured by the Spanish language examination PRUEBA. Similar requirements are necessary for candidates of Bilingual Education for Navajo and Pueblo language groups. These examinations are administered through the New Mexico State Department of Education.
- The necessary coursework required for the Bilingual Education endorsement is embedded within this program of the study. Additional information regarding the endorsement can be found at the New Mexico Public Education Department (https://webnew.ped.state.nm.us/bureaus/licensure/adding-endorsements/).
- Many specialized courses are not offered every semester. Please check with your advisor to plan accordingly.

### Education (Curriculum & Instruction) - Master of Arts

**Remember** You cannot teach in the public schools without seeking a teaching license and you cannot seek an endorsement without first obtaining an initial teaching license.

### Concentration: Curriculum & Instruction (Plus Licensure)

#### Elementary Education Focus

The School of Teacher Education & Educational Leadership at New Mexico State University offers an Elementary Teacher Education Program for individuals who have completed a bachelor’s degree. The program is designed to meet the professional education course requirements for teacher licensure as a part of a Master of Arts in Education degree program.

**Program Completion Requirements:**

1. Apply through NMSU Graduate School main webpage [https://gradschool.nmsu.edu/](https://gradschool.nmsu.edu/). Select intended major “Education” and the concentration you will pursue.
2. After you receive an acceptance letter from the Department of Curriculum & Instruction, contact your faculty advisor within the first semester of enrollment.
3. Complete the MATH 511 Fundamentals of Elementary Mathematics I prerequisite course.
4. Complete the Core Courses listed below, before admission into the Teaching Education Program.

**Admission to the Teacher Education Program (TEP):**

1. Obtain application information at [https://tpal.nmsu.edu/admission/tep-admission/](https://tpal.nmsu.edu/admission/tep-admission/).
2. Make an appointment with the College of Education Advising Center for degree check prior to TEP portfolio.
4. Submit TEP portfolio to the College of Education Advising Center no later than 12:00 noon (MST) on the 2nd Friday in March for Spring or the 2nd Friday in October for Fall. TEP portfolio must be successfully reviewed prior to enrolling in Teaching Methods Courses.

**Completing Teaching Methods Block Courses:**

1. Fall Block (see below)
2. Spring Block (see below)

#### Secondary Education Focus

The School of Teacher Preparation, Administration and Leadership (TPAL) at New Mexico State University offers a Secondary Teacher Education Program for individuals who have completed a bachelor’s degree. This program is designed to meet the professional education course requirements for teacher licensure as a part of the Master of Arts in Education degree program. All coursework must be completed before the final student teaching semester.
Program Completion Requirements:
1. Apply through NMSU Graduate School main webpage (https://gradschool.nmsu.edu/). Select intended major "Education" and the concentration you will pursue. 
2. After you receive an acceptance letter from the Department of Curriculum & Instruction, contact your faculty advisor within the first semester of enrollment. 
3. Complete the Core Course Requirements listed below, before admission to the Teaching Education Program.

Admission to the Teacher Education Program (TEP):
1. Obtain application information at https://tpal.nmsu.edu/admission/tep-admission/.
2. Make an appointment with the College of Education Advising Center for degree check prior to TEP portfolio.
4. Submit TEP portfolio to the College of Education Advising Center no later than 12:00 noon (MST) on the 2nd Friday in March for Spring or the 2nd Friday in October for Fall. TEP portfolio must be successfully reviewed prior to enrolling in Teaching Methods Courses.

Teaching Field & Other Course Completion Requirements:
1. Complete all the requirements for a teaching field in Secondary Education (English Language Arts, Mathematics, Science, Social Studies).
2. Transcripts will be evaluated for any teaching field deficiencies at the request of your advisor.
3. Complete all remaining coursework (see below) not counting the Student Teaching courses.

Student Teaching Entry Portfolio (STEP)- one semester prior to student teaching
1. Obtain application information at https://education.nmsu.edu/student/tep/stia/.
2. Make an appointment with the Advisement Center for a Degree Check, prior to submitting STEP application.
3. Before student teaching is approved, the Candidate must pass the Content Knowledge portion of the NES Assessment with a passing score of 220.
4. Submit Student Teaching Packet (STEP) on the 1st Friday in March for Fall (by 3:00pm) and the 1st Friday in October for Spring (by 3:00pm).

Student Teaching- must be completed during the final semester
1. Take EDUC 509 and EDUC 510 concurrently during student teaching (16-week Student Teaching Internship and Seminar).
2. Before completing student teaching, candidate must pass the Assessment of Professional Knowledge for Secondary portion of the NES Assessment with a passing score of 220 or better.

¹ The following course requirements can be taken in the semester they are listed, but it is recommended to take at least two of these in a summer session: EDUC 516 Curriculum and Pedagogy I, EDUC 518 Technology and Pedagogy, EDUC 519 Research in Curriculum and Pedagogy and Elective Courses

² NES Essential Academic Skills:
³ To apply for TEP see the TPAL website
⁴ If student is not successful on the NES Essential Academic Skills exam during their first semester, it will be recommended that the student take EDUC 195 Individual Topics in Education (NES Test Preparation-1 credit). If the student is not successful on the NES Content Knowledge Exam during their Methods Block semester, it will be recommended that the student take EDUC 195 Individual Topics in Education (NES Test Preparation-1 credit).
⁵ To apply for STEP see the TPAL website
⁶ MA + Licensure students can actively seek employment in the public schools, that are within an 80-mile radius of Las Cruces, after they have successfully passed the NES Essential Academic Skills exams. If a MA + Licensure student finds a full-time teaching position in their approved content area, they can finish their licensure requirements as an Alternative Licensure Candidate.

The Alternative Licensure Program requires the following 6 courses: EDUC 515 Multicultural Education, EDUC 530 Exploration in Education, EDUC 518 Technology and Pedagogy, RDG 514 Content Area Literacy, SPED 500 Introduction to Special Education in a Diverse Society, and EDUC 500-level Teaching Content Course. Alternative Licensure students must also pass their NES Content Knowledge and Professional Knowledge Exams in addition to completing 2 semester of University Supervision ($300 fee for each semester) before completing their licensure requirements. Then, the student may continue progress towards a Master’s degree in Curriculum & Instruction/Multicultural Education (non-licensure). The non-licensure degree will require EDUC 520 in place of student teaching.

Education (Early Childhood Education) - Master of Arts

The program with a concentration in Early Childhood Education (without licensure) is an on-line only graduate degree program for persons with a bachelor’s degree in early childhood education or a related field who are already teaching or working in early childhood settings. This advanced degree prepares the early childhood professional for advanced practice in teaching education, engagement with applied research, staff development, work with families, program management and commitment to issues, analysis and advocacy related to early childhood education.

- This is an on-line program only
- You must apply and be admitted to this program before you can begin taking ECED courses (above and beyond applying to the School of Teacher Preparation, Administration and Leadership)
- For information on how to apply to the program, contact Dr. Michelle Salazar Perez at msp@nmsu.edu
- Many specialized courses are not offered every semester. Please check with your faculty advisor to plan accordingly
- For additional information, visit the program website

Education (Educational Learning Technologies) - Master of Arts

This fully online program with a concentration in Educational Learning Technologies (without licensure) focuses on the integration of constructivist uses of technology within culturally-responsive curricula. Students may focus on K-12 to adult learning environments and on specific content applications.

- Additional information regarding an endorsement as an Information Technology Coordinator can be found at the New Mexico Public Education Department (http://www.ped.state.nm.us/licensure/2010/endorsements/index.html)
- Many specialized courses are not offered every semester. Please check with your advisor to plan accordingly

1 EDLT 592 Directed Studies cannot be taken until EDLT 560 Fostering Online Learning Communities, EDLT 575 Designing and Organizing Online Learning Environments, EDLT 580 Tools and Techniques for Online Teaching and EDLT 590 Assessing and Evaluating Online Learning have been completed

Education (Language, Literature & Culture) - Master of Arts

The program with a concentration in Language, Literacy and Culture prepares educational leaders and scholars who understand reading, language and literacy education in complex
and diverse ways; particularly as these relate to issues of social justice and equity. This program emphasizes the development of critical and expansive perspectives on language and multiculturalism with a focus on the relevance of these for PreK-12 public school students from diverse ethno-linguistic backgrounds. Participants are encouraged to engage in leadership and research activities in a variety of settings at local, state and federal levels.

- Endorsement, 24 credits in reading or related area by New Mexico Public Education Department (http://www.ped.state.nm.us/licensure/2010/endorsements/index.html)
- Many specialized courses are not offered every semester. Please check with your faculty advisor to plan accordingly.

1 This course is the final core course that students are required to take. EDUC 515 Multicultural Education, EDUC 516 Curriculum and Pedagogy I, EDUC 518 Technology and Pedagogy and EDUC 519 Research in Curriculum and Pedagogy are prerequisites to taking EDUC 520.

Education (TESOL) - Master of Arts

The program with a concentration in Teaching English to Speakers of Other Languages (TESOL, without licensure) prepares scholars, practitioners and leaders in understanding bilingualism/multilingualism within the context of schools, families, communities and society.

The Southwest Borderlands situate participants uniquely such that they might critically examine issues confronting Spanish-speaking and heritage language populations. A key dimension of the program is the advancement of issues related to equity and social justice by encouraging participants to serve as advocates for bilingual children, their families and communities. International contexts are considered part of the borderland and the TESOL International focus supports the preparation of teaching TESL across global settings.

• Students choose either the PreK-12 elective coursework for 33 credit hours OR the International elective coursework for 36 credits
• The necessary coursework required for the TESOL endorsement is embedded within this program of study. Should you require additional information regarding the endorsement, you should contact the New Mexico Public Education Department (https://webnew.ped.state.nm.us/bureaus/licensure/adding-endorsements/)
• Many specialized courses are not offered every semester. Please check with your faculty advisor to plan accordingly.

1 It is encouraged that EDLT 522 Technology and Language Learning and BIL 587 Pedagogy of TESOL be taken concurrently.
2 This is the final course and should be taken during the final semester.

Education (Dance) - Master of Arts in Teaching

This program requires a minimum of 34 credit hours, with 12 credits in the School of Teacher Preparation, Administration and Leadership core courses and 22 credits from an area of teaching content concentration (i.e., generally in the College of Arts & Sciences) numbered 450 or above. This is a non-licensure degree that is intended for working teachers who already have a license but want to continue their studies, specialize in a specific teaching field and earn an master's degree. The professional coursework must be taken in the School of Teacher Preparation, Administration and Leadership and culminates with a written examination over the program of study. A candidate may choose to write a thesis in place of the written exam.

1 This course is the final core course that students are required to take. EDUC 515 Multicultural Education, EDUC 516 Curriculum and Pedagogy, EDUC 518 Technology and Pedagogy, and EDUC 519 Research in Curriculum and Pedagogy are prerequisites to taking EDUC 520.

**Educational Administration (Higher Education Administration) - Master of Arts**

**Admission Application**

Applicants must meet the basic admission requirements of the Graduate School before they are considered for admission. In addition, applicants must provide, to the ELA department the following:

- a one-page letter of application indicating career interests and reasons for wanting to pursue a master’s degree
- a professional résumé
- a two-page professional or academic writing sample
- and three letters of recommendation.

The letters of support must be mailed directly to the department from the writer. The ELA admissions committee will not consider incomplete applications.

**Prerequisite**

Students interested in higher education administration must have a bachelor’s degree.

**Application Deadline**

This program begins in the spring semester only. All materials for this program must be received by the deadline specified on the ELA website. Admission requirements are available from the Department of Educational Leadership and Administration, or on the website at http://
Students will be informed upon their formal acceptance into the program.

**Program Delivery**

There is a mandatory face-to-face orientation in Las Cruces prior to the start of the spring semester, January. All other classes are 100% online, distance delivery.

**Educational Administration (Pk-12 Administration) - Master of Arts**

The program of study for Pk-12 school administration includes all coursework and internships required by the New Mexico Public Education Department for Administrative Licensure. Students must earn a minimum of a "B+" grade in all required coursework. Students who receive a grade of "C+" or below will be required to retake the course. In addition, students must successfully complete a final department examination, generally done during the final semester of coursework. The department does not offer the thesis option.

### Admission Application

Grade point average requirements for the master’s program are consistent with those of the Graduate School (at least a 3.0 GPA from Undergraduate Degree). However, in addition to these requirements, all master’s degree applicants must provide, to the department the following:

- a one-page letter of application indicating career interests and reasons for wanting to pursue a master’s degree in the department
- a professional résumé
- a two-page professional or academic writing sample
- official document showing three years of Pk-12 teaching experience
- copy of current U.S. teaching license; and three letters of recommendation.

The letters of support must be mailed directly to the department from the writer. The ELA admissions committee bases admissions decisions on this portfolio and will not consider incomplete applications.

### Prerequisites

Students interested in the Pk-12 school administration must have a current U.S. teaching license and three years of full-time teaching experience in the Pk-12 sector.

### Application Deadline

This program begins in the spring semester only. All materials for this program must be received by the deadline specified on the ELA website. Admission requirements are available from the Department of Educational Leadership and Administration, or on the website at [ela.nmsu.edu/index/academics/mainal/](ela.nmsu.edu/index/academics/mainal/). Students will be informed upon their formal acceptance into the program.
Program Delivery
The department uses a hybrid distance education program combining both asynchronous and synchronous delivery technologies. The internships require attendance at monthly seminars that are held face-to-face on the Las Cruces campus. There is a mandatory face-to-face orientation in Las Cruces prior to the start of the spring semester, January. All other coursework is online.

Special Education - Master of Arts
Enrollment in graduate licensure program courses with field experiences in Special Education is limited to persons who have been accepted into the graduate program in Special Education. For other special education graduate courses, enrollment of students outside of the special education program is contingent upon meeting prerequisites and availability after enrollment of Special Education graduate students. To complete a course of study, each student must meet the program’s academic and field based competency criteria, including a grade of B or higher in each course in the program of study, satisfactory evaluation in field experiences for those seeking licensure, and a passing score on the MA Comprehensive Exam. The Master of Arts in Special Education has five pathways to meet the varied needs of students pursuing graduate education and can be completed in two years for full-time students.

Admission
The Special Education Program has a "rolling admissions" procedure for MA programs. Applications are reviewed upon submission to determine if candidates meet admission requirements. Application requirements follow:

1. A completed Graduate School admission application.
2. A letter of interest explaining the applicant’s goals in pursuing an MA in Special Education.
3. Complete transcripts of all college work, including notation of a BA or BS Degree and a cumulative GPA of a 3.0 or higher.
4. A curriculum vitae or resume.
5. Email addresses to contact three individuals who can provide a professional recommendation, such as professors, employers, or others qualified to evaluate potential for graduate work.
6. For alternative licensure, a letter from a school district indicating consideration for a position.
7. For international students with English language testing requirements, TOEFL test results of at least 79 iBT, 550 paper, or IELTS results of at least 6.5.

MA in Special Education Pathways
MA in Special Education (Initial License)
This route is 42 credits including student teaching and provides preparation for the New Mexico pre-K-12 Special Education license. Candidates must be admitted to the Teacher Education Program before completing practicum and student teaching experiences.
There are two course prerequisites that may be required, SPED 500 Introduction to Special Education in a Diverse Society and SPED 523 Advanced Curriculum for Diverse Exceptional Learners. If these are required they must be taken in the first semester they are offered.

1. Admittance to TEP is required before registering for SPED 548 Field Experience in Education, Equity & Cultural Diversity, which must be taken the semester before student teaching.

2. Admittance to STEP is required before registering for SPED 582 Student Teaching SPED, which is the culminating course.

MA in Special Education (Alternative Licensure)

This route includes 39 credits. It begins with completion of alternative licensure components, which includes 21 credits of state-approved coursework and two semesters of university supervision while concurrently employed as the special education teacher of record in a classroom. After completion of the alternative components, students complete the remaining coursework (18 credits) and degree requirements.

Note: Alternative Licensure requires concurrent employment as a special education teacher.

MA in Special Education (Prior General Ed. Licensure)

This route requires 30 credits of special education coursework and provides preparation for a second license, in Special Education, for students who already have an initial license in another area such as Early Childhood, Elementary, or Secondary Education.

There are two course prerequisites that may be required, SPED 500 Introduction to Special Education in a Diverse Society and SPED 523 Advanced Curriculum for Diverse Exceptional Learners. If these are required they must be taken in the first semester they are offered.

MA in Special Education (Scholarly Route)

This route requires 30 credits of special education coursework and is for students who are not seeking licensure or who already have a license and are seeking additional depth of knowledge.

There are two course prerequisites that may be required, SPED 500 Introduction to Special Education in a Diverse Society and SPED 523 Advanced Curriculum for Diverse Exceptional Learners. If these are required they must be taken in the first semester they are offered.

¹ Electives are selected in consultation with an advisor, who will make recommendations based on prior coursework and individual student interests.

MA in Special Education (emphasis in Visual Impairment)

This route requires 30-36 credit hours in visual impairment and special education coursework and prepares for licensure in teaching school-aged children/infants/toddlers and/or orientation and mobility. Students who meet qualifications and are interested in visual impairment may elect to pursue licensure only, rather than a master’s degree, with 15-27 credits leading to a Blind and Visually Impaired Teaching License or National Certification in Orientation and Mobility.

Curriculum and Instruction - Doctor of Education

The Curriculum and Instruction Department offers two kinds of doctorates: The Doctorate of Education and the Doctorate of Philosophy.

The Doctorate of Education (EdD) and the Doctorate of Philosophy (PhD) are rigorous degrees requiring an intellectual and personal commitment. Both degrees ask for a lifelong commitment to teaching, learning and pedagogy, as well as, to research and service. The academic course of study for both degrees is the same. The EdD doctoral program of study requires a minimum of 66 credit hours (48 hours coursework and 18 hours of dissertation) to complete. The PhD doctoral program requires students to demonstrate competency in the computer tools or second language sequence. (See below in program descriptions). For both programs (EdD and PhD) 66 credit hours is only the minimum and students may be asked to complete additional hours as per their advisor and committee recommendations.

Both degrees require a dissertation based on original research, inextricably grounded with an array of primary and secondary sources. Both degrees have required courses of study, but are additionally individualized based on those scholarly and academic expectations set by the doctoral student in collaboration with their Dissertation Committee.

Options and Concentration

Currently there are four Options and one concentration for the Doctoral Program of the Department of Curriculum & Instruction. These are:

**Options:**
1. Bilingual/TESL
2. Critical Pedagogies
3. Early Childhood Education
4. Language, Literacy & Culture

**Concentration:**
1. Educational Learning Technologies

To Apply

- Apply to the NMSU Graduate School (Select Intended major "Curriculum and Instruction" and then concentration you will pursue);
- Apply to C&I by submitting your Application Portfolio by December 15th (via the Graduate School Application portal)
  - See the sections, "Applying to the Doctoral Program," "Doctoral Intake Application Instructions" and the "C&I Doctoral Student Checklist" in the Doctoral Handbook.
  - NMSU Doc Portfolio Example – C&I (If the Sample portfolio does not open automatically, try a different browser or try saving the portfolio to your desktop before opening it.)

NOTE: Potential students who have written successful portfolios will be invited to interview with the Doctoral Qualifying Committee (a committee of C&I faculty)

Once Applicants Are Accepted

- Attend the applicable Doctoral Orientation Meeting your first semester of classes
- Meet with your Interim Advisor during your first semester of classes
- Get to know our faculty
- Read the Doctoral Handbook and the sections of the NMSU Graduate Catalog that apply to you (this is your responsibility)
- Follow the Doctoral Program Checklist from the C&I Doctoral Handbook

Educational Administration (Higher Administration) - Doctor of Education

Educational Leadership Doctoral Program (ELDP)

The Doctor of Education is geared toward those students wishing to pursue a degree which will help them in their profession. Coursework, internships, and research are constructed to develop individuals for administrative position in Pk-12 schools in post secondary institutions.

Admission

The department requires applicants to complete a Doctoral Admissions Portfolio. Specific details and criteria are available from the School of Teacher Preparation, Administration and Leadership (TPAL) or on the website at https://ela.nmsu.edu/index/academics/docpage/.
For More Information
Please do not hesitate to contact the School of TPAL if you have any questions related to ELDP. Feel free to send an e-mail message to edmandev@nmsu.edu (edmandev@nmsu.edu) or call (575) 646-3825.

### Special Education - Doctor of Education

The Special Education Doctorate Program is committed to preparing professionals in the areas of teaching, research, service, and leadership positions. All students within this program are trained to conduct independent research, become critical/independent thinkers, and embrace the notion of diversity. Upon completion of the doctorate the student will be able to inform policies that promote the well-being of all individuals with exceptionalities at the local, community, societal, and global levels. The Department of Special Education/Communication Disorders is pleased to offer two different, but equally rigorous, pathways (a Ph.D. or an Ed.D.). The two degrees can be differentiated in this way: a potential candidate seeks to drive educational change through either the use of existing research (Ed.D.) or the creation of new research (Ph.D.). Additionally, there are two areas of specialization: Bilingual/Multicultural Special Education and Autism Spectrum Disorders. A student may also choose to minor in a related area such as Communication Disorders and must work carefully with an advisor to plan a program of study if a minor is desired.

### Admission

Doctoral admission is competitive. To maximize consideration for admittance, applications must be submitted by February 10 for admission in the following semester. Admissions decisions are made based on evaluation of the student’s potential for success in research, teaching, and service to the profession. Requirements include the following.

1. Completed Graduate school admission application.
2. Letter of Intent that explains professional goals and area of research interest.
3. Complete transcripts from all post-secondary educational experiences, with notation of a bachelor’s degree, a master’s degree in a related field of study, and a minimum 3.0 cumulative GPA on a 4.0 scale.
4. Scores from the Graduate Record Examination.
5. Curriculum vitae or resume.
6. Email addresses by which the graduate school application system will contact three individuals who can provide letters of professional recommendation.
7. Scholarly Writing Sample (10-15 scholarly paper following APA guidelines about a current issue in the field of Special Education).
8. A letter of support from a faculty member indicating an interest in fulfilling the role of advisor.
Curriculum and Instruction - Doctor of Philosophy

The Curriculum and Instruction Department offers two kinds of doctorates: The Doctorate of Education and the Doctorate of Philosophy. The Doctorate of Education (EdD) and the Doctorate of Philosophy (PhD) are rigorous degrees requiring an intellectual and personal commitment. Both degrees ask for a lifelong commitment to teaching, learning and pedagogy, as well as, to research and service. The academic course of study for both degrees is the same. The EdD doctoral program of study requires a minimum of 66 credit hours (48 hours coursework and 18 hours of dissertation) to complete. The PhD doctoral program requires students to demonstrate competency in the computer tools or second language sequence. (See below in program descriptions). For both programs (EdD and PhD) 66 credit hours is only the minimum and students may be asked to complete additional hours as per their advisor and committee recommendations.

Both degrees require a dissertation based on original research, inextricably grounded with an array of primary and secondary sources. Both degrees have required courses of study, but are additionally individualized based on those scholarly and academic expectations set by the doctoral student in collaboration with their Dissertation Committee.

Options and Concentration
Currently there are four Options and one concentration for the Doctoral Program of the Department of Curriculum & Instruction. These are:

Options:
1. Bilingual/TESL
2. Critical Pedagogies
3. Early Childhood Education
4. Language, Literacy & Culture

Concentration:
1. Educational Learning Technologies

To Apply
- Apply to the NMSU Graduate School (Select Intended major "Curriculum and Instruction" and then concentration you will pursue);
- Apply to C&I by submitting your Application Portfolio by December 15th (via the Graduate School Application portal)
  - See the sections, "Applying to the Doctoral Program," "Doctoral Intake Application Instructions" and the "C&I Doctoral Student Checklist" in the Doctoral Handbook.
  - NMSU Doc Portfolio Example – C&I (If the Sample portfolio does not open automatically, try a different browser or try saving the portfolio to your desktop before opening it.)

NOTE: Potential students who have written successful portfolios will be invited to interview with the Doctoral Qualifying Committee (a committee of C&I faculty)

Once Applicants Are Accepted
- Attend the applicable Doctoral Orientation Meeting your first semester of classes
- Meet with your Interim Advisor during your first semester of classes
- Get to know our faculty
- Read the Doctoral Handbook and the sections of the NMSU Graduate Catalog that apply to you (this is your responsibility)
- Follow the Doctoral Program Checklist from the C&I Doctoral Handbook

Educational Administration (Higher Education) - Doctor of Philosophy
Educational Leadership Doctoral Program (ELDP)

The Doctor of Philosophy is a research-oriented degree. Coursework and internships are directed toward developing research proficiencies in educational leadership. The Ph.D. also requires additional hours of coursework in an approved cognate area.

Admission

The department requires applicants to complete a Doctoral Admissions Portfolio. Specific details and criteria are available from the School of Teacher Preparation, Administration and Leadership (TPAL) or on the website at https://ela.nmsu.edu/index/academics/docpage/.

For More Information

Please do not hesitate to contact the School of TPAL if you have any questions related to ELDP. Feel free to send an e-mail message to edmandev@nmsu.edu or call (575) 646-3825.

- Child and Family Development
- Communication
- Feminist/Gender Studies
- Latino/a Studies
- Native American Studies
- Program Evaluation/Data Analysis
- Research Methods
- Social Justice/Critical Theory
- Sociocultural Theory
- Critical Race Theory/LatCrit

A Suggested Plan of Study

There are also 15 credits of Cognate coursework that must be completed in order to fulfill the requirements of the Doctor of Philosophy in Educational Administration.

Special Education - Doctor of Philosophy

The Special Education Doctorate Program is committed to preparing professionals in the areas of teaching, research, service, and leadership positions. All students within this program are trained to conduct independent research, become critical/independent thinkers, and embrace the notion of diversity. Upon completion of the doctorate the student will be able to inform policies that promote the well-being of all individuals with exceptionalities at the local, community, societal, and global levels. The Department of Special Education/Communication Disorders is pleased to offer two different, but equally rigorous, pathways (a Ph.D. or an Ed.D.). The two degrees can be differentiated in this way: a potential candidate seeks to drive educational change through either the use of existing research (Ed.D.) or the creation of new research (Ph.D.). Additionally, there are two areas of specialization: Bilingual/Multicultural Special Education and Autism Spectrum Disorders. A student may also choose to minor in a related area such as Communication Disorders and must work carefully with an advisor to plan a program of study if a minor is desired.

Admission

Doctoral admission is competitive. To maximize consideration for admittance, applications must be submitted by February 10 for admission in the following semester. Admissions decisions are made based on evaluation of the student's potential for success in research, teaching, and service to the profession. Requirements include the following:

1. Completed Graduate school admission application.
2. Letter of Intent that explains professional goals and area of research interest.
3. Complete transcripts from all post-secondary educational experiences, with notation of a bachelor's degree, a master's degree in a related field of study, and a minimum 3.0 cumulative GPA on a 4.0 scale.
4. Scores from the Graduate Record Examination.
5. Curriculum vitae or resume that includes at least 3 years prior (or continuing concurrent) direct and/or related teaching experience in an educational field.
6. Email addresses by which the graduate school application system will contact three individuals who can provide letters of professional recommendation.
7. Scholarly Writing Sample (10-15 page scholarly paper following APA guidelines about a current issue in the field of Special Education).
8. A letter of support from a faculty member indicating an interest in fulfilling the role of advisor.
9. For international students with English language testing requirements, TOEFL results of at least 79 IBT; 550 PBT or IELTS scores of at least 6.5.

Coursework

60 credit hours (42 credit hours in coursework and 18 credits of dissertation research) are the minimum credit hours required for either a Ph.D. or Ed.D. The required coursework is planned with the student's committee members who take into account the student's research interest, research design, availability of coursework, and independent research study(s) which occur under the direction of the advisor of record and/or a faculty member. Additional coursework is contingent and may be recommended by the Doctoral Qualifying Committee, the advisor of record, and the student. Coursework requirements follow:

<td>18+</td>
</tr>
</tbody>
</table>

Examinations

Students must pass a qualifying examination (during the first year of study), a Comprehensive Exam including written portfolio and oral elements (prior to beginning a dissertation), and a final dissertation defense. The doctoral handbook on the departmental website provides procedural and other details regarding each exam.

Dissertation

Every student working toward the doctoral degree will submit a dissertation embodying the results of original research. The dissertation is expected to demonstrate the student's ability in independent investigation and to be a contribution to human knowledge. The dissertation shall display a mastery of the literature of the subject field and present an organized, coherent development of ideas with a clear exposition of results, and provide a critical discussion of the limits and validity of the student's conclusions.

The Online Teaching and Learning Graduate Certificate (OTLGC) is fully online certificate for professionals in business, government, education, or other settings who want to develop their knowledge and skills in online teaching and learning.

OTL utilizes technology-based environments to actively engage students in designing formal educational projects that meet professional objectives. The five core courses (3-credits each) are sequences to provide an intense immersion in a dynamic online environment and culminates in an online teaching practicum.

Prime candidates for the OTLGC program are individuals with a need to explore online teaching and learning techniques and the willingness to engage in collaborative learning projects.

OTL courses can be taken as electives by students who do not wish to complete the certificate program.

Current NMSU graduate students can take the OTLGC program. However, the decision about if and how OTL courses factor into a degree plan, or not, is decided by the department issuing the graduate degree. It’s highly recommended you meet with your graduate advisor before you start the OTLGC program. You will either have to complete the OTLGC before or during the same semester you complete your graduate degree. If you start the OTLGC during your graduate degree program you cannot complete the OTLGC after completing your graduate degree. If you start the OTLGC program after completing your graduate degree, there isn’t a conflict.

Important information about the educational debt, earnings, and completion rates of students who attend this program can be found on the following: Gainful Employment Disclosure.

\(^1\) EDLT 592 Directed Studies cannot be taken until EDLT 560 Fostering Online Learning Communities, EDLT 575 Designing and Organizing Online Learning Environments, EDLT 580 Tools and Techniques for Online Teaching and EDLT 590 Assessing and Evaluating Online Learning have been completed.

Other courses that are available are EDLT 561 Social Media in Blended and Online Learning Environments (for Fall), EDLT 579 Universal Design in Online Course Design or EDLT 581 Emerging Technology.
Tools and Techniques (for Spring), EDLT 578 Design and Delivery of Webconferences and Webinars (for Summer).
COLLEGE OF ENGINEERING

Dean - Lakshmi Reddi, P.E.

Associate Dean (Academic Programs) - TBA

Associate Dean/Director of Engineering Research Center - Phillip DeLeon

Associate Dean (Outreach and Recruitment) - Patricia Sullivan

Assistant Dean (Student Success and Experiential Learning) - Gabe Garcia

College Chief of Staff - Linda Fresques

Program Manager - Elizabeth Howard

The College of Engineering comprises six departments:
- Chemical Engineering (p. 715);
- Civil Engineering (p. 729);
- Electrical and Computer Engineering (p. 751);
- Engineering Technology and Surveying Engineering (p. 788);
- Industrial Engineering (p. 833);
- Mechanical and Aerospace Engineering (p. 844).

Mission of the College of Engineering

The College of Engineering will uphold the land grant mission of NMSU through nationally recognized programs in education, research and professional and public service.

With respect to our undergraduate programs, we will accomplish our mission by focusing on the following goals:

1. To be nationally and internationally recognized for academic and research programs in engineering and engineering technology.
2. Provide world-class engineers and engineering technologists for industrial, government, and academic constituents of the College of Engineering.
3. To be the University of Choice for undergraduate engineering and engineering technology education in the region.
4. To serve as an engine for economic development in New Mexico through the advancement of engineering and technology.

Furthermore, graduates receiving baccalaureate degrees will demonstrate:
- an ability to apply knowledge of mathematics, science and engineering;
- an ability to design and conduct experiments, as well as to analyze and interpret data;
- an ability to design a system, component or process to meet desired needs;
- an ability to function on multi-disciplinary teams;
- an ability to identify, formulate, and solve engineering problems;
- an understanding of professional and ethical responsibility;
- an ability to communicate effectively;
- the broad education necessary to understand the impact of engineering solutions in a global and societal context;
- a recognition of the need for, and an ability to engage in life-long learning;
- a knowledge of contemporary issues; and
- an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Undergraduate Student Advisement

Starting with the fall 2017 semester, students entering the College of Engineering will be advised by the Center for Academic Advising and Student Support (CAASS) located in Garcia Annex. Students may also change majors at the CAASS. Students uncertain about choosing a major may list themselves as undeclared in the College of Engineering and be advised by the CAASS. Undeclared students will be asked to choose a major after two semesters in the college. Students must have a declared major in order to graduate.

At the discretion of the associate dean, students who do not demonstrate satisfactory progress may be required to leave the College of Engineering.

Undergraduate General Education

With the exception of math and science, the college accepts all coursework approved for inclusion in the New Mexico General Education Common Core. Calculus I, General Chemistry I and Engineering Physics I are required to satisfy areas II and III of the common core.

S/U Coursework

The college requires most degree requirements to be taken with traditional grading. Students may take selected humanities and social science courses under the S/U option. Other exceptions are specifically noted in the program descriptions later in this catalog.

Undergraduate Math Placement

Entering freshmen are placed into an appropriate math course based upon the results of the Math Placement Exam administered regularly by the NMSU mathematics department. Students with advanced placement or transfer credit for mathematics will be placed accordingly. Math placement may be altered at the discretion of the associate dean.

Minors

Minors are available from most departments within the College of Engineering are outlined in the individual program descriptions.

Undergraduate Cooperative Education

After two semesters of satisfactory academic work (2.5 GPA), an engineering student may go on a work phase with one of the many companies or governmental agencies with which the university has co-op agreements. The experience obtained through alternating periods of academic and fieldwork greatly contributes to the preparation of a student for professional life. Work phases are considered to be a vital part of the educational process, and students are counseled in the selection of co-op positions that will lead to progressive learning experiences. Earnings while on work phase provide a source of financial assistance to meet educational expenses.

A significant number of undergraduate engineering students are in the cooperative education program. Students may, with the approval of their department head, earn credit while participating in a co-op work phase. Co-op credits do not normally count toward the degree requirements but do show on the transcript.
Undergraduate General Academic Requirements

For regular admission to the university and the College of Engineering, incoming freshman and transfer applicants must meet the university’s qualifications for regular admission as stated in the undergraduate catalog in effect at the time of application. Students admitted to the College of Engineering will be classified by the college as a pre-[major] until the standard requirements described below for admission to the program major are met.

Pre-[major] students will be admitted into their respective programs once they have met the following criteria:

• Earn a minimum grade of C- in all of the following courses:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 111G</td>
<td>General Chemistry I</td>
<td>4</td>
</tr>
<tr>
<td>or CHEM 110 (engineering technology)</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>SPCD 111G</td>
<td></td>
<td>4</td>
</tr>
<tr>
<td>ENGR 100</td>
<td>Introduction to Engineering</td>
<td>3</td>
</tr>
<tr>
<td>MATH 191G</td>
<td>Calculus and Analytic Geometry I</td>
<td>4</td>
</tr>
<tr>
<td>or MATH 235 (engineering technology)</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>PHYS 213</td>
<td>Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>or PHYS 215G (engineering technology)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Any of the above courses with earned AP credit (minimum score of 3) is exempt from the list. Transfer students may meet this criteria with determined passing credit of equivalent courses. PRE [major] students will be advised by their EG [major] department.

NMSU College of Engineering reserves the right to independently test any student’s English proficiency upon arrival, including those who have earned scores satisfying minimum admission criteria. If the demonstrated level of English proficiency is not sufficient for academic success as determined by the Center for English Language Programs, support classes may be required to improve proficiency.

Students must earn a minimum cumulative GPA of 2.0 before enrolling in engineering courses numbered 300 or above.

Students must earn a grade of C- or better in all engineering, technology, math and science courses (including associated prerequisite courses) required for the degree and also courses taken to satisfy the general education requirements for Area I-Communications, Area II-Mathematics/Algebra, and Area III-Laboratory Science. If a grade lower than C- is earned in any of these courses, the student is required to retake the course immediately during the next semester it is offered. An undergraduate student may attempt an engineering, math, or physical science course no more than three times to earn a passing grade of C- or better. Anytime a student earns less than a C-, a meeting with the appropriate engineering academic advisor is required to develop a plan for addressing this issue. If the student fails to pass any of these courses after three attempts, then the student will not be able to continue as an engineering major and will be counseled on other degree options.

Engineering Transfer Policy

Policy for engineering majors enrolling in courses at other institutions to meet College of Engineering Departmental Core Requirements.

1. NMSU Policy Manual Chapter 6, section 89, paragraph A. “The decision to award a student credit for work completed at another institution rests with the faculty.”
2. NMSU main campus engineering majors may take core classes at other institutions of higher education to meet NMSU College of Engineering Departmental Core if the NMSU core course cannot accommodate any more eligible students.
3. The following conditions and restrictions apply to any course not taken on the NMSU main campus.
   • The department must approve the course prior to enrollment (student to provide course syllabus and any other documentation to department head).
   • The course must be a class in a program that is accredited by an accreditation commission of ABET, Inc. and cannot be graded S/U.
   • The course must be substantially the same as the equivalent NMSU class and the student must have satisfied all NMSU prerequisite requirements.
   • The student shall provide a corresponding course syllabus and any other documentation required.
   • If NMSU prerequisite requirements are not satisfied, credit will be denied regardless of a passing grade for the course at the other institution.
4. In addition to 3 above, the following conditions apply to any on-line course not taken from the NMSU main campus.
   • Scheduled exams, if any, shall be proctored.
   • If NMSU prerequisite requirements are not satisfied, credit will be denied regardless of a passing grade for the course at the other institution.

Requirements for Graduation

The minimum requirements for undergraduate degrees are:

1. Satisfaction of the university requirements as previously outlined in the Regulations (p. 58) section of this catalog.
2. Satisfaction of the college requirements as outlined under General Academic Requirements, above.
3. Satisfaction of the departmental rules and course requirements as outlined in the individual program descriptions.

NOTE: In order to maintain quality, remain current, and satisfy changes in accreditation criteria, requirements which have been published may be changed. Any such changes will be announced and will not be retroactive. Always consult an academic advisor before registering for classes.

Graduate Degrees

Graduate study is available in

• Aerospace Engineering (p. 844),
• Chemical Engineering (p. 715),
• Civil Engineering (p. 729),
• Electrical Engineering (p. 751),
• Environmental Engineering (p. 729),
• Industrial Engineering (p. 833) and
• Mechanical Engineering (p. 844).

See individual program descriptions for graduate degree requirements.

**Bachelor Degrees**

Bachelor of Information and Communication Technology (p. 830)

**Bachelor of Science in Engineering**

Majors in:

• Aerospace Engineering (p. 850)
• Chemical Engineering (p. 723)
• Civil Engineering (p. 737)
  • Civil Engineering (Environmental) (p. 735)
  • Civil Engineering (Geotechnical) (p. 739)
  • Civil Engineering (Structural) (p. 741)
  • Civil Engineering (Water Resources) (p. 743)
• Electrical Engineering - Bachelor of Science in Electrical Engineering (p. 761)
  • Electrical Engineering (Communications & Signal Processing) (p. 763)
  • Electrical Engineering (Control & Power) (p. 768)
  • Electrical Engineering (Electromagnetics & Photonics) (p. 770)
  • Electrical Engineering (Space Systems) (p. 772)
• Engineering Physics (p. 785)
  • Aerospace
  • Chemical
  • Electrical
  • Mechanical
• Engineering Technology - Civil (p. 798)
  • Construction Technology
  • Geomatics
  • Renewable Energy Technologies
  • Transportation Technology
  • Water/Wastewater Technology
• Engineering Technology - Electronics and Computer (p. 811)
  • Digital Forensics
  • Information Security Technology
  • Renewable Energy Technologies
• Engineering Technology - Information (p. 819)
  • Information Security Technology
• Engineering Technology - Mechanical (p. 823)
  • Renewable Energy Technologies
  • Geomatics (p. 828)
• Industrial Engineering (p. 837)
• Mechanical Engineering (p. 852)

**Masters Degree**

**Master of Engineering**

Majors in:

• Aerospace Engineering (p. 854)
• Chemical Process Industry (p. 727)
• Civil Engineering (p. 747)
• Electrical Engineering (p. 775)
• Industrial Engineering (p. 839)
• Mechanical Engineering (p. 855)

**Master of Science in Aerospace Engineering** (p. 855)

**Master of Science in Chemical Engineering**

**Master of Science in Civil Engineering**

Major in:

• Civil Engineering
  • Geotechnical Engineering (Option)
  • Structural Engineering (Option)
  • Water Resource Engineering (Option)

**Master of Science in Electrical Engineering** (p. 776)

**Master of Science in Environmental Engineering**

**Master of Science in Industrial Engineering**

**Master of Science in Mechanical Engineering**

**Doctoral Degree**

**Doctor of Philosophy**

Majors in:

• Aerospace Engineering (p. 856)
• Chemical Engineering (p. 728)
• Electrical Engineering (p. 778)
• Engineering
  • Civil Engineering (p. 751)
  • Industrial Engineering (p. 842)
  • Mechanical Engineering (p. 857)

**Graduate Certificates**

Digital Communications - Graduate Certificate (p. 778)
Digital Signal Processing - Graduate Certificate (p. 779)
Electric Energy Systems - Graduate Certificate (p. 779)
Systems Engineering - Graduate Certificate (p. 843)
Telemetry - Graduate Certificate (p. 779)

**Undergraduate Minors**

• Aerospace Engineering (p. 854)
• Agricultural Engineering (p. 745)
• Biomedical Engineering (p. 725)
• Brewery Engineering (p. 725)
• Computational Engineering (p. 725)
• Computer Engineering (p. 774)
• Digital Electronic Applications (p. 831)
• Digital Forensics (p. 832)
• Electrical Engineering (p. 775)
• Entrepreneurship (p. 839)
• Environmental Engineering (p. 746)
• Geomatics (p. 832)
• Information Security Technology (p. 832)
• Manufacturing (p. 832)
• Materials Engineering (p. 725)
• Mechanical Engineering (p. 854)
• Nuclear Chemical Engineering (p. 725)
• Pre-Law in Intellectual Property (p. 725)
• Pre-Medicine Studies (p. 726)
• Renewable Energy Technologies (p. 833)
• Structural Engineering (p. 746)

Graduate Minor
• Materials Engineering (p. 729)

Accreditation
ABET (formerly the Accreditation Board for Engineering and Technology), established in 1933 and composed of representatives from technical societies, assures professional standards by periodic evaluations of the programs in the College of Engineering. (ABET may be contacted at http://www.abet.org)

Continuous accreditation by the Engineering Accreditation Commission (EAC) of ABET has been in force since
• 1938 for civil, electrical, and mechanical engineering,
• 1967 for chemical engineering,
• 1971 for industrial engineering,
• 2001 for surveying engineering and
• 2005 for engineering physics.
• 2012 for aerospace engineering.

The electronics and computer, civil, and mechanical engineering technology baccalaureate degree programs have been accredited by the Technology Accreditation Commission (TAC) of ABET since 1988.

The college is a member of the American Society for Engineering Education (ASEE).

Chemical & Materials Engineering
Mission
The New Mexico State University Chemical & Materials Engineering Department strives to prepare Chemical Engineering Bachelor of Science graduates to successfully and safely practice the chemical engineering profession, to engage in life-long personal and professional development, and to contribute to the betterment of their community and society.

Undergraduate Program Information
Chemical engineers solve problems by combining the fundamentals of physical science (chemistry and physics) and life science (biology, microbiology, biochemistry) with the principles of engineering analysis, mathematics, and economics. The curriculum of study leading to the BSCH continues builds on prerequisite knowledge. The capstone course requires completion of a series of seven prerequisite courses, each having its own prerequisites. In this manner, the BSCH produces graduates with highly developed problem-solving capabilities, strong communication and interpersonal skills, and an ability to seek out and assimilate knowledge beyond the classroom. Graduates apply these competencies to solve problems across a wide range of industries in the private and public sectors.

The work of a chemical engineer typically leads to the development of processes that convert raw materials (chemicals) into more useful or valuable products. Chemical engineers are pioneers of modern materials and associated processes that are essential to the fields of:
• nanotechnology;
• fuel cells;
• computer chip manufacture;
• environmental restoration and pollution prevention;
• biomedical, biotechnology and bioengineering;
• pharmaceutical manufacturing;
• food production;
• transportation (automotive and aerospace);
• advanced materials;
• petrochemical and refining;
• chemical synthesis and production; and
• power & energy (including the nuclear industry).

Graduates are also well-prepared to continue the study of law, medicine or advanced engineering topics at the graduate level.

Undergraduate Program Educational Objectives
The Chemical & Materials Engineering Department at New Mexico State University strives to produce undergraduates who will:
1. apply their problem-solving and communication skills to chemical engineering industries, government research labs, academia, and related fields;
2. implement safety practices in their work;
3. be on the path to leadership; and
4. build new skills sets through continuing education and professional development.

These Program Educational Objectives (PEOs), which are modified based on input from our constituencies, are consistent with the missions of NMSU, the College of Engineering and the Department of Chemical & Materials Engineering.

Graduate Program Information
The Department of Chemical and Materials Engineering offers graduate study leading to the Master of Science degree and the Ph. D. with an emphasis in chemical engineering. Admission to the program is in accord with the general regulations of the Graduate School. The Graduate
Record Examination (GRE) General Test is required for all applicants. All graduate students are required to pass all graduate engineering courses with a minimum grade of B-.

All graduate students must select a thesis or dissertation advisor by the end of their first year in the chemical engineering graduate program. Thesis/dissertation may be pursued in absentia at various industrial sites by special arrangement.

Graduate teaching and research assistantships, fellowships and traineeships are available. For consideration for financial assistance, completed applicants must be received by March 1. All support is contingent upon availability, eligibility and satisfactory progress toward the degree.

Each student admitted to the CHME grad program who has an undergraduate degree in a discipline other than chemical engineering must schedule a meeting with the CHME Department Head to define the undergraduate course deficiencies the student must take to obtain a graduate degree in chemical engineering.

**Graduate Program Educational Objectives**

Chemical & Materials Engineering graduate students must:

1. demonstrate skills in the (1) design of experiments or simulations, (2) collection of experimental/simulated data, (3) development of appropriate models, and (4) make appropriate use of those models;
2. complete an independent research project, resulting in at least a thesis/dissertation and peer-reviewed journal article(s);
3. defend original research in front of a panel of peers and experts;
4. be knowledgeable of the contemporary issues that are relevant to their chosen area of research.

**Degrees for the Department**

Chemical Engineering - Bachelor of Science in Chemical Engineering (p. 723)

Chemical Engineering - Master of Engineering in Chemical Process Industry (p. 727)

Chemical Engineering - Master of Science in Chemical Engineering (p. 726)

Chemical Engineering - Doctor of Philosophy (p. 728)

**Minors for the Department**

Brewery Engineering - Undergraduate Minor (p. 725)

Biomedical Engineering - Undergraduate Minor (p. 725)

Computational Engineering - Undergraduate Minor (p. 725)

Materials Engineering - Undergraduate Minor (p. 725)

Nuclear Chemical Engineering - Undergraduate Minor (p. 725)

Pre-Law in Intellectual Property - Undergraduate Minor (p. 726)

Pre-Medicine Studies - Undergraduate Minor (p. 726)

Materials Engineering - Graduate Minor (p. 729)

**Department Head:** David A. Rockstraw

**Associate Department Head:** Martha C. Mitchell

**Professors** Luo, Mitchell, Rockstraw, Brewer, Foudazi, Houston, Manz

**Associate Professors** Jena, Zhou

**Emeritus Professors** Bhada, Ghassemi, Johnson, Patton

**Research Interests:**

P.K. Andersen (Ph.D., California-Berkeley) physicochemical hydrodynamics, nuclear chemical engineering, modeling and simulation, education and training.

C.E. Brewer (Ph.D., Iowa State) biomass thermochemical processing, sustainable agriculture, biorenewable resources, brewery engineering.

R. Foudazi (Ph.D., Cape Peninsula University of Technology, South Africa) soft matter, membranes, rheology of complex fluids, colloid and interface science, adsorption.

J. Houston (Ph.D., Texas A&M) biomedical engineering, biophotonics, flow cytometry.

U. Jena (Ph.D., Georgia) biological and agricultural engineering; biosystems engineering, hydrothermal processing of biomass; catalysis, biofuel characterization and analysis.

H. Luo (Ph.D., Tulane) nanostructured materials, thin films, photovoltaics, batteries, electrocatalysts, photocatalysts.

T.A. Manz (Ph.D., Purdue) quantum chemistry simulations of materials, catalysis, and space physics.

M.C. Mitchell (Ph.D., Minnesota) computer modeling and simulation of molecular-level phenomena, thermodynamic characterization of aerospace fuels, statistical mechanics, engineering education, diversity and inclusion in STEM.

D.A. Rockstraw (Ph.D., Oklahoma) chemical process design, analysis & simulation, catalysis and reaction kinetics, activated carbon, trade secret and intellectual property litigation.

M. Zhou (Ph.D., New Mexico State) gas adsorption and separation, energy storage devices, capacitive deionization.

1 Registered Professional Engineer

**Chemical Engineering Courses**

**CHME 101. Introduction to Chemical Engineering Calculations**

2 Credits

Introduction to the discipline of chemical engineering, including: an overview of the curriculum; career opportunities; units and conversions; process variables; basic data treatments; and computing techniques including computer programming and use of spreadsheets.

**Prerequisite(s)/Corequisite(s):** MATH 190G.

**CHME 102. Material Balances**

2 Credits

Perform material balances in single- and multi-phase, reacting and non-reacting systems under isothermal conditions.

**Prerequisite(s)/Corequisite(s):** CHEM 111G or CHEM 115. **Prerequisite(s):** MATH 190G, CHME 101.
CHME 201. Energy Balances & Basic Thermodynamics
3 Credits
Chemical Engineering energy balances; combined energy and material balances including those with chemical reaction, purge and recycle; thermochemistry; application to unit operations. Introduction to the first and second laws of thermodynamics and their applications. May be repeated up to 3 credits.
Prerequisite(s): CHME 102, CHEM 115 or CHEM 111G, and MATH 192G.

CHME 294. Communicating in Chemical Engineering
2 Credits
Students will master the fundamentals of communicating as an engineer, with focus on both written and oral communication, both independently and collaboratively, including development of the skills of gathering information and making decisions.
Corequisite(s): ENGL 111G, COMM 265G.

CHME 301. Chemical Engineering Thermodynamics I
3 Credits
Applications of the first and second law to chemical process systems, especially phase and chemical equilibria and the behavior of real fluids. Development of fundamental thermodynamic property relations and complete energy and entropy balances. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): CHME 392 or MATH 392. Prerequisite(s): CHME 201, MATH 291G.

CHME 302. Chemical Engineering Thermodynamics II
2 Credits
Continuation of CHME 301. May be repeated up to 2 credits.
Prerequisite(s): CHME 301 AND (CHME 392 OR MATH 392).

CHME 302 L. Thermodynamic Models of Physical Properties
1 Credit
Prerequisite(s)/Corequisite(s): CHME 302.

CHME 303. Chemical Engineering Thermodynamics
4 Credits
Applications of the First Law and Second Law to chemical process systems, especially phase and chemical equilibria and the behavior of real fluids. Development of fundamental thermodynamic property relations and complete energy and entropy balances. Modeling of physical properties for use in energy and entropy balances, heat and mass transfer, separations, reactor design, and process control.
Prerequisite(s)/Corequisite(s): MATH 392. Prerequisite(s): CHME 201, MATH 291G.

CHME 305. Transport Operations I: Fluid Flow
3 Credits
Prerequisite(s)/Corequisite(s): CHME 392. Prerequisite(s): CHME 201, PHYS 215G, MATH 291G. Restricted to: CHME majors.

4 Credits
Prerequisite(s): CHME 305 and (CHME 392 or MATH 392).

3 Credits
Theory of mass transport. Mass transfer coefficients. Analysis of chemical engineering unit operations involving mass transfer and separations. Equilibrium stage concept. General design and operation of mass-transfer equipment and separation sequences. May be repeated up to 3 credits. Restricted to: CHME, CHE majors.
Prerequisite(s): CHME 303, CHME 306.

CHME 311. Engineering Data Analysis
3 Credits
Methodology and techniques associated with analyzing engineering data. Extensive spreadsheet use to analyze data and develop statistically significant conclusions based on the data. Data sets range from single variable experiments to multifactor regression analysis.
Prerequisite(s): MATH 192.

CHME 323 L. Transport Operations and Instrumentation Laboratory I
1 Credit
Laboratory experiments demonstrate the principles of process measurement and instrumentation through the determination of thermodynamic properties, transport phenomena properties, heat transfer, and material physical properties. Treatment of data includes regression techniques, analysis of error, and statistical analysis.
Prerequisite(s)/Corequisite(s): CHME 306. Prerequisite(s): STAT 371 or CHME 311. Restricted to: CHME majors.

CHME 324 L. Transport Operations and Instrumentation Laboratory II
1 Credit
Continuation of CHME 323L. Restricted to: CHME majors.
Prerequisite(s): CHME 323L.

CHME 332 L. Simulation of Unit Operations
1 Credit
Definition, specification, and convergence of basic unit operations in a process simulator. Course will cover pipe networks, pressure changers, heat exchangers, distillation columns, and chemical reactors.
Prerequisite(s)/Corequisite(s): CHME 307, CHME 441. Restricted to: CHME majors.

CHME 361. Engineering Materials
3 Credits
Prerequisite(s): (CHEM 111G or CHEM 114 or CHEM 115) and MATH 190G.
CHME 391. Industrial Employment
1-2 Credits
Employment in chemical, petroleum, food, biotechnology, materials, environmental, pharmaceutical, or other industry relevant to the discipline, with opportunity for professional experience and training in chemical engineering. Requires written report covering work period approved by employer. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: CHME, CH E majors.
Prerequisite(s): Consent of department head.

CHME 392. Numerical Methods in Engineering
3 Credits
Study and application of numerical methods in solving problems commonly encountered in engineering. The numerical methods are motivated by engineering problems rather than by mathematics. However, sufficient mathematical theory will be provided so that students can appreciate the insight into the techniques and their shortcomings of different methods. MATLAB will be used as the working environment for implementing and performing the numerical methods in computers. This course is an engineering elective open to all engineering majors.
Prerequisite(s)/Corequisite(s): MATH 392.

CHME 395V. Brewing Science and Society
3 Credits
An overview of the science of brewing and the interrelationships between society, technology, business, and the evolution of the current beer market. Topics covered are history of brewing and the interrelationships between societal attitudes, technology, and cultural preferences; beer styles and evaluation techniques; production and characteristics of ingredients used in brewing; brewing unit operations; biochemistry of malting, mashing, and fermentation; engineering in the brewery; homebrewing; and societal and health issues related to beer and alcohol. Students must be at least 21 years of age by the first day of instruction of the semester to enroll in this course.

CHME 412. Process Dynamics and Control
3 Credits
Prerequisite(s): CHME 441.

CHME 423 L. Unit Operations Laboratory I
1 Credit
Experiments with chemical engineering unit operations including the use of computer data acquisition. Covers control system instrumentation and development of empirical models from process data. Includes written and oral reports. Restricted to: CHME majors.
Prerequisite(s): CHME 307, CHME 441, CHME 324L.

CHME 424 L. Process Control Laboratory
1 Credit
Experiments with chemical engineering process control including the use of computer data acquisition and closed-loop process control. Covers control system instrumentation. Includes written and oral reports. Restricted to: CHME majors.
Prerequisite(s): CHME 412, CHME 423L.

CHME 441. Chemical Kinetics and Reactor Engineering
3 Credits
Analysis and interpretation of kinetic data and catalytic phenomena. Applied reaction kinetics; ideal reactor modeling; non-ideal flow models. Mass transfer accompanied by chemical reaction. Application of basic engineering principles to design, operation, and analysis of industrial reactors. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): CHME 307. Prerequisite(s): CHEM 313, CHME 303. Restricted to: CHME, CMEG, CH E majors.

CHME 443. Industrial Catalysis
3 Credits
Fundamentals of catalytic processes, including chemistry, catalyst preparation, properties and reaction engineering. Addresses heterogeneous catalytic processes employed by industry. Detailed analysis of existing catalysts and catalytic reactions, and process design in chemical engineering.
Prerequisite(s): CHME 441.

CHME 444. Chemical Process Design & Economic Evaluation
3 Credits
Concepts in chemical engineering process design, including: capital and manufacture cost estimation; discounted cash flows; interest; taxes; depreciation; profitability analysis; project specifications. Restricted to: CHME, CH E majors.
Prerequisite(s): CHME 307, CHME 441.

CHME 445. Chemical Plant Design
3 Credits
Design and analysis of integrated process plants. Consideration given to optimizing performance, operability reliability, safety, control, energy integration, and cost effectiveness. Requires written report covering solution of a capstone design problem. Restricted to: CHME majors.
Prerequisite(s): CHME 452.
CHME 455 L. Chemical Plant Simulation
3 Credits
Construction, convergence, and optimization of chemical processes in a process simulator. Dynamic process simulation and control.
Prerequisite(s)/Corequisite(s): CHME 455. Prerequisite(s): CHME 412, CHME 452L. Restricted to: CHME majors.

CHME 461. Calculation of Material and Molecular Properties
3 Credits
The aim is to describe and apply techniques for computing common
properties of materials and molecules: optimized geometries, transition
states, vibrational spectra, energies (electronic, internal energy, enthalpy,
and Gibbs free energy), heat capacities, net atomic charges, atomic
spin moments, and effective bond orders. These techniques allow one
to estimate the thermodynamic properties of a chemical, as well as to
compute the mechanisms and energy barriers for chemical reactions
and catalytic processes, and to quantify the electronic, magnetic, and
chemical ordering in materials. The theory behind these techniques will
be described and students will perform hands-on computer exercises
using common computational chemistry programs. Taught with
CHME 561.
Prerequisite(s): CHEM 116, MATH 192G, (PHYS 214 or PHYS 216).

CHME 463. Soft Matter
3 Credits
Bulk soft matter assemblies including polymers, macromolecules,
colloids, gels, vesicles, emulsions, surfactants, micelles, suspensions
and liquid crystals. Self-assembly including molecular self-organization,
supramolecular systems, encapsulation, self-assembled films
and monolayers. Biological aspects of soft matter including
biomacromolecules, cells and soft tissues. Surfaces, interfaces and
interactions including thin films, Langmuir monolayers and wetting/
dewetting. Physicochemistry and characterization of soft matter. Taught
with CHME 563. May be repeated up to 3 credits. Consent of Instructor
required.
Prerequisite(s): CHME 303, CHME 305, CHME 361.

CHME 464. Polymer Science & Engineering
3 Credits
This course covers concepts in science and engineering of
macromolecules, such as synthesis and chemistry; characterization of
molecular weight, morphology, rheology, and mechanical behavior,
structure and property relationships, and polymer processing. Taught
with CHME 564. May be repeated up to 3 credits.
Prerequisite(s): CHEM 314.

CHME 465. Rheology and Viscoelasticity
3 Credits
Navier-Stokes equation; non-Newtonian fluids; flow fields; rheometry,
viscoelastic models; non-linear viscoelasticity; material functions;
complex fluids, including emulsions, suspensions and nanocomposites.
Taught with CHME 565. Consent of Instructor required.
Prerequisite(s): CHME 306.

CHME 470. Introduction to Nuclear Energy
3 Credits
Atomic and nuclear structure, nuclear stability and radioactivity, nuclear
reactions, detection and measurement of radiation, interaction of
radiation with matter, radiation doses and hazard assessment, principles
of nuclear reactors, and applications of nuclear technology.
Prerequisite(s): CHEM 111G, MATH 192G.

CHME 467. Nanoscience and Nanotechnology
3 Credits
This is a lecture/laboratory course designed to present the basic
concepts, the techniques and the tools to synthesize and characterize
nanometer scale materials, and the latest achievements in current
and future nanotechnology applications in engineering, materials,
physics, chemistry, biology, electronics and energy. It is intended
for a multidisciplinary audience with a variety of backgrounds. This
course should be suitable for graduate students as well as advanced
undergraduates. Topics covered will include: nanoscience and
nanotechnology, nanofabrication, self-assembly, colloidal chemistry, sol-
gel, carbon nanotubes, graphene, thin film, lithography, physical vapor
deposition, chemical vapor deposition, quantum dots, lithium batteries,
X-ray diffraction, scanning electron microscopy, transmission electron
microscopy, nanoelectronics, nanophotonics and nanomagnetics, etc.
Taught with PHYS 520 and CH E 567. Crosslisted with: PHYS 520 and
PHYS 467.
Prerequisite(s): (CHEM 116 or CHEM 112G), (PHYS 211G or PHYS 215G),
(EH&S Safety training to include the courses: (1) Employee & Hazard
Communication Safety (HazCom); (2) Hazardous Waste Management;
and (3) Laboratory Standard).

CHME 468.Adsorption
3 Credits
Introduction to adsorption science and technology, which includes
adsorption equilibrium and kinetic theories, adsorbent materials and
characterization, adsorption processes and design. Selected applications
of adsorption processes in chemical and pharmaceutical industries and
environmental protections will also be discussed. Taught with CHME 568.
Restricted to: CHME,CH E majors.
Prerequisite(s): CHME 201.

CHME 472. Detection Techniques for Radionuclides and Volatile Organic
Compounds
3 Credits
Basics of analytical techniques used to detect and quantify the presence
of radionuclides, with focus on lung and whole-body counting by gamma
–ray spectrometry and gas chromatography/mass spectrometry
techniques. Course also covers sampling techniques, chain-of-custody
methods, and includes hands-on instrument experience at the Carlsbad
Environmental Monitoring & Research Center (CEMRC). Course fee
required for travel to CEMRC.
Prerequisite(s): CHME 470.
CHME 473. Nuclear Regulations and Compliance Practices
3 Credits
Introduction, through the use of case studies, to the best technical compliance practices for regulations governing the siting, licensing, constructing, operating and decommissioning of nuclear fuel cycle facilities. Consent of Instructor required.
Prerequisite(s): MATH 191G, (CHEM 111G or CHEM 115), CHME 470.

CHME 474. Power Plant Design
3 Credits
Principles of electric power generation. Review of DC and AC systems, energy sources, and prime movers. Analysis of hydroelectric, fossil fuel, nuclear, and alternative power systems. Environmental and economic considerations.

CHME 475. Nuclear Reactor Theory
3 Credits
An overview of the properties of nuclei, nuclear structure, radioactivity, nuclear reactions, fission, resonance reactions, moderation of neutrons, will be followed by mathematical treatment of the neutronics behavior of fission reactors, primarily from a theoretical, one-speed perspective. Criticality, fission product poisoning, reactivity control, reactor stability and introductory concepts in fuel management, slowing down and one-speed diffusion theory.
Prerequisite(s): (CHEM 112G or CHEM 116G) PHYS 215G, MATH 291G, CHME 470.

CHME 476. Nuclear Fuel Cycles
3 Credits
Physical and chemical processes in the conventional nuclear fuel cycle: uranium mining and milling, conversion, enrichment, fuel fabrication, reactor operations, interim storage, reprocessing and recycling, waste treatment and disposal. Alternative fuel cycles and future prospects. Consent of Instructor required.
Prerequisite(s): CHME 470.

CHME 479. Corrosion and Degradation of Materials
3 Credits
Failure of engineering materials in aggressive environments. Chemical and electrochemical mechanisms of corrosion. Influence of chemical composition and microstructure on corrosion behavior. Types of corrosion and chemical attack, including uniform corrosion, galvanic corrosion, pitting and other forms of localized corrosion, stress corrosion cracking, and corrosion fatigue. Methods of corrosion mitigation including cathodic protection, coatings, passivation, and corrosion inhibitors. Corrosion in nuclear reactors and nuclear waste repositories.
Prerequisite(s): CHME 361.

CHME 481. Biomedical Engineering and Engineering Healthcare
3 Credits
Orientation to solving human and world health issues with biological engineering systems, tools, and analysis methods. Introduces general concepts including applied biology for engineers, biophotonics, biosensing, bioinstrumentation, tissue and biomaterials engineering, biomedical engineering research practices, and physical bioanalytical methods. Taught with CHME 581. Restricted to: CHME, CH E majors.
Prerequisite(s): CHEM 116G, CHME 201.

CHME 485. Materials from Biorenewable Resources
3 Credits
Types, sources, composition and properties of biomass. Production, processing, and applications of biomass materials with energy, water, cost, sustainability, and waste management considerations. Taught with CHME 585. Crosslisted with: AGRO 485 and HORT 486.
Prerequisite(s): CHEM 211 or CHEM 313 or permission of instructor.

CHME 486. Biofuels
3 Credits
Introduction to the fundamentals and applications of biofuels and bioenergy production; biomass resources and their composition; types of biofuels; conversion technologies (thermochemical and biochemical conversion processes); biodiesel production, algae to biofuels; economic and environmental assessments; term paper of selected topics relevant to biofuels. May be repeated up to 3 credits. Consent of Instructor required.
Prerequisite(s): CHME 201.

CHME 488. Elements of XRD
3 Credits
Introduction to x-ray diffraction and reflectivity spectra. Topics include X-rays and detectors, atomic spectra, characteristic x-rays, thermionic emission, synchrotron radiation, instrument components, and beam conditioners. Crosslisted with: PHYS 468.
Prerequisite(s)/Corequisite(s): . Prerequisite(s): a C- or better in PHYS 315 and PHYS 315 L.

CHME 490. Senior Seminar
1 Credit
Research seminar attended by graduate students is open to CHME undergraduates who are research active. May be repeated up to 2 credits.
Prerequisite(s)/Corequisite(s): CHME 498. Prerequisite(s): Senior Standing. Restricted to: CHME, CH E majors.

CHME 491. Special Topics
3 Credits
Lecture and/or laboratory instruction on special topics in chemical engineering. May be repeated to a maximum of 6 credits under different subtitles listed in the Schedule of Classes. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: CHME, CH E majors.
Prerequisite(s): Consent of instructor.

CHME 495 L. Brewing Science & Technology Lab
1 Credit
Brewing and brewing operations in a one-barrel brewery. Topics addressed will include brewery safety, characteristics and handling of brewing ingredients, recipe formulation, water treatment, wort preparation, fermentation, waste disposal, and packaging. Corequisite(s): CHME 495.
CHME 498. Undergraduate Research
3 Credits (1-3P)
Provides an opportunity for undergraduate students to work in research or areas of special interest such as design problems and economic studies under the direction of a faculty member. Written report covering work required. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: CHME, CH E majors.
Prerequisite(s): Consent of instructor and department head.

CHME 501. Graduate Thermodynamics for Chemical Engineers
3 Credits
Advanced applications of the first and second law to chemical process systems. The calculus of thermodynamics, equilibrium and stability criteria. Properties relationships for real fluids, both pure materials and mixtures. An introduction to molecular thermodynamics and statistical mechanics. Restricted to: CHME, CH E majors.

CHME 506. Graduate Transport Phenomena(s)
3 Credits

CHME 513. Intermediate Chemical Engineering Data Analysis (s)
3 Credits
Intermediate topics in the design and analysis of typical chemical engineering experiments. Topics covered include: linear models, constrained experimental space, non-linear models, model discrimination, and response surface methodologies. Restricted to: CHME, CH E majors.

CHME 516. Numerical Methods in Chemical Engineering
3 Credits
Survey of numerical methods for solving problems commonly encountered in heat and mass transfer, fluid mechanics, and chemical reaction engineering.

CHME 542. Graduate Reactor Analysis and Design (s)
3 Credits
Application and analysis of equations of continuity to multicomponent reaction systems. Introduction to homogeneous and heterogeneous catalysis, single-phase combustion, and shock reaction systems.

CHME 544. Industrial Safety
3 Credits
Same as CHME 448 with graduate-level projects.
Prerequisite(s): CHEM 115 or CHEM 111G.

CHME 549. Intellectual Property for Engineers and Scientists
3 Credits
An overview of intellectual property, including patents, trade secrets, copyright, and trademark. Specialized terminology; protectable subject matter and applicable legal standards; inventorship, authorship and ownership; application content and preparation; procedural and substantive application components; and infringement and enforcement. Taught with CHME 449.
Prerequisite(s): CHEM 111G or CHEM 115.

CHME 561. Calculation of Material and Molecular Properties
3 Credits
The aim is to describe and apply techniques for computing common properties of materials and molecules: optimized geometries, transition states, vibrational spectra, energies (electronic, internal energy, enthalpy, and Gibbs free energy), heat capacities, net atomic charges, atomic spin moments, and effective bond orders. These techniques allow one to estimate the thermodynamic properties of a chemical, as well as to compute the mechanisms and energy barriers for chemical reactions and catalytic processes, and to quantify the electronic, magnetic, and chemical ordering in materials. The theory behind these techniques will be described and students will perform hands-on computer exercises using common computational chemistry programs. Taught with CHEM 461. Consent of Instructor required.
Prerequisite(s): CHEM 116, MATH 192G, and (PHYS 214 or PHYS 216G).

CHME 563. Soft Matter
3 Credits
The physicochemistry of soft materials including gels, polymers and colloids, self-assembly, intermolecular forces, and colloidal forces. Taught with CHME 463. May be repeated up to 3 credits.
Prerequisite(s): CHEM 302, CHEM 305, CHEM 361.

CHME 564. Polymer Science & Engineering
3 Credits
Synthesis, structure, property relationships of synthetic polymers. Taught with CHME 464. May be repeated up to 3 credits.
Prerequisite(s): CHME 201, CHEM 314.

CHME 565. Rheology and Viscoelasticity
3 Credits
This course is an introduction to rheology and viscoelasticity. In particular, the flow behavior of Non-Newtonian Fluids and Viscoelastic Fluids will be covered. Rheometry, the technique for characterization of fluids, will be discussed. Most of the course is quantitative and uses mathematical modeling. Taught with CHME 465.
Prerequisite(s): CHME 306.

CHME 567. Nanoscience and Nanotechnology
3 Credits
This is a lecture/laboratory course designed to present the basic concepts, the techniques and the tools to synthesize and characterize nanometer scale materials, and the latest achievements in current and future nanotechnology applications in engineering, materials, physics, chemistry, biology, electronics and energy. It is intended for a multidisciplinary audience with a variety of backgrounds. This course should be suitable for graduate students as well as advanced undergraduates. Topics covered will include: nanoscience and nanotechnology, nanofabrication, self-assembly, colloidal chemistry, sol-gel, carbon nanotubes, graphene, thin film, lithography, physical vapor deposition, chemical vapor deposition, quantum dots, lithium batteries, X-ray diffraction, scanning electron microscopy, transmission electron microscopy, nanoelectronics, nanophotonics and nanomagnetics, etc. Taught with CHME 467.
Prerequisite(s): (CHEM 112G or CHEM 116G) and (PHYS 211G or PHYS 215G).
CHME 568. Intermediate Adsorption
3 Credits
Introduction to the fundamentals and applications of biofuels and bioenergy produced from biomass; renewable feedstocks, their production, availability and attributes for biofuel/bioenergy production; types of biomass-derived fuels and energy; thermochemical conversion of biomass to heat, power, and fuel; biochemical conversion of biomass to fuel; biodiesel production; environmental impacts of biofuel production; economics and life-cycle analysis of biofuel; value-added processing of biofuel residues; term paper of selected topics relevant to biofuels. Taught with CHME 468.
Prerequisite(s): CHME 201.

CHME 579. Corrosion and Degradation of Materials
3 Credits
Failure of engineering materials in aggressive environments. Chemical and electrochemical mechanisms of corrosion. Influence of chemical composition and microstructure on corrosion behavior. Types of corrosion and chemical attack, including uniform corrosion, galvanic corrosion, pitting and other forms of localized corrosion, stress corrosion cracking, and corrosion fatigue. Methods of corrosion mitigation including cathodic protection, coatings, passivation, and corrosion inhibitors. Corrosion in nuclear reactors and nuclear waste repositories. Taught with CHME 479.
Prerequisite(s): CHME 361.

CHME 581. Biomedical Engineering & Healthcare Engineering
3 Credits
Orientation to solving human and world health issues with biological engineering systems, tools, and analysis methods. Introduces general concepts including applied biology for engineers, biophotonics, biosensing, bioinstrumentation, tissue and biomaterials engineering, biomedical engineering research practices, and physical bioanalytical methods. Taught with CHME 481.
Prerequisite(s): CHEM 116G, CHME 201.

CHME 585. Materials from Biorenewable Resources
3 Credits
Types, sources, composition and properties of biomass. Production, processing and applications of biomass materials to fulfill food, feed, fiber, fuel and chemical feedstock needs with energy, water, cost, sustainability, and waste management considerations. Taught with CHME 485.
Prerequisite(s): CHEM 211 or 313 or consent of instructor.

CHME 586. Biofuels
3 Credits
Introduction to the fundamentals and applications of biofuels and bioenergy production; biomass resources and their composition; types of biofuels; conversion technologies (thermochemical and biochemical conversion processes); biodiesel production, algae to biofuels; economic and environmental assessments; term paper of selected topics relevant to biofuels. May be repeated up to 3 credits. Restricted to: CHME, CH E majors.
Prerequisite(s): CHME 201.

CHME 588. Elements of XRD
3 Credits
Introduction to x-ray diffraction and reflectivity spectra. Topics include X-ray sources and detectors, atomic spectra, characteristic x-rays, thermionic emission, synchrotron radiation, instrument components, and beam conditioners. Crosslisted with: PHYS 568.

CHME 590. Graduate Seminar
1 Credit
Presentations on topics of professional interest in chemical engineering. Includes seminars by faculty, graduate students, and invited speakers from academia, government, and industry. May be repeated for a total of 6 credits. May be repeated up to 6 credits. Restricted to: CHME majors.

CHME 594. Professional Communication in Chemical Engineering
2 Credits
Connections between interpersonal relationships and the effective communication of information. Strategies for formal and informal written and verbal communication in the context of presentations, interviews, reports and publications. Factors affecting non-verbal communication. Special focus will be given to understanding and adapting to the audience’s perspective. 2 credits. Open to chemical engineering graduate students or by permission of instructor. This class will prepare you to communicate technical information effectively within a variety of contexts and to a variety of audiences. Class assignments will be partially based on current student needs such as preparing presentations for professional conferences, giving research progress reports, and writing research manuscripts. Restricted to: CHME majors.
Prerequisite(s): CHME graduate student standing.

CHME 595. Chemical Process Design and Business Analysis
3 Credits
Graduate chemical process design principles, emphasizing literature review, patent search, heuristics application, process simulation assistance to process creation, synthesis of reactor and separator trains, second-law analysis, heat and power integration, process equipment mechanical design specifications, process design optimization, cost accounting and capital estimation, annual costs, earnings, and profitability analysis.
Prerequisite(s)/Corequisite(s): CHME 506, CHME 516, CHME 542.
Prerequisite(s): CHME 452, CHME 455 L or equivalent.

CHME 596. Chemical Process Industries Research
1 Credit
Independent graduate-level chemical process design project development, literature search, and proposal/defense.
Prerequisite(s): CHME 595.

CHME 597. Advanced Chemical Process Industry Analysis
2 Credits
In-depth analysis and defense of a timely commercially-relevant chemical process design.
Prerequisite(s): CHME 596.

CHME 598. Ph.D. Research- Level I
1-9 Credits (1-9)
Individual investigations either analytical or experimental. May be repeated up to 6 credits.

CHME 599. Master’s Thesis
1-15 Credits (1-15)
Thesis.

CHME 690. Graduate Seminar
1 Credit
Presentations on topics of professional interest in chemical engineering. Includes seminars by faculty, graduate students, and invited speakers from academia, government, and industry. Required each semester for every Ph.D. student. All candidates for graduate degrees required to give seminar. May be repeated for a maximum of 8 credits. May be repeated up to 8 credits. Restricted to: CHME majors.
CHME 698. Ph.D. Research - Level II
1-9 Credits (1-9P)
Advanced topics for current research. Course subtitled in the Schedule of Classes. May be repeated up to 99 credits. Consent of Instructor required.
Prerequisite(s): successful completion of PhD qualifying exam.

CHME 700. Doctoral Dissertation
1-15 Credits (1-15)
Individual research in selected topics of current interest in chemical engineering. May be repeated up to 88 credits. Thesis/Dissertation Grading.
Prerequisite(s): CHME 698 (9 credits) and successful completion of comprehensive exam.

Name: David A. Rockstraw, Ph. D., P. E. (drockstr@nmsu.edu)

Chemical Engineering - Bachelor of Science in Chemical Engineering

The BS Chemical Engineering program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

Requirements (Total Credits 124)

In addition to satisfying the requirements of New Mexico State University and the College of Engineering, CHME majors must pass departmental courses with a grade of C- or better.

CHME majors must have completed CHME 201 Energy Balances & Basic Thermodynamics prior to taking any 400-level CHME elective courses.

Degree requirements can also be found summarized in flow diagrams found on the CHME website (https://chme.nmsu.edu/academics/undergrad/chme-flow-diagrams/).

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 124 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

# A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 191G Calculus and Analytic Geometry I and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

1. MATH 191G is required for the degree but students may need to take any prerequisites needed to enter MATH 191G first.
2. See the required courses (p. 49) section of the catalog for a full list of courses.
See the Viewing a Wider World (p. 53) (p. 49)section of the catalog for a full list of courses. Also see the 9-credit hour rule at the bottom of the page. CHMEs meet the 9-credit hour rule through the sequence CHEM 313/314/433, and thus only need to complete 3 credits of VWW.

### Biomedical Engineering - Undergraduate Minor

The Biomedical Engineering minor-of-study is a 20-credit hour program of study designed to accomplish two objectives:

1. Require courses in basic biology, anatomy, physiology to provide students a basic understanding of life and the design and mechanics/dynamics of the human body. Also required is the only biomedical engineering course taught on the NMSU campus.

2. Permit students to select from a wide range of elective courses [https://chme.nmsu.edu/academics/minors/biomedical-engineering/] numbered above 400 that emphasize engineering topics with application to the design and development of medical devices.

#### Prefix | Title | Credits

### Brewery Engineering- Undergraduate Minor

It has long been recognized that the study of chemical engineering is appropriate to the understanding of a vast range of concepts associated with the brewing industry. In 1935, this article by M. B. Donald described many of the fundamental process steps for which the BSCHprepare a student to begin work in the industry. This 18 credit hour minor of study is designed to prepare CHME students for careers in the brewing industry or as a craft brew entrepreneur per the 4-year curriculum suggestions of the Master Brewer's Association of the Americas. Elective courses are to be selected from the lists and guidelines maintained on the Brewery Engineering minor of study webpage.

#### Prefix | Title | Credits

BCHE 395 | Biochemistry I | 3

Electives 3

Total Credits 18

### Computational Engineering- Undergraduate Minor

The minor in Computational Engineering is designed to provide students with a concentration in the broad spectrum of computations in engineering, including experience with experience with an object-oriented programming language, a background in computational math techniques, and a number of courses that develop or apply engineering software across a broad base of engineering design problems.

Electives must be taken from the list maintained on the Computational Engineering minor webpage

### Materials Engineering - Undergraduate Minor

The Materials Engineering minor at New Mexico State University is part of a materials education program that addresses the growing demand for engineers and scientists with understanding of the wide range of materials, their properties and means of characterization. A student must pass 18 credits of courses with a grade C- or better. The minor elective courses are chosen from list available on the Chemical and Materials Engineering website [http://chme.nmsu.edu/academics/minors/materials-engineering/]. No courses may be taken S/U. All prerequisites for the classes must be met or consent of the instructor obtained before enrolling in class.

### Nuclear Chemical Engineering - Undergraduate Minor
The Nuclear Chemical Engineering minor at New Mexico State University is part of a nuclear education program that addresses the growing demand for engineers and scientists with background in the nuclear industry. A student must pass 18 credits of elective courses with a grade C- or better. The courses are upper division courses. Three elective courses must be selected from the list maintained on the CHME website (http://chme.nmsu.edu/academics/minors/nuclear-chemeng/). No courses may be taken S/U. All prerequisites for the classes must be met or consent of the instructor obtained before enrolling in class.

Pre-Law in Intellectual Property - Undergraduate Minor

The Pre-Law Intellectual Property minor at New Mexico State University is part of a pre-law education program that addresses the growing demand for lawyers with a strong understanding of a broad cross-section of STEM subjects. A student must pass 19 credits of courses with a grade C- or better chosen from Pre-Law Intellectual Property minor page available on the Chemical and Materials Engineering website. No courses may be taken S/U. All prerequisites for the classes must be met or consent of the instructor obtained before enrolling in class.

Chemical Engineering - Master of Science in Chemical Engineering

The program of study leading to the MS consists of 32 credits which includes:

- required CHME core graduate courses (14 credits);
- CHME elective courses numbered 455-589 (3 credits);
- other graduate elective courses (9 credits); and
- thesis as CHME 599 Master’s Thesis (6 credits).

1 Elective courses are intended to supplement the research work of each graduate student. These courses must be numbered 450 or above and must be approved by the thesis advisor.

Pre-Medicine Studies- Undergraduate Minor

The Pre-Medical School minor at New Mexico State University is part of a pre-medicine education program that addresses the growing demand for doctors, surgeons, and biomedical researchers with a strong understanding of a broad cross-section of STEM subjects and who model the human body as a series of interacting chemical process units. This minor of study is designed for students seeking a strong pre-med background (for both MCAT prep and program entry prereq completion) or who may be targeting a graduate degree in biomedical engineering. A student must pass 22 credits of courses with a grade C- or better. The minor includes 19 credit hours of required courses, and 3 credit hours of elective courses. No courses may be taken S/U. All prerequisites for the classes must be met or consent of the instructor obtained before enrolling in class.

### Chemical Process Industry - Master of Engineering

The MECPI is a coursework and project-based degree with added emphasis on business characteristics of the Chemical Process Industry. MECPI students will spend a calendar year performing a detailed economic and market analysis of the capstone problem as assigned in CHME 455 Chemical Plant Design, or based on a suitable engineering project from the industry or their employer (as approved by the CHME faculty). Students who elect to pursue the MECPI must have a BSCHE. For those who pursue the advanced economic capstone, it is advisable students have completed the sequence of simulation science courses CHME 352 L, CHME 452 L, and CHME 455 L (or equivalent training with a process simulator) and have completed ACCT 221/ACCT 222 and ECON 251G/ECON 252G.

The MECPI requires a total of 32 credit hours and can be completed in 3 academic semesters beginning from the fall semester and including the summer of study. MECPI students will complete the core graduate CHME courses (12 cr) one CHME technical elective (3 cr), three Business/Economics/Management (BEM) electives from an approved list (9 cr), and the CPI analysis sequence CHME 595 Chemical Process Design and Business Analysis, CHME 596 Chemical Process Industries Research, and CHME 597 Advanced Chemical Process Industry Analysis (8 cr).

MECPI candidates must submit the product of their CHME 557 analysis for publication in an appropriate journal identified during CHME 596 CPI Research. If a journal article is not ready for submission by Fall Year 2, the student will be required to continue CHME 596 until the article is submitted.

Chemical Engineering - Doctor of Philosophy

The program of study leading to the Ph.D. is available to students who have either a BS or MS in chemical engineering. Students with a BS must complete 30 course credits and 24 dissertation credits, for a total of 54 credits, including:

- required core CHME courses (14 credits);
- graduate elective courses (12 credits);
- CHME elective courses (3 credits);
- independent research as CHME 698 Ph.D. Research- Level II prior to completion of the comprehensive exam (12 credits);
- dissertation as CHME 700 after completion of the comprehensive exam (12 credits); and
- graduate seminar as CHME 690 Graduate Seminar (1 credit).

Ph.D. students must pass:

1. a qualifying examination within 24 months of starting their Ph.D. studies;
2. a comprehensive examination completed a minimum of nine months prior to the dissertation defense; and
3. an oral defense of the written dissertation before the dissertation committee.

4. PhD candidates in the College of Engineering, who have successfully completed their PhD Qualifier Examination after January 1, 2018, must satisfy a publication requirement which requires two papers:

   Paper #1: An archival paper accepted or published in any journal listed in the source publication list for the Web of Science, or a refereed Journal or Conference Proceeding approved by the student's doctoral committee and the cognizant Department Head(s), before the Doctorate of Philosophy final examination. The candidate should be listed as the lead author in Paper #1.

   Paper #2: An additional archival paper submitted, accepted, or published in any journal listed in the source publication list for the Web of Science. Alternatively, one conference paper accepted or published in a national or international conference proceedings.

Prefix | Title | Credits

**Required Core Courses**
CHME 501 | Graduate Thermodynamics for Chemical Engineers | 3
CHME 506 | Graduate Transport Phenomena(s) | 3
CHME 516 | Numerical Methods in Chemical Engineering | 3
CHME 542 | Graduate Reactor Analysis and Design (s) | 3
CHME 594 | Professional Communication in Chemical Engineering | 2
CHME electives (select from CHME 455-CHME 589) | 3

Electives 1 12
CHME 690 | Graduate Seminar | 1
CHME 698 | Ph.D. Research- Level II 2 | 12
CHME 700 | Doctoral Dissertation 3 | 12

Total Credits 54

1  Elective courses are intended to supplement the research work of each graduate student. These courses must be numbered 450 or above and must be approved by the dissertation advisor.
2  Minimum 12 credits AFTER completion of the qualifying exam and BEFORE completion of the comprehensive exam.
3  Minimum 12 credits AFTER completion of the comprehensive exam.

During the Third Year - Fall semester students may need to take additional coursework that doesn’t contribute to the 54 credit hour total in order to maintain full-time status

## Materials Engineering - Graduate Minor

The Materials Engineering minor at New Mexico State University is part of a materials education program that addresses the growing demand for engineers and scientists with understanding of the wide range of materials, their properties and means of characterization. A student must pass 18 credits of courses with a grade C or better. The minor includes one required course (CHME 361 Engineering Materials), and the balance elective courses chosen from menus available on the Chemical and Materials Engineering website ([http://chme.nmsu.edu/academics/minors/materials-engineering/](http://chme.nmsu.edu/academics/minors/materials-engineering/)). No courses may be taken S/U. All prerequisites for the classes must be met or consent of the instructor obtained before enrolling in class.

## Graduate Program Information

### Undergraduate Program Information

The curriculum in civil engineering is designed to provide a solid background and is so arranged that students may, in their senior year, specialize in one or more of the areas of concentration in civil engineering listed. Several minors in various fields of interest within civil engineering are also available for students to expand the depth of their knowledge.

### Mission

The mission of the Civil Engineering Department is to offer a high quality and accredited degree that prepares our graduates for professional licensure leading to successful civil engineering careers in industry and government or for success at the graduate level. Toward this end, the Civil Engineering Department will recruit and maintain a diverse, highly skilled faculty.

### Program Educational Objectives

In support of the mission, the Civil Engineering Department adopts the following program educational objectives:

1. Prepare our graduates to achieve professional engineering licensure and productivity in a civil engineering setting.
2. Prepare our graduates to be future leaders and public sector employees in civil engineering fields.
3. Prepare our graduates to pursue and complete a graduate level degree.
4. Maintain and further develop a high quality accredited civil engineering program that is competitive with comparable programs throughout the nation.

### Program Criteria

The Civil Engineering curriculum is developed based on the program criteria established collaboratively by the Engineering Accreditation Commission (EAC) of ABET Inc. and the American Society of Civil Engineers (ASCE). The curriculum specifically prepares civil engineering students at the baccalaureate level to graduate with the ability to:

1. Apply knowledge of mathematics through differential equations, calculus-based physics, general chemistry, and probability and statistics to assess uncertainty.
2. Analyze and solve problems in various areas of civil engineering.
3. Conduct experiments associated with civil engineering, as well as analyze and interpret the collected data.
4. Design a system, component, or process in various civil engineering contexts considering sustainability.
5. Explain basic concepts related to project management, business, public policy, and leadership.
6. Analyze issues related to professional ethics and explain the importance of professional licensure.

In accordance with the program criteria of ABET and ASCE, the Civil Engineering faculty responsible for teaching design-oriented courses are qualified in their respective professional areas by means of licensure, or a combination of education and design experience. Furthermore, the faculty are given responsibility and sufficient authority to define, revise, implement, and achieve program objectives.

### Mission Statement

Provide research-based, post-baccalaureate programs leading to Master of Engineering (ME), Master of Science (MS), and Doctor of Philosophy (Ph.D.) degrees for students pursuing advanced practice-oriented or academic careers in the areas of structural, geotechnical, water resources, transportation, and environmental engineering.

### Vision Statement

The program goal is to enhance social well-being by modernizing civil infrastructure for improved performance, efficiency, reliability, and resilience. Through a combination of coursework plus applied and fundamental research, the program aims to produce graduates capable of developing innovative, sustainable, and cost-effective infrastructure for the next generation.

The Civil Engineering Department offers excellent opportunities for advanced study and professional training in several fields leading to the MECE, MSCE, MS ENVE, and the Ph.D. degrees. Students work closely with the faculty on contemporary issues including, but not limited to, ground stabilization, high performance materials, intelligent transportation systems, remote sensing, renewable energy, resilient infrastructure, structural health monitoring, sustainable construction, traffic modeling and simulation, and water treatment and reuse.

The department has excellent facilities including some 15 teaching and/or research laboratories with facilities for mechanical, chemical and biological research. The outstanding feature of the program is the...
energetic, highly motivated faculty and the low student-faculty ratio. The department currently has several ongoing research projects of various size and scope employing graduate students. Office space is normally provided for those students pursuing an advanced degree. Teaching and research assistantships are available to qualified students.

Students enrolling for graduate work in civil engineering must have received a bachelor's degree in engineering or one of the allied fields. A candidate for the MSCE or MS ENVE degree may choose either a thesis or a non-thesis track and the MECE degree requires only coursework. When a student enrolls for the Ph.D., a doctoral committee is formed to assist the student in planning a program appropriate to the student's background and goals and to administer the required examinations. All Ph.D. candidates in civil engineering must have a demonstrated proficiency in English and two research tools. Mutual understanding between the Ph.D. candidate and his or her doctoral committee on the final nature of these two research tools will be on an individual basis.

**Master's Accelerated Program**

The master's accelerated program (MAP) option provides students the opportunity to complete a BSCE and a master's degree (MECE, MSCE or MS ENVE) with 148 credit hours; the non-accelerated path requires 154 credit hours (BS = 124 plus ME or MS = 30). Students accepted into this program follow the normal Civil Engineering undergraduate curriculum during their freshmen, sophomore, and junior level semesters, and the first semester of their senior year. In their final undergraduate semester, students take two graduate courses (> 500) in place of two undergraduate electives (> 450). Alternatively, students may petition for the two undergraduate electives to be counted as substitutes for the two graduate courses. In either case, the courses must be approved by the department head and completed with at least a grade of B. At this point, students receive their BSCE degree and the MECE, MSCE or MS ENVE degree can be completed with 24 credit hours in 2 to 3 semesters for full-time students. Students must apply for admission during the final semester of their junior year and obtain prior approval by the department head before starting the MAP option.

**Degrees for the Department**

Civil Engineering (Environmental) - Bachelor of Science in Civil Engineering (p. 735)

Civil Engineering (General) - Bachelor of Science in Civil Engineering (p. 737)

Civil Engineering (Mechanical) - Bachelor of Science in Civil Engineering (p. 739)

Civil Engineering (Structural) - Bachelor of Science in Civil Engineering (p. 741)

Civil Engineering (Water Resources) - Bachelor of Science in Civil Engineering (p. 743)

Civil Engineering - Master of Engineering (p. 747)

Civil Engineering - Master of Science in Civil Engineering (p. 748)

Environmental Engineering - Master of Science in Environmental Engineering (p. 750)

Engineering - Doctor of Philosophy (Civil Engineering) (p. 751)

**Minors for the Department**

Agricultural Engineering - Undergraduate Minor (p. 745)

Environmental Engineering - Undergraduate Minor (p. 746)

Structural Engineering - Undergraduate Minor (p. 746)

**Professor David V. Jauregui, Department Head**

**Professor J. Phillip King, Associate Department Head**

**Professors Jauregui, Khandan, King, Martin, Newtson, Papelis, Reddi (Dean of College of Engineering), Samani, White (Emeritus), Xu; Associate Professors Bandini, Bawazir, Cortes, Weldon; Assistant Professors Dehghan-Niri, Ray, Zhang**

1 Registered Professional Engineer

**Civil Engineering Courses**

C E 109. Computer Drafting Fundamentals 3 Credits (2+2P)

Same as DRFT 109, E T 109, SUR 109.

C E 151. Introduction to Civil Engineering 3 Credits

Problem solving and use of computer software for civil engineering applications. May be repeated up to 3 credits.

Prerequisite(s)/Corequisite(s): MATH 121G.

C E 160. Geology for Engineers 4 Credits (3+3P)

Basic concepts of geology, earth materials, and earth processes as they relate to engineering practice. Restricted to Las Cruces campus only.

C E 198. Special Topics 1-3 Credits

May be repeated for a maximum of 6 credits.

Prerequisite: consent of department head.

C E 233. Mechanics-Statics 3 Credits

Engineering mechanics using vector methods. May be repeated up to 3 credits.

Prerequisite(s): MATH 192G, PHYS 215G and cumulative GPA of 2.0.
C E 234. Mechanics-Dynamics  
3 Credits  
Kinematics and dynamic behavior of solid bodies utilizing vector methods. May be repeated up to 3 credits. Crosslisted with: M E 234.  
Prerequisite(s): C E 233, MATH 192G, PHYS 215G.  

C E 256. Environmental Engineering and Science  
3 Credits  
Principles in environmental engineering and science: physical chemical systems and biological processes as applied to pollution control. Crosslisted with: E S 256.  
Prerequisite(s): CHEM 111 and MATH 191G.  

C E 256 L. Environmental Science Laboratory  
1 Credit  
Laboratory experiments associated with the material presented in C E 256. Same as E S 256L.  
Corequisite: C E 256.  

C E 298. Special Topics  
1-3 Credits  
May be repeated for a maximum of 6 credits.  
Prerequisite: consent of department head.  

C E 301. Mechanics of Materials  
3 Credits  
Stress, strain, and elasticity of materials. May be repeated up to 3 credits.  
Prerequisite(s): C E 233 or M E 236.  

C E 311. Civil Engineering Materials  
3 Credits (2+3P)  
Introduction to the structure, physical properties, testing and mechanical behavior of civil engineering materials and components made from these materials.  
Prerequisite: C E 301.  

C E 315. Structural Analysis  
4 Credits (3+3P)  
Classical analysis of determinate and indeterminate structures; introduction to modern methods of structural analysis using computer programs.  
Prerequisite(s): C E 301.  

C E 331. Fluid Mechanics and Hydraulics  
3 Credits  
Prerequisite(s): PHYS 215, C E 233.  

C E 331 L. Fluid Mechanics and Hydraulics Laboratory  
1 Credit  
Fundamentals and Theory of Fluid Mechanic, compressible and incompressible flow of fluids in open and closed conduits.  
Prerequisite(s)/Corequisite(s): C E 331. Restricted to: C E majors.  

C E 355V. Technology and the Global Environment  
3 Credits  
A scientific basis for understanding changes in the global environment that result through the complex interactions of natural phenomena and the impacts of the activities of man.  
Prerequisites: junior or senior standing, and the general education requirements for math and natural sciences.  

C E 356. Fundamentals of Environmental Engineering  
3 Credits  
Introduction to water treatment and water pollution and the analysis and design of selected treatment processes.  
Prerequisite(s): C E 256.  

C E 357. Soil Mechanics  
3 Credits (2+3P)  
Engineering properties of soils, consolidation settlement, compaction, water flow through soils, geostatic stresses, soil shear strength, lateral earth pressure, and soil laboratory testing.  
Prerequisite(s): C E 160 or GEOL 111G, and C E 301.  

C E 382. Hydraulic and Hydrologic Engineering  
3 Credits  
Analysis and design of hydraulic systems, including pipe networks, open channels, regulating structures, and pumping systems. Surface water and groundwater hydrology, analysis and design. May be repeated up to 3 credits.  
Prerequisite(s): C E 331 and C E 331 L.  

C E 398. Special Topics  
1-3 Credits  
May be repeated for a maximum of 6 credits.  
Prerequisite: consent of department head.  

C E 444. Elements of Steel Design  
3 Credits  
Analysis and design of tension members, beams, columns, and bolted and welded connections.  
Prerequisite(s)/Corequisite(s): C E 311. Prerequisite(s): C E 315.  

C E 445. Reinforced Concrete Design  
3 Credits  
Design and mechanics of structural reinforced concrete members.  
Prerequisite(s)/Corequisite(s): C E 311. Prerequisite(s): C E 315.  

C E 452. Geohydrology  
3-4 Credits (3+1P)  
Origin, occurrence, and movement of fluids in porous media and assessment of aquifer characteristics. Development and conservation of ground water resources, design of well fields. Crosslisted with: E S 452 and GEOL 452.  
Prerequisite(s): Junior or Senior.  

C E 454. Wood Design  
3 Credits  
Theory and design of wood structural members and systems subjected to gravity and lateral loads. Taught every other year, alternates with C E 455, Masonry Design.  
Prerequisite(s)/Corequisite(s): C E 311. Prerequisite(s): C E 315.  

C E 455. Masonry Design  
3 Credits  
Theory and design of masonry structural members and systems subjected to gravity and lateral loads. Taught every other year, alternates with C E 454, Wood Design.  
Prerequisite(s)/Corequisite(s): C E 311. Prerequisite(s): C E 315.  

C E 457. Foundation Design  
3 Credits (2+3P)  
Application of principles of classical soil mechanics to the design of shallow and deep foundations, and the fundamentals of geotechnical site investigation.  
Prerequisite(s): C E 357.
C E 460. Site Investigation
3 Credits (2+2P)
Investigation and characterization of surficial and subsurface geologic materials and ground water for civil engineering projects. Includes exploration program, drilling and sampling, rock and soil classification and logging, groundwater monitoring, profiles, and preparation of geotechnical reports. Pre/
Prerequisite(s): C E 357.
Corequisite(s): C E 457.

C E 469. Structural Systems
3 Credits
Design of structural systems for buildings and bridges. May be repeated up to 3 credits.
Prerequisite(s): C E 444 or C E 445.

C E 470. Design of Municipal and Hazardous Waste Landfills
3 Credits
Solid waste and application of geotechnical engineering principles and methods to the site selection and design of municipal and hazardous waste landfills.
Prerequisite(s): C E 357 and C E 452, or consent of instructor.

C E 471. Transportation Engineering
3 Credits
Highway and traffic design and systems.
Prerequisite(s): MATH 291.

C E 473. Transportation Analysis
3 Credits
Transportation Analysis of land-based transportation modes. Crosslisted with: C E 573.
Prerequisite(s): C E 471.

3 Credits
Engineering economics, construction and project management. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): STAT 371, C E 357.

C E 479. Pavement Analysis and Design
3 Credits
Covers stresses and deflections in pavement layers, material characterization, flexible and rigid pavement design by AASHTO, and rehabilitation concepts.
Prerequisite(s): C E 357.

C E 481. Civil Engineering Capstone Design
3 Credits
Culminating multidisciplinary project-oriented capstone design. Ethics, professional development, global issues.
Prerequisite(s)/Corequisite(s): C E 457, C E 471, C E 477. Prerequisite(s): C E 356, C E 382, and either C E 444 or C E 445.

C E 482. Hydraulic Structures
3 Credits
Engineering design of water-regulating structures. Capstone course. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): C E 477. Prerequisite(s): C E 382.

C E 483. Surface Water Hydrology
3 Credits
Hydrologic cycle and relationships between rainfall and surface water runoff.
Prerequisite: C E 331 or consent of instructor.

C E 485. Design of Earth Dams
3 Credits
Engineering design applied to site selection, foundation inspection and treatment, hydrology and hydraulics, stability, and seepage analysis. Economic and environmental factors. May be repeated up to 3 credits.
Prerequisite(s): C E 357, C E 382.

C E 498. Special Topics
1-3 Credits
May be repeated for a maximum of 9 credits.
Prerequisite: consent of department head.

C E 501. Advanced Mechanics of Materials
3 Credits
Study of stress and strain in two and three dimensions, theories of failure, stress concentrations, unsymmetrical bending, curved beams, beams on elastic foundations, column theories, torsion, thick-wall cylinders. Same as M E 501.
Prerequisites: C E 301, MATH 392.

C E 502. Advanced Mechanics of Steel Structures
3 Credits
Advanced structural mechanics applicable to steel structures. Includes inelastic behavior, plastic analysis, column and frame stability and torsion.
Prerequisite: C E 444.

C E 503. Special Design and Analysis Program
3-6 Credits
Design and analysis covering subject matter of an approved 450 undergraduate departmental course plus an additional report or project. Course may be subtitled in the Schedule of Classes. May be repeated once for a total of 6 credits.
Prerequisite: consent of instructor/committee.

C E 504. Advanced Engineering Design
3 Credits
Advanced engineering design covering subject matter of a selected capstone undergraduate design course plus an additional report or project. May be subtitled.
Prerequisite: consent of instructor/committee.

C E 505. Advanced Mechanics of Concrete
3 Credits
Advanced structural mechanics applicable to concrete structures. Topics include: nonlinear-inelastic modeling and analysis of reinforced concrete structures, seismic behavior of reinforced concrete structures, and deformation of members under various loads. To be taught along with C E 605.
Prerequisite(s): C E 445.

C E 506. Advanced Soil Mechanics
3 Credits
Stress and strain analyses in soil, stress paths; drained and undrained shear strengths of granular soils and clays, consolidation, liquefaction, soil improvement.
Prerequisite: C E 457 or consent of instructor.
C E 507. Design of Earth Retaining Structures
3 Credits
Lateral earth pressure theory, soil-reinforcement interaction, and analysis and design of rigid and flexible earth retaining structures for support of fills and excavations, including retaining walls, mechanically stabilized earth (MSE) walls, sheet pile walls, anchored walls, tiebacks and soil nailing. Pre/Prerequisite(s): C E 357.
Corequisite(s): C E 457.

C E 508. Advanced Soil Behavior
3 Credits
The course covers particle-scale phenomena that govern the macro-scale behavior of soils. Topics covered in the class include classical concepts as well as contemporary advances in soil mechanics. The students will develop a fundamental understanding of soil-water interaction, theories of contact level deformation, and mass and energy transport through granular media. Consent of Instructor required. Pre/Prerequisite(s): C E 357 or Instructor Consent.

C E 509. Deep Foundations
3 Credits
Behavior, analysis and design of pile and pier foundations subjected to axial and lateral loads. Pre/Prerequisite: C E 457 or consent of instructor.

C E 510. Introduction to Nondestructive Testing
3 Credits
This course explores the application of different Nondestructive Testing (NDT) methods in material characterization and product qualification. Pre/Prerequisite(s): C E 311 or CHME 361 or Consent of Instructor.

C E 515. Finite Element Methods
3 Credits
Introduces the finite element method. Topics may include beam, frame, plane stress, plane strain, axisymmetric, and 3-D stress elements. Includes static and dynamic analysis. Uses readily available finite-element software. Pre/Prerequisite: graduate standing or consent of instructor.

C E 530. Environmental Management Seminar I
1 Credit
Survey of practical and new developments in hazardous and radioactive waste management provided through a series of guest lectures and reports of ongoing research. Pre/Prerequisite: C E 357.

C E 531. Open Channel Hydraulics
3 Credits
Theoretical and applied hydraulics of open channels, with emphasis on nonuniform flow, rapidly varied flow, and wave formation. Pre/Prerequisite: C E 382 or consent of instructor.

C E 544. Advanced Design of Steel Structures
3 Credits
Connection design; beam, column, and beam-column stability and design; and seismic frame design. Pre/Prerequisites: C E 444 and C E 468.

C E 545. Advanced Concrete Design
3 Credits
Prestressed concrete, ultimate strength theory, design of shell structures. Pre/Prerequisites: C E 445 and C E 468.

C E 547. Bridge Engineering
3 Credits
Topics related to prestressed concrete, reinforced concrete and steel bridge design according to the AASHTO specifications; bridge analysis and evaluation. May be repeated for a maximum of 6 credits. Pre/Prerequisite: C E 469 or consent of instructor.

C E 554. Wood Design
3 Credits
Theory and design of wood structural members and systems subjected to gravity and lateral loads. Design project required. Taught every other year, alternates with C E 555 - Masonry Design.

C E 555. Masonry Design
3 Credits
Theory and design of masonry structural members and systems subjected to gravity and lateral loads. Design project required. Taught every other year, alternates with C E 554 - Wood Design.

C E 557. Water Resources Development
3 Credits
Students function as members of a consulting panel and prepare reports on major water resources development problems. Political, financial, and social aspects of water resources development are considered as well as scientific and technical details. Background: C E 450. Corequisite: C E 483, or C E 482.

C E 571. Structural Dynamics
3 Credits
Response of elastic structure to dynamic loading. Moving load, earthquake and blast loading. Pre/Prerequisite: C E 468 or consent of instructor.

C E 572. Earthquake Engineering
3 Credits
Earthquake characteristics; seismic loads; elastic and inelastic response; analysis and design of buildings for earthquakes. Prerequisites: graduate standing and consent of instructor.

C E 573. Transportation Analysis
3 Credits
Transportation analysis of land-based transportation modes. Crosslisted with: C E 473. Pre/Prerequisite(s): C E 471.

C E 579. Ground Improvement
3 Credits
The objective of this course is to introduce common ground improvement techniques, including mechanical (compaction, soil reinforcement, preloading and accelerated consolidation) and chemical (cementing, ion-replacement, polymer bonding) stabilization methods, as well as seepage and dewatering. Emphasis will be placed on developing an understanding of the underlying physical and chemical processes involved in each case. Pre/Prerequisite(s): C E 357.

C E 581. Ground Water Hydrology
3 Credits
Mathematical treatment of water flow in porous media. Emphasis on hydraulics of water movement, including pumping and recharge wells, drainage, and water quality. Pre/Prerequisites: MATH 392, G EN 452, and C E 382, or consent of instructor.

C E 582. Statistical Hydrology
3 Credits
Application of statistical techniques to hydrologic data, including distributions, hypothesis testing, linear models, non-parametrics, and time-series and stochastic models. May be repeated up to 3 credits.
C E 585. Slope Stability Analysis and Design  
3 Credits  
Design of earth slopes, causes of instability, limit equilibrium methods, slope reinforcement (geosynthetics soil nailing, tiebacks), seismic analysis, rock slope stability. Consent of instructor required.

C E 586. Geotechnical Earthquake Engineering  
3 Credits  
Earthquake origin and geology; wave propagation; dynamic soil properties; ground response analysis; local site effects; design ground motion; liquefaction assessment. Consent of Instructor required.  
Prerequisite(s): C E 506 or consent of instructor.

C E 596. Special Topics  
1-3 Credits  
May be repeated for a maximum of 6 credits.  
Prerequisite: consent of department head.

C E 599. Master's Thesis  
1-15 Credits  
Thesis.

C E 600. Doctoral Research  
1-15 Credits  
Research.

C E 604. Advanced Engineering Topics  
3 Credits  
In depth study of a topic at the forefront of environmental engineering & science. Journal papers will be critically reviewed and students will be asked to write an analysis of the topic and present their thoughts orally.  
Prerequisite: graduate standing.

C E 645. Prestressed Concrete  
3 Credits  
Behavior of prestressed concrete; design of statically determinate and indeterminate structures; estimation of prestress loss; flexure and shear strength; deflections and stress control; composite behavior and design.  
Prerequisites: graduate standing and consent of instructor.

C E 682. Topics in Hydrodynamics II  
3 Credits  
Selected topics in flow-in open channels, flow-through porous media, and transport of sediments and contaminants. May be repeated for a maximum of 6 credits.  
Prerequisite: consent of instructor.

C E 698. Special Research Programs  
1-3 Credits  
May be subtitled. May be repeated for a maximum of 9 credits.

C E 700. Doctoral Dissertation  
15 Credits  
Dissertation.

Environmental Engineering Courses

ENVE 450. Aquatic Chemistry  
3 Credits  
Theoretical aspects of physical chemistry applied to the solution of environmental engineering problems. Emphasis on carbonate equilibrium solubility, buffering and redox conditions. Crosslisted with: ENVE 550.  
Prerequisite(s): C E 256.

ENVE 451. Unit Processes/Operation of Water Treatment  
3 Credits  
Theory and applications with unit processes in environmental engineering. Physical and chemical treatment methods are emphasized. Crosslisted with: ENVE 551.  
Prerequisite(s): C E 356.

ENVE 452. Unit Processes/Operation of Wastewater Treatment  
3 Credits  
Theory and applications with unit processes in environmental engineering. Biological treatment methods are emphasized. Crosslisted with: ENVE 552.  
Prerequisite(s): C E 356.

ENVE 456. Environmental Engineering Design  
3 Credits  
Design of chemical, physical and biological operations and processes involved in water and wastewater treatment.  
Prerequisite(s): C E 356.

ENVE 458. Urban Water-Energy-Environment Systems  
3 Credits  
An introduction to environmentally sustainable solutions to water-energy nexus. This course integrates scientific principles, engineered processes, and systems analyses to address society's growing needs of water and renewable energy and their interconnections with environment.  
Prerequisite(s): C E 256.

ENVE 459. Environmental Microbiology  
3 Credits  
An introduction to the diverse roles of microorganisms in natural and engineered environments. The topics include cellular architecture, energetics, and growth; population and community dynamics; water and soil microbiology; biogeochemical cycling; and microorganisms in biodegradation and bioremediation of contaminants.

ENVE 487. Air Pollution Control Systems Design  
3 Credits  
An introduction to sources and nature of air pollution, regulations, and risk analysis. Detailed study of air pollution control technologies and design of air pollution control equipment.  
Prerequisite(s): Senior or graduate standing.

ENVE 504. Advanced Environmental Engineering Design  
3 Credits  
Advanced engineering design covering subject matter of Environmental Engineering capstone undergraduate design course plus an additional report or project. May be subtitled. Consent of Instructor required.

ENVE 550. Aquatic Chemistry  
3 Credits  
Theoretical aspects of physical chemistry applied to the solution of environmental engineering problems. Emphasis on carbonate equilibria solubility, buffering and redox conditions. May be repeated up to 3 credits. Consent of Instructor required. Crosslisted with: ENVE 450.  
Prerequisite(s): C E 256.
ENVE 551. Unit Processes/Operation of Water Treatment
3 Credits
Theory and applications with unit processes in environmental engineering. Physical / chemical treatment methods emphasized. May be repeated up to 3 credits. Crosslisted with: ENVE 451.
Prerequisite(s): C E 356.

ENVE 552. Unit Processes/Operation of Wastewater Treatment
3 Credits
Theory and applications with unit processes in environmental engineering. Biological treatment methods emphasized. May be repeated up to 3 credits. Crosslisted with: ENVE 452.
Prerequisite(s): Consent of instructor.

ENVE 552 L. Unit Processes/Operation of Wastewater Treatment Laboratory
1 Credit
Dry laboratory emphasizing design of common unit operations/processes in biological treatment. May be repeated up to 1 credits.
Prerequisite(s): Consent of instructor.
Corequisite(s): ENVE 552.

ENVE 556. Advanced Water Treatment and Reuse
3 Credits
Theoretical and practical aspects of advanced water technologies for water treatment and reuse. Consent of instructor required.

ENVE 557. Surface Water Quality Modeling
3 Credits
Modeling the impacts of waste disposal practices on surface waters. Emphasis on fate and transport of bacteria, dissolved oxygen, nutrients, and toxicants in rivers, lakes, and tidal waters. May be repeated up to 3 credits.

ENVE 598. Special Research Programs
1-3 Credits
Individual investigations either analytical or experimental. May be repeated for a maximum of 6 credits. May be repeated up to 6 credits.

ENVE 599. Master’s Thesis
15 Credits
Thesis. May be repeated for a maximum of 6 credits.

ENVE 630. Fate and Transport of Environmental Contaminants
3 Credits
Modeling of transport phenomena in natural and engineered systems for predicting the fate of contaminants in the air, soil, sediment, and water compartments of the ecosystem. May be repeated up to 3 credits. Consent of Instructor required.
Prerequisite(s): ENVE 557 and consent of instructor.

Agricultural Engineering Courses

A EN 459. Design of Water Wells/Pumping Systems
3 Credits
Design of water wells; selection and specification of pumps and power units.
Prerequisite: C E 382.

A EN 478. Irrigation and Drainage Engineering
3 Credits (2+3P)
Design and operation of surface and sprinkler irrigation systems; pumping and conveyances; introduction to principles and practices of drainage systems and wells.
Prerequisite: C E 382 or consent of instructor.

A EN 498. Special Topics
1-3 Credits
May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

Civil Engineering (Environmental)
- Bachelor of Science in Civil Engineering

Requirements (124 Credits)
In addition to the university requirements for graduation, all students including transfers must satisfy the requirements contained in the academic policies for the NMSU College of Engineering. Students must have a 2.0 grade-point average in all departmental courses and all prerequisites and co-requisites must be taken as required. If a student takes a class and a co-requisite for that class at the same time and does not achieve a grade of C- or better in the co-requisite, the student may take no further classes for which the course or the co-requisite are prerequisite. A student who completes a class three times without achieving a grade of C- or better will be dismissed from the Civil Engineering program, and not allowed to take any Civil Engineering courses from the department.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 124 credits with 50 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to complete prerequisite(s) prior to enrolling in this course depending on math placement.
3. See the Viewing A Wider World (p. 53) section of the catalog for a full list of courses.
4. For concentration coursework, there may be instances when a listed elective course(s) may not be taught and students can substitute a listed course(s) with an alternative Department Head approved course(s). Please see the Department Head for more information.

A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 191G Calculus and Analytic Geometry I and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

1. Courses are taught in the Fall, Spring and Summer semesters.
2. Math Placement: MATH 191G Calculus and Analytic Geometry I is the starting Math course for the degree but students may need to complete any prerequisites prior to enrolling in this course depending on math placement.
3. Courses are taught in the Fall and Spring semesters only.
4. Courses are taught in the Spring and Summer semesters only.
5. See the General Education (p. 49) section of the catalog for a full list of courses.
6. Courses are taught in the Fall and Summer semesters only.
7. See your advisor for more detailed information about selecting elective courses that are approved to fulfill this requirement. For concentration coursework, there may be instances when a listed elective course(s) may not be taught and students can substitute a listed course(s) with an alternative Department Head approved course(s). Please see the Department Head for more information.
8. See the Viewing a Wider World (p. 53) section of the catalog to see a full list of courses.
9. Courses are taught in the Spring semester only.

### Civil Engineering (Geotechnical) - Bachelor of Science in Civil Engineering

**Requirements (124 Credits)**

In addition to the university requirements for graduation, all students including transfers must satisfy the requirements contained in the academic policies for the NMSU College of Engineering. Students must have a 2.0 grade-point average in all departmental courses and all prerequisites and co-requisites must be taken as required. If a student takes a class and a co-requisite for that class at the same time and does not achieve a grade of C- or better in the co-requisite, the student may take no further classes for which the course or the co-requisite are prerequisite. A student who completes a class three times without achieving a grade of C- or better will be dismissed from the Civil Engineering program, and not allowed to take any Civil Engineering courses from the department.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 124 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to complete prerequisite(s) prior to enrolling in the course depending on math placement.
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4. For concentration coursework, there may be instances when a listed elective course(s) may not be taught and students can substitute a listed course(s) with an alternative Department Head approved course(s). Please see the Department Head for more information.

A Suggested Plan of Study for Students
This roadmap assumes student placement in MATH 191G Calculus and Analytic Geometry I and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Total Credits: 124

1. Courses are taught in the Fall, Spring and Summer semesters.
2. Math Placement: MATH 191G Calculus and Analytic Geometry I is the starting Math course for the degree but students may need to complete prerequisite(s) prior to enrolling in this course depending on math placement.
3. Courses are taught in the Fall and Spring semesters only.
4. Courses are taught in the Spring and Summer semesters only.
5. See the General Education (p. 49) section of the catalog for a full list of courses.
6. Courses are taught in the Fall and Summer semesters only.
7. See the Viewing a Wider World (p. 53) section of the catalog to see a full list of courses.
8. Two different courses must be selected; student will not fulfill the requirement by repeating the same course between the two semesters.
9. For concentration coursework, there may be instances when a listed elective course(s) may not be taught and students can substitute a listed course(s) with an alternative Department Head approved course(s). Please see the Department Head for more information.
10. Courses are taught in the Spring semester only.

Civil Engineering (Structural) - Bachelor of Science in Civil Engineering

Requirements (124 Credits)

In addition to the university requirements for graduation, all students including transfers must satisfy the requirements contained in the academic policies for the NMSU College of Engineering. Students must have a 2.0 grade-point average in all departmental courses and all prerequisites and co-requisites must be taken as required. If a student takes a class and a co-requisite for that class at the same time and does not achieve a grade of C- or better in the co-requisite, the student may take no further classes for which the course or the co-requisite are prerequisite. A student who completes a class three times without achieving a grade of C- or better will be dismissed from the Civil Engineering program, and not allowed to take any Civil Engineering courses from the department.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 124 credits with 48
Civil Engineering (Structural) - Bachelor of Science in Civil Engineering

Credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Courses are taught in the Fall, Spring and Summer semesters.

Math Placement: MATH 191G Calculus and Analytic Geometry I is the starting Math course for the degree but students may need to complete prerequisite(s) prior to enrolling in this course depending on math placement.

Courses are taught in the Fall and Spring semesters only.

Courses are taught in the Spring and Summer semesters only.

See the General Education (p. 49) section of the catalog for a full list of courses.

Courses are taught in the Fall and Summer semesters only.

See the Viewing a Wider World (p. 53) section of the catalog to see a full list of courses.

For concentration coursework, there may be instances when a listed elective course(s) may not be taught and students can substitute a listed course(s) with an alternative Department Head approved course(s). Please see the Department Head for more information.

Courses are taught in the Spring semester only.

### Civil Engineering (Water Resources) - Bachelor of Science in Civil Engineering

**Requirements (124 Credits)**

In addition to the university requirements for graduation, all students including transfers must satisfy the requirements contained in the academic policies for the NMSU College of Engineering. Students must have a 2.0 grade-point average in all departmental courses and all prerequisites and co-requisites must be taken as required. If a student takes a class and a co-requisite for that class at the same time and does not achieve a grade of C- or better in the co-requisite, the student may take no further classes for which the course or the co-requisite are prerequisite. A student who completes a class three times without achieving a grade of C- or better will be dismissed from the Civil Engineering program, and not allowed to take any Civil Engineering courses from the department.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 124 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective
credits, but may be needed in order to take the necessary English and Mathematics coursework.

Elective Courses

Choose two courses, one from each set, from the following: 6

| C E 483 Surface Water Hydrology | 4 |
| or A EN 478 Irrigation and Drainage Engineering | 4 |
| C E 452 Geohydrology | 4 |
| or A EN 459 Design of Water Wells/Pumping Systems | 4 |

Capstone Design

Choose one from the following: 3

| C E 482 Hydraulic Structures | 3 |
| or C E 485 Design of Earth Dams | 3 |

Second Language: (not required)

Electives, to bring the total credits to 124

Total Credits 124

1 See the General Education (p. 49) section of the catalog for a full list of courses.
2 MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to complete prerequisite(s) prior to enrolling in this course depending on math placement.
3 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4 For concentration coursework, there may be instances when a listed elective course(s) may not be taught and students can substitute a listed course(s) with an alternative Department Head approved course(s). Please see the Department Head for more information.

A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 191G Calculus and Analytic Geometry I and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

### New Mexico State University - Las Cruces

#### Second Year

**Fall**
- MATH 291G Calculus and Analytic Geometry III 
- C E 233 Mechanics-Statics
- ENGL 218G Technical and Scientific Communication
- DRFT 222 or SUR 222 Surveying Fundamentals (DACC) or Plane Surveying
- GEOL 111G Introductory Geology

**Credits:** 14

**Spring**
- MATH 392 Introduction to Ordinary Differential Equations
- C E 301 Mechanics of Materials
- C E 234 Mechanics-Dynamics
- C E 256 & 256 L Environmental Engineering and Science and Environmental Science Laboratory
- COMM 265G Principles of Human Communication

**Credits:** 16

#### Third Year

**Fall**
- Area V: Humanities
- C E 356 Fundamentals of Environmental Engineering
- C E 315 Structural Analysis
- C E 331 & 331 L Fluid Mechanics and Hydraulics and Fluid Mechanics and Hydraulics Laboratory
- C E 357 Soil Mechanics

**Credits:** 17

**Spring**
- C E 311 Civil Engineering Materials
- C E 382 Hydraulic and Hydrologic Engineering
- STAT 371 Statistics for Engineers and Scientists
- ECON 251G or ECON 252G Principles of Macroeconomics or Principles of Microeconomics
- PHYS 216G & 216GL Engineering Physics II and Engineering Physics II Laboratory

**Credits:** 16

#### Fourth Year

**Fall**
- C E 445 Reinforced Concrete Design
- C E 477 Engineering Economics and Construction Management
- VWW - Viewing a Wider World Course
- Choose one course from the following sets:
  - C E 483 or A EN 478 Surface Water Hydrology or Irrigation and Drainage Engineering
  - C E 452 or A EN 459 Geohydrology or Design of Water Wells/Pumping Systems

**Credits:** 15

#### Agriculture Engineering - Undergraduate Minor

**Prefix** | **Title** | **Credits**
---|---|---
C E 452 | Geohydrology or Design of Water Wells/Pumping Systems | 3

**Area VI: Creative and Fine Arts**

**Spring**
- Choose one course from the following sets:
  - C E 483 or A EN 478 Surface Water Hydrology or Irrigation and Drainage Engineering
  - C E 452 or A EN 459 Geohydrology or Design of Water Wells/Pumping Systems
- Choose one from the following:
  - C E 482 Hydraulic Structures
  - C E 485 Design of Earth Dams
  - C E 477 Transportation Engineering
- VWW - Viewing a Wider World Course

**Credits:** 15

**Total Credits:** 124

---

1. Courses are taught in the Fall, Spring and Summer semesters.
2. Math Placement: MATH 191G Calculus and Analytic Geometry I is the starting Math course for the degree but students may need to complete prerequisite(s) prior to enrolling in this course depending on math placement.
3. Courses are taught in the Fall and Spring semesters only.
4. Courses are taught in the Spring and Summer semesters only.
5. See the General Education (p. 49) section of the catalog for a full list of courses.
6. Courses are taught in the Fall and Summer semesters only.
7. See the Viewing a Wider World (p. 53) section of the catalog to see a full list of courses.
8. Two different courses must be selected; student will not fulfill the requirement by repeating the same course.
9. For concentration coursework, there may be instances when a listed elective course(s) may not be taught and students can substitute a listed course(s) with an alternative Department Head approved course(s). Please see the Department Head for more information.
10. Courses are taught in the Spring semester only.
Environmental Engineering - Undergraduate Minor

This minor will build upon existing BS degree programs at NMSU in engineering and environmental science, and provide further preparation in modern and emerging technologies for upgrading the Nation’s ageing utilities and infrastructure in the water, energy, and environment sectors. Includes 3 required courses (9 credits) from civil and environmental engineering, and 3 elective courses (9-10 credits) from civil engineering, environmental engineering, environmental science, and/or engineering technology.

### Required courses (3 courses)
- C E 256 Environmental Engineering and Science
- C E 356 Fundamentals of Environmental Engineering
- ENVE 458 Urban Water-Energy-Environment Systems

### Elective courses (3 courses)
- To be selected from the following list of courses (numbered 300-499)

#### Upper level courses in Civil Engineering
- C E 355V Technology and the Global Environment
- ENVE 450 Aquatic Chemistry
- ENVE 451 Unit Processes/Operation of Water Treatment
- ENVE 452 Unit Processes/Operation of Wastewater Treatment
- ENVE 456 Environmental Engineering Design
- ENVE 459 Environmental Microbiology
- ENVE 487 Air Pollution Control Systems Design

#### Upper level courses in Environmental Science
- E S 452 Geohydrology
- E S 462 Sampling and Analysis of Environmental Contaminants
- E S 470 Environmental Impacts of Land Use and Contaminant Remediation

#### Upper level courses in Engineering Technology
- E T 381 Renewable Energy Technologies
- E T 382 Solar Energy Technologies
- E T 384 Wind and Water Energy Technologies

Total Credits: 15-16

### Structural Engineering - Undergraduate Minor

This minor will build upon existing BS degree programs at NMSU in analysis, construction, and design of civil, mechanical, and aerospace structures. Includes 3 required courses (10 credits) from civil engineering and 3 elective courses (9-10 credits) from civil engineering, aerospace/mechanical engineering, and/or engineering technology.

### Required courses (3 courses)
- C E 301 Mechanics of Materials
- C E 315 Structural Analysis
- C E 444 Elements of Steel Design

### Elective courses (3 courses)
- To be selected from the following list of courses (numbered 300-499)

#### Upper level courses in Civil Engineering (up to 3 courses)
- C E 445 Reinforced Concrete Design
- C E 454 Wood Design
- C E 455 Masonry Design
- C E 469 Structural Systems
- C E 498 Special Topics

#### Upper level courses in Aerospace/Mechanical Engineering (up to 2 courses)
- A E 363 Aerospace Structures
- A E 451 Aircraft Design
- M E 331 Intermediate Strength of Materials
- M E 332 Vibrations
- M E 425 Design of Machine Elements
- M E 456 Experimental Modal Analysis
- M E 460 Applied Finite Elements

#### Upper level courses in Engineering Technology (maximum of 1 course)
- E T 332 Applied Design of Structures I
- E T 432 Applied Design of Structures II

Total Credits: 19-20

1. up to 3 elective courses may be taken in Civil Engineering, up to 2 elective courses in Aerospace/Mechanical Engineering, and a maximum of 1 elective course in Engineering Technology
courses numbered 450 and above may be used to satisfy course requirements for the accelerated master’s degree program (requires department head approval and maximum of 6 credits)

special topics in Civil Engineering include advanced mechanics of materials, advanced mechanics of steel structures, advanced mechanics of concrete, finite element methods, non-destructive testing, and bridge engineering (requires consent of department head and instructor)

Civil Engineering - Master of Engineering

The Master of Engineering degree in Civil Engineering (MECE) is a coursework only degree and several courses are offered online. The MECE degree requires a total of 30-31 credit hours consisting of one professional communications course (3 cr); six technical electives in Civil, Environmental, and/or Agricultural Engineering (18-19 cr); and three electives from engineering disciplines outside the department and/or other areas of interest outside the college (9 cr).

Environmental Engineering

- ENVE 456 Environmental Engineering Design
- ENVE 458 Urban Water-Energy-Environment Systems
- ENVE 459 Environmental Microbiology
- ENVE 487 Air Pollution Control Systems Design
- ENVE 550 Aquatic Chemistry
- ENVE 551 Unit Processes/Operation of Water Treatment
- ENVE 552 Unit Processes/Operation of Wastewater Treatment
- ENVE 556 Advanced Water Treatment and Reuse
- ENVE 557 Surface Water Quality Modeling

Geotechnical Engineering

- C E 457 Foundation Design
- C E 460 Site Investigation
- C E 470 Design of Municipal and Hazardous Waste Landfills
- C E 479 Pavement Analysis and Design
- C E 485 Design of Earth Dams
- C E 506 Advanced Soil Mechanics
- C E 507 Design of Earth Retaining Structures
- C E 508 Advanced Soil Behavior
- C E 509 Deep Foundations
- C E 579 Ground Improvement
- C E 585 Slope Stability Analysis and Design
- C E 586 Geotechnical Earthquake Engineering

Structural Engineering

- C E 469 Structural Systems
- C E 498/596 Special Topics (Numerical Methods)
- C E 501 Advanced Mechanics of Materials
- C E 502 Advanced Mechanics of Steel Structures
- C E 505 Advanced Mechanics of Concrete
- C E 510 Introduction to Nondestructive Testing
- C E 515 Finite Element Methods
- C E 544 Advanced Design of Steel Structures
- C E 545 Advanced Concrete Design
- C E 547 Bridge Engineering
- C E 554 Wood Design
- C E 555 Masonry Design
- C E 571 Structural Dynamics
- C E 572 Earthquake Engineering

Water Resources and Agricultural Engineering

- C E 452 Geohydrology
- C E 482 Hydraulic Structures
- C E 483 Surface Water Hydrology
- C E 531 Open Channel Hydraulics
- C E 557 Water Resources Development
- C E 581 Ground Water Hydrology
- C E 582 Statistical Hydrology
- A EN 459 Design of Water Wells/Pumping Systems
- A EN 478 Irrigation and Drainage Engineering

Transportation and Construction

- C E 471 Transportation Engineering
- C E 477 Engineering Economics and Construction Management
- C E 573 Transportation Analysis

MECE elective courses

- C E 573 Transportation Analysis

Three courses to be selected from the following list of courses (numbered 450-599)

Chemical and Materials Engineering

- CHME 549 Intellectual Property for Engineers and Scientists
- CHME 561 Calculation of Material and Molecular Properties
- CHME 567 Nanoscience and Nanotechnology
- CHME 579 Corrosion and Degradation of Materials

Engineering Technology

- ET 454 Advanced Construction Technology
- ET 455 Cost Estimating and Scheduling
- ET 472 Intelligent Transportation Systems (ITS)
- ET 480 Innovation and Product Development

Industrial Engineering

- I E 515 Stochastic Processes Modeling
- I E 523 Advanced Engineering Economy
- I E 533 Linear Programming
- I E 534 Nonlinear Programming
- I E 535 Discrete Optimization
- I E 561 Advanced Safety Engineering
Option: Geotechnical Engineering

Total Credits

| Credits | | |
|---------| | 30-31 |

1 Course offered online in the Fall, Spring, or Summer semester
2 Electives must be chosen from at least 2 different areas (e.g., geotechnical and structural, environmental and water resources/agricultural) and no more than 4 courses may be taken in same area
3 Up to 12 credit hours of undergraduate coursework (numbered 450-499) may be applied towards the MECE degree
4 Courses listed represent only a partial list of engineering electives that may be taken outside the department; courses in other areas of interest outside the college may be taken including, but not limited to, environmental science, mathematics, statistics, geography, soil science, geology, business, economics, and management (all MECE electives must be approved by graduate advisor and department head)

Civil Engineering - Master of Science in Civil Engineering

In support of the mission and vision statements for the graduate program, the department adopts the following goals for the Master of Science (MS) in Civil Engineering degree:

1. Prepare students to fulfill the academic prerequisites specified by the Americans Society of Civil Engineers (ASCE) for Licensure and Professional Practice in Civil Engineering.
2. Prepare students to attain the Body of Knowledge specified by ASCE necessary for entry into the practice of civil engineering at the professional level.
3. Prepare students in conducting applied research in areas relevant to the practice of civil engineering.
4. Prepare students for advanced graduate studies towards a terminal degree.

Students may choose from the geotechnical, structural, or water resources engineering options following the Thesis or Non-Thesis track, requirements of which are specified below. Exceptions to these requirements must be approved by the head of the department. Further information related to the MS degree may be found under the Academic Programs of Study (p. 58) section of the catalog.
## Option: Structural Engineering

</table>

Total Credits: 30

1 A maximum of 6 credits are counted toward the Master’s Degree program.

**Total credits needed for the Thesis Track are 24 credits of coursework and 6 credits of C E 599 Master’s Thesis research.**

## Non-Thesis Track

The background and core courses for the Non-Thesis Track in Structural Engineering are the same as those listed under the Thesis Track. Under optional courses, Non-Thesis students must select one additional course (i.e., total of four optional courses) from the list provided for the Thesis Track. In addition, Non-Thesis students must complete 3 credits of CE 598 - Special Research Programs in place of 6 credits of C E 599 and pass a final exit exam covering coursework and their research project.

**Total credits needed for the Non-Thesis Track are 27 credits of coursework and 3 credits of C E 598 Special Research Programs.**

## Option: Water Resources Engineering

Environmental Engineering - Master of Science in Environmental Engineering

Environmental engineering at New Mexico State University provides unique educational and research opportunities at the graduate level in the fields of water quality, aquatic chemistry, environmental microbiology, water treatment, water pollution control, wastewater treatment, reclamation and reuse, desalination, industrial, hazardous and solid waste management, groundwater remediation, contaminant fate and transport, resources recovery from waste streams, air pollution control, waste minimization, and pollution prevention. Therefore, course offerings emphasize basic engineering and scientific principles, as well as design and application of environmental engineering unit operations and processes. Special problem and thesis research are closely matched with faculty expertise and the professional goals of the graduate students. The programs of study are specifically designed for individual students, taking advantage of not only the program capabilities, but complementing activities of the university as a whole and the student’s professional experience and work environment.

Graduate students satisfy degree requirements in environmental engineering by completing specific core course work. Course work in the graduate program includes:

- water and wastewater treatment
- solid and hazardous waste systems design
- environmental chemistry
- environmental microbiology
- environmental contaminant analysis
- industrial pollution control
- fate and transport of pollutants in engineered and natural systems and water quality in surface water and groundwater systems

Additional topics of interest to the students are offered through special topics classes and by courses taught outside of the College of Engineering.

The Master of Science (MS) program in Environmental Engineering requires either a thesis or non-thesis practice oriented experience. The thesis track consists of a minimum of 30 semester credit hours, including 6 credit hours of thesis. The non-thesis track is designed primarily for students who are working full time in engineering practice, but is also available to students working part time. This track consists of 30 semester credit hours, including 6 credit hours of an engineering practicum (ENVE 598 Special Research Programs) of which up to 3 credit hours can be earned for a professional engineering design experience. Transfer credit for courses taken elsewhere is evaluated on an individual basis. Up to 6 semester hours of graduate level courses may be used to satisfy MS degree requirements provided that the credits were not used toward another degree.

Required Curriculum

The graduate environmental engineering program of the Civil Engineering Department expects all MS students to meet certain requirements in pursuit of an advanced degree. Some of these requirements are related to the quantity, level, and quality of coursework. This Graduate Catalog details what is expected as a minimum for graduation, but it is up to the student and his/her advisor and graduate committee to determine the program of study for the student. The student and his/her advisor will create this program of study in the first semester of graduate work.

Students desiring to work toward an advanced degree in environmental engineering must have completed undergraduate preparation similar to that required for a Bachelor of Science degree in an ABET accredited engineering program or must have adequate background, as determined by the graduate faculty of the program. The background courses listed below may be required if the student did not take a similar course at the undergraduate level, as determined by the graduate faculty of the program.

Environmental engineering faculty will form a committee for every entering student. The faculty will evaluate the student’s record and determine which deficiencies and/or core courses, if any, are needed by the student. The required curriculum consists of 12 credit hours of core courses, 6 credit hours of Master’s Thesis (thesis track) or Special Research Programs (non-thesis track), and 12 credit hours of elective courses. For all professional non-thesis programs, the department head will review the committee’s decision.

### Electrical and Computer Engineering

#### Undergraduate Program Information

**Overview**

The undergraduate electrical engineering program of the Klipsch School is accredited by the Engineering Accreditation Commission of ABET, Inc., and stresses the development of analytical tools and physical concepts required to prepare students for immediate employment or graduate study. The program is flexible, allowing students to choose elective coursework towards concentrations in:

- communications and signal processing,
- computers and microelectronics,
- control and power,
- electromagnetics and photonics, or
- space systems.

Alternatively, students can select "no concentration" for the greatest flexibility in course selection.

#### Educational Objectives

The Klipsch School is dedicated to providing a quality, hands-on, educational experience for our students. Below are the program educational objectives (PEOs) that describe the expected accomplishments of graduates during their first few years after graduation.

1. Our graduates will obtain relevant, productive employment in the private sector, government and/or pursue an advanced degree.
2. Our graduates will be using their engineering foundation to innovate solutions to the problems of the real world.

---

### Related Areas of Study

Electrical and computer engineering students wishing to broaden their educational experience may elect to earn additional bachelor’s degrees in:

- Engineering Physics
- Computer Science
- Mathematics
- Physics
Electrical and Computer Engineering

Klipsch School students may also choose to earn a minor in one or more of the following fields:

- Computer Engineering
- Computer Science
- Mathematics
- Physics

Students must consult with an academic advisor in the offering department for specific requirements related to additional degrees and minors.

**Transfer Credit**

Credit earned at other institutions is generally accepted; however the following restrictions apply to transfer credits:

- Engineering credit must be earned at an ABET accredited school.
- Physics must be calculus based.
- If the NMSU requirement includes a lab, the transfer credit must include a lab.
- A grade of C- or better, must have been earned.
- E E Courses numbered 300 or higher, Cornerstone and Capstone courses may not be transferred.

**Master’s Accelerated (BS/MS) Program (MAP)**

Undergraduate students may apply for acceptance to the Master’s Accelerated Program (MAP) after completing 60 semester hours of undergraduate coursework of which a minimum of 25 credit hours must be completed at NMSU. The GPA must be 3.0 or above. The students must meet all other requirements as specified by the program. The MAP program allows up to 12 credits of NMSU coursework (450 level or higher) taken during the undergraduate years to be counted toward the master’s program of study. Students must receive a grade of B or higher in the courses to be counted for the graduate degree. The courses must logically fit into the master’s program. More information and the application for the MAP program can be found at: [https://honors.nmsu.edu/masters-accelerated-program-map/](https://honors.nmsu.edu/masters-accelerated-program-map/)

**Graduate Program Information**

**Overview**

The Klipsch School of Electrical and Computer Engineering offers graduate work leading to the Master of Science and Doctor of Philosophy degrees. Areas of emphasis for masters and doctoral students are:

- communications,
- computer engineering,
- digital signal processing,
- electromagnetics,
- electric energy systems,
- photonics, and
- microelectronics/VLSI.

Research in the above areas currently being conducted by the faculty ensures that doctoral candidates will work on the frontier of knowledge in these areas. The graduate programs are intended to provide broad graduate-level training in electrical engineering. In addition, appropriate courses in computer science, industrial engineering, mathematics, physics and business management may be integrated into a graduate student’s program of study.

Students desiring to work toward an advanced degree in electrical engineering must have completed undergraduate preparation substantially equivalent to that required for the Bachelor of Science in Electrical Engineering degree at this institution. For students with undergraduate degrees in other disciplines, see below. For further information on the Klipsch School of Electrical and Computer Engineering, please consult the web page [http://www.ece.nmsu.edu/](http://www.ece.nmsu.edu/).

**Research Facilities and Highlights**

Faculty and staff in communications, telemetry and telemetering are involved in education and research programs focusing on

- telecommunications,
- communication theory,
- coding and information theory,
- wireless networks,
- digital signal processing,
- optical and radio frequency communications, and
- digital image processing.

They have several major research sponsors including NASA, the Department of Defense, and the National Science Foundation. The Frank Carden Chair for Telemetry and Telemetering is Professor Dr. Charles Creusere.

The Advanced Speech and Audio Processing Laboratory is used for both teaching and research in digital signal processing (DSP). Current research areas include

- speaker recognition,
- signal enhancement,
- low-bit rate coding,
- embedded DSP, and
- GPU-based pattern recognition for speech processing.

Research sponsors for the laboratory include Air Force Research Laboratories, Army Research Laboratory, National Geospatial Intelligence Agency, Freescale Semiconductor, IBM, Motorola, National Science Foundation, and Texas Instruments. The director of the laboratory is Dr. Philip L. De Leon.

The Electromagnetics (EM) and Microwave Laboratory is used for both teaching and research in electromagnetic fields. Current research areas include

- propagation through dispersive media (soil, seawater, foliage, biological tissues),
- UWB radar and remote sensing system analysis and design,
- antenna analysis, synthesis, and design,
- bio-electromagnetics,
- brain mapping,
- computational physics,
- electromagnetic interference and compatibility,
- high performance computing, and
- nondestructive evaluation.

Research sponsors for the laboratory include American Heart Association, Department of Defense, Los Alamos National Laboratory, NASA, NSF, National Institutes of Health, Sandia National Laboratories,
and White Sands Missile Range. The Director of the Electromagnetics and Microwave Laboratory is Dr. Kwong T. Ng.

New Mexico State University’s program in Electric Utility Management (EUMP) is sponsored by a group of public and private electric utility companies and industrial organizations and hosts the PNM Chair for Utility Management and The Kersting Professorship. The Master of Science in Electrical Engineering degree program includes course work in public utilities regulation and is designed to prepare the student for a future engineering management position in the electric utility industry. An industry advisory committee provides the vital connecting link between the electric utility industry and the university, so that a coordinated effort may be achieved in realizing the following program objectives:

1. to provide a program of study at the graduate level in the planning, operation, and management of electric power generation, transmission, distribution, and utilization; and the integration of renewable energy and storage;
2. to supply the electric utility industry with the highest caliber of new engineering and management talent; and
3. to provide the university with the required financial and technical support to ensure a quality program.

In addition, faculty in EUMP work with M.S. an Ph.D. students to conduct funded research sponsored by Sandia National Laboratories, EPRI, NSF, DOE, CEC and the electrical utility industry. Much of the current research is focused on renewable energy integration, protection, advanced control and optimization, and customer driven microgrids. Laboratory facilities are available in the El Paso Electric Power Systems laboratory. The program works closely with the Institute for Energy and Environment (IEE) and with Southwest Technology Development Institute (SWTDI) which host the solar energy experiment station. The director of the EUMP and PNM Chair for Utility Management is Dr. Satish Ranade.

Faculty and students in the VLSI Laboratory are involved in the design and analysis of analog and mixed-signal microelectronic circuits and systems. Current research areas include

- wireless bio-circuits and sensors;
- green computing;
- intelligent sensing, sigma-delta sensing;
- low-voltage, low-power circuits;
- high performance operational amplifiers and operational transconductance amplifiers;
- energy harvesting and power management circuits; and
- analog machine vision and image processing.

Research sponsors include the National Science Foundation, Los Alamos National Laboratories and Agilent technologies. The director of the VLSI Laboratory is IEEE Fellow Dr. Jaime Ramirez-Angulo.

The Photonics program at NMSU offers unique opportunities to undergraduate and graduate students interested in pursuing a career in electro-optics, applied optics, photonics, or optical engineering by combining the optics resources of the Klipsch School and the Physics Department. Most of the optics classes are cross-listed in the two departments. The Klipsch School’s Electro-Optics Research Laboratory (EORL) provides a variety of research opportunities in areas such as

- multispectral and polarimetric imaging,
- free-space optical communications,
- adaptive optics,
- nanophotonics and
- integrated electro-optic sensors and systems.

Sponsors include the Air Force Office of Scientific Research, Sandia National Laboratories, Air Force Research Laboratory, Army Research Laboratory, NASA, National Geospatial-Intelligence Agency and the National Science Foundation. SPIE Fellow Dr. David G. Voelz is the director of the EORL and NMSU’s Photonics program.

The Computer Networking Lab (CNL) supports teaching and research in Internet and wireless sensor networks. The mission of CNL is to provide students with the opportunity to do cutting-edge research that has high practical relevance. Currently, research projects in CNL include secure data dissemination in wireless sensor networks, solar-powered sensor networks, and RFID sensor networks. CNL is directed by Dr. Hong Huang.

Students and faculty associated with the Performance Evaluation and Architecture Research Laboratory (PEARL) conduct research in the areas of

- performance modeling and simulation techniques,
- micro-architecture power optimization,
- performance analysis and optimization of large-scale scientific applications, and
- heterogeneous HPC computing for field-deployable systems.

PEARL sponsors include the Army Research Labs (ARL), High Performance Computing Research Center (AHPCRC), Sandia National Laboratories, and Los Alamos National Laboratories. The laboratory’s director is Dr. Hameed Badawy.

Support for Graduate Students

A number of teaching assistantships, research assistantships and fellowships are available. Teaching assistants are recommended by individual faculty for selection by the ECE Department’s Graduate Studies Committee. International students must pass university screening prior to being eligible for selection as a TA. Nominations for new TAs are made by the advisor after a student is admitted. Research assistants are hired directly by the faculty member who has received a contract or grant for research.

The College of Engineering awards graduate scholarships and fellowships on behalf of Electrical and Computer Engineering. These include:

- the MIT/Lincoln Laboratory Fellowship,
- the Paul and Valerie Klipsch Grad Scholarship,
- the Admiral Paul Arthur Grad Scholarship, and
- the Barry Neil Rappaport Grad Scholarship.

Applications can be completed on-line at [scholarships.nmsu.edu](http://scholarships.nmsu.edu/). The priority deadline for the Scholar Dollar$ is March 1st. The Electrical Utility Management Program has a limited number of fellowships for students interested in pursuing master’s degrees in electrical energy systems.

Admission

Prospective graduate students for the Master of Science or Doctor of Philosophy in Electrical Engineering must first meet the entrance requirements of the Graduate School. The prospective US graduate student should make formal application to the Graduate Student Services office ([http://gradschool.nmsu.edu](http://gradschool.nmsu.edu)). International graduate students
must start with the Admissions Office. Official transcripts from all undergraduate and graduate institutions must be sent directly to the Graduate School. In addition, the student must arrange to have an official copy of the GRE (Graduate Record Examination) General Test scores sent to the Graduate School. International students must also submit their TOEFL (Test of English as a Foreign Language) scores. If the applicant meets the Graduate School's minimum requirements, the application is sent to the Klipsch School's Graduate Studies Committee for review. U.S. residents are given every chance of being successful in the pursuit of a graduate degree. If they do not meet the requirements of the Klipsch School, they can enter the Graduate School as "undeclared" where they must demonstrate competence in two or more graduate-level E E courses before they re-apply.

Requirements for Students Without BSEE Degree or Equivalent

Students without a BSEE degree or equivalent preparation will be expected to take classes covering the core knowledge required in our BSEE program. This includes mathematics through differential equations and basic engineering physics. The student's graduate advisor will prepare an individualized deficiency schedule, based on the student's academic background and work experience.

The following courses from our undergraduate program will be considered deficiencies for students without a BSEE

Degrees for the Department

Electrical Engineering (No Concentration) - Bachelor of Science in Electrical Engineering (p. 761)

Electrical Engineering (Communications & Signal Processing) - Bachelor of Science in Electrical Engineering (p. 763)

Electrical Engineering (Computers & Microelectronics) - Bachelor of Science in Electrical Engineering (p. 766)

Electrical Engineering (Control & Power) - Bachelor of Science in Electrical Engineering (p. 768)

Electrical Engineering (Electromagnetics & Photonics) - Bachelor of Science in Electrical Engineering (p. 770)

Electrical Engineering (Space Systems) - Bachelor of Science in Electrical Engineering (p. 772)

Electrical Engineering - Master of Engineering (Coursework) (p. 775)

Electrical Engineering - Master of Science in Electrical Engineering (Thesis or Technical Report) (p. 776)

Engineering - Doctor of Philosophy (p. 778)

Minors for the Department

Computer Engineering - Undergraduate Minor (p. 774)

Electrical Engineering - Undergraduate Minor (p. 775)

Graduate Certificates in the Department

Digital Communications - Graduate Certificate (p. 778)

Digital Signal Processing - Graduate Certificate (p. 779)

Electric Energy Systems - Graduate Certificate (p. 779)

Telemetry - Graduate Certificate (p. 779)

Interim Department Head, Steve Stochaj

Professors Borah, Creusere, DeLeon, Ng, Ramirez-Angulo, Ranade, Stochaj, Voelz;

Associate Professors Boucheron, Cho, Dawood, Furth, Huang, Prasad, Tang;

Assistant Professors Badawy, Che, Lavrova, Mitchell, Sandoval;

College Assistant Professors Boehmer;

Emeritus Professors Carden, Giles, Sheila Horan, Stephen Horan, Johnson, Jordan, Kersting, Ludeman, Merrill, Reinfelds, Smolleck, Steelman, Taylor

Registered Professional Engineer (NM)

Electrical Engineering Courses

E E 100. Introduction to Electrical and Computer Engineering
4 Credits (3+3P)
Introduction to analog (DC) and digital electronics. Includes electric component descriptions and equations, Ohm's law, Kirchhoff's voltage and current laws, ideal op-amp circuits, Boolean algebra, design of combinational and sequential logic circuits and VHDL or VERILOG.
Prerequisite(s)/Corequisite(s): C- or better in MATH 190G.

E E 112. Embedded Systems
4 Credits (3+3P)
Introduction to programming through microcontroller-based projects. Extensive practice in writing computer programs to solve engineering problems with microcontrollers, sensors, and other peripheral devices.
Prerequisite(s)/Corequisite(s): E E 100.

E E 200. Linear Algebra, Probability and Statistics Applications
4 Credits (3+3P)
The theory of linear algebra (vectors and matrices) and probability (random variables and random processes) with application to electrical engineering. Computer programming to solve problems in linear algebra and probability.
Prerequisite(s): C- or better in E E 112 and MATH 192G.
E E 212. Introduction to Computer Organization
4 Credits (3+3P)
Concepts of modern computer organization, CPU control, pipelining, memory hierarchies, memory mapping, hardware-software interface, and operating systems.
Prerequisite(s)/Corequisite(s): E E 100 and MATH 190G.

E E 230. Circuit Analysis and Introduction to Electronics
4 Credits (3+3P)
Circuit analysis techniques, RLC transients, phasors, filter response, and an introduction to discrete electronic devices.
Prerequisite(s)/Corequisite(s): PHYS 216G. Prerequisite(s): C- or better in E E 100 and MATH 192G.

E E 240. Multivariate and Vector Calculus Applications
3 Credits
Vector algebra, cylindrical and spherical coordinates, partial derivatives, multiple integrals. Calculus of vector functions through electrostatic applications. Divergence, gradient, curl, divergence theorem, Stokes’s theorem, Coulomb’s Law, Gauss’s Law, electric field, electric potential. Applications in Matlab.
Prerequisite(s): C- or better in MATH 192G and E E 112.

E E 300. Cornerstone Design
2 Credits (1+3P)
Application and realization of engineering principles to a guided team-based design project. Formulation and implementation of test procedures, evaluation of alternate solutions and oral and written communication of the design and test results. Restricted to: E E majors. Restricted to Las Cruces campus only.
Prerequisite(s): C- or better in E E 112, E E 212 and E E 230.

E E 317. Semiconductor Devices and Electronics I
4 Credits (3+3P)
Analysis and design of opamp circuits, diode circuits and single-transistor MOS and BJT amplifiers. Introduction to solid-state semiconductor devices.
Prerequisite(s): C- or better in E E 230 and CHEM 111G.

E E 320. Signals and Systems I
3 Credits
Introduction to the modeling and analysis of continuous- and discrete-time signals and systems using time- and frequency-domain methods suitable for both mathematical approaches and computer-aided simulations.
Prerequisite(s)/Corequisite(s): MATH 392. Prerequisite(s): C- or better in E E 200 and E E 230.

E E 325. Signals and Systems II
4 Credits (3+3P)
Introduction to communication systems including amplitude and frequency modulation. Introduction to control systems including linear feedback systems, root-locus analysis, and graphical representations. Introduction to digital signal processing including sampling, digital filtering, and spectral analysis. May be repeated up to 4 credits.
Prerequisite(s): C- or better in E E 320 and MATH 392.

E E 333. AC Circuit Analysis and Introduction to Power Systems
3 Credits (2+3P)
Steady-state analysis of AC circuits, three-phase circuits, and an introduction to power systems.
Prerequisite(s): C- or better in E E 230.

E E 402. Capstone Design I
3 Credits (2+3P)
Realization of design project from E E 401 within time and budget constraints. Restricted to: E E majors.
Prerequisite(s): C- or better in E E 300, E E 317, E E 325, E E 333, E E 340 and E E 402.

E E 404. Capstone Design II
3 Credits (2+3P)
Realization of design project from E E 402 within time and budget constraints. Restricted to: E E majors.
Prerequisite(s): C- or better in E E 300, E E 317, E E 325, E E 333, E E 340 and E E 402.

E E 412. ASIC Design
3 Credits
This course provides students with experiential knowledge of modern application specific integrated circuits. Topics include ASIC packaging and testing, I/O pads and ESD, Verilog programming and simulation, FPGA verification, Register-transfer level synthesis, timing and area optimization, floorplanning and routing, digital interfaces, full custom and standard cell design, post-layout simulation, and PCB schematics and layout. Crosslisted with: E E 512.
Prerequisite(s)/Corequisite(s): E E 480.

E E 425. Introduction to Semiconductor Devices
3 Credits
Energy bands, carriers in semiconductors, junctions, transistors, and optoelectronic devices, including light-emitting diodes, laser diodes, photodetectors, and solar cells. Crosslisted with: E E 525.
Prerequisite(s): C- or better in E E 317 and E E 340.
E E 431. Power Systems II
3 Credits
Analysis of a power system in the steady-state. Includes the development of models and analysis procedures for major power system components and for power networks. Crosslisted with: E E 542.
Prerequisite(s): C- or better in E E 333.

E E 432. Power Electronics
3 Credits (2+3P)
Basic principles of power electronics and its applications to power supplies, electric machine control, and power systems.
Prerequisite(s)/Corequisite(s): E E 325. Prerequisite(s): C- or better in E E 317 and E E 333.

E E 443. Mobile Application Development
3 Credits
Introduction to mobile application development. Students will develop applications for iOS devices including iPhone and iPad. Topics include object-oriented programming using Swift, model-view-controller (MVC) pattern, view controllers including tables and navigation, graphical user interface (GUI) design, data persistence, GPS and mapping, camera, and cloud and web services. Crosslisted with: E E 593.
Prerequisite(s): C- or better in C S 151 or C S 152 or C S 172 or C S 271 or C S 451 or C S 452.

E E 444. Advanced Image Processing
3 Credits
Advanced topics in image processing including segmentation, feature extraction, object recognition, image understanding, big data, and applications. Crosslisted with: E E 588.
Prerequisite(s): C- or better in E E 446.

E E 446. Digital Image Processing
3 Credits
Two-dimensional transform theory, color images, image enhancement, restoration, segmentation, compression and understanding. Crosslisted with: E E 596.
Prerequisite(s): E E 395.

E E 447. Neural Signal Processing
3 Credits
Cross-disciplinary course focused on the acquisition and processing of neural signals. Students in this class will learn about basic brain structure, different brain signal acquisition techniques (fMRI, EEG, MEG, etc.), neural modeling, and EEG signal processing. To perform EEG signal processing, students will learn and use Matlab along with an EEG analysis package. Crosslisted with: E E 597.
Prerequisite(s): C- or better in E E 325.

E E 449. Smart Antennas
3 Credits
Smart antenna and adaptive array concepts and fundamentals, uniform and planar arrays, optimum array processing. Adaptive beamforming algorithms and architectures: gradient-based algorithms, sample matrix inversion, least mean square, recursive least mean square, sidelobes cancellers, direction of arrival estimations, effects of mutual coupling and its mitigation. Crosslisted with: E E 549.
Prerequisite(s): C- or better in E E 325 and E E 340.

E E 452. Introduction to Radar
3 Credits
Prerequisite(s): C- or better in E E 325 and E E 340.

E E 453. Microwave Engineering
3 Credits
Techniques for microwave measurements and communication system design, including transmissions lines, waveguides, and components. Microwave network analysis and active device design. Crosslisted with: E E 521.
Prerequisite(s): C- or better in E E 340.

E E 454. Antennas and Radiation
4 Credits (3+3P)
Prerequisite(s): C- or better in E E 340.

E E 458. Hardware Security and Trust
3 Credits
This course introduces and investigates recent technology development for the design and evaluation of secure and trustworthy hardware and embedded systems. Topics include IoT security, cryptography, hardware security primitives, authentication and key generation, invasive and non-invasive attacks and countermeasures, IC piracy and intellectual property protection, hardware trojans, and secure boot. Crosslisted with: E E 558.
Prerequisite(s): C- or better in E E 212.

E E 460. Space System Mission Design and Analysis
3 Credits
Satellite system design, including development, fabrication, launch, and operations. A systems engineering approach to concepts, methodologies, models, and tools for space systems.
Prerequisite: junior standing.

E E 461. Systems Engineering and Program Management
3 Credits
Modern technical management of complex systems using satellites as models. Team projects demonstrate systems engineering disciplines required to configure satellite components.
Prerequisite(s): Junior standing.

E E 462. Computer Systems Architecture
3 Credits
The course covers uniprocessors, caches, memory systems, virtual memory, storage systems, with introduction to multiprocessor and distributed computer architectures; models of parallel computation; processing element and interconnection network structures, and nontraditional architectures. Crosslisted with: E E 562.
Prerequisite(s): C- or better in E E 212.

E E 465. MACHINE LEARNING I
3 Credits
An undergraduate-level introduction to machine learning algorithms, including supervised and unsupervised learning methods. Topics covered include clustering, linear regression models, linear discriminant functions, feed-forward neural networks, statistical pattern classification and regression, maximum likelihood, naive Bayes, non-parametric density estimation, mixture models, decision trees, and ensemble learning. Crosslisted with: E E 565.
Prerequisite(s): E E 200.
E E 467. ARM SOC Design
3 Credits
The course aims to produce students who are capable of developing
ARM-based SoCs from high level functional specifications to design,
implementation and testing on real FPGA hardware using standard
hardware description and software programming languages. Crosslisted
with: E E 567.
Prerequisite(s): C- or better in E E 212 and E E 317.

E E 469. Communications Networks
3 Credits
Introduction to the design and performance analysis of communications
networks with major emphasis on the Internet and different types of
wireless networks. Covers network architectures, protocols, standards
and technologies; design and implementation of networks; networks
applications for data, audio and video; performance analysis. Crosslisted
with: E E 569.
Prerequisite(s): C- or better in E E 212 and E E 317.

E E 473. Introduction to Optics
3 Credits
The nature of light, geometrical optics, basic optical instruments, wave
optics, aberrations, polarization, and diffraction. Elements of optical
radiometry, lasers and fiber optics. Crosslisted with: PHYS 473.
Prerequisite(s): C- or better in PHYS 216G or PHYS 217.

E E 475. Automatic Control Systems
3 Credits
Mathematical modeling of physical control systems in form of differential
equations, transfer functions, and state-variables. System performance
indices of feedback control systems via classical frequency-domain
techniques and time-domain methods. Computer-aided solution of real-world
design problems.
Prerequisite(s): C- or better in E E 325.

E E 476. Computer Control Systems
3 Credits
Representation, analysis and design of discrete-time systems using time-
domain and z-domain techniques. Microprocessor control systems.
Prerequisite(s): C- or better in E E 325.

E E 478. Fundamentals of Photonics
4 Credits (3+3P)
Ray, wave and guided optics, lasers and thermal sources, radiometry,
photon detection and signal-to-noise ratio. Elements of photonic crystals,
polarization, acousto-optics, electro-optics, and optical nanostructures.
Crosslisted with: PHYS 478.
Prerequisite(s): PHYS 216G or PHYS 217.

E E 479. Lasers and Applications
4 Credits (3+3P)
Laser operating principles, characteristics, construction and applications.
Beam propagation in free space and fibers. Laser diode construction and
characteristics. Hands-on laboratory. Taught with E E 529. Crosslisted
with: PHYS 479.
Prerequisite(s): C- or better in E E 340 or in PHYS 461.

E E 480. Introduction to Analog and Digital VLSI
3 Credits
Introduction to analog and digital VLSI circuits implemented in CMOS
technology. Design of differential amplifiers, opamps, CMOS logic, flip-
strings, and adders. Introduction to VLSI fabrication process. Crosslisted
with: E E 510.
Prerequisite(s): C- or better in E E 212 and E E 317.

E E 482. Electronics II
3 Credits
Feedback analysis, application of operational amplifiers, introduction to
data converters, analog filters, and oscillator circuits.
Prerequisite(s): C- or better in E E 317.

E E 485. Analog VLSI Design
3 Credits (2+3P)
Analysis, design, simulation, layout and verification of CMOS
analog building blocks, including references, opamps, switches and
comparators. Teams implement a complex analog IC. Crosslisted with:
E E 523.
Prerequisite(s): C- or better in E E 320 and E E 480.

E E 490. Selected Topics
1-3 Credits
May be repeated for a maximum of 9 credits. Graduate students may not
use credits of E E 490 toward an M.S. or Ph.D. in electrical engineering.
Prerequisite: consent of instructor.

E E 493. Power Systems III
3 Credits
Analysis of a power system under abnormal operating conditions.
Topics include symmetrical three-phase faults, theory of symmetrical
components, unsymmetrical faults, system protection, and power system
stability. Taught with E E 543.
Prerequisite(s)/Corequisite(s): E E 431. Prerequisite(s): C- or better in
E E 333 or E E 391.

E E 496. Introduction to Communication Systems
3 Credits
Introduction to the analysis of signals in the frequency and time domains.
A study of baseband digital transmission systems and digital/analog
RF transmission systems. Introduction to telecom systems as well as
satellite systems.
Prerequisite(s): C- or better in E E 325.

E E 497. Digital Communication Systems I
3 Credits
Techniques for transmitting digital data over commercial networks.
Topics include baseband and bandpass data transmission and
synchronization techniques. Recommended foundation: E E 496.
Crosslisted with: E E 581.
Prerequisite(s): C- or better in E E 200 and E E 325.

E E 501. Research Topics in Electrical and Computer Engineering
1 Credit
Ethics and methods of engineering research; contemporary research
topics in electrical and computer engineering.

E E 510. Introduction to Analog and Digital VLSI
3 Credits
Introduction to analog and digital VLSI circuits implemented in CMOS
technology. Design of differential amplifiers, opamps, CMOS logic, flip-

E E 512. ASIC Design
3 Credits
This course provides students with experiential knowledge of modern
application specific integrated circuits. Topics include ASIC packaging
and testing, I/O pads and ESD, Verilog programming and simulation,
FPGA verification, Register-transfer level synthesis, timing and area
optimization, floorplanning and routing, digital interfaces, full custom and
standard cell design, post-layout simulation, and PCB schematics and
E E 514. Biosensor Electronics
3 Credits
Course provides students with knowledge of basic integrated analog and RF blocks and how to combine these circuits into sensory systems for biomedical applications. Target areas are in physiology, brain-machine interfaces, neural recording and stimulation. Lecture includes details on amplifiers, current-mode circuits, A/D converters, low-power radio transmitters and receivers, and simulation and layout of VLSI circuits. Lectures are in the form of recent paper reviews and discussion. Includes teamwork, written and oral communication, and realistic technical requirements. Recommended foundation: E E 480 and E E 485.

E E 515. Electromagnetic Theory I
3 Credits

E E 516. Electromagnetic Theory II
3 Credits
Continuation of E E 515.

E E 518. Integrated Power Management Circuits
3 Credits
Design and analysis of power management integrated circuits, including linear voltage regulators, voltage references, buck, boost, and buck-boost DC-DC converters, and charge pumps. Extensive use of CAD tools are used to simulate these circuits. Recommended foundation: E E 480 and E E 485.

E E 519. RF Microelectronics
3 Credits

E E 520. A/D and D/A Converter Design
3 Credits
Practical design of integrated data converters in CMOS/BJT technologies, OP-AMPS, comparators, sample and holds, MOS switches, element mismatches. Nyquist rate converter architectures: flash, successive approximation, charge redistribution, algorithmic, two step, folding, interpolating, pipelined, delta-sigma converters. Restricted to: Main campus only. Prerequisite(s): E E 523.

E E 521. Microwave Engineering
3 Credits
Techniques for microwave measurements and communication system design, including transmission lines, waveguides, and components. Microwave network analysis and active device design. Recommended foundation: E E 340. Crosslisted with: E E 453.

E E 522. Advanced Analog VLSI Design
3 Credits
Design of high-performance operational amplifiers; class-AB, rail-to-rail, low-voltage, high-bandwidth, fully-differential. Design of linear operational transconductance amplifiers, high-frequency integrated filters, four-quadrant multipliers, and switched-capacitor circuits. Prerequisite(s): E E 523.

E E 523. Analog VLSI Design
3 Credits (2+3P)
Analysis, design, simulation, layout and verification of CMOS analog building blocks, including references, opamps, switches and comparators. Teams implement a complex analog IC. Recommended foundation: E E 320 and E E 480. Crosslisted with: E E 485.

E E 525. Introduction to Semiconductor Devices
3 Credits

E E 528. Fundamentals of Photonics
4 Credits (3+3P)
Ray, wave and guided optics, lasers and thermal sources, radiometry, photon detection and signal-to-noise ratio. Elements of photonic crystals, polarization, acousto-optics, electro-optics, and optical nanostructures. Taught with E E 478 with differentiated assignments for graduate students. Recommended foundation: (PHYS 216 or PHYS 217) and E E/PHYS 473. Crosslisted with: PHYS 528.

E E 529. Lasers and Applications
4 Credits (3+3P)

E E 532. Dynamics of Power Systems
3 Credits
Transient and dynamic stability of power systems; synchronous machine modeling and dynamics; prediction and stabilization of system oscillations. Recommended foundation: E E 493.

E E 533. Power System Operation
3 Credits
AGC, economic dispatch, unit commitment, operations planning, power flow analysis and network control, system control centers. Recommended foundation: E E 493.

E E 534. Power System Relaying
3 Credits

E E 537. Power Electronics
3 Credits (2+3P)
Basic principles of power electronics and its applications to power supplies, electric machine control, and power systems. Recommended foundation: E E 325, E E 317, and E E 333. Crosslisted with: E E 432.

E E 541. Antennas and Radiation
4 Credits (3+3P)
E E 542. Power Systems II
3 Credits

E E 543. Power Systems III
3 Credits
Analysis of a power system under abnormal operating conditions. Topics include symmetrical three-phase faults, theory of symmetrical components, unsymmetrical faults, system protection, and power system stability. Recommended foundation: E E 431. Crosslisted with: E E 493.

E E 544. Distribution Systems
3 Credits
Concepts and techniques associated with the design and operation of electrical distribution systems. Recommended foundation: E E 542 and E E 543.

E E 545. Digital Signal Processing II
3 Credits
Non-ideal sampling and reconstruction, oversampling and noise shaping in A/D and D/A, finite word length effects, random signals, spectral analysis, multirate filter banks and wavelets, and applications. Recommended foundation: E E 395.

E E 546. Introduction to Smart Grid
3 Credits
The course will serve as an introduction to the technologies and design strategies associated with the Smart Grid. The emphasis will be on the development of communications, energy delivery, coordination mechanisms, and management tools to monitor transmission and distribution networks. Crosslisted with: E E 426 and C S 514.

E E 548. Introduction to Radar
3 Credits

E E 549. Smart Antennas
3 Credits

E E 551. Control System Synthesis I
3 Credits
An advanced perspective of linear modern control system analysis and design, including the essential algebraic, structural, and numerical properties of linear dynamical systems.

E E 558. Hardware Security and Trust
3 Credits
This course introduces and investigates recent technology development for the design and evaluation of secure and trustworthy hardware and embedded systems. Topics include IoT security, cryptography, hardware security primitives, authentication and key generation, invasive and non-invasive attacks and countermeasures, IC piracy and intellectual property protection, hardware trojans, and secure boot. Recommended foundation: E E 212. Crosslisted with: E E 458.

E E 562. Computer Systems Architecture
3 Credits
The course covers uniprocessors, caches, memory systems, virtual memory, storage systems, with introduction to multiprocessor and distributed computer architectures; models of parallel computation; processing element and interconnection network structures, and nontraditional architectures. Recommended foundation is E E 212. Crosslisted with: E E 462.

E E 563. Computer Performance Analysis I
3 Credits
Issues involved and techniques used to analyze performance of a computer system. Topics covered include computer system workloads; statistical analysis techniques such as principal component analysis, confidence interval, and linear regression; design and analysis of experiments; queuing system analysis; computer system simulation; and random number generation. Recommended foundation: E E 200 and E E 462.

E E 564. Advanced Computer Architecture I
3 Credits
Multiprocessor and distributed computer architectures; models of parallel computation; processing element and interconnection network structures, and nontraditional architectures. Recommended foundation: E E 462. Crosslisted with: C S 573.

E E 565. Machine Learning I
3 Credits
A graduate-level introduction to machine learning algorithms, including supervised and unsupervised learning methods. Topics covered include clustering, linear regression models, linear discriminant functions, feedforward neural networks, statistical pattern classification and regression, maximum likelihood, naive Bayes, non-parametric density estimation, mixture models, decision trees, and ensemble learning. Recommended foundation: E E 571 and MATH 480. Crosslisted with: E E 465.

E E 567. ARM SOC Design
3 Credits
The course aims to produce students who are capable of developing ARM-based SoCs from high level functional specifications to design, implementation and testing on real FPGA hardware using standard hardware description and software programming languages. Recommended foundation is E E 212 and E E 317. Crosslisted with: E E 467.

E E 569. Communications Network
3 Credits
Introduction to the design and performance analysis of communications networks with major emphasis on the Internet and different types of wireless networks. Covers network architectures, protocols, standards and technologies; design and implementation of networks; networks applications for data, audio and video; performance analysis. Recommended foundation: E E 100, E E 112 and (E E 200 or STAT 371). Crosslisted with: E E 469.
E E 571. Random Signal Analysis
3 Credits
Application of probability and random variables to problems in communication systems, analysis of random signal and noise in linear and nonlinear systems.

E E 572. Modern Coding Theory
3 Credits
Error control techniques for digital transmission and storage systems. Introduction to basic coding bounds, linear and cyclic block codes, Reed-Solomon codes, convolutional codes, maximum likelihood decoding, maximum a posteriori probability decoding, factor graphs, low density parity check codes, turbo codes, iterative decoding. Applications to data networks, space and satellite transmission, and data modems. Recommended foundation: E E 200 and E E 496.

E E 573. Signal Compression
3 Credits
Fundamentals of information source encoding and decoding. Includes information theory bounds on source coding, lossless coding algorithms, scalar quantizing and vector quantizing.
Prerequisite: E E 571.

E E 575. Machine Learning II
3 Credits
An advanced treatment of machine learning algorithms, including supervised, unsupervised, and reinforcement learning methods. Topics covered include kernel methods, maximum margin classification, support vector machines, generative topographic maps, diffusion maps, Boltzmann machines, deep belief networks, Markov chains, and hidden Markov models.
Prerequisite(s): E E 565.

E E 577. Fourier Methods in Electro-Optics
3 Credits
Linear systems theory, convolution and Fourier transformation are applied to one-dimensional and two dimensional signals encountered in electro-optical systems. Applications in diffraction, coherent and incoherent imaging, and optical signal processing. Recommended foundation: E E 320 and E E 528. Crosslisted with: PHYS 577.

E E 578. Optical System Design
3 Credits
Optical design software is used to study optical systems involving lenses, mirrors, windows and relay optics. Systems considered include camera lenses, microscopes and telescopes. Recommended foundation: E E/PHYS 473, E E/PHYS 528 and E E/PHYS 577. Crosslisted with: PHYS 578.

E E 581. Digital Communication Systems I
3 Credits

E E 583. Wireless Communication
3 Credits
Cellular networks, wireless channels and channel models, modulation and demodulation, MIMO, diversity and multiplexing, OFDM, wireless standards including LTE and WiMAX. Recommended foundation: E E 571 and E E 325.

E E 584. Mathematical Methods for Communications and Signal Processing
3 Credits
Applications of mathematical techniques from estimation theory, optimization principles and numerical analysis to the problems in communications and signal processing. Recommended foundation: MATH 480.
Prerequisite(s): E E 571.

E E 585. Telemetering Systems
3 Credits
Covers the integration of components into a command and telemetry system. Topics include analog and digital modulation formats, synchronization, link effects, and applicable standards. Recommended foundation: E E 395, E E 496, and E E 497.

E E 586. Information Theory
3 Credits
This class is a study of Shannon’s measure of information and discusses mutual information, entropy, and channel capacity, the noiseless source coding theorem, the noisy channel coding theorem, channel coding and random coding bounds, rate-distortion theory, and data compression. Restricted to: Main campus only. Crosslisted with: MATH 509
Prerequisite(s): E E 571 or STAT 515.

E E 588. Advanced Image Processing
3 Credits
Advanced topics in image processing including segmentation, feature extraction, object recognition, image understanding, big data, and applications. Crosslisted with: E E 444.
Prerequisite(s): E E 446 or E E 596.

E E 590. Selected Topics
1-9 Credits
May be repeated for a maximum of 18 credits.

E E 593. Mobile Application Development
3 Credits
Introduction to mobile application development. Students will develop applications for iOS devices including iPhone and iPad. Topics include object-oriented programming using Swift, model-view-controller (MVC) pattern, view controllers including tables and navigation, graphical user interface (GUI) design, data persistence, GPS and mapping, camera, and cloud and web services. Recommended foundation: C S 451 or C S 452. Crosslisted with: E E 443.

E E 596. Digital Image Processing
3 Credits

E E 597. Neural Signal Processing
3 Credits
Cross-disciplinary course focused on the acquisition and processing of neural signals. Students in this class will be learn about basic brain structure, different brain signal acquisition techniques (fMRI, EEG, MEG, etc.), neural modeling, and EEG signal processing. To perform EEG signal processing, students will learn and use Matlab along with an EEG analysis package. Crosslisted with: E E 447.
**E E 598. Master’s Technical Report**  
*1-9 Credits (1-9)*  
Individual investigation, either analytical or experimental, culminating in a technical report. May be repeated for a maximum of 18 credits. Graded PR/S/U. May be repeated up to 18 credits. Thesis/Dissertation Grading.

**E E 599. Master’s Thesis**  
*1-15 Credits (1-15)*  

**E E 600. Doctoral Research**  
*1-15 Credits*  
Research.

**E E 615. Computational Electromagnetics**  
*3 Credits*  
The numerical solution of electromagnetics problems. Topics include differential equation techniques, integral equation methods, hybrid techniques, algorithm development and implementation, and error analysis. Particular algorithms, including FEM, finite differences, direct solvers, and iterative solvers, are studied.

**Prerequisite(s):** E E 575.

**E E 675. Machine Learning III**  
*3 Credits*  
A research-oriented treatment of machine learning algorithms, including supervised, unsupervised, and reinforcement learning methods. Topics covered include Markov decision processes, deep reinforcement learning, neural logic networks, genetic algorithms, genetic programs, generative adversarial networks, and adaptive resonance theory models.

**Prerequisite(s):** E E 575.

**E E 690. Selected Topics**  
*1-9 Credits*  
May be repeated for a maximum of 9 credits.

**E E 700. Doctoral Dissertation**  
*1-15 Credits (1-15)*  

**Electrical Engineering Program Educational Objectives**  
Below are the program educational objectives (PEOs) that describe the expected accomplishments of graduate during their first few years after graduation.

1. Our graduates will obtain relevant, productive employment in the private sector, government and/or pursue an advanced degree.
2. Our graduates will be using their engineering foundation to innovate solutions to the problems of the real world.

**Requirements (121 credits)**

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 121 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

### Electrical and Computer Engineering

**Electrical Engineering - Bachelor of Science in Electrical Engineering**

**Overview**

The Bachelor of Science in Electrical Engineering (BSEE) program of the Klipsch School is accredited by the Engineering Accreditation Commission of ABET, Inc. This particular option of the BSEE program has "no concentration," giving students the greatest flexibility in course selection.

**Name:** The Klipsch School of Electrical and Computer Engineering  
**Office Location:** Thomas and Brown Hall, Rm 106  
1125 Frenger Mall  
Las Cruces, NM 88003  
**Phone:** (575) 646-3115  
**Website:** [http://ece.nmsu.edu/](http://ece.nmsu.edu/)
E E 100 Introduction to Electrical and Computer Engineering 4
E E 112 Embedded Systems 4
E E 212 Introduction to Computer Organization 4
E E 230 Circuit Analysis and Introduction to Electronics 4
E E 300 Cornerstone Design 2
E E 317 Semiconductor Devices and Electronics I 4
E E 320 Signals and Systems I 3
E E 325 Signals and Systems II 4
E E 333 AC Circuit Analysis and Introduction to Power Systems 3

E E 404 Capstone Design II or ENGR 402 Engineering Capstone II 3

E E Concentration Courses 3
Choose three courses, from three of the five different concentrations, from the following: 9-10
Communications & Signal Processing:
- E E 395 Introduction to Digital Signal Processing
- or E E 496 Introduction to Communication Systems
Computers & Microelectronics:
- E E 462 Computer Systems Architecture
- or E E 480 Introduction to Analog and Digital VLSI
Control & Power:
- E E 431 Power Systems II
- or E E 493 Power Systems III
Electromagnetics & Photonics:
- E E 473 Introduction to Optics
- or E E 454 Antennas and Radiation
Space Systems:
- E E 460 Space System Mission Design and Analysis

Non-Departmental Requirements (in addition to Gen.Ed/ VWW)
Object-Oriented Programming
Select one course from the following (3 or 4 cr): 3-4
- C S 151 C++ Programming
- C S 152 Java Programming
- C S 154 Python Programming II
- C S 172 Computer Science I
- C S 271 Object Oriented Programming

Second Language: (not required)
Electives, to bring the total credits to 120 0

Total Credits 121-123

1 See the General Education (p. 49) section of the catalog for a full list of courses.

2 MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G Calculus and Analytic Geometry I first.

3 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.

4 STEM Elective: Course at the 300 level or above from E E that is not used to satisfy any other E E program requirement or courses at the 300 level or above from A E, C E, CHME, I E, M E, ASTR, BIOL, CHEM, C S, MATH, PHYS and STAT. Excluded courses include VWW courses and those which are substantially equivalent to an E E course. Click to view a list of excluded STEM Electives.

A Suggested Plan of Study for Students
This roadmap assumes student placement in MATH 191G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

 General Education Requirement (Area I, IV, V, VI or VWW) 2 3
 Credits 15-16

 Spring
 E 404 or ENGR 402 Capstone Design II or Engineering Capstone II 3
 Choose one Object-Oriented Programming course from the following: 3-4
 C S 151 C++ Programming
 C S 152 Java Programming
 C S 154 Python Programming II
 C S 172 Computer Science I
 C S 271 Object Oriented Programming
 STEM Elective 4 3

 STEM Elective 4 3

 Credits 15-16

 Total Credits 121-123

1 MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G first.
2 See the required courses (p. 49) section of the catalog for a full list of courses.
3 Students must choose one course from three different concentration areas:
   • Communications & Signal Processing: E E 395 or E E 496
   • Computers & Microelectronics: E E 462 or E E 480
   • Control & Power: E E 431 or E E 493
   • Electromagnetics & Photonics: E E 454 or E E 473
4 STEM Elective: Course at the 300 level or above from E E that is not used to satisfy any other E E program requirement or courses at the 300 level or above from A E, C E, CHME, I E, M E, ASTR, BIOL, CHEM, C S, MATH, PHYS and STAT. Excluded courses include VWW courses and those which are substantially equivalent to an E E course. Click to view a list of excluded STEM Electives.

Electrical Engineering (Communications and Signal Processing) - Bachelor of Science in Electrical Engineering

Overview
The Bachelor of Science in Electrical Engineering (BSEE) program of the Klipsch School is accredited by the Engineering Accreditation Commission of ABET, Inc. This particular concentration in the BSEE program gives students the opportunity to explore more deeply the area of communications and signal processing.

Electrical Engineering Program Educational Objectives
Below are the program educational objectives (PEOs) that describe the expected accomplishments of graduate during their first few years after graduation.

1. Our graduates will obtain relevant, productive employment in the private sector, government and/or pursue an advanced degree.
2. Our graduates will be using their engineering foundation to innovate solutions to the problems of the real world.

Requirements (121 credits)
Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 121 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

**Electives, to bring the total credits to 120**

**Total Credits**

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G Calculus and Analytic Geometry I first.
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4. STEM Elective: Course at the 300 level or above from E E that is not used to satisfy any other E E program requirement or courses at the 300 level or above from A E, C E, CHME, I E, M E, ASTR, BIOL, CHEM, C S, MATH, PHYS and STAT. Excluded courses include VWW courses and those which are substantially equivalent to an E E course. Click to view a list of excluded STEM Electives.
# A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 191G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and english. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

1. MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G first.
2. See the required courses (p. 49) section of the catalog for a full list of courses.
4. One Communications & Signal Processing Elective Courses must be from the E E Prefix. Communications & Signal Processing Elective Courses:
   - MATH 471 Complex Variables, MATH 472 Fourier Series and Boundary Value Problems, MATH 473 Calculus of Variations and Optimal Control, MATH 480 Matrix Theory and Applied Linear Algebra, MATH 481 Advanced Linear Algebra, MATH 491 Introduction to Real Analysis I
   - STAT 470 Probability: Theory and Applications
Electrical Engineering (Computers and Microelectronics) - Bachelor of Science in Electrical Engineering

Overview
The Bachelor of Science in Electrical Engineering (BSEE) program of the Klipsch School is accredited by the Engineering Accreditation Commission of ABET, Inc. This particular concentration in the BSEE program gives students the opportunity to explore more deeply the area of computers and microelectronics.

Electrical Engineering Program Educational Objectives
Below are the program educational objectives (PEOs) that describe the expected accomplishments of graduates during their first few years after graduation.

1. Our graduates will obtain relevant, productive employment in the private sector, government and/or pursue an advanced degree.
2. Our graduates will be using their engineering foundation to innovate solutions to the problems of the real world.

Requirements (121 credits)
Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 121 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Prefix | Title | Credits
--- | --- | ---
**General Education**

Area I: Communications

| ENGL 111G | Rhetoric and Composition | 4 |

Area II: Mathematics

| MATH 191G | Calculus and Analytic Geometry I | 4 |

Area III/IV: Laboratory Sciences and Social/Behavioral Sciences

| CHEM 111G | General Chemistry I | 4 |
| PHYS 215G | Engineering Physics I | 4 |
| PHYS 215GL | and Engineering Physics I Laboratory | 1 |
| Area IV: Social/Behavioral Sciences (3 credits) | 3 |

Area V: Humanities

| Area VI: Creative and Fine Arts | 3 |
| General Education Elective | 3 |

| MATH 192G | Calculus and Analytic Geometry II | 4 |

Viewing A Wider World Electives (PHIL 323V strongly recommended) | 6 |

Departmental/College Requirements

Program Specific Requirements

Mathematics and Natural Science

| MATH 392 | Introduction to Ordinary Differential Equations | 3 |
| PHYS 216G | Engineering Physics II | 3 |
| PHYS 216GL | Engineering Physics II Laboratory | 1 |
| E 200 | Linear Algebra, Probability and Statistics Applications | 4 |
| E 240 | Multivariate and Vector Calculus Applications | 3 |

**STEM**

Choose two STEM electives | 6 |

Electrical and Computer Engineering

| ENGR 100 | Introduction to Engineering (or choose third STEM Elective) | 3 |

**E E Concentration Required Courses**

| E 212 | Introduction to Computer Organization | 4 |
| E 230 | Circuit Analysis and Introduction to Electronics | 4 |
| E 300 | Cornerstone Design | 2 |
| E 317 | Semiconductor Devices and Electronics I | 4 |
| E 320 | Signals and Systems I | 3 |
| E 325 | Signals and Systems II | 4 |
| E 333 | AC Circuit Analysis and Introduction to Power Systems | 3 |
| E 340 | Fields and Waves | 4 |
| E 402 | Capstone Design I | 3 |
| E 404 | Capstone Design II | 3 |
| ENGR 401 | Engineering Capstone I | 3 |
| ENGR 402 | Engineering Capstone II | 3 |

**E E Concentration Electives:** Choose two courses from the following (one must be an E E course): 6-7

| E 412 | ASIC Design | 3 |
| E 425 | Introduction to Semiconductor Devices | 3 |
| E 432 | Power Electronics | 3 |
| E 443 | Mobile Application Development | 3 |
| E 458 | Hardware Security and Trust | 3 |
| E 467 | ARM SOC Design | 3 |
| E 469 | Communications Networks | 3 |
| E 482 | Electronics II | 3 |
| E 485 | Analog VLSI Design | 3 |
| CHME 467 | Nanoscience and Nanotechnology | 3 |
| C S 343 | Algorithm Design & Implementation | 3 |
| C S 370 | Compilers and Automata Theory | 3 |
| C S 371 | Software Development | 3 |
| C S 372 | Data Structures and Algorithms | 3 |
C S 453  Python Programming I
C S 474  Operating Systems I
C S 478  Computer Security
C S 480  Linux System Administration
C S 481  Visual Programming
C S 482  Database Management Systems I
C S 491  Parallel Programming

Non-Departmental Requirements (in addition to Gen.Ed/ VWW)

Object-Oriented Programming
Select one course from the following:  3-4
  C S 151  C++ Programming
  C S 152  Java Programming
  C S 154  Python Programming II
  C S 172  Computer Science I
  C S 271  Object Oriented Programming

Second Language: (not required)
Elective, to bring the total credits to 120  0

Total Credits  121-123

1 See the General Education (p. 49) section of the catalog for a full list of courses.
2 MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G Calculus and Analytic Geometry I first.
3 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4 STEM Elective: Course at the 300 level or above from E E that is not used to satisfy any other E E program requirement or courses at the 300 level or above from A E, C E, CHME, I E, M E, ASTR, BIOL, CHEM, C S, MATH, PHYS and STAT. Excluded courses include VWW courses and those which are substantially equivalent to an E E course. Click to view a list of excluded STEM Electives.

### Electives, to bring the total credits to 120

**Total Credits**

**122-124**

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G Calculus and Analytic Geometry I first.
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4. STEM Elective: Course at the 300 level or above from E E that is not used to satisfy any other E E program requirement or courses at the 300 level or above from A E, C E, CHME, I E, M E, ASTR, BIOL, CHEM, C S, MATH, PHYS and STAT. Excluded courses include VWW courses and those which are substantially equivalent to an E E course. Click to view a list of excluded STEM Electives.

### A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 191G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and english. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

1. MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G first.
2. See the required courses (p. 49) section of the catalog for a full list of courses.
3. Students must take both E E 454 Antennas and Radiation and E E 473 Introduction to Optics
4. One Electromagnetics & Photonics Elective Courses must be from the E E Prefix. Electromagnetics & Photonics Elective Courses:
   - ASTR 402 Introduction to Astronomical Observations and Techniques
   - E E 425 Introduction to Seminar Devices, E E 449 Smart Antennas, E E 452 Introduction to Radar, E E 453 Microwave Engineering, E E 478 Fundamentals of Photonics, E E 479 Lasers and Applications
   - CHME 311 Engineering Data Analysis, CHME 467 Nanoscience and Nanotechnology
   - M E 328 Engineering Analysis II
   - MATH 315 Complex Variables, MATH 472 Fourier Series and Boundary Value Problems, MATH 490 Matrix Theory and Applied Linear Algebra
   - PHYS 315 Modern Physics, PHYS 471 Modern Experimental Optics
5. STEM Elective: Course at the 300 level or above from E E that is not used to satisfy any other E E program requirement or courses at the 300 level or above from A E, C E, CHME, I E, M E, ASTR, BIOL, CHEM, C S, MATH, PHYS and STAT. Excluded courses include VWW courses and those which are substantially equivalent to an E E course. Click to view a list of excluded STEM Electives.

Overview
The Bachelor of Science in Electrical Engineering (BSEE) program of the Klipsch School is accredited by the Engineering Accreditation Commission of ABET, Inc. This particular concentration in the BSEE program gives students the opportunity to explore more deeply the area of space systems.

Electrical Engineering Program Educational Objectives
Below are the program educational objectives (PEOs) that describe the expected accomplishments of graduate during their first few years after graduation.

1. Our graduates will obtain relevant, productive employment in the private sector, government and/or pursue an advanced degree.
2. Our graduates will be using their engineering foundation to innovate solutions to the problems of the real world.

Requirements (121 credits)
Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 121 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Prefix | Title | Credits
---|---|---
**General Education** | | |
**State of New Mexico Common Core** | | |
**Area I: Communications** | | |
**English Composition - Level I** | | 4 |
**ENGL 111G Rhetoric and Composition** | | 3 |
**English Composition - Level 2** | | 3 |
**Oral Communication** | | 3 |
**Area II: Mathematics** | | 4 |

**Requirements and Options for M.E.E.E. Degree**

The Program Educational Objectives for the Master of Engineering Program in Electrical Engineering are:

1. That graduates successfully apply advanced skills and techniques in one or more areas of emphasis.
2. That graduates obtain relevant, productive employment with the private sector or in government and/or pursue additional advanced degrees.

The M.E.E.E. is a coursework-only option for obtaining a master's degree. The requirement is a total of 30 credits of graduate course work, including passing with a grade of B- or better three Graduate Core Courses (or two Graduate Core Courses and one Graduate Breadth Elective) from three different areas of specialization. No oral exam is required for the MEEE.

Credits of E E 590 Selected Topics are limited to a total of 6. Other limitations and requirements that apply to all master's degrees are described elsewhere in this catalog.

**Graduate Core Courses and Breadth Electives**

The MEEE program requires students to take two graduate core courses from two different areas of emphasis. In addition, either a third graduate core course OR one graduate breadth elective must be taken from a third area of emphasis. If a student wishes to pursue a Ph.D., the third class should come from the core class list as preparation for the Ph.D. qualifying exam. The graduate core courses, specialty areas and credits are listed below for the Graduate Core Courses and the Graduate Breadth Electives.

**Graduate Core Courses**

### Electrical Engineering - Master of Science in Electrical Engineering

**M.S.E.E. Degree Options**

The Program Educational Objectives for the Master of Science Program in Electrical Engineering are:

1. That graduates successfully apply advanced skills and techniques in one or more areas of emphasis.
2. That graduates obtain relevant, productive employment with the private sector or in government and/or pursue additional advanced degrees.

Two options exist for the Master of Science in Electrical Engineering degree. The requirements for each option are listed below:

1. **Thesis Option:**
   - 24 credits of course work plus 6 credits of E E 599 Master's Thesis plus oral exam
   - 1 semester of research seminars (E E 501 Research Topics in Electrical and Computer Engineering, 1 credit)

   Note that credits of E E 590 Selected Topics are limited to a total of 9, of which at most 6 may be credits for courses that don't appear as regular classes in the printed schedule. In addition, each area of emphasis may have additional requirements for students in those areas. Other limitations and requirements that apply to all master's degrees are described elsewhere in this catalog.
**Technical Report Option:**

The Master of Science in Electrical Engineering Technical Report Option requires:

1. 27 credits of course work plus 3 credits of E E 598 Master's Technical Report plus oral exam
2. Two graduate core courses and a third breadth elective (or third core course) from three different areas of emphasis
3. One semester of research seminars (E E 501 Research Topics in Electrical and Computer Engineering, 1 credit)

Note that credits of E E 590 Selected Topics are limited to a total of 9, of which at most 6 may be credits for courses that don’t appear as regular classes in the printed schedule. In addition, each area of emphasis may have additional requirements for students in those areas. Other limitations and requirements that apply to all master’s degrees are described elsewhere in this catalog.

**Graduate Core Courses and Breadth Electives**

The MSEE program requires students to take two graduate core courses from two different areas of emphasis. In addition, either a third graduate core course OR one graduate breadth elective must be taken from a third area of emphasis. If a student wishes to pursue a Ph.D., the third class should come from the core class list as preparation for the Ph.D. qualifying exam. The graduate core courses, specialty areas and credits are listed below for the Graduate Core Courses and the Graduate Breadth Electives.

Electrical Engineering - Doctor of Philosophy

Requirements for Ph.D. Degree

The Program Educational Objectives for the Doctorate in Electrical Engineering are:

1. That graduates obtain relevant, productive employment performing research in academia, government or industry, and/or are teaching at institutions of higher education.
2. That graduates obtain relevant, productive employment with the private sector or in government and/or pursue additional advanced degrees.

The Ph.D. program is open to students with a master’s degree. Exceptionally well qualified students may petition for direct entry to the Ph.D. program without first obtaining a master’s degree.

Option 1 - Ph.D. with Completed MS Degree

1. Complete undergraduate deficiency coursework, if the student admitted has both master’s and bachelor’s degrees in fields other than electrical engineering. Complete graduate deficiency coursework, which consists of three graduate core courses from three different areas of emphasis, if the student has a master’s degree in a field other than electrical engineering.
2. Complete a minimum of 18 credits beyond the master’s of graduate coursework with the following restrictions:
   a. E E courses must be numbered 500 or higher. Non-E E courses must be 450 or higher.
   b. At least half of the 18 credits must be taken in the Klipsch School (E E).
   c. At most 6 credits may be research, for example, E E 600 Doctoral Research, and E E 590 Selected Topics courses that are not listed as regular courses in the schedule.
   e. If the MS degree is not E E, exclude credits from graduate deficiency coursework.

Option 2 - Direct Ph.D. with BSEE or Equivalent, but no MS Degree

1. Complete three graduate core courses.
2. Complete a minimum of 42 credits of graduate coursework, including the three graduate core courses with the following restrictions:
   a. At least half of the 42 credits must be numbered 500 or higher.
   b. At least half of the 42 credits must be taken in the Klipsch School (E E).
   c. At most 9 credits may be research, for example, E E 600 Doctoral Research, and E E 590 Selected Topics courses that are not listed as regular courses in the schedule.
   e. Courses excluded from the MSEE are also excluded from the Ph.D. program.
   f. At least half of the credits must be taken with other than a single professor.

Common Requirements for all Ph.D. Candidates

1. Participate in one semester of research seminars (E E 501 Research Topics in Electrical and Computer Engineering, 1 credits)
2. Take and pass the Ph.D. qualifying exam.
3. Pass a comprehensive examination. The examination must be part written and part oral. The specific format of the exam is at the discretion of the examination committee. It may cover course work, include a proposal for dissertation research, and may be preceded by a written exam.
5. Submit evidence for a minimum of two publications related to the dissertation research, one of which is submitted to an internationally-recognized journal, such as IEEE Transactions, and the second of which may be with a professional conference, such as an IEEE conference. Submissions must be completed prior to the final oral exam.
6. Pass a final oral exam which defends the dissertation.

Other limitations and requirements that apply to all Ph.D. degrees are described elsewhere in this catalog.

Ph.D. Qualifying Exam

The Ph.D. Qualifying Exam is typically offered on the Monday just prior to the beginning of each semester. The format is one half day written exam. The examination indicates a readiness for research at the graduate level. Students answer a total of six questions with two coming from each of three areas of emphasis. Taking three graduate core courses (listed listed in the MSEE program) prepares students for the Ph.D. qualifying exam.

PhD candidates in the College of Engineering, who have successfully completed their PhD Qualifier Examination after January 1, 2018, must satisfy a publication requirement which requires two papers:

Paper #1: An archival paper accepted or published in any journal listed in the source publication list for the Web of Science, or a refereed Journal or Conference Proceeding approved by the student’s doctoral committee and the cognizant Department Head(s), before the Doctorate of Philosophy final examination. The candidate should be listed as the lead author in Paper #1.

Paper #2: An additional archival paper submitted, accepted, or published in any journal listed in the source publication list for the Web of Science. Alternatively, one conference paper accepted or published in a national or international conference proceedings.

Digital Communications - Graduate Certificate
Digital Communications focuses on the problem of transmitting information from one place to another through some medium (e.g., RF wireless). This certificate introduces students to the basic theory as well as the application of that theory.

A 3.0 minimum cumulative GPA in four courses (12 credits) as described below will be required for award of this certificate. Dr. Deva Borah, International Foundation of Telemetering and Telecommunications Professor and Professor of the Klipsch School of Electrical and Computer Engineering, (575) 646-3357.

Important information about the educational debt, earnings, and completion rates of students who attend this program can be found on the following: Gainful Employment Disclosure.

Prefix | Title | Credits |
--- | --- | --- |
**Required Courses** | | 6 |
E E 571 | Random Signal Analysis | 
E E 581 | Digital Communication Systems I |

**Electives (six credits from the following):** | | 6 |
E E 545 | Digital Signal Processing II | 
E E 569 | Communications Network |
E E 572 | Modern Coding Theory | 
E E 573 | Signal Compression |
E E 583 | Wireless Communication |
E E 584 | Mathematical Methods for Communications and Signal Processing |
E E 586 | Information Theory |

Total Credits | 12 |

Digital Signal Processing - Graduate Certificate

Digital Signal Processing (DSP) focuses on the processing and analysis of digitized signals. This certificate introduces students to the basic theory as well as the application of that theory.

A 3.0 minimum cumulative GPA in four courses (12 credits) as described below will be required for award of this certificate. Dr. Charles Creusere, Frank Carden Chair in Telecommunications and Telemetering and Professor of the Klipsch School of Electrical & Computer Engineering, (575) 646-3919.

Important information about the educational debt, earnings, and completion rates of students who attend this program can be found on the following: Gainful Employment Disclosure.

Prefix | Title | Credits |
--- | --- | --- |
**Required Courses** | | 6 |
E E 545 | Digital Signal Processing II | 
E E 571 | Random Signal Analysis |

**Electives (six credits from the following):** | | 6 |
E E 545 | Digital Signal Processing II | 
E E 565 | Machine Learning I |
E E 573 | Signal Compression |
E E 575 | Machine Learning II |
E E 584 | Mathematical Methods for Communications and Signal Processing |
E E 588 | Advanced Image Processing |

Total Credits | 12 |

Electric Energy Systems - Graduate Certificate

Electric Energy Systems in recent times has started to develop a cross-disciplinary aspect due to developments and investments in the area of renewables and smart electric grid. This trend is only likely to intensify over the years. Thus, addition to the engineers already working in the area of electric energy systems, engineers from other areas in electrical and computer engineering may feel the need to develop core knowledge in the area of Electric Energy Systems. This program provides such opportunity.

A 3.0 minimum GPA in four courses (12 credits) as described below will be required for award of this certificate. Dr. Sukumar Brahma, Associate Director of the Electric Utility Management Program and Associate Professor of the Klipsch School of Electrical and Computer Engineering, (575) 646-7117.

Important information about the educational debt, earnings, and completion rates of students who attend this program can be found on the following: Gainful Employment Disclosure.

Prefix | Title | Credits |
--- | --- | --- |
**Required Courses** | | 6 |
E E 542 | Power Systems II | 
E E 543 | Power Systems III |

**Electives (six credits from the following):** | | 6 |
E E 532 | Dynamics of Power Systems | 
E E 533 | Power System Operation |
E E 534 | Power System Relaying |
E E 537 | Power Electronics |
E E 544 | Distribution Systems |
E E 546 | Introduction to Smart Grid |

Total Credits | 12 |

Telemetry - Graduate Certificate

Telemetering is an applied discipline that uses concepts from communications, DSP, and computing to facilitate the transfer of sensed/measured data from one place to another over a typically wireless channel. This certificate introduces students to the basic theory as well as the application of that theory.

A 3.0 minimum cumulative GPA in four courses (12 credits) as described below will be required for award of this certificate. Dr. Charles Creusere, Frank Carden Chair in Telecommunications and Telemetering and Professor of the Klipsch School of Electrical & Computer Engineering, (575) 646-3919.

Important information about the educational debt, earnings, and completion rates of students who attend this program can be found on the following: Gainful Employment Disclosure.

Prefix | Title | Credits |
--- | --- | --- |
**Required Courses** | | 6 |
E E 545 | Digital Signal Processing II |
Electives (six credits from the following): 6

- E E 569 Communications Network
- E E 571 Random Signal Analysis
- E E 572 Modern Coding Theory
- E E 573 Signal Compression
- E E 581 Digital Communication Systems I
- E E 583 Wireless Communication

Total Credits 12

**Engineering Physics**

**Undergraduate Program Information**

The Engineering Physics program is offered jointly by the Department of Physics and the College of Engineering. The faculty is drawn from the Departments of Physics, Chemical and Materials Engineering, Electrical and Computer Engineering, and Mechanical & Aerospace Engineering.

**Degrees for the Department**

Engineering Physics - Bachelor of Science in Engineering Physics (p. 785)

Professor, Stefan Zollner, Department Head

Professor, Heinz Nakotte, Engineering Physics Program Head

**Physics Courses**

**PHYS 110G. The Great Ideas of Physics**

4 Credits (3+3P)

Conceptual, quantitative, and laboratory treatments of the great ideas and discoveries that have influenced lives and changed perceptions of nature, from Johannes Kepler’s laws of planetary motion and Isaac Newton’s and Albert Einstein’s laws of motion and gravity to the modern concepts of the quantum structure of nature and the big bang universe.

**PHYS 210. Introductory Physics for the Health Sciences**

3 Credits

Algebra-level introduction to topics required for the Health Sciences including basic mechanics (including sound, mechanical waves and fluids), heat and thermodynamics, electricity and magnetism, optics and electromagnetic waves, atomic and nuclear physics and applications to medical imaging. Restricted to Community Colleges campuses only.

Prerequisite(s): MATH 120 or Equivalent.

**PHYS 211G. General Physics I**

3 Credits

Non-calculus treatment of mechanics, waves, sound, and heat. Knowledge of simple algebra and trigonometry is required.

**PHYS 211GL. General Physics I Laboratory**

1 Credit

Laboratory experiments in topics associated with material presented in PHYS 211G.

Prerequisite(s)/Corequisite(s): PHYS 211G.

**PHYS 212G. General Physics II**

3 Credits

Non-calculus treatment of electricity, magnetism, and light. May be repeated up to 3 credits.

Prerequisite(s): a C- or better in PHYS 211G or PHYS 212G.

**PHYS 212GL. General Physics II Laboratory**

1 Credit

Laboratory experiments in topics associated with material presented in PHYS 212G.

Prerequisite(s)/Corequisite(s): PHYS 212G.

**PHYS 203. Supplemental Instruction to PHYS 213**

0.5-1 Credits (.5-1)

Optional workshop as a supplement to PHYS 213. The tutorial sessions focus on reasoning and hands-on problem solving. May be repeated up to 1 credits.

Corequisite(s): PHYS 213.

**PHYS 204. Supplemental Instruction to PHYS 214**

0.5-1 Credits (.5-1)

Optional workshop as a supplement to PHYS 214. The tutorial sessions focus on reasoning and hands-on problem solving. May be repeated up to 1 credits.

Corequisite(s): PHYS 214.

**PHYS 205. Supplemental Instruction to PHYS 215G**

0.5-1 Credits (.5-1)

Optional workshop as a supplement to PHYS 215G. The tutorial sessions focus on reasoning and hands-on problem solving. May be repeated up to 1 credits.

Corequisite(s): PHYS 215G.

**PHYS 206. Supplemental Instruction to PHYS 216G**

0.5-1 Credits (.5-1)

Optional workshop as a supplement to PHYS 216G. The tutorial sessions focus on reasoning and hands-on problem solving. May be repeated up to 1 credits.

Corequisite(s): PHYS 216G.
PHYS 214. Electricity and Magnetism  
3 Credits  
Charges and matter, the electric field, Gauss law, the electric potential, the magnetic field, Ampere's law, Faraday's law, electric circuits, alternating currents, Maxwell's equations, and electromagnetic waves. May be repeated up to 3 credits.  
Prerequisite(s)/Corequisite(s): MATH 192G. Prerequisite(s): a C- or better in PHYS 213 or PHYS 215G, and MATH 191G.  

PHYS 214 L. Electricity and Magnetism Laboratory  
1 Credit  
Laboratory experiments associated with the material presented in PHYS 214.  
Prerequisite(s)/Corequisite(s): PHYS 214. Prerequisite(s): a C- or better in PHYS 213L or PHYS 215GL.  

PHYS 215G. Engineering Physics I  
3 Credits  
Calculus-level treatment of kinematics, work and energy, particle dynamics, conservation principles, simple harmonic motion. May be repeated up to 3 credits.  
Prerequisite(s): a C- or better in MATH 191G.  

PHYS 215GL. Engineering Physics I Laboratory  
1 Credit  
Laboratory experiments associated with the material presented in PHYS 215G. Students wishing to use the PHYS 215G-216G sequence to satisfy the basic natural science general education requirement must register for either PHYS 215GL or PHYS 216GL. Pre/ Corequisite(s): PHYS 215G.  

PHYS 216G. Engineering Physics II  
3 Credits  
A calculus-level treatment of topics in electricity, magnetism, and optics. May be repeated up to 3 credits.  
Prerequisite(s): a C- or better in PHYS 213 or PHYS 215G and MATH 192G.  

PHYS 216GL. Engineering Physics II Laboratory  
1 Credit  
Laboratory experiments associated with the material presented in PHYS 216G.  
Prerequisite(s)/Corequisite(s): PHYS 216G. Prerequisite(s): A C- or better in PHYS 213L or PHYS 215GL.  

PHYS 217. Heat, Light, and Sound  
3 Credits  
Calculus-level treatment of thermodynamics, geometrical and physical optics, and sound. May be repeated up to 3 credits.  
Prerequisite(s): a C- or better in PHYS 213 or PHYS 215G, and MATH 191G.  

PHYS 217 L. Experimental Heat, Light and Sound  
1 Credit  
Laboratory experiments associated with the material presented in PHYS 217. Science majors.  
Prerequisite(s)/Corequisite(s): PHYS 217. Prerequisite(s): a C- or better in PHYS 213L or PHYS 215GL.  

PHYS 218. Supplemental Instruction to PHYS 217  
0.5-1 Credits (.5-1)  
This optional workshop supplements PHYS 217 "Heat, Light, and Sound". Students actively apply concepts and methods introduced in PHYS 217 to problem solving and quantitative analysis. May be repeated up to 1 credits.  
Corequisite(s): PHYS 217.  

PHYS 221G. General Physics for Life Sciences I  
3 Credits  
This algebra-based introduction to general physics covers mechanics, waves, sound, and heat. Special emphasis is given to applications in the life sciences. This course is recommended for students in the life sciences and those preparing for the physics part of the MCAT.  
Prerequisites: a C or better in MATH 120 or higher.  

PHYS 221GL. Laboratory to General Physics for Life Science I  
1 Credit  
Laboratory experiments in topics associated with material presented in PHYS 221G.  
Prerequisite(s)/Corequisite(s): PHYS 221G. Restricted to Las Cruces campus only.  

PHYS 222G. General Physics for Life Sciences II  
3 Credits  
This algebra-based course covers electricity, magnetism, light, atomic physics, and radioactivity. Special emphasis is given to applications in the life sciences This course is recommended for students in the life sciences and those preparing for the physics part of the MCAT. May be repeated up to 3 credits.  
Prerequisite(s): a C- or better in PHYS 211G or PHYS 221G, and MATH 121G.  

PHYS 222GL. Laboratory to General Physics for Life Sciences II  
1 Credit  
Laboratory experiments in topics associated with material presented in PHYS 222G.  
Prerequisite(s)/Corequisite(s): PHYS 222G. Restricted to Las Cruces campus only.  

PHYS 223. Supplemental Instruction to PHYS 221  
1 Credit  
This optional workshop supplements Physics for Life Sciences I. The tutorial sessions focus on reasoning and hands-on problem solving.  
Corequisite(s): PHYS 221G.  

PHYS 224. Supplemental Instruction to PHYS 222  
1 Credit  
This optional workshop is a supplement to Physics for Life Science II. The tutorial sessions focus on reasoning and hands-on problem solving.  
Corequisite(s): PHYS 222G.  

PHYS 280. Independent Study  
1-3 Credits  
Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.  
Prerequisite: consent of instructor.  

PHYS 290. Special Topics  
1-3 Credits  
Topics to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.  

PHYS 303V. Energy and Society in the New Millennium  
3 Credits  
Traditional and alternative sources of energy. Contemporary areas of concern such as the state of depletion of fossil fuels; nuclear energy, solar energy, and other energy sources; environmental effects; nuclear weapons; and health effects of radiation. Discussion of physical principles and impact on society. Focus on scientific questions involved in making decisions in these areas. No physics background required.  

PHYS 304. Forensic Physics  
4 Credits (3+3P)  
Theories, laboratory, and field techniques in the area of forensic physics.
PHYS 305V. The Search for Water in the Solar System
3 Credits
Examines the formation, abundance and ubiquity of water in our Solar System stemming from comets, Martian and Lunar poles, Earth's interior and into the outer reaches of the Solar System. Topics will include nuclear synthesis, Solar System formation, remote sensing, as well as past, present and future NASA missions for water.

PHYS 315. Modern Physics
3 Credits
An introduction to relativity and quantum mechanics, with applications to atoms, molecules, solids, nuclei, and elementary particles. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in MATH 291G and PHYS 214 or PHYS 216G.

PHYS 315 L. Experimental Modern Physics
3 Credits (1+6P)
Elementary laboratory in modern physics which supports the subject matter in PHYS 315. Required for physics majors. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): PHYS 315. Prerequisite(s): a C- or better in PHYS 214L or 216GL.

PHYS 316. Supplemental Instructions to PHYS 315
1 Credit
This optional workshop supplements PHYS 315 "Modern Physics". Students actively apply concepts and methods introduced in PHYS 315 to problem solving and quantitative analysis.
Corequisite(s): PHYS 315.

PHYS 350. Special Topics
1-3 Credits
Lectures, demonstrations, and discussions on such topics as lasers and holography, energy sources, clouds, and biophysics. May be repeated for a maximum of 12 credits under different subtitles.

PHYS 380. Individual Study
1-3 Credits
Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

PHYS 395. Intermediate Mathematical Methods of Physics
3 Credits
Introduction to the mathematics used in intermediate-level physics courses. Topics include vector calculus, curvilinear coordinates, matrices, linear algebra, function spaces, partial differential equations, and special functions. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): PHYS 395. Prerequisite(s): a C- or better in MATH 291G.

PHYS 400. Undergraduate Research
1-3 Credits
May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

PHYS 420. Capstone Project I
3 Credits
Application of engineering physics principles to a significant design project. Includes teamwork, written and oral communication and realistic technical, economic and public safety requirements.

PHYS 421. Capstone Project II
3 Credits
Continuation of PHYS 420.

PHYS 450. Selected Topics
1-3 Credits
Readings, lectures or laboratory studies in selected areas of physics. May be repeated for a maximum of 12 credits.

PHYS 451. Intermediate Mechanics I
3 Credits
Introduction to quantum mechanics, focusing on the role of angular momentum and symmetries, with application to many atomic and subatomic systems. Specific topics include intrinsic spin, matrix representation of wave functions and observables, time evolution, and motion in one dimension. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): MATH 392. Prerequisite(s): a C- or better in PHYS 213 or PHYS 215G, and MATH 291G.

PHYS 454. Intermediate Modern Physics I
3 Credits
Continuation of subject matter of PHYS 454. Specific topics include rotation and translation in three dimensions, solution of central potential problems, perturbation theory, physics of identical particles, scattering theory, and the interaction between photons and atoms. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 454, MATH 392, and PHYS 395.

PHYS 455. Intermediate Modern Physics II
3 Credits
Continuation of subject matter of PHYS 455. Covered topics include vector calculus, Lagrangian and Hamiltonian formulations of Newtonian mechanics. Topics include central force motion, dynamics of rockets and space vehicles, rigid body motion, noninertial reference frames, oscillating systems, relativistic mechanics, classical scattering, and fluid mechanics. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): MATH 392 and PHYS 395. Prerequisite(s): a C- or better in PHYS 315.
PHYS 471. Modern Experimental Optics
3 Credits (1+6P)
Advanced laboratory experiments in optics related to the material presented in PHYS 473 and PHYS 489.
Prerequisite(s): a C- or better in PHYS 315 and PHYS 315 L.

PHYS 473. Introduction to Optics
4 Credits
The nature of light, Geometrical optics, basic optical instruments, wave optics, aberrations, polarization, and diffraction. Elements of optical radiometry, lasers and fiber optics. May be repeated up to 4 credits. Crosslisted with: EE 473.
Prerequisite(s): PHYS 216G or PHYS 217.

PHYS 475. Advanced Physics Laboratory
3 Credits
Advanced undergraduate laboratory involving experiments in atomic, molecular, nuclear, and condensed-matter physics. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 315 and PHYS 315 L.

PHYS 476. Computational Physics
3 Credits
An introduction to finite difference methods, Fourier expansions, Fourier integrals, solution of differential equations, Monte Carlo calculations, and application to advanced physics problems. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 150 or equivalent and MATH 392.

PHYS 478. Fundamentals of Photonics
4 Credits (3+3P)
Prerequisite(s): PHYS 216G or PHYS 217.

PHYS 479. Lasers and Applications
4 Credits (3+3P)
See E E479 Crosslisted with: E E479.
Prerequisite(s): C- or better in E E 315 or PHYS 461.

PHYS 480. Thermodynamics
3 Credits
Thermodynamics and statistical mechanics. Basic concepts of temperature, heat, entropy, equilibrium, reversible and irreversible processes. Applications to solids, liquids, and gases. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 217, PHYS 315, and MATH 291G.

PHYS 485. Independent Study
1-3 Credits
Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

PHYS 488. Introduction to Condensed Matter Physics
3 Credits
Crystal structure, X-ray diffraction, energy band theory, phonons, cohesive energy, conductivities, specific heats, p-n junctions, defects, surfaces, and magnetic, optical, and low-temperature properties. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 315.

PHYS 489. Introduction to Modern Materials
3 Credits
Structure and mechanical, thermal, electric, and magnetic properties of materials. Modern experimental techniques for the study of material properties. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 315.

PHYS 491. High Energy Physics I
3 Credits
Prerequisite(s): a C- or better in PHYS 455.

PHYS 493. Experimental Nuclear Physics
3 Credits (1+6P)
Selected experimental investigations in nuclear physics such as measurement of radioactivity, absorption of radiation, nuclear spectrometry. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in PHYS 315 and PHYS 315 L.

PHYS 495. Mathematical Methods of Physics I
3 Credits
Applications of mathematics to experimental and theoretical physics. Topics selected from: complex variables; special functions; numerical analysis; Fourier series and transforms, Laplace transforms. May be repeated up to 3 credits.
Prerequisite(s): a C- or better in MATH 392 and PHYS 395.

PHYS 500. Special Topics Seminar
1-2 Credits
Treatment of topics not covered by regular courses. Graded S/U. May be repeated.

PHYS 511. Mathematical Methods of Physics I
3 Credits
Same as PHYS 495. Additional work required at a more advanced level.

PHYS 520. Selected Topics
1-3 Credits
Formal treatment of graduate-level topics not covered in regular courses. May be repeated for a maximum of 9 credits.
Prerequisites: graduate standing, consent of instructor, and selection of a specific topic prior to registration.

PHYS 521. Individual Study
1-3 Credits
Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.
Prerequisites: graduate standing, consent of instructor, and selection of a specific topic prior to registration.

PHYS 528. Fundamentals of Photonics
4 Credits (3+3P)
Same as E E 528. Crosslisted with: E E528.

PHYS 551. Classical Mechanics
3 Credits
Lagrangian and Hamiltonian formulation of dynamics. Advanced treatments of most topics listed under PHYS 451, plus canonical transformations and Hamilton-Jacobi theory. PHYS 451 strongly recommended.

PHYS 554. Quantum Mechanics I
3 Credits
PHYS 555. Quantum Mechanics II
3 Credits
Continuation of topics in PHYS 554.
Prerequisites: PHYS 554 or consent of instructor.

PHYS 561. Electromagnetic Theory I
3 Credits
Detailed advanced treatments of most topics listed under PHYS 461, PHYS 462, plus multipole radiation, collisions of charged particles and bremsstrahlung, scattering, and radiation reaction. PHYS 461 and PHYS 462 strongly recommended.

PHYS 562. Electromagnetic Theory II
3 Credits
Continuation of topics in PHYS 561.
Prerequisites: PHYS 561 or consent of instructor.

PHYS 567. Nanoscience and Nanotechnology
3 Credits
See CHME 567. Crosslisted with: CHME 567.

PHYS 568. Elements of X-ray Diffraction
3 Credits
Same as PHYS 468, but additional work required. Crosslisted with: CHME 588.

PHYS 571. Advanced Experimental Optics
3 Credits
Taught with PHYS 471 with additional work required at the graduate level. Consent of Instructor required.
Prerequisite(s): PHYS 473 or PHYS 562.

PHYS 575. Advanced Physics Laboratory
3 Credits
Selected experiments in atomic, molecular, nuclear and condensed-matter physics.

PHYS 576. Advanced Computational Physics I
3 Credits
Advanced treatment of topics listed under PHYS 476, plus additional required work. Applications of numerical methods to complex physical systems. Recommended knowledge of Fortran or C, and MATH 377 or MATH 392. Same as PHYS 476, but additional work required.

PHYS 584. Statistical Mechanics
3 Credits

PHYS 588. Condensed Matter Physics
3 Credits
Same as PHYS 488, but additional work required.
Prerequisite(s): PHYS 554 or consent of instructor.

PHYS 589. Modern Materials
3 Credits
Same as PHYS 489 with differentiated assignments for graduate students.
Prerequisite: PHYS 554 or consent of instructor.

PHYS 591. Advanced High-Energy Physics I
3 Credits
Taught with PHYS 491 with additional work required at the graduate level.
Prerequisite(s): PHYS 555 or consent of instructor.

PHYS 592. Advanced High-Energy Physics II
3 Credits
Continuation of topics in PHYS 591
Prerequisite(s): PHYS 591.

PHYS 593. Advanced Experimental Nuclear Physics
3 Credits (1+6P)
Advanced experimental investigation of topics such as measurement of radioactivity, absorption of radiation, and nuclear spectrometry.

PHYS 597. Space Plasma Physics
3 Credits
Same as PHYS 497 but with added requirements.

PHYS 599. Master's Thesis
1-15 Credits (1-15)
Thesis.

PHYS 600. Research
1-15 Credits
Doctoral research. May be repeated.

PHYS 620. Advanced Topics in Physics
1-3 Credits
Advanced formal treatment of topics not covered in regular courses. May be repeated for a maximum of 9 credits.
Prerequisite: consent of instructor.

PHYS 650. General Relativity I
3 Credits
Basic foundations and principles of general relativity, derivation of the Einstein field equations and their consequences, the linearized theory, the Bel-Petrov classification of the curvature tensor, derivation of the Schwarzschild solution and the four basic tests of general relativity.
Prerequisite(s): PHYS 511 or PHYS 561 or consent of instructor.

PHYS 680. Independent Study
1-3 Credits
Individual analytical or laboratory studies directed by a faculty member. May be repeated for a maximum of 6 credits.
Prerequisite: graduate standing or consent of instructor.

PHYS 688. Advanced Condensed Matter Physics
3 Credits
Continuation of the advanced condensed matter physics presented in PHYS 588. Topics include electronic structure methods, optical, magnetic, and transport properties of solids, semiconductors, crystalline defects, nanostructures, and noncrystalline solids. PHYS 588 strongly recommended.

PHYS 689. Advanced Modern Materials
3 Credits
Advanced topics in the physics of modern materials, such as crystalline, amorphous, polymeric, nanocrystalline, layered, and composite materials and their surfaces and interfaces.
Prerequisites: PHYS 555, PHYS 588, or consent of instructor.

PHYS 691. Quantum Field Theory I
3 Credits
Path integrals, gauge invariance, relativistic quantum mechanics, canonical quantization, relativistic quantum field theory, introduction to QED.
Prerequisites: PHYS 555 and PHYS 562, or consent of instructor.
PHYS 692. Quantum Field Theory II
3 Credits
QED, running coupling constant, QCD, electroweak theory, asymptotic freedom, deep inelastic scattering, basic QCD phenomenology, path integrals in quantum field theory, lattice QCD.
Prerequisite: PHYS 691 or consent of instructor.

PHYS 700. Doctoral Dissertation
1-15 Credits (1-15)
Dissertation.
Phone: (575) 646-3831

Engineering Physics - Bachelor of Science in Engineering Physics

A strong grasp of underlying physical principles behind the development of new technologies is necessary to keep up with new developments in a high-tech world. The Bachelor of Science (BS) in Engineering Physics program is designed to provide quality education to students for immediate employment with technical jobs in private industries (especially high-tech industries), research laboratories and public sectors. The program trains students with a combination of engineering knowledge, physics principles, mathematical background, problem-solving strategies and effective communication skills. The BS in Engineering Physics also provides an excellent preparation for graduate studies in either physics or an engineering discipline.

The BS in Engineering Physics confers an engineering credential. Students in the program complete an engineering core curriculum, as well as a rigorous course of study in physics and mathematics. A strong laboratory component prepares students in experimental techniques and technology using state-of-the-art equipment.

The goals of the program are:

1. to give students a strong education in the fundamentals of physics, engineering, applied mathematics and computation;
2. to develop skill in real-world problem solving starting from fundamental physical principles;
3. to improve communication skills; and
4. to develop ability to work in a team.

The student must choose one of four concentrations in:

- Aerospace Engineering,
- Chemical Engineering,
- Electrical Engineering, or
- Mechanical Engineering.

The requirements are listed below. Students must earn a C- or better in all required courses.

Concentration: Aerospace

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 127 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

**Second Language: (not required)**

**Electives, to bring the total credits to 127**

Total Credits 127

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G first.
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses. See Alternatives for meeting VWW requirements (nine-credit rule).

**Concentration: Chemical**

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 126 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

ENGR 402 Engineering Capstone II 3

Second Language: (not required)

Electives, to bring the total credits to 126 0

Total Credits 126

1 See the General Education (p. 49) section of the catalog for a full list of courses.
2 MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G first.
3 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses. See Alternatives for meeting VWW requirements (nine-credit rule).
4 Approved technical electives are decided by Engineering Physics Advisors.

Concentration: Electrical

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 124-125 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

### Engineering Technology and Surveying Engineering

#### Undergraduate Program Information

Educational opportunities offered by the Department of Engineering Technology and Survey Engineering (ETSE) in the College of Engineering place an emphasis on the theory and practical hands-on application of engineering principles and methods, under the motto of “linking theory and application”. Many ETSE graduates go on to earn advanced degrees but most typically begin their careers upon graduation and can select from public or private employment opportunities in a wide variety of fields.
Four ABET www.abet.org accredited four-year Bachelor of Science (BS) degrees in Engineering Technology are offered by the department with majors in:

- Electronics and Computer Engineering Technology (p. 811) (ECET) - Visit the ECET webpage;
- Information Engineering Technology (p. 819) (IET) - Visit the IET webpage;
- Mechanical Engineering Technology (p. 823) (MET) - Visit the MET webpage;
- Civil Engineering Technology (p. 798) (CET) - Visit the CET webpage. Want to know more?

An ABET accredited four-year Bachelor of Science (BS) degree in Surveying Engineering is offered by the department:

- Geomatics or Surveying Engineering (p. 828) (SE) - Visit the SE webpage - offered online since Fall 2018.

A Bachelor's degree is also offered via a two-year degree completion program for students with an associate degree or other college experience that are looking to complete a college degree in Information and Communications Technology. These two years are offered completely on-line via a distance education format:

- Information and Communication Technology (p. 830) (ICT) - Visit the ICT webpage.

NMSU is accredited under the Higher Learning Commission.

Opportunities are available for students to Concentrate in a particular area within their major or earn a Minor to complement their degree.

Mission Statement

The Mission of the ETSE Department is to provide students with a quality engineering technology or surveying/geomatics education that links theory and application, provides a rigorous fundamental education, and gives students enhanced career opportunities.

The department's goals supporting this mission are:

- to provide educational and social environments that promote and facilitate student learning
- to have a highly respected and visible department
- to foster the development of the department and
- to graduate students who are competent and sought after by industry

View our Educational Objectives of our Engineering Technology Programs page to see detailed information of what our students will gain upon graduating from an Engineering Technology and Surveying Engineering degree program.

Requirements Related to Transfer of Academic Credit

Students transferring to NMSU may receive transfer credit depending on completed courses and source institutions. Articulation agreements exist for many New Mexico Community Colleges and represent a framework for transfer of academic credit. General degree requirements of the College of Engineering and NMSU also apply to ETSE department majors. The Engineering Transfer Policy applies to any course in an ABET accredited major that is not to be completed on the NMSU main campus by a student already having official degree seeking status within the department.

- The department head must approve the course prior to enrollment and the course must be offered by an ABET accredited program (exceptions may be made when existing articulation agreements with NMSU are relevant). In all cases, a corresponding course syllabus and any other supporting documentation are to be submitted, together with the student’s completed online request, before the course will be considered for transfer credit approval.
- To qualify for approval, the technical content and rigor must also be substantially the same as the equivalent NMSU course and the student must have satisfied all relevant university prerequisite requirements. If program co- and prerequisite requirements are not met, transfer credit will not be approved.
- No credit for on-line courses of another institution may be substituted to meet departmental core curriculum requirements.

To formally request approval to transfer a core course from another institution, you must complete the Engineering Transfer Course Request Form.

Academic Performance Requirements

In addition to University (p. 58) and College of Engineering specific requirements (p. 712), as outlined in the NMSU General Information and College of Engineering catalog sections, departmental majors are expected to maintain a status of academic good standing and to complete degree requirements in a timely manner.

Courses in engineering, technology, math and science (and their respective pre- and corequisites) must be completed with a minimum grade of C- to be counted toward the fulfillment of degree requirements. This also includes all courses in the NM General Education Common Core Areas I, II, and III. If a grade lower than C- is earned in one of the above noted courses, the student will be required to retake that course during the first subsequent semester in which it is offered.

An ETSE student may attempt to complete core curriculum courses no more than three times for outcomes involving D or F letter grades. After this specified number of attempts without a passing grade of C- or better, the student will be prohibited from enrolling in any course offered within the college of engineering for a minimum period of one year, after which they may appeal to the college and department for re-admission into the program. Any credit earned outside the college during a period of academic suspension will not qualify for subsequent transfer credit toward core course degree requirements. Refer to the section of the catalog for university academic probation policies (p. 58).

Requirements for Graduation

The completion of ETSE undergraduate degrees are contingent upon fulfillment of

1. University requirements (p. 76) as outlined in relevant sections of this catalog.
2. policy expectations as outlined under College General Requirements (p. 712), and
3. departmental requirements, as outlined above and within the individual program descriptions of this catalog.

Go to Top Of Page (p. 788)

Degrees for the Department

Engineering Technology - Civil - Bachelor of Science (BS) in Engineering Technology (p. 798)
Engineering Technology - Electronics and Computer - Bachelor of Science (BS) in Engineering Technology (p. 811)

Engineering Technology - Information - Bachelor of Science (BS) in Engineering Technology (p. 819)

Engineering Technology - Mechanical - Bachelor of Science (BS) in Engineering Technology (p. 823)

Geomatics - Bachelor of Science (BS) (p. 828)

Information and Communication Technology - Bachelor of Information and Communication Technology (p. 830)

Minors for the Department

Digital Electronic Applications - Undergraduate Minor (p. 831)

Digital Forensics - Undergraduate Minor (p. 832)

Geomatics - Undergraduate Minor (p. 832)

Information Security Technology - Undergraduate Minor (p. 832)

Manufacturing - Undergraduate Minor (p. 832)

Renewable Energy Technologies - Undergraduate Minor (p. 833)

Professor Ruinian Jiang, Ph. D., P. E., Department Head

Assistant Professor Philip Braker, Associate Department Head

Assistant Professor Barbara Gamillo, Associate Department Head

Professors Cooper 1, Jiang 1, Stevens 1; Associate Professors Elaksher 2, Nogales, Sassenfeld, Wurm 2; Assistant Professors Ben Ayed, Braker, Elshinawy, B. Gamillo, E. Gamillo, Morrell, Tapia; Emeritus Faculty Alexander, Burkholder 1,2, Cameron, Hyde, Kelly, Reilly 2, Ricketts, Rico, Staff: Administrative Assistant Carol Serna

1 Registered Professional Engineer (NM).
2 Licensed Professional Surveyor (NM).

Engineering Technology Courses

E T 101. Introduction to Engineering Technology and Geomatics 3 Credits
An introduction to geomatics and the various engineering technology disciplines, the engineering approach to problem solving, and the design process. Projects emphasize the importance of teamwork, written & oral communication skills, as well as ethical responsibilities. S/U Grading (S/U, Audit).

E T 104. Soldering Techniques 1 Credit
Fundamentals of soldering, desoldering, and quality inspection of printed circuit boards.

E T 106. Drafting Concepts/Computer Drafting Fundamentals I 4 Credits (2+4P)
Basic drafting skills, terminology, and visualization. Introduction to principles and fundamentals of computer-aided drafting. Community Colleges only. Same as DRFT 112.

Prerequisite: OECS 125, OECS 207, or consent of instructor.

E T 109. Computer Drafting Fundamentals 3 Credits (3+2P)
Crosslisted with: DRFT 109, C E 109 and SUR 109

E T 110. Introduction to 3-D Modeling (Solid Works) 3 Credits (2+3P)
Introduction to SolidWorks, a 3-D modeling software. The foundation for designing mechanical parts and assemblies.

E T 120. Computation Software 2-3 Credits (2-3)
The use of spreadsheet software in the field of engineering technology.

E T 125. Introduction to Renewable Energy 3 Credits
Renewable energy systems, including topics in thermal-solar photovoltaic, wind, geothermal systems, and other current topics. Theory, practical applications, safety considerations and the economics of alternative renewable energy systems compared to conventional systems.

E T 153. Introduction to Computer Networks 3 Credits
Introduction to basic computer network fundamentals including International Open Systems Interconnect (OSI), the seven-layer model, and various networking hardware devices. Community Colleges only.

E T 154. Construction Methods and Communications 3 Credits
Blueprint reading, specifications, and introduction to materials used in construction.

E T 155. Network Operating Systems I 3 Credits (3+1P)
Introduction to a computer network operating system. May not be used as part of an E T degree program on main campus. Restricted to: Community Colleges only.

Prerequisite(s): E T 120 or E T 122.

E T 156. Introduction to Information Security 2 Credits
This course introduces information security terminology, historical evolution of digital security, types of PC and network system vulnerabilities and types of information loss. In addition, methods of information protection and integrity, intrusion detection, and recovery of data are introduced.

Prerequisite(s)/Corequisite(s): E T 120. Restricted to Community Colleges campuses only.

E T 160. Windows Fundamentals for IET 3 Credits
Fundamental review of the Windows operating system including installation and upgrades as well as managing applications, files, folders, devices and maintenance.

E T 182. Digital Logic 3 Credits
The use of truth tables, Boolean equations, and diagrams to define, simplify, and implement logic-valued functions.

E T 183. Applied DC Circuits 3 Credits (2+2P)
Application of Ohm's law, Kirchhoff's laws, Thevenin's, and Norton's theorems to the analysis of DC passive circuits. Embedded Lab.

Prerequisite(s)/Corequisite(s): MATH 121G.
ET 183 L. Applied DC Circuits Lab
1 Credit
DC applied circuits lab.
Corequisite(s): ET 183.

ET 184. Applied AC Circuits
3 Credits (2+2P)
Application of circuit laws and theorems to analysis of AC passive circuits. Resonant circuit, polyphase circuit and magnetic circuit topics are introduced. Embedded Lab.
Prerequisite(s)/Corequisite(s): MATH 190G, ET 183.

ET 184 L. Applied AC Circuits Lab
1 Credit
AC applied circuits lab.
Corequisite(s): ET 184.

ET 190. Applied Circuits
4 Credits (3+2P)
Application of Ohm’s law, Kirchhoff’s laws, and Thevenin’s theorems to the analysis of AC and DC passive circuits. Electronic circuit topics are introduced. Embedded lab.
Prerequisite(s)/Corequisite(s): MATH 190G.

ET 191. Applied Circuits Laboratory
1 Credit
Applied Circuits Lab

ET 200. Special Topics
1-3 Credits
Directed study or project. May be repeated for a maximum of 6 credits.
Prerequisite: consent of department head.

ET 203. Computational Foundations
3 Credits
Fundamental concepts of various proof techniques. These concepts will be applied to the use of computer algorithms, programming languages and other engineering and technology applications.
Prerequisite(s): MATH 190G and ET 262.

ET 210. Intermediate 3-D Modeling (Solid Works)
3 Credits (2+2P)
Intermediate 3-D modeling. Applied modeling of techniques to prepare for SolidWorks certification (CSWA).
Prerequisite(s): ET 110.

ET 217. Manufacturing Processes
3 Credits
Introduction to manufacturing and processing, including: casting, forming, and machining. Emphasis on creating products with the appropriate techniques. Crosslisted with: IE 217.
Prerequisite(s)/Corequisite(s): ET 217L. Prerequisite(s): ET 110 and MATH 121G.

ET 217 L. Manufacturing Processes Lab
1 Credit
Hands-on laboratory in machine shop to apply topics from ET 217, including: casting, forming, and machining.
Prerequisite(s)/Corequisite(s): ET 217.

ET 220. Internship
1-6 Credits
Internship requiring an approved number of hours of varied and progressive experience in the field of study. The scope and other requirements of the internship are stated in an individualized syllabus and through a memorandum of understanding between the faculty mentor and the industry partner. May be repeated up to 6 credits.
Prerequisite(s): E T 283.

ET 230. Introduction to Servo Systems
1 Credit
Introduction to Servo Systems. Topics include uses of servos in the industry, servo types, loop gains and frequency response, software control systems, damping, feedback, encoders, synchros and resolvers.
Prerequisite(s): E T 246.

ET 240. Applied Statics
3 Credits
Fundamental topics of applied statics, including force system analysis, equilibrium, free body diagrams, methods of joints and sections, distributed loads, friction, centroids, area moments, and shear and moment diagrams.
Prerequisite(s)/Corequisite(s): MATH 235G or MATH 192G.

ET 241. Applied Dynamics
3 Credits
The foundation for understanding particles and bodies in motion and the forces involved, including: projectile motion, Newton’s Laws of Motion, conservation of energy, and impulse and momentum.
Prerequisite(s)/Corequisite(s): (MATH 236 or MATH 192G).
Prerequisite(s): ET 240.

ET 245. Computer Hardware Fundamentals
3 Credits (2+2P)
Computer hardware fundamentals including architecture, interfacing, peripherals, troubleshooting, system upgrades, and maintenance.
Restricted to Las Cruces campus only.

ET 246. Electronic Devices I
4 Credits (3+3P)
Solid-state devices including diodes, bipolar-transistors, and field effect transistors. Use of these devices in rectifier circuits, small signal and power amplifiers.
Prerequisite(s): ET 190 or ET 184.

ET 253. Networking Operating Systems II
3 Credits (3+1P)
Introduction to a computer network operating system. May not be used as part of an ET degree program on the community college campus.
Prerequisite(s): ET 155.

ET 254. Concrete Technology
3 Credits (2+2P)
Fundamentals of aggregates, Portland cement, and asphalt used in design and construction.

ET 255. Linux System Administration
3 Credits
A system administration view of the Linux operating system covering various distributions with a focus on managing the operating system and enterprise applications that run on Linux.
E T 256. Networking Operating Systems III
3 Credits (3+1P)
Introduction to a computer network operating system. May not be used as part of an E T degree program on main campus. Restricted to Community Colleges campuses only.
Prerequisite(s): E T 253.

E T 252. Software Technology I
3 Credits (2+2P)
An introduction to computer programming concepts as applied to engineering technology. Includes basic logic design, algorithm development, debugging and documentation. History and use of computers and their impact on society.
Prerequisite(s)/Corequisite(s): E T 182 or MATH 190G.

E T 272. Electronic Devices II
4 Credits (3+3P)
Operational amplifiers, positive and negative feedback, computer aided circuit analysis. In addition circuits include integrator, differentiators and phase shift networks.
Prerequisite(s)/Corequisite(s): MATH 235G or MATH 191G.
Prerequisite(s): E T 246.

E T 273. Fundamentals of Networking Communications I
4 Credits (2+4P)
Introduction to networking basics, including computer hardware and software, electricity, networking terminology, protocols, LANs, WANs, OSI model, IP addressing, and design and documentation of basic network and structure cabling. Community Colleges only. May be repeated up to 4 credits. Restricted to Community Colleges campuses only.
Prerequisite(s): E T 153.

E T 276. Electronic Communications
3 Credits (2+2P)
Antennas, transmission devices, A-M and F-M transmission and detection, pulse systems, microwave systems.
Prerequisite(s): E T 246.

E T 277. Computer Networking I for IET
3 Credits (2+2P)
Computer network design and applications for LAN, TCP/IP networks, routing and switching technologies, VLANs, and the OSI layers from physical to transport.
Prerequisite(s): E T 182.

E T 280. Multimedia Tools and Support
3 Credits
Introduction to video, audio and other digital presentation methods. Addresses the latest multimedia technology advances and how they apply to the information and communication technology fields. Sample tools like ffmpeg, and Audacity are covered.

E T 282. Digital Electronics
4 Credits (3+3P)
Applications of digital integrated circuits, multiplexers, counters, arithmetic circuits, and microprocessors.
Prerequisite(s)/Corequisite(s): (E T 190 or E T 184). Prerequisite(s): E T 182.

E T 283. Hardware PC Maintenance
3 Credits (3+1P)
Installing, configuring, troubleshooting, and maintaining personal computer hardware components.
Prerequisite(s): E T 120 or E T 122.

E T 284. Software PC Maintenance
3 Credits (3+1P)
Installing, configuring, troubleshooting, and maintaining personal computer operating systems.
Prerequisite(s): E T 120 or E T 122.

E T 285. Advanced Information Security
3 Credits
The course covers detailed analysis of network security, including security operations and policy adherence; internal and external vulnerabilities; methods of identifying, controlling and managing system access, and the protection of system information.
Prerequisite(s)/Corequisite(s): E T 283. Prerequisite(s): E T 156.

E T 286. Information Security Certification Preparation
4 Credits
The course covers the examination objectives and detailed preparation for a certification in information security.
Prerequisite(s): E T 285.

E T 287. PC Disaster and Data Recovery
3 Credits
This course provides an overview of the various causes of personal computer data failure and methods to mitigate the loss of your personal computer data. The focus is on restoring your personal computer to full PC functionality and recovering lost and damaged files after one of these unforeseen problems. In addition, the course provides a means to lessen the impact of these inevitable events with the preparation of a disaster recovery plan.
Prerequisite(s): E T 120 or E T 122.

E T 290. Networking Wireless Communication
3 Credits (3+1P)
This course provides an introduction to wireless networking and communications. Some of the topics covered are protocols, transmission methods, and IEEE 802.11 standards. Wireless LAN (WLAN) fundamentals, devices, and security, cellular telephony, broadband, and satellite communications.
Prerequisite: E T 273.

E T 291. PC Forensics and Investigation
3 Credits
Introduction to computer forensics and investigative fundamentals. Topics include understanding computer forensic and investigation law and requirements, processing crime and incident scenes, and the extraction, preservation, analysis and presentation of computer-related evidence.
Prerequisite(s): E T 120 or E T 122.

E T 300. Special Topics
1-3 Credits
Directed study or project. May be repeated for a maximum of 6 credits.
Prerequisite: consent of department head.

E T 305. Introduction to Product Design
3 Credits (2+3P)
The process of designing an innovative product for a real customer. Working through ideas, prototypes, 3-D models, concept validation, and entrepreneurship.
Prerequisite(s)/Corequisite(s): E T 210, E T 217, and (COMM 265G or COMM 253G or AXED 201G or HON 265G) or consent of instructor for non-MET majors.
E T 306. Fundamental and Applied Thermodynamics
3 Credits
First and second laws, properties of substances, thermodynamic cycles including power generation and refrigeration.
Prerequisite(s): CHEM 110G and E T 240 and (MATH 235G or MATH 191G) and ((PHYS 212G or PHYS 216G) and (PHYS 212GL or PHYS 216GL)).

E T 306 L. Thermodynamics Lab
1 Credit
Applications of thermodynamic theory to lab devices. Practice in testing, instrumentation, and data collection.
Prerequisite(s)/Corequisite(s): E T 306 and (E T 184 or E T 190).

E T 308. Fluid Technology
3 Credits
Application of basic principles of fluid mechanics to practical applied problems.
Prerequisite(s): (MATH 235G or MATH 191G) and E T 240.

E T 308 L. Fluid Technology Lab
1 Credit
Measurements in fluid statics, dynamics, and hydraulic systems.
Prerequisite(s)/Corequisite(s): E T 308. Prerequisite(s): (MATH 235 or MATH 191G), E T 240.

E T 309V. Manufacturing: History and Technology
3 Credits
The history of manufacturing, the technology on which it is based, and its impact on society.

E T 310. Applied Strength of Materials
3 Credits
Application of principles of strength of materials to practical design and analysis problems.
Prerequisite(s)/Corequisite(s): MATH 236 or MATH 192G. Prerequisite(s): (MATH 235G or MATH 191G) and E T 240.

E T 310 L. Applied Strength of Materials Lab
1 Credit
Testing and analyzing the physical properties of materials. Cursory review of Excel, PowerPoint, FEA, Instron machine, and testing standards.
Prerequisite(s)/Corequisite(s): E T 310.

E T 314. Communications Systems I
3 Credits (3+2P)
Circuits and devices used for transmission, reception, and processing of RF signals.
Prerequisite(s): E T 246 & MATH 190G.

E T 317. Advanced Manufacturing and Design
3 Credits
Advanced 3-D modeling with current engineering design practices. Students will use SolidWorks add-ins such as CAMWorks, Product Data Management (PDM), and Model-Based Definition in conjunction with Geometric Dimensioning and Tolerancing (GD&T) practices. Students will have the opportunity to take the Certification SolidWorks Profesional Exam (CSWP).
Prerequisite(s): E T 210 and E T 217.

E T 324. Signal Processing and Filtering
4 Credits (3+3P)
Application of digital and analog signal conversion models. Discrete time signals and systems. Time and frequency domain concepts. Presentation of Fourier and Z transforms. Application of analog and digital signal filtering with and without feedback.
Prerequisite(s)/Corequisite(s): (MATH 236G or MATH 191G) and ((PHYS 212G or PHYS 216G) and (PHYS 212GL or PHYS 216GL)). Prerequisite(s): E T 272.

E T 328. Kinematics of Machines
3 Credits (2+3P)
Prerequisite(s)/Corequisite(s): E T 210 and E T 241.

E T 331. Engineering Mathematics I
4 Credits (3+3P)
Calculus of several variables. Partial derivatives. Multiple integrals. Functions of matrices. Curvilinear coordinate systems. Application of selected concepts from advanced calculus to structural analysis.
Prerequisite(s): (MATH 236 or MATH 192G).

E T 339. Introduction to Digital Forensics and Incident Response
3 Credits (2+3P)
Introduction to the skills required to perform digital forensics and incident response on Windows operating systems. Topics include: live response, evidence acquisition, Windows operating system artifacts, documentation and reporting.
Prerequisite(s): E T 255 and E T 160.

E T 344. Microcomputer Systems
3 Credits (2+3P)
Microcomputer and/or microcontroller systems applications and architectures with a software emphasis using programming languages.
Prerequisite(s)/Corequisite(s): E T 362. Prerequisite(s): E T 182 and MATH 190.

E T 354. Soil and Foundation Technology
4 Credits (3+3P)
Fundamentals of investigation of soil properties and their importance in design, construction, and testing as related to buildings, roads, dams, and other structures. Design of foundations considering slope stability, bearing capacity and settlement.
Prerequisite(s)/Corequisite(s): E T 310. Prerequisite(s): E T 254. Restricted to: ET U,ET E,ET M,C E,ET C majors.

E T 355. Site/Land Development and Layout
3 Credits
Techniques, methods, and takeoffs for infrastructure layout, site plan design, grading, earthwork, utilities, road construction.
Prerequisite(s)/Corequisite(s): DRFT 143 or DRFT 153.

E T 360V. Technology in Business and Society
3 Credits (2+2P)
Examination of how technology affects business and society with specific attention to understanding the role of technical personnel and their interaction with nontechnical personnel.
E T 362. Software Technology II
3 Credits
A continuation of topics from E T 262 that are directed toward more advanced software development. Topics include problem analysis, object oriented, structured logic, and development concepts.
Prerequisite(s): E T 262 and MATH 190G.

E T 365. Building Utilities
3 Credits (2+3P)
Basic design and code applications in plumbing and electrical systems for buildings.
Prerequisites: junior standing in E T.

E T 377. Computer Networking I
3 Credits (2+2P)
Computer network design and applications for LAN, TCP/IP networks, routing and switching technologies, VLANs, and the OSI layers from physical to transport.
Prerequisite(s): E T 182 and MATH 190G.

E T 381. Renewable Energy Technologies
3 Credits
Renewable energy systems, including topics in thermal-solar, photovoltaic, wind, geothermal systems, and other current topics. Theory, practical applications, safety considerations and the economics of alternative renewable energy systems compared to conventional systems.
Prerequisite(s): MATH 121.

E T 382. Solar Energy Technologies
3 Credits (2+3P)
Solar energy technologies, including topics in passive, solar thermal, and photovoltaic systems. Theory, practical applications, safety considerations and the economics of solar renewable energy systems compared to conventional systems.
Prerequisite(s): MATH 121.

E T 384. Wind and Water Energy Technologies
3 Credits
Wind and Water energy technologies, including topics in small and large scale systems. Theory, practical applications, safety considerations and the economics of wind and water renewable energy systems compared to conventional systems.
Prerequisite(s): MATH 121.

E T 386. Sustainable Construction and Green Building Design
3 Credits
Sustainable Building materials, methods, and techniques including green architecture and design, codes, standards and specifications.
Prerequisite(s): MATH 121.

E T 396. Heat Transfer and Applications
3 Credits (2+3P)
Fundamentals of conduction, convection, and radiation heat transfer. Application of heat transfer, thermodynamics, and fluid mechanics principles to thermal system analysis and design.
Prerequisite(s): E T 306 and E T 308 and PHYS 212G.

E T 398. Digital Systems
3 Credits (2+3P)
Advanced analysis and design of digital systems using state machine logic, programming of logic devices, implementation and testing. Pre/
Prerequisite(s): E T 282 and MATH 190G.
Corequisite(s): E T 362.

E T 400. Special Topics
1-3 Credits
Directed study or project. May be repeated for a maximum of 6 credits.
Prerequisite: consent of department head.

E T 401. Heating and Air-Conditioning Systems
3 Credits
HVAC system design including heating and cooling load calculations, psychometrics, piping, duct layout, and system control. Same as M E 401.
Prerequisite: E T 306.
Corequisite: E T 396.

E T 402. Instrumentation
3 Credits (2+3P)
Sensors/transducers, signal conditioning and transmission for measurement and control systems. Student project in an area of instrumentation and/or control is required.
Prerequisite(s)/Corequisite(s): E T 396 or E T 398.

E T 410. Senior Seminar
1 Credit
Transition from academics to business and industry. Graded S/U.
Prerequisite: senior standing in E T.

E T 412. Highway Technology
3 Credits
Road-vehicle performance, geometric alignment, traffic analysis, highway materials, pavement design, and plan and profile development.
Prerequisite(s): E T 354.

E T 415. Manufacturing Management and Productivity
3 Credits
Projects incorporating concurrent engineering, total quality management, design for manufacturability/assembly, and other contemporary topics in manufacturing.
Prerequisites: senior standing in E T.

E T 418. Applied Hydraulics
3 Credits
Introduction to hydrology, hydraulic equations, hydraulic cross-sections, control structures, and collection and distribution of water, wastewater, and storm runoff using closed conduit and open channel flow.
Prerequisite(s): E T 308.

E T 420. Senior Internship
1-6 Credits
Internship requiring an approved number of hours of varied and progressive experience in the field of study. The scope and other requirements of the internship are stated in an individualized syllabus and through a memorandum of understanding between the faculty mentor and the industry partner. Taken in the senior year of program.
Prerequisites: Senior standing in E T.

E T 421. Senior Project
3 Credits
Project in an area of civil engineering technology conducted under the direction of civil engineering technology faculty member. Project must be one that can be completed within a semester and of sufficient complexity for 3 credits. Taken last semester of program.

E T 426. Analysis and Design of Machine Elements
3 Credits (2+3P)
Analysis and design of power transmission components, including: gears, sprockets, belts, chains, bearings, and shafts. Experiential design project using SolidWorks and Excel modeling.
Prerequisite(s): E T 210, E T 241, and E T 310.
E T 432. Applied Design of Structures II
4 Credits (3+3P)
Continuation of E T 332. Design of structural systems and study of their responses. Wood and masonry systems included.
Prerequisite(s): E T 332.

E T 435. Senior Project
3 Credits (2+3P)
Capstone course. Practical application of student’s cumulative knowledge to an assigned design projects. Design principles, teamwork, and project management skills are stressed. Demonstration of written and oral communication skills via project documentation and presentation of results. Must be graduating senior. Consent of Instructor required.

E T 439. Advanced Digital Forensics and Incident Response
3 Credits
Advanced topics in digital forensics and incident response on Windows, Linux and Mac OS X and mobile devices. Topics include: Memory analysis, registry analysis, timeline analysis, malware analysis, Linux artifacts, network analysis and advanced cyber security concepts.
Prerequisite(s): E T 339 and E T 377.

E T 440. Senior Design
2 Credits (1+2P)
Team design of a system, mechanism, or model that will be fabricated or simulated during the following semester in E T 441. Pre/
Prerequisite(s)/Corequisite(s): E T 444 and E T 402. Restricted to: ET C,ET E,ET M,ET U majors.

E T 441. Senior Project
2 Credits (1+2P)
Team fabrication or simulation, testing, and debugging of a system, mechanism or model designed in E T 440.
Prerequisite(s): E T 440.

E T 444. Hardware and Software Senior Design
3 Credits (2+3P)
The design, development, implementation, documentation and formal demonstration of a microprocessor-based application to solve an engineering problem. Emphasis on microprocessor architectural concepts and software interfacing. A student project is required
Prerequisite(s): E T 344 and E T 398.

E T 454. Advanced Construction Technology
3 Credits
Contractor design and construction methods concerning formwork, special foundations, shoring, excavations, pilings, steel erection, and various material handling components.
Prerequisite: E T 354 and E T 355.

E T 455. Cost Estimating and Scheduling
3 Credits
Methods and techniques in construction estimating including final bid preparation, construction planning and scheduling using various network methods and other techniques.
Prerequisite: junior or senior standing in E T.

E T 456. Applied Power Technologies
4 Credits (3+3P)
Basic elements of modern power systems, energy sources, substation configuration, load cycles, and three-phase circuits. Students will gain experience in power factor correction, transmission line configurations and impedance, voltage regulation of transformers, and the per-unit system. Study of load flow, fault analysis, and economic operations is included.
Prerequisite(s): (MATH 235 or MATH 191G) and E T 272 and ((PHYS 212G or PHYS 216G) and (PHYS 212GL or PHYS 216GL)).

E T 458. Web Development and Database Applications
3 Credits
Design, planning, and building of interactive and dynamic web applications which are customizable and contain real-time information. Topics include relational databases, object oriented programming, secure-coding practices and web security, user authentication and personalization, as well as front-end and back-end technology integration.
Prerequisite(s): E T 362 and E T 160.

E T 460. Web Technologies and Multimedia
3 Credits
Introduction to web technologies and multimedia.
Prerequisite(s): E T 160.

E T 463. Advanced Linux and Python Scripting
3 Credits
Advanced Linux Includes installation and maintenance of Unix/Linux/Windows versions of Python. Use of Python to solve numerous engineering problems using Python scripting as infrastructure.
Prerequisite(s): E T 255 and E T 362.

E T 464. Windows Enterprise Administration
3 Credits
Installation, configuration, and maintenance of Windows Enterprise services which includes Active Directory, distributed file systems, SQL Server, Web Server, Authentication Procedures, and enterprise elasticity. Topics covered include: Server Maintenance and Troubleshooting Methodologies.
Prerequisite(s)/Corequisite(s): E T 339. Prerequisite(s): E T 362.

E T 472. Intelligent Transportation Systems (ITS)
3 Credits
Traffic flow theory, telecommunication and information technology application in transportation, system architecture and standards, transportation management, incident and emergency management, corridor management, dynamic route guidance, in-vehicle systems, and traffic signal timing. Consent of instructor required.

E T 477. Computer Networking II
3 Credits (2+2P)
Advanced concepts in computer network design and applications including managing the campus network infrastructure (LANs and virtual LANs), network services (DNS and DHCP), network security and firewall, network monitoring and forensics, wireless networks, high-speed optical networks and Internet.
Prerequisite(s): E T 277 or E T 377.
ET 480. Innovation and Product Development
3 Credits
Experiential product design and development. Students will learn about different types of innovation, business models, and methods for developing products. Students will apply the scientific method to develop a product idea of their own. Students will propose ideas, develop hypotheses, test hypotheses, and iterate until they have validated their product idea or identified a need to pivot.
Prerequisite(s)/Corequisite(s): E T 210 and E T 217.

ET 482. Manufacturing Technology
3 Credits (2+2P)
Fundamentals of computer aided manufacturing (CAM) and computer numerical control (CNC) machining. Students will learn how to program several variants of CNC machines, using both G/M code programming and computer aided manufacturing software. Emphasis will be on the effective design of parts to be made on CNC machines along with a hands on lab to give students experience on CNC machines. Students will individually design, manufacture, and keep items such as keychains, bottle openers, LED clocks, ergonomic handles, and license plates.
Prerequisite(s): E T 210 and E T 217.

ET 490. Selected Topics
1-3 Credits
Selected topics in engineering technology and related areas.
Prerequisite: consent of instructor.

ET 505. Special Topics in Information Technology
3 Credits
Contemporary topics in Information Technology Restricted to: M-IT majors.

ET 539. Advanced Enterprise Security
3 Credits
Advanced enterprise security design and analysis. Identification and minimization of cyber threats. Restricted to: M-IT majors.

ET 551. Enterprise Architecture I
3 Credits
A study of current enterprise architecture methodologies, tools, and techniques. Restricted to: M-IT majors.

ET 552. ENTERPRISE ARCHITECTURE II
3 Credits
Advanced topics in enterprise architecture including availability, access, and architecture map development. Restricted to: M-IT majors.
Prerequisite(s): E T 551.

ET 555. Virtualization
3 Credits
An analysis and review of system and IT virtualization techniques. Restricted to: M-IT majors.

ET 562. Development and Operations
3 Credits
Software development including Python scripting. Operations programming. Restricted to: M-IT majors.

ET 577. Advanced Computer Networking
3 Credits
Advanced networking design and analysis. Modernization of infrastructures. Restricted to: M-IT majors.

ET 583. Mobile App Programming and Development
3 Credits
Planning and creation of mobile device applications. Programming tools and technical design considerations. Entrepreneurship and App development. Restricted to: M-IT majors.

ET 585. White Hat System Testing
3 Credits
System penetration testing and repair. Review of methods utilized to gain access to unprotected systems. Testing system repairs and fixes for future prevention. Test documentation. Restricted to: M-IT majors.

ET 595. Capstone Projects in Information Technology
3 Credits
Capstone course. Practical application of student’s cumulative Information Technology knowledge to an assigned design projects. Project management skills. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: M-IT majors.

Surveying Courses
SUR 222. Plane Surveying
3 Credits (2+3P)
Theory and practice of geomatics as applied to plane surveying in the areas of linear measurements, angle measurements, area determination, differential and trigonometric leveling, and topographic mapping. Crosslisted with: DRFT 222.
Prerequisite(s): MATH 190G.

SUR 264. Introduction to LIS
3 Credits (2+3P)
Introduction to land information systems. Land tenure systems, coordinate systems, computer methods. Pre/Corequisite(s): DRFT 109.

SUR 285. Precise Digital Mapping
3 Credits
Photogrammetric Mapping Principles, digital sensor including optical cameras, terrestrial, surveying control, IMU & GPS integration, stereo photography, analytical triangulation, orthorectification, precision and accuracy of measurement systems, sUAS (Small Unmanned Aerial Vehicles) applications to geospatial data collection and practical applications project flight/pre planning, sensor platform, FAA regulations and restrictions, introduction to laser scanning systems.
Prerequisite(s)/Corequisite(s): SUR 222 or DRFT 222.

SUR 292. Public Land Survey System Boundaries
3 Credits
Fundamentals of the U.S. Public Land Survey System; rules for the survey of the public lands, field surveys; the rectangular system, corners, monuments, evidence; dependent and independent resurveys, corner restoration; plats and field notes, patents. Restricted to Las Cruces campus only.
Prerequisite(s): SUR 222.

SUR 312. Legal Principles and Boundary Law I
3 Credits
Fundamentals of real property law; principles of land description; survey evidence and procedure in boundary determination, order of importance of conflicting elements; and liability, ethical and professional principles in boundary surveying; contemporary issues in boundary determination.
Prerequisite(s): SUR 222 or DRFT 222.
SUR 322. Laser Scanning Mapping Technologies
3 Credits (2+2P)
Perform basic terrestrial & airborne LiDAR scan, LiDAR Technologies and Applications will include ranging technologies such as LiDAR, SAR, and Bathymetry, point cloud data management & extraction, scan registration and processing
Prerequisite(s): SUR 285.

SUR 328. Construction Surveying & Automation Technologies
3 Credits (2+3P)
Prerequisite(s): (SUR 222 or DRFT 222) and (MATH 191G or MATH 235).

SUR 330. Computer Applications of Surveying
3 Credits (2+3P)
Advanced application of concepts and tools used in the manipulation of geospatial data in a computer environment. Topics include the use of surveying-specific software applications for problem solving, analysis and generation of spatial data products. Advanced programming skills in a high level language are presented and applied.
Prerequisite(s): DRFT 109 AND SUR 222, and (MATH 191G or MATH 235) and (C S 187 or E T 262 or E E 161).

SUR 351. Spatial Data Adjustment I
3 Credits
Theory of random error in observations/measurements. Use of statistics in spatial data analysis, statistical testing, advanced data structures. Emphasis on computer based problem solving and programming to solve spatial data problems.
Prerequisite(s): (SUR 222 or DRFT 222) and (MATH 191G or MATH 235) and (A ST 311G or STAT 251G) and (C S 151 or C S 152 or E T 262 or E E 161).

SUR 361. Geodesy/Geodetic Control Surveying
3 Credits (2+2P)
Horizontal and vertical control network design and consideration. Understand ellipsoid, geoid, horizontal and vertical datum, coordinates, precise leveling, astronomic, establishment of state plane zones, understanding reporting. Transform data between geodetic Latitude/Longitude, state plane, ground data, perform geodetic computations, ability to design GPS networks utilizing CORS stations, network adjustments. Perform a control survey, process data, adjust network, and prepare control report with Meta-data.
Prerequisite(s): (SUR 222 or DRFT 222) and (MATH 191G or MATH 235).

SUR 370. Control Surveying
3 Credits (2+3P)
Prerequisite(s): SUR 222 and (MATH 191G or MATH 235G).

SUR 401. Ethics and Professionalism in Surveying and Mapping
3 Credits
Ethics as applied to the surveying profession. Includes case studies and problems.
Prerequisites: SUR 312, SUR 328, and senior standing.

SUR 412. Advanced Topics in Boundary Surveying
3 Credits (2+3P)
Advanced land boundary topics including water boundaries, mineral claims, Spanish and Mexican land grants, state and national boundaries.
Prerequisite: SUR 312.

SUR 450. Senior Project
1 Credit
Research project prepared by student. Includes class presentation. Students will learn how to research after the end of their formal education.
Prerequisite(s): Senior Standing.

SUR 451. Spatial Data Adjustment II
3 Credits
Rigorous analysis of the theory of observations as applied to spatial data, application of least squares adjustments, ability to perform statistical analysis to determine accuracy of final product, constrained/free geospatial data integration, error ellipses, and pre-analysis of spatial data acquisition procedures.
Prerequisite(s): SUR 351, (MATH 280 or MATH 480).

SUR 452. Spatial Data Integration and Analysis
3 Credits
Methodologies of geospatial data acquisition and integration, knowledge of applications the source data is intended for, accuracies of acquired spatial data, types and analysis of coordinate transformation models. Integrating datasets for routing analysis, location study analysis, land management and long range plans as well as existing needs related to connectivity and safety.
Prerequisite(s): SUR 451.

SUR 461. GNSS Positioning
3 Credits (2+3P)
Logistics of GNSS data collection, the GPS signal, codes and biases, error sources, differences between relative and autonomous GNSS positioning, code phase carrier phase, DGPS static and RTK surveys. Geodetic and GPS standards and specifications GNSS data processing, network adjustments, and evaluation of spatial data accuracy practical applications of GNSS May be repeated up to 3 credits.
Prerequisite(s): SUR 361.

SUR 464. Legal Principles and Boundary Law II
3 Credits
ALTA Surveys and Standards, boundary evidence, order of evidence, Subdivision and Platting Law, Mexican and Spanish land grants, water boundaries, sequential and simultaneous conveyances. Consent of Instructor required.
Prerequisite(s): SUR 312.
SUR 485. Emerging Techniques in Geomatics  
3 Credits  
Hydrographic, Altimetry, Space borne Imaging Systems, Mobile Mapping Systems, Mining and Agriculture Surveying Principles, Ranging technologies and applications such as LiDAR, SAR, and Bathymetry. Principles of terrestrial & airborne laser scanning, point cloud data management & extraction, scan registration and processing, and advanced ranging data acquisition systems. Consent of Instructor required.  
Prerequisite(s): Consent of instructor and senior standing.  
Name: Mrs. Carol Serna, Engineering Technology and Surveying Engineering (ETSE)

Engineering Technology - Civil - Bachelor of Science in Engineering Technology  
The Civil Engineering Technology (CET) Program at NMSU will prepare graduates with the technical and managerial skills necessary to enter careers in the planning, design, construction and operation of the built environment and global infrastructure. Graduates with the baccalaureate degree have strengths in their knowledge of design, construction, testing and operation of buildings and infrastructure with the ability to produce and utilize construction documents, analyze and design systems, specify project methods and materials, perform cost estimates and analyses, and manage technical activities in support of civil projects. Graduates from our ABET accredited CET program can pursue professional licensure and become professional engineers.  

Program Educational Objectives  
1. graduates are competent in at least one of the following areas:  
   a. Land Development  
   b. Infrastructure Development  
   c. Heavy Civil Construction  
   d. Cost Estimating  
   e. Characterization and mechanical properties of construction materials.  
2. graduates are proficient in the assessment of Engineering Alternatives.  
3. graduates are:  
   a. meeting the engineering needs of the region, both in the government and private sectors  
   b. leaders in their specialized field of endeavor  
4. graduates are pursuing their professional registration (Professional Engineer License)  
The Civil Engineering Technology program is accredited by the Technology Accreditation Commission (ETAC) of ABET www.abet.org  

Minors  
• Renewable energy (p. 833)  
• Geomatics (p. 832)  

Types of jobs that graduates pursue in this field  
• Civil Engineer  
• Construction Manager  
• Project Engineer  
• Project Manager  
• Design Engineer  
• Construction Inspector  
• Owner  
• Estimator  
• Distribution and Sales  

Engineering Technology - Civil (No Concentration)  
Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.  

Prefix | Title | Credits  
--- | --- | ---  
ENGL | English Composition - Level 1 | 4  
| ENGL 111G | Rhetoric and Composition |  
| or ENGL 111GH | Rhetoric and Composition Honors |  
| English Composition - Level 2 | 3  
| ENGL 218G | Technical and Scientific Communication (recommended) |  
| COMM | Oral Communication | 3  
| COMM 265G | Principles of Human Communication (either are recommended) |  
| or HON 265G | Principles of Human Communication Honors |  
| MATH | Area II: Mathematics | 3-4  
| MATH 191G | Calculus and Analytic Geometry I | 1  
| or MATH 235 | Calculus for the Technical Student I |  
| Area III/IV: Laboratory Sciences and Social/Behavioral Sciences | 11  
| CHEM 110G | Principles and Applications of Chemistry |  
| PHYS 211G & 211GL | General Physics I and General Physics I Laboratory |  
| PHYS 215G & 215GL | Engineering Physics I and Engineering Physics I Laboratory |
### Area IV: Social/Behavioral Sciences (3 credits)
- MATH 192G Calculus and Analytic Geometry II
- or MATH 236 Calculus for the Technical Student II

**Second Language: (not required)**

**Electives, to bring the total credits to 120**

**Total Credits**

For students wishing to pursue a technical master's degree, MATH 191G Calculus and Analytic Geometry I and MATH 192G Calculus and Analytic Geometry II are recommended and will satisfy both the Area II and General Education Elective requirements.

Students who take MATH 235 Calculus for the Technical Student I and MATH 236 Calculus for the Technical Student II, will need to have an exception made for their degree audit.

*For either Mathematics course selection students may need to take any prerequisites needed to enter the class(es) first.

See the General Education (p. 49) section of the catalog for a full list of courses.

See the Viewing a Wider World (p. 49) section of the catalog for a full list of courses.

Concentrations are "optional" educational sequences that students may choose to focus on particular areas related to CET. Concentrations may often be done without additional credits by judicious use of electives and other optional course requirements.

Technical electives must be taken from a pre-approved list which you can find in the ET office or online. Other choices require CET advisor and/or department head approval.

Elective credit may vary based on Math course selection, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

### Concentration: Construction Technology

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

### Engineering Technology - Civil (No Concentration)

**A Suggested Plan of Study for Students**

This roadmap assumes student placement in MATH 191G Calculus and Analytic Geometry I and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

120

For students wishing to pursue a technical master’s degree, MATH 191G Calculus and Analytic Geometry I and MATH 192G Calculus and Analytic Geometry II are recommended and will satisfy both the Area II and General Education Elective requirements. Students who take MATH 235 Calculus for the Technical Student I and MATH 236 Calculus for the Technical Student II, will need to have an exception made for their degree audit.

*for either Mathematics course selection students may need to take any prerequisites needed to enter the class(es) first.*

See the General Education (p. 49) section of the catalog for a full list of courses.

See the Viewing a Wider World (p. 49) section of the catalog for a full list of courses.

Elective credit may vary based on Math course selection, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
E T 240  Applied Statics  or Mechanics-Statics  3  
E T 254  Concrete Technology  3  
Area V: Humanities Course  2  
| Credits | 16-17 |

Second Year

Fall

DRFT 109  Computer Drafting Fundamentals  3  
SUR 222  Plane Surveying  or Surveying Fundamentals  3  
ENGL 218G  Technical and Scientific Communication  3  
COMM 265G  Principles of Human Communication  or Principles of Human Communication Honors  3  
| Credits | 15  |

Spring

E T 308  Fluid Technology  and Fluid Technology Lab  3-4  
PHYS 212G  General Physics II  
PHYS 216G  Engineering Physics II  
E T 190  Applied Circuits  3  
CHEM 110G  Principles and Applications of Chemistry  3  
| Credits | 14-15 |

Third Year

Fall

E T 310  Applied Strength of Materials  and Applied Strength of Materials Lab  3  
DRFT 143  Civil Drafting Fundamentals  or Survey Drafting Applications  3  
E T 354  Soil and Foundation Technology  3  
| Credits | 14  |

Spring

E T 332  Applied Design of Structures I  4  
E T 355  Site/Land Development and Layout  3  
Geomatics/Surveying Elective Course  3  
Technical Elective Course  3  
Viewing a Wider World Course  3  
| Credits | 16  |

Fourth Year

Fall

E T 432  Applied Design of Structures II  4  
I E 451  Engineering Economy  3  
AST 311  Statistical Applications  3  
Technical Elective Course  3  
Viewing a Wider World Course (from the College of Business)  3  
| Credits | 16  |

Spring

E T 412  Highway Technology  3  
E T 410  Senior Seminar  1  
E T 420  Senior Internship  or E T 421  Senior Project  3  
| Credits | 13  |

Technical Elective Course  
| Credits | 3  |

Total Credits  120-123

1. Students may need to take any prerequisites needed to enter MATH 191G/MATH 235 or MATH 192G/MATH 236 before enrolling in either option of coursework.

*For students wishing to pursue a technical master’s degree, MATH 191G and MATH 192G are recommended and will satisfy both the Area II and General Education Elective requirements. Students who take MATH 235 and MATH 236, will need to have an exception made for their degree audit.

2. See the General Education (p. 49) section of this catalog for a full list of courses

3. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

4. Surveying Electives:
   • SUR 285 Precise Digital Mapping
   • SUR 328 Construction Surveying & Automation Technologies
   • SUR 351 Spatial Data Adjustment I
   • SUR 361 Geodesy/Geodetic Control Surveying

5. Technical Electives: any class, numbered over 300, in the College of Engineering that advances the student’s competence level in their area of interest. Classes numbered 300 or above outside of the College of Engineering may be approved for use as a technical elective if the technical content of the class is deemed sufficient by the Program Coordinator and the Department Head.

6. See the Viewing a Wider World (p. 53) section of this catalog for a full list of courses

Concentration: Construction Technology

A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 191G Calculus and Analytic Geometry I and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Course  Title  Credits

First Year

Fall

ENGR 100  Introduction to Engineering  3  
E T 154  Construction Methods and Communications  3  
| Credits | 13  |

Choose one sequence from the following:

E T 310  Applied Strength of Materials  and Applied Strength of Materials Lab  3  
DRFT 143  Civil Drafting Fundamentals  or Survey Drafting Applications  3  
E T 354  Soil and Foundation Technology  3  
| Credits | 14  |

Spring

E T 332  Applied Design of Structures I  4  
E T 355  Site/Land Development and Layout  3  
Geomatics/Surveying Elective Course  3  
Technical Elective Course  3  
Viewing a Wider World Course  3  
| Credits | 16  |
**Engineering Technology - Civil - Bachelor of Science in Engineering Technology**

**PHYS 211G** & **211GL**  
General Physics I and General Physics I Laboratory

**PHYS 215G** & **215GL**  
Engineering Physics I and Engineering Physics I Laboratory

**MATH 191G** or **MATH 235**  
Calculus and Analytic Geometry I or Calculus for the Technical Student

**Area IV: Social/Behavioral Sciences Course**  
Credits: 3

**Spring**

**ENGL 111G** or **ENGL 111GH**  
Rhetoric and Composition or Rhetoric and Composition Honors

**MATH 215G** or **MATH 236**  
Calculus and Analytic Geometry II or Calculus for the Technical Student II

**E T 240** or **C E 233**  
Applied Statics or Mechanics Statics

**E T 254**  
Concrete Technology

**Area V: Humanities Course**  
Credits: 3

**Second Year**

**Fall**

**DRFT 109**  
Computer Drafting Fundamentals

**SUR 222** or **DRFT 222**  
Plane Surveying or Surveying Fundamentals

**ENGL 218G**  
Technical and Scientific Communication

**COMM 265G** or **HON 265G**  
Principles of Human Communication or Principles of Human Communication Honors

**Area VI: Creative and Fine Arts Course**  
Credits: 3

**Spring**

**E T 308** & **308 L**  
Fluid Technology and Fluid Technology Lab

Choose one from the following:

**PHYS 212G**  
General Physics II

**PHYS 216G**  
Engineering Physics II

**E T 190**  
Applied Circuits

**CHEM 110G**  
Principles and Applications of Chemistry

**Elective Course**  
Credits: 3

**Third Year**

**Fall**

**E T 310** & **310 L**  
Applied Strength of Materials and Applied Strength of Materials Lab

**DRFT 143** or **DRFT 153**  
Civil Drafting Fundamentals or Survey Drafting Applications

**E T 354**  
Soil and Foundation Technology

**Construction Concentration Elective Course**  
Credits: 3

**Spring**

**E T 332**  
Applied Design of Structures I

**E T 355**  
Site/Land Development and Layout

**E T 241**  
Applied Dynamics

**Fourth Year**

**Fall**

**E T 432**  
Applied Design of Structures II

**I E 451**  
Engineering Economy

**A ST 311**  
Statistical Applications
