# ELECTRICAL ENGINEERING (COMMUNICATIONS AND SIGNAL PROCESSING) -BACHELOR OF SCIENCE IN ELECTRICAL ENGINEERING

### **Overview**

The Bachelor of Science in Electrical Engineering (B.S. EE) program of the Klipsch School is accredited by the Engineering Accreditation Commission of ABET, Inc. This particular concentration in the B.S. EE program gives students the opportunity to explore more deeply the area of **communications and signal processing**.

### **Electrical Engineering Program Educational Objectives**

Below are the program educational objectives (PEOs) that describe the expected accomplishments of graduate during their first few years after graduation.

- 1. Our graduates will obtain relevant, productive employment in the private sector, government and/or pursue an advanced degree.
- 2. Our graduates will be using their engineering foundation to innovate solutions to the problems of the real world.

#### Requirements (123-125 credits)

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 123 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

BSEE students must earn a grade of C- or better in all engineering, technology, math and science courses (including associated prerequisite courses) required for the degree and also courses taken to satisfy the general education requirements for Area I-Communications, Area II-Mathematics, and Area III-Laboratory Sciences. If a grade lower than C- is earned in any of these courses, the student is required to retake the course immediately the next semester it is offered. Students who earn a grade less than a C- the first time will be contacted by the department and/or academic advising center and advised about this policy and resources to help in their academic success. If the student fails to achieve a C- or better in any of these courses a second time, then the student must submit a written request to the Associate Dean of Academics in the College of Engineering to enroll in the course a third time. The student should explain the circumstances impacting their grade and the actions planned to improve their performance.

| Prefix                | Title                | Credits |

|                                              |                                            |         |

See the General Education (https://catalogs.nmsu.edu/nmsu/generaleducation-viewing-wider-world/) section of the catalog for a full list of courses.

<sup>2</sup> MATH 1511G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 1511G Calculus and Analytic Geometry I first.

- <sup>3</sup> See the Viewing a Wider World (https://catalogs.nmsu.edu/nmsu/ general-education-viewing-wider-world/#viewingawiderworldtext) section of the catalog for a full list of courses.
- <sup>4</sup> STEM Elective: Course at the 300 level or above from E E that is not used to satisfy any other E E program requirement or courses at the 300 level or above from A E, C E, CHME, I E, M E, ASTR, BIOL, CHEM, C S, MATH, PHYS and STAT. Excluded courses include VWW courses and those which are substantially equivalent to an E E course. Click to view a list of excluded STEM Electives (https://ece.nmsu.edu/undergradstudy/BSEE-STEM-electives.html).
- <sup>5</sup> The prerequisite for ENGR 401 Engineering Capstone I for BSEE students is E E 300 Cornerstone Design.
- <sup>b</sup> Students must take both E E 395 Introduction to Digital Signal Processing and E E 496 Introduction to Communication Systems, both of which are currently offered in the Fall semester.
- <sup>7</sup> Some of these elective courses may have additional prerequisites.
- <sup>8</sup> Students may count C S 453 Python Programming I toward their Programming Elective or toward their E E Concentration Electives, but may not use the course to count toward both.
- <sup>9</sup> Only one of the 100-level xor the 400-level course may be taken to satisfy degree requirements. Students may not take the 100-level of a

course to satisfy the programming elective requirement and the 400level of the same course to satisfy other degree requirements.

## A Suggested Plan of Study for Students

This roadmap assumes student placement in MATH 1511G Calculus and Analytic Geometry I and ENGL 1110G. The contents and order of this roadmap may vary depending on initial student placement in mathematics and English. It is only a suggested plan of study for students and is not intended as a contract. Course availability may vary from fall to spring semester and may be subject to modification or change.

<sup>1</sup> MATH 1511G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 1511G Calculus and Analytic Geometry I first.

- <sup>2</sup> See the General Education and Viewing a Wider World (https:// catalogs.nmsu.edu/nmsu/general-education-viewing-wider-world/) section of the catalog for a full list of courses.
- <sup>3</sup> Students must take both E E 395 Introduction to Digital Signal Processing and E E 496 Introduction to Communication Systems, both of which are currently offered in the Fall semester.
- <sup>4</sup> STEM Elective: Course at the 300 level or above from E E that is not used to satisfy any other E E program requirement or courses at the 300 level or above from A E, C E, CHME, I E, M E, ASTR, BIOL, CHEM, C S, MATH, PHYS and STAT. Excluded courses include VWW courses and those which are substantially equivalent to an E E course. Click to view a list of excluded STEM Electives (https://ece.nmsu.edu/undergradstudy/BSEE-STEM-electives.html).
- <sup>5</sup> Depending on availability of specific courses in the fall or spring semester, students may need to reorganize the ECE Electives, STEM electives, and/or Gen Ed/VWW electives in their final year. Students are strongly advised to consult with their ECE Faculty Mentor for assistance in planning their final year.
- <sup>6</sup> At least one Communications & Signal Processing Elective must be from the E E Prefix. See E E Concentration Electives in the Degree Requirements section above.
