## PHYSICS - BACHELOR OF ARTS

The curriculum for the Bachelor of Arts degree is designed for students who would like to have a firm foundation in physics combined with study in another area and greater flexibility in choosing elective courses. The program requires a minor in a second field of study chosen by the student in consultation with an advisor. A second major may be used to satisfy the program requirement for a minor.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

- <sup>1</sup> See the General Education (https://catalogs.nmsu.edu/nmsu/generaleducation-viewing-wider-world/) section of the catalog for a full list of courses.
- <sup>2</sup> MATH 1511G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 1511G first.
- <sup>3</sup> See alternatives for meeting General Education requirements.
- <sup>4</sup> See the Viewing a Wider World (https://catalogs.nmsu.edu/nmsu/ general-education-viewing-wider-world/#viewingawiderworldtext) section of the catalog for a full list of courses
- <sup>5</sup> May not be taken S/U and must earn a grade of C- or better.
- <sup>6</sup> Elective credit may vary based on General Education course selection, second language requirements, prerequisites, dual credit, AP credit, double majors, and/or minor coursework. The amount indicated in the requirements list is the amount needed to bring the total to 120 credits and may appear in variable form based on the degree. However students may end up needing to complete more or less on a case-by-case basis and students should discuss elective requirements with their Physics Advisor.

#### **Second Language Requirement**

For the Bachelor of Arts in Physics there is a one year second language requirement, the options to complete this requirement are listed below. The number of credits that a student needs to take may vary depending on what level they come in with. Please speak with an advisor for more information as to which courses you will need to take to fulfill the second language requirement for this degree.

Option 1:		
Prefix	Title	Credits
Complete one of the fe	ollowing sequences:	
FREN 1110 & FREN 1120	French I and French II	8
GRMN 1110 & GRMN 1120	German I and German II	8
JAPN 1110 & JAPN 1120	Japanese I and Japanese II	8
SPAN 1110 & SPAN 1120	Spanish I and Spanish II	8
For Heritage Speakers:		
SPAN 1220	Spanish for Heritage Learners II	3
or SPAN 2210	Spanish for Heritage Learners III	
PORT 1110 or PORT 1120	Portuguese I Portuguese II	3
Option 2:

PORT 1110	Portuguese I	3
or PORT 1120	Portuguese II	
or SPAN 1220	Spanish for Heritage Learners II	
or SPAN 2210	Spanish for Heritage Learners III	

#### **Option 4:**

Pass a three-credit, upper-division course (numbered 300 or above) taught in a second language by the department of Languages and Linguistics.

#### **Option 5:**

Obtain college certification of completion of two years of a second language at the high school level with a grade of C- or higher in the second-year level.

#### **Option 6:**

By obtaining certification of a working knowledge of a Native American language from the American Indian program director.

#### Option 7:

By obtaining, from the head of the Department of Languages and Linguistics, certification of a working knowledge of a second language if such language is not taught at NMSU.

#### **Option 8:**

In the case of a foreign student who is required to take the TOEFL exam admission, the dean will automatically waive the second language requirement.

# Suggested Minors for the Bachelor of Arts Physics Major

**Astronomy Minor**— A Bachelor of Arts in Physics with a minor in Astronomy provides an excellent preparation for students who wish to pursue graduate studies in Astrophysics or Astronomy.

**Pre-Medicine Studies Minor**— Students wishing to attend a medical or dental post-graduate school are strongly encouraged to obtain a minor in a life science field such as biochemistry, biology, human biology or microbiology.

**Prelaw Minor**— Students wishing to attend a post-graduate law school should obtain a minor in a law-related field, such as government, accounting, finance, or international business.

### A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 1511G Calculus and Analytic Geometry I and ENGL 1110G Composition I. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change. Full-time students are usually required to take at least 15 credits per semester.
