## ENGINEERING PHYSICS (MECHANICAL ENGINEERING) - BACHELOR OF SCIENCE IN ENGINEERING PHYSICS

A strong grasp of underlying physical principles behind the development of new technologies is necessary to keep up with new developments in a high-tech world. The Bachelor of Science (B.S.) in Engineering Physics program is designed to provide quality education to students for immediate employment with technical jobs in private industries (especially high-tech industries), research laboratories and public sectors. The program trains students with a combination of engineering knowledge, physics principles, mathematical background, problem-solving strategies and effective communication skills. The B.S. in Engineering Physics also provides an excellent preparation for graduate studies in either physics or an engineering discipline.

The requirements for the Mechanical concentration are listed below. Students must earn a C- or better in all required courses.

Students must complete all University degree requirements, which include: General Education requirements, Viewing a Wider World requirements, and elective credits to total at least 120 credits with 48 credits in courses numbered 300 or above. Developmental coursework will not count towards the degree requirements and/or elective credits, but may be needed in order to take the necessary English and Mathematics coursework.

Prefix	Title	Credits
General Education		
Area I: Communication	os	
English Composition -	Level 1	
ENGL 1110G	Composition I	4
English Composition -	Level 2 <sup>1</sup>	3
Oral Communication <sup>1</sup>		3
Area II: Mathematics		
MATH 1511G	Calculus and Analytic Geometry I <sup>2</sup>	4
Area III/IV: Laboratory	Sciences and Social/Behavioral Sciences	11
Select one seugen	ce from the following for four credits:	
PHYS 1310G & PHYS 1310L	Calculus -Based Physics I and Calculus -Based Physics I Lab	
PHYS 2110 & 2110L	Mechanics and Experimental Mechanics <sup>3</sup>	
Select one seugen	ice from the following for four credits:	
PHYS 1320G & PHYS 1320L	Calculus -Based Physics II and Calculus -Based Physics II Lab	
PHYS 2140 & 2140L	Electricity and Magnetism and Electricity & Magnetism Laboratory <sup>3</sup>	
Area IV: Social and	Behavioral Sciences (3 credits) 1	
Area V: Humanities <sup>1</sup>		3
Area VI: Creative and F	ine Arts <sup>1</sup>	3
General Education Elec	ctive	
MATH 1521G	Calculus and Analytic Geometry II	4
or MATH 1521H	Calculus and Analytic Geometry II Honors	
Viewing A Wider Worl	d	
Viewing a Wider Worl	d Electives <sup>4</sup>	6

Program Specific Requirements

- See the General Education (https://catalogs.nmsu.edu/nmsu/generaleducation-viewing-wider-world/) section of the catalog for a full list of courses.
- MATH 1511G Calculus and Analytic Geometry I is required for the degree but students may need to take any prerequisites needed to enter MATH 1511G Calculus and Analytic Geometry I first.
- PHYS 2110 Mechanics/PHYS 2110L Experimental Mechanics and PHYS 2140 Electricity and Magnetism/PHYS 2140L Electricity & Magnetism Laboratory will not automatically count towards the Area III: Laboratory Science requirement, an exception will be made if students elect to take these courses.
- See the Viewing a Wider World (https://catalogs.nmsu.edu/nmsu/ general-education-viewing-wider-world/) section of the catalog for a full list of courses. See Alternatives for meeting VWW requirements (ninecredit rule).
- Approved technical electives are decided by Engineering Physics Advisors.
