## SOIL SCIENCE (SOILS) -BACHELOR OF SCIENCE IN AGRICULTURE

Soil scientists investigate the physical, chemical and biological characteristics and behavior of soils, their description and classification, and their management for both agricultural and non-agricultural uses. Career opportunities include: industry jobs; environmental consulting firms; and federal, state and local government careers working on various environmental, agricultural and ecological projects.

Crop production and plant growth are emphasized in the soils concentration. Soil management, soil conservation, and soil reclamation are related to plant growth for those students interested in both private industry and government employment opportunities as well as farm management.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework. In addition to the courses listed for each major, you must take 35 credits in the College of Agricultural, Consumer and Environmental Sciences and at least 24 credits of soil science related courses with a grade of C- or above including:

Prefix	Title	Credits
General Education		
Area I: Communication	S	
English Composition - Level 1 <sup>1</sup>		
English Composition - Level 2		
ENGL 2210G	Professional and Technical Communication Honors	3
Oral Communication <sup>1</sup>		3
Area II: Mathematics		
Choose from one of th	ne following:	3-4
MATH 1430G	Applications of Calculus I <sup>2</sup>	
MATH 1511G	Calculus and Analytic Geometry I <sup>2</sup>	
Area III/IV: Laboratory Science and Social/Behavioral Sciences		11
CHEM 1215G	General Chemistry I Lecture and Laboratory for STEM Majors	
CHEM 1225G	General Chemistry II Lecture and Laboratory for STEM Majors	
Area IV: Social & Behavioral Sciences Course (3 credits) <sup>1</sup>		
Area V: Humanities <sup>1</sup>		3
Area VI: Creative and Fine Arts <sup>1</sup>		3
General Education Elec	tive	
GEOL 1110G	Physical Geology	4
Viewing A Wider World <sup>3</sup>		6
Departmental/College	Requirements	24
SOIL 2110 & 2110L	Introduction to Soil Science and Introduction to Soil Science Laboratory	
SOIL 312 & 312 L	Soil Management and Fertility and Soil Management and Fertility Lab	
SOIL 447	Seminar	
Choose 15 credits	of SOIL Courses (300-level or above)

See the General Education (https://catalogs.nmsu.edu/nmsu/generaleducation-viewing-wider-world/) section of the catalog for a full list of courses

- <sup>2</sup> MATH 1430G Applications of Calculus I or MATH 1511G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites to enter either course first.
- <sup>3</sup> See the Viewing a Wider World (https://catalogs.nmsu.edu/nmsu/ general-education-viewing-wider-world/#viewingawiderworldtext) section of the catalog for a full list of courses
- <sup>4</sup> Please see your academic advisor for a list of appropriate courses to satisfy the concentration coursework requirements.
- <sup>5</sup> Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However, students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

## A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 1220G College Algebra and ENGL 1110G Composition I. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

First Year			
Semester 1		Credits	
MATH 1220G	College Algebra <sup>1</sup>	3	
ACOM 1130G	Effective Leadership and Communication in Agriculture	3	
GEOL 1110G	Physical Geology	4	
ACES 1120	Freshman Orientation	1	
ACES 1210	Financial Fitness for College Students	1
