

CHEMISTRY (SECONDARY EDUCATION) - BACHELOR OF SCIENCE

The Bachelor of Science curriculum is designed to provide an in-depth curriculum in chemistry, physics, and mathematics and is certified by the American Chemical Society. The Secondary Education concentration curriculum prepares high-quality teachers for public schools and leads to a Minor in Secondary Education which leads to the New Mexico–Initial Teaching License, Secondary General Science Education (Grades 6-12). All departmental and nondepartmental requirements must earn a C- or better final grade or an S if the course is designated for S/U grading.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Note: Students should work closely with their advisors and review carefully the prerequisites for and the sequential nature of courses required for the Bachelor of Science.

¹ See the General Education (<https://catalogs.nmsu.edu/nmsu/general-education-viewing-wider-world/>) section of the catalog for a full list of courses

² MATH 1511G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 1511G first.

³ CHEM 1216 General Chemistry I Lecture and Laboratory for CHEM Majors and CHEM 1226 General Chemistry II Lecture and Laboratory for CHEM Majors is highly recommended for B.S. Chemistry majors and are acceptable General Education substitutions for CHEM 1215G General Chemistry I Lecture and Laboratory for STEM Majors and CHEM 1225G General Chemistry II Lecture and Laboratory for STEM Majors but will need a degree audit exception that can be coordinated with your advisor.

⁴ See the Viewing a Wider World (<https://catalogs.nmsu.edu/nmsu/general-education-viewing-wider-world/#viewingawiderworldtext>) section of the catalog for a full list of courses. VWW 3-credit Upper-division rule can be met with Secondary Education Minor.

⁵ The Upper Division Chemistry elective must be a CHEM course and the requirement can be satisfied by one 3-credit course or three 1-credit courses.

⁶ Requires Teacher Education Program (TEP) admittance

⁷ Requires application for Student Teaching Entrance (STEP)

⁸ Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in

the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.

Second Language Requirement

For the Bachelor of Science with a major in Chemistry there is no second language requirement for the degree.
