# TABLE OF CONTENTS

Las Cruces Academic Catalog ......................................................... 11
University Leadership ........................................................................ 12
The History of the University .......................................................... 13
Programs A-Z .................................................................................. 14
Areas of Interest .............................................................................. 20
  - Applied and Clinical Health Sciences ........................................... 20
  - Applied Social and Behavioral Sciences ......................................... 20
  - Business .................................................................................... 20
  - Communication, Media Study, and Creative Arts ......................... 20
  - Humanities and Social Sciences .................................................. 20
  - Life Sciences .............................................................................. 21
  - Physical Sciences and Engineering .............................................. 21
  - Teacher Education .................................................................... 21
Essential Information for Students .................................................. 23
  - Undergraduate Admissions ....................................................... 23
  - Transfer Undergraduate Students .............................................. 25
  - International Undergraduate Students ....................................... 26
  - Tuition, Fees, and Other Expenses ............................................. 29
  - Financial Aid & Scholarship Services ......................................... 31
  - Registration .............................................................................. 33
  - Withdrawals ............................................................................ 33
Resources for Students ................................................................. 33
  - Graduate Research Facilities ...................................................... 40
  - Military and Veterans Programs (MVP) ....................................... 46
  - General Education Courses ....................................................... 49
  - Graduation Requirements .......................................................... 56
  - Recognition of Academic Achievement ...................................... 56
  - Preprofessional Programs .......................................................... 56
  - Academic Programs .................................................................. 56
NMSU System Academic Regulations & Policies ............................ 58
The Graduate School ...................................................................... 81
Common Course Numbering Crosswalk ........................................ 87
College of Agricultural, Consumer, and Environmental Sciences .... 103
  - General Agriculture .................................................................. 104
  - Agricultural and Extension Education ......................................... 105
      - Agricultural and Community Development - Bachelor of Science in Agriculture ........................................... 110
      - Agricultural and Extension Education - Bachelor of Science in Agriculture .................................................. 111
      - Agricultural and Extension Education - Undergraduate Minor ............................................................... 113
Agricultural and Natural Resource Leadership - Undergraduate Minor ............................................................................ 113
Agricultural and Extension Education - Master of Arts ................. 113
Agricultural and Extension Education - Graduate Minor ............... 113
International Agricultural Development and Extension - Graduate Minor ............................................................................ 114
Agricultural Economics and Agricultural Business ....................... 114
Agricultural Economics and Agricultural Business - Bachelor of Science in Agriculture ......................................................... 119
Natural Resource Economics and Policy - Bachelor of Science in Agriculture .......................................................... 121
Agricultural Business Management- Undergraduate Minor .......... 123
Natural Resource Economics- Undergraduate Minor .................. 124
Agriculture - Master of Agriculture ............................................... 124
Agriculture - Master of Business Administration .......................... 125
Agricultural Economics - Master of Science ................................ 125
Economic Development - Doctor of Economic Development ........ 126
Animal and Range Sciences ......................................................... 126
  - Animal Science - Bachelor of Science in Agriculture ................ 134
  - Range Science - Bachelor of Science in Agriculture .................. 137
  - Dairy Science- Undergraduate Minor .......................................... 138
  - Horse Management - Undergraduate Minor .............................. 138
  - Human Animal Interaction - Undergraduate Minor .................. 138
  - Livestock Production - Undergraduate Minor ............................ 138
  - Ranch Management - Undergraduate Minor .............................. 139
  - Range Science - Undergraduate Minor ....................................... 139
  - Agriculture - Master of Agriculture .......................................... 139
  - Animal Science - Master of Science ......................................... 140
  - Range Science - Master of Science .......................................... 141
  - Animal Science - Doctor of Philosophy .................................... 141
  - Range Science - Doctor of Philosophy ..................................... 142
  - Animal Science - Graduate Minor ............................................. 142
  - Range Science - Graduate Minor .............................................. 142
Entomology, Plant Pathology and Weed Science .............................. 142
  - Agricultural Biology - Bachelor of Science in Agriculture ........ 146
  - Entomology - Undergraduate Minor .......................................... 151
  - Pest Management - Undergraduate Minor ................................. 151
  - Plant Pathology - Undergraduate Minor .................................... 151
  - Weed Science - Undergraduate Minor ....................................... 151
Agricultural Biology - Master of Science ........................................ 152
Family and Consumer Sciences ................................................... 152
  - Family and Child Science - Bachelor of Science in Family and Consumer Sciences ........................................... 163

LAS CRUCES ACADEMIC CATALOG

This catalog is the student's guidebook to earning a degree or other academic credential. The catalog contains three important parts: (1) the official listing of NMSU’s academic programs and their requirements, (2) a listing of the courses offered at NMSU with descriptions and prerequisites, and (3) other information essential for student success including many of the rules and regulations that govern the student’s academic journey at NMSU.

As with any other journey, advance planning is essential. To avoid wrong turns and lost time, each student must chart their own path, with the help of their academic advisors and this guidebook. Each student is responsible for planning an academic program of study in compliance with university, community college, college and departmental requirements as set forth in the Catalog. In addition, each student is obligated to abide by the Academic Rules and Regulations as set forth in the Catalog, as well as the Student Social Code of Conduct, as set forth in the Student Handbook (available through the Dean of Students website).

Upon proper application and payment of fees, students will be awarded academic degrees and designations when the completion of the academic program requirements is verified by the relevant NMSU academic unit. Degrees and designations may be awarded under any catalog in effect on the date of degree or designation completion, provided that the catalog year is the same or subsequent to the year in which the student was first enrolled.

The academic program requirements of each catalog are effective for a period of six academic years. This 2019-20 Catalog is effective summer 2019 through spring semester 2025. All other catalog content, including rules, regulations, course descriptions and prerequisites are effective only for the catalog’s denoted academic year. While content changes are typically implemented between Catalog years, the catalog does not represent a contract and NMSU reserves the right to make modifications to the catalog at any time.

Academic programs at the New Mexico State University System are available to all students without regard to age, ancestry, color, disability, gender, national origin, race, religion, sexual orientation or veteran status.

NMSU is transforming lives through discovery. With the help of your advisors, you can chart your own transformational journey, using this catalog as your guidebook.

Catalog Editor: Kori Plank
UNIVERSITY LEADERSHIP

NEW MEXICO STATE UNIVERSITY

Chancellor
Dan Arvizu, Chancellor

President
John Floros, NMSU Las Cruces Campus President

Board of Regents
Michelle Lujan Grisham, Governor of New Mexico, Ex Officio Regent from Santa Fe.

Ammu Devasthali, Appointed Regent from Las Cruces for term December 31, 2022.

Debra Hicks, Appointed Regent from Hobbs for term expiring December 31, 2020.

Dina Chacón-Reitzel, Appointed Regent from Cebolla for term expiring December 31, 2024.

Provost/Academic
TBA, Executive VP & Provost

Fant, Gregory, Associate VP & Deputy Provost

Vice Presidents/Vice Provosts
Burke, Andrew, Sr. VP Administration & Finance

Byford, Tina, Interim VP University Advancement

Cifuentes, Luis, VP Research & Dean of the Graduate School

McSherry, Rod, Interim Associate Provost International & Border Programs

Scott, Renay, VP Student Success

Deans
Brown, Susan, Interim Dean, Education College

Chaiken, Miriam, Dean, Honors College and Crimson Scholars

Cooper, Sonya, Interim Dean, Health and Social Services College

Hoffman, James, Dean, Business College

Flores, Rolando, Dean, Agricultural, Consumer and Environmental Sciences College

Pontelli, Enrico, Dean, Arts and Sciences College

Reddi, Lakshmi, Dean, Engineering College

Titus, Elizabeth A., Dean, Library

COMMUNITY COLLEGES ADMINISTRATION

Alamogordo
Van Winkle, Kenneth, Campus President

Cal, Mark P., VP Academic Affairs

Ricksecker, Anne., Interim VP Student Success

Salinas, Antonio A., VP Business & Finance

Carlsbad
Gratton, John B., Campus President

Garcia, Juanita, VP Student Services

Nwanne, Andrew I., Chief Academic Officer

Volpi, Karla, VP Business & Finance

Dona Ana
Torres, Monica F., Campus President

Brooks, Kelly, VP Business & Finance

Ledesma, Amadeo "Ike," VP Student Services

Wood, Susan., Interim VP Academic Affairs

Grants
Best, Mickey, Campus President;

Armstead, Beth, VP Student Services

Sheski, Harry, VP Academic Affairs
THE HISTORY OF THE UNIVERSITY

New Mexico State University (NMSU) was founded in 1888 as the state’s land-grant university. Through serving the educational needs of New Mexico’s diverse population, NMSU has provided comprehensive programs of education, research, extension education and public service. Upon its founding, NMSU was known as Las Cruces College and later renamed New Mexico College of Agriculture and Mechanic Arts. In 1960, the constitution of New Mexico formally recognized the institution as NMSU. Today, NMSU is a major institution of higher education. Throughout its history, the university has preserved many traditions of its land-grant origin while also increasing emphasis on the fine arts, humanities, social and natural sciences.

For more history, points of pride, and the ranking of New Mexico State University please visit the About NMSU page of the university website.

Mission

The mission of the New Mexico State University system is to serve the diverse needs of the state through comprehensive programs of education, research, extension and outreach, and public service. As the state’s land-grant and space-grant university, and as a Hispanic Serving Institution, NMSU fosters learning, inquiry, diversity and inclusion, social mobility, and service to the broader community.

Vision

By 2025, the NMSU system will excel in promoting social mobility for our diverse student populations, achieve the highest Carnegie research status (R1), and maintain our Carnegie Community Engagement classification.

Values

- Leadership: Promoting and creating the ability for Aggies to shape the future
- Excellence: Providing the highest level of education, research, outreach, and service
- Access: Welcoming diverse populations to higher education and to the NMSU community
- Diversity & Inclusion: Embracing our differences as an asset and actively seeking to include wide-ranging perspectives
- Student-Centered: Supporting the education of our students through every aspect of our university, every day

These values are encapsulated as: BE BOLD. Shape the future.

Accreditation

New Mexico State University has been accredited by The Higher Learning Commission (HLC) since 1926. The HLC may be contacted at:

The Higher Learning Commission
230 North LaSalle St.
Suite 7-500
Chicago, IL 60604-1411
Phone: (800) 621-7440

In addition, the university maintains various specialized and professional accreditations, as listed at the beginning of each college section in the catalog, and as found at https://accreditation.nmsu.edu/specialized-accreditation/.

NMSU Graduation and Retention Rates

These rates may be found on the NMSU Institutional Research web site at: http://oia.nmsu.edu/data-reports/oiareports/.
PROGRAMS A-Z

A
• Accounting - Bachelor of Accountancy (p. 548)
• Accounting - Master of Accountancy (p. 554)
• Accounting - Undergraduate Minor (p. 553)
• Advertising - Undergraduate Minor (p. 601)
• Aerospace Engineering - Bachelor of Science in Aerospace Engineering (p. 850)
• Aerospace Engineering - Doctor of Philosophy (p. 856)
• Aerospace Engineering - Master of Engineering (p. 854)
• Aerospace Engineering - Master of Science in Aerospace Engineering (p. 855)
• Aerospace Engineering - Undergraduate Minor (p. 854)
• Aerospace Studies - Undergraduate Minor (p. 237)
• Agricultural and Community Development - Bachelor of Science in Agriculture (p. 110)
• Agricultural and Extension Education - Bachelor of Science in Agriculture (p. 111)
• Agricultural and Extension Education - Graduate Minor (p. 113)
• Agricultural and Extension Education - Master of Arts (p. 113)
• Agricultural and Extension Education - Undergraduate Minor (p. 113)
• Agricultural and Natural Resource Leadership - Undergraduate Minor (p. 113)
• Agricultural Biology - Bachelor of Science in Agriculture (p. 146)
• Agricultural Biology - Master of Science (p. 152)
• Agricultural Business Management - Undergraduate Minor (p. 123)
• Agricultural Business Management - Undergraduate Minor (p. 217)
• Agricultural Engineering - Undergraduate Minor (p. 745)
• Agriculture - Bachelor of Science (p. 124)
• Agriculture - Master of Agriculture (p. 129)
• Agriculture - Master of Business Administration (p. 125)
• Agronomy - Bachelor of Science in Agriculture (p. 204)
• Agronomy - Undergraduate Minor (p. 217)
• Algorithm Theory - Undergraduate Minor (p. 326)
• American Government and Politics - Undergraduate Minor (p. 405)
• Animal Science - Bachelor of Science in Agriculture (p. 134)
• Animal Science - Doctor of Philosophy (p. 141)
• Animal Science - Graduate Minor (p. 142)
• Animal Science - Master of Science (p. 140)
• Animation and Visual Effects - Bachelor of Creative Media (p. 336)
• Animation and Visual Effects - Undergraduate Minor (p. 342)
• Anthropology - Bachelor of Arts (p. 244)
• Anthropology - Graduate Minor (p. 251)
• Anthropology - Master of Arts (p. 249)
• Anthropology - Undergraduate Minor (p. 247)
• Applied Mathematics - Supplemental Major (p. 475)
• Applied Statistics - Graduate Minor (p. 231)
• Applied Statistics - Graduate Minor (p. 577)
• Athletic Training - Bachelor of Science in Athletic Training (p. 641)

B
• Biochemistry - Bachelor of Science (p. 299)
• Biochemistry - Undergraduate Minor (p. 302)
• Bioinformatics (with Computer Science) - Graduate Minor (p. 484)
• Bioinformatics - Master of Science (p. 327)
• Bioinformatics - Undergraduate Minor (p. 327)
• Biology - Bachelor of Arts (p. 285)
• Biology - Bachelor of Science (p. 286)
• Biology - Doctor of Philosophy (p. 293)
• Biology - Master of Science (p. 292)
• Biology - Undergraduate Minor (p. 291)
• Biomedical Engineering - Bachelor of Science (p. 725)
• Biomedical Engineering - Undergraduate Minor (p. 725)
• Business Administration - Doctor of Philosophy (p. 559)
• Business Administration - Master of Business Administration (p. 557)
• Business Administration - Undergraduate Minor (p. 546)
• Business Law - Undergraduate Minor (p. 582)

C
• Chemical Engineering - Bachelor of Science in Chemical Engineering (p. 723)
• Chemical Engineering - Doctor of Philosophy (p. 728)
• Chemical Engineering - Master of Science in Chemical Engineering (p. 726)
• Chemical Process Industry - Master of Engineering (p. 727)
• Chemistry - Bachelor of Arts (p. 300)
• Chemistry - Bachelor of Science (p. 301)
• Chemistry - Doctor of Philosophy (p. 303)
• Chemistry - Master of Science (p. 302)
• Chemistry - Undergraduate Minor (p. 302)
• Chicano Studies - Supplementary Major (p. 457)
• Child Advocacy Studies (CAST) - Undergraduate Minor (p. 181)
• Child Advocacy Studies - Undergraduate Minor (p. 351)
• Civil Engineering (Environmental) - Bachelor of Science in Civil Engineering (p. 735)
• Civil Engineering (General) - Bachelor of Science in Civil Engineering (p. 737)
• Civil Engineering (Geotechnical) - Bachelor of Science in Civil Engineering (p. 739)
• Civil Engineering (Structural) - Bachelor of Science in Civil Engineering (p. 741)
• Civil Engineering (Water Resources) - Bachelor of Science in Civil Engineering (p. 743)
• Civil Engineering - Master of Engineering (p. 747)
• Civil Engineering - Master of Science in Civil Engineering (p. 748)
• Clinical Mental Health Counseling - Master of Arts (p. 617)
• Clinical Psychopharmacology - (Postdoctoral) Master of Science (p. 617)
• Clothing, Textiles and Fashion Merchandising - Undergraduate Minor (p. 181)
• Communication Disorders - Bachelor of Science in Education (p. 625)
• Communication Disorders - Master of Arts (p. 626)
• Communication Studies - Bachelor of Arts (p. 307)
• Communication Studies - Graduate Minor (p. 310)
• Communication Studies - Master of Arts (p. 309)
• Communication Studies - Undergraduate Minor (p. 309)
• Comparative Politics - Undergraduate Minor (p. 405)
• Computational Data Analytics - Master of Computational Data Analytics (p. 328)
• Computational Engineering - Undergraduate Minor (p. 725)
• Computer Engineering - Undergraduate Minor (p. 774)
• Computer Science - Bachelor of Arts (p. 319)
• Computer Science - Bachelor of Science (p. 322)
• Computer Science - Bachelor of Science/Master of Science (p. 325)
• Computer Science - Doctor of Philosophy (p. 330)
• Computer Science - Graduate Minor (p. 330)
• Computer Science - Master of Science (p. 329)
• Computer Systems - Undergraduate Minor (p. 327)
• Conservation Ecology - Bachelor of Science in Conservation Ecology (p. 187)
• Conservation Ecology - Bachelor of Science in Conservation Ecology (p. 287)
• Conservation Ecology - Undergraduate Minor (p. 191)
• Conservation Ecology - Undergraduate Minor (p. 291)
• Counseling and Community Psychology - Bachelor of Science (p. 615)
• Counseling and Educational Psychology - Undergraduate Minor (p. 616)
• Counseling Psychology - Doctor of Philosophy (p. 617)
• Creative Writing - Master of Fine Arts in Creative Writing (p. 378)
• Creative Writing - Undergraduate Minor (p. 373)
• Criminal Justice - Bachelor of Criminal Justice (p. 347)
• Criminal Justice - Master of Criminal Justice (p. 352)
• Culinary Science - Undergraduate Minor (p. 181)
• Cultural Resource Management - Graduate Certificate (p. 250)
• Curriculum and Instruction - Doctor of Education (p. 703)
• Curriculum and Instruction - Doctor of Philosophy (p. 706)

D
• Dairy Science - Undergraduate Minor (p. 138)
• Dance - Bachelor of Arts in Dance (p. 643)
• Dance - Undergraduate Minor (p. 649)
• Digital Communications - Graduate Certificate (p. 778)
• Digital Electronic Applications - Undergraduate Minor (p. 831)
• Digital Film Making - Bachelor of Creative Media (p. 340)
• Digital Film Making - Undergraduate Minor (p. 342)
• Digital Forensics - Undergraduate Minor (p. 832)
• Digital Signal Processing - Graduate Certificate (p. 779)

E
• Early Childhood Education - Bachelor of Science in Education (p. 671)
• Early Childhood Education - Undergraduate Minor (p. 692)
• Economic Development - Doctor of Economic Development (p. 126)
• Economics - Bachelor of Arts (p. 355)
• Economics - Bachelor of Arts in Economics (p. 566)
• Economics - Bachelor of Business Administration (p. 568)
• Economics - Doctor of Economic Development (p. 576)
• Economics - Graduate Minor (p. 577)
• Economics - Master of Arts (p. 575)
• Economics - Undergraduate Minor (p. 358)
• Economics - Undergraduate Minor (p. 574)
• Education (Bilingual Education) - Master of Arts (p. 692)
• Education (Curriculum & Instruction) - Master of Arts (p. 693)
• Education (Dance) - Master of Arts in Teaching (p. 698)
• Education (Early Childhood Education) - Master of Arts (p. 697)
• Education (Educational Learning Technologies) - Master of Arts (p. 697)
• Education (Language, Literature & Culture) - Master of Arts (p. 697)
• Education (Spanish) - Master of Arts in Teaching (p. 699)
• Education (TESOL) - Master of Arts (p. 698)
• Educational Administration (Doctoral) - Graduate Minor (p. 710)
• Educational Administration (Higher Administration) - Doctor of Education (p. 703)
• Educational Administration (Higher Ed.) - Graduate Minor (p. 709)
• Educational Administration (Higher Education Administration) - Master of Arts (p. 699)
• Educational Administration (Higher Education) - Doctor of Philosophy (p. 706)
• Educational Administration (Pk-12 Administration) - Doctor of Education (p. 704)
• Educational Administration (Pk-12 Administration) - Doctor of Philosophy (p. 708)
• Educational Administration (Pk-12 Administration) - Master of Arts (p. 708)
• Educational Administration (Pk-12) - Graduate Minor (p. 710)
• Educational Leadership - Bachelor of Science (p. 672)
• Educational Leadership and Administration - Undergraduate Minor (p. 692)
• Electric Energy Systems - Graduate Certificate (p. 779)
• Electrical Engineering (Communications and Signal Processing) - Bachelor of Science in Electrical Engineering (p. 763)
• Electrical Engineering (Computers and Microelectronics) - Bachelor of Science in Electrical Engineering (p. 766)
• Electrical Engineering (Control & Power) - Bachelor of Science in Electrical Engineering (p. 768)
• Electrical Engineering (Electromagnetics and Photonics) - Bachelor of Science in Electrical Engineering (p. 770)
• Electrical Engineering (Space Systems) - Bachelor of Science in Electrical Engineering (p. 772)
• Electrical Engineering - Bachelor of Science in Electrical Engineering (p. 761)
• Electrical Engineering - Doctor of Philosophy (p. 778)
• Electrical Engineering - Master of Engineering (p. 775)
• Electrical Engineering - Master of Science in Electrical Engineering (p. 776)
• Electrical Engineering - Undergraduate Minor (p. 775)
• Elementary Education (Language Arts K-8) - Bachelor of Science in Education (p. 674)
• Elementary Education (Math K-8) - Bachelor of Science in Education (p. 675)
• Elementary Education (Science K-8) - Bachelor of Science in Education (p. 676)
• Elementary Education (Social Studies K-8) - Bachelor of Science in Education (p. 677)
• Engineering - Doctor of Philosophy (p. 751)
• Engineering - Doctor of Philosophy (p. 842)
• Engineering - Doctor of Philosophy (p. 857)
• Engineering Physics - Bachelor of Science in Engineering Physics (p. 511)
• Engineering Physics - Bachelor of Science in Engineering Physics (p. 785)
• Engineering Technology - Civil - Bachelor of Science in Engineering Technology (p. 798)
• Engineering Technology - Electronics and Computer - Bachelor of Science in Engineering Technology (p. 811)
• Engineering Technology - Information - Bachelor of Science in Engineering Technology (p. 819)
• Engineering Technology - Mechanical - Bachelor of Science in Engineering Technology (p. 823)
• Engineering/MBA Program – Dual Degree (p. 559)
• English - Bachelor of Arts (p. 368)
• English - Master of Arts (p. 376)
• English - Undergraduate Minor (p. 373)
• Enterprise Systems - Undergraduate Minor (p. 554)
• Entomology - Undergraduate Minor (p. 151)
• Entrepreneurship - Undergraduate Minor (p. 839)
• Entrepreneurship and Innovation (Business Cluster) - Undergraduate Minor (p. 582)
• Environmental Engineering - Master of Science in Environmental Engineering (p. 750)
• Environmental Engineering - Undergraduate Minor (p. 746)
• Environmental Science - Bachelor of Science in Environmental Science (p. 205)
• Ethics - Undergraduate Minor (p. 504)
• Exercise Science - Undergraduate Minor (p. 650)
• Experimental Psychology - Bachelor of Arts (p. 523)
• Experimental Psychology - Doctor of Philosophy (p. 524)
• Experimental Psychology - Master of Arts (p. 523)

F
• Family and Child Science - Bachelor of Science in Family and Consumer Sciences (p. 163)
• Family and Child Science - Undergraduate Minor (p. 182)
• Family and Consumer Sciences - Master of Science (p. 182)
• Family and Consumer Sciences Education - Bachelor of Science in Family and Consumer Sciences (p. 165)
• Family Nurse Practitioner - Graduate Certificate (p. 874)
• Fashion Merchandising and Design - Bachelor of Science in Family and Consumer Sciences (p. 167)
• Finance - Bachelor of Business Administration (p. 580)
• Finance - Graduate Certificate (p. 583)
• Finance - Undergraduate Minor (p. 583)
• Fish, Wildlife and Conservation Ecology - Master of Science in Fish, Wildlife and Conservation Ecology (p. 192)
• Fisheries and Wildlife Science - Bachelor of Science in Fish, Wildlife and Conservation Ecology (p. 188)
• Food Science - Bachelor of Science in Food Science and Technology (p. 169)
• Food Science and Technology (Culinary Science) - Bachelor of Science in Food Science and Technology (p. 174)
• Food Science and Technology (Meat Science) - Bachelor of Science in Food Science and Technology (p. 171)
• Food Science and Technology (Science, Technology and Engineering) - Bachelor of Science in Food Science and Technology (p. 174)
• Food Studies - Graduate Minor (p. 252)
• Foreign Languages (French) - Bachelor of Arts (p. 446)
• Foreign Languages (German) - Bachelor of Arts (p. 449)
• Foreign Languages (Spanish) - Bachelor of Arts (p. 452)
• Forensic Science - Undergraduate Minor (p. 351)
• French - Undergraduate Minor (p. 456)

G
• Gender and Sexuality Studies - Bachelor of Arts (p. 423)
• Gender and Sexuality Studies - Graduate Minor (p. 427)
• Gender and Sexuality Studies - Undergraduate Minor (p. 426)
• General Agriculture - Bachelor of Science in Agriculture (p. 104)
• General Business - Bachelor of Business Administration (p. 587)
• Genetics and Biotechnology - Bachelor of Science in Genetics (p. 206)
• Genetics and Biotechnology - Bachelor of Science in Genetics (p. 288)
• Genetics and Biotechnology - Undergraduate Minor (p. 217)
• Genetics and Biotechnology - Undergraduate Minor (p. 291)
• Geographic Information Systems - Bachelor of Science (p. 231)
• Geographic Information Systems - Graduate Minor (p. 389)
• Geographic Information Systems - Graduate Minor (p. 390)
• Geography (Geographic Information Science & Tech) - Bachelor of Science (p. 383)
• Geography (Human/Environment Relationships) - Bachelor of Science (p. 386)
• Geography - Master of Applied Geography (p. 390)
• Geography - Undergraduate Minor (p. 390)
• Geology - Bachelor of Science (p. 393)
• Geology - Master of Science (p. 398)
• Geology - Undergraduate Minor (p. 397)
• Geomatics - Bachelor of Science in Geomatics (p. 828)
• Geomatics - Undergraduate Minor (p. 832)
• German - Undergraduate Minor (p. 456)
• Gerontology - Undergraduate Minor (p. 881)

• Sports Marketing - Undergraduate Minor (p. 602)
• Structural Engineering - Undergraduate Minor (p. 746)
• Sustainability - Graduate Certificate (p. 560)
• Sustainability - Undergraduate Minor (p. 596)
• Sustainable Development - Undergraduate Minor (p. 248)
• Systems Engineering - Graduate Certificate (p. 843)

T
• Telemetry - Graduate Certificate (p. 779)
• Theatre Arts - Bachelor of Arts (p. 537)
• Theatre Arts - Undergraduate Minor (p. 542)
• Turfgrass Science and Management - Bachelor of Science in Agriculture (p. 212)
• Turfgrass Science and Management - Undergraduate Minor (p. 217)

U
• U.S.-Mexico Border Health Issues - Undergraduate Minor (p. 882)

W
• Water Science and Management - Doctor of Philosophy (p. 228)
• Water Science and Management - Master of Science (p. 226)
• Weed Science - Undergraduate Minor (p. 151)
• Wildlife Science - Undergraduate Minor (p. 192)

Z
• Zero-to-Four (Early Childhood) - Bachelor of Applied Studies (p. 690)
What Are Meta-Majors?

Meta-majors at NMSU are two-semester academic maps designed as planning tools for students who have not yet decided on a program of study. Each meta-major represents a broad cluster of degree programs. The meta-major academic maps include courses (such as English and Math) that lay the academic foundation for all of the degree programs represented by the specific meta-major as well as course options that facilitate exploration of the various disciplines represented.

Meta-majors share a common early pathway toward a degree, diverging as a student becomes more focused on an individual major. By identifying a limited number of meta-majors that encompass all the majors at NMSU, and helping students who are unsure about a major choose a meta-major consistent with their interests, we can help ensure that courses taken early in a collegiate career will count toward a degree, thereby lessening the academic wandering that can impede student success.

Students will be directed to a meta major only if they are uncertain what they want to study. Students who are certain of their major will be advised into courses that are in that major’s degree plan.

- Applied and Clinical Health Sciences
- Applied Social and Behavioral Sciences
- Business
- Communication, Media Study, and Creative Arts
- Humanities and Social Sciences

• Zero-to-Four (Early Childhood) - Bachelor of Applied Studies (p. 690)
ESSENTIAL INFORMATION FOR STUDENTS

The information provided in this section of the Academic Catalog is considered essential information for students throughout their time at New Mexico State University. The section includes information on Admissions, Tuition, Financial Aid, Military and Veterans Programs and General Education Course requirements. There are also sections pertaining to Student Resources such as Housing, Campus Activities and parking to name a few.

Sections
• Undergraduate Admissions (p. 23)
• Transfer Undergraduate Students (p. 25)
• International Undergraduate Students (p. 26)
• Tuition, Fees and Other Expenses (p. 29)
• Financial Aid & Scholarship Services (p. 31)
• Registration (p. 67)
• Withdrawals (p. 74)
• Resources for Students (p. 33)
• Graduate Research Facilities (p. 40)
• Military and Veterans Programs (MVP) (p. 46)
• General Education Courses (p. 49)
• Graduation Requirements (p. 56)
• Recognition of Academic Achievement (p. 56)
• Preprofessional Programs (p. 56)
• Academic Programs (p. 56)

Undergraduate Admissions

Under the policies and conditions set forth below, a student may be accepted for undergraduate admission to NMSU as either:

• A degree-seeking student or
• A nondegree student under the policies and conditions as set forth in this section.

Degree-Seeking Students

How to Apply as a First-Time Student (Regular Student)

Requirements for admission as a degree-seeking student:

• Application for admission, accompanied by a one-time $20 nonrefundable application fee
• Official high school transcripts with the student’s high school credits sent directly from the high school to NMSU Undergraduate Admissions
• Official results of the American College Testing (ACT) program or Scholastic Aptitude Test (SAT) sent directly from the testing centers to NMSU Undergraduate Admissions.
• If applicable, official post-secondary education transcripts sent directly from each institution attended to NMSU Undergraduate Admissions

All freshman applicants are required to submit scores from either the ACT or the SAT and final, official high school transcript showing a graduate date before a final admission decision is granted.

Freshman Admission Requirements

Students who meet the minimum high school course requirements of the state from which they receive their high school diploma must meet one of the following criteria in order to be admitted:

• Cumulative high school GPA of 2.75, or
• ACT composite score of 21 or SAT score of 1060, or
• Ranked in the top 20 percent of their graduating class

Applicants who meet at least one of the criteria listed above will be admitted to NMSU. An applicant who does not meet admission requirements may be admitted if a review of additional information indicates that the student would be successful at NMSU. When reviewing the admissibility of students, the Undergraduate Admission office considers many factors, including high school GPA, test scores, dual-credit coursework, leadership experience, community involvement, and other accomplishments. Applicants may be asked for additional information, including academic letters of recommendation, in support of their application.

Aggie Pathway

In the Aggie Pathway program, NMSU’s system of five campuses work together to navigate those students who do not meet the admission requirements to the university campus to a bachelor’s degree. Aggie Pathway students begin at one of NMSU’s community college campuses and may transition to the university campus upon meeting the following requirements:

• Successful completion of 24 credits, in addition to any required developmental courses
• 2.5 cumulative college GPA

All students participating in the Aggie Pathway program can attend academic, cultural and athletic events on the NMSU Las Cruces campus. Students enrolling through NMSU Doña Ana Community College campus also have access to on-campus housing and dining.

More information about Aggie Pathway is available at https://aggiepathway.nmsu.edu/.

How to Apply as a GED or HiSET Student

Students must complete the GED or HiSET in English. Satisfactory scores on either the GED or HiSET tests, official high school transcript and official ACT or SAT scores are required.

How to Apply as a Home School Student

Home school educators must submit a signed transcript or document that lists the courses completed and grades earned by the student, as well as indicate the date the student completed or graduated from the home school program. An official ACT or SAT score is also required.

Home school students who are New Mexico residents and wish to participate in the Lottery Success Scholarship program are required to submit official New Mexico GED or HiSET test results in English.

Aggie Welcome and Orientation

Orientation for all new students is mandatory. At NMSU’s Aggie Welcome and Orientation (AWO) programs, students will attend information
sessions, learn about campus resources, college life, meet with an academic advisor, and register for classes.

It is important that students submit an official ACT or SAT score prior to attending an AWO program as these scores are used to place students into courses during academic advising. Students who do not have an ACT or SAT score on file for their AWO program will not receive a final schedule upon completion of orientation and may be subject to a change of schedule upon receiving official test scores.

More information about Aggie Welcome and Orientation is available at https://awo.nmsu.edu/.

Nondegree- Seeking Students
How to Apply as a Nondegree Seeking Student
Nondegree admission is designed to meet the needs of non-traditional, part-time students who do not wish to pursue a degree at NMSU. Courses taken in this status may not be used to meet university admission requirements. Students interested in using nondegree credit for initial teacher certification or certification in a new field must contact the College of Education.

Students on nondegree status are ineligible to:

• Receive financial aid or student employment
• Participate in student government or intercollegiate athletics
• Receive benefits from any veterans' program

Transcripts from previous institutions, high school, and/or results of college entrance exams may be required to assure readiness for university-level courses. A $20 one-time, non-refundable, nondegree application fee is required.

Nondegree students are subject to the same university regulations as degree-seeking students.

Changing from Nondegree Status
A nondegree student in good academic standing at NMSU must submit a formal application for a change of status from nondegree to degree-seeking. Requirements for regular admission must be met. Nondegree students may not transfer more than 30 credits from this status to any undergraduate degree program except for students participating in a high school concurrent enrollment program.

How to Apply For Readmission
Former students of the NMSU system, who have been out of school for more than two consecutive semesters, are required to make a formal application for readmission. Applications should be submitted to the Undergraduate Admissions office before the start date of the semester for which the student plans to enroll.

A student who has attended other institutions during an absence must have official transcripts sent to the Undergraduate Admissions office and must be eligible to return to the college or university they last attended. Transcripts must be received before the date of registration. Admission status at the time of readmission will generally be determined by previous NMSU academic standing. However, academic performance at other institutions attended during the applicant's absence from NMSU may be taken into consideration in determining the student's admission status.

Opportunities for High Schools Students
Dual Credit for High School Students
The Dual Credit program is designed to give high school students an opportunity to enroll at NMSU before high school graduation. Students must be either a junior or senior in high school and enrolled in one-half or more of the minimum course requirements approved by the following:

• Public Education Department in a New Mexico public school district
• Locally chartered and state-chartered charter school
• State-supported school
• Bureau of Indian Education-funded high school

Under Senate Bill 158 signed by the Governor and effective July 1, 2014, support for dual credit privileges at post-secondary institutions is now available for private and home school-eligible students. Under a Statewide Dual Credit Master Agreement between NMSU and the school district, students enrolled in approved dual credit courses are eligible to have the full cost of tuition and general fees waived.

Dual credit students must:

• Apply for Undergraduate Admission
• Provide official high school transcript and official ACT or SAT scores to the Undergraduate Admissions Office, and
• Complete the State of New Mexico Dual Credit Request Form

Requirements to be admitted to the dual credit or early admission programs are:

• A high school grade point average (GPA) of 3.0
• An ACT composite of 23 or equivalent SAT score, and
• Substantial progress toward completion of the following high school courses, as approved by the secondary school official:
  • Four units of English
  • Four units of math (Algebra 1, Geometry, Algebra 2, and one additional math course)
  • Two units of science (beyond General Science)
  • One unit of a foreign language or a unit of fine arts

Application Materials
All documents submitted as part of the official admissions process become the property of NMSU and will not be returned to the student. Application materials are retained for one calendar year for students who apply but do not attend.

Application Deadlines
Applications for admission should be sent to the Undergraduate Admissions Office at least 30 days before the beginning of the regular semester or summer sessions in which the student intends to enroll. The deadline for application to NMSU’s Nursing Program is February 1st for the fall semester and September 1st for the Spring semester.

Out-of-State Students and Legal Jurisdiction
By applying for admission/enrollment, both the student and parents agree that New Mexico law prevails and all litigation will be in federal or state court in New Mexico.
Transfer Undergraduate Students

NMSU evaluates eligible courses for NMSU transfer equivalency from postsecondary institutions that are regionally accredited or are candidates for regional accreditation. Credits from non-accredited institutions may be evaluated, by the student’s academic college, after the student has shown acceptable performance at NMSU for two semesters of full-time enrollment. Academic colleges, within NMSU, may have additional requirements for course transfer. Please contact the College Dean’s Office for more information.

Transfer students are subject to the same graduation requirements as all NMSU baccalaureate-degree (bachelor’s) seeking students. Thirty (30) of the last 36 credit hours for every degree to be awarded from NMSU must be earned at NMSU.

Community/Junior College Transfers

Community/Junior college transfer students may be admitted and classified on the basis of acceptable credits earned at a two-year institution. However, transfer students are subject to the same graduation requirements as all NMSU-Las Cruces campus baccalaureate-seeking students. This includes the required minimum number of 48 upper division credits from courses numbered 300 or above and the requirement that the last 30 credits must be earned through this university.

NOTE: Students currently enrolled at an NMSU Community College (Alamogordo, Dona Ana, Carlsbad or Grants) are not considered transfer students. If a student wants to change campuses they must submit a Change of Campus form.

Transfer of International Credit

Applications for admission that include the transfer of credits earned at a non-U.S. university must include a professional foreign credit evaluation report from a member institution of the National Association of Credential Evaluation Services (NACES) for every transcript from a foreign secondary school and/university attended.

Transfer Students- Admission Requirements

1. Transfer students must provide official transcripts sent directly from the University Student Records Office of each previously attended institution to the NMSU Admissions Office or official transcripts will be accepted if delivered in person only if in a sealed envelope from the granting institution and with current issue date. Official transcripts must be received before the date of registration.
2. Students who have not earned credit for the first semester of college English may be required to provide ACT or SAT scores directly to the NMSU Admissions Office.
3. Students with 30 or more college credit hours must have a cumulative grade point average (GPA) of at least 2.0.
4. Students with 29 or fewer college credit hours must fulfill the freshman admission requirements and have an overall college GPA of at least 2.50.
5. Students must be eligible to return to their last college or university.
6. Any student who conceals the fact that he/she has attended another college or university and has not submitted a transcript for each institution—whether or not credit was earned—will be subject to immediate suspension.
7. NMSU will uphold academic and judicial suspensions from other colleges and universities.

General Requirements for Transfer Credits

Credit will be awarded for transfer courses as follows:

1. Grades earned in courses taken at other institutions are not included in the calculation of the NMSU GPA, except for grades earned by approved National Student Exchange students.
2. A grade of D or better is required to grant NMSU credit for courses identified as having an NMSU equivalent.
3. Colleges or departments may require a grade of C- or higher for courses required in their programs.
4. Each college determines which transferred courses are applicable toward a degree or a minor.
5. Transcripts may need to be reevaluated when students transfer from one NMSU campus or College to another.
6. Currently enrolled students must obtain prior approval from their academic department head and dean before courses taken at another institution will be applied toward meeting NMSU graduation requirements.

Student Responsibility

Planning for effective transfer with maximum efficiency is ultimately the student's responsibility. Responsible transfer planning includes early and regular consultation with the intended degree-granting institution to assure that all pre-transfer coursework will meet the requirements of the desired degree.

NMSU maintains a database (http://nmsudirect.nmsu.edu/) of commonly transferred courses from numerous institutions. Courses included in the database at the time the student is admitted to NMSU will automatically transfer to NMSU, provided the student follows all guidelines (see Currently Enrolled NMSU Students below). If a transferred course does not exist in the database, it is the student’s responsibility to provide the departmental faculty with sufficient materials (e.g. catalog description, syllabi, etc.) to determine if any of the department’s courses may be equivalent to the credits being transferred.

Evaluation of Transfer Credits

NMSU has 3 levels of course credit transfer. Once a student has been admitted to NMSU, they are awarded credit for equivalent courses accordingly. Following award of credit as described in Levels 1 and 2 (below), application of any additional credit transfer via specific Program Articulation agreements will be approved by the student’s academic department and dean, including additional courses in the major that may count toward a degree or a minor but, are not included in a Program Articulation.

Level 1

Automatic course-to-course equivalency credit transfer from colleges/universities in the state of New Mexico, per the New Mexico Higher Education Department (NM HED) articulation modules. Eligible credits for
Level 1 transfers will be automatically applied to the student’s transcript, provided minimal grade requirements are met. Level 1 equivalency includes

1. New Mexico State Common Core general education courses
2. New Mexico State articulated academic programs (e.g. Business, Early Childhood Education, and NM Nursing Education Curriculum).

Level 2
Faculty established NMSU course-to-course equivalency transfer

1. Equivalency is determined by the designated departmental faculty in the department/program in which the equivalent course is offered, and may include a review of course description, syllabus and/or interaction with the other institution. If a course equivalency does not exist in the database, it is the student’s responsibility to provide departmental faculty with sufficient materials to determine if any of the department’s courses may be equivalent to the credits being transferred.
2. Credit for courses transcripted with NMSU equivalency may/will count toward the degree/major.
3. Credit for courses with no NMSU equivalence will be transcripted as 100E (lower level) or 300E (upper level) and may or may not count as credit toward a specific degree. Departmental faculty may accept the "E" course as elective credit toward the degree, or as a substitute for a course not applied universally.

Level 3
Specific Program Articulation between an NMSU program/department and a program/department at another institution.

1. Program Articulation with other institutions is monitored at the department/program level in accordance with articulation agreements and may include credit transfers that are applicable only to the specific degree articulated (i.e. credit for courses may change depending on degree student declares).
2. Because Level 3 transfer credit is degree specific, transcripts must be re-evaluated when a student changes their major or college. Level 3 transfer credits are not applied universally.

Religious Center Courses in Religion
Courses in religion, offered by the various religious centers through higher educational institutions with which they are affiliated, are open to all students and these or similar courses from other colleges/universities may be transferred for elective credit ("E") to NMSU. Registration for these courses is separate from the NMSU System's registration and is conducted by the religious center offering the course.

No more than 6 credits in such courses may be transferred to NMSU. To transfer earned credits to NMSU, the student must do the following:

1. Obtain written approval from the student’s department head and academic dean prior to registration for the course
2. Count the credit in the course as part of the total semester load
3. Upon completion of the course, request that the institution granting the credit send a transcript of the credit to the Undergraduate Admissions Office at the NMSU-Las Cruces

National Student Exchange (NSE)
Courses transferred back to the NMSU System by students participating in the National Student Exchange (NSE) Program will be evaluated as NMSU (system) courses and recorded on the student's academic record.

All computable grades earned will be included in calculating the student’s cumulative grade point average.

Currently Enrolled NMSU Students
Currently, enrolled students must obtain prior approval from their academic department head and dean before courses taken at another institution will be applied toward meeting NMSU graduation requirements.

Transfer Credit Appeal Process
All New Mexico public post-secondary institutions are required to establish policies and practices for receiving and resolving complaints from students or from other complainants regarding the transfer of coursework from other public institutions in the state. A copy of NMSU's transfer credit policy may be obtained from the University Student Records Office or from the Deputy Secretary for Academic Affairs, Higher Education Department, 2048 Galisteo St., Santa Fe, New Mexico 87505-2100.

International Undergraduate Students
International students are an important and valuable part of NMSU's community. While international students enjoy all the rights, privileges and protections of domestic students, as well as subject to all the same responsibilities and regulations, some special policies are applicable only to international students. The Office of International Student and Scholar Services (ISSS) is responsible for ensuring the visa and admissions requirements are met and explaining university standards for admission. Some students not seeking degrees, such as international exchange students, may also work directly with the Office of Education Abroad.

Federal Regulations
An international student is any individual attending NMSU while present in the United States on a non-immigrant student visa (F-1, F-2, J-1, J-2, H-4, NATO visas, and possibly others such as students in temporary protected status).

Lawful permanent residents (green card holders) should present documentation of their status to University Student Records and go through the same admission process as U.S. citizens.

The United States Department of Homeland Security has established rules for students in non-immigrant status, such as those with F-1 or J-1 visa types. Some of these rules include:

1. For immigration purposes, each student must maintain full-time student status
   a. Full time status for fall and spring semesters is defined as 12 or more credits for undergraduates (only 3 online credits can apply to the full-time requirement).
   b. Full time status for summer is defined according to NMSU requirements (only 3 online credits can apply to the full-time requirement for students beginning their program in the summer).
   c. Exceptions possible for final semester. Consult ISSS officials for more details.
2. International students may not work off campus without authorization. On-campus employment may be authorized under certain conditions.
3. All international students must maintain an up-to-date record in the ISSS Office. This record must indicate the student's current living address, phone number, and email address.

4. Prior to admission, a prospective international student must demonstrate the following:
   - Academic ability to succeed in the chosen course of study.
   - Adequate financial support to complete the chosen course of study.
   - English language proficiency as defined by the university.

**University Procedures for International Students**

**Regular Undergraduate Admission (Degree Seeking)**
International students are subject to the same admissions standards as all other NMSU students, but some additional requirements apply. This section addresses those additional requirements. Visit [https://issis.nmsu.edu/#admissions](https://issis.nmsu.edu/#admissions) for more information.

Applications for admission that include the transfer of credits earned at a non-U.S. university must include a professional foreign credit evaluation report from a member institution of the National Association of Credential Evaluation Services (NACES) for every transcript from a foreign secondary school and/or university attended.

**English Language Proficiency Requirements**
For full undergraduate admission to the university, NMSU requires a score of 520 (paper-based) or 68 (internet-based) or better on the Test of English as a Foreign Language (TOEFL), or a score of 6.0 on the International English Language Testing System (IELTS), for all international students both non-degree and degree seeking. Prior to full admission, international students may also demonstrate English proficiency by satisfactorily completing NMSU’s Center for English Language Programs (CELP) programs (see Conditional CELP Admission section).

A waiver of the TOEFL/IELTS requirement may be considered for:

1. Students who are native speakers of English.
2. Students completing high school in the United States who (a) have attended the high school for at least two full years and (b) have scored in at least the 75th percentile in English on the ACT.
3. Students transferring from a two-year college, community college, or university in the United States who have earned a minimum of 30 acceptable semester credits (45 acceptable quarter credits) with a GPA of 2.0 or better (acceptable credit means classes that require a high proficiency in both written and oral English).
4. Students enrolling in certain programs where English language proficiency is not required.
5. Students completing coursework in CELP. Satisfactory completion of each level in CELP requires a final grade of no less than 70% in all courses as evidenced by an end of level standardized test. If a student does not meet the 70% on the end of level test they will need to repeat the level. A level consists of classes in Listening/Speaking, Grammar, Writing, and Reading/Vocabulary. The test is comprised of sections that reflect those areas of English proficiency. Visit [http://celp.nmsu.edu/](http://celp.nmsu.edu/) for full details.

6. Students scoring a 75% or better on the English section of The China National College Entrance Examination (NCEE), commonly known as Gaokao, and passing the Oral Language Test given by CELP.
7. Students scoring a 70%---(3) or better in English with the International Baccalaureate.

The university reserves the right to require any prospective international student to meet the TOEFL or IELTS requirement.

**English Language Placement Test**
Placement in writing classes for international students is determined by the results of the English Language Placement Test (ELPT).

Based on the results of the ELPT, the student is either assigned to SPCD 110 (a bridge course designed to ensure success in ENGL 111 M), or is allowed to enroll directly into ENGL 111 M (for multilingual students). Please note that these classes are only available on NMSU’s Las Cruces Campus. International students excused from SPCD 110 will be required to take ENGL 111 M. The student may then be required to complete one or more regular English classes as required for a particular degree. Completing basic English courses at other U.S. institutions does not automatically satisfy the ENGL 111 M requirement. Equivalencies for SPCD 110 and equivalencies for ENGL 111 M or ENGL 111G are determined by the University Student Records Office, who may refer exceptional cases to the English Department in the College of Arts and Sciences.

In cases of dramatic discrepancies between TOEFL/IELTS scores and the ELPT, the ELPT results shall determine placement.

**Conditional CELP Admission:**
NMSU, via Center for English Language Programs (CELP), conducts an intensive English language program for undergraduate students to prepare them to pursue their degree programs at NMSU. International students admitted into this conditional admission program are admitted to the university for the sole purpose of studying English with a guarantee of full admission to the university upon completion of the CELP program (subject to all other admission requirements). Only undergraduate students who are conditionally admitted and complete the full sequence of CELP courses, and have satisfactorily passed the end of program English proficiency test will be admitted to the University without the TOEFL or IELTS. All graduating CELP students must take the English Language Placement Test (ELPT) to be correctly placed within the English department's credit bearing courses. Placing out of levels by retaking the TOEFL is not allowable once conditional admission status has been granted. Visit [http://celp.nmsu.edu/](http://celp.nmsu.edu/) for full details.

Exchange students who are here to improve their English skills and participate in some credit courses will be placed in CELP according to their English language proficiency and will complete the sequence of intensive English until they complete the last class in the program. Then they will matriculate into the academic sector of the university for a semester of courses in their chosen fields.

**Proof of Financial Support**
The university reserves the right to require advance deposit of funds for any period deemed reasonable prior to granting admission. Each prospective international student must submit a current financial support document with his/her application. This document must show that:
1. The person providing the financial support has the necessary funds.
2. The funds can be transferred from the student's home country to the United States.
3. Proof of adequate financial support should be sent directly to ISSS.

**Admission Restrictions**

International student admission may be prohibited based on one of the following conditions:

1. The dean of a chosen college, the department head of a chosen major, and the President of a Community College campus may refuse to grant admission.
2. There may be a disproportionate number of international students or a disproportionate number of a particular nationality in one department, college or community college.
3. Academic advisors may not be available.
4. Sufficient classroom-based courses are not available to maintain visa status (e.g. courses are online).

All application material, including the application for admission, letters of recommendation, transcripts, national examination scores, transcripts from colleges or universities (with an English translation), and test scores (including the TOEFL or IELTS) should be sent directly to University Student Records. For full consideration for undergraduate admission, applicants are subject to the following deadlines:

<table>
<thead>

</tbody>
</table>

* Contact the Office of Education Abroad for exchange program admission deadlines, and CELP for intensive English program deadlines.

**Miscellaneous Regulations**

1. All international students are required to have student health insurance. Insurance will be automatically billed to the student's account each semester. (See [https://isss.nmsu.edu/index-3/health-insurance/](https://isss.nmsu.edu/index-3/health-insurance/) for more information.)
2. New international students are not permitted to register until all ISSS requirements are met, including attending orientation and taking the English Language Placement Test (when applicable, see English Language Proficiency Requirements section). All international students, are therefore, required to report to the campus to which they were admitted. The following are the offices that a student may need to report to:
   a. Las Cruces campus: International Student & Scholar Services, 152 Breland Hall Tel. (575) 646-2834, isss@nmsu.edu. (Note: Exchange students need to report to the Office of Study Abroad in 132 Garcia Center.)
   b. Doña Ana Community College: International Student & Scholar Services, 152 Breland Hall (exchange students need to report to the Office of Study Abroad in 132 Garcia Center)
   c. Alamogordo Community College: Office of Student Services, Student Services Building, second floor
   d. Carlsbad Community College: Office of Student Services, 150 University Drive, Room 111
   e. Grants Community College: Office of Student Services, Walter Martinez Building, Main Office Complex
3. Students in non-degree exchange J-1 visa status must be engaged full time in a prescribed course of study. Consult OEA for more details.
4. All international students are required to register at the Aggie Health and Wellness Center within a week of arriving to undergo a TB test or submit results of a current TB test done in the home country within a week of arriving. Guidelines will be provided by the Aggie Health and Wellness Center.

**International Exchange Students**

An Exchange Student is defined as a visiting student, who is coming to NMSU for one semester to one Academic Year, but is not seeking a degree. An Exchange Student typically comes to NMSU from one of NMSU’s partner universities or from one of NMSU’s partner consortiums.

**Application Process for International Exchange Students**

Prior to admission to NMSU, a prospective international exchange student must be nominated from their home university, complete an application with the Office of Education Abroad (OEA) and submit their required documents. The process is as follows:

1. Nomination for exchange must be submitted by the Home University to the Incoming Exchange Coordinator by March 15 for Fall semester and September 15 for Spring semester. Please see your home university exchange coordinator for more information and to complete the nomination process.
2. Once nomination is received, students will be directed to make an account at the OEA website: [https://oea.nmsu.edu/students/incoming-exchange-students/applying-to-nmsu/](https://oea.nmsu.edu/students/incoming-exchange-students/applying-to-nmsu/)
3. The student is then required to complete the Exchange Student Nomination Form Questionnaire and upload the following documents:
   a. Passport
   b. Transcripts (in English)
   c. Financial Document showing proof of $5000 per semester attended. **ISEP students do not have to provide the financial documents**
   d. Current TOEFL scores (2 years or less), see below for acceptable scores.
4. All international students, regardless of status, must apply for Admissions to NMSU [https://isss.nmsu.edu/adm-step-1/](https://isss.nmsu.edu/adm-step-1/). Once the Student’s OEA application has been approved, OEA Staff will submit the documents listed above to Admissions on behalf of the student.
Academic Restrictions
The majority of the NMSU catalog applies to Exchange Students, with the following exceptions:

- Exchange students must take the English Language Placement Test.
- Courses must be taken at Main Campus only. Community college courses, including DACC are not available to Exchange Students.
- The Nursing Department is the only department that is strictly off limits to exchange students, with case-by-case exception by the department and this would have to be approved well in advance of the student being nominated.
- Exchange students are required to abide by all pre-requisite requirements and class size restrictions (i.e., if a course is closed when the student goes to register, an exception cannot be made).
- Online courses are restricted due to visa requirements (no more than 3 credits can be taken online. Additional fees will apply).

Miscellaneous Regulations
- All international exchange students are required to be enrolled in NMSU approved health insurance. Office of Education Abroad will enroll the students and bill the insurance amount to the student’s account.
- Exchange Students are required to attend a mandatory Orientation before courses begin. This will be scheduled and facilitated by the Office of Education Abroad; abiding by guidelines set forth by the US government per J-1 visa requirements.

Exchange students are subject to the same English Language Proficiency policies outlined in the section on University Procedures for International Students.

Tuition, Fees, and Other Expenses
All costs are given for one term/semester. The university reserves the right to change any of the charges without notice.

Campus Tuition Rates
For a full listing of all tuition rates from the NMSU System please see the University Accounts Receivable website.

</tr>
</tbody>
</table>

Graduate Wellness/Fitness fee—(Fall/Spring 9-11 credits) $159.30
Undergraduate Course examination fee (per credit) $229.80
Graduate Course examination fee (per credit) $252.70
Certificate degree fee $25.00
Bachelor or Associate degree fee $25.00
Master or Doctorate degree fee $35.00
Degree application late filing fee $25.00
Late Registration Fee Base Cost $25.00
Engineering Technology Fee $145.00
Thesis binding fee (3 copies) $38.50
Thesis binding molecular biology / astronomy majors (4 copies) $48.50
Dissertation binding fee (3 copies) $38.50
Dissertation molecular biology / astronomy majors (4 copies) $48.50

Course Fees (Fees Assessed Per Course)
See the Course Fee page for a list of courses with additional fees.

Applied Music courses - see Music (p. 485) section of catalog

Mandatory International Student Fees
All international students are required to have health insurance coverage. International student health insurance is provided by HTH Worldwide unless otherwise covered by comparable health and accident insurance approved by the International Student Services. International students will be required to purchase health insurance for spring and summer during spring registration unless they have applied for spring graduation. (See below) All international undergraduate students will be assessed a $36 International Student Program Fee each semester.

Optional Fees
Wellness/Fitness Fee - Rates may Increase for 2019-2020
The Wellness/Fitness fee is included in tuition for full-time students at the Las Cruces Campus. Options for part-time students enrolled at Las Cruces Campus include:

<table>
<thead>
<tr>
<th>Fee</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wellness/Fitness Fee</td>
<td>$159.30</td>
</tr>
<tr>
<td>Term pass for student enrolled in 6-11 credits</td>
<td>$79.00</td>
</tr>
<tr>
<td>Term pass for student enrolled in 1-5 credits</td>
<td>$105.00</td>
</tr>
<tr>
<td>Single visit for student enrolled in 1-11 credits</td>
<td>$35.00</td>
</tr>
</tbody>
</table>

The Wellness fee grants access to the Student Health Center with charges accruing for medications, lab work, testing or procedures. The Fitness fee grants access to the Student Activity Center.

Health Insurance
Students who have access to the Campus Health Center may choose to purchase a commercial insurance policy offered through the Health Insurance Marketplaces established by the Affordable Care Act (ACT).
These exchanges are intended to provide consumers with a new way to shop for, compare costs and coverage benefits, and enroll in insurance coverage. For more information visit: www.healthcare.gov or www.bewellnm.com

**Housing Services**

See the Students Resources (p. 33) section for room descriptions, accommodations, application process, deposit requirement, regulations and eligibility.

For current rate information, please visit our website at: http://housing.nmsu.edu/.

**Dining Services**

See Housing and Residential Life (p. 33) section for meal plan descriptions, application process, deposit requirement, regulations and eligibility. Freshmen living on campus must choose between Aggie Unlimited and Aggie Choice Plans.

**Payment of Charges**

By enrolling in classes at NMSU, a student makes a financial commitment to pay the tuition and fee charges associated with his/her enrollment. The enrollment action constitutes a financial obligation between the student and NMSU and that all proceeds of this agreement will be used for education purposes and constitute an education loan pursuant to 11 U.S.C 523(a) (8). Terms and Conditions of Course Registration are posted on the University Accounts Receivable (UAR) website and available at time of Registration. Payments can be made by mail, web, telephone, or in person at University Accounts Receivable. Cash, checks, money orders and limited types of credit cards are accepted. All financial aid received must be paid towards balances owed. Additional penalty charges will be assessed for failure to make payments when due. The University reserves the right to cancel registration of any student who fails to pay, when due, any indebtedness to the institution if not completed by the deadlines as outlined on the UAR website.

Under important dates related to your Student Account. Transcripts and diplomas will be withheld until all financial obligations are paid in full. Students are prohibited from registering for a term/semester until all previous debts due to the University are paid in full.

**Tuition Adjustments, Refunds and Forfeitures**

Students officially withdrawing from all courses or dropping a course(s) during a semester or term are eligible for a 100-percent refund of tuition and fees through the deadlines listed online as outlined on the Registrar website under Important Dates for Students for each term. Students withdrawing from a course(s) after that deadline will not be eligible for a refund and will remain liable for payment of full tuition and fee charges. Non-attendance does not constitute an official course drop or withdrawal. It is the student’s responsibility to withdraw from the university and/or drop a course if he/she decides to not attend once enrollment has taken place. All charges due to NMSU must be paid before refunds or adjustments will be permitted.

In cases of academic or disciplinary suspension, eligibility for tuition refunds and adjustments will depend on the conditions of the suspension and will be entirely at the option of the institution. Should unforeseen circumstances beyond the reasonable control of New Mexico State University result in curtailing classes, closing residence facilities, or otherwise withdrawing services that are a normal function of the institution, refunds of any nature will be at the discretion of the college/university administration.

Residence hall rentals and dining hall charges may be refunded in accordance with schedules adopted by these departments.

**Delinquent and Prior-Term Balances**

NMSU reserves the right to cancel the registration of any student who fails to pay, when due, any indebtedness to the institution.

Transcripts and diplomas will be withheld until all financial obligations are paid in full.

**Dishonored Financial Transactions - Checks, Credit Cards, ACH Transactions**

The University charges a penalty on all dishonored cash instruments. Personal checks will not be accepted from students who have had previously dishonored checks.

**Late Registration Fee**

A late registration fee of $25 is imposed if registration has not been completed before the late-registration period begins. Failure to make scheduled payments with the University Accounts Receivable on due dates will result in additional liability.

**Estimating Other Expenses**

In addition to the direct costs stated above, other expenses per semester may include such items as textbooks and supplies (estimated at $625) and personal expenses (estimated at $1,251).

**Cooperative Education**

Students participating in the Cooperative Education Program who receive academic credit pay the same tuition and fees as regularly enrolled students. Work phase students who are assigned to campus or a nearby
off-campus workstation may pay for the student wellness/fitness as if they were a part-time student enrolled in 1-5 credits.

Ways to Qualify for Lower Tuition Rates

Resident or nonresident status is determined in accordance to a uniform definition established for all New Mexico institutions by the Higher Education Department, State of New Mexico, NM Administrative Code (NMAC) 5.7.18. The University Student Records Office administers residency. Information on the following programs and offices that administer the reduced rate program may be obtained from the University Admissions, the University Financial Aid and Scholarship Services.

- American Indian Agreement
- Athletic Grant
- Colorado-Arizona Reciprocal Agreement
- Dual Credit
- Fire Fighter and Peace Officer Survivor Scholarship
- Foreign Military Dependent
- Foreign Military Spouse
- Foreign Military Stationed in New Mexico
- Foster Care
- Graduate Assistantship
- Immigrant Student (NM HS GRAD)
- Military Dependent
- Military Spouse
- Military Stationed in New Mexico
- NM Competitive Scholarship
- Part-time Students
- Senior Citizen Waiver
- Summer Session
- Texas 135
- Veteran Waiver
- WRGP
- Western Undergraduate Exchange

WUE states include Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming and the Commonwealth of the Northern Mariana Islands. For more information about any of the above ways to qualify for lower tuition rates please contact the University Accounts Receivable Office or the University Student Records Office.

Contact Information

For more information, contact:

University Accounts Receivable, MSC 4570

Financial Aid & Scholarship Services

University Financial Aid and Scholarship Services administers a broad spectrum of loans, grants, scholarships and work-study funding in an attempt to meet the financial need of the university's students.

University Financial Aid and Scholarship Services awards financial aid to students according to their individual calculated need. Parents of students are expected to contribute to their child's education according to their ability, taking into account their income, assets, number of dependents and other relevant information. Students themselves are expected to contribute from their own assets and earnings, including appropriate borrowing against future income. All information provided to University Financial Aid and Scholarship Services is regarded as confidential.

Students applying for financial aid must complete a Free Application for Federal Student Aid (FAFSA) designed to determine, in accordance with state and federal guidelines, the difference between what the student and/or family is expected to contribute and the cost of attending any campus within the NMSU System. Among the factors that determine the family's Expected Family Contribution (EFC) are:

1. Annual adjusted gross income based on your tax return as reported to the Internal Revenue Service;
2. Savings, stocks, and/or bonds;
3. Other assets in the form of a business, farm or real estate;
4. Nontaxable income and benefits; and
5. Student's income and assets.

Students applying for financial aid should complete a FAFSA by visiting www.fafsa.ed.gov/

Please refer to the NMSU-Las Cruces, Financial Aid and Scholarship Services web site for more information on available financial aid. A complete listing of programs and policies is available here.

General Eligibility Requirements

To receive financial aid you must be admitted to NMSU as a degree seeking student in an eligible degree or certificate program and demonstrate that you are qualified to obtain an education by:

- Having a high school diploma or recognized equivalent such as a General Education Development (GED) certificate or
- Completing a high school education in a home-school setting approved under state law or
- If you were enrolled in an eligible program at a college or career school prior to July 1, 2012, you may show you are qualified to obtain a financial aid by either:
  - Having passed and approved ability-to-benefit test (if you don't have a diploma or GED, a college can administer a test to determine whether you can benefit from the education offered at that school); or
  - Completing six credit hours or equivalent course work toward a degree or certificate (you may not receive aid while earning the six credit hours)
- Be enrolled or accepted for enrollment as a regular student working toward a degree or certificate in an eligible program.
- Be a U.S. citizen or eligible noncitizen (state funded scholarships are available to undocumented students).
- Have a valid Social Security number. If you don't have a Social Security number, you can find out more about applying for one at www.ssa.gov.
- Must be meeting satisfactory academic progress (SAP).
- Sign a statement on the FAFSA certifying that you will use Federal student aid only for educational purposes.

• Sign a statement on the FAFSA certifying that you are not in default on a federal student loan and that you do not owe money back on a federal student grant.
• Register with the Selective Service, if required.

Financial Aid Awards
All financial aid awards are based on information provided by the student and/or parents, availability of funds and eligibility requirements. Any award may be revised based on changes in enrollment, cost of attendance, application for graduation, family contribution or satisfactory academic progress. Withdrawals or reductions in enrollment may affect an award or any future awards. Financial Aid will not pay for audited courses or some repeats.

Grants
The Federal Pell Grant is a federal grant available to undergraduate students with documented financial need. If the Pell Grant is insufficient to pay educational expenses, the student may be eligible to receive other types of aid, including a Federal Supplemental Educational Opportunity Grant (SEOG) or Leveraging Education Assistance Partnership Program Grant (LEAP), and/or other miscellaneous grants. These grants are awarded to undergraduate students who demonstrate exceptional financial need. Funds are limited and are awarded based on need and the priority date. For more information, contact University Financial Aid and Scholarship Services or visit the university’s financial aid website at: http://fa.nmsu.edu. Generally, grants do not have to be repaid.

Work-Study Programs
The Federal and New Mexico State Work-Study Programs provide employment opportunities for eligible students. Funds are limited and are awarded based on need and the priority date. A work-study award does not guarantee employment. Students are responsible for applying for available positions using AggieCAREER Manager.

For more information on the U.S. Department of Education student aid programs, go to http://studentaid.ed.gov/ or see the NMSU Financial Aid web site at http://fa.nmsu.edu.

Scholarships and Other Aid
Many students finance part of their education with scholarships, which may be awarded for academic achievement, special skills, talent and/or based on the applicants calculated financial need.

The NMSU System offers a variety of scholarships to incoming freshman, transfer, continuing and graduate students. State, institutional and private scholarships may also be available but amounts, deadlines and eligibility requirements vary. For more information, contact University Financial Aid and Scholarship Services or visit the university’s scholarship web site at http://fa.nmsu.edu/scholarships/

To be considered for most scholarships through the NMSU System you are required to apply online through Scholar Dollar$, at https://scholarships.nmsu.edu/ each academic year. One scholarship application serves all students in the NMSU system, regardless of campus.

Federal Direct Subsidized Loans
This is a loan program for eligible undergraduate students who demonstrate financial need. The U.S. Department of Education pays the interest on a Direct Subsidized Loan while the student is enrolled in school at least half-time.

All undergraduate student who borrow for the first time after July 1, 2013 are subject to a maximum time period to receive Federal Direct Subsidized Loans. Students may not receive Federal Direct Subsidized Loans for more than 150% of the published length of their academic program (measured in academic years). A complete explanation of Subsidized Loan usage limits is available at: https://fa.nmsu.edu/loans/federal-direct-loans/.

Federal Direct Unsubsidized Loans
Loans that are made to eligible undergraduate who do not demonstrate financial need and graduate students. Unlike other federal loans, interest accrues while the student is attending school.

Federal Direct Loan Requirements
Students receiving a subsidized or unsubsidized Federal Direct Loan, must complete an online entrance counseling session and a master promissory note before NMSU will issue the funds. In addition, students must complete an exit interview upon graduation or withdrawal from the university.

Withdrawals
Recipients of financial aid grants and loans who drop credits or withdraw may be required to return all or a portion of awarded Title IV funds. Further information regarding the return of Title IV funds is available on the NMSU-Las Cruces web site at http://fa.nmsu.edu/return-of-title-iv-funds/.

Financial Aid Satisfactory Academic Progress
Federal regulations require that financial aid recipients meet certain academic standards to be eligible for federal financial aid. To ensure that financial aid recipients are making satisfactory academic progress, academic transcripts are reviewed at the end of each term to determine eligibility for the next term. All terms of attendance are reviewed, including periods in which the student did not receive financial aid. All transfer credit hours are taken into account when satisfactory progress is reviewed. The Financial Aid SAP standards are not the same as the NMSU System’s Academic Standards of Progress criteria.

Elements of Financial Aid Satisfactory Academic Progress
• Qualitative Progress: Undergraduate students must maintain a cumulative GPA of at least 2.0 (a C- average). Graduate students must maintain a cumulative GPA of at least 3.0 (a B average).
• Completion Rate: Students must complete a minimum of 70 percent of all coursework (registered credit hours) attempted within the NMSU System. Any course with a grade of withdraw (W), incomplete (I), repeats (RR), failure (F), audit (AU), or no credit (NC) are considered as attempted but not considered completed coursework. Repeated courses are included in the calculation.
• Maximum Time Frame: Students must complete their program within 150 percent of the published length required by the program. Students who have reached the maximum allowable time will be suspended from receiving financial aid. Limited developmental/ remedial hours are excluded from this calculation. Total attempted
Financial Aid Warning

"Warning" is a status assigned to a student the first semester they fail to meet the standard of satisfactory academic progress measured as Qualitative Progress and Completion Rate. If the student has not returned to satisfactory standing after this warning semester, he or she will be suspended from further financial assistance until satisfactory progress standards are met.

Financial Aid Suspension

Students are suspended from receiving financial aid if they do not meet satisfactory academic progress standards for financial aid purposes. Students on financial aid suspension will not receive any form of federal or state financial aid (grants, loans, work study). Financial aid eligibility is reinstated when all standards of satisfactory progress are met.

The Appeal Process

Students suspended from financial aid may appeal the suspension if there are extenuating circumstances affecting their progress. Students who would like to appeal the suspension must submit an appeal form, available at: [http://fa.nmsu.edu](http://fa.nmsu.edu). They must also submit all supporting documentation to University Financial Aid and Scholarship Services.

A committee will review the appeal and may grant reinstatement of financial aid based on the extenuating circumstances that directly contributed to the deficient academic performance. Appeals are evaluated on a term-by-term basis. All appeals, including relevant documentation, must be submitted by the semester deadline based on the current semester of enrollment. A student may appeal the termination of eligibility only twice during his or her career within the New Mexico State University System.

Resources for Students

Aggie Health & Wellness Center

The university maintains a well-equipped integrated health center on campus, with a comprehensive medical care, laboratory, pharmacy, x-ray, and counseling services. Hospitalization and emergency services are available in the community. Undergraduate students are eligible for services at the Center. Those students enrolled for 12 or more credits (6 in a summer session) may access the Center as fees have been paid through full-time enrollment. Students enrolled for less than 12 credits (5 in summer session) may choose to pay the wellness fee or office fee for medical care. The Center accepts payment for medical services through cash, credit card, student account and insurance reimbursement.

Counseling services at Aggie Health & Wellness provide students and the campus with individual, couples and group counseling, crisis intervention, outreach programs, and consultation. We assist students who are dealing with issues such as relationship concerns, depression, anxiety, stress management, trauma and self-esteem. In addition, Aggie Health & Wellness also has services and resources that support harm reduction. These services include: WAVE (Wellness, Alcohol, and Violence Education) which provides the campus with information concerning the decisions that surround alcohol use, sexual assault, and violence prevention; social work services operates the Aggie Cupboard, an on-campus food pantry and provides resource support for students who may need assistance with housing, insurance or other basic needs. All services are strictly confidential and are free.

The Aggie Health & Wellness Center is open Monday-Friday from 8:00 am - 11:30 am & 1:00pm - 5:00 pm. The Center is closed during the lunch hour. The Center is located on the corner of Brelan and Stewart Sts. For more information, please call (575) 646-1512 or visit the website at wellness.nmsu.edu.

Campus Activities

The Office of Campus Activities offers involvement outside the classroom, an essential component of the student’s academics. Campus Activities collaborates with campus and community entities to create opportunities for student involvement, group and individual leadership and personal development. Campus Activities coordinates activities and events through the Activity Registration process for chartered student organizations, administers the University Sales and Solicitation Policy, the Freedom of Expression Policy, and serves as the university liaison to the Interfaith Council.

Campus Dining

First-year, on campus freshmen are defined as resident students who have been required to attend Aggie Welcome Orientation and include recent high school graduates with any college credits. These students have a minimum required purchase of the Aggie Unlimited or the Aggie Choice 230. The Meal Plan will be mandatory for an entire academic year (unless applying for the Spring Semester only) and all charges are applied to a student’s university account which means you can purchase now and pay the balance later!

Any registered student may participate in the Meal Plan program whether living on or off campus to include continuing, commuter, as well as Graduate students. A variety of Meal Plan choices are available to suit anyone’s needs.
To purchase a meal plan or to review policies and procedures, please visit https://idcard.nmsu.edu/. You may also contact the Parking & ID Card Services Offices at (575)646-4835 or connect via e-mail at idsvs@nmsu.edu.

Food Services Options
Dining is available at many locations on campus and can be purchased by utilizing Dining Dollars, Aggie Cash, the NMSU Enhanced Aggie ID Card, a credit/debit card or cash. Food service locations and hours are available at NMSUcrimsonservices.com through the dining portal. For additional information, please contact the Parking & ID Card Office at (575) 646-4835, via email: idsvs@nmsu.edu, by visiting idcard.nmsu.edu or by visiting the office located in the Barnes and Noble Bookstore between 8:00am - 4:30pm, Monday thru Friday.

Campus Tutoring Service
Tutoring services are provided to all NMSU students for courses offered at the University. The tutors at Campus Tutoring Services are highly trained undergraduate students who have succeeded in the courses they tutor in and are certified by the College Reading and Learning Association. The tutor’s focus is to assist all students academically by ensuring concepts are learned. All students are encouraged to come prepared to ensure a productive tutoring session. No appointment is necessary and a student may visit unlimited times. Campus Tutoring Services also offers synchronous online tutoring for select courses.

For more information on Campus Tutoring Services, please visit us in Corbett Center Student Union, Room 208, call (575)646-6050, or review our services at campustutoring.nmsu.edu.

Career Services
The mission of Career Services is to offer programs, services, and resources that will contribute to students life-long career planning efforts. Staff members work closely with deans, department heads, faculty and employers to assist students and alumni in developing suitable career opportunities based on their education, experiences, and interests. Career Services staff advises students on the career-planning process and career-search strategies based on up-to-date employment trends and current electronic career products. Moreover, Career Services staff hosts numerous career fairs, workshops, and employer presentations throughout the academic year.

Career Services staff also coordinates interviews between prospective employers, students, and alumni. Students launch their career plans through AggieCAREER Manager, a career management system that offers a comprehensive array of career programs and services.

The following programs develop students’ career goals through experiential learning:

On-Campus Employment: Information is available for part-time employment through work-study, regular student employment, and graduate level programs. Available opportunities are advertised on AggieCAREER Manager located on our website.

Off-Campus Employment: Part- and full-time jobs in Las Cruces, requiring general or very specific qualifications, are listed and candidates may contact the employers for referrals.

Cooperative Education and Internship Program: Information is available on Cooperative Education and Internship opportunities offered by government, nonprofit organizations and business/industry. Students seeking this experiential education must register with Career Services any time after their first semester on campus.

For comprehensive information on all programs and services offered by Career Services please visit us at Garcia Center Room 224, call (575) 646-1631, or online at http://careerservices.nmsu.edu.

Center for Academic Advising and Student Support
The Center for Academic Advising and Student Support (CAASS) is the central hub for academic advising on campus. Located in Garcia Center, CAASS advisors teach undergraduate students how to define and achieve their academic, personal, and career goals for college. Although academic advisors help students plan for registration each semester, the primary focus of advising is supporting students as they navigate the university by explaining degree requirements, clarifying policies and procedures, and informing students of resources that will support their success. All undergraduate degree-seeking students will be assigned a CAASS academic advisor. Students can find contact information for their advisor at https://advising.nmsu.edu/ or by visiting Garcia Center 129 or by calling 575-646-2941.

Cooperative Education and Internship Program
NMSU enjoys a national reputation for its Cooperative Education (Co-op) and Internship Program which contributes to students’ total educational experience. Today’s competitive employment market demands that students participate in an experiential learning experience related to their major before they complete their college degree. Through a Co-op / Internship position, students realize their career goals by integrating academic theory and practical application on the job. Co-op / Internship assignments provide an array of work experiences with employers in business, industry, government and nonprofit organizations.

All Co-op / Internship work assignments are for continuing full-time students and must be completed prior to graduation. For each semester (spring, summer, & fall) that a student completes an approved Co-op / Internship, a notation is placed on his/her academic transcript. Note: In order to earn the permanent official notation on the academic transcript, required documentation must be completed and turned in on time to the Career Services office before and after each Co-op / Internship assignment.

Students may register full-time for one or more Co-op / Internship positions throughout the U.S.; and each Co-op / Internship position will last the duration of an academic semester. While on a full-time Co-op / Internship, whether students are registered for academic credit or not, students are afforded full-time academic status with the university, which protects enrollment status, financial aid status, scholarship status, and other student eligibilities.

Students may also register part-time for a Co-op / Internship position, also known as a parallel Co-op / Internship. Employers are generally located within commuting distance of the university. While on a part-time Co-op/internship, students work approximately 20-29 hours per week concurrently with full-time academic enrollment.

All students interested in Cooperative Education / Internships must first register with the Cooperative Education and Internship Program and complete all Co-op / Internship assignments for which they enroll. Registration for Co-op / Internship status includes an NMSU
Corbett Center Student Union

Corbett Center Student Union (CCSU) serves as the center for campus life, providing programs and services for students and other members of the university community. CCSU is a place to study, relax, meet with student groups, eat, work or play. CCSU offers students, faculty, staff and visitors a variety of services and activities. The student union is home to several student focused administrative offices including Campus Activities, Conference Services, Associated Students of NMSU (ASNMSU), Housing & Residential Life, Campus Dining Services, Dean of Students, the Tutoring Center, the student operated radio station, KRUX-FM, and the Round Up newspaper. Services offered at CCSU include an auditorium, meeting rooms, multiple dining facilities, ATMs, a computer lab, study areas, post office, fitness center, game room and a convenience store.

For more information contact:
Corbett Center Information Desk
MSC CC, PO Box 30001
Las Cruces, NM 88003
Phone: (575) 646-4115
Email: cssu@nmsu.edu
Website: http://ccsu.nmsu.edu

Distance Education/NMSU Online

The Las Cruces campus’s (LC) Office of Distance Education administers NMSU Online which *extends the reach of New Mexico State University (NMSU) beyond traditional programs to provide opportunities for students to meet their academic, professional and personal learning goals. NMSU Online is designed to serve all off-campus students wherever they are. Although not all programs are offered 100% online, many are, and other hybrid programs are designed for minimal campus visits.

NMSU Online includes 70+ programs available across the five NMSU System campuses* with Associate, Applied Associate, Bachelor, Master and Doctorate degrees as well as Certificates and Graduate Certificates. NMSU Online programs are delivered 100% online, hybrid, off-site-based, and in technology-mediated formats.

*NM Students who are interested in an online program offered by an NMSU Community college (CC) will apply to the appropriate CC regardless of the delivery format of the course(s) or program of interest.

For more information, contact the Office of Distance Education/NMSU Online located in Milton Hall, room 185. Contact NMSU Online by calling (575)646-8231 or (888)729-6678, or by email: online@nmsu.edu (). For current information, visit our website.

Edgar R. Garrett Speech and Hearing Center

Combining instruction, evidence-based practice, state of the art technology, and service, the Edgar R. Garrett Speech and Hearing Center provides training for students in Communication Disorders and renders service to the community. Students have opportunities to participate in diagnostic evaluations and to provide therapy in the areas of speech, language, hearing, cognition, and swallowing for clients across the lifespan.

Referrals are accepted from all sources (self, medical, school, nonprofessionals). The Edgar R. Garrett Speech and Hearing Center is a fee-for-service clinic where university students, staff, faculty, and their immediate family receive a reduced rate. All services are supervised by speech-language pathologists who are licensed in New Mexico and hold the Certificate of Clinical Competence in Speech-Language Pathology or Audiology from the American Speech-Language-Hearing Association. Services are available in English and Spanish.

For further information, contact:
Edgar R. Garrett Speech and Hearing Center
MSC 3SPE, PO Box 30001
Las Cruces, New Mexico 88003-8001
Phone: (575) 646-3906
TTY: (575) 646-6191
web: http://spedcd.education.nmsu.edu/cd/shc/

Housing and Residential Life

Living on campus is an opportunity for an investment in a student’s academic success. As campus residents, students are part of the campus community with more opportunities to join clubs and attend campus events. Students are within walking distance to classes, the student union, activity center, library, bookstore, special events, golf course and many other campus resources. The university strongly encourages students to take advantage of the many opportunities available through campus residency. Studies show that compared to their off-campus peers, students who live on campus are more likely to: maintain higher grade point averages, use campus resources, interact more with professors, and ultimately graduate on time (within four years).

Residency Requirement

All incoming first-time, first-year students must reside in university-operated housing or complete an exemption request as part of the campus enrollment process. First-year students will be assigned to the residence halls and must reside for two consecutive semesters to satisfy this requirement (all summer/fall or fall/spring). The Board of Regents approved a few reasons for students to be exempted from this requirement:

- The student is living in a structured environment provided by a parent, legal guardian, or immediate family member (as defined as a grandparent or aunt/uncle). Living with an adult sibling is not included in this exemption.
- Students residing with a spouse, domestic partner, and/or dependent child(ren).
- A student is 21 years or older, enrolled exclusively in distance education, or who are active military or veterans.
- Other extenuating circumstances including financial hardship or special medical accommodation.
Students are asked to submit specific documentation to support each of the reasons presented above. Please visit housing.nmsu.edu/exemptions for more information.

Application Procedures and Acceptance
To qualify for housing the student agrees to be enrolled continuously in at least half-time or more at either the undergraduate or graduate level during the fall or spring semesters as degree seeking. Completed applications for housing should be submitted as early as possible, preferably one regular semester in advance. Submission of housing application indicates acceptance of the terms and conditions of the applicable agreement. Housing applications require a deposit and fee at the time of application. Certain qualifications must be met to apply for summer housing, single student apartment and family housing. To view the various housing options visit http://housing.nmsu.edu/options or contact the housing office at (575) 646-3202 or Housing and Residential Life MSC 38B, PO Box 30001, Las Cruces NM 88003-8001. Housing typically has a May 1 priority deadline for both residence hall and campus apartment contracts. Student family housing applications are accepted on a rolling basis.

The university will assign accommodations subject to the space available. Assignments to a particular building, type of accommodation, specific room or apartment, single room or roommate(s) are not guaranteed. The university reserves the right to change or cancel assignments in the interest of order, health, safety or discipline with appropriate written notice. The university reserves the right to deny housing to any student. Examples of reasons for denial include, but are not limited to, individuals who have felony criminal convictions that present a concern to the university community, individuals who have behavioral problems which may, in the opinion of the university, negatively impact the group-living environment, individuals who have been previously terminated from campus housing, or individuals who have poor rental histories. Student behavior expectations, rights, and responsibilities related to living in university-operated housing can be found at housing.nmsu.edu/guide.

Availability of Units for Students with Disabilities
There are a limited number of specially equipped residence hall rooms, single student apartments and family housing units available to students with disabilities who wish to reside in campus housing. These are assigned on a first come, first-served basis. Specific needs or requirements (i.e., roll-in showers, special door openers, etc.) should be discussed with the Office of Student Accessibility Services on an individual basis prior to submitting an application. Student Accessibility Services can be reached at (575)646-6840 or by email at sas@nmsu.edu.

Single Student Apartments
Campus apartments offer students more than just affordable housing. Campus apartments offer a unique college atmosphere where neighbors share similar goals and together form an academic community unlike any found off campus. Available for second-year to graduate students, on-campus apartments have the benefits of on-site staff, prompt maintenance and amenities such as a computer lab and laundromat. Efficiencies, one, two and four bedroom options are available and include living rooms and kitchens. Apartments are fully furnished and the semester rate includes utilities, cable TV and internet connectivity. Campus apartments feature a select number of co-ed housing options, where students may share other student(s) of any gender identity.

Student Family Housing
Completed applications for Student Family Housing should be submitted at least six weeks in advance. Family Housing occupants are assigned once the application process is completed. Applications are considered incomplete and cannot be processed if requested information and supporting documents are not provided and payment of the associated fees is not received. Family Housing applicants may select six, nine or twelve-month agreement, with thirty (30) day notice to vacate or request for renewal, prior to an expiration of the agreement. Family units include married couples, married couples with children, single parents with dependent children and domestic partners (as defined by NMSU Policy found at http://benefits.nmsu.edu/other/domestic-partner/). Consideration is also given to veterans and non-traditional dependent family units. As part of the application process, a criminal history check will be conducted for all adult occupants over the age of 18. Current residents and adult occupants over the age of 18 will undergo a criminal history check no less than once a year. In addition, a rental payment history will also be conducted. By signing the application, the applicant authorizes New Mexico State University to conduct these processes. Results of the criminal history checks and rental payment history may be shared with the applicant. Single family homes include two bedrooms, a bath, kitchen and living room. Four-bedroom units include two bathrooms, a kitchen and living room. All units offer a stove and refrigerator and are unfurnished. The monthly rent includes utilities, cable TV and internet connectivity. Some pets are allowed in parts of Student Family Housing, reference the pet policy at http://housing.nmsu.edu/guide.

Community Development
Housing and Residential Life develops safe and engaged communities which support students’ efforts to achieve academic success and strong social connections at NMSU. Our live-in student (Resident Assistants) and professional staff members (Resident Directors) work to meet students’ needs, and create a fun, positive experience for our residents. Residents can expect to have meaningful conversations with staff members; enjoy myriad social, educational, and recreational events; and engage in community meetings and health and safety inspections. Residents are encouraged to join organizations such as Hall/Community Councils, Residence Hall Association (RHA) and the National Residence Hall Honorary, or other student organizations to help shape the community experience and learn more about leadership skills. Additionally, as part of our commitment to developing a safe and engaged community in campus housing, we hold students accountable in accordance with the Student Social Code of Conduct and the Housing and Residential Life Resident Guide.

Books, Supplies, Parking and Transportation
The New Mexico State University bookstore and parking office are both conveniently located at the corner of Jordan Street and University Avenue. The bookstore provides an avenue for students to obtain assistance with purchasing required books and supplies. The Parking
& Transportation office assists with parking permits and transportation services questions.

**ID Card Services**

The NMSU Aggie ID Card is the official identification card that provides access to all of the services offered at NMSU. The Aggie ID Card serves as a membership card for meals, Aggie Dining Dollars, Aggie Cash, Aggie Print, as a key to the residential halls, access to various buildings, proof of eligibility for access to athletic events and allows for other student services. This information is added to Aggie ID Card after registration for classes. Please visit idcard.nmsu.edu for more information.

Aggie Cash is a pre-paid account that allows you to use your Aggie ID Card to make purchases at locations all over campus. The NMSU Enhanced Aggie ID Card is your Aggie ID and Wells Fargo bank account all in one! The Parking & ID Card Services Office in Barnes and Noble has the information to link your Wells Fargo account to your Aggie ID. For more information please contact us at (575) 646-4835.

**Information and Communication Technologies**

Information and Communication Technologies (ICT) provides the university community with the computing and communication resources and services that support the educational, research, and public service missions of the university. These resources include NMSU's central computing systems, the network that supports the systems and the wired and wireless functionality through which the Internet is accessed. ICT operates the student computer labs found throughout the Las Cruces campus; maintains and manages laptop, desktop, camera, and projector checkout and rental for students; provides network registration of internet connected devices which is required for access to the NMSU network; and provides student printing known as Aggie print. Information about specific resources are available at https://studenttech.nmsu.edu/ ICT also provides support for all NMSU technology users through the ICT Help Desk.

For further information, contact:

Information and Communication Technologies (ICT)
MSC 3AT, PO Box 30001
Las Cruces, NM 88003-8001
Phone: (575) 646-1840
email: help@nmsu.edu

ICT's web homepage can be found at http://ict.nmsu.edu. ICT's Helpdesk webpage can be found at http://help.nmsu.edu/. The helpdesk is located in room 105 of the Hardman and Jacobs Undergraduate Center. ICT’s Student Technology and Planning Department’s webpage can be found at https://studenttech.nmsu.edu/.

**National Student Exchange Program**

Under the National Student Exchange Program (NSE), students may pay NMSU tuition and attend any of 180 colleges or universities across the nation. NSE allows students to broaden their academic, social, and cultural awareness through study in different geographical settings. To qualify for the program, an applicant must be a full-time student with a 2.5 grade-point average and must be a sophomore, junior, or senior at the time of exchange. Applications for the program are accepted from October through February for the following academic year. Late applications may be accepted if space permits.

Grades and credit hours earned at the host institution become part of the official NMSU transcript upon approval of the academic advisor and records officer. Grades are recorded according to the NMSU grading system.

**New Mexico State University Library**

The New Mexico State University Library is a Destination for Discovery that offers access to research-level content and collections in two library facilities located in the heart of the campus. Zuhl and Branson libraries house over 1 million items and provide electronic access to scholarly journals and databases for general academic and discipline-specific research. View the large geological collection and artworks on display at Zuhl Library and explore historical collections within the Archives and Special Collections Department at Branson Library with several primary special collections available digitally to a global audience. Reference assistance and research support are provided by a team of faculty and staff dedicated to student success. There are a variety of study areas available including quiet and group spaces, some of which can be reserved. Over 100 PCs, scanners, laptops, and other resources are available for students to use. More detailed information may be found at http://lib.nmsu.edu.

**Office of International and Border Programs (IBP)**

The Office of International and Border Programs oversees the comprehensive internationalization of the university. Overseen by the Associate Provost for IBP, it is the umbrella unit responsible for the welfare and recruitment of incoming international students, outgoing education abroad students, and global learning in general. IBP also represents the university with U.S. government agencies, foreign governments, international education professional associations and the private sector concerning international activities. The office also advocates for effective curricular and co-curricular practices, policies and procedures to internationalize the university and provides programs and services to increase international understanding and awareness in the campus and local community, including southern New Mexico and northern Mexico. The major program areas are reflected in its five offices listed below, each overseen by its own Director. The offices work closely together on all aspects of internationalization.

**Office of Education Abroad** – This office oversees all study, research, internship and service abroad programs, coordinates Faculty-Led International Programs (FLiPs) that allow faculty to take NMSU students abroad on for-credit programs, and coordinates all programs and services for visiting exchange students.

**Office of International Student and Scholar Services** – This office ensures that the needs of NMSU’s international students and scholars are met, including orientation, advising and institutional compliance with U.S. Department of Homeland Security and U.S. Department of State regulations as they pertain to the F and J Exchange Visitor programs. The office also has an important role in facilitating international student programming and cross-cultural activities.

**Center for Latin American and Border Programs** – This center is responsible for strengthening the university’s involvement in US-Mexico and Latin American cooperative projects including research, economic development and educational outreach.

**Center for English Language Programs** – This office provides all intensive English language training for the NMSU community. CELP prepare
students for matriculation into regular degree programs, and also engages in international contracts for special English training programs.

Confucius Institute – This institute is dedicated to increasing awareness and understanding of Chinese language and culture in the community through education. The CI provides teachers and instructional materials for K-16 Chinese language instruction, as well as through performances, seminars, and community outreach. The Institute is a joint project supported by both NMSU and the Hanban/Confucius Institute Headquarters, which is a public institution affiliated with the Chinese Ministry of Education.

The Office of Education Abroad
This division of International and Border Programs is the international education program development and coordination unit that assists colleges and departments with integrating study abroad into the undergraduate and graduate curriculum. It manages support services for outbound study abroad students and inbound international exchange students and coordinates all international partner exchange agreements, intensive language immersion and faculty-led programs as well as all credit-bearing international research, service and internships. The division also sponsors the Study Abroad Ambassadors Club, a chartered student organization that provides support to international exchange students at NMSU.

All NMSU students, including community college students, may apply to study abroad while maintaining NMSU student status to receive regular course credit through Faculty Led Programs, international distance education language credit and teacher education credit (graded A+ through F), and/or receive transfer credit (graded CR) per regular NMSU transfer credit guidelines. For most exchanges with international partner institutions, students must have completed two full semesters of university study, maintained a 2.75+ grade-point-average, and obtained permission of their college to receive transfer credit. For other programs, students must be in good standing academically at NMSU, and receive permission to enroll from the course instructor or program coordinator. International Business majors must receive permission from their department for study abroad to count as required in their degree plan. At least four weeks of a study abroad program may count for a waiver of 3 credits of Viewing the Wider World (http://oea.nmsu.edu).

Parking Office
NMSU requires a parking permit to park in campus parking lots or curbside on streets. Parking meters require payment. Free parking is available near the Pan American Center. The campus parking map is available online at park.nmsu.edu. Parking regulations are enforced between the hours of 7:30am – 4:30pm. Disabled parking spaces, emergency/fire zones, service zones and yellow curbs are enforced 24 hours a day. The campus parking map and Parking Regulations are available at park.nmsu.edu.

Information on purchasing a parking permit is also available by phone at 575-646-1839, by email to parking@nmsu.edu, online at park.nmsu.edu or at the Parking Department located on the second floor of the Barnes and Noble Bookstore Monday through Friday from 8am- 4:30pm. A current vehicle registration is required to purchase a permit.

When visiting the Parking Department, you may park for free in designated spots just south of the building. Aggie Transit is a free campus shuttle service available to all students. Bus route maps are available at park.nmsu.edu.

Transportation and Parking Services is responsible for issuing parking permits, enforcing parking regulations and developing parking lots as well as maintaining information related to the university fleet.

Student Accessibility Services
In compliance with the federal regulations outlined in Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 2008, NMSU is committed to providing accommodations and academic adjustments to ensure equal access for students with disabilities. Students who wish to request an accommodations or academic adjustment for face-to-face and online classes, practicums and internships must follow the established procedures for self-identification by completing the intake process with Student Accessibility Services (SAS).

For more information, please visit the SAS office in Corbett Center Student Union:
Room. 208
MSC 4149, PO Box 30001
Las Cruces, NM 88003-0001
(575) 646-6840
Email: sas@nmsu.edu
http://sas.nmsu.edu

Student Success Centers
New Mexico State University offers a variety of learning assistance, and tutorial services via the Student Success Center. The Student Success Center provides services to assist NMSU students in reaching their academic potential. The Student Success Center provides study skills assistance in such areas as: time management; memory; concentration; note taking; reading; test preparation; test taking; math; science; speed reading; critical thinking; financial wellness, as well as graduate school and professional skills test preparation. The services are available to students in the following formats:

1. Individualized assistance is provided to any student who walks in at the Student Success Center
2. Academic credit is offered under

<table>

3. Learning strategies and study-skills workshops provide quick assistance in one-hour presentations offered throughout the semester.
4. Professional and graduate school workshops provide development in such areas as speed reading, preparing for graduate school, preparing for the GRE, GMAT, LSAT, MCAT, or NES Test.
5. Student Success Center staff provide outreach presentations on learning and study-skills topics to classes, programs and organizations on campus.
6. Individual and group financial wellness services are provided through the Red to Green Financial Wellness Program.

For comprehensive information on all programs and services offered by the Student Success Center please visit us at the Hardman and Jacobs Undergraduate Learning Center Room 128, call (575) 646-3136, or review our services online at http://ssc.nmsu.edu.

Sustainability Courses at NMSU

The following courses have been identified as being Sustainability-Focused. These courses may be used to attain an 18 credit minor in a sustainability related discipline offered in the departments of

- Anthropology (p. 238),
- Engineering Technology (p. 788),
- Management (p. 584) and
- Plant and Environmental Sciences (p. 193).

Testing Services

Testing Services provides test information and registration materials for the following tests:

- American College Testing Assessment (ACT);
- College Level Examination Program (CLEP);
- High School Equivalency (HSE) (GED/HISET);
- Graduate Record Exam (GRE);
- Miller Analogies Test (MAT);
- Pearson VUE Test Site;
- PRAXIS Series;
- Pre-Professional Skills Test (PPST);
- New Mexico Teacher Assessments;
- and others.

For more information contact:

Testing Services
MSC 3DA, PO Box 30001
Las Cruces, NM 88003
Phone: (575) 528-7294

TRIO Student Support Services Program

The TRIO Student Support Services program offers academic and social support to ensure that program participants succeed at New Mexico State University. TRIO SSS uses a holistic approach in providing essential services to participants. Services include tutoring, mentoring, and strategies to assist participants in reaching their academic potential. Tutors and Mentors are certified by the College Reading and Learning Association and assist participants with tutoring, developing study strategies, adjusting to college, learning and using campus resources, developing effective study skills, accessing financial aid, using academic peer pre-advising, staying motivated and dealing with personal issues associated with college.

To qualify for the program, students must be a first generation college student (neither parent received a four-year baccalaureate degree), meet income guidelines set by the US Department of Education, demonstrate an academic need or have a learning or physical disability. Admission to the TRIO Student Support Services is highly competitive with only 350 slots available for eligible students.

For comprehensive information regarding services offered by the TRIO Student Support Services Program please visit at the Student Success Center located in the Hardman and Jacobs Undergraduate Learning Center.
Undergraduate Research Programs

New Mexico State University has a variety of faculty-mentored undergraduate research programs that offer students the opportunity to demonstrate knowledge gained within the classroom and apply it to scholarly research projects. In addition to offering the opportunity to write an honors thesis and work individually with faculty members through an independent study project is a sample sub-set of research programs available to undergraduates:

- Aggie Innovation Space
- Building Research Achievement in Neuroscience (BRAiN)
- Fred Hutchinson Partnership for the Advancement of Cancer Research Project
- Howard Hughes Medical Institute (HHMI)
- iCREDITS Center
- New Mexico Alliance for Minority Participation (AMP)
- Maximizing Access to Research Careers (MARC)

Graduate Research Facilities

The University recognizes and supports the concept of off-campus study and research as a valuable experience for graduate students. These experiences may take the form of internships, intensive study of specialized techniques with personnel at other institutions, and conducting research at specialized research facilities. Arrangements for such off-campus activities should be made with the student's committee and the graduate dean and should represent opportunities not normally available at this university. When the bulk of a student's research is to be conducted off-campus, both on- and off-campus advisors should be appointed and periodic meetings with the student's committee held to ensure timely progress. Such opportunities offer students considerable flexibility in their training and promote valuable contacts between the student, the university, industry, and research institutions. Students are encouraged to pursue these opportunities with their advisors and the graduate dean.

Agricultural Experiment Station

The Agricultural Experiment Station is the research division of the College of Agricultural, Consumer and Environmental Sciences. Faculty, professional personnel, and graduate students conduct basic and applied research concerned with biological, physical, and economic phases of food and fiber production, processing, and distribution; consumer health and nutrition; and the social and economic aspects of rural living. Energy, environmental, and natural resource conservation aspects of these broad disciplines offer many opportunities for the graduate student to undertake meaningful research investigations in both the laboratory and the field.

There are eight departments on the main campus with excellent laboratory facilities for research. In addition, the station maintains 13 field research centers including eight agricultural science centers, a forestry research center, a livestock research center, an animal insect lab, and two research ranches.

The station provides financial support to graduate research assistants and cooperates with research institutes at the university and with various state and federal agencies in providing opportunities for graduate research programs covering a wide scope of student interests. For further information, contact aesdean@nmsu.edu or visit http://aces.nmsu.edu/aes/.

Apache Point Observatory (APO-ARC)

Apache Point Observatory (APO) is located in the mountains of south-central New Mexico and is operated by New Mexico State University. The observatory is a major astronomical research facility that is home to four telescopes. The largest is a fully equipped 3.5-meter telescope that can be used for optical and infrared imaging, photometry, and spectroscopy. Apache Point Observatory is also the site of the Sloan Digital Sky Survey 2.5-meter telescope, which is running several different wide-field surveys touching on many facets of astronomy. NMSU owns and operates a 1-meter telescope at APO for wide field imaging. There is also a 0.5-meter telescope at the site.

Apache Point Observatory is owned by the Astrophysical Research Consortium (ARC). The consortium members include: New Mexico State University, the University of Colorado, the University of Virginia, the University of Washington, Georgia State University and Johns Hopkins University. NMSU manages and operates the observatory for the ARC consortium. Astronomy faculty and graduate students use the facility for various research projects. For further information, e-mail astro@nmsu.edu.

Arts and Sciences Research Center

The research center is the coordinating office for all scholarly activities within the College of Arts and Sciences. The primary functions are service to departments and faculty members, and the administration of grants and contracts. The center encourages and stimulates individual research and creative efforts in all areas of the college, and it facilitates the development of potential research programs within the college, and with other colleges, institutes, the Physical Science Laboratory, and external organizations. The center assists individual faculty members by providing small grants of “seed” money. Typically, support services fall within, but are not limited to, the following areas:

- Location of funding sources
- Administration of grants and contracts
- Financial management of grants and contracts
- Liaison with the Office of the Vice President for Research

Contact: Lorenza Sanchez at lorenzas@nmsu.edu () https://artsci.nmsu.edu/as-research-center/

Bioinformatics Research Lab

The bioinformatics research lab develops efficient computational and statistical methods to model mechanisms of complex biological systems. The lab’s work rigorously evaluates both the theoretical and practical effectiveness of computational methods for characterizing molecular interactions from high-throughput measurements such as next generation sequencing data. The lab’s long term goal is to invent advanced computational technology to expedite quantitative understanding of the complexity of life processes.

Director: Joe Song
https://www.cs.nmsu.edu/~joemsong/group.shtml

Biology Research Facilities

The Department of Biology houses multiple core facilities and individually faculty-maintained research laboratories that have been successful in
the acquisition of millions of dollars in research grants from the NIH and NSF, as well as other agencies. The facilities and equipment include a cell culture facility, insect and invertebrate rearing and microbiology culturing facilities, diverse microscopy laboratories, as well as a well-maintained herbarium and vertebrate museum holding more than 100,000 specimens from our region and beyond. Individual research laboratories are equipped to investigate organismal genomics, transcriptomics, and microbiome analysis; organismal and microbial evolutionary mechanisms and physiology; vaccine development; host-symbiont interactions; cell mitosis and cytokinesis; plant pathology; neuronal and muscular tissues; animal vocalization and behavior; computational modeling of biological phenomena; and molecular systematics.

Contact: Dr. Ralph Preszler (r preszle@nmsu.edu)

### Bureau of Business Research and Services

Founded in 1969, the bureau has two basic objectives. The first is to provide business and economic research services to both public and private sectors of the state, the region and the nation. Research capabilities in the behavioral and managerial sciences, business systems, economic and social sciences, marketing, statistical design and analysis and regional planning can be applied to problems relating to economic growth, business development and community needs in New Mexico.

The second objective of the bureau is to provide management training services to business organizations and associations, to government agencies, and to the public as well. Management development seminars, training programs, and analytical services are designed to meet specific organizational needs.

The Bureau of Business Research and Services is a member of the Association for University Business and Economic Research.

Contact: Dr. William Gould (wgould@nmsu.edu)

### Carlsbad Environmental Monitoring and Research Center

Created in 1991 with a grant from the U.S. Department of Energy, the Carlsbad Environmental Monitoring & Research Center (CEMRC), a department of the College of Engineering, conducts environmental research, provides special analytical services, assists with technology development, and disseminates information for federal, state, and private sponsors. CEMRC is housed at Light Hall, a 26,000-square-foot facility located in Carlsbad, in southeast New Mexico. The facility’s laboratories include radiochemistry and associated nuclear spectroscopy, environmental organic and inorganic chemistry, in vivo bioassay, and field sampling. A primary activity of CEMRC is long-term environmental monitoring for contaminants in the region of the Waste Isolation Pilot Plant (WIPP), located near Carlsbad. The data produced from this project are summarized in periodic reports and are presented on the CEMRC web site at www.cemrc.org. Primary research areas of the CEMRC include studies of atmospheric dust and inorganic contaminants, human and ecological risk assessment, and development of radioanalytical and spectroscopic methods for measurement of naturally occurring and human-produced radioactive elements. Results of CEMRC research projects appear in peer-reviewed scientific journals and are presented at national and international meetings.

Contact: Dr. Russell Hardy at (575) 234-5555

### The Center for Animal Health and Food Safety

The Center was founded in 2007 and is comprised of three primary functional research units:

1. Chemical Analysis and Instrumentation Laboratory maintains high-end analytical instrumentation which is available to support collaborative research within NMSU, the State of New Mexico and other educational or industrial partners.
2. Food Safety Microbiology Laboratory specializes in research and development of foodborne pathogen detection and control; food product testing, including microbiological analyses, pH, aw; process evaluation of acidified foods, inoculation studies, shelf-life testing, and contracting to establish food safety plans (e.g. HACCP plans, Listeria control programs).
3. Veterinary Entomology Research Laboratory provides a state-of-the-art large animal research facility located on 45 acres, with a 5000 sq. ft. large animal laboratory, capable of housing 24 animals individually in environmentally controlled rooms. The laboratory maintains multiple insect rearing facilities for major ectoparasites including: house flies, stable flies, horn flies, face flies, mosquitoes, lice, mites and ticks. The facility has outdoor housing for 60 large animals in covered, individual outdoor stanchions, in addition to housing for wildlife species including: deer, elk, bighorn sheep and rabbits.

Director: Dr. Tanner Schaub (tschaub@nmsu.edu; (575) 646-5156)

### Center for Latin American and Border Studies

The Center for Latin American and Border Studies (CLABS) was established in 1979 by the College of Arts and Sciences and is located at the Nason House. CLABS supports Frontera NorteSur, an on-line journal about the U.S.-Mexico border. In addition, CLABS supports the collection at the NMSU library, travel for faculty to conferences, language training in Spanish and Portuguese, lectures by visiting speakers, curriculum development for teachers, the student Latin American organization, and other outreach activities. It has a faculty governance organization and helps administer the Nason foundation fund. In recent years the center has pursued an active program of research on U.S.-Mexico border policy issues, in cooperation with several universities in the United States and Mexico.

Contact: Center for Latin American and Border Studies 575-646-7041.

### Chemistry and Biochemistry Research Facilities

The Department of Chemistry and Biochemistry has a comprehensive equipment base that supports research in nearly all phases of chemistry. It also has instrumentation dedicated to the department’s teaching mission. Major instruments supporting both missions include five nuclear magnetic resonance (NMR) spectrometers ranging from low field (200 MHz) to high field (500MHz), two atomic absorption spectrometers, several UV-Vis spectrometers, two mass spectrometers (LS/MS) and four gas chromatograph instruments. Details about all instruments located in the department’s facilities can be accessed at https://chemistry.nmsu.edu/research/.
Instrumentation Facilities Manager: Jaime Rodriguez (jarodrig@nmsu.edu)

Cooperative Extension Service
As a land-grant institution, New Mexico State University has a tripartite mission—instruction, research, and extension. The three parts of this mission are closely interrelated and mutually reinforcing. New Mexico State University’s Cooperative Extension Service serves a unique role in New Mexico. As the state’s land-grant university, and as mandated by its charter, it is the “leading object” for agriculture, home economics, engineering, business, health sciences, as well as educational programs in the liberal arts and natural sciences. NMSU’s uniqueness arises from its vision of teaching/learning, research, and extension/outreach functions—interdependent, mutually supportive and central to its land-grant mission.

The extension aspect of the university’s mission is the process of extending the intellectual expertise and resources of the university through teaching and applied research to address the social, civic, economic and environmental challenges and opportunities facing our state, region, nation, and global community. Extension entails an organized and planned program of activities; these activities bring the resources of the university to bear in a coherent and strategic fashion for the benefit of the citizens of New Mexico and the nation. Many faculty have split appointments with the Agricultural Experiment Station and serve as graduate advisors for students interested in extension as a career. For more information see http://extension.nmsu.edu/.

Core University Research Resources Laboratory
The Core University Research Resources Laboratory (CURRL) is a campus-wide, core facility providing all levels of technical support and consultation for investigators needing analytical and routine transmission, scanning electron microscopy, and light microscopy services. The integrated imaging facility is administered through the Office of the Vice President for Research and is considered a core research facility. The facility was established to furnish state-of-the-art microscopy instrumentation and techniques to investigators and their students for research and training. The laboratory is located in Skene Hall, RM W152, and W160.

Director: Dr. Huiyao Wang (huiyao@nmsu.edu)

Data Management and Data Analysis (DATA) Research Lab
The Data Management and Data Analysis (DATA) research lab aims at advancing techniques for the effective management and analysis of complex data (e.g., sequence data, graph data, semi-structured data). The laboratory conducts research in modeling, storing, querying and mining large amount of complex data at both theory and application levels. The laboratory keeps active collaborations with scientists from other Computer Science areas and scientific disciplines to broaden the usage of data management and data mining techniques. The laboratory is located in Science Hall, Rm. 153.

Director: Huiping Cao
https://kddlab.nmsu.edu/

Dissect Laboratory
DISSECT (Discovering Science through Computational Thinking) is a laboratory established by a joint team of researchers from the Department of Computer Science and the College of Education. The lab is housed in Computer Science on the second floor of the Science Hall. DISSECT provides physical space and facilities to nurture interactions between computational scientists and educational researchers in order to develop innovative technologies that will expose K-12 students to fundamental principles of computing. The laboratory provides workspaces and high performance workstations for graduate students as well as a dedicated network and offices for researchers and visitors.

Director: Dr. Enrico Pontelli (epontell@cs.nmsu.edu).

Educational Research Center (EDRC)
The Educational Research Center (EdRC) in the College of Education is the administrative office which supports faculty in obtaining and managing external funding. The academic which supports faculty in obtaining and managing external funding. The academic component of the ERC, under the direction of the Associate Dean for Research, facilitates faculty involvement in research, publishing and outreach initiatives with the goal of building a strong research agenda for the college. The business component of the ERC is the Education Research and Budgeting Office (ERB) which assists in proposal submission, account setup and monitoring and provides oversight for the College’s unrestricted, restricted and legislative funds.

ERB Director: Juanita Hannan (juamendo@nmsu.edu)

Engineering Research Center
The mission of the College of Engineering’s Engineering Research Center (ERC) is to support the faculty and staff of the college in building research programs of nationally and internationally recognized excellence. The ERC assist faculty and staff in their pursuit of research funding, management of their research, and in ensuring research activities are in compliance with all relevant laws and regulations.

The ERC disseminates information to the college regarding state, national and international research trends, programs and policies. The ERC identifies potential funding opportunities and calls for proposals that may be a fit for college faculty and staff. The ERC works with the Office of the Vice President for Research and the other NMSU colleges to bring together multi-disciplinary teams.

Engineering Research Center for Bio-Mediated and Bio-Inspired Geotechnics (CBBG), Engineering Research Center for Re-inventing the Nation’s Urban Water Infrastructure (ReNUWIt), and Tran-Set: Transportation Consortium of South-Central States.

For proposal preparation, the ERC pre-award team assists the faculty with interpretation of sponsor guidelines, development of the proposal budget, completion of standardized forms, review of the proposal for adherence to sponsor requirements, and submission to the NMSU Office of Grants and Contracts for their review and final submission. The post-award staff assist the faculty and staff with award management, including working with the NMSU Sponsored Projects Accounting office. The ERC is responsible for financial management of college grants and contracts.

Contact: Dr. Phillip DeLeon (pdeleon@nmsu.edu)
Freeport-McMoran Copper & Gold Water Quality Laboratory
The Water Quality Laboratory in the College of Engineering was established by a gift from Freeport-McMoRan. It is located in ECIII rooms 106 and 110. Current capabilities of the lab include:

- Dionex ICS-2100 Ion Chromatographic System (ICS) with an AS-DV autosampler, the ICS-2100 is configurable for either anions or cations;
- PerkinElmer Elan DRC-e Inductively Coupled Plasma for Mass Spectrometry (ICP/MS) with dynamic reaction cell (DRC) capability;
- Perkin Elmer Series 200 High-Performance Liquid Chromatography (HPLC) with UV/Vis Detection;
- Gas Chromatography (Agilent model 7890) using a mass spectrometer detector (Agilent model 5975C) (GC/MS) using an Agilent 7693 autosampler;
- A 16-vessel Multiwave 3000 Microwave Reaction System by Anton Paar;
- Micromeritics ASAP 2050 High Pressure Sorption Analyser that uses a dewar with liquid nitrogen or antifreeze for temperature control. The antifreeze temperature is controlled from -20° to +75° Celsius using a PolyScience PD15R-30 recirculator bath;
- Shimadzu TOC-Vcsh Total Organic Carbon Analyser (TOC) with a Total Nitrogen Measurement Unit (TNM-1) option;
- Malvern Zetasizer Nano ZS for zeta potential and size measurement of suspended particles;
- Anton Paar Surpass for zeta potential measurement of membranes, granules, or fiber particles; and
- a Millipore Direct Q3 water purification system.

Analyses may be performed by a researcher after receiving training on the device.

Contact: Dr. Phillip DeLeon, pdeleon@nmsu.edu

Geochemistry Research Laboratory
The Department of Geological Sciences houses a number of analytical instruments, all of which are available for use by graduate students, undergraduate researchers, and faculty. The department houses a Laser-Ablation Multi-Collector Inductively Coupled Plasma Mass Spectrometer (LA-MC-ICPMS) for analysis of isotopic ratios of microsamples, an X-ray fluorescence spectrometer for geochemical analysis of rocks and other solid materials, a thermal ionization mass spectrometer for analysis of isotopic ratios of solids and liquids, and a laser-induced breakdown spectrometer for the analysis of solid materials. Sample preparation equipment is available to support research on these instruments. In addition, mineral separation equipment including a jaw crusher, Gemini shaker table, Franz magnetic separator, and heavy liquids, is available for geochronologic or other mineralogic research projects.

Contact: Dr. Nancy McMillan, nmcmilla@nmsu.edu

ICredits: Interdisciplinary Center of Research Excellence in Design of Intelligent Smartgrids Technologies
The Center, funded through a grant from the National Science Foundation, is focused on the development of novel hardware/software technologies and methodologies to enable the design, development, deployment and evaluation of microgrids and smartgrids. The Center is housed in Science Hall; it supports research activities at the boundaries between power systems and computer science. The Center also promotes the development of educational and outreach activities aimed at enhancing the awareness and training in all areas relevant to the smartgrids vision.

Contact: Dr. Enrico Pontelli (epontell@nmsu.edu)

Institute for Energy and the Environment
The Institute for Energy & the Environment (IEE) is a unit within the Engineering Research Center. IEE’s programmatic efforts focus on interdisciplinary research, education, and outreach to develop comprehensive solutions for environmental, energy and water challenges in the southwestern United States and worldwide. IEE offers opportunity for conducting research to the graduate and undergraduate students at NMSU. IEE’s major objectives include renewable energy, biofuel, advanced water treatment and desalination, and advancing education, training and outreach in areas of environment, energy and water.

Director: Dr. Phillip DeLeon (pdeleon@nmsu.edu)

Knowledge Representation, Logic and Advanced Programming Laboratory (KLAP)
The KLAP lab was established in 1994 through an RIMI grant from the National Science Foundation and has developed into a focal research laboratory of international reputation. It is housed in the Department of Computer Science. KLAP’s research focus is to advance state-of-the-art knowledge in Artificial Intelligence and High Performance Computing and its application in diverse interdisciplinary domains such as bioinformatics and assistive technologies.

The lab provides a full meeting space (with multimedia projection capabilities), access to eight high performance work stations, a dedicated high performance computing server and a 40-core Infiniband Beowulf cluster. The lab has hosted international researchers and has graduated approximately 100 graduate students with MS and Ph.D. degrees. It has attracted almost $10,000,000 in external funding.

Director: Dr. Enrico Pontelli (epontell@cs.nmsu.edu)

Networks and Systems Optimization Lab (NSOL)
The Networks and Systems Optimization Laboratory (NSOL) supports research in networking and communication including, but not limited to: wireless networks, the Internet, supercomputing networks, and online social networks. This research includes optimization problems, protocol design and development, hardware design and development, and mechanisms for improving security and privacy of communications (including cybersecurity). The lab has a 24 core blade server (RAID-10) that is used for extended simulations and back-up, five desktops, five laptops, and four smartphones, which form a networking testbed.

Director: Satyajayant “Jay” Misra
http://nsol.nmsu.edu/

New Mexico Department of Agriculture
The New Mexico Department of Agriculture (NMDA), under the control of the NMSU Board of Regents, is responsible for administering laws and regulations that daily affect the lives of every citizen of the state.
These laws and regulations (concerning the production, preparation, processing, sale, and use of agricultural products; weights and measures; and petroleum products) are designed to assist producers, processors, and consumers. NMDAs marketing program provides guidance to commodity groups in the promotion of agricultural products. A broad consumer service in many areas other than agriculture is provided by the department. NMDAs director is New Mexico’s secretary of agriculture and serves on the governor’s cabinet as a liaison between state government and the agricultural industry. For further information, e-mail: mailto:pio@nmda.nmsu.edu (pio@nmda.nmsu.edu). NMDAs website is at http://www.nmda.nmsu.edu

New Mexico State University Library
The New Mexico State University Library is a Destination for Discovery that offers access to rich content and research-level collections in two library facilities located in the heart of the campus. Zuhl and Branson libraries house over 1.8 million items and provide electronic access to scholarly journals and databases for both general academic and discipline-specific research. View the large geological collection and artworks on display at Zuhl Library and explore historical collections within the Archives and Special Collections Department at Branson Library. Reference assistance and research support are provided by a team of faculty and staff dedicated to student learning and success. There are a variety of study areas available including quiet and group spaces, some of which can be reserved. Over 100 PCs, scanners, laptops, and other resources are available for students to use. More detailed information may be found at http://lib.nmsu.edu.

New Mexico Water Resources Research Institute
The New Mexico Water Resources Research Institute (WRRI) at NMSU, established in 1963, was one of the first of 54 water institutes in the United States. The WRRI program encompasses all state universities in New Mexico and public agencies sponsoring water research. The institute serves as a coordinator, assisting researchers in obtaining funds, working with granting agencies, and serving as the administrator for projects. The annual budget of approximately $1.5 million is made available from federal, state, and/or private sources through a variety of grants and contracts. All research projects administered by the institute encourage graduate student participation. As a result, about 30 students a year receive scientific training through institute-sponsored projects. WRRI also sponsors the Annual New Mexico Water Conference, which has provided a public forum for state water issues since 1956. Public participation helps the institute focus its research program on areas of greatest need. The WRRI publishes research results of every project it administers and other miscellaneous reports. The WRRI also maintains a water resources reference room with 2,000 books and documents and the ability to link to 10,000 water-related documents on water issues facing the state and the nation. E-mail may be sent to nmwrri@nmsu.edu. The WRRI’s homepage address is http://nmwrri.nmsu.edu.

Oak Ridge Associated Universities Program (ORAU)
Since 1991, students and faculty of New Mexico State University benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 98 colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOA facility that ORAU operates, undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the ORISE Catalog of Education and Training Programs, which is available at http://www.orau.gov/orise/educ.htm, or by calling either of the contacts below.

ORAU’s Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU’s members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research and support programs as well as services to chief research officers.

For more information about ORAU and its programs, contact:
Dr. Luis Cifuentes - Vice President for Research (575) 646-2481
ORAU Corporate Secretary (865) 576-3306; or Visit the ORAU Home Page (http://www.orau.org)

Physics Research Facilities
The Department of Physics operates a PANalytical Empyreean x-ray diffractometer for low-resolution powder diffraction, high-resolution diffraction, reciprocal space mapping with a triple-axis crystal, and x-ray reflectance. It also operates a J.A. Woollam variable angle of incidence ellipsometer (VASE) with a computer-controlled Berek waveplate compensator for measurements from 190 to 2500 nm, at room temperature and from 80 to 800 K. Both instruments are integrated into CURRL and available to the campus community and off-campus users for a fee. See http://xrd.research.nmsu.edu and http://ellipsometry.nmsu.edu for more information and to book time on the instruments.

Contact Dr. Stefan Zollner (zollner@nmsu.edu).

Play and Interactive Experiences for Learning Lab (PIXL)
The Play and Interactive Experiences for Learning (PIxL) Lab works at the intersection of games, human-computer interaction, and mixed reality, developing game experiences that educate and function as scientific experiments in HCI. Projects center around the best means of interfacing with games, including keyboard and mouse and controllers all the way to gesture-based input, wearable systems and mixed reality. Prior research has investigated the use of games for training firefighters, and ongoing research applies this to disaster response in general and military projects. The lab provides space for students, as well as access
to workstations, a modular wearable computer, tracking sensors and games.

Director: Zachary O. Dugas Toups (ztoups@nmsu.edu)

**Programming Languages Environments and Software Engineering (PLEASE) Laboratory**

The PLEASE lab pursues research in the practical aspects of software development, including programming languages, programming environments, and software engineering. The lab is housed in Science Hall 167 and includes workstations and work space for graduate students pursuing research in relevant areas.

Director: Jonathan Cook
http://www.cs.nmsu.edu/please

**Psychology Research Facilities**

The Department of Psychology emphasizes research in social psychology, engineering psychology, and cognitive psychology. Faculty investigate such issues as mother-infant interactions and the impact of cortisol responses to stress upon development; visual search; human factors research; auditory perception; prospective memory; emotion and social decision-making; evolutionary psychology; skill acquisition; social cognition; perception and action; embodied cognition; cognitive neuroscience (control of attention, neural dynamics; and brain-computer interfaces); and research and statistical analysis methods.

All faculty have designated labs with a large central area and 3-4 smaller adjacent rooms. This facilitates data collection from small groups or individuals. Research using the department’s subject pool is managed with an online system.

The department has specialist facilities that include an EyeLink 1000 eye tracking system with experiment builder software; two 128 channel Biosemi ActiView-2 EEG systems and two shielded rooms; eight analysis workstations; and a Neurocom DC Stimulator Plus TDCS stimulator. The lab collaborates with the Mind Research Network that has access to a Siemens 3T Trio research MR scanner, a Magvis 132 channel MEG system, and Biosemi and Geodysics EEG systems. The Auditory Perception Lab has a remote-controlled robot with binocular vision and stereo audition that is used to assess auditory performances in applied settings; another remote controlled robot to test perceptual interfaces for remotely-operated vehicles; a 30-element speaker array to simulate real-world auditory environments; and two portable eye trackers housed in the PACMANE (Perception, Action and Cognition in Mediated, Artificial and Naturalistic Environments) lab.

Contact: Dr. Dominic Simon (domsimon@nmsu.edu)

**Research Initiatives in the College of Education**

The College of Education has research initiatives and labs in the following areas:

- The Kinesiology and Dance Department offers lab space for the study of biomechanics, sport psychology & motor learning, applie and basic physiology, healthy aging, physical education curriculum and kinesthetic learning.
- The Speech and Hearing Center’s Benfer for voice and speech science research.
- The Special Education/Communication Disorders Department’s Autism Research Initiative.
- Alliance for the Advancement of Teaching and Learning in collaboration with the Southwest Regional Educational Lab REL (Institute for Educational Services, IES) provides research for partner school district practitioners on accountability, special education/ response to intervention, literacy, leadership development, math and science achievement, and program evaluation.
- The Institute for Mathematics and Science Education oversees multiple mathematics and science grants as well as serving as the STEM Outreach Center for K-12 education.
- The Counseling and School Psychology Training and Research Center provides counseling services for students, training for graduate students in counseling, school psychology and counseling psychology, and conducts research on counseling outcomes and processes.
- A Reading Research Center is housed in the NMSU Children’s Village and provides reading diagnostic services including analysis of reading using eye-tracking software.

**Southwest Institute for Health Disparities Research**

To address the substantial health disparities that exist in Southern New Mexico and the U.S./Mexican Border Region, New Mexico State University has recently established the Southwest Institute for Health Disparities Research within the College of Health and Social Services. The purpose of the Institute is to assist faculty to secure external funding and conduct research which has the potential to reduce health disparities and improve minority health, provide health related community outreach programming, provide training for researchers, lay groundwork for additional funded research, and attract highly qualified minority faculty and graduate students to NMSU. Additionally, the Institute serves as the coordinating office for all scholarly activities within the College of Health and Social Services [http://swihdr.research.nmsu.edu/](http://swihdr.research.nmsu.edu/).

Dr. Jill McDonald (jillmcd@nmsu.edu)

**Southwest Technology Development Institute (SWTDI)**

SWTDI, formally the Southwest Regional Experimental Station or SWRES, was established in 1977 under DOE funding as a Photovoltaic research center. Over the last 30 years SWTDI has conducted extensive long term panel, inverter, and systems testing providing significant contribution to the field. One substantial consequence of the system testing has been the accumulation of knowledge related to the safety, installation methodology, design, and development industry standards in PV. Today SWTDI continues to be a leader in education and development of article 690 of the National Electric Code (NEC), Solar Photovoltaic Systems and continues its research in long term panel and inverter testing. However in 2012 SWTDI integrated with the Electrical and Computer Engineering Department of NMSU to broaden the research focus and has developed a microgrid for expanded research into renewable integration into the electric grid and demonstration of ongoing collaborative research with the ECE department on industry partners.

[http://ece.nmsu.edu/research/swtdi](http://ece.nmsu.edu/research/swtdi)
Spatial Applications and Research Center (SPARC)
The SpARC laboratory was established in 1982 as an applied contract research laboratory for the NMSU Geography Department. SpARC provides a variety of services including planning and research, GIS, image processing, modeling and training. The original purpose of the laboratory was to undertake externally funded projects under the direction of geography faculty and employ students within the department. Thirty-four years later, the laboratory continues to do project related work. It has employed more than 150 students, and provided assistance to more than 35 faculty members inside and outside Geography. The primary clients of the lab have been federal state and local government agencies, with an emphasis on applied transportation, water resource, and environmental research projects. The lab houses 11 high performance workstations, a range of mapping grade GPS units, and a large scanner/plotter. Software available for use includes database software, ENVI image processing software, TransCAD, and the entire suite of Esri GIS software.

Director: Dr. Christopher Brown (brownchr@nmsu.edu; (575) 646-1892)

Survey Research and Program Evaluation Center
The Survey Research and Program Evaluation Center (SRPEC) is designed to assist researchers, agency directors, business leaders, and policy makers in all aspects of survey research and program evaluation. Housed in the College of Health and Social Services, the Center has state-of-the-art hardware and software for conducting phone and internet surveys of any type and length as well as facilities for conducting face-to-face interviews and focus groups. SRPEC provides a wide array of services: questionnaire design, sampling, data collection, and statistical analysis for telephone, mail, and internet surveys. Center staff are also able to assist and conduct all forms of program evaluation from formative to summative approaches, including process, outcome and impact evaluations. Bilingual (Spanish/English) questionnaire translation and interviewing are also available.

Director: Dr. Joe Tomaka (tomaka@nmsu.edu; (575) 646-3525)

University Museum
Established in 1959, the New Mexico State University Museum has provided 50 years of service to the university and community. The University Museum assists NMSU in providing quality education, advancing knowledge through research, and celebrating the culture and history of the southwest and the University. The Museum serves the community as a repository and exhibitor of local and regional history and culture. Through its care and maintenance of donated ethnographic, historic and prehistoric objects, it preserves an important part of Southwestern and Border region culture and history. The Museum encourages faculty and student research using our diverse cultural materials.

The Museum’s collections are primarily anthropological (archaeological and ethnographic) with secondary collections in history and the natural sciences. Anthropological collections document the cultural diversity of the border in the Greater Southwest and northern Mexico. The Museum preserves and catalogs collections to promote research and access to cultural materials. Exhibits are developed by students and staff as well as brought in from other institutions.

Director: Dr. Fumi Arakawa (farakawa@nmsu.edu)
Curator: Anna Strankman (amstrank@nmsu.edu)

Military and Veterans Programs (MVP)
NMSU is a military and veteran friendly university which strives to provide the best possible service to our current and former service members as they pursue their educational goals. NMSU Military and Veterans Programs promotes lifelong learning and professional development for veterans, active-duty military and their families, assisting them in their higher education goals by offering:

- Affordable, in-state tuition rates for active-duty military and their dependents eligible for DoD Tuition Assistance (TA) education benefits or living at regional military installations, and veterans and their dependents eligible for U.S. Department of Veterans Affairs (VA) education benefits
- Easily transferable credits that count toward degrees at NMSU
- Facilitation of all U.S. Department of Defense Tuition Assistance (TA) Benefits
- Courses taught online and at locations near regional military installations
- Innovative technology and course delivery methods
- Student advocacy at every level, from admission to graduation
- Resource materials from a variety of veteran and military service organizations
- Student Veteran Housing for student veterans and their families
-Priority registration for all military and veteran students
- Veterans on Campus, Aggie Green Zone Training, training faculty and staff on our student veterans and the unique value they bring to campus
- Salute Honor Society for student veterans
- Connection with student organizations (i.e. Student Veterans Organization of NMSU)
- Military and veterans (including dependents) scholarships
- Internship opportunities

NMSU degree programs are approved by the State Approving Agency Directory at the New Mexico Higher Education Department. Eligible students may receive education benefits from the U.S. Department of Defense or U.S. Department of Veterans Affairs.

For further information, contact Military and Veterans Programs at:

MSC 4740, PO Box 30001
Las Cruces, NM 88003-8001
(575) 646-4524
http://mvp.nmsu.edu

MVP Lab
The MVP lab serves as a one-stop shop for military and veteran students with numerous resources on and off campus. Military and Veterans Programs can assist you with all matters at NMSU from admission to graduation. Military and Veterans Programs has a lab containing 6 PCs. Common Access Card (CAC) readers are available on 2 machines. The lab is open 8am-5pm, Monday through Friday and is available to all military and veteran students including dependents. Enjoy a free cup of coffee while doing your homework or just hang out and network with like-
minded veterans. We offer free efax, copy and printing services to further accommodate our students.

Costs
Active-Duty
Active-duty military personnel (Armed Forces) stationed in New Mexico or at Fort Bliss, Texas may complete a "Resident Tuition Application for Active Military, Veterans and Dependents of the US Armed Forces" waiver to qualify for in-state tuition. Spouses and minor children of active-duty personnel who are stationed in New Mexico and Fort Bliss, Texas who are not otherwise entitled to claim in-state residency, may apply for in-state tuition by submitting a "Resident Tuition Application for Active Military, Veterans and Dependents of the US Armed Forces" waiver to the Military and Veterans Programs office. Applications are available at the Military and Veterans Programs Office, online at http://mvp.nmsu.edu, or through the University Student Records Office.

Dependents Receiving VA Educational Benefits
Per NM 2015 HB 427:
A spouse or child of a veteran of the armed forces is entitled to pay tuition and fees at the rate provided for New Mexico residents; provided that the spouse or child is eligible for benefits pursuant to the federal Post-9/11 Veterans Educational Assistance Act of 2008 or any other federal law authorizing educational benefits for a veteran and the dependents of a veteran. Applications are available by contacting Military and Veterans Programs office.

Veterans
Veterans receiving U.S. Department of Veterans Affairs education benefits are eligible for in-state tuition through the Veterans In-State Tuition Act by submitting a "Resident Tuition Application for Active Military, Veterans and Dependents of the US Armed Forces" waiver. For further information concerning approved programs and application process, eligible persons should contact Military and Veterans Programs office.

Veteran students enrolled under the following programs are responsible for their tuition and fees in the same manner as a nonveteran student:

- Montgomery GI Bill-Active Duty (CH 30)
- Survivors’ and Dependents’ Educational Assistance (CH 35)
- Montgomery GI Bill-Selected Reserve (CH 1606 & 1607)

Responsibility of Students Receiving VA Education Benefits
Students must be pursuing a degree in a specific program to be eligible for VA education benefits. Students must submit their degree plans or Student Academic Requirements (STAR) Degree Audit Report and Concise Student Schedule to Military and Veterans Programs to be certified. For continued certification, students must submit their degree plans or STAR Degree Audit and Concise Student Schedule to the MVP office every semester they plan to use VA education benefits.

Students using VA Education Benefits must notify MVP office when any of the following occur:

- Dropping or adding course(s)
- Withdrawing from course(s)
- Withdrawing from the University

- Discontinuing regular class attendance
- Changing programs (academic majors/minors)

VA education benefits are payable for regular attendance in courses that are part of the student's program (major/minor) curriculum. VA education benefits are not payable for:

- Classes not attended regularly
- Repeating a course for which a passing grade meets degree requirements
- Classes for which credit is received through successful completion of a proficiency test or grade by examination
- Classes taken on an audit basis
- Classes that are dropped or withdrawn from
- Classes taken that are not part of the student’s program (major/minor) curriculum

Tuition Assistance
Federal Tuition Assistance (TA) is a benefit paid to eligible active duty members of the Air Force, Army, Coast Guard, Marines and Navy. The Department of Defense (DoD) has given each service the ability to pay up to $250 per semester credit hour of the actual cost of tuition (no fees) during the fiscal year (Oct. 1 - Sept. 30). TA must be requested and approved prior to the start date of the course. Refer to your Service portal for specific TA deadlines and procedures. TA is paid directly to the school by the individual services.

Service members must first be admitted to NMSU before they may enroll in any classes at NMSU. Please be aware of our admission and registration process:

1. Service members must apply online to be admitted,
2. login to my.NMSU.edu to register for classes, and
3. create an account and Request TA through their service online portal.

Each service has its own criteria for eligibility, application process and restrictions. Refer to our website for service login information: http://mvp.nmsu.edu/tuition-assistance

It is important to request TA for the same class and section number as enrolled in NMSU for tuition and grading purposes. Only enrollments requested and approved through their service online portal will be eligible for TA. Refer to our website for further information at http://mvp.nmsu.edu/tuition-assistance or contact the MVP Military Programs Advisor for assistance.

State Tuition Assistance
New Mexico National Guard Tuition Scholarship Program (NMGTPSP) also referred to as State Tuition Assistance (STA). The scholarship provides eligible members of the New Mexico National Guard an opportunity to pursue and complete a bachelor's degree or below. STA will pay up to 100% per semester towards the cost of tuition and fees during the fiscal year (July 1 - June 30). STA is paid directly to the school and is invoiced after the last day to drop a class. Refer to our website for STA deadlines and procedures at https://mvp.nmsu.edu/tuition-assistance/state-tuition-assistance or contact the MVP Military Programs Advisor for assistance.

MyCAA Spouse Scholarship
The My Career Advancement Account (MyCAA) Scholarship is a workforce development program that provides tuition assistance to eligible military spouses. The scholarship assists military spouses
in pursuing licenses, certificates, certifications or associate degrees necessary to gain employment in high-demand, high-growth portable career fields and occupations. MyCAA provides a maximum education benefit of $4,000 per fiscal year (Oct. 1 - Sept. 30). Refer to our website for MyCAA eligibility and procedures at https://mvp.nmsu.edu/tuition-assistance/mycaa-program or contact the MVP Military Programs Advisor for assistance.

**Regulations**

*Note: These regulations apply to all campuses of NMSU and are effective with the publication of this catalog. Tuition amounts, fees, and similar items subject to annual review and change are all effective with the current catalog.*

**Credit for Military Service**

New Mexico State University will award academic credit to United States military personnel for courses and Military Occupational Specialties (MOS), based on the American Council of Education Guide (ACE) as well as through national standardized tests, such as CLEP, AP, PEP and DANTES. Credit for military-training is in accordance with NMSU Faculty Senate Legislation Proposition 24-07/08, which was passed in May 2008. Military Training and Military Occupational Specialties (MOS) must have a recommendation evaluation by ACE (in the ACE Guide) for credit to be awarded. Courses accepted for transfer credit become part of the student's official NMSU transcript and academic record. If a student wishes to appeal a decision regarding the acceptance of military training/education and/or MOS for academic credit, the student must submit a written statement of appeal to the Dean of the College to which the student has applied. The Dean will review the merits of the appeal and render a decision. The decision of the Dean is final.

Only Primary MOS (s) are eligible for academic credit in the initial review and evaluation. Credit for Duty and/or Secondary MOS may be eligible for academic credit if the student petitions the college's Associate Dean. Primary MOS is the primary specialty of a soldier and reflects the broadest and most in-depth scope of military experience. Veterans, active-duty personnel, National Guard and Reservists who are current students or students applying for admission to New Mexico State University may be granted academic credit on a case-by-case basis upon evaluation of military transcripts - the Joint Service Transcript (jst.doded.mil) and the Community College of the Air Force transcripts. Course equivalencies and credit hours awarded for a particular NMSU degree are determined by colleges and/or academic departments. Credit hours may be awarded for specific courses toward degree requirement, or as elective credit. The number of credit hours awarded will be determined by the college and/or academic department.

*Note: Students submitting military transcripts for credit evaluation must keep in mind the Maximum Time Frame policy, see the Financial Aid Section (p. 31) for more information.*

**Military/Veteran Graduate Student Status**

Veteran benefits are determined by the number of graded graduate credits of enrollment for a given semester or summer session. Listed below are the credit hours that determine student status for military veterans.

Fall and Spring semester: full-time enrollment includes 9 or more graded credit hours. Students are considered three-fourths time if they are enrolled in 7 to 8 credit hours. Half time enrollment is 5 hours. Veterans enrolled in less than 5 credit hours are reimbursed for tuition and allowable fees only.

There are several sessions within the summer term. For the 10 week summer session, full-time enrollment is 6 credit hours and half time enrollment is 3 credit hours. During the five week sessions, full-time enrollment is 4 graded credit hours.

**Military Withdrawal**

New Mexico State University understands that our military and Veteran students may be called to active duty, specialized training, or disaster relief efforts with little notice. U.S. active duty military students wishing to withdraw from all their classes must present their orders and their request for full withdrawal, as indicated below. However, the below policy does not pertain to a student’s basic and/or annual training. A student who has an order for training is encouraged to formally request, through the proper military chain of command, a postponement of their orders until the summer or the end of the semester they are currently enrolled in. If a student's request for postponement is denied, the student may then follow the below steps but must provide documentation that their postponement request was formally denied.

All NMSU students that have been called up for active duty must take the following steps in order to withdraw from all their classes:

1. **Military and Veterans Programs (MVP):** VA students ordered to Active Duty must provide a copy of orders to the MVP office, in Corbett Center Student Union, Room 244. To assist in reporting accurate information to the VA Regional Office, student should also provide, in writing, last day of class attendance.

2. **NMSU University Student Records:** All students presenting their orders to the University Student Records Office, (575) 646-3411, will receive a military withdrawal from classes and a full tuition and fees refund for that semester.

3. **Bookstore:** Students who still have their receipts for textbooks purchased the semester in which they are called to active duty will be given a full refund for these textbook purchases when they present their orders. (575) 646-4431.

**Veterans’ Attendance and Satisfactory Progress**

The U.S. Department of Veterans Affairs requires all veterans receiving VA education benefits to make satisfactory progress and systematic advancement toward an educational objective or be liable for overpayments. Satisfactory progress and regular class attendance are expected of such students.

If a veteran receiving benefits is suspended for academic reasons, benefits are terminated and will be restored only after readmission to NMSU.

If the university has liability claims filed against it as a result of a veteran failing to meet compliance requirements of the U.S. Department of Veterans Affairs, the university will not release any academic records on the veteran until such time as the veteran has reimbursed the federal government for funds drawn in violation of those requirements.

A student receiving VA education benefits who is pursuing a degree program offered by New Mexico State University should adhere to the curriculum of that program. Failure to do so will result in the student being certified for less than full-time status or becoming liable for an overpayment.

**Military Experience Waiver**

Prior to graduating, during the student’s junior and/or senior year, NMSU students are required to take two 3-credit Viewing a Wider World
(VWW) upper-division (300-400 level) courses. These courses strongly emphasize the international character and multicultural influences in the fields of study and strengthen information retrieval skills. There are two options that NMSU allows for replacing one of the two courses (3 credits) of VWW requirement with another form of educational experience, these are: (Study Abroad Experience or Military Experience for students who have served at least four weeks of U.S. Military Foreign/ Sea Service in a foreign country.

Steps needed to request a Military Experience Waiver (replacing 3 credits of VWW):

1. Obtain a copy of you DD Form 214 or Memo from you Commanding Officer proving your 4-week deployment
2. Provide official copy to your college academic advisor to request waiver
3. Wait for your college to approve and confirm

Note: Credits are not being waived, only one of the two courses are being waived within the requirement. You may still need to complete three credits in consultation with your academic advisor. Please contact the MVP office or your academic advisor for questions and concerns.

Resources for Students

Military and Veteran Housing

New Mexico State University is one of the first in the nation to offer on-campus housing specifically designated for student veterans and their families transitioning out of the military and into student life. The Department of Housing & Residential Life has worked in conjunction with the Student Veterans Organization of NMSU to offer affordable housing on campus to student veterans attending the university.

For more information, please contact Housing and Residential Life: (575) 646-4524

Reserve Officer Training Corps (ROTC)

The Reserve Officer Training Corps is a commissioning program designed to attract, motivate and train qualified students for military service as officers. The ROTC program is represented on the NMSU campus by the Department of Military Science (U.S. Army) and the Department of Aerospace Studies (U.S. Air Force).

Curricula in the Departments of Military Science and Aerospace Studies are divided into basic and advanced courses of two years each. Enrollment in the basic course is voluntary and involves no obligation. Participation in the advanced courses is on a contractual basis and leads to military service as a commissioned officer. Elective academic credit is granted by the university for ROTC classes.

Students with prior military service or Junior ROTC experience may receive credit, although not academic credit, for all or portions of the basic courses.

All qualified cadets enrolled in ROTC receive a stipend that varies dependent upon the year the cadet is in the program. Scholarships, which pay full college tuition as well as various laboratory, textbook and incidental fees, are available on a competitive basis.

For more detailed information about the ROTC programs, see the College of Arts and Sciences departments of Aerospace Studies (p. 236) and Military Science (p. 479) in this catalog. Additional information may be obtained by contacting the departments directly at:

(575) 646-4030 (Army)
(575) 646-2136 (Air Force)

UNIV 115 - Transition from Military to University

UNIV 115 Transition from Military to University - Making a positive transition from military to civilian life is a key to success. This course will cover a variety of topics ranging from time management to critical thinking. It is designed to assist military and veteran students in becoming more effective learners through self-awareness, effective study, learning strategies and interpersonal skills. Skills and techniques for managing military to civilian readjustment transition issues are discussed and examined.

General Education Courses

Associates/Bachelor's General Education

The New Mexico General Education Requirements

General Education at NMSU provides all students with a broad foundation and common framework upon which to develop knowledge and skills, social consciousness and respect for self and others, thus enabling them to function responsibly and effectively now and in the future. General education courses at NMSU can be identified by the G suffix.

In accordance to state law (Post-Secondary Education Articulation Act), the New Mexico Higher Education Department has established a state-wide model for General Education. Within the General Education model, is nine credits of electives that will be determined at an institutional level.
The current approved NMSU General Education courses are listed below under each of the six general education areas.

General Education Elective 3-4

Total Credits 32-35

1 For Area III: Laboratory Sciences and Area IV: Social/Behavioral Sciences, students must take one course from each for a total of 7 credits. Students will then take an additional course in either Area III or Area IV for 3-4 credits depending on the students selection (i.e. Area III is 4 credits, Area IV is 3 credits).

2 In order to complete the General Education Requirements, students must take an elective course for 3-4 credits. This course can be any course in any area, excluding Area I: Communications and any crosslisted courses, that exceeds the minimum requirement. The elective course must have the “G” distinction.

Alternatives for Meeting General Education Requirements

Students taking nine or more credits in a specific subject area, even though the courses are not designated as General Education courses, will have met the general education requirements for that subject area. For example, a student may complete ART 150 Drawing I, ART 155 2-D Fundamentals and ART 156 3-D Fundamentals (9 hours) and thereby satisfy one course from the Area VI: Creative and Fine Arts category, even though none of those courses carries a G suffix. Please check with the Center for Academic Advising and Student Support.

Applied Associates Degree

The New Mexico General Education Requirements

General Education at NMSU provides all students with a broad foundation and common framework upon which to develop knowledge and skills, social consciousness and respect for self and others, thus enabling them to function responsibly and effectively now and in the future. General education courses at NMSU can be identified by the G suffix.

In accordance to state law (Post-Secondary Education Articulation Act), the New Mexico Higher Education Department has established a statewide model for General Education. Within the General Education model, is nine credits of electives that will be determined at an institutional level. The current approved NMSU General Education courses are listed below under each of the six general education areas.

<table>

1. In order to complete the General Education Requirements, students must take an elective course for 3-4 credits. This course can be any course in any area, excluding any crosslisted courses. The elective course must have the “G” distinction.

Alternatives for Meeting General Education Requirements

Students taking nine or more credits in a specific subject area, even though the courses are not designated as General Education courses, will have met the general education requirements for that subject area. For example, a student may complete ART 150 Drawing I, ART 155 2-D Fundamentals and ART 156 3-D Fundamentals (9 hours) and thereby satisfy one course from the Area V: Humanities and Fine Arts category, even though none of those courses carries a G suffix. Please check with the Center for Academic Advising and Student Support.

NMSU Viewing a Wider World Requirements

The Viewing a Wider World (VWW) requirement fosters intelligent inquiry, abstract logical thinking, critical analysis, as well as the integration and synthesis of knowledge. The program strives for literacy in writing, reading, speaking and listening. It teaches mathematical structures, acquainting students with precise abstract thought about numbers and space. The program also encourages an understanding of science and scientific inquiry, as it provides a historical consciousness, including an understanding of one’s own heritage as well as respect for other peoples and cultures. To achieve its goals, the program includes an examination of values and stresses the importance of a carefully considered values system as it fosters an appreciation of the arts and general education. It provides the breadth necessary to have a familiarity with the various branches of human understanding. All VWW courses can be identified by the “V” suffix.

Prior to graduating, NMSU students are required to take two courses from separate colleges from the Viewing a Wider World list in the Catalog. These courses are upper-division (300-400 level) Viewing a Wider World courses and should be taken in a student’s junior and/or senior year. One of the two courses must be in a college other than their own. The other course may be taken within their home college, but this course:

1. must be in a different department from their major department;
2. must not be cross-listed with a course in their home department;
3. cannot be counted as one of the requirements for the student’s major.

These courses strongly emphasize the international character and multicultural influences in the fields of study and strengthen information retrieval skills. There are two options that NMSU allows for replacing 3 credits of VWW requirement with another form of educational experience, these are:

1. Study Abroad Experience - consisting of at least four weeks of a Study Abroad program or university coursework in a foreign country earning 3 credits.
2. Military Experience - for students who have served at least four weeks of military service in a foreign country.

The Military and Veterans Programs Office website provides the instructions on how to request the waiver for Military Experience replacing 3 credits of VWW.

NOTE: This list is under continuous revision. Please check with the office of the college associate dean or with college advisors for additional eligible credits of VWW requirement with another form of educational experience, there are:

1. must be in a different department from their major department;
2. must not be cross-listed with a course in their home department;
3. cannot be counted as one of the requirements for the student’s major.

These courses strongly emphasize the international character and multicultural influences in the fields of study and strengthen information retrieval skills. There are two options that NMSU allows for replacing 3 credits of VWW requirement with another form of educational experience, these are:

### Alternatives for Meeting Viewing a Wider World Requirements

Students taking nine or more credits in a specific subject area, even though the courses are not designated as Viewing a Wider World courses, will have met the VWW requirements for that subject area.

The 9 credit hours must be in 300- to 400-level courses in one prefix area. For example, 9 upper-division ECON credits would fulfill one VWW area for students majoring in programs other than Economics.
Graduation Requirements

For specific information about graduation requirements for specific degrees, as well as, information about the commencement ceremony and the application for degree processes please see “The NMSU System Academic Regulations section (p. 76)” for Graduation Requirements.

Recognition of Academic Achievement

NMSU has a number of university-wide programs that recognize academic achievement. These include

- the Honors College,
- the Crimson Scholars Program,
- the dean's report of academic achievement and
- graduation with honors.

In addition, many colleges and departments have their own programs and awards that recognize the academic achievement of their students.

The Honors College

The Honors College provides motivated undergraduate students with opportunities to broaden and enrich their academic programs. In small classes taught by master teachers, honors students engage in lively discussion and collaborative investigation of interdisciplinary topics. By taking honors courses, students may also work toward completing general education requirements and disciplinary requirements in the major. There are two program options available to students: University Honors and the Honors Certificate. Each option has separate eligibility requirements, benefits, and forms of recognition for the student. For details concerning eligibility and requirements, see the Honors College (p. 896) section of the catalog.

Crimson Scholars Program

Crimson Scholars is a recognition program for academically superior students who achieve and maintain a Grade Point Average (GPA) of 3.5 or better. Crimson Scholars receive a number of benefits, including:

- Automatic eligibility for all Honors courses
- Early registration
- Recognition in the commencement program
- Regalia for Commencement that acknowledges the Crimson Scholar designation
- Permission to live in the Honors Residential Community

For eligibility criteria, see the Honors College (p. 896) section of the catalog.

Dean's Report of Academic Achievement

Following the close of the semester, each college dean publishes a list of students who have achieved honor standing in grades for the previous semester. To be eligible, a student must have been enrolled in 12 or more semester credits with a computable grade in each. The top 15 percent of eligible students by college for that semester will be named to the Dean's Honor List.

Graduation with Honors

To be eligible for a four-year degree with honors, a student must have earned at least 60 semester credits in computable grades while in residence at New Mexico State. Courses taken in the Honors College and graded S will be counted as a part of the minimum of 60 credits. The number of students at graduation, by college, receiving degrees with honors in any one year shall not exceed 15 percent. To receive high honors, a student must be in the top 1.5 percent of the graduating class by college. One person from each college will receive highest honors. In case of a tie, the student with the greatest numbers of credits earned at NMSU with computable grades will be awarded highest honors for each college. Of the students receiving highest honors from the fall and spring commencements, the student with the highest grade-point average and the greatest number of credits earned at NMSU with computable grades will be awarded the Class of 1919 Scholarship Plaque.

Preprofessional Programs

NMSU offers a number of programs designed for transfer to professional schools through its undergraduate colleges. The programs are:

Pre-veterinary Medicine is administered by the College of Agricultural, Consumer and Environmental Sciences

Prehealth is administered by the Center for Academic Advising and Student Support.

Pre-Nursing, Pre-Social Work, Pre-Public Health Sciences majors are administered by the College of Health and Social Services. Students new to NMSU, or who are working toward completion of their respective departmental pre-requisites are able to declare their major in the College of Health and Social Services. Once pre-requisites have been satisfied, an application process is required specific to each major. Application details and requirements are available through the "Academic Departments" link on the College of Health and Social Services website, and also through the Central Advising Center.

Prelaw is administered by the College of Business and by the College of Arts and Sciences. Law schools will accept undergraduates who have earned bachelor's degrees in any major. Many prelaw students take some law courses in their undergraduate program. The College of Arts and Sciences supervises a Supplementary Major in Law and Society, which includes courses from a number of departments and several colleges. It is described under "Government" in the Arts and Sciences chapter. The College of Business offers a number of Business Law courses which can be found under the prefix BLAW in the course description chapter later in this catalog. The Department of Philosophy in the College of Arts and Sciences offers both a major and a minor in Justice, Political Philosophy, and Law that cultivates a reasoned understanding of law and legal institutions, as well as the moral theories that support the value and justice of these institutions. The description of this major is found under the description "Philosophy."

Further information will be found in the sections of this catalog devoted to the colleges. (See also the paragraph on Western Interstate Commission for Higher Education)

Academic Programs

Associate Degree Programs

NMSU awards both designated and undesignated associate degrees following completion of at least 60 semester credits (excluding "N" suffix courses). Please see the NMSU System Academic Regulations & Policies (p. 58) section of the catalog for specific information about Associate Degree Program graduation requirements. (Service personnel enrolled
under the two-year Servicemembers Opportunity College Program may be exempt from this requirement.)

The designation Meritorious Graduate is awarded to the top 15 percent of the students receiving associate degrees within each college in any one academic year; the students must have completed 45 or more credits with computable grades at NMSU.

**Las Cruces Campus**

Detailed information on admission requirements, curricula, and associate degree or certificate requirements will be found in the section of this catalog devoted to the administering department/college.

**Community Colleges**

Many of the associate degrees offered on Las Cruces campus, as well as other programs, are available at NMSU’s four community college campuses. For more information on community college campus offerings, refer to the “Community Colleges (p. 900)” chapter in this catalog and to their respective catalogs or admissions offices.

Please see the Community College Catalogs for more information about the Associate Degree Programs.

- Alamogordo Catalog
- Dona Ana Catalog
- Carlsbad Catalog
- Grants Catalog

**Undergraduate Programs**

For a full listing of all Undergraduate Programs offered at New Mexico State University, please see the Undergraduate Admissions webpage http://admissions.nmsu.edu/academics/.
NMSU SYSTEM ACADEMIC REGULATIONS & POLICIES

The following regulations are effective with the publication of all the NMSU system catalogs, this includes the Las Cruces-Academic Catalog, Alamogordo Community College, Carlsbad Community College, Dona Ana Community College, and the Grants Community College catalogs. All regulations in this section of the catalog pertain to all the campuses housed with the NMSU System, this means that information for students pursuing Associate Degrees/Certificates, Bachelor’s Degree, and Graduate Degrees/Certificates is within the section of the catalog.

The regulations section is broken down into different areas:

- Academic Programs of Study
- Registration
- Academic Performance and Progress
- Grading
- Withdrawals
- Degree Applications, Graduation & Commencement
- Academic Standing and Probation
- Academic Misconduct and Grievances
- The University Student Records Office

Academic Programs of Study

NMSU offers Associate, Baccalaureate, Master’s and Doctoral degrees. NMSU also offers Certificates at the associate and graduate levels. Requirements for specific degrees and other designations are set forth by this catalog for the NMSU-Las Cruces (main) campus and the corresponding catalogs for the NMSU Community Colleges (Alamogordo, Carlsbad, Dona Ana and Grants).

Additional Degree Designations

As part of a degree program, students may also earn additional degree designations indicating fields of study such as majors, minors or concentrations. A major is defined as a recognized area of study in which there is an extensive and well-developed curriculum offered at the university, as well as adequate library resources and support services. A minor is based on courses that encompass a recognized field of study outside the student's major. A concentration is based on a collection of coursework in an area that is part of a major program of study. Degrees and additional designations awarded, limited to majors, minors, and concentrations, will be noted on the student’s transcript.

Catalog Effective Period

Each annual catalog edition is effective Summer Session I through Spring Semester and is considered active for a six year period for all campuses. Curricular requirements (course requirements and number of credits required) for a specific degree or other designation may be met by completing all of the course requirements as set forth by the catalog in effect at first matriculation, or any subsequent catalog, provided the selected catalog is considered active when the requirements for graduation are met. For all other matters, the current catalog is controlling. NMSU reserves the right to withdraw courses at any time, change fees, rules, calendar, curriculum, degree programs, degree requirements, graduation procedures and any other requirements affecting students. Except as otherwise stated here, changes will become effective whenever the proper authorities so determine and will apply to both prospective students and those already enrolled.

Application for Degree/Graduation or Certificate

Upon completion of all requirements for degrees and certificates, students will not receive their degrees automatically. In order to receive the degree or certificate, students must submit an application and pay the required fee in the semester in which the student expects to graduate or complete the degree or certificate requirements. Specified in the academic calendar for each semester is the deadline for all applications. The application must indicate/ note all designations earned. After awarding of the degree, you cannot add any additional designations.

Students who will be completing two degrees/certificates in the same semester must apply for graduation and pay the fee for each degree separately. Students applying for graduate degrees or certificates must satisfy requirements as described in the Master’s, Certificates, and Doctoral Degree sections below.

Students who do not meet requirements or elect not to graduate after filing an application need to re-apply in a subsequent semester and pay another fee.

Multiple Degrees and Designations

A student may earn more than one degree or multiple degree designations by completing all of the requirements in an appropriate catalog for each degree or designation. Students completing requirements for more than one degree must apply for and pay the application fee for each degree to be awarded. Upon completion of all requirements, multiple majors for a single degree (e.g., B.A., Major in Art; Major in Anthropology) and multiple bachelor’s degrees (e.g., B.A. and B.S.) will be noted on the student’s academic record/transcript and may also be granted at one commencement.

Degree Revocation

The Board of Regents reserves the right to revoke a degree should it be determined upon investigation that the degree requirements were not properly met. A degree revocation must be in accordance with NMSU policy and related rules.

Honorary Degrees

Ceremonial Honorary Degrees may be awarded in accordance with NMSU policy and rules as set forth in the NMSU Regents Policy Manual and the related Administrative Rules and Procedures.

Community College Certificate

A Community College may offer two types of certificates, the Certificate of Achievement and/or the Certificate of Completion. Certificates may be awarded independently from any degree program.

Certificate of Achievement

The Certificate of Achievement is a program of study less than 16 credits and is not eligible for Federal financial aid. This Certificate provides employment related and/or career enhancing skills necessary to succeed in a job or a chosen field of study. These courses can be a subset of those required for a corresponding Certificate of Completion or Applied Associates Degree. These certificates are recorded on the student’s transcript.
Certificate of Completion

The Certificate of Completion requires a minimum of 16 credits (other Title IV requirements must be met to be eligible for financial aid) and has been approved through the academic review process. These courses can be a subset of those required for a corresponding Applied Associates Degree. These certificates are recorded on the student's transcript.

Requirements for certificates are found in the respective catalogs and sections concerning these programs. The following requirements apply to all certificates.

1. Minimum Credit Hours: The number of credit hours varies from certificate to certificate. Students must successfully complete the total number of credit hours as outlined in the respective catalogs and sections describing these certificates.
2. GPA requirement: Students must earn a minimum grade of C- in courses required for the certificate. In addition, students must have a cumulative GPA of 2.0 or better in all courses taken at NMSU or one of its community colleges.
3. Residency: A minimum of 6 credits earned toward the certificate must be completed at NMSU or one of its community colleges. If the certificate requires fewer than 6 credits, all credits must be completed at NMSU or one of its community colleges. Individual academic programs may have additional requirements.

Associate's Degree

Associate's degrees are of two types. The academic associate's degree prepares students to transfer to a baccalaureate program and generally includes credits toward the first two years of a four-year degree. Academic associate's degrees include the Associate of Arts, the Associate of Science, and other named degrees that link to a specific major (the Associate of Education, for example). Other associate degrees, typically called Associate of Applied Science, prepare students for entry into the workforce. Credits for these programs may or may not apply toward a four-year degree. Students interested in transferring to NMSU or another four-year institution should check the appropriate sections of the university catalog for more information.

Requirements for the two-year associate degrees are found in the respective catalogs and sections concerning these degrees. The following requirements apply to all associates degrees:

1. Minimum Credit Hours: a minimum of 60 credits (excluding "N" suffix courses). Some programs of study require coursework in excess of the 60 credit-hour minimum.
2. GPA requirement: Students must have a cumulative GPA of 2.0 or better in all courses taken at NMSU or one of its community colleges. In addition, students must earn a C- or better in classes they take to meet the Basic Skills requirement (ENGL 111G and one of several math course options),
3. Residency - A minimum of 15 of the 60 credits for the associate's degree must be completed at NMSU or one of its community colleges. Individual academic programs may have additional requirements.
4. Major: All requirements for at least one major field of study as specified in the college and departmental sections of the respective catalog.

Associate Major

An associate major, consisting of at least 18 credits, may include courses from more than one department. Requirements for the Associate Majors are specified in the respective Community College Catalogs.

Baccalaureate Degree (Bachelor’s Degree)

A baccalaureate or bachelor's degree provides students with a broad educational base as well as knowledge in a specific major field. Each college has unique degree requirements that are listed in the college's designated section of this catalog. In addition to the College and Department requirements, students must complete each of the following degree requirements for every Bachelor's Degree awarded by NMSU:

1. Minimum Credit Hours: a minimum of 120 credits (excluding "N" suffix courses)
2. GPA requirement- a minimum cumulative GPA of 2.0 in all courses taken at NMSU
3. New Mexico Common Core- 35-36 credits of state mandated general education courses (as specified in General Education section); such course are designed with a “G”
4. New Mexico State University's Viewing a Wider World- 6 credits of viewing a Wider World courses; such courses are designated with a “V”, or alternatives as specified in the Viewing a Wider World section
5. Upper Division Courses- a minimum of 48 credits in courses numbered 300 or above.
6. Residency – Of the last 36 credits earned toward award of the degree: a. 30 credits must be completed at NMSU b. 21 credits must be upper division (300 or above) and c. 12 of the 21 upper division credits must be within the student’s major. NOTE: colleges or departments may require that more than 12 upper division credits be within the major and they may direct that a certain number of these credits be course specific.
7. Major – all requirements for at least one undergraduate major field of study, other than a supplemental major, as specified in the college and departmental sections of the catalog.

Bachelor's Degree Designations

Undergraduate Major
An undergraduate major consists of 24 or more credits within the major field, of which 18 credits must be upper-division courses, and may include courses from more than one department. Additional requirements for majors are specified in the college and department's designated sections of this catalog.

Supplemental Major
A supplemental major consists of 24 or more credits of interdisciplinary coursework, of which at least 18 credits must be upper-division (300-499), and no more than 9 credits may be from the student's major course of study. Additional requirements for supplemental majors are specified in the catalog listing for the field of study.

Undergraduate Minor
An undergraduate minor consists of 18 credits of course work, of which 9 credits must be upper-division (300-499). A minor encompasses courses that may be in a single department or interdisciplinary and are in a recognized field of study outside the student's declared major. At least 9 upper-division credits of a minor must be completed at NMSU. Additional requirements for minors are specified in the college and department's
designated sections of this catalog. Minors cannot be earned after the degree has been conferred.

Undergraduate Concentration
A concentration consists of 12 or more credits of coursework in a specialty area that is related to a specific major field of study. At least 9 of the 12 credits must be upper-division (300-499), and at least 9 credits must be completed at NMSU. Additional requirements for concentrations are specified in the college and department's designated sections of this catalog.

Distance Education Bachelor’s Degree Completion Program
A Bachelor Degree Completion Program allows students who have met the lower division requirements (100 and 200 level) of an undergraduate degree program to complete the remaining upper-division credits (300 and 400 level) through distance delivery courses offered by NMSU Las Cruces. Only selected degrees are available as degree completion programs. Students must complete all required lower-division (100 and 200 level) credits before they can be admitted to the Bachelor's Degree Completion Programs. The program(s) normally require two years of upper division (300 and 400 level) coursework.

Graduating with Honors
For information about graduating with Honors, please refer to the Recognition of Academic Achievement section of this catalog.

Graduate Degrees
All graduate degrees are subject to rules and regulations of the Graduate School. Degrees will be certified by the Graduate School only upon the complete review and clearance of the candidate's program of study.

Graduate Degree Designations
Graduate Major
A graduate major may include courses from more than one department, but as a minimum it must consist of at least 30 graduate credits. Additional requirements may be imposed by the State of New Mexico and New Mexico State University as specified in this Catalog.

Graduate Minor
A graduate minor is based on at least 9 graduate credits in courses that encompass a recognized field of study outside the student's major. Departments may require certain courses be a part of a minor and may exclude other courses.

Graduate Concentrations
A concentration is a collection of coursework in a specific area that is part of a degree program of study at NMSU. At the graduate level at least 9 of these 12 credits must be numbered 500 or above. Only approved concentrations within a students' department or program may be noted on a transcript.

Concentrations will not be added to a transcript after a degree is awarded. In order for the approved concentration to be noted on the student's transcript, the following conditions must be met:

1. Request the concentration at the time they file their official program of study.
2. Identify the concentration on their official Application for Degree.

Graduate Certificates
A Graduate Certificate program requires 12-18 credits of course work that is interrelated and designed to develop a focused skill or area of expertise but does not culminate in the awarding of a degree. Courses that comprise a graduate certificate must be regular approved courses offered by the University and must be numbered 450 or above. A graduate certificate is indicated on the student's transcript.

Master's Degree
New Mexico State University offers both academic and professional master's degrees. A link to the list of all master's degrees is provided in the Graduate School section of this catalog.

Admissions to the Master's Degree
The admission of a student into the Graduate School does not imply admission to candidacy for an advanced degree. The major department in which the student intends to become a candidate for a master's degree must determine the student's ability to pursue studies at the graduate level. Please see the Department(s) for specific requirements.

Program of Study
After the completion of one year of enrollment each new graduate student should prepare a complete program of study in consultation with the student's advisor.

Application to Candidacy
The program of study will formally list the curriculum requirements for degree completion and is required for application to candidacy. The program of study must be approved by the advisor, department, and academic dean and submitted to the Graduate School. The Program of study may specify the Catalog at the time of graduation, as long as the catalog is considered active. Otherwise, the current Catalog will be listed.

An Application for Admission to Candidacy must be filed with the Graduate School. This must be done before the completion of 12 credits of graduate coursework. The student must have a minimum cumulative GPA of 3.0 at the time the application is submitted. The application may specify the Catalog at the time of graduation, as long as the catalog is considered active. Otherwise, the current Catalog will be listed.

The student's program of study must:

1. Meet the requirements of the chosen catalog, including the regulations of the Graduate School and of the major department.
2. Be signed by the student, the student’s advisor, department head, minor faculty if applicable, and academic dean.
3. List each course prefix/number, short title, credit hours and grades if available.

If the program of study does not comply with the departmental requirements or the potential degree audit, the program of study must be approved by the Dean of the Graduate School. The Program of Study is not required for master's programs if defined within the Star Degree Audit.

Credit Hour Requirement
A minimum of 30 credits is required for the master's degree. Most master's degrees require at least 15 credits in courses numbered 500
or above. This includes thesis credits for any master's programs that include a thesis option. Master's programs involving a thesis, must include, either a minimum of 4 credits or a maximum of 6 credits of thesis. Please see the "Thesis" section for more information.

At least 15 credits for the master's degree must be for work in courses within the student's department. Additional credits may be selected from other fields to fit into a logical and justifiable program. However, courses that are used to remove deficiencies or satisfy prerequisites cannot be counted as requirements for a master's degree.

Coursework Requirement
Students must take coursework from a variety of faculty. Students may not take more than half of the minimum credits required for a master's degree with the same professor, excluding thesis credits.

All graduate students are required to register for a minimum of 1 credit of graduate coursework in their final semester. Please see the Tuition, Fees and Other Expenses section for more information.

Thesis Option
A thesis in the major field is recommended and may be required at the discretion of the department. A minimum of 4 credits and a maximum of 6 credits may be counted toward the requirements for a master's degree. The final examination shall consist of an oral defense of the student's thesis as well as a general examination of the candidate's field of study.

• Continuous Enrollment- once registered, a student must continue to register for a minimum of 1 credit in thesis or graduate coursework each regular semester until the thesis is approved by the Graduate School and the copies have been accepted by the Branson Library binding section.

Graduate Committee for Thesis Option
The graduate committee for the master's degree consists of a minimum of three faculty members who hold, at least, a master's degree and meet the following criteria:

1. Committee chair:
   a. Must be from the student's home department
   b. Must be a graduate faculty member

2. Committee member(s):
   a. May be from outside the student's home department
   b. Student's with a declared minor may have the representative from a related area or be appointed by the Dean of the Graduate School.
   c. Must be a graduate faculty member

3. Dean's Representative:
   a. Must be a representative from a related area or appointed by the Dean of the Graduate School.
   b. Must be a graduate faculty member

Finalizing the Master's Thesis
After successful completion of the final examination, electronic submission of the approved thesis must be submitted to ProQuest ETD, no later than the deadline posted to the Graduate School website. The form and style of the thesis must comply with the guidelines provided in Preparing your manuscript for submission, located at https://gradschool.nmsu.edu/wp-content/uploads/sites/5/2019/02/Preparing-Your-Manuscript-for-Submission-Revised.pdf. The guidelines also contain detailed information on the thesis submission and approval process. The thesis is not complete until the Graduate School has accepted it electronically.

Professional Degree and Non-Thesis Final Examination
Each candidate will be given a final examination conducted by their graduate committee in accordance to the schedule provided by the Graduate School. It is the department's responsibility to ensure that the Report of Results for the Master's Professional or Non-Thesis Final Exam form is submitted to the Graduate School at least ten working days after the exam.

The final examination format for the professional degrees and non-thesis option will be determined by the department, with the approval of the Dean of the Graduate School. If a department does not specify an examination format, the final examination will consist of an oral defense of the candidate's field of study.

At the time of the final examination, a graduate student must have a cumulative GPA of at least 3.0 and must be enrolled for a minimum of one credit hour in the final semester; or if the student is writing a thesis, he or she must have completed all course work for the master's degree.

NOTE: the cumulative GPA, will be calculated from NMSU graduate coursework only.

Any candidate who fails in the final examination may either:

1. Be granted a second examination, written or oral, after a lapse of at least one semester, only with a recommendation from the student's advisor and approval from the Dean of the Graduate School.
2. Be excluded from further candidacy for the degree.
3. Failure in the second examination disqualifies a candidate from obtaining the degree.

Students in professional or non-thesis options may be required to pay a special exam fee in lieu of registering for 1 credit of graduate coursework. Please see the Tuition, Fees and Other Expenses section for more information.

Time Limit
Students must complete the master's degree program within seven years (or eight successive summers) of the start of the degree, including completion of the master's thesis or final project. Any coursework more than seven years old at the time of the final examination will not be included in the program. Any exception to the time limit rule must have prior approval of the Dean of the Graduate School.

Master's Accelerated Program (MAP)
The master's accelerated program provides an opportunity for academically qualified undergraduate students to begin working on a master's degree during their junior and senior years while completing a bachelor's degree. Typically, a bachelor's degree requires four years to complete and a master's degree requires an additional two years. The master's accelerated programs allow students the opportunity to complete a graduate program in an accelerated manner.

Undergraduate students may apply for acceptance to a Master's Accelerated Program available at New Mexico State University after completing 60 semester hours of undergraduate coursework of which a minimum of 25 semester credit hours must be completed at New Mexico State University and apply towards the undergraduate major. The grade point average must be a minimum of 3.0; departments participating in the master's accelerated program may have requirements that exceed these minimum requirements. It is the student's responsibility to meet with
their financial aid advisor. Awards may be adjusted to reflect enrollment in an undergraduate/graduate program.

Graduate departments within the colleges may allow academically qualified undergraduate students to substitute a maximum of 12 graduate course credits for elective courses in an undergraduate degree program. Graduate programs have the discretion to use up to 12 credits of NMSU coursework (450 level or higher) that can logically be applied towards the completion of master's program of study. A grade of B or higher in this coursework will be required.

Program Participation Requirements:
1. Students must obtain prior approval by the graduate program
2. Student's course work must be general or discipline electives in the student's undergraduate course of study. No required courses from the undergraduate program will be accepted towards the Master's Accelerated Program.
3. Students will enroll in approved graduate level courses. If course(s) requires instructor approval, it is the students responsibility to obtain necessary approval
4. Students participating in MAP are required to submit a completed Master's Accelerated Program Referral Form to the Graduate School by the first Friday of classes, with all required signatures.
5. Students participate in the Developing New Scholars Program (DNSP) through the Graduate School. The DNSP program provides formal mentoring supporting application process to Graduate School. Upon awarding of the Bachelor's degree and formal admissions into a master's/graduate program at NMSU, the approved credits (up to 12) will be recorded on both the undergraduate and the graduate transcript.

Interdisciplinary Master's Degree
Interdisciplinary studies, at New Mexico State University, are intended for individuals specializing in programs that require the integration of more than one discipline to fully engage in the field of study. The programs provide a mechanism to address emerging scholarship, innovation and research, as well as, allow graduate students to engage in emerging technologies that optimize their education outside the traditional disciplinary boundaries. An Interdisciplinary study takes advantage of traditional academic training within specific departments and also allows students to customize their own career preparation. In these programs, a coherent common core is expected and is intended to combine existing courses across disciplines to meet unique objectives.

The interdisciplinary studies option should not be used in cases where the applicants' objectives can be realized by admission to a specific department with a degree program, and inclusion of up to two minor areas in the program of study.

Admission
Students interested in pursuing an Interdisciplinary Master's Degree (IMAS) degree must meet with the Graduate School for advisement. The advisement session will include information on completing the IMAS admission application:
1. Develop a proposal for interdisciplinary studies
2. Create the IMAS graduate committee
3. Once the student's graduate committee is designated, the committee can require additional materials such as a statement of interest, letters of recommendation, GRE or GMAT scores and a personal interview.

4. Complete the IMAS referral form and procure committee members IMAS program approval.
5. Procure academic department head IMAS referral form approval.
6. Submit IMAS referral form and proposal for interdisciplinary studies to Graduate School for admissions.

Degree(s) Awarded
Students receive a Master of Arts (MA) or a Master of Science (MS) and a concentration in the designated interdisciplinary study area.

Other conditions for being awarded a degree within the interdisciplinary studies program are:
1. The student must present a written description of the program concept consisting of the following, as well as, the designated degree being sought and a name of the interdisciplinary area:
   a. The objective of the program of study which should include, proposed areas of skill development and proposed courses in more than one graduate degree granting department at NMSU.
   b. A justification for not using an existing degree program.
2. The student's program of study must include a minimum of 30 graduate level credits and a maximum of 36 graduate level credits. Students may take six credits in departments that do not grant a graduate degree, but the courses must be numbered 450 or above and be pertinent to the program of study.
3. The majority of the departments involved in the student's program will be master's degree granting departments. The student is expected to take at least 15 credits in the primary area of study within one department. The department selected by the student will receive a copy of the student's application for admissions to the Graduate School. In addition, the student is required to select a minor area of study in another department that consists of at least 9 graduate credit hours.
4. The student will form a committee composed of members of the graduate faculty and select an advisor who will chair the committee. The chair must be from the primary department where the student has taken at least 15 credit hours listed in the proposal submitted. The other committee member must be from the department in which the student has selected a minor area of study from the approved list.
5. The student will be required to submit the Candidacy Form after they have satisfactorily completed 12 credits.
6. The program will meet all requirements of a master's degree, with the interpretation, that "major field" includes courses from two or more departments and in the designated interdisciplinary study area.
7. The program of study will include the completion of a research thesis or project. The work may be submitted in the form of a publishable manuscript, technical report, thesis or creative option.
8. The student may enroll on a part-time basis keeping in mind that coursework cannot be more than seven years old at the time of the final examination.
9. The student will be administered a final comprehensive exam that is consistent with the department selected for the primary area of study. For example, if a department requires a written exam, the student in the interdisciplinary masters will also be required to take a written exam.
10. The final oral comprehensive exam will consist of questions pertinent to the area of study and the defense of the research thesis or project.
In both cases, an integrated approach to the areas of study chosen should be followed.

11. All other rules for graduate study at NMSU must be followed.

Thesis/Non-thesis Option
As with any graduate student, the student in interdisciplinary studies can select to follow a thesis or non-thesis option. Students enrolled in the thesis option register for six thesis credits. Students not wishing to follow the thesis option will be required to complete a project report. The project must reflect the interdisciplinary nature of the program which the student is pursuing.

Comprehensive Exam
Students in interdisciplinary studies take a comprehensive exam composed of questions designed by the student’s committee. The committee consists of two individuals in the area of study, the dean’s representative who must be outside of the department/program/interdisciplinary study option, and a committee chair.

Second Master’s Degree
A student who has earned one master’s degree at NMSU may be allowed to count a maximum of six semester credits earned on the first degree toward a second master’s degree, if those credits fit into a logical graduate program. The number of shared credits may be increased for joint degree programs.

Teacher Licensure
Students wishing to take graduate courses for licensure, renewal of licensure or for personal enrichment must be fully admitted to a department in order to do so. Undeclared students may not register for teacher licensure classes.

Endorsement is available at both the elementary and secondary levels in bilingual education, TESOL (Teaching of English as a Second Language), reading and special education. Endorsement is also available in early childhood education at the elementary level. Contact curric-instr@nmsu.edu for more information.

Specialist in Education
The specialist in education degree is available for experienced members of the education profession who have completed the master’s degree and have maintained a 3.3 grade-point average while pursuing this degree or its equivalent. Programs are available in curriculum and instruction, as well as, school psychology. Emphasis is placed on the development of the competencies needed for a professional specialization in a given field. Students must complete the general application for the Graduate School and they should also check with the admitting department for specific departmental requirements.

Residency and Credit Requirements
The specialist in education degree requires a minimum of 30 credits beyond the master’s degree, including research, intern experiences and graduate courses. Twenty-four of these credits must be completed at NMSU to meet the campus residency requirements.

Students must maintain a 3.0 GPA, no more than 6 credits of C level work are allowed for this program.

Program of Study
After the completion of one year of enrollment each beginning graduate student should prepare a complete program of study with the student’s advisor. The program of study can be tentative, should be kept in the student’s file within the department, and is not considered an “Application for Admission to Candidacy.”

Major Field
All course work taken for the degree should apply directly, through a logical program of study, to the specialty which candidate has selected. Each department is responsible for defining the required sequence of courses.

Candidacy
Following the successful completion of 12 credits beyond the master’s degree, the student is eligible for admission to candidacy. With the achievement of candidacy, a committee is appointed to work with the candidate on the remainder of the program. The committee consists of three members of the graduate faculty in the College of Education.

Internship
Each candidate will earn from three to six semester credits in an internship. This experience will consist of supervised performance of duties related to the candidate’s specialty. The student’s department will determine the structure of the internship and a research project will be conducted in conjunction with the internship.

Oral Examination
The oral examination committee will consist of the student’s committee and a dean’s representative appointed from the graduate faculty by the dean of the Graduate School. This committee will conduct an oral examination at the conclusion of the research project and no earlier than the candidate’s last semester of enrollment.

The examination will consist of a defense of the project along with general questions on subject matter related to the candidate’s field of study. Any candidate who fails the oral examination may upon recommendation of the advisor and with the approval of the graduate dean, be granted a second examination after a lapse of at least one semester. Failure in the second examination disqualifies the candidate from obtaining the degree.

Time Limit
The specialist in education degree must be completed within seven years following admission to the program. Students cannot include any course work on their program of study that is more than seven years old at the time of the final oral examination.

Doctoral Degrees
The doctoral degree requires significant scholarly study beyond the master’s program.

Prospective candidates are expected to hold bachelors or master’s degrees from accredited institutions, based on curricula that include the prerequisites for graduate study in the department of their subject. To be considered for admission to a doctoral program, the applicant must have a grade-point average of at least 3.0. Prospective candidates are urged to consult the department in which they wish to study for information concerning specific requirements.

Professional Doctoral Degrees
Doctor of Economic Development (DED)
Students enrolled in the Doctor of Economic Development are required to complete and pass a comprehensive examination. Since a dissertation is not required, students are expected to complete an internship experience and a project paper as defined by their program. They can embark on the project paper once they have completed and passed their comprehensive examination. Students are not required to take 700 level dissertation
hours. However, they are expected to complete at least 12 credits at the 600 level including ECDV 694 Internship and ECDV 699 Doctoral Project.

Doctor of Education (Ed.D)
The degree of Doctor of Education demonstrates proficiency in a program of graduate study in which the emphasis is in preparation for performance in professional education. This program is intended primarily for students pursuing careers in which teaching, administration or school services are predominate rather than those in research. The Ed.D. Degree in curriculum and instruction is offered in the Department of Curriculum and Instruction; the degree in educational administration is offered in the Department of Educational Leadership and Administration.

The requirements for doctoral degrees in the two departments of the College of Education have the following distinguishing elements:

1. The qualifying examination consists of a written and an oral section, both of which are administered prior to admission to the program. Acceptance for doctoral admission is equivalent to the successful completion of the qualifying examination. Residency of at least two consecutive semesters cannot commence until the semester after the qualifying examination is successfully completed.

2. Comprehensive examinations usually are administered three times annually. The written examination tests the major and related areas of concentration and is administered after successful completion of the orals within two weeks’ time. A student who fails any part of the comprehensive examination may present him or herself for re-examination of the failed part of the exam before moving on to the next part.

3. The major area of study must be within the College of Education

A minimum of nine credits constitutes the related area. The courses can be taken in any department of the university with the approval of the student’s committee. The related area must be specifically planned with the major and minor departments in order for the doctoral fields to be mutually supportive. Any transfer credit or predoctoral course work to be included in the related field must have the approval of both the major and minor department at the outset. Specified course work in both research and statistics is required for this degree. Other requirements are described in the departmental sections of this catalog.

Doctor of Nursing Practice (DNP)
Students holding a Bachelor’s degree in Nursing are required to complete and pass all required course work for the DNP program, as well as, complete and pass their comprehensive examination. Since a dissertation is not required, they are expected to complete an internship experience and a project paper as defined by their program. They can embark on the project paper once they have completed and passed their comprehensive examination. They are not required to take 700 level dissertation hours. However, they are expected to complete at least 12 credits at the 600 level including NURS 698 (Advanced Clinical immersion) credits sufficient to complete the DNP Final Project.

Students who hold a Master’s of Science in Nursing are required to complete the following:

1. All course work requirements
2. Their comprehensive exam (with passing marks)
3. The DNP Project.

Post-MSN DNP students must complete at least 6 credits at the 600 level, including NURS 698 credits sufficient to finish the DNP Project. Finalized projects must be uploaded to a national DNP Project repository approved by the Graduate Faculty of the School of Nursing in order to achieve the DNP degree.

Doctor of Philosophy (Ph.D.)
The Doctor of Philosophy degree requires distinguished attainment in both scholarship and original research. The doctoral degree requires significant scholarly study beyond the master’s that is tailored to the needs and interests of the student. The degree is granted in recognition of the candidate’s high attainments and ability in the special field, shown by work on the required examinations covering both the general and the special fields. The individualized program of study is designed to meet the campus residency requirement, includes a minimum of 30 graduate credits, and includes the preparation of a dissertation. A candidate for the Ph.D. degree is expected to maintain a higher level of work than the grade-point average of 3.0, plus at least 18 credits of dissertation work (700-level courses).

Interdisciplinary Doctorate
Students interested in pursuing an Interdisciplinary Doctorate (IDOC) degree program must meet with the Graduate School for advisement. The advisement session will include information on completing the IDOC admission application.

The following requirements for admission to the interdisciplinary doctorate degree program are:

1. Students wishing to study in the interdisciplinary doctoral degree program must apply and be accepted into a doctorate-granting department.
2. A master’s degree or equivalent program of study that includes at least 30 credits of graduate course work with a minimum cumulative GPA of 3.0.
3. Twelve credits of graduate course work must be completed at NMSU in order for application into the interdisciplinary doctorate degree program. Additional course work is required for degree completion.
4. Evidence of outstanding academic achievement in graduate school.
5. A written description of the program concept prepared by the student consisting of:
   a. Areas in which competency is required
   b. Purposed readings and course work and how these relate to required competencies
   c. Objectives and an outline for thesis research
   d. Justification for not using an existing departmental degree program
6. Student must select an advisor from his/her department to help structure and chair a committee consisting of at least five faculty members from the graduate faculty list who are willing to work on the interdisciplinary degree program. The committee must include at least two members from each of the two doctorate-granting departments. The committee chair will convene a meeting to review and approve the proposed program.
7. The Graduate School will send an Admission Referral document, signed by all the committee members, to the heads of all the departments from which the student proposes to use more than 8 credits of course work, or from the department which the faculty are requested to serve on the proposed committee.
8. Once the Admission Referral document has been approved by all departments, the committee chair will convene a meeting of the committee to review the student’s program and make changes as necessary. In addition, the committee will set the format and date.
The number of courses required for degree completion will vary depending on the student’s program of study, please see the department for more specific requirements. However, Interdisciplinary doctorate degree students must meet the requirements for residency, registration, the comprehensive examination, the Final Examination, the dissertation and the declaration of approved minor.

10. The dissertation work shall include at least 18 credits of a 700-level course.

Completing your Doctoral Degree Program
Any student who fails to abide by the regulations in this section will be considered withdrawn from the University. In order to resume their studies, the student must formally apply for readmission to the Graduate School and satisfy any requirements that are in effect at the time of reapplication.

Declaration of Approved Minor
Any doctoral applicant for candidacy may declare up to two approved minors in addition to the major area of study. Demonstration of competency in the minor area will be required at both comprehensive and final examinations.

Qualifying Examination
Doctoral students must pass a qualifying examination that is scheduled by the student’s advisor and is administered by the major department. Its purpose is to determine the areas in which the student shows strength or weakness, as well as the ability to assimilate subject matter presented at the graduate level. A student may not register for dissertation credits prior to the successful completion of the qualifying examination.

The following conditions apply to students who wish to take the qualifying examination:

1. For students who enter the Graduate School with little or no previous graduate experience but wish to proceed directly to the doctorate, the qualifying examination should be taken after 12 credits of graduate work.
2. For students who enter with a master’s degree or equivalent from another university, or another department, the qualifying examination should be taken before the completion of one semester of graduate work.
3. For students who earn their master’s degree at New Mexico State University and will continue in the same department, the department may allow the master’s final examination to serve as the doctoral qualifying examination or may require a separate examination.

Based on the result of the qualifying examination, the department will take one or more of the following actions:

1. Admit the student to further work toward the doctorate
2. Recommend that the program be limited to the master’s degree
3. Recommend a re-evaluation of the student’s progress after the lapse of one semester
4. Recommend a discontinuation of graduate work

In all cases, the Graduate School shall be notified by the department of the results of the qualifying examination.

Students will be admitted to the doctoral program once the qualifying examination is passed. The student’s advisor and department head will then appoint the doctoral committee to prepare the student’s preliminary doctorate program of study. The student must submit the program of study to the Graduate School immediately following admission into the doctoral program and before registering for additional coursework.

Doctoral Graduate Committee
The doctoral committee will be composed of at least four members of the graduate faculty who hold doctoral degrees. The following rules apply to the composition of the committee:

- The committee chair must be from a discipline within the student’s major area.
- At least one additional member of the committee must also be from a discipline within the student’s major area.
- If an approved minor is declared, at least one (but no more than two) members of the committee must be from the minor area.
- At least three committee members must be members of the graduate faculty and be from a doctorate-granting department
- Only one member may be outside of the student’s department.
- One member of the committee must serve as the dean’s representative. In programs where more than one department participates, the dean’s representative may not be from any of those departments. The dean’s representative may be one of the following:
  - the member from the related area
  - a member from the minor area
  - An independent member, not from the student’s department, that is appointed by the Dean of the Graduate School.

Departments may structure committees that include more than the minimum number of members, as long as the following conditions are satisfied. No changes can be made to the doctoral committee membership without prior approval from the Dean of the Graduate School.

Additional voting and nonvoting members may be any person approved or appointed by the Dean of the Graduate School.

All members of the committee will attend the comprehensive oral and final defense for the student’s dissertation.

Program of Study
Students should file the Program of Study Form once they have:

- Completed 1 year of enrollment while at NMSU that are beyond the master’s degree
- Successfully completed the qualifying examination

The Program of Study Form should be completed and submitted to the Graduate School before registering for any additional courses. The individualized program of study is designed to meet the campus residency requirement and includes a minimum of 30 graduate credits beyond the master’s.

If the Doctoral degree requires a dissertation, at least 18 credits of dissertation work must be included. The professional doctoral degree includes a practicum or special project that culminates in a written report.
which demonstrates a command of the relevant scholarly literature and links it to the specific clinical or practical experience.

**Comprehensive Examination**
The Graduate School should receive the Program of Study and the Committee for Doctoral Students Form and the Doctoral Qualifying Examination Form.

Students will be admitted to the comprehensive examination only after the following conditions are met

1. Completion of adequate course work, to the satisfaction of the major department and the Graduate School
2. The graduate committee determines the student is adequately prepared for the examination
3. Successful completion of all language requirements (where applicable)

Students must be registered for 3 credits of graduate course work during the semester in which they take the comprehensive examination. A student taking an oral examination during the summer must enroll for at least one credit for that term.

The Doctorate of Philosophy Examination or Professional Doctorate Examination Form must be on file at the Graduate School at least ten working days prior to the proposed date for the examination. The examination must be part written and part oral. The results of the oral examination will be reported to the Graduate School by the Dean's Representative of the committee.

Any student who fails the comprehensive examination may either be terminated from the doctoral program or upon recommendation of the committee and approval of the Dean of the Graduate School, be granted a second examination after a lapse of at least one semester.

**Time Limit for the Comprehensive Examination**
If more than five years have passed since the date of the comprehensive examination, the candidate will be required to take another comprehensive examination before admission to the final examination.

**Advancement to Candidacy**
Advancement to Candidacy recognizes that the student has demonstrated the ability to sustain a level of scholarly competency commensurate with successful completion of degree requirements. Upon advancement to candidacy, the student is cleared for the final stages of the graduate program which may include a dissertation, project or written examination.

For advancement to candidacy the following criteria must be met

1. Successful completion of the comprehensive examination
2. Recommendation of the graduate committee
3. Approval of the Dean of the Graduate School

Upon receiving advancement to candidacy, students must establish residency and follow the Dissertation Registration Requirements (see Residency Requirements below).

**Residency Requirements**
The minimum campus residency requirements for the doctoral degree include enrollment in a minimum of 9 credit hours of program course work, including a minimum of 3 credit hours of dissertation, in at least two semesters of classes taught at NMSU. In some cases the minimum credit hour enrollment for the two semesters required to establish residency may vary based on the instructional delivery of the program, and must have prior approval from the Dean of the Graduate School.

**Dissertation Registration during Fall/Spring Sessions**
After becoming a candidate, students must continue to register for at least 3 credits of dissertation or graduate course work, each spring/ fall semester until the dissertation is approved by the Graduate School and the dissertation format review has been completed. The total number of dissertation hours must be 18 credits. The doctoral committee can impose additional requirements for courses numbered 700.

A student who fails to abide by these regulations will be considered withdrawn from the university and in order to resume studies, must formally apply for readmission and satisfy the requirements in effect at the time of reapplication.

**Dissertation Registration during Summer Sessions**
If the final examination is to be held during the summer or the dissertation is to be completed during the summer, students must register for one credit during the summer session in which the final examination will be held or the dissertation will be completed.

**Dissertation Leave of Absence**
Students may seek a leave of absence from their dissertation. A leave of absence requires that a student must get prior approval from the Dean of the Graduate School, which means the student must receive permission for the leave of absence before discontinuing their formal studies.

**Final Examination**

NOTE: If more than five years have elapsed since the date of the student's passed comprehensive examination, the candidate will be required to take another comprehensive examination before admission to the final examination.

Every student working toward the doctoral degree will submit a dissertation embodying the results of original research. The dissertation is expected to demonstrate the student's ability in independent investigation and to be a contribution to human knowledge. The dissertation shall display a mastery of the literature of the subject field, present an organized and coherent development of ideas with a clear exposition of results, and provide a critique of the limits and validity of the student's conclusions.

When a complete draft of the dissertation has been prepared, the student's doctoral committee (appointed after the qualifying examination) will conduct the final examination. The final examination is concerned primarily with the research work of the student as embodied in the dissertation, but it may be much broader and extend over the candidate's entire field of study. The intention of the final examination is to verify that the candidate has a satisfactory grasp of the major subject as a whole and has a general acquaintance with the fields of knowledge represented by the course of study. The final examination is oral and is open to the public.

Every student meeting the final examination qualifications must be enrolled in a minimum of 1 credit hour in order to defend. The final examination must be completed in accordance with the schedule provided in the academic calendar. Ten working days before the
examination is taken the department must submit the form requesting this examination to the Graduate School. This form may be found on the Web at http://gradschool.nmsu.edu/graduate-forms/ and is also available from the Graduate School and departmental offices.

Students must ensure that each member of the examining committee receives a copy of the dissertation, no later than seven working days before the date of the final examination.

Any candidate who fails the final oral examination may either be terminated from the doctoral program or upon recommendation of the committee and approval of the Dean of the Graduate School, be granted a second examination after a lapse of at least one semester. Failure in the second examination disqualifies the candidate from obtaining the degree.

Finalizing the Doctoral Dissertation
After successful completion of the final examination, electronic submission of the approved dissertation must be submitted to ProQuest ETD, no later than the deadline posted to the Graduate School website. The format review of dissertation will be performed electronically by the Graduate School. The form and style of the dissertation must comply with the regulations given in Preparing your manuscript for submission located at https://gradschool.nmsu.edu/doctoral-dissertation-students/. The dissertation is not complete until the required forms are received at the Graduate School. Required forms may be found at https://gradschool.nmsu.edu/doctoral-dissertation-students/.

Registration
Registration at NMSU is a process that includes: (1) academic advising with a faculty or staff member, (2) registering for classes, online or with your academic advisor, and (3) paying the tuition and fee bill. For first time freshman and transfer undergraduate students (at the Las Cruces campus), the registration process is through the Aggie Welcome/Transfer Student Orientations. For currently enrolled Undergraduate students and all Graduate students registration is through your advisor or online through the myNMSU portal. For detailed instructions and questions about registration which are not addressed on the website, please contact the University Student Records Office (USRO).

Admission Requirement
No person will be will be allowed to register for courses until formally admitted to NMSU through the Community College, International Programs, Undergraduate or Graduate Admissions processes.

Course Schedule
Each semester and summer session, the University Student Records Office provides an online course schedule which can be accessed through myNMSU or the NMSU website. Note that not all courses listed in this catalog are offered every semester.

Registration Schedule by Classification
Several groups of students (e.g. Crimson Scholars, Students with Disabilities, Veterans) receive priority dates for course registration. For other students, registration dates are determined by the student's current classification at the time of registration. A student's classification is determined by the number of credits completed, and does not include courses in progress. A student's classification depends upon the number of credits completed toward graduation. Sophomore classification is achieved with successful completion of 28 credits; Junior classification, 60 credits; Senior classification, 90 credits.

University Credits
The unit of university credit is the semester hour, which is based upon one hour of lecture class or a minimum of two hours of practice/lab per week during one semester, and assumes a minimum of two hours additional, by the student, outside of class. The number of credits associated with each course is indicated in the course schedule.

Course Load for Undergraduate Students
The full-time course load in a regular semester (fall or spring) for a main campus undergraduate students is 12-18 credits. A full-time course load for a summer term is 6 credits per session for a total of 12 credit hours. Some scholarships have a 15 credit course load eligibility requirement. Each student is responsible for meeting their own scholarship eligibility requirements.

An overload is classified as more than 18 credits for a regular semester and more than 12 credits for the summer term. A one-credit course in physical education or supplemental instruction will not create an overload. Registration for a course overload requires written permission from the Director of the Center for Academic Advising and Student Support or the Associate Dean for Academics in the student's college. A "Undergraduate Change of Schedule" form is required and available from the University Student Records Office or on their website. Freshmen and students with a grade of D or F, or a cumulative grade-point average of less than 2.5, in either of the last two semesters, are not eligible for overloads. Concurrent enrollment in non-NMSU courses at other post-secondary institutions requires prior approval from the Associate Dean for Academics in the student's college, and these courses are counted as part of a student's class load.

Course Load for Graduate Students
A full-time course load is 9 credits, with a maximum of 15 graded credits for a regular semester (fall or spring) and a maximum of 9 graded credits for the summer session.

Course Numbering
The course numbering system at NMSU indicates the level of the course as follows:

Undergraduate courses are assigned numbers 100-499. Courses numbered 100-299 are referred to as "lower-division courses" and are primarily for Freshman and Sophomore level students. Courses numbered 300-499 are referred to as "upper-division courses" and are primarily for Junior and Senior level students.

Graduate courses are assigned numbers 500 or greater. Courses numbered 500-599 are primarily for graduate students working on a master's degree. Courses numbered 600-700 are primarily for students working on a doctoral degree.

Some graduate programs may accept courses numbered 450-499 for graduate credit. Graduate students should confirm eligibility with their program department head.

Prerequisites and Corequisites
Some courses require advance or concurrently acquired specific knowledge and skills. Prerequisite(s) and corequisite(s) for each courses are indicated in the course description section of this catalog. Students must have completed (or be presently enrolled in the prerequisite(s)) courses in order to register for a course with prerequisites. Where
Withdrawing from Courses: There are two different types of deadlines for withdrawing from courses: extraordinary circumstances that prevent timely registration changes to determine if changes will affect their enrollment status or benefits. A student found insufficiently prepared for a course they are enrolled in may be transferred to a more elementary course in the same subject any day before the last day to withdraw from an individual course.

**Registration Changes**

Subject to any registration “holds” and any applicable deadlines, students may change their course registration online. Caution should be exercised as registration changes may negatively impact eligibility for scholarships, financial aid or athletic participation, the student’s ability to progress through their degree program in a timely manner, and the student’s obligations with respect to tuition and fees.

The University Student Records Office publishes an online schedule of “Important Dates for Students” for each semester. The student is responsible for reviewing and adhering to the Important Dates, including the deadlines to add, drop or withdraw from course(s) for the relevant semester.

Adding Courses: There are two different types of deadlines for adding courses:

1. **Last day to add a class without instructor’s signature** - during this period courses may be added online through myNMSU, or through your academic advisor (if necessary).
2. **Last day to add a class with instructor’s signature** - during this period courses may only be added with either the "Undergraduate Change of Schedule" or the "Graduate Change of Schedule" form signed by the instructor (available online on the University Student Records Office website).

* Students taking classes online and who do not live in the Las Cruces Area must email the instructor, using the NMSU email, in order to get permission to be added to the course. If the instructor approves the addition, the approved response must be sent to either the student’s academic advisor or to registrar@nmsu.edu with the student's name, ID number and course CRN number they are wanting to add.

Withdrawing from Courses: There are two different types of deadlines for withdrawing from courses:

1. **Last day to drop a course without a “W” grade –** during this period courses may be dropped online through myNMSU, or through your academic advisor (if necessary).
2. **Last day to drop with a “W” grade –** during this period courses may be added online through myNMSU, or through your academic advisor (if necessary).

A student who fails to register for the class during their allotted 24 hours becomes automatically dropped from the waitlist and can add themselves back onto the bottom of the waitlist for that course.

Graduate Registration Requirements for Summer

Students who have scheduled their final examination, or who are completing their thesis during a summer session, must be registered for one credit hour during the summer session. In order to graduate during a summer session, the student must have filed the Application for Degree by the deadline posted on the Academic Calendar.

Repeating Courses for A Change in Grade

See the Grading portion of the Academic Regulations section of this catalog.

Substitutions and Waivers

Students registering for their final semester must have all course substitutions and waivers of required, for their degrees, courses approved before the last day of registration, during the semester in which the student expects to obtain the degree.

Auditing a Course (No Credit)

An audited course is one in which the student registers for the learning experience but does not seek to earn academic credit for the course. A student seeking to audit a course must register and pay tuition and fees
for the course and have the consent of the instructor to take the class in audit form. A student who has registered to audit a course may be dis-enrolled from the course at any time before the registration deadline expires if necessary to accommodate a student taking the course for credit. After the last day to register, the student cannot change the course option from audit course to a for credit bearing course.

Audited courses are not used in determining a maximum class load (overload) for undergraduate students in good academic standing, however, the audited course will be counted as part of the maximum allowable course load for graduate students and undergraduate students who are on academic probation.

**Academic Performance and Progress**

**Attendance and Student Performance**

Academic success is closely correlated to student participation and attendance. Accordingly, students are expected to regularly attend all their classes. Each course instructor will establish the specific attendance and course requirements. Only students who are currently enrolled in a course for either credit or audit are permitted to officially attend the classes. However, individual instructors may allow an occasional visitor and may allow a student who officially withdrew from the course to continue to attend for the remainder of the semester.

**Absences from Class and Failure to Complete Assignments**

Students who must miss class due to accident or illness, or due to other circumstances beyond their control should consult the course syllabus and the instructor for guidance. Students may be administratively dis-enrolled from a course due to excessive absences (consecutive absences in excess of the number of class meetings held within a week or any number of absences which are impairing the student's performance), or for persistent failure to complete assignments. In such cases, the Instructor may recommend administrative dis-enrollment by providing a completed "Student Absence/Lack of Progress Report" form to the Academic Associate Dean. If the Academic Associate Dean agrees with the recommendation of the course instructor, the student will be dis-enrolled from the course. A dis-enrollment has the same effect as a voluntary withdrawal (see "Registration Changes" in this catalog). Any student who has been administratively dis-enrolled from a class may appeal that decision to the Dean of the College where the course was offered within 10 days after notification of the dis-enrollment.

Any absences due to the student's participation in a university sponsored event (e.g. ASNMSU president representing NMSU at legislative session, student athletes competing in NMSU scheduled athletic events, or students attending educational field trips and conferences) will be excused and deemed an "Authorized Absence". Authorized absences do not relieve the student of the course assignments or responsibilities and instructors may require students to complete course work before the absence. Prior to the student's absence, the sponsoring department will provide the instructor with written notice of the dates of expected absence.

**Classroom Conduct**

Each instructor has the authority to establish and enforce reasonable rules of conduct in their courses. A student who engages in behavior that interferes with the educational environment of the class may be administratively dis-enrolled with the approval of the academic department head and academic associate dean for the course, and with notification to the Provost. Any student who has been administratively dis-enrolled from a class may appeal that decision to the Dean of the College where the course was offered within 10 days after notification of the dis-enrollment.

**Student Performance Assessment**

Individual student performance and learning outcomes in a course are measured and evaluated by the course instructor and reported to the student in the form of grades. Each instructor has the authority to establish assignments and other assessments (such as exams and quizzes) and to assign grades based on the student's performance on those assessments. Final grades for the course are determined by the instructor and reported to the University Registrar as described in grading section of this catalog. Any student who believes that their academic performance has been evaluated unfairly may appeal the grade through the University's Academic Appeals process as provided in this Catalog.

**Academic Program Assessment**

New Mexico State University is committed to providing its students with a quality education and a supportive learning environment. Academic Program Assessment is a continuous improvement process achieved by identifying a program's desired learning outcomes, evaluating the extent to which those outcomes are collectively achieved by students in the program, and then implementing changes to enhance and improve the collective program outcomes. For assessment to be effective, students must be actively aware of and engaged in assessment activities.

Academic Program Assessment requires participation of students who are expected to provide feedback on personal, professional and academic development and to participate in a variety of assessment exercises. Assessment activities may be a part of regular graded course assignments, or may require students to engage in other activities. Assessments may include course projects, exams, exit interviews, standardized tests, surveys, focus groups, etc. Data gathered through these assessments is published only in aggregate form. Learn more about NMSU's Academic Program Assessment at [https://assessment.nmsu.edu/](https://assessment.nmsu.edu/).

**Exam Week and Final Examinations**

NMSU designates the last week of each semester as "Exam Week" during which each course has only a single 2 hour meeting time for a mandatory culminating activity which may be a final examination or some other course related activity. The University Student Records Office (USRO) establishes the Final Examination Schedule for each semester ([http://registrar.nmsu.edu/final-examination-schedule/](http://registrar.nmsu.edu/final-examination-schedule/)). Examinations are typically held in the course's usual lecture/lab room. Some departments hold Departmental Exams where all students for all sections of a particular course are required to take the final examination simultaneously. The date, time and location of the Departmental Exams are indicated on the Final Examination Schedule. For courses that were not scheduled to meet at the specific times listed under "Regular Class Time" on the USRO’s Final Examination Schedule, the instructor and course department coordinate examination dates, times and locations with NMSU's Academic Scheduling office (575) 646-4790. Final exams for weekend courses are held at the regular class period on the last day of class.

The final exam or culminating activity must not be rescheduled for a different date, time or location, except with permission of the department head and the unanimous consent of the enrolled students. During the
week before Exam Week, instructors are not allowed to hold examinations lasting more than one class period.

Any student having more than three examinations scheduled in any one day may, no later than the week prior to exam week, notify the instructor of the examination scheduled latest in the day to obtain an alternative date for that examination. (If the fourth exam is a departmental exam, the instructor of the third exam will make alternate arrangements for that exam upon request.)

Students who believe that their instructor(s) have not honored Exam Week requirements may appeal to the instructor's department head.

Developmental Evaluation
The academic skill level of all entering first-time students at the time of registration is evaluated based upon ACT scores, SAT test scores, and if available, the NMSU Math Placement Exam score. The student’s eligibility to enroll in university level English and Mathematics courses is dependent upon this evaluation. Any new student may choose to take the MPE to test towards a higher math placement than indicated by the ACT and high school graduation scores. All new engineering students must take the MPE. More information on the MPE is available from the Department of Mathematics website. https://www.math.nmsu.edu/msc/MPE/overview.html. Students who have not demonstrated adequate preparation for university level courses are required to take developmental courses. Developmental courses are included on the transcript and will be included in the calculation of the GPA, but the developmental course credits do not count towards a degree.

- **Developmental Courses in English** - Students who score below 15 on the ACT English exam will be placed into appropriate developmental English course or course(s) (prefix CCDE) before enrolling in ENGL 111G. Students who score below 13 on the ACT English will require two developmental courses before enrolling in ENGL 111G.

- **Developmental Courses in Math** - Students who score below 23 on the ACT mathematics exam, and who did not achieve a qualifying score on the NMSU Math Placement Exam (MPE), will be placed into the appropriate development mathematics course or courses (prefix CCDM). Placement into CCDM course(s) is dependent upon the student’s ACT score and high school GPA. Students are not allowed to enroll in any other math courses at NMSU until successfully completing any requisite CCDM course(s). (As an alternative to the math developmental course(s), students may complete AS 103 with a C- or better, which does earn credit toward a degree.)

Basic Academic Skills
All undergraduate students must demonstrate Basic Academic Skills in both English and mathematics before enrolling in any upper-division course (numbered 300 or higher). These requirements ensure that each student in the upper-division courses has the ability to succeed without compromising the learning experience of other students. The completion of the Basic Academic Skills requirements does not necessarily result in the award of academic credit nor satisfaction of university general education requirements in English and mathematics. (Students should consult the General Education Courses and Requirements section in this chapter for these requirements.)

Transfer students with 45 or more credits are allowed to enroll in upper-division courses for only one semester before satisfying the Basic Academic Skills requirements. The Basic Academic Skills requirements may be satisfied in a variety of different ways as listed below:

**English Basic Skill Demonstration Options (achieve one of the following):**
- ACT English Score of 30
- Coursework - ENGL 111G, or equivalent, completed with a grade of C- or higher.

Equivalents: the following are deemed equivalents to ENGL 111G for the purpose of satisfying Basic Academic Skills in English:

- ENGL 111GH – completed with a grade of C- or higher
- ENGL 111 M - required for International students who took the TOEFL examination
- CLEP Exam score of 57 or higher in freshman college composition
- English Advanced Placement (AP) Exam score of 3, 4, or 5
- English Composition Transfer Credits - 3 or more credits with a grade of C- or above, transferred from accredited post-secondary institutions (International students may be required to take ENGL 111 M as noted above.)

Credits from Non-accredited Institutions - As a general rule, NMSU does not accept credits from non-accredited institutions. Students with 3 or more credits of college-level English composition with a grade of C- or higher from a non-accredited institution may, however, challenge the Basic Academic Skills requirement in English and English 111G course requirement by submitting a theme paper written under the supervision of, and demonstrating achievement of English 111G learning outcomes as determined by the Department of English.

**Mathematics Basic Skill Demonstration Options (achieve one of the following):**
- ACT Mathematics Score of 23
- Coursework – any one of the following courses or course combinations completed with a grade of C- or higher in each course:
  - MATH 111 and MATH 112G
  - Any mathematics course numbered 120 or above (prefix MATH)
  - Any one statistics course: A ST 251G, STAT 251G or STAT 271G
- Basic Skills Exam Passing Score - offered twice a semester by the Department of Mathematical Sciences
- Calculus AB, Calculus BC or Statistics Advanced Placement (AP) Exam score of 3, 4, or 5

**IMPORTANT NOTE:** Basic Academic Skills Demonstration fulfillment options may not appear on the transcript, result in the award of academic credit, or satisfy general education requirements. The Basic Academic Skills requirements are used solely for the purpose of determining eligibility for enrollment in upper-division courses. All students should seek to complete the Basic Academic Skills requirements as early in their academic program as possible. Students who postpone completion of Basic Academic Skills may be unable to progress toward degree completion in a timely manner.

**Independent Study and Directed Reading Courses**
Independent study courses and directed reading (other than those designated in the catalog with a subtitle), are for students capable of
and sufficiently motivated to undertake self-directed study with limited oversight of a faculty member. Only students who have completed at least 28 credits at NMSU under traditional grading, with a cumulative GPA of 2.5 or better, are eligible to enroll independent study courses. No student is entitled to enroll in independent study and enrollment requires the consent of an instructor who agrees to supervise and evaluate the student’s learning activities in the course. Students seeking enrollment in an independent study course should prepare an independent study proposal to present to individual faculty member(s) in the relevant discipline for consideration. At a minimum, the proposal should include the topic of study, a brief survey of the literature or other resources on the topic, and a description of the proposed written product or other tangible outcome of the independent study. The relevant academic department for the discipline may have additional requirements. Each college determines the maximum number of credits that may be earned in independent study courses.

**Adjusted Credit Option**

The adjusted credit option provides eligible undergraduate students who earned a low grade-point average (less than 2.0 cumulative) during their first few semesters to reset their GPA calculation. This option may be used only once and is not reversible. These are the consequences of exercising the Adjusted Credit Option:

1. All of the student’s academic history pre-dating the request, including all NMSU course credits previously attempted or completed, transfer coursework, CLEP, ACT, advanced placement, special examination, and/or military service are included in the adjustment and designated as “ADJUSTED CREDITS” on the transcript. These credits are no longer be included in the calculation of the cumulative grade point average.

2. Courses carrying an academic grade of S, CR, C- or better, earned prior to the grading period in which the student requested this option, are treated as earned academic credit and need not be repeated, except where a higher grade is required in the student's academic program.

3. Courses carrying an academic grade of U, CD, D or F, earned prior to the grading period in which the student requested this option, remain on the student’s transcript, but no academic credit is provided for these courses. The student must repeat these courses to obtain academic credit.

4. The student’s academic transcripts will continue to reflect all coursework, including courses falling under the adjusted credit option. In no circumstances will a transcript be issued that does not include all courses attempted at this university.

5. The student’s current academic status, eligibility for employment, and financial aid may be impacted. Probationary status and eligibility for on-campus employment are not affected by the exercise of the adjusted credit option.

6. The repeat rule for courses starts anew.

7. The student will not be eligible for award of an associate degree until earning thirty (30) or more additional credits after exercise of the Option.

8. The student is eligible for University honors at graduation upon completing a minimum of 60 academic credits at NMSU, after the adjusted credit option is exercised, with a resulting grade point average which satisfies University regulations for honors.

After carefully considering the consequences indicated above, eligible students may exercise the Adjusted Credit Option by paying a fee of $10 and submitting an adjusted credit option application to the University Student Records Office. Application forms are available on the University Student Records Office website and can be approved by the Director of the Center for Academic Advising and Student Support or the Associate Dean for Academics in the student’s college or the Academic Vice President at the Community Colleges. Only students meeting the following criteria are eligible to exercise the Option:

1. No awarded baccalaureate degree
2. Enrolled as a degree-seeking or non-degree undergraduate student
3. Cumulative grade-point average of less than 2.0 at NMSU
4. Fewer than 60 credits accumulated (including both transfer and NMSU credits)

**Credit by College Level Examination Program (CLEP)**

Prior to or during a student’s enrollment at NMSU, credits may be earned through the College Level Examination Program (CLEP) of the College Entrance Examination Board. CLEP is a national program of credit by examination that offers the opportunity to earn credits for college level achievement wherever or however the student learned. Earning CLEP credit will be treated as transfer credit without a grade, will count toward graduation, and may be used in fulfilling specific curriculum requirements. A current NMSU CLEP policy as well as test schedule information is available through Testing Services DACC East Mesa, RM 210. Testing Services may be reached at: (575) 528-7294.

**Credit by Examination**

Any enrolled student with a cumulative GPA of at least 2.0 currently attending classes may, with permission of the appropriate department, challenge by examination any undergraduate course in which credit has not been previously earned except an independent study, research or reading course, or any foreign language course that precedes the final course in the lower-division sequence. The manner of administering the examination and granting permission shall be determined by the department in which the course is being challenged. Students may not enroll in a single course, challenge it by examination, and drop it during the drop/add period, unless they enroll in an additional course. In exceptional cases in which a student demonstrates outstanding ability in a course in which he is already registered, he may be permitted to challenge the course. A student desiring to apply for special examination may obtain the necessary forms from the University Student Records Office. The fee for challenging a course is the same as the approved tuition rate. Courses may not be challenged under the S/U option. The special examination privilege is based on the principle that the student, exclusively, has the responsibility for preparing for a special examination.

**Credit for Military Service**

New Mexico State University will award academic credit to United States military personnel for courses and Military Occupational Specialties (MOS), based on the American Council of Education Guide (ACE) as well as through national standardized tests, such as CLEP, AP, PEP and DANTES. Credit for military-training is in accordance with NMSU Faculty Senate Legislation Proposition 24-07/08, which was passed in May 2008. Military Training and Military Occupational Specialties (MOS) must have a recommendation evaluation by ACE (in the ACE Guide) for credit to be awarded. Courses accepted for transfer credit become part of the student’s official NMSU transcript and academic record. If a student wishes to appeal a decision regarding the acceptance of military training/
education and/or MOS for academic credit, the student must submit
a written statement of appeal to the Dean of the College to which the
student has applied. The Dean will review the merits of the appeal and
render a decision. The decision of the Dean is final.

Only Primary MOS(s) are eligible for academic credit in the initial review
and evaluation. Credit for Duty and/or Secondary MOS may be eligible
for academic credit if the student petitions the college's Associate
Dean. Primary MOS is the primary specialty of a soldier and reflects
the broadest and most in-depth scope of military experience. Veterans,
active-duty personnel, National Guard and Reservists who are current
students or students applying for admission to New Mexico State
University may be granted academic credit on a case-by-case basis
upon evaluation of military transcripts - the Joint Service Transcript
(jst.doded.mil) and the Community College of the Air Force transcripts.
Course equivalencies and credit hours awarded for a particular NMSU
degree are determined by colleges and/or academic departments. Credit
hours may be awarded for specific courses toward degree requirement, or
as elective credit. The number of credit hours awarded will be determined
by the college and/or academic department.

NOTE: Students submitting military transcripts for credit evaluation must
keep in mind the Maximum Time Frame policy. See Financial Aid (p. 31)
Section.

Graduate Course Deficiencies
Students who have been admitted with departmental deficiencies may be
required to take diagnostics tests and additional qualifying examinations.
They must complete satisfactorily, in a manner specified by the major
department, all undergraduate course deficiencies as prescribed by
the department responsible for the graduate program. Courses taken
to satisfy deficiencies will be listed on the undergraduate transcript;
however, these course grades will not be calculated in the student's
graduate GPA or graduate hours. With the permission of the student’s
advisor and the head of department, courses to meet undergraduate
deficiencies may be taken under an S/U option (with S being a grade
satisfactory to the professor), and such courses will not affect the
maximum number of S/U graduate credits permitted.

Short Courses for Graduate Students
Short course(s) that are numbered 450 and above have been approved to
carry graduate credit. Graduate students must be registered for the short
course(s) to receive graduate credit. Concurrent enrollment of graduate
students in regular and short courses for the fall/spring semesters is
allowed, provided the combined total credits does not exceed 15. All
short courses carrying one semester credit will be graded on an S/U
basis and these credits will be counted toward the student's limit of S/U
credits.

Challenging Graduate Courses
A graduate student may challenge a graduate course by examination,
please see the Graduate School for more information.

Grading
University Grading System
Each course department or instructor establishes the system for
assessing student performance in achieving course learning objectives.
Students should consult the course syllabus for a description of the
grading system used in each course. At the conclusion of each course,
instructors are required to report a final grade reflecting the instructor’s
assessment of each student's performance. Shortly after the end of the
term, students can access their grades through the MyNMSU portal.
No other grade notification will be issued. The final grade is reported on
the student transcript. Instructors may elect whether to use fractional
grading (the use of the plus and minus) in assigning final letter grades.

The NMSU system for final grades is expressed in letters, which carry
grade points that are used in calculating the cumulative grade-point
average, as shown in this table:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Grade Points per Unit of Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.0</td>
</tr>
<tr>
<td>A</td>
<td>4.0</td>

<tr>
<td>I- Incomplete work</td>
<td>0</td>
</tr>
<tr>
<td>AU- Audit</td>
<td>0</td>
</tr>
</tbody>
</table>

1 S grades are grades that are satisfactory to the professor and are
normally equivalent to the letter grade of C- or higher.

Any courses for which only CR, S or PR is awarded, but no traditional
letter grade is given, will be included in the total number of earned hours
but is not computed in the grade-point average. Traditional letter grades
are those which are used in the grade point average determination: A+,
A, A-, B+, B, B-, C+, C, C-, D+, D, D- and F. In computing the overall grade-
point-average, the total credits in which grades of A+ through F have been
assigned is divided into the total number of grade points earned.

Midterm and Six-Week Early Performance Grades
A Six-Week Early Performance Grade (sometimes referred to as Midterm
Grade) for courses numbered 100-299 will be posted and available to
students through the MyNMSU portal. The purpose of the early grade
posting is to ensure that students have an opportunity to address any
performance issues. Students should be mindful that the Six-Week Early
Performance Grade reflects a students' performance on only that portion
of the total coursework that has been graded at that time. Any student
who is doing poorly, or not as well as they would like, should meet with
the instructor to discuss how they can improve. Students who have
concerns about their progress in multiple courses or who are considering withdrawal from course(s) must meet with their academic advisor.

In courses numbered 300 or higher, the posting of Early Performance Grades is optional and may occur through the online course management system rather than the MyNMSU portal. However, prior to the last day to withdraw from a course, upon request, instructors will provide information to students about their progress in the course.

Retention of Grading Records
Individual assignments and exams that are not returned to students should be retained by the instructor or department through the end of the subsequent regular semester. The records used to compute individual final grades should be retained for two years after the completion of a course. If a final grade is appealed, these records are kept for at least two years after the completion of the appeal. Departments, colleges or the library may require that records be kept for longer periods.

Minimum Grade Requirement for Undergraduate Students
Undergraduate degrees require a cumulative GPA of 2.0 or higher for degree completion. Although D+, D, or D- can be considered passing, some departments have higher grade requirements for the courses within their program and/or their program as a whole. Students should check with their departments regarding specific course grading requirements for their particular degree program.

Minimum Grade Requirement for Graduate Students
Graduate degrees require a cumulative graduate G.P.A. of 3.0 or higher. Although B- and C grades (including C+ and C-) earned at NMSU may be counted toward the requirements for a graduate degree in some programs, this grade does not reflect acceptable graduate-level performance and may cause the cumulative G.P.A. to fall below the 3.0 required for graduate students. Some departments have higher grading requirements for courses in their programs. Students should check with their departments regarding specific course grading requirements for their particular degree program.

Courses in which a student earns a D or F grade do not ever satisfy graduate degree requirements; however these grades will be calculated in determining the students’ cumulative grade-point average. To obtain academic credit, students must retake courses in which a grade of D or F was earned.

S/U Grading
S/U grading allows the student to attempt to earn course credit without having a course grade included in their grade point average calculations. Under S/U grading, the instructor assigns an S grade for satisfactory achievement of the course learning objectives (normally equivalent to the letter grade of C- or higher) and a U grade for unsatisfactory performance in the class.

Designated S/U Courses
Each academic college may designate courses in which the grading will be on a basis of S or U for all students enrolled in the courses. Credits in designated S/U courses are not included in the limitations on the number of S/U credits a student may take, and are not subject to the student eligibility requirements described below.

Election of the S/U Grading Option - Undergraduate Students
In courses other than those designated as S/U for all students, eligible individual students may elect the S/U Grading Option, subject to the regulations stated below. To be eligible for the S/U (satisfactory/unsatisfactory) Grading Option, undergraduate students must meet the eligibility requirements and obtain approval of an academic advisor.

Eligibility requires completion of 28 credits at NMSU under traditional grading, with an overall average of 2.5 or better. (Upon approval of the adjusted credit option, students must re-establish eligibility.) Non-degree seeking students may take courses under the S/U option without regard to eligibility requirements. However, these courses may not be subsequently applied toward an undergraduate degree at NMSU.

The S/U option must be elected as part of the course registration and may not be added once the course registration period closes. Other than honors courses and courses officially designed as S/U, the following limitations apply to courses in which the S/U option is elected:

1. No more than 7 credits per semester or 4 credits per summer session.
2. Not to exceed a total of 21 credits towards a degree.
3. Not a required course for the student’s major.

Students electing the S/U option should be mindful that upon a change of majors, the new major department may require a traditional grade for a course within that major that was previously completed with an S grade. In such cases, the student may request that the original instructor process a change of grade form to apply a traditional grade, however, if more than 2 years have elapsed or if the instructor is no longer at NMSU, such a change will not be possible and the student may be required to retake the course or obtain a traditional grade through a course challenge.

Election of the S/U Grading Option Election - Graduate Students
With an approval from their advisor and department head, graduate students in good academic standing may elect the S/U option, at the time of registration, for courses taken outside the major department, subject to the regulations stated below:

1. No more than a total of 6 credits of elected S/U courses are permitted in the master’s degree.
2. Doctoral candidates may take an additional 6 credits under the S/U option after application to candidacy.

I Grade Designation
The letter grade of I (incomplete) is given for passable work that could not be completed due to circumstances beyond the student’s control that develop after the last day to withdraw from the course.

In no case is an I grade to be used to avoid the assigning of D, F, U or RR grades for marginal or failing work. Examples of appropriate circumstances include documented illness, documented death or crisis in the student’s immediate family, unexpected military deployment and similar circumstances. Other job related circumstances are generally not appropriate grounds for assigning an I grade. Students requesting an I grade are responsible for providing satisfactory evidence of such circumstances. (In the case of medical records, instructors should review the information provided, note that adequate medical documentation was provided for review, and return the documentation to the student. Under no circumstances should the instructor retain any medical records or indicate the specifics of any medical condition in the academic records.)
The refusal to grant an I grade may be appealed in the same manner as any other final grade.

To assign an I grade, the instructor must complete the “I Grade Information Form” and have the form delivered to the associate dean of the course college. The instructor must indicate on the form whether the student will be given the option to complete the remaining coursework and have the I grade changed to the earned letter grade. If so, the instructor should indicate the steps necessary to complete the remaining coursework. The I grade form should either be signed by the student in person, or the associate dean must send a copy of the document to the student’s official permanent address, as recorded in the University Student Records Office, with a notation on the form that the student was not available for signature.

The I grade will be permanent in instances where (1) the instructor did not provide an option to complete the coursework, (2) the student failed to complete the coursework and grade change, or (3) the student failed to complete the coursework by the relevant deadline, and the instructor did not indicate that the I grade would be changed to the earned grade upon failure to complete. In such instances, the student will be required to re-enroll in the course to receive credit (in which case the permanent I grade and the subsequent earned letter grade will both appear on the transcript).

To change the I grade, the instructor must complete a “Change of Grade Form,” obtain the signature of the associate dean for the course, and submit the form to the University Student Records Office.

The student is entitled to have the I grade removed from the transcript only if, within 12 months or any earlier deadline established by the instructor on the “I Grade Information Form” and prior to graduation, the student completes the remaining coursework, as specified on the Form, in a manner satisfactory to the instructor. If the student fails to complete the coursework, the instructor may change the I grade to any appropriate grade (including D, F or U) only if the instructor stated that this would occur on the “I Grade Information Form.” The instructor should assign whatever grade was earned for the entire course.

To change the I grade, the instructor must complete a “Change of Grade Form,” obtain the signature of the associate dean for the course, and submit the form to the University Student Records Office.

**RR Grade**

The RR grade may be assigned only in undergraduate developmental courses (CCDE, CCDL, CCDM & CCDR) and indicates that the student has made substantial progress toward completing the requirements of the course. It carries neither penalty nor credit, so a student must re-enroll and successfully complete the course in order to earn credit. The grade of RR may be received only once in any given course, and is a permanent notation on the student’s transcript.

**W Grade Designation**

The W grade is assigned only in courses when the student withdraws or is administratively dis-enrolled from the course after the last day to drop the course. The W grade is permanent.

**Effect of Change of Grade**

The effect of a change of grade on a student’s academic standing (scholastic warning, probation or suspension) depends on the date the transaction is officially recorded on the student’s academic record. If the transaction is recorded before the student begins another semester, the grade change (such as replacing the I grade with an earned grade) is included in the grade-point average calculation in order to establish the student’s academic standing. If the transaction is recorded after the student begins another semester, for the purpose of calculating academic standing, the new grade is included with any other grades earned for the semester in which the grade change is processed.

**Repeating Courses for a Change in Grade**

**Undergraduate students:** may repeat courses, for a change in grade, when the original grade earned was a D or F. Once a grade of C- or better is earned, the course will then be substituted in the calculation of the grade-point-average and students will no longer be able to repeat that course for change of grade purposes. Student transcripts will continue to show the grade awarded for each course attempt. If the student’s original grade was a D and he/she repeats the course, but receives a F, the second grade will not be substituted for the original. Repeat options apply only to eligible courses that were completed prior to the time a student was awarded a degree at NMSU.

**Graduate students:** may repeat courses to achieve a higher grade, but the grade assigned for each attempt will remain on the transcript and will be counted in the grade point average calculation.

**Grade Point Average**

Grade point average (GPA) calculations are based solely on courses taken at NMSU or under an approved National Student Exchange.

**Grading in Graduate Research**

In grading both master’s and doctoral research, thesis and dissertation work in progress, the instructor reports for each enrollment period the grade PR (progress) or U (unsatisfactory) rather than a traditional letter grade. These assigned grades are permanent notations on the student’s transcript. Only those credits graded PR (Progress) accumulate toward the minimum number of research credits required.

PR indicates that the student has devoted an adequate amount of time to the work scheduled but does not indicate the quality. U indicates that the student has stopped work or is doing work of unacceptable quality.

At the conclusion of the final oral examination, or when the thesis/dissertation is submitted for the final signature of the graduate dean, the instructor will report the final S or U grade for that semester. If the thesis/dissertation and the performance in the final oral examination are found to be acceptable, the instructor will report an S (satisfactory) grade. If the thesis/dissertation or the performance in the final oral examination is found to be unacceptable, the instructor will report an U (unsatisfactory) grade.

If a student accumulates a total of two U (unsatisfactory) grades in courses numbered either 598, 599, 600, 699 or 700, the student will be placed on provisional status. If three U (unsatisfactory) grades are reported for these courses, the student will be dismissed from the Graduate School.

**Withdrawals**

**Withdrawal from a Single Course**

Any student wishing to formally withdraw from a single course, after the last day to drop has passed, can do so through their Academic Advisor or the University Student Records Office. All such withdrawals will be registered on the student’s transcript with the “W” grade indication.
For students wishing to withdrawal from all courses, please see the section on Withdrawal from NMSU.

Leave of Absence from the Graduate School

Students who are working on advanced degrees and plan to have an interruption in studies, for a calendar year, should request for a leave of absence through their department head. The student must submit a formal letter through their department head to the Dean of the Graduate School, an email will not be accepted. The request should include the beginning date and the anticipated ending date for the period of absence.

A graduate student on leave of absence will be expected not to use university facilities and place no demands upon the university faculty and staff, and, therefore will pay no fees. Time spent in the “leave-of-absences” status will not be counted toward the advanced degree time limits.

A graduate student who fails to register for one calendar year without obtaining a leave of absence from the Graduate School will be considered withdrawn from the university, by the Graduate School. In order to resume their studies after such absences, the student must go through the formal readmission process.

Administrative Withdrawals

An administrative withdrawal is initiated for a student who is representing the university at an official out-of-town event and becomes effective when the student returns from the event or five class days after the signed drop slip gets to the dean’s office.

Military Withdrawal

New Mexico State University understands that our military and Veteran students may be called to active duty, specialized training, or disaster relief efforts with little notice. U.S. active duty military students wishing to withdraw from all their classes must present their orders and their request for full withdrawal, as indicated below. However, the below policy does not pertain to a student’s basic and/or annual training. A student who has an order for training is encouraged to formally request, through the proper military chain of command, a postponement of their orders until the summer or the end of the semester they are currently enrolled in. If a student’s request for postponement is denied, the student may then follow the below steps but must provide documentation that their postponement request was formally denied.

All NMSU students that have been called up for active duty must take the following steps in order to withdraw from all their classes:

1. **Military and Veterans Programs (MVP):** VA students ordered to Active Duty must provide a copy of orders to the MVP office, in Corbett Center Student Union, Room 244. To assist in reporting accurate information to the VA Regional Office, student should also provide, in writing, last day of class attendance.

2. **NMSU University Student Records:** All students presenting their orders to the University Student Records Office, (575) 646-3411, will receive a military withdrawal from classes and a full tuition and fees refund for that semester.

3. **Bookstore:** Students who still have their receipts for textbooks purchased the semester in which they are called to active duty will be given a full refund for these textbook purchases when they present their orders. (575) 646-4431.

Student Medical Withdrawal

A student medical withdrawal applies to a student who becomes seriously ill, injured or hospitalized and is therefore unable to complete an academic term for which they are enrolled. This action applies to all courses a student is registered for in the affected semester(s). The student cannot select which courses they want to withdraw from and which they want to remain registered for when exercising this option. The students’ attending physician must provide a letter, on official letterhead with an original signature, stating the date(s) within the semester that the student was under medical care and must withdraw because of that medical condition. This letter must be submitted within the semester or no later than one academic year after the end of the term for which the withdrawal is being requested.

Once the information is reviewed a final determination will be made if the student is eligible for the consideration of tuition or other refunds (students receiving funds awarded by the University Financial Aid and Scholarship Services should be aware of policies regarding withdrawal from the University). At the Las Cruces campus, medical withdrawal begins and ends at the University Student Records Office. At all other campuses, medical withdrawal begins at the Student Services Office but is ultimately finalized with the University Student Records Office on the Las Cruces campus.

Medical Conditions of a Family Member Withdrawal

A student who is withdrawing because of a medical condition of an immediate family member must submit a letter from the family member’s attending physician. This action applies to all courses a student is registered for in the affected semester(s). The student cannot select which courses they want to withdraw from and which they want to remain registered for when exercising this option. It must be on official letterhead with an original signature, stating the date(s) within the semester that the student’s immediate family member was under medical care and that the student must withdraw to attend to the immediate family member’s medical condition. This letter must be submitted within the semester or no later than one academic year after the end of the term for which the withdrawal is being requested.

Immediate family member, in this instance, includes a spouse; a domestic partner, as defined in the NMSU Policy Manual 7.04; a child, parent or legal guardian; a sister or brother and a grandparents or a grandchild. Familial relationships that are created by law are also included (i.e. mother/father in law; half or step siblings); any other relationships can be considered on a case-by-case basis.

Once the information is reviewed a final determination will be made if the student is eligible for consideration of tuition or other refunds (Students receiving funds awarded by the University Financial Aid and Scholarship Services should be aware of policies regarding withdrawal from the University.) At the Las Cruces campus, medical withdrawal begins at the University Student Records Office. At all other campuses, medical withdrawal begins at the Student Services Office.

Withdrawal from NMSU

Withdrawal from any NMSU campus is an official procedure that must be:

1. Initiated by the student (using the Withdrawal form)
2. Have all necessary signatures (as indicated on the form)
3. Be approved and processed through the Registering Office, located on the Las Cruces Campus

Students who withdraw from all courses for the semester should do so in person through the University Student Records Office. However, students who are unable to come in person may submit an e-mail using their NMSU e-mail account to records@nmsu.edu. Students who leave without following the official procedure are graded appropriately by the instructor.

Applicable dates for the last day to withdrawal are published on the approved university academic calendar or under important dates at: http://registration.nmsu.edu.

A student who withdraws from all classes for the semester will retain access to their NMSU account per current policy but will lose access to other services and privileges available to enrolled students.

Financial information concerning drops and withdrawals can be found at http://uar.nmsu.edu/withdrawals/. Financial Aid Recipients should contact University Financial Aid and Scholarship Services before withdrawing. Students receiving funds awarded by the University Financial Aid and Scholarship Services should be aware of policies regarding withdrawal from the University.

The Federal Higher Education Act requires the University to calculate a Return of Federal Student Aid Funds for students who withdraw (officially or unofficially) from all classes on or before the 60 percent attendance point in the semester. Using a pro-rata schedule, the percentage of the semester attended is used to calculate the amount of the student's earned versus unearned Federal student aid funds. The unearned portion of Federal student aid funds will be returned to the appropriate aid program(s). Students withdrawing from classes are responsible for payment of any balance due after the required return of Federal student aid funds.

Graduation and Commencement

Graduation Requirements

For specific graduation requirements for any degree offered at NMSU please see the Degrees, Majors, Minors and Other Academic Programs of Study (p. 58) section, as well as the departmental sections for those requirements. These requirements will include the minimum GPA, total credits and specific course requirements for graduation.

Applying for a Degree

Any students that are in their final semester of classes are considered degree candidates and are required to submit an “Application for Degree” as well as pay graduation fees for each degree being sought. The application for Degree form is available online through the MyNMSU website. It must be completed and submitted by the designated deadline for that semester. The fees for the Las Cruces campus are all listed in the Tuition, Fees and other Expenses (p. 29) section of the catalog, once a student submits the application the fee will be included in the total cost for the semester or session in which the candidate anticipates completing their degree requirements.

If degree requirements are not completed during the semester/ session the student originally applied for, the student must then reapply and pay the appropriate fees. A $25 late fee applies to applications received after the application deadline, and no applications will be accepted after the posted deadline date.

A student must specify which catalog they are using for their degree requirements in order for the university to determine if the requirements are met and if a degree can be certified. The latest date for substitution or waiver of required courses for degree candidates is two weeks after the last date of registration for regular or summer terms.

Attendance at the Commencement Ceremony

Commencement is a symbolic ceremony. Participation in commencement does not, in itself, mean that a student is considered an NMSU graduate. In order to be awarded a degree, a student must fulfill university requirements as determined by academic colleges. The degree will reflect the graduation date from the application for degree in which all degree requirements were determined by the academic colleges.

The academic colleges will confirm the students eligibility to participate in the commencement ceremony that is held at the close of the fall and spring semesters. Eligible candidates who are in the process of completing their final degree requirements and degree recipients from the previous summer session will participate in the fall ceremony. Students who are in the process of completing their final degree requirements in the spring must attend the spring ceremony. However, Bachelor degree candidates that wish to participate in a spring commencement, prior to completing degree requirements in summer school may do so if they meet the following conditions:

1. Receive permission the Dean of their college
2. Show a minimum cumulative grade-point average of 2.0
3. Only need 12 or fewer credit hours to complete their degree requirements
4. These remaining credit hours must be offered in the upcoming summer schedule of classes
5. Submit a degree application and approved petition form (available in the Dean’s office) by the last day to apply for a degree in the spring semester.

Academic Regalia

Each college may approve distinctive symbols to be worn by the top 10 percent of its graduates at commencement. Only one symbol may be worn by each graduate. In addition, the student with the highest honors in each college may wear a crimson-colored gown. No other symbolic additions to academic regalia are allowed without the approval of the Academic Deans Council.

Diploma

All fees and bills owed the university must be paid in full before a student may receive a diploma or official transcripts. The degree title and major(s) will be printed on the diplomas, in accordance to the degree application award, determined by the academic colleges. Academic honors will also be printed on the diplomas below the degree and major(s). The name on the diploma will reflect the student’s current official NMSU records. Name changes are only processed for currently admitted students.

Diplomas will be mailed to graduates approximately eight weeks after the individual colleges certify the degree requirements and the final grades have been processed by the University Student Records Office. The diploma will be mailed to the address specified on the degree application, unless an address change was requested before the last day of the semester.
Academic Standing, Probation and Suspension

Undergraduate Academic Standing

When a student does not maintain adequate academic standing, he/she is placed in Academic Warning. If the student’s academic standing does not improve, the placement progresses to Academic Probation I. Continued unimproved academic standing moves a student into Academic Probation II, then finally, Academic Suspension. Each stage imposes more structure and limitations on the student in order to help them return to normal academic standing. The intent is not to punish, but to help the student return to normal academic standing and success. Since some of these limitations involve limitations on the number of credit hours, students on Probation or Suspension may be subject to loss of financial aid. It is the responsibility of the student to determine the impact of their changed academic standing on their financial aid.

Notification to students of academic warning, probation, or suspension appears on the student’s grade report at the end of each grading period.

Undergraduate Academic Warning

Issued only once, the first time a student’s cumulative GPA falls below a 2.0 while in good academic standing. The relevant Associate Dean for Academics or Campus Academic Officer (CAO) will send the student a letter detailing the consequences should the cumulative grade point remain below a 2.0 at the conclusion of the semester. A student on Academic Warning remains eligible for all extracurricular activities as governed by the rules of the specific activity.

While under Academic Warning the following restrictions apply:

1. The student may be required to enroll in a 3-credit hour special study skills/time management course specifically designed for students on Academic Warning, or an equivalent course approved by the appropriate associate dean or CAO of their campus.
2. The student will enter into a contract or individualized education plan with their advisor, approved by their department head that places further stipulations on Academic Warning. The contract may include, but is not limited to the following:
3. The student may be required to take at least one repeat course to try to improve their GPA.
4. Except for the special study skills/time management course, the student's coursework may be restricted to their major.
5. The student may be required to get tutoring help.
6. The student may be required to see an academic counselor on a specified time schedule.
7. The number of credit hours a student may register for may be restricted (due to extenuating circumstances such as the student’s workload commitments).

The associate dean or CAO may place the student on Academic Probation I should the student not adhere to the stipulations of the contract.

If the student’s semester GPA is less than a 2.0, and the cumulative GPA remains below a 2.0 at the end of the semester on Academic Warning, the student is placed on Academic Probation I. If the semester GPA is greater than 2.0 but the cumulative GPA is still less than 2.0, the student will remain on Academic Warning. If the cumulative GPA is greater than a 2.0 at the end of the semester then the student is returned to good academic standing.

Undergraduate Academic Probation I

This occurs when a student under Academic Warning has a semester GPA less than 2.0, and the cumulative GPA remains below 2.0 at the conclusion of the semester or if the student maintains a semester GPA greater than 2.0 while on Academic Probation I but the cumulative GPA is still less than 2.0.

Under Academic Probation I the following conditions apply:

1. The student cannot enroll in more than 13 hours of coursework during the semester. Note: Students falling below 12 credits in any one semester will jeopardize their financial aid. Should this occur, students should see the associate dean in their college as soon as possible to try to implement corrective measures.
2. The student will enter into a contract or individualized education plan with their advisor and approved by the associate dean or CAO that place further stipulations on Academic Probation I. The associate dean or CAO may place the student on Academic Probation II or Academic Suspension should the student not adhere to the stipulations of the contract.
3. Students on Academic Probation receiving educational benefits from the Veterans’ Administration must obtain counseling from the Military & Veterans Programs Office.
4. Students admitted under special provisions whose transcripts indicate less than a 2.0 GPA are admitted on Academic Probation I. The student must maintain a semester GPA equal to or greater than 2.0 until such time that the cumulative GPA is greater than 2.0 at which time the student goes back to good academic standing. Until the transition happens the student remains on Academic Probation I. The student will be placed on Academic Probation II if he/she is unable to maintain a 2.0 semester GPA, and the cumulative remains below a 2.0 GPA, while under Academic Probation I. A student on Academic Probation I remains eligible for all extracurricular activities as governed by the rules of the specific activity.

Undergraduate Academic Probation II

Academic Probation II is issued in two ways.

- The first is when a student falls below a semester 2.0 GPA and the cumulative GPA remains below a 2.0 while on Academic Probation I.
- The second is when a student maintains a semester GPA greater than 2.0 while on Academic Probation II but the cumulative GPA is still less than 2.0.

The following restrictions are in place for student’s in Academic Probation II:

1. The student cannot enroll in more than 7 credit hours of coursework during the semester.
2. As with rule 2 under Academic Warning and Academic Probation I and at the discretion of the associate dean or CAO, the student will be required to enter into a contract with their advisor, approved by the associate dean or CAO, to place further stipulations on Academic Probation II.
The associate dean or CAO may place the student on Academic Suspension should the student not adhere to the stipulations of the contract.

The student must maintain a semester 2.0 GPA or higher until the cumulative GPA reaches 2.0 or higher at which time they are placed on good academic standing. A student unable to maintain a semester GPA of 2.0 or higher, and the cumulative remains below 2.0 GPA, while under Probation II will be placed on Academic Suspension. A student on Academic Probation II remains eligible for all extracurricular activities as governed by the rules of the specific activity.

Continuing in Probationary Status

Students may continue to enroll while on Academic Probation I or II provided they maintain a semester GPA of 2.0 or higher. If they withdraw from the university while on Academic Probation, they continue on that same level of Academic Probation.

Removal of Academic Probation

Such academic standing is removed when the cumulative GPA is raised to 2.0 or higher, with the following exceptions:

1. a transfer student may not remove probation by summer work alone;  
2. if an I grade is removed after the student has enrolled, the new grade’s effect on academic standing is based on its inclusion with grades for the term for which the student is enrolled;  
3. exercise of the Adjusted Credit Option does not change academic status until subsequent grades are earned.

Academic Suspension

When a student does not achieve a semester 2.0 GPA or higher, and the cumulative remains below a 2.0 while under Academic Probation II, they are placed on Academic Suspension. Students under Academic Suspension are not allowed to take NMSU courses while under suspension. Students on Academic Suspension must sit out a minimum of 1 semester and then petition the Provost or designee to be removed from Academic Suspension. At this time the suspension status will be evaluated for possible removal. Should the suspension be lifted, the student is placed on Academic Probation II until such time as the cumulative GPA equals or exceeds a 2.0. At the discretion of the Provost or designee, the student will enter into a contract approved by the Provost or designee and the student’s Dean or CAQ, setting stipulations to have the suspension removed. Failure to adhere to the contract will return the student to Academic Suspension.

Under certain conditions, a student may be re-admitted at NMSU under regular status while under Academic Suspension when satisfactory progress has been demonstrated at another college or university (see Readmission- Degree Seeking). Credits earned at another university or college while under Academic Suspension from NMSU or another university or college will be accepted at NMSU only after the student demonstrates satisfactory progress over a period of two semesters after been re-admitted or admitted to NMSU. Acceptance of transfer credits that count toward degree requirements is still governed by the rules established by the student’s respective college or campus.

Rescinding Academic Suspension for Summer Attendance

A student may use summer classes to try to get warning or probationary status removed. Students suspended at the close of the spring semester may have their Academic Suspension rescinded if they attend summer session at NMSU or one of its Community College colleges. Such attendance must raise the combined spring semester and summer GPA to 2.0 or better. Under no circumstances may a student on Academic Warning or Academic Probation be allowed to register for an overload. Academic Warning status is continued if the student withdraws from the university and the probation or suspension status applies to all subsequent enrollments.

A certification of eligibility to attend summer sessions at NMSU after a spring semester Academic Suspension is available to the suspended student who wishes to attend summer sessions at other institutions.

Graduate Academic Probation and Suspension

Graduate Academic Standing is based on both the student’s semester GPA and cumulative GPA. The student must maintain a cumulative GPA of 3.0 or higher to remain on Graduate Academic Good Standing.

Graduate Academic Probation I: A graduate student is placed on Graduate Academic Probation I when a graduate student’s semester GPA is above a 3.0 and the cumulative GPA drops below 3.0; or when the semester and cumulative GPA’s drop below 3.0 and the previous academic standing is Graduate Academic Good Standing.

Graduate Academic Probation II: is issued when a graduate student semester GPA and the cumulative GPA drops below as 3.0 and the previous academic standing is one of Graduate Academic Probation I or Graduate Re-admit on Probation I.

Graduate Academic Suspension:

If the graduate student is unable to maintain a semester GPA of 3.0 or higher and the cumulative remains below 3.0 GPA while under Graduate Academic Probation II, the student will then be placed on Graduate Academic Suspension.

Students on Graduate Academic Suspension are barred from enrolling in graduate level courses at NMSU while on Suspension. Graduate students on Graduate Academic Suspension must sit out a minimum of one semester. Graduate students on suspension who wish to continue Graduate School after suspension must re-apply to the department and Graduate School. The student must also petition College Academic Dean or the Graduate School Dean, based on the major and degree the student is pursuing to be removed from Graduate Academic Suspension. At this time the graduate academic suspension status will be evaluated for possible readmission to the department. Should the suspension be lifted, the graduate student is placed on Graduate Academic Probation II or Graduate Re-admit on Probation II until such time that the graduate cumulative GPA equals or exceeds 3.0.

If you have questions about your academic standing, please contact your department academic advisor or Graduate Dean’s office.

Academic Misconduct and Grievances

Student Academic Code of Conduct

The Student Academic Code of Conduct (SACC), applicable to both undergraduate and graduate students, provides procedures for the review and resolution of alleged or suspected academic misconduct within a reasonably prompt time frame. The full SACC is found in the university’s published Administrative Rules and Procedures (ARP), specifically ARP 5.10 and ARP 5.11.
While it is important to refer to the detailed governing rules in the ARP, the process is summarized as follows: An institution-wide Academic Conduct Officer is responsible for processing each case of alleged academic misconduct. The accused student is provided notice of the allegation and has the right to participate during the fact finding process. The student may contest the investigative findings or sanction before a neutral third party hearing panel member. Either party to the matter has the right to a final appeal of the findings or a Level II sanction to the Office of the Provost.

The SACC distinguishes between Level I Sanctions and Level II sanctions, depending upon the severity of the offense and other factors. The Level I sanction includes a formal warning. Offenses by graduate students and repeat offenses, even if less serious, are subject to a Level II Sanction. Level II sanctions include a notation of academic misconduct on the student’s academic transcript.

The full policy, examples of academic misconduct, report form and a flowchart of the procedures for resolving alleged student academic misconduct is available at:

**Policies**
- ARP 5-10
- ARP 5-11

**Examples of Academic Misconduct and Report Form**
- ARP Appendix 5.10-A (Examples)
- ARP Appendix 5.11-B (Form)

**Flowchart of Procedures**
- ARP Appendix 5.11-A

**University Student Records Office**

**Privacy Rights**

The following information has been designated as directory information and is subject to release to the public under the Buckley Amendment (PL 98-380), "The Family Educational Rights and Privacy Act of 1974" student’s name, class level, college and major, dates of attendance, degree(s) earned, honors and awards, address, telephone number, NMSU email address, Aggie ID number, most recent previous educational institution attended, place of birth, and some information about students involved in recognized activities and sports.

Other information regarding disclosure of student data is posted on the University Student Records Office website and in the University Student Records Office (USRO), in compliance with the Act.

Requests for withholding directory information must be filed in writing with the USRO. A student may choose to hide his/her address and phone number from the campus phonebook through the myNMSU portal. This will only hide the information from the public but the records will still be officially kept within the USRO.

**Social Security Numbers in Student Records**

As required by law, social security numbers are collected from prospective and current students who are either applying for admission to the university or plan to seek employment on campus. The social security number is a confidential record and is maintained as such by the university in accordance with the Family Educational Rights and Privacy Act.

In addition, the university is mandated by federal tax regulations to provide tuition and fee payment information to the student and the Internal Revenue Service so that applicable educational tax credits may be computed. The social security number is required for tax reporting purposes.

**Change in Demographic Information**

Students wishing to make a legal name change, citizenship change, social security number update or a gender update can do so through the University Student Records Office (USRO). All students will need to fill out the “Demographic Change form” located at [https://registrar.nmsu.edu/forms/](https://registrar.nmsu.edu/forms/) and provide one of the following documents to the USRO. Legal name changes will only be processed for students currently enrolled at NMSU or any of its Community Colleges.

1. **Legal name change**: students will need one legal documentation with the new name on it. This can be a Government Issued ID (drivers license, state card or valid passport), a Birth Certificate, a Court Order, a Marriage Certificate/Divorce Decree or a Certificate of Naturalization/1551 Card. Note: Documentation is not required to add/delete hyphen, space, apostrophe, or to abbreviate a middle name to initial.
2. **Citizenship change**: Certificate of Naturalization or I551 card.
3. **Social Security Number Update**: students will need to provide an original signed Social Security Card. Unsigned cards will not be accepted.
4. **Gender Update**: students will need to bring a Government Issued ID (drivers license, state ID card or valid passport) and a Revised Birth Certificate

Students may update their “preferred name”, which is the name used in lieu of a student’s legal name, on certain documents, such as, the email display name, learning management system, the phonebook, class rosters and advisee lists. This can be done by the student through the myNMSU portal and does not need to be done at the USRO.

For more information about the specific documents that are needed please contact the Registrar’s Office at (575) 646-3411.

**Changes in Residency Status for Tuition Purposes**

The University Student Records Office (USRO) does not determine the laws and rulings for determining Residency, these are state laws that the USRO simply administers. An individual must establish legal residency in New Mexico before he or she is entitled to pay in-state tuition rates.

The student’s initial residency status is determined at the time of admission, any changes to this status must be initiated by the student through the USRO. A continuing student, classified as a non-resident, who has satisfied the requirements to establish residency may submit a Petition for In-State Residency Tuition Classification along with the required supporting documentation to the USRO Office. Petitions must be filed on or before the third Friday of the semester for which the student is requesting resident tuition.

For specific information about the process of petitioning for In-State Residency or for information about who is eligible for residency for tuition purposes, please contact the Registrar’s Office at (575) 646-3411.
purposes please visit the https://registrar.nmsu.edu/residency/ website or the University Student Records Office on the Las Cruces campus.

**Official Transcripts**

An official transcript is the University’s certified statement of your complete NMSU academic record in chronological order by semester and year. It includes the student’s coursework, grades and any degrees that were awarded. Any credit hours earned through transfer work are listed as the equivalent course at NMSU. Grades are not transferred, nor are they used to calculate the NMSU grade point averages. Official transcripts will not be released if the student is in debt to the university.

Transcripts can either be ordered in person at the University Student Records Office or online at https://registrar.nmsu.edu/transcripts/, there will be a fee for these that may vary depending on the total number of transcripts ordered and the type of delivery method that is selected. A student can request two types of transcripts an electronic one, which is sent as a secured PDF or a printed hard copy that can be delivered in a sealed envelope.

The name that will appear on the student's transcript will match the name on the student's official NMSU record. Name changes will only be processed for students currently enrolled at NMSU or any of its Community Colleges.

**Purging of Student Files**

All academic files for students who attend NMSU are kept for five (5) years following the student’s final term enrolled. Only archival documentation will be retained. The files of students who do not enroll within one year after being admitted are destroyed.
THE GRADUATE SCHOOL

A number of academic departments of the university have a long history of providing formal graduate study. The first master's degree from NMSU was awarded in 1896. In 1921, the president of NMSU appointed a committee to oversee graduate study. The Graduate School was formally established in 1956 with a full-time dean, and in the same year, 57 master's degrees were awarded.

The Graduate School mission is to facilitate the exchange of ideas and the creation of knowledge, while fostering academic excellence. The Graduate School promotes a high-quality learning environment that embraces diversity. New Mexico State University is one of the few research extensive universities that reflect Hispanic, Native American, and other American cultures and the world. Our international students from Latin American, Asian, African and European countries add to the richness of our diversity. The quality of life for our students is of critical importance to the Graduate School and NMSU. We cultivate the collaboration of academic, professional and personal skills while helping students graduate in a timely manner.

Policies

Since graduate degrees are awarded for attainment in scholarship, the requirements stated in this catalog are to be considered as minimal. The major department or the dean of the graduate school may make additional requirements as deemed necessary for each candidate. Each student's program is subject to the approval of the respective department head. Responsibility for securing approval of the proposed program of study rests with the student. Frequent consultation with the advisor is essential to satisfactory progress toward degree completion.

Graduate Degree Programs

For a full listing of the Graduate Programs offered at New Mexico State University; please see the Graduate Admissions webpage http://gradschool.nmsu.edu/graduate-programs/.

Admission for Graduate Students

A student seeking admission to graduate school at New Mexico State University must hold a minimum of a bachelor's degree or an advanced degree from a regionally accredited institution. The program of preparation should be substantially equivalent in the distribution of academic subject matter to the requirements for a comparable degree at NMSU.

No student is officially admitted into a graduate program until a Certificate of Admission has been issued by the Graduate School. Although the Graduate School considers this certificate valid for a one year period, academic departments may require re-application if the admitted applicant does not enroll in the semester noted in the certificate.

Formal application is required of all prospective students, including graduates of NMSU, who seek admission to a graduate program. Several documents are required for the application, which may include:

• Students must submit: the Application for Admission as well as other supplemental documents required by the academic department.
• Supplemental documents may include, but are not limited to, unofficial college transcripts, test scores (TOEFL, IELTS, GRE, and GMAT), statement of purpose, writing samples, and letters of recommendation.

If a student is recommended for admission by the academic department, the student will be required to submit official transcripts, test scores, and the appropriate application fee directly to the Graduate School. Other official documents may be required. Official transcripts must be sent directly from the prior colleges or university directly to the Graduate School.

Categories of Graduate Students

A student seeking admission to a graduate program is assigned one of the following categories based upon previous academic performance:

Doctoral Student

To be considered for admission to a doctoral program, an applicant must have a minimum grade-point average of 3.0. Some doctoral degree programs also require a master's degree or its equivalent.

Master's Regular

An applicant whose scholastic record is satisfactory will be admitted as a regular student. This classification includes:

1. an applicant whose grade-point average is greater than or equal to 3.0, or a grade-point average greater than or equal to 3.0 in the last half of undergraduate work,
2. an international applicant must hold at minimum a four year bachelor's degree or its equivalent and whose grade-point average (or its equivalent) is greater than or equal to 3.0,
3. a continuing graduate student whose grade-point average is greater than or equal to 3.0, or
4. a student with prior graduate work at another institution whose minimum grade-point average is 3.0.

Master's Provisional

An applicant whose scholastic record is not satisfactory can be admitted as a provisional student. Students admitted with this classification can be either:

1. transferring graduate students whose cumulative grade-point average is less than a 3.0
2. Students whose grade-point average the last half of undergraduate work is less than a 3.0, but who does have a minimum grade-point average of 2.5

A student admitted provisionally must complete his or her first three courses, a total of 9 credits of graduate work, with a minimum grade-point average of 3.0. A provisional student who does not meet the 3.0 grade-point average after at least 9 credits of graduate work is subject to dismissal. A student admitted on a provisional basis is prohibited from working as a teaching assistant. However, he or she may work as a research assistant or a grader for one semester. A provisional student can be employed for one semester as a grader. To hire a provisional student, departments must submit an official letter to the Graduate School requesting permission.

Master's Undeclared

An applicant that has not decided on a specific graduate degree program and has an undergraduate minimum grade-point average of 2.5 may be considered for admission as an undeclared master student. International students with an F-1 visa are not eligible for undeclared master status.
Information regarding restrictions as an undeclared master student can be obtained from the Graduate School.

Only undeclared regular status students who meet all Title IV eligibility requirements are eligible to receive federal financial aid for one consecutive 12-month period beginning the first term of enrollment. Questions about financial aid and undeclared master’s should contact Financial Aid and Scholarship Services. An applicant admitted as an undeclared master is not eligible to receive a graduate teaching assistantship.

Undeclared Student Enrollment Restrictions
- Students in this standing are restricted to enrolling in a maximum of 9 graduate credit hours. To continue enrollment the student must apply and be admitted into a degree-seeking program.
- Course restrictions placed by the graduate department may constrain enrollment by an undeclared student.
- An undeclared master student is restricted to transferring 9 graduate credit hours to a degree program.

Change of Status from Undeclared to a Degree Program
Changing status from an undeclared master’s to a degree program requires acceptance to the department by completing a new application for admission.

- If the student has nine graded graduate credit hours, the cumulative minimum grade-point average (GPA) must be 3.0 for the request to be considered.
- Undeclared applicants admitted to a degree program which have fewer than nine graded graduate credits and the undergraduate GPA is between 2.5 to 2.9 the recommendation for admission will be provisional student status.
- If the undergraduate GPA is 3.0 or greater, the admission recommendation will be regular student status.

Admission to a Graduate Certificate Program
The graduate certificate program of study is designed to develop or enhance a focused area of expertise. The primary purpose of a graduate certificate program is to provide specific skill training to meet employment needs locally, regionally, nationally and globally.

A graduate certificate is a focused collection of courses, consisting of 12-18 credits, successfully completed by a student in a given discipline or a set of related disciplines. A graduate certificate is not an official graduate degree of NMSU. A student that successfully completes a certificate program at the graduate level will receive a certificate of completion statement on his or her official transcript and a formal certificate from the Graduate School. A student has three years to complete a graduate certificate program.

The graduate certificate program is offered to both currently enrolled, degree-seeking students and students who enroll solely to obtain a certificate. Currently enrolled degree-seeking students must apply separately to the graduate certificate program. Students wishing to enroll solely in the certificate program must still meet all admissions criteria. Successful completion of a certificate program does not guarantee admission into a graduate degree program.

A student enrolled in a graduate certificate program cannot transfer credits from another institution towards the completion of the program. However, transfer credits taken in a graduate certificate program may be applied towards a graduate degree program in the same area of focus. The number of transfer credits will be determined by the program of study or official degree audit. The time limit on transfer credits is 5 years after the completion of the certificate.

Students only enrolled in a graduate certificate program are not eligible for a graduate assistantship.

Graduate Certificate Student
A student enrolled in a certificate program is not automatically enrolled in a graduate degree seeking program at NMSU. The status will change if he or she applies and is accepted to a graduate degree program. A student enrolled in a graduate certificate program is not eligible for a graduate assistantship.

Application Dates and Deadlines
Contact the graduate degree program for published application deadlines. If the graduate program does not publish a deadline, the Graduate School encourages the applicant to apply by March 15th for fall enrollment and by October 15th for spring enrollment to be considered for financial support. The Graduate School will continue to accept applications 30 days prior to the first day of classes.

Transcripts
An applicant is required to arrange to have one official transcript from each institution attended sent directly to the Graduate School.

If the applicant’s undergraduate coursework is not complete at the time of application, she or he must submit a transcript showing the completion this course work directly after the degree has been granted. No application materials will be returned to the applicant.

Standardized Tests
Certain graduate programs may require standardized test scores for admission. An applicant may be required to take one or more of the following examinations as determined by the academic department:
- Graduate Record Examination,
- the Miller Analogies Test,
- the Graduate Management Admission Test.

(See academic department description for required testing.)

Readmission
An NMSU student who has been out of school for more than two consecutive terms is required to make formal application for readmission to the institution. The application will be reviewed by the academic department and the Graduate School. The application should be submitted at least 30 days prior to the start of the semester.

A student who has attended other institutions during the absence is required to submit official transcripts to the Graduate School prior to the date of registration and be eligible to return to the college or university last attended. Readmission status and academic standing will be determined by previous NMSU academic standing. Academic performance at other institutions attended during the applicant’s absence from NMSU will be taken into consideration in determining the student’s admission status.
Renewal of Application for Admission

The admission credentials for an applicant who does not register for the semester admitted are retained at the Graduate School for a period of one calendar year from the date of application. At the end of this period, credentials are discarded. A student wishing to renew his or her application after the one-year lapse must submit a new application.

Denied Admission

The Graduate School or the department may deny admission if the scholastic record or program of study is judged inadequate. If denied admission by a specific academic department, the applicant may be eligible to seek undeclared status as described in Categories of Graduate Students. If denied by the department, the student may wish to contact the department for additional information.

Admission may be denied to an otherwise qualified applicant when the desired program lacks resources to accommodate additional enrollment.

A student who is denied admission to one program and wishes to be considered for another program must complete a new application for the second program.

Application documents are retained by the Graduate School for one calendar year.

Non-Degree Admission

Non-degree admission is designed to meet the needs of an applicant who does not wish to pursue a degree or who has not yet completed the application process to a specific department. Academic advising for non-degree students is obtained from the academic department. No more than 9 graduate credits earned in non-degree status may be transferred to a graduate degree program. NMSU only recognizes graduate credit for non-degree work from the University of New Mexico (UNM). Transfer credit is restricted to 6 credits with the approval of the appropriate department, the college dean, and the graduate dean. A student classified as non-degree is not eligible to receive financial aid, student employment, or institutional tuition waivers; nor is he or she eligible to participate in student government or intercollegiate athletics; and is not eligible to receive benefits from veterans’ programs.

Visiting Student

A visiting student is a student taking graduate credit to transfer to his or her home institution. An Application for Admission to the Graduate School must be submitted 30 days prior to registration. The student is required to submit unofficial transcripts; however, the academic department must concur and admit a visiting student. Visiting students are not eligible for undeclared status or for graduate assistantships.

Out-of-State Students and Legal Jurisdiction

By applying for admission/enrollment, both the student and parents agree that New Mexico law prevails and all litigation will be held in New Mexico federal court or state court in Dona Ana County, New Mexico.

Contact Information

For more information, contact:

Graduate School, MSC 3-GS
New Mexico State University

International Graduate Students

English Proficiency for Admission

- TOEFL 79 IBT; 550 PBT
- 6.5 IELTS

International students admitted with TOEFL 68 to 78 IBT, 520 to 549 PBT or 6.0 IELTS are required to sit for the English Placement Exam prior to beginning academic coursework. (The International Student and Scholar Services Office arranges this test upon arrival). If the results of the English Placement Exam do not meet the requirements for academic coursework the student may be required to take additional academic English classes (SPCD 110 and/or SPCD 470).

English Proficiency

All international students seeking a teaching assistantship must demonstrate proficiency in English and competency in pedagogy. Prior to the first semester in which the teaching assistantship is to be received, international students must undergo the NMSU International Teaching Assistant (ITA) screening administered by the Center for English Language Programs (CELP) on behalf of the Graduate School. Students who pass the screening exam are immediately eligible for assignment to a teaching assistantship.

The ITAS requires that a teaching assistant candidate deliver a short, ten minute teaching demonstration of a typical introductory undergraduate level course in a specific area relevant to the his or her area of studies. The demonstration is observed by CELP faculty and an actual undergraduate student.

- COMM 485 International Teaching Assistant Development not required
- COMM 485 International Teaching Assistant Development required

Based on the results of this exercise, a full report by the CELP observers will be presented to the head of the department in which the graduate student wishes to be a teaching assistant. Those who do not pass the screening exam must enroll in and satisfactorily complete COMM 485 International Teaching Assistant Development before being eligible for a teaching assistantship.

International graduate students wishing to hold a teaching assistantship should check with their department to determine when they should arrive on campus to meet the screening requirement. International students who do not pass the screening exam may be eligible to serve as graders for their academic departments. The academic departments must receive approval from the Graduate School in order to hire these students.

The ITA can be waived for international students who hold a degree from an accredited university in the United States, or a country where English is the official language of instruction. Departments also have the discretion to allow waivers for special circumstances.

Enrollment

All international graduate students on F-1 or J-1 visas are required to comply with Department of Homeland Security regulations governing maintenance of status related to full-time enrollment and making
normal progress toward completing a degree. Therefore, all international graduate students are required to enroll in 9 or more credits (exclusive of audited work) during fall and spring semesters.

**Transfer of Graduate Credits into a Degree Program**

1. Graduate credits taken at NMSU as undergraduate electives may be transferred to the student’s graduate program at NMSU.
2. Graduate credits from another university may be transferred to NMSU, provided the credits were earned on the campus of an accredited institution.
3. Transferred course work (credit and hours) is maintained separately from NMSU course work.
4. Immediately after initial enrollment in the Graduate School, students must submit forms to obtain formal permission from their advisor, department head, and the dean of the Graduate School to transfer graduate-level course work. The department has the responsibility to accept or reject any number of transferred credits based on such elements as whether the work fits into a logical program for a degree, if grades of A or B have been earned in the courses proposed for transfer, and any other elements it deems relevant. Credit granted for work done at another institution is tentative until proven by satisfactory work in residence. The department may also require work to be validated by examination.
5. Transfer credits must meet the same time-limit requirements (seven years) as master level graduate classes at NMSU.
6. Course work taken at other institutions after initiation of Graduate School at NMSU must have prior approval of the department head and the dean of the Graduate School if such work is to be transferred. All requirements as to accreditation, level, grades and other elements described for initial transfer work will apply. Request for Transfer of Credit forms are available online at [http://provo\nt.nmsu.edu/gradschool/wp-content/uploads/sites/5/2015/04/transfer_of_credit_form.pdf](http://provo\nt.nmsu.edu/gradschool/wp-content/uploads/sites/5/2015/04/transfer_of_credit_form.pdf).

**Graduate Certificates**

Students enrolled in certificate programs may not transfer credits from another institution towards the completion of the certificate program offered by NMSU. However, they can transfer credits taken in a graduate certificate program at NMSU into a graduate degree program at NMSU, provided that the courses will lead towards a graduate degree in the focused area of the certificate program. The number of transfer credits will be determined by the program of study. The time limit on course transfer is five years after the completion of the certificate.

**Master's Level**

In order to meet residency requirements at the master’s degree level, students must take at least 50 percent of their required coursework at NMSU.

**Masters of Fine Arts**

Before consideration for candidacy, the department head and the graduate advisor will determine the number of transferable credits from a previous graduate program.

**Specialist in Education Degree**

A maximum of 6 graduate credits earned at another approved institution may apply to the Specialist in Education degree. Transfer credits must have been earned during the five-year period prior to completion of the specialist in education degree.

**Doctorate Level**

At the doctoral level, students may transfer course work that logically fits into the program of study.

**Funding Opportunities for Graduate Students**

The Graduate School offers awards, assistantships and fellowships to qualified graduate students. All awards require faculty nominations. Continuing and newly admitted students can request either a faculty member or the department head to nominate them for the awards of the Graduate School. In selecting individuals for any assistantship or fellowship and in the administration of appointments, New Mexico State University will not discriminate on grounds of age, ancestry, color, disability, gender, national origin, race, religion, sexual orientation or veteran status. The University limits the number of years a student may be supported on funds from the state of New Mexico. Departments may place additional limitations on the years of support. The student must be admitted to the Graduate School before a request for an assistantship or fellowship will be considered by the department or the Graduate School. For detailed information, application process and deadlines please consult [http://gradschool.nmsu.edu/ga-resources/](http://gradschool.nmsu.edu/ga-resources/).

**Assistantships**

Students with assistantships must ensure that they are enrolled in, as well as successfully complete, 9 graded credits for full-time status. Graduate assistants should take no more than 15 course credits per semester. Students must also maintain a 3.0 grade-point-average. Courses taken for audit may count for the total course load, but may not be counted in the minimum graduate assistant course load requirement. If course deficiencies are identified, the student can register for 3 undergraduate credits and a minimum of 6 graded graduate credits during their first semester at NMSU to be eligible for a graduate assistantship. The duties of a graduate assistantship normally require about 20 hours per week (full-time, fall and spring) of student's time.

**Teaching Assistantships**

A student seeking appointment as a teaching assistant will be required to demonstrate proficiency in communication skills necessary for satisfactory service in the classroom. All graduate students awarded an assistantship must complete the online mandatory orientation offered by the Graduate School. Departments may also require students to complete workshops/orientations in order to qualify for assistantships.

Eligibility for teaching assistantships includes:

- Acceptance by and subsequent registration in the Graduate School and academic department
Graduate School offers Merit-Based Enhancement Fellowships to help departments reward outstanding graduate assistants. The Graduate School wishes to support and recognize the success of the McNair program by offering several McNair Graduate Assistantships for new and continuing students. The university offers a number of fellowships available to both graduate assistants who are engaged in the teaching or research mission of New Mexico State University. The amount of the award is $4,000 for an academic year. Nominations must come from faculty.

**Outstanding Graduate Assistantship Award**
We also offer Outstanding Graduate Assistant awards of $2,000 to recognize the contributions of graduate assistants to the teaching and research mission of New Mexico State University. The awards allow faculty to show appreciation for the excellent work of graduate assistants. Current graduate assistants must be nominated by their faculty to be considered for the awards.

**State of New Mexico Department of Higher Education (NMHED) Graduate Scholarship Programs**
The State of New Mexico Higher Education Department Graduate Scholarship Program offers Graduate Fellowships/Assistantships for women and minority persons who are citizens or permanent U.S. residents and who are a first year student or a student that is beginning graduate studies in any graduate department at the master's or doctoral level at NMSU. The selected student must be admitted to a graduate program prior to applying for this award.

NMHED fellowships carry stipends of $7,200 per annum and matched with half-time (10 hours per week) teaching assistantship provided by the student's department for a total award of $15,800.

**Eligibility:**
- Priority will be given to New Mexico students from those groups with the most severe under-representation and students with the greatest financial need.
- A citizen of the United States or permanent resident.
- Agree to serve in an unpaid internship or assistantship at the eligible institutions, a government agency or private industry approved by his major department for ten hours per week during the academic year.
- Eligible according to a standard needs analysis or financial aid officer's professional judgement.

The total amount of this award is based on the salary for a 20 hour graduate assistantship and usually increases from year to year, based on raises awarded by the State of New Mexico.

Fellowships are available for two years for master's students and four years for doctoral students. One of the NMHED fellowships is, when possible, designated for a McNair Scholar. The nomination process can be found at: [http://gradschool.nmsu.edu/funding-opportunities/](http://gradschool.nmsu.edu/funding-opportunities/).

In order for the student to establish financial need, students must complete a Free Application for Federal Student Aid (FAFSA) form available online in the Financial Aid Office. This form is not to be returned to the Graduate School. The results will be sent to the student and the Financial Aid Office. **Students must have a complete file and have been approved for financial aid to be considered for this fellowship.**

Preference will be given to those students that have a current FAFSA form on file at the NMSU Financial Aid office.

**Graduate Assistants Salaries and Tax Withholding Guidelines**
Internal Revenue Service tax withholding guidelines require graduate students employed through New Mexico State University to maintain at least 6 credits of course work during the fall and spring semesters and 3 credits of course work for summer sessions to be eligible for the
student FICA tax exemption. Student employees who do not meet this requirement during any given pay period will be subject to Social Security taxes at the rate of 6.2% and Medicare taxes at the rate of 1.45%. Salaries for graduate assistants in 2018-2019 are as follows:

<table>
<thead>
<tr>
<th>Level</th>
<th>Salary</th>
</tr>
</thead>
<tbody>
<tr>
<td>I- G1</td>
<td>$16,964</td>
</tr>
<tr>
<td>II- G2</td>
<td>$17,368</td>
</tr>
<tr>
<td>III- G3</td>
<td>$17,772</td>
</tr>
</tbody>
</table>

**Level I (G1)** - Applies to regularly enrolled students pursuing a master’s degree. This level is also for a first year student seeking a doctoral degree who does not currently hold a master’s degree. Once the doctoral student becomes a second year student and passes their qualifying exam, they can obtain support as a Level II (G2) student.

**Level II (G2)** - Applies to students pursuing the Education Specialist or Doctoral degree who have passed the qualifying exam or who have a master’s degree in the same or cognate field and the recommendation of the head of their major department.

**Level III (G3)** - Applies to a doctoral student who has passed the comprehensive examination and has advanced to candidacy.

Graduate assistants employed at least ten hours per week will be given in-state tuition during the first 12 months of tenure if Human Resources approve the hiring process prior to census date (stated by the University Student Records Office as the third Friday of the semester each spring and fall semester).

If New Mexico resident status has not been established by the time of any reappointment, the graduate assistant may be subject to non-resident tuition rates.

Applications for state residency may be obtained in the University Student Records Office located in the Educational Services building.

**Social Security Numbers in Student Records**

As required by law, social security numbers are collected from prospective and current students who

1. plan to seek employment on campus or
2. wish to receive financial aid.

In addition, the university is mandated by federal tax regulations to provide tuition and fee payment information to the student and the Internal Revenue Service, so that applicable educational tax credits may be computed. The social security number will be necessary to submit this tax reporting. The social security number is a confidential record and is maintained as such by the university in accordance with the Family Educational Rights and Privacy Act.

In order to be employed by New Mexico State University all students must have obtained a social security number within eight weeks of being hired or risk losing their assistantship.

When an official social security number is issued to an international student, it is the student’s responsibility to inform Human Resources or the University Student Records Office as soon as possible.

**Hourly Work**

Eligibility for student payroll requires that a graduate student

1. be admitted to the Graduate School as well as to a department,
2. maintain a minimum cumulative GPA of 3.0, and
3. be enrolled for at least 9 graded credits.

A student may not work more than 20 hours per week during the academic year. Students looking for current job postings should check with Career Services, Garcia Annex, Room 204; or visit [http://careerservices.nmsu.edu/](http://careerservices.nmsu.edu/).

Students not classified as residents of New Mexico but working at an hourly rate are not eligible to receive in-state tuition.

**Contact Information**

For more information, contact:

Graduate School, MSC 3-GS
New Mexico State University
PO Box 30001
Las Cruces, NM 88003-8001
Phone: (575) 646-5746
[http://gradschool.nmsu.edu/](http://gradschool.nmsu.edu/)

**Postdoctoral Fellowships**

Those individuals who are exemplary scholars, who have recently been awarded a doctoral degree, but who wish to continue their education and research experience under the direction of a professor at New Mexico State University are classified as postdoctoral. The postdoctoral fellowship is a regular professional appointment normally for one or two years. Under no circumstances will an individual remain in this classification for more than three years.

Postdoctoral fellowships are advertised and applications are submitted to the hiring department in compliance with the guidelines for hiring professional staff, but without the requirement for a position description questionnaire. An “E-Hire” staffing authorization request must be submitted to the office of Human Resources by the hiring department. No offer of employment may be made until approval has been given by Human Resources.

A postdoctoral fellow has the following privileges:

- may take 6 credits in spring and fall semesters, 4 credits per summer session without tuition charge
- is eligible to purchase an employee parking permit
- is eligible for other employee benefits available to regular employees, including annual and sick leave, as well as health, dental, and life insurances
- may purchase athletic tickets, activity tickets, and gymnasium privileges
- is eligible for library privileges

Persons classified as postdoctoral fellows pay Social Security and New Mexico State Educational Retirement.
COMMON COURSE NUMBERING CROSSWALK

The Post-secondary Education Articulation Act charges the New Mexico Higher Education Department with establishing and maintaining a common course numbering system, in consultation with faculty. To this end, the common course numbering system includes both equivalent (Common) and unique courses.

- **Common Course**: is any course that is offered at multiple institutions throughout the state, has the same prefix/number combination, the same title, the same description, and at least 80% of the learning outcomes for the course are the same.
- **Unique Course**: is any course that is unique to the institution (the NMSU system), has a prefix/number combination, title, description and learning outcomes that are unique to the institution (the NMSU System).

The table below shows the previous NMSU System-wide course prefix/number combination, the future Common Course Numbering prefix/number combination, and an indicator of whether the course is deemed Common or Unique throughout the state.

COLLEGE OF AGRICULTURAL, CONSUMER, AND ENVIRONMENTAL SCIENCES

Dean and Chief Administrative Officer - Rolando A. Flores
Associate Dean and Director of Academic Programs - Donald Conner
Associate Dean and Director of the Cooperative Extension Service - Jon C. Boren
Interim Associate Dean and Director of the Agricultural Experiment Station - Natalie Goldberg
Scholarship Coordinator - TBA

Requirements for Bachelor of Science in Agriculture; Conservation Ecology; Family and Consumer Sciences; Genetics; and Hotel, Restaurant and Tourism Management

1. Courses required of all qualifying for this degree.
2. General education requirements.
3. Courses to be taken in the particular field of your major interest.
4. Free electives sufficient to bring the total number of credits to a minimum of 120 semester credits. Of this total at least 48 semester credits must be in upper-division courses (numbered 300 or above).
5. A grade-point average of no less than 2.0.
6. All students will have an official degree check on file in the Academic Dean's Office prior to start of senior year.

Typical Curricula in Agriculture

The following suggested curricula are presented for your guidance. With the consent of the head of the department in which you are majoring, you may select electives and changes in a curriculum except in the case of constants.

Bachelor Degrees
Bachelor of Science in Conservation Ecology

Bachelor of Science in Agriculture

Majors in:

- Agricultural Biology (p. 146);
- Applied Biology
- Applied Microbiology
- Entomology
- Environmental Biology
- Pest Biology & Management
- Agricultural Economics and Agricultural Business (p. 119);
- Agriculture and Community Development (p. 110);
- Agricultural and Extension Education (p. 111);
  - Advanced Technology Education
  - Agricultural Communications
  - Agricultural Education Teaching
- Agronomy (p. 204),
- Animal Science (p. 134);
- Animal Industry
- Science
- Fisheries and Wildlife Science (p. 188);
  - Aquatic Ecology & Management
  - Wildlife Ecology & Management
- General Agriculture (p. 104);
- Horticulture (p. 207);
- Natural Resource Economics and Policy (p. 121);
- Range Science (p. 137);
- Soil Science (p. 209);
  - Environment & Resource Management
  - Soil & Water Science
  - Soils
- Turfgrass Science and Management (p. 212);
  - Athletic Field (Option)
  - Gold Course (Option)
  - Turfgrass Business (Option)
  - Turfgrass Science (Option)
- Programs in also in Pre-veterinary Medicine (p. 104) and Preforestry.

Bachelor of Science in Environmental Science

Bachelor of Science in Family and Consumer Sciences

Majors in:

- Fashion Merchandising and Design (p. 167);
- Family and Child Science (p. 163);
- Family and Consumer Sciences Education (p. 165);
- Human Nutrition and Dietetic Sciences
  - Nutrition Education (p. 176)
  - Pre-Dietetics/Dietetics (p. 176)

Bachelor of Science in Food Science and Technology

Major in:

- Food Science and Technology
- Culinary Science
- Meat Science
- Science, Technology and Engineering

Bachelor of Science in Genetics

Bachelor of Hotel, Restaurant and Tourism Management

Masters Degrees

Master of Agriculture

Major in:

- Agriculture:
  - Agribusiness (p. 124)
  - Domestic Animal Biology (p. 139)

Master of Arts

Major in:

- Agricultural and Extension Education: (p. 113)
Master of Business Administration

Major in:

- Business Administration
  - Agribusiness (p. 125)

Master of Science

Majors in:

- Agriculture Biology (p. 152); (p. 152)
- Agricultural Economics (p. 125); (p. 125)
- Animal Science (p. 140); (p. 140)
- Family and Consumer Sciences (p. 182); (p. 182)
  - Hotel, Restaurant and Tourism Management (Emphasis)
  - Clothing, Textiles and Fashion Merchandising (Emphasis)
  - Family and Child Science - Marriage/Family Therapy (Emphasis)
  - Family and Child Science - Teaching/Research (Emphasis)
  - Food Science and Technology (Emphasis)
  - General Family and Consumer Sciences (Emphasis)
- Fish, Wildlife and Conservation Ecology; (p. 192)
- Horticulture (p. 218);
- Plant and Environmental Sciences (p. 218);
- Range Science (p. 141);
- Water Science and Management (p. 226);
  - Agricultural Water Resources
  - Water Economics & Policy
  - Water Informatics
  - Water Quality & Treatment
  - Watershed and Aquatic/Riparian Wetlands

Doctoral Degrees

Doctor of Economic Development

Doctor of Philosophy

Majors in:

- Animal Science (p. 141);
- Plant and Environmental Science (p. 218);
- Range Science (p. 142);
- Water Science and Management (p. 228)
  - Agricultural Water Resources
  - Water Economics & Policy
  - Water Informatics
  - Water Quality & Treatment
  - Watershed and Aquatic/Riparian Wetlands

Graduate Minors

- Agricultural & Extension Education (p. 113)
- Animal Science (p. 142)
- International Agricultural Development and Extension (p. 114)
- Range Science (p. 142)

Accreditation

The two teacher education options (Agricultural Education Teaching and Advanced Technology Education) in the Department of Agricultural and Extension Education are accredited by the National Council for the Accreditation of Teacher Education. It is critical that students consult their academic advisor prior to selection of courses for the agriculture, secondary science and teaching endorsements.

General Agriculture - Bachelor of Science in Agriculture

The general agriculture major is designed for students searching for a well-rounded education that builds on the diversity of the other degree programs in the College of Agricultural, Consumer and Environmental Sciences (ACES). The flexibility of the general agriculture degree allows students to tailor a program to fit their individual interests and career goals. Students completing the program earn a Bachelor of Science in General Agriculture. Students choose general agriculture for a variety of reasons. Some may enter the program with a specific career goal in mind. Others may choose general agriculture to obtain a broader education that will give them more flexibility. The curriculum in General Agriculture is administered by the Department of Entomology, Plant Pathology and Weed Science.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework
will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

</tbody>
</table>

**Total Credits**

| 120 |

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. A Mathematics course is required for the degree but students may need to take any prerequisites needed to enter the course first.
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4. Some ACES classes will meet general education requirements.
5. At least 18 credits must be taken from the primary department and at least 12 credits must be taken from secondary departments. A minimum of 52 credits (20 of which need to be 300+) of the 120 required for the degree must be completed in courses offered by the College of Agricultural, Consumer, and Environmental Sciences.
6. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

### Veterinary Medicine (Preprofessional Training Only, Non-Degree)

The Doctor of Veterinary Medicine (D.V.M.) degree is a professional degree that is not offered by any college or university in New Mexico; however, you may complete the preparatory program required for admittance to the professional colleges of veterinary medicine at New Mexico State University.

The D.V.M. degree normally requires four years of training in a professional college subsequent to completion of a pre-veterinary program that requires at least three years of college-level instruction. In most instances a baccalaureate degree is a distinct advantage to the applicant.

Curriculum requirements are determined by the particular school or college of veterinary medicine. The Department of Animal and Range Sciences maintains current requirements for Colorado State University, Washington State, Oregon State and Texas A&M. You should check with an advisor for specific course requirements. As a student from New Mexico, you may be eligible for financial assistance under the program of the Western Interstate Commission for Higher Education (WICHE). See the section on WICHE in the General Information chapter under Resources for Students for more information.

### Agricultural and Extension Education Undergraduate Program Information

The department offers a broad-based curriculum with majors, options and minors that prepare students for many careers as professional educators, communicators and leaders in agricultural, natural resource, technology and related disciplines. Some example occupations that the department prepares its students to enter are agriculture teacher, media specialist, technology teacher, Extension agent, NMDA or USDA.
professional, industry educational specialist, and development specialist. Graduates work in domestic and/or international settings.

**General Undergraduate Degree Requirements**

You must meet the general education and departmental requirements for the degree and the major, option or minor chosen. You must establish a cumulative grade-point average of not less than 2.5 before you are admitted into the student teaching or other internship program. You need a minimum of 48 hours in technical agriculture for the secondary teaching certificate program in agriculture.

You may select technical courses required for completion of the majors and options from the following areas:

- agricultural economics (p. 114);
- agricultural mechanics;
- animal and range sciences (p. 126);
- entomology, plant pathology and weed science (p. 142);
- fish, wildlife and conservation ecology (p. 182);
- engineering (p. 712);
- also plant and environmental sciences (p. 193).

**Graduate Program Information**

The Department of Agricultural and Extension Education requires the following items be sent directly to the department for admission:

- **Three letters of recommendation** - Applicants should request letters of recommendation from individuals who know them well enough to comment on their professional skills and abilities, and on their ability to complete graduate-level work.
- **Career statement** - The two-page letter of application should clearly identify applicant’s professional and career goals as well as reasons for pursuing the degree.
- **Personal Interview** - Upon receipt of all application materials, a personal interview may be required at the discretion of the Departmental Graduate Committee.

*Do not send the above items to the Graduate School as this will cause a delay on your admission status.

**General Graduate Degree Requirements**

The major requires courses in research methods, teaching methods and data collection and analysis; a graduate seminar; and a thesis or creative component. The department also have two 9 credit minors which are available to students completing major work in other departments.

**Thesis plan:** Requires a minimum of 30 semester credits which includes 4-6 credits of thesis. *(Both plans require a final oral examination).*

**Non-Thesis plan:** Requires 32 semester credits of course work which includes a focused creative component. *(Both plans require a final oral examination)*.

Flexibility in each program allows students to pursue professional interests and to develop specialized competencies in agricultural and extension education, technology education, and in technical and scientific areas. The department delivers courses in evening, weekend and distance formats (go to [http://distance.nmsu.edu](http://distance.nmsu.edu) and click on degree programs, and then Agricultural and Extension Education) to accommodate student needs. Previous experience in teaching, extension and/or other professional education positions is highly recommended to be considered for a graduate teaching assistantship.

The department offers major work for a Master of Arts in Agricultural and Extension Education. The degree can be obtained with emphasis in:

- Agricultural or Technology Teacher Education,
- Extension Education,
- International Extension and Development, and
- Adult Non-formal Education.

**Degrees for the Department**

**Agricultural and Community Development - Bachelor of Science in Agriculture** (p. 110)

**Agricultural and Extension Education - Bachelor of Science in Agriculture** (p. 111)

**Agricultural and Extension Education - Master of Arts** (p. 113)

**Minors for the Department**

**Agricultural and Extension Education - Undergraduate Minor** (p. 113)

**Agricultural and Natural Resource Leadership - Undergraduate Minor** (p. 113)

**International Agricultural Development and Extension - Graduate Minor** (p. 114)

**Professor, Steve Loring, Interim Department Head**

**Professors** Dormody, Hodnett, Seevers, VanLeeuwen; **Associate Professor** Rosencrans, **Assistant Professor** Easterly

B. Chamberlin, Ph.D. (University of Virginia)-informal and non-formal learning, educational media design; T. J. Dormody, Ph.D. (Cornell)—agricultural education, leadership, and agricultural communications; R.G. (Tre) Easterly, Ph.D (University of Florida)—agricultural education, pre-service teacher preparation, teacher professional development, J.Gleason, Ed.D. (Virginia Tech)—instructional technology, agricultural communications, and multimedia education; F. Hodnett, Ph.D. (New Mexico State)—youth development, youth leadership, youth program development; C. Rosencrans, Ph.D. (Iowa State)—agricultural mechanics, technology education and youth development; B. Seevers, Ph.D. (Ohio State)—adult and extension education; P. Skelton, Ph.D. (University of Nebraska)—youth development, sustainable agriculture and natural resource management; D. VanLeeuwen, Ph.D. (Oregon State)—statistics and research design

**Agricultural Extension Education Courses**

**AXED 100. Introduction to Agricultural, Extension, and Technology Education**

**3 Credits**

Orientation to programs, philosophies, competencies and leadership skills needed by professionals in agricultural and technology education, extension education, agricultural communications, and related career opportunities in industry, governmental agencies, and international organizations.
AXED 105. Techniques in Agricultural Mechanization
3 Credits (2+2P)
Development of competencies in agricultural mechanics including safety, tool identification, operation and maintenance of hand and power tools, cold metal, drafting, and plumbing procedures. Designed for any major wishing to improve mechanical skills needed in agriculturally related occupations in education and industry.

AXED 200. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 6 credits toward degree.

AXED 201G. Effective Leadership and Communication in Agricultural Organizations
3 Credits (2+2P)
Theory and practice in leadership and communication for professionals who must work effectively in leadership and supervisory roles with people in agricultural business, industry, government agencies, and education. Course focuses on contemporary leadership theories. Oral communication skills in informative and persuasive speaking, parliamentary procedure, and for small groups are developed.

AXED 205. Metal Technology-Fabrication
3 Credits (2+4P)
Processes and procedures of metal fusion, including gas and electric welding techniques and safety. Designed for any major wishing to improve mechanical skills needed in agriculturally related occupations in education and industry.

AXED 230. Early Field-Based Experience in Extension and Industry Education
2 Credits (2)
First hand view of the roles of professional educators through field experiences with Cooperative Extension or other government agencies. Includes 4 weeks of classroom instruction and 30 hours of observation in a work setting. Consent of Instructor required. Restricted to Las Cruces campus only.

AXED 232. Early Field-Based Experience in Agricultural and Technology Education
2 Credits
First-hand view of the roles of professional educators through field experiences in a secondary agricultural or technology education setting. Includes 4 weeks of classroom instruction and 30 hours of observations in a classroom setting. Consent of Instructor required.

AXED 240. Introduction to Agricultural Communication
3 Credits
Students will learn about the history and theories of agricultural communications, be introduced to the degree program, explore careers in the field, and examine the role of media in agricultural communications

AXED 300. Special Topics
1-4 Credits
Course addresses specific subjects and issues as identified by department. Topics and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 6 credits may be applied to a degree.

AXED 303. Small Engine Technology
3 Credits (2+2P)
Development of competencies in small gasoline engines; theory, operation, design, maintenance and safety. Designed for any major wishing to improve mechanical skills needed in agriculturally related occupations in education and industry.

AXED 311. Agricultural Structures
3 Credits (2+3P)

AXED 348. Advanced Technology in the Agricultural Mechanization
3 Credits (2+3P)
Students will construct a project in the area of agricultural mechanization under the direction of instructor. Project must be completed within a semester and of sufficient complexity for 3 credits. Prerequisite(s): AXED 105 and 205 or consent of instructor.

AXED 360. Agricultural Communications
3 Credits
Principles and practical experience in news writing, radio production, newsletter design, public meeting presentations, video productions, graphics, and public relations activities, especially as related to the fields of agriculture and family and consumer sciences.

AXED 380. Philosophy and Methods of Contests
3 Credits
Covers the roles that career development events (contests) play in agricultural and technology education and in extension programs. Topics include competition and cooperation, winning and losing, ethics, use of community resources, and academic and employability skills taught through contests. Coaching as a teaching method is introduced and expanded. Students will assist with the coordination of various career development events. May be repeated up to 3 credits.

AXED 400. The Diffusion and Adoption of Agricultural Innovations
3 Credits
Factors that influence the rates of diffusion and adoption of innovations. Consequences of adopting or rejecting innovations. Processes by which change agents influence introduction and adoption of innovations. Same as AXED 500.

AXED 415. Youth Program Development and Management
3 Credits
Designed for professionals involved in youth group activities. Basic concepts in planning, conducting, and managing educational youth programs in a variety of organizations.

AXED 430. Teaching Adults in Nonformal Settings
3 Credits
The adult and postsecondary learner; adult learning styles and principles; use of community resources and problem-solving techniques; and learning strategies for adults in formal and nonformal education.

AXED 436. Keys for Agricultural and Rural Development
3 Credits
Introduction to concepts of development, the process of change, key factors that contribute to agricultural and rural development in a community; and strategies employed to effect change with implications for international students or domestic students planning to work internationally.
AXED 443. Curriculum Development and Assessment in Agricultural Education
3 Credits
This course prepares students to develop curriculum, design lessons, and prepare appropriate assessments in an agricultural education setting. An emphasis will be placed on the developing curriculum using the currently established resources that are available to agriculture teachers. Restricted to AXED majors.
Prerequisite(s): 2.5 GPA.

AXED 444. Planning and Methods in Nonformal Education
3 Credits
Identifying trends and resources of a community and planning community-based extension and nonformal education programs. Preliminary methods for teaching and evaluating nonformal education programs.

AXED 445. Developing Excellent Programs in Career and Technical Education
3 Credits
Students learn to develop excellence in the three components of a successful secondary school program in career and technical education: classroom and laboratory instruction, career and technical student organizations, and career development activities. Community-based program planning, utilizing partners, program marketing, and professional development are addressed as strategies for achieving excellence. Methods of obtaining financing and maintaining accountability for the program are discussed.

AXED 446. Methods for Teaching Agricultural and Technology Education
3 Credits
Methods of instruction and presentation, selection of teaching aids and support materials, classroom management, development of a complete educational program, and microteaching experiences. Restricted to AXED Majors.
Prerequisite: GPA of 2.5 or above.

AXED 447. Directed Teaching in Agricultural or Technology Education
12 Credits
Semester-long off-campus professional experience in directed teaching and observation provided in selected centers under secondary agricultural or technology education supervising teachers. Consent of instructor required. Restricted to AXED majors.
Prerequisite(s): AXED 445, 446 and consent of instructor.

AXED 448. Directed Teaching in Extension Education
3-12 Credits (3-12)
Four-to-fourteen-week, professional experiences in directed teaching and observation provided in cooperative extension at the county, regional, or state level. Consent of instructor required.

AXED 449. Directed Field Experience in Agricultural or Technology Education
3-12 Credits (3-12)
Four-to-fourteen-week, supervised learning experience in an approved teaching setting with application to educational, agricultural, technological, communications, public relations, or environmental practices. Consent of instructor required.

AXED 455. Introduction to Research Methods
3 Credits
Introduction to research design and methodology in education and behavioral sciences. Overview of common research designs and data collection strategies. Prepares students to critique published research and understand basic skills including hypothesis development and conducting a literature search.
Prerequisite: junior standing.

AXED 460. Methods in Career and Technical Laboratory Instruction
2 Credits
For students planning to teach agricultural or technology education at a secondary or postsecondary level. Focus on planning, delivering, and evaluating instruction in laboratories; and on CPR, first aid, and NCCER certifications. Laboratory safety and tool, equipment, and laboratory management systems are also emphasized. Restricted to AXED Majors.

AXED 466V. John Muir: Lessons in Sustainability
3 Credits
This course examines the life of John Muir in the context of sustainability. Muir was a farmer, inventor, explorer, botanist, glaciologist, conservationist, and noted nature author. He was influential in the National Parks movement and in starting the Sierra Club. Living in the natural world influenced his faith and philosophy. By examining his life and the themes that shaped it, students will develop an understanding of what it means to live sustainably and to contribute beyond their personal lives to a sustainable future. May be repeated up to 3 credits.

AXED 475. Leadership On Agricultural and Natural Resource Issues
3 Credits
Investigates leadership concepts and group dynamics as they relate to a changing world and complex agricultural and natural resource issues. Topics include emotional intelligence, leading change, political leadership, facilitating agreement, team building, and managing conflict in agricultural and natural resource settings.

AXED 480. International Agricultural Development
3 Credits
Introduction to Agricultural topics (products, people, environment, culture, etc) that affect international development. Topics provide students with awareness, knowledge and understanding of teaching, research and service opportunities for those seeking experience or careers in international agricultural development. Taught with AXED 580.

AXED 484. Methods of Teaching Biological, Earth and Physical Sciences in Agriculture
3 Credits
Students learn to set up and teach in a modular agriscience laboratory, utilizing a variety of technologies. Modules covered focus on incorporating biological, earth and physical sciences into agricultural instruction and may include: Tissue culture, animal anatomy, hydroponics, microscopy, electrophoresis, microbiology, soils and plant nutrients, water quality, water systems, entomology, integrated pest management, and renewable energy applications. Students develop their own modules and/ or experiments.

AXED 486. Effective Management of Volunteer Programs
3 Credits
For individuals currently involved in, or interested in being involved in, the management and supervision of volunteer programs. Emphasis on practical application, utilizing a research and academic base. Explores the roles, functions, and tasks of volunteers and managers of volunteers including recruitment, orientation and training, supervision, evaluation, recognition and retention.
AXED 488. 4-H Youth Development
1 Credit
On-line course explores 4-H Youth Development as an integral part of the Cooperative Extension Service. Topics to be addressed include mission, philosophy, delivery modes, audiences and partnerships. Course is relevant for anyone interested in pursuing a career in Cooperative Extension.

AXED 489. The FFA Organization: An Overview
1 Credit
Online course addressing the history, mission, philosophy and structure of the New Mexico and National FFA Organizations and their relationship to supervised agriculture experiences and the agricultural education curriculum. Course is relevant for anyone interested in pursuing a career in agricultural education.

AXED 490. Independent Study in Agricultural, Extension, or Technology Education
1-3 Credits
Specific subjects are agreed upon by the student and instructor. May be repeated for a maximum of 6 credits.
Prerequisites: junior or senior standing and consent of instructor.

AXED 499. Undergraduate Research
1-4 Credits
Research experience in agricultural, extension, and technology education with applications to selected issues and problems.
Prerequisites: consent of instructor.

AXED 500. The Diffusion and Adoption of Agricultural Innovations
3 Credits
Factors that influence rates of diffusion and adoption of innovations. Consequences of adopting or rejecting innovations. Processes by which change agents influence introduction and adoption of innovations. Taught with AXED 400 with differential assignments for graduate students.

AXED 515. Youth Program Development and Management
3 Credits
Designed for professionals involved in youth group activities. Basic concepts in planning, conducting, and managing educational youth programs in a variety of organizations. Same as AXED 415 with differentiated assignments for graduate students.

AXED 525. Graduate Teaching Methods
3 Credits
Examines the teaching and learning process, emphasizing the use of appropriate methods for teaching career and technical education subjects to youth or adults in formal and nonformal educational settings. Includes principles of teaching and learning styles, levels of cognition, syllabus development, lesson planning, teaching using a variety of methods, and evaluating students. For students who have no prior education in teaching methods.

AXED 530. Teaching Adults in Nonformal Settings
3 Credits
The adult and postsecondary learner; adult learning styles and principles; use of community resources and problem-solving techniques; and learning strategies for adults in formal and nonformal education. Same as AXED 430 with differentiated assignments for graduate students.

AXED 536. Keys for Agricultural and Rural Development
3 Credits
Introduction to concepts of development, the process of change, key factors that contribute to agricultural and rural development in a community, and strategies employed to effect change with implications for international students or domestic students planning to work internationally.

AXED 543. Curriculum Development and Assessment in Agricultural Education
3 Credits
This course prepares students to develop curriculum, design lessons, and prepare appropriate assessments in an agricultural education setting. An emphasis will be placed on the developing curriculum using the currently established resources that are available to agriculture teachers. Restricted to: AXED majors.
Prerequisite(s): 2.5 GPA.

AXED 544. Planning and Methods in Nonformal Education
3 Credits
Identifying trends and resources of a community and planning community-based extension and nonformal education programs. Preliminary methods for teaching and evaluating nonformal education programs. Same as AXED 444 with differentiated assignments for graduate students.

AXED 545. Developing Excellent Programs in Career and Technical Education
3 Credits
Students learn to develop excellence in the three components of a successful secondary school program in career and technical education: classroom and laboratory instruction, career and technical student organizations, and career development activities. Community-based program planning, utilizing partners, program marketing, and professional development are addressed as strategies for achieving excellence. Methods of obtaining financing and maintaining accountability of the program are discussed. Same as AXED 445 with differentiated assignments for graduate students.

AXED 546. Methods for Teaching Agricultural and Technology Education
3 Credits
Methods of instruction and presentation, selection of teaching aids and support materials, classroom management, development of a complete educational program, and microteaching experiences. Same as AXED 446. Restricted to AXED Majors
Prerequisites: GPA of 3.0 or above.

AXED 547. Directed Teaching in Agricultural or Technology Education
4-9 Credits (4-9)
Semester-long off-campus professional experience in directed teaching and observation provided in selected centers under secondary agricultural and technology supervising teachers. Consent of Instructor required. Restricted to: AXED majors.
Prerequisite(s): A teaching methods class and consent of instructor.

AXED 548. Directed Teaching in Extension Education
4-9 Credits (4-9)
Four- to fourteen-week professional experiences in directed teaching and observation provided in cooperative extension at the county, regional, or state level. Same as AXED 448 with reduced credit hours for graduate students. Restricted to majors. Main campus only.
Prerequisite: consent of instructor.
AXED 549. Directed Field Experience in Agricultural or Technology Education
4-9 Credits (4+9P)
A four-to-fourteen-week supervised learning experience in an approved teaching setting with application to educational, agricultural, technological, communications, public relations, or environmental practices. Same as AXED 449 with reduced credit hours for graduate students. Restricted to majors. Main campus only.
Prerequisite: consent of instructor.

AXED 556. Research Methods
3 Credits
Students learn the research process as it is applied to solving problems in the behavioral sciences. Prepares students to conduct and critique research and to diffuse research findings. Implications, applications, and ethics of research also stressed. Students develop a research proposal for a problem of their choice. Same as FCSC 556.

AXED 565. New Mexico Water Issues
3 Credits
Designed for agricultural and natural resource professionals who must educate others or provide leadership on complex water issues in New Mexico. Students will travel to four distinct geographic and cultural regions of the state and study water policies, issues, and delivery technologies in each region. Specific areas covered will be determined by the roles, functions, and tasks of volunteers and managers of volunteers involved in the distribution of water. Urban impacts on water use will also be investigated.

AXED 571. Data Collection and Analysis
3 Credits
Introduction to basic concepts of data collection and analysis. Interpretations from observational studies and controlled experiments. Roles of descriptive and inferential statistics in a complete data analysis. Mean, median, standard deviation, and graphical summaries of data. Correlation and simple regression. One- and two-sample tests and confidence intervals. Chi-square tests and basic analysis of variance. Competency in arithmetic and algebra required. An undergraduate statistics course recommended.

AXED 575. Leadership on Agricultural and Natural Resource Issues
3 Credits
Investigates leadership concepts and group dynamics as they relate to a changing world and complex agricultural and natural resource issues. Topics include emotional intelligence, leading change, political leadership, facilitating agreement, team building, and managing conflict in agricultural and natural resource settings. Taught with AXED 475 with differentiated assignments for graduate students.

AXED 580. International Agricultural Development
3 Credits
Introduction to agricultural topics (products, people, environment, culture, etc.) that affect international development. Topics provide students with awareness, knowledge and understanding of teaching, research, and service opportunities for those seeking experience or careers in international agricultural development and education. Taught with AXED 480.

AXED 586. Effective Management of Volunteer Programs
3 Credits
For individuals currently involved in, or interested in being involved in, the management and supervision of volunteer programs. Emphasis on practical application, utilizing a research and academic base. Explores the roles, functions, and tasks of volunteers and managers of volunteers including recruitment, orientation and training, supervision, evaluation, recognition and retention. Taught with AXED 486 with differentiated assignments for graduate students.

AXED 590. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 6 credits toward degree.

AXED 594. Workshops in Agricultural, Extension, and Technology Education
1-3 Credits
Workshop procedures applied to current trends in agricultural, extension, and technology education. Maximum of 7 credits toward a degree.

AXED 595. Internship/Cooperative Experience
1-6 Credits
Supervised professional on-the-job learning experience. Maximum of 6 credits toward a degree.
Prerequisite: Consent of instructor.

AXED 598. Creative Component
1-4 Credits
For nonthesis program. Individual investigations or projects, either qualitative or quantitative studies. Maximum of 6 credits toward a degree.
Prerequisite: consent of instructor.

AXED 599. Master’s Thesis
1-6 Credits
Thesis.

Name: Dr. Steven Loring, Interim Department Head

Agricultural and Community Development - Bachelor of Science in Agriculture

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Total Credits 120

---

1. See the General Education (p. 49) section of the catalog for a full list of courses
2. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses
3. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor

---

**Concentration: Advanced Technology Education**

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

1. See the General Education (p. 49) section of this catalog for a full list of courses.
2. AXED 201G Effective Leadership and Communication in Agricultural Organizations will also count towards the Departmental/College requirements of 28-33 credits.
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4. Elective credit may vary based on General Education course selection, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

### Agricultural and Extension Education - Undergraduate Minor

The department offers a minor in agricultural and extension education, which may be earned by completion of 18 credits in the department. The minor must include 9 credits of upper-division courses.

### Agricultural and Natural Resource Leadership - Undergraduate Minor

The department offers a minor in agricultural and natural resource leadership, which may be earned by completing

The minor must include 9 credits of upper division courses.

### Agricultural and Extension Education - Master of Arts

To be admitted to the graduate program in Agricultural and Extension Education, the student must have a baccalaureate degree from an accredited college or university with an academic record that clearly demonstrates an ability to pursue graduate studies in this field. As a general rule, applicants will not be admitted to the program unless they have a 3.0 (out of a possible 4.0) cumulative point-hour ratio for all previous academic work, though the records of potential students will not be examined strictly from an academic perspective. Students with a GPA of 2.5-2.99 may be considered for admission on a provisional status. The AXED Graduate Studies Committee reviews each application and decides whom to admit into the master's program. Master's degree students are admitted each semester.

The committee will consider only those applicants from whom all of the admission materials have been received. It is the applicant's responsibility to ensure that all materials are received to meet graduate school and departmental requirements.

### Agricultural and Extension Education - Graduate Minor

A graduate student who wishes to minor in AXED, while majoring in another academic program, should select an advisor from the AXED
Graduate Faculty. A student minoring in AXED must complete at least nine credit hours of approved courses in the AXED department. A copy of the minor program must be approved by the AXED department head. Contact an advisor in AXED.

**International Agricultural Development and Extension - Graduate Minor**

A student who wishes to have a minor in Agricultural Development and Extension must complete nine credits of approved courses. Two courses are required for the minor: AXED 500–Diffusion and Adoption of Agricultural Innovations and AXED 580–International Agricultural Development. A third three credit course may be selected from several approved electives.

**Agricultural Economics and Agricultural Business**

**Undergraduate Program Information**

The Department of Agriculture Economics and Agricultural Business offers two Bachelor of Science in Agriculture degrees. A Bachelor of Science in Agriculture with a major in Agricultural Economics and Agricultural Business (AEAB) and a Bachelor of Science in Agriculture with a major in Natural Resource Economics and Policy (NREP).

**Agricultural Economics and Agricultural Business - Bachelor of Science in Agriculture**

The AEAB degree prepares students for entry level supervisory and management positions with companies that operate in the food and fiber supply chain. Positions may focus on areas of agribusiness management, agricultural production, financing, marketing, and economics. Recent AEAB graduates have accepted positions with national and international companies, non-profits, and government agencies.

In this program, faculty, students and industry work together to provide students with real-world examples and opportunities to apply their skills and knowledge from the required and elective courses. The curriculum is designed to educate students as business professionals with the necessary skills to succeed in professional positions. Depending on their interest, students can customize their path of study to include additional courses in marketing, finance, or natural resource management.

**Natural Resource Economics and Policy - Bachelor of Science in Agriculture**

The Department of Agriculture Economics and Agricultural Business offers the Bachelor of Science in Natural Resource Economics and Policy (NREP), an undergraduate degree that trains students on the socio-economic and bio-physical aspects of environmental and natural resource management and policy. With increasing competition for limited land, water and other natural resources in the U.S. and throughout the world, as well as growing concern about environmental degradation, there is a growing need for professionals who can assist in the process of balancing economic and environmental tradeoffs. The NREP major provides students with knowledge and skills to articulate and apply economic principles to a range of public and private sector issues such as land use, energy, wildlife, climate and air resources, and water. This major prepares students for entry level private and public sector positions in resource assessment, management, or administration.

**Graduate Program Information**

The Department of Agricultural Economics and Agricultural Business supports five graduate programs. Several of these programs are offered with cooperation from other departments on campus. The five degrees supported by AEAB include:

- Masters of Science in Agricultural Economics;
- Masters of Agriculture with a concentration in agribusiness;
- Masters of Business Administration with a concentration in agribusiness;
- Doctorate of Economic Development; and
- MS & Ph.D. in Water Science Management.

**Masters of Science in Agricultural Economics**

Master of Science (MS) in Agricultural Economics program provides rigorous training in economic theory, applied economic analysis and quantitative methods and is designed to prepare students for professional careers in business, government, research, and for continued education in pursuit of a Ph.D. The program requires students to complete a Master’s thesis working closely with a faculty committee.

**Masters of Agriculture with a concentration in Agribusiness**

Master of Agriculture (MAG-AB) with concentration in Agribusiness provides students with backgrounds or interests in agriculture with graduate-level training in agribusiness and applied economics. It is a degree alternative for individuals holding undergraduate degrees in various agricultural and food science fields. The program requires students to complete a creative component or thesis working closely with a faculty committee.

**Masters of Business Administration with a concentration in Agribusiness**

Master of Business Administration with concentration in Agribusiness (MBA-AB) prepares students for business and public sector careers in agriculture and the food and fiber industry. Graduates from this program are knowledgeable about U.S. and international food and fiber sectors and hold an AACSB International accredited MBA degree.

**Doctor of Economic Development**

Doctor of Economic Development (DED) is a professional doctorate designed to provide advanced training for economic development professionals. It is not designed to prepare graduates for academic careers.

**Degrees for the Department**

Agricultural Economics and Agricultural Business - Bachelor of Science in Agriculture (p. 119)

Natural Resource Economics and Policy - Bachelor of Science in Agriculture (p. 121)

Agriculture - Master of Agriculture (p. 124)

Agriculture - Master of Business Administration (p. 125)

Agricultural Economics - Master of Science (p. 125)
Minors for the Department

Agricultural Business Management - Undergraduate Minor (p. 123)

Natural Resource Economics - Undergraduate Minor (p. 124)

Professor, Jay Lillywhite, Department Head

Professors: Gorman, Gutierrez, Hawkes, Hurd, Libbin, Lillywhite, Ward

Associate Professors: Acharya, Patrick;

Assistant Professors: Ramsey, Robinson

College Professors: Bullock; Townsend

Department of Agricultural Economics and Agricultural Business:

J. Lillywhite, Department Head, Ph.D. (Purdue)– agribusiness management and marketing; R. N. Acharya, Ph.D. (Auburn)– food safety, logistics management, technology adoption, and marketing; T. L. Crawford, Ph.D. (Emeritus) Cornell– marketing, policy and pricing, quantitative methods, trade; J. M. Fowler, Ph.D. (Emeritus) (Iowa State)– forestry and range economics; W. D. Gorman, Ph.D. (Emeritus) (Oregon State)– agricultural business management, international marketing; P. Gutierrez, Ph.D. (Oklahoma State)– extension, ranch economics, economic development; J. Hawkes, Ph.D. (New Mexico State)– extension, range management; B. H. Hurd, Ph.D. (California-Davis)– water and natural resource economics; J. D. Libbin, Ph.D. (Iowa State)– farm management, production economics; M. Patrick, Ph.D. (Michigan State University)– Economic Development; S. Ramsay, Ph.D. (Kansas State)– agricultural economics, production, natural resources; C. Robinson, Ph.D. (New Mexico State)– consumer behavior, agricultural production, marketing; sales, R. Skaggs, Ph.D. (Emeritus) (Utah State)– agriculture and natural resource policy; F. A. Ward, Ph.D. (Colorado State)– resource economics, welfare economics

Department of Economics, Applied Statistics and International Business:

R. Adkisson, Department Head, Ph.D. (Nebraska)– international economics, public finance, institutional economics; B. Bai, MS (New Mexico State University)– applied statistics; L. Blank, Ph.D. (University of Tennessee, Knoxville)– microeconomic theory, managerial economics and regulatory economics; K. Brook, Ph.D. (Texas-Austin)– macroeconomic theory, monetary policy; D. L. Daniel, Ph.D. (Southern Methodist)– nonparametrics; C. M. Downes, Ph.D. (University of New Mexico)– environmental/resource economics, development, international business; C. Enomoto, Ph.D. (Texas A&M)– econometrics, economic theory; C. A. Erickson, Ph.D. (Arizona State)– monetary theory, macroeconomics; C. Gard, Ph.D. (University of Washington)– biostatistics; D. A. Gegax, Ph.D. (Wyoming)– public utility economics, industrial organization; K. R. Geisler, Ph.D. (Nevada)– regional, applied micro, environmental; W. R. Gould, Ph.D. (North Carolina State)– biological sampling, wildlife and fisheries estimation; Y. L. Lee, Ph.D. (Southern Illinois-Carbondale)– international finance, international trade, international system, economic developments; R. McFerrin, Ph.D. (Texas A & M University)– micro theory, principles and American economic history; J. T. Peach, Ph.D. (Texas-Austin)– quantitative economics, border studies, economic development; C. Ricketts, Ph.D. (Mississippi State)– labor, health, development; R. L. Steiner, Ph.D. (Oklahoma State)– likelihood methods, discrete distributions; D. Van Leeuwen, Ph.D. (Oregon State)– statistics; B. Widner, Ph.D. (Colorado State)– urban/regional, public finance, development; D. L. Clason, (Emeritus) Ph.D. (Kansas State)– linear models, government statistics; M. Ellis (Emeritus), Ph.D. (California-Riverside)– comparative economic systems, medical economics; B. N. Matta, Ph.D. (Emeritus) (Texas-Austin)– labor economics, managerial economics; J. T. McGuirk, (Emeritus) Ph.D. (Wisconsin-Madison)– production economics, resource economics and policy; A. V. Popp, Ph.D. (Emeritus) (Northern Illinois)– public finance; D. B. Smith (Emeritus), Ph.D. (Nebraska); E. S. Willman, (Emeritus) Ph.D. (Indiana)– monetary policy, macroeconomic theory

Agricultural Economics (Undergraduate) Courses

AG E 100. Introductory to Food and Agribusiness Management

3 Credits
Orientation to agricultural supply businesses, farm and ranch production, food markets, food processing and distribution, and food consumption. Microeconomic principles for managers. May be repeated up to 3 credits.

AG E 101. Careers in Food and Agribusiness

1 Credit
Orientation to agribusiness management. Students will learn about agricultural production and marketing in New Mexico, the United States, and the world. Students will be introduced to faculty and staff within the department, learn about career opportunities available to AEAB graduates, and develop a greater appreciation of agricultural management issues. May be repeated up to 1 credits. Restricted to Las Cruces campus only.

Prerequisite(s): Freshman status only or obtain consent of instructor.

AG E 200. Special Topics

1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree. Consent of instructor required.

AG E 210G. Survey of Food and Agricultural Issues

3 Credits
Survey of food and agricultural issues, including: geography of food production and consumption; human-agricultural-natural resource relations; agriculture in the United States and abroad; modern agribusiness; food safety; food, agriculture, and natural resources policy; ethical questions; role and impact of technology. Crosslisted with: FSTE 210G.

AG E 236. Principles of Food and Agribusiness Management

3 Credits
Description and application of management and financial principles, market planning, and organization theory in small business situations. May be repeated up to 3 credits.

AG E 250. Technology and Communication for Business Management

3 Credits (2+2P)
Understanding and improving skills for data analysis, information management and communication is the focus of this course. Drawing examples from a variety of management, business, technological and research situations, students discover the versatility and variety of uses of computer applications such as spreadsheet, database, presentation and document software. Emphasizing a ‘hands-on’ approach students learn the foundations of these tools and their use.

AG E 260. Introduction to Food and Agribusiness Accounting

3 Credits
Purpose and methods of keeping and analyzing farm and ranch records. Net worth and income statements, efficiency measures, analysis of the business, and tax computations. May be repeated up to 3 credits.
AG E 300. Internship
1-4 Credits (1-4)
Professional work experience under the supervision of a faculty member. May be repeated up to 6 credits. Consent of Instructor required. S/U Grading (S/U, Audit). Restricted to Las Cruces campus only.
Prerequisite(s): Consent of instructor.

AG E 305. Marketing and Food Agricultural Products
3 Credits
Description of agricultural processes and functions; food production and consumption patterns; agricultural product prices; nature of competition in agricultural product markets; commodity markets. May be repeated up to 3 credits. Crosslisted with: MKTG 305.

AG E 311. Financial Futures Markets
3 Credits
Emphasis on financial instruments, currencies, and stock index futures. Principles of hedging, arbitrage, speculation, technical and fundamental price analysis, and trading strategies. Simulated computer trading game. Same as AEEC/FIN 511 with additional coursework required at the graduate level. Cannot receive credit for both AG E/FIN 311 and AEEC/FIN 511. Same as FIN 311.

AG E 313. Food and Agricultural Sales
3 Credits
Techniques of salesmanship including application of sales techniques. Identification and classification of buyer type and different approaches to sales based on client base. Improving oral communication skills through individual and/or group sales presentations. May be repeated up to 3 credits.
Prerequisite(s): Junior or above standing.

AG E 314. Agricultural and Natural Resource Law
3 Credits
Relationship of common-law principles, statutory law and regulatory law to problems involving agriculture with an emphasis on New Mexico issues. Legal problems relevant to agribusiness, torts, fencing laws, liability for agricultural pollution, irrigation water rights, corporations and partnerships, land tenure, farm and ranch tenancy, agricultural labor, farm and ranch management and taxation. May be repeated up to 3 credits.

AG E 315V. World Agriculture and Food Problems
3 Credits
Survey of food and agricultural issues in the U.S. and other countries. Covers: role of agriculture in economic development; trade in food and agricultural products; global food production, consumption, and marketing patterns; economics of technical change and food assistance; agriculture and the environment. Same as GEOG 315V.

AG E 325. Food and Agribusiness Finance and Planning
3 Credits
Understanding, using, and constructing financial statements for agribusiness analysis. Learn how to produce integrated pro forma financial statements first on paper and then on a spreadsheet. Prepare and link revenue, cost, and financing input assumptions formulas to the financial outcomes on the spreadsheet. May be repeated up to 3 credits. Crosslisted with: ANSC 325.
Prerequisite(s): AG E 250 or equivalent experience using spreadsheets.

AG E 337V. Natural Resource Economics
3 Credits
Gain insight into important natural resource problems of our time. Apply economic principles to problems in the preservation, use, and development of agricultural, range, mineral, water, forestry, fishery, and environmental resources. Understand the use of cost-benefit analysis for government natural-resource projects, policies, and programs. Same as ECON 337V.
Prerequisite: ECON 201G or ECON 252G.

AG E 340. Economics of Food and Agricultural Markets
3 Credits
Focuses on the analysis of supply and demand characteristics of commodities with particular attention to agricultural products. Pays special attention to empirical analysis. Includes institutional aspects of pricing, temporal and spatial price relationships, price forecasting, and the economic consequences of pricing decisions. May be repeated up to 3 credits.
Prerequisite(s): ECON 252G, MATH 142G, and A ST 311 or A ST/STAT 251G.

AG E 342. Economic Analysis of Food and Agribusiness
3 Credits
A discussion and application of economic, managerial, and financial considerations in agricultural business. May be repeated up to 3 credits.
Prerequisite(s): ECON 251G, ECON 252G.

AG E 350. Spreadsheet Applications in Food and Agriculture
3 Credits (2+2P)
An advanced course in electronic spreadsheets and the concepts and tools of database management emphasizing agricultural application. May be repeated up to 3 credits.
Prerequisite(s): AG E 250 or consent of instructor.

AG E 375. Dairy Economics
3 Credits
Integration of production, marketing, accounting, finance, agricultural policy, human behavior, and business environment concepts in management of dairy businesses using economic principles related to western dairies production and marketing businesses. Management and economic characteristics of dairying, government policies, including environment, labor, dairy pricing in federal milk marketing orders, and dairy price supports, will be included. Risk management strategies using futures and revenue insurance will be considered.
Prerequisite(s): ECON 201G or ECON 252G.

AG E 384V. Water Resource Economics
3 Credits
Use of economic principles to evaluate current and emerging issues in water resources. Applications focus on use of economic methods of analysis to current policy decisions surrounding agricultural, municipal, industrial, and environmental uses of water. Same as ECON 384V.
Prerequisite: AG E 100 or ECON 252G.

AG E 385. Applied Production Economics
3 Credits
Analysis of economic principles of agricultural production and planning, emphasizing marginal principles. Practical application in budgeting and analyzing profit maximizing agricultural-production strategies. May be repeated up to 3 credits.
Prerequisite(s): ECON 252G, MATH 142G, and A ST 311 or A ST/STAT 251G.
AG E 400. Seminar
1 Credit
Prerequisite(s): Senior standing.

AG E 406. The Economics of Sports
3 Credits
Applying the tools of economic analysis to a particular industry and gaining an in-depth knowledge of the interaction of professional sports teams and leagues with the economy and society. Same as ECON 406.

AG E 420. Special Problems
1-3 Credits
Special problems in agricultural economics or agricultural business of particular interest to the individual student. Maximum of 3 credits per semester. No more than 6 credits toward degree. Consent of instructor required.

AG E 425. Food and Agribusiness Financial Management
3 Credits
Description and application of techniques and principles of financial management to problem situations faced by agricultural businesses, including financial statement development and analysis, capital budgeting, sources and costs of capital. May be repeated up to 3 credits.
Prerequisite(s): ECON 252G and ACCT 221.

AG E 445V. Agricultural Policy
3 Credits
Historical and cultural background of food and agricultural policy in the United States. Analysis of food and agricultural problems, policy-making and implementation. Economic evaluation of specific U.S. food and agricultural policy instruments, their domestic and international impacts. Prerequisites: ECON 251G and ECON 252G.

AG E 451. Food and Agribusiness Market Assessment and Research
3 Credits
Applications course in which self-managed teams develop and present marketing plans for agribusiness firms. Emphasis on integrating the marketing mix, particularly promotional elements. May be repeated up to 3 credits. Crosslisted with: MKTG 451.
Prerequisite(s): AG E 305 or MKTG 305 or consent of instructor.

AG E 452. Food and Agribusiness Marketing Plan Development
3 Credits
This course focuses on learning marketing research methods applicable to developing new food and agricultural products and repositioning existing products for new markets. Students will be required to prepare precise written and oral marketing plans to industry standards and will have opportunities to present written and oral plans at national competitions. May be repeated up to 3 credits.

AG E 456. Case Studies in Food and Agribusiness Management
3 Credits
Integration of production, marketing, accounting, finance, agricultural policy, human behavior, and business environment concepts in management of agricultural businesses using a decision case approach. May be repeated up to 3 credits.
Prerequisite(s): Senior standing.

AG E 458. Economics of Making and Marketing Wine
3 Credits
Economics of making and marketing wine for small commercial wineries and amateurs. The class starts with selecting, crushing, and fermenting grapes and all the steps required through bottling the wine. Students must be 21 to enroll in the class. Consent of instructor required.

AG E 470. Real Estate Appraisal
3 Credits (2+2P)
This course addresses issues influencing the value of real estate with some emphasis upon rural properties. Topics include courthouse records, property taxes, appraisal methodology, expert courtroom testimony, condemnation, and legal issues. Students will take field trips and write appraisals. Course material is relevant to students in Finance, Accounting, and Pre-Law, as well as Agriculture. Accredited for hours to apply to both pre-licensing and continuing education requirements of the New Mexico Real Estate Commission for both Appraisers and Real Estate Brokers. Crosslisted with: FIN 470
Prerequisite(s): Junior or above standing.

AG E 499. Senior Thesis
3 Credits
Develop a thesis project with a faculty advisor. The senior thesis requires students to work creatively to apply business and economic principles to address a problem of concern. Restricted to AEAB majors.
Prerequisites: consent of department head and have senior standing.

Agricultural Economics (Graduate) Courses

AEEC 501. Microeconomic Theory
3 Credits
A rigorous re-examination of the pricing mechanism in the goods and factor markets. Development of theoretical tools of general applicability. Prerequisite(s): ECON 371 and ECON 457, or consent of instructor.

AEEC 502. Macroeconomic Theory
3 Credits
Contemporary aggregative theory regarding the interrelationships among national income, employment, the price level, money supply and interest rates, and implications of this theory for public policy in a mixed economy.

AEEC 503. Introduction to Quantitative Methods
3 Credits
Introduce students to quantitative tools widely used in applied economic analysis such as regression analysis, statistical tests, and mathematical programming. Restricted to: Agricultural Economics and Business (Masters) majors.

AEEC 511. Advanced Futures and Options Markets
3 Credits
Advanced hedging and speculating strategies using futures and options contracts. Coverage includes interest rates, stock indexes, metals, currencies, livestock, and grains. Concepts of price analysis (technical and fundamental) and basis analysis; technical paper is required. Same as AG E/FIN 311 with additional coursework required at the graduate level. Cannot receive credit for both AG E/FIN 311 and AEEC/FIN 311. Crosslisted with: FIN 511.
AEEC 520. International Agricultural Trade Theory and Policy
3 Credits
Review and analysis of international trade models. Analysis of the effects of trade instruments such as tariffs, quotas, and subsidies on welfare and income distribution. Analysis of bilateral, regional, and multilateral trade agreements and their effect on the agricultural sector from both country-specific and global perspectives.
Prerequisite: ECON 371.

AEEC 522. Public Sector Economics I
3 Credits
Introduction to the economic rationale for government intervention in the economy and the effects of that intervention on economic agents and the economy in general. Emphasis on the expenditure side of government policies. Same as GOVT 522.

AEEC 523. Public Sector Economics II
3 Credits
A continuation of AEEC 522. Concentrates on the economic effects of taxation. Same as GOVT 523.

AEEC 526. Global Food Supply Chain Management
3 Credits
This course aims to provide students a basic understanding of supply chain management issues, and encourages them to analyze problems from a systems perspective, and introduce them to a number of decision tools that are currently being used by the industry such as process analysis, product design, waiting line management, quality control, just-in-time, and inventory management.

AEEC 528. Economic Development
3 Credits
A graduate-level exposition of microeconomic and macroeconomic theory of why and how nations allocate resources to grow and develop. Strong emphasis is given to understanding the economic problems facing developing nations.

AEEC 540. Econometrics I
3 Credits
An integration of quantitative and statistical techniques for research and management in economics and business.
Prerequisite(s): ECON 457 and ECON 405 or A ST 505.

AEEC 545. Advanced Agricultural Policy
3 Credits
Historical and cultural background of food and agricultural policy in the United States. Analysis of food and agricultural problems, policy-making and implementation. Economic evaluation of specific U.S. food and agricultural policy instruments, their domestic and international impacts. Same as AG E 445V with additional work required at the graduate level. Cannot receive credit for both AG E 445V and AEEC 545.
Prerequisite: consent of instructor.

AEEC 550. Advanced Microcomputer Applications in Agriculture
3 Credits (2+2P)
An advanced course in electronic spreadsheets and the concepts and tools of database management emphasizing agricultural applications. Taught with AG E 450 with additional coursework required at the graduate level. Cannot receive credit for both AG E 450 and AEEC 550.
Prerequisite(s): AG E 250G or consent of instructor.

AEEC 551. Advanced Agribusiness Marketing
3 Credits
Applications course in which self-managed teams apply marketing theory in the development and presentation of marketing plans for food and agribusiness firms. Course includes analysis of marketing problems with emphasis on strategic marketing issues changing trade policies, and global competitiveness.
Prerequisite: consent of instructor.

AEEC 556. Advanced Agribusiness Management
3 Credits
Integration of production, marketing, accounting, finance, agricultural policy, human behavior, and business environment concepts in management of agricultural businesses using a decision case approach.

AEEC 557. Economics of Water Resource Management and Policy
3 Credits
Focuses on issues, approaches and methods used in the assessment of water resource management and policy problems. Extends and further develops student understanding and comprehension of specific economic concepts and methods that are useful in the assessment and management of water resources, including cost-benefit analysis, welfare economics, non-market valuation, watershed management, and consideration of equity and ethical concerns. Students will develop critical reasoning, communication and analytic skills through active class discussions and assignments that emphasize both quantitative and written products.

AEEC 585. Production Economics
3 Credits
Application of microeconomic theory to problems and decisions of food and agricultural firms. The theoretical foundation of production economics and the theory of the firm are developed. May be repeated up to 3 credits.
Prerequisite(s): MATH 142G, ECON 312, and ECON 457.

AEEC 590. Special Topics
3 Credits
Seminars in selected current topics in the various areas of agricultural economics and economics. Offerings will carry a subtitle.
Prerequisite: consent of instructor.

AEEC 593. Internship
1-6 Credits
Supervised professional on-the-job training experience in policy analysis.

AEEC 594. Internship
1-6 Credits
One semester to six months internship with a regulated firm or public utility commission. A faculty member will direct and evaluate the internship. For AEEC regulatory option students only.

AEEC 595. Internship
3 Credits
Supervised professional on-the-job learning experience.
Prerequisite(s): Consent of instructor.

AEEC 596. Individual Study
1-3 Credits
Individual study programs. Each offering will carry a subtitle. Maximum of 3 credits in a semester and 6 credits in a program.
Prerequisite: consent of instructor.

AEEC 597. Non-Thesis Research Project
1-3 Credits (1-3)
Individual investigations, either analytical or experimental. Maximum of 3 credits per semester. No more than 3 credits toward a degree.
AEEC 598. Creative Component Project
3-6 Credits (3-6)
Individual investigations, either analytical or experimental. A minimum of 3 to 6 credits per semester. No more than 6 credits toward degree. Consent of instructor required. Restricted to AEEC majors.
Prerequisite(s): Consent of Instructor.

AEEC 599. Master’s Thesis
1-15 Credits
Thesis.

### Agricultural Economics and Agricultural Business - Bachelor of Science in Agriculture

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

### Course Title Credits

#### First Year

**Fall**
- ACES 111: Freshman Orientation 1
- ACES 121: Financial Fitness for College Students 1
- AG E 101: Careers in Food and Agribusiness 1
- AG E 100: Introductory to Food and Agribusiness Management 3
- ENGL 111G: Rhetoric and Composition 4
- ECON 251G: Principles of Macroeconomics 3
- AG E 250: Technology and Communication for Business Management 3

**Credits**: 16

**Spring**
- Choose one from the following: 3
  - ENGL 203G: Business and Professional Communication
  - ENGL 211G: Writing in the Humanities and Social Sciences
  - ENGL 218G: Technical and Scientific Communication
  - ENGL 318G: Advanced Technical and Professional Communication
- AG E 236: Principles of Food and Agribusiness Management 3
- ECON 252G: Principles of Microeconomics 3
- Area III: Laboratory Science Course 1
- MATH 120: Intermediate Algebra 2 3

**Credits**: 16

#### Second Year

**Fall**
- MATH 121G: College Algebra 2 3
- Choose one from the following: 3
  - AXED 201G: Effective Leadership and Communication in Agricultural Organizations
  - COMM 253G: Public Speaking
  - COMM 265G: Principles of Human Communication
  - HON 265G: Principles of Human Communication Honors
- AG E 305 or MKTG 305: Marketing and Food Agricultural Products or Marketing Food and Agricultural Products 3
- VWW - Viewing a Wider World Course 3 3
- Area V: Humanities 1

**Credits**: 18

**Spring**
- MATH 142G: Calculus for the Biological and Management Sciences 3
- Choose one from the following: 3
  - A ST 311: Statistical Applications

**Credits**: 15

### A Suggested Plan of Study for Students

A roadmap for students coming into Department of Agricultural Economics and Agricultural Business without deficiencies and without advanced coursework, e.g., AP course credit or dual credits wishing to pursue a degree in Agricultural Economics and Agricultural Business (AEAB).

This roadmap assumes student placement in MATH 120 and ENGL 111G. The contents and order of this roadmap may vary depending on initial student placement in mathematics and english. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.
### Natural Resource Economics and Policy - Bachelor of Science in Agriculture

Students must complete all University degree requirements, which include: General Education requirements, View a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

---

1. See the General Education (p. 49) section the catalog for a full list of courses. It is strongly encouraged that students satisfy the Area II Laboratory Science category by enrolling in AGRO 100G.
2. MATH 142G Calculus for the Biological and Management Sciences is required for the degree but students may need to take any prerequisites needed to enroll in MATH 142G Calculus for the Biological and Management Sciences first. *MATH 120 and MATH 121G are prerequisites, but if they are not needed use Free Elective Courses to replace the courses in the Roadmap*
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4. Elective credits may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with the academic advisor.
5. Specialty Area courses can be found on the Requirements (p. 119) tab of this degree. The areas are Natural Resources, Finance and Marketing. Students must complete two courses from the selected Specialty Area.
6. Students who are interested in graduate degrees should consult with their academic advisor or faculty mentor early in their undergraduate program as some courses may have specific grade requirements and/or prerequisites. Our department participates in NMSU’s Graduate School MAP Program where students can take graduate courses during the last part of their undergraduate degree. *The 4th Year Semester (Spring) shows 13 hours. Student’s financial aid requirement may require them to enroll in 15 hours.*

120

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4. The 4th year semester (Spring) shows 13 hours. Student's financial aid requirement may require them enroll in 15 hours.

### Agricultural Business Management - Undergraduate Minor

The minor in Agricultural Business Management (ABM) consists of 18 or more credit hours of approved course work from the list below. All courses must be completed with grades of "C" or better. Once courses are completed or show "IP" status, students pursuing the ABM minor need to log in to their myNMSU and print out the STAR Audit for the minor and obtain departmental approval. The course requirements for the ABM minor are as follows:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>

Total Credits 18

Agriculture - Master of Agriculture

Concentration: Agribusiness

Candidates for the Master of Agriculture (MAG) with concentration in Agribusiness must successfully complete a minimum of 33 graduate credits. Students entering the Master of Agriculture program are required to have completed:

- intermediate microeconomics and intermediate macroeconomics,
- a college-level calculus class, and
- a course in statistics that included linear regression analysis.

All prerequisite courses must be completed with a B grade or better. AEEC 545 Advanced Agricultural Policy must be taken in the graduate program if an agricultural policy course was not taken as an undergraduate. Those students not having completed these courses may be admitted with the requirement that the deficiencies be completed at the beginning of the graduate program. Prospective graduate students must have at least a 3.0 undergraduate GPA. Students with a GPA less than 3.25 must complete the GRE or GMAT exam.

All students in the MAG program must successfully complete the following:

<table>

Total Credits 33-36

1 Some courses in this degree are core requirements for the MBA and have limitations for participation by non-MBA students. MAGRI students cannot take B A 590 and MGT 591. Only 9 hours are allowed for MAGRI students from: ACCT 503, B A 590, BLAW 502, ECON 503, FIN 503, MGT 502, MGT 503, MGT 512 or MGT 503 - two of which are core requirements, leaving 1 choice from this group.

2 AEEC 545 must be taken as part of this AEAB Block if not previously completed as an undergraduate under AG E 445V.
In lieu of AEEC 595 Internship, AEEC 598 Creative Component Project, or AEEC 599 Master’s Thesis, students can take 2 courses with advisor and graduate chairman approval.

A thesis (AEEC 599 Master’s Thesis, 4-6 credits) is not required but can substitute for the internship or the creative component. Individual study (AEEC 596 Individual Study) can be included as one of the 3-4 elective choices for 3 credits with any additional AEEC 596 credits allowed upon approval of student’s graduate chair. An oral defense must be scheduled and completed as prescribed by the Graduate School. The defense must be preceded by a public seminar to present major findings, experiences, and contributions of the internship, creative component, or thesis research to faculty, fellow students, and the interested public.

Agriculture - Master of Business Administration

Concentration: Agribusiness

Candidates for the Master of Business Administration with concentration in Agribusiness (MBA-AB) must successfully complete a minimum of 36 graduate credit hours. Admission to the MBA-AB program is through the College of Business. The program includes numerous prerequisites in economics, accounting, and business as defined in the Business Administration and Economics section of this catalog. AEEC 545 Advanced Agricultural Policy must be taken in the MBA-Agribusiness program if an agricultural policy course was not taken at the undergraduate level. A written paper and presentation following the guidelines described for B A 590 Professional Paper/Presentation is required. MBA-AB students can take the required minimum 4 thesis credit hours to substitute for B A 590 Professional Paper/Presentation. If a thesis (AEEC 599 Master’s Thesis) is written in lieu of taking B A 590 Professional Paper/Presentation, an examining committee and thesis defense must be organized similar to that of the MS degree program. For more information about the requirements for the MBA specialization refer to the MBA section (p. 556) of this catalog.

Prefix | Title | Credits
--- | --- | ---
**Core (21 hs)** | | |
ACCT 503 | Accounting for Managers | 3
BCIS 502 | Business Information Systems | 3
B 590 | Professional Paper/Presentation | 3
BLAW 502 | Legal Environment of Business | 3
FIN 503 | Financial Management | 3
MGT 503 | Organizational Behavior and Management Processes | 3
**AEAB Block Requirements (15 hrs)** | | |
AEEC 550 | Advanced Microcomputer Applications in Agriculture | 2
AEEC 551 | Advanced Agribusiness Marketing | 3
AEEC 556 | Advanced Agribusiness Management | 3
Total Credits | | 36

1 MBA-Agribusiness majors, with advisor approval, may take the required minimum 4 thesis hours (maximum of 6 hrs) in lieu of B A 590 Professional Paper/Presentation

2 AEEC 545 must be taken as part of this AEAB Block if not previously completed as an undergraduate under AG E 445V.

Agricultural Economics - Master of Science

Students entering the MS program are required to have completed

- intermediate microeconomics and intermediate macroeconomics (completed with a B grade or better),
- a college-level calculus class, and
- a course in statistics that included linear regression analysis.

Students that have not completed these courses may be admitted with the requirement that they take them as deficiencies at the beginning of their graduate program. Prospective graduate students must have at least a 3.0 undergraduate GPA. Students with a GPA less than 3.25 must complete the GRE or the GMAT exam.

Completion of the Master of Science degree in agricultural economics requires completion of a minimum of 33 graduate credit hours. Twenty-one of the credits must have one of the following three prefixes: AEEC, ECON, or ECDV. Twenty-four of the credits must be associated with course numbers greater than 500. All students in the MS program must successfully complete the following core courses:

Prefix | Title | Credits
--- | --- | ---
**M.S. CORE (16-18 credits)** | | |
AEEC 501 | Microeconomic Theory | 3
AEEC 502 | Macroeconomic Theory | 3
AEEC 540 | Econometrics I | 3
AEEC 585 | Production Economics | 3
AEEC 599 | Master’s Thesis | 6
**Choose 3 Classes from AEAB Block (9 hrs)** | | |
AEEC 511 | Advanced Futures and Options Markets | 9
AEEC 520 | International Agricultural Trade Theory and Policy | 3
AEEC 526 | Global Food Supply Chain Management | 3
AEEC 550 | Advanced Microcomputer Applications in Agriculture | 3
AEEC 551 | Advanced Agribusiness Marketing | 3
AEEC 556 | Advanced Agribusiness Management | 3
AEEC 545 | Advanced Agricultural Policy | 2
AEEC 575 | Economics of Water Resource Management and Policy | 3
AEEC 590 | Special Topics | 3
AEEC 596 | Individual Study | 3
**Additional Graduate Courses (~6 hs)** | | 6
Total Credits | | 33

1 AEEC 599 minimum hours required by the Graduate School are 4 with a maximum of 6 toward the degree. If a students elects to complete the minimum of 4 hours, they will need to take an additional course to meet the 33 hours required for the degree.

2 AEEC 545 must be taken as part of this AEAB Block if not previously completed as an undergraduate under AG E 445V.
One of these two choices may include three (3) additional hours of AEEC 596. In lieu of these 2 additional graduate courses, a student may select a justifiable minor (9+ hours) per Graduate School policy and only 2 courses (6 hours) from the AEAB Block.

MS students are generally required to write a thesis (AEEC 599 Master’s Thesis (4-6 credits)). Non-thesis options that include a non-thesis research project (AEEC 597 Non-Thesis Research Project, 3 credits) or an internship (AEEC 595 Internship, 3 credits) must have approval from the student’s committee and the graduate chairman. Students pursuing the MS degree may not complete the graduate program with more than one C grade in the core courses. If a student receives C grades in two of these core classes one of the classes must be repeated with a grade of at least B. In addition to core courses, nine additional credits must be completed from an agricultural economics and agricultural business (AEAB) course block. AEEC 545 Advanced Agricultural Policy must be taken in the graduate program if an agricultural policy course was not taken as an undergraduate. Individual study (AEEC 596 Individual Study) is limited to 6 credits hours toward a the degree. An oral defense is required of all master’s candidates and will be scheduled and completed according to the guidelines of the Graduate School. The oral defense must be preceded by an open seminar to present major research findings to faculty, fellow students and the interested public.

Economic Development - Doctor of Economic Development

The Doctor of Economic Development (DED) is a professional doctorate designed to provide advanced training for economic development professionals. It is not designed to prepare graduates for academic careers.

Candidates for the DED enter the program with the equivalent of a master’s degree. DED students must successfully complete approximately 60 graduate credits beyond the hours required for entry. All students must meet the requirements specified in the general regulations and requirements for admission to the Graduate School and to candidacy. DED minimum admission requirements include:

1. related master’s degree or equivalent coursework;
2. one course in intermediate microeconomic theory and one course in macroeconomic theory with minimum grades of B;
3. one course in college-level calculus with a minimum grade of B; and
4. one course in statistics, including simple regression with a minimum grade of B.

Additionally, students who have not completed graduate level courses in AEEC 501 Microeconomic Theory, AEEC 502 Macroeconomic Theory, and AEEC 540 Econometrics I with grades of B or better will be required to successfully complete these courses early in the DED program.

All students in the DED program must successfully complete the following:

NOTE: Doctor of Economic Development (DED) students who enter the DED program with a master’s degree may, upon completion of all requirements for the MA in Economics, apply for the MA in Economics degree and count courses that overlap with the DED requirements toward the DED. Students must apply separately for the MA in Economics program and the master’s degree must be conferred before the DED.

Comprehensive and oral exams will be given and will determine eligibility to continue in the program and/or to graduate.

Teaching and research assistantships are available to qualified applicants, however, admission to the program does not imply or guarantee funding.

Detailed and updated information is available at https://business.nmsu.edu/academics/graduate-programs/ded/.

Animal and Range Sciences

Undergraduate Program Information

The Department of Animal and Range Sciences provides opportunities for you to follow a variety of interests in modern scientific agriculture. The animal science curriculum provides a background for many phases of the food animal industry, from farm animal production on rangelands to management positions in the food processing industry to highly technical careers in research and companion animal management. The range science curriculum provides you with knowledge and skills necessary to sustainably manage rangelands for multiple uses. These curricula allow you to acquire the background necessary to adjust easily to variations in specific job opportunities. If you are majoring in either animal science or range science, you must meet general education requirements, have a minimum of 48 credits of upper-division courses (numbered 300 and above), and complete a minimum of 35 credits in courses in the College Agricultural, Consumer and Environmental Sciences.

Graduate Program Information

The Department of Animal and Range Sciences offers graduate work leading to the Master of Science and the Doctor of Philosophy degrees with majors in animal science and range science. The Doctor of Philosophy degree in animal science is only in the areas of reproductive physiology or ruminant nutrition.

Prerequisite for admission as a regular graduate student in the department is the completion of a curriculum, substantially equivalent to that required of undergraduate students in animal or range science at this institution, 3.0 GPA, and three letters of reference.
For the Master of Science degree, a minimum of 30 semester credits of graduate work in the major and related subjects will be required, together with a thesis for most majors. A non-thesis option is available for certain students.

For the Master of Agriculture with specialization in Domestic Animal Biology, students must complete 32 credit hours of graduate courses which include 2 credits of ANSC 598 Special Research Programs for the creative component.

The Doctor of Philosophy student must demonstrate proficiency in a foreign language or research tool, such as experimental statistics, philosophy of science, computer science, or mathematics. Choice of the research tool will remain the option of the student subject to approval by the student’s graduate committee. Demonstration of proficiency may be accomplished by satisfactory completion of courses or by other suitable evidence acceptable to the student’s committee. In addition, doctoral students are required to complete advanced courses in a field of study closely related to animal science or range science. The number of courses to be completed in the related area will be determined by the student’s committee. Related areas of study often are biology, chemistry, or experimental statistics.

The Department of Animal and Range Sciences is a sponsoring department in the recently approved interdisciplinary graduate degree program that offers both a MS and Ph.D. degree in Water Science Management. The degree program is being handled through the College of Agricultural, Consumer and Environmental Sciences (ACES), and the program description, including application guidelines, classes involved, and topic areas being supported can be found in the catalog under the section describing ACES Programs. Interested students are encouraged to contact the Department Head of Animal and Range Sciences, Shanna Ivey at (575) 646-2515 for more information.

Graduate work in the department is designed to prepare the student for work in the fields of research, extension, teaching, production, and conservation. Facilities available to graduate students include herds and flocks of the major livestock species, animal nutrition laboratories, physiology laboratories, meats laboratory, small animal laboratory, 25,000-specimen herbarium, two ranches of approximately 92,000 acres, and a 1,000-head experimental feedlot. Active cooperation is maintained with federal research agencies located on and off the campus.

A number of graduate assistantships will be available each year. Inquiries should be addressed to the head of the department.

**Degrees for the Department**

Animal Science - Bachelor of Science in Agriculture (p. 134)

Range Science - Bachelor of Science in Agriculture (p. 137)

Agriculture - Master of Agriculture (p. 139)

Animal Science - Master of Science (p. 140)

Range Science - Master of Science (p. 141)

Animal Science - Doctor of Philosophy (p. 141)

Range Science - Doctor of Philosophy (p. 142)

---

**Minors for the Department**

Dairy Science - Undergraduate Minor (p. 138)

Horse Management - Undergraduate Minor (p. 138)

Human Animal Interaction - Undergraduate Minor (p. 138)

Livestock Production - Undergraduate Minor (p. 138)

Ranch Management - Undergraduate Minor (p. 139)

Range Science - Undergraduate Minor (p. 139)

Animal Science - Graduate Minor (p. 142)

Range Science - Graduate Minor (p. 142)

**Department Head** Shanna L. Ivey

**Professors** Bailey, Cibils, Duff, Fernald, Holechek, Ivey, Löest, Soto

**Associate Professors** Ashley, Fasenko, Ganguli, Hernandez Gifford, Scholljegerdes, White

**Assistant Professors** Faist, Geli, Summers

**College Track Associate Professors** Campbell, Prihodko

**College Track Assistant Professor** Fuentes

**Instructors** Priest

**Co-operators (USDA)** Estell, Herrick, Peters

**Emeritus Faculty** Allred, McDaniel, Ross, Thomas

S. L. Ivey, Department Head, Ph.D. (New Mexico State University)- ruminant nutrition/microbiology; K. W. Allred, Ph.D. (emeritus, Texas A&M University)- plant taxonomy; R.L. Ashley, Ph.D. (Colorado State University)- physiology of reproduction; D.W. Bailey, Ph.D. (Colorado State University)- rangeland management; J.W. Campbell, Ph.D. (New Mexico State University)- Reproductive Physiology; A.F. Cibils, Ph.D. (Colorado State University)- grazing management and ecology; G.C. Duff, Ph.D. (New Mexico State University)-animal nutrition; A. Faist, Ph.D. (University Colorado Boulder)- range ecology; G.M. Fasenko, Ph.D. (North Carolina State University)- companion animal management; A. G. Fernald, Ph.D. (Colorado State University)- animal nutrition/land use hydrology and water quality hydrology; S. Fuentes-Soriano, Ph.D. (University of Missouri-Saint Louis)-biology in plant systematics and evolution; A.C. Ganguli, Ph.D. (Oklahoma State University)- range restoration; H. M. E. Geli, Ph.D. (Utah State University)-landscape hydrology; J. Hernandez-Gifford, Ph.D. (Washington State University)- Reproductive Physiology; J. L. Holechek, Ph.D. (Oregon State)- range ecology; C. A. Löest, Ph.D. (Utah State University)- ruminant nutrition; K. C. McDaniel, Ph.D. (emeritus, Texas A&M University)- brush management; L. Prihodko, Ph.D. (Colorado State University)-rangeland ecology; T. T. Ross, Ph.D. (emeritus, North Carolina State University)- physiology of reproduction and sheep production; E.J. Scholljegerdes, Ph.D. (University of Wyoming)- ruminant nutrition; S.A. Soto-Navarro, Ph.D. (New Mexico State University)- ruminant nutrition; A.F. Summers, Ph.D. (University of Nebraska)-Physiology of reproduction; J. D. Thomas, Ph.D. (emeritus, University of Missouri-Columbia)- meat science; L. M. White, Ph.D. (Clemson)- equine science.

**Adjunct faculty** C. D. Allison, Ph.D. (Texas A&M University)- range management; K. M. Harvstad, Ph.D. (Utah State University)- range animal nutrition; J.E. Gerrish, Ph.D. (Ohio State University)- soils; M.R. Levi, Ph. D. (University of Arizona)-soil morphology/classification; T.J. Nagaraja,
Animal Science Courses

ANSC 100. Introductory Animal Science
3 Credits
Orientation and survey of livestock industry in the United States; introduction to feeding, breeding, and management practices for producing farm animals and select companion animals.

ANSC 100 H. Introductory Animal Science
3 Credits
Orientation and survey of livestock industry in the United States; introduction to feeding, breeding and management practices for producing farm animals and select companion animals. Additional course work will be required. Restricted to Las Cruces campus only.

Prerequisite(s): Eligibility for membership in honors college.

ANSC 100 L. Introductory Animal Science Laboratory
1 Credit
Students will observe and participate in activities related to farm animal management and will include areas of livestock selection, nutrition, reproductive physiology, animal ID and animal health. This lab is required for animal science majors. Pre/ Corequisite(s): ANSC 100.

ANSC 103. Introductory Horse Science
3 Credits
The light horse industry; breeds; introduction to feeding, breeding, marketing and management; handling and selecting horses for breeding and performance.

ANSC 112. Companion Animals in Society
3 Credits
Examination of the historical, current, and potential future roles of companion animals in human society. Topics include animal domestication, breeds, exotic companion animals, the companion animal industry, and competitions and sports involving companion animals. Emphasis is on canine and feline species. May be repeated up to 3 credits. Restricted to Las Cruces campus only.

ANSC 190. Western Equitation I
2 Credits
Basic principles of Western riding, including care and management of the riding horse, equitation equipment, and development of riding skills.

ANSC 200. Introduction to Meat Animal Production
3 Credits
Production and utilization of beef cattle, sheep and swine; emphasis on feeding, breeding, management problems and marketing; selection of animals for breeding and market.

ANSC 201. Introduction to Genetics for Animal Production
3 Credits
Introduction to genetics and inheritance relative to livestock production. Introduction to procedures for collection and use of performance information in livestock improvement programs.

Prerequisite(s): BIOL 111G.

ANSC 205. Introduction to Dairy Science
3 Credits
Introduction to the basic aspects of dairy science and how to apply key concepts to the practical feeding and management of dairy cattle and production of dairy products. Students should also obtain an appreciation for the size and diversity of the dairy industry.

Prerequisite(s)/Corequisite(s): ANSC 100. Restricted to Las Cruces campus only.

ANSC 220. Animal Science Career Development
1 Credit
Introduction to scientific disciplines and career options in animal-agriculture career-skills development, including resume preparation, networking, importance of internships, and leadership experiences in animal agriculture.

ANSC 250. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree.

ANSC 261. Introduction to Animal Metabolism
3 Credits
Principles underlying the mechanisms of animal metabolism as they relate to production, maintenance, and health of animals.

Prerequisite: CHEM 111G.

ANSC 262. Introduction to Meat Science
3 Credits (2+3P)
Fundamental aspects of the red meat industry. Lecture topics and laboratory exercises include the nutrient value of meat, meat preservation, meat safety, muscle structure and contraction, slaughter and processing of beef, lamb, and pork, sausage manufacture, meat curing, meat cookery, and muscle and bone anatomy.

ANSC 285. Introduction to Companion Animal Science
3 Credits
Introduction to the care of common companion animal species. Species specific housing and nutrition are covered in the context of maximizing animal health and well-being and reducing disease. May be repeated up to 3 credits.

ANSC 288. Horse Fitting and Selling
3 Credits
Preparation of horses for sale; planning and conduct of auction sale; application of marketing principles relating to selling horses.

Prerequisite: ANSC 103 or consent of instructor.

ANSC 289. Management of Equine Operations
3 Credits
Introduction and application of business skills necessary to effectively manage the equine operation. Students will learn how to use strategic thinking and sound business management practices to succeed in the demanding equine industry.

Prerequisite(s): ANSC 103 or consent of instructor.
ANSC 290. Western Equitation II
2 Credits
Intermediate principles of Western riding, including reading horse behavior, limbering-up exercises, and developing riding skills. Introduction to rollbacks, turnarounds and stops.
Prerequisite: consent of instructor.

ANSC 295. Team Competition in Animal Science
1-2 Credits
Training in team competition in the animal sciences. May be repeated for a maximum of 6 credits. May be repeated up to 6 credits. Consent of Instructor required.

ANSC 301. Animal and Carcass Evaluation
3 Credits (2+2P)
Determination of the market value of meat animals by relating live animal and carcass traits. Topics include the identification of economically important traits, grading, growth and development, wholesale and retail pricing, and futures and options markets.

ANSC 302. Therapeutic Horseback Riding I
3 Credits
Basic principles and understanding of horsemanship and therapeutic riding, including equipment, safety, how to be an effective volunteer, side walker, and horse handler. Consent of instructor required.

ANSC 303. Livestock, Meat and Wool Evaluation
4 Credits (3+2P)
Selection, classification, grading, and judging of livestock, meat, and wool.

ANSC 304. Feeds and Feeding
3 Credits (2+2P)
Digestibility of feeds, their nutritive values, grades, and classes, principles of ration formulation and computer ration formulations, and practical feeding of farm animals.
Prerequisite(s): CHEM 111G, General Chemistry I.

ANSC 305. Principles of Genetics
3 Credits
Covers fundamental principles of reproduction, variation, and heredity in plants and animals. Crosslisted with: AGRO 305, BIOL 305, HORT 305 and GENE 305
Prerequisite(s): BIOL 111G, BIOL 211G and either CHEM 111G or CHEM 115.

ANSC 308. Horse Evaluation
4 Credits (2+4P)
Students will acquire a working knowledge of selection and classification of horses, learn criteria for evaluation and selection of breeding and show animals, gain a broad understanding of judging conformation and performance in the horse, and learn effective oral and written communication skills through defense of class placings. This course is considered an introduction to the NMSU Horse Judging Team.

ANSC 310. Exhibiting Livestock
3 Credits (1+4P)
Fitting and showing beef cattle, dairy cattle, sheep and swine.

ANSC 312V. Companion Animals and the Human-Animal Interaction
3 Credits
The science behind human-animal interactions (HAI). An examination of the interactions between humans and companion animals and the effects on human and animal health and wellness. Cultural differences in HAI will be explored. Topics will include Animal Assisted Activity (AAA), Animal Assisted Therapy (AAT), and service animals. Emerging and future uses of companion animals in HAI will be discussed.

ANSC 320. Equine Behavior and Training
3 Credits
Basic principles, methods and philosophies of handling, breaking and training the two-year-old Western horse. May be repeated up to 6 credits.
Prerequisite(s): ANSC 290 or consent of instructor.

ANSC 321. Advanced Equine Behavior and Training
3 Credits
Continuation of ANSC 320. Further development of skills required to advance the training of the two-year-old Western horse. Emphasis will be placed on lateral work, lead changes, turn-arounds, obstacles, and making the horse accustomed to ranch and trail riding situations.
Prerequisite(s): ANSC 320 or consent of instructor.

ANSC 325. Food and Agribusiness Finance and Planning
3 Credits
Same as AG E 325. May be repeated up to 3 credits. Crosslisted with: AG E 325.

ANSC 350. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree.

ANSC 351V. Agricultural Animals of the World
3 Credits
Global study of the development and use of animals for production of food and nonfood products. Climatic, cultural, and economic influences on systems of livestock production and species and breeds of livestock utilized will be evaluated.

ANSC 353. Advanced Livestock Evaluation
2 Credits
Advanced selection, classification and grading of livestock. May be repeated up to 2 credits. Consent of Instructor required.

ANSC 370. Anatomy and Physiology of Farm Animals
4 Credits (3+2P)
Structure and function of the animal body. Includes studies of the horse, cow, sheep, pig, and comparisons with the human body.
Prerequisite(s): CHEM 111G and BIOL 111G or BIOL 211G.

ANSC 383. Equine Reproductive Management
3 Credits (1+4P)
Anatomy, physiology, and endocrinology of reproduction of the mare and stallion; training in modern reproductive techniques employed in the horse industry.
Prerequisites: ANSC 103, ANSC 289, and ANSC 370.

ANSC 390. Internship
1-3 Credits
Professional work experience under the joint supervision of the employer and a faculty member. A written report is required. No more than 3 credits toward a degree. Graded S/U.
Prerequisite: consent of instructor.

ANSC 391. Undergraduate Research Experience
1-3 Credits (1-3)
Formal laboratory, library, or field study of problems related to animal sciences, emphasizing hypothesis development, testing, and reporting results. Projects are preplanned, reviewed, and approved. Students submit periodic written reports and final written and oral reports. May be repeated for a maximum of three credits. Consent of Instructor required.
Prerequisite(s): Consent of Instructor.
Corequisite(s): NO.
ANSC 392. Animal Sciences Teaching/Extension Experience  
1-3 Credits (1-3)  
- Formal teaching experience related to animal sciences supervised by a faculty member. May involve classroom instruction, educational material development, and/or student evaluation and assessment. Students may also be involved in development, implementation, or assessment of adult or youth educational programs related to animal sciences, supervised by a faculty member. Students submit periodic written reports and a final written and oral report. May be repeated for a maximum of three credits.  
Consent of Instructor required.

ANSC 395. Team Competition II  
1-2 Credits  
Advanced training in team competition in the animal sciences. May be repeated for a maximum of 6 credits. May be repeated up to 6 credits.  
Consent of Instructor required.

ANSC 402. Animal Science Seminar  
1 Credit  
- A seminar course designed to inform students of the career opportunities, develop their interviewing and other interpersonal skills may also include reading, discussions, written reports, and seminar presentations of current relevant literature.

ANSC 402 H. Animal Science Seminar  
1 Credit  
Taught with ANSC 402 with additional work.  
Prerequisite(s): Meets Honors eligibility and/or Crimson Scholar status.

ANSC 411. Canine and Feline Behavior and Training  
3 Credits  
The influence of domestication, breeds, genetics, and physiology on the behavior of canine and feline species. Training methods and modification of problem behaviors are examined. The impact of the pet parent on their animal's behavior is addressed. May be repeated up to 3 credits.  
Prerequisite(s): Junior or Senior status or consent of the instructor.

ANSC 412. Canine and Feline Health and Diseases  
3 Credits  
A review of common infectious and non-infectious diseases and the basics of the immune response. Pathophysiology and treatment of these diseases and the role the pet parent plays in pre-disposing their animals to disease. May be repeated up to 3 credits.  
Prerequisite(s): ANSC 285 or consent of instructor.

ANSC 421. Physiology of Reproduction  
4 Credits (3+2P)  
Fertility and the role of hormones, nutrition, selection, management and environment in the maintenance of high reproductive rate.  
Prerequisite(s): ANSC 370.

ANSC 422. Animal Nutrition  
3 Credits  
Nutrient utilization and measurement and nutrient requirements for the various body functions.  
Prerequisite(s): CHEM 211 or CHEM 313 or ANSC 261.

ANSC 423. Animal Breeding  
3 Credits (2+2P)  
Mating systems, and selection procedures; calculation of inbreeding coefficients, genetic relationships, and gene frequency.  
Prerequisite(s): ANSC 201 or 305.

ANSC 424. Swine Production  
3 Credits (2+2P)  
Breeding, feeding, and care of swine.  
Prerequisite(s): ANSC 304.

ANSC 425. Horse Science and Management  
3 Credits (2+2P)  
Senior level course requiring students to apply basic knowledge acquired in the previous courses to solve typical problems encountered in the horse industry. Specific topics include genetics and animal breeding, business and legal issues, reproduction, health, nutrition and exercise physiology.  
Prerequisite(s): ANSC 304 and ANSC 370 or concurrent registration.

ANSC 426. Beef Production: Cow-Calf Management  
3 Credits (2+2P)  
Senior level course examining management practices for the cow-calf producers. Specifically focusing on nutrition, reproduction, genetics, marketing, and health. May be repeated up to 3 credits.  
Prerequisite(s): ANSC 304 and (ANSC 201 or ANSC 305) or concurrent registration.

ANSC 427. Dairy Production  
3 Credits (2+2P)  
Breeding, nutrition, physiology and management of dairy cattle.  
Prerequisite(s): ANSC 304 and (ANSC 201 or ANSC 305) or concurrent registration.

ANSC 428. Sheep and Wool Production  
3 Credits (2+2P)  
Genetics, nutrition, physiology and management of sheep. Wool grading, shearing, and disease control.  
Prerequisite(s): ANSC 304 and junior status.

ANSC 429. Beef Production: Feedlot Management  
3 Credits  
Senior level course in feedlot management of beef cattle. Topics of interest include cattle handling and processing, health and nutrition, intake management, and growth. Feed mill operation, marketing strategies, and regulatory concerns associated with finishing cattle production may also be discussed.  
Prerequisite(s): ANSC 304 or Consent of Instructor.

ANSC 448. Problems  
1-4 Credits  
Individual investigation in a specific area of animal science. Maximum of 4 credits per semester. No more than 6 credits toward a degree. Consent of Instructor required.

ANSC 458. Livestock Behavior, Welfare and Handling  
3 Credits (2+3P)  
Principles of animal behavior and evaluation of management practices on animal welfare in confined and rangeland livestock operations. Low stress livestock handling techniques. Design of livestock handling facilities. Crosslisted with: RGSC 458  
Prerequisite(s): RGSC 294 or ANSC 100.

ANSC 462. Parasitology  
3 Credits  
Same as EPWS 462.

ANSC 468. Advanced Dairy Herd Management  
3 Credits  
The course is offered through the Southern Great Plains Dairy Consortium in Clovis, NM, and will include breeding, nutrition, physiology, health and management of large herd dairies of the Southwest. Students must apply for the course through the Consortium, and can take it more than once, as topics vary. Consent of instructor required.  
Prerequisite(s): ANSC 304.
ANSC 480. Environmental Physiology of Domestic Animals
3 Credits
Influence of environmental factors on physiological processes of domestic animals.
Prerequisite: ANSC 370.

ANSC 484. Ruminant Nutrition
3 Credits
Energy, nitrogen, and mineral nutrition of ruminants with special emphasis on digestive physiology and metabolism of nonprotein nitrogen compounds.
Prerequisite: ANSC 422.

ANSC 488. Equine Nutrition and Exercise Physiology
3 Credits (2+2P)
Students will gain an in-depth understanding of nutrition and exercise physiology in the horse. Students will investigate the response of major physiological systems to exercise, conditioning and training, gastrointestinal physiology, nutrition requirements and clinical nutrition of the horse.
Prerequisite(s)/Corequisite(s): Junior standing or consent of instructor.

ANSC 501. Advanced Animal Nutrition (so)
3 Credits
Emphasis on digestive physiology and metabolism. Basic mechanisms involved in the intake, digestion, and absorption of nutrients studied.
Crosslisted with: HNDS 501
Prerequisite(s): CHEM 211 or consent of instructor.

ANSC 504. Animal Physiology Techniques (se)
4 Credits
Radioimmunoassay procedures. Methods and procedures for conducting reproductive physiology research in livestock. Includes animal preparation, sample collection, laboratory and cell culture procedures.
Prerequisite: consent of instructor.

ANSC 507. Laboratory Techniques in Nutrition (f)
4 Credits (2+6P)
Methodology and experimental procedures in measuring nutrient requirements and value of diets. Same as HNDS 507.
Prerequisites: ANSC 422 or consent of instructor.

ANSC 509. Endocrinology of Domestic Animals (f)
3 Credits
The role of hormones in growth, development, metabolism, temperature regulation, lactation, and reproduction of domestic animals, including commercial applications.

ANSC 510. Range Nutrition Techniques (se)
3 Credits
Animal and plant methods of determining quantity and quality of range forage. Same as RGSC 510.
Prerequisite: ANSC 484 or consent of instructor.

ANSC 512. Research Methods in Animal Science (s)
4 Credits (3+2P)
Procedures used in animal science research, including planning and conduct of investigations and interpretation of results. Same as HNDS 512.

ANSC 515. Graduate Seminar
1 Credit
Current topics. Same as HNDS 517.

ANSC 520. Advanced Nutritional Management I: Feedlot (se)
3 Credits
Emphasis on feeding systems for beef cattle from weaning to slaughter. Primary focus on feedlot nutrition and management.
Prerequisite: ANSC 484 or consent of instructor.

ANSC 521. Advanced Nutritional Management II: Cow Calf/Stocker (so)
3 Credits
Emphasis on nutritional management for cow-calf and stocker operations. Primary focus on applications to range animal nutrition and management.
Prerequisite: ANSC 484 or consent of instructor.

ANSC 522. Animal Nutrition (f)
3 Credits
Nutrient utilization and measurement; nutrient requirements for the various body functions. Taught with ANSC 422 and same as HNDS 522 with additional requirements for graduate students. Recommended for nonmajors. Crosslisted with: HNDS 522
Prerequisite(s): CHEM 211.

ANSC 560. Rumen Microbiology (so)
3 Credits
Issues in ruminal and gastrointestinal microbiology. Includes physiological and genetic mechanisms in carbohydrate and nitrogen utilization. Same as FSTE 560.
Prerequisites: ANSC/HNDS 501.

ANSC 580. Environmental Physiology of Domestic Animals
3 Credits
Influence of environmental factors on physiological processes of domestic animals. Specific focus on fetal and developmental programming, heat and cold stress.

ANSC 588. Equine Nutrition and Exercise Physiology
3 Credits
Students will gain and in-depth understanding of nutrition and exercise, conditioning and training, gastrointestinal physiology, nutrition requirements and clinical nutrition of the horse.
Prerequisite(s)/Corequisite(s): ANSC 304 and ANSC 422.

ANSC 598. Special Research Programs
1-4 Credits (1-4)
Individual investigations, either analytical or experimental. Maximum of 4 credits per semester. No more than 6 credits toward a degree. Consent of Instructor required.

ANSC 599. Master's Thesis
15 Credits

ANSC 600. Research
1-15 Credits
This course is for Ph.D. students before they have completed qualifiers. Consent of Instructor required. Thesis/Dissertation Grading.
Prerequisite(s): ANSC 421 or consent of instructor.

ANSC 602. Advanced Reproductive Physiology (fo)
3 Credits
Mechanisms of reproductive function; research methodology.
Prerequisite(s): ANSC 421 or consent of instructor.
ANSC 602 L. Molecular Techniques in Reproductive Physiology (fo)
2 Credits
Molecular biology techniques used in the study of reproductive physiology in domestic animals. Extraction of RNA, DNA from endocrine tissues, northern analysis, culture of pituitary/ovarian tissue. Mechanisms of hormone action.
Prerequisite: consent of instructor.

ANSC 604. Hypothalamo-Hypophyseal-Pineal Endocrinology (fe)
1 Credit
Hormones and other neurochemicals synthesized and secreted by the hypothalamus, pituitary, and pineal glands. Neuroendocrinology of the hypothalamo-hypophyseal axis.
Prerequisite: ANSC 509.

ANSC 605. Gonadal and Uterine Endocrinology (fe)
1 Credit
Endocrinology of mammalian ovaries, testes, and uteri including developing trophoblasts.
Prerequisite: ANSC 509.

ANSC 606. Endocrinology of Pregnancy, Parturition, and Lactation (fe)
1 Credit
Hormones and other chemical messengers involved in maintenance of pregnancy, control of parturition, and initiation and maintenance of lactation in farm animals.
Prerequisite: ANSC 509.

ANSC 621. Metabolic Functions and Dysfunctions (fe)
3 Credits
Physiological chemistry of ruminants and other domestic animals, with attention to metabolic dysfunctions and nutritional toxicology. Same as HNDS 621.
Prerequisites: CHEM 345 and ANSC 501.

ANSC 625. Nutrient Metabolism I: Mineral, Vitamin, and Nitrogen Metabolism (fo)
4 Credits
Cellular metabolism, physiological function(s), toxicities, and deficiencies of minerals, vitamins and nitrogen in ruminants and nonruminants. Same as HNDS 625.
Prerequisite: ANSC/HNDS 501.

ANSC 626. Nutrient Metabolism II: Carbohydrates, Lipids, and Energetics (se)
4 Credits
Basic principles of carbohydrate, lipid, and energy metabolism; integration of metabolism with emphasis on nutritional and biochemical processes related to efficiency of nutrient use. Same as HNDS 626.
Prerequisite: ANSC 501 or HNDS 501.

ANSC 698. Special Research Programs
1-4 Credits
Advanced individual investigations, either analytical or experimental. Maximum of 4 credits per semester. No more than 6 credits toward a degree. Consent of Instructor required.

ANSC 700. Doctoral Dissertation
15 Credits

Range Science Courses

RGSC 150. Rangeland Science Profession
1 Credit
Introduction to scientific disciplines and career opportunities in rangeland science and management.

RGSC 250. Special Topics
1-4 Credits
Specific subjects and credits announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

RGSC 294. Rangeland Resource Management
3 Credits
Overview of arid and semi-arid ecosystems in the US and abroad, rangeland plant physiology, ecology of rangeland plant communities and ecosystems, sustainable management for multiple uses including grazing livestock production, wildlife habitat, recreation and ecosystem services, and economics of rangeland-based enterprises. Restricted to: Main campus only.

RGSC 302V. Forestry and Society
3 Credits
Global study of the development and use of forest resources for production of wood, fuel, fiber, and food products. Climatic, edaphic, cultural, and economic influences on forests of the world evaluated. Same as HORT 302V.

RGSC 316. Rangeland Plants
3 Credits (2+3P)
Identification, classification, cultural uses, and economic importance of native and introduced rangeland plants.

RGSC 317. Rangeland Communities
3 Credits
Rangeland associations and communities, their plant species composition, and ecological factors affecting management of communities.

RGSC 318. Watershed Management
3 Credits (2+2P)
Management of rangeland and forest watersheds with emphasis on hydrologic cycle and land use effects on runoff and water quality.

RGSC 325. Rangeland Restoration Ecology
3 Credits
Principles and practices of vegetation management and ecological restoration. Course emphasizes problems associated with rangeland degradation, and implementation of rangeland restoration and improvements.
Prerequisite(s): Sophomore standing or consent of instructor.

RGSC 350. Special Topics
1-4 Credits
Specific subjects and credits announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

RGSC 357. Grass Taxonomy and Identification
3 Credits (1+4P)
Taxonomy of grasses; grass anatomy, variation in reproductive structures, and identification of grasses by sight and through the use of dichotomus keys.
Prerequisite/Corequisite(s): Junior Standing or consent of the instructor.

RGSC 390. Internship
1-3 Credits
Professional work experience under the joint supervision of the employer and a faculty member. A written report is required. No more than 3 credits toward a degree. Graded S/U.
Prerequisite: consent of instructor.
RGSC 402. Seminar
1 Credit
A seminar course designed to inform students of the career opportunities, develop their interviewing and other interpersonal skills may also include reading, discussions, written reports, and seminar presentations of current relevant literature.
Prerequisite(s): Senior standing.

RGSC 402 H. Range Science Seminar
1 Credit
Taught with RGSC 402 with additional work.
Prerequisite(s): Meets Honors eligibility and/or Crimson Scholar status and senior standing.

RGSC 406. Rangeland Team Competition
1 Credit
Description and characteristics of range plants. May be repeated for a maximum of 4 credits.

RGSC 440. Rangeland Resource Ecology
3 Credits
Prerequisite(s): Senior standing.

RGSC 440 L. Rangeland Resource Ecology Lab
1 Credit
Living and nonliving factors of the range environment, the life forms and role of range plants and animals on succession and interactions in range ecosystems. Corequisite(s): RGSC 440.

RGSC 448. Problems
1-4 Credits (1-4)
Individual investigation in a specific area of range science. Maximum of 4 credits per semester and a grand total of 6 credits. Consent of Instructor required.

RGSC 452. Vegetation Measurements for Rangeland Assessment
4 Credits (2+4P)
Sampling principles, sampling design, and measurement methods used to quantify vegetation attributes and to assess the structural and function of rangeland ecosystems. Laboratory emphasizes practical field techniques, quantitative analysis, and interpretation of results.
Prerequisite(s): RGSC 294 and A ST 311.

RGSC 458. Livestock Behavior, Welfare and Handling
3 Credits (2+3P)
Principles of animal behavior and evaluation of management practices on animal welfare in confined and rangeland livestock operations. Low stress livestock handling techniques. Design of livestock handling facilities. Crosslisted with: ANSC 458
Prerequisite(s): RGSC 294 or ANSC 100.

RGSC 460. Rangeland and Natural Resource Planning and Management
4 Credits (3+3P)
Planning and problem solving in rangeland and natural resource management. Public land planning and policy. Application of land management principles to resolve rangeland, riparian and habitat issues.
Prerequisite(s): Senior or graduate student standing.

RGSC 475. Climate Studies, Water, and Society
3 Credits
The course provides a brief description of the Earth's climate system, an in-depth review and methodologies used to investigate climate change and variability, evidence of climate change on natural systems (water availability) vulnerability of human systems (e.g. agriculture) to climate change, and mitigation and adaptation strategies.

RGSC 485. Land Cover Analysis for Natural Resources
3 Credits
This course is designed to help students understand, manipulate and extract Earth Observation (EO) data and to conduct land cover analysis related to natural resources including water and vegetation. The course provides and highlights means to identify and access EO data in different formats, extract meaningful information, and to help students developing critical thinking skills. The course introduces tools such as python and ArcGIS Pro to handle different data formats (e.g. hdf) efficiently; develop and present creative maps. The course provides basic information about how to conduct land use, land cover change analysis, mapping vegetation, water related variables and plant and animal distribution analysis.

RGSC 509. Approaches to Rangeland Research
3 Credits
Experimental design and statistical analysis of experimental results.
Prerequisite(s): A ST 505 or consent of instructor.

RGSC 513. Advanced Rangeland Ecology
3 Credits
Overview of the current state of knowledge in selected areas of rangeland ecology, with emphasis on currently developing ideas and issues relevant to rangeland management.
Prerequisite(s): RGSC 440 or equivalent.

RGSC 515. Graduate Seminar
1 Credit
Current topics. Graded S/U.

RGSC 516. Arid Land Management
3 Credits
Survey of seminal and current literature dealing with management of arid and semiarid lands including soil-plant-animal interactions, plant community ecology, arid land assessment methods, and arid land hydrology.

RGSC 518. Watershed Methods and Management
3 Credits
Management of rangeland and forest watersheds with emphasis on the hydrologic cycle and land use effects on runoff and water quality. Hydrologic monitoring methods problem sets required for graduate credit.

RGSC 520. Arid Land Plant Herbivore Interactions
3 Credits
Survey of seminal and current literature dealing with plant- and animal-related factors that influence herbivory patterns in arid landscapes. Although ungulate herbivory is a central focus of the course, the role of plant defenses in deterring both vertebrate and invertebrate herbivores is discussed in detail.

RGSC 525. Advanced Rangeland Restoration Ecology
3 Credits
Theory and application of restoration ecology and the principles and practices of ecological restoration. Course emphasizes problems associated with rangeland degradation and highlights current restoration management actions. May be repeated up to 3 credits.
RGSC 550. Special Topics  
1-4 Credits  
Specific subjects to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree.

RGSC 551. Earth Data Retrieval  
3 Credits  
This course covers topics related to identifying sources, preprocessing, utilizing earth data that can be used to monitor some hydrological and water related variables, vegetation growth and related biophysical properties. The course focuses on developing students’ skills on how to handle and analyze high-level large amounts of research data in different formats (i.e., hdf). The course highlights the use of remote sensing and land surface models-based (NLDAS) earth observation datasets (e.g., NDVI, LST, Ta, and ET). The course uses some open-source tools including Python, API as well as MATLAB. Crosslisted with: WSAM 551.

RGSC 557. Advanced Grass Taxonomy and Identification  
3 Credits (1+4P)  
Taxonomy of grasses; grass anatomy, variation in reproductive structures, and identification of grasses by sight and through the use of dichotomous keys. Additional writing and grass identification assignments are required for graduate credit.

RGSC 575. Climate Studies, Water and Society  
3 Credits  
The course provides a brief description of the Earth’s climate system, an in-depth review and methodologies used to investigate climate change and variability, evidence of climate change on natural systems (water availability) vulnerability of human systems (e.g., agriculture) to climate change, and mitigation and adaptation strategies. Crosslisted with: WSAM 575.

RGSC 585. Land Cover Analysis for Natural Resources  
3 Credits  
This course is designed to help students understand, manipulate and extract Earth Observation (EO) data and to conduct land cover analysis related to natural resources including water and vegetation. The course provides and highlights means to identify and access EO data in different formats, extract meaningful information, and to help students developing critical thinking skills. The course introduces tools such as python and ArcGIS Pro to handle different data formats (e.g., hdf) efficiently; develop and present creative maps. The course provides basic information about how to conduct land use, land cover change analysis, mapping vegetation, water related variables and plant and animal distribution analysis. Crosslisted with: WSAM 585.

RGSC 589. Landscape Hydrology Modeling  
3 Credits  
The course “Landscape Hydrology Modeling” offers topics related to the physical hydrological processes that occur at different spatial and temporal scales in terms of understanding, quantitative evaluation, modeling, and visualization. It addresses precipitation, runoff, infiltration, and evaporation, as well as understanding impact of land use change on these processes. The course highlights and provide training on the use of hydrological modeling tools including WMS software, HydroVIS and ArcGIS software to help students understand, model, manipulate, and visualize hydrological data processes. The course offers hands-on learning experience on the use of these tools. Consent of Instructor required. Crosslisted with: WSAM 589.

RGSC 598. Special Research Program  
1-4 Credits  
Individual investigations, either analytical or experimental. Maximum of 4 credits per semester. No more than 6 credits toward a degree. Consent of Instructor required.

RGSC 599. Master’s Thesis  
15 Credits  

RGSC 600. Doctoral Research  
1-15 Credits  

RGSC 616. Advanced Arid Land Management  
3 Credits  
In depth discussion of seminal and current literature dealing with management of arid and semiarid lands including land tenure systems, soil-plant-animal interactions (emphasis on livestock grazing), plant community ecology and assessment methods, and arid land hydrology.

RGSC 620. Advanced Arid Land Plant-Herbivore Interactions  
3 Credits  
In depth discussion of seminal work dealing with plant- and animal-related factors that influence herbivory patterns in arid landscapes. Although ungulate herbivory is a central focus of the course, the role of plant defenses in deterring both vertebrate and invertebrate herbivores is discussed in detail.

RGSC 698. Special Research Programs  
1-4 Credits (1-4)  
Advanced individual investigations, either analytical or experimental. Maximum of 4 credits per semester. No more than 6 credits toward a degree. Consent of Instructor required.

RGSC 700. Doctoral Dissertation  
15 Credits

Animal Science - Bachelor of Science in Agriculture  

The animal industry option includes courses that prepare you for work in many phases of the livestock industry, such as livestock production on farms and ranches, the meat industry, the feed industry, livestock breed associations, and livestock publications. The science option provides you with a strong background in technical science and prepares you for advanced studies leading to graduate or professional degrees.

Concentration: Animal Industry  

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Range Science - Bachelor of Science in Agriculture

The following course work prepares you for study and management of rangelands through an integrated ecological approach with special emphasis on rangeland plants, livestock, wildlife, soils and watersheds. The course work is also well designed for those who want to continue study in graduate school. Any undergraduate student majoring in Range Science must earn a grade of C- or higher in Range Science (RGSC prefix) courses to satisfy degree requirements. Students earning a D or F in a Range Science (RGSC prefix) course will be expected to repeat that course until the student earns a grade of C- or higher.

Requirements

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Non-Departmental Requirements (in addition to Gen.Ed/VWW)

| A ST 311 | Statistical Applications | 3 |

Second Language: (not required)

Electives, to bring the total credits to 120

Total Credits 120-122

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. MATH 121G College Algebra or MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 121G or MATH 191G first.
3. See the Viewing a World (p. 53) section of the catalog for a full list of courses.
4. Required of Industry and Science Options
5. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
**Dairy Science - Undergraduate Minor**

A minor in Dairy Science consists of at least 18 credits.

Total Credits 18

1 RGSC 294 Rangeland Resource Management & A ST 311 Statistical Applications are pre-requisites for this course

Agriculture - Master of Agriculture Concentration: Domestic Animal Biology

The Department of Animal and Range Sciences at New Mexico State University offers a non thesis coursework Master of Agriculture degree with a Concentration in Domestic Animal Biology (MAG-DAB) which provides students with graduate training in animal nutrition and physiology. The degree is earned after satisfactory completion of 32 credit hours of upper division and graduate-level courses. The curriculum is completed in two or three academic semesters and includes a creative component which can be met in several ways.

Students having an undergraduate degree in an area of agriculture or a related field may consider the MAG-DAB as an alternative to a Master of Science which traditionally involves preparation of a thesis. Students who may benefit from this program include those in need of additional advanced science-based coursework in preparation for applying to a professional program in veterinary medicine. Other individuals may be interested in careers in the cooperative extension service, education, or the feed and pharmaceutical industries where an advanced degree may be of benefit to advancement. The curriculum outlined below will assist students in preparing for a number of career opportunities.

Admission to the Program

The MAG-DAB program is administered through the Department of Animal and Range Sciences and is coordinated by the Animal Science Graduate Committee. Admission to the program requires acceptance by the NMSU Graduate School as well as the Department of Animal and Range Sciences. Basic requirements include an undergraduate degree in an agricultural or a related major from an accredited college or university and an undergraduate GPA of 3.0.

Depending on undergraduate training, some individuals may need to complete deficiency classes. In addition, the graduate school may require international students to complete one or more English language courses. Applications to the Department should include three letters of
reference, a resume, and a statement of interest in advanced graduate training.

Once admitted to the program, each student will work with an advisor to develop a course work plan of study. The advisor and the student will also select an advisory committee consisting of two departmental faculty members and a third member from outside the department who will normally serve as the Dean's representative to the committee.

Inquiries about the MAG-DAB Program should be directed to the Chair of the Animal Science Graduate Committee.

For the Master of Agriculture with a concentration in Domestic Animal Biology, students must complete 32 credit hours of graduate courses which include 2 credits of ANSC 598 Special Research Programs for the creative component.

¹ must take two semesters of seminar

**Creative Component**

The creative component of the program involves completing at least two credits of ANSC 598 Special Research Programs. This requirement can be met in one of two ways. In consultation with the advisor, the student can select a topic of importance in domestic animal biology and prepare a comprehensive literature review covering that topic. An alternative way to meet this requirement is for the student, in consultation with the advisor, to conduct a research project and prepare a written manuscript for evaluation by the advisory committee. In either case, the student will present results of the project in the graduate Seminar (ANSC 515) and then be examined by the advisory committee.

In certain cases, the student may request approval from the Advisory Committee to complete two additional graduate courses (at least six credits) in lieu of one of the reports described above. If this approach is approved, the oral examination at the end of the program will cover all the courses completed during the MAG-DAB Program. Students pursuing this option must also prepare and present a topical seminar in ANSC 515 at some time during the program.

**Animal Science - Master of Science**

**Requirements for Master of Science Degree in Animal Science**

**Admission**

1. GPA of 3.0 or greater.
2. Three letters of recommendation.
3. Completion of the form, “Application for Graduate Admission in Animal Science” including a brief letter (personal statement) outlining the student’s background, career goals, and research interest.
4. Resume
5. Favorable evaluation for admission will be by consensus of the Animal Science Graduate Committee and will be contingent on availability of an advisor and research funding.
6. A requirement for admission as a masters graduate student in the department is completion of a curriculum substantially equivalent to that required of undergraduate students. Therefore, deficiency courses may be required after admission to the program, as determined initially by the Animal Science Graduate Committee.

**General Requirements**

**A. Graduate students must maintain at least a 3.0 grade point average.**

**B. A minimum of 30 credit hours of graduate work is required of which:**

1. At least 15 credits must be in courses numbered 500 or above
2. At least 15 credits must be in Animal Science courses
3. At least 15 credits (exclusive of ANSC 598) must be taken with other than a single professor

**C. Designated hours to be completed:**

1. At least four formal Animal Science courses numbered 500 or above
2. At least six credits in ANSC 599 (Master's Thesis)
3. At least two credits in ANSC 515 (Graduate Seminar)
4. At least four credits in Experimental Statistics

**D. Graduate Assistants**

1. All graduate assistants must enroll as full-time students taking at least 9 graded graduate credits (courses numbered 450 and above). No audits can be taken as part of the 9 minimum credits. Only 3 of the 9 credits may be taken as an S/U option.
2. A graduate assistant may not enroll for more than 15 credits each semester.
3. If a student needs to take deficiency courses as part of the 9 credits, then a memo from the advisor or department head
should be submitted to the Graduate School. If approved, the student can register for 3 undergraduate credits and a minimum of 6 graded graduate credits during their first semester at New Mexico State University.

4. Enrollment during summer sessions is not required.

E. Additional Requirements
1. A maximum of six credits in S/U courses may be taken during a Master’s program.
2. A maximum of six credits (four in a single semester) in ANSC 598 (Special Research Programs) may be taken during a Master’s program.
3. If a minor is declared, a minimum of eight credits in this discipline must be completed and approved by that department.
4. In certain instances, deficiency courses may be required.
5. Attendance at graduate seminars is urged.
6. Graduate students are encouraged to adapt their thesis data for submission as a scientific journal article, an Experiment Station Bulletin, or research report.

F. The Masters Committee
The Masters Committee is appointed by the student’s advisor with the approval of the Department Head and consists of four members including three from the animal science area and one representative from the Graduate School.

G. The Masters Final Examination
The Masters Final Oral Examination is primarily concerned with the thesis research conducted by the student but it may also extend over the entire discipline. Candidates for a Masters Degree are expected to demonstrate a thorough understanding of their research topic including how it was conducted, the results that were found, and what the results mean. They should also demonstrate knowledge of the general discipline of Animal Science.

Range Science - Master of Science
A GPA of 3.0 or higher is required for admission. GRE exam is not required. Prerequisite for admission as a regular graduate student in the department is the completion of a curriculum substantially equivalent to that required of undergraduate students. Therefore, deficiency courses may be required after admission to the program, as determined by the admissions committee and the student’s graduate committee and advisor.

Graduate Program with the Thesis (Research) Option
A minimum of 30 credits of graduate work is required to graduate. At least one advanced statistics course or equivalent is required, as determined by the student’s graduate committee. The thesis research project must be approved by the student’s graduate committee. Every effort should be made to publish the thesis as a scientific journal article or Experiment Station publication.

Graduate Program with the Non-Thesis Option
A minimum of 32 credits of graduate work is required to graduate. A final written report is required.

The report will be on a topic approved by the student’s graduate committee. Research for the report may involve field work and data gathering, but should also be strongly library- and literature-based.

The report should be of graduate quality and content, and should follow graduate school thesis format or the format of an acceptable scholarly journal. Final approval and acceptance of the report will be by the student’s graduate committee. Every effort should be made to publish the report in an appropriate outlet (journal article, Experiment Station bulletin or report, Extension bulletin, etc.)

Animal Science - Doctor of Philosophy
Requirements for Ph.D. Degree in Animal Science
Admission
1. GPA of 3.0 or greater.
2. Three letters of recommendation.
3. Completion of the form, “Application for Graduate Admission in Animal Science” including a brief letter (personal statement) outlining the student’s background, career goals, and research interest.
4. Resume
5. Favorable evaluation for admission will be by consensus of the Animal Science Graduate Committee and will be contingent on availability of an advisor and research funding.
6. A requirement for admission as a doctoral graduate student in the department is completion of a curriculum substantially equivalent to that required of undergraduate students. Therefore, deficiency courses may be required after admission to the program, as determined initially by the Animal Science Graduate Committee.
7. Non-thesis MS degrees are not acceptable although some of the courses may be transferred if deemed appropriate by the student’s Doctoral Committee.

General Requirements
1. Graduate students must maintain at least a 3.0 grade point average.
2. A minimum of 90 credit hours of graduate work is required of which:
   a. At least 30 credits must be in courses numbered 600 or above.
   b. At least 18 credits must be in ANSC 700 (Doctoral Dissertation).
3. All graduate assistants must enroll as full-time students taking at least 9 graded graduate credits (courses numbered 450 and above). No audits can be taken as part of the 9 minimum credits. Only 3 of the 9 credits may be taken as an S/U option.
   a. A graduate assistant may not enroll for more than 15 credits each semester.
   b. If a student needs to take deficiency courses as part of the 9 credits, then a memo from the advisor or department head should be submitted to the Graduate School. If approved, the student can register for 3 undergraduate credits and a minimum of 6 graded graduate credits during their first semester at New Mexico State University.
   c. Enrollment during summer sessions is not required.
4. Students admitted to the Doctoral program (passed qualifying exam) must continue to enroll in three credits of graduate work each semester (exclusive of summer sessions) until the dissertation is approved by the Graduate School.
5. In certain instances, deficiency courses may be required.
6. Two semesters of ANSC 515 (Graduate Seminar) are required and students are urged to attend seminar every semester that they are in residence.
7. No more than 6 credits of ANSC 698 may apply toward graduation.
8. The “Program of Study and Committee for Doctoral Students” form listing the graduate committee and courses to be taken, should be filed with the Graduate School after completion of 12 credits and after the qualifying exam, and before registering for additional courses.

Qualifying Examination
1. The Animal and Range Sciences Department may allow the M.S. Final examination to serve as a Ph.D. qualifying exam for students receiving an M.S. in Animal Science at NMSU. See “Guidelines for Graduate Studies” for further details.
2. Doctoral students must take a qualifying exam before completion of one semester of graduate work. The exam is scheduled by the student’s advisor and administered by a provisional committee of at least 3 regular Animal Science faculty members in the student’s area of concentration (reproductive physiology or ruminant nutrition). Its purpose is to evaluate the student’s strengths and weaknesses, determine deficiency courses, and discuss a possible program of study (coursework).
3. After successful completion of this exam, a Doctoral Committee is appointed.

Doctoral Committee
1. The student’s Doctoral Committee is selected by the student and the student’s advisor, with approval of the Department Head and the Graduate Dean. The committee will consist of five or more members, as follows:
   a. The committee chair (advisor) and at least two other members must be from the regular Animal Science faculty in the student’s concentration area (reproductive physiology or ruminant nutrition).
   b. One member must be from the Related Area.
   c. One member from the Research Tool Area.
   d. The member from the Related or Research Tool Area may serve as the Representative of the Graduate Dean.
2. Duties of the Doctoral Committee
   a. Prepare and file a preliminary program of study with the Graduate Dean
   b. Provide counsel for the student during the program
   c. Attend the comprehensive oral examination and the final dissertation defense.

NOTE: Changes in committee membership must be approved by the Graduate Dean.

Range Science - Doctor of Philosophy

A GPA of 3.0 or higher is required for admission. GRE exam is required. Prerequisite for admission as a regular graduate student in the department is the completion of a curriculum substantially equivalent to that required of undergraduate students. Therefore, deficiency courses may be required after admission to the program, as determined by the admissions committee and the student’s graduate committee and advisor.

A minimum of 30 credits of graduate work plus 18 credits of dissertation (RGSC 700) are required to graduate. The Qualifying Exam will take place during the first semester of graduate work. Its purpose is to evaluate the student’s strengths and weaknesses, determine deficiency courses, and discuss a possible program of study (coursework). The “Program of Study and Committee for Doctoral Students” form, listing the graduate committee and courses to be taken, should be filed with the Graduate School after completion of 12 credits and after the qualifying exam, and before registering for additional courses. The Comprehensive Exam is intended to test the knowledge of the major and minor fields of study. The student will be admitted to the exam after fulfilling the language/research tool requirement, after completion of adequate coursework (as determined by the department and the Graduate School), and when considered by the student’s graduate committee to be adequately prepared. The exam is part written and part oral. The student is formally considered a candidate for the Ph.D. only after the successful completion of the comprehensive exam, the recommendation of the committee, and the approval of the graduate dean.

The research project must be approved by the student’s graduate committee. The dissertation is expected to demonstrate the student’s ability in independent investigation and to be a contribution to human knowledge. It shall display a mastery of the literature, present an organized, coherent development of ideas with a clear exposition of results, and provide a critical discussion of the student’s conclusions. Every effort should be made to publish the dissertation as scientific journal articles. Final Exam is concerned primarily with the research work of the student as embodied in the dissertation, but it may also extend over the entire field of study. It is entirely oral. The final exam will be advertised to the public one week prior to the exam.

Animal Science - Graduate Minor

A minimum of 9 credit hours in graduate level classes with the ANSC prefix are required to obtain a graduate minor in Animal Science. Approval by the Animal and Range Sciences Department Head is required.

Range Science - Graduate Minor

A minimum of 9 credit hours in graduate level classes with the RGSC prefix are required to obtain a graduate minor in Range Science. Approval by the Animal and Range Sciences Department head is required.

Entomology, Plant Pathology and Weed Science

Undergraduate Program Information

Specific courses that meet these and the university general education requirements and additional courses in biology, chemistry, mathematics and seminar are included below in departmental requirements. A total of 120 credits are required for graduation. At least 48 credits must be 300-level courses and above. Schedules in specific semesters will be developed with the help of a student’s academic advisor.

Graduate Program Information

The complexity of managing insects, plant diseases, and weeds is increasing environmental concerns, costs, and regulations requiring an integrated approach to management strategies. Future professionals
in integrated pest management will be ecologically oriented, trained to manipulate biological and cultural technologies while minimizing chemical control options. The Master of Science degree program in agricultural biology is designed to produce graduates with the academic and research background needed to facilitate effective, innovative, and environmentally sound protection of plants and animals from a wide and varied spectrum of pests. Students will be prepared for careers in research, extension, teaching, private consulting, industry, and government or to continue in a broad range of Ph.D. programs. Specific opportunities will include positions as agricultural consultants, technical and sales representatives for industry, state departments of agriculture and USDA specialists, agricultural extension agents, and industry research and environmental technicians. There is currently a strong need for MS graduates trained in these areas, and the demand is expected to increase dramatically.

Students may wish to concentrate their graduate program in entomology, plant pathology, or weed science, or conversely may wish to be broadly trained in all three pest-management disciplines. Most students will be expected to complete a thesis. A non-thesis option is available, depending on prior training and experience and subject to approval by the department head. A nonthesis research option requires completion of a research paper, suitable as judged by the student’s graduate committee, for journal publication. Completion of an undergraduate degree essentially equivalent to that offered by the department is required for admission to the MS graduate program. Qualifications for admission will be reviewed by the departmental Graduate Admissions committee. Prospective graduate students must have at least a 3.0 undergraduate GPA, complete the GRE, and submit an official transcript, a letter of intent and three letters of recommendation.

 Degrees for the Department
Agricultural Biology - Bachelor of Science in Agriculture (p. 146)
Agricultural Biology - Master of Science (p. 152)

Minors for the Department
Entomology - Undergraduate Minor (p. 151)
Pest Management - Undergraduate Minor (p. 151)
Plant Pathology - Undergraduate Minor (p. 151)
Weed Science - Undergraduate Minor (p. 151)

Professor, Gerald K. Sims, Department Head

Professors Creamer, Bundy, Sanogo, Thomas, Thompson; Associate Professors Hanson, Mesbah, Pierce, Romero, Schutte; Assistant Professors Leh Hoff, Affiliated Faculty Schroeder, Sweet, Bleiweiss; College Associate Professor Lewis; College Associate Professor Randall; Emeritus Professor Arnold, Richman

New Mexico State University - Las Cruces 143

Entomology, Plant Pathology and Weed Science Courses

EPWS 100. Applied Biology
3 Credits
Introduction to applied biology and ecology focusing on insects, plants and pathogens in natural areas, crops and urban settings. EPWS 100L is strongly recommended to take in the same semester. May be repeated up to 3 credits. Restricted to Las Cruces campus only.

EPWS 100 L. Applied Biology Lab
1 Credit
Study of applied biology and ecology of insects, plants and pathogens in natural areas, crops, and urban settings. EPWS 100 strongly recommended to take in the same semester. May be repeated up to 1 credits. Restricted to Las Cruces campus only.

EPWS 200. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

EPWS 300. Special Topics
1-4 Credits
Specific topics and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

EPWS 301. Agricultural Biotechnology
3 Credits (2+2P)
The principles of molecular biology will be introduced and used to explore the past, present, and future applications of biotechnology in agriculture. Specific topics include methodologies for making transgenic plants with increased pest resistance, the use of biotechnology in pest detection, and improving nutritional value. The laboratory will provide students with hands-on experience with equipment used for biotechnology research.
Prerequisite(s): CHEM 112G, BIOL 111G, or BIOL 211G.

EPWS 301 H. Agricultural Biotechnology Honors
3 Credits
The principles of molecular biology will be introduced and used to explore the past, present, and future applications of biotechnology in agriculture. Specific topics include methodologies for making transgenic plants with increased pest resistance, the use of biotechnology in pest detection, and improving nutritional value. The laboratory will provide students with hands-on experience with equipment used for biotechnology research. May be repeated up to 3 credits.
Prerequisite(s): CHEM 112G, BIOL 111G, or BIOL 211G.

EPWS 302. General Entomology
4 Credits
Prerequisite(s): BIOL 111G or 211G.
EPWS 302 H. General Entomology Honors
4 Credits
An introduction to the biology and classification of insects. Lecture covers life histories, classification, ecology and behavior of insects orders and families. Laboratory focuses on identification of insect orders and families. Students in the Honors section will be given the opportunity to enhance their understanding of entomology with a more detailed examination into the lives of these fascinating organisms.
Prerequisite(s): BIOL 111G or BIOL 211G.

EPWS 303. Economic Entomology
3 Credits (3+2P)
Identification and life cycles of insects of economic significance, their relationship to humans and agriculture including biological interactions and controls. May be repeated up to 3 credits.
Prerequisite(s): Either BIOL 111G or BIOL 211G.

EPWS 310. Plant Pathology Honors
4 Credits (3+2P)
Prerequisite(s): Either BIOL 111G or BIOL 211G.

EPWS 311. Introduction to Weed Science Honors
4 Credits (3+2P)
Principles of weed science, with emphasis on characteristics of invasive plants, methods of integrated weed management, and current issues impacting weed management. Identification of local weeds. Crosslisted with: AGRO 311.
Prerequisite(s): CHEM 111G, and BIOL 211G.

EPWS 311 H. Introduction to Weed Science Honors
4 Credits
Principles of weed science, with emphasis on characteristics of invasive plants, methods of integrated weed management, and current issues impacting weed management. Identification of local weeds. Students in the Honors section will be required to synthesize information from peer-reviewed journals pertaining to weed science. Crosslisted with: AGRO 311.
Prerequisite(s): CHEM 110G, and BIOL 211G.

EPWS 314. Plant Physiology
3 Credits
Overview of photosynthesis, respiration, water relations of plants, minerals and organic nutrition, growth and development. Same as BIOL 314.
Prerequisite(s): BIOL 211G, CHEM 112G.

EPWS 314 H. Plant Physiology Honors
3 Credits
Overview of photosynthesis, respiration, water relations of plants, minerals and organic nutrition, growth and development. Students with an Honors designation will have additional assignments that require them to synthesize information from primary literature sources.
Prerequisite(s): BIOL 211G, CHEM 112G.

EPWS 325V. Insects, Humans, and the Environment
3 Credits
Overview of the interactions of the world’s largest group of organisms with humans. Emphasizing the role of insects in the development of human cultures, including health, food and fiber production, art, music, and environmental issues; with discussions of historic, present day, and future impacts in underdeveloped, developing, and developed civilizations.

EPWS 373. Fungal Biology
3 Credits (2+2P)
Introduction to the taxonomy, morphology, physiology, and ecology of fungi. Same as BIOL 373.
Prerequisites: EPWS 310 or BIOL 311, or consent of instructor.

EPWS 380 H. Science and Society Honors
3 Credits
Analysis and evaluation of how human activities affect the earth’s environment and ecosystems. Examples of issues (local to global) will be examined in detail. Current science and the intersection of science and society will be discussed in relation to problems like world population, agricultural productivity, deforestation, climate change, medical advances and challenges, using fact based critical thinking approaches. Critical thinking and writing skills will be emphasized in independent assignments. Students seeking honors credit will perform additional work.
Prerequisite(s): Honors eligibility requirements.

EPWS 380V. Science & Society
3 Credits
Analysis and evaluation of how human activities affect the earth’s environment or ecosystems. Several examples, from global issues to local issues will be studied in detail. Current science and the intersection of science and public policy will be discussed in relation to problems like world population, agricultural productivity, deforestation, medical advances, and future prospects for the environment. May be repeated up to 3 credits.

EPWS 390. Internship
1-3 Credits
Professional work experience under the joint supervision of the employer and a faculty member. A written report is required. Maximum of 3 credits. Graded S/U.
Prerequisite: consent of instructor.

EPWS 420. Environmental Behavior of Pesticides
3 Credits
Behavior of pesticide compounds in the environment, their function toward target and non target pest organisms including humans, effect of environmental conditions on pesticide function, ecology of organisms involved in pesticides degradation, overview of environmental regulation. CHEM 211 recommended prior to course. May be repeated up to 3 credits.

EPWS 447. Seminar
1 Credit
Organization and techniques for the oral presentation of research information. Restricted to: Main campus only.

EPWS 447 H. Seminar Honors
1 Credit
Organization and techniques for the oral presentation of research information. Students taking EPWS 447 H will have the additional assignment of making a poster on either scientific research or a scientific topic.
Prerequisite(s): Honors eligibility requirements.
EPWS 449. Special Problems
1-3 Credits
Individual investigation in specific areas of entomology, plant pathology or plant physiology. Maximum of 3 credits per semester and a grand total of 6 credits.

EPWS 451. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 6 credits. 
Prerequisite: consent of instructor.

EPWS 455. Advanced Integrated Pest Management
3 Credits
Examination of factors affecting the biology and ecology, population evaluations, and control of insect, disease, and weed pests with an emphasis on integrating management practices. Credit cannot be given for both EPWS 455 and EPWS 505. Crosslisted with: EPWS 505. 
Prerequisite(s): Either EPWS 303 or EPWS 310 or EPWS 311, or consent of instructor.

EPWS 456. Biological Control
3 Credits
Principles of plant and animal suppression using living organisms. Interaction of biological control organisms with biotic and abiotic factors will be stressed. Credit cannot be given for both EPWS 456 and EPWS 506. 
Prerequisite: introductory course in entomology.

EPWS 462. Parasitology
3 Credits
Introduction to classification, biology, ecology and management of the major parasites of human, domestic animals and wildlife.

EPWS 462 L. Parasitology Lab
1 Credit
Introduction to classification, biology, ecology and management of the major parasites of human, domestic animals and wildlife. May be repeated up to 1 credits.

EPWS 471. Plant Mineral Nutrition
3 Credits
Same as HORT 471 and AGRO 471.

EPWS 475. Urban Entomology
3 Credits
Study of insects and related arthropods in urban settings, about their impact on humans and damages to building. Principles of Integrative Pest Management (IPM) strategies with emphasis on current control techniques for detection, control and monitoring. May be repeated up to 3 credits.
Prerequisite(s): Either BIOL 111G or BIOL 211G.

EPWS 481. Plant Nematology
3 Credits (2+2P)
Biology, ecology and basic identification of soil-inhabiting nematodes, with emphasis on host-parasite relationships and management principles for plant-parasitic genera.

EPWS 486. Plant Virology
3 Credits
An overview of viral pathogens associated with infectious plant disease. Includes pathogens, replication, genetics, transmission, and movement of plant viruses.

EPWS 492. Diagnosing Plant Disorders
3 Credits (2+3P)
Systematic diagnosis of the physiological, pathological, and entomological causes of plant disorders. Same as AGRO 492 and HORT 492. 
Prerequisites: EPWS 303, EPWS 310.

EPWS 502. General Entomology
4 Credits
Prerequisite(s): BIOL 111G or BIOL 211G.

EPWS 505. Advanced Integrated Pest Management
3 Credits
Examination of the factors affecting the biology and ecology, population evaluations, and control of insect, disease, and weed pests, with an emphasis on integrating management practices. Crosslisted with: EPWS 455. 
Prerequisite(s): EPWS 303 or EPWS 310 or EPWS 311 or consent of instructor.

EPWS 506. Biological Control
3 Credits
Principles of plant and animal pest suppression using living organisms. Interaction of biological control organisms with biotic and abiotic factors will be stressed. Individual paper or project required. Credit cannot be given for both EPWS 456 and EPWS 506. 
Prerequisite: introductory course in entomology.

EPWS 510. Plant Pathology
4 Credits
Cause and methods of prevention and treatment of diseases in plants. Projects and reports will be adjusted to graduate level status.
Prerequisite(s): Graduate status.

EPWS 511. Introduction to Weed Science (f)
4 Credits (3+2P)
Covers the principles of weed science with emphasis on characteristics of invasive plants, methods of integrated weed management, and current issues impacting weed management. Includes identification of local weeds. Research paper required for graduate credit. Crosslisted with: AGRO 511. 
Prerequisite(s): CHEM 111G and BIOL 211G.

EPWS 514. Plant Physiology
3 Credits
Overview of photosynthesis, respiration, water relations of plants, minerals and organic nutrition, growth and development. 
Prerequisite(s): BIOL 211G, CHEM 112G.

EPWS 520. Environmental Behavior of Pesticides (so)
3 Credits
Behavior of these compounds in the environment, their function toward target and non target pest organisms including humans, effect of environmental conditions on pesticide function, ecology of organisms involved in pesticides degradation, overview of environmental regulation. CHEM 211 recommended prior to course. May be repeated up to 3 credits.
EPWS 525. Scientific Writing- How to be a Productive and Effective Writing  
1-3 Credits (1-3)  
Students will learn to improve their writing skills so that their manuscript preparation process is more efficient and productive. Students will also gain experience in peer-review. Crosslisted with: AGRO 525, HORT 525 and SOIL 525.

EPWS 549. Special Problems  
1-4 Credits  
Individual investigation in specific areas of entomology, plant pathology, and weed science. Maximum of 4 credits per semester and a total of 6 credits.

EPWS 551. Special Topics  
1-4 Credits  
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree.

EPWS 573. Fungal Biology  
3 Credits (2+2P)  
Introduction to the taxonomy, morphology, physiology, and ecology of fungi. Same as BIOL 573.  
Prerequisite(s): EPWS 310 or consent of instructor.

EPWS 575. Urban Entomology  
3 Credits  
Study of insects and related arthropods in urban settings, about their impact on humans and damages to building. Principles of Integrate Pest Management (IPM) strategies with emphasis on current control techniques for detection, control, and monitoring.  
Prerequisite(s): Either BIOL 111G or BIOL 211G.

EPWS 590. Graduate Seminar  
1 Credit  
Review of current scientific literature in entomology, plant pathology, and weed science, and verbal presentation of information. No more than 2 credits toward a degree.

EPWS 598. Graduate Internship  
1-6 Credits  
Supervised professional on-the-job learning experience. Limited to Master of Agriculture candidates. Not more than 6 credits toward the degree.

EPWS 599. Master's Thesis  
15 Credits  
Thesis.

Agricultural Biology - Bachelor of Science in Agriculture  
The agricultural biology course work prepares you for a variety of careers in the biological sciences and agriculture. You will develop your curriculum with an academic advisor to attain your individual goals. Many will pursue advanced degrees in the sciences or prepare for admittance to professional schools (medical, dental, etc.). A diverse program is offered with five separate concentrations that allow you to tailor your program for careers in the commercial sector, such as agricultural consulting, and pest management or for careers with county, state, or federal agencies, such as research technicians, land managers, and extension agents. A minimum of 120 credit hours is required for graduation. Any undergraduate student majoring in Agricultural Biology must earn a grade of C- or higher in core (EPWS prefix) courses to satisfy degree requirements. Students earning a D or F in a core (EPWS prefix) course will be expected to repeat that course until the student earns a grade of C- or higher. The following courses are required for a major in Agricultural Biology.

Concentrations: Applied Biology  
The Applied Biology concentration prepares you for professional advancement including admittance to medical, dental, veterinary and graduate schools. Students interested in the health professions must register with the Health Professional Advisory Committee no later than the sophomore year. Students should check the specific entrance requirements for the professional or graduate school of their choice prior to selecting electives within this option.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Electives, to bring the total credits to 120  4  16-14

Suggested Electives

MATH 192G  Calculus and Analytic Geometry II
PHYS 212G  General Physics II
or PHYS 222G  General Physics for Life Sciences II

Total Credits  120

1  MATH 121G College Algebra is required for the degree but students may need to take any prerequisites needed to enter MATH 121G College Algebra first.
2  See the General Education (p. 49) section of the catalog for a full list of courses
3  See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses

Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Concentration: Applied Microbiology

The Applied Microbiology biotin prepare you for professional positions in algal biofuels, environmental monitoring and improvement, industrial applications of microbiology, food sanitation, research or graduate study.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

1 MATH 121G College Algebra is required for the degree but students may need to take any prerequisites needed to enter MATH 121G College Algebra first.

2 See the General Education (p. 49) section of the catalog for a full list of courses.

3 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
### Concentration: Pest Biology and Management

This concentration prepares you for careers such as insect, weed and disease management; in both field and urban environments, including IPM and Sustainable/Organic Techniques research technician; federal and state agencies; border security; agricultural consulting; and extension positions.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Entomology - Undergraduate Minor

Prefix  Title  Credits
Courses required for minor:
EPWS 302  General Entomology  4
EPWS 325V  Insects, Humans, and the Environment  3

Choose from the following Courses:
EPWS 303  Economic Entomology  3
or  EPWS 475  Urban Entomology  3

Total Credits  18

Pest Management - Undergraduate Minor

Prefix  Title  Credits
Courses required for minor:
EPWS 302  General Entomology  4
EPWS 310  Plant Pathology  4
EPWS 311  Introduction to Weed Science  4

Choose from the following Courses:
EPWS 100  Applied Biology  4
EPWS 100 L  Applied Biology Lab  4
EPWS 451  Special Topics  4
EPWS 462  Parasitology  4

Total Credits  18

Plant Pathology - Undergraduate Minor

Prefix  Title  Credits
Courses required for minor:
EPWS 310  Plant Pathology  4
EPWS 373  Fungal Biology  3
EPWS 486  Plant Virology  3

Choose from the following Courses:
EPWS 100  Applied Biology  4
EPWS 100 L  Applied Biology Lab  4
EPWS 303  Economic Entomology  3
EPWS 451  Special Topics  3
Upper-division EPWS course(s): (3-6 credits)

Total Credits  18

Weed Science - Undergraduate Minor

Prefix  Title  Credits
Courses required for minor:
EPWS 311  Introduction to Weed Science  4
EPWS 314  Plant Physiology  3
EPWS 420  Environmental Behavior of Pesticides  3
or  EPWS 456  Biological Control  3

Choose from the following Courses:

Total Credits  18

the department.

Degrees for the Department
Family and Child Science - Bachelor of Science in Family and Consumer
Sciences (p. 163)
Family and Consumer Sciences Education - Bachelor of Science in Family
and Consumer Sciences (p. 165)
Fashion Merchandising and Design - Bachelor of Science in Family and
Consumer Sciences (p. 167)
Food Science and Technology (Culinary Science) - Bachelor of Science in
Food Science and Technology (p. 169)
Food Science and Technology (Meat Science) - Bachelor of Science in
Food Science and Technology (p. 171)
Food Science and Technology (Science, Technology (p. 174) and
(p. 174) Engineering) - Bachelor of Science in Food Science and
Technology (p. 174)
Human Nutrition and Dietetic Sciences (Nutrition Education) - Bachelor of
Science in Family and Consumer Sciences (p. 176)
Human Nutrition and Dietetic Sciences (Pre-Dietetics/Dietetics) -
Bachelor of Science in Family and Consumer Sciences (p. 178)
Family and Consumer Sciences - Master of Science (p. 182)

Minors for the Department
Child Advocacy Studies (CAST) - Undergraduate Minor (p. 181)
Clothing, Textiles and Fashion Merchandising - Undergraduate Minor
(p. 181)
Culinary Science - Undergraduate Minor (p. 181)
Family and Child Science - Undergraduate Minor (p. 182)
Food Science - Undergraduate Minor (p. 182)
Nutrition - Undergraduate Minor (p. 182)

Professor, Priscilla Bloomquist, Interim Department Head

Professor Devall

Associate Professors Bartley, Marin, Montanez

Assistant Professors Ahn, Delgado, Martin, Rogus

College Associate Professor Vaillancourt

College Assistant Professors Coffeen, O'Donnell, Phillips

I. Ahn, Ph.D. (Chung-Ang University, Korea) - textile and clothing; S. Bartley,
Ph.D. (Tennessee) - family studies; P. Bloomquist, Ph.D. (New Mexico State) -
educational management; K. Coffeen, Ph.D. (New Mexico State) educational
leadership; E. Delgado, Ph.D. (Technical University of Berlin, Germany) -
food science and technology; E. Devall, Ph.D. (Georgia) - child and family
development; J. Hertzman, Ph.D. (University of Nevada) - educational
leadership; K. Mandabach, Ed.D. (Houston) - higher education cultural
and historical studies; S. Martin, Ph.D. (South Dakota State) - nutrition and
exercise science; M. Marin, Ph.D. (New Mexico State) - counseling and
educational psychology; M. Montanez, Ph.D. (Michigan State)—psychology; B. O’Donnell, M.S. (Simmons College)—nutrition and health promotion; S. Phillips, M.S. (New Mexico State)—family and consumer sciences; S. Rogus, Ph.D. (New York University)—nutrition and food studies; B. Stringam, Ph.D. (University of Northern Arizona)—education; K. Vaillancourt, Ph.D. (Virginia Tech)—family studies

Cooperative Extension Service W. Fedio, Ph.D. (University of Alberta-Canada)—food microbiology; N. Flores, Ph.D. (Kansas State)—food science; W. Hamilton, Ed.D. (Montana State)—adult education and administration; B. Jorgensen, Ph.D. (Virginia Tech)—family studies; S. Koukel, Ph.D. (Texas Tech)—family and consumer sciences education; K. Martinez, Ph.D. (New Mexico State)—educational leadership and administration

Child Advocacy Studies Courses

CAST 201. Introduction to Child Advocacy 3 Credits
This is the introductory course for child advocacy studies (CAST). It covers different models for understanding child maltreatment, types and indicators of child maltreatment, controversial topics in the field, and issues and laws related to child maltreatment in various countries around the world. Students will develop critical thinking and analytical skills in assessing child maltreatment. Restricted to Dona Ana campus only.

CAST 202. Professional and Systems Responses to Child Maltreatment 3 Credits
Course examines the professionals and systems that respond to allegations of child abuse and neglect. Includes the differences between civil and criminal proceedings; components of a court-worthy child abuse and neglect investigation; basic child forensic interviewing; an overview of child sex offenders; and current research and controversial issues affecting the field. Students majoring in social work, criminal justice, education, sociology, psychology, nursing, and other areas will enhance their capacity to strengthen the safety net that protects children.
Prerequisite(s): CAST 201V.

CAST 203. Prevention, Trauma Informed Treatment and Advocacy 3 Credits
This graduate level course examines the professionals and systems that respond to allegations of child abuse and neglect. Includes the differences between civil and criminal proceedings; components of a court-worthy child abuse and neglect investigation; basic child forensic interviewing; an overview of child sex offenders; and current research and controversial issues affecting the field. Students majoring in social work, criminal justice, education, sociology, psychology, nursing, and other areas will enhance their capacity to strengthen the safety net that protects children.
Prerequisite(s): CAST 201.

CAST 301V. Introduction to Child Advocacy 3 Credits
Historical review and evolution of child welfare policies, initiatives and factors that influence child welfare service. Child welfare policies and services specific to the state of New Mexico are infused throughout the course. Taught with MSW 590. Cannot receive credit for CAST 301 and MSW 590.

CAST 302. Professional and Systems Responses to Child Maltreatment 3 Credits
Course examines the professionals and systems that respond to allegations of child abuse and neglect. Includes the differences between civil and criminal proceedings; components of a court-worthy child abuse and neglect investigation; basic child forensic interviewing; an overview of child sex offenders; current research and controversial issues affecting the field. Students majoring in social work, criminal justice, education, sociology, psychology, nursing, and other areas will enhance their capacity to strengthen the safety net that protects children.
Prerequisite(s): CAST 301V.

CAST 303. Prevention, Trauma Informed Treatment and Advocacy 3 Credits
The purpose of this course is to prepare students to recognize the effects of child maltreatment and to apply intervention strategies for children and their families. Multidisciplinary approaches to prevention, advocacy, and treatment of child maltreatment survivors will be presented and discussed. Topics include violence prevention research, interdisciplinary family programs, how to advocate for survivors of child abuse, short- and long-term effects of child abuse, case management, working with families, mental health services and controversial issues. Crosslisted with: FCS 300
Prerequisite(s): CAST 301V.

CAST 501. Introduction to Child Advocacy 3 Credits
This is the introductory course for child advocacy studies (CAST). It covers different models for understanding child maltreatment, types and indicators of child maltreatment, controversial topics in the field, and issues and laws related to child maltreatment in various countries around the world. Students will develop critical thinking and analytical skills in assessing child maltreatment at the graduate level.

CAST 502. Professional and Systems Responses to Child Maltreatment 3 Credits
This graduate level course examines the professionals and systems that respond to allegations of child abuse and neglect. Includes the differences between civil and criminal proceedings; components of a court-worthy child abuse and neglect investigation; basic child forensic interviewing; an overview of child sex offenders; and current research and controversial issues affecting the field.

CAST 503. Prevention, Trauma Informed Treatment and Advocacy 3 Credits
The purpose of this course is to prepare graduate students to recognize the effects of child maltreatment and apply interventions strategies for children and their families. Multidisciplinary approaches to prevention, advocacy and treatment of child maltreatment survivors will be presented and discussed.
Prerequisite(s): A "B" or better in CAST 501.

Clothing, Textiles and Fashion Merchandising Courses

CTFM 178. Fundamentals of Fashion 3 Credits
Survey of the fashion business from fiber to end product.

CTFM 202. Fashion Practicum 1-3 Credits (1-3)
Applied field experience in the related areas of apparel design, fashion merchandising, and textile science. May be repeated up to 3 credits. Restricted to: CTFM majors. Restricted to Las Cruces campus only.
CTFM 270. Computer Applied Fashion Illustration
3 Credits (1+4P)
This course explores aspects of fashion illustration, from drawing basic fashion figures to producing finished professional illustrations in color. This course provides the opportunity for students to integrate their fashion design development with computer-aided systems. The emphasis is on fashion innovation and concept design exploration enhanced by computer applications. May be repeated up to 3 credits.
Prerequisite(s): CTFM 178, ART 110G.

CTFM 273. Basics of Apparel Construction
3 Credits (1+4P)
Students are introduced to professional standard sewing techniques and apparel construction. The techniques learned are applied to produce finished garments. Restricted to: FCSE, CTFM majors. Restricted to Las Cruces campus only.

CTFM 289. Fashion Studio I
3 Credits
Applied principles in the criteria of pattern making: flat pattern and draping techniques. Projects will require three dimensional approaches in apparel design. Restricted to: CTFM majors. Restricted to Las Cruces campus only.

CTFM 300. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a total of 9 credits toward a degree. Restricted to Las Cruces campus only.
Prerequisite(s): CTFM 178, CTFM 270.

CTFM 365. Apparel Analysis
3 Credits
An in-depth investigation of the development, production and comparison of wearing apparel. Focus on the structural, functional and decorative aspects of apparel. Emphasis on sourcing of companies and materials, costing of the product line, comparing design and manufacturing techniques that affect price, quality, and size of apparel. Restricted to: CTFM majors.
Prerequisite(s): CTFM 178 and CTFM 273.

CTFM 366. Historic Fashion
3 Credits
The study of clothing styles from 3500 BC through the 20th century. Restricted to: CTFM majors.
Prerequisite(s): CTFM 270.

CTFM 371. Textile Science
3 Credits (1+4P)
The study of fiber characteristics, fabric properties and the manufacturing processes that affect the selection, use, and care of textile goods.
Prerequisite(s): CTFM 273.

CTFM 372. Fashion Merchandising
3 Credits
A study of the processes required to bring consumer goods to the marketplace.
Prerequisite(s): CTFM 178.

CTFM 373. Advanced Apparel Construction II
3 Credits (1+4P)
This course builds on Basics of Apparel Construction and explores the application of advanced sewing technology across a range of fashion products. Restricted to: CTFM majors.
Prerequisite(s): CTFM 273.

CTFM 375. Fashion Buying
3 Credits
The application of planning, purchasing and controlling inventories using industry data and analytics. Includes merchandising math with an emphasis on product selection and pricing.
Prerequisite(s): ACCT 221 and CTFM 372.

CTFM 377. Fashion Study Tour
1-3 Credits (1-3)
Study of international/domestic fashion, designers, manufacturers, merchandisers and/or retailers. May be repeated up to 6 credits. Consent of Instructor required.

CTFM 384. Clothing for Special Needs
3 Credits
Selection, adaptation, and design of clothing that is functional and attractive for special needs populations such as for active sportswear, the handicapped, the elderly, and various specialty populations.
Prerequisite: consent of instructor.

CTFM 401. Professional Development
1 Credit
Introduction to the field experience including resume writing, interviewing skills, understanding business ethics and etiquette. Also includes a discussion of career paths and advice from industry guest speakers. Restricted to: CTFM majors.
Prerequisite(s): CTFM 372 and CTFM 375.

CTFM 402. Field Experience
1-3 Credits (1-3)
Practical experience in fashion, clothing design, manufacturing, merchandising, or retailing. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: CTFM majors.
Prerequisite(s): CTFM 401.

CTFM 403. Post-Field Experience
1 Credit
A case based approach to analyzing internship experiences. Students will share their experiences and prepare case studies about specific business issues they encountered during CTFM 402. Restricted to: CTFM majors.
Prerequisite(s): CTFM 402.

CTFM 460. Cultural Perspectives in Dress
3 Credits
Explores the social, psychological and cultural aspects of dress and appearance.

CTFM 473. Flat Pattern for Apparel Design
3 Credits (1+4P)
Applied design principles to flat patterns techniques including bodies, skirts, sleeves, neckline, and bodies-sleeve combinations. Projects will require three-dimensional approaches in apparel design. Restricted to: CTFM majors.
Prerequisite(s): CTFM 270 and CTFM 373.

CTFM 474. Fashion Promotion
3 Credits
A comprehensive examination of promotion in the merchandising environment of fashion related goods. Restricted to: CTFM majors.
Prerequisite(s): CTFM 372.
CTFM 476. Draping for Apparel Design
3 Credits (1+4P)
Development of garment shapes using draping techniques. Emphasis placed on torso development, contouring principles and design development on the form. This course exposes the student to the design process, from initial concept and muslin sample development to final execution of the finished garments. Restricted to: CTFM majors.
Prerequisite(s): CTFM 270 and CTFM 373.

CTFM 477. Capstone in Fashion Merchandising
3 Credits
Synthesizes previous coursework. Students apply multi-disciplinary principles to the analysis of fashion merchandising case studies and industry related challenges. Restricted to: CTFM majors.
Prerequisite(s): CTFM 402.

CTFM 492. Special Problems
1-4 Credits
Individual research study in a selected subject area of family and consumer sciences. Maximum of 4 credits per semester and a total of 6 credits toward a degree.

CTFM 571. Textile Science
3 Credits (1+4P)
The study of fiber characteristics, fabric properties and the manufacturing processes that affect the selection, use and care of textile goods. Students will be required to complete additional assignments beyond what is required for CTFM 371.

CTFM 572. Fashion Merchandising
3 Credits
A study of the processes required to bring consumer goods to the marketplace. Students will be required to complete additional assignments beyond what is required for CTFM 372.

CTFM 584. Graduate Study in Clothing for Special Needs
3 Credits (1+4P)
Graduate study in the selection, adaptation, and design of clothing that is functional and attractive for special needs populations such as active sportswear, handicapped, elderly, and various specialty populations.
Prerequisites: CTFM 476.

CTFM 598. Special Research Programs
1-4 Credits
Individual investigations, either analytical or experimental. May be repeated for a maximum of 4 credits per semester and no more than 6 credits toward a degree.

Family and Child Science Courses

FCS 181. Interpersonal Skills in Intimate Relationships
3 Credits
Developing social skills within friendships, dating relationships, marriage, parenting, and families. May be repeated up to 3 credits. Restricted to Las Cruces and Dona Ana campuses.

FCS 210. Infancy and Early Childhood in the Family
3 Credits
Research and theory relevant to prenatal development and the physical, mental, and socio-emotional development of the child from birth to age five. Attitudes, knowledge, and skills needed for working with young children and their families. Restricted to Las Cruces campus only.

FCS 211. Middle Childhood Development in the Family
3 Credits
Research and theory relevant to the physical, mental, social, and emotional development of the child from age five to age twelve. Attitudes, knowledge, and skills related to working with school-age children in the family system. Observation in a variety of settings may be required. Restricted to Las Cruces campus only.

FCS 212. Adolescent Development and the Family
3 Credits
Research and theory relevant to the physical, mental, social, and emotional development of the children ages 12 to 18. Attitudes, knowledge, and skills related to working with adolescents in the family system. Observation in a variety of settings may be required. Restricted to Las Cruces campus only.

FCS 213. Adult Development and Aging
3 Credits
Research and theory related to the physical, mental, social, and emotional development of older adults. Attitudes, knowledge, and skills related to working with older adults in the family system, including normative, and nonnormative transitions. Restricted to Las Cruces campus only.

FCS 300. Special Topics
1-4 Credits
Specific subjects and credits announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

FCS 301. Family Resource Management
3 Credits
This course provides an understanding of the decision-making process of families concerning the utilization of financial, personal, environmental, and social resources. In particular, the class will focus on how families develop, exchange, and allocate resources throughout the lifespan with the expectation that the most effective resource management decisions are made from positions of knowledge and understanding. May be repeated up to 3 credits.

FCS 380. Family Dynamics
3 Credits
The dynamics of family relationships and changes influencing contemporary families. Interaction between the family and other social systems will be examined. Open to nonmajors.

FCS 383. Parenting and Child Guidance
3 Credits
Theories, principles, and skills essential for parents and professionals in guiding children within the family system. Problem prevention techniques are stressed.

FCS 424. Field Experience: Issues and Ethics
3 Credits
Supervised work experience in community agencies providing services to family systems. Discussion of professional issues and ethical dilemmas. A total of 6 credits must be taken. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: CFS majors.
Prerequisite(s): FCS 380 or equivalent, junior standing, and an overall GPA of at least 2.5 or consent of instructor.

FCS 449V. Family Ethnicities and Subcultures
3 Credits
Comparative study of American family subsystems with respect to selected social, economic, and cultural backgrounds. Interaction of these subsystems in American society. Differentiated assignments for graduate students.
FCS 456. Research Methods
3 Credits
Introduction to research design and methodology in education and behavioral sciences. Overview of common research designs and data collection strategies. Prepares students to critique published research and understand basic skills including hypothesis development and conducting a literature search. Same as AXED 456.

FCS 492. Special Problems
1-4 Credits
Individual research in a selected subject area of family and consumer sciences. Maximum of 4 credits per semester and a total of 6 credits.

FCS 510. Infancy and Early Childhood in the Family
3 Credits
Research and theory relevant to prenatal development and the physical, mental, and socio-emotional development of the child from birth to age 5. Attitudes, knowledge, and skills needed for working with young children and their families. May be repeated up to 3 credits.

FCS 511. Middle Childhood Development in the Family
3 Credits
Research and theory relevant to the physical, mental, and socio-emotional development of children from ages five to twelve. Attitudes, knowledge, and skills needed for working with school-age children and their families. May be repeated up to 3 credits.

FCS 512. Adolescent Development and the Family
3 Credits
Advanced study in research and theory relevant to the physical, mental, social, and emotional development of the child, ages 12-18. Attitudes, knowledge, and skills related to working with adolescents in the family system. May be repeated up to 3 credits.

FCS 524. Supervised Practicum
1-9 Credits
Supervised experience in organizations providing services to families and children. Course subtitled in the Schedule of Classes. May be repeated for a maximum of 9 credits. Graded S/U.
Prerequisite: consent of instructor.

FCS 525. Supervised Clinical Practice
1-9 Credits (2-18P)
Supervised clinical experience in Marriage and Family Therapy. Includes reviews of audio, video, and/or live sessions and case presentations. Maximum of 9 credits toward a degree. May be repeated up to 20 credits.

FCS 548. Adult Development and Aging
3 Credits
Advanced study in research and theory related to the physical, mental, social, and emotional development of older adults. Attitudes, knowledge, and skills related to working with older adults in the family system, including normative and non-normative role transitions.

FCS 562. The Business and Practice of Marriage and Family Therapy
1 Credit
This seminar course will provide students with an overview of the business and practice of Marriage and Family Therapy to the end that they will understand how to develop and maintain a private practice in the field of MFT. Restricted to: FCS (MFT) majors. S/U Grading (S/U, Audit).

FCS 572. Family Dysfunction and Diagnosis
3 Credits
A study of the development of abnormal behavior patterns and characteristics to include the major mental and personality disorders and how these can influence and impact family systems. Emphasis is on the symptomology and/or life circumstances and events described in the various diagnostic categories.
Prerequisite(s): Students must be enrolled in a clinical program (i.e. MFT, CEP, MSW).

FCS 582. Theories of Marriage and Family Therapy
3 Credits
A balanced study of major theories, research, applications and principles of marriage and family therapy. This course will examine major therapy models and the theories they are derived from as well as the effectiveness of specific therapy models for specific mental health disorders through research.

FCS 583. Parenting and Child Guidance
3 Credits
Theories, principles, and skills essential for parents and professionals in guiding children within the family system. Problem prevention techniques are stressed.

FCS 584. Family Law and Ethics
3 Credits
Study of selected aspects of federal and state laws and ethical issues as they relate to the family system.

FCS 585. The Family System
3 Credits
Contemporary family interaction: concepts, composition, resource and environment.

FCS 586. Sexuality and Family Dynamics
3 Credits
Psychosocial and physiological aspects of human sexuality from a life span and family systems perspective.

FCS 587. Contemporary Marriage and Family Issues
3 Credits
Investigation of one of the following topics each semester: dual career marriages, nontraditional relationships, aged in marriage.

FCS 589. Family Crises and Rehabilitation
3 Credits
Examination of the major crises experienced by families. Emphasis on family system functioning rather than individual functioning. Preventative measures, positive coping strategies, and therapeutic intervention approaches examined.

FCS 590. Special Topics
1-4 Credits
Specific subjects to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a total of 9 credits toward a degree.

FCS 592. Strategies in Family Therapy
3 Credits
Effective intervention strategies in family therapy practice. Live and taped role plays of interventions for various family problems required. Constructive approaches for working with family systems and third-party payers.

FCS 598. Special Research Programs
1-4 Credits
Individual investigations either analytical or experimental. Maximum of 4 credits per semester and no more than 6 credits toward a degree.
Family and Consumer Science Courses

FCSC 400. Research Methods in Family and Consumer Sciences  
3 Credits  
Introduction to research design and methodology in Family and Consumer Sciences. Overview of common research designs and data collection strategies. Prepares students to critique published research and perform basic skills including hypotheses development and conducting a literature search.

FCSC 500. Research Methods  
3 Credits  
This course covers the critical evaluation of research literature, development of research proposals and principles of program evaluation. Students will be introduced to the application of qualitative or quantitative methods. Students will be expected to develop research questions and test hypotheses using statistical analysis and a variety of methodologies.

FCSC 598. Special Research Programs  
1-4 Credits  
Individual investigations, either analytical or experimental. Maximum of 4 credits per semester and no more than 6 credits toward a degree.

FCSC 599. Master's Thesis  
15 Credits  
May be repeated for unlimited credit, maximum of 6 credits toward a degree.

Family and Consumer Science Education Courses

FCSE 235. Housing and Interior Design  
3 Credits  
Investigation of types of housing and factors impacting housing decisions for families. Selection, planning, and arrangement of interior components of homes to meet the needs of the family. Restricted to Las Cruces campus only.
Prerequisite(s): No prerequisites.

FCSE 245. Overview of Family and Consumer Sciences Teaching  
3 Credits  
Overview of planning and teaching skills. Supervised experiences in observing and directing the learning of secondary family and consumer sciences students. Philosophy and history of the profession.

FCSE 345. Management Concepts in Family and Consumer Sciences Teaching  
3 Credits  
Incorporation and application of management concepts in family and consumer sciences subject matter. Practical experience teaching management and ways to use management skills to plan, implement, and evaluate the teaching-learning transaction.

FCSE 348. Teaching in Informal Family and Consumer Sciences Settings  
3 Credits  
Learning principles and theories with application in informal family and consumer sciences education situations. Includes supervised experience in use of teaching strategies.
Prerequisite: overall GPA of at least 2.5 or consent of instructor.

FCSE 445. Career and Technical Education Programs  
3 Credits  
History and development of career and technical programs. Ancillary functions of family and consumer sciences teachers, including student evaluation and leadership development for students. Experiences in extension programs and teaching. Ethical issues and concerns of educators are introduced. Lifelong leadership development and evaluation tools for educators are explored. May be repeated up to 3 credits.

FCSE 446. Teaching Methods I for Family and Consumer Sciences  
3 Credits  
Methods and strategies for teaching Family & Consumer Sciences content in middle and secondary schools. Organization and development of curriculum. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: FCSE majors.
Prerequisite(s): FCSE 245 and FCSE 345 and an overall GPA of 2.75, admitted to FCSE program; completion of NES Essential Basic Skills Tests I, II, & III.
Corequisite(s): FCSE 445.

FCSE 447. Teaching Methods II for Family and Consumer Sciences  
3 Credits  
Planning, preparation, and strategies for teaching family and consumer sciences in middle and secondary schools. Preparation for employment. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: FCSE majors.
Prerequisite(s): FCSE 446; overall GPA of 2.75, admitted to program.

FCSE 448. Supervised Teaching in Family and Consumer Sciences  
12 Credits  
Seventy (70) days of full-time supervised teaching in selected middle or secondary schools. May be repeated up to 12 credits. Consent of Instructor required. Restricted to: FCSE majors.
Prerequisite(s): FCSE 446, an overall GPA of 2.75, and admitted to FCSE Program.
Corequisite(s): FCSE 447.

FCSE 492. Special Problems  
1-4 Credits  
Individual research study in a selected subject area of family and consumer sciences. Maximum of 4 credits per semester and 6 credits toward degree.

FCSE 545. Career and Technical Education Programs  
3 Credits  
History and development of career and technical programs. Ancillary functions of family and consumer sciences teachers, including student evaluation and leadership development for students. Experiences in extension programs and teaching. Ethical issues and concerns of educators are introduced. Lifelong leadership development and evaluation tools for educators are explored. May be repeated up to 3 credits.

FCSE 546. Graduate Study in Vocational Programs for Youth and Adults  
3 Credits  
History and development of career and technical programs. Ancillary functions of family and consumer sciences teachers, including student evaluation and leadership development for students. Experiences in extension programs and teaching. Ethical issues and concerns of educators are introduced. Lifelong leadership development and evaluation tools for educators are explored. May be repeated up to 3 credits.

FCSE 547. Graduate Study in Teaching Methods I  
3 Credits  
Objectives, content, and organization of family and consumer sciences in high schools; materials and methods of teaching. Additional assignments beyond FCSE 446 required for students registering in FCSE 546.

FCSE 548. Graduate Study in Teaching Methods II  
3 Credits  
Planning, preparation, and strategies for teaching family and consumer sciences in the secondary schools. Additional assignments beyond FCSE 447 required for students registering in FCSE 547.
FCSE 548. Graduate Study in Supervised Teaching in Family and Consumer Sciences
12 Credits
Seventy of full-time, supervised teaching in selected schools. Additional assignments beyond FCSE 448 required for students registering in FCSE 548. Consent of Instructor required.
Prerequisite(s): FCSE 446 or FCSE 546, and consent of instructor.

FCSE 590. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. May be repeated for a maximum of 9 credits toward a degree, 4 credits per semester.

Food Science and Technology Courses

FSTE 164G. Introduction to Food Science and Technology
4 Credits (3+2P)
An introductory course in the scientific study of the nature and composition of foods and their behavior during all aspects of their conversion from raw materials to consumer food products.

FSTE 175. ACES in the Hole Foods I
4 Credits
Food production activities related to operation of ACES in the Hole Foods, a student-run food company that will give FSTE majors hands-on experience in all aspects of developing, producing and marketing food products Restricted to Las Cruces campus only.
Prerequisite(s): Students enrolled in this class must possess A Food Handler Card.

FSTE 200. Special Topics
1-4 Credits
Specific topics and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

FSTE 210G. Survey of Food and Agricultural Issues
3 Credits
Same as AG E 210G.

FSTE 263G. Food Science I
4 Credits (3+2P)
The scientific study of the principles involved in the preparation and evaluation of foods. May be repeated up to 4 credits.

FSTE 275. ACES in the Hole Foods II
4 Credits
Food production activities related to operation of ACES in the Hole Foods, a student-run food company that will give FSTE majors hands-on experience in all aspects of developing, producing and marketing food products. May be repeated up to 4 credits.
Prerequisite(s): Students enrolled in this class must possess A Food Handler Card.

FSTE 320. Food Microbiology
4 Credits (3+2P)
Detrimental and beneficial microbiological aspects of food products. Methods of quantification and identification of microorganisms associated with food spoilage and preservation. May be repeated up to 4 credits.
Prerequisite(s): (BIOL 111G and BIOL 111GL), or (BIOL 211G and BIOL 211GL), or BIOL 190, or consent of instructor.

FSTE 325. Food Analysis
3 Credits (2+2P)
Basic chemical and physical techniques used in establishing nutritional properties and overall acceptance of food products. May be repeated up to 3 credits.
Prerequisite(s): CHEM 111G or consent of instructor.

FSTE 328. Introduction to Food Engineering
3 Credits (2+2P)
Basic engineering principles including mass and energy balances, fluid flow, heat transfer and chemical kinetics and their application to food processing unit operations. Video and laboratory participation are used to enhance course content and relevance. May be repeated up to 3 credits.
Prerequisite(s): MATH 142G or consent of instructor.

FSTE 331. Food Preservation
3 Credits (2+2P)
Processes used in home and commercial food preservation, including canning, freezing, drying, and irradiation. May be repeated up to 3 credits.
Prerequisite(s): FSTE 263G.

FSTE 375. ACES in the Hole Foods III
4 Credits (2+2P)
Food production activities related to operation of ACES in the Hole Foods, a student-run food company that will give FSTE majors hands-on experience in all aspects of developing, producing and marketing food products. May be repeated up to 8 credits. Restricted to: FSTE majors.
Prerequisite(s): FSTE 275 and Have a Food Handler Card.

FSTE 421. Food Chemistry
3 Credits
Comprehensive study of the chemical and physiochemical properties of food constituents. Chemical changes involved in the production, processing, and storage of food products and basic techniques used to evaluate chemical and physiochemical properties of foods.
Prerequisites: CHEM 111G, CHEM 112G, and CHEM 211, or consent of instructor.

FSTE 423. Food Processing Technologies
4 Credits (3+2P)
Common food processing unit operations such as raw material preparation, separation, concentration, fermentation, pasteurization, sterilization, extrusion, dehydration, baking, frying, chilling, freezing, controlled atmosphere storage, water, waste and energy management, packaging, materials handling and storage and process control. Application of principles to processing food in a laboratory setting.
Prerequisite(s): FSTE 328.

FSTE 425. Sensory Evaluation of Foods
3 Credits (2+2P)
Principles and procedures involved in the sensory evaluation of foods. Physiological, psychological and environmental factors affecting the evaluation of sensory properties. Analysis and interpretation of sensory data.
Prerequisite(s): FSTE 263G and A ST 311 or STAT 251.

FSTE 429. Product Development
3 Credits (1+4P)
Application of chemical, physical, nutritional and psychological principles and experimental methods to the development and evaluation of a food product for a specified food product development competition.
Prerequisite(s): FSTE 320 and FSTE 425.
FSTE 430. Designing and Brewing Great Beers of the World
3 Credits (1+4P)
The science and technology of brewing unit operations and the ingredients used in beer brewing. That knowledge is then applied to designing and brewing classic world beer styles. Styles investigated change every semester but typically include India Pale Ale, Pale Ale, Stout, Porter, Hefeweisen, Scottish Ale, and Black IPA. Comprehensive evaluation of the product relative to style guidelines completes the design-brew-evaluate cycle. Students must be at least 21 years of age on the first day of class. May be repeated up to 3 credits.

FSTE 450. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits towards a degree. Consent of instructor required.

FSTE 475. ACES in the Hole Foods IV
1-4 Credits (2-8P)
Food production activities related to operation of ACES in the Hole Foods, a student-run food company that will give FSTE majors hands-on experience in all aspects of developing, producing and marketing food products. May be repeated up to 8 credits. Restricted to: FSTE majors.
Prerequisite(s): FSTE 375 Have a Food Handler Card.

FSTE 480. Food Safety
3 Credits
Provide students' knowledge on good manufacturing practices and prerequisite programs, conduct hazard analysis and determine preventive controls, define process, food allergen, sanitation and supply-chain preventive controls and discuss verification validation, recall and recordkeeping requirements with training and educational opportunities related to current best practices and guideline, and future regulatory requirements by establishing the Produce Safety Alliance. Students participate in a Mock Audit. Participants will receive an official FSPCA Preventive Controls Qualified Individual certificate issues by AFDO after attending this training program.
Prerequisite(s): FSTE 320 or BIOL 311, or consent of instructor.

FSTE 492. Special Problems
1-4 Credits
Individual research study in a selected subject of Family and Consumer Sciences. Maximum of 4 credits per semester and a grand total of 8 credits towards a degree. Consent of instructor required.

FSTE 500. Data Analysis for Food Scientists
3 Credits (3)
An introduction to data analysis of food scientists. Modern statistical techniques used to analyze typical data collected by food scientists and researchers will be covered. Consent of Instructor required.

FSTE 520. Graduate Study in Food Microbiology
3 Credits (2+3P)
Detrimental and beneficial microbiological aspects of food products. Methods of quantification and identification of microorganisms associated with food spoilage and preservation. Additional work required at the graduate level.
Prerequisites: BIOL 111G/111GL, or BIOL 211G/211GL, or consent of instructor.

FSTE 521. Graduate Study in Food Chemistry
3 Credits
Comprehensive study of the chemical and physiochemical properties of food constituents. Chemical changes involved in the production, processing and storage of food products and basic techniques used to evaluate chemical and physiochemical properties of foods. Additional work required at the graduate level.
Prerequisites: CHEM 111G, CHEM 112G, and CHEM 211, or consent of instructor.

FSTE 523. Food Processing Technologies
4 Credits (3+2P)
Common food processing unit operations such as raw material preparation, separation, concentration, fermentation, pasteurization, sterilization, extrusion, dehydration, baking, freezing, controlled atmosphere storage, water, waste and energy management, packaging, materials handling and storage and process control. Application of principles to processing food in a laboratory setting. Additional work beyond that for FSTE 423 required at the graduate level.
Prerequisite(s): FSTE 528.

FSTE 524. Sensory Evaluation of Foods
3 Credits (2+3P)
Principles and procedures involved in the sensory evaluation of foods. Physiological, psychological and environmental factors affecting the evaluation of sensory properties. Analysis and interpretation of sensory data.
Prerequisite(s): FSTE 263G and A ST 311 or STAT 251.

FSTE 525. Graduate Study in Food Analysis
3 Credits (2+3P)
Covers basic chemical and physical techniques used in establishing nutritional properties and overall acceptance of food products. Additional work required at the graduate level.
Prerequisite(s): CHEM 111G or consent of instructor.

FSTE 531. Food Preservation
3 Credits
Processes used in home and commercial food preservation, including canning, freezing, drying, and irradiation. Same as FSTE 331 with additional work required at the graduate level.

FSTE 532. Designing and Brewing Great Beers of the World
3 Credits (2+2P)
The science and technology of brewing unit operations and the ingredients used in beer brewing. That knowledge is then applied to designing and brewing classic world beer styles. Styles investigated change every semester but typically include India Pale Ale, Pale Ale, Stout, Porter, Hefeweizen, Scottish Ale, and Black IPA. Comprehensive evaluation of the product relative to style guidelines completes the design-brew-evaluate cycle. Students must be at least 21 years of age on the first day of class.

FSTE 560. Rumen Microbiology (so)
3 Credits
Same as ANSC 560.

FSTE 575. ACES in the Hole Foods
1-4 Credits (2-8P)
Food production activities related to operation of ACES in the Hole Foods, a student-run food company that will give FSTE majors hands-on experience in all aspects of developing, producing and marketing food products. May be repeated up to 8 credits.
Prerequisite(s): Students must possess a food handler card.
FSTE 598. Special Research Programs
1-4 Credits
Individual investigations either analytical or experimental. Maximum of 4 credits per semester and no more than 6 credits towards a degree. Consent of instructor required.

FSTE 600. Special Research Program
1-6 Credits (1-6)
Special research for doctoral students May be repeated up to 6 credits. Consent of Instructor required.

Prerequisite(s): Consent of instructor.

FSTE 601. Cooperative Extension Service Field Experience
1-3 Credits (1-3)
This course will provide students with knowledge and experience in community outreach through the cooperative extension service. This course is required for students pursuing a Ph.D. in FSHN. Students will work collaboratively with extension faculty on applied projects. May be repeated up to 3 credits. Consent of Instructor required. Restricted to: FSHN majors.

FSTE 605. Doctoral Seminar
1 Credit
Current topics and research in Food Science and Human Nutrition. Course will include experts from the field as guest speakers. Students will have the opportunity to present their doctoral proposals and/or research findings.

FSTE 620. Advanced Studies in Food Microbiology
3 Credits
Lectures, directed study, discussion and laboratory work in microflora of foods.

Prerequisite(s): FSTE 520 or consent of instructor.

FSTE 621. Advanced Studies in Food Chemistry
3 Credits
Lectures, seminars and/or laboratory work dealing with chemical and physiochemical properties of food constituents. Chemical changes involved in the production and storage of food products.

Prerequisite(s): FSTE 521 or consent of instructor.

FSTE 625. Advanced Studies in Food Analysis
3 Credits
Lectures, seminars, and/or laboratory work dealing with problem solving in food analysis. Consent of Instructor required.

Prerequisite(s): Consent of Instructor.

FSTE 626. Advanced Studies in Sensory Evaluation of Foods
3 Credits
Lectures, direct study, and discussion of such topics as sensory evaluation of foods. Analysis and interpretation of sensory data.

Prerequisite(s): FSTE 525 or consent of instructor.

FSTE 652. Functional Foods for Health
3 Credits
Integration of food science and human nutrition to analyze chemical properties and constituents that make a food product functional. Investigation of the physiological effects of functional foods and their relation to health. Overview of functional food development and production.

FSTE 698. Doctoral Reserach
1-6 Credits (1-6)
Research May be repeated up to 6 credits. Consent of Instructor required.

FSTE 700. Doctoral Dissertation
1-12 Credits (1-12)
Dissertation May be repeated up to 18 credits. Consent of Instructor required.

Prerequisite(s): Passed the qualifying exam and comprehensive exam.

Human Nutrition and Diet Courses

HNDS 201. Seminar 1- The Field of Dietetics
1 Credit
This course will introduce students to the field experience, careers, and professions in nutrition. This course is required for students pursuing a Didactic Program in Dietetics verification statement. May be repeated up to 1 credits. Consent of Instructor required. Restricted to: HNDS majors. Restricted to Las Cruces and Dona Ana campuses.

HNDS 251. Human Nutrition
3 Credits
Principles of normal nutrition. Relation of nutrition to health. Course contains greater amounts of chemistry and biology than HNDS 163. Open to nonmajors.

HNDS 300. Special Topics
1-4 Credits
Specific topics and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

HNDS 350. Nutrition Throughout the Lifecycle
3 Credits
Relationship of the stages of the human life cycle to changes in nutrient need.

Prerequisite(s)/Corequisite(s): BIOL 226 or BIOL 254, or consent of instructor. Prerequisite(s): HNDS 251.

HNDS 360. Food for Health
4 Credits
This course is designed to provide students the opportunity to learn about the intersection of nutrition and health in terms of food and diet. Students will be introduced to basic concepts within nutrition education, nutrition communication, nutrition and health and food culture.

Prerequisite(s): FSTE 263; HNDS 251.

HNDS 363. Quantity Food Production and Service
4 Credits (1+6P)
Covers quantity food production including cooking concepts, sanitation and safety, teamwork, and management responsibilities. Students will apply this knowledge developing product for sale in a student run restaurant. Proof of current ServSafe or NM Food Handler certification required. May be repeated up to 6 credits. Crosslisted with: HRTM 363.

Prerequisite(s): HRTM 263.

HNDS 401. Field Experience- Clinical Dietetics
1-8 Credits (1-8)
Experience in various areas of clinical nutrition facilities with emphasis on nutrition care of patients. Practical experience with supervision by resident faculty as well as supervisor at work site. Performance at work site graded in accordance with university standards. May be repeated up to 8 credits. Consent of Instructor required. Restricted to: HNDS majors.

Prerequisite(s): HNDS 201, HNDS 350, HNDS 446; junior/senior standing.
HNDS 403. Community Nutrition
3 Credits
Overview of the practice of community nutrition. Includes program planning, needs assessment, program implementation and program evaluation. Role of public and private agencies in nutrition programs that impact on nutrition of individuals and groups in the community.
Prerequisite(s): HNFS 350 or consent of instructor.

HNDS 405. Seminar II- Entering the Field of Dietetics
1 Credit
Students will develop professional materials that will be used in their future careers including a personal statement, curriculum vitae, resume, and interview dialogues. Students will become familiar with career options in the field of dietetics and learn to navigate the processes of becoming a registered dietitian or dietetic technician, registered. Consent of Instructor required. Crosslisted with: HNDS 505. Restricted to: HNDS majors.
Prerequisite(s): Students must be enrolled in their last fall semester prior to planned graduation from the DPD program; HNDS 201, HNDS, 251, HNDS 350.
Corequisite(s): HNDS 403, HNDS 446, AND HNDS 448.

HNDS 407. Field Experience Community Nutrition
1-8 Credits
Experience working with nutritional problems of individual families of all socioeconomic and age levels and with agencies concerned with community nutrition. Practical experience with supervision by resident faculty as well as supervisor at the work site. Performance at work site graded in accordance with university standards. May be repeated up to 8 credits. Consent of Instructor required.
Prerequisite(s): HNDS 201, HNDS 350, junior/senior standing.

HNDS 409. Dietetic Science Capstone
3 Credits
This course will provide a cumulative review and assessment of the foundational knowledge, concepts, and skills presented throughout the didactic program in nutrition and dietetics to ensure readiness to proceed within the field of dietetics. Students will apply professional skills to prepare them for their future careers. Students will also be guided through the dietetic internship application process. Consent of Instructor required. Crosslisted with: HNDS 509. Restricted to: Dietetics Option majors.
Prerequisite(s): Students must be enrolled in their last spring semester prior to planned graduation from the DPD program.

HNDS 420. Nutrition Counseling and Communication
3 Credits
This course is designed to meet the needs of individuals entering the healthcare/dietetics field who have little counseling experience, but have a strong foundational knowledge in the field of dietetics. It includes counseling techniques and strategies, behavior change, interviewing, cultural competence, mass media, and nutrition education. May be repeated up to 3 credits. Consent of Instructor required.
Prerequisite(s): HNDS 251, HNDS 350, HNDS 446.

HNDS 430. Food Service Organization and Management
3 Credits
Personnel, financial and general management in institutional and commercial food service operations. May be repeated up to 3 credits.
Prerequisite(s): HRTM 263, Junior/senior standing or consent of instructor.

HNDS 440. Nutrition Education and Research
3 Credits
Course will enable students to apply general education and research knowledge to the field of nutrition. Nutrition information will be applied to education topics including learning objective development, backwards design of curriculum, student centered learning and learning assessment. Crosslisted with: HNDS 540.
Prerequisite(s)/Corequisite(s): HNDS 251, 350, and 360.

HNDS 446. Diet Therapy I
3 Credits
Special diets and physiological basis for their use. Laws and regulations concerning the practice of dietetics. May be repeated up to 3 credits.
Prerequisite(s): (HNDS 251, HNDS 350, BIOL 226 OR BIOL 254); BCHE 341.

HNDS 446 L. Diet Therapy I Laboratory
1 Credit
Supplements HNDS 446. Students will perform nutrition assessments, nutrition focused physical exams, apply medical nutrition therapy-based interventions and practice patient discharge education for specific disease states. Must be taken with HNDS446. Restricted to: HNDS majors.
Corequisite(s): HNDS 446.

HNDS 448. Advanced Nutrition
3 Credits
Application of biochemistry and physiology to nutrition. May be repeated up to 3 credits.
Prerequisite(s): HNDS 251, BIOL 226 OR BIOL 254, BCHE 341.

HNDS 449. Diet Therapy II
3 Credits
Continuation of HNDS 446.
Prerequisite: HNDS 446 or consent of instructor.

HNDS 449 L. Diet Therapy II Laboratory
1 Credit
Supplements HNDS 449. Students will apply medical nutrition therapy to specific disease states with special emphasis on writing nutrition support orders and learning to utilize nutrition support equipment. Must be taken with HNDS449. Restricted to: HNDS majors.
Corequisite(s): HNDS 449.

HNDS 450. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.

HNDS 455. Billing and Coding for Dietetics
3 Credits
This course provides students with an overview of billing and coding practices for medical nutrition therapy that ensure proper reimbursement for services. Students will learn nutrition related billing codes, apply nutrition care process terminology to documentation, and discover how policy affects current and future coverage of nutrition services. Crosslisted with: HNDS 555.
Prerequisite(s): HNDS 446, HNDS 449.

HNDS 492. Special Problems
1-4 Credits
Individual research study in a selected subject area of family and consumer sciences. Maximum of 4 credits per semester and a total of 8 credits. May be repeated up to 8 credits. Consent of Instructor required.
HNDS 500. Orientation to Dietetic Internship
3 Credits
Dietetic interns prepare for supervised practice rotations. Topics include professionalism, Code of Ethics, and dietetic internship portfolios. Consent of Instructor required.
Prerequisite(s): Acceptance into Dietetic Internship program.

HNDS 507. Laboratory Techniques in Nutrition
4 Credits (2+6P)
Methodology and experimental procedures in measuring nutrient requirements and values of diets. Same as ANSC 507.
Prerequisites: ANSC 422 or consent of instructor.

HNDS 509. Dietetic Science Capstone
3 Credits
This course will provide a cumulative review and assessment of the foundational knowledge, concepts, and skills presented throughout the didactic program in nutrition and dietetics to ensure readiness to proceed within the field of dietetics. Students will apply professional skills to prepare them for their future careers. Students will also be guided through the dietetic internship application process. Consent of Instructor required. Crosslisted with: HNDS 409.
Prerequisite(s): Students must be enrolled in their last semester of the DPD program.

HNDS 510. Graduate Study in Sports Nutrition
3 Credits
Role of nutrition and nutrients in physical performance of competitive and recreational sports participants. Additional work required at the graduate level.
Prerequisites: BIOL 254, BCHE 341, and HNDS 251, or consent of instructor.

HNDS 512. Research Methods in Animal Science
4 Credits
Same as ANSC 512.

HNDS 517. Graduate Seminar
1 Credit
Current topics. Same as ANSC 515.
Prerequisite: consent of instructor.

HNDS 520. Nutrition Counseling and Communication
3 Credits
This course is designed to meet the needs of individuals entering the healthcare/dietetics field who have little counseling experience, but have a strong foundational knowledge in the field of dietetics. It includes counseling techniques and strategies, behavior change, interviewing, cultural competence, mass media, and nutrition education. Students will review scientific literature to explore the development and application of behavior change theories to nutrition counseling and communication. Crosslisted with: HNDS 420.
Prerequisite(s): Students must be enrolled as a graduate student; HNDS 251; HNDS 350/550.

HNDS 522. Animal Nutrition (f)
3 Credits
Same as ANSC 522.

HNDS 530. Graduate Studies in Food Service Organization and Management
3 Credits
Personnel, financial, and general management in institutional and commercial food service operations. Additional work required at the graduate level.

HNDS 546. Diet Therapy I
3 Credits
Special diets and physiological basis for their use. Laws and regulations concerning the practice of dietetics. Additional assignments beyond HNFS 446 required for students registering in HNDS 546.
Prerequisites: BIOL 254, BCHE 341, and HNDS 251, or consent of instructor.

HNDS 548. Graduate Studies in Advanced Nutrition
3 Credits
Covers biochemistry and physiology applied to nutrition. Students enrolled in the 500-level class will be required to complete additional assignments beyond what is required for HNDS 448. Restricted to: Main campus only.

HNDS 549. Diet Therapy II
3 Credits
Continuation of HNDS 546.
Prerequisites: HNDS 446 or consent of instructor.

HNDS 551. Graduate Study in Community Nutrition
3 Credits
Overview on the practice of community nutrition to include program planning, needs assessment, program implementation and program evaluation. Role of public and private agencies in nutrition programs that impact on nutrition of individuals and groups in the community. Additional work required at the graduate level.
Prerequisite: HNDS 350 or consent of instructor.

HNDS 560. Dietetic Intern Seminar
1 Credit
Portfolio development for dietetic interns during supervised practice rotations. May be repeated up to 3 credits. Consent of Instructor required.
Prerequisite(s): Acceptance into the NMSU dietetic internship.

HNDS 562. Dietetic Internship: Supervised Practice in Community Nutrition
1-8 Credits (2-6P)
Provides dietetic interns with a minimum of 500 clock hours of supervised practice in community nutrition to include an emphasis in Cooperative Extension Service. Dietetic interns work under the guidance of faculty and community nutrition professionals. May be repeated up to 8 credits. Consent of Instructor required. Restricted to: HNFS majors.
Prerequisite(s): Acceptance into Dietetic Internship.

HNDS 563. Community Nutrition for Dietetic Interns
3 Credits
Advanced topics in community nutrition to include conducting community nutrition needs assessments, program planning and grant writing. Consent of instructor required. Restricted to HNDS majors.
Prerequisite(s): Acceptance into Dietetic Internship.

HNDS 564. Dietetic Internship: Supervised Practice in Food Service Management
1-5 Credits (2-10P)
Provides dietetic interns with a minimum of 300 clock hours of supervised practice in foodservice management. Dietetic interns work under the guidance of faculty and foodservice management professionals. Students must complete a total of 4 credit hours of HNDS 564. May be repeated up to 5 credits. Consent of Instructor required.
Prerequisite(s): Acceptance into Dietetic Internship.
HNDS 565. Foodservice Management for Dietetic Interns
3 Credits
Advanced topics in foodservice systems management to include
business planning and marketing. Consent of Instructor required.
Restricted to: HNDS majors.
Prerequisite(s): Acceptance into Dietetic Internship.

HNDS 566. Dietetic Internship: Supervised Practice in Clinical Dietetics
1-8 Credits (2-16P)
Provides dietetic interns with a minimum of 500 clock hours of
supervised practice in clinical dietetics. Dietetic interns work under the
guidance of faculty and dietetics professionals. May be repeated up to 8
credits. Consent of Instructor required.
Prerequisite(s): Acceptance into Dietetic Internship.

HNDS 567. Nutrition Care Process for Dietetic Interns
3 Credits
Advanced topics in nutrition care process and model to include
medical nutrition therapy and evidence-based research and outcomes
assessment in clinical dietetics. Consent of instructor required.
Restricted to HNDS majors.
Prerequisite(s): Acceptance into Dietetic Internship.

HNDS 568. Review Course for National RD Exam
3 Credits
Completion of dietetic internship portfolio and preparation for the
national registration examination for dietitians. Consent of Instructor
required.
Prerequisite(s): Acceptance into Dietetic Internship.

HNDS 590. Special Topics
1-4 Credits
Specific subjects to be announced in the Schedule of Classes. Maximum
of 4 credits per semester and a total of 9 credits toward a degree.

HNDS 598. Special Research Programs
1-4 Credits
Individual investigations either analytical or experimental. Maximum of 4
credits per semester and no more than 6 credits toward a degree.

Family and Child Science - Bachelor of Science in Family and Consumer Sciences

This major stresses the interrelationship of individuals across the life
span and the impact of social and economic factors on the family
system. Graduates are prepared for professional work with social and
community agencies and other programs serving families. This degree
program has been deemed a CFLE-approved academic program by the
National Council on Family Relations’ Certified Family Life Educator
program so that you can apply through the abbreviated application
process to become a CFLE upon graduation. You must work closely with
an advisor. You must achieve a grade of C- or higher in your required core
and minor courses, and must retake required courses with a grade lower
than C-. You must have a GPA of 2.5 or higher before enrolling in

Students are recommended to declare a minor related to the FCS field
such as CAST, C EP, ECED, GERO, PHLS, PSY, SOC, S WK and W S in order to
solidify the minor/elective requirements below and the suggested
roadmap.

General Education Requirements
A list of specific general education requirements is available in the
department. Please check with your advisor.

Students must complete all University degree requirements, which
include: General Education requirements, Viewing a Wider World
requirements, and elective credits to total at least 120 credits with 48
credits in courses numbered 300 or above. Developmental coursework
will not count towards the degree requirements and/or elective
credits, but may be needed in order to take the necessary English and
Mathematics coursework.

FCS 210 Infancy and Early Childhood in the Family (C- or better)
FCS 211 Middle Childhood Development in the Family (C- or better)
Family and Consumer Sciences Education - Bachelor of Science in Family and Consumer Sciences

This major prepares you to teach in middle or high school or in other settings such as the Cooperative Extension Service or community agencies. The major is an accredited education program which meets the teacher licensure requirements for the State of New Mexico. In the spring semester of the senior year, you will apply all the principles of teaching that you have learned in a semester of student teaching in a selected school. Requirements for admission to the student teaching component of the Family and Consumer Sciences Education are:

1. an overall grade-point average of 2.75 or higher, and a grade-point average of 2.75 or higher in family and consumer sciences courses;
2. evidence of passing NES Essential Academic Tests I, II, III;
3. a C or better in all departmental courses; and
4. recommendation of the advisor.

You must have passed the NES Essential Academic Tests I, II, III and you must have a GPA of 2.75 or higher before enrolling in the following FCSE courses:

## Fashion Merchandising and Design - Bachelor of Science in Family and Consumer Sciences

The Fashion Merchandising and Design major prepares students to achieve career goals in the diverse areas of the fashion industry. Students are prepared with well-rounded coursework related to the creative, technical and business aspects of the industry. The program develops the business knowledge, design fundamentals and industry experience needed to compete in today’s fashion industry. The required coursework includes completion of a minor in Marketing as well as gaining valuable hands-on field-experience. A GPA of 2.5 or better is required to enroll in CTFM 402 Field Experience to complete the degree requirements.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

120-123

1. See the General Education (p. 49) section of the catalog for a full list of courses.
Second Year

Fall
Oral Communication Course 1 3
ACCT 221 Principles of Accounting I (Financial) 3
General Education Elective Course 1 3-4
CTFM 365 Apparel Analysis 3
CTFM 371 Textile Science 3

Credits 15-16

Spring
Either an Area IV/V: Social/Behavioral Sciences Course or Humanities 1,4 3
E elective Course 2 3
CTFM 372 Fashion Merchandising 3
CTFM 375 Fashion Buying 3
Choose one from the following:
ECON 201G Introduction to Economics 3
ECON 251G Principles of Macroeconomics 3
ECON 252G Principles of Microeconomics 3

Credits 15

Third Year

Fall
MKTG 311V Consumer Behavior 3
Area III: Laboratory Sciences Course 1 4
CTFM 373 Advanced Apparel Construction II 3
CTFM 460 Cultural Perspectives in Dress 3
Choose one from the following:
MGT 309 Human Behavior in Organizations 3
MGT 332 Human Resources Management 3

Credits 16

Spring
MKTG 313 Retail Management 3
CTFM 366 Historic Fashion 5 or THTR 307V 3
or Society in Style: Fashion, History and Culture 3
CTFM 473 Flat Pattern for Apparel Design 3
CTFM 401 Professional Development 1 5
Elective Course(s) 2

Credits 15

Fourth Year

Fall
MKTG 317 International Marketing 3
MGT 388V Leadership and Ethics 3
Departmental Elective Course 6 3
CTFM 474 Fashion Promotion 3
CTFM 402 Field Experience 1-3
CTFM 403 Post-Field Experience 1

Credits 14-16

Spring
MKTG Elective Course (Upper-Division) 3
Departmental Elective Course 6 3
Elective Course 2 3
CTFM 476 Draping for Apparel Design 3
CTFM 477 Capstone in Fashion Mechandising 3

Credits 15

Total Credits 120-123

1 See the General Education (p. 49) section of the catalog for a full list of courses
2 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
3 A ST 251G Statistics for Business and the Behavioral Sciences/STAT 251G Statistics for Business and the Behavioral Sciences is required for the degree but students may need to take MATH 120 as a prerequisite. If this course is used to fulfill the Math Basic Skills requirement, a C- or better is required.
4 One Area IV: Social/Behavioral Sciences course and one Area V: Humanities course must be taken in order to fulfill the General Education requirements.
5 If THTR 307V is taken than students will not need to take an additional Viewing a Wider World course.
6 Departmental Electives can be completed by taking either CTFM 377 Fashion Study Tour, any FCS course or any FCSE course, but make sure to check any prerequisites on courses before enrolling.

Please Note: Many scholarships require enrollment in a minimum of 15 credits per semester, so additional elective coursework may be required to remain eligible for scholarships.

Food Science and Technology (Culinary Science) - Bachelor of Science in Food Science and Technology

Food science is the science of food. Food scientists study the physical, microbiological, and chemical makeup of food. Food technology is the application of food science to the selection, preservation, processing, packaging, distribution, and use of safe food. The food industry is the largest manufacturing industry in the United States. This multidisciplinary field applies scientific disciplines including chemistry, microbiology, nutrition and engineering to develop new food products as well as the processes designed to improve food safety and the quality of foods. Food scientists develop new foods, add value to raw food commodities and improve the quality and safety of foods. There are three concentration areas offered to allow students to focus on a specific area of interest:

1. Science, Engineering and Technology
2. Culinary Science
3. Meat Science

Consider exploring food science through our introductory course: Food Science I (FSTE 263G) which fulfills the general education Area III Laboratory Science requirement. Food scientists typically work in the food and beverage industry in the areas of quality assurance, product development, product procurement, research, sensory evaluation, sales,
and food safety regulations. Graduates of the program will also be prepared for postgraduate studies leading to research, production and management careers in the food and feed industries, government and academia.

A minimum grade of C- is required in all classes with CHEM, BCHE, BIOL, FSTE, or HNDS prefix.

**Requirements**

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Total Credits 120

1. See the General Education (p. 49) Section of the catalog for a full list of courses
2. MATH 142G Calculus for the Biological and Management Sciences is required for the degree but students may need to take any prerequisites needed to enter MATH 142G first.
3. See the Viewing a Wider World (p. 53) Section of the catalog for a full list of courses
4. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

**A Suggested Plan of Study for Students**

This roadmap assumes student placement in MATH 142G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in Mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

---

1. See the General Education (p. 49) Section of the catalog for a full list of courses.
2. Students must take one Area V: Humanities and one Area VI: Creative and Fine Arts course in order to complete the General Education requirements.
3. MATH 142G Calculus for the Biological and Management Sciences is required for the degree but students may need to take any prerequisites needed to enter MATH 142G first.
4. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
5. See the Viewing a Wider World (p. 53) Section of the catalog for a full list of courses.
Food Science and Technology (Science, Technology and Engineering) - Bachelor of Science in Food Science and Technology

Food science is the science of food. Food scientists study the physical, microbiological, and chemical makeup of food. Food technology is the application of food science to the selection, preservation, processing, packaging, distribution, and use of safe food. The food industry is the largest manufacturing industry in the United States. This multidisciplinary field applies scientific disciplines including chemistry, microbiology, nutrition and engineering to develop new food products as well as the processes designed to improve food safety and the quality of foods. Food scientists develop new foods, add value to raw food commodities and improve the quality and safety of foods. There are three concentration areas offered to allow students to focus on a specific area of interest:

1. Science, Engineering and Technology
2. Culinary Science
3. Meat Science

Consider exploring food science through our introductory course: Food Science I (FSTE 263G) which fulfills the general education Area III Laboratory Science requirement. Food scientists typically work in the food and beverage industry in the areas of quality assurance, product development, product procurement, research, sensory evaluation, sales, and food safety regulations. Graduates of the program will also be prepared for postgraduate studies leading to research, production and management careers in the food and feed industries, government and academia.

A minimum grade of C- is required in all classes with CHEM, BCHE, BIOL, FSTE, or HNDS prefix.

Requirements

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

4 MATH 142G Calculus for the Biological and Management Sciences is required for the degree but students may need to take any prerequisites needed to enter MATH 142G first.
A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 142G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Course Title Credits

Human Nutrition and Dietetic Science (Nutrition Education) - Bachelor of Science in Family and Consumer Sciences

This concentration prepares students to become nutrition educators that work within the community and public health settings. This concentration focuses on health and wellness, the association between nutrition and health, and teaching healthy living. Graduates from the Nutrition Education concentration will have learned the skills to communicate evidence-based nutrition information, provide nutrition education, and blend nutrition with other health science subjects. The job opportunities for those graduating from this program include working as a nutrition educator or nutrition assistant in county agencies, Extension Services, community nutrition programs, schools and with health organizations.

Unlike the Dietetics concentration, this concentration does not prepare students to pursue the credential of a Registered Dietitian.

Concentration: Nutrition Education (General)

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Due to the large number of PHLS course in the Nutrition Education option, students are encouraged to pursue a Public Health minor. Please see an advisor for more information and to view a Nutrition Education & Public Health minor roadmap.

| Credits | 14 |

| Total Credits | 120-121 |

1. MATH 121G College Algebra is required for the degree but students may need to take any prerequisites needed to enter MATH 121G first.
2. Not required for the degree. Highly recommended if new to NMSU.
3. AXED 456 Introduction to Research Methods is only taught in the Fall semesters, this will require changes to year three- spring and year four- fall semesters, speak with your advisor if you’d like to take this course.
4. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses, cannot be offered through the College of Health and Social Services.
5. See the General Education (p. 49) section of the catalog for a full list of courses.

**Human Nutrition and Dietetic Science (Pre-Dietetics/Dietetics) - Bachelor of Science in Family and Consumer Sciences**

The Dietetics option prepares students to become registered dietitians (RD) and dietetic technicians, registered (DTR). This option encompasses nutritional science, clinical dietetics, community nutrition, food science and food service management.

All students enrolled in this option begin as Pre-Dietetics students. All Pre-Dietetics students are required to apply for admission into the Dietetics option in the fall semester of their junior year as indicated on the Pre-Dietetics/Dietetics road map. Please refer to the HNDS Undergraduate Student Handbook for information on the admissions criteria, application instructions, and the application process. Pre-Dietetic students are termed Dietetic students upon formal notification of admission into the Dietetics program.

The Dietetics option is a Didactic Program in Dietetics (DPD) that is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND). This option enables graduates to continue pursuing the credentials of a registered dietitian (RD). Becoming an RD is currently a three-step process:

1. Successfully complete an ACEND-accredited DPD program (e.g. the NMSU Dietetics Option), earn a degree and a verification statement...
a. The verification statement ensures eligibility to apply to the next step.

2. Successfully complete an ACEND-accredited Dietetic Internship (DI) program, earn another verification statement.
   a. This 2nd verification statement ensures eligibility to begin the next step.

3. Pass the Commission on Dietetic Registration (CDR) registration exam.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 123 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

</tbody>
</table>
See the General Education (p. 49) section of the catalog for a full list. Please refer to the HNDS Undergraduate Student Handbook for a list of recommended courses to choose from in order to fulfill these requirements.

MATH 121G College Algebra or MATH 142G Calculus for the Biological and Management Sciences is required for the degree but students may need to take any prerequisites needed to enter MATH 121G or MATH 142G first.

See the Viewing a Wider World (p. 49) section of the catalog for a full list of courses. Refer to the "List of Recommended GE courses" for HNDS students in the HNDS Undergraduate Student Handbook for a list of field-related course options that can be selected from the GE Core Curriculum and Viewing a Wider World course requirements.

**A Suggested Plan of Study for Students**

During the following semesters, a student may need to submit for an overload to enroll in over 18 credits of course work (see the NMSU Regulations section-Course Load for Undergraduate Students (p. 67) for more information):

- **Third Year:** Fall Semester

This roadmap assumes student placement in MATH 121G and ENGL 111G. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

A minor in Culinary Science is available. The minor requires a minimum of 18 credits of which a minimum of 9 hours must be at the 300 or higher level. Specific coursework requirements apply and depend on the student’s specific major. See an advisor for course requirements and scheduling.

Family and Child Science - Undergraduate Minor

A minor in Family and Child Science is available. The minor requires a minimum of 18 hours of which a minimum of 9 hours must be at the 300 or higher level. Specific coursework requirements may apply. See an advisor for course requirements and scheduling.

Food Science - Undergraduate Minor

A minor in Food Science is available. The minor requires a minimum of 18 hours of which a minimum of 9 hours must be at the 300 or higher level. Specific coursework requirements may apply. See an advisor for course requirements and scheduling.

Nutrition - Undergraduate Minor

A minor in Nutrition is available. The minor requires a minimum of 18 hours of which a minimum of 9 hours must be at the 300 or higher level. Specific coursework requirements may apply. See an advisor for course requirements and scheduling.

Family and Consumer Sciences - Master of Science

The Master of Science degree in Family and Consumer Sciences can be obtained with an emphasis in one of the following areas:

- hotel, restaurant and tourism management;
- clothing, textiles and fashion merchandising;
- family and child science (marriage and family therapy emphasis or teaching and research emphasis);
- human nutrition and dietetic sciences (dietetic internship emphasis or human nutrition emphasis);
- food science and technology;
- family and consumer sciences education;
- or general family and consumer sciences.

A minor may be taken in a variety of supporting fields that fit the particular interests of the candidate. A minimum of 30 credits (including 4-6 credits of thesis) is required under the thesis plan and is the recommended program for most students. A non-thesis plan is available that requires a minimum of 32 credits of course work with a written comprehensive examination. Both plans require a final oral examination.

Students will take 3 credits of statistics and 3 credits of research methodology at the graduate level. Students may be required to take a graduate-level technical writing course based on demonstrated writing ability in initial graduate courses. Students who do not have degrees related to their intended areas of specialization may be required to do some leveling work. Prior to the completion of 12 credits, a program advisory committee will be established to determine, with the student, the courses that will be taken for the degree work.

Fish, Wildlife and Conservation Ecology

Undergraduate Program Information

Through lecture courses, labs, hands-on field experience and internships, the Department of Fish, Wildlife and Conservation Ecology will prepare you for a career in a variety of natural resource fields related to the conservation and management of wild animal populations and the natural systems they perpetuate. Award-winning professors will guide students in the study of how to manage fish and wildlife populations, their habitats, how their populations grow and contract, how different species influence the biotic community in which they live and how natural systems are affected by human activities.

Bachelor of Science in Fish, Wildlife and Conservation Ecology.

With the continuous growth of human populations and the ever dwindling of natural resources, natural resource professionals are needed now more than ever. Learn how to sustainably manage fish and wildlife populations and the habitats they utilize to ensure their long-term successful conservation. We offer two options within this degree. The Wildlife Ecology and Management option focuses on the ecology, conservation and management of wildlife (including mammals, birds, amphibians, and reptiles) in their natural habitats. The Aquatic Ecology and Management option focuses on the ecology, conservation and management of aquatic resources and the animals and plants found in them.

The department offers a minor in Wildlife Science for students majoring in other disciplines. The minor includes a minimum of 18 credit hours.

Bachelor of Science in Conservation Ecology

New Mexico State University offers an interdisciplinary, undergraduate program in Conservation Ecology. The goal of this program is to train biologists for the current and future challenges that we face in the conservation and wise use of natural resources. An overriding principle of the program is to provide a solid foundation in basic science coupled with a practical approach towards sustainability and stewardship. The curriculum encompasses several disciplines and includes a wide variety of courses from Fish, Wildlife and Conservation Ecology, Biology, and Geography.

This educational experience will provide students with an overview of global biodiversity and an understanding of the ecological and evolutionary processes that have created and sustained it. Courses in population and community ecology coupled with population viability analysis and risk assessment will give students the necessary background to understand the theory and development of these fields as well as the tools to tackle real-world problems. Courses in basic genetics, evolution, and conservation genetics will expose students to the importance of conserving genetic variation in order to maintain adaptive potential within populations, thereby sustaining the evolutionary process. Students will also receive background on wildlife law and environmental policy, information vital for assisting governing bodies in making decisions regarding the protection and wise use of our natural resources. Skills obtained in the application of geographic information systems, molecular genetics, and professional communication can also be acquired through various electives. If biochemistry is taken as an elective, this curriculum provides the necessary educational background for pre-vet requirements, thus preparing students for veterinary school and future jobs such as wildlife or zoo veterinarian, or conservation
The Department of Fish, Wildlife and Conservation Ecology (FWCE) offers graduate work leading to the Master of Science degree with a major in Fish, Wildlife and Conservation Ecology. Faculty members in the department also may advise Ph.D. candidates through the graduate program in the Department of Biology, Department of Animal and Range Sciences, Department of Plant and Environmental Sciences, as well as other Ph.D. granting departments. For additional information please see the graduate catalog entries for the respective departments.

Minimum qualifications for admission to the graduate program include the following:

- 3.0 grade-point average in the last two years of undergraduate work
- Students who are most competitive for admission are those with a combined average GRE score greater than 70th percentile on the verbal and quantitative parts of the GRE.
- Course work in zoology, botany and animal ecology and a basic appreciation of sustainable use of natural resources, with supporting courses in mathematics, chemistry, physics and written and oral communication.

Applicants should submit a written composition of approximately 350 words that indicates the applicant's reasons for pursuing advanced study, explains personal and educational goals, and any additional experiences (e.g., military or career) or skills that might provide a foundation for graduate study. Applicants should submit three letters of recommendation (it is preferred that at least two letters come from university instructors) along with official GRE scores (use NMSU code 4531). Applicants should also contact a faculty member in the department that they would like to work with as an advisor, and that faculty member needs to agree to serve as the student’s advisor. Application forms, application fee and transcripts, GRE scores, letters of recommendation and letter of application should be submitted online to the Graduate School. Successful applicants will be selected from those who meet the criteria of grade-point average, GRE scores, and educational background described above and who appear to have professional promise as indicated by personal history and written references.

For the Master of Science degree, a minimum of 30 semester credits of graduate work in the major and related subjects is required, together with a thesis for most students. Of these credits, at least 15 must be in courses numbered 500 or above, and at least 15 must be for courses with the FWCE prefix. Those programs involving a thesis or research project include 4 to 6 credits of research (FWCE 598 Special Research Programs or FWCE 599 Master's Thesis). Students electing a minor in FWCE are required to take at least 9 credits in the minor field. A nonthesis option is available to some students, depending on prior training and experience, and subject to approval by the advisor and department head.

All students in the program must complete the following requirements:

- A ST 505 Statistical Inference I or equivalent
- One semester of Graduate Seminar (FWCE 515 Graduate Seminar - may be repeated for credit)
- A minimum of 3 additional credits from the Quantitative Methods category in addition to A ST 505 Statistical Inference I (eligible courses listed below)
- One course each from the Ecological Concepts, Organismal Biology and Ecological Techniques categories (eligible courses listed below)
- 4 to 9 credits from the Independent Study category (eligible courses listed below)

In addition, a student may petition to have up to 3 credits of special topics courses (FWCE 548 Graduate Problems) to apply to one of the three areas. Courses other than those listed may be acceptable, given permission by the student’s supervisory committee.

**Degrees for the Department**

Conservation Ecology - Bachelor of Science in Conservation Ecology (p. 187)

Fisheries and Wildlife Science - Bachelor of Science in Fish, Wildlife and Conservation Ecology (p. 188)

Fish, Wildlife and Conservation Ecology - Master of Science (p. 192)

**Minors for the Department**

Conservation Ecology - Undergraduate Minor (p. 191)

Wildlife Science - Undergraduate Minor (p. 192)

**Professor, Gerald K. Sims, Interim Department Head**

**Professors** Boeing, Caldwell, Cowley, Desmond, Roemer; **Associate Professor** Cain; **Assistant Professor** Gebreselassie; **College Associate Professors** Boykin, Frey

Fish, Wildlife and Conservation Ecology Courses

FWCE 109. Contemporary Issues in Wildlife and Natural Resources Management
3 Credits
Ecological, socioeconomic, and political issues surrounding the management of our natural resources with an emphasis on fish and wildlife resources.

FWCE 110G. Introduction to Natural Resources Management
4 Credits (3+2P)
This class covers historical and current issues affecting the management of renewable natural resources with an emphasis on water, soil, rangeland, forest, fish, and wildlife resources. An emphasis is placed on the scientific method and critical thinking. In the laboratory students collect and analyze field data on topics covered above and write up each unit as a laboratory report.

 FWCE 255. Principles of Fish and Wildlife Management
3 Credits
Basic principles of fish and wildlife management including history, ecology, economics, and policy. Emphasis on wildlife and fisheries. Uses an ecosystem approach integrating living and nonliving resources.
Prerequisite(s): FWCE 110.

FWCE 301. Wildlife Ecology
3 Credits
General ecological theory with emphasis on concepts including biogeography, species interactions, population dynamics and disease ecology as they relate to the management and conservation of vertebrates.
Prerequisite(s): BIOL 111G or BIOL 190.

FWCE 330. Natural History of the Vertebrates
4 Credits (3+3P)
Evolution, ecology, and diversity of vertebrates. Topics include comparative anatomy and physiology, biogeography, community ecology, behavior, and conservation. Laboratory emphasizes identification of local taxa. Field trips may be required.
Prerequisite(s)/Corequisite(s): BIOL 322 Zoology. Prerequisite(s): BIOL 111G and BIOL 111L.

FWCE 355. Wildlife Techniques and Analysis
4 Credits (3+2P)
FWCE 355 will provide a broad overview of basic skills and techniques that are commonly used by biologists in performing management, research, and reporting functions in natural resource fields with an emphasis on wildlife techniques, data processing and analysis.
Prerequisite(s): FWCE 301, A ST 311.

FWCE 357. Fisheries Management and Analysis
4 Credits (3+2P)
Lectures and laboratory exercises provide a broad overview of basic skills and techniques used for assessing and managing fish populations.
Prerequisite(s): FWCE 301 and A ST 311.

FWCE 391. Internship
1-3 Credits (1-3)
Professional work experience under the joint supervision of the employer and a faculty member. A written report is required. No more than 3 credits toward a degree. Consent of Instructor required. S/U Grading (S/U, Audit).
Prerequisite(s): Consent of instructor.

FWCE 393. Professional Experience and Communication
3 Credits
Professional work experience under the supervision of employer and/or a faculty member. Written report and presentation is required.
Prerequisite(s)/Corequisite(s): FWCE 255.

FWCE 402. Seminar in Natural Resource Management
1 Credit
Review and discussion of current topics in natural resource management.
Prerequisite(s): Senior standing or above.

FWCE 409. Introduction to Population Ecology
3 Credits
Prerequisite(s): MATH 142G and FWCE 255.

FWCE 430. Avian Field Ecology
4 Credits (3+3P)
Principles of avian ecology and management with an emphasis on taxonomy, physiology, behavior and field studies. Includes weekly field trips focusing on identification and behavior of Southwest birds. Pre/ Prerequisite(s)/Corequisite(s): WLSC 330.

FWCE 431. Mammalogy
4 Credits (3+2P)
Classification, identification, anatomy, physiology, life history, and ecology of mammals. Field trips required.
Prerequisite(s): FWCE 255 and FWCE 330.

FWCE 432. Environmental Biology of Fishes
4 Credits (3+3P)
What makes a fish, a fish? Mechanisms of circulation, gas exchange, osmotic and ionic regulation, swimming, migration, reproduction, and chemoreception will be covered in this class. Taught with FWCE 532.
Prerequisite(s): CHEM 111G and senior standing.

FWCE 433. Fisheries Management
3 Credits
This course is designed to introduce students to the basic principles of fisheries management. Students will learn the techniques and tools used to collect, analyze, and interpret fisheries data needed to undertake fisheries management decisions. Taught with FWCE 533. Consent of Instructor required.
Prerequisite(s): FWCE 482 and A ST 311.

FWCE 434. Aquatic Contaminants and Toxicology
4 Credits (3+3P)
Basic principles and methodologies of aquatic toxicity testing; routes of exposure and modes of action; environmental legislation and ecological risk assessment. Taught with FWCE 534. Crosslisted with: E S 434.
Prerequisite(s): CHEM 111G and senior standing.

FWCE 436. Large Mammal Ecology, Conservation and Management
3 Credits
This course will cover aspects of large mammal ecology, management and conservation. Will include aspects of foraging ecology, resource and habitat selection, competition and resource partitioning, predation and population dynamics. Taught with FWCE 530. Consent of Instructor required.
FWCE 437. Wildlife Damage Management  
3 Credits  
Introduction to basic need and appropriate methods for resolving human-wildlife conflicts and management of animal damage. Socioeconomic, ecological, and political factors. Field trips required. Taught with FWCE 537.  
Prerequisite(s): BIOL 111G, FWCE 255, FWCE 301, FWCE 409.

FWCE 439. Game Bird Ecology and Management  
3 Credits  
In this class we will look at the overall history of game bird management and conservation, how management and conservation of game birds was and still is the foundation for wildlife conservation in North America, define the challenges both past and present to managing and conserving game bird populations, and explore the conceptual and quantitative models used to manage migratory and non-migratory game birds. Taught with FWCE 539. Consent of Instructor required. Restricted to: WLSC,FISH majors.  
Prerequisite(s): FWCE 301, FWCE 409, A ST 311 or equivalent.

FWCE 440. Wildlife Habitat Relationships  
3 Credits  
The study of wildlife-habitat relationships primarily seeks to describe how the distribution and abundance of resources used for food, cover and security, and constraints on the use of these resources influence the distribution of animals. This course will cover aspects of animal behavior related to how animals select habitat, theoretical models of habitat selection, the influence of inter-and intra-specific interactions on habitat selection, habitat quality, study designs for wildlife-habitat studies, modeling habitat selection and data analyses. Taught with FWCE 540. Consent of Instructor required.

FWCE 447. Wildlife Law and Policy  
3 Credits  
Introduction to state and federal laws and policies for wildlife and the historical context for their development. Taught with FWCE 547.  
Prerequisite(s): Junior or Senior level standing.

FWCE 448. Problems  
1-3 Credits (1-3)  
Individual investigations in fishery or wildlife science. Maximum 3 credits per semester and a grand total of 6 credits. May be repeated up to 6 credits. Consent of Instructor required.  
Prerequisite(s): 18 credits in WLSC.

FWCE 450. Special Topics  
1-4 Credits (1-4)  
Specific subjects and credits as announced in the Schedule of Classes. Maximum of 4 credits per semester. May be repeated up to 9 credits. Consent of Instructor required.

FWCE 457. Ecological Biometry  
3 Credits  
Use of ecological data to test scientific hypotheses, stochastic and statistical models for environmental data, data visualization, likelihood-based and information-based model selection. Emphasis on open-source software tools.  
Prerequisite(s): MATH 142G or 191G, E ST 311, FWCE 301.

FWCE 459. Aquatic Ecology  
4 Credits  
Ecological functions of plant and animal communities in aquatic ecosystems with emphasis on chemical and physical properties, productivity, species interactions, population dynamics, and concepts for diagnosing problems and restoring aquatic ecosystems. Taught with FWCE 559.  
Prerequisite(s): FWCE 301 or BIOL 301, CHEM 112, MATH 142G.

FWCE 464. Management of Aquatic and Terrestrial Ecosystems  
4 Credits (3+2P)  
Principles and methods for managing aquatic and terrestrial ecosystems and their fish and wildlife resources. Emphasis on quantitative techniques, data collection and analysis for management of systems at a landscape spatial scale.  
Prerequisite(s): (BIOL 301 or FWCE 301) FWCE 330, A ST 311G.

FWCE 467. Herpetology  
4 Credits  
Systematics, taxonomy, ecology, behavior, and conservation of amphibians and reptiles. Field trips required. Taught with FWCE 567.  
Prerequisite(s): FWCE 330.

FWCE 471. GIS for Natural Resource Scientists  
4 Credits  
Practical GIS class for students with little or no GIS experience. Class focuses on learning to use industry-standard software and applications in natural resource management. Taught with FWCE 571.

FWCE 472. Wildlife Museum Internship  
1-4 Credits (1-4)  
Substantial directed work experience in various functions of the wildlife natural history museum developed by the student in consultation with the faculty curator. Internships may involve aspects of collection development and management, public education programs, or other related museum activities. Internship must be approved by the faculty curator. May be repeated up to 9 credits. Consent of Instructor required.  
Prerequisite(s): BIOL 111G and BIOL 111GL.

FWCE 473. Natural History Museum Functions Methods  
3 Credits  
Fundamentals of the function and methods of natural history museums in research, education, service, and biodiversity conservation. Emphasis on experiential learning. Includes lectures, paper discussions, laboratory activities, specimen preparation, required full-day Friday field trips, and an individual term project.  
Prerequisite(s): FWCE 330 or BIOL 322 or BIOL 312 or RGSC 316.

FWCE 482. Ichthyology  
4 Credits (3+2P)  
Classification, morphology, identification, life history, and ecology of fishes.  
Prerequisite(s): FWCE 330 or consent of instructor.

FWCE 509. Population Ecology (s)  
3 Credits (2+2P)  
Quantitative analysis of vital statistics and mechanisms promoting stability in wild populations. Theory and application of life tables and population models.

FWCE 515. Graduate Seminar  
1 Credit  
Current topics.
FWCE 530. Large Mammal Ecology, Conservation and Management
3 Credits
This course will cover aspects of large mammal ecology, management and conservation. Will include aspects of foraging ecology, resource and habitat selection, competition and resource partitioning, predation and population dynamics. Taught with FWCE 436.

FWCE 532. Environmental Biology of Fishes
4 Credits (3+3P)
What makes a fish, a fish? Mechanisms of circulation, gas exchange, osmotic and ionic regulation, swimming, migration, reproduction, and chemoreception will be covered in this class. Taught with FWCE 432; however, students are responsible for all requirements in FWCE 432, plus additional assignments.

FWCE 533. Fisheries Management
3 Credits
This course is designed to introduce students to the basic principles of fisheries management. Students will learn the techniques and tools used to collect, analyze, and interpret fisheries data needed to undertake fisheries management decisions. Taught with FWCE 433. Consent of Instructor required.
Prerequisite(s): FWCE 482, A ST 311.

FWCE 534. Aquatic Contaminants and Toxicology
4 Credits (3+3P)
Basic principles and methodologies of aquatic toxicity testing; routes of exposure and modes of action; environmental legislation and ecological risk assessment. Students are responsible for all requirements for FWCE 434 plus additional work.

FWCE 535. Special Topics
1-4 Credits (1-4)
Specific subjects to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree.

FWCE 536. Advanced Avian Ecology
3 Credits
Focuses on current topics and literature in avian ecology including systematics, mating systems, behavior, physiology, movement patterns and conservation. Includes required overnight field trips.
Prerequisite(s): Graduate standing or consent of instructor.

FWCE 537. Wildlife Damage Management
3 Credits
Introduction to basic need and appropriate methods for resolving human-wildlife conflicts and management of animal damage. Socioeconomic, ecological, and political factors. Field trips required. Taught with FWCE 437. Students are responsible for all requirements for FWCE 437 plus additional work. Prerequisite(s): BIOL 111G, FWCE 255, FWCE 301 and FWCE 409

FWCE 539. Game Bird Ecology and Management
3 Credits
In this class we will look at the overall history of game bird management and conservation, how management and conservation of game birds was and still is the foundation for wildlife conservation in North America, define the challenges both past and present to managing and conserving game bird populations, and explore the conceptual and quantitative models used to manage migratory and non-migratory game birds. Taught with FWCE 439. Restricted to: WLSC,FISH majors.
Prerequisite(s): FWCE 301, FWCE 409, A ST 311 or equivalent.

FWCE 540. Wildlife Habitat Relationships
3 Credits
The study of wildlife-habitat relationships primarily seeks to describe how the distribution and abundance of resources used for food, cover and security, and constraints on the use of these resources influence the distribution of animals. This course will cover aspects of animal behavior related to how animals select habitat, theoretical models of habitat selection, the influence of inter- and intra-specific interactions on habitat selection, habitat quality, study designs for wildlife-habitat studies, modeling habitat selection and data analyses. Taught with FWCE 440.

FWCE 547. Wildlife Law and Policy
3 Credits
Introduction to state and federal laws and policies for wildlife and the historical context for their development. Taught with FWCE 447.

FWCE 548. Graduate Problems
1-3 Credits (1-3)
Individual studies in fishery and wildlife sciences. Maximum of 3 credits per semester. No more than 6 credits of this course and FWCE 598, combined, toward a degree. May be repeated up to 6 credits.

FWCE 558. Nonthesis Project
1-6 Credits (1-6)
Independent study to satisfy nonthesis project requirement. Maximum of 6 credits toward degree. Available only to nonthesis students. May be repeated up to 6 credits.

FWCE 559. Aquatic Ecology
4 Credits
Ecological functions of plant and animal communities in aquatic ecosystems with emphasis on chemical and physical properties, productivity, species interactions, population dynamics, and concepts for diagnosing problems and restoring aquatic ecosystems. Taught with FWCE 459.
Prerequisite(s): FWCE 301 or BIOL 301, CHEM 112, MATH 142G.

FWCE 567. Herpetology
4 Credits
Systematics, taxonomy, ecology, behavior and conservation of amphibians and reptiles. Field trips required. Taught with FWCE 467.

FWCE 571. GIS for Natural Resource Scientists
4 Credits
Practical GIS class for students with little or no GIS experience. Class focuses on learning to use industry-standard software and applications in natural resource management. Taught with FWCE 471.

FWCE 582. Ichthyology
4 Credits
Classification, morphology, identification, life history, and ecology of fishes. Taught with FWCE 482.

FWCE 598. Special Research Programs
1-3 Credits (1-3)
Individual investigations, either analytical or experimental. Maximum of 3 credits per semester. No more than 6 credits of this course and FWCE 548, combined, toward a degree. Not available to students in the nonthesis program. May be repeated up to 6 credits.

FWCE 599. Master's Thesis
1-9 Credits (1-9)
Office Location: Knox Hall 132
Phone: (575) 646-2245

Conservation Ecology - Bachelor of Science in Conservation Ecology

Co-directors of the Program:

Professor, Michele Nishiguchi, Department Head, Biology
Professor, Gerald Sims, Interim Department Head, Fish, Wildlife and Conservation Ecology

Professors Bailey, Boecklen, Boeing, Caldwell, Cowley, Desmond, Hanley, Houde, Milligan, Nishiguchi, Roemer, Smith, Wright; Associate Professors Cain, James, Mabry; Assistant Professors Ferrenberg

New Mexico State University offers an interdisciplinary, undergraduate program in Conservation Ecology. The goal of this program is to train biologists for the current and future challenges that we face in the conservation and wise use of our Earth's natural resources. An overriding principle of the program is to provide a solid foundation in basic science coupled with a practical approach towards sustainability and stewardship. The curriculum encompasses several disciplines and includes a wide variety of courses from the Biology, Fish, Wildlife and Conservation Ecology; Geography; and Range Science departments.

The educational experience will provide students with an overview of global biodiversity and an understanding of the ecological and evolutionary processes that have created and sustained it. Courses in population and community ecology coupled with population viability analysis and risk assessment will give students the necessary background to understand the theory and development of these fields as well as the tools to tackle real-world problems. Courses in basic genetics, evolution, and conservation genetics will expose students to the importance of conserving genetic variation in order to maintain adaptive potential within populations, thereby sustaining the evolutionary process. Students will also receive background on wildlife law and environmental policy, information vital for assisting governing bodies in making decisions regarding the protection and wise use of our natural resources. Skills obtained in the application of geographic information systems, molecular genetics, and professional communication can also be acquired through various electives. In sum, we seek to provide undergraduate students with an education that will allow them the opportunity to contribute to the conservation of all life on Earth.

The requirements are listed below. In addition, each required course must be passed with a grade of C- or better.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Second Language: (not required)

Electives, to bring the total credits to 120  
9-5

Select additional electives to bring total to 120 credits including 48 upper division credits.  

Total Credits  
120

1. See the General Education Section (p. 49) of the catalog for a full list of courses.
2. Either MATH 142G Calculus for the Biological and Management Sciences or MATH 192G Calculus and Analytic Geometry II is required for the degree but students may need to take any prerequisites needed to enter these courses.
3. One Viewing a Wider World (p. 53) course will be satisfied using the 9-hour rule: students with Biology as home department use FWCE courses and students with Fish, Wildlife and Conservation Ecology as home department use BIOL courses.
5. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The elective credits in the requirements list is the amount needed to bring the total to 120 credits and may vary based on the degree. Students may need to complete more or less courses on a case-by-case basis and each student should discuss elective requirements with their advisor.

Fisheries and Wildlife Science - Bachelor of Science in Fish, Wildlife and Conservation Ecology

The Department of Fish, Wildlife and Conservation Ecology prepares you for careers in a variety of natural resource fields related to the management of wild animal populations and the natural systems they share. Two options are found within this major.

- The Wildlife Ecology and Management Concentration is for students who plan to focus on terrestrial organisms, and
- The Aquatic Ecology and Management Concentration is for students who want to focus on fish and aquatic systems.

To graduate, an overall grade point average of 2.0 is required in courses taken in the major field and in all courses taken at NMSU. In addition, each required course must be passed with a grade of C- or better. The department offers a minor in Fish, Wildlife and Conservation Ecology for students majoring in other disciplines. The minor includes a minimum of 18 credit hours.

Concentration: Aquatic Ecology and Management

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

New Mexico State University - Las Cruces

ENGL 218G  Technical and Scientific Communication
or ENGL 318G Advanced Technical and Professional Communication

Oral Communication
Select one from the following:
  AXED 201G  Effective Leadership and Communication in Agricultural Organizations
  COMM 253G  Public Speaking
  COMM 265G  Principles of Human Communication

Area II: Mathematics 3-4
  MATH 142G  Calculus for the Biological and Management Sciences
  or MATH 191G Calculus and Analytic Geometry I

Area III/IV: Laboratory Sciences and Social/Behavioral Sciences 11
  ECON 251G  Principles of Microeconomics
  or ECON 252G Principles of Macroeconomics
  BIOL 111G & 111GL  Natural History of Life and Natural History of Life Laboratory

Select one from the following:
  PHYS 110G  The Great Ideas of Physics
  PHYS 211G & 211GL  General Physics I and General Physics I Laboratory

Area V: Humanities 2
  Area VI: Creative and Fine Arts 2

General Education Elective 4
  BIOL 211G & 211GL  Cellular and Organismal Biology and Cellular and Organismal Biology Laboratory

Viewing a Wider World 3
  The second VWW requirement (3 credits) may be filled with the 9-credit hour rule. Please see your advisor for more information.

Departmental/College Requirements

Departmental Core Courses (29 credits)
  FWCE 110G  Introduction to Natural Resources Management 4
  or FWCE 109  Contemporary Issues in Wildlife and Natural Resources Management
  FWCE 255  Principles of Fish and Wildlife Management
  FWCE 301  Wildlife Ecology
  FWCE 330  Natural History of the Vertebrates
  FWCE 391  Internship
  FWCE 393  Professional Experience and Communication
  FWCE 402  Seminar in Natural Resource Management
  FWCE 409  Introduction to Population Ecology
  FWCE 457  Ecological Biometry
  FWCE 464  Management of Aquatic and Terrestrial Ecosystems

Departmental Botany Requirements (9 credits)
  BIOL 312  Plant Taxonomy
  or RGSC 316  Rangeland Plants

BIOL 313  Structure and Function of Plants 3
Select one from the following:
  BIOL 314  Plant Physiology
  RGSC 325  Rangeland Restoration Ecology
  RGSC 357  Grass Taxonomy and Identification
  RGSC 440  Rangeland Resource Ecology

Departmental Physiology Requirements (3-4 credits)
Select 3-4 credits from the following:
  ANSC 370  Anatomy and Physiology of Farm Animals
  BIOL 314  Plant Physiology
  BIOL 381  Animal Physiology
  FWCE 432  Environmental Biology of Fishes

Concentration Coursework

Techniques
  FWCE 357  Fisheries Management and Analysis 4

Management
Choose one from the following:
  FWCE 434  Aquatic Contaminants and Toxicology
  FWCE 459  Aquatic Ecology
  RGSC 318  Watershed Management

Organismal Biology
Choose one from the following:
  BIOL 465  Vertebrate Zoology
  EPWS 462  Parasitology
  FWCE 467  Herpetology
  FWCE 482  Ichthyology

Wildlife Ecology and Management Electives 6
  Select one from the following:
    GEOL 111G  Introductory Geology
    SOIL 252 & 252 L  Soils and Soils Laboratory

Non-Departmental Requirements (in addition to Gen.Ed/VWW) 7
  AGRO 305  Principles of Genetics
  or BIOL 305  Principles of Genetics
  A ST 311  Statistical Applications
  BIOL 322  Zoology
  CHEM 111G  General Chemistry I
  CHEM 112G  General Chemistry II
  Select one from the following:
    GEOL 111G  Introductory Geology
    SOIL 252 & 252 L  Soils Laboratory

Second Language: (not required)

Electives, to bring the total credits to 120 8
  Total Credits

1  MATH 142G Calculus for the Biological and Management Sciences or MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 142G or MATH 191G first.
2  See General Education (p. 49) section of the catalog for a full list of courses.
Three credits can be taken inside the College of ACES, but three credits must also be taken outside the College of ACES or 9 credits can be taken within a single department (e.g., Biology) that is outside the College of ACES.

Off campus students can take FWCE 109 Contemporary Issues in Wildlife and Natural Resources Management Distance Education.

At least one course chosen must be a vertebrate taxonomy course with FWCE prefix, i.e., one of FWCE 467 Herpetology or FWCE 482 Ichthyology.

Wildlife Concentration Electives (any course for 3-4 credits from the Techniques, Management or Organismal Biology areas):
- Techniques
  - FWCE 355 Wildlife Techniques and Analysis
- Management
  - FWCE 436 Large Mammal Ecology, Conservation and Management
  - FWCE 437 Wildlife Damage Management
  - FWCE 447 Wildlife Law and Policy
  - RGSC 325 Rangeland Restoration Ecology
- Organismal Biology
  - BIOL 484 Animal Communication
  - EPWS 303 Economic Entomology
  - EPWS 462 Parasitology
  - FWCE 430 Avian Field Ecology
  - FWCE 431 Mammalogy
  - FWCE 440 Wildlife Habitat Relationships
  - FWCE 467 Herpetology

Students intending to pursue graduate studies should also take CHEM 211 Organic Chemistry.

Elective credit may vary based on General Education course selection, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Concentration: Wildlife Ecology and Management

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Fish, Wildlife and Conservation Ecology - Master of Science in Fish, Wildlife and Conservation Ecology

The Department of Fish, Wildlife and Conservation Ecology (FWCE) offers graduate work leading to the Master of Science degree with a major in Fish, Wildlife and Conservation Ecology. Faculty members in the department also may advise Ph.D. candidates through the graduate program in the Department of Biology, Department of Animal and Range Sciences, Department of Plant and Environmental Sciences, as well as other Ph.D granting departments. For additional information please see the graduate catalog entries for the respective departments.

Minimum qualifications for admission to the graduate program include the following:

- 3.0 grade-point average in the last two years of undergraduate work
- Students who are most competitive for admission are those with a combined average GRE score greater than 70th percentile on the verbal and quantitative parts of the GRE.
- Course work in zoology, botany and animal ecology and a basic appreciation of sustainable use of natural resources, with supporting courses in mathematics, chemistry, physics and written and oral communication.

Applicants should submit a written composition of approximately 350 words that indicates the applicant’s reasons for pursuing advanced study, explains personal and educational goals, and any additional experiences (e.g., military or career) or skills that might provide a foundation for graduate study. Applicants should submit three letters of recommendation (it is preferred that at least two letters come from university instructors) along with official GRE scores (the department code is 0115). Applicants should also contact a faculty member in the department that they would like to work with as an advisor, and that faculty member needs to agree to serve as the student’s advisor. Application forms, application fee and transcripts, GRE scores, letters of recommendation and letter of application should be submitted online to the Graduate School. Successful applicants will be selected from those who meet the criteria of grade-point average, GRE scores, and educational background described above and who appear to have professional promise as indicated by personal history and written references.

For the Master of Science degree, a minimum of 30 semester credits of graduate work in the major and related subjects is required, together with a thesis for most students. Of these credits, at least 15 must be in courses numbered 500 or above, and at least 15 must be for courses with the FWCE prefix. Those programs involving a thesis or research project include 4 to 6 credits of research (FWCE 598 Special Research Programs or FWCE 599 Master’s Thesis). Students electing a minor in FWCE are required to take at least 9 credits in the minor field. A nonthesis option is available to some students, depending on prior training and experience, and subject to approval by the advisor and department head.
All students in the program must complete the following requirements:

- A ST 505 Statistical Inference I or equivalent
- One semester of Graduate Seminar (FWCE 515 Graduate Seminar - may be repeated for credit)
- A minimum of 3 additional credits from the Quantitative Methods category in addition to A ST 505 Statistical Inference I (eligible courses listed below)
- One course each from the Ecological Concepts, Organismal Biology and Ecological Techniques categories (eligible courses listed below)
- 4 to 9 credits from the Independent Study category (eligible courses listed below)

In addition, a student may petition to have up to 3 credits of special topics courses (FWCE 548 Graduate Problems) to apply to one of the three areas. Courses other than those listed may be acceptable, given permission by the student’s supervisory committee.

Prefix | Title | Credits
--- | --- | ---
Degree Requirements |  |  
ST 505 | Statistical Inference I (or equivalent) | 4
FWCE 515 | Graduate Seminar (may be repeated for credit) | 1

Quantitative Methods: Eligible Courses

Select minimum of 3 credits from the following:

- A ST 503 SAS Basics
- A ST 506 Statistical Inference II
- A ST 507 Advanced Regression
- A ST 515 Statistical Analysis with R
- A ST 523 Biological Sampling (s)
- A ST 550 Special Topics
- FWCE 509 Population Ecology (s)
- FWCE 457 Ecological Biometry
- GEOG 585 Advanced Spatial Analysis

Ecological Concepts: Eligible Courses

Select one from the following:

- BIOL 467 Evolution
- BIOL 484 Animal Communication
- BIOL 489 Genetic Aspects of Population Biology
- BIOL 568 Communities and Ecosystems
- BIOL 587 Behavioral and Evolutionary Ecology
- FWCE 459 Aquatic Ecology
- FWCE 540 Wildlife Habitat Relationships
- GEOG 557 Fundamentals of Biogeography

Organismal Biology: Eligible courses

Select one from the following:

- FWCE 532 Environmental Biology of Fishes
- FWCE 536 Advanced Avian Ecology
- FWCE 567 Herpetology
- FWCE 582 Ichthyology

Ecological Techniques: Eligible courses

Select one from the following:

- FWCE 464 Management of Aquatic and Terrestrial Ecosystems

FWCE 530 Large Mammal Ecology, Conservation and Management
FWCE 534 Aquatic Contaminants and Toxicology
FWCE 537 Wildlife Damage Management
FWCE 571 GIS for Natural Resource Scientists
GEOG 521 GIS & T Applications and Modeling
RGSC 452 Vegetation Measurements for Rangeland Assessment
RGSC 518 Watershed Methods and Management

Independent Study: Eligible courses

Select one from the following:

- FWCE 548 Graduate Problems
- FWCE 598 Special Research Programs
- FWCE 599 Master’s Thesis

To meet the 30 credit hour requirements of the MS program, completion of 1 to 2 courses in addition to the requirements described above will be necessary. The additional course(s) must be approved by the graduate student’s supervisory committee.

Total Credits 21-29

1 Other courses, particularly in Applied Statistics, may be eligible with consent of the advisory committee.

2 Students may petition to have up to 3 credits of special topics courses (FWCE 548 Graduate Problems) to apply to one of the three areas.

Graduate work in the department is intended to prepare students for careers in research, teaching, extension and management. Facilities available to graduate students include two ranches of approximately 90,000 acres, a large suite of shared laboratories, and a large fish-culture facility. We actively cooperate with state and federal natural resource management agencies, and graduate students have access to national forests and extensive public lands, as well as the Jornada Basin Long-Term Ecological Research site and associated databases (see http://jornada-www.nmsu.edu for details). Additional research opportunities for graduate students are available in the New Mexico Cooperative Fish and Wildlife Research Unit, located in the department since 1988.

Additional information on the graduate program and faculty is available at http://aces.nmsu.edu/academics/fws.

Plant and Environmental Sciences

Undergraduate Program Information

The undergraduate program in Plant and Environmental Science prepares you for a variety of careers in agriculture and related fields. Accordingly, a flexible curriculum has been designed that will allow specific programs to be developed in consultation with your academic advisor. Programs may also be developed if you wish to prepare for advanced studies in graduate school. In addition to the courses listed for each major, 35 credits must be taken in the College of Agricultural, Consumer and Environmental Sciences, and the university general education requirements must be met.

The minors require a minimum of 18 credits of which at least 9 hours must be at the 300 or higher level. Specific coursework requirements apply. See advisor for course requirements and scheduling.
**Graduate Program Information**

More than ever, we are linked in an interconnected world: both in agriculture and sustainability of environmental systems. The department has programs in

- plant sciences,
- environmental science,
- soil science,
- water management,
- natural resources management and
- turf management.

Students trained in these areas are in demand for U.S. and international positions. This demand is at all levels of training—BS, MS, and Ph.D. Therefore, the course work and original research in Plant and Environmental Sciences leading to the Master of Science and Doctor of Philosophy are designed for and have proven to be successful in preparing students for commercial companies, educational institutions, governmental agencies and private production enterprises.

The student may emphasize study in several discipline areas described in the following pages.

- The agronomy section emphasizes sustainable crop production, plant-pest/disease/weed interactions, soil-water-plant relations, crop physiology, and breeding and genetics of cotton, alfalfa, maize and peanuts.
- The genetics section places special emphasis on genetic basis of agronomic or horticultural traits, applied bioinformatics, gene regulation and genomics.
- The environmental and soil science sections emphasize environmental quality and ecosystem services, bioremediation, recycling of organic wastes and wastewater, water use efficiency, soil-plant relations, soil-geomorphology and desert ecology, and the fertility, chemistry, physics, and microbiology of soils, including forest soils.
- The horticulture section emphasizes the creative use of plants by humans, and studies on the technical advancements in the husbandry of most economic commodity groups of fruits, vegetables, or ornamentals as well as managed turf. Emphasis may be in breeding and genetics of chile or onions, plant growth and development, nutrition, dormancy and cold hardiness, plant stress (water and/or salinity) response, fruit and vegetable physiology, forestry, and turfgrass.

Most students will be expected to complete a thesis. The research detailed in a thesis should be of a scope and quality to merit publication in a refereed journal. Depending on prior training and experience, a non-thesis option is available subject to approval by a departmental committee. The non-thesis option requires completion of a research project and paper of limited scope. In both the thesis and non-thesis options, suitability of the research project and resulting thesis or paper will be judged by the student's graduate committee. A minor is recommended and may be taken in chemistry, biology, molecular biology, environmental management, applied statistics, toxicology or other areas.

Prerequisite to major graduate work is completion of a curriculum essentially equivalent to that required by the department for the BS degree at New Mexico State University.

**Degrees for the Department**

- **Agronomy - Bachelor of Science in Agriculture** (p. 204)
- **Horticulture - Bachelor of Science in Agriculture** (p. 207)
- **Soil Science - Bachelor of Science in Agriculture** (p. 209)
- **Turfgrass Science and Management - Bachelor of Science in Agriculture** (p. 212)
- **Environmental Science - Bachelor of Science in Environmental Science** (p. 205)
- **Genetics and Biotechnology - Bachelor of Science in Genetics** (p. 206)
- **Horticulture - Master of Science** (p. 218)
- **Plant and Environmental Science - Master of Science** (p. 218)
- **Plant and Environmental Science - Doctor of Philosophy** (p. 218)

**Minors for the Department**

- **Agronomy - Undergraduate Minor** (p. 217)
- **Genetics and Biotechnology - Undergraduate Minor** (p. 217)
- **Horticulture - Undergraduate Minor** (p. 217)
- **Soil Science - Undergraduate Minor** (p. 217)
- **Turfgrass Science and Management - Undergraduate Minor** (p. 217)

**Professor, Rolston St. Hilaire, Department Head**

Professors Angadi, Bosland, Cramer, Guldan, Hanan, Leinauer, Piccioni, Pratt, Puppala, Ray, Sengupta-Gopalan, Shukla, Ulery, Zhang; **Associate Professors** Burney, Flynn, Goss, Grover, Heerema, Holguin, Idowu, Lombard, Marsalis, Yao; **Assistant Professors** Brungard, Djaman, Ghimire, Gioannini, Guzman, Pietrasiak, Webb; College Professors Lauriault, Stringam; **College Associate Professor** DuBois; **College Assistant Professors** Edwards, Jarvis, Rodriguez-Uribé

**R. St. Hilaire, Department Head, Ph.D. (Iowa State University)—stress physiology and landscape horticulture; S. Angadi, Ph.D. (University of Manitoba, Canada)—crop physiology; D.L. Auld, Ph.D. (Montana State University)—plant genetics; W. Boeing, Ph.D. (Louisiana State University)—aquatic ecology; P.W. Bosland, Assistant Department Head, Ph.D. (University of Wisconsin, Madison)—chile breeding and genetics; C. Brungard, Ph.D. (Utah State University, Logan)—pedology; O. Burney, Ph.D. (Purdue University, West Lafayette)—silviculture and forest biology; K.C. Carroll, Ph.D. (University of Arizona)—hydrology and water resources; C. S. Cramer, Ph.D. (North Carolina State University)—onion breeding and horticulture; M. Darapuneni, Ph.D. (Texas A&M College Station)—Agronomy and semi-arid crop rotations; K. Djaman, Ph.D. (University of Nebraska-Lincoln)—soil & water resources and irrigation engineering; D. DuBois, Ph.D. (University of Nevada)—atmospheric science; B. Edwards, Ph.D. (Louisiana State University)—geomorphology, Aeolian processes; R. Flynn, Ph.D. (Auburn University)—soil and water quality; R. Ghimire, Ph.D. (University of Wyoming, Laramie)—soil & crop management; R. Gioannini, M.S. (New Mexico State University)—ornamental horticulture, landscape design; R.M. Goss, Ph.D. (University of Nebraska, Lincoln)—turf science; K. Grover, Ph.D. (Pennsylvania State University)—agronomy; S.J. Guldan, Ph.D. (University of Minnesota)—sustainable agriculture; I. Guzman, Ph.D. (New Mexico State University)—horticulture; N. Hanan, Ph.D. (Queen Mary College, UK)—dryland ecology; S.F. Hanson, Ph.D. (University of Wisconsin-Madison)—genetics and microbiology; R.J. Heerema, Ph.D. (Queen Mary College, UK).
AGRO 303V. Genetics and Society
3 Credits
Relates the science of genetics with social ramifications. Ways in which genetics and evolution interact with social, political, and economic issues. Includes genetic engineering, gene therapy, DNA finger-printing, ancient DNA, plant and animal improvement, and future prospects. Students required to formulate value judgments on contemporary biological issues that will impact society. Crosslisted with: GENE 303V.

AGRO 305. Principles of Genetics
3 Credits
Covers fundamental principles of reproduction, variation, and heredity in plants and animals. Crosslisted with: ANSC 305, BIOL 305, HORT 305 and GENE 305.
Prerequisite(s): BIOL 111G, BIOL 211G and either CHEM 111G or CHEM 115.

AGRO 311. Introduction to Weed Science
4 Credits
Principles of weed science with emphasis on characteristics of invasive plants, methods of integrated weed management, and current issues impacting weed management. Identification of local weeds. Same EPWS 311.
Prerequisite: junior standing or consent of instructor and CHEM 111G and BIOL 211G.

AGRO 315. Crop Physiology
3 Credits
Whole plant physiological processes as related to growth, development, yield, quality and post harvest physiology of crop plants within the environment of the crop community. Crosslisted with: HORT 315
Prerequisite(s): EPWS/BIOL 314 or consent of instructor.

AGRO 365. Principles of Crop Production
4 Credits (3+3P)
Basic principles of crop production including environmental and physiological factors limiting production, plant nutrition and soil science, soil-water management, cropping systems and management, pest management, and economic factors influencing crop production. Crosslisted with: HORT 365
Prerequisite(s): AGRO/HORT 100, CHEM 111G or equivalent and MATH 120 or equivalent.

AGRO 377. Introduction to Turfgrass Management
4 Credits (3+3P)
Establishment and maintenance of turfgrass with emphasis on seeding methods, soil and water management, mowing, disease, insects and turfgrass varieties. Consent of instructor required. Crosslisted with: HORT 377

AGRO 391. Internship
1-6 Credits
Professional work experience under the joint supervision of the employer and a faculty member. A written report is required. No more than 6 credits toward a degree. Consent of Instructor required. S/U Grading (S/U, Audit).
Prerequisite(s): Consent of instructor.

AGRO 447. Seminar
1 Credit
Organization, preparation, and presentation of current topics in agronomy, horticulture, and soil science. Same as HORT 447 and SOIL 447.
AGRO 449. Special Problems
1-3 Credits (1-3)
Research problem, experience training, or other special study approved by a faculty adviser. Maximum of 3 credits per semester and a grand total of 6 credits. May be repeated up to 6 credits. Consent of Instructor required.

AGRO 450. Special Topics
1-4 Credits (1-4)
Specific subjects to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a total of 9 credits toward a degree. May be repeated up to 9 credits. Consent of Instructor required.

AGRO 462. Plant Breeding
3 Credits
Principles and practices involved with the genetic improvement of plants. May be repeated up to 3 credits.
Prerequisite(s): ANSC/AGRO/BIO/HORT/GENE 305 or GENE 315 and GENE 320.

AGRO 471. Plant Mineral Nutrition
3 Credits
Basic and applied aspects of plant requirements for soil-derived minerals and the processes whereby minerals are acquired, absorbed, translocated, and utilized throughout the plant. Same as HORT 471 and EPWS 471.
Prerequisite: EPWS/BIO 314, or concurrent enrollment, or consent of instructor.

AGRO 483. Sustainable Production of Agronomic Crops
4 Credits (3+2P)
Characteristics and objectives of sustainable agricultural systems with application to the production, utilization, and improvement of cereal grain, fiber, forage and oilseed crops.
Corequisite(s): AGRO 365 or HORT 365.

AGRO 492. Diagnosing Plant Disorders
3 Credits (2+3P)
Systematic diagnosis of the physiological, pathological, and entomological causes of plant disorders. Same as EPWS 492 and HORT 492.
Prerequisite(s): EPWS 303 and EPWS 310.

AGRO 500. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree.

AGRO 505. Research Orientation
4 Credits (3+2P)
Training in writing research proposals, presentation of research results, and interpretation of research results. Crosslisted with: HORT 505 and SOIL 505

AGRO 506. Plant Genetics
3 Credits
Advanced treatment of the principles of classical genetics and heredity with emphasis on the nature and action of the gene including molecular analysis. May be repeated up to 3 credits. Crosslisted with: HORT 506. BCHE 341 recommended.
Prerequisite(s): AGRO 305/GENE 305/HORT 305/BIO 305/ANSC 305 or consent of instructor.

AGRO 511. Introduction to Weed Science (f)
4 Credits
Covers the principles of weed science with emphasis on characteristics of invasive plants, methods of integrated weed management, and current issues impacting weed management. Includes identification of local weeds. Research paper required for graduate credit. Same as EPWS 511.
Prerequisite: CHEM 111G or BIOL 211G, or consent of instructor.

AGRO 514. Soil-Plant Relationships
3 Credits
Physical, chemical, and biological soil environment as it affects plant and crop growth. Same as HORT 514 and SOIL 514.
Prerequisite(s): BIOL 314, SOIL 252.

AGRO 515. Crop Physiology
3 Credits
Whole plant physiological processes as related to growth, development, yield, quality and post harvest physiology of crop plants within the environment of the crop community. Crosslisted with: HORT 515
Prerequisite(s): EPWS/BIO 314 or consent of instructor.

AGRO 516. Molecular Analysis of Complex Traits
3 Credits
Provide a comprehensive overview of molecular genetic analysis of complex phenotypes, including case histories/experiments in plants, animals and humans. Emphasize technological developments in DNA marker technologies and their application to molecular quantitative genetics. Explore the efficient application of these technologies in the future to complex genetic systems, breeding, and other areas of life sciences. Same as HORT 516.
Prerequisite: AGRO 305 or consent of instructor.

AGRO 525. Scientific Writing- How to be a Productive and Effective Writer
1-3 Credits (1-3)
Students will learn to improve their writing skills so that their manuscript preparation process is more efficient and productive. Students will also gain experience in peer-review. Crosslisted with: HORT 525, EPWS 525, SOIL 525, AGRO 625, HORT 625 and SOIL 625.

AGRO 533. Environmental Physiology of Plants
3 Credits
Integral responses of plants and crop productivity to naturally occurring and modified environmental factors such as radiation, temperatures, water vapor, carbon dioxide, and air flow. Same as BIO/HORT 533.
Prerequisite: BIOL 314 or consent of instructor.

AGRO 590. Graduate Seminar
1 Credit
Current research discussions presented by masters level graduate students. Not more than one credit per semester. Crosslisted with: HORT/ SOIL 590. Crosslisted with: HORT 590 and SOIL 590.

AGRO 595. Internship
1-6 Credits
Supervised professional on-the-job learning experience. Limited to Master of Agriculture candidates. Not more than 6 credits toward the degree.

AGRO 596. Masters Proposal
1 Credit
Current research proposal written by masters level graduate students. Consent of Instructor required. Crosslisted with: E S 596, GENE 596, HORT 596 and SOIL 596. Restricted to: Masters HORT; Masters PLEN majors.
Prerequisite(s): Master level graduate students.
AGRO 597. University Teaching Experience
1-3 Credits (1-3)
Certain graduate students will be permitted to teach up to one-third of one AGRO/HORT/SOIL/ES course. The student will prepare and deliver lectures and will prepare, administer, and grade at least one examination. The professor in charge of the course will attend and evaluate the student’s lectures. Consent of instructor required. Restricted to: Main campus only. Restricted to Agronomy and Horticulture Graduate Students. Crosslisted with: HORT 597 and SOIL 597

AGRO 598. Special Research Programs
1-6 Credits
Individual investigations, either analytical or experimental. Maximum of 6 credits per semester. No more than 9 credits towards degree. Same as SOIL 598.

AGRO 599. Master's Thesis
15 Credits
Thesis.

AGRO 600. Doctoral Research
1-15 Credits
Research.

AGRO 609. Breeding for Plant Disease Resistance
3 Credits
A practically-oriented course of lectures and discussion on concepts and principles of breeding for disease and pest resistance. Labs familiarize students with preparation, quantification, and application of inoculum to hosts. Same as HORT 609.

AGRO 610. Advanced Crop Breeding
4 Credits (3+1P)
Applications of breeding principles to crop improvement. Emphasis on breeding methodologies using modern techniques, including biotechnology. Same as HORT 610.

AGRO 610. Advanced Crop Breeding
4 Credits (3+1P)
Applications of breeding principles to crop improvement. Emphasis on breeding methodologies using modern techniques, including biotechnology. Same as HORT 610.

AGRO 620. Instrumentation in Agronomy
3 Credits
Use of instruments used in research in all areas of agronomy including gas chromatography, high performance liquid chromatography, neutron soil moisture probe, and other instruments. Same as HORT/SOIL 620.

AGRO 625. Scientific Writing- How to be a Productive and Effective Writer
1-3 Credits (1-3)
Students will learn to improve their writing skills so that their manuscript preparation process is more efficient and productive. Students will also gain experience in peer-review. Students in the 600-level course will be required to perform additional research than those students in the 500-level cross-listing Crosslisted with: AGRO 525, HORT 525, EPWS 525 and SOIL 525.

AGRO 670. Biometrical Genetics and Plant Breeding
3 Credits
A statistical approach to gene action and population parameters as applied to plant improvement. Same as HORT 670.

AGRO 694. Doctoral Seminar
1 Credit
Current research discussions presented by doctoral level graduate students. Not more than 2 credits toward the degree. Same as SOIL 694.

AGRO 695. Doctoral Proposal
1 Credit
Current research proposal written by doctoral level graduate students. Not more than 1 credits toward the degree. May be repeated up to 1 credits. Crosslisted with: E S 696, AGRO 696, HORT 696 and SOIL 696.

AGRO 697. University Teaching Experience
1-3 Credits (1-3)
Certain graduate students will be permitted to teach up to one-third of one AGRO/HORT/SOIL/ES course. The student will prepare and deliver lectures and will prepare, administer, and grade at least one examination. The professor in charge of the course will attend and evaluate the student’s lectures. Consent of instructor required. Crosslisted with: HORT 697 and SOIL 697

AGRO 698. Topics in Agronomy
1-6 Credits
Topics of current interest, designated by title and credit. Maximum of 6 credits per semester. No more than 9 credits toward a degree.

AGRO 700. Doctoral Dissertation
15 Credits
Dissertation.

Environmental Science Courses

E S 110G. Introductory Environmental Science
4 Credits (3+2P)
Introduction to environmental science as related to the protection, remediation, and sustainability of land, air, water, and food resources. Emphasis on the use of the scientific method and critical thinking skills in understanding environmental issues.

E S 256. Environmental Engineering and Science
3 Credits
Principles in environmental engineering and science: physical chemical systems and biological processes as applied to pollution control. Restricted to: Main campus, Alamogordo campus, Grants campus, Carlsbad campus. Crosslisted with: C E 256

E S 256 L. Environmental Science Laboratory
1 Credit
Laboratory experiments associated with the material presented in E S 256. Same as C E 256L.

E S 300. Special Topics
1-4 Credits
Special subjects and credits to be announced in the Schedule of Classes. Consent of instructor required. Maximum of 4 credits per semester. Restricted to majors.

E S 301. Principles of Ecology
3 Credits
A survey of ecology including general theory, the adaptations of organisms, population dynamics, species interactions, and the structure and function of natural communities and ecosystems. Crosslisted with: BIOL 301

E S 306. Engineering Research Seminar
3 Credits
Certain graduate students will be permitted to teach up to one-third of one AGRO/HORT/SOIL/ES course. The student will prepare and deliver lectures and will prepare, administer, and grade at least one examination. The professor in charge of the course will attend and evaluate the student’s lectures. Consent of instructor required. Crosslisted with: HORT 306 and SOIL 306.

E S 596. Doctoral Proposal
1 Credit
Current research proposal written by doctoral level graduate students. Not more than 1 credits toward the degree. May be repeated up to 1 credits. Crosslisted with: E S 696, AGRO 696, HORT 696 and SOIL 696.

E S 696. Doctoral Proposal
1 Credit
Current research proposal written by doctoral level graduate students. Not more than 1 credits toward the degree. May be repeated up to 1 credits. Crosslisted with: E S 696, AGRO 696, HORT 696 and SOIL 696.

E S 697. University Teaching Experience
1-3 Credits (1-3)
Certain graduate students will be permitted to teach up to one-third of one AGRO/HORT/SOIL/ES course. The student will prepare and deliver lectures and will prepare, administer, and grade at least one examination. The professor in charge of the course will attend and evaluate the student’s lectures. Consent of instructor required. Crosslisted with: HORT 697 and SOIL 697

E S 698. Topics in Agronomy
1-6 Credits
Topics of current interest, designated by title and credit. Maximum of 6 credits per semester. No more than 9 credits toward a degree.

E S 700. Doctoral Dissertation
15 Credits
Dissertation.
E S 312. Emergency Response to Hazardous Material Incidents  
2 Credits  
EPA approved Environmental Response Training Program Course 165.15. In compliance with OSHA 29 CFR 1910.120. Normally taken during last year of study. Same as E T 312 and WERC 312.  
Prerequisite: consent of instructor.

E S 330. Environmental Management Seminar I  
1 Credit  

E S 361. Basic Toxicology  
3 Credits  
Same as TOX 361.

E S 370. Environmental Soil Science  
3 Credits  
Continuation of SOIL 252 that emphasizes soil properties and processes that directly relate to environmental pollution problems. Same as SOIL 370.  
Prerequisite: SOIL 252.

E S 391. Internship  
3 Credits  
Professional work experience under the joint supervision of the employer and a faculty member. A written report is required. Maximum of 3 credits toward a degree. Consent of Instructor required. S/U Grading (S/U, Audit).

E S 422. Environmental Chemistry  
3 Credits  
Chemistry of organic and metal ion pollutants in the environment and principles important to their remediation including bioremediation.  
Restricted to: Main campus only. Crosslisted with: CHEM 422  
Prerequisite(s): CHEM 110G or CHEM 112G and BIOL 110G.

E S 430. Environmental Management Seminar II  
1 Credit  
Survey of practical and new developments in environmental management field, hazardous and radioactive, waste management, and related health issues, provided through a series of guest lectures and reports of ongoing research. Restricted to: Main campus only. Crosslisted with: CHEM 430, CHE 430, E E 430, E T 430, I E 430 and WERC 430

E S 449. Special Problems  
1-3 Credits  
Research problem, experience training, or other special study approved by a faculty adviser. Maximum of 3 credits per semester and 6 credits toward a degree. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: E S majors.

E S 451. Special Topics  
1-4 Credits (1-4)  
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a total of 9 credits toward a degree. May be repeated up to 9 credits. Consent of Instructor required.

E S 452. Geohydrology  
4 Credits (3+2P)  
Origin, occurrence, and movement of fluids in porous media and assessment of aquifer characteristics. Development and conservation of ground water resources, design of well fields. May be repeated up to 4 credits. Crosslisted with: GEOL 452 and C E 452.  
Prerequisite(s)/Corequisite(s): MATH 121G. Prerequisite(s): Junior or Senior.

E S 457. Water Measurement  
3 Credits  
The fundamentals of measuring water will be covered. Participants will learn about measurement techniques that are used to estimate evapotranspiration as well as commonly used water measurement structures to estimate water use. The benefits and problems that are associated with using each measurement will be discussed. Students will also learn about the principles of how to use water measurement as a management tool.  
Prerequisite(s): MATH 120 or consent of Instructor.

E S 460. Introduction to Air Pollution  
3 Credits  
An introduction to the physics and chemistry of tropospheric air pollution including sources of air pollution, local and long-range transport, instrumentation, regulatory requirements, control technology.  
Prerequisite(s): PHYS 215G, CHEM 112G, MATH 191G.

E S 462. Sampling and Analysis of Environmental Contaminants  
3 Credits (1+6P)  
Theory, application, methodology, and instrumentation used in the sampling and analysis of environmental contaminants. Same as ENVE 462.  
Prerequisites: E S 256.

E S 470. Environmental Impacts of Land Use and Contaminant Remediation  
3 Credits  
The course will cover the integrated assessment of soil erosion, contaminant transport in soil and water, and contaminant remediation from site scale to watershed scales. Understanding of the controlling factors for each type land use impact will be gained through the use of risk assessment, case studies, and computer modeling. Case studies will illustrate the processes under various environmental applications. This course will also cover the application of solute transport principles and methods for the remediation of contaminated soil and groundwater. It will also discuss the contaminated site characterization, monitoring, and remediation design. Discussions of innovative methodologies will be supported with case studies. May be repeated up to 3 credits. Crosslisted with: WSAM 470.  
Prerequisite(s): E S 256, E S 370, E S 452, E S 462.

E S 471. Water Quality and Geochemistry  
3 Credits  
We will cover the connection of water chemistry with water quality and apply geochemical modeling to practical problems. Discussions of assessment methodologies will be supported with case studies. The focus of this course is on team-based project learning. Computer software and models (mainly PHREEQC from USGS) will be used to learn analysis techniques.  
Prerequisite(s): E S 370 or E S 452 or consent of instructor.

E S 557. Water Measurement  
3 Credits  
The fundamentals of measuring water will be covered. Participants will learn about measurement techniques that are used to estimate evapotranspiration as well as commonly used water measurement structures to estimate water use. The benefits and problems that are associated with using each measurement will be discussed. Students will also learn about the principles of how to use water measurement as a management tool.
E S 596. Masters Proposal
1 Credit
Current research proposal written by masters level graduate students. Consent of Instructor required. Crosslisted with: AGRO 596, GENE 596, HORT 596 and SOIL 596. Restricted to: Masters HORT; Masters PLEN majors.
Prerequisite(s): Master level graduate students.

E S 599. Master's Thesis
1-15 Credits

E S 605. Arid Land Water Resources
3 Credits (2+2P)
The course will cover various issues of relevance to water resources and water supply management within the Southwest US and other semiarid and arid regions. Discussions may include development and sustainability, climate change and drought, socioeconomic and cultural, and transboundary issues. Students will develop literature reviews, draft proposals, and conduct presentations. May be repeated up to 3 credits. Crosslisted with: WSAM 605.

E S 696. Doctors Proposal
1 Credit
Current research proposal written by PhD level graduate students. Consent of Instructor required. Crosslisted with: AGRO 696, HORT 696 and SOIL 696. Restricted to: Doctors PLEN majors.
Prerequisite(s): PhD level graduate students.

E S 700. Doctoral Dissertation
1-15 Credits

Genetics Courses

GENE 110. Experimental Systems in Genetics
1 Credit
Survey of molecular, biochemical, organisnal, and computer science based approaches to investigate how genes determine important traits. Historical development and topics of current interest will be discussed.

GENE 305. Principles of Genetics
3 Credits
Covers fundamental principles of reproduction, variation, and heredity in plants and animals. Crosslisted with: AGRO 305, ANSC 305, BIOL 305 and HORT 305
Prerequisite(s): BIOL 111G, BIOL 211G and either CHEM 111G or CHEM 115.

GENE 305 L. Genetic Techniques
1 Credit
Experimental procedures used in genetic research including: sexual transmission genetics, eukaryotic DNA isolation, DNA marker development and genotyping, polymerase chain reaction, and cytogenetics. Pre/
Corequisite(s): GENE 315, or AGRO/ANSC/Biol/HORT 305.

GENE 315. Molecular Genetics
3 Credits
Covers fundamental principles of DNA structure and replication, transcription, translation, gene regulation, recombinant DNA technology, and a survey of genomics and bioinformatics.
Prerequisite(s)/Corequisite(s): Preerequisite(s): CHEM 112 and BIOL 211. Recommend CHEM 313.

GENE 320. Hereditary and Population Genetics
3 Credits
Covers fundamental principles of reproduction, variation, and heredity in plants and animals including: Mendelian inheritance, mitosis, meiosis, genetic linkage, random mating, genetic drift, natural selection, inbreeding, migration, mutation, interrelationships between individuals, populations and communities and the environment.
Prerequisite(s): CHEM 111G & BIOL 211G.

GENE 391. Genetics Seminar
1-6 Credits (1-6)
Professional work experience in genetics under the joint supervision of an employer and a faculty member. Documentation of proposed internship activities must be submitted prior to the start of the internship. A written report is required after the internship is completed. No more than 6 credits toward a degree. May be repeated up to 6 credits. S/U Grading (S/ U, Audit).

GENE 440. Genetics Seminar
1 Credit
Organization, preparation, and presentation of genetic studies in model microorganism, plant, or animal systems that have been used to solve problems in molecular, cellular, and developmental biology. Consent of instructor required.
Prerequisite(s): Seniors only; GENE 315 & GENE 320.

GENE 449. Special Problems
1-3 Credits (1-3)
Research problem, experience training, or other special study approved by a faculty adviser. Maximum of 3 credits per semester and a total of 3 credits toward a degree. Consent of instructor required.

GENE 450. Special Topics
1-3 Credits (1-3)
Specific subjects to be announced in the schedule of classes. Maximum of 3 credits per semester and a total of 3 credits toward a degree. Consent of instructor required.

GENE 452. Applied Bioinformatics
3 Credits
Survey and application of publicly available bioinformatic tools that treat genomic DNA, cDNA, and protein sequences, RNA abundance, as well as tools that allow inference based on phylogenetic relationships.
Prerequisites: AGRO/ANSC/BIO/HORT 305 or GENE 315 and GENE 320, and BCHE 341, or BCHE 395.

GENE 486. Genes and Genomes
3 Credits
Extensive coverage of nuclear and organelle genome structure in plants and animals, genome restructuring including duplication, aneuploidy, chromosome translocations and inversions, comparative genomics, and molecular systematics.
Prerequisites: AGRO/ANSC/BIO/HORT 305 or GENE 315, and GENE 320.

GENE 488. Gene Regulation
3 Credits
Extensive coverage of signal transduction processes and approaches used to monitor large scale changes in gene regulation and protein synthesis that occur during development and in response to environmental changes.
Prerequisites: AGRO/ANSC/BIO/HORT 305 or GENE 315.
**Horticulture Courses**

**HORT 100G. Introductory Plant Science**  
4 Credits (3+2P)  
Introduction to the physical, biological, and chemical principles underlying plant growth and development in managed ecosystems. In the laboratory portion of the class, students perform experiments demonstrating the principles covered in lecture. The course uses economic plants and agriculturally relevant ecosystems to demonstrate basic principles. Appropriate for nonscience majors. Same as AGRO 100G.

**HORT 200. Special Topics**  
1-4 Credits  
Specific subjects and credits as announced. Maximum of 4 credits per semester and a grand total of 9 credits. May be repeated up to 9 credits. Consent of Instructor required.

**HORT 205. Introduction to Horticulture**  
3 Credits  
Principles and practices of horticulture. Basic chemical, physical, and biological principles that govern plant growth in different environments. Economics of plant science as related to the field of horticulture. Online course entirely. Intended for non-majors.

**HORT 210. Ornamental Plants I**  
4 Credits (3+2P)  
Covers identification, botanical characteristics, culture, and landscape uses of woody plants. Emphasis on deciduous trees, native shrubs, and evergreens.

**HORT 211. Ornamental Plants II**  
4 Credits (3+2P)  
Identification, botanical characteristics, culture, and landscape uses of woody plants. Emphasis on flowering trees, cacti, and members of the pea and rose families.

**HORT 240. Floral Quality Evaluation and Design**  
2 Credits (1+2P)  
Critical hands-on evaluation of the quality of cut and potted floral and tropical foliage crops, their specific merits and faults, and fundamentals of floral design.

**HORT 241. Floriculture Field Practicum**  
1 Credit  
Participation as team member in the National Intercollegiate Floral Quality Evaluation and Design Competition. Intensive week-long travel for competition, networking with industry, academia, and floriculture tours. May be repeated for a maximum of 3 credits.  
Prerequisite(s): HORT 240 or consent of instructor.

**HORT 250. Plant Propagation**  
3 Credits (2+2P)  
Practical methods of propagating horticultural plants by seed, cuttings, layering, grafting, division and tissue culture. Examination of relevant physiological processes involved with successful plant propagation techniques. Same as AGRO 250.

**HORT 300. Special Topics**  
1-4 Credits  
Specific subjects as announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits. May be repeated up to 9 credits. Consent of Instructor required. Restricted to Las Cruces campus only.

**HORT 302V. Forestry and Society**  
3 Credits  
Global study of the development and use of forest resources for production of wood, fuel, fiber, and food products. Climatic, edaphic, cultural, and economic influences on forests of the world evaluated.  
Same as RGSC 302V.

**HORT 305. Principles of Genetics**  
3 Credits  
Covers fundamental principles of reproduction, variation, and heredity in plants and animals. Crosslisted with: AGRO 305, ANSC 305, BIOL 305 and GENE 305  
Prerequisite(s): BIOL 111G, BIOL 211G and either CHEM 111G or CHEM 115.

**HORT 307. Landscape Design**  
3 Credits (1+4P)  
Design elements, the design process, and contemporary planting design used in the design of residential and small commercial landscapes. Basic drafting, drawing, and landscape plan presentation techniques. Prerequisites : HORT 210 or HORT 211 or concurrent enrollment or consent of instructor.

**HORT 310. Medicinal Herbs**  
3 Credits  
Introduction to ethnobotany, including plant cultivation, extraction methods, and analysis of active chemistries.

**HORT 315. Crop Physiology**  
3 Credits  
Whole plant physiological processes as related to growth, development, yield, quality and post harvest physiology of crop plants within the environment of the crop community. Crosslisted with: AGRO 315  
Prerequisite(s): EPWS/BIOL 314 or consent of instructor.

**HORT 365. Principles of Crop Production**  
4 Credits (3+3P)  
Basic principles of crop production including environmental and physiological factors limiting production, plant nutrition and soil science, soil-water management, cropping systems and management, pest management, and economic factors influencing crop production. Crosslisted with: AGRO 365  
Prerequisite(s): AGRO/HORT 100, CHEM 111G or equivalent and MATH 120 or equivalent.

**HORT 377. Introduction to Turfgrass Management**  
4 Credits (3+3P)  
Establishment and maintenance of turfgrass with emphasis on seeding methods, soil and water management, mowing, disease insects and turfgrass varieties. Crosslisted with: AGRO 377

**HORT 378. Turfgrass Science**  
4 Credits (3+3P)  
Introduction to the scientific fundamentals for turfgrass management cultural practices, pest management, rootzone construction and ecology. Prerequisite(s): HORT 377 or consent of instructor.

**HORT 391. Internship**  
1-6 Credits  
Professional work experience under the joint supervision of the employer and a faculty member. A written report is required. No more than 6 credits toward a degree. Consent of instructor required. Graded: S/U. Crosslisted with: AGRO 391 and SOIL 391

**HORT 447. Seminar**  
1 Credit  
Review of current literature. Same as AGRO 447 and SOIL 447.
HORT 449. Special Problems
1-3 Credits
Research problem, experience training, or other special study approved by a faculty adviser. Maximum of 3 credits per semester and a grand total of 6 credits. May be repeated up to 6 credits. Consent of Instructor required.

HORT 450. Special Topics
1-4 Credits
Specific subjects as announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits. May be repeated up to 9 credits. Consent of Instructor required.

HORT 462. Plant Breeding
3 Credits
Principles and practices involved with the genetic improvement of plants. May be repeated up to 3 credits.
Prerequisite(s): ANSC/AGRO/HORT/GENE 305 or GENE 315 and GENE 320.

HORT 471. Plant Mineral Nutrition
3 Credits
Basic and applied aspects of plant requirements for soil-derived minerals and the processes whereby minerals are acquired, absorbed, translocated, and utilized throughout the plant. Same as AGRO/EPWS 471.
Prerequisite: EPWS/BIOL 314, or concurrent enrollment, or consent of instructor.

HORT 479. Advanced Turfgrass Science
3 Credits
Extensive reviews of turfgrass sciences including ecology, physiology, entomology, pathology, weed science, and soil science.
Prerequisite: HORT 378 or consent of instructor.

HORT 485. Vegetable Crop Management
4 Credits (3+2P)
Physiological, environmental and cultural aspects of vegetable crop production.
Corequisite(s): AGRO 365 or HORT 365, or consent of instructor.

HORT 488. Greenhouse Management
4 Credits (3+3P)
Principles and practices involved in greenhouse structures and construction, site considerations, heating and cooling systems, greenhouse crop production techniques, sustainability practices. May be repeated up to 4 credits.
Prerequisite(s): HORT/AGRO 365 or consent of instructor.

HORT 492. Diagnosing Plant Disorders
3 Credits (2+3P)
Systematic diagnosis of the physiological, pathological, and entomological causes of plant disorders. Same as EPWS 492 and AGRO 492.
Prerequisites: EPWS 303 and EPWS 310.

HORT 500. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree.

HORT 505. Research Orientation
4 Credits (3+2P)
Training in writing research proposals, presentation of research results, and interpretation of research results. Crosslisted with: AGRO 505 and SOIL 505

HORT 506. Plant Genetics
3 Credits
Advanced treatment of the principles of classical genetics and heredity with emphasis on the nature and action of the gene including molecular analysis. May be repeated up to 3 credits. Crosslisted with: AGRO 506. BCHE 341 recommended.
Prerequisite(s): AGRO 305/GENE 305/HORT 305/BIOL 305/ANSC 305 or consent of instructor.

HORT 514. Soil-Plant Relationships
3 Credits
Physical, chemical, and biological soil environment as it affects plant and crop growth. Same as AGRO/SOIL 514.
Prerequisites: BIOL 314, SOIL 252.

HORT 515. Crop Physiology
3 Credits
Whole plant physiological processes as related to growth, development, yield, quality and post harvest physiology of crop plants within the environment of the crop community. Crosslisted with: AGRO 515
Prerequisite(s): EPWS/BIOL 314 or consent of instructor.

HORT 525. Scientific Writing How to be a Productive and Effective Writer
1-3 Credits (1-3)
Students will learn to improve their writing skills so that their manuscript preparation process is more efficient and productive. Students will also gain experience in peer-review Crosslisted with: AGRO 525, AGRO 625, EPWS 525, SOIL 625 and SOIL 525.

HORT 533. Environmental Physiology of Plants
3 Credits
Integral responses of plants and crop productivity to naturally occurring and modified environmental factors such as radiation, temperatures, water vapor, carbon dioxide, and air flow. Same as AGRO/BIOL 533.
Prerequisite: BIOL 314 or consent of instructor.

HORT 590. Graduate Seminar
1 Credit
Current research discussions presented by masters level graduate students. Not more than one credit toward the degree. Same as AGRO/SOIL 590. Crosslisted with: AGRO 590 and SOIL 590.

HORT 595. Internship
1-6 Credits
Supervised professional on-the-job learning experience. Limited to Master of Horticulture or Plant & Environmental Science candidates. Not more than 6 credits toward the degree.

HORT 596. Maters Proposal
1 Credit
Current research proposal written by maters level graduate students. Consent of Instructor required. Crosslisted with: AGRO 596, E S 596, GENE 596 and SOIL 596. Restricted to: Masters HORT; Masters PLEN majors.
Prerequisite(s): Master level graduate students.

HORT 597. University Teaching Experience
1-3 Credits (1-3)
Certain graduate students will be permitted to teach up to one-third of one AGRO/HORT/SOIL/ES course. The student will prepare and deliver lectures and will prepare, administer, and grade at least one examination. The professor in charge of the course will attend and evaluate the student's lectures. Consent of instructor required. Crosslisted with: AGRO 597 and SOIL 597
HORT 598. Special Research Programs
1-6 Credits
Individual investigations, either analytical or experimental. Maximum of 6 credits per semester. No more than 9 credits toward a degree. 
Prerequisite: consent of instructor.

HORT 599. Master's Thesis
15 Credits
Thesis.

HORT 609. Breeding for Plant Disease Resistance
3 Credits
A practically-oriented course of lectures and discussion on concepts and principles of breeding for disease and pest resistance. Labs familiarize students with preparation, quantification, and application of inoculum to hosts. Same as AGRO 609.

HORT 610. Advanced Crop Breeding
4 Credits (3+3P)
Applications of breeding principles to crop improvement. Emphasis on breeding methodologies using modern techniques, including biotechnology. Same as AGRO 610.
Prerequisite: AGRO 462 or consent of instructor.

HORT 620. Instrumentation in Agronomy
3 Credits
Use of instruments used in research in all areas of agronomy including gas chromatography, high performance liquid chromatography, neutron soil moisture probe, and other instruments. Same as AGRO/SOIL 620.

HORT 625. Scientific Writing- How to be a Productive and Effective Writer
1-3 Credits (1-3)
Students will learn to improve their writing skills so that their manuscript preparation process is more efficient and productive. Students will also gain experience in peer-review. Students in the 625 course will be required to perform additional research than those students in the 525 cross-listing Crosslisted with: AGRO 525, EPWS 525, HORT 525 and SOIL 525.

HORT 670. Biometrical Genetics and Plant Breeding
3 Credits
A statistical approach to gene action and population parameters as applied to plant improvement. Same as AGRO 670.
Prerequisite: AGRO 462 or consent of instructor.

HORT 696. Doctors Proposal
1 Credit
Current research proposal written by PhD level graduate students. Consent of Instructor required. Crosslisted with: AGRO 696, E S 696 and SOIL 696. Restricted to: Doctors PLEN majors.
Prerequisite(s): PhD level graduate students.

HORT 697. University Teaching Experience
1-3 Credits (1-3)
Certain graduate students will be permitted to teach up to one-third of one AGRO/HORT/SOIL/ES course. The student will prepare and deliver lectures and will prepare, administer, and grade at least one examination. The professor in charge of the course will attend and evaluate the student's lectures. Consent of instructor required. Crosslisted with: AGRO 697 and SOIL 697

SOIL 252. Soils
3 Credits
Origin, classification, morphology, and physical, chemical, and biological properties of soils. May be repeated up to 3 credits.
Prerequisite(s): CHEM 110G and 112G, OR CHEM 111G.

SOIL 252 L. Soils Laboratory
1 Credit
Morphological, chemical, physical and biological properties of soil in the laboratory and field.
Corequisite: SOIL 252.

SOIL 300. Special Topics
1-4 Credits
Specific subjects and credits announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree. May be repeated up to 9 credits. Consent of Instructor required. Restricted to Las Cruces campus only.

SOIL 312. Soil Management and Fertility
3 Credits
Management, conservation, and fertility of soils; physical conditions affecting growth, nutrition, and plant production.
Prerequisite: SOIL 252.
Corequisite: SOIL 312.

SOIL 370. Environmental Soil Science
3 Credits
Continuation of SOIL 252 that emphasizes soil properties and processes that directly relate to environmental pollution problems. Same as E S 370.
Prerequisite: SOIL 252.

SOIL 391. Internship
1-6 Credits (1-6)
Professional work experience under the joint supervision of the employer and a faculty member. A written report is required. No more than 6 credits toward a degree. Consent of Instructor required. S/U Grading (S/U, Audit).

SOIL 424. Soil Chemistry
3 Credits
Basic elements of soil chemistry including clay mineralogy, cation and anion exchange and the chemistry of problem (acid, saline and flooded) soils. Credit not given for both SOIL 424 and SOIL 479.
Prerequisite(s): SOIL 252L or CHEM 111G and 112G.

SOIL 447. Seminar
1 Credit
Organization, preparation, and presentation of current topics in agronomy, horticulture, and soil science. Same as AGRO/HORT 447.

SOIL 449. Special Problems
1-3 Credits
Research problem, experience training, or other special study approved by a faculty adviser. Maximum of 3 credits per semester and a grand total of 6 credits. May be repeated up to 6 credits. Consent of Instructor required.

SOIL 450. Special Topics
1-4 Credits
Specific subjects to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a total of 9 credits towards a degree. May be repeated up to 9 credits. Consent of Instructor required.

Soil Courses
SOIL 200. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree. May be repeated up to 9 credits. Consent of Instructor required.
SOIL 456. Irrigation and Drainage
3 Credits
Principles and practices required for irrigation to exist as a permanent economy. Equipment and methods for measurement and control of water.

SOIL 472. Soil Morphology and Classification
4 Credits (2+2P)
Terminology used to describe soils. Soil classification systems of the world with emphasis on systems used in the United States. Theory of classification and taxonomy as applied to soils. May be repeated up to 4 credits. Crosslisted with: GEOG 472.
Prerequisite(s): SOIL 252.

SOIL 476. Soil Microbiology
3 Credits
Nature and physiology of soil microorganisms, how they affect plant growth and recycle nutrients. Land farming, bioremediation and other environmental problems as influenced by soil microorganisms. SOIL 252 and BIOL 311 recommended. Same as BIOL 476.

SOIL 476 L. Soil Microbiology Laboratory
1 Credit
Enumeration of soil microorganisms, their activities, and transformations they mediate. Same as BIOL 476L.
Prerequisites: SOIL 476 or concurrent enrollment.

SOIL 477. Environmental Soil Physics
3 Credits
A description of the physical characteristics of porous media including soil. Examination of processes describing the transport of water, chemicals, heat and gases through porous media with application to environmental quality, waste management, and crop production.

SOIL 477 L. Environmental Soil Physics Laboratory
1 Credit
Concurrent enrollment with SOIL 477 recommended. Hands on experience with techniques for characterizing soil physical properties such as particle size distribution, bulk density, water retention, hydraulic conductivity and solute transport. Demonstrations of field and laboratory techniques for measuring moisture content, soil water potential, gas/air flow and thermal conductivity.
Prerequisite: SOIL 252.

SOIL 479. Environmental Soil Chemistry
3 Credits
Basic elements of soil chemistry including discussion of clay mineralogy, cation and anion exchange and the chemistry of problem (acid, saline and flooded) soils. Credit not given for both SOIL 424 and SOIL 479.
Prerequisite(s): SOIL 252L or CHEM 111G and 112G.

SOIL 500. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester. No more than 9 credits toward a degree.

SOIL 505. Research Orientation
4 Credits (3+2P)
Training in writing research proposals, presentation of research results, and interpretation of research results. Crosslisted with: AGRO 505 and HORT 505

SOIL 514. Soil-Plant Relationships
3 Credits
Physical, chemical, and biological soil environment as it affects plant and crop growth. Same as AGRO/HORT 514.
Prerequisites: BIOL 314, SOIL 252.

SOIL 525. Scientific Writing- How to be a Productive and Effective Writer
1-3 Credits (1-3)
Students will learn to improve their writing skills so that their manuscript preparation process is more efficient and productive. Students will also gain experience in peer-review Crosslisted with: AGRO 525, AGRO 625, HORT 525, HORT 625, SOIL 625 and EPWS 525.

SOIL 590. Graduate Seminar
1 Credit
Current research discussions presented by master level graduate students. Not more than one credit toward the degree. Same as AGRO/HORT 590. Crosslisted with: AGRO 590 and HORT 590.

SOIL 596. Masters Proposal
1 Credit
Current research proposal written by masters level graduate students. Consent of Instructor required. Crosslisted with: AGRO 596, E S 596, GENE 596 and HORT 596. Restricted to: Masters HORT; Masters PLEN majors.
Corequisite(s): Master level graduate students.

SOIL 597. University Teaching Experience
1-3 Credits (1-3)
Certain graduate students will be permitted to teach up to one-third of one AGRO/HORT/ES course. The student will prepare and deliver lectures and will prepare, administer, and grade at least one examination. The professor in charge of the course will attend and evaluate the student's lectures. Consent of instructor required. Crosslisted with: AGRO 597 and HORT 597

SOIL 598. Special Research Programs
1-6 Credits
Individual investigations, either analytical or experimental. Maximum of 6 credits per semester. No more than 9 credits toward a degree.

SOIL 600. Doctoral Research
1-15 Credits
Research.

SOIL 625. Scientific Writing- How to be a Productive and Effective Writer
1-3 Credits (1-3)
Students will learn to improve their writing skills so that their manuscript preparation process is more efficient and productive. Students will also gain experience in peer-review. Students in the 625 course will be required to perform additional research than those students in the 525 course. Crosslisted with: AGRO 525, AGRO 625, HORT 525, HORT 625, SOIL 625 and EPWS 525.

SOIL 630. Advanced Soil Classification
3 Credits
Philosophy and organization of various soil classification systems, some international in scope, with emphasis on the new USDA system and classroom and field experience in using this system.
Prerequisite: SOIL 472 or consent of instructor.

SOIL 650. Advanced Topics
1-3 Credits
Colloquium on contemporary topics associated with agriculture, environmental science and engineering. Multidisciplinary topics will be chosen to encourage participation of students from diverse disciplines. May be repeated for a maximum of 9 credits.
Prerequisite: consent of instructor.
SOIL 652. Advanced Soil Physics
3 Credits
Advanced treatment of soil physics, modeling, includes working on an existing/new research project, modeling existing or new data, step by step guide on the use of some 1-D and 2-D models. Specific areas of specialization will be field scale variability of soil properties, water flow, solute transport, and plant water relations.
Prerequisite(s): SOIL 477 and computer literacy, or consent of instructor.

SOIL 655. Moisture Heat Contaminant Transport Modeling
3 Credits
Provides clear coverage of the basic principles of heat, moisture and contaminant transport through porous media, and a step-by-step guidance and hands on application on the use of some spreadsheet based and physically based one-and two-dimensional transport models. A similar course does not exist in the college for students that can encourage them to pursue modeling as a means of solving vadose zone and groundwater contamination and remediation problems. Consent of instructor required.

SOIL 694. Doctoral Seminar
1 Credit
Current research discussions presented by doctoral level graduate students. Not more than 2 credits toward the degree. Same as AGRO 694.
Prerequisite: doctoral level graduate students.

SOIL 696. Doctoral Proposal
1 Credit
Current research proposal written by doctoral level graduate students. Not more than 1 credit toward the degree. Same as AGRO 696.
Prerequisite: doctoral level graduate students.

SOIL 697. University Teaching Experience
1-3 Credits (1-3)
Certain graduate students will be permitted to teach up to one-third of one AGRO/HORT/SOIL/ES course. The student will prepare and deliver lectures and will prepare, administer, and grade at least one examination. The professor in charge of the course will attend and evaluate the student’s lectures. Consent of instructor required. Crosslisted with: AGRO 697 and HORT 697

SOIL 698. Topics in Agronomy
1-6 Credits
Topics of current interest, designated by title and credit. Maximum of 6 credits per semester. No more than 9 credits toward a degree.

Office Location: Skeen Hall room N127

Agronomy - Bachelor of Science in Agriculture

Agronomy is an understanding of the principles of plant and soil science and an application of these principles in the production of crops. Commercial sector careers include positions in agricultural consulting companies, agricultural seed or chemical companies, research and development with commercial companies, as well as farm and/or ranch management. Careers in county, state or federal agencies are in the areas of USDA, Cooperative Extension Service, Natural Resources Conservation Service, Forest Service and Bureau of Land Management.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Electives, to bring the total credits to 120 3

Total Credits 120

1 See the General Education Section (linked) of the catalog for a full list of courses
2 See the Viewing a World Section (linked) of the catalog for a full list of courses
3 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Environmental Science - Bachelor of Science in Environmental Science

The environmental science major is a multidisciplinary program based on a strong general science curriculum and an environmental curriculum that focuses on environmental problems and solutions. Although administered by the Department of Plant and Environmental Sciences, a multidisciplinary advisory committee recommends curriculum and other changes to the program. Graduates are very competitive for careers in industry and government and have excellent preparation for graduate programs in a variety of fields. A grade of C- or better must be earned in the Basic Background and Core Requirements.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

E S 460  
Introduction to Air Pollution
One of the most significant scientific accomplishments in history has been the use of genomic technologies to recently identify most human genes, as well as, most genes for a number of other animals, plants, fungi, and bacteria. Geneticists now have tremendous opportunities to use molecular, biochemical, mathematical, and computer science-based (bioinformatics) approaches to investigate how these genes determine observable traits. This information can be used to significantly advance human health and well being, and to meet the food and fiber needs of the world.

A degree in Genetics can provide excellent preparation for careers in academic research and technical support, teaching, agriculture, the biotechnology industry, medicine and health sciences, forensic science, technical writing, and sales or marketing. It is also an excellent background for students wishing to enter a graduate program, medical school, and veterinary school.

Undergraduates in the Genetics program must earn a grade of C- or better to receive credit for Departmental and Non-Departmental required courses. Within the Departmental Required courses, Tier I courses must be taken by all majors, for a total of 31 credit hours*. To accommodate differing interests among students, a series of Tier II courses comprising 9-11 credits are provided. Ethical considerations of genetic based technologies will be infused throughout the curriculum, with a focused course on Science and Ethics in the Tier III portion of the core curriculum.

*Note: This includes BIOL 111G which also counts as a General Education elective.

Requirements

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, other Non-Departmental requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

**Tier I Requirements**

Select one course from each of the three following categories.

1. Molecular and Applied Genetics: AGRO 462, ANSC 423, BIOL 442, BIOL 475, BIOL 478, BIOL 488, BIOL 489, GENE 486, GENE 488
   
2. Physiology: ANSC 421, BIOL 354, BIOL 381, BIOL 385, BIOL 451, BIOL 474, BIOL 485, EPWS 314, HORT 471
   
3. Organism Structure: ANSC 370, BIOL 311, BIOL 313, BIOL 322, BIOL 382, BIOL 465, BIOL 470, BIOL 490, EPWS 302, EPWS 373

**Tier II Requirements**

Select one from the following:

- AGRO 303V Genetics and Society
- HON 306V Science, Ethics and Society
- PHIL 321 Biomedical Ethics

**Non-Departmental Requirements (in addition to Gen.Ed/ VWW)**

- CHEM 313 Organic Chemistry I
- CHEM 314 Organic Chemistry II
- CHEM 315 Organic Chemistry Laboratory
- BCHE 395 Biochemistry I
- BCHE 396 Biochemistry II
- PHYS 221G General Physics for Life Sciences I
- PHYS 222G General Physics for Life Sciences II

**Electives, to bring the total credits to 120**

Select electives to bring total to 120 credits including 48 upper division credits.

**Recommended Electives**

- BIOL 351 Biology Internship
- GENE 391 Genetics Internship
- GENE 449 Special Problems

**Total Credits**

120

---

1. See the General Education Section (p. 49) of the catalog for a full list of courses.
2. MATH 192G is required for the degree but students may need to take prerequisite courses before entering MATH 192G.
3. CHEM 115 Principles of Chemistry I is an acceptable substitution for CHEM 111G General Chemistry I, and CHEM 116 Principles of Chemistry II is an acceptable substitution for CHEM 112G General Chemistry II.

*Please note that neither CHEM 115 nor CHEM 116 will satisfy the Area III Laboratory Science requirement and students may need a second Social/ Behavioral Sciences course to satisfy the Area III/IV General Education requirement.*

4. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
5. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The elective credits in the requirements list is the amount needed to bring the total to 120 credits and may vary based on the degree. Students may need to complete more or less courses on a case-by-case basis and each student should discuss elective requirements with their advisor.
6. Students interested in graduating with University Honors should consult with an advisor to select 18 credits of relevant Honors (HON) courses.

---

**Horticulture - Bachelor of Science in Agriculture**

Horticulture includes a wide variety of topics that relate to fruit, vegetable and ornamental crops. Careers range from production management to processing and marketing, retail and wholesale management, greenhouse and nursery production, floriculture, landscaping, turf management, research and development, various service activities and positions with local, state and federal agencies.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Total Credits: 120

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. MATH 121G College Algebra is required for the degree but students may need to take any prerequisites needed to enter MATH 121G first.
3. Requires a grade of C- or above in horticulture courses.
4. See the Viewing a Wider World (p. 53) Section of the catalog for a full list of courses.
Soil scientists investigate the physical, chemical and biological characteristics and behavior of soils, their description and classification, and their management for both agricultural and non-agricultural uses. Career opportunities include: industry jobs; environmental consulting firms; and federal, state and local government careers working on various environmental, agricultural and ecological projects.

Concentration: Environment & Resource Management

Soil science is integrated into the management of the environment and natural resources. Students interested in careers of conservation, environmental management, urban planning, waste disposal and related fields in government and industry may choose from a variety of course offerings. The economic and social implications as well as the technological aspects of resource management are included in the concentration courses.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework. In addition to the courses listed for each major, you must take 35 credits in the College of Agricultural, Consumer and Environmental Sciences and at least 24 credits of soil science related courses with a grade of C- or above including:

Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Concentration: Soils

Crop production and plant growth are emphasized in the soils concentration. Soil management, soil conservation, and soil reclamation are related to plant growth for those students interested in both private industry and government employment opportunities as well as farm management.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework. Electives, to bring the total credits to 120

Total Credits 120

1. See the General Education (p. 49) section of the catalog for a full list of courses
2. MATH 142G Calculus for the Biological and Management Sciences or MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites to enter either course first.
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses
4. CHEM 115 Principles of Chemistry I is an acceptable substitute for CHEM 111G General Chemistry I, and CHEM 116 Principles of Chemistry II is an acceptable substitute for CHEM 112G General Chemistry II. Please note that CHEM 115 and CHEM 116 will not satisfy the Area III Laboratory Science requirement and students may need a second Social/Behavioral Sciences course to satisfy the Area III/IV General Education requirement.
5. Please see your academic advisor for a list of appropriate courses to satisfy the concentration coursework requirements.
6. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Concentration: Soil & Water Science

The soil and water science concentration is for students interested in careers in water management and water quality. Employment opportunities exist with irrigation districts, consulting firms, and government agencies dealing with water management and quality. The optimum use of water in semi-arid areas is emphasized through selection of courses in the technical and social sciences.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework. In addition to the courses listed for each major, you must take 35 credits in the College of Agricultural, Consumer and Environmental Sciences and at least 24 credits of soil science related courses with a grade of C- or above including:

---

Turfgrass Science and Management - Bachelor of Science in Agriculture

Turfgrass managers help build, maintain, and manage golf courses, athletic fields, parks, and other recreational areas. The curriculum of each option allows you to focus on a specific segment of the turfgrass industry. All majors are required to pursue two internships with a golf course, parks department, athletic field, lawn care operator or other acceptable turfgrass segment. A grade of C- or above in all Core & Option credits is required.

Option: Athletic Field

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Oral Communications

Area II: Mathematics

MATH 121G College Algebra
or MATH 142G Calculus for the Biological and Management Sciences

Area III/IV: Laboratory Science and Social/Behavioral Sciences

CHEM 111G General Chemistry I
CHEM 112G General Chemistry II

Area IV. Social & Behavioral Sciences Course (3 credits)

Area V: Humanities

BIOL 211G Cellular and Organismal Biology

Viewing A Wide World

Two courses from separate colleges, from VW list (designated "V"). One of the two must be in a college other than your own. Both courses must be outside your major department (including cross listed courses).

Departmental/College Requirements

Core Requirements I

EPWS 311 Introduction to Weed Science
EPWS 314 Plant Physiology
HORT 377 Introduction to Turfgrass Management
HORT 378 Turfgrass Science
HORT 391 Internship (two internships)
HORT 447 Seminar
HORT 479 Advanced Turfgrass Science
SOIL 252 Soils

Core Requirements II

Select 27 credits from the following:

CHEM 211 Organic Chemistry
EPWS 303 Economic Entomology
EPWS 310 Plant Pathology
HORT 100G Introductory Plant Science
HORT 210 Ornamental Plants I
HORT 211 Ornamental Plants II
HORT 300 Special Topics
HORT 307 Landscape Design
HORT 365 Principles of Crop Production
HORT 450 Special Topics
HORT 462 Plant Breeding
HORT 471 Plant Mineral Nutrition
HORT 492 Diagnosing Plant Disorders
SOIL 252 Soils
SOIL 252 L Soils Laboratory
SOIL 312 Soil Management and Fertility
SOIL 312 L Soil Management and Fertility Lab
SOIL 424 Soil Chemistry
SOIL 456 Irrigation and Drainage
SOIL 476 Soil Microbiology
SOIL 476 L Soil Microbiology Laboratory
SOIL 477 Environmental Soil Physics
SOIL 477 L Environmental Soil Physics Laboratory

SPAN 212 Intermediate Spanish II

Athletic Field Option Coursework

Choose seven credits from the following:

BLAW 313 Sports and the Law
P E 117 Beginning Soccer
PE P 323 Racquet Sports
PE P 394 Designing Student Centered Afterschool Physical Activity Clubs

Choose six credits from the following:

AG E 236 Principles of Food and Agribusiness Management
ECON 337V Natural Resource Economics
ECON 384V Water Resource Economics
ECON 406 The Economics of Sports
FIN 206 Introduction to Finance
or FIN 341 Financial Analysis and Markets
MGT 315V Human Relations in Organizations
MGT 332 Human Resources Management
SPAN 212 Intermediate Spanish II

Choose three credits from the following:

AG E 236 Principles of Food and Agribusiness Management
ECON 337V Natural Resource Economics
ECON 384V Water Resource Economics
ECON 406 The Economics of Sports
FIN 206 Introduction to Finance
or FIN 341 Financial Analysis and Markets
MGT 315V Human Relations in Organizations
MGT 332 Human Resources Management
SPAN 212 Intermediate Spanish II

Choose three credits from the following:

AXED 303 Small Engine Technology
HORT 300 Special Topics

Second Language: (not required)

Electives, to bring the total credits to 120

Total Credits 120

Option: Golf Course

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Prefix Title Credits

General Education

Area I: Communications

English Composition Level 1

1 See the General Education section of the catalog for a full list of courses
2 MATH 121G College Algebra or MATH 142G Calculus for the Biological and Management Sciences is required for the degree but students may need to take any prerequisites needed to enter MATH 121G or MATH 142G first.
3 See the Viewing a Wider World (p. 53) Section of the catalog for a full list of courses.
4 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
English Composition Level 2
Oral Communications

Area II: Mathematics
MATH 121G College Algebra
or MATH 142G Calculus for the Biological and Management Sciences

Area III/IV: Laboratory Science and Social/Behavioral Sciences
CHEM 111G General Chemistry I
CHEM 112G General Chemistry II
Area IV: Social & Behavioral Sciences Course (3 credits)

Area V: Humanities

Area VI: Creative and Fine Arts

General Education Elective

Viewing A Wide World
Two courses from separate colleges, from VWW list (designated "V"). One of the two must be in a college other than your own. Both courses must be outside your major department (including cross listed courses).

Departmental/College Requirements

Core Requirements I
EPWS 311 Introduction to Weed Science
EPWS 314 Plant Physiology
HORT 377 Introduction to Turfgrass Management
HORT 378 Turfgrass Science
HORT 391 Internship (two internships) 1-6
HORT 447 Seminar 1
HORT 479 Advanced Turfgrass Science 3
SOIL 252 Soils 3

Core Requirements II
Select 27 credits from the following:
CHEM 211 Organic Chemistry
EPWS 303 Economic Entomology
EPWS 310 Plant Pathology
HORT 100G Introductory Plant Science
HORT 210 Ornamental Plants I
HORT 211 Ornamental Plants II
HORT 300 Special Topics
HORT 307 Landscape Design
HORT 365 Principles of Crop Production
HORT 450 Special Topics
HORT 462 Plant Breeding
HORT 471 Plant Mineral Nutrition
HORT 492 Diagnosing Plant Disorders
SOIL 252 Soils
SOIL 252 L Soils Laboratory
SOIL 312 Soil Management and Fertility
SOIL 312 L Soil Management and Fertility Lab
SOIL 424 Soil Chemistry
SOIL 456 Irrigation and Drainage
SOIL 476 Soil Microbiology
SOIL 476 L Soil Microbiology Laboratory
SOIL 477 Environmental Soil Physics

Golf Course Coursework
Choose two courses from the following:
AG E 236 Principles of Food and Agribusiness Management
BLAW 313 Sports and the Law
ECON 337V Natural Resource Economics
ECON 384V Water Resource Economics
ECON 406 The Economics of Sports
FIN 206 Introduction to Finance
or FIN 341 Financial Analysis and Markets
MGT 315V Human Relations in Organizations
or MGT 309 Human Behavior in Organizations
MGT 332 Human Resources Management
MKTG 354 Sports Marketing

Choose six credits from the following:
BIOL 221 Introductory Microbiology
BIOL 311 General Microbiology
BIOL 312 Plant Taxonomy
BIOL 313 Structure and Function of Plants
CHEM 211 Organic Chemistry
EPWS 303 Economic Entomology
EPWS 310 Plant Pathology
EPWS 455 Advanced Integrated Pest Management

Choose three credits from the following:
AXED 303 Small Engine Technology
HORT 300 Special Topics

Second Language: (not required)

Electives, to bring the total credits to 120

Total Credits 120

1 See the General Education section of the catalog for a full list of courses.
2 MATH 121G College Algebra or MATH 142G Calculus for the Biological and Management Sciences is required for the degree but students may need to take any prerequisites needed to enter MATH 121G or MATH 142G first.
3 See the Viewing a Wider World (p. 53) Section of the catalog for a full list of courses.
4 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Option: Turfgrass Business
Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective
credits, but may be needed in order to take the necessary English and Mathematics coursework.

Horticulture - Master of Science

Prerequisite to major graduate work is completion of a curriculum essentially equivalent to that required by the department for the BS degree at New Mexico State University. Qualifications for admission will be reviewed by the departmental graduate faculty. Applications should include a letter of interest. A 3.0 undergraduate grade-point average is needed for admission to study for the MS degree. The department requires the GRE scores and three letters of recommendation, transcripts, as well as the student’s letter of interest as an admission requirement. Acceptance requires that a graduate faculty member in the applicant’s area of interest accept the student into their program.

See the PES Graduate Handbook for specific course requirements.

Plant and Environmental Science - Master of Science

Qualifications for admission will be reviewed by the departmental graduate faculty. Applications should include a letter of interest. A 3.0 undergraduate grade-point average is needed for admission to study for the M.S degree. The department requires the GRE scores and three letters of recommendation, transcripts, as well as the student’s letter of interest as an admission requirement. Acceptance requires that a graduate faculty member in the applicant’s area of interest accept the student into their program.

See the PES Graduate Handbook for specific course requirements.

Plant and Environmental Science - Doctor of Philosophy

Qualifications for admission will be reviewed by the departmental graduate faculty. Applications should include a letter of interest. A 3.3 grade-point average for the most recently completed degree (B.S. or M.S.) is needed for admission for Ph.D. studies. The department requires the GRE scores and three letters of recommendation, transcripts, as well as the student’s letter of interest as an admission requirement. Acceptance requires that a graduate faculty member in the applicant’s area of interest accept the student into their program.

A student planning a program leading to a Ph.D. must satisfy one of the following departmental requirements approved by the doctoral committee:
1. A thorough knowledge of a language other than English
2. A reading ability in two foreign languages
3. Reading ability in one foreign language and proficiency with a research tool
4. Reading ability in one foreign language and one semester of supervised teaching experience
5. Proficiency with a research tool and one semester of supervised teaching
6. Two semesters of supervised teaching
A number of graduate assistantships are available each year. Inquiries should be addressed to the department.

See the PES Graduate Handbook for specific course requirements.
West Café and Bobby Lee Lawrence Academy of Wine. The Hospitality Technology Lab seats 39 for courses using hospitality simulation and general software programs.

The School of HRTM has a special relationship with the NMSU Courtyard by Marriott hotel and Total Management Systems, Inc. to provide educational opportunities for our students. Corporate executives and property managers are frequent guest speakers in classes. Part-time jobs, internships, and management opportunities are available at the property as well as the company's other locations throughout the state.

The HRTM's Annual Career Fair brings 25 – 30 companies to campus each February to interview students for jobs, internships, management training programs and other career opportunities. Many recruiters come to campus at other times of the year as well.

Trips to major industry trade shows throughout the country and field trips to major properties are only a few of the professional activities available to our students. HRTM's Faculty Led International Program (FLIP) takes students to Florence, Italy each summer. The School's National Society for Minorities in Hospitality chapter is extremely active and represents HRTM at many college, university, and national activities. Other student organizations include Eta Sigma Delta, Delta Sigma Pi, College Ambassadors, and Peer Mentors.

**Graduate Program Information**

Students can earn a Master of Science degree in Family and Consumer Sciences with an emphasis in Hotel, Restaurant and Tourism Management. The candidate for the master's degree should have an undergraduate degree in a field related to the intended area of specialization. In addition to the Graduate School requirements, the admissions criteria for the Department of Family and Consumer Sciences Graduate Program include letters of reference, standardized test scores, and other materials. Suggested departmental deadlines for review of admission materials are six weeks prior to the first day of the semester of desired start. A complete description of admission requirements should be obtained from the department.

A minimum of 30 credits (including 4-6 credits of thesis) is required under the thesis plan. A non-thesis plan is available that requires a minimum of 32 credits of course work with a written comprehensive examination. Both plans require a final oral examination. Students will take 3 credits of statistics and 3 credits of research methodology at the graduate level. Students who do not have degrees related to HRTM may be required to do some leveling work. Prior to the completion of 12 credits, a program advisory committee will be established to determine, with the student, the courses that will be taken for the degree work.

**Degree for the Department**

Hotel, Restaurant and Tourism Management - Bachelor of Science (p. 222)

Hotel, Restaurant and Tourism Management - Undergraduate Minor (p. 223)

**Director** - Jean Hertzman

**Professors** - Priscilla Bloomquist; Jean Hertzman; Keith Mandabach; Betsy Stringam **College Assistant Professors** - Daren Bloomquist; Julie Correa; John Hartley; Peter Mitchell

---

**Hotel, Restaurant and Tourism Management Courses**

**HRTM 111. Freshman Orientation**

1 Credit

Orientation to university life, including available resources and methods to promote success at NMSU. Open to all freshmen and transfer students. Graded S/U.

**HRTM 200. Special Topics**

1-4 Credits

Specific subjects and credits to be assigned on a semester basis for both lecture and laboratory assignments. May be repeated for a maximum of 4 credits.

**Prerequisite:** consent of instructor.

**HRTM 201. Introduction to Tourism**

3 Credits

Survey of travel and tourism development and operating characteristics.

**HRTM 221. Introduction to Hospitality Management**

3 Credits

Overview of the major segments of the hospitality industry, with a focus on basic management principles.

**HRTM 231. Food Safety and Sanitation in the Hospitality Industry**

1 Credit

Addresses public health, HACCP, and food safety responsibilities in the hospitality industry. Sanitation certification test allows students to receive national ServSafe Food Protection Manager Certification. Restricted to Las Cruces campus only.

**HRTM 235. Hotel Operations I**

3 Credits

Analysis of hotel operations to include: guest services, reservations, reception, guest/city ledger and the night audit. May be repeated up to 3 credits. Restricted to Las Cruces campus only.

**Prerequisite(s):** HRTM 221.

**HRTM 263. Food Production and Service Fundamentals**

3 Credits (1+4P)

Basic overview of food service systems including menu management, purchasing and production. The course includes basic principles of food fabrication and production. Topics include knife skills, culinary terminology, product identification, quality standards, nutritional cooking theory and application of food preparation techniques. The course includes laboratory aspects and demonstration of basic food production techniques, service styles, practices and procedures in food service operations including culinary math, culinary nutrition, and food service sanitation. May be repeated up to 3 credits.

**Prerequisite(s)/Corequisite(s):** HRTM 231 or proof of valid ServSafe Food Protection Manager certificate. Prerequisite(s): HRTM 221 or FSTE 263G. Restricted to Las Cruces campus only.

**HRTM 301. Hotel, Restaurant, and Tourism Marketing**

3 Credits

The development of effective marketing programs for hospitality service organizations. Prerequisites: HRTM 221
HRTM 302. Hospitality Management Accounting
3 Credits
Specialized accounting for hotel revenue and expenses; accounting for inventory, property, and equipment; hospitality payroll accounting; hotel departmental financial statements; income statement, balance sheet, and statement of cash flows; the analysis of financial statements; interim and annual reports; budgeting expenses; forecasting sales; budgetary reporting and analysis; and financial decision making.
Prerequisite: ACCT 221.

HRTM 304. Hospitality and Travel Law
3 Credits
Specialized applications of the law to the hospitality and tourism industry.
Prerequisite: HRTM 221.

HRTM 307. Professional Development
1 Credit
Covers essential elements of career management including preparation for a successful internship. Restricted to majors. Graded S/U.

HRTM 311. Hospitality Leadership Management
3 Credits
Examines modern leadership theory in the context of the hospitality industry. Connects contemporary leadership topics to their historical antecedents through focused reading, discussion and film.
Prerequisites: HRTM 221 and HRTM 201.

HRTM 363. Quantity Food Production and Service
4 Credits (1+6P)
Covers quantity food production and service including cooking concepts, sanitation and safety, teamwork, dining room service, and management responsibilities. Students will apply this knowledge developing product for sale in a student run restaurant. Proof of current ServSafe Food Protection Manager or NM Food Handler certification required. May be repeated up to 4 credits. Crosslisted with: HNDS 363.
Prerequisite(s): HRTM 221, HRTM 201.

HRTM 408. Hospitality Internship
1 Credit
Hospitality and tourism professional work experience for HRTM majors only. Restricted to majors.
Prerequisites: HRTM 307 and consent of instructor.

HRTM 409. HRTM Internship Seminar
1 Credit
A case based approach to analyzing internship experiences. Students will write case studies about specific business issues they encountered during HRTM 408 (Internship) and analyze them. Restricted to majors.
Prerequisites: HRTM 408.

HRTM 410. Hospitality Cost Control
3 Credits
Familiarizes students with all aspects of cost control including financial data entry and hospitality accounting practices, financial report production, analysis and problem solving. Students will learn to understand the roles of the various stakeholders (owners, managers, employees and customers.) Provides tools needed to communicate effectively about global financial issues affecting the hospitality business. May be repeated up to 3 credits.
Prerequisite(s): HRTM 302, HRTM 363.

HRTM 412. Beverage Management
3 Credits
Survey of all aspects of beverage management, including wine/beer/distilled spirits origins and trends, cost control, bar management, beverage purchasing, and wine appreciation. May be repeated up to 3 credits.
Prerequisite(s): HRTM 363.

HRTM 413. Restaurant Operations Management
4 Credits (1+6P)
Provides a detailed understanding of the processes of restaurant operations management. Students are expected to increase kitchen and service technical skills, develop and cook from recipes, develop a personal leadership style, understand food and wine pairing, and supervise front and back of the house operations. Provides the opportunity to perform a detailed analysis of a food and beverage operation. Proof of valid ServSafe Food Protection Manager or NM Food Handler certification and current NM Alcohol Server certification required. May be repeated up to 4 credits.
Prerequisite(s): HRTM 363.

HRTM 414. Wine Appreciation
3 Credits
An experiential examination of wine through lectures, guest speakers and focused tasting of wine and food. Topics include viticulture, wine making varietals, terroir, wine service, tasting and evaluation techniques, and food pairings. Student must be at least 21 years old. May be repeated up to 3 credits. Consent of Instructor required.
Prerequisite(s): Consent of instructor.

HRTM 420. Club Management and Marketing
3 Credits
Provides an understanding of the general operational and administrative procedures practiced in private clubs from a marketing perspective with a special emphasis on managing and marketing club food and beverage operations and service. It will provide the professional golf management and hospitality students with the unique sensitivities required in managing and operating in the increasingly lucrative club management market.

HRTM 430. Hospitality Facilities Management
3 Credits
Exploration of the engineering and maintenance requirements specific to the hospitality industry. Emphasis on environmental issues, renovation and management of the physical plant. May be repeated up to 3 credits.
Prerequisite(s): HRTM 235, HRTM 408.

HRTM 431. Hotel Operations II
3 Credits
The duties and administration of a hotel front office, including housekeeping. Additional focus on the procedures of reservations and night audit. Students also gain exposure to property management systems. May be repeated up to 3 credits.
Prerequisite(s): HRTM 235.

HRTM 432. Hotel Revenue and Sales Management
3 Credits
Examines methods used for profitably managing capacity, including dynamic pricing and allocation of the rooms inventory across market segments to maximize revenues. Focuses on the integration of revenue management principles with information technology, management, marketing and sales concerns at the property and market level. May be repeated up to 3 credits.
Prerequisite(s): HRTM 235.
HRTM 434. Senior Capstone Experience
3 Credits
Synthesizes all previous work. Students apply multi-disciplinary principles to the analysis of hospitality business cases and tourism problems.
Prerequisite: HRTM 408.

HRTM 435. Resort Management
3 Credits
This course introduces students to the operation and management of full service resort properties, including the management of resort recreational amenities.
Prerequisite(s): HRTM 235 or consent of instructor.

HRTM 443. Meetings, Conventions and Special Events
3 Credits
Examination of the role of the meeting/event planner, including setting objectives, site selection, negotiations, design, budgeting, marketing, registration, on-site logistics, and evaluation. May be repeated up to 3 credits. Consent of Instructor required.
Prerequisite(s): Consent of instructor.

HRTM 450. Special Topics
1-4 Credits
Specific subjects to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a grand total of 9 credits.
Prerequisite: consent of instructor.

HRTM 492. Special Problems
1-4 Credits
Individual research in a selected subject area of hospitality management. Maximum of 4 credits per semester and a total of 6 credits toward a degree.
Prerequisite: consent of instructor.

HRTM 510. Hospitality Cost Control
3 Credits
Familiarizes students with all aspects of cost control including financial data entry and hospitality accounting practices, financial report production, analysis and problem solving. Students will learn to understand the roles of the various stakeholders (owners, managers, employees and customers). Provides tools needed to communicate effectively about global financial issues affecting the hospitality business. Same as HRTM 410 with additional work for graduate credit. Consent of Instructor required.

HRTM 512. Beverage Management
3 Credits
Survey of all aspects of beverage management, including wine/beer/ distilled spirits origins and trends, cost control, bar management, beverage purchasing, and wine appreciation. Same as HRTM 412 with additional work for graduate credit. Consent of Instructor required.

HRTM 530. Facilities Management
3 Credits
Exploration of the engineering and maintenance requirements specific to the hospitality industry. Emphasis on environmental issues, renovation and management of the physical plant. Same as HRTM 430 with additional work for graduate credit. Consent of Instructor required.

HRTM 531. Hotel Operations II
3 Credits
The duties and administration of a hotel front office, including housekeeping. Additional focus on the procedures of reservations and night audit. Students also gain exposure to property management systems. Same as HRTM 431 with additional work for graduate credit. Consent of Instructor required.

HRTM 532. Hotel Revenue and Sales Management
3 Credits
Examines methods used for profitably managing capacity, including dynamic pricing and allocation of the rooms inventory across market segments to maximize revenues. Focuses on the integration of revenue management principles with information technology, management, marketing and sales concerns at the property and market level. Same as HRTM 432 with additional work for graduate credit. Consent of Instructor required.

HRTM 535. Resort Management
3 Credits
This course introduces students to the operation and management of full service resort properties, including the management of resort recreational amenities.
Prerequisite(s): Consent of instructor.

HRTM 543. Meetings, Conventions and Special Events
3 Credits
Examination of the role of the meeting/event planner, including setting objectives, site selection, negotiations, design, budgeting, marketing, registration, on-site logistics, and evaluation. Same as HRTM 443 with additional work for graduate credit. Consent of Instructor required.

HRTM 590. Special Topics
1-4 Credits
Specific subjects and credits to be announced in the Schedule of Classes. Maximum of 4 credits per semester and a total of 9 credits toward a degree.
Prerequisite: consent of instructor.

HRTM 598. Special Research Programs
1-4 Credits
Individual investigations, either analytical or experimental. Maximum of 4 credits per semester and no more than 6 credits toward a degree.
Prerequisite: consent of instructor.

HRTM 599. Master's Thesis
1-6 Credits (1-6)
Thesis.
Prerequisite: consent of instructor.

Hospitability Graduate Courses
HOSP 501. The Hospitality Industry and Sustainable Competitive Strategy
3 Credits
An examination of the hospitality industry, and its contemporary strategic management principles and practices. Key components, industry organization, and competitive environment of the hospitality industry are analyzed. Strategic decision making principles are examined to create sustainable competitive advantages for hospitality and service industry leaders and organizations. Consent of Instructor required. Restricted to: Restricted to students in the Online Master of Hospitality Degree majors.
HOSP 502. Advanced Hospitality Services Management  
3 Credits  
This course explores and applies the design and management of service quality in global hospitality organizations. Consent of Instructor required.  
**Prerequisite(s)/Corequisite(s):** HOSP 501. Restricted to: Restricted to students in the Online Master of Hospitality Degree majors.

HOSP 503. Hospitality Organizational Leadership and Human Resources  
3 Credits  
Application of key organizational, leadership and human resource theories to global hospitality organizations. Analysis of key hospitality industry leaders, companies and systems. Consent of Instructor required.  
**Prerequisite(s)/Corequisite(s):** HOSP 501. Restricted to: Restricted to students in the Online Master of Hospitality Degree majors.

HOSP 504. Marketing Strategy for Global Hospitality  
3 Credits  
Application, analysis and evaluation of marketing theories, strategies and tactics for developing sustainable competitive advantage in the global hospitality industry. Consent of Instructor required.  
**Prerequisite(s)/Corequisite(s):** HOSP 501. Restricted to: Restricted to students in the Online Master of Hospitality Degree majors.

HOSP 505. Hospitality Research Methods & Analysis  
3 Credits  
Application of appropriate statistical procedures and research methodologies within the hospitality industry. Consent of Instructor required.  
**Prerequisite(s)/Corequisite(s):** HOSP 501. Restricted to: Restricted to students in the Online Master of Hospitality Degree majors.

HOSP 506. Contemporary Global Issues in Hospitality  
3 Credits  
Contemporary issues confronting the global hospitality industry. Consent of Instructor required.  
**Prerequisite(s)/Corequisite(s):** HOSP 501. Restricted to: Restricted to students in the Online Master of Hospitality Degree majors.

HOSP 511. Hospitality Financial Analysis  
3 Credits  
Financial and accounting decision processes as applied to the hospitality industry. Consent of Instructor required.  
**Prerequisite(s)/Corequisite(s):** HOSP 501. Restricted to: Restricted to students in the Online Master of Hospitality Degree majors.

HOSP 515. Applied Management Project  
3 Credits  
Students will develop a project scope based on problems presented within the hospitality industry. Projects incorporate concepts and skills developed in previous coursework. Students will take this course in their last semester of the Master of Hospitality Degree. Consent of Instructor required.  
**Prerequisite(s)/Corequisite(s):** HOSP 501. Restricted to: Restricted to students in the Online Master of Hospitality Degree majors.

HOSP 546. Methods for Teaching Hospitality and Culinary Education  
3 Credits  
Methods of instruction and presentation, selection of teaching aids and support materials, classroom management, development of a complete educational program, and microteaching experiences Consent of Instructor required. Restricted to: Restricted to students in the Online Master of Hospitality Degree majors.

HOSP 550. The World of Hospitality Higher Education  
3 Credits  
Survey of the history, organization, and administration of hospitality higher education programs. Explores differences between types of degree programs – associate, bachelor, graduate and sources of funding – public, private, proprietary. Investigates the role of the faculty member in non-instructional activities, such as working with administrative and support departments, accreditation, service, community outreach, fundraising, and industry relations. Consent of Instructor required. Restricted to: Restricted to students in the Online Master of Hospitality Degree majors.

Total Credits 120-122

1 A ST 251G Statistics for Business and the Behavioral Sciences or STAT 251G Statistics for Business and the Behavioral Sciences is required for the degree but students may need to take any prerequisites needed to enter a ST 251G or STAT 251G first.

2 See the General Education (p. 49) section of the catalog for a full list of courses. Please consult your HRTM faculty mentor to select appropriate courses.

3 Viewing A Wider World Requirement - Two courses in two different colleges, with at least one from outside ACES. See list of approved courses in the catalog. (300+ level courses with a "V" behind them.) See the Viewing a Wider World (p. ) section of the catalog for a full list.

4 Complete during final semester.

5 Departmental Electives (the following are typical offerings):
   - HRTM 412 Beverage Management
   - HRTM 413 Restaurant Operations Management
   - HRTM 414 Wine Appreciation
   - HRTM 420 Club Management and Marketing
   - HRTM 431 Hotel Operations II
   - HRTM 432 Hotel Revenue and Sales Management
   - HRTM 435 Resort Management
   - HRTM 443 Meetings, Conventions and Special Events
   - HRTM 450 Special Topics
   - HRTM 492 Special Problems

6 It is strongly suggested that students use their elective credits to earn a minor such as Marketing, Business Administration, Food Science and Technology, Human-Animal Interaction, or a Language. *Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Hotel, Restaurant and Tourism Management - Undergraduate Minor

A minor in the School of Hotel, Restaurant and Tourism Management consists of 18 or more credit hours of approved course work of which at least 12 must be numbered 300 or higher: all completed with a grade of "C" or higher.

Please note that some courses have prerequisites that you may not have taken. Please see the HRTM Director or a HRTM Faculty Mentor to approve your plan for completing the minor and approval to take specific classes.

Students wishing to perform a HRTM internship as part of the minor must take the full sequence of internship courses: HRTM 307 Professional Development, HRTM 408 Hospitality Internship, and HRTM 409 HRTM Internship Seminar.

**Water Science and Management**

**Graduate Program Information**

New Mexico faces serious challenges concerning the supply, development, quality, management and administration of water resources; responses to the challenges will have major impacts on the regional economy, environmental quality and the quality of life of the residents of New Mexico. A major need exists to train the next generation of water resource researchers, educators, and managers to address these challenges, both inside and outside New Mexico. To help meet these needs, an interdisciplinary program in Water Science & Management (WSM) has been developed at NMSU by the departments of

- Agricultural Economics and Agricultural Business,
- Animal and Range Science,
- Civil Engineering,
- Geography, and
- Plant and Environmental Sciences.

The primary purposes of the interdisciplinary masters and doctoral degree programs in WSM are to provide graduate education for addressing state, national, and international water issues, and to train the next generation of water professionals needed to meet the challenges noted above. A Master of Science WSM degree can be earned with 26 credits of formal course work, plus additional thesis research credits, and a Doctor of Philosophy WSM can be earned with 30-40 credits of formal course work beyond the masters, plus additional dissertation research credits.

**Admission Requirements**

**Admission Requirements for the Master of Science (MS)** in water science and management include all general requirements for a graduate degree as set forth in the NMSU Catalog, plus the following:

- Possession of a bachelor’s degree from an accredited university grade point average of 3.5 or higher on a 4.0 scale. However, students with grade point averages between 3.0 and 3.5 will be given consideration, this degree being preparatory to the Water Science and Management degree.
- A letter of intent or statement of purpose that addresses individual professional and personal goals related to water science and management and discusses how these goals fit within the degree programs at NMSU. It is expected that the candidate will have made contact with prospective advisor(s) at NMSU and speak to how he or she would work with said advisor(s) to advance their research and study.
- Three letters of recommendation submitted directly from persons who know the applicant professionally, including a recommendation from the candidate’s current employer/sponsor. These letters should provide evidence of professional ability, research experience and the potential for professional development.
- A brief resume or curriculum vitae not to exceed five pages that summarize the candidate’s background and qualifications.

**Admission Requirements for the Doctor of Philosophy (Ph.D.)** in water science and management include all general requirements for a graduate degree as set forth in the NMSU Catalog, plus the following:

- Possession of a master’s degree from an accredited university with a grade point average of 3.5 or higher on a 4.0 scale. However, students with grade point averages between 3.0 and 3.5 will be given consideration. This degree being preparatory to the Water Science and Management doctorate.
- Three letters of recommendation submitted directly from persons who know the applicant professionally, including a recommendation from the candidate’s current employer/sponsor. These letters should provide evidence of professional ability, research experience, and the potential for professional development.
- In addition, applicants to the Ph.D. program should provide evidence of research experience. This could include a master’s thesis, a professional paper, peer reviewed manuscripts, consulting reports, or other evidence of experience conducting research.
- A letter of intent or statement of purpose that addresses individual professional and personal goals related to water science and management and discusses how these goals fit within the degree programs at NMSU. It is expected that the candidate will have made contact with prospective advisor(s) at NMSU and speak to how he or she would work with said advisor(s) to advance their research and study.
- A brief resume or curriculum vitae not to exceed five pages that summarize the candidate’s background and qualifications.

**Water Science & Management Graduate Courses**

To view the list of core courses required for our Master of Science and Doctor of Philosophy degrees please see the Degrees (p. 225) tab. The following courses on this tab are electives from the designated water list for the relevant concentrations.

Five (5) concentrations are offered in the program and are detailed on the program page:

- **Agricultural Water Resources** relates to the major use of ground and surface water in providing safe and secure food systems while ensuring ecosystem services. This field of study includes water allocation, water conservation and water management issues facing urban water supply and irrigated agriculture.
- **Watershed, Riparian and Aquatic Systems** includes the processes of organizing and guiding land and other resources used in a river...
basin to provide desired goods and services without adversely affecting soil and water resources. Watershed, riparian, and aquatic system management involves an array of nonstructural (vegetation management) practices, as well as an array of structural (engineering) activities, when conditions warrant.

- **Water Quality and Treatment** includes processes used to make water acceptable for desired end-uses. These can include use as drinking water, industrial processes, agricultural uses and environmental management. The goal of water treatment processes is to remove existing contaminants in the water or reduce the concentration of such contaminants so the water becomes fit for its desired end-use.

- **Water Economics and Policy** examines the demand for water by all its competing uses, including irrigated agriculture, energy, urban supply, and environmental restoration and management. Policies are examined for their influence on water supplies, water demands, and economic values of water reallocations among agricultural, environmental, energy, and urban users. It examines the role of water markets, water user decisions, institutional adjustments, and water-related policies with respect to resource costs, water quality, profitability, and environmental effects.

- **Water Informatics** is an interdisciplinary science primarily concerned with the collection, classification, manipulation, storage, retrieval and especially the dissemination of water information, including both human and machine readable documents. Examples of human readable documents include maps, field data sheets, operational schedules, and long term asset management plans with narrative text. Machine readable documents include files for geographic information systems (GIS), Global Positioning Systems (GPS), relational database management systems and emerging applications.

**Degrees for the Department**

Water Science and Management - Master of Science (p. 226)

Water Science and Management - Doctor of Philosophy (p. 228)

**Minors for the Department**

Both minors within the WSAM program are affiliated with other departments.

Geographic Information Science and Technology (GIS&T) - Graduate Minor (p. 231)

Applied Statistics - Graduate Minor (p. 231)

**Affiliated Faculty** – S. Angadi, Ph.D. (University of Manitoba, Canada); S. Archambault, Ph.D. (UNM); A. Salim Bawazir, Ph.D. (NMSU); M.P. Bleiweiss, M.S. (California State-Los Angeles); W. Boeing, Ph.D. (Louisiana State); K. Boykin, Ph.D. (NMSU); C. E. Brewer, Ph.D. (Iowa State); C. Brown, Ph.D. (San Diego State/California-Santa Barbara); S. W. Brown, Ph.D. (NMSU); C. A. Caldwell, Ph.D. (Tennessee); K. C. Carroll, Ph.D. (Arizona); D. E. Cowley, Ph.D. (Wisconsin); D. S. Cram, Ph.D. (NMSU); M. N. DeMers, Ph.D. (Kansas); C. M. Downes, Ph.D. (New Mexico); D. W. DuBois, Ph.D. (Nevada); D. P. Dugas, Ph.D. (Oregon); A. G. Sam Fernald, Ph.D. (Colorado State); A. Ghassemi, Ph.D. (NMSU); R. M. Goss, Ph.D. (Nebraska); W. R. Gould, Ph.D. (North Carolina State); S. J. Guldan, Ph.D. (Minnesota); P. Gutierrez, Ph.D. (J. Herrick, Ph.D. (Ohio State); B. H. Hurd, Ph.D. (California-Davis); M. D. Johnson, Ph.D. (NMSU); N. Khandan, Ph.D. (Drexel University); J. P. King, Ph.D. (Colorado State); A. S. Lara, Ph.D. (NMSU); B. Leinauer, Ph.D. (Hohenheim University, Germany); H. Luo, Ph.D. (Tulane); M. C. Mitchell, Ph.D. (Minnesota); M. O’Neill, Ph.D. (Arizona); L. Papelis, Ph.D. (Stanford); J. T. Peach, Ph.D. (Texas); G. A. Picchioni, Ph.D. (Texas A&M); R. C. Pratt, Ph.D. (Purdue); A. Rango, Ph.D. (Colorado State); D. A. Rockstraw, Ph.D. (Oklahoma); R. Sallenave, Ph.D. (University of Guelph-Canada); Z. A. Samani, Ph.D. (Utah State); M. K. Shukla, Ph.D. (University of Agricultural Sciences-Vienna, Austria); G. Sims, Ph.D. (Purdue); G. B. Smith, Ph.D. (North Carolina State); R. G. Smits, Ph.D. (Purdue); S. N. Sminov, Ph.D. (Novosibirsk University, Russia); R. St. Hilaire, Ph.D. (Ohio State); C. M. Steele, Ph.D. (King’s College, University of London-UK); K. Stevens, M.S. (NMSU); B. L. Stringam, Ph.D. (Utah State); A. L. Ullery, Ph.D. (California-Riverside); J. Urquidi, Ph.D. (Texas Tech); F. A. Ward, Ph.D. (Colorado State); N. Webb, Ph.D. (University of Queensland, Australia); B. Widner, Ph.D. (Colorado State); P. Xu, Ph.D. (Ecole Nationale de Guinie Rural, Des Eaux Et Des Forets, France)

**Water Science and Management Courses**

**WSAM 470. Environmental Impacts of Land Use and Contaminant Remediation**

3 Credits

The course will cover the integrated assessment of soil erosion, contaminant transport in soil and water, and contaminant remediation from site scale to watershed scales. Understanding of the controlling factors for each type land use impact will be gained through the use of risk assessment, case studies, and computer modeling. Case studies will illustrate the processes under various environmental applications. This course will also cover the application of solute transport principles and methods for the remediation of contaminated soil and groundwater. It will also discuss the contaminated site characterization, monitoring, and remediation design. Discussions of innovative methodologies will be supported with case studies. May be repeated up to 3 credits. Crosslisted with: E S 470.

**WSAM 551. Earth Data Retrieval**

3 Credits

This course covers topics related to identifying sources, preprocessing, utilizing earth data that can be used to monitor some hydrological and water related variables, vegetation growth and related biophysical properties. The course focuses on developing students’ skills on how to handle and analyze high-level large amounts of research data in different formats (e.g., .hdf). The course highlights the use of remote sensing and land surface models-based (NLNAS) earth observation datasets (e.g., NDVI, LST, Ts, and ET). The course uses some open-source tools including Python, API as well as MATLAB. Crosslisted with: RGSC 551.

**WSAM 575. Climate Studies, Water and Society**

3 Credits

The course provides a brief description of the Earth’s climate system, an in-depth review and methodologies used to investigate climate change and variability, evidence of climate change on natural systems (water availability/vulnerability of human systems (e.g., agriculture) to climate change, and mitigation and adaptation strategies. Crosslisted with: RGSC 575.
WSAM 585. Land Cover Analysis for Natural Resources
3 Credits
This course is designed to help students understand, manipulate and extract Earth Observation (EO) data and to conduct land cover analysis related to natural resources including water and vegetation. The course provides and highlights means to identify and access EO data in different formats, extract meaningful information, and to help students developing critical thinking skills. The course introduces tools such as python and ArcGIS Pro to handle different data formats (e.g. hdf) efficiently; develop and present creative maps. The course provides basic information about how to conduct land use, land cover change analysis, mapping vegetation, water related variables and plant and animal distribution analysis. Crosslisted with: RGSC 585.

WSAM 589. Landscape Hydrology Modeling
3 Credits
Understand the landscape scale of hydrologic cycle and related hydrological processes. Quantitatively evaluate hydrological system components. Retrieve, visualize and model some of the physical processes using some of the available tools. Consent of Instructor required.

WSAM 599. Masters Thesis
1-15 Credits (1-15)

WSAM 605. Arid Land Water Resources
3 Credits (2+2P)
The course will cover various issues of relevance to water resources and water supply management within the Southwest US and other semiarid and arid regions. Discussions may include development and sustainability, climate change and drought, socioeconomic and cultural, and transboundary issues. May be repeated up to 3 credits. Crosslisted with: E S 605.

WSAM 610. Water and Sustainable Economic Development
3 Credits
For graduate students in the Water Science and Management or other research degree programs, use the water economics literature as a model for student research leading to an M.S. thesis or Ph.D. dissertation.

WSAM 700. Doctoral Dissertation
1-15 Credits (1-15)

### Water Science and Management - Master of Science
This degree is designed primarily for students who wish to complement their primary discipline by obtaining scientific, technical, and managerial expertise in water. The Master's degree can be earned with 27 credits of formal course work, plus 6 additional thesis research credits, as detailed below. The degree also have five available concentrations.

- Geography, (575) 646-3509, [http://geography.nmsu.edu](http://geography.nmsu.edu)
- Plant and Environmental Sciences, (575) 646-3405, [http://aces.nmsu.edu/academics/pes](http://aces.nmsu.edu/academics/pes)

Office Location: Stucky Hall
Phone: (575) 646-4198

Total Credits | 51-53

1. With the consent of the instructor and the approval of the student’s advisor, C E 582 Statistical Hydrology or GEOG 585 Advanced Spatial Analysis may be used as a substitute.
2. Seminar may be substituted by WSAM 605 Arid Land Water Resources, or WSAM 610 Water and Sustainable Economic Development, or GEOG 501 Research Design and History of Geographic Thought.
Concentration: Water Informatics

Prefix | Title | Credits
--- | --- | ---
**Core Courses** |  |  
AEEC 575 | Economics of Water Resource Management and Policy | 3
RGSC 518 | Watershed Methods and Management | 3
or SOIL 456 | Irrigation and Drainage |
C E 557 | Water Resources Development | 3
GEOG 578 | Fundamentals of Geographic Information Science (GIS) | 3-4
or GEOG 521 | GIS & T Applications and Modeling |
Select one from the following: 1 | 3-4 |
A ST 505 | Statistical Inference I |  
C E 582 | Statistical Hydrology |
GEOG 585 | Advanced Spatial Analysis |
Select one from the following Seminar Courses: 2 | 3 |
WSAM 605 | Arid Land Water Resources |
WSAM 610 | Water and Sustainable Economic Development |
GEOG 501 | Research Design and History of Geographic Thought |

**Concentration courses**
Choose 12 credits from the following: 12
GEOG 521 | GIS & T Applications and Modeling |
GEOG 571 | Cartography and Geographic Information Systems |
GEOG 572 | Geodatabase Design |
GEOG 573 | Introduction to Remote Sensing |
GEOG 578 | Fundamentals of Geographic Information Science (GIS) |
GEOG 581 | System Design for Geographic Information Science (GIS) |
GEOG 582 | Advanced Remote Sensing |
GEOG 585 | Advanced Spatial Analysis |

**Electives (in consultation with the student’s committee)** | 3 |

**Dissertation**
WSAM 700 | Doctoral Dissertation | 18 |

Total Credits 51-53

Total Credits 51-53

---

1 With the consent of the instructor and the approval of the student’s advisor, C E 582 Statistical Hydrology or GEOG 585 Advanced Spatial Analysis may be used as a substitute.

2 Seminar may be substituted by WSAM 605 Arid Land Water Resources, or WSAM 610 Water and Sustainable Economic Development, or GEOG 501 Research Design and History of Geographic Thought.

Students are expected to have a basic foundation in Geographic Information System (GIS) within a classroom, research experience, or professional experience. Students without this background are required to take an appropriate GIS class as advised by their advisor such as: GEOG 578 Fundamentals of Geographic Information Science (GIS), or GEOG 521 GIS & T Applications and Modeling, or FWCE 535 Special Topics.

**Applied Statistics - Graduate Minor**

Students interested in completing a Geographic Information Science and Technology minor should consult with the Economics, Applied Statistics and International Business department (http://business.nmsu.edu/academics/graduate-programs/ms-astat-minor/).

**Geographic Information Systems - Graduate Minor**

Student interested in completing a Geographic Information Systems minor should consult with the geography department (http://geography.nmsu.edu)
College Undergraduate Degree Requirements

1. In accordance with NMSU policy, students in all majors in the College of Arts and Sciences must meet the Basic Academic Skills requirements in English and Mathematics prior to enrolling in upper division courses numbered 300 or higher. See "Basic Academic Skills (p. 58)" in the General Information, Regulations section.

2. University graduation requirements. See “Graduation Requirements (p. 58)” in the “General Information” section in this catalog. In order to graduate, students must have met all degree requirements for their major, earned a minimum of 120 university level credits, or more if required for the degree, of which at least 48 must be upper division (except for the Bachelor of Applied Studies, which requires 36 upper division credits) and must have a cumulative GPA of 2.0 in all courses taken at NMSU. Each student must complete at least 30 of the necessary credits for their Bachelor Degree at NMSU. A minimum of "C-" in all courses counting toward the major, supplemental major and minor is required of all students.

S/U Grading Option for Undergraduate Students

Instructors may establish individual standards for an S grade, but the minimum standard for an S grade in the College of Arts and Sciences courses is a C-

Developmental and Applied Credit Limitations for Undergraduate Students

The College of Arts and Sciences will accept all applied coursework, which include Occupational Education courses, BOT, CMT, UNIV (not including UNIV 150 The Freshman Year Experience and UNIV 350 Peer Education), ART (applied), DANC (applied), MUS (applied and participation), THTR (applied), NURS, A EN, AXED, AG E, AGHE, COLL, CCDL, CCDS, all lower-division RDG. These courses count towards overall credit hours to bring the students total to the minimum credit hours required. Students must still complete all university requirements: GEN ED; VWW; the required number of upper division credits, as well as all requirements for their declared major degree.

Credits earned in developmental courses (N suffix) are not counted toward any arts and sciences degree. Students should contact the Student Records Center regarding the acceptability of specific courses.

Independent Study/Directed Reading Courses for Undergraduate Students

Students are limited to six credits in any independent study course. Independent study courses include directed reading and special topic courses, which do not carry a subtitle.

Distance Education Courses

The College of Arts and Sciences offers a variety of distance education/online courses each semester. Specific courses can be found under departmental course listings online. Students who successfully complete NMSU distance education courses receive the same credit as students who take an equivalent course on the Las Cruces campus. Distance education courses appear on a student’s transcript in the same way a course taken on the Las Cruces campus does. Students will be charged a Course Delivery Fee for taking online courses.

Majors, Minors and Supplementary Majors for Undergraduate Students

Students who wish to obtain a bachelor’s degree must select a major field or fields. For a listing of majors, the student should refer to the list of majors in this catalog. Course requirements for majors are listed under individual departments. Students should consult the department for
current admissions requirements. Until a major is selected, the student is designated as undeclared.

Each major consists of not less than 20 credits of upper-division courses (300 and above) in a specific field. Students must earn a grade of C- or better for all course requirements indicated for each major, minor, or supplementary major, including any courses required from outside the department. Students may not count an S grade towards completion of any major, minor or supplementary major requirement unless a course is automatically S/U for all enrolled students. A student may not earn a minor that bears the same name as a bachelor’s degree that the student is earning. (For example, a student earning a B.S. in Biology cannot also earn a minor in Biology.) Some departments also require specific courses outside the major field. Please refer to the departmental section of the catalog for specific nondepartmental requirements. These nondepartmental requirements must be passed with a grade of C- or better. It is imperative that students consult the departmental sections of this catalog and the department(s) for advice in planning to fulfill requirements for their declared majors. The requirements for academic minors in the College of Arts and Sciences are found under each offering department or program section of this catalog.

### Supplementary Majors
Requirements for supplementary majors are found as follows:

- the Supplementary Majors in Chicano Studies, Latin American Studies, and Linguistics (p. 437) are listed under Languages and Linguistics (p. 437);
- the Supplementary Major in Law and Society (p. 398) is listed under Government (p. 398); and
- the Supplementary Major in Applied Mathematics (p. 460) is listed under Mathematical Sciences (p. 460).

Most students have considerable latitude in choosing elective courses. These are the courses beyond university and major requirements that a student must take to bring her or his total credits to the minimum overall credits required for the degree. This latitude provides students with opportunities to major in more than one field, to take a minor or to devise interdisciplinary programs tailored to individual interests or future career needs.

Regardless of the option elected, students should consult regularly with an advisor and track their progress towards degree completion and graduation using the online degree audit system STAR (Student Academic Requirements), at: [http://www.myNMSU.edu](http://www.myNMSU.edu).

### Preprofessional Studies
- Prehealth Studies in the Department of Biology (p. 276)
- Prelaw Studies in the Department of Government (p. 398)

### Bachelors Degrees
Bachelor of Applied Studies (p. 422)

#### Bachelor of Arts

**Majors in:**
- Anthropology (p. 244)
- Art (p. 261)
  - Art History
  - Studio Art
- Biology (p. 285)
- Chemistry (p. 300)
- Communication Studies (p. 307)
- Computer Science (p. 319)
- Economics (p. 355)
- English (p. 368)
  - Creative Writing
  - English
  - Literature, Language & Culture
  - Rhetoric, Digital Media and Professional Communication
- Foreign Languages
  - French (p. 446)
  - German (p. 449)
  - Spanish (p. 452)
- Gender & Sexuality Studies (p. 423)
- Government (p. 404)
- History (p. 416)
- Journalism and Media Studies (p. 430)
- Justice, Political Philosophy and Law (p. 502)
- Philosophy (p. 503)
- Physics (p. 511)
- Psychology (p. 521)
- Sociology (On - Campus) (p. 529)
- Sociology (Online) (p. 531)
- Theatre Arts (p. 537)
  - Musical Theatre

#### Bachelor of Creative Media

**Majors in:**
- Animation and Visual Effects (p. 336)
- 2D Production Studio (Pathway)
- 3D Production Studio (Pathway)
- Digital Film Making (p. 340)

#### Bachelor of Criminal Justice (p. 347)

#### Bachelor of Fine Arts

**Majors in:**
- Art (p. 264)
  - Museum Conservation
  - Studio Art (Emphasis)

#### Bachelor of Individualized Studies (p. 425)

#### Bachelor of Music

**Majors in:**
- Instrumental Performance
- Piano Performance
- Vocal Performance

#### Bachelor of Music Education
• Music Education (p. 497)
  • K-12 Instrumental
  • K-12 Vocal

Bachelor of Science

Majors in:

• Biochemistry (p. 299)
• Biology (p. 286)
• Chemistry (p. 301)
• Computer Science (p. 322)
  • Algorithm Theory
  • Artificial Intelligence
  • Big Data and Data Science
  • Cybersecurity
  • Networking
  • Human Computer Interaction
  • Software Development
• Engineering Physics (p. 511) (through the College of Engineering)
• Geography
  • Geographic Information Science & Tech (p. 383)
  • Human Environment Relationships (p. 386)
• Geology (p. 393)
  • Geological Sciences
  • Earth and Environmental Systems
  • Earth Science Education
• Mathematics
  • General Mathematics (p. 472)
  • Actuarial Science and Insurance (p. 470)
  • Applied Mathematics (p. 470)
• Microbiology (p. 290)
• Physics (p. 513)
  • General
  • Applied Optics
  • Applied Physics
  • Computational Physics
  • Geophysics
  • Materials Sciences
• Art History (Emphasis)
• Communication Studies (p. 309)
• English (p. 376)
  • Creative Writing (Emphasis)
  • English Studies for Teachers (Emphasis)
  • Literature (Emphasis)
  • Rhetoric, Digital Media & and Professional Communication (Emphasis)
• Government (p. 407)
• History (p. 417)
  • Public History
• Experimental Psychology (p. 523)
• Sociology (p. 533)
• Spanish (p. 458)
  • Linguistics (Area of Study)
  • Literature (Area of Study)

Master of Computational Data Analytics (p. 328)

Master of Criminal Justice

Master of Fine Arts

Major in:

• Art (p. 271)
  • Studio Art (Emphasis)

Master of Fine Arts in Creative Writing

Master of Music

Major in:

• Music (p. 499)
  • Conducting (Area of Study)
  • Music Education (Area of Study)
  • Performance (Area of Study)

Master of Public Administration

Master of Science

Majors in:

• Astronomy (p. 276)
• Bioinformatics (p. 327)
• Biology (p. 292)
  • Behavioral, Ecological and Evolutionary Biology (Emphasis)
  • Cell & Organismal Biology (Emphasis)
  • Microbiology (Emphasis)
• Chemistry (p. 302)
• Computer Science (p. 329)
• Geology (p. 398)
• Mathematics (p. 477)
• Molecular Biology (p. 484)
• Physics (p. 515)
  • Space Physics

Bachelor of Science in Conservation Ecology (p. 287)

Bachelor of Science in Genetics (p. 288)

Dual Degrees

Bachelor of Science/Master of Science in Computer Science (p. 325)

Bachelor of Science/Master of Science in Physics (p. 513)

Masters Degrees

Master of Applied Geography (p. 390)

Master of Arts

Majors in:

• Anthropology (p. 249)
• Art (p. 270)
Dual Degrees
Master of Public Administration/Master of Arts in Public History (p. 408)
Master of Public Administration/Master of Criminal Justice (p. 408)

Doctoral Degrees
Doctor of Philosophy
- Astronomy (p. 276)
- Biology (p. 293)
  - Behavioral, Ecological and Evolutionary Biology (Emphasis)
  - Cell & Organismal Biology (Emphasis)
  - Microbiology (Emphasis)
- Chemistry (p. 303)
- Computer Science (p. 330)
- Mathematics (p. 477)
- Molecular Biology (p. 484)
- Physics (p. 516)
- Experimental Psychology (p. 524)
- Rhetoric and Professional Communication (p. 378)

Supplemental Majors
- Chicano Studies (p. 457)
- Latin American Studies (p. 456)
- Linguistics (p. 458)
- Law and Society (p. 407)
- Applied Mathematics (p. 475)

Graduate Certificates
- Cultural Resource Management (p. 250)
- Museum Studies (p. 251)

Undergraduate Minors
- Aerospace Studies (p. 237)
- Algorithm Theory (p. 326)
- American Government and Politics (p. 405)
- Animation and Visual Effects (p. 342)
- Anthropology (p. 247)
- Art (p. 269)
- Art History (p. 269)
- Astronomy (p. 275)
- Biochemistry (p. 302)
- Bioinformatics (p. 327)
- Biology (p. 291)
- Chemistry (p. 302)
- Child Advocacy Studies (p. 351) (through the FCS department, in the College of ACES)
- Communication and National Security (p. 308)
- Communication Studies (p. 309)
- Comparative Politics (p. 405)
- Computer Systems (p. 327)
- Conservation Ecology (p. 291)
- Creative Writing (p. 373)
- Digital Film Making (p. 342)
- Economics (p. 358)
- English (p. 373)
- Ethics (p. 504)
- Forensic Science (p. 351)
- French (p. 456)
- Gender & Sexuality Studies (p. 426)
- Genetics and Biotechnology (p. 291)
- Geographic Information Systems (p. 389)
- Geography (p. 390)
- Geology (p. 397)
- German (p. 456)
- Government (p. 406)
- History (p. 417)
- Human Biology (p. 291)
- International Relations (p. 406)
- International Studies (p. 427)
- Journalism and Media Studies (p. 436)
- Justice, Political Philosophy and Law (p. 504)
- Linguistics (p. 456)
- Literature (p. 374)
- Mathematics (p. 476)
- Medieval and Early Modern Studies (p. 374)
- Microbiology (p. 292)
- Military Science (p. 481)
- Molecular Biology (p. 483)
- Museum Conservation (p. 270)
- Music (p. 499)
- Native American Studies (p. 248)
- Philosophy (p. 505)
- Physics (p. 515)
- Political Theory (p. 406)
- Psychology (p. 523)
- Public Administration (p. 406)
- Public Law (p. 407)
- Religious Studies (p. 248)
- Rhetoric and Professional Communication (p. 375)
- Sociology (p. 533)
- Software Development (p. 327)
- Spanish (p. 456)
- Sustainable Development (p. 248)

- Food Studies (p. 252)
Aerospace Studies

Undergraduate Program Information

Air Force Reserve Officer Training Corps (AFROTC) is a nationwide program that allows students to pursue commissions (become officers) in the United States Air Force (USAF) while simultaneously attending college. AFROTC classes are held on college campuses throughout the United States and Puerto Rico; students can register through normal course registration processes. AFROTC consists of four years of Aerospace Studies classes (Heritage and Values of the United States Air Force, Team and Leadership Fundamentals, Leading People and Effective Communication, and National Security Affairs/Preparation for Active Duty), and a corresponding Leadership Laboratory for each year (where students apply leadership, demonstrate command and effective communication, develop physical fitness, and practice military customs and courtesies). College students enrolled in the AFROTC program (known as “cadets”) who successfully complete both AFROTC training and college degree requirements will graduate and simultaneously commission as Second Lieutenants in the Active Duty Air Force.

Freshman and Sophomore Years (General Military Course or GMC)

This group provides a general background knowledge of the military establishment with emphasis on the Air Force. GMC courses may be taken out of sequence.

Junior and Senior Years (Professional Officer Course or POC)

This group constitutes an in-depth study of topics that provides a broad preparation for a career as an Air Force officer. Students must have certain qualifications for entry and have a desire to be commissioned in the Air Force. These qualifications include, achieving a passing score on the Air Force Officer’s Qualifying Test, passing a physical fitness test, and successfully completing a medical exam. They must also complete a four- or five-week summer orientation course.

Students may, with departmental approval, take POC courses out of normal sequence. However, compressed or dual enrollment in upper-division POC courses is normally prohibited. Through this department, you can also earn a minor in Aerospace Studies.

Leadership Laboratory

This is an integral and mandatory portion of the Aerospace Studies curriculum. Within the framework of the cadet wing, it provides a progression of experiences designed to develop each student’s leadership potential and serves as an orientation to military life.

Minors for the Department

Aerospace Studies - Undergraduate Minor (p. 237)

Assistant Professors and Staff: Maj Javier Caraveo, Capt Rebecca Johnson, TSgt Nicole Joens, SSgt Jeffrey Mayo, and Patti Alarcon

Aerospace Studies Courses

**AERO 121. Heritage and Values**
2 Credits (1.25+2P)
*“Heritage and Values of the United States Air Force,” is a survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force. Includes Leadership Lab practicum. May be repeated up to 2 credits. Restricted to Las Cruces campus only.

**AERO 122. Heritage and Values II**
2 Credits (1.25+2P)
*“Heritage and Values of the United States Air Force,” is a survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, and organization of the Air Force. Includes Leadership Lab practicum. May be repeated up to 2 credits. Restricted to Las Cruces campus only.

In the College of Arts and Sciences, the Department of Chemistry and Biochemistry is accredited by the American Chemical Society.

The Bachelor of Science in Computer Science is accredited by ABET.

Music curricula in the Department of Music are accredited by the National Association of Schools of Music.

The Master of Public Administration program in the Department of Government is accredited by the National Association of Schools of Public Affairs and Administration.
AERO 221. Team and Leadership Fundamentals
2 Credits (1.25+2P)
"Teams and Leadership Fundamentals," focuses on laying the foundation for teams and leadership. The topics include skills that allow cadets to improve their leadership on a personal level and within a team. The courses will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate. Includes Leadership Lab practicum. May be repeated up to 2 credits. Restricted to Las Cruces campus only.

AERO 222. Team and Leadership Fundamentals II
2 Credits (1.25+2P)
"Team and Leadership Fundamentals," focuses on laying the foundation for teams and leadership. The topics include skills that will allow cadets to improve their leadership on a personal level and within a team. The courses will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate. Includes Leadership Lab practicum. May be repeated up to 2 credits. Restricted to Las Cruces campus only.

AERO 223. Air Force Leadership Development
1 Credit
This course prepares cadets to excel in field training. Cadets are prepared in all facets of field training, including: leadership competency evaluations, the Cadet’s Guide to Field Training, individual drill evaluations, attention to detail, dining hall procedures, maintenance of living areas, and the group problem solving process. Restricted to: Main campus only.

AERO 301. Leading People and Effective Communication
4 Credits (3+2P)
"Leading People and Effective Communication," teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors. Includes Leadership Lab practicum.
Prerequisite(s): Completion of AERO 121/AERO 122 and AERO 221/ AERO 222, or permission of instructor.

AERO 302. Leading People and Effective Communication II
4 Credits (3+2P)
"Leading People and Effective Communication," teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors. Include Leadership Lab practicum.
Prerequisite(s): Completion of AERO 121/AERO 122 and AERO 221/ AERO 222, or permission of instructor.

AERO 401. National Security, Leadership Responsibilities and Commissioning Preparation
4 Credits (3+2P)
"National Security Affairs/Preparation for Active Duty," is designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the cadets for Active Duty. Includes Leadership Lab practicum.
Prerequisite(s): Completion of AERO 121/AERO 122, AERO 221/ AERO 222, and AERO 301/AERO 302, or permission of instructor.

AERO 402. National Security, Leadership Responsibilities and Commissioning Preparation II
4 Credits (3+2P)
"National Security Affairs/Preparation for Active Duty," is designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the cadets for Active Duty. Includes Leadership Lab practicum.
Prerequisite(s): Completion of AERO 121/AERO 122, AERO 221/ AERO 222, AERO 301/AERO 302, and AERO 401 or permission of instructor.

AERO 411. Aerospace Studies Independent Study
1 Credit
This course provides in-depth research on specified topics of the United States Air Force and NMSU's Detachment 505 history. Consent of instructor required.
Prerequisite(s): AERO 301, AERO 302, AERO 401, AERO 402.

Leadership Challenges and Goal Setting

M.A. program. Students who lack the equivalent of ANTH 301
An undergraduate anthropology degree is not required for entry into the
resource management and museum studies.

and Native American studies, as well as graduate certificates in cultural
also offers graduate minors in anthropology, archaeology, food studies,

Undergraduate Program Information

Anthropology is the study of humankind, a multidisciplinary endeavor
involving the social sciences, the humanities, and the natural sciences.
Anthropologists study the human species and the human condition in
each of its diversity. Anthropologists ask questions such as: “Who are we?”
“Where did we come from?” “How did we get here?” “Why are we different
from each other?” and, “How can we better understand each other?”

Studies in anthropology might focus, for example, on our distant
ancestors from the African plains, modern workers in a high-tech factory,
historic military forts in the Mesilla Valley, Native American Languages,
or prehistoric or contemporary cultures of the American Southwest and
Mesoamerica.

Undergraduate education at New Mexico State University covers all four
sub-disciplines of the field:

- Biological Anthropology - the study of human origins, primate
  relatives, and human biological diversity

- Archaeology - the study of the origin and change of the human past
  in both historic and prehistoric times, using material remains

- Cultural Anthropology - the study of beliefs, values, shared
  understandings, traditions and modern practices of peoples from
  around the world

- Linguistic Anthropology - the study of human language, linguistic
  diversity, and speech

Graduate Program Information

The Anthropology M.A. program is designed for students who are
interested in the traditional sub-disciplines of anthropology, as well
as such related fields as cultural resource management, food studies,
medical anthropology, museum studies, and social impact assessment.
The program is directed both toward students who intend to take a
terminal M.A. degree and students who intend, after NMSU, to enter a
Ph.D. program. In addition to the M.A. in anthropology, our program
also offers graduate minors in anthropology, archaeology, food studies,
and Native American studies, as well as graduate certificates in cultural
resource management and museum studies.

An undergraduate anthropology degree is not required for entry into the
M.A. program. Students who lack the equivalent of ANTH 301, ANTH 315,
and ANTH 355 may be required to take these courses. ANTH 350 or the
equivalent is recommended.

Degrees for the Department

Anthropology - Bachelor of Arts (p. 244)
Anthropology - Master of Arts (p. 249)

Minors for the Department

Anthropology - Undergraduate Minor (p. 247)
Religious Studies - Undergraduate Minor (p. 248)
Sustainable Development - Undergraduate Minor (p. 248)
Native American Studies - Undergraduate Minor (p. 248)
Anthropology - Graduate Minor (p. 251)
Archaeology - Graduate Minor (p. 251)
Food Studies - Graduate Minor (p. 252)
Native American Studies - Graduate Minor (p. 252)
Cultural Resource Management - Graduate Certificate (p. 250)
Museum Studies - Graduate Certificate (p. 251)

Professor, Rani T. Alexander, Department Head

Professors Alexander, Chaiken, Rushforth, Stanford, Walker; Associate
Professors Arakawa, Scott; Assistant Professors Jenks, Ford
(Visiting); College Professors Pepion; Emeritus Professors
Benefit, Conelly, Eber, McCrossin, O’Leary, Staski, Trevathan.

R. T. Alexander, Department Head, Ph.D. (New Mexico) – Mesoamerican
archaeology, historical archaeology of Yucatan, ethnohistory and colonialism,
agrarian ecology, zooarchaeology; F. Arakawa, Ph.D. (Washington State) –
Southwest archaeology, ceramic analysis; M. Chaiken, Ph.D. (California –
Santa Barbara) – Participatory development, resettlement, and rural health
and nutrition, gender, applied anthropology, Africa and Southeast Asia;
B. Ford, PhD (Texas A and M) – hominin dispersals/migrations, human
variation, skeletal biology, modern human origins and the peopling of
Central Asia; D. Pepion, Ed.D. (Montana State) – Native American studies,
ethnohistory, anthropology and education; S. Rushforth, Ph.D. (Arizona) –
cultural anthropology, anthropological linguistics, Native American ethnology;
M. A. T. Scott, Ph.D. (Kentucky) – medical anthropology, Latin America;
L. Stanford, Ph.D. (Florida) – agriculture, organizations, food studies,
globalization, sociocultural anthropology, Latin America; A. M. Strankman,
MA (U Washington) – museum studies, Native American art; W. Walker,
Ph.D. (Arizona) – Southwestern archaeology, theory and field method in
archaeology, ritual prehistory.

Anthropology Courses

ANTH 115. Native Peoples of North America
3 Credits
Provides an introduction to the geography, environment, prehistoric
cultural origins, sociopolitical organization, language, economics,
material culture and technology, religious beliefs and practices, and
historic period culture change of Native peoples of North America.

ANTH 116. Native Peoples of the American Southwest
3 Credits
Introduction to the early history and culture of native people of the
Southwest.

ANTH 118. Introduction to Historic Preservation
3 Credits
Introduction to historic preservation, its history, goals, methods, legal
basis, and economic importance. Explores public role in decision-making.
Community Colleges only.
ANTH 120G. Human Ancestors
3 Credits
Evolutionary history of the human species from its origin in the primate order, with primary emphasis on the evolution of humankind during the past three million years. Examination of the social lives of apes and consideration of similarities to and differences from them. Biological foundations of human behavior, emphasizing thought, movement, and interaction.

ANTH 125G. Introduction to World Cultures
3 Credits
Examine cross-cultural diversity and human universals through the lens of anthropological inquiry. Explore human thought and behavior in contemporary world cultures covering kinship, economic patterns, power structures, and religious practices and beliefs. The impact of cultural influence on everyday life is emphasized.

ANTH 130G. Human’s Place in Nature: Introduction to Biological Anthropology
3 Credits
This course uses scientific methods and principles to examine human evolutionary history and family tree relationships, as well as the biological foundations of human behavior. Through lectures, readings and laboratory assignments students are introduced to the history and development of modern evolutionary biology, molecular and population genetics, the primate and human fossil record and modern human biological diversity. By examining the social lives of apes and other primates, primitive and unique aspects of human behavior are identified and the lives of fossil ancestors are reconstructed.
Corequisite(s): ANTH 130GL.

ANTH 130GL. Human’s Place in Nature Laboratory
1 Credit
This one credit laboratory course is required to be taken with the lecture section of ANTH 130G and uses scientific methods and principles to examine evidence for human evolutionary history and family tree relationships, primate ecology and behavior, and modern human diversity. May be repeated up to 1 credits.
Corequisite(s): ANTH 130G.

ANTH 201G. Introduction to Anthropology
3 Credits
Exploration of human origins and the development of cultural diversity. Topics include biological and cultural evolution, the structure and functions of social institutions, belief systems, language and culture, human-environmental relationships, methods of prehistoric and contemporary cultural analysis, and theories of culture.

ANTH 202G. World Archaeology
3 Credits
This course is an exploration of human evolution and cultural development throughout the world. Students will be introduced to basic anthropological methods and theories and will learn how anthropological research has contributed to our understanding of major themes in human prehistory, including human evolution, the origins of culture, migration and colonization, animal and plant domestication, and the rise and fall of civilizations.

ANTH 297. Elementary Special Topics
1-4 Credits
Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

ANTH 301. Cultural Anthropology
3 Credits
Human concepts of culture and life processes.

ANTH 305V. Contemporary Native Americans
3 Credits
Introduction to contemporary native peoples and cultures of North America. Emphasis on sociocultural and socioeconomic history, sociocultural change and persistence, present day reservation life, and current social and economic goals.

ANTH 306V. Peoples of Latin America
3 Credits
Introduction to cultural patterns and diversity of Latin America with emphasis on indigenous groups, peasants, plantation workers, and urban residents throughout South America, the Caribbean, Mexico, and Central America.

ANTH 312. The Ancient Maya
3 Credits
Archaeological evidence of culture change in the Maya civilizations of Mexico and Central America from 2000 BC to the Spanish Conquest.

ANTH 313. Ancient Mexico
3 Credits
Archaeological evidence of culture change among the Aztecs, Zapotecs, and their predecessors in Central Mexico and Oaxaca from 7,000 BC to the Spanish Conquest.

ANTH 315. Introduction to Archaeology
3 Credits
Concepts and methods for study of prehistoric cultures; history of archaeological research.

ANTH 316. Archaeology of the American Southwest
3 Credits
Introduction to the prehistoric peoples of the North American Southwest, a historical approach emphasizing the rise of method and theory in the region.

ANTH 318. Historical Archaeology in Latin America
3 Credits
Examination of theoretical and methodological issues in historical archaeology in Latin America from 1450 to present, including conquest, colonialism, capitalism, and modernity as anthropological processes. The contributions and limitations of historical, ethnohistorical, and archaeological evidence are emphasized.

ANTH 320. Anthropological Linguistics
3 Credits
The study of language and culture with particular emphasis on the cultural factors in the communication process.

ANTH 330V. Magic, Witchcraft and Religion
3 Credits
Provides an overview of old and new methods and theories for the study of religion. Exposure to the ways groups of people in diverse cultural systems construct and change their religious traditions to serve practical and meaningful ends. Crosslisted with: HIST 330V and SOC 330V.

ANTH 345. Introduction to Museology
3 Credits
Museum philosophy, history, administration, and collection management. Emphasis on cataloging, care, and exhibition, as well as ethics and public responsibility.

ANTH 348. Museums & Society
3 Credits
Examines theoretical frameworks that shape museum administration, exhibits and collections development. Examines themes of gender, space, place, multiculturalism, national and international politics in museum contexts.
ANTH 350. Anthropological Theory
3 Credits
This course introduces students to historical and contemporary theory in anthropology with a focus on understanding why theory matters in our discipline. Key questions the course explores include: How have anthropologists thought about the concept of culture in different ways throughout the history of anthropology? What is the relevance of anthropological theory, both inside and outside the discipline? What new and promising trajectories do we see in anthropological theory today?

ANTH 355. Physical Anthropology
3 Credits
An introduction to primate behavior, human evolution, and physical variation in modern human populations.

ANTH 357V. Medical Anthropology
3 Credits
This course introduces students to evolutionary, ecological, interpretive, political-economic, and applied anthropological perspectives on health, illness, and healing to address some of the major questions in the field. How do humans adapt to changing environments that bring with them new illnesses and diseases? How do anthropologists understand the multiple meanings of health and illness cross-culturally? How can anthropologists effectively study health inequalities? What can medical anthropological perspectives contribute to addressing the health issues that we face in our current global context?

ANTH 360V. Food and Culture Around the World
3 Credits
Study of the interaction between food and human culture from an anthropological perspective. Examines the traditional role of food in local economies, social relations, and identity around the world. Also examines the impact of globalization on traditional food systems and cultures.

ANTH 376. Lithic Technology Organization
3 Credits
Advanced seminars and laboratory exercises to learn and develop techniques and methods that will help us determine how to interpret behavioral and cultural information from lithic (stone tool) data. 
Prerequisite(s): ANTH 315.

ANTH 378. Introduction to Lab Methods in Archaeology
3 Credits
Laboratory techniques used in the analysis of archaeological materials.

ANTH 385. Internship in Anthropology
3-12 Credits (3-12)
Applied or field experience to gain professional expertise. Placements with public agencies, NGOs, or research organizations. Topical focus tailored to student's individual needs through consultation with instructor.
Prerequisite(s): Junior status, consent of instructor and GPA 2.8 or better.

ANTH 386. Anthropological Study Odyssey
3-6 Credits (3-6)
This course allows students to explore an anthropological topic, such as an archaeological tradition or culture, through classroom and field activities. Students are initially exposed to a topic during several days of intensive class work and then pursue greater understanding of the topic through a field trip and possibly limited fieldwork. Readings, site tours, on-site lectures by specialists, and field exercises provide students an opportunity to develop an understanding of anthropological perspectives on the topic as well as to provide exposure to anthropological field and analytic methods. This course also allows students to experience other cultures, prehistoric sites, and/or locales firsthand. May be repeated for credit under a different odyssey title. Taught with ANTH 521. May be repeated up to 6 credits. Consent of Instructor required.

ANTH 388. Intermediate Archaeological Field School
2-6 Credits (2-6)
Training in archaeological field methods, including excavations of prehistoric sites, record keeping, mapping and analysis of data. Consent of Instructor required.

ANTH 389. Archaeological Mapping
3-6 Credits (3-6)
Techniques for mapping archaeological sites and recording spatial distributions of archaeological data using a variety of surveying equipment and computer mapping software.

ANTH 399. Professionalism & Practice in Anthropology
3 Credits
Capstone course for seniors designed to allow students to synthesize the anthropological knowledge they have acquired and connect theory to application in preparation for entry into a career. Restricted to: ANTH majors.

ANTH 402. Contemporary Medical Anthropology
3 Credits
This advanced seminar in medical anthropology addresses contemporary issues in the field of medical anthropology through theoretical and ethnographic texts. Topics span a wide range of studies in medical anthropology and may include such issues as the social production of health and illness, medical pluralism, discourses of mental health, the practice of complementary and alternative medicine, health inequalities, and the political economy of infectious disease. Taught with ANTH 546. May be repeated up to 3 credits.
Prerequisite(s): ANTH 301 or ANTH 357V or consent of instructor.

ANTH 404. Cultures of Africa
3 Credits
Explores the rich history and cultural diversity of the continent of Africa. The course first examines the historical processes that shaped modern Africa, including the evolution of modern humans in Africa, the origins of agriculture and pastoralism, the formation of indigenous African states, the slave trade, and European colonialism. The course also looks at contemporary African societies, including hunter-gatherer, pastoral, and farming/fishing peoples. In addition, contemporary issues facing modern Africa such as famine and agricultural policy, the status of women, and environmental challenges such as deforestation are discussed. Taught with ANTH 504. Crosslisted with: HIST 404
ANTH 415. Applied Anthropology  
3 Credits  
Examines the intellectual roots of applied anthropology and early case studies of anthropologists working as administrators. Examines the ethical and methodological approaches that applied anthropologists employ. Examination of case studies that show role of applied anthropologists in improving human service delivery, cultural preservation, planning and implementing programs of participatory change, advocacy, and economic development. Taught with ANTH 515.

ANTH 419. Topics in Prehistoric Archaeology  
3 Credits  
Specific subjects in prehistoric archaeology as announced in the Schedule of Classes. May be repeated up to 6 credits.

ANTH 431. Nutritional Anthropology  
3 Credits  
Evolutionary and cross-cultural perspective on human nutrition.

ANTH 434. Human Evolution  
3 Credits  
Overview of human biological evolution from the emergence of Miocene apes to modern human diaspora. May be repeated up to 3 credits. Crosslisted with: BIOL 434.

ANTH 449. Directed Reading  
1-6 Credits  
Comprehensive reading on selected topics. May be repeated for a maximum of 6 credits.

ANTH 449 H. Directed Reading Honors  
1-3 Credits  
Same as ANTH 449. Additional work to be arranged. May be repeated for a maximum of 6 credits.

ANTH 455. Federal Indian Policy  
3 Credits  
Federal Indian policy and its impact on Native Americans. This course will provide basic understanding of how federal Indian policy impacts almost all activities and situations with Native Americans. Course will also look at issues such as sovereignty and how it impacts most interactions with tribal groups.

ANTH 456. Native American Intersections in Museums  
3 Credits  
This course explores the changing relationships and complex intersections between Native people and museums. We will examine how museum practices of collection and exhibition influence ways in which knowledge is formed and presented, and interrogate the role of museums as crucial sites for discourse around issues of ownership, indigenous knowledge and representation. Case studies revealing shifting meanings of objects, curatorial challenges, the development of tribal museums and repatriation complexities will be used to critically engage with Native responses via art, criticism and legal action. Crosslisted with: ANTH 556.

ANTH 458. Sex, Reproduction and Birth  
3 Credits  
This course examines pregnancy and birth practices cross-culturally, including such topics as gendered roles and responsibilities, pregnancy and birth as rites of passage, cultural concepts of personhood, global family planning initiatives, the medicalization of pregnancy and birth, and developing reproductive technologies. May be repeated up to 3 credits.

ANTH 495. Special Research Project  
1-3 Credits  
Anthropological, archaeological, or museum field work or laboratory experience in academic, private, state, or federal agencies. Must spend 30 hours in a field, museum, or laboratory setting per credit hour earned. May be repeated up to 6 credits.

ANTH 497. Zooarchaeology  
3 Credits  
Detailed study and analysis of taphonomic processes affecting animal bone recovered from archaeological and paleontological contexts. May be repeated up to 3 credits.

ANTH 498. Community Engagement and Service Learning  
3 Credits  
Course combines classroom instruction with a local community service project. Formal instruction component will examine social science research findings and perspectives on a locally relevant social issue or problem. In the service learning component, students will be trained and work on a local community service project. Students will develop field experience and methodological skills in community engagement. Projects and social issues may vary for different semesters.
ANTH 488. Archaeological Field School Advanced
1-6 Credits
Archaeological field methods, including excavations of prehistoric sites, record keeping, mapping and analysis of data. Consent of Instructor required.

ANTH 497. Special Topics
1-6 Credits (1-6)
Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.
Prerequisite(s): Junior or above standing.

ANTH 500. Seminar in Anthropological Theory
3 Credits
Detailed focus on specific areas of anthropological theory. Course subtitled in the Schedule of Classes. Course may be repeated.
Prerequisite(s): graduate standing in Anthropology or consent of instructor.

ANTH 502. Fundamentals of Anthropology
1-4 Credits (1-4)
Review of fundamental knowledge and theories in biological, cultural, or linguistic anthropology or archaeology. Graded S/U.

ANTH 504. Cultures of Africa
3 Credits
Explores the rich history and cultural diversity of the continent of Africa. The course first examines the historical processes that shaped modern Africa, including the evolution of modern humans in Africa, the origins of agriculture and pastoralism, the formation of indigenous African states, the slave trade, and European colonialism. The course also looks at contemporary African societies, including hunter-gatherer, pastoral, and farming/fishing peoples. In addition, contemporary issues facing modern Africa such as famine and agricultural policy, the status of women, and environmental challenges such as deforestation are discussed. Taught with ANTH 404. Crosslisted with: HIST 504

ANTH 505. Issues in Anthropological Practice
3 Credits
Anthropological approaches to research design, implementation, and dissemination. Restricted to: Main campus only.

ANTH 506. Advanced Studies in Physical Anthropology
1-3 Credits
Lectures, seminars, or laboratory research in selected topics. May be repeated for a maximum of 12 credits.
Prerequisite(s): graduate standing in Anthropology or consent of instructor.

ANTH 507. Advanced Studies in Archaeology
1-3 Credits
Lectures, seminars, field or laboratory research in selected topics. May be repeated for a maximum of 12 credits.
Prerequisite(s): graduate standing in Anthropology or consent of instructor.

ANTH 508. Advanced Studies in Cultural Anthropology
1-3 Credits
Lectures, seminars, or field research in selected topics. May be repeated for a maximum of 12 credits.
Prerequisite(s): graduate standing in Anthropology or consent of instructor.

ANTH 509. Advanced Studies in Anthropological Linguistics
1-3 Credits
Lectures, seminars, or field research in selected topics. May be repeated for a maximum of 12 credits.

ANTH 512. Analytical Methods in Anthropology
3 Credits
Quantitative analytical methods of anthropology examined in detail. Applied problem sets include physical and cultural anthropology, linguistics, and archaeology.
Prerequisite: graduate standing or consent of instructor.

ANTH 513. Biological Anthropology
3 Credits
Examination of major theoretical and methodological issues in biological anthropology.

ANTH 515. Applied Anthropology
3 Credits
Examines the intellectual roots of applied anthropology and early case studies of anthropologists working as administrators. Examines the ethical and methodological approaches that applied anthropologists employ. Examination of case studies that show the role of applied anthropologists in improving human service delivery, cultural preservation, planning and implementing programs of participatory change, advocacy, and economic development. Taught with ANTH 415.

ANTH 516. Advanced Archaeology of the American Southwest
3 Credits
Advanced topics in Southwestern archaeology including ritual architecture, environmental reconstruction, violence, site formation processes, and experiment and research.

ANTH 517. Advanced Topics in Mesoamerican Archaeology
3 Credits
Specific subjects in Mesoamerican archaeology to be announced in the Schedule of Classes. May be repeated for a maximum of 6 credits.
Prerequisite: graduate standing.

ANTH 519. Advanced Topics in Prehistoric Archaeology
3 Credits
Examines advanced methodological and theoretical concepts applicable to the archaeology of historic periods.

ANTH 520. Ethnographic Field Methods
3 Credits
Basic methodologies used in conducting qualitative ethnographic research. Projects in participant observation, ethnographic interviews, life history interviews, folk taxonomy construction, and coding of field notes.

ANTH 521. Advanced Anthropologist Study Odyssey
3-6 Credits (3-6)
This course allows students to explore an anthropological topic, such as an archaeological tradition or culture, through classroom field activities. Students are initially exposed to a topic during several days of intensive class work and then pursue greater understanding of the topic through a field trip and possibly limited fieldwork. Readings, site tours, on-site lectures by specialists, and field exercises provide students an opportunity to develop an understanding of anthropological perspectives on the topic as well as to provide exposure to anthropological field and analytic methods. This course also allows students to experience other cultures, prehistoric sites, and/or locales firsthand. May be repeated for credit under a different odyssey title. Taught with ANTH 386. May be repeated up to 6 credits. Consent of Instructor required.
ANTH 522. Archaeological Field School-Graduates
2-6 Credits
Techniques of archaeological data collection, analysis, and interpretation. Emphasis on archaeological field work in the Southwest.

ANTH 523. Archaeological Mapping
3-6 Credits (3-6)
Techniques for mapping archaeological sites and recording spatial distributions of archaeological data using a variety of surveying equipment and computer mapping software.

ANTH 526. Conquest and Colonialism
3 Credits
Examination of major theoretical and methodological issues in historical anthropology and archaeology of the Americas from AD1500 to present, including conquest, colonialism, capitalism, and modernity as anthropological processes. The contributions and limitations of historical, ethnohistorical, and archaeological evidence are emphasized. Prerequisite(s): graduate standing in Anthropology or History or consent of instructor.

ANTH 531. Issues in Nutritional Anthropology
3 Credits
Evolutionary and cross-cultural perspective on human nutrition.

ANTH 534. Advanced Human Evolution
3 Credits
Advanced overview of human biological evolution from the emergence of Miocene apes to the modern human diaspora. May be repeated up to 3 credits. Crosslisted with: BIOL 534.

ANTH 537. Applied Medical Anthropology
3 Credits
This course introduces students to applications of medical anthropological perspectives to health care, international development, public health, and health policy.

ANTH 538. Plants, Culture, and Sustainable Development
3 Credits
Study of role of indigenous cultures and indigenous knowledge systems in plant domestication, ethnecology, and preservation of traditional crop diversity. Examination of issues related to conserving cultural diversity, food systems, food security and biodiversity.

ANTH 539. Culture and Foodways
3 Credits
Study of interaction between food and culture from anthropological perspective. Study of role of food in cultural history, social relations, ritual, and identity. Examination of impact of globalization of food systems on traditional cultures, local food systems, and food security.

ANTH 540. Cultural Resource Management
3 Credits
Study of federal and state of New Mexico historic preservation laws and regulations and their application in current Cultural Resource Management and a review of relevant case studies.

ANTH 541. Decolonizing Methodologies in Native American Studies
3 Credits
This course utilizes decolonizing methodologies and praxis to gain insight into the complex effects of oppression and colonization. Critical and indigenous concepts are used to identify and analyze hegemonic, ethnocentric, historic and contemporary human rights and social justice issues of indigenous people. Research theory and methodology such as community participatory action research that is collaborative, inclusive, and pragmatic to ethics, intellectual property, and cultural boundaries of indigenous people is emphasized.

ANTH 542. Cultural Resource Management II
3 Credits
Continuation of ANTH 540 to include the study of cultural resource management practices, research design, and completion of proposals in response to requests. Overview of management practices and budgeting of projects and specialized studies (geophysical investigations, National Register nominations).

ANTH 543. Indigenous Ways of Knowing
3 Credits
This course examines indigenous knowledge and ways of knowing as a means to gain an appreciation of an epistemology and ontology that may be outside the boundaries of Eurocentric theory, concepts, and principles. Knowledge development through mythology and story telling is viewed from the nature of difference rather than comparative analysis.

ANTH 544. Advanced Native American Intersections in Museums
3 Credits
This advanced seminar in medical anthropology addresses contemporary issues in the field of medical anthropology through theoretical and ethnographic texts. Topics span a wide range of studies in medical anthropology and may include such issues as the social production of health and illness, medical pluralism, discourses of mental health, the practice of complementary and alternative medicine, health inequalities, and the political economy of infectious disease. Taught with ANTH 402.

ANTH 545. Advanced Museology I
3 Credits
Museum philosophy, history, administration, and collection management. Emphasis on collecting, cataloging, care, and exhibition, as well as ethics, public responsibility, and grantsmanship.

ANTH 546. Advanced Contemporary Medical Anthropology
3 Credits
This advanced seminar in medical anthropology addresses contemporary issues in the field of medical anthropology through theoretical and ethnographic texts. Topics span a wide range of studies in medical anthropology and may include such issues as the social production of health and illness, medical pluralism, discourses of mental health, the practice of complementary and alternative medicine, health inequalities, and the political economy of infectious disease. Taught with ANTH 402.

ANTH 547. Museum Field Methods
3 Credits
Basic methodologies used in conducting museum research away from the museum, including collections evaluation, collections acquisition, donor interviews, educational outreach, and development.

ANTH 548. Museums & Society
3 Credits
Examines theoretical frameworks that shape museum administration, exhibits and collections development. Examines themes of gender, space, place, multiculturalism, national and international politics in museum contexts.

ANTH 556. Advanced Native American Intersections in Museums
3 Credits
This course explores the changing relationships and complex intersections between Native people and museums. We will examine how museum practices of collection and exhibition influence ways in which knowledge is formed and presented, and interrogate the role of museums as crucial sites for discourse around issues of ownership, indigenous knowledge and representation. Case studies revealing shifting meanings of objects, curatorial challenges, the development of tribal museums and repatriation complexities will be used to critically engage with Native responses via art, criticism and legal action. Crosslisted with: ANTH 456.

ANTH 572. Advanced Primate Behavior and Ecology
3 Credits
ANTH 573. Advanced Primate Adaptation and Evolution
3 Credits
Corequisite(s): ANTH 573 L when offered.

ANTH 574. Advanced Human Osteology
3 Credits
Advanced Human Osteology surveying the functional, developmental and evolutionary biology of the human skeleton. Identifying bones and teeth from hands-on experience with skeletal and dental material. Provides a foundation for human evolutionary studies, bioarchaeology and forensic anthropology. May be repeated up to 3 credits. Crosslisted with: BIOL 574.

ANTH 574 L. Advanced Osteology Laboratory
1 Credit
Laboratory for ANTH 574. Experiences and activities related to identifying teeth and bones of the human skeleton. Crosslisted with: BIOL 574 L.
Corequisite(s): ANTH 574.

ANTH 576. Lithic Technology Organization
3 Credits
Advanced seminars and laboratory exercises to learn and develop techniques and methods that will help us determine how to interpret behavioral and cultural information from lithic (stone tool) data. Consent of instructor required.

ANTH 577. Advanced Zooarchaeology
3 Credits
Detailed study and analysis of taphonomic processes affecting animal bone recovered from archaeological and paleontological contexts.

ANTH 578. Advanced Lab Methods in Archaeology
3 Credits
Examination of advanced laboratory techniques used in the analysis of archaeological materials.

ANTH 579. Qualitative Data Analysis and Interpretation
3 Credits
This course focuses on methods for qualitative data analysis, both computer-assisted and non-computer-assisted, and interpretation. It includes writing up data for academic articles or theses.

ANTH 585. Method and Theory in Archaeology
3 Credits
Focus on major methodological and theoretical aspects of contemporary archeology.

ANTH 587. Field Work in Latin America
3-12 Credits
Covers anthropological field methods in Latin America that also incorporate in-field lab analysis. No S/U grading.
Prerequisite: consent of instructor.

ANTH 596. Readings
1-6 Credits
Individual study of selected readings and topics. May be repeated for a maximum of 6 credits. Consent of instructor required.

ANTH 597. Internship
1-9 Credits
Anthropological or archaeological internship in private, state, or federal agency. May be repeated for a maximum of 18 credits. Consent of instructor required. Restricted to ANTH majors.
Prerequisite(s): graduate standing.

ANTH 598. Special Research Problems
1-6 Credits (6)
Individual analytic or experimental investigations. May be repeated under different subtitles for a maximum of 6 credits. Consent of instructor required. Restricted to ANTH majors.
Prerequisite(s): graduate standing.

ANTH 599. Master's Thesis
1-15 Credits
Thesis. Consent of instructor required. Restricted to ANTH majors.
Prerequisite(s): graduate standing.

Anthropology - Bachelor of Arts

The field of anthropology provides a broadly based education in the social and biological sciences. Undergraduate anthropology majors develop an understanding of human diversity that will benefit them in a wide variety of careers. They have particular advantage in positions that require contact with different cultures and ethnic groups or with large organizations that provide human services.

Students intending to become professional anthropologists usually plan to go on for an advanced degree. They can pursue careers in teaching, archaeological research, museums, public and private cultural resource management, international development and business, human services and health care, forensic sciences, urban planning, agricultural development, and administration. While anthropology is a traditional academic discipline, it also has become an applied profession.

Today, many anthropologists hold important positions in government, business, public policy organizations, and health professions. Anthropology's broad perspective on human diversity and intercultural relations provides students with valuable professional skills. NMSU anthropologists are committed to teaching practical knowledge and useful skills that will contribute to students’ career goals and to their intellectual development.

Requirements

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

**Area III/IV: Laboratory Sciences and Social/Behavioral Sciences**

**Area III: Laboratory Sciences (4 credits)**
- ANTH 130G/130GL Human's Place in Nature: Introduction to Biological Anthropology (recommended, not required)

**Area IV: Social/Behavioral Sciences (3 credits)**
The following are recommended but not required.
- ANTH 120G Human Ancestors
- ANTH 125G Introduction to World Cultures
- ANTH 201G Introduction to Anthropology
- ANTH 202G World Archaeology

Either an Area III/IV: Laboratory Sciences or Social/Behavioral Sciences Course (4 or 3 credits)

**Area V: Humanities**  
2-3 credits

**Area VI: Creative and Fine Arts**  
2-3 credits

**General Education Elective**  
2-3 credits

**Viewing A Wider World**
6 credits

**Departmental/College Requirements**

- ANTH 301 Cultural Anthropology
- ANTH 315 Introduction to Archaeology
- ANTH 320 Anthropological Linguistics
- ANTH 350 Anthropological Theory
- ANTH 355 Physical Anthropology
- ANTH 399 Professionalism & Practice in Anthropology

ANTH 301, ANTH 315, ANTH 320, and ANTH 355 may be taken in any order that best suits the student’s interests.

**Departmental Electives**
Select additional electives in anthropology to bring total credits in major to 36, including 27 upper-division.

**Second Language Requirement**: (required - see below)

**Electives, to bring the total credits to 120**

52-49 credits

Students must graduate with 48 upper-division.

**Total Credits**: 120

1. A grade of C- or better must be earned.
2. See the General Education (p. 49) section of the catalog for a full list of courses
3. Students taking nine or more credits in a specific subject area, even though the courses are not designated as General Education courses, will have met the general education requirements for that subject area.
4. All students must take one Area III: Laboratory Science (4 credits), one Area IV: Social/Behavioral Science Course (3 credits) and one additional course in either area (3-4 credits) in order to complete the requirement.
5. Students must complete two Viewing the Wider World Courses (VWW) for a total of 6 credits. One VWW must be from outside of the College of Arts and Sciences, and the second must be from outside of Anthropology. A student may substitute three credits taken as study abroad for one of the VWW course requirements.

**Second Language Requirement**

For the Bachelor of Arts in Anthropology there is a two year second language requirement, the student must do one of the following:

**Option 1:**

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>

or SPAN 212 Intermediate Spanish II

OR

Challenge the 214 level for the following courses:
PORT 214 Portuguese for Romance Language II 3
or SPAN 214 Spanish for Heritage Learners III

Option 4:
Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

Option 5:
Obtain college certification of completion of three years of a second language at the high school level with a grade of C- or higher in the second-year level.

Option 6:
By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

Option 7:
By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

Option 8:
In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 210G Mathematics Appreciation and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Anthropology - Undergraduate Minor

Students who earn a minor in Anthropology must earn 18 credits, distributed as follows:

Prefix | Title | Credits
--- | --- | ---
**Required Courses**
Select one from the following: 3
ANTH 301 Cultural Anthropology
ANTH 315 Introduction to Archaeology
ANTH 320 Anthropological Linguistics
ANTH 350 Anthropological Theory
ANTH 355 Physical Anthropology
Upper division Anthropology courses 300 or above 9
Anthropology courses (any level) 6
**Total Credits** 18

Students who earn a B.A. in Anthropology may **not** also earn a minor in Anthropology. Students earning the minor must pass 18 credits with grades of C- or higher. Nine of the credits must be upper-division. Students may count S only in courses in which all grades are S/U.
Native American Studies - Undergraduate Minor

Students must pass a total of 18 credits of which at least 9 of which must be upper division. ANTH 115 Native Peoples of North America is the required course for the minor. A grade of C- or better must be obtained for each course. Students may count S grades only in courses in which all grades are S/U, and no more than 6 hours of S credit can be accepted. Students may count no more than 9 credits in Anthropology. Please contact the Department of Anthropology regarding the minor.

2. Anth 455 Federal Indian Policy is cross listed with Hon 430V Indian Law and Policy.

Sustainable Development - Undergraduate Minor

The Undergraduate Minor in Sustainable Development is an interdisciplinary program through which students develop a deeper understanding of the relations between humans and the natural environment. The minor offers students the opportunity to cross disciplines and construct a coherent interdisciplinary program that focuses on human interactions with the natural environment, society’s role in depleting and transforming natural resources, critical issues in sustainable development, and new strategies for conserving natural resources and sustainable agricultural production.

NMSU occupies a unique strategic position as a land grant institution in a multi-cultural regional setting, combined with its geographic location on a binational border. Students in different programs can use the minor in sustainable development to enhance their undergraduate degrees and prepare themselves professionally to seek careers and graduate degrees in sustainable and international development.

A minor in sustainable development is available for students who want to include sustainable development in their academic training. The minor requires 18 credit hours, nine of upper division courses, broken down in the following way:

- 6 credit hours of core requirements,
- 9 credit hours of elective courses, and
- 3 credit hours of field study

With permission of the minor advisor, students may substitute one class that presents a topical focus on sustainable development.

| Field Requirements | | 3 |
| Select three credits from the following courses | | |
| ANTH 385 | Internship in Anthropology | |
| FWCE 450 | Special Topics | |
| SOC 496 | Internship | |
| Total Credits | | 18 |

Religious Studies - Undergraduate Minor
Students must pass 18 credits of which at least 9 are upper division. Students must earn C- or higher grades and cannot count S/U courses unless all grades in the course must be S/U. No more than 9 credits (upper or lower division) can be earned in any one department. Students may not earn more than 3 credits total in independent studies or special readings courses and must receive approval from the minor advisor to count these credits. Courses that may be eligible as special topics courses when offered with specific subtitles are asterisked. Please contact the Department of Anthropology regarding the minor.

### Anthropology - Master of Arts

The Anthropology M.A. program is designed for students who are interested in the traditional sub-disciplines of anthropology, as well as such related fields as cultural resource management, food studies, medical anthropology, and museum studies. The program is directed to both students planning to complete a professional M.A. degree and students planning to enter a Ph.D. program. In addition to the M.A. in Anthropology, our program offers graduate minors in anthropology, archaeology, food studies, and Native American Studies, as well as Graduate Certificates in cultural resource management and museum studies. The faculty encourage all graduate students to develop graduate minors and certificates, enhancing their specialized training in anthropology.

An undergraduate anthropology degree is not required for entry into the M.A. program. Applicants who lack the equivalent of ANTH 301, ANTH 315, ANTH 320, and ANTH 355 may be required to take these courses or corresponding sections of ANTH 502. ANTH 350 or the equivalent is recommended. Applicants without an undergraduate degree in anthropology are encouraged to contact the Graduate Advisor before applying to the M.A. program in anthropology.

### Program Requirements

Students selecting the thesis option must complete 33 hours of basic course work, as described below, plus 6 hours of thesis credit. Students selecting the non-thesis option must complete 39 hours of course work including an internship or special research project for 6 credits.

The 33 hours of basic course work for students selecting either the thesis or non-thesis options are distributed as follows:

<table>
<thead>
<tr>
<th>Prefix</th>

<td></td>
</tr>
<tr>
<td>ANTH</td>
<td>Anthropological Theory</td>
<td></td>
</tr>
<tr>
<td>ANTH</td>
<td>Physical Anthropology</td>
<td></td>
</tr>
</tbody>
</table>

### Core Theory Courses

Select two of the following core theory courses, one in the student's principal subfield and the second in an alternative subfield:

- ANTH 500 Seminar in Anthropological Theory (for students in cultural anthropology and anthropological linguistics subfields)
- ANTH 513 Biological Anthropology (for students in biological subfield)
- ANTH 585 Method and Theory in Archaeology (for students in archaeology subfield)

### Core Course in Professionalism and Practice

- ANTH 505 Issues in Anthropological Practice

### Additional Courses

Select additional topical, methodological, and area courses in anthropology
Students may count six credits from any discipline outside of Anthropology toward the total 24 credits of additional courses.

**Thesis or Non-Thesis Options**

Select either a Thesis or Non-Thesis Track: 6

**Thesis**

ANTH 599 Master's Thesis

**Non-Thesis**

ANTH 597 Internship

or ANTH 598 Special Research Problems

Total Credits 39

1 earning a grade of B or better

**Admission Requirements**

To apply to the Anthropology Masters Degree program the following materials are required:

- Graduate School application form and fees
- Official undergraduate and graduate transcripts from all colleges and universities attended, with a 3.0 GPA minimum.
- A letter from the candidate addressing his or her interests and graduate school objectives
- Letters of recommendation from three persons familiar with the candidate's academic record

All the above items should be submitted through the Graduate School's central admission system at: [http://gradadmissions.nmsu.edu/how-to-apply/](http://gradadmissions.nmsu.edu/how-to-apply/)

**NOTE:** In addition to the above, international applicants also need to view the requirements of admission to the university and provide additional documentation online, at this page: [https://isss.nmsu.edu/index-2/](https://isss.nmsu.edu/index-2/)

**NOTE:** students may matriculate in either August or January. If a student wishes to be considered for a Graduate Assistantship, the application must be completed by February 15 for admission in the fall semester. Assistantships are not usually offered for students matriculating in January, but they may be considered in subsequent semesters for an award.

Dr. Lois Stanford, Anthropology Graduate Advisor at: lstanfor@nmsu.edu

Dr. Rani Alexander, Anthropology Department Head at: raalexan@nmsu.edu

**Cultural Resource Management - Graduate Certificate**

The Graduate Certificate in Cultural Resource Management provides specialized archaeological training that enables students to pursue careers cultural resource management, heritage, and historic preservation in the public or private sectors. The curriculum includes cultural resource management and historic preservation laws and regulations, area classes in prehistoric and historical archaeology, field classes, and laboratory methods courses in archaeology, history, and geography. Students take courses in traditional classroom and laboratory formats, as well as in the field, and may complete the certificate in one year.

The Certificate may be completed as a stand alone certification or in conjunction with the M.A. degree in Anthropology or any other related field.

If you wish to complete a graduate certificate, you must apply for admission to this non-degree program. Even if you already enrolled in a graduate program at NMSU, you will need to complete a separate application to be admitted to the certificate program. Once you have been admitted to the program and have completed all of the necessary coursework, you will need to file a Completion of Graduate Certificate form to be awarded the certificate.

Important information about the educational debt, earnings, and completion rates of students who attend this program can be found on the following: [Gainful Employment Disclosure](#).

Please contact the Anthropology Graduate Advisor, Dr. Lois Stanford lstanfor@nmsu.edu for information about how to complete the application.

The Graduate Certificate in Cultural Resource Management requires 18 credits of coursework and must be completed within 3 years. The certificate requires six credits from two required courses and 12 credits from a comprehensive list of electives in anthropology and cognate fields. Students are required to take at least one course in History or Geography. All these courses are designed to promote expertise in cultural resource management.

Museum Studies - Graduate Certificate

The Graduate Certificate in Museum Studies provides specialized interdisciplinary training that enables students to pursue careers in museums in the public or private sectors. The curriculum includes museology, methods, exhibit development, collections management, conservation, curation, and practice in Museum Studies. Students take courses in traditional classroom and practicum formats and may complete the certificate in one year.

The Certificate may be completed as a stand alone certification or in conjunction with the M.A. degree in Anthropology, History, Art, and related fields.

If you wish to complete a graduate certificate, you must apply for admission to this non-degree program. Even if you already enrolled in a graduate program at NMSU, you will need to complete a separate application to be admitted to the certificate program. Once you have been admitted to the program and have completed all of the necessary coursework, you will need to file a Completion of Graduate Certificate form to be awarded the certificate.

Important information about the educational debt, earnings, and completion rates of students who attend this program can be found on the following: Gainful Employment Disclosure.

Please contact the Anthropology Graduate Advisor for information about how to complete the application.

The Certificate in Museum Studies is a 3 semester (or one year and one summer) program designed for individuals who want to enhance their understanding of museum work. It may be completed as a stand alone certification or in conjunction with a Master’s degree in Public History, History, Art History, Anthropology, Studio Art or other disciplines.

1 This list is regularly modified as new courses are added to the catalog, or old ones are phased out. Eligible courses are determined by a committee with at least one representative from Art, Anthropology and History. Substitutions may be approved with the advice of Museum Studies Faculty in Art, History, and Anthropology by the Department Head of Anthropology.

Anthropology - Graduate Minor

For the minor in anthropology, students are required to complete at least 9 credits (3 courses) of graduate-level anthropology coursework at the level of 500 or above. A minor in anthropology provides a useful concentration for students developing professional careers in teaching, environmental sciences, international business, community development, social work, art, and historic preservation. We recommend that students consult the anthropology graduate advisor and focus their coursework in the appropriate subfield.

To include a minor on a student's transcript, the minor must be listed on the NMSU Graduate Program of Study, and this form must be signed by the anthropology graduate advisor. Graduate students majoring in anthropology may not also earn a minor in the same field.

Archaeology - Graduate Minor

Graduate Minor in Archaeology

The graduate minor in archaeology allows students in other programs to develop a specialization in archaeology. A minor in archaeology provides a useful concentration for students developing professional careers in cultural resource management, public lands management, environmental sciences, public history, geography, or teaching.

Course Requirements:

In order to complete the minor requirements, students are required to complete 9 credit hours (3 classes) of graduate level courses. The core courses for the minor are:

<table>

ANTH 576 Lithic Technology Organization 3
ANTH 577 Advanced Zooarchaeology 3
ANTH 578 Advanced Lab Methods in Archaeology 3
ANTH 585 Method and Theory in Archaeology 3

Students should choose among these core offerings with the advice of their MA thesis chair and minor area committee member. The minor in archaeology is not available to graduate anthropology majors.

Food Studies - Graduate Minor

The purpose of the Food Studies Graduate Minor is to:

1. Enable students to develop a specialization in food studies within their respective graduate program
2. Develop specialized knowledge of the complex and dynamic relationship between food and culture
3. Explore the role of culture in food production, distribution and consumption across different cultures
4. Apply ideas and knowledge from graduate seminars to fieldwork for MA thesis or internship in a food studies topic

Art

Undergraduate Program Information

Within the scope of the university’s land-grant mission, the Department of Art utilizes our unique geographic location to serve and reflect diverse border communities, support learning that combines innovative and hybrid techniques, critical and cultural theory, contemporary exhibitions, and art historical inquiry. Capitalizing on the specialties and research agendas of our faculty, we provide an environment and a platform for aesthetic and critical engagement through the application of studio and art historical methodologies. Our curriculum fosters learning through experimental immersion in collaborative and cross-disciplinary activity. Students develop their artistic aesthetic and professional growth through engagement with a variety of approaches to individual research practice. Student's research also includes critique and discourse related to the context of both historical and contemporary issues, and the development of new strategies of inquiry into contemporary culture and knowledge. As artists, historians, and conservators, we provide a space for active engagement with varied disciplines in local, national and international communities.
The department offers four undergraduate degrees: a Bachelor of Arts (BA) with a concentration in Studio Art, a BA with a concentration in Art History, a Bachelor of Fine Arts (BFA) in Studio Art and a BFA in Museum Conservation. Our studio degrees provide you with the opportunity to either specialize or diversify your program of study in the following media areas: graphic design and media arts, ceramics, sculpture, metals and jewelry, photography and lens-based media, painting and drawing, printmaking and museum conservation. We also provide for intermedia concentration if students are interested in practices such as installation, performance and multi-media.

**BA in Art History** – This program is designed to give students a broad familiarity with the visual arts through the study of aesthetics, cultural contexts, pictorial traditions, stylistic development and technical practices.

**BA in Studio Art** – The BA provides a solid background in materials, techniques and idea development across all media areas combined with art historical studies. Students have the opportunity to specialize or generalize in various media.

**BFA in Studio Art** – The BFA curriculum provides students with a multidisciplinary understanding of contemporary visual arts. Students who wish to embark on a professional career in art apply to the BFA program through a portfolio process in their sophomore year. Areas of potential specialization include photography and lens-based media, graphic design and media arts, ceramics, drawing, painting, jewelry/metal smithing, printmaking and sculpture. Students may also elect to focus on several areas of specialization for an intermedia concentration.

**BFA in Museum Conservation** - the BFA in Museum Conservation is a true interdisciplinary degree, combining the studio arts, art history, anthropology, history, chemistry and conservation technologies to yield skills in the conservation of material objects of all types and historical value. NMSU offers one of four undergraduate degrees in museum conservation in the country.

The study of art provides an appropriate background for the pursuit of careers in studio art and art history in such areas as: the visual arts; graphic design; conservation; library work; museum work; advertising; architecture and interior design; photography; crafts; cinematography; education and art therapy; publishing; theatre; set design; television; industry and business; communication; management and research in the creative and academic areas. A major in art also provides students with a broad humanistic background appropriate to preparation for advanced degrees in other fields.

**Graduate Program Information**

The Department of Art offers a Master of Fine Arts in Studio Art and Master of Arts with an emphasis in Art History. Graduate students focus on an individualized program of study, supported by required coursework and mentorship with the graduate faculty. Art History students can concentrate on topics within Medieval to Contemporary Western European art, and Arts of the Americas. Master of Fine Art students are encouraged to work across disciplines and cultivate their personal research with the broad context of 21st-century art, art history and theory. The department supports work in and across the following areas: ceramics, graphic design, time-based media, lens-based media, jewelry and metalsmithing, painting and drawing, printmaking, sculpture and museum conservation.

---

**Degrees for the Department**

Art - Bachelor of Arts (p. 261)
Art - Bachelor of Fine Arts (p. 264)
Art - Master of Arts (p. 270)
Art - Master of Fine Arts (p. 271)

**Minors for the Department**

Art History - Undergraduate Minor (p. 269)
Museum Conservation - Undergraduate Minor (p. 270)

**Professors, Julia Barello, Department Head**

**Professors** Barello; **Associate Professors** Cully, Furuhashi, Goehring;
**Assistant Professors** d’Agostino, Lamb; **College Instructors** Cole-Dorn, Fitzsimmons, Marinas-Feliner; **Museum Director** Sage; **Conservator** Marinas-Feliner

J. Barello, Department Head, MFA (University of Wisconsin-Madison) – Jewelry and Metals; T. Cole-Dorn, MFA (New Mexico State University) – Painting and Drawing; C. Cully, MFA (University of Arizona) – Painting and Drawing; B. d’Agostino MFA (University of Maryland) – Graphic Design; J. Fitzsimmons, MA (New Mexico State University) – Art History; M. Furuhashi, MFA (University of Illinois-Chicago) - Jewelry and Metals; M. Goehring, Ph.D. (Case Western Reserve) – Art History; S. Marinas-Feliner, MA Art Conservation (Universidad Complutense de Madrid, Spain) and MA Anthropology (New Mexico State University) – Art Conservator; M. Sage, MFA (MICA) – University Art Museum Director;

**Studio Art Courses**

**ART 110G. Visual Concepts**
3 Credits (2+4P)
Introduction to the philosophies of art, visual thinking, and principles of visual organization. Designed to give students a broad view of aesthetic traditions, ideologies, and techniques basic to the creation and evaluation of art. Principles and concepts are taught in a common lecture and applied in parallel small studio sections. For non-art majors only.

**ART 125. Foundations in Art**
3 Credits (2+4P)
The Foundations course will focus on a deceptively simple question. "What is Contemporary Art, and how can we make it?" Through the exploration of basic visual design concepts, collaborative learning, and interdisciplinary studio production, this course will help us to discover what it means to be an artist in the 21st century. Restricted to Las Cruces campus only.

**ART 150. Drawing I**
3 Credits (2+4P)
Introduction to the skill of seeing through exercises that emphasize careful drawing from the still life and utilize a range of drawing materials and techniques. Outside assignments required. Intended for non-art majors on main campus. May be repeated up to 3 credits.
ART 151. Drawing II  
3 Credits (2+4P)  
Continued emphasis on drawing from observation by focusing on still life and other subject matter. Covers a range of materials, techniques and concepts. Outside assignments. Restricted to ART and ANVE/DFM majors.
Prerequisite(s): ART 150.

ART 155. 2-D Fundamentals  
3 Credits  
Introduction to two-dimensional space emphasizing visual elements and design principles as they apply to composition. A variety of materials are used in the studio projects and sketchbook exercises. Developing knowledge in vocabulary, color theory and skill in translating ideas into design are encouraged. Restricted to Community Colleges campuses only.

ART 156. 3-D Fundamentals  
3 Credits  
Compositional organization of three-dimensional space explored through a broad range of visual exercises. Resourceful and creative problem solving encouraged. Restricted to Community Colleges campuses only.

ART 157. Color Theory  
3 Credits (2+4P)  
Various color theories as they relate to compositional organization. Required for art education majors.

ART 160. Computer-Based Illustration  
3 Credits (2+4P)  
Introduction to the principles of computerized drawing and design. Using the basic concepts, drawing tools, and vocabulary of Adobe Illustrator.  
Prerequisite: ART 150, ART 155, or consent of instructor.

ART 161. Digital Imaging I  
3 Credits (2+4P)  
Work with basic concepts, tools, and vocabulary of Adobe Photoshop to create effective visual communication. Includes selection tools, cloning, copying and pasting, color correction, image restoration, filters, and special effects. Community Colleges only.

ART 163. Digital Graphics  
3 Credits (2+4P)  
Importing and exporting images and text into various desktop publishing formats. Exploring imaging, drawing, and page layout applications. Introduction to typography.  
Prerequisite: ART 161.

ART 165. Web Page Design  
3 Credits (2+4P)  
Introduction to the creation of well-designed and organized Web sites. Emphasis on building creative but functional user-friendly sites. Introduction to HTML, Flash, Java Script, and Web-authoring software. Community Colleges only. Same as OEPT 165.  
Prerequisite: ART 161.

ART 208. Art Workshop  
0.5 Credits  
Required for all freshman and sophomore Art majors for four semesters, this workshop is designed to build professional student cohorts within the Department of Art; incorporate visiting artist and scholar lectures into the curriculum; and actively involve students in exhibitions and gallery and departmental events. May be repeated up to 4 credits. Crosslisted with: ART 308. Restricted to: BA Studio Art, BA Art History BFA Studio Art, BFA Museum Conservation majors. Restricted to Las Cruces campus only.

ART 250. Introduction to Drawing  
3 Credits (2+4P)  
Introduction to drawing with a focus on technical, structural, and methodological skills. Subjects include still life and live figure models.

ART 252. Aspects of Drawing  
2-3 Credits  
Continued work in drawing with emphasis on personal creative endeavor. Community Colleges only.
Prerequisites: ART 150, ART 151, and ART 250.

ART 255. Introduction to Graphic Design  
3 Credits (2+4P)  
Introduction to the principles of visual communication and digital media, letterforms, typography and identity marks. Projects produced using conventional and digital tools.

ART 260. Introduction to Painting  
3 Credits (2+4P)  
Introduction to basic skills of painting through various exercises that emphasize working from observation, images and imagination. May be repeated up to 3 credits.  
Prerequisite(s): ART 250 or ART 150.

ART 261. Painting Methods, Techniques and Applications  
3 Credits (2+4P)  
The investigation of formal aspects of painting, an examination of painting techniques, and an exploration of various methodologies regarding form and content as applied to critical thinking skills through medium of paint.  
Prerequisite(s): ART 150, ART 260.

ART 262. Aspects of Painting  
2-3 Credits  
Varied painting media: continued development of painting skills.  
Prerequisites: ART 150, ART 155 (for art majors), ART 260, or consent of instructor.

ART 265. Introduction to Sculpture  
3 Credits (2+4P)  
Beginning sculpture students “explore space” while learning new processes and skills, including mold making, welding and woodworking.

ART 267. Art Portfolio Preparation  
3 Credits (2+4P)  
Refine general marketing strategies, personal portfolio and resumes. Define, target, and penetrate personal target markets. Students develop individual promotional packages.  
Prerequisites: ART 163, ART 269, and ART 272, or consent of instructor.

ART 269. Advanced Computer-Based Illustration  
3 Credits (2+4P)  
Design custom graphics and create special effects with filtering, special effects on type, graphing, technical illustrations, and three-dimensional drawing using Adobe Illustrator.  
Prerequisites: ART 157, ART 160, and ART 161, or consent of instructor.

ART 270. Introduction to Photography  
3 Credits (2+4P)  
Introduction to the production of digital images within the context of contemporary art. Utilizes digital SLR cameras with an emphasis on basic camera operation, picture composition, image processing and digital workflow. A DSLR camera is required. May be repeated up to 3 credits.
ART 272. Digital Imaging II
3 Credits (2+4P)
Refining of individual creative styles and technical skills using Adobe Photoshop. Emphasis on input and output predictability, and working with large file productions. Community colleges only. Restricted to: Community Colleges only.
Prerequisite(s): ART 161.

ART 275. Introduction to Ceramics
3 Credits (2+4P)
Introduction to the technical processes and conceptual concerns of working with the ceramic material. Students will explore various methods of forming with earthenware to make both functional and expressive works out of clay.

ART 276. Ceramics I, B
3 Credits (2+4P)
Beginning ceramics, complementary half to ART 275. (ART 275 and ART 276 do not need to be taken consecutively.) Basic building techniques of coil, slab, and throwing are introduced. High-fire and low-fire clays are used.

ART 280. Introduction to Printmaking
3 Credits (2+4P)
Introduction to the field of printmaking through projects that focus on specific processes, such as relief, intaglio, collography, paper lithography, and a variety of transfer and stencil techniques. Students engage in several assignments that are collaborative, as well as individual projects designed for development of personal aesthetics.

ART 285. Introduction to Metals and Jewelry
3 Credits (2+4P)
Introduction to fundamental processes, design, and conceptual development for metal fabrication of jewelry and functional/non-functional objects.

ART 286. Stained Glass
3 Credits (2+4P)
Instruction in the fundamental fabrication and design techniques for stained glass. Introduction to visual decision making skills, historical, and critical issues of the medium. Community Colleges only.

ART 294. Special Topics in Studio
1-3 Credits
Specific subjects and credits to be announced in the Schedule of Classes. No more than 9 credits toward a degree.
Prerequisite: consent of instructor.

ART 350. Intermediate Drawing and Painting
3 Credits (2+4P)
Intermediate drawing and painting course focusing on the following topics: Realism, Color, Narrative, and Abstraction. Topics will be announced in the course schedule. Each topic may only be taken once. May be repeated up to 12 credits.
Prerequisite(s): ART 250 and ART 260, or consent of instructor.

ART 355. Special Topics in Graphic Design
3 Credits (2+4P)
Intermediate graphic design course focusing on the following topics: production, packaging, layout, identity and interactive design. Topics will be announced in the course schedule. Each topic may only be taken once. May be repeated up to 12 credits.
Prerequisite(s): ART 255 or consent of instructor.

ART 360. The Figure
3 Credits (2+4P)
Introduction to working from live models, anatomical skeletons, source images and the imagination in a variety of two-dimensional media, including painting and drawing. An emphasis is placed on anatomical accuracy and with a focus on the figure as an expressive subject. May be repeated up to 6 credits.
Prerequisite(s): ART 150, 250 or consent of instructor.

ART 365. Intermediate Sculpture Special Topics
3 Credits (2+4P)
Intermediate sculpture students will expand their fabrication skills in metal, wood and mixed media. Assignments incorporate topics such as Pop art, Process Art, and The Body in Contemporary Art. Topics will be announced in the course schedule. Each topic may only be taken once. May be repeated up to 6 credits.
Prerequisite(s): ART 265 or consent of instructor.

ART 370. Intermediate Digital Photography
3 Credits (2+4P)
Intermediate digital photography course addressing techniques and production of photo media within the context of contemporary art. Course focuses on the following rotating topics: Networks, Photo-book and Video art. May be repeated up to 12 credits.
Prerequisite(s): ART 270, or consent of instructor.

ART 373. Intermediate Analog Photography
3 Credits (2+4P)
Introduction to skills and techniques of black and white film photography within the context of contemporary art. Emphasis on analog camera work and darkroom procedures. 35 mm SLR or rangefinder film camera required for course. May be repeated up to 6 credits.
Prerequisite(s): ART 270, or consent of instructor.

ART 374. Intermediate Ceramics: Multiples (Design and Production)
3 Credits (2+4P)
Intermediate ceramics course focusing on an introduction to the technical processes of throwing, prototyping, mold making, glaze calculation, and alternative firing. May be repeated up to 3 credits.
Prerequisite(s): ART 275 or consent of instructor.

ART 375. Intermediate Ceramics: Sculptural Concerns
3 Credits (2+4P)
Intermediate ceramics course focusing on the refinement of technical skills with an emphasis on conceptual development related to materiality.
Prerequisite(s): ART 275 or consent of instructor.

ART 376. Museum/Gallery Research Internship
1-9 Credits
Research internship in museum or gallery. Requirements determined by instructor in cooperation with supervising museum/gallery professional. May be repeated up to 9 credits. Consent of Instructor required.
Prerequisite(s): ART 295G, ART 296G, ART 298, or consent of instructor.

ART 380. Intermediate Printmaking
3 Credits (2+4P)
Intermediate printmaking course with emphasis on further investigation of a variety of materials and techniques associated with the print processes of intaglio and relief. Stone lithography, serigraphy and mixed media will be introduced. May be repeated up to 6 credits.
Prerequisite(s): ART 280, or consent of instructor.
ART 385. Intermediate Metals: Special Topics
3 Credits (2+4P)
Intermediate Metals/Jewelry course focusing on the following topics: design and production, materiality and sculptural concern. Techniques may include casting, complex construction, forming, and mix media. Topics will be announced in the course schedule. Each topic may only be taken once. May be repeated up to 12 credits.
Prerequisite(s): ART 285 or consent of instructor.

ART 394. Special Topics in Studio
3 Credits
Specific subjects and credits to be announced in the Schedule of Classes online. Topics cannot be repeated. May be repeated up to 9 credits.

ART 401. Museum Conservation Techniques I
3 Credits (2+3P)
Introduces the student to conservation theory and the basic principles of conservation for cultural objects. The course integrates the history, philosophy and technologies of art conservation with knowledge of the properties of materials used in conservation. The student will learn and develop conservation skills including learning about the most frequent kinds of deterioration that can occur in various types of art objects, symptoms and causes as well as preventative and restoration techniques. Although this course provides practical experience, it also seeks to provide a broad understanding of the field of conservation. This course also includes how to document the condition of an object during the conservation process. Crosslisted with: ART 501.

ART 402. Museum Conservation Techniques II
3 Credits (2+3P)
Continues conservation theory and the basic principles of conservation for cultural objects. The course integrates the history, philosophy and technologies of art conservation with knowledge of the properties of materials used in conservation. The student will learn and develop conservation skills including learning about the most frequent kinds of deterioration that can occur in various types of art objects, symptoms and causes as well as preventative and restoration techniques. Although this course provides practical experience, it also seeks to provide a broad understanding of the field of conservation. Crosslisted with: ART 502.
Prerequisite(s): ART 401.

ART 403. Preventative Conservation/Collections Care
3 Credits
Introduces the student on how to mitigate the deterioration and damage of cultural property in a museum setting through the formulation and implementation of policies and procedures. The course addresses most aspects of collections management and care for objects in storage, exhibitions and during transportation. Crosslisted with: ART 503.

ART 450. Advanced Drawing and Painting: Special Topics
3-6 Credits (2-4+4P)
Advanced drawing and painting course focusing on the following topics: Identity, Place, Spirituality, and Body. Topics will be announced in the course schedule. May be repeated up to 12 credits.
Prerequisite(s): 12 credits of ART 350, or consent of instructor.

ART 455. Advanced Graphic Design Special Topics
3-6 Credits (3-6)
Advanced graphic design course focusing on the following topics: visual communication, system graphics, typography, portfolio preparation, art of the book and professional practice. Topics will be announced in the course schedule. Each topic may only be taken once. May be repeated up to 15 credits.
Prerequisite(s): 6 credits of ART 355, or consent of instructor.

ART 465. Advanced Sculpture Special Topics
3-6 Credits (2-4+4P)
Thematic classes deepen students’ knowledge of contemporary sculpture and extended media through a series of interpretive assignments that culminates in a unified body of work. Course topics include: “Artists’ Maps”, Installation Art/Land Art”, “Sculpture and the 1960s”, “Sculpture and the 1970’s”. Topics will be announced in the course schedule. May be repeated up to 18 credits.
Prerequisite(s): ART 365 or permission of the instructor.

ART 470. Advanced Digital Photography
3 Credits (2+4P)
Advanced digital photography course addressing technique and production of photo media within the context of contemporary art. Course focuses on the following rotating topics: Temporality, Photo-installation and Video Art. Each topic may only be taken once. May be repeated up to 12 credits.
Prerequisite(s): ART 370 or consent of instructor.

ART 473. Advanced Analog Photography
3 Credits (2+4P)
Advanced photography course focused on skills and techniques of black and white film within the context of contemporary art. Course focuses on the following rotating topics: Large Format Tableau, Experimental Processes and Materials. May be repeated up to 12 credits.
Prerequisite(s): ART 370 and ART 373, or consent of instructor.

ART 474. Advanced Ceramics Design and Production
3-6 Credits (3-6)
Advanced ceramics course focusing on the technical processes of throwing, prototyping, mold making, glaze calculation, and alternative firing. Discussions may also include issues of professional practice, marketing, and branding. May be repeated up to 6 credits.
Prerequisite(s): ART 374 and ART 375, or consent of instructor.

ART 475. Advanced Ceramics Sculptural Concerns
3-6 Credits (2-4+4P)
Advanced ceramics course focusing on conceptual development as it relates the creation of a unified body of work. Topics may include discussions of advanced techniques, professional practices, and contemporary issues in ceramics. May be repeated up to 15 credits.
Prerequisite(s): ART 374 and ART 375, or consent of instructor.

ART 476. Advanced Museum/Gallery Research Internship
1-9 Credits
Advanced research internship in museum or gallery. Requirements determined by instructor in cooperation with supervising museum/gallery professional. May be repeated up to 9 credits. Consent of instructor required.
Prerequisite(s): ART 376.

ART 480. Special Topics in Printmaking
3-6 Credits (3-6)
Special topics in printmaking. Emphasizing conceptual approaches to printmaking and development of individual content. Topics will be announced in the course schedule. May be repeated up to 18 credits.
Prerequisite(s): 6 credits of ART 380, or consent of instructor.
ART 485. Advanced Metals: Special Topics
3-6 Credits (2-4+4P)
Advanced Metals/Jewelry course focusing on the following topics: conceptual development and personal aesthetic and style, professional practices, contemporary issues in Metals/Jewelry, and senior exhibition. Techniques may include enameling, coloring, historical processes, and digital technology. Topics will be announced in the course schedule. Each topic may only be taken once. May be repeated up to 18 credits.
Prerequisite(s): 6 credits of ART 385, or consent of instructor.

ART 490. Museum Conservation Internship
1-6 Credits (1-6)
The goal of this internship is to provide a student with a practical learning experience in preventative conservation techniques and policies so that they can relate what they have learned in the classroom from ART 403 Preventative Conservation/Collections Care to applied situations. It will provide the student an opportunity to learn skills and knowledge needed in working with museum collections. Tasks and projects will be assigned by the instructor. 3 credits required for BFA in Museum Conservation. May be repeated up to 6 credits.
Prerequisite(s): ART 403.

ART 494. Special Topics in Studio
3 Credits
Specific subjects and credits to be announced in the Schedule of Classes online. May be repeated up to 9 credits.

ART 495. Undergraduate Studio Thesis
3-6 Credits (3-6)
Special research and independent study leading to undergraduate thesis exhibition. May be repeated up to 6 credits. Consent of Instructor required.
Prerequisite(s): Consent of instructor.

ART 496. Fundamentals of Studio Management
1 Credit
Advanced studio course designed to introduce students to the fundamentals of studio management. Includes training in proper tools use and maintenance; safety procedures; and practical experience with studio oversight. Concurrent registration in advanced level studio course of the same media area required. May be repeated for a maximum of 3 credits. Restricted to majors. Graded S/U.
Prerequisite: consent of instructor.

ART 501. Museum Conservation Techniques I
3 Credits (2+3P)
Introduces the student to conservation theory and the basic principles of conservation for cultural objects. The course integrates the history, philosophy and technologies of art conservation with knowledge of the properties of materials used in conservation. The student will learn and develop conservation skills including learning about the most frequent kinds of deterioration that can occur in various types of art objects, symptoms and causes as well as preventative and restoration techniques. Although this course provides practical experience, it also seeks to provide a broad understanding of the field of conservation. This course also includes how to document the condition of an object during the conservation process. May be repeated up to 3 credits. Crosslisted with: ART 401.

ART 502. Museum Conservation Techniques II
3 Credits (2+3P)
Continues conservation theory and the basic principles of conservation for cultural objects. The course integrates the history, philosophy and technologies of art conservation with knowledge of the properties of materials used in conservation. The student will learn and develop conservation skills including learning about the most frequent kinds of deterioration that can occur in various types of art objects, symptoms and causes as well as preventative and restoration techniques. Although this course provides practical experience, it also seeks to provide a broad understanding of the field of conservation. Crosslisted with: ART 402.
Prerequisite(s): ART 501.

ART 503. Preventive Conservation/Collections Care
3 Credits
Introduces the student on how to mitigate the deterioration and damage of cultural property in a museum setting through the formulation and implementation of policies and procedures. The course addresses most aspects of collections management and care for objects in storage, exhibitions and during transportation. Crosslisted with: ART 403.

ART 550. Drawing and Painting Workshop
3-6 Credits (2-4+4P)
Graduate level drawing and painting course focusing on the development of concepts, expression and visual form. May be repeated up to 27 credits.
Prerequisite(s): Graduate standing.

ART 555. Graphic Design
3 Credits
May be repeated up to 27 credits.

ART 560. Painting Workshop
3-9 Credits
Advanced work with painting skills. Emphasis on critical analysis and development of body of work. May be repeated up to 27 credits.
Prerequisite(s): Graduate standing.

ART 565. Sculpture Media
3-9 Credits
May be repeated up to 27 credits.

ART 570. Advanced Introduction to Photography
3-9 Credits
Graduate students develop and implement a research program using photographic media and processes. Outcomes and program developed in consultation with photography faculty. May be repeated up to 30 credits.
Prerequisite(s): Graduate standing.

ART 575. Ceramic Arts
3-9 Credits
May be repeated up to 27 credits.

ART 576. Museum/Gallery Research Internship
1-9 Credits
Research internship in museum or gallery. Requirements determined by instructor in cooperation with supervising museum/gallery professional. For art history credit. May be repeated for a maximum of 9 credits.
Prerequisite: graduate standing.

ART 580. Printmaking Workshop
3-6 Credits
May be repeated for a maximum of 33 credits.
Prerequisite(s): Graduate standing.

ART 585. Metals and Jewelry Design
3-9 Credits
May be repeated up to 27 credits.
ART 596. Graduate Studio Seminar
3 Credits
Explores issues in contemporary art making and their relationship to personal work. Presentation of research in oral, visual, and written form. May be repeated for a maximum of 18 credits. Restricted to majors.
Prerequisite(s): Graduate standing.

ART 598. Studio Thesis
1-15 Credits
Special research in studio, leading to an exhibition and written thesis statement.

Art History Courses

ART 101G. Orientation in Art
3 Credits (2+3P)
A multicultural examination of the principles and philosophies of the visual arts and the ideas expressed through them.

ART 295G. Introduction to Art History I
3 Credits
An introduction to the principles of art history within a chronological framework of the art of the Western World. All media will be discussed. From prehistoric times to the fourteenth century.

ART 296G. Introduction to Art History II
3 Credits
Continuation of ART 295, Art of the Western World from Late Gothic to the present. May be repeated up to 3 credits.

ART 298. Writing in Art
3 Credits
This reading- and writing-intensive course will introduce students to various approaches of writing about historical art.

ART 300. Special Topics in Art History
3 Credits
Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits. May be repeated up to 12 credits. Restricted to Las Cruces campus only.
Prerequisite(s): ART 295G, ART 296G, and ART 298 or consent of instructor.

ART 305. Medieval Art
3 Credits
History of painting, stained glass, sculpture, architecture and manuscript illumination in Europe from the Early Christian period to the end of the Gothic period; taught with ART 505.
Prerequisite(s): ART 295G, ART 296G, and ART 298 or consent of instructor.

ART 306. Medieval Manuscript Illumination
3 Credits
History of manuscript production and illumination in Western Europe from the Early Christian period to the middle of the 16th century; taught with ART 506.
Prerequisite(s): ART 295G, ART 296G, and ART 298 or consent of instructor.

ART 310. Native American Art
3 Credits
Cross-cultural introduction to art of the prehistoric and historic native people of the North, Central, and South Americas. Considers the artistic expression and the function of art in diverse cultural and environmental contexts.
Prerequisite(s): ART 295G, ART 296G, and ART 298 or consent of the instructor.

ART 311. Art of China I: Neolithic to Song Dynasty
3 Credits
Survey of the art of China from the neolithic period to the end of the Song dynasty. Non-majors welcome. May be repeated up to 3 credits. Crosslisted with: ART 511.
Prerequisite(s): ART 295G, 296G, and 298 or ART 295G or HIST 211G and HIST 212G or consent of instructor.

ART 312. Art of China II: Song Dynasty to Today
3 Credits
Survey of art, architecture and landscape design of China from the Song Dynasty to the present day Crosslisted with: ART 512.
Prerequisite(s): ART 298 or ART 295G or HIST 211G or HIST 212G or consent of instructor.

ART 321. Pre-Columbian Art and Architecture of the Andes
3 Credits
Examines the arts and history of pre-Columbian Andean cultures in a cultural context. Analysis of architecture, sculpture, pottery, jewelry, textiles, and feather work.
Prerequisite(s): ART 295G, ART 296G, and ART 298 or consent of instructor.

ART 323. Italian Renaissance Art
3 Credits
History of painting, sculpture and architecture in Italy from the 14th century to the end of the 16th century; taught with ART 523.
Prerequisite(s): ART 295G, ART 296G and ART 298 or consent of instructor.

ART 325. Northern Renaissance Art
3 Credits
History of painting, manuscript illumination and graphics in Northern Europe from the late 14th century to the mid-16th century; taught with ART 525.
Prerequisite(s): ART 295G, 296G, and 298 or consent of instructor.

ART 329. Survey of Western Architecture
3 Credits
Survey of history of Western architecture from prehistoric time to the present.
Prerequisite(s): ART 295G, ART 296G, and ART 298 or consent of instructor.

ART 330. Modern Architecture
3 Credits
A survey of the history of Modern Architecture with focus given to major architects, monumental buildings, and building groups stressing construction techniques and style from the 18th century to the present.
Prerequisite(s): ART 295G, ART 296G, ART 298, or consent of instructor.

ART 333. Baroque Art and Architecture in Italy, Spain, and Hispanic Latin America
3 Credits
Concentration of Italian Baroque architecture, painting, and sculpture; and on Spanish painting, sculpture, and architecture, as well as the art and architecture of Spanish vice-royalties of the Americas.
Prerequisite(s): ART 295G, ART 296G, ART 298, or consent of instructor.

ART 336. Race in Art
3 Credits
Traces race, representation and appropriation through a historical and cultural lens. Issues of identify up to and including contemporary visual expression are examined. Non-majors welcomed. May be repeated up to 3 credits. Consent of Instructor required.
Prerequisite(s): ART 295G, ART 296G, and ART 298.
ART 337. American Art to 1900
3 Credits
Examines painting, sculpture, architecture and other arts in the United States from the colonial period to 1900 and places them within conceptual and historical contexts. May be repeated up to 3 credits.
Prerequisite(s): ART 295G, ART 296G, ART 298, or consent of instructor.

ART 338. Late Eighteenth- and Nineteenth-Century European Art
3 Credits
History of painting, sculpture, architecture, and other arts created in Europe from 1789 to 1900. May be repeated up to 3 credits.
Prerequisite(s): ART 295G, ART 296G, ART 298, or consent of instructor.

ART 339. History of Photography
3 Credits
Course studies history, theory and use of photographic practices in art, especially from formal introduction of the process in 1839 to the present. May be repeated up to 3 credits.
Prerequisite(s): ART 295G, ART 296G, ART 298, or consent of instructor.

ART 342. Twentieth-Century Art I, 1900-1945
3 Credits
Examines themes and monuments of the Western world created between 1900 and 1945 and emphasizes the growth of modern and avant garde cultural practices.
Prerequisite(s): ART 295G, ART 296G, ART 298, or consent of instructor.

ART 343. Twentieth-Century Art II, 1945-Present
3 Credits
History of painting, sculpture, architecture and other arts in Europe, the United States, and elsewhere from 1945 to the present.
Prerequisite(s): ART 295G, ART 296G, ART 298, or consent of instructor.

ART 354. History of Graphic Design
3 Credits
This course introduces students to the history of graphic design and evolution of visual communication. Course will involve writing and design projects.
Prerequisite(s): ART 295G, ART 296G, ART 298, or consent of instructor.

ART 390. Visual Culture of the 1960s
3 Credits
Focus on major cultural trends and historical events in 1960's America. Offers analysis of art, films, and pop culture phenomena of the period.
Prerequisite(s): ART 295G, ART 296G, ART 298, or consent of instructor.

ART 392. Visual Culture of the 1980s
3 Credits
Focus on major cultural trends and historical events in 1980's America. Offers analysis of art, films, and pop culture phenomena of the period.
Prerequisite(s): ART 295G, ART 296G, ART 298, or consent of instructor.

ART 444. Art and Life in Renaissance Italy
3 Credits
Examines how Italian Renaissance textual and visual culture offered Europe new ways of seeing and portraying itself. 1350-1550. Topics include: Florence, Venice, Rome, Leonardo, Michelangelo, titian, humanism, the Medici, and republican and courtly culture.
Prerequisite(s): ART 295G, ART 296G, ART 298, or consent of instructor.

ART 477. Independent Research Problems in Art History 1-9 Credits
Advanced research on special problems to be conducted under supervision of art history faculty. May be taken up to 12 credits. Consent of instructor required.
Prerequisite(s): ART 295G, ART 296G, ART 298 and one 300 level art history course and consent of instructor.

ART 478. Seminar: Selected Topics in Art History 3 Credits
Reading, research, and discussion of advanced problems. Topics will be announced in the course schedule. Each topic may be only taken once. Non-art/art history majors, contact instructor for consent. May be repeated up to 12 credits.
Prerequisite(s): ART 295G, ART 296G and ART 298, and one 300 level art history course.

ART 479. Art Theory, Criticism, and Historiography 3 Credits
Theories and methodologies in art history and art criticism. May be repeated up to 3 credits.
Prerequisite(s): ART 295G, ART 296G, ART 298 and one 300 level art history course and consent of instructor.

ART 497. Readings in Art History 3 Credits
In-depth study of art historical writing. May be repeated up to 12 credits. Consent of Instructor required.
Prerequisite(s): ART 295G, ART 296G, ART 298 and one 300 level art history course.

ART 500. Special Topics in Art History 3 Credits
Specific subjects to be announced in the Schedule of Classes. May be repeated up to 12 credits.
Prerequisite(s): Graduate status.

ART 505. Medieval Art 3 Credits
History of painting, stained glass, sculpture, architecture and manuscript illumination in Europe from the Early Christian period to the end of the Gothic period; taught with ART 305.
Prerequisite(s): Graduate Standing.

ART 506. Medieval Manuscript Illumination 3 Credits
History of manuscript production and illumination in Western Europe from the Early Christian period to the middle of the 16th century; taught with ART 306. Consent of instructor required.
Prerequisite(s): ART 295G and ART 305 or ART 505.

ART 510. Advanced Native American Art 3 Credits
Cross-cultural introduction to art of the prehistoric and historic native people of the North, Central, and South Americas. The artistic expression and the function of art considered in diverse cultural and environmental contexts. Crosslisted with: ART 310.
Prerequisite(s): Graduate standing.

ART 511. Art of China I: Neolithic to Song Dynasty 3 Credits
Survey of the art of China from the neolithic period to the end of the Song dynasty. May be repeated up to 3 credits. Crosslisted with: ART 311.
Prerequisite(s): Graduate Standing.

ART 512. Art of China II: Song Dynasty to Present Day 3 Credits
Survey of art, architecture and landscape design of China from the Song dynasty to the present day Crosslisted with: ART 312.
ART 520. Art and Architecture in Pre-Columbian Mesoamerica
3 Credits
Analysis of the art and culture of the Mesoamerican peoples before the arrival of Columbus in the New World. Includes an in-depth formal and historical analysis of architecture, sculpture, painting, pottery and metal works of Mixtec, Toltec, the Aztec, Maya, and other cultures and civilizations. Crosslisted with: ART 320.
Prerequisite(s): Graduate standing.

ART 521. Pre-Columbian Art and Architecture of the Andes
3 Credits
Examines the arts and history of pre-Columbian Andean cultures in a cultural context. Analysis of their architecture, sculpture, pottery, jewelry, textiles, and featherwork. Crosslisted with: ART 321.
Prerequisite(s): Graduate standing.

ART 523. Italian Renaissance Art
3 Credits
History of painting, sculpture and architecture in Italy from the 14th century to the end of the 16th century; taught with ART 323.
Prerequisite(s): Graduate standing.

ART 525. Northern Renaissance Art
3 Credits
History of painting, manuscript illumination and graphics in Northern Europe from the late 14th century to the mid-16th century; taught with ART 325.
Prerequisite(s): Graduate standing.

ART 530. Modern Architecture
3 Credits
Study of the architecture of the later eighteenth, nineteenth and twentieth centuries in the context of technological, social and stylistic changes. Focus on the works of Louis Sullivan, Frank Lloyd Wright, and European architects of the International Style, and the current reaction. Crosslisted with: ART 330.
Prerequisite(s): Graduate standing.

ART 533. Baroque Art and Architecture in Italy, Spain, and Hispanic Latin America
3 Credits
Concentration on Italian and Spanish Baroque architecture, painting, and sculpture, as well as the art and architecture of Spanish vice-royalties of the Americas. Crosslisted with: ART 333.
Prerequisite(s): Graduate standing.

ART 537. American Art to 1900
3 Credits
Covers the history of painting, sculpture, architecture, and other arts in the United States from the colonial period to 1900. Crosslisted with: ART 337.
Prerequisite(s): Graduate standing.

ART 538. Late Eighteenth- and Nineteenth-Century European Art
3 Credits
History of painting, sculpture, architecture, and other arts created in Europe from 1789 to 1900. May be repeated up to 3 credits. Crosslisted with: ART 338.
Prerequisite(s): Graduate standing.

ART 539. History of Photography
3 Credits
Course studies history, theory and use of photographic practices in art, especially from formal introduction of the process in 1839 to the present. Crosslisted with: ART 339.
Prerequisite(s): Graduate standing.

ART 542. Twentieth-Century Art I, 1900-1945
3 Credits
History of painting, sculpture, and other arts in Europe, the United States, and elsewhere from 1900 to 1945. Crosslisted with: ART 342.
Prerequisite(s): Graduate standing.

ART 543. Twentieth-Century Art II, 1945-Present
3 Credits
History of painting, sculpture, and other arts in Europe, the United States, and elsewhere from 1945 to the present. Comprehensive research paper required. Crosslisted with: ART 343.
Prerequisite(s): Graduate standing.

ART 578. Seminar: Selected Topics in Art History
3 Credits
Reading, research, and discussion of advanced problems. May be repeated for a maximum of 9 credits.
Prerequisite: Graduate standing.

ART 579. Graduate Seminar: Art Theory, Criticism, Historiography
3 Credits
Theories and methodologies in art history and art criticism.
Prerequisite: Graduate standing.

ART 590. Visual Culture of the 1960s
3 Credits
Focuses on major cultural trends and historical events in 1960s America. Offers analysis of art, films, and pop culture phenomena of the period. Fulfil all requirements of ART 390 plus graduate-level research.
Prerequisite(s): Graduate standing.

ART 591. Visual Culture of the 1970s
3 Credits
Focuses on major cultural trends and historical events in 1970s America. Offers analysis of art, films, and pop culture phenomena of the period. Fulfil all requirements of ART 391 plus graduate-level research.
Prerequisite(s): Graduate standing.

ART 592. Visual Culture of the 1980s
3 Credits
Focuses on major cultural trends and historical events in 1980s America. Offers analysis of art, films, and pop culture phenomena of the period. Fulfil all requirements of ART 392 plus graduate-level research.
Prerequisite(s): Graduate standing.

ART 597. Readings in Art History
3 Credits
In-depth study of historical writing about art. May be repeated for a maximum of 9 credits.
Prerequisite: Graduate standing.

ART 599. Art History Thesis
1-15 Credits
Art history master’s thesis research. May be repeated for unlimited credit. Restricted to masters level art history students. Consent of instructor required.
Prerequisite(s): Graduate standing.

Name: Julia Barello, Department Head
Office Location: Devasthali Hall, Room 118

## Art - Bachelor of Arts

### Concentration: Art History

The art history program is designed to give the student a broad familiarity with the visual arts through the factual and theoretical study of aesthetics, cultural contexts, iconography, pictorial traditions, stylistic development and technical practices. Students are encouraged to take related courses in anthropology, history, languages and literature, music history, philosophy, religion, theatre and costume history.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

### Second Language Requirement

For the Bachelor of Arts- Art with a concentration in Art History there is a two year second language requirement for the degree. Students must demonstrate a reading knowledge of a second language either by completing the 212 or 214 course or by taking a 300-level literature course (FREN, GER, SPAN, PORT, JPNS or CHIN). **Art History majors may not use C D 476 American Sign Language III to fulfill the language requirement.**

### Concentration: Studio Art

The Bachelor of Arts is designed to give the student a broad interdisciplinary understanding of the areas of painting/drawing, graphic design, printmaking, sculpture, photography, ceramics, conservation, jewelry and metalsmithing, through a series of introductory and special topics courses and the history and appreciation of art in the context of a liberal education. Students are required to take 30 credits of upper-level studio art classes and 18 credits of Art History.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Evaluative, to bring the total credits to 120  
Total Credits 120

1 See the General Education (p. 49) section of the catalog for a full list of courses.  
2 A Mathematics General Education course is required for the degree but students may need to take any prerequisites needed to enter the course selected first.  
3 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.  
4 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor course work. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Second Language Requirement  
For the Bachelor of Arts- Art with a concentration in Studio Art there is no second language requirement for the degree.

Concentration: Art History  
A Suggested Plan of Study  
This roadmap assumes student placement in ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Credits 16
Art - Bachelor of Fine Arts

Concentration: Museum Conservation

Art Conservation is the study of the preservation and restoration of art as well as of other cultural and natural objects. The B.F.A. degree with an concentration in Museum Conservation provides an academic structure within which students master specific sets of practical skills while developing broad professional and theoretical perspectives toward the issue of conserving objects in a museum or collection setting. By combining theory with practice, the program offers students the interpretive, quantitative and administrative skills needed for careers as conservators, curators, registrars, collections managers, exhibit designers and museum administrators, all of whom must have specialized training in the care and handling of works of art to be successful.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

ANTH 485 Special Research Project
ANTH 497 Special Topics

Second Language Requirement: (not required)

Electives, to bring the total credits to 120 7

Total Credits 120

1 Recommended for students planning to attend graduate school in art conservation.
2 Recommended for students who do NOT plan to attend graduate school in art conservation.
3 Courses are open by permission of the instructor only.
4 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
5 For the Bachelor of Arts- Art with a concentration in Museum Conservation there is no second language requirement for the degree.

Emphasis: Studio Art
The studio art curriculum is designed to give the student a broad, transdisciplinary understanding of the field of visual arts, including appreciation and criticism, art history, ceramics, drawing, graphic design and media arts, jewelry/metalsmithing, painting, photography, printmaking, sculpture and museum conservation. This program is recommended for those students who wish to embark on a professional career in art. The Bachelor of Fine Arts degree is a professional baccalaureate degree, which requires a senior thesis exhibition and capstone class in the final semester of study. Students seeking a BFA must apply in the spring of their sophomore year for acceptance into the BFA program - this is done via a portfolio review.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

### Art History - Undergraduate Minor

The Art History minor requires 27 credits. Students cannot earn both a bachelor's degree in the Department of Art and an Art History minor unless they pass at least 6 credits in the minor beyond the requirements of the major. Students cannot earn both the Bachelor of Art with an Art History emphasis and a minor in Art History.
Museum Conservation - Undergraduate Minor

The Museum Conservation minor requires 18 credits. Students cannot earn both a bachelor's degree in the Department of Art and the Museum Conservation minor unless they pass at least 6 credits in the minor beyond the requirements of the major. An undergraduate minor in Museum conservation requires the completion of 9 credits of the three 400 level museum conservation courses listed below, and 9 credits of the courses selected from one of the three tracks listed below.

### Required Courses

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 295G</td>
<td>Introduction to Art History I</td>
<td>3</td>
</tr>
<tr>
<td>ART 296G</td>
<td>Introduction to Art History II</td>
<td>3</td>
</tr>
<tr>
<td>ART 298</td>
<td>Writing in Art</td>
<td>3</td>
</tr>
<tr>
<td>Art history courses at the 300-499 level</td>
<td>15</td>
<td></td>
</tr>
<tr>
<td>Humanities or studio art, subject to approval by the minor advisor</td>
<td>3</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits**: 27

### Track 3: History

Select 9 credits from the following:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 330V</td>
<td>Introduction to Religious Studies</td>

<td>Introduction to Painting</td>
<td></td>
</tr>
<tr>
<td>ART 265</td>
<td>Introduction to Sculpture</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits**: 9

### Candidacy and Thesis Committee Selection

Upon satisfactory completion of all required course work (except thesis credits) and foreign language requirement, the student will prepare a thesis proposal under the direction of the major professor. The student will then select the second member of his or her thesis committee and submit the proposal to this committee member for approval. With
the backing of these two advisors, the student must then present the proposal to the department faculty. After a successful presentation, the student will advance to candidacy and select the third committee member, who may be from outside the art department.

**Admission**

All applicants for admission to the MA program must submit

1. A polished undergraduate research paper
2. A written statement of intent
3. Letters of recommendation from three qualified people of the applicant's choice

Research papers, statement of intent, and letters of recommendation should be sent to the Department of Art. Applications and official undergraduate transcripts should be sent directly to the Graduate School. Psychometric test scores are not required.

**Application Deadline**

The final submission date for all application materials and teaching assistantship applications is January 20th for the following year.

**Art - Master of Fine Arts**

**Emphasis: Studio Art**

Art requirements for an MFA degree with an emphasis in studio art include a minimum of 60 credits of academic work, usually completed in three years. Of those 60 credits,

- 9 must be taken in art history,
- 6 in non-art courses numbered 450 or above,
- 6 in ART 598 Studio Thesis
- 3 in ART 579 Graduate Seminar: Art Theory, Criticism, Historiography
- 12 in ART 596 Graduate Studio Seminar.

In order to remain in good standing in the MFA program, a student must maintain an average GPA of 3.0. Any grade lower than B- in an Art Department graduate course is considered failing. In the event that a student fails a required course, they must repeat the class in order to get credit for it. If a student is awarded a graduate assistantship, he or she must maintain an average GPA of 3.0.

**Prefix** | **Title** | **Credits**
---|---|---
ART 579 | Graduate Seminar: Art Theory, Criticism, Historiography | 3
ART 596 | Graduate Studio Seminar | 12
ART 598 | Studio Thesis | 6
Studio Electives (ART 500 level) | 18
Non-art 450 level or higher courses | 6
Art history courses (500 level) | 9
Two additional courses, either ART 596 or 500-level Studio Elective | 6
Total Credits | 60

**Semester Reviews**

At the end of the first two semesters, each graduate student's creative production will be reviewed by the assembled faculty. Participation in semester reviews are required for successful completion of graduate level studio courses.

**Candidacy**

Candidacy occurs during the third semester of study in residency. Candidacy consists of a formal review of the student's work by the assembled graduate faculty. The graduate faculty advances the student to his or her final 3 semesters of study by a majority vote. If the faculty does not advance the student, candidacy may be repeated one additional time at the end of the next consecutive semester. The final three semesters of thesis work will commence from that point. Students who are not successful in their second candidacy attempt will be dis-enrolled from the MFA program.

**Thesis Committee**

At the end of the third semester and after a successful candidacy the student will propose his or her thesis committee, consisting of two department of art graduate faculty members, and one graduate faculty member from outside the department.

**Thesis Exhibition**

The studio thesis will culminate in an exhibition of the candidate's creative works and a written thesis statement. A successful oral examination and defense of the thesis and exhibition is required for graduation. Two copies of the thesis and a photographic record of the final exhibition are required; other requirements may be determined by the graduate faculty. Students who do not satisfactorily complete their oral examination may not participate in the thesis exhibition.

Thesis exhibitions for the MFA degree will be held in the spring semester in the University Art Museum. Students who wish to graduate at mid-year are obligated to find an exhibition space other than the NMSU Art Museum that meets with the approval of the graduate committee. In this case the student is responsible for making all arrangements for the thesis exhibition.

**Admission**

Admission to the MFA program in studio art is based on an accredited BA, BS, or BFA degree (or equivalent) with a major in art or related field, including at least 45 credits in studio art or related courses and 15 credits in art history, 9 of which must be 300-level or above (or equivalent). Any deficiencies must be corrected by undergraduate course work to be completed before advancement to candidacy. Exceptions to these requirements will be considered by the graduate committee. Students with an earned MA may be considered with the consent of the faculty, for advancement to candidacy for the MFA degree upon completion of one semester or 9 credits in residence at NMSU. The number of transferable credits from a previous graduate program will be determined by the department head and the graduate advisor before consideration for candidacy.

All applicants for admission to the MFA program in studio art must submit through the Graduate School application portal (https://gradschool.nmsu.edu/admission-process-criteria/)

- Submit a portfolio of 20 images
- Include an Image List that identifies each piece by title, date, size and media.
- A written statement of intent, including scholarly and professional goals and the applicant's interest in studying at NMSU

The final submission date for all application materials and teaching assistantship applications is January 20th for the following year.

Astronomy

Undergraduate Program Information

The department offers an undergraduate astronomy minor degree, which requires 18-20 credits. The department does not offer a BS degree but encourages interested students to enroll in the physics program as a first step toward a career in astronomy. Our 100- and 300-level courses meet various university general education requirements. All students are invited to share with us this exciting area of study, through our basic and advanced undergraduate courses.

1 Other courses at the 300 and 400-levels are offered on an occasional basis. Consult the "Course Descriptions" section in this catalog.

Graduate Program Information

The Department of Astronomy offers graduate work leading to the Doctor of Philosophy and Master of Science degrees. To be admitted as a regular student to the NMSU Graduate School as a major in astronomy, a student must present a suitable undergraduate background with emphasis (12-16 credits) on junior-senior level physics, and mathematics. The prospective student is also required to take aptitude and physics (or approved specialized field) sections of the Graduate Record Examination (GRE).

Information on assistantships and fellowships in teaching and research can be obtained from the department.

Each entering graduate student will be assigned a committee that will guide the student in choice of courses, suggest training needed to remedy deficiencies and determine specific degree requirements in accord with the student's needs and objectives, and in agreement with departmental policies. The program requires 33 traditional course credit hours (11 classes), 4 seminar class credit hours, plus research in astronomy. Each student must demonstrate no later than during the second year sufficient academic and research ability to qualify for continuation in doctoral studies.

It is possible, through arrangement with the Department of Physics, to obtain a Master of Science degree in physics during progress toward the Ph.D. in astronomy. See the Department of Physics (p. 505) section in this catalog for details of that program.

The MS degree in astronomy is closely connected with the astronomy Ph.D. program, and questions concerning requirements should be directed to the department.

Qualifying, Comprehensive and Final examinations are described elsewhere in this catalog. Questions concerning styles of the examinations should be directed to the department head.

The department has access to several different observing facilities. NMSU operates the Apache Point Observatory on behalf of the Astrophysical Research Corporation and the observatory is home to several telescopes:

- the ARC 3.5m telescope,
- a 1m telescope fully owned by NMSU,
- the ARCSAT 0.5m telescope, and
- the Sloan Digital Sky Survey (SDSS) 2.5m telescope.

The Department is a full partner in the SDSS project. The Department also operates a 24-in telescope on Tortugas Mountain, near the NMSU campus.

The department is home to NASA's Planetary Data System's Planetary Atmosphere Node, where solar system exploration data are archived.

Degrees for the Department

Astronomy - Master of Science (p. 276)
Astronomy - Doctor of Philosophy (p. 276)

Minors for the Department

Astronomy - Undergraduate Minor (p. 275)

Professor, Jon Holtzman, Department Head

Professors Chanover, Churchill, Murphy, Klypin, Walterbos; Associate Professors Jackiewicz, McAteer; Assistant Professors Finlator, Prescott; College Professors Beebe, Webber; Observatory Specialist Harrison

J. Holtzman, Department Head, Ph.D. (California- Santa Cruz) – stellar populations in galaxies; R. F. Beebe, Ph.D. (Indiana-Bloomington) – planetary astronomy and stellar spectra; N. Chanover, Ph.D. (New Mexico State) – planetary astronomy; C. Churchill, Ph.D. (California-Santa Cruz) – galaxies and intergalactic medium; K. Finlator, Ph.D. (University of Arizona) - Galaxy Evolution, the Intergalactic Medium, Cosmological Reionization; Harrison, Ph.D. (Minnesota) – catalytic variables and gamma-ray burst sources; J. Jackiewicz, Ph.D. (Boston College) – Helioseismology, theoretical condensed matter physics; A. Klypin, Ph.D. (Moscow) – cosmology; R. T. J. McAteer, Ph.D. (Queen’s University, Belfast) – solar physics, Sun-Earth connection; J. Murphy, Ph.D. (U. Washington) – planetary atmospheres and exploration; M. Prescott, Ph.D. (University of Arizona) - Lyman-alpha nebulae, kinematics of
gas with cosmic web; R. Walterbos, Ph.D. (Leiden)—interstellar medium, star formation, and structure and evolution of galaxies; W. Webber, Ph.D. (Iowa)—high energy astrophysics

Astronomy Courses

ASTR 105G. The Planets
4 Credits (3+2P)
Comparative study of the planets, moons, comets, and asteroids which comprise the solar system. Emphasis on geological and physical processes which shape the surfaces and atmospheres of the planets. Laboratory exercises include analysis of images returned by spacecraft. Intended for non-science majors, but some basic math required. This lecture/lab course satisfies the New Mexico Common Core Area III: Lab Sciences requirement.

ASTR 110G. Introduction to Astronomy
4 Credits (3+2P)
A survey of the universe. Observations, theories, and methods of modern astronomy. Topics include planets, stars and stellar systems, black holes and neutron stars, supernovas and gaseous nebulae, galaxies and quasars, and cosmology. Emphasis on physical principles involving gravity, light and optics (telescopes). Generally non-mathematical. Laboratory involves use of the campus observatory and exercises designed to experimentally illustrate principles of astronomy. This lecture/lab course satisfies the New Mexico Common Core Area III: Lab Sciences requirement.

ASTR 199. Introduction to Astronomy Lab, Special
1 Credit
This lab-only listing exists only for students who may have transferred to NMSU having taken a lecture-only introductory astronomy class, to allow them to complete the lab requirement to fulfill the general education requirement. Consent of instructor required. Crosslisted with: ASTR 519.

Prerequisite(s): Must have passed Introduction to Astronomy lecture-only (e.g. ASTR 105G, ASTR 110G, or ASTR 401).

ASTR 301V. Revolutionary Ideas in Astronomy
3 Credits
Examines recent fundamental scientific revolutions that have shaped our view of Earth and the universe. Topics in astronomy range from exoplanets to black holes to dark energy and raise questions about the very nature of how we use the scientific method to see the unseen, and how this shapes science research today.

Prerequisite(s): Any general education science course.

ASTR 305V. The Search for Life in the Universe
3 Credits
Use of information from several of the sciences to explore the likelihood that life exists elsewhere in the universe. Subjects include an overview of historical ideas about the possibility of life elsewhere in the universe, the chemistry and biology of life on Earth, recent explorations for life within our solar system, and current search strategies for life in the universe and their scientific basis.

ASTR 308V. Into the Final Frontier
3 Credits
Exploration of space: a brief review of the history of space flight, the Apollo program, joint U.S.-Soviet space missions, and unstaffed exploration of the planets. Emphasis on knowledge gained through these efforts. Includes new space initiatives. Same as HON 308V.

ASTR 330V. Planetary Exploration
3 Credits
A current planetary exploration mission is studied within the context of the solar system. The data acquired and principles involved in executing the mission, as well as political and economic implications of planetary exploration, are examined. Same as HON 330V. Main campus only.

ASTR 400. Undergraduate Research
1-3 Credits
Supervised individual study or research. May be repeated for a maximum of 6 credits.

Prerequisite: consent of instructor.

ASTR 401. Topics in Modern Astrophysics
3 Credits
This course is designed for students interested in astrophysics who have some background in math and physics and want to learn about basic astrophysics and interesting current topics. The course will cover basic astrophysical concepts such as orbital mechanics, light, and radiative processes and transfer. These concepts will be applied to the discussion of exciting modern topics involving planets, exoplanets, stars, galaxies, and/or cosmology, with topical emphasis determined by the instructor.

Prerequisite(s): MATH 192G and (PHYS 213 or PHYS 215G).

ASTR 402. Introduction to Astronomical Observations and Techniques
3 Credits
Designed for students interested in astrophysics who have some background in math and astronomy and want to learn about techniques for obtaining and analyzing astronomical data. This course will review the properties of light and discuss the process of experimental design. The course will describe basic observational tools such as telescopes and detectors. It will discuss how data is obtained, and how features of the detector and the Earth’s atmosphere can be corrected for. Some topics in basic astronomical data analysis will be discussed, with topical emphasis determined by the instructor. Some simple data analysis projects will be assigned.

Prerequisite(s): MATH 191G and (PHYS 214 or PHYS 216G) and (ASTR 105G, ASTR 110G, or ASTR 401).

ASTR 403. Fundamentals of Astronomy
3 Credits
This course is designed to ensure a basic, quantitative knowledge of fundamental topics in astronomy and astrophysics. These topics include orbital mechanics, properties of radiation, principles of stellar radiation and spectra, structure and dynamics of the Milky Way, properties of galaxies, and basic cosmology. While this course is designed for first-year graduate students, it is also cross-listed as an undergraduate course for students who have already had some exposure to astronomy and are prepared for a fast-paced review of fundamental topics and concepts in astronomy. Undergraduates will have a reduced homework load. Consent of Instructor required. Crosslisted with: ASTR 505.

Prerequisite(s): ASTR 401 or demonstrated background in astronomy and problem solving.

ASTR 500. Seminar
1 Credit
Organized group study treating selected topics.

ASTR 503. Astrophysics
3 Credits
This course is designed to ensure a basic, quantitative knowledge of fundamental topics in astronomy and astrophysics. These topics include orbital mechanics, properties of radiation, principles of stellar radiation and spectra, structure and dynamics of the Milky Way, properties of galaxies, and basic cosmology.
ASTR 506. Stellar Dynamics and Hydrodynamics
3 Credits
Graduate level course on basic stellar dynamics and fundamentals of hydrodynamics.

ASTR 530. Gas and Radiative Processes in Stars, Galaxies and the IGM
3 Credits
This course will introduce the basic physics of the primary gaseous environments in the universe and their observational signatures. Astrophysical environment to be addressed will include the atmospheres of stars, the interstellar medium, the circumgalactic medium, and the intergalactic medium. Physical processes covered will include gas hydrodynamics, radiative and collisional excitation and ionization balance in astrophysics, atomic processes and detailed balancing, heating and cooling balance, and evolution. From the observational point of view, the course will discuss the spectral signatures of these processes, including stellar spectra, 21-cm spectra, emission line spectra from HII regions and planetary nebulae, and absorption lines from the interstellar medium, circumgalactic medium, and intergalactic medium.

ASTR 535. Observational Techniques I (f)
3 Credits
Up-to-date introduction to modern observational astronomy in a two-semester sequence. Topics include: introduction to computers, error analysis in data, the different types of optical telescopes, and optical and infrared photometry, image processing, and detectors.

ASTR 545. Stellar Spectroscopy
3 Credits
This course covers the physics of stellar atmospheres with emphasis on using spectra as a diagnostic tool for understanding the properties of stars. Topics include spectral classification, radiative transfer, gas equilibrium physics, line and continuum opacities, adiabatic and superadiabatic convection, and extraction of observed quantities from spectra for deducing physical conditions of the source.

ASTR 555. Galaxies I
3 Credits
Fundamentals of the properties of galaxies and galaxy components, including stars and stellar populations, gas and dust, central black holes, and dark matter. Includes a detailed description of the properties of the Milky Way Galaxy.

ASTR 565. Stellar Interiors
3 Credits
Internal constitutions of stars, computation of stellar models, and stellar evolution.

ASTR 575. Computational Astrophysics
3 Credits
Scientific programming for astronomical applications. Explore key algorithms and standard techniques for astronomical data analysis. Topics may include pointers, data structures, dynamic memory allocation, least squares fitting, grid and iterative search methods, LCG random number generators, Monte Carlo simulations, numerical integration, and astronomical image and spectrum manipulation. Applications to real astronomical datasets are emphasized.

ASTR 598. Special Research Programs
1-6 Credits
Individual investigations, either analytical or experimental.

ASTR 599. Master's Thesis
15 Credits
Master's level research in astrophysics or observational astronomy.

ASTR 600. Pre-dissertation Research
1-15 Credits
Research.

ASTR 605. Interstellar Medium
3 Credits
Basics of radiative transfer and processes in the interstellar medium. Properties of dust and infrared emission from grains. Applications to neutral atomic and molecular gas and ionized plasmas in galaxies. May be repeated up to 3 credits.

ASTR 610. Radio Astronomy
3 Credits
Techniques in observational radio astronomy, including single dish and interferometer arrays. Physical processes that produce radio emission, with a focus on continuum emission. May be repeated up to 3 credits. Prerequisite(s): Consent of instructor.

ASTR 616. Galaxies II
3 Credits
Galaxy formation within a cosmological context. Topics include an introduction to cosmology, the growth of linear and nonlinear structures, the formation of dark matter halos, galaxy growth and feedback processes, and their observational signatures in the intergalactic and circumgalactic media.

ASTR 620. Planetary Surface and Atmospheric Processes
3 Credits
Evaluation and analysis of observational data on solar system objects to determine their nature and physical conditions, with emphasis upon atmospheres (composition, structure, thermodynamics, evolution, etc.) May be repeated up to 3 credits. Restricted to: ASTR majors.

ASTR 621. Planetary System Formation
3 Credits
The physical processes involved in planetary system formation are addressed. Specific foci include molecular cloud collapse, disk processes, and competing theories of planet formation within disks. Additional topics to be discussed may include: the solar wind, planetary magnetic fields, planetary ring processes, and mineralogy. May be repeated up to 3 credits. Restricted to: ASTR majors.

ASTR 625. Cosmology
3 Credits
Discussion of our current knowledge of the structure of the universe and current research methods. Topics include the distance scale, clustering of galaxies, large-scale structure, metrics, dark matter, and cosmological probes such as distant quasars, radio galaxies, and gravitational lenses.

ASTR 630. Numerical and Statistical Methods in Astrophysics
3 Credits
Provides basic background in numerical and statistical methods relevant to astrophysical research. Topics include a review of probability and probability distribution functions, Bayesian and frequentist approaches, data simulation, parameter estimation, Markov Chain Monte Carlo, and other topics. May be repeated up to 3 credits.

ASTR 670. Heliophysics
3 Credits
Explore the Sun and its processes. The heliosphere, and its interactions with the planets. Topics include: A introductory description of space weather and its physics; energy interaction with the space environment; the quiet Sun and its interactions with planetary atmospheres (with an emphasis on Earth); Magnetohydrodynamics; frozen-in flux; the solar wind; magnetized fluid dynamics; the active Sun(flares and coronal mass ejections); the effects of Space Weather.
ASTR 698. Special Topics.
1-9 Credits
Special topics.

ASTR 700. Doctoral Dissertation
15 Credits
Dissertation.

Phone: (575) 646-4438
Website: http://astronomy.nmsu.edu/

Astronomy - Undergraduate Minor

The department offers a minor created for majors in a variety of scientific fields, and two minor emphases specifically designed to address the needs and interests of students from the Colleges of Education and Engineering. Any undergraduate, however, may pursue any of the three minor tracks.

Requirements

The requirements for the regular minor requires 19 credits, from the following:

<table>
<thead>
<tr>
<th>Prefix</th>

Total Credits 19

1. Three credits of ASTR 400 Undergraduate Research may replace one of these courses.
2. ASTR 401 Topics in Modern Astrophysics and ASTR 402 Introduction to Astronomical Observations and Techniques are the preferred classes but are generally offered only in alternate years. Three credits of ASTR 400 Undergraduate Research may replace one of these courses, but not the same three if used above.
3. Cross-listed with graduate classes and require special permission.
4. Alternative 400-level courses in the physical sciences, engineering, or related fields, including one-time seminars, may be proposed on a case-by-case basis to fulfill this requirement, drawn from the fields of astronomy, biochemistry, biology, chemistry, computer science, geology, geophysics, mathematics, physics, statistics or from engineering. Proposals should include a clear justification that connects the course materials to a particular topic in astronomy or astrophysics.

Emphasis: Education

The requirements for the education track minor requires 18-20 credits from the following:

<table>
<thead>
<tr>
<th>Prefix</th>

Select 4-6 credits from the following: 5

| ASTR 400 | Undergraduate Research                     | 4-6     |
| ASTR 401 | Topics in Modern Astrophysics              |         |
| ASTR 402 | Introduction to Astronomical Observations and Techniques | |
| EDUC 451 | Methods of Teaching Elementary School Science | |
| EDUC 463 | Teaching Science at the Middle and High School Level | |

Total Credits 18-20
Astronomy - Master of Science

This requirement will generally be fulfilled by two 3-credit courses. Students may request the 4 credit option instead, if an appropriate topic and instructor for 1 credit of ASTR 400 Undergraduate Research are available. ASTR 401 Topics in Modern Astrophysics and ASTR 402 Introduction to Astronomical Observations and Techniques are generally offered only in alternate years, and have prerequisites.

Emphasis: Engineering

The requirements for the engineering track minor requires 18-19 credits from the following:

Total Credits: 18-19

Taking any of the non-astronomy classes for this requirement requires prior approval from the head of astronomy on a case-by-case basis, with a clear connection being established between the proposed research or design project and a particular topic in astronomy or astrophysics (astronomy instrumentation or observational projects are particularly encouraged); no more than 3 non-ASTR credits can be counted toward the minor.

Generally offered in alternate years.

Cross-listed with graduate classes and require special permission.

Alternative 400-level courses in the physical sciences, engineering, or related fields, including one-time seminars, may be proposed on a case-by-case basis to fulfill this requirement, drawn from the fields of astronomy, biochemistry, biology, chemistry, computer science, geology, geophysics, mathematics, physics, statistics, or from engineering. Proposals should include a clear justification that connects the course materials to a particular topic in astronomy or astrophysics.

Astronomy - Master of Science

The Astronomy Department at NMSU offers programs leading to the Master of Science and the Doctor of Philosophy degrees. Graduate courses cover topics in astrophysics, stellar atmospheres, observational techniques, the interstellar medium, galactic structure, star formation and evolution, extragalactic objects, cosmology, and solar system studies. Students also take courses in other relevant fields to broaden their knowledge and capabilities.

Astronomy - Doctor of Philosophy

The Astronomy Department at NMSU offers programs leading to the Master of Science and the Doctor of Philosophy degrees. Graduate courses cover topics in astrophysics, stellar atmospheres, observational techniques, the interstellar medium, galactic structure, star formation and evolution, extragalactic objects, cosmology, and solar system studies. Students also take courses in other relevant fields to broaden their knowledge and capabilities.

Biology

Undergraduate Program Information

A student may earn the Bachelor of Arts in biology or the Bachelor of Science in biology, genetics, microbiology or conservation ecology through major studies in the Department of Biology. The Bachelor of Science in biology or microbiology is recommended for premedical and predental students, for those preparing to teach biology and other sciences at the secondary and college levels, for those interested in the
numerous fields of biological research and applied biology, and for those planning on obtaining an advanced degree in biology.

Freshmen should begin taking required biology and chemistry courses in their first year. Degree plans for specific areas of interest can be obtained from the Biology Success Center in Foster Hall room 204. More information on the Department of Biology is available on our web site.

A student must earn a grade of C- or better to receive credit for any nondepartmental or departmental requirement for any major or minor offered by the Department of Biology.

Students who wish to explore a minor or supplementary course work in a specific discipline to enhance their academic experience are encouraged to speak with an advisor. The Biology Department offers minors in biology, microbiology, human biology, conservation ecology, or genetics and biotechnology. A student may not earn a major and a minor in the same discipline.

A student must fulfill a second language requirement to receive a Bachelor of Arts or Bachelor of Science degree in the Biology and Microbiology majors. This requirement does not apply to the Conservation Ecology major, offered jointly with the Department of Fisheries, Wildlife and Conservation Ecology, or the Genetics and Biotechnology major, offered jointly with the Department of Plant and Environmental Science. To meet the second language requirement, the student must do one of the following:

- Complete two semesters of second language courses numbered 111 and 112 with a grade of C- or better. Spanish speakers should complete SPAN 113 Spanish for Heritage Learners I, SPAN 213 Spanish for Heritage Learners II or SPAN 214 Spanish for Heritage Learners III with a C- or better to fulfill the requirement.
- Challenge the 112 level of French, Chinese, German, Japanese, or Spanish; or the 113 level for the Spanish for Heritage Learners student or the 213 level for Portuguese.
- Obtain college certification of completion of two years of a second language at the high school level with a grade of C- or higher in the second-year level. (i.e. equivalent to FREN 112 Elementary French II, GER 112 Elementary German II, SPAN 112 Elementary Spanish II, etc.)
- Complete two semesters of American Sign Language, courses C D 374 American Sign Language I and C D 375 American Sign Language II, with a grade of C- or better.
- Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.
- Obtain certification of a working knowledge of a Native American language from the American Indian program director.
- Obtain certification of a working knowledge of a second language if such language is not taught at NMSU from the head of the Department of Languages and Linguistics.
- In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

**Graduate Program Information**

The Department of Biology offers research and coursework that cover the natural world whether it is at the molecular, organismic, or ecosystem level. Our goal is to prepare students for careers in diverse areas such as ecology, microbiology, evolution, botany, health science, and biology education through formal coursework, research experiences, interactive seminars, and professional development activities. Biology graduate students conduct their own research in a productive environment using state-of-the-art facilities. The Biology Department offers the following degree emphasis:

- Thesis Masters research program in Biology (M.S.)
- Non-thesis Masters program in Biology (M.S.)
- Non-thesis Masters program in Biology (Biotechnology emphasis) (M.S.)
- Doctorate research program in Biology (Ph.D.)

For research toward the Master of Science or the Doctorate of Philosophy, students can choose among the Department’s three areas of emphasis:

1. Behavioral, Ecological, and Evolutionary Biology
2. Cell and Organismal Biology
3. Microbiology

There are two formal course requirements for all Biology Graduate students, with the exception of students in the accelerated non-thesis MS Biotechnology option. These core courses are

<table>

</table>

All graduate students develop their curriculum plan in consultation with their faculty advisor and graduate committee. Graduate students may also take a minor in other graduate departments and programs. Sample course sequences within the Department’s three different emphases are described in the Biology Graduate Handbook available for download from the Graduate Student section of the Biology website.

All prospective applicants must submit all required materials specified in the Department Graduate Application Packet available in the Graduate Student section of the Biology website.

**Degrees for the Department**

Biology - Bachelor of Science (p. 286)

Biology - Bachelor of Arts (p. 285)

Microbiology - Bachelor of Science (p. 290)

Conservation Ecology - Bachelor of Science in Conservation Ecology (p. 287)

Genetics and Biotechnology - Bachelor of Science in Genetics (p. 288)

Biology - Master of Science (p. 292)

Biology - Doctor of Philosophy (p. 293)

**Minors for the Department**

Biology - Undergraduate Minor (p. 291)

Microbiology - Undergraduate Minor (p. 292)

Conservation Ecology - Undergraduate Minor (p. 291)

Genetics and Biotechnology - Undergraduate Minor (p. 291)

Human Biology - Undergraduate Minor (p. 291)
BIOL 101G. Human Biology
3 Credits
Introduction to modern biological concepts. Emphasis on relevance to humans and their relationships with their environment. Cannot be taken for credit after successful completion of BIOL 111G or BIOL 211G. Appropriate for non-science majors. Requires successful completion of BIOL 101GL in order to meet the NM Common Core Area III Laboratory Science requirements.

BIOL 101GL. Human Biology Laboratory
1 Credit
Laboratory for BIOL 101G. Laboratory experiences and activities exploring biological concepts and their relevance to humans and their relationship with their environment.
Prerequisite(s)/Corequisite(s): BIOL 101G.

BIOL 110G. Contemporary Problems in Biology
4 Credits (3+3P)
Fundamental concepts of biology will be presented using examples from relevant problems in ecology, medicine and genetics. For nonscience majors only. Community Colleges only.

BIOL 111G. Natural History of Life
3 Credits (3)
Survey of major processes and events in the genetics, evolution, and ecology of microbes, plants and animals, and their interactions with the environment. Appropriate for science and nonscience majors. Must be taken with BIOL 111L to meet general education requirements. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): Currently enrolled in MATH 120, grade of C- or better in MATH 120, or a Math Placement Exam score adequate to enroll in mathematics courses beyond MATH 120.

BIOL 111GL. Natural History of Life Laboratory
1 Credit
Laboratory experiments, demonstrations and exercises on interrelationships among organisms, biodiversity, processes of evolution, and interaction of organisms and their environment. Appropriate for science and nonscience majors. May be repeated up to 1 credits.
Prerequisite(s)/Corequisite(s): BIOL 111G; Currently enrolled in MATH 120, grade of C- or better in MATH 120, or a Math Placement Exam score adequate to enroll in mathematics courses beyond MATH 120.

BIOL 150. Topics in Biology
1-3 Credits (1-3)
Introductory level coverage of biological topics. May be repeated up to 9 credits.

BIOL 154. Introductory Anatomy and Physiology
4 Credits (3+3P)
Survey of human structure and function (does not replace BIOL 190, BIOL 111G, or BIOL 211G as a prerequisite for advanced courses in biology). Restricted to: Community Colleges only.

BIOL 211G. Cellular and Organismal Biology
3 Credits
Principles of cellular structure and function, genetics, and organismal physiology. This course prepares the student for continuation in science or allied health fields. Suitable for all majors. Must be taken with BIOL 211L to meet general education requirements. May be repeated up to 3 credits.
Prerequisite(s)/Corequisite(s): a C- or better in MATH 120 or higher and a C- or better in CHEM 110G or CHEM 111G or CHEM 115.

BIOL 211GL. Cellular and Organismal Biology Laboratory
1 Credit
Laboratory demonstrations, experiments and exercises on molecular and cellular biology and organismal physiology. Must have passed BIOL 211G or be concurrently enrolled in BIOL 211G and BIOL 211L. Pre/ May be repeated up to 1 credits.
Prerequisite(s)/Corequisite(s): a C- or better in BIOL 211G, MATH 120 or higher, and a C- or better in CHEM 110G or CHEM 111G or CHEM 115.

BIOL 219. Public Health Microbiology
3 Credits
The characteristics of pathogenic microorganisms and the diseases that they cause. Will not meet the microbiology requirements for biology or medical technology majors.
Prerequisite: BIOL 211G and BIOL 211GL.

BIOL 221. Introductory Microbiology
3 Credits
Principles of isolation, taxonomy, and physiology of microorganisms. Restricted to Community Colleges campuses only.
Prerequisite(s): CHEM 110G or CHEM 111G or CHEM 112G. Corequisite(s): BIOL 221 L.

BIOL 221 L. Introductory Microbiology Laboratory
1 Credit
A laboratory course to accompany BIOL 221 or BIOL 219.
Prerequisite: BIOL 221 or BIOL 219 or concurrent enrollment.
BIOL 225. Human Anatomy and Physiology I
4 Credits (3+3P)
The first in a two-course sequence that covers the structure and function of the human body, including terminology of the human gross anatomy, chemistry overview, cell structure, cell physiology (including DNA, protein synthesis and cell division). The organization of cells and tissues and their metabolic and homeostatic processes and regulation are also covered. Physical and chemical operation of organs and systems of the human body include the intergumentary, skeletal, musculoskeletal, and nervous systems. Pre/ Restricted to: Community Colleges only.
Corequisite(s): CHEM 110G or CHEM 111G.

BIOL 226. Human Anatomy and Physiology II
4 Credits (3+3P)
The second in a two-course sequence that covers the structure and function of the human body. Includes the physical and chemical operation of the organs and systems of the human body, including endocrine, cardiovascular, lymphatic, immune, respiratory, digestive, urinary and reproduction system. Concepts of nutrition, metabolism, energy, fluid and electrolyte balance, heredity pregnancy and human embryonic and fetal development are also covered. Restricted to: Community Colleges only.
Prerequisite(s): BIOL 225, CHEM 110G or CHEM 111G.

BIOL 254. Human Physiology
3 Credits
Physical and chemical operation of the organs and systems of the human body. Not open to students who have passed BIOL 354 or BIOL 381.
Prerequisite(s): Grade of at least C- in BIOL 211G, BIOL 211GL; CHEM 111G or CHEM 110G.

BIOL 262. Human Pathophysiology I
3 Credits
The first in a two-course sequence that covers changes in body physiology that result from disease or injury. Includes a general introduction to pathophysiology as well as an overview of altered cellular and tissue biology, injury, inflammation, and neoplasia. Students will also explore deviation from fluid, hemodynamic, and endocrinologic balance. Topics related to the science of pathophysiology, including pathology, pathogenesis, etiology, epidemiology, and clinical manifestations, are also discussed throughout the course where relevant. Grade of C- or higher in microbiology is recommended. Restricted to Community Colleges campuses only.
Prerequisite(s): Grade of C- or higher in BIOL 225 and BIOL 226.

BIOL 263. Pathophysiology II
3 Credits
The second in a two-course sequence that covers changes in body physiology that result from disease or injury. This course focuses on the pathophysiology of the nervous, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems. Topics related to the science of pathophysiology, including pathology, pathogenesis, etiology, epidemiology, and clinical manifestations, are also discussed throughout the course where relevant. Grade of C- or higher in microbiology is recommended. Restricted to Community Colleges campuses only.
Prerequisite(s): Grade of C- or higher in microbiology.

BIOL 211. General Microbiology
3 Credits
Principles of physiology, molecular biology, ecology, and taxonomy of microorganisms.
Prerequisite(s): BIOL 211G and MATH 121G.

BIOL 211 L. General Microbiology Laboratory
2 Credits
Microbiology techniques and procedures, including isolation and identification of microorganisms and biotechnology procedures that employ microorganisms.
Prerequisite(s)/Corequisite(s): BIOL 219 or BIOL 311. Prerequisite(s): BIOL 211G and MATH 121G.

BIOL 212. Plant Taxonomy
3 Credits (2+3P)
Classification and identification of representative plant families and local plants. Emphasis on ability to use technical sources. Saturday field trips may be recommended.
Prerequisite(s): BIOL 111G and MATH 121G.
BIOL 313. Structure and Function of Plants
3 Credits (2+3P)
Structure, function, and survey of plants. BIOL 211G recommended.
Prerequisite(s): BIOL 111G, MATH 121G, and sophmore-level standing.

BIOL 314. Plant Physiology
3 Credits
Photosynthesis, respiration, water relation of plants, minerals and organic nutrition, growth and development.
Prerequisite(s): BIOL 211G and CHEM 112G.

BIOL 322. Zoology
3 Credits (2+3P)
Structure, function, and survey of animals. BIOL 211G recommended.
Prerequisite(s): BIOL 111G, MATH 121G, and at least sophmore-level standing.

BIOL 350. Special Topics
1-4 Credits
Specific subjects announced in Schedule of Classes and offered as scheduled courses. May be repeated for unlimited credit.

BIOL 351. Biology Internship
1-6 Credits
Substantial off-campus experience in biology selected by student in consultation with regular biology faculty member. Internship must be approved by faculty member. Student will supply mutually agreed upon documentation of internship activities after the internship is completed. May be repeated up to 6 credits. Restricted to: BIOL, MBIQ, CEC, GEBT majors. S/U Grading (S/U, Audit).
Prerequisite(s): 45 college credits, 2.5 or better GPA, consent of instructor.

BIOL 353. Pre-Professional Human Anatomy
4 Credits
Pre-professional clinically-oriented survey of human anatomy. Designed primarily for pre-nursing majors. Provides comprehensive anatomical training for students planning careers in health and allied health sciences, such as medicine, dentistry, nursing, physical therapy, physicians aid, human nutrition, and food science. Suitable as a biology elective. Concurrent enrollment in BIOL 353 L is recommended but not required. May be repeated up to 4 credits.
Prerequisite(s): BIOL 211G and either CHEM 110G, CHEM 111G, or CHEM 115.

BIOL 353 L. Pre-Professional Human Anatomy Laboratory
1 Credit
Laboratory experience in human anatomy using anatomical models and cat dissections. Designed as a learning aid to support and augment BIOL 353 pre-professional Human Anatomy. For students planning careers in health and allied health sciences such as medicine, dentistry, nursing, physical therapy, physicians aid, human nutrition, and food science. May be repeated up to 1 credits.
Prerequisite(s)/Corequisite(s): BIOL 253 or BIOL 353. Prerequisite(s): BIOL 211G and either CHEM 110G, CHEM 111, or CHEM 115.

BIOL 354. Physiology of Humans
3 Credits
Principles of integrative functions in humans. A systems approach emphasizing tissues, organs, and their regulation.
Prerequisite(s): BIOL 211G and MATH 121G.

BIOL 354 L. Laboratory of Human Physiology
1 Credit
Laboratory to accompany BIOL 354.
Prerequisite(s): MATH 121G and either BIOL 254, BIOL 381, BIOL 354, or concurrent enrollment in BIOL 354.

BIOL 373. Fungal Biology
3 Credits (3+2P)
Same as EPWS 372.
Prerequisite(s): EPWS 310 or BIOL 311 or consent of instructor.

BIOL 377. Cell Biology
3 Credits
Fundamentals of eukaryotic cell structure, organization, and function. Emphasis on membranes, subcellular organelle systems, cytoskeleton, and cell cycle. Includes basic aspects of molecular biology. May be repeated up to 3 credits. BIOL 111G recommended.
Prerequisite(s): BIOL 211G, BIOL 305 or GENE 315 and MATH 121G.

BIOL 381. Animal Physiology
3 Credits
Principles of integrative function in animals, emphasizing tissues, organs, organ systems, and regulation. Includes adaptations of animals to their environments. BIOL 111G and BIOL 377 recommended.
Prerequisite(s): BIOL 211G and junior-level standing, MATH 121G.

BIOL 382. Plant Signalling and Development
3 Credits
This is a course that introduces plant signalling pathways and their role in development to students. The lectures are structured to facilitate in-class discussions on the current state and future directions in this field. Topics will cover a wide range of biological questions and the methods used to study them. May be repeated up to 3 credits.
Prerequisite(s): BIOL 305 or GENE 315, and MATH 121G.

BIOL 385. An Introduction to Cancer
3 Credits
This course will cover 3 areas of cancer research and their interdisciplinary connections: clinical cancer research, epidemiology and public health, and basic cancer research. May be repeated up to 3 credits.
Prerequisite(s): BIOL 305 or GENE 315 or equivalent and MATH 121G.

BIOL 398. Biology Research Programs
1-3 Credits
Directed studies and research experiences, by arrangement with instructor. May be repeated for a maximum of 6 credits.

BIOL 402. Biology Honors Thesis
1-3 Credits (1-3)
Provides guidance in how to write a scientific paper in the sciences. Students will produce an honors thesis based on previous independent study them. May be repeated up to 3 credits.
Prerequisite(s): BIOL 111G and consent of instructor.

BIOL 412. Seminar in Microbiology
1 Credit
Seminar to aid students in assessment and presentation of current topics in microbiology.
Prerequisite(s): BIOL 311, BIOL 311 L, and MATH 121G.

BIOL 417. Topics in Environmental Microbiology
3 Credits
This is an advanced undergraduate course based on current literature in Environmental Microbiology, and is a seminar-style, discussion-based class. Topics typically include marine microbiology, ancient DNA, and the human microbiome. Crosslisted with: BIOL 577.
Prerequisite(s): MATH 121G, BIOL 477 or consent of instructor.
BIOL 423. Primate Adaption and Evolution
3 Credits
Prerequisite(s): ANTH 355 or consent of instructor.
Corequisite(s): BIOL 423L when offered.

BIOL 424. Human Osteology
3 Credits
Corequisite(s): BIOL 424L when offered.
Prerequisite(s)/Corequisite(s): Recommend ANTH 355 or equivalent.

BIOL 427. Symbiosis
3 Credits
In-depth treatment of the ecology, evolution, and mechanisms that are found in symbiotic systems. May be repeated up to 3 credits.
Prerequisite(s): BIOL 111G, BIOL 211G, and MATH 121G.

BIOL 434. Human Evolution
3 Credits
Overview of human biological evolution from the emergence of Miocene apes to the modern human diaspora. Crosslisted with: ANTH 434.
Prerequisite(s): ANTH 355 or consent of instructor.
Corequisite(s): BIOL 434L when offered.

BIOL 434 L. Human Evolution Laboratory
1 Credit
Laboratory in human evolution, includes exercises and activities to learn the human fossil record. Crosslisted with: ANTH 434 L.
Prerequisite(s): ANTH 355 or consent of instructor.
Corequisite(s): BIOL 434.

BIOL 436. Disease Vector Biology
3 Credits
Fundamentals of disease vector biology with emphasis on molecular biology. Explores an overview of vector borne diseases, insect endocrinology, insect immunity, olfaction, vector genome projects and transgenic insect techniques. Includes student presentations and literature discussions. Crosslisted with: BIOL 536
Prerequisite(s): BIOL 211G, BIOL 305, and MATH 121G.

BIOL 442. Genomics Technology
3 Credits
The course introduces current genomic techniques in genome sequencing, transcriptome analysis, detection of genetic variation, and metagenomics.
Prerequisite(s): BIOL 211G, BIOL 305 or BIOL 478 or GENE 315, and MATH 121G.

BIOL 446. Bioinformatics and NCBI Database
3 Credits
The course discusses how to use NCBI database and bioinformatic tools for research with genomics approaches. The topics include nucleotide and protein sequence analysis, similarity search with blast algorithms, gene/genome annotation, protein structure analysis, gene expression analysis, and metagenomic study.
Prerequisite(s): BIOL 211G, BIOL 305 or BIOL 478 or GENE 315, and MATH 121G.

BIOL 450. Special Topics
1-3 Credits
Specific subjects announced in the Schedule of Classes and offered as scheduled courses. May be repeated for unlimited credit.

BIOL 451. Physiology of Microorganisms
3 Credits
Aspects of cellular physiology unique to prokaryotes. BCHE 395 recommended.
Prerequisite(s): C- or better in BIOL 311, MATH 121G.

BIOL 455. Biometry
3 Credits
Biometry is the analysis of biological data using mathematical and statistical models. The course will cover basic theories of probability and statistics and will introduce principles of sampling, estimation, experimental design, and hypothesis testing. Students will analyze biological data using computer programs and will perform tests for goodness-of-fit, independence, analysis of variance, correlation, and regression.
Prerequisite(s): BIOL 111G or BIOL 211G, and MATH 121G.

BIOL 459. Darwinism Versus Creationism
3 Credits
This course examines the debate regarding Creationism versus Darwinism as explanations for the origin and diversification of life on Earth. Topics covered include the nature and philosophy of science, new-world creationism, old-world creationism, intelligent design, history of evolutionary thought, modern evolutionary theory, and the Creationism-Darwinism debate at the societal, political, and educational interfaces. The course structure will include formal lectures and in-class discussion of assigned readings.
Prerequisite(s): BIOL 111G or BIOL 211G, and MATH 121G.

BIOL 459 H. Darwinism versus Creationism Honors
3 Credits
This course will examine the history and philosophy surrounding the debate between Darwinism and Creationism. The course will also examine the consequences of the debate at the interface of sociology, economics, politics, and education. The Honors version of the course (BIOL 459H) will require a term paper in addition to the requirements of BIOL 459. Crosslisted with: BIOL 459.
Prerequisite(s): BIOL 111G or BIOL 211G, and MATH 121G.

BIOL 462. Conservation Biology
3 Credits
Examination of the value of biological diversity, the natural processes that control biological diversity, and the ways in which human activities have resulted in the loss of biological diversity, both regionally and globally.
Prerequisite(s): BIOL 301 and either MATH 142G or MATH 191G.

BIOL 465. Invertebrate Zoology
4 Credits (3+3P)
Survey, ecology, behavior and physiology. BIOL 322 recommended.
Prerequisite(s): MATH 121G, BIOL 111G, and junior-level standing.

BIOL 466. Invertebrate Zoology Field Trip
1 Credit
A one-week field trip for the study of marine invertebrates. Registrants must provide own camping gear. Graded: S/U.
Prerequisite(s): MATH 121G, BIOL 465 or equivalent (or concurrent enrollment) or consent of instructor.
BIOL 467. Evolution
3 Credits
Covers theory, historical background, population variation, natural selection, adaptation, speciation.
Prerequisite(s): BIOL 111G, BIOL 305 or GENE 320, and MATH 121G.

BIOL 469. Biology of Emerging Infectious Diseases
3 Credits
This class will investigate the evolutionary and ecological drivers of disease emergence. The effect of emerging diseases on human health will be addressed throughout the class, but the class will also consider the consequences of disease emergence for the health of wildlife and plant populations. Additionally, the class will consider the mechanisms used to control disease emergence and why they succeed or fail.
Prerequisite(s): MATH 121G, Introductory Genetics (BIOL 305 or equivalent) or consent of the instructor.

BIOL 470. Developmental Biology
3 Credits
The purpose of this course is to introduces students to the principles that govern the development of a single fertilized egg cell into a complex multicellular organism. These principles, and often the molecular mechanisms by which they are accomplished, appear to be universal for all multicellular organisms including both plants and animals. We will explore issues such as: how cells become committed to particular cell fates and how this commitment is maintained; how organs acquire particular shapes, sizes and positions; the developmental causes of some human diseases; how the environment affects development; and, how changes in development provide the material basis for evolutionary change.
Prerequisite(s): BIOL 211G, BIOL 305, and MATH 121G.

BIOL 472. Primate Behavior and Ecology
3 Credits
Survey of the social behavior and ecology of nonhuman primates. Crosslisted with: ANTH 472.

BIOL 473. Ecology of Microorganisms
3 Credits (2+3P)
The metabolic interactions of microorganisms in the environment, with emphasis on their roles in ecological processes.
Prerequisite(s): MATH 121G, BIOL 311 or consent of instructor.

BIOL 474. Immunology
3 Credits
Basic concepts of the immune response.
Prerequisite(s): MATH 121G, BIOL 305, and CHEM 211 or CHEM 313.

BIOL 475. Virology
3 Credits
Mechanisms of viral infections of animals and man. BCHE 395 or BIOL 305 are recommended.
Prerequisite(s): BIOL 311 and MATH 121G.

BIOL 476. Soil Microbiology
3 Credits
Nature and physiology of soil microorganisms, how they affect plant growth and recycle nutrients. Land framing, bioremediation, and other environmental problems as influenced by soil microorganisms. SOIL 252 and BIOL 311 recommended. Same as SOIL 476.

BIOL 476 L. Soil Microbiology Laboratory
1 Credit
Enumeration of soil microorganisms, their activities, and transformations they mediate. Same as SOIL 476L.
Prerequisite(s)/Corequisite(s): BIOL 476.

BIOL 477. Applied and Environmental Microbiology
4 Credits
A lecture-laboratory course on the microorganisms and the reactions they mediate which either impact the environment or have industrial applications. Reading of current literature will be emphasized. Topics include bioremediation, water quality, and aspects of industrial and food microbiology.
Prerequisite(s): MATH 121G, BIOL 311, and 311 L, or consent of instructor.

BIOL 478. Molecular Biology of Microorganisms
3 Credits
The biochemical basis for gene mutation, recombination, and expression with emphasis on prokaryotes. Includes fundamentals of recombinant DNA technology. BIOL 305 and BCHE 395 recommended.
Prerequisite(s): BIOL 311 and MATH 121G.

BIOL 479. Medical Microbiology
3 Credits
An in-depth overview of microbial pathogens associated with human infectious disease. Etiological agents, pathogenesis, and processes leading to the disease state and the therapies of infectious disease.
Prerequisite(s): MATH 121G and BIOL 311 required, BIOL 474 recommended.

BIOL 479 L. Medical Microbiology Laboratory
1 Credit
Overview of common procedures used by medical microbiologists to identify agents of disease or microbial pathogen traits. May be repeated up to 1 credits.
Prerequisite(s)/Corequisite(s): BIOL 479. Prerequisite(s): MATH 121G, BIOL 311, BIOL 311 L.

BIOL 480. Animal Behavior
3 Credits
A survey of the field of animal behavior. BIOL 322 recommended.
Prerequisite(s): MATH 121G, BIOL 111G, and junior-level standing.

BIOL 484. Animal Communication
3 Credits
An examination of how animals produce and perceive signals, what factors influence the form of signals in different sensory modalities, and how conflicts between senders and receivers affect signaling strategies. Weekly discussion from the primary literature and group research products.
Prerequisite(s): BIOL 111G or consent of instructor, and MATH 121G.

BIOL 485. Comparative Stress Physiology
3 Credits
This course explores the biochemical, hormonal, and molecular aspects of stress physiology in all organisms from bacteria to humans. Focus area include hormesis, temperature, radiation, oxygen, infection, and dehydration.
Prerequisite(s): MATH 121 and BIOL 211G.

BIOL 488. Principles of Conservation Genetics
3 Credits
Fundamentals of the genetics of small populations. Genetic technologies used in studying small populations. Application of genetics and evolution to the conservation of biological populations.
Prerequisite(s): MATH 121G and BIOL 305.
BIOL 489. Genetic Aspects of Population Biology  
3 Credits  
Basic theory of population genetics and how that theory has guided, and been influenced by, studies of natural populations.  
Prerequisite(s): MATH 121G and BIOL 305 or equivalent.

BIOL 490. Neurobiology  
3 Credits  
Fundamentals of neurobiology with an emphasis on properties of neurons and glia, principles of synaptic transmission, development of nervous system and organization of motor and sensory systems.  
Prerequisite(s): BIOL 211, MATH 142G or equivalent.

BIOL 498. Biology Research Programs  
1-3 Credits  
Directed studies and research experiences, by arrangement with instructor. May be repeated for a maximum of 6 credits.

BIOL 509. Guided Biological Research Lab  
3 Credits  
This laboratory course provides a guided experience to hands-on research in biology. It is intended for early-career graduate students wishing an introduction to research practices. Topics will vary with instructor. Crosslisted with: BIOL 309.

BIOL 510. Current Topics in Biology  
3 Credits  
Introduction to diverse topics in modern biology, including dynamic areas of current research.

BIOL 514. Plant Physiology  
2 Credits  
Same as EPWS 514.  
Prerequisites: BIOL 211G and CHEM 112G.

BIOL 520. Molecular Cell Biology  
3 Credits  
An in-depth look at cellular processes and structures at the molecular level. Emphasis is placed on formal student presentations and discussions of current literature.  
Prerequisite: BIOL 377 or equivalent.

BIOL 527. Symbiosis  
3 Credits  
In-depth treatment of the ecology, evolution, and mechanisms that are found in symbiotic systems.  
Prerequisite: graduate status.

BIOL 536. Advanced Disease Vector Biology  
3 Credits  
Prerequisite(s): BIOL 211G and BIOL 305.

BIOL 540. Science and Ethics  
1-3 Credits (1-3)  
Ethical concerns facing researchers in the basic and applied biological sciences. Coverage of responsible conduct in research including scientific integrity and research misconduct, mentor/trainee responsibilities, data management, authorship, publication practices, human subjects, animal welfare, intellectual property, conflicts of interest and effort and collaborative science. Emphasis on ethical reasoning skills. Discussion of ethical and societal implications of issues selected from a broad range of contemporary research areas (genetics, reproductive biology, environmental sciences, nanoscience, drug discovery, bioengineering, neuroscience). Subtitled. May be repeated up to 4 credits. Crosslisted with: PHIL 540.

BIOL 541. Professional Development Seminar  
1-3 Credits  
Practical aspects of career enhancement including job seeking, professional presentations, grant proposals, etc.  
Prerequisite: consent of instructor.

BIOL 545. Molecular and Biochemical Genetics  
3 Credits  
Same as BCHE 545.

BIOL 550. Special Topics  
1-3 Credits  
Readings, discussions, and/or field and laboratory investigation of selected problems. Possible topics: human genetics, systematic entomology, or parasitism in animals. May be repeated for unlimited credit.  
Prerequisite: consent of instructor, and designation of a specific topic before registration.

BIOL 552. Advanced Genomics Technology  
3 Credits  
The course covers current genomics techniques in genome sequencing, transcriptome analysis, detection of genetic variation, and metagenomics. Consent of Instructor required.

BIOL 556. Advanced Bioinformatics and NCBI Database  
3 Credits  
The course discusses how to use NCBI database and bioinformatic tools for research with genomics approaches. The topics include nucleotide and protein sequence analysis, similarity search with blast algorithms, gene/genome annotation, protein structure analysis, gene expression analysis, and metagenomic study. Consent of Instructor required.

BIOL 568. Communities and Ecosystems  
3 Credits  
Community ecology is an interdisciplinary field that integrates numerous theories, concepts, and methods to study the patterns and dynamics of biotic assemblages. Because biotic groups affect the biogeophysical and biogeochemical processes that govern Earth system functioning, community ecology also plays an increasingly large role in the study of ecosystem ecology, a discipline which seeks to understand the processes governing nutrient and energy flow across the Earth system. This course will explore the theories and methods for study of biodiversity, biogeography, and community assembly, as well as the pathways through which communities exert influence on ecosystem functioning. Topics will also include evolutionary influences on communities, the integration of community ecology into conservation and land management, and community ecology in an era of rapid environmental change.
BIOL 572. Advanced Primate Behavior and Ecology
3 Credits

BIOL 573. Fungal Biology
3 Credits (3+2P)
Same as EPWS 572.
Prerequisite(s): EPWS 310 or BIOL 311, or consent of instructor.

BIOL 577. Advanced Topics in Environmental Microbiology
3 Credits
This course is based on current literature in Environmental Microbiology, and is a seminar-style, discussion-based class. Topics typically include marine microbiology, ancient DNA and the human microbiome.
Prerequisite(s): Consent of instructor.

BIOL 581. Physiology of Animals
3 Credits
Comprehensive treatment of integrative physiology of animals, emphasizing tissues, organ systems, and regulatory control, including neuroendocrine function, circulation, respiration, and excretion. Term paper required. BIOL 111G, BIOL 377 recommended.
Prerequisite: BIOL 211G.

BIOL 582. Advanced Plant Signalling and Development
3 Credits
This is a course that introduces plant signalling pathways and their role in development to students. The lectures are structured to facilitate in-class discussions on the current state and future directions in this field. Topics will cover a wide range of biological questions and the methods used to study them. May be repeated up to 3 credits.
Prerequisite(s): BIOL 305 or GENE 315, and MATH 121G.

BIOL 587. Behavioral and Evolutionary Ecology
3 Credits
This course will investigate the causes and consequences of phenotypic variation and the adaptive value of phenotypic traits.

BIOL 589. Speciation and Adaptation
3 Credits
Examination of the two great themes of evolutionary biology. Begins with an historical overview of perspectives on these evolutionary processes, and then moves through the foundations of modern research to focus on recent advances driven by improvements in theory and technology. Emphasis on synthesis of the primary literature through lectures, discussion, and written assignments.

BIOL 590. Neuroscience
1-3 Credits
Detailed examination of the principles underlying nervous system organization and function. Emphasis on recent advances in multidisciplinary, integrated approaches to study the nervous system. May be repeated up to 9 credits.

BIOL 598. Special Research Programs
1-9 Credits
Individual investigations either analytical or experimental.

BIOL 599. Master's Thesis
15 Credits
Thesis.

BIOL 600. Doctoral Research
1-15 Credits
Research.

BIOL 610. Seminar
1-3 Credits (1-3)
Oral presentation and discussion of journal articles and ongoing research projects. May be repeated up to 6 credits. S/U Grading (S/U, Audit).

BIOL 612. Microbiology Seminar
1 Credit
Seminar to aid graduate students in assessment and presentation of classical and current topics in microbiology.

BIOL 697. University Teaching Experience
1-3 Credits
Certain graduate students will be permitted to teach up to one-third of one of the biology courses. The student will prepare and deliver lectures and will prepare, administer, and grade at least one examination. The professor in charge of the course will attend and evaluate the student's lectures.

BIOL 698. Selected Topics
1-3 Credits
Selected topics for doctoral students.

BIOL 700. Doctoral Dissertation
15 Credits
Dissertation.

Genetics Courses
GENE 110. Experimental Systems in Genetics
1 Credit
Survey of molecular, biochemical, organismal, and computer science based approaches to investigate how genes determine important traits. Historical development and topics of current interest will be discussed.

GENE 305. Principles of Genetics
3 Credits
Covers fundamental principles of reproduction, variation, and heredity in plants and animals. Crosslisted with: AGRO 305, ANSC 305, BIOL 305 and HORT 305
Prerequisite(s): BIOL 111G, BIOL 211G and either CHEM 111G or CHEM 115.

GENE 305 L. Genetic Techniques
1 Credit
Experimental procedures used in genetic research including: sexual transmission genetics, eukaryotic DNA isolation, DNA marker development and genotyping, polymerase chain reaction, and cytogenetics. Pre/
Corequisite(s): GENE 315, or AGRO/ANSC/BIOL/HORT 305.

GENE 315. Molecular Genetics
3 Credits
Covers fundamental principles of DNA structure and replication, transcription, translation, gene regulation, recombinant DNA technology, and a survey of genomics and bioinformatics.
Prerequisite(s)/Corequisite(s): GENE 315, or AGRO/ANSC/BIOL/HORT 305.

GENE 320. Hereditary and Population Genetics
3 Credits
Covers fundamental principles of reproduction, variation, and heredity in plants and animals including: Mendelian inheritance, mitosis, meiosis, genetic linkage, random mating, genetic drift, natural selection, inbreeding, migration, mutation, interrelationships between individuals, populations and communities and the environment.
Prerequisite(s): CHEM 111G & BIOL 211G.
GENE 391. Genetics Internship
1-6 Credits (1-6)
Professional work experience in genetics under the joint supervision of an employer and a faculty member. Documentation of proposed internship activities must be submitted prior to the start of the internship. A written report is required after the internship is completed. No more than 6 credits toward a degree. May be repeated up to 6 credits. S/U Grading (S/U, Audit).

GENE 440. Genetics Seminar
1 Credit
Organization, preparation, and presentation of genetic studies in model microorganism, plant, or animal systems that have been used to solve problems in molecular, cellular, and developmental biology. Consent of instructor required. Prerequisite(s): Seniors only; GENE 315 & GENE 320.

GENE 449. Special Problems
1-3 Credits (1-3)
Research problem, experience training, or other special study approved by a faculty adviser. Maximum of 3 credits per semester and a grand total of 3 credits toward a degree. Consent of instructor required. Prerequisites: AGRO/ANSC/BIOL/HORT 305 or GENE 315, and GENE 320, and BCHE 341, or BCHE 395.

GENE 450. Special Topics
1-3 Credits (1-3)
Specific subjects to be announced in the schedule of classes. Maximum of 3 credits per semester and a total of 3 credits toward a degree. Consent of instructor required. Prerequisites: AGRO/ANSC/BIOL/HORT 305 or GENE 315 and GENE 320, and BCHE 341, or BCHE 395.

GENE 452. Applied Bioinformatics
3 Credits
Survey and application of publicly available bioinformatic tools that treat genomic DNA, cDNA, and protein sequences, RNA abundance, as well as tools that allow inference based on phylogenetic relationships. Prerequisites: AGRO/ANSC/BIOL/HORT 305 or GENE 315, and GENE 320. BCHE 341, or BCHE 395.

GENE 486. Genes and Genomes
3 Credits
Extensive coverage of nuclear and organelle genome structure in plants and animals, genome restructuring including duplication, aneuploidy, chromosome translocations and inversions, comparative genomics, and molecular systematics. Prerequisites: AGRO/ANSC/BIOL/HORT 305 or GENE 315, and GENE 320.

GENE 488. Gene Regulation
3 Credits
Extensive coverage of signal transduction processes and approaches used to monitor large scale changes in gene regulation and protein synthesis that occur during development and in response to environmental changes. Prerequisites: AGRO/ANSC/BIOL/HORT 305 or GENE 315.

Biology - Bachelor of Arts

The Bachelor of Arts curriculum is intended for students who desire a broad education with emphasis in biology in a program chosen by the student in consultation with an academic advisor. The Bachelor of Arts is recommended for those who plan to teach at the primary levels or to use a background in life science in business or other endeavors.

Requirements
Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

</table>
The number of credits required to satisfy this requirement will vary depending on the option a student chooses. See the Biology Department Overview in the catalog for a list of options.

Electives, to bring the total credits to 120

Selective sufficient electives to bring the total to 120, including at least 48 upper-division credits.

Total Credits

120

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. Either MATH 142G Calculus for the Biological and Management Sciences or MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need prerequisite courses before entering one of these.
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4. Choice of Biology electives should be done in consultation with an advisor.
5. Second Language: See the Biology Department (p. 276) Overview in the catalog for a list of options.
6. Elective credit may vary depending on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The elective credit in the requirement list is the amount needed to bring the total to 120 credits and may vary based on the degree. Students may need to complete more or less courses on a case-by-case basis and each student should discuss this with their advisor.

Biology - Bachelor of Science

The major in biology provides a solid academic base for those planning to enter any of the various fields of the biological sciences. The program allows considerable latitude. Degree plans for specific areas of interest can be obtained from the Biology Success Center in Foster Hall room 204.

Requirements

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Electives, to bring the total credits to 120

Select sufficient electives to bring the total to 120 credits, including at least 48 upper-division credits.

Total Credits

120

1. See the General Education Section (p. 49) of the catalog for a full list of courses.
2. MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisite courses needed to enter MATH 191G first.
The educational experience will provide students with an overview of global biodiversity and an understanding of the ecological and evolutionary processes that have created and sustained it. Courses in population and community ecology coupled with population viability analysis and risk assessment will give students the necessary background to understand the theory and development of these fields as well as the tools to tackle real-world problems. Courses in basic genetics, evolution, and conservation genetics will expose students to the importance of conserving genetic variation in order to maintain adaptive potential within populations, thereby sustaining the evolutionary process. Students will also receive background on wildlife law and environmental policy, information vital for assisting governing bodies in making decisions regarding the protection and wise use of our natural resources. Skills obtained in the application of geographic information systems, molecular genetics, and professional communication can also be acquired through various electives. In sum, we seek to provide undergraduate students with an education that will allow them the opportunity to contribute to the conservation of all life on Earth.

The requirements are listed below. In addition, each required course must be passed with a grade of C- or better.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

BIOL 465 Invertebrate Zoology
BIOL 480 Animal Behavior
EPWS 303 Economic Entomology
EPWS 462 Parasitology
FWCE 430 Avian Field Ecology
FWCE 431 Mammalogy
FWCE 467 Herpetology
FWCE 482 Ichthyology

Non-Departmental Requirements (in addition to Gen.Ed/ VWW)

CHEM 211 Organic Chemistry
Choose one from the following:

PHYS 211G & 211GL General Physics I and General Physics I Laboratory
PHYS 221G & 221GL General Physics for Life Sciences I and Laboratory to General Physics for Life Science I

Choose one from the following:

PHYS 212G & 212GL General Physics II and General Physics II Laboratory
PHYS 222G & 222GL General Physics for Life Sciences II and Laboratory to General Physics for Life Sciences II

Second Language: (not required)

Electives, to bring the total credits to 120

Select additional electives to bring total to 120 credits including 48 upper division credits.

Total Credits 120

1 See the General Education Section (p. 49) of the catalog for a full list of courses.

2 Either MATH 142G Calculus for the Biological and Management Sciences or MATH 192G Calculus and Analytic Geometry II is required for the degree but students may need to take any prerequisites needed to enter these courses.

3 One Viewing a Wider World (p. 53) course will be satisfied using the 9-hour rule: students with Biology as home department use FWCE courses and students with Fish, Wildlife and Conservation Ecology as home department use BIOL courses.

5 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The elective credits in the requirements list is the amount needed to bring the total to 120 credits and may vary based on the degree. Students may need to complete more or less courses on a case-by-case basis and each student should discuss elective requirements with their advisor.

Second Language Requirement
For the Bachelor of Science in Conservation Ecology there is no second language requirement for the degree.

Genetics and Biotechnology - Bachelor of Science in Genetics

Codirectors of the Program:

Professor, Michele Nishiguchi, Department Head, Biology
Professor, Rolston St. Hilaire, Department Head, Plant and Environmental Sciences

Professors Bailey, Bosland, Cramer, Hanley, Houde, Milligan, Nishiguchi, O’Connell, Ray, St. Hilaire, Sengupta-Gopalan, Serrano, C. Shuster, Smith, Unguez, Zhang; Associate Professors Curtiss, James, M. Shuster, Xu Assistant Professors Indriolo

Have you ever wondered why your hair or eye color, facial features, or the build of your body resembles that of your parents, grandparents, or other close relatives? What factors are responsible for generating all the variety of colors and shapes of flowers, trees, and different types of animals? If these questions have crossed your mind, then you have been thinking about Genetics; the science of heredity. Genetics is studied at the DNA/ gene/genome level (molecular genetics, biotechnology, genomics and bioinformatics), the level of organisms (classical or Mendelian genetics), and within/among populations of individuals (population and quantitative genetics).

One of the most significant scientific accomplishments in history has been the use of genomic technologies to recently identify most human genes, as well as, most genes for a number of other animals, plants, fungi, and bacteria. Geneticists now have tremendous opportunities to use molecular, biochemical, mathematical, and computer science-based (bioinformatics) approaches to investigate how these genes determine observable traits. This information can be used to significantly advance
human health and well being, and to meet the food and fiber needs of the world.

A degree in Genetics can provide excellent preparation for careers in academic research and technical support, teaching, agriculture, the biotechnology industry, medicine and health sciences, forensic science, technical writing, and sales or marketing. It is also an excellent background for students wishing to enter a graduate program, medical school, and veterinary school.

Undergraduates in the Genetics program must earn a grade of C- or better to receive credit for Departmental and Non-Departmental required courses. Within the Departmental Required courses, Tier I courses must be taken by all majors, for a total of 31 credit hours*. To accommodate differing interests among students, a series of Tier II courses comprising 9-11 credits are provided. Ethical considerations of genetic based technologies will be infused throughout the curriculum, with a focused course on Science and Ethics in the Tier III portion of the core curriculum.

*Note: This includes BIOL 111G which also counts as a General Education elective.

**Requirements**

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, other Non-Departmental requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

PHYS 222G General Physics for Life Sciences II  
or PHYS 212G General Physics II  

**Electives, to bring the total credits to 120**  
Select electives to bring total to 120 credits including 48 upper division credits.

**Recommended Electives**  
BIOL 351 Biology Internship  
GENE 391 Genetics Internship  
GENE 449 Special Problems  
HON courses  

**Total Credits**  
120

1 See the General Education Section (p. 49) of the catalog for a full list of courses.

2 MATH 192G is required for the degree but students may need to take prerequisite courses before entering MATH 192G.
Second Language Requirement

For the Bachelor of Science in Genetics with a major in Genetics and Biotechnology there is no second language requirement for the degree.

Microbiology - Bachelor of Science

The major in microbiology provides a solid academic base for those planning to enter any of the various fields of microbiology.

Requirements

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

| CHEM 315 Organic Chemistry Laboratory | 2 |
| BCHE 395 Biochemistry I | 3 |

Second Language Requirement

The number of credits required to satisfy this requirement will vary depending on the option a student choses. See the Biology Department Overview in the catalog for a list of options.

Electives, to bring the total credits to 120

Select sufficient electives to bring total credits to 120 including 48 upper-division credits.

Total Credits

1 See the General Education (p. 49) section of the catalog for a full list of courses.

2 MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take prerequisites courses before entering MATH 191G.

3 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
Students may take both BIOL 451 and BIOL 475; the second course will count as a microbiology elective.

Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The elective credits in the requirement list is the amount needed to bring the total to 120 credits and may vary depending on the degree. Students may have to take more or less courses on a case-by-case basis and each student should discuss this with their advisor.

Biology - Undergraduate Minor

The courses of the Biology minor represent core biological content, critical for a general view of biology. A student cannot earn a bachelor’s degree in Biology and also earn a minor in Biology.

Requirements

A minor in Biology must include 20 credits in Biology, of which at least 9 credits must be numbered 300 and above.

No more than 3 credits of special topics or individual study courses may be applied to the minor. A grade of C- or better must be earned in all courses.

Human Biology - Undergraduate Minor

The Human Biology minor is intended to provide academic recognition for students who wish to focus a significant amount of attention on courses that deal with human beings from a wide variety of biological standpoints. Thus, course work may encompass topics representing a
range of viewpoints such as biological function, human ecology, human origins, and psychology. Successful completion of this minor will provide students with a valuable interdisciplinary perspective on the human condition. This program consists of a minimum of 18 hours, that includes a minimum of 12 from within the Biology Department and a minimum of 3 outside the department. Successful completion of the minor will be certified by the Biology Department. A grade of C- or better is required of all minor courses.

**Requirements**

Total Credits: 20

**Biology - Master of Science**

The Master of Science degree can be obtained through either a thesis option or a non-thesis option. Both options require 30 credits of course work. The non-thesis option can be completed as an accelerated (one-year) program concentrating in biotechnology or through an individual degree plan in consultation with the student’s Master of Science committee.

There are two formal course requirements for all Biology Graduate students, with the exception of students in the accelerated non-thesis MS Biotechnology option. These core courses are

For research toward the Master of Science degree, students can choose among the Department’s three areas of emphasis:

1. **Behavioral, Ecological and Evolutionary Biology**
   The Behavioral, Ecological and Evolutionary Biology program is appropriate for graduate students who wish to specialize in areas of biology that study the various processes that encompass the behavior, ecology, and evolution of living and extinct taxa.

2. **Cell and Organismal Biology**
   The Cell and Organismal Biology program is appropriate for all Graduate students who wish to emphasize those areas of
biology that integrate function and structure in cells, tissues, and organisms. This emphasis focuses in faculty areas of expertise in cell and molecular biology, neurobiology, developmental biology, and physiology.

3. Microbiology

The Microbiology curriculum is appropriate for graduate students who wish to specialize in areas of biology that study the various processes that occur in microbes (bacteria, viruses, fungi, and protists) such as their physiology, ecology, development or evolution.

All graduate students should develop their curriculum plan in consultation with the faculty advisor and graduate committee. Details of sample course sequences within the different emphases are described in the Biology Graduate Handbook available for download from the Graduate Student section of the Biology website http://bio.nmsu.edu/grads/.

Graduate students may also earn a minor in other graduate departments and programs.

Biotechnology Program

This is an accelerated (one year) non-thesis Master of Science degree in Biology that focuses on biotechnology. The program requires 30 hours of course work. The courses in this program are designed to prepare students for biotechnology-related careers in basic and applied research; in product development and testing; and in policy-making, regulation and law enforcement. The program of study includes practical training in molecular biology, genomics and bioinformatics, statistical analysis, business, bioethics and professional development skills. Additional graduate course work will provide students with further expertise in their individual areas of interest, including cell, molecular, and microbial biology; environmental, ecological and evolutionary biology; and general and integrative biology. Students who complete this training will be prepared for successful employment in academic, corporate, and government settings.

1. Students are expected to choose 5 or more courses numbered 450 or above in microbiology, organismal and cellular biology, genetics, or ecology.

2. This may include a research internship in a biotechnology company or in a Biology Department laboratory. Credits earned during an internship count towards the required elective credits.

Biology - Doctor of Philosophy

The Department of Biology offers graduate study leading to the Doctor of Philosophy degree. Our goal is to prepare students for careers in the various fields in biology through formal coursework and research experiences as well as through seminars and discussion groups.

There are two formal course requirements for all Biology Graduate students, with the exception of students in the accelerated non-thesis MS Biotechnology option. These core courses are:

Doctor of Philosophy students can choose among the Department’s three areas of emphasis:

1. Behavioral, Ecological and Evolutionary Biology

The Behavioral, Ecological and Evolutionary Biology program is appropriate for graduate students who wish to specialize in areas of biology that study the various processes that encompass the behavior, ecology, and evolution of living and extinct taxa.

2. Cell and Organismal Biology

The Cell and Organismal Biology program is appropriate for all Graduate students who wish to emphasize those areas of biology that integrate function and structure in cells, tissues, and organisms. This emphasis focuses in faculty areas of expertise in cell and molecular biology, neurobiology, developmental biology, and physiology.

3. Microbiology

The Microbiology curriculum is appropriate for graduate students who wish to specialize in areas of biology that study the various processes that occur in microbes (bacteria, viruses, fungi, and protists) such as their physiology, ecology, development or evolution.

All graduate students should develop their curriculum plan in consultation with their faculty advisor and graduate committee. Details of sample course sequences within the different emphases are described in the Biology Graduate Handbook available for download from the Graduate Student section of the Biology website http://bio.nmsu.edu/grads/.

Graduate students may also earn a minor in other graduate departments and programs.

Chemistry and Biochemistry

Undergraduate Program Information

A degree in chemistry or biochemistry enables a student to pursue a wide variety of careers in: research, production, sales, management and teaching. These degrees are also an excellent preparation for professional studies in medicine, dentistry, forensics, veterinary science, optometry, pharmacology, pharmacy and law.
Chemistry majors who have completed the requirements for the Bachelor of Science degree may receive American Chemical Society certification if they take one additional one-semester course which includes 1 credit of laboratory.

Students who complete a Bachelor of Science in Biochemistry and wish to complete the Bachelor of Arts in Chemistry must complete 3 additional upper division chemistry credits that are not counted in the Bachelor of Science in Biochemistry.

All departmental and nondepartmental requirements may not be taken S/U and must earn a C-or better final grade.

This department does not have a foreign language requirement for any of its degrees.

Graduate Program Information

The Department of Chemistry and Biochemistry offers programs leading to the MS and Ph.D. degrees in the areas of physical, organic, inorganic, biological, and analytical chemistry. Admission to these programs without deficiency is based on an undergraduate program essentially equivalent to that pursued by a chemistry or biochemistry major at this university. An entering student is encouraged to take the Graduate Record Examination (aptitude) to increase his or her chances for financial support. All foreign students must take GRE and TOEFL and must demonstrate adequate English speaking and writing skills.

Students who wish may take a minor in chemical toxicology or molecular biology. The core course work required of students entering with no previous graduate study in chemistry or biochemistry consists of basic core courses completed in one of the following options:

1. two courses chosen respectively from two of the five major areas represented in the department apart from a student's elected field of thesis research; or
2. one course chosen from the five major areas apart from the student's elected field of thesis research plus one graduate-level course in a discipline outside the Department of Chemistry and Biochemistry.

A master's candidate will plan an appropriate program of further study with his or her advisor and is also required to prepare a thesis. The thesis requirement may be waived upon application to the department head, after completion of the doctoral comprehensive examination requirements. A chemistry student who successfully completes the Ph.D. qualifying examination will begin writing the cumulative examinations, which constitute the written portion of the comprehensive examination. A biochemistry student who successfully completes the Ph.D. qualifying examination will begin preparation of a research proposal which will be orally defended for completion of the comprehensive examination. After completion of the qualifying exam, a doctoral committee is formed to assist the student in planning a program appropriate to his or her background and goals. Since research is central in both the master's and doctoral programs, the early selection of a research advisor is encouraged. The student is expected to participate in the colloquia and seminar programs. Financial support is available to graduate students in chemistry and biochemistry through numerous teaching and research assistantships as well as federally supported traineeships and fellowships. Inquiries regarding these opportunities should be directed to the head of the department.

Degrees for the Department

Chemistry - Bachelor of Arts (p. 300)
Biochemistry - Bachelor of Science (p. 299)
Chemistry - Bachelor of Science (p. 301)
Chemistry - Master of Science (p. 302)
Chemistry - Doctor of Philosophy (p. 303)

Minors for the Department

Biochemistry - Undergraduate Minor (p. 302)
Chemistry - Undergraduate Minor (p. 302)

Professor William Quintana, Department Head

Professors Arterburn, Gopalan, Herndon, Johnson, Quintana, Rayson, Smirnov, Zoski; Associate Professors Houston, Lara, Lusetti, Lyons, Maio; Assistant Professors Ashley, Li, Mera, Talipov, Yukl; Adjunct Professors Wollnik; College Professors Chinnasamy, Dunlavy, Potenza, Emeritus Professor Eiceman, Kuehn

W. Quintana, Department Head, Ph.D. (Pennsylvania)—inorganic chemistry; boron chemistry, chemical education; J. B. Arterburn, Ph.D. (Arizona)—organic chemistry; synthetic medicinal and chemical biology; A. K. Ashley, Ph.D. (Colorado State University)—biochemistry and toxicology; DNA replication and repair, cancer; A. S. Gopalan, Ph.D. (Ohio State University)—organic chemistry; synthetic methods, applications of enzymes in asymmetric synthesis; J. W. Herndon, Ph.D. (Princeton)—organic chemistry; organo-transition metal complexes, synthesis of biologically important cyclic compounds; K. D. Houston, Ph.D. (University of Texas-MD Anderson)—biochemistry; molecular mechanisms of hormone action in tumorogenesis; M. D. Johnson, Ph.D. (New Mexico State University)—inorganic chemistry; kinetics, reaction mechanisms of transition metal complexes; A. S. Lara, Ph.D. (New Mexico State University)—analytical chemistry; exploitation of clays for remediation of environmental pollutants; F. Li, Ph.D. (Minnesota)—inorganic chemistry; bio-inorganic chemistry, small molecule activation; S. L. Lusetti, Ph.D. (Wisconsin-Madison)—biochemistry, enzymology of DNA repair; B. A. Lyons, Ph.D. (Cornell University)—physical biochemistry; NMR spectroscopic studies of signal transduction pathways in breast cancer; W. A. Maio, Ph.D. (Johns Hopkins University)—organic chemistry; total synthesis of marine natural products and explorations of new chemical methods; P. E. Mera, Ph.D. (Wisconsin-Madison)—biochemistry and microbiology; cell-division cycle of bacteria, DNA replication; G. D. Rayson, Ph.D. (Texas Austin)—analytical chemistry, spectroscopy; S. N. Smirnov, Ph.D. (Novosibirsk State University)—physical chemistry, photo-induced charge separation; M. R. Talipov, Ph.D. (Bashkir State University)—Theoretical Physical Chemistry; electronic structure calculations, ab initio calculations, density functional theory calculations; E. T. Yukl, Ph.D. (Oregon Health and Science University)—biochemistry; x-ray crystallography and spectroscopy of bacterial metalloproteins; C. G. Zoski, Ph.D. (Queens University, Canada)—analytical chemistry, theoretical and experimental electrochemistry

Biochemistry Courses

BCHE 140. Introduction to Biochemistry
1 Credit

A description of the nature of inquiry in biochemistry, especially with respect to the interaction of chemistry and biology. Both historical development and topics of current interest will be discussed. Graded S/U.
BCHE 241. Introduction to Research in Biochemistry
1-3 Credits
Techniques and procedures of biochemical research. May be repeated for a maximum of 3 credits.
**Prerequisites:** 8 credits of chemistry and 3.0 GPA in chemistry.

BCHE 341. Survey of Biochemistry
4 Credits (3+3P)
Basic principles of biochemical processes and the structure/function of the major classes of biomolecules, with introductions to metabolism and the central dogma of biochemistry. The chemical and biological properties of major biomolecules (DNA, proteins,
**Prerequisite(s):** C or better in CHEM 211 or CHEM 313.

BCHE 395. Biochemistry I
3 Credits
Principles governing chemistry and physics of life processes with emphasis on the relationships between molecular structure and cell function. Basic principles of biochemical processes, enzymology, and the structure/function of the major classes of biomolecules with introductions to metabolism. Introduction to catabolic metabolism.
**Prerequisite(s):** C or better in CHEM 314.

BCHE 396. Biochemistry II
3 Credits
Introduction to anabolic metabolism and hormonal regulation. Biochemical principles of the mechanism and regulation of replication, transcription, recombination and translation in prokaryotes and eukaryotes. Introduction to DNA-based information technology. Taught with BCHE 396 H.
**Prerequisite(s):** C or better in BCHE 395.

BCHE 396 H. Biochemistry II Honors
3 Credits
Taught with BCHE 396 with additional work required.

BCHE 397. Experimental Biochemistry Laboratory
3 Credits
Introduction to fundamental techniques used to explore structure and function of biological macromolecules such as proteins, carbohydrates, lipids, and nucleic acid. Course covers analyzing data and performing experimental data; enzymology; quantitative methods to determine biological molecules; basic principles of electrophoresis, chromatography, and spectroscopic immunoochemistry.
**Prerequisite:** C or better in BCHE 395.
**Corequisite:** BCHE 396.

BCHE 432. Physical Biochemistry
3 Credits
This course focuses on modern Biophysical techniques used in protein and nucleic acid research. Topics are covered in some detail at the theoretical level. The course content is delivered entirely by podcast. Podcast contributions are from several different faculty from within their particular area(s) of expertise. Topics covered include (but are not limited to): biomolecular NMR, atomic force microscopy, light scattering, circular dichroism, ultracentrifugation, isothermal titration calorimetry, positron emission tomography, computerized tomography, ultrasound, functional MRI, protein fluorescence, mass spec/ proteomics, protein molecular dynamics simulations, and X-ray diffraction. Course credit qualifies for minor degree in chemistry as a physical-analytical chemistry emphasis.
**CHEM 431, or CHEM 433.
**Prerequisite:** One semester of undergraduate physical chemistry, e.g.

BCHE 440. Biochemistry Seminar
1 Credit
Introduction to current literature in biochemistry and molecular biology. Selected topics in the field will be presented by the faculty. Students will present written and oral reports from literature searches. Restricted to: BCHE majors.
**Prerequisite(s):** BCHE 395.

BCHE 441. Advanced Research in Biochemistry
1-3 Credits
Investigation of biochemical problems and the development of special techniques. May be repeated for a maximum of 3 credits.
**Prerequisites:** consent of instructor, 16 credits of chemistry and 3.0 GPA in chemistry for nonmajors.

BCHE 446. Biochemistry III
3 Credits
Intermediary metabolism of carbohydrates, lipids, amino acids, and nucleic acids. Metabolic pathways discussed with emphasis on biochemical regulation and mechanistic, structural, functional, and evolutionary basis for existence.
**Prerequisite(s):** BCHE 395 and either BCHE 396 or consent of instructor.

BCHE 451. Special Topics
1-3 Credits
Same as CHEM 451. May be repeated for a maximum of 12 credits.
**Prerequisite:** consent of instructor.

BCHE 455. Independent Studies
1-3 Credits
Independent studies directed by consulting faculty.
**Prerequisite:** consent of instructor.

BCHE 494. Biochemical Genetics Laboratory
3 Credits (1.25+6P)
Laboratory techniques required for experimentation with recombinant DNA such as nucleic acid isolation and purification, polymerase chain reaction (PCR), sequence analysis, and directed mutagenesis using genetic material from both prokaryotic and eukaryotic organisms. Consent of Instructor required.
**Prerequisite(s):** C or better in BCHE 395 and BCHE 396 or GENE 315, and consent of instructor.

BCHE 540. Seminar in Biochemistry
1 Credit
Formal seminar presentation in current topics in biochemical research. May be repeated for a maximum of 3 credits.

BCHE 542. Biochemistry I
3 Credits
Relationship between macromolecular structure and function. Basic enzymology. Energy metabolism.
**Prerequisite(s):** CHEM 314 and CHEM 431 or CHEM 433; or BCHE 395 or equivalent.

BCHE 545. Molecular and Biochemical Genetics
3 Credits
An accelerated treatment of the molecular basis of gene expression. Discussion of chemical, enzymological, and genetic techniques of molecular biology. Same as BIOL 545.
**Prerequisite:** BCHE 542 or equivalent.
BCHE 546. Biochemistry II  
3 Credits  
Intermediary metabolism: catabolic and anabolic pathways of carbohydrates, lipids, amino acids, and nucleic acids, including their regulation.  
Prerequisite: BCHE 542 or BCHE 395 with consent of instructor.

BCHE 590. Discussions in Biochemistry  
1 Credit  
Current research problems in biochemistry. May be repeated for a maximum of 6 credits. S/U Grading (S/U, Audit).

BCHE 598. Special Research Programs  
1-3 Credits  
May be repeated for a maximum of 6 credits. Same as CHEM 598. Graded S/U.

BCHE 599. Master's Thesis  
15 Credits  
May be repeated for a maximum of 6 credits. Same as CHEM 599.

BCHE 600. Research  
1-15 Credits  
May be repeated for a maximum of 20 credits. PR/U grading. Same as CHEM 600.

BCHE 647. Physical Biochemistry  
3 Credits  
Fundamental applications of physical chemistry to the investigation of biological metabolites and biological macromolecules, including proteins, oligo-nucleotides, and molecular arrays with an emphasis on understanding biological functions based on chemical structures. Taught with BCHE 451.  
Prerequisite(s): 'C' or better in CHEM 431 or CHEM 433 or BCHE 542.

BCHE 649. Topics in Biochemistry  
1-3 Credits  
Selected topics of current interest designated by title and credit. May be repeated for a maximum of 3 credits.

BCHE 650. Advanced Seminar  
1 Credit  
Discussion of biochemical research in progress that relates to a doctoral candidate's thesis research. Intended for students who have earned a master's degree or the equivalent and has made significant research progress for preparation of the doctoral dissertation. May be repeated for a maximum of 3 credits.

BCHE 700. Doctoral Dissertation  
20 Credits  
May be repeated for a maximum of 20 credits. Graded PR/U. Same as CHEM 700.

### Chemistry Courses

**CHEM 100. Basic Chemistry**  
3 Credits  
For students whose preparatory science or math training has been deficient. Does not meet the chemistry requirement in any curriculum.  
Prerequisite: Enhanced ACT composite score of at least 18 or a grade of C or better in CCDM 114 N.

**CHEM 101. General Supplemental Instruction I**  
1 Credit  
Collaborative workshop for students in General Chemistry I. Course does not count toward departmental degree requirements. May be repeated for a maximum of 2 credits.  
Corequisite: CHEM 111G.

**CHEM 102. General Supplemental Instruction II**  
1 Credit  
Collaborative workshop for students in General Chemistry II. Course does not count toward departmental degree requirements. May be repeated for a maximum of 2 credits.  
Corequisite: CHEM 112G.

**CHEM 103. Principles of Supplemental Instruction III**  
1 Credit  
Collaborative workshop for students in CHEM 110G, Principles and Applications of Chemistry. Course does not count toward departmental degree requirements. May be repeated for a maximum of 2 credits.  
Co-requisite: CHEM 110G.

**CHEM 110G. Principles and Applications of Chemistry**  
4 Credits (3+3P)  
A survey of the properties and uses of the elements and their compounds. In addition to classical chemistry, attention is paid to the materials from which consumer products are made, to the production of energy, and to environmental considerations.  
Prerequisite: 3 years of high school math or CCDM 114N.

**CHEM 111G. General Chemistry I**  
4 Credits (3+3P)  
Descriptive and theoretical chemistry. CHEM 111G/112G are General Education alternative to CHEM 110G.  
Prerequisite: (1) grade of C or better in MATH 120 or a Mathematics Placement Exam Score adequate to enroll in mathematics courses beyond MATH 120; and (2) one of the following: B or better in a second semester high school chemistry course, or grade of at least C in CHEM 100, or an enhanced ACT score of at least 22.

**CHEM 112G. General Chemistry II**  
4 Credits (3+3P)  
Descriptive and theoretical chemistry. CHEM 111G/112G are General Education alternative to CHEM 110G.  
Prerequisite(s): CHEM 111G.

**CHEM 115. Principles of Chemistry I**  
4 Credits (3+3P)  
Recommended for chemistry majors and other qualified students. CHEM 115/116 are General Education alternatives to CHEM 110G.  
Prerequisite: Eligible to take MATH 190G and an ACT composite score of 22 or higher.

**CHEM 116. Principles of Chemistry II**  
4 Credits (3+3P)  
Recommended for chemistry majors and other qualified students. CHEM 115/116 are General Education alternatives to CHEM 110G.  
Prerequisite: grade of C or better in CHEM 115.

**CHEM 210. Chemistry for the Allied Health Sciences**  
3 Credits  
Discussion and application of the established facts and concepts of general organic chemistry and biochemistry to acquire a molecular understanding of a variety of health related issues, from atmospheric ozone holes to human nutrition.  
Prerequisite: CHEM 110G or CHEM 111G.
CHEM 211. Organic Chemistry  
4 Credits (3+3P)  
A one-semester survey for students requiring a brief coverage of important classes of organic compounds. May be repeated up to 4 credits.  
Prerequisite(s): CHEM 112G.

CHEM 217. General Chemistry III  
3 Credits (2+3P)  
Quantitative aspects of general chemistry: solid state structure, equilibrium, thermodynamics, and kinetics. Required of chemical science majors who have taken CHEM 111G/112.  
Prerequisite: CHEM 112G.

CHEM 241. Introduction to Research  
1-3 Credits (3+9P)  
Techniques and procedures of chemical research. May be repeated for a maximum of 3 credits.  
Prerequisites: 8 credits of chemistry and a 3.0 GPA in chemistry.

CHEM 242. Explorations in Chemistry  
1 Credit  
Historical and current developments, careers in chemistry, computer applications and use of the library by chemists. To be completed before the end of the sophomore year. Graded S/U.

CHEM 251. Special Topics in Chemistry  
1-6 Credits (1-6)  
Specific subjects in Chemistry. These subjects will be announced in the 'Schedule of Classes'. It may be repeated under different topics for a maximum of 12 credits.

CHEM 303. Organic Supplemental Instruction I  
1 Credit  
Collaborative workshop for students in Organic Chemistry I. Course does not count toward departmental degree requirements. May be repeated for a maximum of 2 credits.  
Corequisite: CHEM 313.

CHEM 304. Organic Supplemental Instruction II  
1 Credit  
Collaborative workshop for students in Organic Chemistry II. Course does not count toward departmental degree requirements. May be repeated for a maximum of 2 credits.  
Corequisite: CHEM 314.

CHEM 313. Organic Chemistry I  
3 Credits  
Nomenclature, uses, basic reactions, and preparation methods of the most important classes of aliphatic and aromatic compounds.  
Prerequisite: CHEM 112G or CHEM 116.

CHEM 314. Organic Chemistry II  
3 Credits  
Nomenclature, uses, basic reactions, and preparation methods of the most important classes of aliphatic and aromatic compounds.  
Prerequisite: C or better in CHEM 313.

CHEM 315. Organic Chemistry Laboratory  
2 Credits  
Techniques, preparative and analytical methods in organic chemistry.  
Prerequisite: C or better in CHEM 313 or consent of instructor.  
Corequisite: CHEM 314.

CHEM 351. Special Topics  
1-3 Credits  
Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.  
Prerequisite: consent of instructor.

CHEM 356. Descriptive Inorganic Chemistry  
3 Credits  
Occurrence and properties of the elements and the chemistry of their compounds. May be repeated up to 3 credits.  
Prerequisite(s): CHEM 112G or CHEM 116 and CHEM 211 or CHEM 313.

CHEM 357. Synthetic Inorganic Laboratory  
2 Credits  
Explores synthesis and analysis of main group and transition metal inorganic compounds. Inorganic laboratory and spectroscopic techniques will be used.  
Prerequisites: CHEM 356.

CHEM 360. General Geochemistry  
3 Credits  
Same as GEOL 360.

CHEM 371. Analytical Chemistry  
4 Credits (2+6P)  
The fundamentals of quantitative chemical analysis. May be repeated up to 4 credits.  
Prerequisite(s): CHEM 112G or CHEM 116.

CHEM 422. Environmental Chemistry  
3 Credits  
Chemistry of organic and metal ion pollutants in the environment and principles important to their remediation including bioremediation. Restricted to: Main campus only. Crosslisted with: E S 422  
Prerequisite(s): CHEM 112G and either CHEM 211 or CHEM 313.

CHEM 424. Soil Chemistry  
3 Credits  
Same as SOIL/GEOL 424.

CHEM 431. Physical Chemistry  
3 Credits  
Principles that govern the physical and chemical behavior of matter. May not be counted toward Bachelor of Science degree in Chemistry.  
Prerequisite(s): CHEM 116 or CHEM 217; MATH 192G; PHYS 212 or PHYS 222G or PHYS 214 or PHYS 216G.

CHEM 431 H. Physical Chemistry Honors  
3 Credits  
Same as CHEM 431. Additional work to be arranged.  
Prerequisite(s): CHEM 116 or CHEM 217; MATH 192G; PHYS 212G or PHYS 222G or PHYS 214 or PHYS 216G.

CHEM 433. Physical Chemistry I  
3 Credits  
Laws and theories underlying chemical phenomena.  
Prerequisite(s): CHEM 116 or CHEM 217; MATH 192G or PHYS 214 or PHYS 216G, or consent of instructor.

CHEM 433 H. Physical Chemistry I Honors  
3 Credits  
Same as CHEM 433. Additional work to be arranged.  
Prerequisite(s): CHEM 116 or CHEM 217; MATH 192G or PHYS 214 or PHYS 216G, or consent of instructor.
CHEM 434. Physical Chemistry II
3 Credits
Laws and theories underlying chemical phenomena.
Prerequisite: CH E 302 or CHEM 433.

CHEM 435. Physical Chemistry Laboratory
2 Credits
Prerequisite: concurrent registration in CHEM 434.

CHEM 441. Advanced Research
1-3 Credits (3+9P)
Investigation of chemical problems and the development of special techniques. May be repeated for a maximum of 3 credits.
Prerequisites: consent of instructor, 16 credits of chemistry and 3.0 GPA in chemistry for nonmajors.

CHEM 443. Senior Seminar
1 Credit
Discussions of current chemical research, impact of chemistry on society and/or ethics as applied to chemists. Each student will present a written and an oral report on an approved topic.
Prerequisite: CHEM 431 or CHEM 433.

CHEM 451. Special Topics
1-3 Credits
Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.
Prerequisite: consent of instructor.

CHEM 455. Independent Studies
1-3 Credits
Independent studies directed by consulting faculty.
Prerequisite: consent of instructor.

CHEM 456. Inorganic Structure and Bonding
3 Credits
Theoretical principles and a systematic study of the periodic table.
Prerequisite: CHEM 356 or CHEM 431 or CHEM 433.

CHEM 466. Advanced Organic Chemistry
3 Credits
Recent developments in synthesis and theoretical principles of organic chemistry.
Prerequisite: CHEM 314.

CHEM 466 H. Advanced Organic Chemistry Honors
3 Credits
Same as CHEM 466. Additional work to be arranged.

CHEM 471. Instrumental Methods of Analysis
4 Credits (3+3P)
Analytical techniques, including optical and procedures.
Prerequisites: CHEM 371 and either PHYS 212G or PHYS 216G.

CHEM 500. Seminar in Inorganic Chemistry
1 Credit
Current topics. May be repeated.

CHEM 507. Chemistry of the Elements
3 Credits
Discussion of the reactions and structures of inorganic compounds.

CHEM 510. Seminar in Organic Chemistry
1 Credit
Current topics. May be repeated.

CHEM 514. Organic Structure Determination
3 Credits
Modern spectroscopic techniques for characterization of organic compounds.

CHEM 515. Modern Organic Chemistry
3 Credits
Recent developments in synthesis and theoretical principles of organic chemistry.

CHEM 516. Physical Organic Chemistry
3 Credits
Physical organic chemistry.

CHEM 517. Synthetic Organic Chemistry
3 Credits
Synthetic methods in organic chemistry.

CHEM 520. Seminar in Analytical Chemistry
1 Credit
Current topics. May be repeated.

CHEM 521. Chemical Instrumentation
3 Credits (2+3P)
Theory and application of electronic devices to chemical analysis.

CHEM 526. Advanced Analytical Chemistry
3 Credits
Equilibria, and the theories of gravimetric, volumetric, and instrumental analysis.

CHEM 527. Separations
3 Credits
Covers the fundamentals of separation methods and relationships to modern analytical techniques such as gas chromatography and liquid chromatography.

CHEM 528. Electroanalytical Techniques
3 Credits
Theory and application of modern electrochemical methods of analysis including voltammetry, amperometry, modern cyclic and pulse methods, and stripping analysis.

CHEM 529. Spectrochemical Analysis
3 Credits
Fundamentals, instrumentation, and applications of spectrochemical analysis.

CHEM 530. Seminar in Physical Chemistry
1 Credit
Current topics. May be repeated.

CHEM 536. Chemical Thermodynamics
3 Credits
First, second, and third laws of thermodynamics, and the concepts, interrelations, and applications of thermodynamic state functions.

CHEM 537. Quantum Chemistry
3 Credits
Fundamentals of quantum mechanics.
Prerequisite: consent of instructor.

CHEM 538. Chemical Kinetics
3 Credits
Empirical analysis of rate measurements, collision theory, transition state theory, and chain reactions.

CHEM 539. Spectroscopy
3 Credits
Molecular spectroscopy for physical chemistry. Quantum mechanics applied to spectroscopy of polyatomic molecules: UV-Vis, IR, magnetic resonance. CHEM 537 desired but not required. Prerequisite: consent of instructor.
Prerequisite: consent of instructor.
CHEM 560. Discussions in Organic Chemistry  
1 Credit  
Current research problems in organic chemistry. May be repeated. Graded S/U.

CHEM 570. Discussions in Analytical Chemistry  
1 Credit  
Current research problems in analytical chemistry. May be repeated. Graded S/U.

CHEM 580. Discussions in Physical Chemistry  
1 Credit  
Current research problems in physical chemistry. May be repeated. Graded S/U.

CHEM 598. Special Research Programs  
1-3 Credits  
Individual investigations, either analytical or experimental. Graded S/U.

CHEM 599. Master's Thesis  
15 Credits  
Thesis preparation.

CHEM 600. Research  
1-15 Credits  
Course used for assigning credit for research performed prior to successful completion of the doctoral qualifying examination.

CHEM 609. Topics in Inorganic Chemistry  
1-3 Credits  
Selected topics of current interest designated by subtitle.

CHEM 619. Topics in Organic Chemistry  
1-3 Credits  
Selected topics of current interest designated by subtitle.

CHEM 629. Advanced Topics in Analytical Chemistry  
3 Credits  
Discussion of advanced topics in the field of analytical chemistry. May be repeated with different subtitles. Consent of instructor required.

CHEM 639. Topics in Physical Chemistry  
1-3 Credits  
Selected topics of current interest designated by subtitle.

CHEM 650. Advanced Seminar  
1 Credit  
Intended for students who have earned a master's degree or the equivalent. A discussion of current topics of interest in chemistry. May be repeated.

CHEM 700. Doctoral Dissertation  
17 Credits  
Dissertation preparation.

Phone: (575) 646-2505

### Biochemistry - Bachelor of Science

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Select sufficient electives to bring total credits to 120, including 48 upper division. 18

Total Credits 120

1 See the General Education (p. 49) section of the catalog for a full list of courses
2 MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G first.
3 CHEM 115 Principles of Chemistry I and CHEM 116 Principles of Chemistry II are acceptable General Education substitutions for CHEM 111G/CHEM 112G but will need a degree audit exception that can be coordinated with your advisor
4 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses
5 CHEM 115/CHEM 116 is highly recommended for majors. The alternate sequence CHEM 111G and CHEM 112G and CHEM 217 is acceptable. CHEM 217 General Chemistry III is not required if the CHEM 115/CHEM 116

Second Language Requirement
For the Bachelor of Science with a major in Biochemistry there is no second language requirement for the degree.

Chemistry - Bachelor of Arts

The Bachelor of Arts curriculum is designed to provide flexibility with less depth in chemistry, physics, and mathematics. The program may be used by students planning extensive study in other areas and requires emphasis in a second field of study. Emphasis area credits cannot be used for Bachelor of Arts degree.

Requirements
Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Chemistry - Master of Science

The core course work required of students entering with no previous graduate study in chemistry or biochemistry consists of basic core courses completed in one of the following options:

1. two courses chosen respectively from two of the five major areas represented in the department apart from a student’s elected field of thesis research; or
2. one course chosen from the five major areas apart from the student’s elected field of thesis research plus one graduate-level course in a discipline outside the Department of Chemistry and Biochemistry.

A master’s candidate will plan an appropriate program of further study with his or her advisor and is also required to prepare a thesis. The thesis requirement may be waived upon application to the department.
head, after completion of the doctoral comprehensive examination requirements.

Chemistry - Doctor of Philosophy
A chemistry student who successfully completes the Ph.D. qualifying examination will begin writing the cumulative examinations, which constitute the written portion of the comprehensive examination. After completion of the qualifying exam, a doctoral committee is formed to assist the student in planning a program appropriate to his or her background and goals.

Communication Studies

Undergraduate Program Information
The communication studies program is designed to enhance students' interpersonal skills, presentation skills and critical thinking skills. Thus the successful graduate should be able to work effectively with people, assimilate, organize and analyze information, solve problems, make effective presentations and show potential for leadership. The program prepares students for careers in several professions, such as training and development, public relations, law, advertising and sales, government service, mediation, customer relations, human resources, international service, fundraising and the ministry.

Graduate Program Information
The Master of Arts in Communication Studies provides students with a social scientific approach to the study of human interaction, using quantitative and qualitative methods. Our curriculum is designed to explore how communication takes place interpersonally, within organizations, within our political system, and between and within cultures. Students take courses in interpersonal communication, organizational communication, political communication and/or cultural communication. All graduate students take courses in communication theory and research methods. In addition, students can take courses in topic areas such as conflict management, small group communication, persuasion and nonverbal communication.

In addition to these qualifications, students must meet the following requirements in order to be eligible for application to the MAP program.

• Must be a junior or senior
• Must have a GPA of 3.25 or higher
• Must apply to the program with sufficient time to take the 12 credit hours that will be applied toward the overall program of study. (Students will not be able to retroactively apply credits to MAP program).
• Must participate in the online graduate student development program run through the graduate school. (Note: this training must be completed while the student is still an undergraduate student.)

Eligible courses for the MAP Program in Communication Studies
• Students may take any COMM course numbered 500 or higher. If students want to enroll in COMM 505 Research Methods, COMM 506 Qualitative Research Methods in Communication, or COMM 583 Seminar in Theories of Communication, then they must receive permission from the Department Head.
• Students may elect to take all 12 credits numbered 500 or higher.
• Students have the option to take the following:
  • Any two courses (6 credits) numbered 450 or above in the Department of Communication Studies.
  • Students will not be allowed to use more than two courses (6 credits) for credit toward a graduate degree in Communication Studies. If a student uses courses numbered 450 or greater in the MAP program (up to 6 credits), then that student will not be able to use any other course below 500 to count toward the M.A. in Communication Studies.
• Graduate courses do not substitute for undergraduate core courses unless approved by the professor teaching the graduate course.
• Students who are accepted into the Communication Studies MAP program will only be allowed to matriculate into the graduate program in Communication Studies at NMSU.
• Students who enroll in a MAP program other than Communication Studies will not be able to apply those credits toward a graduate degree in Communication Studies at NMSU.

Degrees for the Department
Communication Studies - Bachelor of Arts (p. 307)
Communication Studies - Master of Arts (p. 309)

Minors for the Department
Communication and National Security - Undergraduate Minor (p. 308)
Communication Studies - Undergraduate Minor (p. 309)
Communication and National Security - Graduate Minor (p. 310)
Communication Studies - Graduate Minor (p. 310)

Eric Morgan, Department Head

Professors Hubbell, Flora, Associate Professors Morgan, Armfield; Assistant Professors Halliwell Emeritus Hacker

G. Armfield, Ph.D. (University of Missouri-Columbia)—organizational communication, communication and sports; J. Flora, Ph.D. (Kansas)—interpersonal communication and family communication; K. Hacker, Ph.D. (Oregon)—new media networking, political communication, national security
Communication Studies Courses

COMM 250. Introduction to the Communication Major
1 Credit
This is a one-credit course for new Communication Studies majors. It helps them get acquainted with the department, the department head (professor for this course, the professors, other students, and the department student organizations. It also deals with degree mapping and career mapping and any problems the students are having in their first year. Finally, the students learn about the the Communication Studies discipline and various communication careers they can pursue with their degree. The class meets one day each week for one hour. Restricted to: Communication Studies majors. Restricted to Las Cruces campus only.

COMM 253G. Public Speaking
3 Credits
Principles of effective public speaking, with emphasis on preparing and delivering well-organized, logical, and persuasive arguments adapted to different audiences.

COMM 265G. Principles of Human Communication
3 Credits
Study and practice of interpersonal, small group, and presentational skills essential to effective social, business, and professional interaction.

COMM 285. Survey of Communication Theory
3 Credits
Exploration of major theories, concepts and methods of research in the study of human communication. Primarily for majors.

COMM 290. Independent Study
1-3 Credits
Individualized, self-paced projects for students with a special interest in communication topics. May be repeated for a maximum of 6 credits.
Prerequisite: COMM 265G and sophomore standing.

COMM 291. Special Topics
1-3 Credits
Specific subjects and credits to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

COMM 305. Communication Research Methods
3 Credits
Introductory course in communication research. Emphasis on how to be an effective consumer of research.

COMM 310. Communication Theory and Discovery
3 Credits
This course combines the content of the former COMM 285 and COMM 305 courses. The course explores the nature of communication science, major communication theories, and how communication research is conducted and interpreted.

COMM 351. Persuasion Theory and Practice
3 Credits
Training in understanding and applying the principles and techniques of argumentation and persuasion.

COMM 370. Organizational Communication
3 Credits
Communication strategies and patterns of private and governmental organizations, including research on the communication process.

COMM 376. Communication and Culture
3 Credits
Cultural and intercultural communication theory and behavior, with a concentration on the development of specific communication skills which should facilitate effective intercultural communication.

COMM 377. Conflict Management
3 Credits
Communication strategies to manage and negotiate conflict in intrapersonal, interpersonal, group, and organizational settings.

COMM 384. Interpersonal Communication
3 Credits
Theories of interpersonal communication and relational communication including study of relevant models, contexts and constructs.

COMM 425. Small Group Communication
3 Credits
Principles and methods of modern group discussion with emphasis on the role of the group in problem solving.

COMM 440. Political Communication
3 Credits
Presidential and congressional campaigns, political persuasion techniques, political advertising, power in language, and media aspects of political information. Ideology, resistance to political manipulation, and dependence of democracies on communication.

COMM 450. Technologies of Human Communication
3 Credits
Development and evolution of human communication technologies from prehistory through the future of computer-mediated communication networks. Examines behavioral, cognitive, social, cultural, and political issues of new communication technologies and their use and management.

COMM 455. Fundamentals of Communication and National Security
3 Credits
This course addresses communication perspectives informing national security, strategic intelligence, and the intelligence process. Students will examine U.S. national security history, policy, the development of the Intelligence Community, and intelligence as processes of communication. This course serves as an introduction to national security studies.

COMM 456. Communication and the Intelligence Cycle
3 Credits
The course addresses communication requirements and the technical, cognitive, and cultural complexity of the collaborative research environment. Students participate in novel, team-based problem scenarios that provide the foundation for acquiring advanced cognitive analytic methods and strategies. Students will engage in interdisciplinary information science processes and will develop and present analytic products responding to national security requirements.
COMM 457. Strategic Communication and Public Diplomacy 3 Credits
This course covers history, theory, and research related to the use of communication to change attitudes in favor of U.S. national security interests. Students will examine the use of strategic communication and influence in diplomacy, intelligence, and military communities in terms of specific strategies, effects, and issues. Students will learn to distinguish public diplomacy, information operations, public affairs, and other forms of political communication that are used by the U.S. government to persuade target populations about American interests and goals. Topics include soft power, intelligence-based negotiation processes, and research methods used to identify influence techniques or groups that threaten U.S. national security.

COMM 458. Intercultural Communication and National Security 3 Credits
This course provides a concentration on cultural factors in international affairs and conflicts, how culture affects perceptions of national interests, and the relationship of U.S. national security to understand the general and political cultures of other nations. Students will integrate cultural and intercultural communication theory and behavior, with an emphasis on the development of specific communication skills to facilitate developing cultural knowledge in government and political contexts. Students will learn how to study the cultural factors that affect international conflicts and how strategic communication should address such cultural factors.

COMM 460. Deception and Communication 3 Credits
Deceptive communication including nonverbal indicators of lies, types of lies, and influence of relationships on lying behavior and interpretation.

COMM 462. Family Communication 3 Credits
A communication perspective on traditional and nontraditional family configurations, roles, interaction patterns, and conflict. Includes an examination of media depictions of families and family interaction, as well as current social and political issues related to the family.

COMM 465. Nonverbal Communication 3 Credits
Study of and experimentation with nonverbal aspects of human communication as vital components of the total communication process.

COMM 470. Leadership Communication 3 Credits
Examination of traditional theories and concepts of leader-follower dynamics; presentation of cognitive, systems, and symbolic interpretative views of leadership with an emphasis on persuasion and motivation in leader-follower interactions.

COMM 471. Sports Communication 3 Credits
This course provides a senior-level exploration of the role sports and sports communication plays in contemporary culture. Readings will examine the interrelationship between sports and media in society, the identities that fans assume when engaging in fanship and sports viewership, the pervasiveness of sports communication practices in the sports industry, the role of media in story telling, and the way cultural identifiers of class, ethnicity, and gender play out in the media. This is taught with COMM 571.

COMM 475. International Communication 3 Credits
Exploration of the forms and channels of communication substantially influenced by international cultural and political factors. Covers: global communication technology; news, information and entertainment flows; international diplomacy and negotiation, communication in war and peace.

COMM 477. Environmental Communication 3 Credits
Examines the link between communication and environment within the context of communication scholarship. Topics include sense of place, cultural approaches to interacting with environment as well as exploring current themes surrounding environment.

COMM 480. Health Communication 3 Credits
Examination of central issues in communication theory and practice as applied to health care. Includes communication in health care organizations, media dissemination of health information, role of communication in disease prevention and health promotion, and symbolic meaning of illness within cultures.

COMM 484. Verbal Communication 3 Credits
Examination of rules governing conversational structures such as speech acts, action sequences, topics and topic shifts. Also covers humor in conversation and conversational control.

COMM 485. International Teaching Assistant Development 3 Credits
International teaching assistants will receive instruction in communicative skills to enable them to meet their responsibilities at NMSU. Course includes lectures, seminars, video-taped presentations, and tutorial sessions emphasizing pedagogic and presentation skills and styles. 

Prerequisite: consent of instructor.

COMM 490. Independent Study 1-3 Credits
Individualized, self-paced projects for advanced students. May be repeated for a maximum of 6 credits.

Prerequisites: COMM 265G and junior standing with consent of participating instructor.

COMM 491. Selected Topics 1-6 Credits
Individual and/or group study of selected topics. To be identified by subtitle. May be repeated for a maximum of 12 credits.

Prerequisite: prior arrangement with faculty supervisor(s).

COMM 495. Communication Internship 3 Credits
Internship opportunity to apply what has been learned to a real-world situation. May be repeated for a maximum of 6 credits. Restricted to majors.

Prerequisite: junior standing and 3.0 GPA in major.

COMM 505. Research Methods 3 Credits
Seminar in the quantitative study of human communication phenomena, research design, and statistical analysis.
COMM 506. Qualitative Research Methods in Communication
3 Credits
Survey of qualitative research methods in the study of human communication, including historical and critical approaches, interviewing, participant-observation, and communication ethnography. Students apply methods to their own research.

COMM 540. Seminar in Political Communication
3 Credits
Political communication theory, research, and issues. Empirical studies of campaigns, movements, news media, voter decision-making, political participation, socialization, and knowledge. Political theory, field research, communication science findings and research methods.

COMM 545. Seminar in Ethicism, Racism, and Communication
3 Credits
Course focuses on theories and research concerning the social, cognitive, and communication aspects of ethnic and racial prejudice. Specific psychological and communication processes of person and group categorization are explored along with findings about the effects of ethnic prejudice on everyday communication (and vice versa).

COMM 550. Seminar in Communication Technologies
3 Credits
Seminar on design, usage, and social impact of electronic mail, communication through computer networks, and new technologies of organizational communication such as group decision support systems (GDSS). Each student will study an actual application of a major communication technology in an organization.

COMM 551. Seminar in Persuasion
3 Credits
Work with an actual persuasion campaign, such as public information, political, or commercial marketing campaigns. Includes case studies of large-scale persuasion efforts, current theoretical models of persuasion processes, and methods for studying, evaluating, and refining messages for optimal effects.
Prerequisite: COMM 351 or consent of instructor.

COMM 555. Seminar Fundamentals of Communication and National Security
3 Credits
This seminar course addresses communication perspectives informing national security, strategic intelligence, and the intelligence process. Students will examine U.S. national security history, policy, the development of the Intelligence Community, and intelligence as processes of communication. This course serves as an introduction to national security studies. Graduate students are required to fulfill advanced research and presentation requirements.

COMM 556. Seminar Communication and the Intelligence Cycle
3 Credits
This seminar course addresses communication requirements and the technical, cognitive, and cultural complexity of the collaborative research environment. Students participate in novel, team-based problem scenarios that provide the foundation for acquiring advanced cognitive analytic methods and strategies. Students will engage in interdisciplinary information science processes and will develop and present analytic products responding to national security requirements. Graduate students will be required to fulfill advanced research and presentation requirements.

COMM 557. Seminar Strategic Communication and Public Diplomacy
3 Credits
The seminar course covers history, theory, and research related to the use of communication to change attitudes in favor of U.S. security interests. Students will examine the use of strategic communication and influence in diplomacy, intelligence, and military communities in terms of specific strategies, effects, and issues. Students will learn to distinguish public diplomacy, information operations, public affairs, and other forms of political communication that are by the U.S. government to persuade target populations about American interests and goals. Topics include soft power, intelligence-based negotiation processes, and research methods used to identify influence techniques of groups that threaten U.S. national security. Graduate students will be required to fulfill advanced research and presentation requirements.

COMM 558. Seminar Intercultural Communication and National Security
3 Credits
The seminar course provides a concentration on cultural factors in international affairs and conflicts, how culture affects perceptions of national interests, and the relationship of U.S. national security to understand the general and political cultures of other nations. Students will integrate cultural and intercultural communication theory and behavior, with an emphasis on the development of specific communication skills to facilitate developing cultural knowledge in government and political contexts. Students will learn how to study the cultural factors that affect international conflicts and how strategic communication should address such cultural factors. Graduate students will be required to fulfill advanced research and presentation requirements.

COMM 562. Seminar in Family Communication
3 Credits
This course examines cutting edge research on family communication, as well as classic theories and research findings that have influenced and revolutionized the way scholars conceptualize family interaction. Topics include basic family communication processes, communication in family subsystems, communication during family stress, and the role of family interaction in health and well-being. Students will explore how family relationships are built, maintained, and destroyed by communication as well as the potentially important and long lasting effects of family relationships on individuals.

COMM 565. Seminar in Nonverbal Communication
3 Credits
This course focuses on human physical behaviors as the basis of communication between persons. This physical behavior includes such variables as the voice, face, eyes, posture, gesture, space, territory, clothing, and touch. The content of the course considers the individual and social factors affecting the production of such behaviors, and the effects of such behaviors on others’ attitudes, perceptions, cognitions, and relationships. Applications of research and theory in nonverbal communication to infant development, personality, sex differences, marital satisfaction, relationship development, culture, aging, and brain functioning are also studied throughout the course.

COMM 570. Seminar in Organizational Communication
3 Credits
Communication strategies and patterns of private and governmental organizations, including research on communication systems.
COMM 571. Seminar in Sports Communication
3 Credits
This seminar provides a graduate-level exploration of the role sports and sports communication plays in contemporary culture. Readings will examine the interrelationship between sports and media in society, the identities that fans assume when engaging in fanship and sports viewership, the pervasiveness of sports communication practices in the sports industry, the role of media in story telling, and the way cultural identifiers of class, ethnicity, and gender play out in the media. This is taught with COMM 471.

COMM 576. Seminar on Communication and Culture
3 Credits
Cultural and intercultural communication theory and research. Focuses on discovering and describing distinctive ways of speaking within and between cultures.

COMM 583. Seminar in Theories of Communication
3 Credits
Communication systems, symbolic processes, analysis of messages.

COMM 584. Seminar in Interpersonal Communication
3 Credits
Theories of interpersonal communication and communication within a relationship, including study of relevant models, contexts, and constructs.

COMM 590. Independent Study
1-6 Credits
Individualized, self-paced projects.
Prerequisite: consent of instructor.

COMM 591. Special Topics
1-9 Credits
Individual and/or group study of special topics. To be identified by subtitle.
Prerequisite: prior arrangement with faculty supervisor(s).

COMM 595. Communication Internship for Graduate Students
3 Credits
Internship opportunity to apply what students have learned to the real world. Restricted to majors.
Prerequisite: 9 credits of M.A. degree.

COMM 598. MA PROJECT
1-6 Credits (1-6)
Project credits are used for the master's degree project option. May be repeated up to 6 credits. Restricted to: Comm Studies graduate majors only. majors.

COMM 599. Master's Thesis
15 Credits
Thesis.

All COMM courses must be completed with a grade of C- or better.

Undergraduate Course Rotation:

Fall
COMM 310 Communication Theory and Discovery
COMM 376 Communication and Culture
COMM 384 Interpersonal Communication

Spring
COMM 351 Persuasion Theory and Practice
COMM 370 Organizational Communication
COMM 495 Communication Internship

Requirements
Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Option 4:

Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

Option 5:

Obtain college certification of completion of three years of a second language at the high school level with a grade of C- or higher in the second-year level.

Option 6:

By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

Option 7:

By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

Option 8:

In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

Communication and National Security - Undergraduate Minor

A minor in Communication and National Security consists of 18 credits, 12 credits of required courses and 6 credits of electives. All courses must be completed with grades of "C-" or better.

<table>
<thead>
<tr>

<td>Interpersonal Communication</td>
<td>3</td>
</tr>
</tbody>
</table>

**Additional Courses**

Select 6 credits of additional Communication Studies courses: 6

Total Credits: 18

**Communication Studies - Master of Arts**

The department offers thesis, comprehensive exam, and applied project options in its Masters of Arts program. All options require a minimum of 36 credits, which includes not only Communication Studies courses but at least one course from outside the department. The thesis option requires at least 30 credits of coursework, 6 credits of thesis hours (COMM 599 Master’s Thesis), and an oral defense of the thesis and coursework. The comprehensive exam option requires 36 credits of coursework, plus six hours of written examination, followed by an oral defense. The applied project option requires at least 30 credits of coursework, 6 credits of project hours (COMM 598 MA PROJECT) and an oral defense of the project and coursework. All options require a minimum of 30 credit hours of Communication Studies courses.

Select 15 credits from Communication Studies electives for the thesis option. Take 15 credits plus at least 3 credits from related disciplines for the comprehensive exam option. Two courses (6 credits) for courses that have numbers 450+ can be counted. For all options, a total of 36 credits is required.

An M.A. Tracking Form for thesis, comprehensive exam, and applied project options is found on the department website:

**Graduate course rotation:**

**Fall**

COMM 540 Seminar in Political communication

**Thesis Option:**

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>Title</th>
<th>Credits</th>

<tr>
<td>COMM 576</td>
<td>Seminar on Communication and Culture</td>
<td></td>
</tr>
<tr>
<td>COMM 584</td>
<td>Seminar in Interpersonal Communication</td>
<td></td>
</tr>
</tbody>
</table>

**Electives**

Select 9-12 credits of COMM Electives: 9-12

Select 3-6 credits must be from courses in Related Fields (outside of COMM courses and must be numbered 450+): 3-6

**Thesis**

COMM 599 Master’s Thesis: 6

Total Credits: 33-39

In order to graduate, students will need a total of 36 credits, of which 30 credits must be from COMM coursework. Please consult your advisor about your specific requirements and how to complete them in order to graduate.

**Comprehensive Exam Option:**

<table>
<thead>
<tr>
<th>Degree Requirements</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMM 505</td>
<td>Research Methods</td>
<td>3</td>
</tr>
<tr>
<td>or COMM 506</td>

<td>Seminar in Interpersonal Communication</td>
<td></td>
</tr>
</tbody>
</table>

Electives

Select 9-12 credits from Electives in Related Fields, 3-6 credits from (graduate levels; numbered 450+).

Select 3-6 credits must be from courses in Related Fields (outside of COMM courses and must be numbered 450+).

Project Option

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMM 598</td>
<td>MA PROJECT</td>
<td>6</td>
</tr>
</tbody>
</table>

Total Credits 33-39

A GPA of 3.0 or better must be maintained overall and grades in each course must be a B or better.

Communication and National Security - Graduate Minor

This minor is aimed at graduate students who seek employment in national security, intelligence, international business, military affairs in other nations, and other positions which require knowledge of how communication affects the national image of the United States and how Americans communicate with members of other cultures about political matters. Graduate students will be required to write a special analysis for each course that is not required of the undergraduate students. Each graduate student will also be required to present a one-hour lecture on an area of research specialization.

Requirements

Students will take three of four courses below plus one outside course approved by the department. The list below is our expected course rotation.

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMM 555</td>
<td>Seminar Fundamentals of Communication and National Security</td>

<td>Seminar Intercultural Communication and National Security</td>
<td></td>
</tr>
</tbody>
</table>

Other Departments

Select one from the following:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG 501</td>
<td>Research Design and History of Geographic Thought</td>
</tr>
<tr>
<td>HIST 561</td>
<td>Islam and the West: Cultural Contacts, Conflicts and Exchanges</td>
</tr>
<tr>
<td>SOC 489</td>
<td>Globalization</td>
</tr>
</tbody>
</table>

Total Credits 12

1. The courses from other departments can include special topics courses or related courses relevant to this minor, as well as regular courses such as the ones listed.
2. Should focus research project on national security.
3. Pre-requisites or co-requisites include HIST 221G Islamic Civilizations to 1800 or HIST 222G Islamic Civilizations since 1800.

Communication Studies - Graduate Minor

Entrance Requirements for Graduate Study in Communication Studies

Students wishing to enroll in the Master program in Communication Studies must meet the following criteria:

1. Hold a BA or BS degree, from an accredited institution of higher learning. Social Science disciplines are preferred.
2. Hold a minimum grade point average of 3.00

*The Graduate Record Exam (GRE) General Test is not required for admission; however, existing GRE scores that are high will strengthen a candidate’s application and are highly regarded in the awarding of Graduate Assistantships.

To apply for graduate study in our department, students must first apply to the NMSU Graduate School and must be prepared to include the following application materials:

- Official Transcripts
- A Letter of Intent, please include if you intend to apply for a Graduate Teaching Assistantship
- Three letters of recommendation, one of which must be academic in nature
- Current Vitae/Resume
- A sample of scholarly writing
Students who wish to take a minor in Communication Studies will need to accumulate a minimum of 9 graduate credits in Communication Studies courses. Students are encouraged to contact the Communication Studies Department Chair for directions in the selection of courses.

**Computer Science**

Computer Science is the area of study that encompasses all of the theory and practice of computing. The mission of the Department of Computer Science at New Mexico State University is to provide formal education in the core disciplines of computer science, as well as to prepare our graduates for research, development and academic careers. For more information on the Department of Computer Science, please visit the website [www.cs.nmsu.edu](http://www.cs.nmsu.edu).

**Undergraduate Program Information**

The undergraduate computer science programs prepare students for graduate study in computer science and for employment in positions involving the design, construction and application of computer systems. Undergraduate degree programs include a Bachelor of Science (ABET accredited), Bachelor of Arts, and four minor degree tracks. The B.S. degree is the traditional computer science degree program, while the B.A. degree offers a more open, flexible degree plan that is easier to combine with studies in other disciplines. The minors offer specialized tracks in algorithm theory, bioinformatics, computer systems and software development. With technology underpinning almost every area of human endeavor today, students across NMSU should consider pursuing a minor or at least taking some computer science courses. Computer science majors should review their programs of study in consultation with their advisors each semester, preferably using the most recent Undergraduate Catalog.

**Graduate Program Information**

The department offers both Master of Science and Doctor of Philosophy graduate degrees in computer science, along with a Master of Science in Bioinformatics. We also encourage students in other disciplines to do a graduate minor in computer science. Graduate students typically work closely with a faculty member in a specific area of research. The department offers expertise in several research areas, such as: artificial intelligence and knowledge representation; computer and wireless networks; data mining and machine learning; game design and human-computer interaction; bioinformatics; high performance computing; software engineering and programming languages; theory of computing; and assistive technologies.

A number of laboratories have been established to coordinate research activities, including:

- the Knowledge representation, Logic and Advanced Programming (KLAP) lab,
- the Play and Interactive Experiences for Learning (PiXIL) lab,
- the Knowledge Discovery and Data Mining (KDD) lab,
- the Programming Languages, Environments, and Automated Software Engineering (PLEASE) lab,
- the Bioinformatics Research lab,
- the Cryptography, Privacy and Security Research (CrySPR) lab; and
- the Network and Systems Optimization Lab (NSOL).

Department members are also directing the iCREDITS interdisciplinary Center of Research Excellence in Design of Intelligent Technologies for Smartgrids, offering educational and research opportunities in smartgrids.

**Entrance Requirements for Graduate Study in Computer Science**

The Graduate Record Exam (GRE) General Test is not required for admission; however, high GRE scores will strengthen a candidate's application and are highly regarded in the awarding of Graduate Assistantships. To be admitted without undergraduate deficiencies, an entering student must have completed undergraduate preparation substantially equivalent to that required for the Bachelor of Science degree in Computer Science at New Mexico State University; in particular, this includes courses equivalent to:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>C S 172</td>
<td>Computer Science I</td>

<td>3</td>
</tr>
</tbody>
</table>

Deficiencies should be satisfied as early in the student graduate program as possible, through the regular undergraduate courses, the C S 460 - C S 469 transition courses, or through tests administered by faculty members in the relevant areas. Students should consult with their Graduate Advisor to address issues related to deficiencies. Deficiencies are also assigned to applicants whose transcripts denote low grades in selected areas. Admission is often denied to candidates with little background in Computer Science. Instructions for prospective applicants can be found at [https://www.cs.nmsu.edu](http://https://www.cs.nmsu.edu).

**Entrance Requirements for Graduate Study in Bioinformatics**

The Graduate Record Exam (GRE) General Test is not required for admission; however, high GRE scores will strengthen a candidate’s application and are highly regarded in the awarding of Graduate Assistantships. Students wishing to enroll in the Master program in Bioinformatics must meet the following criteria:

1. Hold a BS degree, from an accredited institution of higher learning, in either a computational field (e.g., Computer Science) or in life sciences (preferably Biology, Biochemistry, or Environmental Sciences)
2. Hold a minimum grade point average of 3.2

Applicants will be expected to provide a Career statement, motivating the interest in bioinformatics and a minimum of three letters of reference.

**Graduate Assistantships**

Graduate assistantships (in the form of Teaching and Research assistantships) are expected to be available during the academic year. Inquiries should be addressed to the departmental Graduate Committee. Research assistantships are available at the discretion of individual research project leaders in the Department or elsewhere on campus.
Degrees for the Department

Computer Science - Bachelor of Arts (p. 319)
Computer Science - Bachelor of Science (p. 322)
Computer Science - Bachelor of Science/Master of Science (p. 325)
Bioinformatics - Master of Science (p. 327)
Computational Data Analytics - Master of Computational Data Analytics
Computer Science - Master of Science (p. 329)
Computer Science - Doctor of Philosophy (p. 330)

Minors for the Department

A student cannot earn more than one of the undergraduate minors unless they pass at least 6 credits in the second minor beyond the requirements of the first minor. The maximum number of undergraduate minors that a student may earn is two. Most courses for the minors listed below have prerequisites. Please check the undergraduate catalog for individual course prerequisites. Students interested in pursuing a computer science minor are encouraged to pick up more information at the departmental office.

Algorithm Theory - Undergraduate Minor (p. 326)
Bioinformatics - Undergraduate Minor (p. 327)
Computer Systems - Undergraduate Minor (p. 327)
Software Development - Undergraduate Minor (p. 327)
Computer Science - Graduate Minor (p. 330)

Faculty

Professor Son Tran, Department Head

Professors Cook, Leung, Pontelli, Song, Tran; Associate Professors Cao, Misra, Pivkina, Toups; Assistant Professors Hamilton, Nagarkar, Vishwanathan; College Professors Cooper, Steiner

J. Cook, Ph.D. (Colorado) – software engineering, component-based systems; H. Cao, Ph.D. (Hong-Kong) – data mining, databases, data integration; W. Hamilton, Ph.D. (Texas A&M) – media design, online communities, online education, and video game design/culture; H. Leung, Ph.D. (Penn State) – automata theory; S. Misra, Ph.D. (Arizona State) – communication networks, social networks, high performance computing, security and privacy; P. Nagarkar, Ph.D. (Arizona State) – query optimization, indexing, data analytics, big data; I. Pivkina, Ph.D. (Kentucky) – artificial intelligence, computer science education, data mining; E. Pontelli, Ph.D. (New Mexico State) – parallel processing, logic programming, knowledge representation, bioinformatics, assistive technologies; M. Song, Ph.D. (Washington) – statistical computing, systems biology, bioinformatics, computer vision; Z. Toups, Ph.D. (Texas A&M) – digital games, human-computer interaction, mixed reality, S. Tran, Department Head, Ph.D. (Texas-El Paso) – artificial intelligence, knowledge representation, planning, logic programming, non-monotonic reasoning; R. Vishwanathan, Ph.D. (North Texas) – cryptography, theoretical and applied, security, privacy.

College Faculty:

S. Cooper, Ph.D. (New Mexico State) – computer networks; E. Steiner, Ph.D. (Oklahoma State) – computer science education

Visiting Faculty:

Y. Zhang, Ph.D. (New Mexico) – computer graphics, 3D-simulation.

Computer Science Courses

C S 110. Computer Literacy
3 Credits
This course provides a broad introduction to computing, including computer and information technology concepts; economic and social implications of technology; database management, spreadsheet, word processing, and presentation applications.

Prerequisite(s):
MATH 120 or higher.

C S 111. Computer Science Principles
4 Credits (3+2P)
This course provides a broad and exciting introduction to the field of computer science and the impact that computation has today on every aspect of life. It focuses on exploring computing as a creative activity and investigates the key foundations of computing: abstraction, data, algorithms, and programming. It looks into how connectivity and the Internet have revolutionized computing and demonstrates the global impact that computing has achieved, and it reveals how a new student in computer science might become part of the computing future.

Prerequisite(s):
MATH 120 or higher.

C S 117. Introduction to Computer Animation
3 Credits
Introductory course for learning to program with computer animation as well as learning basic concepts in computer science. Students create interactive animation projects such as computer games and learn to use software packages for creating animations in small virtual worlds using 3D models. Recommended for students considering a minor/major in computer science or simply interested in beginning computer animation or programming.

Prerequisite(s):
MATH 120 or higher.

C S 150. C Programming
3 Credits (2+2P)
Programming in the C language. May be repeated up to 3 credits.

Prerequisite(s):
MATH 120 or higher.

C S 151. C++ Programming
3 Credits (2+2P)
Introduction to object-oriented programming in the C++ language. May be repeated up to 3 credits.

Prerequisite(s):
MATH 120 or higher.

C S 152. Java Programming
3 Credits (2+2P)
Programming in the Java language. May be repeated up to 3 credits.

Prerequisite(s):
MATH 120 or higher.

C S 153. Python Programming I
3 Credits
This course is an introduction to programming in the Python language, covering fundamental scripts, data types and variables, functions, and simple object creation and usage. The focus will be on preparing students to use Python in their own areas. No prior programming experience is required.

Prerequisite(s):
MATH 120 or higher.
C S 154. Python Programming II  
3 Credits  
This course covers advanced Python programming, including classes, objects, and inheritance, embedded programming in domain applications, database interaction, and advanced data and text processing. The focus will be on preparing students to use Python in their own areas.  
Prerequisite(s): C S 153 or C S 453.

C S 155. Internet Programming I  
3 Credits  
This course is an introduction to programming for the Web in PHP and Javascript, covering fundamental web scripting ideas, CSS, data types and variables, functions, simple object creation and usage. Javascript usage will focus on dynamic page content. No prior programming experience is required, though a basic understanding of HTML will be assumed.  
Prerequisite(s): MATH 120 and a basic understanding of HTML.

C S 156. Internet Programming II  
3 Credits  
This course covers advanced web scripting, including Javascript with AJAX, PHP integration with databases, object oriented features of PHP and Javascript, advanced CSS usage, and using web application frameworks.  
Prerequisite(s): C S 155 or C S 455.

C S 157. Topics in Software Programming and Applications  
3 Credits (2+2P)  
Current topics in computer programming and software applications. Topic announced in the Schedule of Classes. May be repeated if subtitle is different.

C S 158. R Programming I  
3 Credits  
This course is an introduction to data processing in the R language, covering fundamental script configuration, data types and data collections, R control structures, and basic creation of graphs and data visualizations. This course will not focus on the statistical capabilities of R, though some basic statistical computations will be used.  
Prerequisite(s): MATH 121G.

C S 159. R Programming II  
3 Credits  
This course covers advanced R programming, including advanced data collection processing, advanced data visualizations, object oriented features of R, and file processing. It is recommended that students have one statistics course before taking this course.  
Prerequisite(s): C S 158 or C S 458.

C S 171G. Introduction to Computer Science  
4 Credits (3+2P)  
Computational problem solving; problem analysis; implementation of algorithms using Java. Object-oriented concepts, arrays, searching, sorting, and recursion. May be repeated up to 4 credits. Crosslisted with: C S 460.  
Prerequisite(s): MATH 121G or higher; C S 111 or successful placement.

C S 209. Special Topics.  
1-3 Credits  
May be repeated for a maximum of 12 credits.

C S 271. Object Oriented Programming  
4 Credits (3+2P)  
Introduction to problem analysis and problem solving in the object-oriented paradigm. Practical introduction to implementing solutions in the C++ language. Pointers and dynamic memory allocation. Hands-on experience with useful development tools. May be repeated up to 4 credits.  
Prerequisite(s): At least a C- in C S 172 or E E 112.

C S 272. Introduction to Data Structures  
4 Credits (3+2P)  
Design, implementation, use of fundamental abstract data types and their algorithms: lists, stacks, queues, deques, trees; imperative and declarative programming. Internal sorting; time and space efficiency of algorithms.  
Prerequisite(s): At least a C- in C S 172, or placement.

C S 273. Machine Programming and Organization  
4 Credits (3+2P)  
Computer structure, instruction execution, addressing techniques; programming in machine and assembly languages. May be repeated up to 4 credits.  
Prerequisite(s): At least a C- in C S 172 or E E 112.

C S 274. Discrete Mathematics for Computer Science  
4 Credits (3+2P)  
Discrete mathematics required for Computer Science, including the basics of logic, number theory, methods of proof, sequences, mathematical induction, set theory, counting, and functions. Crosslisted with: MATH 278.  
Prerequisite(s): At least C- in C S 172.

C S 343. Algorithm Design & Implementation  
3 Credits  
Prerequisite(s): At least a C- in C S 272, or consent of instructor.

C S 370. Compilers and Automata Theory  
4 Credits (3+2P)  
Methods, principles, and tools for programming language processor design; basics of formal language theory (finite automata, regular expressions, context-free grammars); development of compiler components. May be repeated up to 4 credits.  
Prerequisite(s): At least a C- in C S 271, C S 272, and C S 273.

C S 371. Software Development  
4 Credits (3+2P)  
Software specification, design, testing, maintenance, documentation; informal proof methods; team implementation of a large project.  
Prerequisite(s): At least a C- in C S 271 and C S 272.
C S 372. Data Structures and Algorithms  
4 Credits (3+2P)
Prerequisite(s): At least a C- in CS 272 and CS 278.

C S 375. Introduction to Intelligent Agents Using Science Fiction  
3 Credits
This course uses science-fiction movies to introduce fundamental principles and techniques in agents and multi-agent systems. It covers game theory, decision theory, machine learning, and distributed systems.

C S 409. Independent Study  
1-6 Credits (1-6)
Faculty supervised investigation, to culminate in a written report. May be repeated up to 6 credits.
Prerequisite(s): Written agreement with faculty supervisor.

C S 419. Computing Ethics and Social Implications of Computing  
1 Credit
An overview of ethics for computing majors includes: history of computing, intellectual property, privacy, ethical frameworks, professional ethical responsibilities, and risks of computer-based systems. May be repeated up to 1 credits. S/U Grading (S/U, Audit).
Prerequisite(s): At least a C- in CS 371.

C S 448. Senior Project  
4 Credits
Capstone course in which CS majors work in teams and apply computer science skills to complete a large project. May be repeated up to 4 credits. Consent of Instructor required. Restricted to: CS majors.
Prerequisite(s): At least a C- in CS 370 and CS 371.

C S 449. Senior Thesis  
4 Credits
Capstone course in which CS majors apply computer science skills to complete a research project, culminating in a written thesis report. May be repeated up to 4 credits. Consent of Instructor required. Restricted to: CS majors.
Prerequisite(s): At least a C- in CS 370 and CS 371.

C S 450. C Programming  
3 Credits (2+3P)
Programming in the C language. More advanced than CS 150. Recommended for nonmajors only. May be repeated up to 3 credits.
Prerequisite(s): Graduate standing.

C S 451. C++ Programming  
3 Credits
Programming in the C language. More advanced than CS 151. Recommended for nonmajors only. May be repeated up to 3 credits.
Prerequisite(s): Graduate standing.

C S 452. Java Programming  
3 Credits (2+2P)
Programming in the Java language. More advanced than CS 152. Recommended for nonmajors only. May be repeated up to 3 credits.
Prerequisite(s): Graduate standing.

C S 453. Python Programming I  
3 Credits
This course is an introduction to programming in the Python language, covering fundamental scripts, data types and variables, functions, and simple object creation and usage. The focus will be on preparing students to use Python in their own areas. No prior programming experience is required. More advanced than CS 153. May be repeated up to 3 credits. Restricted to: exclude Computer Science majors.
Prerequisite(s): Understanding of college algebra or higher.

C S 454. Python Programming II  
3 Credits
This course covers advanced Python programming, including classes, objects, and inheritance, embedded programming in domain applications, database interaction, and advanced data and text processing. The focus will be on preparing students to use Python in their own areas. For graduate students only. Has more advanced work than CS 154, and does not count towards CS major requirements. May be repeated up to 3 credits. Graduate standing. Not for CS students.
Prerequisite(s): CS 153 or CS 453.

C S 455. Internet Programming I  
3 Credits
This course is an introduction to programming for the Web in PHP and Javascript, covering fundamental web scripting ideas, CSS, data types and variables, functions, simple object creation and usage. Javascript usage will focus on dynamic page content. No prior programming experience is required, though a basic understanding of HTML will be assumed. For graduate students only. Has more advanced work than CS 155. Does not count towards CS major requirements. May be repeated up to 3 credits. Graduate standing. Not for CS students. Restricted to: exclude CS majors.
Prerequisite(s): MATH 120 and a basic understanding of HTML.

C S 456. Internet Programming II  
3 Credits
This course covers advanced web scripting, including Javascript with AJAX, PHP integration with databases, object oriented features of PHP and Javascript, advanced CSS usage, and using web application frameworks. For graduate students only. Has more advanced work than CS 156. Does not count towards CS major requirements. May be repeated up to 3 credits. Graduate standing. Not for CS students. Restricted to: exclude CS majors.
Prerequisite(s): CS 155 or CS 455.

C S 457. Topics in Software Programming and Applications  
3 Credits (2+2P)
Current topics in computer programming and software applications. Topic announced in the Schedule of Classes. More advanced than CS 157. Recommended for non-majors only. May be repeated if subtitle is different.
Prerequisite(s): Graduate standing.

C S 458. R Programming I  
3 Credits
This course covers advanced R programming, including Javascript with Ajax, PHP integration with databases, object-oriented features of PHP and Javascript, advanced CSS usage, and using web application frameworks. For graduate students only. Has more advanced work than CS 158. Does not count towards CS major requirements. May be repeated up to 3 credits.
Prerequisite(s): Good understanding of college algebra or higher.
C S 459. R Programming II
3 Credits
This course covers advanced R programming, including advanced data collection processing, advanced data visualizations, object oriented features of R, and file processing. It is recommended that students have one statistics course before taking this course. For graduate students only. Has more advanced work than C S 159, and does not count towards CS major requirements. May be repeated up to 3 credits. Crosslisted with: C S 469. Graduate standing. Restricted to: exclude computer science majors.

Prerequisite(s): C S 158 or C S 458.

C S 460. Computer Science I Transition
3 Credits
Computational problem solving; problem analysis; implementation of algorithms. Recursive structures and algorithms. For C S graduate students only; cannot be used to meet a C S student’s program of study. Taught with C S 172. May be repeated up to 3 credits. Consent of Instructor required. Crosslisted with: C S 172.

C S 462. Object Oriented Programming Transition
3 Credits
Introduction to problem analysis and problem solving in the object-oriented paradigm. Practical introduction to implementing solutions in the C++ language. Hands-on experience with useful development tools. Cannot be used in a C S student’s program of study. Consent of Instructor required.

Prerequisite(s): At least a C- in C S 172 or C S 460 or consent of instructor.

C S 463. Introduction to Data Structures Transition
3 Credits
Design, implementation, use of fundamental abstract data types and their algorithms: lists, stacks, queues, deques, trees; imperative and declarative programming. Internal sorting; time and space efficiency of algorithms. Cannot be used in a C S student’s program of study. Consent of Instructor required.

Prerequisite(s): At least a C- in C S 172 or C S 460 or consent of instructor.

C S 464. Machine Programming and Organization Transition
3 Credits
Computer structure, instruction execution, addressing techniques; programming in machine and assembly languages. Cannot be used in a C S student’s program of study. Consent of Instructor required.

Prerequisite(s): At least a C- in C S 172 or C S 460 or consent of instructor.

C S 465. Discrete Math for Computer Science Transition
3 Credits
Logical connectives, sets, functions, relations, graphics, trees, proofs, induction, and application to computer science. Cannot be used in a C S student’s program of study. Consent of Instructor required.

Prerequisite(s): At least a C- in C S 172 or C S 460 or consent of instructor.

C S 466. Compilers and Automata Transition
3 Credits
Methods, principles, and tools for programming language processor design; basics of formal language theory (finite automata, regular expressions, context-free grammars); development of compiler components. For C S graduate students only; cannot be used in a students program of study. May be repeated up to 3 credits. Consent of Instructor required.

Prerequisite(s): At least a C in (C S 271 or C S 462), in (C S 272 or C S 463), in (C S 273 or C S 464), or consent of instructor.

C S 468. Software Development Transition
3 Credits
Software specification, design, testing, maintenance, documentation; informal proof methods; team implementation of a large project. Cannot be used in a C S student’s program of study. Consent of Instructor required.

Prerequisite(s): At least a C- in C S 271 or C S 462, in C S 272 or C S 463, or consent of instructor.

C S 469. Data Structure and Algorithms Transition
3 Credits

Prerequisite(s): At least a C- in C S 272 or C S 463, in C S 278 or C S 465, or consent of instructor.

C S 471. Programming Language Structure I
3 Credits
Syntax, semantics, implementation, and application of programming languages; abstract data types; concurrency. Not for C S graduate students. May be repeated up to 3 credits.

Prerequisite(s): At least a C- in C S 370 and C S 371.

C S 473. Architectural Concepts I
3 Credits
Comparison of architectures to illustrate concepts of computer organization; relationships between architectural and software features. Not for C S graduate students.

Prerequisite(s): At least a C- in C S 273 and C S 370.

C S 474. Operating Systems I
3 Credits
Operating system principles and structures, and interactions with architectures. Not for C S graduate students.

Prerequisite(s): At least a C- in C S 273, C S 371, and C S 372.

C S 475. Artificial Intelligence I
3 Credits
Fundamental principles and techniques in artificial intelligence systems. Intelligent Agents; solving problems by searching; local search techniques; game-playing agents; constraint satisfaction problems; knowledge representation and reasoning. Further selected topics may also be covered. Not for C S graduate students.

Prerequisite(s): At least a C- in C S 272 and C S 278.

C S 476. Computer Graphics I
3 Credits
Languages, programming, devices, and data structures for representation and interactive display of complex objects. Not for C S graduate students.

Prerequisite(s): At least C- in C S 370 or C S 371.
C S 477. Digital Game Design
3 Credits
An introduction to digital game design. Topics include design, development, and playtesting of games. The course is structured to use team-based learning. Not for C S graduate students.
Prerequisite(s)/Corequisite(s): C S 371 or consent of instructor.

C S 478. Computer Security
3 Credits
Introduction to the art and science of computer security. Fundamentals of computer security including elementary cryptography, authentication and access control, security threats, attacks, detection and prevention in application software, operating systems, networks and databases. May be repeated up to 3 credits.
Prerequisite(s): At least a C- in C S 272, C S 273 or consent of instructor.

C S 479. Special Topics
1-12 Credits
Topics announced in the Schedule of Classes. May be repeated under different subtitles. Not for C S graduate students. May be repeated up to 12 credits.

C S 480. Linux System Administration
3 Credits
Basic system administration for Linux environments. Topics include user management, file systems, security, backups, system monitoring, kernel configuration and other relevant aspects of system administration. Not for Computer Science graduate students.

C S 481. Visual Programming
3 Credits
Design and implementation of programs using visual (i.e. dataflow or diagrammatic) programming techniques, with an emphasis on real-time data processing. Students will learn how to design visual programs, including how to handle cycles and state maintenance, and will learn to process audio, video, and other data using visual programs. Not for C S graduate students. May be repeated up to 3 credits.
Prerequisite(s): At least a C- in C S 272 and C S 278.

C S 482. Database Management Systems I
3 Credits
Database design and implementation; models of database management systems; privacy, security, protection, recovery. Not for C S graduate students.
Prerequisite(s): At least a C- in C S 272 and C S 278.

C S 483. Introduction to Robotics
3 Credits
Basic AI-based robotic architecture and concepts, with an emphasis on building and programming mobile robots. Not for C S graduate students. Consent of Instructor required.
Prerequisite(s): At least a C- in C S 272 and C S 278.

C S 484. Computer Networks I
3 Credits
Fundamental concepts of computer communication networks: layered network architecture, network components, protocol stack and service. Example of application, transport, network and data link layers, protocols primarily drawn from the Internet (TCP, UDP, and IP) protocol multimedia networks; network management and security. Not for C S graduate students. Consent of Instructor required.
Prerequisite(s): At least a C- in C S 272 and CS 273.

C S 485. User Interface Design
3 Credits
Covers iterative, human-centered interface design, including prototyping and evaluation. Basics of graphic design and visualization. Not for C S graduate students.
Prerequisite(s): At least C- in C S 371.

C S 486. Bioinformatics
3 Credits
Introduction to bioinformatics and computational biology. Computational approaches to sequences analysis, protein structure prediction and analysis, and selected topics from current advances in bioinformatics. Not for C S graduate students.
Prerequisite(s): At least a C- in C S 272 and C S 278.

C S 487. Applied Machine Learning I
3 Credits
An introductory course on practical machine learning. An overview of concepts for both unsupervised and supervised learning. Topics include classification, regression, clustering, and dimension reduction. Classical methods and algorithms such as linear regression, neural networks, support vector machines, and ensemble approaches. Recent techniques such as deep learning. Focused on applying of machine learning techniques in application domains. Not for Graduate Majors. Crosslisted with: C S 519.
Prerequisite(s): At least a C- in C S 272, MATH 191G; or consent of instructor.

C S 488. Introduction to Data Mining
3 Credits
Techniques for exploring large data sets and discovering patterns in them. Data mining concepts, metrics to measure its effectiveness. Methods in classification, clustering, frequent pattern analysis. Selected topics from current advances in data mining. Taught with C S 508.
Prerequisite(s): At least a C- in C S 272 and C S 278.

C S 489. Bioinformatics Programming
3 Credits
Application of computer programming languages to address data processing and analysis problems in modern molecular biology. R/Perl/Python programming; Web API programming. Automatic manipulation of next generation sequence data, analysis of large gene expression tables, access to online biological databases, performing statistical analysis, and visualization of data and results. Taught with C S 509.
Prerequisite(s): At least a C- in C S 272 and C S 278.

C S 491. Parallel Programming
3 Credits
Programming of shared memory and distributed memory machines; tools and languages for parallel programming; techniques for parallel programming; parallel programming environments. Not for C S graduate students. May be repeated up to 3 credits.
Prerequisite(s): At least a C- in C S 370 or consent of instructor.
C S 493. Algorithm Design and Implementation
3 Credits
This course introduces the basic knowledge of designing classical algorithms and implementing these algorithms using a programming language. In particular, the course teaches various data structures, including graphs and balanced binary search trees, and efficient schemes to implement these data structures. This course also teaches basic algorithm design techniques including divide-and-conquer, greedy scheme, and dynamic programming. This course covers graph algorithms, including graph traversals (depth-first search and breadth-first search), connectivity, shortest paths, and minimum spanning trees. May be repeated up to 3 credits. Graduate standing. Not for CS students. Restricted to: C S majors.
Prerequisite(s): At least a C- in C S 272, or Consent of Instructor.

C S 494. Introduction to Smart Grids
3 Credits
This course is an introduction to the technologies and design strategies associated with the Smart Grid. The emphasis will be on the development of communications, energy delivery, coordination mechanisms, and management tools to monitor transmission and distribution networks. Topics include: Smart grid introduction and evolution; Power systems; Networking and transport control; Artificial intelligence & agent coordination; Data mining for smart grids.
Prerequisite(s): At least a C- in C S 272 and a C- in E E 201 or 280; or Consent of instructor.

C S 496. Cloud and Edge Computing
3 Credits
The course presents a top-down view of cloud computing, from applications and administration to programming and infrastructure. Its main focus is on the concepts of networking and parallel programming for cloud computing and large scale distributed systems which form the cloud infrastructure. The topics include: overview of cloud computing, cloud systems, parallel processing in the cloud, distributed storage systems, virtualization, security in the cloud, and multicore operating systems. Students will study state-of-the-art approaches to cloud computing followed by large cloud corporations, namely Google, Amazon, Microsoft, and Yahoo. Students will also apply what they learn through project developments using Amazon Web Services. Not for graduate CS majors. Crosslisted with: C S 522.
Prerequisite(s): At least a C- in C S 372; background in C S 484/504 is preferred or consent of instructor.

C S 502. Database Management Systems I
3 Credits
Database design and implementation; models of database management systems; privacy, security, protection, recovery; requires more advanced graduate work than C S 482. Students are expected to have solid knowledge of data structures and discrete mathematics.

C S 503. Introduction to Robotics
3 Credits
Basic AI-based robotic architectures and concepts, with an emphasis on building and programming mobile robots; requires more advanced graduate work than C S 483. Students are expected to have solid knowledge of data structures and machine-level programming.

C S 504. Computer Networks I
3 Credits
Fundamental concepts of computer communication networks: layered network architecture, network components, protocol stack and service. Example of application, transport, network and data link layers, protocols primarily drawn from the Internet (TCP UDP, and IP) protocol suite; local and wide area networks, wireless and mobile networks, multimedia networks; network management and security; requires more advanced graduate work than C S 484. Students are expected to have solid knowledge of data structures, machine-level programming. Knowledge of statistics (at the level of STAT 371 or 470) is recommended.

C S 505. Artificial Intelligence I
3 Credits
Fundamental principles and techniques in artificial intelligence systems. Knowledge representation formalisms; heuristic problem solving techniques; automated logical deduction; robot planning methods; algorithmic techniques for natural language understanding, vision and learning; requires more advanced graduate work than C S 475. Students are expected to have strong knowledge of algorithms and data structures (at the level of C S 372).

C S 506. Computer Graphics I
3 Credits
Languages, programming, devices, and data structures for representation and interactive display of complex objects. Requires more advanced graduate work than C S 476. Students are expected to have knowledge of compilers design and software engineering equivalent to CS 370 and CS 371.

C S 508. Introduction to Data Mining
3 Credits
Techniques for exploring large data sets and discovering patterns in them. Data mining concepts, metrics to measure its effectiveness. Methods in classification, clustering, frequent pattern analysis. Selected topics from current advances in data mining. Students are expected to have a preparation in Discrete Mathematics and Data Structures equivalent to C S 272 and C S 278. Requires more advanced graduate work than C S 488. Crosslisted with: C S 488.

C S 509. Bioinformatics Programming
3 Credits
Application of computer programming languages to address data processing and analysis problems in modern molecular biology. R/Perl/Python programming; Web API programming. Automatic manipulation of next generation sequence data, analysis of large gene expression tables, access to online biological databases, performing statistical analysis, and visualization of data and results. Requires a preparation in discrete mathematics and data structures equivalent to C S 272 and C S 278. Taught with C S 489.

C S 510. Automata, Languages, Computability
3 Credits
Regular and context-free languages, pushdown and finite-slate automata, turing machines, models of computation, halting problems. Students are expected to have knowledge of compilers design and algorithms equivalent to C S 370 and C S 372.
C S 513. Computer Security
3 Credits
Introduction to the art and science of computer security. Fundamentals of computer security including elementary cryptography, authentication and access control, security threats, attacks, detection and prevention in application software, operating systems, networks and databases. Recommended knowledge of materials in Computer Science 472 and Computer Science 473. May be repeated up to 3 credits.
Prerequisite(s): At least a C in Computer Science 273 or consent of instructor.

C S 514. Introduction to Smart Grids
3 Credits
This course is an introduction to the technologies and design strategies associated with the Smart Grid. The emphasis will be on the development of communications, energy delivery, coordination mechanisms, and management tools to monitor transmission and distribution networks. Topics include: Smart grid introduction and evolution; Power systems; Networking and transport control; Artificial intelligence & agent coordination; Data mining for smart grids. Requires more advanced work than Computer Science 494.
Prerequisite(s): At least a C- in Computer Science 272 and a C- in Electrical Engineering 201 or 280; or Consent of instructor.

C S 515. Human-Centered Computing
3 Credits
Covers iterative, human-centered interface design, including prototyping and evaluation. Basics of graphic design and visualization. Requires more advanced graduate work than Computer Science 485 with an emphasis on studying recent research in human-computer interaction. Students are expected to have knowledge of software engineering equivalent to Computer Science 371.

C S 516. Bioinformatics
3 Credits
Introduction to bioinformatics and computational biology. Computational approaches to sequences analysis, protein structure prediction and analysis, and selected topics from current advances in bioinformatics; requires more advanced graduate work than Computer Science 486. Students are expected to have a knowledge of algorithms and data structures equivalent to Computer Science 372 or exposure to Biology (equivalent to Biology 221 or Biology 311).

C S 517. Digital Game Design
3 Credits
An introduction to digital game design. Topics include design, development, and playtesting of games. The course is structured to use team-based learning. Requires more advanced graduate work than Computer Science 477 with deeper attention to a team game project.

C S 518. Visual Programming
3 Credits
Design and implementation of programs using visual (i.e. dataflow or diagrammatic) programming techniques, with an emphasis on real-time data processing. Students will learn how to design visual programs, including how to handle cycles and state maintenance, and will learn to process audio, video, and other data using visual programs. Requires more advanced graduate work than Computer Science 481. May be repeated up to 3 credits.
Prerequisite(s): graduate standing.

C S 519. Applied Machine Learning I
3 Credits
An introductory course on practical machine learning. An overview of concepts for both unsupervised and supervised learning. Topics include classification, regression, clustering, and dimension reduction. Classical methods and algorithms such as linear regression, neural networks, support vector machines, and ensemble approaches. Recent techniques such as deep learning. Focused on applying of machine learning techniques in application domains. Crosslisted with: Computer Science 487.

C S 521. Parallel Programming
3 Credits
Programming of shared memory and distributed memory machines; tools and languages for parallel programming; parallelizing compilers; parallel programming environments; requires more advanced graduate work than Computer Science 491. Students are expected to have knowledge of programming and machine organization equivalent to Computer Science 271 and Computer Science 273.

C S 522. Cloud and Edge Computing
3 Credits
The course presents a top-down view of cloud computing, from applications and administration to programming and infrastructure. Its main focus is on the concepts of networking and parallel programming for cloud computing and large scale distributed systems which form the cloud infrastructure. The topics include: overview of cloud computing, cloud systems, parallel processing in the cloud, distributed storage systems, virtualization, security in the cloud, and multicore operating systems. Students will study state-of-the-art approaches to cloud computing followed by large cloud corporations, namely Google, Amazon, Microsoft, and Yahoo. Students will also apply what they learn through project developments using Amazon Web Services. Might have additional requirements for graduate students. Crosslisted with: Computer Science 496.
Prerequisite(s): background in Computer Science 484/504 is preferred or consent of instructor.

C S 570. Analysis of Algorithms
3 Credits
Techniques for design and analysis of algorithms; time and space complexity; proving correctness of programs. Particular algorithms such as sorting, searching, dynamic programming. NP complete problems. Students are expected to have knowledge of algorithms and data structures equivalent to Computer Science 372.

C S 571. Programming Language Structure II
3 Credits
Formal semantics of programming languages. Students are expected to have knowledge of algorithms and data structures equivalent to Computer Science 372, and knowledge of principles of programming languages equivalent to Computer Science 471.

C S 573. Architectural Concepts II
3 Credits
Advanced topics related to computer architecture, guided by the current literature. Students are expected to have knowledge of computer architectures equivalent to Computer Science 473 and of operating systems equivalent to Computer Science 474. Crosslisted with: Electrical Engineering 564.

C S 574. Operating Systems II
3 Credits
Advanced topics related to operating system principles, guided by the current literature. Students are expected to have knowledge of computer architectures and operating systems equivalent to Computer Science 473 and Computer Science 474.
C S 575. Artificial Intelligence II
3 Credits
Covers advanced theory and application of artificial intelligence. Concentration on several specific research areas, such as knowledge representation, problem solving, common-sense reasoning, natural language understanding, automated tutoring systems, learning systems. Students are expected to have knowledge of artificial intelligence equivalent to C S 475.

C S 579. Special Topics
1-6 Credits
Topic announced in the Schedule of Classes.

C S 581. Advanced Software Engineering
3 Credits
Advanced tools and methods for developing large software systems. Topics include object-oriented modeling and design, component architectures, templates and generic programming, software configuration and revision control, static and dynamic analysis tools, model, checking, advanced testing, and verification. Students are expected to have knowledge of software engineering equivalent to C S 371.

C S 582. Database Management Systems II
3 Credits
Advanced data models and abstractions, dependencies, implementations, languages, database machines, and other advanced topics. Students are expected to have knowledge of database management systems equivalent to CS 482.

C S 583. Advanced Cryptography
3 Credits
This is an advanced cryptography course, which will cover cryptographic protocols such as zero-knowledge proofs, secret sharing schemes, secure two-party/multi-party computation, and more. We will also briefly cover real-world applications of these protocols. Students will also be exposed to recent research topics in cryptography (exact topics might vary every offering).
Prerequisite(s): At least a C- in C S 465.

C S 584. Computer Networks II
3 Credits
Advanced topics in computer networks. Covers advanced topics in networking, with emphasis on wireless, and IP networks. Students are expected to have knowledge of computer networks equivalent to C S 484, and of statistics equivalent to STAT 371 or STAT 470.

C S 586. Algorithms in Systems Biology
3 Credits
The course will introduce important algorithms and computational models used in systems biology to study molecular mechanisms for cellular dynamics, processes, and systems. Cellular processes, such as metabolism and signal transduction, are studied as systems and networks quantitatively from high throughput molecular measurements. The topics include molecular biological systems, network alignment, model simulation, network inference, model optimization, and hybrid models. Students will be able to construct models and analyze their properties in the context of molecular biological systems. Students are expected to have knowledge of algorithms and data structures equivalent to C S 372.

C S 587. Advanced Human-Centered Computing
3 Credits
Covers a range of methods available for performing research in the field of human-computer interaction in order to develop insights into effective human-centered designs of computing systems. Students will develop insights into how humans live, play, and work and best practices in system design.
Prerequisite(s): Consent of instructor or at least a C- in one of the following: C S 485/515, SOC 352, PSY 430/530, or ANTH 520.

C S 589. Special Research Problems
1-6 Credits
Faculty-supervised investigation, to culminate in a written report. May be repeated; maximum of 6 credits may be applied toward M.S. degree. Restricted to majors.
Prerequisite: written agreement with faculty supervisor.

C S 599. Master's Thesis
1-6 Credits (1-6)
The thesis to be developed by M.S. Students under supervision of their advisor. May be repeated for a maximum of 6 credits. Restricted to majors.
Prerequisite: consent of instructor.

C S 600. Pre-dissertation Research
1-15 Credits
Pre-dissertation research.

C S 700. Doctoral Dissertation
1-6 Credits
Dissertation.

Office Location: Science Hall 123

Computer Science - Bachelor of Arts

The Bachelor of Arts in Computer Science is an open, flexible degree plan that offers the student both a rigorous undergraduate degree program in Computer Science and an extensive open credit hour allotment to pursue knowledge in other domains. It is an excellent choice to combine into a double major program, and is an option for the student who has an interest in learning both domain knowledge in some areas outside of Computer Science, and in acquiring a Computer Science background sufficient to pursue a strong technology career.

Students planning to undertake graduate work in Computer Science are encouraged to pursue the Bachelor of Science degree rather than the Bachelor of Arts degree. Students interested in graduate work should consult with their advisor regarding the possibility of taking other computer science electives to satisfy their departmental requirements.

General Requirements Exception
A grade of at least C- must be earned in each of the courses taken to satisfy the departmental and non-departmental requirements. No course may be counted as satisfying both a departmental and a
non-departmental requirement. No course taken to satisfy either a departmental or a non-departmental requirement may be taken S/U.

**Requirements**

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Second Language Requirement

For the Bachelor of Arts with a major in Computer Science, there is no second language requirement for the degree.

A ST 251G | Statistical Applications

A ST 311 | Statistical Applications

Electives, to bring the total credits to 120

Select upper division electives to bring total upper division to 48

Total Credits 120

1 Students with Area I transfer credits may sometimes complete this requirement with 9 credits
2 See the General Education (p. 49) section of the catalog for a full list of courses.
3 Either MATH 142G Calculus for the Biological and Management Sciences or MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter either first.
4 *MATH 235 is an alternative for the degree requirement but will not automatically count towards the Area II: Mathematics requirement
5 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
6 A course can satisfy only one requirement.
7 Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Students who plan to seek employment at the bachelor level are advised to take one of the concentrations curricula in addition to the general and departmental requirements. The program of study should be chosen by the student in consultation with an advisor. The list of possible focuses can be found on the Bachelor of Sciences in Computer Science link.

Second Language Requirement

For the Bachelor of Arts with a major in Computer Science, there is no second language requirement for the degree.

A Suggested Plan of Study For Students

This roadmap assumes student placement in MATH 121G and ENGL 111G. The contents and order of this roadmap may vary depending on initial student placement in mathematics and english. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Credits 30-38

Total Credits 120-135

1 Required for students who do not pass MATH 120 Intermediate Algebra or do not pass the CS placement exam and is not counted towards graduation.

2 MATH 191G Calculus and Analytic Geometry I is the starting requirement for this degree but students may need to take MATH 121G College Algebra and MATH 190G Trigonometry and Precalculus before enrolling in it. If a student tests into MATH 191G then elective credits can replace MATH 121G/MATH 190G in the roadmap.

3 See the General Education (p. 49) section of the catalog for a full list of courses.

4 Any course offered by the university. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

5 For electives see List 1 or List 2 of Computer Science electives in Degree Requirement Section.

6 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.

Computer Science - Bachelor of Science

The Bachelor of Science in Computer Science is the traditional undergraduate degree in Computer Science. It is rigorously focused on educating the student in the fundamental disciplines of Computer Science. It prepares the student for any technological field in industry, and also provides the preparation for graduate studies in Computer Science. It is the main undergraduate degree in the Computer Science department, and should be the choice of a single-major Computer Science student. This degree is accredited by the ABET Computing Accreditation Commission (CAC) under the General and Computer Science Program Criteria (through 9/30/2022).

General Requirements Exception

A grade of at least C- must be earned in each of the courses taken to satisfy the departmental and non-departmental requirements. No course may be counted as satisfying both a departmental and a non-departmental requirement. No course taken to satisfy either a departmental or a non-departmental requirement may be taken S/U.

Requirements

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Second Language Requirements: (not required)

Electives, to bring the total credits to 120

Students who plan to seek employment at the bachelor level are advised to use their elective credits to complete one of the concentration areas below

Total Credits 120

1 Students with Area I transfer credits may sometimes complete this requirement with 9 credits
2 See the General Education section of the catalog for a full list of courses
3 MATH 191G Calculus and Analytic Geometry I and MATH 192G Calculus and Analytic Geometry II are required for the degree but students may need to take any prerequisites needed to enter MATH 191G or MATH 192G first.
4 See the Viewing a Wider World section of the catalog for a full list of courses.
5 A course can satisfy only one requirement.
6 Must be taken for 3 credits to count as a course.
Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Concentrations

Students who plan to seek employment at the bachelor level are advised to take one of the concentration curricula in addition to the general and departmental requirements. An elective course cannot be used for more than two focuses. A course that is required for one concentration cannot be used as an elective course of another one. Below are the list of possible concentrations.

Concentration: Algorithm Theory

Prefix | Title | Credits
--- | --- | ---
Select 3-4 credits from the following: | 3-4
C S 372 | Data Structures and Algorithms |
C S 343 | Algorithm Design & Implementation |
Select 9 credits from the following: | 9
C S 475 | Artificial Intelligence I |
C S 476 | Computer Graphics I |
C S 487 | Applied Machine Learning I |
C S 488 | Introduction to Data Mining |
Total Credits | 12-13

Concentration: Artificial Intelligence

Prefix | Title | Credits
--- | --- | ---
Select 3-4 credits from the following: | 3-4
C S 372 | Data Structures and Algorithms |
C S 343 | Algorithm Design & Implementation |
Select 9 credits from the following: | 9
C S 475 | Artificial Intelligence I |
C S 483 | Introduction to Robotics |
C S 488 | Introduction to Data Mining |
C S 487 | Applied Machine Learning I |
Total Credits | 12-13

Concentration: Big Data and Data Science

Prefix | Title | Credits
--- | --- | ---
Required course: | 7
C S 371 | Software Development |
C S 482 | Database Management Systems I |
Select 6 credits from the following: | 6
C S 487 | Applied Machine Learning I |
C S 488 | Introduction to Data Mining |
Total Credits | 13

Concentration: Computer Networking

Prefix | Title | Credits
--- | --- | ---
Required courses: | 6
C S 473 | Architectural Concepts I |

Select 6 credits from the following:

C S 484 | Computer Networks I |
C S 478 | Computer Security |
C S 480 | Linux System Administration |
C S 496 | Cloud and Edge Computing |
Total Credits | 12

Concentration: Cybersecurity

Prefix | Title | Credits
--- | --- | ---
Required courses: | 6
C S 473 | Architectural Concepts I |
C S 478 | Computer Security |
Select 6 credits from the following: | 6
C S 479 | Special Topics: Topics in Cryptography |
C S 484 | Computer Networks I |
Total Credits | 12

Concentration: Human Computer Interaction

Prefix | Title | Credits
--- | --- | ---
Required courses: | 7
C S 371 | Software Development |
C S 485 | User Interface Design |
Select 6 credits from the following: | 6
C S 476 | Computer Graphics I |
C S 477 | Digital Game Design |
C S 481 | Visual Programming |
Total Credits | 13

Concentration: Software Development

Prefix | Title | Credits
--- | --- | ---
Required course: | 10
C S 371 | Software Development |
C S 471 | Programming Language Structure I |
C S 485 | User Interface Design |
Select 6 credits from the following: | 6
C S 476 | Computer Graphics I |
C S 482 | Database Management Systems I |
C S 484 | Computer Networks I |
C S 491 | Parallel Programming |
Total Credits | 16

Second Language Requirement

For the Bachelor of Science with a major in Computer Science (including all Concentration Areas), there is no second language requirement for the degree.

A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 191G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may
vary from fall to spring semester and may be subject to modification or change.

Total Credits 120-123

1. MATH 191G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 191G first.
2. See the General Education section of the catalog for a full list of courses.
3. Students who plan to seek employment at the bachelor level are advised to use their elective credits to complete one of the concentration areas below. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
4. See list of Computer Science electives in Degree Requirement Section.
5. Math Electives:
   - MATH 331 Introduction to Modern Algebra
   - MATH 332 Introduction to Analysis
   - MATH 377 Introduction to Numerical Methods
   - MATH 392 Introduction to Ordinary Differential Equations
   - MATH 454 Logic and Set Theory
   - MATH 455 Elementary Number Theory
6. See list of Lab Science courses in the Degree Requirement Section.
7. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.

Students planning to undertake graduate work in computer science are encouraged to consult with their advisor regarding the possibility of taking other computer science electives to satisfy their departmental requirements.

Computer Science - Bachelor of Science/Master of Science

5 Year Dual Degree BS+MS Program

The dual degree program combines some of the requirements of the Bachelor of Science (BS) and the Master of Science (MS) in Computer Science. It is very important for the student to apply to the BS+MS program before they take any 400-level C S courses. Full details of the program can be found at http://www.cs.nmsu.edu.

Admission occurs in two steps.

1. First, students will apply to the Computer Science department to receive approval for the BS+MS program. The student submits the pre-application when he/she is within 48 credits of earning a BS in Computer Science; an application form is provided on the department website. Qualification for the BS+MS program will be based on the cumulative (non-grade replaced) grade point average in Computer Science and Math courses taken up to that point (at least 3.5), including at least two of the following: C S 370 Compilers and Automata Theory, C S 371 Software Development and C S 372 Data Structures and Algorithms, and recommendations by faculty members listed on the departmental application. Additional factors
might be taken into account when available (e.g., GRE scores). Students having a grade point average below 3.5 may be admitted to the combined program on a case-by-case basis, depending on faculty recommendations and evaluations of the individual academic and professional history.

2. Once the Computer Science department has notified the applicant of acceptance in the combined BS+MS program, the applicant must then formally apply to the graduate school (prospective.nmsu.edu/graduate) for formal admission to the graduate program. This application to the graduate school is made during the semester of graduation from the BS in Computer Science.

The curriculum for the first three years of the BS+MS program coincides with the requirements of the BS program. In particular, the general requirements include a grade of at least a C- in each course satisfying the departmental and non-departmental requirements. No course may be counted as satisfying both a departmental and non-departmental requirement. No course taken to satisfy either a departmental or non-departmental requirement may be taken S/U. The following are the departmental requirements for the degree (the non-departmental requirements are identical to those of the BS in Computer Science).

### Departmental Requirements for Years 1 through 4

**Total Credits**: 30

1. These courses provide foundational preparation in biological sciences and computational sciences.
2. These courses are intended for students with a Bachelor's degree in life sciences.
3. These courses are intended for students with a Bachelor's degree in computer sciences. These courses can be replaced by more advanced courses with written permission of the graduate advisor.
4. The goal of these courses is to expose the students to the central issues and techniques in the field of bioinformatics.
5. The goal of these courses is to allow students to specialize in a specific branch of bioinformatics.
6. Each master's student must write a thesis (C S 599 Master's Thesis) or, with the advisor's permission, undertake a research project (C S 598 Master's Project). In either case, the number of required graduate credits is 6 for the thesis or project. In all cases, the students are required to sustain a final exam, covering the thesis/research project.

**Computational Data Analytics - Master of Computational Data Analytics**

The admission requirements for the degree program require incoming students to have a minimum mathematical preparation at the level of Linear Algebra (MATH 280 Introduction to Linear Algebra or equivalent course, such as E E 200 Linear Algebra, Probability and Statistics Applications).

The curriculum for the degree program is composed of 34 graduate credits.

Computer Science - Master of Science

Each master's student normally must write a thesis (C S 599 Master's Thesis) or, with the advisor's permission, undertake a research project (C S 598 Master's Project). In either case, the number of required graduate credits is 33, including 6 for the thesis or project. In all cases, the students are required to sustain a final exam, covering the thesis/research project and the graduate course-work. The two parts of the exam bring equal weight.

In no case may a C S course numbered below 500 be counted towards the required number of credits. In particular, graduate students are expected to register for C S classes numbered 500 or above.

Thesis/Non-Thesis - Master of Science Degree

Total Credits 33

1 Each master's student normally must write a thesis (C S 599 Master's Thesis) or, with the advisor's permission, undertake a research project (C S 598 Master's Project). In either case, the number of required graduate credits is 33, including 6 for the thesis or project.

Courses not in Computer Science can be included in the student's program of study only if prior written approval has been obtained from the student's advisor and the departmental Graduate Committee. Further details can be found in the on-line Graduate Handbook (http://www.cs.nmsu.edu/).

Course-work Only - Master of Science Degree

With the advisor's consent, the student may instead complete a coursework-only Master degree; this requires 36 credits of regular course work, satisfying the same requirements listed above, except that the 6 credits of thesis or project are replaced by 9 credits of courses numbered 550 or above and distinct from C S 589 Special Research Problems, C S 598 Master's Project, and C S 599 Master's Thesis. Students pursuing a coursework-only degree are expected to complete an oral exam covering a selected subset of the students' plan of study. Further details can be found in the on-line Graduate Handbook (http://www.cs.nmsu.edu/).

Computer Science - Doctor of Philosophy

Doctoral students may specialize in any of the areas in which computer science faculty members have active research interests. Through interdisciplinary arrangements with other doctoral departments at New Mexico State University, doctoral students may also specialize in such areas as computational biology, computer networks and architectures and cognitive science.

Doctoral students are expected to join the program with a preparation equivalent to that required for the Master’s degree in computer science at New Mexico State University. The requirements for the degree are as specified in the NMSU graduate catalog, with the following additional considerations:

- The qualifying examination consists of written exams in four subject areas:
  - Operating Systems or Computer Architectures;
  - Principles of Programming Languages;
  - Design and Analysis of Algorithms and Data Structures; and
  - Discrete Mathematics.
- The student is required to take the qualifying examination at the end of the first semester of enrollment as a doctoral student at NMSU; the only exceptions will be granted to students entering the doctoral program with significant undergraduate deficiencies—in such case the deadline for the qualifying examination will be indicated in the admission records. It is the responsibility of the student to ensure that the qualifying examination is taken within the prescribed deadline. Students failing to meet the deadline will be automatically dismissed from the doctoral program. If a student fails any of the exams, they must retake those exams in the following semester. If a student fails to pass all exams after the second attempt, they will be dismissed from the doctoral program.
- Students who are enrolled in the Computer Science MS program and have identified a future PhD advisor in the Department of Computer Science can use their Master’s exam as their PhD qualifying exam as follows:

  1. The student submits a request to their future PhD advisor to allow using their MS exam as their PhD qualifying exam and obtain the approval of the advisor and the department head.
  2. Before the MS exam, the student needs to form an MS exam committee. The exam committee must include the student’s future PhD advisor, and the exam committee needs to be approved by the student’s future PhD advisor.
  3. During the MS exam, the student is tested on the subjects of PhD qualifying exam for approximately one hour. The student must, with their advisor, plan their exam to include this additional time.

The student can pass, conditional pass, or fail the exam. If the student conditionally passes the exam, then the committee will specify (i) a list of courses that the student needs to take and pass in the first year; or (ii) a list of subjects that the student needs to pass in the written qualification exam. If the student fails the exam then the student needs to take the written exam as described above.

- The comprehensive examination evaluates depth of knowledge in the specific research area selected by the candidate with the consent of their graduate committee. It includes: a written part, in the form of an extensive survey paper; an annotated bibliography; and an oral examination.
- The student is required to submit and defend a prospectus, at the same time or after completing the comprehensive examination. The prospectus describes and motivates the specific research problem to be addressed in the doctoral dissertation.
- A PhD student is required to take at least one course each in the following three areas (foundations, systems, or applications).

Only courses from the MS CS program from NMSU can be used to waive this requirement.

Students should contact the department for information on additional graduation requirements, or visit the on-line Graduate Handbook (http://www.cs.nmsu.edu/).

### Computer Science - Graduate Minor

Students who wish to take a minor in Computer Science will need to accumulate a minimum of 9 graduate credits not including the C S 460 Computer Science I Transition Computer Science course. Students are encouraged to contact the Computer Science Graduate Committee Chair for directions in the selection of courses.
Creative Media

Undergraduate Program Information
New Mexico State University’s Creative Media Institute (CMI) prepares students to become digital storytellers using state of the art, industry-standard tools. The Creative Media Institute is dedicated to developing and nurturing the artistic endeavors of student filmmakers through industry-standard education, research and collaboration in the art, craft and production of the moving image through storytelling, resulting in a Bachelor of Creative Media degree. The program provides learning opportunities for newly admitted NMSU students, and provides some credit transfer opportunities for students with an associate degree from a NMSU community college or other two-year degree granting institution. The Bachelor of Creative Media provides a liberal arts background enabling students to pursue further education, professional training or employment in the digital media-based industry. Study in the CMI program fosters collaborative expression based on a clear understanding of media culture, history, design and practice. CMI also offers students the opportunity for internships in digital video, animation, visualization and simulation, industrial and educational video at varied production facilities on and off campus.

Theory and practice are integrated at every step as students manipulate text, sound and images using industry-standard technology. CMI houses a state of the art digital projection system screening room, post-production lab, animation lab, production space, motion capture laboratory and THX sound mixing theatre.

Due to limited capacity, new students wishing to continue in the CMI program after their freshman year are required to complete an application process. Transfer students from other institutions, including NMSU Community Colleges, must complete the application process. Transfer students should contact an Academic Advisor from the College of Arts and Sciences Advising Office for information about joining one of the two degree programs offered in CMI. Space is limited and varies each year. The quality of the student's work as demonstrated in the application and prior course work are additional criteria of the admission decision. Exact details and procedures for applying to the CMI program can be found on the CMI website at: cmi.nmsu.edu.

Degrees for the Department

Animation and Visual Effects - Bachelor of Creative Media (p. 336)

Digital Film Making - Bachelor of Creative Media (p. 340)

Minors for the Department

Currently, all CMI Minors are closed to any students outside of the major.

Animation and Visual Effects - Undergraduate Minor (p. 342)

Digital Film Making - Undergraduate Minor (p. 342)

Associate Professor, Amy Lanasa, Department Head

Associate Professors Fowler, Lanas, Lapid, Lau; Assistant Professors Marks; College Assistant Professors Bakshi, Chase; College Instructor Nirmalakhandan

Creative Media Courses

CMI 100. Introduction to the Creative Media Industry
3 Credits
This class is an introductory course for students interested in learning about the creative media industry and the Creative Media Institute. It offers a broad view of the entire industry including Marketing, Production, Budgets, Jobs, New Media Literacy, and Industry Standards. Students will listen to experts in the field, and become involved in open discussions about the industry and use new information to complete hands-on assignments in the laboratory. Restricted to Las Cruces campus only.

CMI 200. Sound Design I
3 Credits
Focuses on the techniques for creating, recording and manipulating sounds through challenging sound design projects. Crosslisted with: CMT 206.
Prerequisite(s)/Corequisite(s): CMI 235. Restricted to: DFM,ANVE majors. Restricted to Las Cruces campus only.

CMI 205. Cinematography I
3 Credits
Theories and techniques of visual design in videography and the aesthetics of lighting. Crosslisted with: CMT 205.
Prerequisite(s)/Corequisite(s): CMI 235. Restricted to: DFM,ANVE majors. Restricted to Las Cruces campus only.

CMI 216. Editing I
3 Credits
Focuses on individual editing skills including capture, interface, basic cuts, and transitions. Crosslisted with: CMT 195.
Prerequisite(s)/Corequisite(s): CMI 235. Restricted to: DFM,ANVE majors. Restricted to Las Cruces campus only.

CMI 220. Drawing for Animation
3 Credits
Introductory study of the human and animal form in relation to animation. Students learn fundamentals and exaggeration of the figure, as related to proportion, rhythm, mechanics, and motion. Areas of focus are: basic form, proportion, shape, contour, gesture, anatomy, portraiture, perspective, clothing effects and drawing from observation. Restricted to: CMT,DFM,ANVE majors.

CMI 228. History of Cinema I
3 Credits
This course surveys the history of cinema - investigating the process by which the original “cinema of attractions” evolved into a globally dominant form of visual storytelling. We will explore the development of cinema both as an art form and as an industry, and consider the technological, economic, cultural factors, as well as many key international movements that helped shape it. Restricted to: G-CMI, DFM, ANVE majors.

CMI 231. History of Animation
3 Credits
Explores the history of Animation as an art form and industry through readings, screenings, lecture and periodic guest speakers. Restricted to: G-CMI, ANVE, DFM majors. Restricted to Las Cruces campus only.

CMI 232. Storyboarding
3 Credits
Examines effective writing principles for creating storyboards that communicate the overall picture of a project. There are timing, scene complexity, emotion and resource requirements. Crosslisted with: ENGL 232. Restricted to: DFM,ANVE, G-CMI majors. Restricted to Las Cruces campus only.
CMI 233. Light, Shade, Render  
3 Credits  
This course will explore the theory and practice of 3D lighting and rendering methodologies. Techniques covered will implement cameras, lighting sources, textures, surface-mapping and algorithmic rendering to produce stylized and photo realistic images. Topics covered will include direct and indirect lighting, shaders that simulate physical substances and effects, rendering multiple passes and simulating physical lens effects. Restricted to: DFM, ANVE majors. Restricted to Las Cruces campus only.  
Prerequisite(s): CMI 260, CMI 280, or Consent of Instructor.

CMI 235. Narrative: Principles of Story Across the Media  
3 Credits  
Examines the various strategies of written and visual storytelling: narrative structure and its principle components (plot, theme, character, imagery, symbolism, point of view), with an attempt to connect them to elements of contemporary forms of media expression, including screenwriting, playwriting, writing for documentaries and animation, etc. Crosslisted with: ENGL 235. Restricted to: G-CMI, DFM, ANVE majors. Restricted to Las Cruces campus only.

CMI 240. Digital Illustration  
3 Credits  
Introductory course examining traditional artistic expressions and translating visual art experiences into a digital art medium to enhance visual storytelling. Students acquire basic principles of drawing and painting through hands-on experience manipulating tonal value, composition, form development, light and shadow, color theory, rendering realism, and graphic design. Restricted to: DFM, ANVE majors. Restricted to Las Cruces campus only.

CMI 245. 2-D Compositing & FX  
3 Credits  
The purpose of this course is to familiarize students with the powerful compositing and special effects tools of Adobe After Effects for 2D, traditional animation. Students will learn how to assemble an existing un-rendered animation into a final piece with advanced 3D lighting, spacing, and digital effects so that it can achieve a dynamic, professionally rendered look. Restricted to Las Cruces campus only.

CMI 250. Beginning 2-D Animation  
3 Credits  
Learn the basics of digital 2D animation by creating an animated short from a storyboarded scene using professional animation, imaging, and editing software. Restricted to: DFM, ANVE majors. Restricted to Las Cruces campus only.

CMI 260. Foundations of 3D Animation  
3 Credits  
The objective of this course is to provide a hands-on overview of the 3D animation production process. Students will be introduced to basic story development and the creation of computer generated assets and cinematic sequences. The course will survey specialty areas of digital animation and various software and techniques applied in entertainment and information media. Restricted to: DFM, ANVE majors. Restricted to Las Cruces campus only.  
Prerequisite(s): CMI 235, CMI 232 or consent of instructor.

CMI 270. Rigging for 3D Animation  
3 Credits  
This course will introduce principles and practices of current 3D animation rigging. Students will develop fundamental methods necessary to create character rigs. Students will learn aesthetic, technical, and optimization concepts as they apply to organic and mechanical designs. Topics will include: hierarchies, constraints, deformation rigging, skeleton creation, skinning, forward and inverse kinematics, controls, body and facial rigging. Restricted to: DFM, ANVE majors.  
Prerequisite(s): CMI 260.

CMI 280. Modeling  
3 Credits  
This course will introduce 3D modeling methods and current practices. Students will learn preliminary and detailed modeling techniques using industry standard software. Methods will emphasize formal and functional aspects of modeling as they apply to mechanical, organic, and sculpted topology for application in animation, games, and information media. Restricted to: DFM, ANVE majors. Restricted to Las Cruces campus only.

CMI 290. 3-D Animation  
3 Credits  
Overview of the essentials and principles of 3D animation; creative methods for using industry standard tools to produce the illusion of movement for storytelling. Topics include, keyframe and curve animation, kinematics, cycle animation, camera animation, deformers, and constraints.  
Prerequisite(s): CMI 260, CMI 250 or consent of instructor.

CMI 300. History of Cinema II  
3 Credits  
An advanced, in-depth analysis of cinema's history. Course may focus on one specific area of cinema history depending on instructor.  
Prerequisite(s)/Corequisite(s): CMI 235, CMI 228. Restricted to: DFM, ANVE, G-CMI majors. Restricted to Las Cruces campus only.

CMI 301. Sound Design II  
3 Credits  
Mixing and balancing dialogue, sound effects and music in postproduction. Study the role of sound effects, foley, soundtrack choices, and music supervision. Restricted to: DFM, ANVE majors.  
Prerequisite(s): CMI 200.

CMI 303. Cinema Review and Critique  
3 Credits  
This course is for the student who wants to learn to be a more active, intelligent film viewer. It encourages critical thinking about films and educates students on how to write a film review. Students will meet in the movie theater to watch essential films that serious movie watchers should see from classic motion pictures, to current release major motion pictures, independent films and world cinema features. The course will serve as a guide to the illuminating process of evaluating, analyzing, and reviewing movies. Restricted to: DFM, ANVE majors.  
Prerequisite(s): CMI 235.

CMI 305. Business of Filmmaking/Animation  
3 Credits  
Explores the roles of unions, basic contracts, legal arrangements, and the economics of the production process, distribution, and financing. Consent of Instructor required.  
Prerequisite(s): CMI 235.
reflecting and/or facilitating this process. We will investigate the role of cinema in familial, communal, and national identities are defined through the complex process of bordering. Prerequisite(s): CMI 235 or consent of instructor.

CMI 309. Screenwriting I
3 Credits
Writing intensive. Students learn the craft of screenwriting, honing skills in writing dialogue and visual narrative, crafting dynamic characters and dramatic action. Original student scripts will be performed and discussed in class. Crosslisted with: ENGL 309 and THTR 306.
Prerequisite(s): ENGL/CMI 235 or consent of instructor.

CMI 310. Cinematography II
3 Credits
Advanced tools of the cinematographer, lighting and composition techniques. Artistic and technological elements of cinematography. Restricted to: DFM, ANVE majors.
Prerequisite(s): CMI 205, CMT 205.

CMI 311. Editing II
3 Credits
Advanced techniques in digital films using professional non-linear editing systems. Restricted to: DFM, ANVE majors.
Prerequisite(s): CMI 216.

CMI 312. Post Production Color Grading
3 Credits
Color grading is an important part of the overall look of a film. It used to be a craft that only a small number of people knew how to do. However, due to advances in technology and business models, more and more people are diving into color grading. This class is an introductory look into the art and techniques of color grading. Restricted to: DFM, ANVE majors.
Prerequisite(s): CMI 216.

CMI 314. Acting for Film
3 Credits
Techniques for film and television acting. In-depth analysis of film performance creation among actor, director, writer, cinematographer, and editor. Restricted to: THTR, DFM majors.
Prerequisite(s): CMI 235.

CMI 315. Adventures in Genre
3 Credits
Students learn storytelling strategies for the screen by studying various structural genres and components of screenplays and films. Utilizing these strategies, students develop a number of their own original screenplay ideas. Additionally, pitch workshops are held and students learn to present their ideas in various, practical situations.
Prerequisite(s): CMI 235 and CMI 309.

CMI 316. Border Cinema Around the World
3 Credits
What is the relationship between borders, identity, and vulnerability - and how is this relationship explored in cinema? How are borderlands also testing grounds - the sites of serious ethical dilemmas? By examining powerful feature films from such regions as the Middle East, the Balkans, and the US/Mexico border, we will explore ways in which personal, familial, communal, and national identities are defined through the complex process of bordering. We will investigate the role of cinema in reflecting and/or facilitating this process.

CMI 318. Documentary Production
3 Credits
Survey of theory and history of documentary film making including viewings and discussions of notable films and directors. Class works with actual documentary project. May be repeated up to 6 credits. Restricted to: ANVE, DFM majors.
Prerequisite(s): CMI 216, CMI 205.

CMI 320. Race and Gender in Film
3 Credits
In this course students will analyze film as an art form as well as be exposed to Race and Gender Feminist Film Theory. We will consider the role of film in our understandings of sex, gender and sexuality. Through discussions and writing we will work to discern relevant social, political, ideological, and aesthetic concepts in the media we examine. Crosslisted with: ENGL 399, W S 450 and W S 550.

CMI 325. Film Festival Production
3 Credits
A course for students interested in learning about the processes of orchestrating an independent film festival. Students will engage in a professional environment with other film students and filmmakers, as well as learn about film event administration and organization. May be repeated up to 6 credits. Restricted to: DFM, ANVE majors.

CMI 328. Producing
3 Credits
Examines the role of the Producer, essential to every film production. The course will revolve around the best practices in organizational design, the production process, the budgeting process, financial controls, scheduling, insurance and distribution.
Prerequisite(s)/Corequisite(s): CMI 200, 216, 235. Restricted to: ANVE, DFM majors.

CMI 329. Studies in Drama
3 Credits
Students will draw on a group of related American and European dramatic works to examine various areas of 20th century culture. Topics will vary. Restricted to DFM, ANVE, ENGL, THTR majors. Crosslisted with: ENGL 329 and THTR 329.

CMI 330. Developing the Animated Project
3 Credits
This course will cover fundamental theories and elements of the production and development processes for animated projects. Concept, story, and story and character development will be addressed as well as storyboarding, layout, sound, voice recording and basic editing. Students will develop at least one animated project, and construct an animatic to be used for future production. Restricted to: ANVE, DFM majors.

CMI 332. 3-D Character Animation
3 Credits
Essentials and principles of 3D character animation. Techniques and craft of breathing life into characters through movement, including dynamic poses, blocking action, run and walk cycles, lip synching and realism. THTR 110, Acting and CMI 200, Sound Design are recommended. Restricted to: DFM, ANVE majors.
Prerequisite(s): THTR 105 (or CMI 314 or CMI 348), CMI 260 and CMI 290 or consent of instructor.
CMI 341. Visual Effects I
3 Credits
Fundamentals and principles of live action footage and computer generated imagery integration, including 3D animation, matchmoving, green screen setup, keying and compositing. Restricted to: ANVE, DFM majors.
Prerequisite(s): CMI 205, CMI 260, 280 (or consent of instructor).

CMI 348. Acting for Animation
3 Credits
This course explores performance techniques relevant to animators including 2D and 3D animation and motion capture. Students learn to create dynamic, dramatic performances and believable character interactions. Students learn to analyze scripts, sound, acting, action and performance for production. Topics include: acting theory, emotional/mental states, character movement and style, dynamic facial expression, scene construction, posing, layering and rhythm, simplification and exaggeration, and voice-over. May be repeated up to 3 credits. Restricted to: DFM, ANVE majors.

CMI 350. Intermediate 2-D Animation
3 Credits
Learn the more refined aspects of motion for character animation by focusing on Disney's 12 Principles of Animation, practicing these advanced drawing techniques in exercises and incorporating them into a brief final project.
Prerequisite(s): CMI 250.

CMI 360. Previsualization
3 Credits
Implements 3D animation tools in preproduction shot and sequence design for motion picture and broadcast industries; including 3D storyboarding, technical planning and editing basics. LC Campus Only.
Prerequisite(s): CMI 260, CMI 280, and CMI 290 or consent of instructor. Restricted to ANVE, DFM majors.

CMI 362. Motion Graphics
3 Credits
Students will learn the basics of Motion Graphics by working through a variety of exercises and a final project that will combine animation, text, visual effects, and sound using Adobe After Effects, Photoshop, and Illustrator. Restricted to: ANVE, DFM majors.

CMI 365. Character Design and Development
3 Credits
Digital character design for the entertainment industry. Provides insight into the process of creating iconic characters. Traditional and contemporary character designers are explored. Industry workflow is introduced and necessary skills are developed to design detailed 3D characters from concept through production.
Prerequisite(s): CMI 250, CMI 260 and CMI 280, or consent of instructor. Restricted to ANVE, DFM majors.

CMI 377. Game Design Workshop
3 Credits
In this course we will learn to design, develop, and playtest games. This approach will be exercise driven and involve nontechnical approaches as well as digital production techniques. This playcentric approach will involve player participation from conception through production. We will explore the iterative processes of prototyping, playtesting, and revising based on feedback. Consent of Instructor required. Restricted to: ANVE, DFM majors.

CMI 395. Directing I
3 Credits
Study and application through short scene work of the basic tools of a director and relationships with actors, designers, playwright, and stage managers. Interpreting as well as organizing. May be repeated up to 3 credits. Restricted to: DFM, ANVE majors.
Prerequisite(s): CMI 200, AND CMI 205, AND CMI 216.

CMI 396. Directing II
3 Credits
Addresses pre-production concerns including script breakdown, casting ground plans and coverage. The criteria employed when selecting the creative team including a director of photography, art director, light, sound and wardrobe designers. Introduction to budgeting, scheduling, and script breakdowns. Prerequisite: CMI 395

CMI 397. Practicum
1-3 Credits (1-3)
Practical application of the student's field of study in a project environment. May be repeated up to 9 credits. Consent of Instructor required.

CMI 398. Special Topics
3 Credits
This course addresses specific subjects and issues as identified by the department. Topics and credits to be announced in the Schedule of classes. May be repeated up to 12 credits.

CMI 400. Directed Studies
1-6 Credits (1-6)
Directed study course in CMI under the supervision of a CMI faculty member. May be repeated up to 9 credits.

CMI 401. Motion Capture Techniques
3 Credits
Implement industry standard motion capture techniques to capture and integrate performance for movie making, 3D animation and game production. Restricted to: ANVE, DFM majors.
Prerequisite(s): CMI 260, CMI 290 and CMI 270 (or consent of instructor).

CMI 410. Cinematography III
3 Credits
This class is geared towards those who want to learn more about cinematography, color grading, and digital technology as it pertains to cinematography. Shooting high-end codecs (ProRes/DNxHD) or RAW are becoming more and more popular in filmmaking as camera manufactures and computer processing get better. This class will be a mix of production and post-production as learning how to shoot these higher end codecs do not end with the camera. Focus will be on techniques of shooting raw, understanding how to operate a camera capable of high end image acquisition, properly building up the camera rig and accessories, managing data and the post-production workflow. Consent of Instructor required. Restricted to: DFM, ANVE majors.
Prerequisite(s): CMI 310.
CMI 412. Advanced Equipment Training
3 Credits
This class is designed for students who want to dive deep into building and operating much of our advanced camera and G&E equipment. Though these on-set tasks are performed by below-the-line crew members, having the knowledge of and ability to use this equipment will serve you greatly as a DP. We will go over a wide variety of devices in this class, ranging from car mounts and our GlideCam to our large jib, 3-axis gimbal, 500-amp generator, and 6K HMI lights. We will also do some advanced lighting scenarios. The goal of this class is to get you "certified" on all the above items, resulting in your being able to build this equipment for other CMI sets, such as the Mixed Class Productions, Senior Projects, etc. Restricted to: DFM, ANVE majors.
Prerequisite(s): CMI 310.

CMI 420. Short Film Production
3 Credits
Students work in teams with rotating crews to write, produce, direct and edit individual and group projects—ultimately demonstrating growing confidence with production equipment and professional practices. May be taken up to 6 credits. Consent of instructor required. Pre/Prerequisite(s): CMI 200, CMI 216, CMI 205, CMI 235, CMI 309 and CMI 395.
Corequisite(s): CMI 328. Restricted to ANVE, DFM majors.

CMI 421. Short Film Post-Production
3 Credits
Students work together to complete short films shot in CMI 420. This course focuses on advanced post-production techniques, including editing and sound design, as student directors, editors and producers continue to learn to work together. In the last half of the course, students will build marketing campaigns and submit their finished film to festivals. May be repeated up to 6 credits. Restricted to: DFM, ANVE majors.
Prerequisite(s): CMI 420.

CMI 425. Film Festival Production
3 Credits
This course is designed to enhance student knowledge about film festivals and, specifically, the Las Cruces International Film Festival. From soup to nuts, students will build upon what they learned in CMI 325 Film Festival Preparation regarding how to manage and execute a major film festival, including film solicitation and submissions, festival event marketing, celebrity appearances, industry workshops, filmmaker coordination and brand management. Students will gain an appreciation of the value of a film festival to the community and for visiting filmmakers. Students will apply this knowledge in their written assignments, film evaluations, and departmental responsibilities. May be repeated up to 6 credits. Restricted to: DFM, ANVE majors.
Prerequisite(s): CMI 325.

CMI 433. Sets and Environments
3 Credits
Digital environment design and creation for movies and games from concept to production; including illustration, modeling, matte painting, texturing, lighting, rendering, integration, and camera projection. May be repeated up to 3 credits. Restricted to: DFM, ANVE majors.
Prerequisite(s): CMI 260, CMI 280, and CMI 233 or consent of instructor.

CMI 450. Advanced 2-D Animation
3 Credits
Advanced techniques in two dimensional animation including motion graphics and integration of live action. Restricted to: ANVE, DFM majors.
Prerequisite(s): CMI 350.

CMI 470. Short 2-D Animation Production
3 Credits
This is a full-scale animation production class where students will be divided into teams according to the animation skills they have demonstrated in the beginning, intermediate, and advanced classes. Each team member will specialize in one important facet of the production process: character animation, background painting, technical direction, coloring, or story development and storyboard. 4 to 8 minute animated shorts will be produced. Restricted to: ANVE, DFM majors.
Prerequisite(s): CMI 450, CMI 361.

CMI 477. Digital Game Design
3 Credits
This course covers the theory and practice of digital game production using industry standard media and game engine applications. Students apply animation and game development approaches toward gamengine constraints and requirements to create gameplay experiences. Design and production methods are implemented to create game levels and populate them with original assets. Team based game prototyping will require multiple disciplines to devise unique digital game experiences. Consent of Instructor required. Restricted to: ANVE, DFM majors.
Prerequisite(s): CMI 377.

CMI 480. Screenwriting II
3 Credits
Students will write 2 short scripts, 10-15 pages each throughout the semester. Focus will be on learning how to take notes and rewrite. Script analysis will be in a workshop format. Scripts will be read and discussed, scenes performed and reactions analyzed to consider effect of dialogue, character development, etc. Crosslisted with: ENGL 480
Prerequisite(s): ENGL 309 or CMI 309 or THTR 306 or consent of instructor. Restricted to: ENVL, DFM, ANVE majors.

CMI 490. Advanced Screenwriting
3 Credits
Students will write 2 short scripts, 10-15 pages each throughout the semester. Focus will be on learning how to take notes and rewrite. Script analysis will be in a workshop format. Scripts will be read and discussed, scenes performed and reactions analyzed to consider effect of dialogue, character development, etc. Crosslisted with: ENVL, DFM, ANVE majors. Recommended for: ENVL, DFM, ANVE majors.

CMI 491. 3D Production Studio I
6 Credits
The course is the first semester of a year-long effort to complete a Senior Project. The project will be narrative-driven short form, 3D animation or visual effects movie. Emphasis will be on pre-production and some production depending on ongoing CMI productions. You will produce a professional quality product with the aim to assist you in gaining entry into professional employment or graduate school. The course may be adapted toward a specific concentration in animation, visual effects, or digital film making, for group and individual productions. Each project must be approved by the Instructor and work within departmental policies and procedures. 
Prerequisite(s)/Corequisite(s): CMI 332, CMI 360, CMI 365, CMI 433.
Prerequisite(s): CMI 308. Restricted to: ANVE majors.
CMI 492. 2D Production Studio I
6 Credits
In CMI 498, Pre-Production, students will write a script, create a storyboard, record voice over and/or dialogue and time these storyboards to this dialogue/voice over creating an Animatic. For those doing demo reels, students will start to compile exercises from all of all their prior classes. Additional exercises will then be assigned to augment the skill set of the student according to the needs of each student. Restricted to: ANVE majors.
Prerequisite(s): CMI 350, CMI 361.

CMI 493. 3D Production Studio II
6 Credits
The course is the final semester of a year-long concentration on your Senior Project. Emphasis will be on the production, post-production, and distribution of the work created in the first semester. You will produce a professional quality product that will help you gain entry into professional employment or graduate school. The overall objective is that you will demonstrate mastery of craft through synthesis of concept and technique, resulting in an original cinematic experience. Restricted to: ANVE majors.
Prerequisite(s): CMI 491.

CMI 494. 2D Production Studio II
6 Credits
Students will complete an entire animated short, trailer, or demo reel for their portfolios by the end of Senior Project II. In CMI 494, Production and Post-Production, students will animate their stories according to the layout set in the animatic from Senior Project I. Lastly, they will composite and edit their shorts into a final piece that will be viewable in time for the Senior Showcase. For demo reels, students will continue to hone their reel into a finished piece that can be presented at the Senior showcase. Restricted to: ANVE majors.
Prerequisite(s): CMI 492.

CMI 495. Internship
1-12 Credits (1-12)
Placement in a production facility and supervised experience required. With CMI advisor approval only. May be repeated up to 18 credits. Consent of Instructor required. Restricted to: DFM,ANVE majors.

CMI 496. Media Law/Ethics
3 Credits
Overview of legal & ethical issues in creative media elements of business and commercial law. This class will focus on the fundamentals of entertainment law by exploring the business and legal relationships within film industries, and animation. Learn to anticipate and avoid legal problems prior to production. Key issues in the area of copyright law, sources of financing, distribution agreements; insurance and union consideration will be discussed. Restricted to ANVE majors.

CMI 497. Portfolio Design and Development
3 Credits
Advanced graphic design projects with an emphasis on conceptual development, portfolio preparation, and professional practices. Refine general marketing strategies, personal portfolio, and resumes. Define, target, and penetrate personal target markets. Students develop individual promotional/demo packages. Restricted to: DFM,ANVE majors.

Second Language Requirement: (not required) 0

Electives, to bring the total credits to 120 5 19

Total Credits 120-123

1 See the General Education (p. 49) section of the catalog for a full list of courses.
2 A Mathematics General Education course is required but students may need to take any prerequisites needed to enter the course selected first.
3 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4 Required Pre-Application class for ANVE
5 Elective credit may vary based on General Education course selection, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Second Language Requirement

For the Bachelor of Creative Media with a major in Animation and Visual Effects, there is no second language requirement for the degree.

Pathway: 3D & VFX Production Studio

Students must complete all university requirements and the Animation and Visual Effects curriculum outlined below. All Animation and Visual Effects Curriculum requirements must be completed with a grade of C- or higher.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

| CMI 490 | Advanced Screenwriting |  
| CMI 495 | Internship |  
| CMI 496 | Media Law/Ethics |  
| CMT 126 or CMT 156 or CMT 190 or CMT 210 or CMT 215 | Film Crew Training I or Film Crew Training II or Digital Video Production I or Digital Video Production II or Digital Video Editing II | 5  
| CMI 222 | Pre-production Management | 5  

---

1. These courses must be taken with a C- of better
2. See the General Education (p. 49) section of the catalog for a full list of courses.
3. Required Pre-Application class for ANVE
4. Elective credit may vary based on General Education course selection, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
5. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
ENGL 232 Script Development and Storyboarding
ENGL 336 Studies in Film

Second Language Requirement: (not required)

Electives: to bring the total to 120 credits

Total Credits 120-123

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. A Mathematics course is required for the degree but students may need to take any prerequisites needed to enter the course first.
3. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4. Required pre-application course for DFM
5. Course may be taken at an NMSU community college.
6. See course descriptions in the designated community college campuses.
7. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Second Language Requirement
For the Bachelor of Creative Media with a major in Digital Film Making there is no second language requirement for the degree.

A Suggested Plan of Study
This roadmap assumes student placement in MATH 210G Intermediate Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Course Title Credits

First Year

Fall

English Composition - Level 1 Course (Recommended) 4
ENGL 111G Rhetoric and Composition (Recommended)

Area II: Mathematics Course (Recommended) 3-4
MATH 210G Mathematics Appreciation (Recommended)
CMI 100 Introduction to the Creative Media Industry (B- or better)
CMI 235 or ENGL 235 Narrative: Principles of Story Across the Media (B- or better)

Elective Course 2

Credits 16-17

Spring

Oral Communication Course 3
Select one from the following:

AXED 201G Effective Leadership and Communication in Agricultural Organizations
COMM 253G Public Speaking
COMM 265G Principles of Human Communication
HON 265G Principles of Human Communication Honors
Area III: Laboratory Sciences Course 3
Area IV: Social/Behavioral Sciences Course 3
Area V: Humanities Course 3
Either an Area III/IV Laboratory Sciences Course or Social/Behavioral Sciences Course 3

Credits 16-17

Second Year

Fall

English Composition - Level 2 3
Choose one from the following:

5. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.

**Animation and Visual Effects - Undergraduate Minor**

Must be admitted to DFM

Take 18 credits of CMI/ENGL, CMI/THTR courses as listed in the Digital Film Making major. A minimum of 9 credits must be upper division.

**Digital Film Making - Undergraduate Minor**

Must be admitted to ANVE

Take 18 credits from the CMI/ENGL, CMI/THTR courses as listed in the Digital Film Making major. A minimum of 9 credits must be upper division.

**Criminal Justice**

**Undergraduate Program Information**

The Department of Criminal Justice offers courses in the traditional setting as well as online. However, we do not offer a fully online Bachelor of Criminal Justice (BCJ). We offer an online Degree Completion Program. Students interested in completing the degree online need to complete at least the first two years on campus while working closely with an academic advisor.

The criminal justice degree plan is broadly interdisciplinary in nature embracing the study of the humanities, law, natural, behavioral and social sciences. The curriculum seeks to balance theoretical inquiry with applied knowledge.

Students become prepared for careers in law enforcement, corrections, probation and parole, work with juveniles, victim services, non- and nonprofit organizations connected with criminal and social justice, and the related field of forensics. Graduates have also been successful in law school and graduate programs in the social sciences. The undergraduate major consists of at least 33 credits in the major field, 27 of which must be numbered 300 or above (excluding C J 393 Internship in Criminal Justice).

The department offers an interdisciplinary minor in Forensic Sciences and has partnered with various other departments to offer an interdisciplinary minor in child advocacy studies. Students interested in the minor should consult with the department head.

**Graduate Program Information**

The Department of Criminal Justice offers graduate study leading to the Master of Criminal Justice (MCJ) degree. Admission to the MCJ is competitive and prospective graduate students are expected to have at least a 3.0 undergraduate grade-point-average, coursework in research methods and statistics, and possess a bachelor's degree. Those not meeting these requirements may be admitted conditionally and required to make up deficiencies at the outset of their program of study. Applicants must submit three letters of recommendation and, after reading through our graduate handbook, provide a brief personal statement discussing your interest in the field and reasons for wanting to pursue the degree (1–2 pages). Please also include a brief sample of writing on a topic in Criminal Justice or Criminology that you are likely to develop in your coursework and/or thesis. This can be a shorter version (3-4 pages) of a past project or term paper, or a more general statement of your current substantive research interests. The GRE is NOT required for admission into the MCJ program. The MCJ Graduate Committee may
require a student to complete additional English writing coursework. For
more information, please visit our website: http://crimjust.nmsu.edu/
criminal-justice-graduat/.

Students must declare their intent to pursue one of the two degree
options: the thesis option or the focused coursework option. The degree
options are provided so that students may better match their education
with career goals. The thesis option is often used by students interested
in pursuing careers in basic and applied criminal justice research or a
doctoral degree. The focused coursework option is often used by
students pursuing administrative positions within criminal justice
agencies. The thesis option is typically only available for Campus-Based
students.

All candidates, regardless of chosen degree option, must complete a final
examination. Examination requirements vary by degree option. Please
contact the director of the MCJ program or consult the Department of
Criminal Justice web site http://crimjust.nmsu.edu/criminal-justice-
graduat/ for details.

The thesis students must submit a thesis proposal to their faculty committee
at a proposal hearing for approval and subsequently complete the
approved thesis project. An approved thesis proposal is one wherein the
thesis committee determines that the student demonstrates a comprehensive
understanding of the nexus of theory, method, and policy as it applies to the
proposed thesis project. At the discretion of the thesis committee the
proposal may be considered inadequate and the student is required to
revise and resubmit the thesis proposal until the committee determines
the proposal is satisfactory. The final examination includes a defense of the
completed thesis, but may also include a general examination based upon the candidate's program of study. The minimum coursework
requirements are displayed below.

Focused coursework students must pass two written comprehensive
examinations following completion of the required courses, no earlier
than their third semester. Students not passing the examinations will be
required to wait until the following semester to retake the examination.
The minimum course requirements are displayed below.

Online M.C.J. Coursework
There is an online option for the MCJ degree. Online criminal justice
courses are available only to those admitted to the MCJ program as online students, or with permission of the Director of the MCJ
program. Students desiring to be admitted to the MCJ program as online
students must declare that intent in writing to the MCJ director. For
more information regarding the online MCJ degree option, consult the
Department of Criminal Justice web page, http://crimjust.nmsu.edu, or
contact the Director of the MCJ program.

Teaching Assistantships
Teaching assistantships are typically available for some traditional (on-
campus) MCJ students on a competitive basis. The Director of the MCJ
Program will contact admitted students to determine their interest, and
the Graduate Committee will make recommendations to the Department
Head for a final decision.

Degrees for the Department
Criminal Justice - Bachelor of Criminal Justice (p. 347)

Law and Society - Undergraduate Supplemental Major (p. 352)

Criminal Justice - Master of Criminal Justice (p. 352)

Minors for the Department
Child Advocacy Studies - Undergraduate Minor (p. 351)

Forensic Science - Undergraduate Minor (p. 351)

Professor, Dennis M. Giever, Department Head

Associate Professors Keys, Lara, Posadas, Tapia; Assistant Professors
Natividad; College Associate Professors Dimitrijevic, Joseph; Emeritus
Professors Crowley, Gregware, Mays (Regents), Winfree

D. Giever, Ph.D. (Indiana University of Pennsylvania)—criminology, research
methods, evidence-based program evaluation; D. Keys, Ph.D. (Missouri-
Columbia)—penology, narcotic policy; D. Lara, Ph.D. (University of California-
Berkeley)—cultural studies, race & ethnicity, border justice; N. Natividad, Ph.D.
(Arizona State)—borderland studies, race and identity studies, immigration; C.
E. Posadas, Ph.D. (Arizona State)—immigration and justice, juvenile justice,
research methods; M. Tapia*, Ph.D. (Ohio State)—crime theory, race and crime,
juvenile justice.

*MCJ Program Director

Criminal Justice Courses
C J 101G. Introduction to Criminal Justice
3 Credits
Examination of crime and justice within the broader social and cultural
context of U.S. society from interdisciplinary social science perspectives.
Includes critical analysis of criminal justice processes and the ethical,
legal, and political factors affecting the exercise of discretion by criminal
justice professionals.

C J 199. Special Topics in Criminal Justice I
1-3 Credits
Specific subjects to be announced in the Schedule of Classes. May be
repeated under different topics for a maximum of 6 credits.

C J 205. Criminal Law
3 Credits
Rules, principles, and doctrines of criminal liability in the United States.
The historical development, limits, and functions of the substantive
criminal law. May be repeated up to 3 credits.

C J 210. The American Law Enforcement System
3 Credits
Historical and philosophical foundations of law and order. An in-depth
examination of the various local, state, and federal law enforcement
agencies.

C J 221. Fundamentals of Criminal Investigation
3 Credits
Investigation procedures from crime scene searches, collection of
evidence, and case preparation. Community Colleges only. (Note:
students completing C J 221 may not take C J 321.)

C J 230. Introduction to Corrections
3 Credits
Development of correctional philosophy, theory, and practice.
Instructional and non-institutional alternatives available in the corrections
process.

C J 250. Courts and the Criminal Justice System
3 Credits
Structures and functions of American courts. Roles of attorneys, judges, and
other court personnel; operation of petit and grand juries, trial and
appellate courts.
C J 293. Field Experience in Criminal Justice
3-6 Credits
Field experience in a public criminal justice agency or equivalent private sector organization. Supervised internship experience, conferences, and observations. Restricted to majors. Community Colleges only.
Prerequisite(s): C J 101G, prior arrangement and consent of instructor and a GPA of 2.0 or better in major.

C J 300. Introduction to Criminal Justice Research
3 Credits
Overview and evaluation of criminal justice research. Selection of research topics, methods of data selection and collection, analysis techniques, and presentation of findings.
Prerequisite: restricted to majors or consent of instructor.

C J 301. Advanced Research Methods
3 Credits
Study of selected quantitative and qualitative skills and their application to criminal justice research.
Prerequisite: Restricted to majors or consent of instructor.

C J 302. Crime, Justice and Society
3 Credits
Through critical analysis students build a rich understanding of the role of crime in our contemporary landscape and explore ideas and practices associated with justice, victimization, criminality, morality and righteousness. The course cultivates knowledge & awareness of the interactions between socially constructed phenomena (race, class, power, ethnicity, economic structures) and popular beliefs, policies, and practices associated with crime, punishment, and formal social control. It is recommended that you complete three of the following English courses before enrolling in this class: ENGL 111G, 203G, 211G, 218G, & 311G.
Restricted to: Criminal Justice majors.

C J 303. Introduction to Criminological Theory
3 Credits
Defining and measuring crime, crime causation, and the criminal behavior system, and their linkage to criminal justice policies, procedures, and practices. Completed two of the following: ENGL 111G, 203G, 211G, 218G, or 311G. Restricted to: C J majors.
Prerequisite(s): Restricted to majors or consent of the instructor and must have completed C J 300.
Corequisite(s): Must be enrolled or have completed third English writing class.

C J 304. Historical Perspectives of Criminal Justice Systems
3 Credits
Examines the precursors to and development of three distinct systems associated with crime and punishment in the United States: the Courts, the Police, & Corrections. By studying the historical context and socio-political backdrop in which theses institutions emerged and expanded students will come to a richer understanding of them and their attendant polices, practices, conventions, and assumptions. It is recommended that you complete three of the following English courses before enrolling in this class: ENGL 111G, 203G, 211G, 218G, & 311G. Restricted to: Criminal Justice majors.
Prerequisite(s): C J 300.

C J 306. Criminal Procedural Law
3 Credits
Legal analyses of the rights of criminal defendants: legal duties and responsibilities of criminal justice personnel in the processing of criminal defendants. May be repeated up to 3 credits. Restricted to: C J majors.
Prerequisite(s): Restricted to majors, Forensic Science minors, or consent of instructor.

C J 307. Law of Evidence
3 Credits
Evidentiary rules and concepts and their application in a criminal trial. May be repeated up to 3 credits. Restricted to: C J majors.
Prerequisite(s): Restricted to majors, Forensic Science minors, or consent of instructor.

C J 321. Criminal Investigation and Intelligence
3 Credits
Principles of criminal investigation and intelligence production; processing cases from complaint through crime scene search, identification and collection of evidence, interviewing and interrogation, and case preparation for courts. May be repeated up to 3 credits. Restricted to: C J majors.
Prerequisite(s): Restricted to majors, Forensic Science minors, or consent of instructor.

C J 331. American Correctional Institutions
3 Credits
Structure, organization, and operations of United States jails and prisons. Overview of correctional standards and classification systems, emphasizing current theory and practice.
Prerequisite: restricted to majors or consent of instructor.

C J 332. Correctional Law
3 Credits
Federal and state laws and rules of post-conviction procedures; rights of the convicted related to sentencing, appeals, clemency, and restoration of rights.
Prerequisite: restricted to majors or consent of instructor.

C J 333. Juvenile Corrections
3 Credits
Development and implementation of juvenile facilities and community programs. Effectiveness of current corrections practices. Restricted to majors.

C J 345. Victimology
3 Credits
Study of risk factors in crime victimization, the impact of crimes upon victims, and the role of the victim in the criminal justice system.
Prerequisite: restricted to majors or consent of instructor.

C J 346. Psychology and the Justice System
3 Credits
Analysis of psychological underpinnings of criminal behavior and the implications of these psychological principles for criminal justice policy. May be repeated up to 3 credits. Restricted to: C J majors.
Prerequisite(s): Restricted to majors, Forensic Science minors, or consent of instructor.

C J 347. Sex Crimes
3 Credits
Dynamics of sex crimes for victims and offenders, plus consideration of the legal and correction systems' response to sex crimes. Restricted to majors.

C J 348. Serial Killers
3 Credits
Overview and critical assessment of serial homicide and its relevance for contemporary U.S. society. Focus on factors influencing definitions and cultural understanding of serial homicide.
Prerequisite(s): 60 credit hours.
C J 360. The Juvenile Justice System
3 Credits
History, development, and philosophy behind a separate juvenile justice system. Role of the juvenile court, evaluation of juvenile law and procedure, and the processing of juvenile offenders.
Prerequisite: restricted to majors or consent of instructor.

C J 380. Introduction to Terrorism
3 Credits
Overview of the phenomenon of terrorism, psychological and sociological theories of terrorism, and various contemporary governmental policies.

C J 391. Special Readings in Criminal Justice
1-3 Credits
Individually chosen subject areas not readily available in other courses. May be repeated for a maximum of 6 credits under different subtitles. Restricted to majors.
Prerequisites: at least a 2.5 GPA and consent of instructor.

C J 393. Internship in Criminal Justice
1-12 Credits
Field experience in a local, state, or federal criminal justice or private security agency. Includes orientation, observation, conferences, and work experience. Credits limited to six if student has taken C J 293. May be repeated for a maximum of 12 credits. Restricted to majors. Graded S/U.
Prerequisites: consent of instructor and GPA of 2.5 or better.

C J 399. New Mexico Law
3 Credits
Same as GOVT 399, JOUR 399, SOC 399, and HIST 399.

C J 405. Juvenile Courts and Law
3 Credits
History, development, and current status of juvenile courts. Legal status of juveniles in court and constitutional protections afforded them. Restricted to majors.

C J 410. Criminal Justice Administrative Systems
3 Credits
Administrative structures in criminal justice agencies and institutions; relationship of administrative structures to practical police, courts, and corrections problems.
Prerequisite: restricted to majors or consent of instructor.

C J 412. Introduction to Security Technology and Loss Prevention
3 Credits
Private and public responses to security problems, including employee theft, perimeter security, and domestic or foreign terrorism; reviews related law and management practices.

C J 414. Race, Crime and Justice
3 Credits
Historical and contemporary analysis of the relationship between race and crime in the United States with emphasis upon human equality and fairness. Overview of racial and ethnic social categorizations and how they impact law and order.

C J 416. Global Perspectives on Youth and Drug Use
3 Credits

C J 417. Drugs In Our World
3 Credits
Comparative analysis of patterns and theories of drug use, formal government mitigation strategies.

C J 424. Forensic Law
3 Credits
Overview of the rules and issues related to the use of scientific information in the legal process. May be repeated up to 3 credits. Restricted to: C J majors.
Prerequisite(s): C J major, Forensic Science minors, or consent of instructor.

C J 425. Issues in Ethics, Law, and Criminal Justice
3 Credits
Examination of the key ethical and decision-making dilemmas facing professionals working in the field of law and criminal justice.
Prerequisite: restricted to majors or consent of instructor.

C J 427. Race and Crime in Film
3 Credits
Critical analysis of film where messages relating race and crime are present, with emphasis on how this imagery informs problem definition, policies, and practice within the criminal justice system.
Prerequisite(s): 60 credit hours.

C J 428. Mexican-American and Issues of Social Justice
3 Credits
In this course we will explore and discuss social issues related to the Mexican American community in the U.S., with special emphasis on their collective historical struggles and contributions to society. We will discuss the political, economic and cultural forces that exemplify their experience as a "whole."
Prerequisite(s): Students must have completed C J 300 or research methods equivalent or consent from the instructor.

C J 429. Immigration & Justice
3 Credits
This course is designed to introduce undergraduate students to the complexities of immigration in the United States through a social justice lens. Students will explore the intersections of race, ethnicity, gender, and class in immigration through different groups' historical and contemporary experiences, including immigrants' experience with the criminal justice system.
Prerequisite(s): Student must have completed C J 300 or Research Methods equivalent or consent of the instructor.

C J 430. The U.S. Supreme Court and the Criminal Justice System
3 Credits
History and workings of the U.S. Supreme Court in the context of the criminal justice system from writs of certiorari to last minute appeals in death penalty cases, including study of specific U.S. Supreme Court cases in the areas of criminal law, criminal procedural law, 8th amendment prison sentencing issues, and death penalty cases. Consent of Instructor required. Restricted to: Criminal Justice majors.

C J 431. Family Violence and the Law
3 Credits
This course will examine how practitioners are involved in the criminal justice system in areas of family violence including: child physical abuse; child sexual abuse; child neglect; child ritualistic abuse; child exploitation; sibling abuse; intimate partner abuse; stalking; sexual abuse and elder abuse. This course will be helpful for those who wish to go into law enforcement or victim's advocacy work. Restricted to: Criminal Justice majors.

C J 432. Issues in Criminal Justice
3 Credits
Seminar on problems and conflicts encountered in major criminal justice issues. Topics announced in the Schedule of Classes. May be repeated for unlimited credits under different subtitles.
C J 434. Probation, Parole, and Community Corrections
3 Credits
Structure, organization, and operation of probation, parole, and other community-based correctional programs in the U.S. Overview of historical and recent trends in the supervision of offenders in the community and in the development of alternatives to incarceration. Analysis of issues related to community correctional policies and practices. Restricted to majors.

C J 435. Political Penology
3 Credits
Comparative analysis of incarceration and sanctions as punishment for crimes of conscience, religious intolerance, and dissidence.

C J 436. Courts and Sentencing
3 Credits
This course will focus on the structure, organization, and operation of the state and federal court systems in the United States. It examines courtroom decision making and dynamics of courthouse justice—prosecutorial discretion, plea bargaining practices, jury and judicial decision making and sentencing. Additional topics will include racial, gender and class disparities in sentencing outcomes and the impact of recent reforms directed at the criminal court system. Restricted to: Criminal Justice majors.

C J 437. Wrongful Convictions
3 Credits
This course will address causes (e.g. problems in witness identification, forensics, police and attorney conduct) as well as results of erroneous dispositions (e.g. compensation, media dynamics, possible reforms) in a critical analysis. Appropriate for prospective police, legal, and policy professionals. Restricted to: Criminal Justice majors.

C J 440V. Comparative Criminal Justice Systems
3 Credits
Cross-national study of selected Western and non-Western legal systems. Comparison of structures and functions of police, court systems, and corrections in different systems.

C J 449. Senior Seminar
3 Credits
Problems and conflicts encountered in major attempts to control crime. Restricted to majors.
Prerequisite(s): C J 101, C J 205, C J 210, C J 230, C J 250, C J 300, C J 301, 90 credit hours completed.

C J 451. Border Violence and Justice
3 Credits
Critical analysis of violence and systems of justice along border regions. Examines causes and correlates of violence experienced by those living in border regions and the social responses to that violence.

C J 453. Women and Justice
3 Credits
Critical analysis of the impact of the criminal justice system, race and class upon the lives of women. Restricted to majors.

C J 454. Human Trafficking
3 Credits

C J 455. Feminist Research Methods
3 Credits
Feminist research practices and methodologies utilized in various disciplines. Definitions of research, what constitutes valid inquiry, how research can be feminist, and what it means to do interdisciplinary work. Same as W S 455.

C J 484. Hate Crimes & Groups
3 Credits
Explores the phenomenon of hate-motivated violence. Examines the hate crime laws, organized hate groups, and social theories attempting to explain violent hate.

C J 501. Research Methods in Criminal Justice
3 Credits
Research design, methods of data collection and analysis, and preparation of research reports. Restricted to majors.
Prerequisite: C J major or consent of instructor.

C J 511. Nature of Crime
3 Credits
Defining and measuring crime, crime causation, and criminal behavior systems. Restricted to majors.
Prerequisite: C J major or consent of instructor.

C J 514. Advanced Race, Crime, and Justice
3 Credits
Advanced analysis of the historical and contemporary relationship between race and crime in the United States with emphasis upon human equality and fairness. Overview of racial and ethnic social categorizations and how they impact law and order.

C J 515. A Course on Punishment
3 Credits
Exploration and analysis of the idea and practice of punishment through a variety of philosophical perspectives, seeking to understand its moral and practical viability as employed in contemporary society, including its application within the criminal justice system.

C J 521. Law and Social Control
3 Credits
The development and implementation of criminal law. Consideration of functionalist, conflict, and interpretive theories and research. Restricted to majors.
Prerequisite: C J major or consent of instructor.

C J 524. Forensic Law
3 Credits
Rules and policy implications related to the use of scientific information in legal process. Restricted to majors.
Prerequisite: C J major or consent of instructor.

C J 525. Issues in Ethics, Law, and Criminal Justice
3 Credits
Examination of the key ethical and decision-making dilemmas facing professionals working in the fields of law and criminal justice. Restricted to majors.

C J 527. Advanced Race & Crime in Film
3 Credits
Advanced critical analysis of film where messages relating race and crime are present, with emphasis on how this imagery informs problem definition, policies, and practice within the criminal justice system.
C J 529. Advanced Immigration & Justice
3 Credits
Advanced analysis of the complexities of immigration in the United States through a social justice lens. Students will explore the intersections of race, ethnicity, gender, and class in immigration through different groups’ historical and contemporary experiences, including immigrants’ experience with the criminal justice system.

C J 531. Advanced Family Violence and the Law
3 Credits
This course will examine how practitioners are involved in the criminal justice system in areas of family violence including: child physical abuse; child sexual abuse; child neglect; child ritualistic abuse; child exploitation; sibling abuse; intimate partner abuse; stalking; sexual abuse and elder abuse. This course will be helpful for those who wish to go into law enforcement or victim’s advocacy work. Restricted to: Criminal Justice majors.

C J 532. Advanced Issues in Criminal Justice (f, s, sum)
3 Credits
Seminar on problems and conflicts encountered in major criminal justice issues. Topics announced in the Schedule of Classes. May be repeated under different subtitles for unlimited credit.

C J 535. Advanced Political Penology
3 Credits
Advanced comparative analysis of incarceration and sanctions as punishment for crimes of conscience, religious intolerance, and dissidence.

C J 537. Advanced Wrongful Convictions
3 Credits
This course will address causes (e.g. problems in witness identification, forensics, police and attorney conduct) as well as results of erroneous dispositions (e.g. compensation, media dynamics, possible reforms) in a critical analysis. Appropriate for prospective police, legal, and policy professionals. Restricted to: Criminal Justice majors.

C J 541. Seminar in Criminal Justice Policy Analysis and Planning
3 Credits
Seminar on policy development, planning and implementation processes in criminal justice. Links formal policy goals as they relate to theory and outcomes. Topics announced in the Schedule of Classes. Restricted to majors.
Prerequisite: C J major or consent of instructor.

C J 545. Advanced Victimology
3 Credits
Study of risk factors in crime victimization, the impact of crimes upon victims, and the role of the victim in the criminal justice system. Consideration of the impact of criminal justice policy on victim outcomes. Same as W S 545.

C J 554. Advanced Human Trafficking
3 Credits

C J 555. Advanced Feminist Research Methods
3 Credits
Advanced feminist research practices and methodologies utilized in various disciplines. Definitions of research, what constitutes valid inquiry, how research can be feminist, and what it means to do interdisciplinary work. Same as W S 555.

C J 581. Community Policing
3 Credits
Overview and analysis of community policing issues from various perspectives. Analysis of strategies that facilitate police and community collaboration. Restricted to majors.

C J 591. Directed Readings in Criminal Justice
3 Credits
Supervised review of literature in specialized areas of the nature of crime, law and social control, and criminal justice administration. Consent of instructor required.

C J 592. Independent Research
1-3 Credits
Design and execution of a criminal justice research project. Requires a written paper in standard format, including literature review, hypotheses, methodology, findings, and conclusions.

C J 593. Internship
3-6 Credits
Supervised placement in an applied or research setting in criminal justice. An in-depth written report of the project is required. Restricted to C J majors. May be repeated for a maximum of 6 credits. Graded S/U.
Prerequisites: introductory graduate course in the area of the internship and consent of the internship supervisor.

C J 599. Master's Thesis
1-15 Credits
Thesis.

Name: Andreia Jaramillo-Scarborough, Administrative Assistant

</table>

1. The department requires 6 credits of English Composition - Level 2 coursework, 3 credits will count towards the General Education requirement, the other 3 credits will count as Non-Departmental requirements. ENGL 112 will only be accepted to fulfill one of the English Composition Level 2 requirements and is only allowed for transfer students.
2. MATH 121G, STAT 251G/STAT 251G or STAT 271G are preferred but any Mathematics course that is higher level than MATH 121G, excluding MATH 210G Mathematics Appreciation, or higher than STAT 251G is also accepted.
3. *Students may need to take any prerequisites needed to enter of the allowable Mathematics course(s) first.*
4. See the General Education (p. 49) section of the catalog for a full list of courses.
5. Students can take an Upper-Division PHIL course to meet departmental requirements, however, if this option is chosen, the student will have to take another general education humanities course to fulfill the general education humanities requirement.
6. See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
7. Prior to enrolling in upper division courses, lower division courses must be completed or final courses must be in progress.
8. Not to include C J 393 Internship in Criminal Justice, or any criminal justice required course. Courses that fall under multiple content areas may only be counted once. Please visit our website for specific courses in each of these content areas [http://crimjust.nmsu.edu](http://crimjust.nmsu.edu).
9. Elective credit may vary based on General Education course selection, second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

*A student must earn a C- or better to receive credit for any departmental and nondepartmental requirement for the BC J degrees.*
Second Language Requirement
For the Bachelor of Criminal Justice with a major in Criminal Justice there is a two year second language requirement (or the completion of MATH 191G), the student must do one of the following:

Option 1:
<table>
<thead>
<tr>

<td>Spanish for Heritage Learners III</td>
<td>3</td>
</tr>
</tbody>
</table>

Option 4:
Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

Option 5:
Obtain college certification of completion of three years of a second language at the high school level with a grade of C- or higher in the second-year level.

Option 6:
By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

Option 7:
By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

Option 8:
In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

A Suggested Plan of Study for Students
This roadmap assumes student placement in MATH 121G, or A ST 251G/STAT 251G or STAT 271G and ENGL 111G. The contents and order of this roadmap may vary depending on initial student placement in mathematics and english. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

15

**Spring**

Second Language Requirement: 212-level (C- or better) 4 3
VWW - Viewing a Wider World 9 3

**Credits**

12

### Fourth Year

**Fall**

Choose one from the following:
- C J 302 Crime, Justice and Society (C- or better) 3
- C J 425 Issues in Ethics, Law, and Criminal Justice (C- or better) 3
- Elective Course - Upper Division 5 3

**Credits**

15

**Spring**

C J - Upper Division Elective Course (C- or better) 3
Elective Course - Upper Division 5 3
Elective Course - Upper Division 5 3

**Credits**

12

**Total Credits**

120-122

---

1. Math Placement: MATH 121G College Algebra or A ST 251G Statistics for Business and the Behavioral Sciences/STAT 251G Statistics for Business and the Behavioral Sciences or STAT 271G Statistics for Psychological Sciences is the starting Math course for the degree, however, students may need to complete any prerequisites prior to enrolling into one of these courses.

2. See the General Education (p. 49) section of the catalog for a full list of courses.

3. One of the following is required for the major: PHIL 100G Philosophy, Law and Ethics, PHIL 201G Introduction to Philosophy, PHIL 211G Informal Logic, and PHIL 223G Ethics

4. Second Language: options for completing the second language requirement can be located on the Requirements (p. 347) tab for this degree.

5. Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

6. C J 300 Introduction to Criminal Justice Research can be taken in either the Fall or Spring semesters of Year Two. The following courses may substitute for C J 300: GOVT 300 Political Research Skills, PSY 310 Experimental Methods, SOC 352 Social Research: Methods

7. C J 300 Introduction to Criminal Justice Research and C J 301 Advanced Research Methods should ideally be taken in separate semesters

8. Recommended: 1 credit of P E, LSAT Prep or UNIV coursework
Child Advocacy Studies - Undergraduate Minor

The interdisciplinary undergraduate minor in Child Advocacy Studies (CAST) provides mandated reporters and responders in social work, public health, nursing, criminal justice, psychology, education, family studies, cooperative extension and other disciplines with evidence-based, culturally relevant knowledge and skills to improve the outcomes for maltreated children in New Mexico or wherever their paths may take them.

The core courses, worth three (3) credits each, will be focused on the needs specific to New Mexico and will adhere to both statewide and national best practice standards on the welfare of children. The remaining nine (9) out of the total of 18 required credits will come from courses that students choose from a list of selected courses already being taught across the campus. To declare this minor please contact the Family and Consumer Sciences department. For more information, please visit: http://aces.nmsu.edu/academics/FCS/cast.html

Forensic Science - Undergraduate Minor

Forensic Science is the application of principles and techniques of scientific analysis in a legal context. Forensic scientists study physical evidence to resolve issues involving criminal investigations, environment analyses and similar areas of research.

A student must pass 18 credits with a grade of C- or higher from the following curriculum to earn the Forensic Science minor. No courses may be taken S/U. Students must take at least 6 credits from departments outside their major(s). At least 9 credits in any minor must be upper division. Students must register in the minor before enrolling in any upper division Criminal Justice courses.

The following curriculum represents minimum requirements for a minor. Students interested in a career in Forensic Science are encouraged to take additional courses from those listed below.

The Forensic Minor requires courses from three sections: (1) 6 credits from the list of Core Courses; (2) 3 credits from an additional course not already completed; and (3) 9 credits from one of the four tracks listed below.

Total Credits: 9

1 Recommended sequence ANTH 130G Human’s Place in Nature: Introduction to Biological Anthropology/ANTH 130GL Human’s Place in Nature Laboratory, ANTH 355 Physical Anthropology or ANTH 315 Introduction to Archaeology, and then ANTH 474 Human Osteology.

2 Courses have prerequisites, and students should check the catalog to ensure that they have taken prerequisites before enrolling in these courses.

Track C: Forensic Psychology

Students should check the catalog to ensure that they have taken prerequisites before enrolling in these courses.
**Law and Society - Undergraduate Supplemental Major**

The Law and Society Program (p. 407) is administered by the Department of Government and offers an interdisciplinary major for students interested in pursuing law school or careers that incorporate a strong legal element, such as government, law enforcement, business and social work. As a supplementary major, it must be taken in conjunction with a regular major. Some courses may double-count toward a student's regular major or General Education requirements. Students should check with academic advisors in their primary major. To declare this supplemental major please contact the College of Arts & Sciences Student Records Office. For more information please visit: [https://deptofgov.nmsu.edu/academic-programs/law-society/](https://deptofgov.nmsu.edu/academic-programs/law-society/).

**Thesis Option (33 Credits)**

Thesis students must submit a thesis proposal to their faculty committee for approval and subsequently complete the approved thesis project. An approved thesis proposal is one wherein the thesis committee determines the student demonstrates a comprehensive understanding of the nexus of theory, method, and policy as it applies to the proposed thesis project. At the discretion of the thesis committee the proposal may be considered inadequate and the student is required to revise and resubmit the thesis proposal until the committee determines the proposal is satisfactory. The final examination minimally includes a defense of the completed thesis, but may also include a general examination based upon the candidate's program of study. The minimum coursework requirements are displayed below.

**Law and Society - Undergraduate Supplemental Major**

**Criminal Justice - Master of Criminal Justice**

All candidates, regardless of chosen degree option, must complete a final examination. Examination requirements vary by degree option. Please contact the director of the MCJ program or consult the Department of Criminal Justice website for details.
or C J 555 Advanced Feminist Research Methods

<table>
<thead>
<tr>
<th>C J Electives</th>
<th>Seminar in Criminal Justice Policy Analysis and Planning</th>
</tr>
</thead>
</table>

C J Electives
Select 12 credits from electives from courses offered by the Department of Criminal Justice, to be selected in consultation with a student’s advisor. 1

General Electives/Minor
An additional 9 credits of electives, to be selected in consultation with a student’s advisor. 2

Total Credits 36

1 No more than three total credits of C J 593 Internship or C J 591 Directed Readings courses may be used as Criminal Justice electives. C J 592 Independent Research may not be used as Criminal Justice Electives for this option.

2 No more than three credits of C J 593 Internship or C J 591 Directed Readings may be used to fulfill the general elective requirement. C J 592 Independent Research may not be used as Criminal Justice Elective for this option.

A minor is optional (contact the director of the MCJ program or consult the Department of Criminal Justice web site, https://crimjust.nmsu.edu/, for details) and may result in more than 36 total credits for the degree.

Minimum Grade Requirement
Students must earn a minimum B- grade in all required core courses, excluding elective credits. This applies to both options: Thesis and Focused Coursework as well as to both programs: On-Campus (traditional) and Online.

Economics, Applied Statistics, and International Business

Undergraduate Program Information
The Department of Economics, Applied Statistics and International Business in the College of Business offers an economics major to Bachelor of Arts candidates in the College of Arts and Sciences. (Additional information may be found under the Economics and International Business (p. 560) section in the College of Business chapter).

Degrees for the Department
Economics - Bachelor of Arts (p. 355)

Minors for the Department
Economics - Undergraduate Minor (p. 358)

Economics Courses
ECON 201G. Introduction to Economics
3 Credits
Economic institutions and current issues with special emphasis on the American economy.

ECON 251G. Principles of Macroeconomics
3 Credits
Macroeconomic theory and public policy: national income concepts, unemployment, inflation, economic growth, and international payment problems.

ECON 251GH. Principles of Macroeconomics Honors
3 Credits
Macroeconomic theory and public policy designed: national income concepts, unemployment, inflation, economic growth, and international payment problems.
Prerequisite(s): Crimson Scholar; MATH 121G.

ECON 252G. Principles of Microeconomics
3 Credits
Microeconomic theory and public policy: supply and demand, theory of the firm, market allocation of resources, income distribution, competition and monopoly, governmental regulation of businesses and unions.

ECON 252GH. Principles of Microeconomics Honors
3 Credits
Microeconomic theory and public policy: supply and demand, theory of the firm, market allocation of resources, income distribution, competition and monopoly, governmental regulation of businesses and unions.
Prerequisite(s): Crimson Scholar; MATH 121G.

ECON 304. Money and Banking
3 Credits
Income measurement and determination, monetary and fiscal policies.
Prerequisite: ECON 251G or equivalent, or consent of instructor.

ECON 311. Intermediate Macroeconomic Theory
3 Credits
Analysis of gross domestic product, the Classical, Keynesian, and Neo-Keynesian theories of income, employment, inflation and growth.
Prerequisite(s): ECON 251G or equivalent.

ECON 312. Intermediate Microeconomic Theory
3 Credits
Contemporary economic theory with emphasis upon value and distribution.
Prerequisite(s): ECON 252G or equivalent.

ECON 324V. Developing Nations
3 Credits
Economic analysis of problems related to development of developing nations. Issues such as growth, industrialization, poverty, population, international trade, foreign debt, and international economic relations.

ECON 325V. Economic Development of Latin America
3 Credits
Economic analysis of problems related to development in Latin America, including the agrarian problem, debt and austerity programs, industrialization, inflation and unemployment, the drug trade, U.S.-Latin American relations, development strategies. Also individual countries problems.
ECON 332. Public Finance
3 Credits
This course will examine the roles of government in modern, market-oriented, mixed economies. It will examine justifications for government participation in resource allocation, income distribution, and economic stabilization focusing primarily on the fiscal functions of government, taxation and public expenditure. Students will apply basic microeconomic analysis to analyze the impacts of public taxation and expenditures on economic decisions made elsewhere in the economy. In this course the emphasis will be on understanding the workings of public finance in fiscal federalist systems like the United States, but the principles taught will be applicable across other economic systems. Prerequisites: ECON 252

ECON 335V. Business and Government
3 Credits
Relation of government to business through regulation; political, legal, and social implications. Crosslisted with: MGT 335G

ECON 336. Labor Economics
3 Credits
This course aims at developing students’ understanding of how the labor market works. Topics to be covered include: labor supply and demand, wage differentials, wage structure, unemployment, gender issues, labor market discrimination, and migration. Prerequisite(s): ECON 252G.

ECON 337V. Natural Resource Economics
3 Credits
Same as AG E 337V. Prerequisite: ECON 201 or ECON 252.

ECON 340. American Economic History
3 Credits
The rise of big business and organized labor, increasing price rigidities, and growing government intervention. Same as HIST 340.

ECON 345. Energy Economics
3 Credits
Examines the economics of energy production including oil, coal, natural gas, renewables, and conservation as a substitute for energy production. Emphasis is on federal and state regulatory framework, and resulting public policy issues from a regional and national perspective. Prerequisite(s): ECON 251G or ECON 251GH, (ECON 252G or ECON 252GH).

ECON 384V. Water Resource Economics
3 Credits
Use of economic principles to evaluate current and emerging issues in water resources. Applications focus on use of economic methods of analysis to current policy decisions surrounding agricultural, municipal, industrial, and environmental uses of water. Same as AG E 384V. Prerequisite: AG E 100 or ECON 252G.

ECON 401. Managerial Economics
3 Credits
Application of economic theory to problems of business management. Prerequisite(s): ECON 252G and MATH 142 or equivalent, or consent of instructor.

ECON 404. Collegiate Advisory Board, Federal Reserve
3 Credits
Students serve on the Collegiate Advisory Board of the El Paso branch of the Federal Reserve Bank of Dallas. Guest speakers provide an overview of the Federal Reserve System, role of monetary policy, and issues facing specific industries in the local, national, and global economies. Students prepare reports, including a final paper, on an assigned industry in the regional or state economy and the current economic performance of their industry. Students must be of junior rank or higher with a GPA of at least 3.5. Consent of Instructor required.

ECON 405. Introductory Econometrics
3 Credits
Multiple regression and correlation applied to economics and business; inference techniques; significance tests; simultaneous equations, estimation, and problems. Prerequisite(s): A ST 251G or STAT 251G or A ST 311 (or equivalent).

ECON 406. The Economics of Sports
3 Credits
Applying the tools of economic analysis to a particular industry and gaining an in-depth knowledge of the interaction of professional sports teams and leagues with the economy and society. Same as AG E 406. Prerequisites: one previous course in economics or consent of instructor.

ECON 432V. Economics of Health Care
3 Credits
Analysis of the allocation of resources in the field of health and medical care.

ECON 445. Oil and Natural Gas Economics
3 Credits
Examines the economics of oil and gas production. Topics covered include transportation, refining, federal and state regulatory framework, and resulting public policy issues from a regional and national perspective. Prerequisite(s): ECON 345.

ECON 449. Open Economy Macroeconomics
3 Credits
This course studies theoretical and empirical macroeconomics in international dimension. It covers from the fundamental concepts of national income and growth, monetary/fiscal and exchange rate policies, foreign exchange markets, international trade and finance, and regionalization/economic integration to the impact analysis of these macroeconomic fundamentals in the open economy. Crosslisted with: IB 449. Prerequisite(s): FIN 341 OR ECON 311.

ECON 450. International Economics
3 Credits
Trade and capital flows between countries, international payments, government policy in balance-of-payments and tariff matters, international organizations. Crosslisted with: IB 450 Prerequisite(s): ECON 251G and ECON 252G.

ECON 457. Mathematical Economics
3 Credits
Application of mathematical tools, especially the calculus, to economic theory. Prerequisite: one upper-division economics course.
ECON 471. Electricity Economics
3 Credits
Regulatory policy and economic analysis related to the Electric Industry. Topics include characteristics of a utility and legal justification for regulation; characteristics and functions of a regulatory commission; history and structure of the industry; technology and network design; revenue requirements; cost allocation; and basic retail rate design. Crosslisted with: ECON 571.
Prerequisite(s): ECON 345.

ECON 489. Senior Economics Seminar
3 Credits
Seminar primarily for economics majors in their final semester. Provides an opportunity to apply economic theory to a broad variety of topics.
Prerequisite(s): ECON 311 or ECON 312.

ECON 490. Selected Topics
1-3 Credits
Current topics in economics. Subject matter to be designated for each semester.

ECON 498. Independent Study
1-3 Credits
Individual studies directed by consenting faculty with the prior approval of the department head. May be repeated for a maximum of 3 credits.
Prerequisite: junior or above standing and consent of instructor.

ECON 503. Managerial Economics
3 Credits
Theory and application of microeconomics to the management of organizations.
Prerequisite(s): A ST 251G or 311 or equivalent with B or better.

ECON 545. Econometrics II
3 Credits
Application of statistical techniques to estimation of economic relationships: demand functions, production and cost functions, and macroeconomic equations.
Prerequisite(s): ECON 251G, ECON 252G, STAT 251G or A ST 311, and AECC 540.

ECON 550. Special Topics
1-3 Credits
Seminars in selected current topics in the various areas of economics. Prerequisites vary according to the topic being offered.

ECON 571. Regulatory Policy and Industry Analysis: Electricity I
3 Credits
Regulatory policy and economic analysis related to the Electric Industry. Topics include: characteristics of a utility and legal justification for regulation; history and structure of the industry; technology and network design; revenue requirements; cost allocation; and basic retail rate design.

ECON 572. Regulatory Policy and Industrial Analysis: Water and Natural Gas
3 Credits
Regulatory policy and economic analysis related to the Natural Gas and Water industries. Topics include: history and structure of the industry; technology and network design; revenue requirements; cost allocation; and retail rate design.

ECON 573. Regulatory Policy and Industry Analysis: Electricity II
3 Credits
Regulatory policy and economic analysis related to the Electric industry. Topics include: optimal generation mix; ancillary services; environmental policies; rate case procedures and strategies for effective testimony; advanced retail rate design; wholesale exchanges; unbundled transmission tariffs; market institutions and how different markets function; state and federal deregulation policies; Federal Energy Regulatory Commission orders and policies; demand-side management; and regulatory treatment of non-traditional retail services. Consent of instructor required.
Prerequisite(s): ECON 571 or consent of instructor.

ECON 574. Advanced Seminar Regulatory Policy and Industry Analysis
3 Credits
Advanced seminar and writing course specializing in regulatory policy and regulatory casework. Topics include: special policy & regulatory issues in telecommunications, electricity, natural gas, and water; preparation of written testimony; expert witness effectiveness including cross-examination; and contested case management. This course involves extensive reading and writing assignments. Consent of instructor required.
Prerequisite(s): ECON 571 or consent of instructor.

ECON 581. International Economics
3 Credits
Trade and capital flows between countries, international payments, government policy in balance-of-payments and tariff matters, international organizations.
Prerequisite(s): ECON 311 and ECON 312.

ECON 582. Economics of Health Care
3 Credits
Analysis of the allocation of resources in the field of health and medical care. Taught with ECON 432V with differentiated assignments for graduate students.

ECON 596. Independent Study
3 Credits
Individual study program. Each offering will cover a subtitle. Maximum of 3 credits in a semester and 6 credits in a program. Consent of instructor required.

Phone: (575) 646-2113

Economics - Bachelor of Arts

The Bachelor of Arts major in Economics is the only bachelor of arts degree offered through the College of Business. It has the advantage of including a large number of general electives. This feature provides great flexibility to the student who, in addition to completing the courses for a major in economics, may wish to take a double major or take courses from a wide variety of other subjects of his or her own choosing. This program is suitable for, among others, students who plan to go to graduate school in economics, law, business, the social sciences or other areas.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective
Credits, but may be needed in order to take the necessary English and Mathematics coursework.

</tbody>
</table>

Students may be required to take MATH 120 Intermediate Algebra, depending on their math placement. MATH 121G College Algebra or MATH 142G Calculus for the Biological and Management Sciences or A ST 251G Statistics for Business and the Behavioral Sciences or STAT 251G Statistics for Business and the Behavioral Sciences fulfills the general education requirement in math.

See the General Education (p. 49) section of the catalog for a full list of courses.

Economics majors must earn a minimum cumulative GPA of 2.5 in the 27 credits of departmental requirements.

Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 121G College Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may
vary from fall to spring semester and may be subject to modification or change.

¹ ECON 201G Introduction to Economics, may be substituted for one of these with the approval of the department head.

English

Undergraduate Program Information

The Department of English offers the Bachelor of Arts (BA) in English as the cornerstone of studies in the humanities. This rich and versatile major provides students with a source of personal enrichment as well as verbal, analytical and cultural skills that are readily adaptable to a variety of careers. The English curriculum includes courses in literature, language, creative writing, technical and professional communication, rhetoric, cultural studies, digital media and film. Our majors go on to succeed in a wide range of professions, including secondary and post-

secondary education, business, government, publishing and law. We offer four different major concentrations that students can tailor to their individual needs, in:

1. English,
2. Creative Writing,
3. Literature, Language, and Culture, and

The department provides strong and personalized advising designed to help students reach their full academic potential and future career goals.

The department also offers minors in:

- English;
- creative writing;
- literature;
- medieval and Early Modern studies; and
- rhetoric and professional communication.

Further information about career opportunities, concentrations and minors is available from the Department of English. Students who wish to pursue English as a double major may eliminate one elective from the departmental requirements. Students are required to fulfill a second language requirement of one year.

Graduate Program Information

Graduate coursework in the Department of English spans a diverse field of studies in culture, rhetoric, literature, digital media, composition pedagogy, professional communication, and writing. The department offers three graduate degrees: the Master of Arts in English, Master of Fine Arts in Creative Writing, and Doctor of Philosophy in Rhetoric and Professional Communication. Students pursuing the MA in English may specialize in any of four areas: Creative Writing, Literature, Rhetoric and Professional Communication, or English Studies for Teachers. These graduate degrees prepare students to succeed in a variety of careers, including writing, editing, publishing, secondary and post-secondary education, business and industry, media, web design, government, nonprofits, and law. Students work closely with faculty advisors to develop programs of study that fit their individual needs and goals.

Students wishing to apply to the MA, MFA, or PhD should consult application information on the English Department website at [http://english.nmsu.edu/apply/](http://english.nmsu.edu/apply/). Applicants are due by January 15th for the MFA and by February 1st for the PhD. Review of MA applications begins on October 1st for spring admission and February 1st for fall admission. Support in the form of a Graduate Assistantships is awarded through a competitive selection process; this application is folded into the application for admission and should be submitted by the February 1st deadline. Students in the MFA, PhD, and MA emphases in Literature and Rhetoric and Professional Communication are eligible to apply for a Graduate Assistantship. All Graduate Assistantships in English begin in the fall semester.

Degrees for the Department

English - Bachelor of Arts (p. 368)

English - Master of Arts (p. 376)

Creative Writing - Master of Fine Arts in Creative Writing (p. 378)
Rhetoric and Professional Communication - Doctor of Philosophy (p. 378)

**Minors for the Department**

Creative Writing - Undergraduate Minor (p. 373)

English - Undergraduate Minor (p. 373)

Literature - Undergraduate Minor (p. 374)

Medieval and Early Modern Studies - Undergraduate Minor (p. 374)

Rhetoric and Professional Communication - Undergraduate Minor (p. 375)

**Professor Elizabeth Schirmer, Department Head**

**Professors** Bradburd, Thatcher, Voisine, Wojahn; **Associate Professors** Cull, Garay, Greenfield, Miller-Tomlinson, Rosenberg, Rourke, Schirmer, Sharp-Hoskins, Stolte; **Assistant Professors** Banaze, Tremblay, Wells; **College Professor** Brown; **College Associate Professor**: Poole **College Assistant Professors** Conley, Lawrence, Lanier.

**English Courses**

**ENGL 111 M. Rhetoric and Composition for International and Multilingual Students**

4 Credits

For international and multilingual students. Students will build on your prior knowledge of writing in English as a second or additional language by engaging in several genres of writing and reading, including reading responses, discussion posts, formal academic papers (Rhetorical Analysis and Documented Argument), and peer review. Your instructor and classmates will serve as your readers and will give you helpful and constructive criticism, which will in turn assist you in becoming a more fluent and engaging communicator in English. Fulfills English 111 Gen-ed requirement. Restricted to Las Cruces campus only.

**Prerequisite(s):** CBT/PB score of 500, or IBT score of 61, or SPCD 110, or consent of instructor.

**ENGL 111G. Rhetoric and Composition**

4 Credits

Skills and methods used in writing university-level essays.

**Prerequisite(s):** ACT standard score in English of 16 or higher or a Compass score 76 or higher; for those scoring 13-15 on the Compass, successful completion of a developmental writing course; for those scoring 12 or below on the ACT standard score in English or 34 or below on the Compass, successful completion of two developmental writing courses.

**ENGL 111GH. Rhetoric and Composition Honors**

4 Credits

Individualized assignments and independent study. Satisfies 4 credits of General Education English Composition requirement.

**Prerequisite:** ACT standard English score of 25 or higher and departmental approval.

**ENGL 112. Rhetoric and Composition II**

2 Credits

A continuation of English 111G for those desiring more work in composition. Weekly themes based on outside reading.

**Prerequisite:** successful completion of ENGL 111G or the equivalent.

**ENGL 115G. Perspectives on Literature**

3 Credits

Examines literature by writers from culturally diverse backgrounds and from different cultural and historical contexts. Explores various strategies of critical reading.

**ENGL 116G. Perspectives on Film**

3 Credits (3+3P)

Explores narrative and documentary film and examines significant developments in the history of cinema. Criticism of film as an art form, technical enterprise, business venture, and cultural phenomenon.

**ENGL 203G. Business and Professional Communication**

3 Credits

Effective writing for courses and careers in business, law, government, and other professions. Strategies for researching and writing correspondence and reports, with an emphasis on understanding and responding to a variety of communication tasks with a strong purpose, clear organization, and vigorous professional style. May be repeated up to 3 credits.

**Prerequisite(s):** Grade of C- or better in ENGL 111G or SPCD 111G or ENGL 111 M.

**ENGL 211G. Writing in the Humanities and Social Sciences**

3 Credits

Theory and practice in interpreting texts from various disciplines in the humanities and social sciences. Strategies for researching, evaluating, constructing, and writing researched arguments. Course subtitled in the Schedule of Classes. May be repeated up to 3 credits.

**Prerequisite(s):** Grade of C- or better in ENGL 111G or ENGL 111 M.

**ENGL 218G. Technical and Scientific Communication**

3 Credits

Effective writing for courses and careers in sciences, engineering, and agriculture. Strategies for understanding and presenting technical information for various purposes to various audiences. May be repeated up to 3 credits.

**Prerequisite(s):** Grade of C- or better in ENGL 111G or ENGL 111 M.
ENGL 220G. Introduction to Creative Writing
3 Credits
Examines classic and contemporary literature in three genres. Various forms, terminologies, methods and technical aspects of each genre, and the art and processes of creative writing. May be repeated up to 3 credits.
Prerequisite(s): ENGL 111G or SPCD 111G or ENGL 111 M.

ENGL 232. Script Development and Storyboarding
3 Credits
Examines effective writing principles for creating storyboards that communicate the overall picture of a project, timing, scene complexity, emotion and resource requirements. Crosslisted with: CMI 232.

ENGL 235. Narrative: Principles of Story Across the Media
3 Credits
Examines the various strategies of written and visual storytelling, narrative structure and its principal components (plot, theme, character, imagery, symbolism, point of view) with an attempt to connect them to elements of contemporary forms of media expression, including screenwriting, playwriting, writing for documentaries and animation, etc. Crosslisted with: CMI 235

ENGL 243. The Bible as Literature
3 Credits
Develops informed readings of Hebrew and Christian scriptures. Emphasizes understanding Biblical literary forms, techniques, themes; historical, cultural contexts for interpretation; authorship, composition, audience for individual books; development of Biblical canon.

ENGL 244G. Literature and Culture
3 Credits
Intensive reading of and discussion and writing about selected masterpieces of world literature. Emphasizes cultural and historical contexts of readings to help students appreciate literary traditions. Core texts include works by Homer, Dante, and Shakespeare, a classic novel, an important non-Western work, and modern literature.

ENGL 251. Survey of American Literature I
3 Credits
From the colonial period to the transcendentalists.

ENGL 252. Survey of American Literature II
3 Credits
From Whitman to the present.

ENGL 253. History of Argument
3 Credits
Investigates the major figures and movements in rhetoric from the classical period to modern rhetorical theory, examining relations between rhetorical teaching and practice, culture, epistemology, and ideology. Main campus only.
Prerequisite(s): ENGL 111G.

ENGL 271. Survey of English Literature I
3 Credits
From Beowulf through the eighteenth century.

ENGL 272. Survey of English Literature II
3 Credits
From the pre-Romantics to the present.

ENGL 299. Special Topics
1-3 Credits
Emphasis on a literary and/or writing subject chosen for the semester. Repeatable for an unlimited credit under different subtitles.

ENGL 301. Theory and Criticism: Rhetoric and Culture
3 Credits
Introduction to rhetorical criticism with an emphasis on understanding the theoretical and cultural underpinnings for the rhetorical analyses of texts.

ENGL 302. Theory and Criticism: Literature and Culture
3 Credits
Introduction to literary criticism, from its classical beginnings through contemporary critical approaches.

ENGL 303. Theory and Criticism: Film, Media and Culture
3 Credits
Surveys classical and contemporary film theory. Explores the relationship of theory to textual analysis and filmmaking practices. Includes auteurism semiotics, psychoanalysis, and other theories, as well as theories of other media.

ENGL 304. Creative Writing: Prose
3 Credits
Imaginative writing, chiefly prose narrative. Repeatable for a maximum of 9 credits.

ENGL 305. Creative Writing: Reading Series
1 Credit
A one credit class based on the English Department's literary reading series. The class meets online and at the literary readings.

ENGL 306. Creative Writing: Poetry
3 Credits
Introduction to the writing of poetry. Repeatable for a total of 9 credits.

ENGL 307. Creative Writing: Creative Nonfiction
3 Credits
Introduction to creative nonfiction. Skills emphasized will include the personal voice, powers of observation and reflection, advocacy, argument, and a creative, powerful use of language. Repeatable for a maximum of 9 credits.

ENGL 308. Creative Writing: Playwriting
3 Credits
Technique of one-act playwriting, and analysis of dramatic structure. Crosslisted with: THTR 308

ENGL 309. Critical Writing
3 Credits
A course in critical reading, writing, and research designed to prepare English majors for upper-division courses.

ENGL 311G. Advanced Composition
3 Credits
Writing of nonfiction prose. Reviews principles of expository and descriptive writing. Emphasizes the argument/persuasion essay with detailed discussion of semantic and rhetorical techniques.
Prerequisite: junior or senior standing, or consent of instructor.

ENGL 315. Writing for the Web
3 Credits
Introduction to writing for the World Wide Web through practical application and analysis on both theory and research. Allows hands-on learning in a computer classroom.

ENGL 318G. Advanced Technical and Professional Communication
3 Credits
Theory and practice of writing in technical and professional fields, individualized to each student's field. Emphasizes efficient writing processes and effective written products.
Prerequisite: junior or above standing, or consent of instructor.
ENGL 321V. Modern European Drama  
3 Credits  
Masterworks of European drama from the late 18th century to present. Crosslisted with: THTR 321V

ENGL 322. Dramatic Character  
3 Credits  
How characters have been created for the stage from the beginning of theatrical performances in ancient Greece to the present day. Exploring characterization related to dramatic structure, style, and genre, and how dramatic characters differ from those in literary fiction. Crosslisted with: THTR 322.

ENGL 323. American Drama  
3 Credits  
Masterworks of American drama by noted American playwrights. Crosslisted with: THTR 323

ENGL 326. Cultural Identity and Representation Across the Media  
3 Credits  
Considers complex relationships between representation and culture including how images and language shape racial, ethnic, gender, sexual, and class identities. Examines theories from several disciplines. Includes lecture, discussion and production exercises.

ENGL 327V. Shakespeare around the Globe  
3 Credits  
Introduction to multicultural issues in Shakespeare’s plays and to adaptations of Shakespeare's plays in other cultures.

ENGL 328V. Literature of Science Fiction and Fantasy  
3 Credits  
Survey and critical examination of the development of science fiction and fantasy as literature genres through selected authors and texts.

ENGL 329. Studies in Drama  
3 Credits  
Emphasis on a group of related works of European or American drama; topics will vary. Crosslisted with: THTR 329 and CMI 329

ENGL 330V. Studies in Poetry  
3 Credits  
Emphasis on a related group of poems or on the work of one or more poets; topics will vary.

ENGL 331V. Studies in the Novel  
3 Credits  
Intensive reading of, discussion of, and writing about selected major novels from around the world. Emphasizes the history of the novel and its role in culture.

ENGL 332. Studies in Film  
3 Credits (3+3P)  
Explores the conventions of cinematic representation; the strategies involved in writing about and reading film; and/or the adaptation of literary texts to film. Repeatable under different subtitles.

ENGL 334. Form and Technique in Fiction  
3 Credits  
Literature course designed for fiction writers, especially those English majors in the Creative Writing emphasis. The course combines the study of published fiction with the study of craft. Some of the assignments will require the student to write original fiction based on exercises provided by the instructor. Repeatable for up to 9 credits.

ENGL 335. Form and Technique in Poetry  
3 Credits  
Literature course designed for poets, especially those English majors in the Creative Writing emphasis. The course combines the study of published poetry with the study of craft. Some of the assignments will require the student to write original poems based on exercises provided by the instructor. Repeatable for up to 9 credits.

ENGL 336. Form and Technique in Playwriting  
3 Credits  
Literature course designed for playwrights, especially those English majors in the Creative Writing emphasis. The course combines the study of published plays and performances with the study of craft. Some of the assignments will require the student to write original plays based on exercises provided by the instructor. Repeatable up to 9 credits.

ENGL 338. Form and Technique in Drama  
3 Credits  
Literature course designed for playwrights, especially those English majors in the Creative Writing emphasis. The course combines the study of published plays and performances with the study of craft. Some of the assignments will require the student to write original plays based on exercises provided by the instructor. Repeatable for up to 9 credits.

ENGL 339V. Chican/o Literature  
3 Credits  
Introduction to Chicano novels, short stories and selected creative nonfiction.

ENGL 349. The Short Story  
3 Credits  
Development of the short story as a distinct form. Readings and critical analysis of representative nineteenth and twentieth century pieces.

ENGL 352. Studies in Milton's Works  
3 Credits  
Principal works, with emphasis on The Canterbury Tales.

ENGL 354. Form and Technique in Fiction  
3 Credits  
Literature course designed for fiction writers, especially those English majors in the Creative Writing emphasis. The course combines the study of published fiction with the study of craft. Some of the assignments will require the student to write original fiction based on exercises provided by the instructor. Repeatable for up to 9 credits.

ENGL 356. Form and Technique in Poetry  
3 Credits  
Literature course designed for poets, especially those English majors in the Creative Writing emphasis. The course combines the study of published poetry with the study of craft. Some of the assignments will require the student to write original poems based on exercises provided by the instructor. Repeatable for up to 9 credits.

ENGL 358. Form and Technique in Playwriting  
3 Credits  
Literature course designed for playwrights, especially those English majors in the Creative Writing emphasis. The course combines the study of published plays and performances with the study of craft. Some of the assignments will require the student to write original plays based on exercises provided by the instructor. Repeatable up to 9 credits.

ENGL 360. Studies in Drama  
3 Credits  
Emphasis on a theme, genre, figure, or technique chosen for study during the semester. Repeatable under different subtitles.

ENGL 363. Literature for Children and Young Adults  
3 Credits  
A comparative, historical survey of literature for young (K to 12th grade) readers. Emphasis on critical evaluation. Prerequisite: junior or above standing.

ENGL 380V. Women Writers  
3 Credits  
Introduction to multicultural women's traditions through intensive study of works by women writers. Crosslisted with: W S 380V.

ENGL 391V. Special Topics  
3 Credits  
Emphasis on a theme, genre, figure, or technique chosen for study during the semester. Repeatable under different subtitles.

ENGL 393V. Mythology  
3 Credits  
Greek and Roman mythology and its impact on European and English literature. Readings in myths, classical plays, and other literature with mythological interest, including nonclassical myths.

ENGL 394V. Southwestern Literature  
3 Credits  
Introduction to multicultural literature of the Southwest: oral folk literature, literary fiction (classic and contemporary), nonfiction and poetry.

ENGL 399. Special Topics  
3 Credits  
Emphasis on a theme, genre, figure, or technique chosen for study during the semester. Repeatable under different subtitles.

ENGL 400. Independent Study: Upper Division  
1-3 Credits  
For students with demonstrated aptitude for independent work. Approval of instructor required before registration. Repeatable under different subtitles.

ENGL 405. Chaucer  
3 Credits  
Principal works, with emphasis on The Canterbury Tales.

ENGL 407. Milton  
3 Credits  
Studies in Milton's works.
ENGL 408. Shakespeare I
3 Credits
Principal plays of Shakespeare's first two periods. Crosslisted with: THTR 408.

ENGL 409. Shakespeare II
3 Credits
Principal plays of Shakespeare's last two periods. Crosslisted with: THTR 409.

ENGL 412. Writing in the Workplace
3 Credits
Study of workplace writing practices, including a focus on research-based, theoretical, and pedagogical approaches to professional communication.

ENGL 413. Advanced Creative Writing: Prose Workshop
3 Credits
Imaginative writing, chiefly the narrative. May be repeated up to 12 credits.
Prerequisite(s): ENGL 304 or consent of instructor.

ENGL 414. Advanced Creative Writing: Poetry Workshop
3 Credits
For advanced writers of poetry. Repeatable for a total of 12 credits.
Prerequisite(s): ENGL 306 or consent of instructor.

ENGL 416. Approaches to Literature
3 Credits
Understanding, appreciation, techniques of instruction in the high school.
Prerequisite: at least 6 credits in upper-division English courses.

ENGL 417. Advanced Study in Critical Theory
3 Credits
Advanced study of one or more major trends in theoretical inquiry within English studies. Some prior study of theory, such as English 301-303, strongly recommended. Repeatable under different subtitles.

ENGL 418. History of Rhetoric
3 Credits
Investigation of crucial writings that have shaped Western attitudes towards and practice of rhetoric. Will examine key concepts from the Greeks through the Enlightenment, especially as they have influenced contemporary rhetorical theory.

ENGL 419. Modern Rhetorical Theory
3 Credits
Major figures in rhetorical theory, with particular emphasis on developments in rhetorical theory in the twentieth century.

ENGL 421. Advanced Study in a Literary Period or Movement
3 Credits
Close study of a historical or theoretical topic in a particular literary period or movement. Repeatable under different subtitles.

ENGL 422. Advanced Study in a Literary Form or Genre
3 Credits
Close study of a topic in a particular literary form or genre. May be repeated under different subtitles.

ENGL 423. Advanced Study in a Major Author
3 Credits
Close study of selected works by a major author. May be repeated under different subtitles.

ENGL 424. Advanced Study in a Major Text
3 Credits
Close study of a major text. Course subtitled in the Schedule of Classes. Repeatable under different subtitles.

ENGL 425. Advanced Study in Comparative Literature
3 Credits
Close study of a selection of non-English literary works read in translation. English-language works from a similar literary period or genre may also be read. Repeatable under different subtitles.

ENGL 427. Advanced Study in Film and Digital Media
3 Credits
Offers close study of a form or genre, a major figure or style, a historical period or movement, or a major theme or text. Topics vary from semester to semester. Repeatable under different subtitles Crosslisted with: ENGL 527.

ENGL 429. British Romanticism
3 Credits
Intensive study of major writers and critical topics from the Romantic period. Repeatable under different subtitles.

ENGL 430. Online Publishing
3 Credits
This three-credit course provides a theoretical background for online publishing and design as well as hands on experience publishing an online arts magazine.

ENGL 431. Technical Editing
3 Credits
Uses workshops, readings, hands-on projects, and discussion to improve skills in gathering, writing, designing, and editing technical information. For students interested in technical communication as well as students interested in developing strengths in communicating in scientific and technical fields.

ENGL 433. Victorian Literature
3 Credits
Intensive study of major writers and critical topics from the Victorian period. Repeatable under different subtitles.

ENGL 438. Literature of the American Renaissance
3 Credits
Intensive study of topics critical to the development of nineteenth-century American literature before and during the Civil War, and the work of authors such as Emerson, Thoreau, Poe, Hawthorne, Melville, Whitman and Dickinson. Repeatable under a different subtitle. May be repeated up to 6 credits.

ENGL 442. Modern and Contemporary American Poetry
3 Credits
Studies the development of American poetry from World War I to the present. Repeatable under a different subtitle. May be repeated up to 6 credits.

ENGL 444. Modern British Fiction
3 Credits
Study of the fiction produced in the British Isles in the 20th and 21st centuries. Repeatable under a different subtitle. May be repeated up to 6 credits.

ENGL 445. Postmodern Fiction
3 Credits
Study of the various forms of formally innovative experimental fiction produced since 1945, with a focus on the relationship between literary history and its sociohistorical contexts. Some texts will be read in translation. Repeatable under different subtitles. May be repeated up to 6 credits.
ENGL 446. Advanced Creative Writing: Nonfiction Prose
3 Credits
This workshop-format class for advanced writers will examine the many varieties of Creative Nonfiction. Students should be prepared for a rigorous reading load of published nonfiction and student submissions. Because of the workshop format, every student is expected to contribute extensively to every class, both in printed form and oral comments. Taught with ENGL 546. May be repeated up to 12 credits.
Prerequisite(s): ENGL 307 or consent of instructor.

ENGL 449. Advanced Study in Writing
3 Credits
Close study of a topic in composition, rhetoric and/or technical and professional communication. Repeatable for a maximum of 6 credits with permission of department.

ENGL 451. Practicum in the Grammar of American English
3 Credits
Studies of formal grammar of the English language in preparation for the teaching of the English language and/or advanced linguistic analysis.

ENGL 453. World Literatures
3 Credits
Study of one or more literary traditions exclusive of those originating in Europe and the United States. Readings will include texts in translation. Repeatable under different subtitles. May be repeated up to 6 credits.

ENGL 458. Latino/a Literature and Culture
3 Credits
Focuses on established and emergent Latino/a literary and cultural production. Incorporates both literary and sociocultural readings of texts. Repeatable under different subtitles. May be repeated up to 6 credits.

ENGL 460. Proposal Writing
3 Credits
Developing proposals and grants in a workshop setting.

ENGL 462. Interdisciplinary, Client-Based Project Practicum
3 Credits
Hands-on experience in designing projects within interdisciplinary teams for organizational clients. Taught with ENGL 562.

ENGL 463. Advanced Study in English Literature
3 Credits
Covers selected works for a particular period of English literary history. Repeatable under different subtitles.

ENGL 469. Advanced Study in American Literature
3 Credits
Covers selected works for a particular period of American literary history. Repeatable under different subtitles.

ENGL 470. Approaches to Composition
3 Credits
Theory and practice of teaching writing. Discussion and application of classroom practices, definition of standards, and evaluation of student writing.

ENGL 478. Document Design
3 Credits
Advanced study in writing, with an emphasis on the computer as a tool for designing visually informative text. Includes theory and research in document design and the use of page composition and graphics software.

ENGL 479. Computers and Writing
3 Credits
This course will trace the history of computers and composition as a field by looking at the work of important scholars including Selfe, Hawisher, Johnson-Eilola, and Wysocki. We will then focus on specific ways new media might be integrated into composition classrooms. The course will include discussions, student facilitations, and experimentation with technologies.

ENGL 481. Women's Literature
3 Credits
Intensive study of literature by women, in particular historical, aesthetic, cultural, or intellectual contexts. Repeatable under different subtitles. Crosslisted with: W S 484

ENGL 489. Cultural Studies: Literature and Theory
3 Credits
Examines the theory and practice of cultural studies in relation to the variety of discourse describable as literary, including autobiography, avant-garde writing, nonfiction prose, the essay, online writing, folklore, and popular genre fiction (such as mystery, romance, thriller, or horror). Repeatable under different subtitles. May be repeated up to 6 credits.

ENGL 493. Middle English Textual Cultures
3 Credits
Intensive study of cultures of reading, writing, and literary production in late-medieval England, situating Middle English literature in its manuscript contexts. No prior experience with Middle English required.

ENGL 497. Internship
3-6 Credits (3-6)
Supervised technical and professional communication internship in business, industry, government, or the university. Repeatable for a total of 6 credits. Consent of instructor required.

ENGL 500. Supervised Study
1-3 Credits
To prepare the student for the master's degree examinations by special studies in fields not covered in routine course work. Prerequisite: consent of instructor.

ENGL 501. Online Publishing
3 Credits
This three-credit course provides a theoretical background for online publishing and design as well as hands-on experience publishing an online arts magazine. Taught with ENGL 430.

ENGL 505. Graduate Study in Chaucer
3 Credits
Principal works, with emphasis on the Canterbury Tales. Requirements include independent directed research. May be repeated up to 3 credits.

ENGL 508. Graduate Study in Shakespeare I
3 Credits
Principal plays of Shakespeare's first two periods. Requirements include independent directed research.

ENGL 509. Graduate Study in Shakespeare II
3 Credits
Principal plays of Shakespeare's last two periods. Requirements include independent directed research.

ENGL 510. Proseminar in Rhetoric and Professional Communication
3 Credits
Introduction to research in rhetoric and professional communication. Taught with ENGL 610.
ENGL 512. Graduate Study in Writing in the Workplace  
3 Credits  
Study of workplace writing practices, including a focus on research-based, theoretical, and pedagogical approaches to professional communication.

ENGL 513. Creative Writing Workshop: Fiction  
3 Credits  
Advanced creative writing prose workshop. Imaginative writing, chiefly the narrative. Graduate level workshop for students who are not in the English Department MFA program. May be repeated for a maximum of 12 credits. Taught with ENGL 413 with additional work required at the graduate level.

ENGL 514. Creative Writing Workshop: Poetry  
3 Credits  
Creative writing poetry workshop for advanced writers of poetry. Graduate level works for students who are not in the English Department MFA program. Repeatable for a maximum of 12 credits. Taught with ENGL 414 with additional work required at the graduate level.

ENGL 516. Graduate Study in Approaches to Literature  
3 Credits  
Understanding, appreciation, techniques of instruction in the high school. Requirements include independent directed research. Prerequisite: at least 6 credits in upper-division English courses.

ENGL 517. Graduate Study in Critical Theory  
3 Credits  
Advanced study of one or more major trends in theoretical inquiry within English studies. Some prior study of theory, such as English 301, 302, or 303, strongly recommended. Repeatable under different subtitles.

ENGL 518. History of Rhetoric  
3 Credits  
An investigation of the crucial writings that have shaped Western attitudes towards and practice of rhetoric. Course will examine key texts from the Greeks through the Enlightenment, especially as they have influenced contemporary rhetorical theory.

ENGL 519. Graduate Study in Modern Rhetorical Theory  
3 Credits  
Major figures in rhetorical theory, with particular emphasis on developments in rhetorical theory in the 20th century. Students will be responsible for all requirements of ENGL 419 and will in addition undertake independent directed research.

ENGL 521. Graduate Study in a Literary Period or Movement  
3 Credits  
Close study of a topic in a particular literary period or movement. Requirements include independent directed research. Repeatable under different subtitles.

ENGL 522. Graduate Study in a Literary Form or Genre  
3 Credits  
Close study of a topic in a particular literary form or genre. Requirements include independent directed research. Repeatable under different subtitles.

ENGL 523. Graduate Study of a Major Author  
3 Credits  
Close study of selected works of a major author. Requirements include independent directed research. Repeatable under different subtitles.

ENGL 524. Graduate Study in a Major Text  
3 Credits  
Close study of a major text. Requirements include independent directed research. Repeatable under different subtitles.

ENGL 525. Graduate Study in Comparative Literature  
3 Credits  
Close study of a selection on non-English literary works read in translation. English-language works from a similar literary period or genre may also be read. Requirements include independent directed research. Repeatable under different subtitles. Prerequisite: graduate standing or consent of instructor.

ENGL 526. Special Topics in Critical Theory  
3 Credits  
Study of a specific historical or theoretical topic, trend, or movement in Critical Theory. Repeatable under different subtitles.

ENGL 527. Graduate Study in Film and Digital Media  
3 Credits  
Offers close graduate study of a form or genre, a major figure or style, a historical period or movement, or a major theme or text. Topics vary from semester to semester.

ENGL 529. British Romanticism  
3 Credits  
Intensive study of major writers and critical topics from the Romantic period. Repeatable under different subtitles.

ENGL 530. Argument Theory and Practice  
3 Credits  
Examining theories of argument and how language convinces audiences to think and act in certain ways and not in others. Investigates argument across disciplines and in social/political contexts.

ENGL 531. Technical Editing  
3 Credits  
Uses workshops, readings, hands-on projects, and discussion to improve skills in gathering, writing, designing, and editing technical information. For students interested in technical communication as well as students interested in developing strengths in communicating in scientific and technical fields.

ENGL 532. Gothic Literature  
3 Credits  
Intensive study of gothic literature in particular historical, aesthetic, cultural, or intellectual contexts, such as American Gothic, Female Gothic, Dark Romanticism, or Vampire Literature. Repeatable under different subtitles.

ENGL 533. Victorian Literature  
3 Credits  
Intensive study of major writers and critical topics from the Victorian period. Repeatable under different subtitles.

ENGL 534. Graduate Study: Form and Technique in Fiction  
3 Credits  
Advanced study of issues in form and technique in fiction, including point of view, scene and dialogue, and story structure. Repeatable for a maximum of 6 credits.

ENGL 535. Graduate Study: Form and Technique in Poetry  
3 Credits  
Advanced study of issues in form and technique in poetry, including voice, tone, syntax, and structure. Repeatable for a maximum of 12 credits.
ENGL 536. The Borderlands Writing Project
3-6 Credits (3-6)
Intensive month-long seminar for practicing teachers and educators designed to improve the teaching of writing and the writing process and literacy and reading in schools and other educational contexts. Reading, discussing, and writing about current professional literature; completing teacher inquiry; and planning action research. Participants complete personal and professional writing, as well as additional professional development activities. By invitation only. Affiliated with the National Writing Project. Consent of instructor required. Crosslisted with: RDG 536

ENGL 538. Antebellum American Literature
3 Credits
Intensive study of topics critical to the development of nineteenth century American literature before and during the Civil War, and the work of authors such as Emerson, Thoreau, Poe, Hawthorne, Melville, Whitman and Dickinson. Repeatable under different subtitles. May be repeated up to 6 credits.

ENGL 542. Modern and Contemporary American Poetry
3 Credits
Studies the development of American poetry from World War I to the present. Repeatable under different subtitles. May be repeated up to 6 credits.

ENGL 543. Multimedia Theory and Production
3 Credits
Issues, theories, and production practices underlying design of multimedia, including rhetorical choices, aesthetic approaches, usability concerns, and diverse academic and popular discourses contributing to continued development of digital texts. Taught with ENGL 643.

ENGL 544. Modern British Fiction
3 Credits
Study of the fiction produced in the British Isles in the 20th and 21st centuries. Repeatable under different subtitles. May be repeated up to 6 credits.

ENGL 545. Postmodern Fiction
3 Credits
Study of the various forms of formally innovative experimental fiction produced since 1945, with a focus on the relationship between literary history and its sociohistorical contexts. Some texts will be read in translation. Repeatable under different subtitles. May be repeated up to 6 credits.

ENGL 546. Advanced Creative Writing: Nonfiction Prose
3 Credits
This graduate-level workshop will examine the many varieties of Creative Nonfiction. Students should be prepared for a rigorous reading load of published nonfiction and student submissions. Because of the workshop format, every student is expected to contribute extensively to every class, both in printed form and oral comments. Taught with ENGL 446 with additional work required at the graduate level. Consent of Instructor required. Crosslisted with: ENGL 446.

ENGL 548. Graduate Study in Empirical Research
3 Credits
Introduction to empirical research methods in composition, professional communication, and rhetoric.

ENGL 549. Graduate Study in Writing
3 Credits
Close study of a topic in composition, rhetoric, and/or technical and professional communication. Topics vary. Repeatable for a maximum of 6 credits.

ENGL 550. Graduate Study in Literacy
3 Credits
Studies in literacy theory and literacy research. Topics may vary. Taught with ENGL 650.

ENGL 551. Practicum in the Grammar of American English
3 Credits
Studies of formal grammar of the English language in preparation for the teaching of the English language and/or advanced linguistic analysis. Taught with ENGL 451.

ENGL 552. Graduate Study in History of the English Language
3 Credits
This course examines the history of the English language from its Indo-European origins through its development into an international language. The aim is to describe the English language formally and to trace linguistic change over time. Samples of written English will illustrate various stages in the development of English. Also considered are contemporary social and political issues related to language, including the problem of 'standard English' and the uses of language in advertising, the media, and politics.

ENGL 553. World Literatures
3 Credits
Study of one or more literary traditions exclusive of those originating in Europe and the United States. Readings will include texts in translation. Repeatable under different subtitles. May be repeated up to 6 credits.

ENGL 555. Graduate Study in Rhetoric of Scientific Literature
3 Credits
Intensive study of the rhetoric of selected works of scientific literature.

ENGL 558. Latino/a Literature and Culture
3 Credits
Focuses on established and emergent Latino/a literary and cultural production. Incorporates both literary and sociocultural readings of texts. Repeatable under different subtitles. May be repeated up to 6 credits.

ENGL 559. Black Literature and Culture in the United States
3 Credits
Focuses on established and emergent Black U.S. literary and cultural production. Incorporates both literary and sociocultural readings of texts. Repeatable under different subtitles. May be repeated up to 6 credits.

ENGL 560. Proposal and Grant Writing
3 Credits
Developing proposals and grants in a workshop setting.

ENGL 561. Topics in Writing Program Administration
3 Credits
Explores issues, theories, and research underlying the design of writing programs and the administration of writing centers. Repeatable for a maximum of 6 credits. Taught with ENGL 661.

ENGL 562. Interdisciplinary, Client-Based Project Practicum
3 Credits
Hands-on experience in collaborating within interdisciplinary teams designing projects for organizational clients. Taught with ENGL 462.

ENGL 563. Graduate Study in English Literature
3 Credits
Covers selected works for a particular period of English literary history. Repeatable under different subtitles.

ENGL 564. History and Theory of Composition Studies
3 Credits
Studies in the history and theory of composition as a discipline. Taught with ENGL 664.
ENGL 565. Intercultural Rhetoric and Professional Communication
3 Credits
Examines rhetorical traditions in intercultural professional, technical, academic, and governmental contexts. Taught with ENGL 665.

ENGL 567. Documentary Film Theory and Criticism
3 Credits (3+3P)
Course offers critical survey of documentary film theory and criticism including considerations of the epistemological assumptions, rhetorical choices, aesthetic approaches, political circumstances of historical and contemporary documentary film.

ENGL 568. Rhetoric and Cultural Studies
3 Credits
Explores intersections between rhetoric and cultural studies. Examines theories and practices of texts and discourses in political and cultural contexts. Taught with ENGL 668.

ENGL 569. Graduate in American Literature
3 Credits
A group of works from a particular period of American literary history. Repeatable under different subtitles.

ENGL 570. Graduate Study in Approaches to Composition
3 Credits
Theory and practice of teaching writing, including classroom practices, definition of standards, and evaluation of student writing. Requirements include independent directed research.

ENGL 571. Composition Pedagogy and Practicum
3 Credits
Examines the pedagogical implications of contemporary composition theory and research. Focuses on teaching composition at the college level. Consent of instructor required.

ENGL 572. Technical-Professional Communication: Theory and Pedagogy
3 Credits
Topics in teaching business, technical and scientific communication in academic and workplace contexts.
Prerequisite: graduate standing.

ENGL 574. Workshop: Advanced Writing Prose
3 Credits
Intensive practice in prose writing, primarily fiction, in a workshop environment with peer criticism. Repeatable for a total of 15 credits.
Consent of instructor required.

ENGL 575. Workshop: Advanced Writing Poetry
3 Credits
Intensive practice in poetry writing in a workshop environment with peer criticism. Repeatable for a total of 15 credits.
Consent of instructor required.

ENGL 576. Workshop: Advanced Writing Playwriting
3 Credits
Intensive practice in dramatic writing in a workshop environment with peer criticism. Repeatable for a total of 9 credits.
Consent of instructor required.

ENGL 577. Workshop: Advanced Technical and Professional Writing
3 Credits
Intensive practice in technical and professional writing and editing in a workshop environment. May be repeated for a total of 6 credits.
Consent of instructor required.

ENGL 578. Topics in Rhetoric and Technology
3 Credits
Explores intersections between rhetoric and technology, approaches may highlight theory, media production, and/or research. Repeatable for a maximum of 6 credits. Taught with ENGL 678.

ENGL 579. Computers and Writing
3 Credits
This course will trace the history of computers and composition as a field by looking at the work of important scholars including Selfe, Hawisher, Johnson-Eilola, and Wysocki. We will then focus on specific ways new media might be integrated into composition classrooms. The course will include discussions, student facilitations, and experimentation with technologies.

ENGL 580. Graduate Problems in Creative Writing
3 Credits
Independent study in creative writing. Consent of instructor required.
Repeatable for a total of 9 credits.

ENGL 581. Women's Literature
3 Credits
Intensive study of literature by women, in particular historical, aesthetic, cultural, or intellectual contexts. Repeatable under different subtitles.
Crosslisted with: W S 584

ENGL 582. Gender and Popular Culture
3 Credits
Intensive study of the representations of gender in popular culture. Examines the historical, aesthetic, and cultural contexts of these representation and the various critical and theoretical lenses we use to understand them. Repeatable under different subtitles.
Crosslisted with: W S 582

ENGL 583. Critical Writing Studies
3 Credits
Overview of current and historical approaches to the critical study of gender and language: how gender theoretically manifests in linguistic, social, cultural, academic, and professional contexts.

ENGL 584. Workshop: Advanced Academic Writing for International Students
3 Credits
This workshop-based course is for graduate-level multilingual writers from all disciplines who want to improve their English academic writing in an intensive and collaborative environment. Students will propose a major writing project to workshop throughout the semester, such as dissertation, thesis, comprehensive exams, etc. Some of the topics covered will be academic language, cohesion/coherence, organization, and supporting academic arguments. Other topics to be determined by needs of the class.
Prerequisite(s): 1. Be classified as a graduate student by the Graduate School 2. Be classified as an international student whose first language is not English 3. Have a major writing project in progress (comprehensive exams, thesis, dissertation, conference paper, etc.

ENGL 585. Advanced Writing Workshop: RPC Capstone
3 Credits
Students work to develop and revise their chosen Master’s program Capstone Project (a portfolio, thesis or master essay) in consultation with instructor and classmates. Students provide and receive feedback on their work-in-progress.
Consent of Instructor required.
ENGL 589. Cultural Studies: Literature and Theory
3 Credits
Examines the theory and practice of cultural studies in relation to the
variety of discourse describable as literary, including autobiography,
avant-garde writing, nonfiction prose, the essay, online writing, folklore,
and popular genre fiction (such as mystery, romance, thriller, or horror).
Repeatable under different subtitles. May be repeated up to 6 credits.

ENGL 590. Master’s Seminar in Rhetoric
3 Credits
Studies in theories of and issues in rhetoric. Topics may vary from year to
year. Repeatable for a total of 9 credits.

ENGL 591. Graduate Screenwriting
3 Credits
Students will prepare a feature-length screenplay. Script analysis
will be in an advanced workshop format. Scripts will be read and
discussed, scenes performed and reactions analyzed to consider effect
of dialogue, character development, etc. Aimed at preparing writers for the
professional market. Consent of instructor required.

ENGL 595. Master’s Workshop: Poetry
3-6 Credits (3-6)
Students will submit a draft of thesis project for workshop critique.
Revision of the thesis draft submitted to the instructor. Restricted to MFA
CW majors.
Prerequisite(s): Enrolled in MFA penultimate semester.

ENGL 596. Master’s Workshop: Fiction
3-6 Credits
Students will submit a draft of thesis project for workshop critique.
Revision of the thesis draft submitted to the instructor. Restricted to MFA
CW majors.
Prerequisite(s): Enrolled in MFA penultimate semester.

ENGL 597. Internship in Technical and Professional Communication
3-6 Credits (3-6)
Supervised technical and professional communication in business,
industry, government, or the university. May be repeated for a total of 6
credits. Consent of instructor required.

ENGL 598. Master’s Essay
3 Credits
Students electing the master essay option complete revision of a
scholarly essay of 25-30 pages, the approximate length of a journal
article, and reformulation of this essay to the 7-8 pages appropriate
for presentation at a conference. This option also requires research of
appropriate publication venues and a final oral defense of the project.
A supervising faculty member will approve the selected essay, guide
revision, and help students form an examining committee, which consists
of at least two members of the graduate English faculty and one member
of the graduate faculty from outside the department. Students are
encouraged to undertake the Master Essay process in the first half of
their third semester of full time graduate work, or soon after completing
18 hours of course work. This option is the preferred exam option,
particularly for those students who intend to pursue Ph.D. study. Consent
of instructor required.

ENGL 599. Master’s Thesis
1-15 Credits
Thesis.

ENGL 600. Doctoral Research
1-15 Credits
Assigns credit for research performed prior to the doctoral
comprehensive examination.

ENGL 601. Qualitative Research
3 Credits
Theory and practice of designing research studies and of collecting
and analyzing data. Emphasis on qualitative methods of research in
composition, professional communication, and rhetoric.

ENGL 602. Quantitative Research
3 Credits
Theory and practice of designing quantitative research studies and of
collecting and analyzing data. Emphasis on quantitative methods of
research in composition, professional communication, and rhetoric.

ENGL 603. Rhetorical Criticism and Methodology
3 Credits
Theory and practice of designing research studies and of collecting and
analyzing data. Emphasis on methods of rhetorical criticism.

ENGL 604. Digital Research Methods
3 Credits
This course will serve as one of the core methods courses in the RPC PhD
program, focusing on “digital” methods in rhetorical studies. As such, the
aim of this class is to help you begin to gain confidence in conducting
research in rhetoric, professional communication, and composition using
digital methods. In this course we will assume that digital methods in
rhetoric take broadly two forms: first, digital methods of acquisition,
processing, and presentation of research data. And second, digital
methods of production and circulation of rhetorical objects. The former
closely resembles the methods of “digital humanities” while the latter
will be closer to media archaeology and “critical making” practices. In
all cases, we will relate these tools and methods to key questions and
theories in our field, asking how and why we might apply digital methods
in rhetorical scholarship.
Prerequisite(s): graduate standing.

ENGL 610. Proseminar in Rhetoric and Professional Communication
3 Credits
Introduction to research in rhetoric and professional communication.
Required of and limited to students enrolled in the Ph.D. program in
Rhetoric and Professional Communication.

ENGL 643. Multimedia Theory and Production
3 Credits
Issues, theories, and production practices underlying design of
multimedia, including rhetorical choices, aesthetic approaches, usability
concerns, and diverse academic and popular discourses contributing to
continued development of digital texts. Taught with ENGL 543.

ENGL 646. Teaching Rhetoric and Writing with English Language Learners
3 Credits
This course introduces students to the rich interdisciplinary world of
writing for English language learners with the goal of helping researchers
and instructors understand the unique characteristics and needs of
ELL writers. It also examines Generation 1.5, bilingualism, and Spanish-
dominant writers along the U.S.-Mexico Border. The course prepares
students to work with ELL writing in curriculum design, needs analysis,
classroom implementation, assessment, writing program administration,
and institutional policies. The course will be a requirement for those
GAs seeking to teach experimental sections of first-year multilingual
composition at NMSU.
Prerequisite(s): graduate standing.

ENGL 649. Graduate Study in Writing
3 Credits
Close study of a topic in composition, rhetoric, and/or technical and
profession communication. Repeatable for a total of 6 credits.
ENGL 650. Graduate Study in Literacy  
3 Credits  
Studies in literacy theory and literacy research. Topics may vary. Taught with ENGL 550.

ENGL 661. Topics in Writing Program Administration  
3 Credits  
Explores issues, theories, and research underlying writing programs and the administration of writing centers. Repeatable for a maximum of 6 credits. Taught with ENGL 561.

ENGL 664. History and Theory of Composition Studies  
3 Credits  
Studies in the history and theory of composition as a discipline. Taught with ENGL 564.

ENGL 665. Intercultural Rhetoric and Professional Communication  
3 Credits  
Examines rhetorical traditions in intercultural professional, technical, academic, and governmental contexts. Taught with ENGL 565.

ENGL 668. Rhetoric and Cultural Studies  
3 Credits  
Explores intersections between rhetoric and cultural studies. Examines theories and practices of texts and discourses in political and cultural contexts. Taught with ENGL 568.

ENGL 678. Topics in Rhetoric and Technology  
3 Credits  
Explores intersections between rhetoric and technology, approaches may highlight theory, media production, and/or research. Repeatable for a maximum of 6 credits. Taught with ENGL 578.

ENGL 683. Critical Writing Studies  
3 Credits  
This course investigates the field of Writing Studies as a distinct field of study, related to but not synonymous with Composition Studies. While debates surrounding the relationships among Writing Studies and Composition Studies flourish, this course centers on the former—investigating writing as a practice, process, and object that merits attention in its own right. Such attention will be grounded in contemporary critical and cultural theory that contests writing as a positive or neutral sign (i.e. activity theory, posthumanism, ecocriticism, new materialism, new media studies; feminist, queer, critical race or decolonial theory). Crosslisted with: ENGL 583.

Prerequisite(s): graduate standing.

ENGL 690. Doctoral Seminar in Rhetoric  
3 Credits  
Studies in theories of and issues in rhetoric. Topics may vary from year to year. Repeatable for a maximum of 9 credits.

ENGL 700. Doctoral Dissertation  
1-15 Credits  
Dissertation.

English - Bachelor of Arts

Concentration: Creative Writing

Departmental Requirements

In addition to meeting the English basic skills requirement, the student majoring in Creative Writing must complete 42 credits in English beyond ENGL 111G Rhetoric and Composition satisfying the following requirements.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Prefix | Title | Credits
--- | --- | ---
**General Education** | | |
Area I: Communications | 10 | |
  English Composition - Level 1 | 1 |  
  English Composition - Level 2 | 1 |  
  Oral Communication | 1 |  
Area II: Mathematics | 3-4 | |
Area III/IV: Laboratory Sciences and Social/Behavioral Sciences | 10-11 | |
Area III: Laboratory Sciences Course (4 credits) | 1 |  
Area IV: Social/Behavioral Sciences Course (3 credits) | 1 |  
Either an Area III/IV: Laboratory Sciences Course or Social/Behavioral Sciences Course (4 or 3 credits) | 1 |  
Area V: Humanities | 3 |  
Area VI: Creative and Fine Arts | 3 |  
General Education Elective | 3-4 |  
**Viewing A Wider World** | | 6

Departmental/College Requirements

ENGL 310 Critical Writing | 4 | 3
Select three from the following: | 4,5 | 9
ENGL 243 The Bible as Literature | 1 |  
ENGL 251 Survey of American Literature I | 1 |  
ENGL 252 Survey of American Literature II | 1 |  
ENGL 263 History of Argument | 1 |  
ENGL 271 Survey of English Literature I | 1 |  
ENGL 272 Survey of English Literature II | 1 |  
Select one from the following: | 4 | 3
ENGL 301 Theory and Criticism: Rhetoric and Culture | 1 |  
ENGL 302 Theory and Criticism: Literature and Culture | 1 |  
ENGL 303 Theory and Criticism: Film, Media and Culture | 1 |  
Select a minimum of two different Creative Writing workshops from the following: | 6 |
ENGL 304 Creative Writing: Prose | 1 |  
ENGL 306 Creative Writing: Poetry | 1 |  
ENGL 307 Creative Writing: Creative Nonfiction | 1 |  
ENGL 308 Creative Writing: Playwriting | 1 |  

Select two advanced Creative Writing Workshops from the following (300-level workshops are prerequisites for 400-level workshops in the same genre):

- ENGL 413 Advanced Creative Writing: Prose Workshop
- ENGL 414 Advanced Creative Writing: Poetry Workshop
- ENGL 446 Advanced Creative Writing: Nonfiction Prose

Select two from the following:

- ENGL 354 Form and Technique in Fiction
- ENGL 356 Form and Technique in Poetry
- ENGL 358 Form and Technique in Playwriting

Select 9 additional credits from English courses numbered 400-499.

Second Language Requirement: (required - see the section at the bottom of the page)

Electives, to bring the total credits to 120

Total Credits 120

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. A Mathematics course is required for the degree but students may need to take any prerequisites needed to enter the course first.
3. See Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4. Students may make 1 or 2 of the following substitutions:
   - HON 229G The New Testament as Literature for ENGL 243 The Bible as Literature;
   - HON 234G The Worlds of Arthur, HON 239G Medieval Understandings: Literature and Culture in the Middle Ages, or HON 220G The World of the Renaissance: Discovering the Modern for ENGL 271 Survey of English Literature I;
5. These 18 credits should be completed before the student enrolls in 400 level courses.
6. Elective credit may vary based on second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

**Concentration: English**

**Departmental Requirements**

In addition to meeting the English basic skills requirement, the student majoring in English must complete 42 credits in English beyond ENGL 111G Rhetoric and Composition satisfying the following requirements.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Select one from the following (The following courses may fulfill this requirement at the discretion of the Director of Undergraduate Studies, if their content is primarily American literature: ENGL 421, 422, 423, 424, 427, 445, 481, 489, 500):

- ENGL 469 Advanced Study in American Literature
- ENGL 438 Literature of the American Renaissance
- ENGL 442 Modern and Contemporary American Poetry
- ENGL 458 Latino/a Literature and Culture
- ENGL 405 Chaucer
- or ENGL 407 Milton
ENGL 408  Shakespeare I 3
or ENGL 409  Shakespeare II
Select 9 additional credits from English courses numbered 400-499.

Second Language Requirement: (required- see the section at the bottom of the page)

Electives, to bring the total credits to 120

Total Credits 120

1 See the General Education (p. 49) section of the catalog for a full list of courses.
2 A Mathematics course is required for the degree but students may need to take any prerequisites needed to enter the course first.
3 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
4 Students may make 1 or 2 of the following substitutions:
   • HON 229G The New Testament as Literature for ENGL 243 The Bible as Literature;
   • HON 234G The Worlds of Arthur, HON 239G Medieval Understandings: Literature and Culture in the Middle Ages, or HON 220G The World of the Renaissance: Discovering the Modern for ENGL 271 Survey of English Literature I;
5 These 15 credits should be completed before the student enrolls in 400-level courses.
6 Students may not take both ENGL 392V Mythology and HON 348V Comparative Mythology: Myth, Ritual, and the Life Cycle.
7 Elective credit may vary based on second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Concentration: Literature, Language and Culture

Departmental Requirements
In addition to meeting the English basic skills requirement, the student pursuing an emphasis in Literature, Language, and Culture must complete 42 credits in English beyond ENGL 111G Rhetoric and Composition satisfying the following requirements.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

5 These 18 credits should be completed before the student enrolls in 400 level courses.
6 Students must take a total of 12 credit hours at the 400 level or above.
7 Elective credit may vary based on second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Second Language Requirement

For the Bachelor of Arts in the English, for all concentrations, there is a one year second language requirement, the student must do one of the following:

Option 1:

Prefix | Title | Credits
--- | --- | ---
CHIN 111 | Elementary Chinese I | 4
or FREN 111 | Elementary French I | 4
or GER 111 | Elementary German I | 4
or JPNS 111 | Elementary Japanese I | 4
or SPAN 111 | Elementary Spanish I | 4
CHIN 112 | Elementary Chinese II | 4
or FREN 112 | Elementary French II | 4
or GER 112 | Elementary German II | 4
or JPNS 112 | Elementary Japanese II | 4
or SPAN 112 | Elementary Spanish II | 4

For Heritage Learners:

SPAN 213 | Spanish for Heritage Learners II | 3
or SPAN 214 | Spanish for Heritage Learners III | 3
or PORT 213 | Portuguese for Romance Language Students I | 3
or PORT 214 | Portuguese for Romance Language Students II | 3

Option 2:

Prefix | Title | Credits
--- | --- | ---
C D 374 | American Sign Language I | 3
C D 375 | American Sign Language II | 3
Option 3:

Prefix | Title | Credits
--- | --- | ---
CHIN 112 | Elementary Chinese II | 4
or FREN 112 | Elementary French II | 4
or GER 112 | Elementary German II | 4
or SPAN 112 | Elementary Spanish II | 4

OR

Challenge the 213 level for the following courses:

PORT 213 | Portuguese for Romance Language Students I | 3
or SPAN 213 | Spanish for Heritage Learners II | 3

Option 4:

Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

Option 5:

Obtain college certification of completion of two years of a second language at the high school level with a grade of C- or higher in the second-year level.

Option 6:

By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

Option 7:

By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

Option 8:

In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

Creative Writing - Undergraduate Minor

Students not earning a bachelor’s degree in English with an emphasis in Creative Writing are eligible to pursue a minor in Creative Writing. Students must earn 18 credits from the approved course lists below. At least 6 credits must be upper division. Students may request approval for other courses clearly related to the minor from the undergraduate advisor in the Department of English. Students earning a BA in English must earn at least 6 credits approved by the Department of English undergraduate advisor beyond those earned for the major in order to earn a minor in Creative Writing.

Prefix | Title | Credits
--- | --- | ---
ENGL 220G | Introduction to Creative Writing | 6
ENGL 243 | The Bible as Literature | 3
ENGL 251 | Survey of American Literature I | 3
ENGL 252 | Survey of American Literature II | 3
ENGL 263 | History of Argument | 3
ENGL 271 | Survey of English Literature I | 3

Select two from the following: 2

ENGL 304 | Creative Writing: Prose | 3
ENGL 306 | Creative Writing: Poetry | 3
ENGL 307 | Creative Writing: Creative Nonfiction | 3
ENGL 308 | Creative Writing: Playwriting | 3
ENGL 413 | Advanced Creative Writing: Prose Workshop | 3
ENGL 414 | Advanced Creative Writing: Poetry Workshop | 3

Select 3 credits from English literature courses numbered 300 and above. | 3

Total Credits | 18

1 Students may make 1 or 2 of the following substitutions:

- HON 229G The New Testament as Literature for ENGL 243 The Bible as Literature;
- HON 234G The Worlds of Arthur, or HON 239G Medieval Understandings: Literature and Culture in the Middle Ages for ENGL 271 Survey of English Literature I;

2 All Creative Writing workshops may be taken more than once.

English - Undergraduate Minor

Students not earning a bachelor’s degree in English are eligible to pursue a minor in English. Students must earn 18 credits from the approved course lists below. Students may request approval for other courses clearly related to the minor from the undergraduate advisor in the Department of English.

¹ Courses are approved for the minor only when their topics are appropriate. Students must seek approval to count these courses for the minor from the undergraduate advisor in the Department of English.
English - Master of Arts

New Mexico State University offers MA programs in four areas of emphasis; each one requires 36 hours of graduate-level work.

**Emphasis: Creative Writing**

Students electing this emphasis:

- complete 36 hours of graduate-level course work including creative writing and literature;
- submit a creative writing portfolio (totaling 20-50 pages), depending on genre choices, that includes original creative work in more than one genre and either an essay describing the writer’s personal poetics or a critical piece of writing relevant to the portfolio; and
- pass an oral examination.

**Emphasis: Literature**

Students electing this emphasis can choose to work in various areas of literature, criticism and film. Students are required to

- complete 36 hours of coursework while satisfying area requirements (in early and modern literatures, in British and American Literatures, and in critical theory) with advisor-approved courses;
- demonstrate competency in a foreign language;
- deliver a public presentation on their research;
- write a master essay or thesis; and
- complete their program by passing an oral examination.

See advisor for list of courses satisfying theory and distribution requirements.

**Emphasis: English Studies for Teachers**

Students take 36 hours of graduate coursework, including core courses in creative writing, film, literature and rhetoric and professional communication, as well as additional courses in an area of specialization approved by an advisor. Students in the program develop individualized plans of study in consultation with an advisor. They conclude their program by developing a master's portfolio or other approved capstone project and passing an oral examination. This portfolio may provide material for public schools' Professional Development Dossier. With advisor approval, students may take up to two related courses (six credit hours) in other departments, such as Communication Studies, Education, Journalism, and Theatre, and may also develop an alternative capstone experience and enroll for appropriate credits (such as independent study).

---

**Prefix** | **Title** | **Credits**
--- | --- | ---
**Required Coursework** ¹ | Workshop courses in at least two genres | 12
Graduate form and technique courses | 6
Graduate literature courses in the Department of English | 9
Elective courses | 6
In the final term:
ENGL 574 | Workshop: Advanced Writing Prose | 3
ENGL 575 | Workshop: Advanced Writing Poetry | 3
ENGL 576 | Workshop: Advanced Writing Playwriting | 3
ENGL 591 | Graduate Screenwriting | 3
Total Credits | 45

¹ Graduate assistants must take 3 hours of ENGL 571 Composition Pedagogy and Practicum, during their first semester of teaching.
Students must take 6 credits of ENGL 599 Master’s Thesis to complete this requirement.

### Emphasis: Rhetoric and Professional Communication

Students electing this emphasis take core courses across a wide range of topics within rhetoric and professional communication and choose from one of four areas of specialization:

- Composition,
- Critical/Cultural Studies,
- Rhetoric and
- Professional and Technical Communication.

Students conclude their program by writing a thesis, composing a portfolio of work completed in the program, or writing a master essay and passing an oral examination. Students develop individualized plans of study in consultation with an advisor.

#### Prefix Title Credits

**Required Coursework**

| Core classes from an area of specialization: | 6 |
| Composition |  |
| Critical/Cultural Studies |  |
| Rhetoric |  |
| Professional and Technical Communication |  |
| Core classes in additional area(s) | 6 |
| Additional courses in area of specialization | 12 |

**Methods Course**

Select one from the following:

| ENGL 548 Graduate Study in Empirical Research | 3 |
| ENGL 601 Qualitative Research |  |
| ENGL 602 Quantitative Research |  |
| ENGL 603 Rhetorical Criticism and Methodology |  |

**Elective Courses**

Select one from the following:

Advisor-approved electives in English and/or related fields

| ENGL 597 Internship in Technical and Professional Communication |  |
| ENGL 599 Master’s Thesis |  |

**Capstone Course**

Select one from the following:

| ENGL 585 Advanced Writing Workshop: RPC Capstone | 3-6 |
| ENGL 598 Master’s Essay |  |
| ENGL 599 Master’s Thesis |  |

**Core Courses**

Select two core courses from area of specialization. 6

Select two core courses from any of the other three core areas: 6

**Core Composition Courses**

| ENGL 564 History and Theory of Composition Studies |  |
| ENGL 570 Graduate Study in Approaches to Composition |  |

**Core Critical/Cultural Studies Courses**

| ENGL 517 Graduate Study in Critical Theory |  |
| ENGL 568 Rhetoric and Cultural Studies |  |
| ENGL 583 Critical Writing Studies |  |

**Core Professional and Technical Communication Courses**

| ENGL 512 Graduate Study in Writing in the Workplace |  |
| ENGL 543 Multimedia Theory and Production |  |
| ENGL 572 Technical-Professional Communication: Theory and Pedagogy |  |

**Core Rhetoric Courses**

| ENGL 518 History of Rhetoric |  |
| ENGL 519 Graduate Study in Modern Rhetorical Theory |  |
| ENGL 568 Rhetoric and Cultural Studies |  |

**Specialized Courses**

Select four additional courses in area of specialization determined in consultation with an advisor.

**Composition Courses**

| ENGL 549 Graduate Study in Writing |  |
| ENGL 550 Graduate Study in Literacy |  |
| ENGL 561 Topics in Writing Program Administration |  |

**Critical/Cultural Studies Courses**

| ENGL 549 Graduate Study in Writing |  |
| ENGL 550 Graduate Study in Literacy |  |
| ENGL 555 Graduate Study in Rhetoric of Scientific Literature |  |
| ENGL 590 Master’s Seminar in Rhetoric |  |

**Professional and Technical Communication Courses**

| ENGL 451 Practicum in the Grammar of American English |  |
| ENGL 478 Document Design |  |
| ENGL 543 Multimedia Theory and Production |  |
| ENGL 549 Graduate Study in Writing |  |
| ENGL 562 Interdisciplinary, Client-Based Project Practicum |  |
| ENGL 565 Intercultural Rhetoric and Professional Communication |  |
| ENGL 577 Workshop: Advanced Technical and Professional Writing |  |
| ENGL 578 Topics in Rhetoric and Technology |  |

**Rhetoric Courses**

| ENGL 530 Argument Theory and Practice |  |
| ENGL 549 Graduate Study in Writing |  |
| ENGL 555 Graduate Study in Rhetoric of Scientific Literature |  |
| ENGL 590 Master’s Seminar in Rhetoric |  |

**Total Credits**  54-57

1 Students must take 6 credits of ENGL 599 Master’s Thesis to complete this requirement. ENGL 599 Master’s Thesis: in lieu of portfolio or master essay.
Creative Writing - Master of Fine Arts in Creative Writing

Students pursuing the MFA in Creative Writing devote themselves to concentrated study and development of a chosen genre: poetry or fiction. Students

- complete 54 hours of graduate-level coursework,
- present a book-length thesis of original work with an introduction or afterward,
- perform a public reading from the thesis, and
- pass an oral examination in the final semester.

A maximum of 12 credits in Form and Technique count for the degree.

Rhetoric and Professional Communication - Doctor of Philosophy

An MA is required for admission to the PhD program. Students in the doctoral program will develop individualized plans of study in consultation with advisors. Students are required to take

- 78 hours of graduate-level coursework including the doctoral proseminar in the first semester;
- courses in research methods;
- core courses in composition, professional and technical communication, and rhetoric;
- additional coursework in an area of specialization determined in consultation with an advisor;
- an internship; and
- a dissertation.

The Ph.D. also requires a qualifying portfolio, a comprehensive examination and an oral examination. The dissertation must be completed and approved within 5 years after the comprehensive exam. Consult the department for additional instructions regarding the internship, qualifying comprehensive examinations, portfolio and dissertation.
Students define their specialized area, a coherent set of related courses drawn from both inside and outside the Department of English, in consultation with their doctoral committee. Possible specializations include Border Rhetorics and Cultures; Writing Program Administration/ Writing Center Administration; Assessment; Pedagogy; Literacy Studies; Identity and Political and Social Rhetoric; New Media Rhetoric and Design; Intercultural Rhetorics; Writing Across the Curriculum; Workplace Communication; and the Rhetoric of Science.

Transfer Courses (up to 18 credits)
In consultation with an advisor and the Doctoral Committee, courses taken at the Master’s level can be used to waive specific area requirements in the PhD, but this will not reduce the minimum number of credits required.

Financial Support
Students are eligible for teaching assistantships and a variety of positions that involve writing around campus and the community. Because many students work full time, many courses are offered in the late afternoon and evening to accommodate various schedules.

Application Information
Please refer to the online application process described on the NMSU Admissions website for specific instructions for each program.

Geography
Undergraduate Program Information
The Geography Program emphasizes the interaction of humans with the environment, and the program prepares students for professional positions in the public and private sectors, as well as for graduate work. The Department offers two concentrations for the major:

- The Geographic Information Science and Technology (GIS&T) Concentration emphasizes the acquisition of knowledge and skills in geographic information systems and remote sensing tools and concepts;
- The Human-Environment Relationships (HER) Concentration focuses on the analysis and interpretation of the coupled and complex interactions between people and the environment.

As detailed above, the Department also offers minors in Geography and GIS&T. The requirements for teaching fields in earth sciences are listed under the Department of Curriculum and Instruction in the College of Education.

Note: A grade of "C+" or better is required for all courses taken for the major. Students may not take any of these courses S/U.

Graduate Program Information
The Department of Geography offers graduate study leading to the Master of Applied Geography degree, with a specific focus on the use of geographic perspectives and tools to examine an array of applied research questions related to land use change, water resources, biogeography, desertification, landscape conservation, and urban and transportation planning. A minor in Geographic Information Science and Technology (GIS &T) is also available for all graduate students, regardless of major; details are provided above. Admission to the program is in accord with the general regulations of the Graduate School. Foreign students must receive a minimum score of 570 on the paper-based or 230 on the computer-based Test of English as a Foreign Language (TOEFL) examination. Any applicant who does not have an adequate undergraduate background in geography will be required to make up the deficiencies. Applicants must submit three letters of recommendation and a formal statement of intent to the Department as part of the application process. Please contact Dr. Daniel Dugas, Geography Graduate Director (dugas@nmsu.edu) if you have any questions about the program.

The Department is a sponsor of the interdisciplinary graduate degree program, which offers both MS and Ph.D. degrees in water science and management. Program details, application procedures, and funding resources are listed under the program description that is part of the College of Agricultural Consumer and Environmental Sciences, the lead College for the program. Interested students are encouraged to contact Dr. Christopher Brown, at (575) 646-1892 or brownchr@nmsu.edu, for more information.

The Department is also a participant in the Western Regional Graduate Program (WRGP) supported by the Western Interstate Commission for Higher Education (WICHE). The WRGP is a tuition-reciprocity arrangement that enables students that are legal residents in WICHE states (Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming) to attend NMSU and pay the resident tuition rate, instead of the nonresident rate that an out-of-state student would normally pay.

The Department has a contract research laboratory (Spatial Applications Research Center-SpARC) and a state-of-the-art computer teaching laboratory, both of which support the full suite of ESRI and ENVI geospatial analytical software. The SpARC laboratory employs graduate students who work with local and state governments and research agencies, as well as with businesses on applied geography projects. Our teaching laboratory supports graduate students engaged in course work and research projects. The Department has good working relationships with the Water Resources Research Institute, the Jornada Experimental Range, the Physical Sciences Laboratory, and other units on campus. The Department has its own field equipment and field vehicle, which graduate students can use to support their thesis research. The potential for financial support exists for graduate students in Geography through teaching assistantships and research assistantships. Inquiries regarding the program and assistantships should be directed to the Dr. Daniel Dugas, Geography Graduate Director (dugas@nmsu.edu). Financial aid questions should be addressed to the Office of Financial Aid at NMSU.

Degrees for the Department
Geography (Geographic Information Science & Tech)- Bachelor of Science (p. 383)
Geography (Human Environment Relationships)- Bachelor of Science (p. 386)
Geography - Master of Applied Geography (p. 390)

Minors for the Department
Geography - Undergraduate Minor (p. 390)
Geographic Information Science and Technology - Undergraduate Minor (p. 389)
Geography Courses

GEOG 111G. Geography of the Natural Environment
4 Credits (3+3P)
Introduction to the physical processes that shape the human environment: climate and weather, vegetation dynamics and distribution, soil development and classification, and geomorphic processes and landform development.

GEOG 112G. World Regional Geography
3 Credits
Overview of the physical geography, natural resources, cultural landscapes, and current problems of the world's major regions. Students will also examine recent events at a variety of geographic scales.

GEOG 120G. Culture and Environment
3 Credits
Study of human-environmental relationships: how the earth works and how cultures impact or conserve nature. Introduction to relationships between people and natural resources, ecosystems, global climate change, pollution, and conservation.

GEOG 257. Introduction to Weather Science
4 Credits (3+3P)
Introduction to Earth's atmosphere and the dynamic world of weather as it happens. Working with current meteorological data delivered via the Internet and coordinated with learning investigations keyed to the current weather; and via study of select archives. Crosslisted with: SOIL 257 and AGRO 257
Prerequisite(s): None.

GEOG 259. Introduction to Oceanography
4 Credits (3+3P)
Introduces the origin and development of the ocean and marine ecological concepts. Examines physical processes such as waves, tides, and currents and their impact on shorelines, the ocean floor, and basins. Investigates physical processes as they relate to oceanographic concepts. Includes media via the Internet and laboratory examination of current oceanic data as an alternative to the actual oceanic experience. Students will gain a basic knowledge and appreciation of the ocean's impact on the world's ecology. Branch campuses only. Consent of Instructor required.

GEOG 281. Map Use: Reading, Analysis and Interpretation
3 Credits (2+3P)
Exploration of the cartographic medium. Development of critical map analysis and interpretation skills, and map literacy. Comprised of traditional lecture, labs, and map use projects.

GEOG 291. Special Topics
1-3 Credits
Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

GEOG 295. Introduction to Climate Science
4 Credits (3+3P)
Examines fundamentals and related issues of Earth's climate system, climate variability, and climate change. Develops solid understandings of Earth's climate system framed in the dynamic, Earth system based approach to the science. Branch Campuses only. May be repeated up to 4 credits.

GEOG 315V. World Agriculture and Food Problems
3 Credits
Same as AG E 315V.

GEOG 325V. New Mexico and the American West
3 Credits
Examination of the cultural and historical patterns, economic activities, and physical characteristics of New Mexico and the American West. Special focus is given to human, environmental, and cultural landscapes, as well as current issues and challenges in New Mexico, the West, and the border region.

GEOG 326. U.S. National Parks
3 Credits
Exploration of origins, landscapes, ecosystems, management issues, and conflicts in U.S. National Parks. The regional geography of the United States as seen through the creation and protection of biologically and culturally significant lands.

GEOG 328V. Geography of Latin America
3 Credits
Explores Latin America from a geographical perspective, integrating environmental, cultural and socioeconomic factors in an in-depth study of the development of the region and contemporary issues and challenges facing the region. Special focus is given to examining applied problems facing Latin America at a range of scales.

GEOG 331V. Europe
3 Credits
Focus on the cultural continent of Europe. An overview of climate, physical geography, and human geography of Europe, including a brief historical geography of the continent. Current environmental, social, and political issues of Europe will be discussed, with a particular focus on the fate of EU.
GEOG 351. Fundamentals of Biogeography
3 Credits
Exploration of life in space and time. Floristic and physiognomic characteristics of the Earth's major ecosystems and their distributions; ecosystem dynamics, evolution, and physical environment. Includes an individual research project resulting in a poster presentation. Crosslisted with: GEOG 557.

GEOG 353. Geomorphology
3 Credits (2+3P)
Examination of the principal theories and concepts of landform creation; exploration of the roles of structure, processes, climate, and time in the formation of various types of landforms. Taught with GEOG 553. Crosslisted with: GEOL 353.

GEOG 357. Climatology
3 Credits
Elements and controls of climate. Energy and hydrologic cycles, general circulation, climate classification, distribution of climate types, microscale effects, applications. Same as AGRO 357, SOIL 357. Prerequisite(s): C- or better in MATH 120.

GEOG 361V. Economic Geography
3 Credits
The geographic relationships of supply and demand resources, population, and transportation. Site analysis and decision-making in different economic systems and cultures and how these decisions affect the environment and the location of economic activities.

GEOG 363V. Cultural Geography
3 Credits
The world's diverse cultural landscapes. Emphasis on the connections between social, political, religious, and agricultural patterns and the impact of societies on the natural environment.

GEOG 365V. Urban Geography
3 Credits
The global historical development of urban areas, as well as the changing functions of today's cities. A comparison between the North American city system and cities in Europe, Asia, and South America, including the development of the city form, the internal spatial organization of commercial, residential, and industrial areas, and socio-economic and political factors.

GEOG 373. Introduction to Remote Sensing
4 Credits (3+3P)
Introduction to the theory, techniques, and applications of remote sensing. Topics include electromagnetic radiation; remote sensing systems; remote sensing of the biosphere, hydrosphere, atmosphere, lithosphere, and cultural landscapes. Course includes lectures and also labs focused on the basic analysis and interpretation of remote sensing products. Taught with GEOG 573.

GEOG 381. Cartography and Geographic Information Systems
4 Credits (3+3P)

GEOG 401. Internship/Co-op
1-3 Credits (1-3)
Provides an opportunity whereby students work with a local, regional, or federal agency, or private sector firm on applied geographic work, under the supervision of an agency or firm professional and a geography faculty member. Consent of instructor required.

GEOG 435. Environmental Planning
3 Credits
Exploration of planning tools that advance the management of land and water resources, meeting current societal needs, while also minimizing damage to nature and society. Class activities include applied exercises that explore contemporary planning issues, including land conservation, natural hazards, biophysical analysis, water resource management, Federal land issues, and remediation of Superfund sites. Taught with GEOG 535.

GEOG 441. System Design for Geographic Information Science (GIS)
3 Credits
A critical aspect of GIS is its ability to provide the necessary products within the organization within which it is implemented. This is an in-depth analysis of currently accepted system design methodologies intended to create a successful implementation of GIS inside organizations. Crosslisted with: GEOG 581.

GEOG 452. Landscape Ecology
4 Credits (3+2P)
Analysis of the structure, function and change of natural and anthropogenic landscapes. Patches, corridors, matrix and network, spatial organization, landscape dynamics, and role of disturbance in overall functioning of landscapes. Role of landscape heterogeneity in landscape management. Crosslisted with: GEOG 552.

GEOG 455. Southwest Environments
3 Credits
The U.S. Southwest: physical and human geography, coupled human-environment interactions, causes and consequences of environmental issues, and implications for sustainable development. Taught with GEOG 555.

GEOG 457. Transportation Geography
3 Credits
Nature and distribution of land, air and water transport facilities and their importance in regional development. Prerequisite(s): C- or better in GEOG 120G.

GEOG 472. Soil Morphology and Classification
4 Credits (2+2P)
Same as SOIL 472. Crosslisted with: SOIL 472.

GEOG 473. Advanced Remote Sensing
4 Credits (3+3P)
Introduction to advanced topics in digital image processing, analysis, interpretation, and visualization. Topics include geometric and radiometric correction, image enhancement, image classification, change detection, and accuracy assessment. Lectures focus on the discussion of advanced remote sensing concepts, techniques, and applications; labs are applications-oriented. Taught with GEOG 573. Prerequisite(s): C- or better in GEOG 373.

GEOG 481. Fundamentals of Geographic Information Science (GIS)
4 Credits (3+3P)
Fundamentals of computer-based systems which organize, analyze, and present spatially referenced data. Crosslisted with: GEOG 578.

GEOG 482. Geodatabase Design
3 Credits (2+3P)
A practical introduction to designing geodatabases. The course takes you through the eleven steps of geodatabase design divided into four stages: thematic characterization; developing the database elements, relationships and properties; capture and collection; and finally, implementation and documentation. Taught with GEOG 572. Prerequisite(s): C- or better in GEOG 481.
GEOG 483. Field Explorations in Geography
3 Credits
A field-based class where students complete exercises in physical, human, and environmental geography in the Southwest. May be offered as a two-week intensive class where students are away from Las Cruces and camping; or may be offered with weekend field trips depending on the instructor. A lab fee for transportation and other expenses is required. Taught with GEOG 583.

GEOG 488. GIS and Water Resources
3 Credits
Explores a range of GIS tools, routines, and data structures and then applies them to a range of research questions and management issues in the area of Water Resources. The class has both a lecture and laboratory component, and students will have opportunities to explore a range of GIS tools in formal lab exercises and a project in the student area of interest. Taught with GEOG 588.

GEOG 491. Special Topics
1-3 Credits
Specific subjects to be announced in the Schedule of Classes. May be repeated for a maximum of 12 credits.

GEOG 492. GIS&T Applications and Modeling
3 Credits
Group oriented class in which students conduct an applied research project in GIS application or modeling area of choice and conduct focused library research. Taught with GEOG 521.
Prerequisite(s): C- or better in GEOG 481.

GEOG 493. Special Problem Research
1-3 Credits
For advanced and exceptional students. Research, and preparation of a paper in some phase of geography. A maximum of 6 credits may be earned. Consent of instructor required.

GEOG 495. Directed Readings
1-3 Credits
Individual study through selected readings. A maximum of 6 credits may be earned. Consent of instructor required.

GEOG 501. Research Design and History of Geographic Thought
3 Credits
Understanding and application of the research process, including conceptualization and definition of a research problem, study designs, data sources, data collection, and report writing in development of geographic thought.

GEOG 521. GIS & T Applications and Modeling
3 Credits
Group oriented class in which students conduct an applied research project in a GIS application or modeling area of choice and conduct focused library research. Taught with GEOG 492.

GEOG 535. Environmental Planning
3 Credits
Exploration of planning tools that advance the management of land and water resources, meeting current societal needs, while also minimizing damage to nature and society. Class activities include applied exercises that explore contemporary planning issues, including land conservation, natural hazards, biophysical analysis, water resource management, Federal land issues, and remediation of Superfund sites. Taught with GEOG 435.

GEOG 552. Landscape Ecology
4 Credits (3+2P)
Analysis of the structure, function and change of natural and anthropogenic landscapes. Patches, corridors, matrix and network, spatial organization, landscape dynamics, and role of disturbance in overall functioning of landscapes. Role of landscape heterogeneity in landscape management. Taught with GEOG 452.

GEOG 553.Geomorphology
3 Credits (2+3P)
Examination of the principle theories and concepts of landform creation; exploration of the roles of structure, processes, climate, and time in the formation of various types of landforms. Taught with GEOG 353.

GEOG 555. Southwest Environments
3 Credits
The U.S. Southwest: physical and human geography, coupled human-environment interactions, causes and consequences of environmental issues, and implications for sustainable development. Taught with GEOG 455.

GEOG 557. Fundamentals of Biogeography
3 Credits
The U.S. Southwest: physical and human geography, coupled human-environment interactions, causes and consequences of environmental issues, and implications for sustainable development. Taught with GEOG 455.

GEOG 571. Cartography and Geographic Information Systems
4 Credits (3+3P)
Graduate level design and construction of thematic maps. Introduction to cartographic principles in lecture. Emphasis on map-making using GIS software in the labs. Taught with GEOG 381.

GEOG 572. Geodatabase Design
3 Credits (2+3P)
Graduate level introduction to designing geodatabases. The course takes you through the eleven steps of geodatabase design divided into four stages: thematic characterization; developing the database elements, relationships and properties; capture and collection; and finally implementation and documentation. Taught with GEOG 482.

GEOG 573. Introduction to Remote Sensing
4 Credits (3+3P)
Graduate level introduction to the theory, techniques, and applications of remote sensing. Topics include electromagnetic radiation; remote sensing systems; remote sensing of the biosphere, hydrosphere, atmosphere, lithosphere, and cultural landscapes. Course includes lectures and also labs focused on the basic analysis and interpretation of remote sensing product. Taught with GEOG 373.

GEOG 578. Fundamentals of Geographic Information Science (GIS)
4 Credits (3+3P)
Graduate level fundamentals of computer-based systems which organize, analyze, and present spatially referenced data. Additional work for graduate students. Crosslisted with: GEOG 481.

GEOG 581. System Design for Geographic Information Science (GIS)
3 Credits
A critical aspect of GIS is its ability to provide the necessary products within the organization within which it is implemented. This is an in-depth analysis of currently accepted planning methodologies designed to create a successful implementation of GIS inside organizations. Taught with GEOG 441.
GEOG 582. Advanced Remote Sensing  
4 Credits (3+3P)  
Graduate level introduction to advanced topics in digital image processing, analysis, interpretation, and visualization. Topics include geometric and radiometric correction, image enhancement, image classification, change detection, and accuracy assessment. Lectures focus on the discussion of advanced remote sensing concepts, techniques, and applications; labs are applications-oriented. May be repeated up to 4 credits.

GEOG 583. Field Explorations in Geography  
3 Credits  
A graduate level field-based class where students complete exercises in physical, cultural, and environmental geography in the Southwest. May be offered as a two-week intensive class where students are away from Las Cruces and camping; or may be offered with weekend field trips depending on the instructor. A lab fee for transportation and other expenses is required. May be repeated up to 3 credits.

GEOG 585. Advanced Spatial Analysis  
3 Credits (3+2P)  
Introduction to basic spatial and aspatial descriptive statistics, statistical analysis of point and area patterns, critical review of quantitative research in geography, and exploration of advanced spatial analysis routines including cluster analysis, hot/cold spot analysis, and spatially weighted regression.  
Prerequisite(s): Knowledge of basic statistics recommended.

GEOG 588. GIS and Water Resources  
3 Credits  
This is a graduate level class that explores a range of GIS tools, routines, and data structures and then applies them to a range of research questions and management issues in the area of Water Resources. The class has both a lecture and laboratory component, and students will have opportunities to explore a range of GIS tools in formal lab exercises and a project in the student's area of interest. Taught with GEOG 488.

GEOG 595. Directed Readings  
1-3 Credits  
Advanced individual study through selected readings. May be repeated for a maximum of 6 credits.

GEOG 596. Residency  
1-12 Credits (1-12)  
A contractual learning experience in the public or private sector under the supervision of a field supervisor and two faculty members. May be repeated up to 12 credits. Consent of Instructor required. Restricted to: Geography majors.

GEOG 598. Selected Topics  
1-3 Credits  
Readings, discussions, lectures or laboratory studies of selected geographic themes. May be repeated for unlimited credit.

GEOG 599. Master's Thesis  
1-12 Credits (1-12)  
Supervised individual study of a student's thesis topic. May be repeated for an unlimited number of credits. Thesis/Dissertation Grading.

---

Geography (Geographic Information Science & Tech) - Bachelor of Science

The Geographic Information Science and Technology (GIS&T) Concentration offers a solid foundation in geographic thought and human and physical geography, and provides students with advanced knowledge and skills in spatial analysis and modeling through the use of geographic information systems and remote sensing tools and concepts. Preparation for advanced studies is also provided.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Electives, to bring the total credits to 120 7

40-34

9 credits must be upper-division

Total Credits 120

1 Courses that have the "V" distinction and are a Human Geography or Human-Environment Geography course will not count towards both the Viewing a Wider World and Human Geography or Human-Environment Geography requirements.

2 Elective credit may vary based on General Education course selection, second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Second Language Requirement

For the Bachelor of Science in the Geography with a Concentration in GIS&T there is a one year second language requirement, the student must do one of the following:

Option 1:

Prefix | Title                                                                 | Credits |
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

CHIN 111 | Elementary Chinese I                                                | 4       |
| or FREN 111| Elementary French I                                              |         |
| or GER 111| Elementary German I                                                |         |
| or JPNS 111| Elementary Japanese I                                             |         |
| or SPAN 111| Elementary Spanish I                                              |         |

Option 2:

Prefix | Title                                                                 | Credits |
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Complete 6 additional upper-division Geography courses (beyond major requirements)</td>
<td>6</td>
<td></td>
</tr>
</tbody>
</table>

Option 3:

Prefix | Title                                                                 | Credits |
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>

<tbody>
<tr>
<td>Challenge the 112 level for the following courses:</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

CHIN 112 | Elementary Chinese II                                                | 4       |
| or FREN 112| Elementary French II                                               |         |
| or GER 112| Elementary German II                                               |         |
| or SPAN 112| Elementary Spanish II                                              |         |

OR

Challenge the 213 level for the following courses:

PORT 213 | Portuguese for Romance Language Students I                          | 3       |
| or SPAN 213| Spanish for Heritage Learners II                                   |         |

1 MATH 142G Calculus for the Biological and Management Sciences or MATH 190G Trigonometry and Precalculus is required for the degree but students may need to take any prerequisites needed to enter MATH 142G or MATH 190G first.

2 See the General Education (p. 49) section of the catalog for a full list of courses.

3 A ST 311 Statistical Applications is also an acceptable course to meet the departments Statistics course requirement, however it will not satisfy the General Education (GE) Elective requirement. If a student takes A ST 311 Statistical Applications, they will need to take an additional General Education course to complete the GE Elective requirement.

4 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.

5 Select either one Physical Geography (PG) class and two Human Geography (HG) classes, OR two Physical Geography (PG) classes and one Human Geography (HG) class.

6 For Heritage Learners:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 213</td>
<td>Spanish for Heritage Learners II</td>
<td>3</td>
</tr>
<tr>
<td>or SPAN 214</td>
<td>Spanish for Heritage Learners III</td>
<td></td>
</tr>
<tr>
<td>or PORT 213</td>
<td>Portuguese for Romance Language Students I</td>
<td></td>
</tr>
<tr>
<td>or PORT 214</td>
<td>Portuguese for Romance Language Students II</td>
<td></td>
</tr>
</tbody>
</table>

7 Elective credit may vary based on General Education course selection, second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
**Option 4:**
Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

**Option 5:**
Obtain college certification of completion of two years of a second language at the high school level with a grade of C- or higher in the second-year level.

**Option 6:**
By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

**Option 7:**
By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

**Option 8:**
In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

---

**A Suggested Plan of Study for Students**

This roadmap assumes student placement in MATH 142G Calculus for the Biological and Management Sciences or MATH 190G Trigonometry and Precalculus and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Choose one from the following GIS&T Area Courses:  3-4
GEOG 441  System Design for Geographic Information Science (GIS) (C- or better)
GEOG 473  Advanced Remote Sensing (C- or better)
GEOG 492  GIS&T Applications and Modeling (C- or better)

Elective Course  2  3

Fourth Year
Fall
Select either a Human Geography or Physical Geography Course (C- or better)  3-4
Choose one from the following GIS&T Area Courses:  3-4
GEOG 441  System Design for Geographic Information Science (GIS) (C- or better)
GEOG 473  Advanced Remote Sensing (C- or better)
GEOG 492  GIS&T Applications and Modeling (C- or better)

Elective Course - Upper Division  2  3
Elective Course  2  3
Elective Course  2  3

Credits  15-16

Spring
GEOG 482  Geodatabase Design (C- or better)  3
Elective Course  2  6
GEOG 488  GIS and Water Resources (optional)
Elective Course - Upper Division  2  3

Credits  15-17

Total Credits  120-127

1 See the General Education (p. 49) section of the catalog for a full list of courses.
2 Elective credit may vary based on General Education course selection, second language requirements, prerequisites, dual credit, AP credit, double majors, or/and minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
3 Math Placement: MATH 121G College Algebra or A ST 251G Statistics for Business and the Behavioral Sciences/STAT 251G Statistics for Business and the Behavioral Sciences or STAT 271G Statistics for Psychological Sciences is the starting Math course for the degree, however, students may need to complete any prerequisites prior to enrolling into one of these courses.
4 Students should take courses to either complete the two semester Second Language Requirements with either Option 1 or Option 2 (see the requirements tab (p. 383) for this degree, the Second Language section).
5 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
6 Students must have 9 credits total between Human Geography and Physical Geography courses. The requirement must be completed with either two Human Geography and one Physical Geography course(s) OR with one Human Geography and two Physical Geography course(s). *students cannot take all nine credits in one area.
7 Courses that have the "V" distinction and are a Human Geography or Human-Environment Geography course will not count towards both the Viewing a Wider World and Human Geography or Human-Environment Geography requirements.

Geography (Human/Environment Relationships) - Bachelor of Science

Concentration: Human/Environment Relationships (HER)

The Human Environment Relationships Concentration offers a solid foundation in geographic thought and geospatial analysis and provides students with advanced knowledge and skills for assessing human and environmental systems and the coupled and complex interactions between people and the environment. Preparation for advanced graduate studies is also provided.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework. Note: A grade of “C-” or better is required for all courses taken for the major. Students may not take any of these courses S/U.

Additional HG, HEG, & PG Course 5

Select 2 additional courses from either the Human Geography, Human Environment Geography or Physical Geography Courses above

Second Language Requirement: (required - see below) 6-8

Electives, to bring the total credits to 120 42-39

15 credits must be Upper Division

Total Credits 120

1 MATH 121G College Algebra is required for the degree but students may need to take any prerequisites needed to enter MATH 121G first.

2 See the General Education (p. 49) section of the catalog for a full list of courses.

3 A ST 311 Statistical Applications is also an acceptable course to meet the departments Statistics course requirement, however it will not satisfy the General Education (GE) Elective requirement. If a student takes A ST 311 Statistical Applications, they will need to take an additional General Education course to complete the GE Elective requirement.

4 See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.

5 For all Human Geography, Human Environment Geography and Physical Geography course requirements, students cannot repeat the courses multiple times to fulfill the requirement. Courses that have the "V" distinction and are a Human-Environment Geography and Human Geography courses will not count towards both the Viewing a Wider World and Human-Environment Geography and Human Geography requirements.

6 Elective credit may vary based on second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Second Language Requirement

For the Bachelor of Science in Geography with a Concentration in Human Environment Relationships there is a one year second language requirement, the student must do one of the following:

Option 1:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Complete two semesters from the following:</td>
<td></td>
</tr>
<tr>
<td>CHIN 111</td>

<td>Portuguese for Romance Language Students II</td>
</tr>
</tbody>
</table>
or GER 112  Elementary German II
or SPAN 112  Elementary Spanish II

OR

Challenge the 213 level for the following courses:

PORT 213  Portuguese for Romance Language Students I
or SPAN 213  Spanish for Heritage Learners II

Option 4:
Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

Option 5:
Obtain college certification of completion of two years of a second language at the high school level with a grade of C- or higher in the second-year level.

Option 6:
By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

Option 7:
By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

Option 8:
In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 121G College Algebra and ENGL 111G Rhetoric and Composition. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

Course Title Credits

First Year

Fall
ENGL 111G  Rhetoric and Composition (C- or better) 4
Area V: Humanities Course 1 3
GEOG 111G  Geography of the Natural Environment (C- or better) 4
Elective Course or UNIV 150 2 4

Credits 15

Spring
MATH 121G  College Algebra (C- or better) 2 3
Area VI: Creative Fine Arts Course 1 3
GEOG 112G  World Regional Geography (C- or better) 3
GEOG 120G  Culture and Environment (C- or better) 3
Elective Course 2 3

Credits 15

Second Year

Fall
ENGL 218G  Technical and Scientific Communication (C- or better in either or Advanced Technical and Professional Communication) 3
Choose one from the following:

A ST 251G  Statistics for Business and the Behavioral Sciences (Recommended Gen. Ed. and C- or better) 3
A ST 311  Statistical Applications (C- or better) 4
STAT 251G  Statistics for Business and the Behavioral Sciences (Gen. Ed. and C- or better) 3
GEOG 281  Map Use: Reading, Analysis and Interpretation (C- or better) 3

Elective Course 2 6

Credits 15

Spring
Choose one from the following:

AXED 201G  Effective Leadership and Communication in Agricultural Organizations 3
COMM 253G  Public Speaking
COMM 265G  Principles of Human Communication
HON 265G  Principles of Human Communication Honors

Second Language: either 111-level or Upper Division GEOG course (C- or better) 5 3-4
Choose one from the following Human Geography Courses: 6 3
GEOG 361V  Economic Geography (C- or better)
GEOG 363V  Cultural Geography (C- or better)
GEOG 365V  Urban Geography (C- or better)
GEOG 381  Cartography and Geographic Information Systems (C- or better)
Elective Course 2 3

Credits 16-17

Third Year

Fall
VWW - Viewing A Wider World Course 7 3
Second Language: either 112-level or Upper Division GEOG course (C- or better) 5 3-4
Choose one from the following Human Environment Geography Courses: 8,9 3
GEOG 325V  New Mexico and the American West (C- or better)
GEOG 326  U.S. National Parks (C- or better)
GEOG 328V  Geography of Latin America (C- or better)
GEOG 331V  Europe (C- or better)
GEOG 483  Field Explorations in Geography (C- or better)
Elective Course 2 3

Credits 15-16
Spring
VWW - Viewing a Wider World Course ²

Choose one from the following Human Geography Courses: ³, ⁴
- GEOG 361V Economic Geography (C- or better)
- GEOG 363V Cultural Geography (C- or better)
- GEOG 365V Urban Geography (C- or better)

Choose one from the following Human Environment Geography Courses:
- GEOG 325V New Mexico and the American West (C- or better)
- GEOG 326 U.S. National Parks (C- or better)
- GEOG 328V Geography of Latin America (C- or better)
- GEOG 331V Europe (C- or better)
- GEOG 483 Field Explorations in Geography (C- or better)

Choose one from the following Physical Geography Courses:
- GEOG 351 Fundamentals of Biogeography (C- or better)
- GEOG 353 Geomorphology (C- or better)
- GEOG 357 Climatology (C- or better)
- GEOG 452 Landscape Ecology (C- or better)

Elective Course ²

Credits 15-16

Fourth Year
Fall
Choose one from the following Physical Geography Courses: ⁹
- GEOG 351 Fundamentals of Biogeography (C- or better)
- GEOG 353 Geomorphology (C- or better)
- GEOG 357 Climatology (C- or better)
- GEOG 452 Landscape Ecology (C- or better)

Elective Course - Upper Division ²

Credits 15-16

Spring
Choose two from the following course areas:
- Human Geography ⁶, ⁸
- Human Environment Geography ⁶, ⁸
- Physical Geography ⁶

Elective Course - Upper Division ²

Elective Course ²

GEOG GIS&T Area Course (Optional) ⁷

Credits 14

Total Credits 120-124

¹ See the General Education (p. 49) section of the catalog for a full list of courses.
² Elective credit may vary based on second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
³ MATH 121G College Algebra is required for the degree but students may need to take any prerequisites needed to enter MATH 121G first.
⁴ A ST 311 Statistical Applications is also an acceptable course to meet the departments Statistics course requirement, however it will not satisfy the General Education (GE) Elective requirement. If a student takes A ST 311 Statistical Applications, they will need to take an additional General Education course to complete the GE Elective requirement.
⁵ Students should take courses to either complete the two semester Second Language Requirements with either Option 1 or Option 2 (see the requirements section (p. 383) for this degree, the Second Language section)
⁶ Human Geography: GEOG 361V Economic Geography, GEOG 363V Cultural Geography, GEOG 365V Urban Geography, GEOG 467 Transportation Geography
⁷ Human Environment Geography: GEOG 325V New Mexico and the American West, GEOG 326 U.S. National Parks, GEOG 328V Geography of Latin America, GEOG 331V Europe, GEOG 483 Field Explorations in Geography
⁸ Physical Geography: GEOG 351 Fundamentals of Biogeography, GEOG 353 Geomorphology, GEOG 357 Climatology, GEOG 452 Landscape Ecology
⁹ See the Viewing a Wider World (p. 53) section of the catalog for a full list of courses.
¹⁰ Courses that have the "V" distinction and are a Human-Environment Geography and Human Geography courses will not count towards both the Viewing a Wider World and Human-Environment Geography and Human Geography requirements.
¹¹ For all Human Geography, Human Environment Geography and Physical Geography course requirements, students cannot repeat the courses multiple times to fulfill the requirement.
¹² GEOG GIS&T Area Course:
  - GEOG 373 Introduction to Remote Sensing
  - GEOG 441 System Design for Geographic Information Science (GIS)
  - GEOG 481 Fundamentals of Geographic Information Science (GIS)
  - GEOG 488 GIS and Water Resources

Geographic Information Systems - Undergraduate Minor

The Department of Geography offers a minor in Geographic Information Systems; this option applies for non-geography majors only. To earn a minor in GIS, the following courses are required. Note: A grade of C- or better is required for all courses taken for the minor. Students may not take any of these courses S/U.
Geography - Undergraduate Minor

The Department of Geography offers a minor in Geography to interested undergraduate students from departments outside of Geography. To earn a minor in Geography, the following courses are required. Note: A grade of C- or better is required for all courses taken for the minor. Students may not take any of these courses S/U.

**Prefix** | **Title** | **Credits**
--- | --- | ---
GEOG 111G | Geography of the Natural Environment | 4
GEOG 112G | World Regional Geography | 3
or GEOG 120G | Culture and Environment | 3
Select 3-4 credits from the following: | 3-4
GEOG 281 | Map Use: Reading, Analysis and Interpretation | 4
GEOG 381 | Cartography and Geographic Information Systems | 4
GEOG 481 | Fundamentals of Geographic Information Science (GIS) | 4

**Physical Geography (PG)**
Select one from the following: | 3
GEOG 351 | Fundamentals of Biogeography | 3
GEOG 353 | Geomorphology | 3
GEOG 357 | Climatology | 3
GEOG 452 | Landscape Ecology | 3

**Human Geography (HG)**
Select one from the following: | 3
GEOG 361V | Economic Geography | 3
GEOG 363V | Cultural Geography | 3
GEOG 365V | Urban Geography | 3
GEOG 467 | Transportation Geography | 3

**Human-Environment Geography (HEG)**
Select one from the following: | 3
GEOG 325V | New Mexico and the American West | 3
GEOG 326 | U.S. National Parks | 3
GEOG 328V | Geography of Latin America | 3
GEOG 331V | Europe | 3
GEOG 483 | Field Explorations in Geography | 3

Total Credits: 19-21

Geography - Master of Applied Geography

The basic requirement for the Master of Applied Geography is a minimum of 30 graduate credits, including 6 thesis credits and a successful thesis defense. Students choosing the thesis option are required to file a digital copy of the thesis and thesis data that will be archived on the Departmental Website and the Departmental server. A non-thesis option (residency) requires 36 graduate credits with a minimum of 3 credits of professional residency and an approved final residency report. Students choosing the non-thesis (residency) option are required to file a digital copy of their residency report that will be archived on the Departmental Website and the Departmental server. All candidates must maintain an overall GPA of 3.00 or higher. All candidates must also receive a grade of B or better in the following required courses: GEOG 501 Research Design and History of Geographic Thought; GEOG 585 Advanced Spatial Analysis; and one graduate-level GIS&T course, either prior to entering the program or before graduation. A total of at least 15 credits must be earned in courses numbered 500 and above, and no more than 9 credits of the 30 (thesis option) or 36 (non-thesis option) can be earned outside of geography.

Geographic Information Systems - Graduate Minor

The Department of Geography offers a minor in Geographic Information Systems, and this minor is available for all graduate students. To earn a minor in GIS, the following courses are required, combining for a total of 14 credits. Students may not take any of these courses S/U, and students must earn a grade of at least B- in all of these classes.

**Prefix** | **Title** | **Credits**
--- | --- | ---
GEOG 573 | Introduction to Remote Sensing | 4
GEOG 578 | Fundamentals of Geographic Information Science (GIS) | 4
Select 6 credits from the following: | 6
GEOG 521 | GIS & T Applications and Modeling | 4
GEOG 571 | Cartography and Geographic Information Systems | 4
GEOG 572 | Geodatabase Design | 4
GEOG 581 | System Design for Geographic Information Science (GIS) | 4
GEOG 582 | Advanced Remote Sensing | 4
GEOG 588 | GIS and Water Resources | 4
GEOG 598 | Selected Topics | 4

Total Credits: 14

Geological Sciences

Undergraduate Program Information

A degree in geology leads to a wide variety of career choices. Students can access careers in the geosciences through one of three concentrations in the BS Geology degree. The first concentration is Geological Sciences. This is a traditional geology curriculum, in which students take geology classes, augmented with calculus, physics, and chemistry; this concentration leads to graduate study in the
geosciences and careers in industry, academia, government, and policy. The second concentration is Earth and Environmental Systems. Students take geology classes, augmented with a variety of environmental, economic, and political classes; this concentration leads to careers in the environmental industry. The third concentration is Earth Science Education. Students take geology and education classes, and are certified to teach science at New Mexico middle and high schools after completing the BS and one year of graduate work in the College of Education.

Students earning the BS in Geology, any concentration, may also earn the Undergraduate Research Certificate in the Department of Geological Sciences. Completion of the Undergraduate Research Certificate includes completion of an undergraduate research project, participation in the department's undergraduate research meetings and one of the following:

1. a senior thesis;
2. a manuscript submitted for a publication; or
3. an oral or poster presentation at a national or regional meeting.

Undergraduate Research Certificates are presented at the department's annual awards ceremony.

The Department of Geological Sciences also cooperates with the Department of Physics in offering a BS degree in physics with a concentration in geophysics. Requirements are listed in the Department of Physics (p. 513) section of this catalog.

Graduate Program Information

The Department of Geological Sciences offers graduate study leading to the Master of Science degree in geology. The department offers excellent laboratory facilities for research in mineralogy, igneous petrology, geochemistry, stratigraphy, geochronology, and sedimentology. Available are a large, fully equipped rock preparation laboratory, mineral separation laboratory, plus computer, geochemical and petrographic labs. Major equipment includes a Gemeni heavy mineral separation table, Laser-Induced Breakdown Spectroscopy (LIBS), a class 1000 clean lab, Thermal Ionization Mass Spectrometry (TIMS) and Laser-Ablation Multi-Collector Inductively Coupled Plasma Mass Spectrometry (LA-MC-ICP-MS). The department maintains its own fleet of field vehicles. Also available are computing facilities that include an HP color plotter and GIS system. Financial support is available to graduate students in geology through teaching and research assistantships and scholarships. Inquiries regarding financial aid should be directed to the graduate advisor.

Undergraduate Research Certificates are presented at the department's annual awards ceremony.

The Department of Geological Sciences also cooperates with the Department of Physics in offering a BS degree in physics with a concentration in geophysics. Requirements are listed in the Department of Physics (p. 513) section of this catalog.

Geology Courses

GEOL 111G. Introductory Geology
4 Credits (3+3P)
Covers the fundamental principles of physical geology, including the origin of minerals and rocks, geologic time, rock deformation, and plate tectonics. May be repeated up to 4 credits.

GEOL 212G. The Dynamic Earth
4 Credits (3+3P)
Introduction to earth systems. Geology and the solid earth, geologic time and earth history, water and the world oceans, atmosphere and weather, the solar system. Community Colleges only.

GEOL 220. Special Topics
1-3 Credits
Specific subjects to be announced in the Schedule of Classes. Community Colleges only. May be repeated for a maximum of 12 credits. May be repeated up to 12 credits.

GEOL 305V. Fossils and the Evolution of Life
3 Credits
Examination of the fossil record within the context of geologic time. Special emphasis on critical evaluation of possible terrestrial and extra-terrestrial causes for the evolution of plants and animals and for periods of mass extinction.

GEOL 310. Mineralogy
3 Credits (2+3P)
Crystallography and the physical and chemical aspects of minerals. Prerequisite(s): GEOL 111G and CHEM 111G.

GEOL 312. Optical Mineralogy
3 Credits (2+3P)
Principles of optical mineralogy as applied to the identification and characterization of rock-forming minerals. Prerequisite or Corequisite: GEOL 310.

GEOL 335V. Earthquakes, Volcanoes, Hurricanes, and Floods: The Role of Natural Hazards in Civ Past and Present
3 Credits
This class will provide an introduction to geologic hazards and natural disasters, their effects on society and the attempts at preparation and mitigation for these events. Hazards to be covered include earthquakes, volcanic eruptions, floods, landslides, hurricanes, tsunamis and others.

GEOL 353. Geomorphology
3 Credits (2+3P)
Same as GEOG 353. May be repeated up to 3 credits.
GEOL 360. General Geochemistry
3 Credits
The chemistry of the earth and its parts, with emphasis on geochemical systems and cycles, distribution of the elements, and mineral equilibria. Crosslisted with: CHEM 360
Prerequisite(s): CHEM 111G or CHEM 110G.

GEOL 399. Igneous and Metamorphic Petrology
3 Credits (2+3P)
Mineralogical composition, classification, and genesis of igneous and metamorphic rocks.
Prerequisite(s): GEOL 312 for geology majors, GEOL 310 for majors other than geology.

GEOL 401. Geology Colloquium
1 Credit
Presentations by visiting speakers and students. May be repeated up to 6 credits.

GEOL 420. Stratigraphy and Sedimentology
3 Credits (2+3P)
Identification and interpretation of sedimentary rocks with emphasis on classification, deposition, and stratigraphic geometry.
Prerequisite: GEOL 310.

GEOL 424. Soil Chemistry
3 Credits
Same as SOIL 424, CHEM 424.

GEOL 441. Tutorial Geology
2 Credits (1+3P)
Participation in teaching lower-division laboratories and conducting tutorial sessions. May be repeated for a total of 4 credits.
Prerequisite: junior or above standing and nomination by faculty.

GEOL 442. Zuhl Collection Internship
1-3 Credits (3-9P)
Applied experience with the NMSU Zuhl Collection, under supervision of the Zuhl Collection Director. Possible activities include developing displays, giving tours, developing outreach materials, etc. May be repeated up to 6 credits. Consent of Instructor required.

GEOL 444. GIS for Geology
3 Credits
Prerequisite(s): GEOL 470.

GEOL 449. The Geological Profession
1 Credit
Outcomes assessment exit exams. For graduating seniors only. May be repeated up to 1 credit.
Prerequisite(s): Graduating seniors only.

GEOL 452. Geohydrology
4 Credits (3+2P)
Origin, occurrence, and movement of fluids in porous media; assessment of aquifer characteristics. Development and conservation of ground water resources, design of well fields. May be repeated up to 4 credits. Crosslisted with: E S 452 and C E 452.
Prerequisite(s): Junior or senior, MATH 121G.

GEOL 455. Undergraduate Research
1-3 Credits
Geological research and field projects for the advanced student. May be repeated for a total of 6 credits. May be repeated up to 6 credits. Consent of Instructor required.
Prerequisite(s): Consent of instructor.

GEOL 465. Isotope Geochemistry
3 Credits
Geochemistry of stable and radiogenic isotopes and its application to a wide range of problems in the earth and planetary sciences.
Prerequisite(s): CHEM 112G, GEOL 360, GEOL 399.

GEOL 470. Structural Geology
3 Credits (2+3P)
Deformation of rocks of the earth. Prerequisite: GEOL 310

GEOL 471. Volcanology
3 Credits
Identification and interpretation of volcanic deposits (including air fall, ash flow tuffs, surges, lava flows), with focus on how the characteristics of these deposits can reveal eruption styles and eruption dynamics. Other topics covered include: magma migration and storage, volcanic hazards, volcano monitoring and volcanoes and climate. Crosslisted with: GEOL 571.
Prerequisite(s): GEOL 399.

GEOL 475. Geology of Mineral Resources
3 Credits (2+3P)
Introduction to ore deposits and industrial rocks and minerals; genesis, mining methods, estimation of reserves, exploration, and economic aspects of selected commodities.
Prerequisite: GEOL 399.

GEOL 477. Special Problems
1-3 Credits
Selected advanced topics of current interest or importance. May be repeated for a total of 6 credits.
Prerequisite: consent of instructor.

GEOL 478. Petroleum Systems and Stratigraphy
3 Credits (2+3P)
Sedimentation, stratigraphy, depositional environments, and tectonics in relation to the occurrences and exploration of hydrocarbons. Course includes two off-campus field trips. May be repeated up to 3 credits.
Prerequisite(s): GEOL 420.

GEOL 480. Seminar
1-3 Credits
Supervised study of a subject not covered by regular courses. For organized group meetings treating selected advanced topics. May be repeated for a maximum of 6 credits.
Prerequisite: consent of instructor.

GEOL 482. Zuhl Collection Internship
1-3 Credits (1-3)
Applied experience working with the Zuhl Collection of rocks, minerals, fossils, and petrified wood, supervised by the Director of the Zuhl Collection. Activities include tours, display development, research on aspects of the collection, and other work in the museum. May be repeated up to 6 credits. Consent of Instructor required. Restricted to: GEOL majors.

GEOL 490. Field Geology
3 Credits
Mapping, instrumentation, and interpretation of geology in the field.
Prerequisites: either GEOL 420 and GEOL 470.
GEOL 491. Tectonic Evolution of North America
3 Credits
Current ideas regarding the plate-tectonic evolution of North America from Archean through Holocene time, emphasizing the use of regional stratigraphy and structural geology to interpret mountain building, magmatism, and basin development.
Prerequisites: GEOL 111G, GEOL 399, GEOL 420 and GEOL 470.

GEOL 495. Geology Field Camp
4 Credits
Three week intensive summer course. Geologic mapping in a site-based setting, emphasizing spatial relations, cross-section construction, and preparation of geologic reports. Prerequisite: GEOL 490

GEOL 499. Senior Thesis
1-3 Credits
Writing a formal paper describing original geologic research conducted under supervision of a faculty advisor. Restricted to majors.
Prerequisite: consent of instructor.

GEOL 501. Geology Colloquium
1 Credit
Presentations by visiting speakers and graduate students.

GEOL 520. Selected Topics
1-3 Credits
Selected topics in geology. May be repeated for unlimited credit.
Prerequisites: graduate standing and consent of instructor.

GEOL 534. Tectonics of Sedimentary Basins
3 Credits
Origin of sedimentary basins with emphasis on subsidence mechanisms, geometry of basin fill, depositional systems and tectonic setting. Course includes two off-campus field trips. Restricted to: GEOL majors.
Prerequisites: GEOL 420 or equivalent or consent of instructor.

GEOL 537. Topics in Volcanology
3 Credits
A seminar-style class exploring volcanic processes. Course topics vary by semester and include: magmatism and volcanism at different tectonic settings (subduction zones, intraplate) and plumbing systems and eruptions of volcanoes (calderas, monogenetic volcanoes).

GEOL 544. GIS for Geology
3 Credits
Prerequisite(s): GEOL 470 or equivalent.

GEOL 558. Neotectonics
3 Credits
Recognition, measurement, and dating of deformation related to earthquakes in the Quaternary geologic record.

GEOL 562. Analytical Geochemistry
3 Credits
Techniques used to determine the major element, trace element and isotopic composition of rocks and minerals and the determination of mineral structure.

GEOL 565. Isotope Geochemistry
3 Credits
Trace element partitioning and isotope systematics applied to problems in petrology and ore genesis.

GEOL 571. Volcanology
3 Credits
Identification and interpretation of volcanic deposits (including air fall, ash flow tuffs, surges, lava flows), with focus on how the characteristics of these deposits can reveal eruption styles and eruptions dynamics. Other topics covered include: magma migration and storage, volcanic hazards, volcano monitoring and volcanoes and climate. Crosslisted with: GEOL 471.

GEOL 578. Petroleum Systems and Stratigraphy
3 Credits (2+3P)
Sedimentation, stratigraphy, depositional environments and tectonics in relation to the occurrences and exploration of hydrocarbons. Course includes two off-campus field trips.

GEOL 582. Plate Tectonics
3 Credits
Plate tectonics as a fundamental model for geological activity on a dynamic earth. Focuses on plate tectonic theory development and mechanisms, plus modern analogs of ancient processes.

GEOL 585. Geochronology
3 Credits
The principles, analytical methods, and interpretation of the most common geochronologic methods.

GEOL 598. Special Research Programs
1-3 Credits
Investigations into contemporary geological problems. May be repeated for unlimited credit.
Prerequisites: graduate standing and consent of instructor.

GEOL 599. Master's Thesis
15 Credits
Thesis research.

Geology - Bachelor of Science
Concentration: Geological Sciences

The concentration in geological sciences is a broad field of study that prepares students for employment by energy and mineral industries, environmental and water resource companies, federal, state and local governments, as well as service companies that utilize earth resources. Qualified students are also prepared for graduate study in the geological sciences.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

---

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. For students wishing to pursue a technical master's degree, MATH 191G Calculus and Analytic Geometry I and MATH 192G Calculus and Analytic Geometry II are recommended and will satisfy both the Area II and General Education Elective requirements. Students who take MATH 235 Calculus for the Technical Student I and MATH 236 Calculus for the Technical Student II, will need to have an exception made for their degree audit.
3. See the Viewing a Wider World (p. 49) section of the catalog for a full list of courses.
4. May not be taken S/U and a grade of C- or better must be earned.
Elective credit may vary based on Math course selection, second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Students must work closely with their advisors in order to plan programs that allow them to meet all requirements and earn sufficient upper-division credit.

**Concentration: Earth and Environmental Systems**

The concentration in geological sciences provides students with scientific insight as a foundation for careers in environmental earth science, environmental policy and resource management. Qualified students are also prepared for graduate study in these areas. This concentration does not prepare students for graduate study in the geological sciences; these students should follow the curriculum in the Geological Sciences Concentration.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

**Non-Departmental Requirements (in addition to Gen.Ed/VWW) 7**

Select 8 credits from two semesters of a second language (see the section at the bottom of the page)

Select two from the following:

- GOVT 324 | Environmental Policy 3 |
- GOVT 343 | Congress and the Legislative Process 3 |
- GOVT 395 | Law and Society 3 |
- GOVT 399 | New Mexico Law 3 |

**Electives, to bring the total credits to 120** 5

| Total Credits | 120 |

---

1. See the General Education (p. 49) section of the catalog for a full list of courses
2. For any Mathematics course selection students may need to take any prerequisites needed to enter the class(es) first.
3. See the Viewing a Wider World (p. 49) section of the catalog for a full list of courses
4. May not be taken S/U and a grade of C- or better must be earned.
Elective credit may vary based on Math course selection, second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Students must work closely with their advisors in order to plan programs that allow them to meet all requirements and earn sufficient upper-division credit.

**Concentration: Earth Science Education**

The concentration in earth science education is a collaboration between the Department of Geological Sciences and the Department of Curriculum and Instruction in the College of Education. In this option, students earn a Secondary Licensure as well as a BS in Geology, and become qualified to teach the Broad Sciences at the middle and high school levels. Students take one year of graduate classes in the College of Education to complete the Secondary Licensure.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

**Second Language Requirement: (required- see below)**

Select 8 credits from two semesters of a second language (see section at the bottom of the page)

**Electives, to bring the total credits to 120**

13-12

**Total Credits**

120

---

1. See the General Education (p. 49) section of the catalog for a full list of courses.
2. For any Mathematics course selection students may need to take any prerequisites needed to enter the class(es) first.
3. See the Viewing a Wider World (p. 49) section of the catalog for a full list of courses.
4. May not be taken S/U and a grade of C- or better must be earned.
6. Elective credit may vary based on Math course selection, second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Students must work closely with their advisors in order to plan programs that allow them to meet all requirements and earn sufficient upper-division credit.

After completing the BS in Geology, Concentration Earth Science Education, students should apply and be admitted to the Graduate School in the Department of Curriculum and Instruction, and be admitted to the
Teacher Education Program (TEP). For additional details, see the School of Teacher Preparation, Administration and Leadership (p. 651) portion of the NMSU Catalog.

**Secondary Teaching Licensure**

To earn the Secondary Teaching Licensure, students must complete these courses and pass the NMTA Basic Skills, NMTA General Knowledge, and NMTA Content Knowledge Licensure Exams:

</tr>
</tbody>
</table>

**Option 4:**

Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

**Option 5:**

Obtain college certification of completion of two years of a second language at the high school level with a grade of C- or higher in the second-year level.

**Option 6:**

By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

**Option 7:**

By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

**Option 8:**

In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

**Geology - Undergraduate Minor**

A student cannot earn a BS in Geology and also earn a minor in Geology.

Geology - Master of Science

A candidate for a master’s degree must complete a minimum of 30 graduate credits, including a minimum of 6 credits for thesis (GEOL 599 Master’s Thesis). No more than 5 thesis credits may be taken in any one semester. Early selection of a research advisor is encouraged. A thesis proposal must be approved by the advisor and the candidate’s committee before registering for thesis credits. At least 15 credits must be earned in courses numbered 500 or above, and at least 15 credits must be earned in geology. Students are expected to participate in the department’s colloquium each semester. The department offers excellent laboratory facilities for research in mineralogy, igneous petrology, geochemistry, stratigraphy, geochronology, and sedimentology. Available are a large, fully equipped rock preparation laboratory, mineral separation laboratory, plus computer, geochemical and petrographic labs. Major equipment includes a Gemini heavy mineral separation table, X-Ray Fluorescence Spectrometry (XRF), Laser-Induced Breakdown Spectroscopy (LIBS), a class 1000 clean lab, Thermal Ionization Mass Spectrometry (TIMS) and Laser-Ablation Multi-Collector Inductively Coupled Plasma Mass Spectrometry (LA-MC-ICP-MS). The department maintains its own fleet of field vehicles. Also available are computing facilities that include an HP color plotter and GIS system. Financial support is available to graduate students in geology through teaching and research assistantships and scholarships. Inquiries regarding financial aid should be directed to the graduate advisor.

Government

Undergraduate Program Information

The study of government and political science blends the strengths of a liberal arts education while preparing students for a career in their field. Career opportunities can include positions in: federal, state, and local government; public administration and public service; and in public policy analysis.

The government major program calls for a thorough preparation in the study of government as described below with the opportunity for those interested in specific careers to concentrate in one of the subfields:

- American government and politics,
- public law,
- public administration and policy,
- comparative politics,
- political theory and
- international relations.

The department also offers a supplementary major in law and society, which is supportive of law-related careers.

A government minor program involving 18 credits of course work is also offered. A subfield minor or a general minor may be selected. In addition, the department participates in an interdisciplinary minor in Contemporary Social Studies.

Graduate Program Information

The Department of Government offers two degrees:

- the Master of Arts (MA) in government and
- the Master of Public Administration (MPA) and
- a graduate minor in Security Studies.

The programs are designed to prepare students both for diverse careers in the public sector and for further training at the doctoral level. The MPA program is accredited by the Network of Schools of Public Policy, Affairs and Administration (NASPAA), a distinction held by fewer than one-quarter of MPA programs nationwide. The MPA program offers joint degrees

- with the Department of Criminal Justice (MPA/MCJ) and
- with the Department of History (MPA/ MA in Public History).

Students in a joint degree program can earn two master’s degrees with fewer credits than would be required to earn those degrees independently.

Admission

Prospective graduate students in either the MA or MPA should demonstrate a 3.0 grade point average for the second half of their undergraduate course work. For students with a GPA of less than 3.0, GRE scores are required, though this requirement may be waived if the undergraduate degree was awarded more than five years before applying. Applicants to either program are required to submit an application online. See instructions at: [http://prospective.nmsu.edu/graduate/apply/index.html](http://prospective.nmsu.edu/graduate/apply/index.html). Applications include three letters of recommendation, a writing sample, and a personal statement concerning their interest in pursuing a graduate degree. Additional information concerning program requirements and the admission process can be obtained from either the department's MA chair or MPA director. Under exceptional circumstances the department may exempt students from the minimal requirements. Application for admission to the Graduate School should clearly indicate the program in which the student wishes to enroll. Applications for admission to the MPA program are reviewed twice a year, once in the Fall semester and once in the Spring semester.

Students interested in a joint degree option must apply and be accepted in to the two departments separately, and indicate their interest on their applications in one of the joint degree programs.

General Requirements

Students in both the MA and MPA programs select either a thesis or non-thesis option. Students planning on continuing their studies in a doctoral program or wishing to establish expertise related to a specific career objective are strongly encouraged to select the thesis option. The non-thesis option is suggested for students desiring immediate employment or seeking to enhance their current employment situations. Course work outside the department must have prior advisor approval to ensure a well-integrated program of study. Complete information on the requirements for either program should be obtained directly from the department. Most MA and MPA courses are offered in the evening.
Minors

The Department of Government offers a general undergraduate Government minor and specialized subfield minors. In addition, the department participates in an interdisciplinary minor in Contemporary Social Studies with History and other departments.

A student cannot earn both a B.A. in Government and a general minor in Government. Government majors may pursue a subfield minor in the department, however, they cannot double count any upper division courses in Government toward the minor.

Degrees for the Department

Government - Bachelor of Arts (p. 404)

Law and Society - Supplemental Major (p. 407)

Government - Master of Arts (p. 407)

Public Administration - Master of Public Administration (p. 408)

MPA-MCJ Program - Dual Degree (p. 408)

MPA-MA Public History Program - Dual Degree (p. 408)

Minors for the Department

American Government and Politics - Undergraduate Minor (p. 405)

Comparative Politics - Undergraduate Minor (p. 405)

International Relations - Undergraduate Minor (p. 406)

Political Theory - Undergraduate Minor (p. 406)

Public Administration - Undergraduate Minor (p. 406)

Public Law - Undergraduate Minor (p. 407)

Government - Undergraduate Minor (p. 406)

Security Studies - Graduate Minor (p. 408)

Professor, Neil Harvey, Department Head

Professors Butler, Harvey, Slaton; Associate Professors Conner, Medina, Rosendorf; Assistant Professors Hirschauer, Kang; College Professor Seckler; Emeritus Professors Baker, Lapid, Taggart, Winn Emeritus P. Hynes

Minors

American politics, American political thought, university and community engagement, public administration, conflict resolution; W. Taggart, (emeritus) Ph.D., (Florida State) – public administration, public policy, American politics; R. G. Winn, (emeritus), Ph.D., (Arizona State) – public administration, policy analysis, environmental policy

Government Courses

GOVT 100G. American National Government
3 Credits
Class critically explores political institutions and processes including: the U.S. constitutional system; legislative, executive and judicial processes; political parties, elections, media, policy making, civic participation, popular and group influence

GOVT 101. Introductory Government Seminar
1 Credit
Introduction to the government major. Designed to assist students in planning college experience and preparing for professional or advanced educational opportunities upon graduation. Graded: S/U. Restricted to: Main campus only.

GOVT 110G. Introduction to Political Science
3 Credits
This class covers fundamental concepts such as justice, sovereignty and power; political theories and ideologies; and government systems that range from democratic to authoritarian.

GOVT 150G. American Political Issues
3 Credits
Major contemporary problems of American society and their political implications.

GOVT 160G. International Political Issues
3 Credits
Current developments and issues in world politics.

GOVT 201. Special Topics
3 Credits
Specific topics to be announced in Schedule of Classes. Community Colleges only. May be repeated for a maximum of 12 credits.

GOVT 300. Political Research Skills
3 Credits
Introduction to methods of political analysis and fundamentals of research design, including basic methods for the collection and analysis of political data.

GOVT 308. Preparing for Law School Admissions Test
1 Credit
This workshop helps students prepare to take the Law School Admissions Test and apply for law school. Graded: S/U.

GOVT 313. Model United Nations
3 Credits
Issues related to the United Nations and international law/organizations through simulations, discussions and research projects. Prerequisites: GPA of 2.5 or better and consent of instructor.

GOVT 314. Advanced Model UN
3 Credits
Advanced topics, research and preparation for Model United Nations activities. Consent of instructor required. Restricted to: Main campus only. Prerequisite(s): GOVT 313, minimum GPA 2.5.
GOVT 315. Politics and Film
3 Credits
Exploration of political themes, images, and representation in film and other media. May be repeated for a maximum of 6 credits under different subtitles.

GOVT 320. Domestic Policy
3 Credits
The course examines how U.S. public policy is made, including the players, politics, issues and power critical to the policy process. An interactive class that bridges theory and political action. Restricted to: Main campus only.

GOVT 321. Topics in Public Policy
3 Credits
Course examines issues in public policy. May be repeated under different subtitles.

GOVT 324. Environmental Policy
3 Credits
This introductory course explores environmental policy issues. Students study perspectives of policy-makers, political activists and policy analysts, and apply policy models to solve pressing environmental problems. Focus may be on U.S. or global concerns.

GOVT 325. Education Policy and Politics
3 Credits
Overview of current pressing policy issues and political debates on education in the U.S., including school choice, vouchers, accountability, and affirmative action. Multiple topics and perspectives covered, with political economy as the main approach.

GOVT 330. Introduction to Public Administration
3 Credits
What is public administration? Course examines public service, focusing on federal and state government. Issues include management and leadership, personnel, bureaucratic politics, organizational theory, personnel, budgeting and administrative law. Restricted to: Main campus only.

GOVT 331. Special Topics in Public Administration
3 Credits
Special topics in public administration. May be repeated for a maximum of 6 credits under different subtitles.

GOVT 335. Management of Nonprofit Organizations
3 Credits
This course provides an overview of a range of nonprofit management concerns and practices. Students will be challenged to assess their own theories of nonprofit accountability and excellence, while confronting critical issues facing the sector. Activities are designed to expand the management skills of students by offering analytical tools and knowledge, and providing opportunities to test the application of these skills.

GOVT 343. Congress and the Legislative Process
3 Credits
This class reviews the history, structure, membership, operation, power and culture of the American Congress. Restricted to: Main campus only.

GOVT 344. The American Presidency
3 Credits
A comprehensive overview of the U.S. presidency, including powers, electoral politics, decision-making styles, domestic and foreign policy, and relations with Congress, courts, media and interest groups.

GOVT 345. The Supreme Court
3 Credits
This class studies the history and operation of the Supreme Court, as well as landmark cases that have shaped American government and the Court.

GOVT 348. Political Parties and Interest Groups
3 Credits
Organization, principles, and functions of political parties and interest groups in the U.S.

GOVT 350. Special Topics in American Government
3 Credits
Special topics in American government. May be repeated for a maximum of 6 credits under different subtitles.

GOVT 353. Women, Politics and Administration
3 Credits
An examination of women's participation in U.S. electoral politics as voters, candidates, and officeholders; political activism in issue-based movements and strategies for affecting public policy; leadership as administrators and managers in public service agencies. Also explores the influence of feminism in changing women's roles socially, legally, and politically. Crosslisted with: W S 453

GOVT 354. American Indian Politics
3 Credits
Introduction to American Indian tribal governments, politics, policy, and administration; historical and contemporary leadership of Indian Nations; and the history and current status of American Indian-U.S. relations. Students learn about Native peoples' cultural responses, forms of resistance, and adaptations to colonization. Restricted to: Main campus only.

GOVT 360. International Relations
3 Credits
Introduction to world politics; fundamental international issues and problems.

GOVT 361. Special Topics in International Relations
3 Credits
Course examines contemporary issues in international relations. May be repeated under different subtitles.

GOVT 362. International Political Economy
3 Credits
Political factors in international economic relations; theories of political economy.

GOVT 366. American Foreign Policy
3 Credits
Formulation, content and rationale of current foreign policies of the U.S.

GOVT 367. Terrorism
3 Credits
An introductory course using an interdisciplinary framework to explore definitions, historical roots, contemporary manifestations and future trends in political terrorism.

GOVT 370. Comparative Politics
3 Credits
Introduction to functional approaches to comparing similarities and differences among political systems.

GOVT 371. Latin American Politics
3 Credits
Basic structure of politics in major Latin American countries; role of groups, including church, labor, and parties.
GOVT 372. Special Topics in Comparative Politics  
3 Credits  
Course examines contemporary issues in comparative politics. May be repeated under different subtitles. Restricted to: Main campus only.

GOVT 373. Resistance Movements in World Politics  
3 Credits  
Research on violent and non-violent resistance movements around the world. Focus on their origins, demands, ideologies, strategies, and impacts in the post-Cold War context of economic globalization, US military power and new geopolitical dynamics.

GOVT 375. Self Determination and Minority Rights  
3 Credits  
Comparative study of ethnic relations, minority rights, identity, citizenship, and political representation.

GOVT 378. U.S.-Mexico Border Politics  
3 Credits  
Comparative perspectives applied to the problems of the U.S.-Mexican border.

GOVT 379. Mexican Politics  
3 Credits  
Introduction to the politics and government of contemporary Mexico.

GOVT 380V. Contemporary World Political Ideologies  
3 Credits  
Introduction to the prevailing political ideologies in the modern world and the ways in which modern nations operating under one or more of these ideologies attempt to answer fundamental questions about the allocation and distribution of rights, liberties, and other things of value. In addition, the course work and discussions attempt to address recent political, social, and economic events in various areas of the world.

GOVT 382. Classical Political Thought  
3 Credits  
Analysis of main currents in political thought from ancient Greece and Rome to the high Middle Ages.

GOVT 383. Modern Political Thought  
3 Credits  
Historical and theoretical examination of political ideas and ideologies from Machiavelli to Nietzsche. Topics include liberalism, conservatism, romanticism, communism, and nihilism.

GOVT 384. Contemporary Political Thought  
3 Credits  
Examination of major currents in political theory from early twentieth century to the present. Includes positivism, fascism, neo-liberalism, and varieties of postmodernism.

GOVT 385. American Political Thought  
3 Credits  
Introduction to major American thinkers and historical currents from colonial time to the present.

GOVT 386. Political Economy  
3 Credits  
Analysis of political ideas concerning the role of the state in management of national economies, in both European and American contexts.

GOVT 387. Religion and Politics  
3 Credits  
Survey of major points of interaction between politics and religion in the U.S., using theoretical, historical, and institutional analysis.
GOVT 411. Service Learning Experience
3 Credits
Experiential learning through a community service project. May be subtitled to reflect service activity. May be repeated for a total of 6 credits; only 3 credits apply toward government major or minor requirements.
Prerequisite(s): completion of 12 government credits, junior or above standing, and consent of instructor.
GOVT 412. Practicum in Student Government
3 Credits
Research of issues in student government. Consent of instructor required. Graded: S/U.
Prerequisite(s): Student government participation, completion of 12 GOVT credits, junior or senior standing.
GOVT 415. Senior Seminar
2 Credits
Review and integration of political skills acquired in the Government Department. Students will prepare a professional portfolio for entry into the workforce, advanced study, and civic participation. S/U Grading (S/U, Audit).
GOVT 468. Rebels, Guerrillas, and Terrorists in Modern Latin America
3 Credits
Explores history of rebels in Latin America. Examines guerrilla struggles attaining national dimension. Focus on modern events, including Peru’s Shining Path, Columbia’s FARC, and Mexico’s Zapatistas. Same as HIST 331.
GOVT 469. Globalization
3 Credits
Analysis of the globalization process. Covers theories of globalization, the global economy, political globalization, global culture, transnational social movements, transnational migration and world labor market, global cities, and local-global linkages. Same as SOC 489.
GOVT 474. European Politics
3 Credits
Politics in European countries, European integration, post-communist states, regionalism and border politics.
GOVT 493. Mass Communications Law
3 Credits
Same as JOUR 493 and COMM 493.
GOVT 502. Research Methods in Government
3 Credits
Contemporary methods of political analysis, including mathematical and statistical techniques and computer applications. MPA students must complete this class with a B- or better. MA students must complete either GOVT 502 or GOVT 503 with a B- or better.
GOVT 503. Qualitative Research Methods
3 Credits
An overview of qualitative research methods such as fieldwork, ethnography, content analysis, case studies, focus groups and grounded theory. Introduces students to epistemology (the study of knowledge) and to basic components of research design. Explores activist scholarship, ethical dilemmas in research, and software tools for computer assisted analysis. Especially useful for students preparing theses, dissertation, or other research projects. MA students must complete either GOVT 503 or GOVT 502 with a B- or better.
GOVT 505. Directed Readings
1-3 Credits
Selected topics in government. May be repeated for a total of 6 credits.
Prerequisite: consent of instructor.
GOVT 510. Internship
1-6 Credits
Assignment with a public agency and research report. Only 3 credits apply toward degree requirements. Graded S/U.
Prerequisite: approval of graduate advisor.
GOVT 517. Selected Topics in Government
3 Credits
Selected issues which may cross sub-fields of the discipline. May be repeated for a total of 6 credits.
GOVT 519. Proseminar in Public Administration
3 Credits
Review of classic and contemporary theory and practice in public administration. Application of written and oral skills to the presentation and defense of essays on various aspects of public administration. To be completed with a B- or better.
Prerequisite(s): 30 credits of M.P.A.
GOVT 522. Public Sector Economics I
3 Credits
Same as AE 522.
GOVT 523. Public Sector Economics II
3 Credits
Same as AE 523.
GOVT 527. Issues in Public Management
3 Credits
Selected issues in public management. May be repeated under different subtitles for a total of 6 credits.
GOVT 530. Seminar in Public Policy
3 Credits
Survey of the political, administrative, and technical aspects of policy making in government. MA students taking GOVT 530 as part of their core requirements must complete the class with a B- or better.
GOVT 535. Education Policy and Politics
3 Credits
Overview of current pressing policy issues and political debates on education in the U.S., including school choice, vouchers, accountability, and affirmative action. Multiple topics and perspectives covered, with political economy the main approach.
