COMPUTER SCIENCE (CYBERSECURITY) -BACHELOR OF SCIENCE

The Bachelor of Science in Computer Science is the traditional undergraduate degree in Computer Science. It is rigorously focused on educating the student in the fundamental disciplines of Computer Science. It prepares the student for any technological field in industry, and also provides the preparation for graduate studies in Computer Science. It is the main undergraduate degree in the Computer Science department, and should be the choice of a single-major Computer Science student. This degree is accredited by the ABET Computing Accreditation Commission (CAC) under the General and Computer Science Program Criteria (through 9/30/2022).

General Requirements Exception

A grade of at least C- must be earned in each of the courses taken to satisfy the departmental and non-departmental requirements. No course may be counted as satisfying both a departmental and a non-departmental requirement. No course taken to satisfy either a departmental or a non-departmental requirement may be taken S/U.

Requirements

Students who plan to seek employment at the bachelor level are advised to take one of the concentration area curricula in addition to the general and departmental requirements. An elective course cannot be used for more than two focuses. A course that is required for one concentration cannot be used as an elective course of another one.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Prefix	Title	Credits		
General Education Requirement				
Area I: Communications	s ¹			
English Composition - L	4			
English Composition - L	evel 2			
ENGL 2210G	Professional and Technical Communication Honors	3		
Oral Communication				
Choose one from the f	3			
COMM 1115G	Introduction to Communication			
COMM 1130G	Public Speaking			
HNRS 2175G	Introduction to Communication Honors			
Area II: Mathematics				
MATH 1511G	Calculus and Analytic Geometry I ³	4		
Area III/IV: Laboratory S	Sciences and Social/Behavioral Sciences	11		
Area III: Laboratory	Sciences			
Choose two differe	nt courses from the following:			
ASTR 1115G	Introduction to Astronomy Lecture & Laboratory			

	BIOL 2610G & BIOL 2610L	Principles of Biology: Biodiversity, Ecology, and Evolution and Principles of Biology: Biodiversity, Ecology,	
		and Evolution Laboratory	
	BIOL 2110G	Principles of Biology: Cellular and Molecular Biology	
	BIOL 2110L	Principles of Biology: Cellular and Molecular Biology Laboratory	
	CHEM 1215G	General Chemistry I Lecture and Laboratory for STEM Majors	
	CHEM 1225G	General Chemistry II Lecture and Laboratory for STEM Majors	
	GEOG 1110G	Physical Geography	
	GEOL 1110G	Physical Geology	
	HNRS 2116G	Earth, Time and Life	
	PHYS 1230G & PHYS 1230L	Algebra-Based Physics I and Algebra-Based Physics I Lab	
	PHYS 1240G & PHYS 1240L	Algebra-Based Physics II and Algebra-Based Physics II Lab	
	PHYS 1310G & PHYS 1310L	Calculus -Based Physics I and Calculus -Based Physics I Lab	
	PHYS 1320G & PHYS 1320L	Calculus -Based Physics II and Calculus -Based Physics II Lab

Total Credits		120

- ¹ Students with Area I transfer credits may sometimes complete this requirement with 9 credits
- See the General Education (https://catalogs.nmsu.edu/nmsu/general-education-viewing-wider-world/) section of the catalog for a full list of courses
- MATH 1511G Calculus and Analytic Geometry I and MATH 1521G Calculus and Analytic Geometry II are required for the degree but students may need to take any prerequisites needed to enter MATH 1511G or MATH 1521G first.
- See the Viewing a Wider World (https://catalogs.nmsu.edu/nmsu/ general-education-viewing-wider-world/#viewingawiderworldtext) section of the catalog for a full list of courses.
- 5 A course can satisfy only one requirement.
- ⁶ Must be taken for 3 credits to count as a course.
- Elective credit may vary based on prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their advisor.
