ANTHROPOLOGY - BACHELOR OF ARTS

The field of anthropology provides a broadly based education in the social and biological sciences. Undergraduate anthropology majors develop an understanding of human diversity that will benefit them in a wide variety of careers. They have particular advantage in positions that require contact with different cultures and ethnic groups or with large organizations that provide human services.

Students intending to become professional anthropologists pursue careers in teaching, archaeological research, museums, public and private cultural resource management, international development and business, human services and health care, forensic sciences, urban planning, agricultural development, and administration. While anthropology is a traditional academic discipline, it also has become an applied profession.

Today, many anthropologists hold important positions in government, business, public policy organizations, and health professions. Anthropology's broad perspective on human diversity and intercultural relations provides students with valuable professional skills. NMSU anthropologists are committed to teaching practical knowledge and useful skills that will contribute to students' career goals and to their intellectual development.

Requirements

The BA in Anthropology requires 36 credits, 15 in upper division core courses (ANTH 301 Cultural Anthropology, ANTH 315 Introduction to Archaeology, ANTH 355 Biological Anthropology, ANTH 350 Anthropological Theory, and ANTH 399 Professionalism & Practice in Anthropology).
