

NURSING PRACTICE (NURSE ANESTHESIOLOGY) - DOCTOR OF NURSING PRACTICE

The Doctor of Nursing Practice (DNP) degree concentration in Nurse Anesthesiology focuses on rural health and health disparities. Graduates will be qualified to take the national certification exam administered by the National Boards of Certification and Recertification of Nurse Anesthetists to become a certified registered nurse anesthetists (CRNA). In addition to the DNP core courses and nurse anesthesiology didactic course, CRNAs complete over 2000 hours of supervised clinical training. New Mexico's hospitals have a critical need for anesthesia providers throughout the state due to nation-wide shortages and difficulty recruiting providers, especially to rural healthcare centers. Without anesthesia providers, surgeries and some medical procedures cannot take place. And in all of the rural hospitals in new Mexico, CRNAs are the only anesthesia providers.

The Nurse Anesthesiology program has been developed to address this critical workforce need in the state. Qualified New Mexico applicants will be prioritized for admission.

For application information, visit the School of Nursing website (<https://schoolofnursing.nmsu.edu/>) or contact the Nursing Graduate Advisor for more information about application and admission requirements at (575) 646-7770.
